PHOTOJOURNALISM IN CRIMINAL JUSTICE

Ethan Hoffman

Thursday, March 25, 8:00 a.m.

Anchor Room

Ethan Hoffman, photographer, and John McCoy, author of *Concrete Mama, Prison Profiles from Walla Walla* spent four months “inside the walls” at the Washington State Prison at Walla Walla. The book includes more than 150 photographs which represent some of Hoffman’s finest work.

Ethan Hoffman is a free-lance photographer whose work has appeared in *Life*, *Geo*, and the *New York Times Magazine*. He received the Nikon World Understanding Award in the 37th Annual Pictures of the Year Competition, sponsored by the National Press Photographers Association and the University of Missouri School of Journalism.

The book is published by the University of Missouri Press,
Box 7088, Columbia Missouri.

Louisville's Leading Convention Hotel.

The Galt House brings you luxury, convenience, southern hospitality and a breath-taking view of the river. Located in the heart of downtown Louisville, it's just 10 minutes from the airport via I-65, and within walking distance of Actors Theatre, shopping and the museum. Not only does the Galt House provide worry-free meeting and conference facilities, but some of the finest dining and entertainment anywhere around.

Fine introductory texts— brought to you by Harper & Row.

Robin

INTRODUCTION TO THE CRIMINAL JUSTICE SYSTEM Principles, Procedures, Practice

Extremely well researched and unusually readable, this text combines an in-principle and in-practice approach with a sociological perspective to the

most balanced treatment available of the police, prosecution and the courts, and corrections. Instructor's Manual. 558 pages.

Bartollas

INTRODUCTION TO CORRECTIONS

Here is a comprehensive picture of corrections that is research-oriented and reflective of today's world. This text demonstrates that the corrections sys-

tem, despite many problems, is undergoing positive revision. Instructor's Manual. 490 pages.

Eldefonso & Coffey

CRIMINAL LAW History, Philosophy, and Enforcement

A refreshingly nontechnical, completely up-to-date introduction to criminal law in the United States, this text avoids legalistic jargon and is de-

signed primarily for use in administration of justice courses. Instructor's Manual. 304 pages.

Ellison & Buckhout

PSYCHOLOGY AND CRIMINAL JUSTICE

This lucid examination of the common interests of psychology and the law includes discussions of jury selection, victimology, eyewitness testimony, and capital punishment. A special section

presents significant and hard-to-find documents and aids used by psychologists who work with law enforcement and legal workers. 446 pages.

To request examination copies, write to Suite 3D, Harper & Row, 10 East 53d Street, New York, N.Y. 10022. Please include course title, enrollment, and present text.

What in the world?

When it comes to the world of comparative policing, you can get the what, along with the why and how, four times a year in **Police Studies, The International Review of Police Development.**

A scholarly, provocative forum for educators, researchers, practitioners and students in criminal justice, **Police Studies** examines the complex world of law enforcement from such diverse perspectives as sociology, education, management, history and science and technology. Each issue is filled with thought-provoking articles that go far in filling an information void in comparative policing.

LAW ENFORCEMENT NEWS

Tough talk on criminal justice

President Reagan brought his Administration's plans for combating crime to the people who direct the troops — the LACP Chiefs. The full text of his remarks starts on 7.

Looking behind the statistics

A new system of crime classification, proven after a three-month field test in Peoria, holds the promise of giving both the police and the public a better handle on what the real crime picture is. You can get the full picture on Page 1.

In a field like criminal justice, the hectic pace of events can make the task of keeping up with the latest developments a maddening one for the educator or researcher — that is, unless you have the edge that more and more of your colleagues are discovering: Law Enforcement News.

Twenty-two times each year, Law Enforcement News brings its thousands of readers a panorama of

news and features that zero in on the critical issues confronting criminal justice. Lively, incisive, tough-edged reporting mark the pages of LEN in a way that no other periodical can match. Small wonder, then, that a recent survey of your colleagues found Law Enforcement News to be one of the most widely read publications among criminal justice educators.

Don't let the pressures of academic research keep you trapped in an ivory tower. Let LEN's timely coverage keep you up-to-date and down-to-earth. At only \$14.00 for a one-year subscription, you can hardly afford not to.

