First Class passengers can also use a personal video player with a selection of 20 movies. All passengers travelling in First and Business Class can enjoy inflight entertainment using Bose® Acoustic Noise Cancelling® headsets. If you need to work you can use another of our inflight facilities — 15-volt power ports. For your convenience, power ports are available in each seat in First and Business Class, and in selected rows of Economy.

The Chrysler Building

A New York minute

When you are ready to take a bite out of the Big Apple, American Airlines can take you there with nine convenient daily nonstop flights from Europe to New York JFK, including five from London Heathrow. And from New York JFK, American's flights continue on with over 85 flights to more than 30 destinations throughout the U.S., Canada, the Caribbean, Mexico and South America.

While there, be sure to take in some of the culture. Without a doubt, New York City is the ultimate tourist destination. Known around the world as a major cultural and financial centre, it is the heart of fashion, art, publishing, broadcasting, theatre and advertising. Additionally, the attractions, people and all the hustle and bustle in between are what make up the real New York experience. The Regency Hotel is located near the very chic Madison Avenue boutiques, as well as Barneys and Bloomingdales department stores. And right down the street at 50th and Fifth Avenue is Rockefeller Center. Then there is Radio City Music Hall, the Museum of Modern Art, The Frick, The Metropolitan Museum and The Guggenheim. You'll also want to take time to visit Grand Central Terminal, Wall Street, the Empire State Building, the Chrysler Building and, of course, the Statue of Liberty.
