PROJECTOR ACCESSORIES & WHITEBOARDS

At B&H, we offer a wide array of projector mounts from popular brands such as Chief, Peerless-AV, and Premier Mounts. These mounts provide secure placement of your projector and enable flexible positioning, which allows them to accommodate a variety of viewing environments. In addition to choosing between flush-mount or extension pole installation options, you can choose mounts that are equipped with convenience features like cable routing, quick release levers, and built-in security mechanisms for added peace of mind.

PROJECTION SCREENS

Equip your office, classroom, event space, theater, living room, or even your backyard with the vast range of projection screens B&H offers. Choices include motorized wall and ceiling screens, portable tripod and folding screens, fixed frame screens for "finished" installs, and manual "pull-down" screens; there's even screen paint that converts any wall into an outsized viewing surface. Select from offerings with pre-configured features sets or enquire about custom options, including additional black drop, alternative housing finishes, and cut-to-size lace-and-grommet screens.

REPLACEMENT PROJECTION LAMPS

Is your light output beginning to dim, or do you just prefer to have an extra lamp on hand? B&H has you covered with replacement lamp options for multimedia, home theater, and professional installation projectors. The estimated lifespan of a projector lamp can vary based on viewing conditions; having a replacement lamp available decreases projector down-time, allowing you to spend more time projecting images at optimal brightness levels. When displaying important content, having your projector ready to produce at all times is a necessity.

EASELS & MARKER BOARDS

Get your point across with the aid of one of the many presentation surfaces offered at B&H. These surfaces include whiteboards, which are great for classrooms, meeting rooms, or other fix-installation applications. Delve deeper into the digital age with projector-friendly whiteboard screens, or opt for an interactive whiteboard that lets you annotate on the fly. Easels are great, when a portable solution suits your needs best. As an aside: we offer bulletin boards, as well.

MULTIMEDIA DISPLAYS, DIGITAL SIGNAGE & PRESENTERS

At B&H we offer an array of commercial monitors that are designed to deliver reliable performance in a wide range of professional settings. These displays are well-suited for placement in environments such as restaurants, financial institutions, schools, and corporate offices. They also offer robust feature-sets that are engineered to withstand the rigors of demanding and high-traffic areas. Some commercial monitors incorporate features such as landscape and portrait viewing orientations, built-in media players, network connectivity, and extended run-time support.

DIGITAL SIGNAGE

Digital signage is a hardware and software solution that allows professionals and business owners to effectively reach their target audience using modern technology. These systems can include components such as commercial monitors, media players, and presenters. Whether you own a restaurant or a manage a shopping center, feeding personalized content into a commercial display, or multiple displays, allows you to tailor your messaging in a way that best suits the needs of your business. Digital signage systems offer flexible installation options and can be built to accommodate the environment in which they are installed. Big or small, digital signage systems can elevate customer engagement.

PRESENTERS & VISUALIZERS

Select from a variety of document cameras, scanners, and presenters, many compact enough to carry in a small bag. Whether for business or the classroom, there's an ideal model for your needs. Choose from different HD resolutions, and capture photos, video, and audio for live presentations and recording. Connect to HDTVs, projectors, or interactive whiteboards. Apply effects such as zoom, mask, split screen, and picture-in-picture to engage your audience. Publish to the web for absent employees or students. Use your presenter for webcam communication, and much, much more.