I'M READY FOR THE LEN ADVANTAGE. Please sign me up as a subscriber to Law Enforcement News for:

Justice Training Packages

For over five years, the National Institute of Justice has communicated state-of-the-art research and evaluation findings in criminal justice through its Research Utilization Program (RUP). Now the instructional resources from RUP's widely acclaimed Research Utilization Workshops are accessible to all academic institutions and in-service training programs that are interested in advanced criminal justice practices.

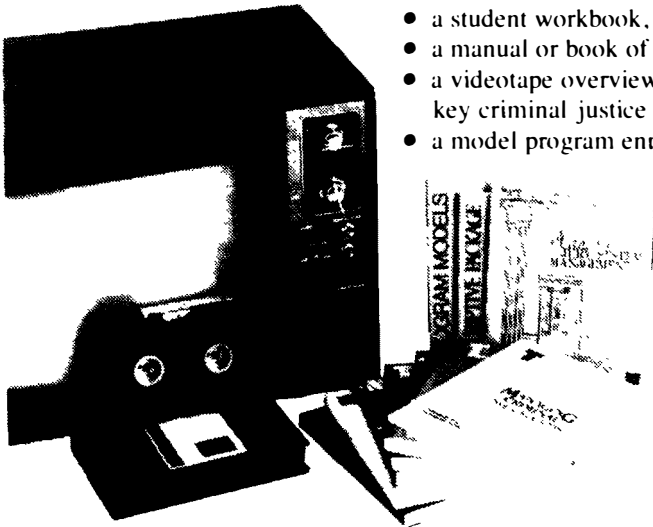

RUP now presents 10 self-contained training packages on the following topics:

- Developing Sentencing Guidelines
- Health Care in Correctional Institutions
- Improving Probation Strategies
- Juror Usage and Management
- Maintaining Municipal Integrity
- Managing Criminal Investigations
- Managing Patrol Operations
- Mental Health in Jails
- Operating a Defender's Office
- Prison Grievance Mechanisms

All videotapes and materials are available for viewing at the ACJS Research Utilization Program exhibit.

Each full instructor package contains:

- a trainer handbook,
- a student workbook,
- a manual or book of readings,
- a videotape overview of the topic featuring key criminal justice authorities, and
- a model program enrichment manual.

Juvenile Justice in America

Second Edition

By CLIFFORD E. SIMONSEN, City College, Seattle, and MARSHALL S. GORDON III, Department of Social and Health Services, Washington State.

1982, 424 pp.

This introductory text is a comprehensive and current treatment of the juvenile area in the criminal justice system. It covers the system, processes within the system, and the young people who become involved in those processes.

Special attention is paid to the historical background of juvenile justice and its impact on

the entire criminal justice field. A special section provides discussions of all major causal theories of delinquency—biological, sociological, and psychological. Current research is employed throughout the text, including biophysical causes of delinquency. The current theories of Sutherland, Merton, and other noted theorists are also covered.

Research Methods in Criminal Justice and Criminology

By FRANK E. HAGAN, Mercyhurst College.

1982, 512 pp.

This is a text in basic research methods which specifically addresses itself to research in criminal justice. Special attention is given to such sources as the Uniform Crime Report, victim survey, and clandestine means of obtaining data. Research methods are illustrated by examples from criminology throughout.

All standard research topics are treated; a chapter is devoted to ethics in criminal justice research; and a final chapter provides an overview of evaluation research and proposal writing.

An *Instructor's Manual* with test questions accompanies the text.

WHAT DOES IT TAKE TO BE A HOUSTON COP?

DETERMINATION.

Larry Hromadka, Houston Police Officer. "I love my job. Ever since the 7th grade, I have geared myself to be a police officer."

The Houston Police Force is made up of men and women who - like Larry Hromadka - feel that they can have a positive impact on the quality of life in our community. To meet the needs of our fast growing city, we are looking for more people who want to make a difference. Candidates should be American citizens between the ages of 19 and 35, with a high school diploma or equivalent.

We can offer training at one of the most modern and best equipped police training facilities in America. The

Houston Police Academy offers a challenging course of classroom and physical training that is the first step in becoming a law enforcement professional.

Qualified candidates can start with a salary of up to \$21,000 per year with promotional opportunities and a host of fully paid benefits. If you would like to know more about how you - or someone you know - can become part of the Houston Police, please call toll free in Texas 1-800-392-2281 or out of state 1-800-231-7795 or write to Houston Police Recruiting, 401 Louisiana, Suite 601, Houston, Texas 77002.

