About Us

Established in the year, **2015** and set up at Ahmedabad, Gujarat, India, we, “**Aarya Engineering**”, are engaged in manufacturing, trading, wholesaling and retailing a quality range of Material Handling Equipment and Industrial Parts applicable At Cement, Project, Power, Fertilizer, Refinery, Steel & Rayon Plants. Our supplied range is inclusive of Girder Cranes, Goliath Crane, JIB Crane, Electric Hoists, Electric Cranes and others. These products are manufactured using the superior quality materials and the latest technology and hence are well appreciated by our customers. Our products reflect excellence in their quality with regard to their tensile strength, sturdy construction, dimensional accuracy and ease of installation.

Professionally managed by a team of experts, we are a Sole Proprietorship organization. Our team of professionals are highly qualified and have a rich industry experience and a wide scope of knowledge. Our team includes diligent quality controllers who conduct stringent testing of our manufactured product range using the latest machinery system and techniques.

We are headed by our mentor, **Mr. Apurva Panchal**, who have guided us in making a strong foothold in this competitive industry. He continuously leads the entire team of professionals on how to understand the various requirements of our clients. Under his persisting motivation and with the combined efforts of all the team members, we have become...
