Help Shape the Local Stories We Tell

As northern and central Nevada's PBS Member Station, KNPB has the opportunity and responsibility to spotlight relevant stories unique to our region. We also have the ability to tell these stories in way that only public television can. Since the station began in 1983, highlighting issues important to our region and state has been a focus of the work we do.

Through the Partnership Grant Fund from the Community Foundation of Western Nevada, KNPB is expanding our evaluation efforts. The results of this work will allow KNPB to plan, build and properly fund our local production pipeline — filling it with stories that are most interesting to you and all in our community.

Please take a moment to go to www.knpb.org/pipeline and take part in our local content survey. Your input will help shape the local topics and stories seen on KNPB.

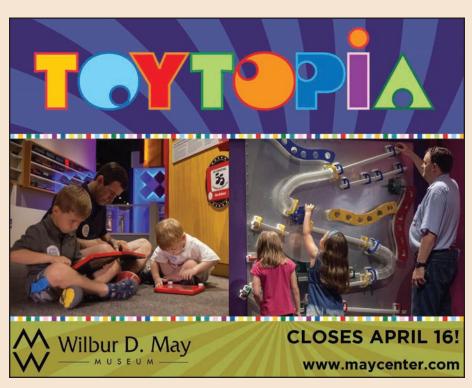

Meetings of the KNPB Board of Trustees, Board Committees and the Community Advisory Board are held at the KNPB offices at 1670 N. Virginia Street, Reno, Nevada.

Please call 775 784-4555 or visit www.knpb.org for meeting days, times and agendas.

KNPB Program Guide (USPS #170) is published monthly by Channel 5 Public Broadcasting, 1670 N. Virginia St., Reno, NV 89503-0703

Periodical Postage Rate Paid at Reno NV 89510

The program guide is a service provided to KNPB members & friends. KNPB Channel 5 Membership of \$45 (\$35 for seniors) or more includes a \$10 subscription to KNPB Program Guide. KNPB Channel 5 Public Broadcasting is a community-licensed, Public Television Station in Reno, NV POSTMASTER: Send address changes to: KNPB Program Guide. 1670 N. Tickets: Purchase online at **nvdm.org**, by calling 775-786-1000, or at the door

Ripples created by the Tesla Gigafactory have put Nevada in the spotlight for renewable energy and power storage. You may have heard of emerging technologies for personal energy storage, such as Tesla's Powerwall 2, but likely haven't had the chance to consider the effects they may have. At this event, DRI researchers Amber Broch and Dr. Eric Wilcox will give you a unique glimpse into the future of energy storage and personal energy independence.

Science Distilled, a new lecture series created by DRI and The Discovery, makes cuttingedge science approachable through presentations on current and curious topics held at hip locations in a social atmosphere.
