Welcome

Dear Student:

The University of Southern Maine is dedicated to your success. As your studies at USM progress, you will not only find your way of looking at the world transformed, but you will also discover that you have developed the knowledge and the skills needed you need to lead a personally and professionally fulfilling life after graduation.

USM's talented and engaged faculty care deeply about your intellectual growth and academic success. You are part of a university where dedication to student success is a priority of the entire community, from the president's office to the hardworking staff who ensure that the services necessary for your comfort and security are there when you need them.

You will meet professors who will change the way you understand the world, and you will discover a community here at USM committed to the transformative power of higher education. Expect to find your studies at USM challenging at times. The growth of your knowledge will provide the challenge you need to work hard in order to succeed. When you graduate, you will leave this university enriched by your experiences and well-equipped to take your place in the global workplace.

Welcome to USM!

Sincerely,

Selma Botman
President

The University

The University of Southern Maine, the state's only public comprehensive university, offers a rich variety of academic opportunities. It prepares students to play vital roles in the overall growth and improvement of the economic, civic, social, and cultural fabric of central and southern Maine while providing engaged learning opportunities both inside and outside the classroom.

USM comprises five academic units: three newly reorganized colleges (one housing USM's nursing and health professions programs as well as its science, technology, engineering, and mathematics programs; one focused on communication, the humanities, and the arts; and another housing professional programs in public service, business, social work, and graduate education); Lewiston-Auburn College; and the University of Maine School of Law. USM's faculty have a passion for communicating the excitement of learning and the joy of discovery. These women and men represent a wide range of knowledge and expertise; among them are Fulbright and Guggenheim Fellows, advisors to state and local governments, and authors of national note from a range of academic disciplines.

USM's locations in central and southern Maine, viewed nationally as among the most livable regions in the country, offer a range of educational, cultural, and recreational opportunities. The student body is the most diverse in Maine—approximately half are full-time students, 59 percent are women, and the average age of an undergraduate is 28 years. This diversity of age, background, and purpose provides a lively, challenging environment for learning—a context in which scholarship and learning gained from experience complement one another.

As a member of the University of Maine System, USM offers its nearly 10,000 students a host of undergraduate and graduate study options. USM offers over 50 baccalaureate degree programs as well as numerous minors and concentrations that allow students valuable opportunities to shape their undergraduate careers in ways most meaningful to them. In addition, USM offers 27 graduate programs, in which students work side by side with distinguished scholars and researchers who are pushing the boundaries of new knowledge and contributing to the growth and vibrancy of the region, the state, and the nation. USM offers courses at the University Colleges in Saco and Bath, as well as on the Web, over instructional television, and at work sites. The Center for Continuing Education and some of the USM schools and colleges offer a variety of noncredit programs. USM's Osher Lifelong Learning Institute provides intellectually stimulating opportunities and special activities for students 55 years of age or older. USM further addresses the broad range of student interests with its Weekend College, Winter Session, Summer Session, National Student Exchange Program, and Early Studies program for high school juniors and seniors.

The University of Southern Maine is accredited by the New England Association of Schools and Colleges. The nursing programs are accredited by the Commission on Collegiate Nursing Education (CCNE), and the athletic training program is accredited by the Commission on Accreditation of Allied Health Education Programs. The School of Education is accredited by the National Council for Accreditation of Teacher Education. The School of Business is accredited by AACSB International—the Association to Advance Collegiate Schools of Business. Several departments within USM's four colleges are accredited through specialized agencies. The University of Maine School of Law is approved by the American Bar Association and the Association of American Law Schools.

USM is a vital university dedicated to student success and the transformative power of public higher education. Serving the needs and aspirations of central and southern Maine communities, the University of Southern Maine prepares its students for personally and professionally fulfilling lives after graduation.

Expected Results of a University Education

Consistent with the educational mission of a comprehensive university, it is the aspiration of the faculty at the University of Southern Maine that students achieve the following results from their investments in higher education:

They should possess the knowledge and skills necessary to enter the work force or be admitted to graduate or professional school. Graduates of the University of Southern Maine should also possess the attributes and skills that lead to rich and fulfilling lives.

They should be intelligent readers of their own culture and be able to use analysis and historical context to interpret cultural practices, artifacts, and documents of various kinds.

They should appreciate the many ways of knowing, including the arts, the humanities, and the natural, applied, and social sciences; they should be aware of how these disciplines help define and shape the world; and they should understand the joy and wonder that can arise from rigorous inquiry leading to fresh discoveries and modes of expression in these fields.

They should be able to appreciate basic ecological and physical processes, how their lives are affected by environmental trends and characteristics, and how each of us shares in the responsibility for sustaining the life forces, cycles, and processes upon which all life depends.

They should understand the nature of at-risk behaviors and be able to make informed decisions about their own well-being.

They should be able to communicate effectively, both orally and in writing, think critically and creatively, and use effectively both information technology and the skills of quantitative decision making.

They should know how to work in teams, take responsibility, exercise leadership, and manage resources effectively.

They should be aware of the world's complexities beyond their own set of experiences and assumptions, have an appreciation for other peoples' values and customs, and think effectively about ethical and social issues.

They should have the capacity for self-education so they can enjoy a lifetime of continuous learning.

They should be responsible citizens committed to fostering the ideals of a democratic society: civic and social participation, free inquiry and informed decision making, and equal opportunity.

Undergraduate Admission

The University of Southern Maine is an academic community that welcomes applications for admission from qualified women and men with various backgrounds and interests regardless of race, color, religion, gender, sexual orientation, national origin or citizenship status, age, physical or mental disability, or veteran status. The University seeks candidates whose academic achievement and motivation indicate potential for success in an undergraduate program.

The Office of Undergraduate Admission invites prospective students to visit the campus to discuss their educational interests. The Office will provide information about academic programs, discuss admission requirements and procedures, and arrange personal interviews and campus tours. Prospective students are encouraged to contact the Office of Undergraduate Admission at 1 (800) 800-4USM, or (207) 780-5670, or usmadm@usm.maine.edu. For more information on Lewiston-Auburn College, call (207) 753-6536.

Admission Requirements

With the exception of early admission applicants, a high school diploma or General Equivalency Development (GED) certificate is required for admission to the University. Students who are home educated/home schooled should contact the Office of Undergraduate Admission for information regarding the alternate documentation required for admission. Although secondary school preparation may vary, please find below the minimum college preparatory subjects required for regular admission to the University. In addition to these, further requirements may be imposed by individual University schools and colleges.

General subject minimum requirements (University-wide)

English	4 units
Mathematics	3 units (Algebra I, II, and Geometry)
Science	2 units (with laboratory)
History/Social Science	2 units

Highly Recommended College Preparatory Courses

While minimal admission requirements are listed as 4 units English, 3 units mathematics (Algebra I and II and Geometry), 2 units of laboratory science, and 2 units of history/social studies, an optimal college preparatory course of study extends beyond these minimum requirements. Students who do best in college and graduate on time have the following high school course of study:

1. Four years of English in courses that present a variety of readings (fiction, non-fiction, essays, memoirs, journalism) and emphasize expository and analytic writing about texts.
2. At least three years of laboratory science that include the study of biology, chemistry, and physics, offered as separate courses or as an integrated core. Science courses should include writing technical reports and quantitative representations and analyses of data as well as the traditional course content.
3. Four years of math that include Algebra I and II and Geometry; a college preparatory math course during the senior year.
4. Three years of history and social science that include reading primary as well as secondary texts, writing analytic and expository essays, and using quantitative social science data, in addition to the traditional course content.
5. Two years of study of one language other than English.

Applicants to the Women and Gender Studies program must also have:

Women and Gender Studies candidates must have two units of one foreign language. American Sign Language (ASL) may be substituted for this.

Applicants to the College of Arts, Humanities, and Social Sciences must also have:

Candidates must have two units of one foreign language (ASL may be substituted for this). Foreign language candidates must have three units of one foreign language. Note: For specific admission requirements for the degree programs in music, please refer to the School of Music section of the catalog.

Applicants to the College of Management and Human Service

Business candidates must have four units of mathematics exceeding Algebra II. Social Work candidates must have 2 units of one foreign language (ASL may be substituted for this).

Applicants to the College of Science, Technology, and Health

Engineering candidates must have laboratory chemistry and physics, and four units of mathematics exceeding Algebra II (Trigonometry recommended). Computer science and mathematics candidates must have four units of mathematics exceeding Algebra II. Science candidates must have three units of laboratory science. Linguistics and psychology candidates must have two units of one foreign language (ASL may be substituted for this). Nursing, athletic training, exercise physiology, health fitness, and health sciences candidates must have laboratory biology and chemistry. In addition, nursing candidates must also satisfy specific academic standards in order to qualify for the clinical portion of the degree program. For further details, please refer to the School of Nursing section of this catalog.

Applicants to Lewiston-Auburn College

Lewiston-Auburn College applicants must meet all University general subject requirements. Applicants should make an appointment with a USM advisor at Lewiston-Auburn College, (207) 753-6536.

Admission Procedures, Policies

Admission Applications

All applicants for admission are reviewed on a case-by-case basis; because admission to the University is selective, the academic profile required for acceptance may vary from one semester to the next. Please find below the guidelines and procedures for applying to the University for undergraduate admission.

All applicants for undergraduate admission are encouraged to apply online at www.usm.maine.edu/admit.

All students whose native language is not English should submit official results of the Test of English as a Foreign Language (TOEFL) or the English Language Testing System (IELTS).

Secondary School Applicants Secondary school students are required to submit the following to the Office of Undergraduate Admission:

1. A completed University of Maine System application accompanied by the nonrefundable \$40 application fee. The Common Application is also accepted.
2. Official copies of all secondary and post-secondary school transcripts.
3. Official SAT or ACT test results.*
4. Letter of recommendation from a guidance or college counselor.*
5. Completed personal statement.

**Transfer and Adult Applicants* Students who have been out of high school for three or more years or have earned 30 or more college credits at the time of application are not required to submit SAT or ACT test results. Although SAT or ACT scores are not required for admission of transfer and adult candidates, they may be submitted for placement purposes as such scores (if not more than five years old) may be used to declare college readiness. Transfer and adult applicants are not required to submit a guidance/college counselor recommendation.

International Applicants Applicants whose native languages are not English are required to submit scores of the Test of English as a Foreign Language (TOEFL) or the English Language Testing System (IELTS), unless applying for the Intensive English Language Program with Conditions (please see "Admission Decisions," below). Although USM encourages international student applicants to submit SAT or ACT test results, these standardized tests are not required for admission. Due to limitations on available financial aid, applications are encouraged only from international students who are able to fund their educational expenses fully from their own resources. To certify this, a Declaration of Finances statement must be filed as part of the application process. This form must be fully documented and certified and should accompany the completed application.

Early Admission Applicants Students who have completed their junior year of high school may apply for consideration of admission (as a non-matriculated student) under the Early Admission Program. Undergraduate Admission will consider high-achieving students who display both the intellectual ability and the social maturity to succeed in a university course of study.

To be eligible for admission, candidates must have completed a minimum of three years of college preparatory subjects in high school according to the general University admission requirements, and submit SAT or ACT test results.

Interested applicants will be required to submit the University of Maine System application in addition to an Early Admission Application. Early admission candidates may be required to have a personal interview with a member of the admission staff. High school students who enter the University of Southern Maine prior to graduation from high school are not eligible for federally funded financial aid and may not participate in intercollegiate athletics.

Early Admission applicants may apply for the fall semester only. Application forms must be submitted by April 15.

Priority Dates and Deadlines

Applications are reviewed throughout the year on a rolling admission basis. However, the priority deadline for the fall semester is February 15, and for the spring semester, December 1. **All students applying for the fall semester who wish to be considered for academic scholarships must have a completed application on file by February 1. Nursing applicants are admitted for the fall semester only, with an application deadline of January 15 for transfer students and an application deadline of February 15 for first-year students.** The \$100 enrollment deposit deadline to reserve space for the fall semester is May 1.

