Are You the Best at What You Do?

CAN YOU PROVE IT?

MEET THE standards of ABC's new voluntary **Central Fabrication Accreditation program** and prove to your customers that you have met the same high standards they have when it comes to running your business.

The 60 standards that you'll be measured against promote best business practices and process improvement.

Central Fabrication Standards cover areas such as:

- ★ Custom device tracking system
- ★ Accurate record keeping
- ★ Appropriately trained personnel
- ★ Device recall and failure procedures
- ★ Quality assurance programs

ABC will begin accepting applications for its Central Fabrication Accreditation program on June 1!

Details available at abcop.org.

Ferrier Coupler Options! *Interchange or Disconnect*

The Ferrier Coupler provides you with options never before possible:

Enables a complete disconnect immediately below the socket in seconds without the removal of garments. Can be used where only the upper (above the Coupler) or lower (below the Coupler) portion of limb needs to be changed. Also allows for temporary limb replacement. All aluminum couplers are hard coated for enhanced durability. All models are interchangeable.

Model A5

The A5 Standard Coupler is for use in all lower limb prostheses. The male and female portions of the coupler bolt to any standard 4-bolt pattern component.

Model FA5

NEW! The FA5 coupler with 4-bolt and female pyramid is for use in all lower limb prostheses. Male portion of coupler is standard 4-bolt pattern. Female portion of coupler accepts a pyramid.

Model F5

The F5 Coupler with female pyramid receiver is for use in all lower limb prostheses. Male portion of the coupler features a built-in female pyramid receiver. Female portion bolts to any standard 4-bolt pattern component.

Model FF5

NEW! The FF5 has a female pyramid receiver on both male and female portions of the coupler for easy connection to male pyramids.

Model P5

The Ferrier Coupler with an inverted pyramid built in. The male portion of the pyramid is built into the male portion of the coupler. Female portion bolts to any 4-bolt pattern component.

Model FP5

NEW! The FP5 Coupler is for use in all lower limb prostheses. Male portion of coupler has a pyramid. The Female portion of coupler accepts a pyramid.

Model T5

The Trowbridge Terra-Round foot mounts directly inside a standard 30mm pylon. The center stem flexes in any direction allowing the unit to conform to uneven terrain. It is also useful in the lab when fitting the prototype limb. The unit is waterproof and has a traction base pad.

NO MATTER THE SIZE OR SHAPE

We can do it!

Comfort and fit are critical when it comes to both patient compliance and clinical results. Nice to know there is a company out there with years of experience as a provider of custom orthoses. Think of Orthomerica as an extension of your clinical practice, one with the manufacturing, technical and clinical resources to deliver superior quality and service. Then use us to help you focus even more on exceptional and timely patient care.