ON CRIME AND CRIMINOLOGY

CRIME AND PUNISHMENT

An Introduction to Criminology

HARRY E. ALLEN, *San Jose State University*; PAUL C. FRIDAY, *Western Michigan University*; JULIAN B. ROEBUCK, *Mississippi State University*; and EDWARD SAGARIN, *City College of the City of New York*

An outstanding introduction to the full scope of modern criminology, this concise text integrates sociological, psychological, and legal materials to lead students from basic concepts of crime to complex issues in corrections and rehabilitation. Presenting and evaluating all major theories and perspectives, it provides a critical, conflict-oriented approach that recognizes both the successes and the failures of the criminal justice system. Important topics covered include victims and victimology; criminal behavior systems; special categories of offenders; and misdemeanor and community based corrections. *Teacher's Manual*

#90046 464 pages \$14.95

KNOWING RIGHT FROM WRONG

The Insanity Defense of Daniel McNaughtan

RICHARD MORAN, *Mount Holyoke College*

In the first detailed study of the case that set the precedent for pleas of criminal insanity, Moran shows how the court that relieved McNaughtan of responsibility for his actions also avoided confronting the political legitimacy of his attempted assassination of Prime Minister Sir Robert Peel.

#92189 224 pages \$15.95

CORPORATE CRIME

MARSHALL B. CLINARD, *University of Wisconsin*, and

PETER C. YEAGER, *Yale University*

An exhaustive investigation into such practices as price fixing, bribery, tax evasion, and the marketing of unsafe or untested products, this unflinching analysis documents the nature and extent of corporate crime, explains the reasons behind its commission, and provides concrete proposals to halt its spread.

Now revised and updated...

When *Understanding Human Behavior for Effective Police Work* was published six years ago it quickly gained a reputation as the most comprehensive and readable behavior text for students of law enforcement. In the years since its publication there have been changes in both the nature of crime and crime management.

Completely revised and updated, this second edition features important new information on such crucial issues as victimology, behavioral aspects of terrorist and hostage crises, and interpersonal conflict, as well as helpful chapters on job-related stress and the mental health professional's role in law enforcement.

"A compact course on human behavior, written in non-technical language." —*Law and Order*

"A significant contribution. . . . A clear rendering of the basic insights so much needed by those who interface with the disturbed elements of today's society." —*Contemporary Psychology*

"An extremely well written book containing excellent case examples." —*American Journal of Psychiatry*

"An outstanding text." —*George G. Killinger, Director, Institute of Contemporary Corrections and the Behavioral Sciences, Sam Houston State University*

Local Government Police Management

Second Edition

The authoritative guide to
police management
in the '80s.

Budgetary constraints, high crime rates, and diverse demands for service confront the police administrator in the '80s. Public safety is a continuing concern, yet funds for police agencies are restricted by federal cutbacks and local resistance to tax increases.

Local Government Police Management, long a resource for police administration educators and police management practitioners, has been *substantially revised* to provide up-to-date guidance for dealing with these problems. It is a comprehensive text providing a unique combination of theory and practice that draws on the experience and concepts of top professionals.

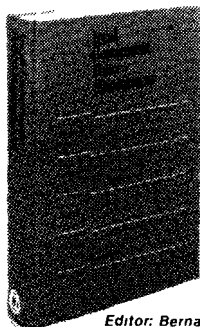

Underlying the text is a recognition that the responsibilities of police agencies go far beyond simple law enforcement. Because crime is a community problem, not simply a police problem, the community relations aspects of the police function are covered in depth. Further, the book recognizes managerial responsibilities on an organization-wide basis, citizen involvement in combating crime,

and experimental approaches to patrol, investigation, and other traditional police services.

Local Government Police Management shows how police administrators can raise significant questions about police bureaucracies. It shows, through both concepts and examples, how a police organization can be receptive to new ideas and creative in developing new programs. Its 19 chapters provide the framework for

- departmental management,
- working with other police agencies,
- reviewing productivity and setting up productivity measures,
- testing new methods of police patrol and traffic supervision,
- looking into new methods of criminal investigation.

Like the first edition, this revision will be serving the professionals of today—and the top managers of tomorrow.

Welcome to Louisville at the Falls of the Ohio, the largest city in the Bluegrass State and the home of the most famous horse race in the world—the Kentucky Derby. The cover of the Academy program illustrates the equally famous twin spires of Churchill Downs—the home of the Derby.