Although applications are reviewed on a rolling basis, as some degree programs admit only a limited number of students, applicants are urged to submit their credentials at their earliest possible convenience in order to receive consideration. Applications may be made to enter the University in the fall or spring semester only. Offers of admission may be revoked because of unsatisfactory performance in the final semester of high school or college.

Admission to the University is offered for a specific semester. Anyone choosing to defer his or her offer of admission may do so by submitting a written request prior to the start of the semester to the dean of Undergraduate Admission. Deferments are granted for up to one year.

Admission Decisions

The University recognizes that its prospective students may come with differing academic backgrounds and/or with significant time having elapsed since completion of secondary school. The following categories of admission exist to accommodate this wide range of applicants.

Regular Admission Applicants whose academic backgrounds demonstrate the ability to pursue regular, entry level coursework may be granted regular acceptance to the University. This admission decision is based upon a comprehensive evaluation of the student's educational record, including standardized test scores (if required), as well as individual talents and activities.

Enrollment as an Undeclared Major Applicants who are undecided regarding their major field of study may request admission as an "Undeclared Major." Undeclared students are assigned an advisor in the Student Success Center to assist with appropriate course selection and academic planning while exploring a major field of study. This admission option provides students the opportunity to select their major at an appropriate time during the first 60 credit hours of coursework.

Admission to the GO Program Applicants whose academic credentials are not complete in some way (e.g., missing academic units, low SAT or ACT scores), but who show significant promise, may be granted acceptance to GO, an academic success and support program. Students are fully admitted to the University and pursue their first year of study under the direction of the Student Success Center. Students who are admitted to GO are required to fulfill terms of an academic support plan that outlines their responsibilities. Students admitted to GO are expected to meet the requirements of their academic support plan within their first 30 credit hours.

To achieve transition to regular status, the student must complete the minimum college readiness requirements of the University as well as successfully complete a minimum 12 credit hours of 100-level coursework (including College Writing), complete a learning strategy and decision-making course, and have a minimum grade point average of 2.0. Transition to regular status prior to completion of 12 credit hours may be approved if the student earns an exceptional grade point average. The student's assigned advisor will assist in completing the transition.

All applications are considered for regular admission to the University. As part of the review process, the Undergraduate Admission Committee will determine which applicants are to be offered admission to GO.

Admission to the English Language Bridge Program Students applying to the University who meet regular admission requirements but whose TOEFL or IELTS scores fall below the required level may be eligible for admission to the University through the English Language Bridge Program offered through the ESOL Department. For further information on the English Language Bridge Program, contact Bart Weyand, program director. INCLUDE PHONE NUMBER?

Admission to the Intensive English Language Program with Conditions The Intensive English Language Program with Conditions is for students whose first language is not English and who are seeking admission to USM. Students are considered for this program if they are academically qualified, may or may not have taken the TOEFL exam, and still need a semester or two of English language instruction. Students will be admitted with the condition that they successfully complete at least one semester of Intensive English courses prior to enrolling in other courses offered at USM. For further information on the Intensive English Language Program with Conditions, contact Bart Weyand, program director.

Enrollment as a Non-matriculated Student The University encourages members of the local community to take advantage of its diverse course offerings. Non-matriculated students (those not enrolled in a degree program of study) may take regular credit courses for self-interest and enrichment. Non-matriculated students are enrolled each semester on a space-available basis and are not eligible for student financial aid awards, guaranteed student loans, veteran's benefits, campus housing, or participation in intercollegiate athletics. Interested persons are invited to contact the Student Success Center.

Non-matriculated students are required to meet the same academic progress standards as matriculated students. In order to apply to a degree credits earned at the University of Southern Maine, the student must be admitted into a degree program as a result of the application process.

Readmission Matriculated degree candidates maintain their matriculation status for ten calendar years from the first semester of attendance at the University of Southern Maine. If a student has been academically dismissed from the University or if a student wishes to resume studies after the ten-year period has elapsed, she or he must apply for readmission. The Reactivation/Readmission Form is available at the following Web site: www.usm.maine.edu/admit/howtoapply.html.

Transfer Admission

Applicants who have attempted twelve semester hours of credit or more beyond the secondary school level are considered transfer students and must submit official copies of collegiate and secondary school records. SAT or ACT test results are required for students who have been graduated from high school for less than three years. Transfer candidates who have previously completed ten or more college courses (thirty credits) at the time of application may forego submitting SAT or ACT test results. *Quality points and grade point average do not transfer.*

Students applying for transfer from regionally accredited institutions of higher education must have a grade point average of at least a 2.0 (on a 4.0 scale) to be considered for admission. Some academic programs require higher grade point averages. Transfer credit may be awarded for coursework completed at a regionally accredited institution of higher education. Courses graded C- or higher are considered for transfer credit.

Students applying for transfer from non-regionally accredited institutions of higher education must have a minimum 2.75 grade point average (on a 4.0 scale) to be considered for admission. No transfer credit will be awarded for coursework completed at non-regionally accredited institutions of higher education. Under special circumstances, students may, in individual cases, petition the dean of the appropriate college for consideration of coursework earned from institutions that were candidates for accreditation.

From within the University of Maine System Trustee policy is to provide the maximum opportunity for transfer within the University of Maine System. When a student is accepted for transfer, all undergraduate credits successfully completed with a grade of C- or better at any unit of the University System will be transferable to any other unit of the University System, but will not be automatically applied to the specific academic degree program to which the student has transferred. Each student will be expected to meet the established requirements of the academic program into which transfer is made, and appropriate application of transfer credit is to be the responsibility of the particular academic unit.

University of Maine System Transfer Policies and Practices

1. Transferring students must provide **official transcripts** reflecting all previous post-secondary coursework.
2. An evaluation of transfer credit will be prepared by the Office of Transfer Affairs for each accepted transfer student, and will be available in the student's MaineStreet Student Center. The transfer student should meet with an academic advisor at the receiving university to review how the transfer credit will be applied toward the student's degree program. Transfer evaluations will be prepared based on the following principles:
 - a. *Within the University of Maine System.* Undergraduate courses completed with a C- or higher, including P grades, will transfer from one UMS university to another. Grades will be recorded on the student's transcript but not computed into the cumulative GPA.
 - b. *Outside the University of Maine System.* Credit earned with a C- or higher in courses from regionally accredited colleges/universities outside the UMS will be considered for transfer. Pass-fail courses taken outside the UMS must have "pass" defined as a C- or higher in order to transfer.
 - c. Generally, course grades do not transfer from one college/university to another. Semester and cumulative GPA's reflect only those courses taken at the home university. Students in cooperative degree programs should inquire about any exceptions that may apply.
 - d. Coursework defined as developmental by the university to which the student is transferring will not be awarded degree credit. Developmental courses are considered preparatory to college-level work, and will not count towards a degree.
 - e. Courses from colleges and universities outside the United States will be accepted for transfer consistent with established University policies and practices.
3. Credit may be awarded for high school Advanced Placement (AP) exams, College Level Examination Program (CLEP) exams, or college-level knowledge gained through life experience (e.g., prior learning, such as military or other training) when validated through the approved campus processes.
4. Students with coursework from non-regionally accredited schools may inquire into the possibility of validating some or all of their learning through testing and/or approved university credit for prior learning processes. Students interested in this option should contact the University Office of Transfer Affairs for more information.

5. If a student has concerns about the transfer evaluation, the student should contact the transfer affairs office at the receiving university. After such conferral, the student may appeal through the academic appeals process at the receiving university.
6. Transfer students should consult the University's catalog and/or meet with an appropriate advisor to determine requirements regarding the number and distribution of credits that must be completed at the University to earn the desired degree.
7. Students must meet the established requirements of the academic program or college into which they are transferring. Transfer credits do not necessarily count towards these requirements.
8. Students may also confer with the Office of Transfer Affairs and/or an academic advisor regarding possible flexibility in the application of their credits to their program, through approved campus processes.
9. Current UMS students who plan to take courses at another university, inside or outside of the UMS, are strongly encouraged to seek prior approval of their plans from the UMS university where they are matriculated.

Transfer Credit Evaluation

Evaluation of Transfer Credits Undergraduate coursework completed at other institutions of higher education will be evaluated for transfer credit on the basis of the following: whether or not the previous institution was regionally accredited at the time of attendance, grades achieved in previous coursework, and comparability of courses taken with courses at the University. Courses for which credit is awarded through another institution's credit-by-examination policy may be granted transfer credit provided both earned credits and grades appear on the transcript and the course is applicable to the student's work at this University. The applicability of transfer credits to USM's core curriculum and to a student's intended major field of study shall be determined by the Office of Transfer Affairs in conjunction with the appropriate academic department, school, or college. Transfer evaluations are assumed to be correct if a student does not direct questions to or enter an appeal with the Office of Transfer Affairs within one year of the completion of the evaluation. At that time, the evaluation becomes permanent and will not be changed.

Maine Community College Articulation Agreements

The University of Southern Maine has formal articulation agreements in certain academic disciplines with the Maine Community College System. In addition, USM participates in AdvantageU, a guaranteed admission program for qualified Maine Community College students who elect to participate. These agreements facilitate transfer to USM for graduates from specific associate degree programs. For more information, students should contact either the academic department at USM to which transfer is being considered, or the USM Office of Transfer Affairs.

Placement Exam

Placement Examination Program SAT and ACT scores are used for course placement in mathematics and English. All newly admitted degree candidates whose SAT mathematics score is below 550 or ACT mathematics score is below 22 must take the math placement examination. Only SAT or ACT test results administered within the past five years are valid. TOEFL and IELTS scores are used for course placement in English. Only TOEFL and IELTS test results administered within the past three years are valid. Students who transfer credits from another institution may meet college readiness in mathematics and English as determined by the Office of Transfer Affairs. Non-matriculated students are encouraged to take the placement examination and should contact the Office of Academic Assessment for details. For more information on the Placement Examination Program, go to www.usm.maine.edu/assessment. Note: The placement exam results will not be used in place of SAT/ACT test results for admission purposes.

Prior Learning Assessment

The Office for Prior Learning Assessment (PLA) believes that students should be rewarded for knowledge acquired outside the traditional classroom if it fulfills the academic criteria set forth and evaluated by the USM faculty.

PLA is a process that builds a bridge between students' practical, applied learning experiences and their theoretical, college-level knowledge. There are several pathways across this bridge: testing options, credential reviews, military evaluations, and academic portfolio development, paving the way to academic credit where appropriate. Proof of competency rests with the student. Transcripts older than twenty years cannot be used for credit. For further details regarding credit options, students should contact the Office for Prior Learning Assessment at www.usm.maine.edu/pla.

Advanced Placement The University participates in the Advanced Placement program (AP) of the College Board. AP exams are given in secondary schools. For credit consideration at USM, an official AP transcript and a minimum score of 3 are required.

International Baccalaureate The University recognizes IB and is committed to considering credit for students who score 5 or better on the Higher Level exams. No credit is offered for Standard Level IB exams. An official score transcript must be sent from the IB Organization to the Office for Prior Learning Assessment for evaluation.

Standardized Examinations College Level Examination Program (CLEP) and DANTES exams are used for either course-equivalency or elective credits. For credit consideration at USM, an official transcript must be submitted and cut-off scores must be achieved. Several Excelsior College exams are also recognized for credit. PLA also offers credit for 50 language exams through an external testing program. For more information on all these options, visit the PLA Web site at www.usm.maine.edu/pla.

Academic Portfolio Assessment Program The academic portfolio is a formal collection of evidence in support of a person's claim for college credit. The process is reflective and challenging, yet rewarding. To earn course equivalency credit or elective credit with an academic department through portfolio assessment, the candidate's documentation must prove understanding and learning competency, subject to evaluation by appropriate faculty. Academic portfolio assessment may also be used to earn general elective credit, which can be earned regardless of one's academic major. Applicability of credits toward meeting graduation requirements varies by school and college within the University.

