Introduction

ACTIVE 2020 is a long term strategic plan for sport and active recreation in the ACT and Region. It provides a blueprint upon which sport and recreation will be nurtured and promoted over the period 2011–2020. It promotes partnerships between industry and government and investment in long term sustainable outcomes. Importantly ACTIVE 2020 allows for long term planning by sport and recreation associations in the ACT and Region.

ACTIVE 2020 takes into account the challenges and opportunities within the current operating environment, including the recommendations of the 2008 Australian sport system review (Crawford Report) and the 2009 ACT Recreation Industry Capacity Mapping Project. It also reflects the key principles of the National Sport and Active Recreation Policy Framework and the definitions it provides:

ACTIVE LIVING	
A way of life that integrates physical activity into daily routines and is a fundamental part of improving physical health and general wellbeing.	
ACTIVE RECREATION	SPORT
Active recreation activities are those engaged in for the purpose of relaxation, health, wellbeing or enjoyment with the primary activity requiring physical exertion, and the primary focus on human activity.	A human activity involving physical exertion and skill as the primary focus of the activity, with elements of competition where rules and patterns of behaviour governing the activity exist formally through organisations and is generally recognised as a sport.

ACTIVE 2020 also acknowledges the Recreation–Participation–Sport Continuum which recognises a continuous pathway and the benefits that flow in both directions between recreation and sport. It builds collaboration between recreation and sport systems:

Recreation > Participation > Community Sport > Competition > Talent Development > Performance Sport

ACTIVE 2020 recognises the importance of fostering strategic partnerships in addressing current challenges including social and environmental issues, changing demographics, pressures on our education and health systems, and the increasing cost of developing and maintaining facilities. It also acknowledges the importance of ensuring decisions are made using research to support educated planning and a sound business base for future funding.

In summary, ACTIVE 2020 aims to ensure that sport and active recreation in the Canberra region enables an enriched active national capital and that it is supported through a united system connecting and promoting the economic and social value of sport and active recreation to the health and well being of the community.

ACTIVE 2020 within the Sport and Recreation System

Message from the Minister

Sport and active recreation is important to Canberrans. We know this through annual statistics that tell us that the ACT consistently boasts the highest active participation levels in the nation. Supporting our participants are hundreds of organisations, thousands of volunteers, high quality community facilities and a local pride in sport and recreation achievement.

In response to a need highlighted by many organisations, the ACT Government initiated the gathering of prominent industry representatives in early 2010 to explore the development of a long term plan for sport and active recreation in the Territory. What followed has been a true collaboration between industry and government, with record numbers of local sport and recreation enthusiasts and relevant ACT Government agencies providing their input into the future priorities for local sport and recreation over the next decade.

The resultant ACTIVE 2020 Strategic Plan highlights the significant role sport and active recreation plays in the economic and social health of our community. It recognises the diversity of participation type and level, the need for associated infrastructure and greater promotion of the value of sport and recreation towards health and education. Importantly ACTIVE 2020 also connects ACT priorities to the National Sport and Active Recreation Framework which provides a clear pathway in pursuit of a high performing sport and active recreation sector.

I look forward to working with the Sport and Recreation Minister's Strategic Advisory Council on the progression of the plan and our action together making a real difference to enhance the sport and recreation experience for all Canberrans.

The ACTIVE 2020 Strategic Plan is an unprecedented opportunity!

Andrew Barr MLA
Minister for Sport and Recreation

Message from the ACTIVE 2020 Working Group

It is with great pleasure that we present the ACTIVE 2020 Strategic Plan. The opportunity this plan presents has engaged sport and active recreation organisations and enthusiasts, throughout the ACT – from clubs through to professional teams. It has also enjoyed the input and support of a broad cross section of ACT Government agencies.

The sport and active recreation sector includes people from all walks of life. For some it is their pastime, for others it is their vocation and for most, it is their passion. It is this passion that has been the driving force behind the informed priorities detailed in this document that will guide the future direction of sport and recreation in the ACT for much of the decade ahead.

The challenge now is to put priorities into action, aligning strategic efforts of all local organisations and capturing data to support the outputs against the plan. It is through such an approach that real connectivity for the industry will be gained and the true worth of sport and active recreation to our community will be realised.

The ACTIVE 2020 Working Group thanks all those from the industry and ACT Government who contributed their time and expertise to the development of the ACTIVE 2020 Strategic Plan. The expert facilitation of Brendan Lynch was invaluable and the administrative support provided by Sport and Recreation Services is recognised.

Let us commence the process together of enriching the Canberra community through sport and active recreation.