Louisville has a rich history. The first survey was recorded July 8, 1773 by Captain Thomas Bullitt who was commissioned by William and Mary College in Virginia. George Rogers Clark settled on Corn Island in the Ohio River in 1778 and by 1779 the settlers moved ashore and organized the town. The town was named in honor of Louis XVI of France and incorporated May 14, 1780.

Just nineteen years later Jefferson Seminary was founded and in 1846 became the University of Louisville. The University is a comprehensive urban university offering bachelor, master, and doctoral degrees including law, medicine, and dentistry.

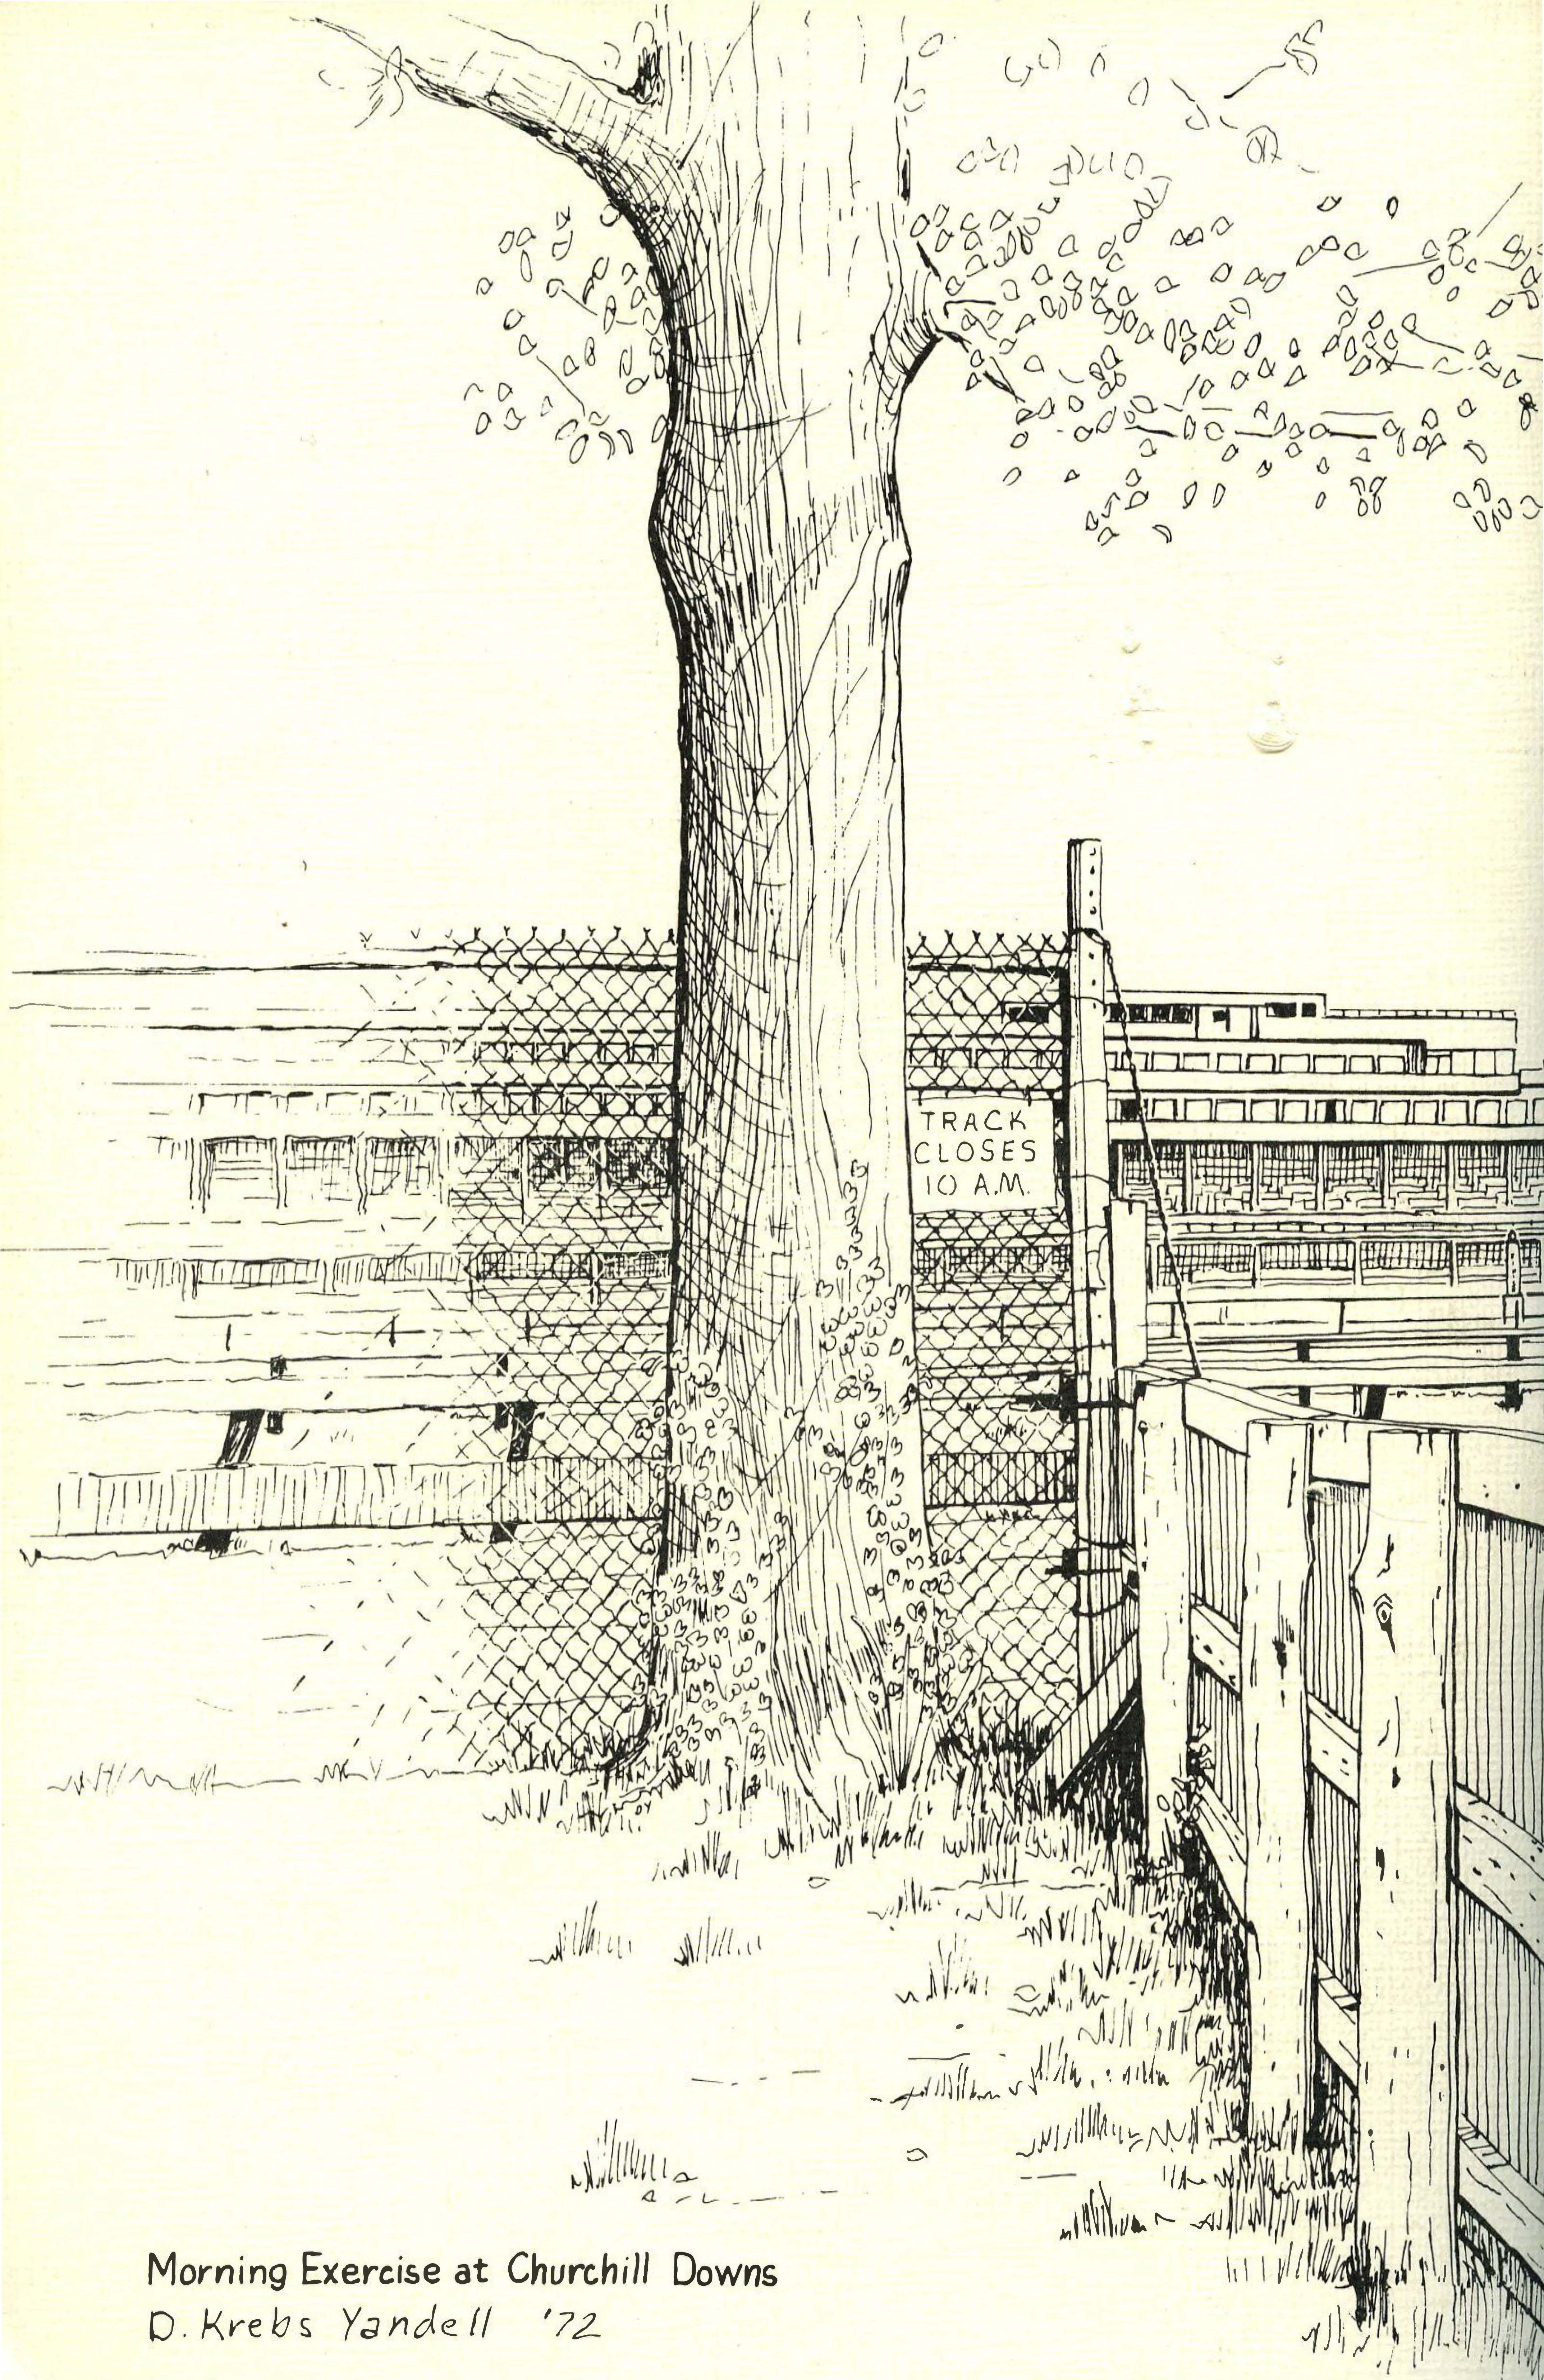

Historic Louisville offers something for everyone. Landmarks abound: Old homes in Old Louisville are open for tours; the Belle of Louisville and the Delta Queen are wonderful old riverboats; the Science and Natural History Museum and the J.B. Speed Museum offer superb contrasts; The Palace; Actor's Theater is a must. The Louisville Orchestra and the Opera are alive and very well. The Louisville Ballet has brought Mikhail Baryshnikov twice to the city.

The Kentucky Horse Park in Lexington, the State Capital, and Mammoth Cave are among the many attractions Kentucky has to offer.