Credential Review Credential review requires original and current documentation for individualized learning situations, submitted for college credit, reviewed by appropriate USM faculty or in consultation with national guidelines. All credentials are considered on a case-by-case basis. PLA reviews professional certifications, educational and training courses, and certain college-level experiential learning that may have earned selected licenses, certificates, and/or credentials for organizations outside the University. Credit is not awarded for attendance certificates.

Credit for Military Service Students who have been active members of the armed services may qualify for credit. Official service documents are required for credit consideration.

Challenge Examination Program Challenge exams may be developed individually by faculty members for USM students in coordination with the Office for Prior Learning Assessment. These exams are used selectively and may result in the student earning equivalency course credit.

Preprofessional Programs

Pre-Law There is no specific course of study required of students who are planning to apply to law schools. Since the practice of law covers all fields, the only recommendation that law school admissions officers give to students is that they pursue challenging courses in areas of interest to them and that they do well in these courses. Participation in an honors program definitely enhances a student's admission as does a well-written senior thesis or an independent study.

- a) Students must be able to write clearly. They should take upper level, writing intensive courses in English or other fields.
- b) Students must be able to think clearly and critically. Courses in philosophy, science, and language will be helpful.
- c) Students should understand the social and political context within which the law exists. Courses in sociology, history, and political science are appropriate.
- d) Students may wish to take substantive courses in the law and in legal reasoning. Courses in law and society, civil liberties, civil rights, constitutional law, business law and the rule of law—some of which are offered as undergraduate courses by professors from the University of Maine Law School—may be of interest.

Students who are interested in law should be advised that their overall academic record and performance on the LSAT are much more important than a specific undergraduate major for law school admission.

Students should meet with USM's pre-law advisor early in their undergraduate careers to discuss the legal profession and design a path to law school admission. Students should also become active members of USM's Pre-Law Society. For more information, contact Ronald Schmidt, associate professor, at (207) 780-4581 or e-mail rschmidt@usm.maine.edu.

Pre-pharmacy Program A two-year, non-degree program of study is offered to prepare students to apply to a four-year doctoral program in pharmacy (a 2+4 program). Most schools and colleges of pharmacy require 60-75 credits in their two-year pre-pharmacy phase, depending on the number of general education credits required. Individual programs vary in the general education courses they require, e.g., economics, social science, humanities, and fine arts, so students should consult those programs accordingly. The pre-pharmacy concentration is a time-intensive program that students will need to commit to upon entering the University. Students are encouraged to take summer courses to reduce the number of credits taken each semester. If students choose not to take summer courses, they should consider extending the program to three years. If they do well in this program of study, they will be competitive with students from other universities applying for entry into professional pharmacy programs. If students decide not to transfer after two years, they will be well along the path toward earning a B.S. in biology degree. For further information contact Patricia O'Mahoney-Damon, associate professor, 221 Science Building, Portland. (207) 780-4263 or e-mail pato@usm.maine.edu.

Pre-Medical, Pre-Dental, Pre-Veterinary USM, like most universities, does not have a major in pre-medical, pre-veterinary, or pre-dental studies. USM offers a degree in biology with a concentration in human biology. By completing the concentration in human biology a student will have completed all the required courses for admission to professional school and many of the recommended courses. Pre-veterinary students should complete the general biology degree. Most students who are accepted in a professional school majored in biology or zoology as undergraduates. However, a student does not have to major in science to be accepted to medical, dental, or veterinary medicine school. Approximately one-third of all students accepted to professional schools took the required science courses as electives while pursuing their undergraduate degrees in non-science fields.

Every undergraduate course taken is important regardless of its subject area. Admissions officers in professional schools pay particular attention to the overall academic record and performance on entrance exams when evaluating a candidate's application for admission.

It is also important to have experience in the field of medicine. Most veterinary schools require some type of animal care experience, e.g., volunteer work in an animal hospital. Many medical schools require some type of patient-care experience, e.g., Emergency Medical Technician training, volunteer work in an emergency room).

As minimum entrance requirements, most professional schools recommend:

- 1 year of college biology with lab (BIO 105, 106; BIO 107, 108)
- 1 year of inorganic chemistry with lab (CHY 113, 114; CHY 115, 116)
- 1 year of organic chemistry with lab (CHY 251, 252; CHY 253, 254)
- 1 year of physics with lab (PHY 111, 114 or PHY 121, 114)
- 1 semester of mathematics (statistics recommended)

Some recommended courses are:

- Psychology (PSY 101J)
- Genetics (BIO 301)
- Microbiology (BIO 311, 312)
- Comparative or Human Anatomy (BIO 205 or 211/212)
- General or Human Physiology (BIO 401/402)
- Human Anatomy and Physiology (BIO 111)

For more information, please contact Patricia O'Mahoney-Damon, (207) 780-4263, or pato@usm.maine.edu.

New England Regional Program

In cooperation with the New England Board of Higher Education (NEBHE), the University offers undergraduate and graduate programs of study at reduced rates of tuition to qualified candidates from the New England states. Because the listing of programs varies from year to year, candidates should check the most up-to-date listings. The following schedule represents the fields of study available at the University in the New England Regional Student Program for 2011-12. Further information is available through a University guidance counselor or from NEBHE at 45 Temple Place, Boston, MA 02111.

Undergraduate Programs

Athletic Training	RI
Criminology	NH, RI
Environmental Planning and Policy	VT Health
Fitness	VT
Industrial Technology	RT, VT
Linguistics	CT, RI, VT
(including concentration in American Sign Language)	

Musical Theatre
and Applied Science
Recreation and Leisure Studies

MA Natural
CT, VT
MA, RI, VT

Graduate Programs

See listing in Graduate Catalog at www.usm.maine.edu/catalogs/graduate.

Immunization Requirement

Maine State law requires all individuals born after December 31, 1956, who plan to enroll in a degree program or plan to take twelve or more credits, to show proof of immunity against measles, mumps, rubella, diphtheria, and tetanus before registering for classes. Immunization Records should be sent to: Shared Processing Center, P.O. BOX 412, Bangor, ME 04402. Immunization records must be on file with the university before students will be allowed to register for classes. Specific information about immunization requirements can be found at www.usm.maine.edu/health.

E-mail Communication Policy

In order to meet the academic and administrative needs of the University community, the University has established e-mail as an official and primary means of communication to its students, accepted and/or enrolled. In some cases, e-mail may be the only form of communication. Official University-assigned e-mail accounts are created for all accepted and/or enrolled students usually in the form of FirstName.LastName@maine.edu. Students are responsible for reading all information sent to them via their University assigned e-mail account. The University has the right to expect that such communications will be received and read in a timely fashion.

It is imperative that students understand that a majority of University information will be communicated to them via their assigned e-mail account. Confidential information will not be sent via e-mail. If the University needs to convey sensitive information to the student and the information cannot be conveyed using the password-protected student self-service venue, the University will send the information via United States Postal Service.

The University reserves the right to notify students via e-mail when any action on the student's part may be necessary. Some actions can be accomplished using the University's Student Information Systems, made available through special password-protected links. Students should activate their assigned e-mail accounts at mail.maine.edu. For assistance in activating your University account, visit www.usm.maine.edu/computing/networking/unet.jsp or contact the HelpDesk at (207) 780-4029, or helpdesk@usm.maine.edu. The complete E-mail Communication Policy can be found at www.usm.maine.edu/doiit.

Financial Information

Tuition rates are established by the University of Maine System Board of Trustees. The University reserves the right to adjust all charges in response to changing costs, state and/or federal legislative action, and other matters. Such adjustment may be made at any time. A student acknowledges this reservation by applying for admission or registering for courses.

There are three types of tuition charged: undergraduate, graduate, and law. The level of the course determines the type of tuition charged. Tuition charges are calculated by multiplying the number of credit hours attempted by a rate established by the University. Courses being audited are included in this calculation.

Tuition

Charges in effect as of July 1, 2011

Undergraduate Tuition Charges Per Credit Hour

Maine Resident	\$253.00
Non-Maine Resident	\$665.00
New England Regional Program	\$380.00
Canadian Resident	\$380.00

Fees

Activity Fee Students taking undergraduate courses are assessed a mandatory student activity fee. The amount charged depends on the number of credit hours attempted. Students taking graduate courses are not assessed this charge. Students registering for undergraduate courses taught at Lewiston-Auburn College or University of Maine System Off-Campus Centers are charged \$1.50 per credit hour.

<i>Credits Attempted</i>	<i>Fee</i>
1-5.9	\$19.00
6-11.5	\$37.00
12+	\$55.00

Administrative Fee for Study Abroad /National Student Exchange A one-time \$150.00 fee is charged to students applying to study abroad or through the National Student Exchange.

Application Fee A \$40.00 fee is charged when a student applies for admission to an undergraduate program.

Community Standards Fee A \$35 fee is charged to any student who is sanctioned under the Conduct Code.

Course Fees A mandatory fee is assessed for some courses. These fees cover costs associated with specialized instruction. Additional information is provided in University course listings.

Distance Learning Students registering for ITV and videoconferencing courses are charged a \$12.00 per credit fee to defray mailing costs.

Distance Learning Technology Fee Students registered at University College Centers and sites are charged a \$6.00 per credit hour technology fee.

Online Course Enrollment Fee Students registering for online classes are charged a \$25 per credit hour fee.

Enrollment Fee A mandatory \$175.00 fee is charged to newly admitted undergraduate students. This fee is charged only once.

Installment Payment Fee A \$30.00 fee is charged to students participating in the University's three, four, and/or five payment plans.

Insufficient Funds Fee A \$25.00 fee is charged when a student's check is returned or a bank card payment is declined for insufficient funds.

Late Fee A \$50.00 late fee, up to a maximum of \$200.00 per semester, is charged to student accounts not paid when bill is due.

Reactivation Fee A mandatory \$10.00 fee is charged to students who have previously applied for admission but did not complete the admission process, or who leave for several years and wish to become degree candidates again.

Specialty Accreditation Fee A \$26.00 per credit hour fee is charged to students enrolling in upper-level undergraduate courses (300 level and above) offered by the School of Business.

Specialty Accreditation Fee A \$17.00 per credit hour fee is charged to students enrolling in lower-level undergraduate (100-200 level) courses offered by the School of Business.

Student Health and Counseling Fee A mandatory \$80.00 health fee is charged students registered for six or more credits of instructional activities emanating from the Portland and/or Gorham campus for fall and spring semesters. Such activities include independent study, internships, field experiences, etc. Credits for regular classes taken at off-campus locations are omitted when determining this fee.

Optional coverage is available to students who register for fewer than six credits and/or during the summer.

For more information about the services covered by the student health and counseling fee and the cost for enrolling after the four-week open enrollment period, contact University Health Services.

Student Health Insurance (Optional) Students may purchase optional insurance plans under policies made available by contract with the University of Southern Maine. These plans can provide financial coverage for health care costs incurred through University Health Services, family physicians, or other health care providers.

A moderate cost, 12-month basic insurance plan is available to students registered for six or more credit hours. Students who have enrolled in the prior academic year must re-enroll each year and cannot re-enroll in the basic plan if not a USM student.

Summer Session Administration Fee \$35.00

Transportation Fee A mandatory semester fee charged to all students taking courses on the Portland and/or Gorham campuses. It funds parking and transportation related projects, as well as busing between campuses.

<i>Credit Hours</i>	<i>Fee</i>
0.1-5.99	\$50.00
6.0-11.99	\$75.00
12+	\$100.00

Charges for exams offered by the Office of Prior Learning Assessment can be found at www.usm.maine.edu/pla

Note: Lewiston-Auburn College Parking Fee: A \$3.00 per credit hour fee is assessed to students registered for courses held at Lewiston-Auburn College.

Unified Fee The unified fee of \$28.00 per credit hour covers fixed costs of providing educational services not already supported by tuition.

