A true fireplace experience is something that we all treasure, whether it is for heating, a quiet time with the family, or creating an ambience around the dinner table with friends. Our fireplaces are made using stainless steel and heat resistant paint and are perfectly vented to enhance your fireplace experience.

The built-in fireplace range gives the new home owner, renovator and lodging client the chance to enhance an architectural design in their rooms and lifestyles. Included in this range are double-sided and vent-free gas fireplaces.

Our freestanding, open wood burning fireplaces were designed to provide the ultimate solution for any home owner as it is available in traditional, modern and multi-sided gas panelled designs.

Discover the BOSCA closed combustion fireplace range by Megamaster. This range provides all the warmth and the fantasy of fire, that makes each moment magical and unforgettable. With the BOSCA range owners will experience the true heat output and efficient benefits of a secondary combustion stove. These products are manufactured in Chile.

The cast iron fireplace range was developed to offer the traditional benefits of a closed combustion stove. Megamaster added subtle modern design elements to certain functioning parts and the products are available as freestanding or built-in units.

Megamaster developed a range of fireplace accessories to improve the use and experience of our fireplaces.

Megamaster turns any patio, bistro or outdoor area into a year-round entertainment and living space with our patio heater and fireplace range.

Our patio heaters are designed and manufactured according to German engineering standards contributing to their exceptional heat output and efficiency.

Our new gas patio fireplace, the Modo Flame, was designed to add the technology, atmosphere and warmth of indoor fireplaces to patios and other outdoor entertainment areas.

A touch of Mexico can be added to your outdoor entertainment area with the state-of-the-art and quality cast iron Chimenea.

Ignite the festivities,  
set the mood,  
and enjoy the warmth  
of companionship.

With **Megamaster** there is no need to change your standard of living in the outdoors. Our range of outdoor products add to the lifestyle and enjoyment of our customers away from home whether it is next to the sea, a river, or in the open outdoors.

**Megamaster** is adding a taste of Africa with our Potjie Pot range. No outdoor activity, whether it be camping, fishing, hunting or anything else, is complete without a true South African potjie. Our **Megamaster** potjie recipe is included with each potjie sold.

The state of the art and quality gas cylinder range compliment any outdoor-, home- or patio gas product. It is manufactured in a grey colour with subtle branding in order to blend in no matter what the application for your cylinder may be. These products are manufactured and marketed in accordance to the requirements of the LP Gas Association of South Africa.

Hardekool and Sekelbos wood is synonymous with the South African bushveld experience. The same can be said about the **Megamaster** Boma range of products. These products are designed to create the perfect outdoor experience no matter where it is used.

## outdoor range

potjie pots and  
gas cylinders