Vision

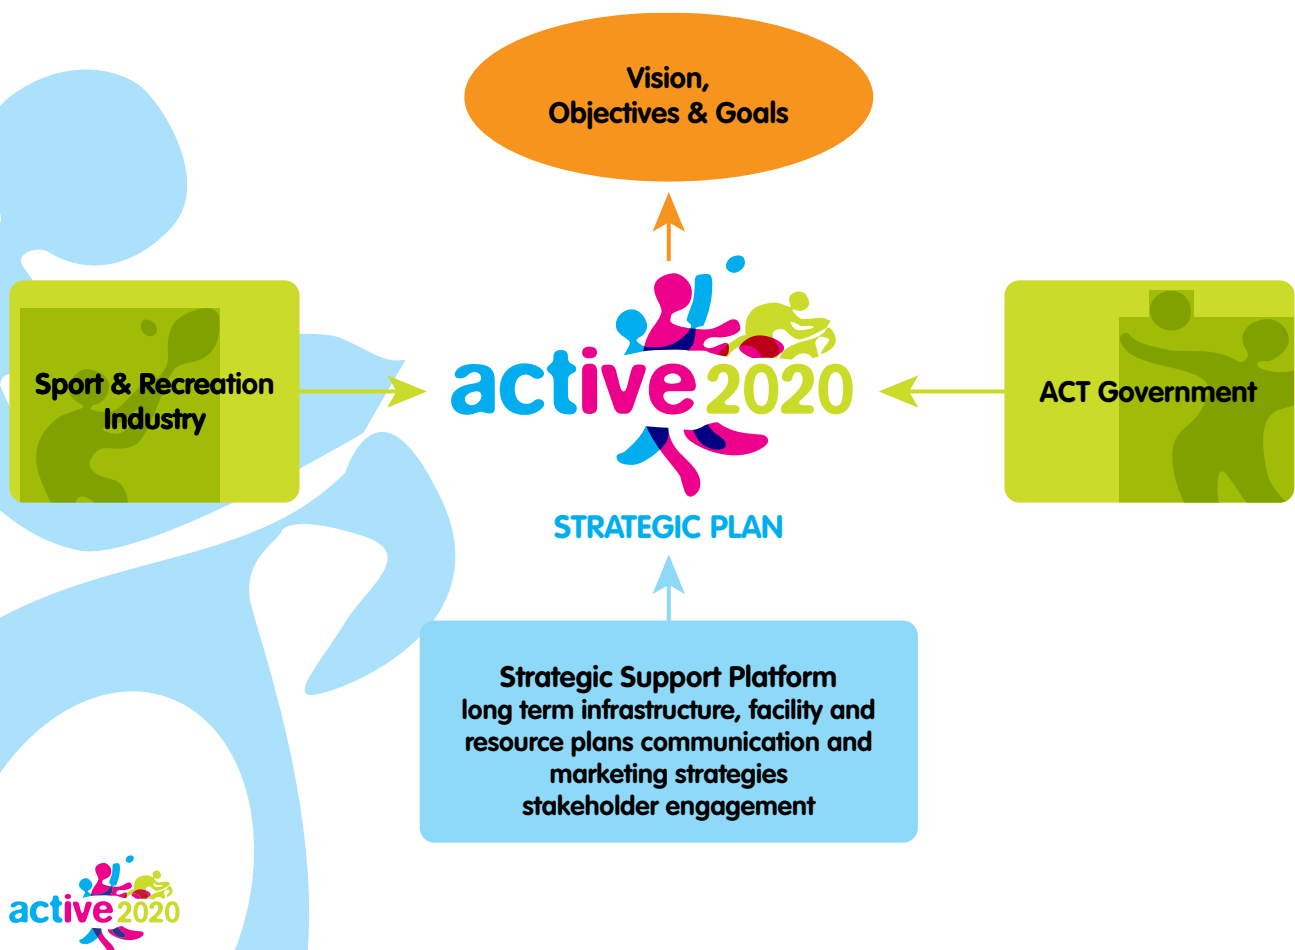

Sport and active recreation in the Canberra region enables an enriched active national capital. It is supported through a united system that connects and promotes the economic and social value of sport and recreation to the health and well being of the community.

Strategic Framework

In providing a blueprint for the future of sport and active recreation in Canberra and the region, seven fundamental goals have been identified as the key strategic priorities upon which the industry is nurtured and promoted over the period 2011–2020:

1. Maximise community engagement (participation) in sport and active recreation
2. Greater acknowledgement and promotion of the health, education and social benefits of sport and active recreation
3. Increase capacity and capability of sport and active recreation to provide quality opportunities in the ACT
4. Maximise opportunities for outstanding individual successes
5. Maximise opportunities for sustainable outstanding team performances
6. Create Canberra's image as the "National Sporting Capital"
7. Maximise supporting infrastructure and resources

These initiatives will be supported by a strategic support platform which includes long term infrastructure, facility and resource plans; communication and marketing strategies; and ongoing stakeholder engagement. The plan will be managed, monitored and reviewed by industry and government through the establishment of the ACTIVE 2020 Monitoring Group.

Goals

The goals of the ACTIVE 2020 Strategic Plan are:

- To increase participation in competitive, non-competitive and social sport and active recreation activities at all levels
- To provide opportunities for achieving excellence in sporting performance
- To ensure access to quality and sustainable infrastructure for the delivery of these activities

Stakeholders

Those who this plan affects and who influence its outcomes include:

- Local sport and recreation organisations and clubs
- Local peak bodies – ACTSport, Parks and Leisure
- ACT Government
 - Sport and Recreation Services
 - Territory Venues and Events
 - ACT Planning Authority
 - Australian Capital Tourism
 - ACT Health
 - Department of Education and Training
 - Land Management and Planning
- ACT Legislative Assembly Members
- Education – schools, universities and tertiary education organisations
- Health and Community Services
- Australian Sports Commission and the Australian Institute of Sport
- National Sport Organisations and national peak bodies (AOC, APC)
- National Capital Authority
- Clubs ACT
- Canberra Business Council and the ACT Export Network

Values

ACTIVE 2020 has been developed and will be delivered using the following values:

- Leadership from Industry and Government
- Inclusion and access to activities, programs and facilities
- Sustainability – environmentally, economically and socially
- Affordability – keeping participation within reach of the community
- Flexibility and adaptability in developing programs and using facilities
- Clear communication – regular, appropriate and two-way

Strategic Priority 1 – Maximise community engagement

Objective	Maximise community engagement (participation) in sport and active recreation
Expected Outcome	A more active community with access to quality facilities and sport and recreation programs

Strategic Initiatives

	Strategic Initiative	Responsibility
1.1	Develop user friendly templates for regular data collection to ensure planning is supported by research based decision making	IND, SRS
1.2	Provide and promote opportunities across the whole recreation-sport continuum based on researched need and ensuring alignment with national sport and recreation outcomes	IND, SRS, HLT