Room and Board

Board The University offers a variety of meal plans. Information about the meal plans is available from the Department of Residential Life and Resident Education, 100 Upton Hall, Gorham (780-5240).

USM Meal Plans The University offers seven different resident student meal plans. See the Residential Life and Resident Education Web site for details: www.usm.maine.edu/reslife.

Commuter Only Meal Plans Commuter meal plans allow students to purchase food at a discount. Information about the plans is available from the Department of Residential Life and Resident Education and Dining Services.

Room University residence halls are located on the Gorham campus. Information about housing is available from the Department of Residential Life and Resident Education, 100 Upton Hall, Gorham (780-5240).

While the student is billed by the semester, the housing contract is for the full academic year. Please see the Residential Life Web site at www.usm.maine.edu/reslife for current room types and rates.

There may be an additional charge for living in a room that is under-capacity. That charge is approximately one-third of the base rate.

Other Expenses

Books and Supplies Students are responsible for the purchase of books and supplies. Payment is made at the time of purchase.

Deposits

When a student is notified of acceptance into a University degree program, a \$100.00 acceptance deposit is due within four weeks. Students who apply for on-campus housing must also pay a \$75.00 room deposit.

After a student registers, these deposits are applied to his or her account. These deposits are forfeited if an applicant for September admission withdraws after May 1 (June 1 for room deposits), or if an applicant for January admission withdraws after January 1. Applicants who provide the Office of Admission with written notification of withdrawal before the previously mentioned dates will have the deposit refunded. Housing applicants must notify Residential Life in writing before the deadlines to receive a deposit refund.

The Department of Residential Life and Resident Education establishes and publicizes dates for room selection each spring. Students who are registered for spring semester and apply for on-campus housing for fall are required to pay a \$75.00 room deposit. Usually, this deposit is applied to the fall bill. If a student notifies the Department in writing before June 1 that housing is not desired, this deposit will be refunded. If notification is received after June 1, the deposit is forfeited.

Payment Procedures and Policies

Billing Students can access MaineStreet billing statements, specific semester payment due dates, and other important Student Accounts information at www.usm.maine.edu/studentaccounts. The University is not obligated to mail paper billing statements.

It is critical that official University e-mail accounts are checked often by all students. In many cases, it will be the only means of receiving important information from Student Accounts and other University departments.

It is the student's responsibility to ensure that all addresses recorded on MaineStreet are correct.

How To Make Payment The University offers a variety of payment options. These include:

ACH (electronic check) ACH payments can be made online on MaineStreet.

Cash Cash payment may be made at the Student Accounts Office or at an off-campus center. Cash should not be mailed.

Checks Paper checks should be made payable to the University of Southern Maine (USM). The student's name and student I.D. number should be shown on the check.

Credit Cards USM uses an outside vendor to process MasterCard, American Express, and Discover card payments. The student is charged a convenience fee by the vendor.

Financial Aid from USM The University offers eligible students grants, scholarships, loans, and employment opportunities. Grants, scholarships, and loans are credited for payment of University charges. Additional information can be obtained from Student Financial Aid.

Installment Payment The University offers a variety of payment plans. Information about these plans is available from Student Accounts.

Outside Scholarships Students must notify Student Accounts of any non-University scholarships to be used to pay University charges prior to the date payment is due. Upon receipt of proper documentation, the University may extend the payment due date.

Third Party Payments A student must give Student Accounts written authorization from the agency or employer prior to the payment due date. No conditional payment offers will be accepted. If, for any reason, the third party does not pay, the student is responsible for all charges.

When Payment Is Due Each semester, the University establishes specific dates payment is due and notifies students of these dates on bills, through University publications, and on the Student Accounts Web site at www.usm.maine.edu/studentaccounts.

Adding Courses Costs associated with credit hours added after the semester begins must be paid at the time of registration.

Other Charges After the semester starts, additional charges must be paid as they occur.

A late fee is charged if payment is not received by the due date. Students with past due charges are not allowed to re-register. Students who show a pattern of late payment may be required to pay all University charges before registration is accepted.

The University reserves the right to cancel a current semester's registration, and prevent a student from receiving grades or credit for courses, if outstanding charges are not paid.

Transcripts, certification of graduation, and other records will be withheld from students who have not paid all bills and loans due the University. This includes bills for damage to University property, and unpaid charges or fines owed to other University departments.

Add/Drop

The schedule adjustment period begins with the first day of scheduled University classes and includes weekends and holidays. Students may add a course during the first week of the semester. For late afternoon and evening and weekend courses that meet once a week, adds will be accepted through the day following the second class meeting.

A student who remains registered is not charged for any course dropped during the first two weeks of the semester. The number of times a class meets is not a factor in this determination. Students who drop after the second week receive no refund. Drops do not require an instructor's signature. They may be processed at the Registrar's Office, Student Success Center, Lewiston-Auburn College, or a University of Maine System Center. The date the drop form is received at one of these offices is used to determine whether charges should be deducted.

Withdrawal Policy

The charges assessed students who withdraw from all classes at the University are adjusted in accordance with the schedules shown below. The date the Registrar receives written notification of withdrawal is used when calculating refunds. A semester begins with the first day of scheduled University classes and includes weekends and holidays.

Failure to notify the Registrar promptly will increase financial liability. A student who feels the withdrawal was caused by reasons beyond his or her control (extended illness or military service obligations, for example) may petition for special consideration. To be considered, the request must be filed within 90 days of the end of the semester involved. Charges will not be reduced for voluntary absence from classes. Contact the Student Accounts Office for additional information about this procedure.

Tuition Refunds Student charges will be reduced for those who are withdrawing from the University of Maine System in accordance with the schedules and provisions set forth below.

For purposes of calculating tuition reduction, the attendance period begins on the opening day of scheduled campus classes, includes weekends and holidays, and ends on the date the student notifies the Registrar in writing that she or he is withdrawing.

Schedules For All Students

ACADEMIC YEAR (fall and spring terms)	Refund Percentage
Cancellation prior to first day of class	100%
Withdrawal prior to end of second week	100%
Withdrawal prior to end of fifth week	50%
Withdrawal prior to end of eighth week	25%
Withdrawal after the eighth week	0%

Summer Session Refer to the Summer Session catalog for summer drop/withdrawal policies.

Requests for exemptions to the refund policy must be filed with the director of Student Accounts within 90 days of the end of the semester involved.

Board Refunds Students who withdraw from the University will have meal plan refunds calculated using a formula. Please call Residential Life at 207-780-5240 for details.

Room Refunds Students who vacate University housing will be charged in accordance with the terms and conditions of the Residence Hall contract.

Rules Governing In-State and Out-of-State Tuition

There are many factors that will be considered in determining residency for in-state tuition purposes. No one factor can be used to establish domicile; rather, all factors and circumstances must be considered on a case-by-case basis. A domicile or residency classification assigned by a public or private authority neither qualifies nor disqualifies a student for University of Maine System (UMS) in-state status.

A student applying for admission to a degree program is classified as eligible, or not eligible, for in-state tuition at the time of acceptance to the University. A non-matriculated (non-degree) student is classified as eligible, or not eligible, for in-state tuition at the time of registration. The decision, made by the director of Student Accounts, or other officials designated by the campus, (this authority is granted to all Admission directors), shall be made based on information and documentation furnished by the student and other information available to the University. No student is eligible for in-state tuition classification until he or she has become domiciled in Maine, in accordance with University guidelines, before such registration. If the student is enrolled full-time in an academic program, as defined by the University, it will be presumed that the student is in Maine for educational purposes, and that the student is not in Maine to establish a domicile. A residence established for the purpose of attending a UMS campus shall not by itself constitute domicile. The burden will be on the student to prove that he or she has established a Maine domicile for other than educational purposes. An individual who has lived in the state of Maine, for other than educational purposes, one year prior to registration or application to a campus is considered an in-state student.

In general, members of the Armed Forces and their dependents will be granted in-state tuition during such periods of time as they are on active duty within the state of Maine or if their military state of residency is Maine as evidenced by appropriate

official documentation. A Maine resident who is absent from the state for military or full-time educational purposes will normally remain eligible for in-state tuition.

A student, spouse, or domestic partner of a student, who currently has continuous, permanent full-time employment in Maine before the student decides to apply for degree status at the University will be considered in-state for tuition purposes.

A student who is dependent on his/her parent(s) and/or legally appointed guardian (or to whom custody has been granted by court order) is considered to have a domicile with the parent(s) for tuition purposes.

In-state tuition is not available to anyone who holds a non-immigrant U.S. visa. If an individual is not a domiciliary of the United States, they cannot be a domiciliary of the state of Maine.

A student who attended an out-of-state educational institution at in-state tuition rates in the immediately preceding semester, shall be presumed to be in Maine for educational purposes and not to establish a domicile. Again, the burden will be on the individual to prove that he or she has established a Maine domicile for other than educational purposes.

To change tuition status, the following procedures are to be followed:

A. A "Request of Change in Tuition Status" must be filed with the director of Student Accounts or designee on or before the campus's first day of classes for the summer session, fall or spring semester for which residency is requested. All applications shall be prospective.

B. If the director for Student Accounts' written decision, to be issued within 30 days of the first day of classes, is considered incorrect by the student, the student may appeal that decision in writing, within 30 days, to the chief financial officer of the campus.

In the event that the executive director of Student Accounts, or other designated official, possesses facts or information indicating a student's change of status from in-state to out-of-state, the student shall be informed in writing of the change in status and will be given an opportunity to present facts in opposition to the change. The student may appeal the decision of the director of Student Accounts or other designated official as set forth in the preceding paragraph.

Applications for "A Request for Change in Tuition Status" are available at the Student Accounts Office, 110 Corthell Hall in Gorham, or the Portland Business Office, 118 Payson Smith in Portland, or at www.usm.maine.edu/studentaccounts. Completed applications should be returned to the Student Accounts Office.

Student Financial Aid

At some point in the college planning process, the consideration of cost enters into the decision to pursue a college education. A college education is one of the most important investments a student will make. To provide students with an affordable education, the University of Southern Maine Office of Student Financial Aid offers a variety of programs to assist students and families in paying their educational expenses. During the most recent academic year, nearly \$85 million in financial aid was available to USM students.

The Office of Student Financial Aid administers, coordinates, and recommends programs of financial aid to enable students who lack adequate financial resources to attend USM. Offices are located in Gorham in Corthell Hall, in Payson Smith Hall in Portland, and at Lewiston-Auburn College. For more detailed information about the application process, the funds available and the priority filing dates and deadlines, refer to the Student Financial Aid section of this catalog or visit us on the Web at www.usm.maine.edu/fin.

Eligibility for Aid

To receive financial assistance, a student must be admitted into a degree program at the University and, in most instances, must be enrolled for at least six credit hours for a semester. Aid can be granted only to U.S. citizens and eligible non-citizens.

The deciding factor in the establishment of a student's eligibility for financial aid is that of documented financial "need." That is, when an applicant has been determined to have insufficient family resources to meet the costs of attending the University of Southern Maine, she or he is eligible for assistance. Since the federal government provides most of the funds the University allocates to its students, family resources are assessed in accordance with a formula required by the U.S. Department of Education.

It is important to remember that financial aid is intended to supplement a student's resources. A basic principle of financial aid programs is that the student and his/her family are expected to contribute, when able, from income and assets to meet college costs.

No student should fail to apply for admission because she or he cannot afford a college education. The Office of Student Financial Aid administers a strong and versatile program. When a student's financial resources are insufficient to meet educational expenses, then grants, loans, or employment can usually be made available. If funds are not available from the University, the Office of Student Financial Aid helps students explore other potential sources of aid.

Satisfactory Academic Progress for Continued Financial Aid Eligibility Every school participating in the federal student financial aid programs must monitor its financial aid recipients to ensure that they are meeting satisfactory progress standards. Federal regulations mandate that the school's satisfactory progress policy must include both a qualitative measure (such as the use of cumulative grade point average) and a quantitative measure (such as a maximum time frame for completion) of the student's progress. While the qualitative measure is determined and monitored by the academic standards of the institution, the quantitative measure administered by the Financial Aid office is used to determine the number of credit hours completed when compared to those attempted. To quantify academic progress, the school is required to set a maximum time frame in which a student is expected to finish a program. For an undergraduate program, the maximum time frame may not exceed 150 percent of the published length of the program, as measured in academic semesters.

To ensure that the student is making sufficient progress throughout the course of study, the school must divide the program into equal evaluation periods called increments. Once the school defines the length of each increment, the school must compare the number of hours the student attempted with the number of hours the student successfully completed. This calculation enables the school to determine whether the student is progressing at a rate that will allow him or her to finish the program within the maximum time frame. As is the case in USM's progress policy, a school is permitted to apply a more lenient completion standard in the student's first academic year and then gradually increases the completion standard for each subsequent academic semester. USM's satisfactory progress policy explains how withdrawals, grades of incomplete, courses that are repeated, noncredit remedial coursework, and other attempted coursework that is not completed affect the satisfactory progress determination. Procedures have been established that enable a student to appeal a determination that finds him or her not to be making satisfactory progress. The quantitative and qualitative standards used to judge satisfactory progress must be cumulative and include all periods of the student's enrollment. Even periods in which the student did not receive financial aid funds must be counted. If the student does not meet the school's standards for satisfactory academic progress, he or she is not allowed to receive further funds from federal student aid programs. For specific details regarding satisfactory academic progress for financial aid, please refer to the USM financial aid Web site at www.usm.maine.edu/fin.

Application Procedures

To apply for financial assistance from the University of Southern Maine, you should file your Free Application for Federal Student Aid (FAFSA) or your Renewal FAFSA on the Web at www.fafsa.gov.

Students are encouraged to apply for assistance as early as possible. To ensure a fair distribution of funds, a priority filing date is established. To meet USM's deadline, applicants must ensure that their FAFSA data is received at the institution by March 1. Students should submit the FAFSA to the federal student aid programs by February 15 to meet the USM March 1 deadline.

Applications are accepted after the priority filing dates, although the type and amount of aid offered may be reduced subject to funding limitations. Applicants who file after the priority filing date will probably receive delayed notification and may not have the funds in time to pay semester bills.

You must be registered with the Selective Service if you are a male, at least 18 years old, and born after December 31, 1959. If you believe you are not required to be registered, please call the Selective Service Office for information regarding exemption.

A student must not owe a refund on a federal grant or be in default on a federal educational loan. Students who are in default or owe a repayment are not eligible for federal financial aid.

Additional financial records required to verify information reported on the FAFSA may be requested under separate cover.

How Financial Aid is Allocated

The University begins reviewing student aid applications in early spring. Once a student is accepted by the Office of Undergraduate Admission, the FAFSA is received, and the University is told how much federal aid it will have for students, a notice of eligibility is sent.

The amount a student receives is determined by subtracting the student's resources from a budget computed by the Office of Student Financial Aid. This budget is based on typical living and educational costs for a student in a given situation. It may be adjusted if unusual non-discretionary expenses exist.

Students are offered aid in a package which may consist of grant and/or loan and/or work-study. Undergraduate students with prior bachelor's degrees are not eligible to receive grants.

Even after a student is allocated aid, the amount may be adjusted if the student's financial situation changes. Students and parents must promptly report any of the following to the Student Financial Aid office: a change in income; a change in marital status; a change in the number of dependents; a change in residence; a change in the number of credit hours attempted; and the receipt of financial aid from sources other than the University. If a student receives outside scholarship funds, the amount of aid from the University may have to be reduced.

Types of Aid Available

Federal Pell Grants This is a federally funded program to help needy students. In 2010-2011 grants will vary between \$329 and \$5550 per academic year.

Federal Supplemental Educational Opportunity Grants This is a federally funded program to help needy students. Grants range from \$100 to \$4,000.

University and Miscellaneous Scholarships These are funded by the University and private donors. Awards have ranged from \$100 to \$4,000 and are given on the basis of financial need.

Federal Work Study Employment This is a program funded by the University and the federal government. Eligible students may earn between \$1,500 and \$3,500 per year. A student's financial need governs the amount that can be earned.

Federal Perkins Loans Funded by the federal government, the University, and former borrowers repaying loans, this program lends money to needy students. No repayment is required until after the student ceases his/her education or drops to below 6 credit hours of enrollment. Once repayment begins, the student is charged 5 percent simple interest on the amount borrowed. While the monthly repayment amount varies with the amount borrowed, a minimum of \$40 must be repaid each month. Loans vary between \$400 and \$2,500 annually.

Federal Nursing Student Loans Funded by the federal government, the University, and loans repaid by former borrowers, money is lent to needy nursing students. Repayment terms are similar to those of the Perkins Loan. Loans range from \$400 to \$4,000.

Federal Subsidized Direct Loan This program, administered by the federal government, allows students to secure low-cost loans. Eligibility for subsidized Direct Loans is based on demonstrated financial need and grade level.

Federal Unsubsidized Direct Loans This program provides access to borrowing for both students who do and do not qualify for need-based assistance. The student is responsible for the interest as it accrues.

Federal Direct Parent Loans This credit-based program, sponsored by the federal government, allows parents to secure relatively low-cost loans. Direct Parent Loan for Undergraduate Students (PLUS) application request forms are available from the Student Financial Aid Office or can be printed from www.usm.maine.edu/fin, under the section entitled Direct PLUS Loans.

Alternative Loans These alternative, credit-based loan programs provide long-term financing options for qualified families. Additional information about these programs is available at the following Web site: www.usm.maine.edu/fin or in the Student Financial Aid Office.

North American Indian Programs Tuition, mandatory fees, and on-campus room and/or board will be waived for qualified and eligible North American Indians residing in Maine. Eligibility is extended to 1) the person whose name is included on the current census of either the Passamaquoddy or Penobscot Tribes; and 2) the person who has resided in Maine for at least one year and whose name, or the name of at least one of their grandparents, was included on the census of a North American Tribe or held a band number of the Maliseet or Micmac Tribes with direct blood lineage. For additional information, contact the Wabanaki Center at (207)581-1417. You may also visit their Web site at www.naps.umaine.edu/Eligibility2.html

For more information about financial aid programs, contact the Office of Student Financial Aid, University of Southern Maine, College Avenue, Gorham, Maine 04038 or telephone (207) 780-5250. You may also visit our Web site at www.usm.maine.edu/fin.

Offers of financial aid are conditional upon receipt of funds from all funding sources. The Office of Student Financial Aid reserves the right to revise offers of financial aid at any time during the year based on availability of funds and/or changes in regulations and/or procedures mandated by University, state, or federal authorities.

Academic Support Services

The University offers students a wide range of academic support services to facilitate and enhance their education. The breadth of these services is designed to accommodate the needs of a diverse student population.

Academic Advising and Career Development

The Student Success Centers offer USM students an integrated approach to academic advising and career development. Student Success Advisors provide academic advising and career planning assistance to support the development and achievement of students' educational and career goals. The Internship and Career Placement office in Payson Smith Hall serves as a clearinghouse for information regarding internship opportunities, service-learning opportunities, and assistance with the job search process.

Following orientation and initial registration, students, during their first semester at the University, are assigned a permanent advisor within their respective academic departments. Students are encouraged to maintain close contact with their department advisor once this assignment has been made.

Students who have not declared a major are provided academic advising by professional Student Success Advisors in USM's Student Success Centers. Student Success Advisors assist students in the development of educational and career goals as well as the selection of an appropriate major. Students should be ready to declare a major before completing 60 credits of coursework at the University.

Students admitted to GO are provided academic advising through the Student Success Centers. Student Success Advisors work with students during the period they complete required coursework. The Student Success Advisor works with students to develop individual academic support plans. Upon completion of the requirements of the academic support plan, students are transitioned from GO and also assigned an advisor in his or her major department.

Non-matriculated students are students who are enrolled in courses at the University on a space available basis and who have not applied for admission. They are advised by the advisors in the Student Success Centers.

The USM Early Study–Aspirations Program offers opportunities for high school students to take college courses to enrich their high school experience. The program is designed to help students supplement, not supplant, the academic program of the high school. Academic requirements must be met, and permission from high school and parent(s) is expected. Financial assistance is available. For more information call (207) 780-4040.

Students who have questions regarding general academic policies and procedures, as well as about other aspects of University programs, are encouraged to contact one of USM's Student Success Centers in 119 Payson Smith Hall on the Portland campus (780-4040), 119 Bailey Hall on the Gorham campus (780-5652), and 119 Lewiston-Auburn College in Lewiston (753-6500). The Internship and Career Placement office is located in 122 Payson Smith Hall on the Portland campus.

University Libraries

The University Libraries provide a full range of services in person and virtually via the Libraries' Web site at library.usm.maine.edu. The Library staff is dedicated to supporting student success and has an active information literacy program to assist students with finding, analyzing, and using information.

In Portland, the Albert Brenner Glickman Family Library is located at the corner of Forest Avenue and Bedford Street, with its new entrance facing University Commons. The Gorham Library and Information Commons is located in Bailey Hall. The Lewiston-Auburn College Library and Commons is located in the center of the Lewiston-Auburn College building. During fall and spring semesters, the Portland and Gorham libraries are open seven days a week for 96 hours. The Lewiston-Auburn College Library is open Monday-Saturday for a total of 62.5 hours. The Libraries offer a wide range of services, both in person and virtually through the Web site. Services include circulation, course reserves, information and research assistance, instruction in using library resources, Internet and database searching, and interlibrary loan. For full information on the Libraries' resources and services, visit the Web site at library.usm.maine.edu.

The collection of the USM Libraries contains 1.5 million items, including access to a large number of electronic information resources, over 200 databases and 27,000 electronic journals; approximately 450,000 print volumes; 3,000 subscriptions to print periodicals, journals, newspapers, and yearbooks; over 785,000 microforms; more than 130,000 state and U.S. government documents; and over 4,000 DVDs and videotapes. Included in the Library's special collections is the Osher Map Library and Smith Center for Cartographic Education, the only separately established history of cartography library in northern New England. The cartographic collections contain fine examples of original maps, atlases, geographies, and globes spanning the years 1475 to the present. The original materials of some 60,000 maps are augmented by a 4,000-volume reference collection of related works. The USM Libraries also includes the Special Collections Department which consists of a rare books and manuscripts collection, the University Archives, and the Jean Byers Sampson Center for Diversity in Maine, which includes the African American; the Lesbian, Gay, Bisexual, and Transgender; and the Judaica Collections. The rare book collections include textbooks, movable books, children's literature, American political history from the 17th to the 20th centuries, and a book history collection that spans five centuries with books from Medici Italy to American 20th-century fine press.

Supplementing these collections are the more than one million print titles held in the libraries of the other campuses of the University of Maine System, along with the Maine State Library, the state's Law and Legislative Reference Library, and the Bangor Public Library. The holdings of these libraries are available to the USM community through the easily accessed online catalog and our interlibrary lending system. MaineCat brings the collections of many Maine academic, public, and special libraries into one catalog, and is also accessible online. Holdings of MaineCat libraries, which include collections from public and college libraries, are available through online request to the USM community. The Libraries offer a variety of individual and group study spaces, over 150 student computers, and wireless access for USM students, faculty, and staff.

Computing Services

The Computing Services departments provide a variety of technology support services to students, faculty, and staff at the University.

Computer labs for general student use are located on the Gorham, Lewiston-Auburn, and Portland campuses and in the University Libraries. The computer labs have Microsoft Windows and Apple Macintosh computer systems, and academic software applications. Black and white or color printing is available for a nominal fee using the USM Card. Computer classrooms are available on all three campuses for class activity periods.

Resident students are provided an Internet connection in each room as part of their room package. The ResNet program, located in Bailey Hall, Gorham, assists with setup and maintenance of the resident student computers on a walk-in and appointment basis. A walk-in and call-in Helpdesk, located in Luther Bonney Hall, Portland, assists all faculty, staff, and students with computer problems, including some common University login, e-mail, and Internet problems. Assistance can be requested by phone at 780-4029, by e-mail at helpdesk@usm.maine.edu, or on the Web at www.usm.maine.edu/computing. The Campus Computer Store, located in Luther Bonney Hall, Portland, sells computers and accessories at educational discount rates to faculty, staff, and students. In addition discounted high speed Internet service from Time Warner is available to faculty, staff, and students.

More information about any of the services offered by Computing Services can be found at www.usm.maine.edu/computing, 780-4029, or e-mail to helpdesk@usm.maine.edu.

Instructional Technology and Media Services

The Instructional Technology and Media Services (ITMS) Department provides classroom and instructional technology support for the academic programs of the University. This support includes group or individual sessions on instructional applications of technology in Portland, Gorham, or Lewiston-Auburn.

Other services include the delivery and maintenance of classroom equipment on all three campuses. The Department maintains a collection of non-print materials, with electronic listings available on the USM Web site (www.usm.maine.edu/itms). ITMS staff are available to help with the rental of materials for classroom use.

Offices are located at 232 Luther Bonney Hall in Portland, (207) 780-4280, 3 Bailey Hall in Gorham, (207) 780-5356, and LAC Library Commons in Lewiston-Auburn, (207) 753-6540.

Academic Assessment

The Office of Academic Assessment coordinates the administration of various testing programs, such as USM's Mathematics Placement Program (e.g., Accuplacer Math Tests) for incoming and transfer students, in addition to certification and national tests for graduating students (e.g., Miller Analogies Test, GRE Subject Tests, LSAT, PRAXIS, and others). Students are encouraged to contact the office for further information at 253 Luther Bonney Hall, Portland campus and visit our Web site for test registration and schedules at www.usm.maine.edu/assessment.

The Office also conducts student assessment studies and student surveys, assists departments in evaluating courses and programs, develops tests and assessment instruments, and provides technical support to the faculty.

Support for Students with Disabilities

The Office of Support for Students with Disabilities (OSSD) provides a wide range of services to qualified students with sensory, mobility, physical, psychological, cognitive, learning and attention disabilities enrolled in USM credit and noncredit bearing courses and programs. Contact OSSD for information regarding particular needs. Documentation may be required. The office is located in 242 Luther Bonney Hall, Portland; 207-780-4706 or TTY 207-780-4395 or visit our Web site: www.usm.maine.edu/ossd.

Learning Assistance and Tutoring: The Learning Commons

The University's learning assistance program includes developmental coursework in mathematics, learning strategy courses, and tutoring found in the Learning Commons within the University Libraries. The developmental course (MAT 009) provides students with instruction to help them achieve college level readiness in mathematics. Learning Commons offers tutoring in writing, mathematics, and English for Speakers of Other Languages. The Academic Self-Management course (FRS 180) offers learning strategies to assist students with study skills and the transition into higher education and the information course (FRS 197) offers students the opportunity to go beyond Google and recognize when information is needed, how to locate, evaluate, and effectively use the need information.

FRS 180 Academic Self Management

This learning strategy course explores the six major control components that usually contribute to high academic achievement: motivation, methods of learning, use of time, monitoring of performance factors, and relationships to both physical and social environment. Presentations and readings involving learning research and theory are interconnected to student participation, assessment, and self-monitoring activities. Students will engage in the self-management and self-prescriptive process to determine what specific academic behaviors will best assist individual academic performance. Students must be registered in at least one other college course in order to provide an application-practice field. Cr 3.

FRS 197 Information Power Unleashed

This course unleashes the power of information, channeling students into a veiled world in which they will explore how to recognize when information is needed and how to locate, evaluate, and effectively use the needed information. Topics will include basic computing skills, Web evaluation, locating and using books, articles and other media, critical thinking, plagiarism, citation style, primary and secondary sources, Boolean searching, and basic considerations in the writing process. Students will use USM library resources and those of other U.S. libraries and will be given a glimpse into the shadowy world of librarianship. Cr 1.

MAT 009 Developmental Mathematics

A review of fundamental topics of arithmetic needed for a study of algebra. This course will cover the following topics: addition, subtraction, multiplication, and division of fractions; use of decimals and percent; estimation; addition, subtraction, multiplication, and division of real numbers; exponents; order of arithmetic operations; distributive property; combining like terms; substitution to evaluate expressions and formulas; grouping symbols; addition and multiplication principle; formulas; sets; solving equations with fractions; translating English phrases into algebraic expressions; and solving word problems using geometric formulas. Successful completion of the course and the course exit exam at a C level (75%) or higher is required. Credit earned in MAT 009 does not apply or accumulate toward any degree program nor contributes to the GPA at the University of Southern Maine. After successful completion of MAT 009, students must then complete MAT 101B (College Readiness Mathematics) to fully meet college readiness in mathematics or place out of the math college readiness courses via a retake of the math placement exam. Cr 3.

University Life and Student Services

The following programs and services are dedicated to supporting student learning and success. These programs and services support students during your educational experience and join the academic process in expanding the University experience for all students. More detailed information about student programs and services is available at individual Web sites and /or offices listed below. Questions regarding all areas in this section may be addressed to Craig Hutchinson, 780-4035, or craigh@usm.maine.edu.

Athletics

Athletics is an exciting part of student and university life at the University of Southern Maine. Few institutions can match the success of the Huskies' nationally recognized non-scholarship athletic program.

Nine different teams and countless individual performers have participated in national championship competitions, highlighted by the Huskies baseball team that captured the NCAA Division III National Championship in both 1991 and 1997. The women's basketball team has played in the four-team national championship tournament five times since 1998. Annually, several USM teams achieve a national ranking and qualify for postseason play sponsored by the NCAA or ECAC.

Student-athletes experience personal growth by being part of a team and by participating in competition. Through involvement in intercollegiate athletics and interaction with a nationally recognized coaching staff, student-athletes are challenged physically, mentally, and emotionally.

USM student-athletes are supported in their efforts to excel with a strong system of academic support services which include mandatory study hours for freshmen and progress checks with University faculty members. The Department of Athletics offers an 18-credit hour coaching certificate program that prepares individuals to coach at all levels. For more information about the coaching certificate courses, please visit www.usm.maine.edu/athletics or contact Meredith Bickford, 780-5997, or mbickford@usm.maine.edu.

USM sponsors 23 intercollegiate sports: 11 for women, 10 for men, and 2 coed offerings. They include men's cross-country, women's cross-country, field hockey, golf, men's soccer, women's soccer, men's tennis, women's tennis, women's volleyball, men's basketball, women's basketball, cheering, men's ice hockey, women's ice hockey, men's indoor track, women's indoor track, wrestling, baseball, men's lacrosse, women's lacrosse, softball, men's outdoor track, and women's outdoor track. In addition to the 23 varsity programs, the Recreational Sports Department also sponsors club sports teams in men's volleyball, sailing, dance, and men's hockey.

The Huskies compete in the Little East Conference, an eight-member conference comprised of public institutions in New England and recognized as one of the most competitive Division III conferences in the nation. For more information, please call (207) 780-5430 or visit www.usm.maine.edu/athletics.

Gorham Recreation and Fitness

The Gorham Recreation and Fitness Center offers many recreational activities regardless of skill level or previous experience. Team sports may include flag football, volleyball, basketball, ultimate Frisbee, six-on-six soccer, softball, volleyball, floor hockey, and arena football. Individual activities may include tennis, table tennis, darts, badminton, three-point shoot-out, free-throw competition, and nine-ball pool tournament. The ice arena has made ice hockey, broom ball, and free skating available to numerous groups. The fitness facility includes universal machines, free weights, and cardiovascular machines. Group exercise classes, personal fitness consultations, and a variety of other workshops are offered as well. White-water rafting, deep-sea fishing, and whale watching activities as well as trips to see the Red Sox, Bruins, and Celtics are frequently organized. For more information call 780-5649 or stop by the office located in 102 Hill Gym, or visit www.usm.maine.edu/recsports.

Sullivan Recreation and Fitness Complex

The Sullivan Recreation and Fitness Complex is a multi-purpose facility designed with fitness and recreation interests in mind. The main gym has three courts lined for basketball, indoor tennis, badminton, and volleyball. It also offers indoor jogging. There are squash, wallyball, and racquetball courts, and two multi-purpose rooms for aerobics, dance, yoga, martial arts, and more. The Fitness Centers offer Selectorized Power circuit stations, free weight equipment, treadmills, exercise bikes, steppers, climbers, elliptical fitness cross trainers, rowers, and stability balls. Equipment for wallyball is available for sign-out. A range of programs designed for busy commuters is available: aerobics, yoga, martial arts, racquetball, introductory dance classes, personal fitness consultations, and relaxation workshops. Outdoor recreation clinics and trips include camping, canoeing, cross-country skiing, sea kayaking and more. For more information, call 780-4939 or stop by the office in 104 Sullivan Complex or visit www.usm.maine.edu/sullivancomplex.

USM Public Safety

The USM Public Safety is responsible for keeping the peace, preventing crime, and delivering a variety of services including security and crowd control, crime investigation, 24-hour campus safety coverage, management of parking and transportation, escort services and educational programs. Offices are located on the Gorham campus, and at the Sullivan Center on the Portland campus. Call 911 from a campus phone or 780-5211. To register for USMALERT emergency messages, go to www.usm.maine.edu/USMALERT.

Parking and Transportation

Shuttle Bus Service

The University provides a shuttle bus that runs between Portland and Gorham Monday through Saturday during the fall and spring semesters. Schedules are provided upon request from the Parking and Transportation Office at the entrance to the parking garage (Portland), by calling 780-4718, or on our Web site at www.usm.maine.edu/police/bus.htm.

Parking

Anyone parking on campus is required to display a valid USM parking decal or permit. Decals or permits are available at the Parking and Transportation Office located inside the parking garage on Bedford Street in Portland and at USM Public Safety on the Gorham campus. Copies of the University motor vehicle rules are available at both locations and online at www.usm.maine.edu/police/parking.htm.

University Health and Counseling Services

USM students or University of Maine law students paying the student health fee may use Health and Counseling Services. All information gathered in the University Health and Counseling Centers is held in confidence. No information is released to University officials, faculty members, parents, friends, or outside agencies except upon written request of the student.

Student Health Fee

Each semester, students who take six or more credits are automatically assessed a health fee. This fee entitles students to unlimited free office visits in the University Health Center and 12 free counseling sessions in University Counseling Services. Students taking three to five credits may opt to pay the health fee in the first four weeks of the fall or spring semester. An optional summer health fee or fee-for-service arrangement is also available. The health fee is not health insurance. To purchase health insurance, contact University Health Services for information about the USM Student Health and Accident Insurance.

University Health Services

University Health Services is staffed by skilled professional nurses, certified nurse practitioners, and physicians who understand college health issues, student budgets, and student diversity. Services available include: required immunizations, diagnosis and treatment of health problems; physical exams, athletic exams, work physicals, gynecological exams; lab services and tests; flu shots; consultations and referrals; travel information; self-care cold clinic and safer sex supplies; health screenings; communicable disease surveillance; and work study or volunteer opportunities.

For information, call 780-5411, or TTY 780-5646. The immunization hotline is 780-4504. Additional information available at www.usm.maine.edu/health.

University Counseling Services

The staff of licensed clinicians and graduate interns at University Counseling Services offer short-term counseling to undergraduate and graduate students. These services include crisis/emergency assistance; personal counseling (individuals, couples, multicultural, and groups); and referral services. Consultation services and workshops are also available to student groups, the faculty, and other staff members.

The offices are located in Room 105 Payson Smith Hall in Portland and Room 110 Upton Hall in Gorham. Hours are Monday through Friday, 8:00 a.m. - 4:30 p.m. For more information, call 780-4050. For information about counseling services at Lewiston-Auburn College, please call 753-6500. Information is also available at www.usm.maine.edu/health.

Wellness Resource Center

The Well is a resource center dedicated to helping USM students develop and increase their awareness of every aspect of wellness. The Well is a hub for educational resources, advocacy, and programs about many wellness topics. In addition, substance abuse prevention and intervention services (BASICS: Brief Alcohol Screening and Intervention for College Students) and resources are provided. Located on the Gorham campus in Upton 113, 780-5375.

Commuter Services

Support services for commuter students including off-campus housing options, parking and transportation information, and more are available in the Woodbury Campus Center, Portland, 228-8200, and at www.usm.maine.edu/commuter.

Off-Campus Housing

Listings of available rooms, roommates, and apartments for students who wish to live off-campus are maintained on the Web site at www.usm.maine.edu/commuter.

Woodbury Campus Center

The Woodbury Campus Center serves as the “living room” of the Portland campus, with campus dining, bookstore, ATM, and many other services available. Also located in the Woodbury Campus Center is the Area Gallery, the Women’s Resource Center, the Center for Sexualities and Gender Diversity, the Student Involvement and Activities Center, Student Government Offices, Student Legal Office, and Multicultural Student Center. Contact the Woodbury Campus Center administrative offices at 228-8200 or visit www.usm.maine.edu/commuter.

Department of Residential Life and Resident Education

The Department of Residential Life and Resident Education supports the University's educational mission by making sure that students can be successful in their pursuit of an academic degree. We provide clean, safe, and attractive living and learning environments for our students.

Residence Halls

The University provides housing for approximately 1,500 students in seven residential facilities in Gorham. Accommodations are coeducational and offer convenient access to classes and campus events. Students living on campus may choose to apply to live in one of our special interest housing areas or living-learning communities.

For more information, contact the Department at 780-5240, or visit 100 Upton Hall in Gorham; e-mail: reslife@usm.maine.edu, or visit www.usm.maine.edu/reslife.

Brooks Student Center

The Brooks Student Center (BSC) serves as the "hub" for student life in Gorham. Whether you want to relax and study, grab a snack, or attend an event, BSC has something for you. BSC amenities include 24/7 access ATM and cash-to-card machines, campus bookstore, student mailboxes, computer stations, lounge space, bulletin boards, and three campus dining locations: the Real Food on Campus Dining Hall, the Husky Hideaway, and the Brooks Convenience Store. BSC is also home to the Office of Campus Involvement and Activities. For more information, contact (207) 780-5081.

Dining Services

Dining facilities are located on all campuses. In Gorham, Dining Services are provided in the dining hall and snack bar in the Brooks Student Center as well as the Ice Arena Kiosk, Bailey Hall Kiosk, and the Brooks Student Center Convenience Store. In Portland, options include the Food Court in the Woodbury Campus Center, University of Maine School of Law Café, and the Café in the lobby of Luther Bonney Hall. The Lewiston-Auburn campus features Café-LA.

Honor Societies and University Scholarships and Awards

The University is affiliated with several national honor societies. A partial list follows. For more information contact the academic area indicated. For general assistance call the Division of Student and University Life at 780-4035.

- Beta of Maine Chapter of Alpha Kappa Delta (sociology)
- Phi Kappa Phi (a national interdisciplinary honor society)
- Golden Key International Honour Society (an international interdisciplinary honor society)
- Gamma Theta Upsilon (geography)
- Kappa Zeta-at Large Chapter of Sigma Theta Tau (nursing)
- Psi Chi (psychology)
- Phi Sigma Iota (foreign language)
- Eta Mu Chapter of Phi Alpha National Social Work Honor Society
- Phi Sigma Alpha (political science)
- Phi Alpha Theta Chapter of Alpha Gamma Phi (history)
- Phi Delta Kappa (education)
- Chi Tau (biological sciences)
- Beta Gamma Sigma (business/accounting)

General Scholarships and Awards The University awards a substantial number of grants and scholarships to students continuing their studies at USM. Some are specific to a particular area of study, and others are based on students' general achievements both inside and outside of the classroom. For more information, visit www.usm.maine.edu/fin.

Greek Life

Greek letter organizations offer students the opportunity to participate in an alternative community emphasizing leadership, community service, academic achievement, and self-governance. Seven social fraternities and sororities are affiliated with USM. For more information about Greek organizations and getting involved at USM, call the Student Involvement and Activities Center, 780-4090.

Student Government and Organizations

The Student Government Association, comprised of a student body president and a 21-member student senate elected by undergraduates, is the principal governing body for students. A student activity fee, collected from each undergraduate student, is used by the senate to pay for undergraduate activities. More than 50 recognized student organizations welcome involvement.

Students interested in journalism, literature, or broadcasting may join the staff of the University Free Press, a weekly student newspaper; Words and Images, a literary magazine; or WMPG-FM, the USM community radio station. Students interested in TV production can become involved in USM's own cable TV station, G-TV, located on the Gorham campus.

Students are encouraged to take advantage of cultural activities, speakers, and special events available free or at minimal cost. For more information about student organizations and getting involved, call the SGA office at 228-8510.

Student Involvement and Activities Center

The Student Involvement and Activities Center provides support services for USM students and student organizations. From USM Welcome and Homecoming, to a variety of student clubs and other community-based events, the office helps students get involved in the USM community. Leadership development opportunities are also facilitated through the Centers. Offices are in the Woodbury Campus Center, Portland (780-4090), or Brooks Student Center, Gorham (780-5081).

Office of Community Standards

While at the University, students are expected to conduct their affairs with proper regard for the rights of others and of the University. All members of the University community share a responsibility to maintain an environment where actions are guided by respect, integrity, and reason. When standards of conduct are violated, the University relies upon the Student Conduct Code. It is the responsibility of the Office of Community Standards to protect the campus community from disruption and harm by offering a program of educational discipline and by enforcing the Student Conduct Code. If students violate a state or federal law or a University regulation, they may be subject to state, federal, or University disciplinary action. In the enforcement of the Student Conduct Code, the University functions in an administrative manner. For a complete copy of the Student Conduct Code, check the Office of Community Standards Web page, www.usm.maine.edu/ocs, or call 780-5242.

Women's Resource Center

The Women's Resource Center provides advocacy, leadership, and educational programming for women attending USM. The center offers a safe, comfortable, and relaxing space for women to meet each other, engage in discussion, and explore the numerous resources, programs, activities, and groups available. The Resource Center provides outreach to the diversity of women at USM in the form of programming, consultation, trainings, and leadership development. The Center also is the home of an extensive lending library of books and articles about a variety of issues as well as women's history, feminist philosophy, fiction by women, and much more. The Women's Resource Center, located in the Woodbury Campus Center in Portland, works collaboratively with student groups, University departments, and the wider Maine community to address the wide range of issues important to women, focusing on the personal, academic, career, economic, and leadership development for women. For more information, call 780-4996.

Center for Sexualities and Gender Diversity

The University of Southern Maine's Center for Sexualities and Gender Diversity seeks to ensure a University environment that is positive, safe, and supportive for members of the gay, lesbian, bisexual, transgender, questioning, and allied (GLBTQA) community. Through a series of educational opportunities, support services, and advocacy work, the program works collaboratively with students and student groups, University organizations and departments, and the greater community. The program also oversees the USM Safe Zone Project, a program that conveys an inclusive message to the University community. Safe Zone Project volunteers attend a short orientation program and then display a rainbow-striped sticker with the words "safe zone USM." This shows that they are committed to being identified as safe and supportive contacts for GLBTQA students, faculty, and staff members. For more information on these programs, please call 228-8235 or visit www.usm.maine.edu/glbqtqa.

Community Service and Civic Engagement

The Office of Community Service and Civic Engagement is a clearinghouse and a resource for students, faculty, and the community to promote civic engagement, including community service, service-learning, and certain internship opportunities. Students will find support for community service, including current opportunities based on community needs, project development help, connections to service for academic credit, and work-study jobs and leadership opportunities including an AmeriCorps Service Leaders Program. Faculty can receive support in developing service-learning options, ranging from single assignment projects to semester-long projects. Community organizations and agencies work through the office to access volunteers, interns, and service leadership from the USM student community. The office is located in the historic Alumni House at 23 Brighton Avenue in Portland; phone 228-8091, e-mail community@usm.maine.edu, or visit www.usm.maine.edu/studentlife/communityservice.

Interfaith Chaplaincy

The Chaplaincy offers programs and services to support religious and spiritual life in all its expressions. "The Spirit of USM" program series explores a different aspect of spiritual life each year. Associate chaplains sponsored by their respective faith communities offer services to students and student groups in religious or spiritual traditions, and work together to offer programs encouraging spiritual life and interfaith dialogue. A space is provided for reflection, meditation, or prayer for individuals and groups. This space and the office of the interfaith chaplaincy are located in the historic Alumni House at 23 Brighton Avenue in Portland; phone 228-8093, e-mail interfaith@usm.maine.edu or visit www.usm.maine.edu/studentlife/interfaith.

Office of Equity and Compliance

The Office of Equity and Compliance is committed to ensuring that all units of the University foster a respectful, inclusive, and fair campus environment, free from discrimination and harassment. The Office oversees the University's compliance with affirmative action, sexual harassment, disability, and other civil rights statutes and policies and assists search committees in conducting equitable processes in the recruitment of faculty and staff. The goal of the Office is to prevent discrimination or harassment from occurring and to provide an effective means of raising and promptly resolving complaints. If an individual has a question, concern, or complaint about discriminatory harassment, he or she should contact the Office at 780-5510 or by TTY at 780-5646. For a complete copy of the policy, additional information, or to express concern about sexual harassment, call the Office of Equity and Compliance at 780-5510, the Maine Human Rights Office, 851 State House Station, Augusta, ME 04333-0051, 624-6050 or the Office of Civil Rights, U.S. Department of Education, Region 1, John W. McCormack Post Office and Courthouse Building, Boston, MA 02109, (617) 223-9692.

Multicultural Student Affairs

This office is dedicated to increasing the awareness and appreciation of the many diverse cultures and ethnicities at USM through programming, dialogue, and cultural events. It supports African/African-American, Latino/a, Asian/Asian-American, and North American Indigenous students to achieve their career and perceived goals. Multicultural Student Affairs is the home

of the Multicultural Center, the North American Indian Tuition Waiver and Scholarship Program, and the *Culture Beat* newsletter.

The Multicultural Center is dedicated to providing a supportive and diverse environment for the USM community. The Center helps create community for racially and/or ethnically underrepresented students, where cultural activities and celebrations occur and affiliated student organizations meet. Through its programming, the Center explores critical issues about race, class, ethnicity, nationality, and culture.

The Center is open to the entire USM community. However, the Center has a unique role with regard to the support of students from marginalized communities and cultures. The office is located in the Woodbury Campus Center in Portland. For more information, call 780-4006 or visit www.usm.maine.edu/eoo/culture.

Policies

In addition to the Student Conduct Code, USM has a number of important University policies that govern campus life. Copies of the University of Maine System Conduct code and copies of all policies may be obtained through the Office of Community standards. Visit www.usm.maine.edu/ocs, or call 780-5242.

HIV/AIDS Policy

The USM HIV/AIDS policy has been established to protect the rights of individuals infected with HIV (Human Immune Deficiency Virus) and the health and safety of all others at the institution. USM will not discriminate in any manner against any person who is infected with HIV, including admissions, facilities access, hiring, housing, promotion, tenure, or termination. USM will not require HIV testing for either its students or employees, and information about suspected or known HIV infection will be kept confidential. For more information or advice regarding this policy, call 780-4211.

Alcohol and Substance Abuse Policy

The University of Southern Maine views alcohol and substance abuse as a serious problem both nationally and on-campus and wishes to do everything possible to address it. In compliance with the Drug Free Schools and Communities Act and the Drug Free Workplace Act passed by Congress, the University electronically informs all students and employees of the University's substance abuse policy, sanctions for violation of the policy, state and federal alcohol and drug laws, offenses, and sanctions. Below is a summary of USM's alcohol and substance abuse policy.

The possession, use, or distribution of illegal drugs, as defined by federal, state, and local statutes, is prohibited at any time on University property. Students who possess, use, or distribute illegal drugs are liable for public law enforcement sanctions and University disciplinary action. Use of alcoholic beverages on University property shall be in compliance with state laws and campus regulations and procedures. Violation of such laws, regulations, and procedures may result in disciplinary action and, where applicable, criminal proceedings.

University Counseling Services and University Health Centers provide access to substance abuse services for students at USM. Through the assessment process, the student and counselor work together to determine the most appropriate level of care. Available services include individual substance abuse counseling, group therapy, and educational groups. The counselor and student may also decide together that referral to a support group or a more intensive level of treatment in the community would be the best option. For more information or to schedule an appointment, call University Counseling at 780-4050 or University Health at 780-4211.

Hazing

Injurious hazing is prohibited by Maine state law and University of Maine System policy. No person or organization shall create a situation that recklessly or intentionally endangers the mental or physical health of a student. Any civil or criminal action shall be in addition to any disciplinary action taken. For more information, contact Office of Community Standards 780-5242 or visit www.usm.maine.edu/ocs.

Sexual Harassment Policy

Sexual harassment of either employees or students is a violation of federal and state laws. It is the policy of the University of Southern Maine that no member of the University community may sexually harass another. In accordance with its policy of complying with non-discrimination laws, the University of Maine System will regard freedom from sexual harassment as an individual employee and student right which will be safeguarded as a matter of policy. Any employee or student will be subject to disciplinary action for violation of this policy. Sexual advances, requests for sexual favors, and other verbal or physical contact of a sexual nature constitute sexual harassment when: 1) submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or education; or 2) submission to or rejection of such contact by an individual is used as the basis for academic or employment decisions affecting the individual; or 3) such conduct has the purpose or effect of interfering with an individual's academic or work performance or creating an intimidating, hostile, or offensive employment, educational, or living environment.

Consenting relationships may constitute sexual harassment under this policy. When a professional power differential exists between members of the University of Southern Maine and a romantic or sexual relationship develops, there is a potential for abuse of that power, even in relationships of apparent mutual consent. A faculty or staff member should not engage in such relationships. Further, the University prohibits the abuse of power in romantic or sexual relationships.

To assure that power is not abused and to maintain an environment free of sexual harassment, a faculty or staff member must eliminate any current or potential conflict of interest by removing himself or herself from decisions affecting the other person in the relationship. Decisions affecting the other person include grading, evaluating, supervising, or otherwise influencing that person's education, employment, housing, or participation in athletics or any other University activity. It is the policy of the System to ensure fair and impartial investigations that will protect the rights of persons filing sexual harassment complaints, the persons complained against, and the System as a whole.

For a complete copy of the policy, additional information, or to express concern about sexual harassment, call the Office of Campus Diversity and Equity at 780-5094 (TTY 780-5646), or the Office of Civil Rights, U.S. Department of Education, Region 1, John W. McCormack Post Office and Courthouse Building, Boston, MA 02109, (617) 223-9692.

Sexual Assault Policy

The University of Southern Maine expressly prohibits and will not tolerate any sexual assault or sexual misconduct as defined by USM policy. These behaviors all constitute violations of the Student Conduct Code and will be met with appropriate sanctions, up to and including dismissal. Many are also violations of Maine law and may be prosecuted criminally.

For a complete copy of the University of Southern Maine Sexual Assault Policy, call the Office of Community Standards, 780-5242 or visit www.usm.maine.edu/ocs/assaultpolicy.html.

When sexual assault has occurred, it is important to tell someone who can be trusted. Campus resources include USM Police, Student and University Life staff and other University faculty and staff, academic advisers, Resident Assistants (RAs), Resident Directors (RDs), Greek Advisor, and athletic coaches. Off-campus community resources include local hospital emergency rooms, rape crisis centers, and local police departments.

Stalking and Relationship Abuse Policy

The University of Southern Maine expressly prohibits and will not tolerate any stalking or relationship abuse as defined by USM policy. These behaviors all constitute violations of the Student Conduct Code and will be met with appropriate sanctions, up to and including dismissal. Many are also violations of Maine law and may be prosecuted criminally.

For a complete copy of the University of Southern Maine Sexual Assault Policy, call the Office of Community Standards, 780-5242 or visit www.usm.maine.edu/ocs/rvspolicy.html.

When sexual assault has occurred, it is important to tell someone who can be trusted. Available Resources

University Health Services

Medical assessment and follow-up, testing for sexually transmitted diseases and pregnancy. In Portland (modular unit next to Sullivan Gym), 780-4211 or in Gorham (Upton Hall), 780-5411.

University Counseling Services

Counseling for student-victims and students related to victims. In Portland (106 Payson Smith), or in Gorham (Upton Hall), 780-4050.

USM Police Department

Services: The USM Police, the 24-hour police department. In Portland, 780-5211, and at Lewiston-Auburn, 780-5211. In Gorham (Basement, Upton Hall), 780-5211, or Emergency 911.

Office of Community Standards

Services: Consultation and filing complaints of violations of the student conduct code. In Gorham (125 Upton Hall), 780-5242.

24-hour Community Crisis Centers: May include medical accompaniment to hospital emergency rooms for rape kit/forensic exams, anonymous hotline counseling and referral services, legal advice, and courtroom accompaniment if charges are pressed.

Sexual Assault Response Services of Southern Maine
(Cumberland and York Counties) 774-3613, 1 (800)313-9900
Sexual Assault Support Services of Midcoast Maine 1 (800) 822-5999
Lewiston-Auburn Sexual Assault Crisis Center..... 795-2211
Augusta Sexual Assault Crisis and Support Center 626-0660, 1 (800) 421-4325
Statewide Sexual Assault Hotline 871-7741
(will route calls to nearest center)

The USM Core Curriculum

Students with catalog year (requirement term in Maine Street) prior to 2011 should consult the corresponding catalog edition: Catalog Archives

Vision and Goals

The USM Core Curriculum is a coherent, integrative, and rigorous liberal education that enables our graduates to be world-minded, intentional, life-long learners. The USM Core engages the academic community in learning experiences that both illuminate and transcend the perspectives of various disciplines. It systematically fosters the values and dispositions, knowledge, and skills that prepare students for successful citizenship in a complex and dynamic world.

You USM Core education enables you to

- Demonstrate informed understanding of interrelationships between human cultures and the natural world
- Engage in analytical, contextual and integrative thinking about complex issues
- Demonstrate effective communication using multiple forms of expression
- Engage in critical reflection upon and informed action in your roles as a participant in multiple communities; and
- Engage in ethical action and contribute to the social and environmental welfare of local and global communities.

The USM Core enables you to achieve these goals through active learning that occurs both within and outside of the classroom. It provides opportunities and incentives for you to connect your learning in the Core with your chosen major, and providing learning experiences that build knowledge and skills throughout your academic career.

Meeting USM Core Requirements

USM Core Curriculum requirements are met by passing (with a grade of D minus or better) courses that satisfy specific Core requirements. Lists of courses that satisfy the requirements appear at the end of this section of the catalog. Courses satisfying Core requirements also may be found online in MaineStreet by using the general education drop-down menu in class search. This menu lists all core requirement areas. To find a specific course, select the requirement area from the drop-down menu. With the exception of your thematic cluster there is no restriction on the number of overlaps between courses used to meet Core and major requirements. This allows you to connect your learning in the core with your chosen major.

Students matriculated at Lewiston-Auburn College from fall 2007 on will complete the Lewiston-Auburn College Common Core curriculum requirements. For more information about the Common Core curriculum, refer to the Lewiston-Auburn College section of this catalog.

For students in the University Honors Program, some of the USM Core requirements may be met through courses that are part of the Honors Program.

HON 100 College Writing
HON 101 EYE (Entry-Year Experience)
HON 102 Diversity
HON 105 Quantitative Reasoning
HON 202 Cultural Interpretation
HON 103 Socio-Cultural Analysis
HON 201 Scientific Exploration
HON 299 Creative Expression
HON 311
and 312 Capstone

The Honors curriculum does not satisfy the following requirements: Ethical Inquiry, Social Responsibility and Citizenship; International; and the Thematic Cluster Courses.

Students in the Russell Scholars Program should consult with their Russell Scholars mentor concerning the use of Russell Scholars courses to satisfy USM Core requirements.

USM Core Requirements and Sequencing

USM Core requirements are sequenced. Students should pay careful attention to the associated course pre- and co-requisites in planning their course of study.

Entry Year Experience

All new, entering students with fewer than 24 transfer credit hours must complete an EYE course in their first semester. Students in Honors or in Russell Scholars may complete their EYE requirement by taking one of the HON or RSP courses listed in the EYE course list below. Students matriculated in a Lewiston-Auburn College major or students who have completed an EYE equivalent at another institution are not required to complete the EYE requirement. Pre -requisite: College Writing (may be taken concurrently).

College Writing

All students must complete a College Writing course, either at USM or in transfer. College writing is a pre/co-requisite for the Entry Year Experience requirement. The College Writing requirement can be met in any one of three ways:

1. Successfully complete ENG 104, ENG 100, ENG 101, ESL 100, HON 100, LCC 110, LCC 111, RSP 100, or RSP 104

2. Score 500 or above on the CLEP General English Composition Test (See Prior Learning Assessment for details) 3 credits
3. Earn credit for the requirement through AP or transfer (see Prior Learning Assessment or Transfer Admissions for details).

Note: Students whose SATs fall below 520 must register for ENG 104C. Non-native English speakers whose SATs fall below 550 or whose TOEFL score is below 79 must take the ESOL program's placement test before registering for an English class. See the Academic Policies section of the catalog for more information.

Quantitative Reasoning

The Quantitative Reasoning requirement can be met in one of three ways:

1. Pass a locally administered examination (no credit)
2. Successfully complete an approved quantitative reasoning course
3. Pass a CLEP examination in mathematics (see Prior Learning Assessment Office for details).

Note: a. Students must meet USM's mathematics readiness requirement before registering for a Quantitative Reasoning course. b. Students whose majors do not require a specific mathematics course should consult their major advisor or a Student Success Advisor for guidance in selecting a course in this area.

Creative Expression, Cultural Interpretation, Science Exploration, Socio-cultural Analysis

These requirements may be completed in any order. Some majors may require completion of particular courses or a particular sequencing of these requirements. Students who transfer in 24 or more credit hours are not required to take EYE prior to registering for these courses.

Creative Expression: prerequisite: EYE (may be taken concurrently in 2011-2012)

Cultural Interpretation: prerequisite: EYE (may be taken concurrently in 2011-2012)

Science Exploration (lecture and corresponding lab): prerequisite: EYE (may be taken concurrently in 2011-2012), and Quantitative Reasoning (may be taken concurrently in 2011-12)

Socio-cultural Analysis: prerequisite: EYE (may be taken concurrently in 2011-2012)

Ethical Inquiry, Social Responsibility, and Citizenship

Prerequisites: Any three of the four requirements of Creative Expression, Cultural Interpretation, Science Exploration, Socio-cultural Analysis. Individual courses in this area may include additional prerequisites. Courses that satisfy the Ethical Inquiry, Social Responsibility, and Citizenship requirement may be found in MaineStreet by using the general education drop-down menu in class search. Some majors may require students to complete specific courses to satisfy this requirement. See the relevant department section of the catalog for more information.

Thematic Cluster or minor

Students may begin their Thematic Cluster at the same time as they are taking Ethical Inquiry, Social Responsibility, and Citizenship. Other prerequisites for courses in the Thematic Clusters vary by course. Please check the individual course listing in the catalog for course-specific prerequisites. A minor may substitute for a cluster if it requires at least fifteen (15) credit hours. Only one-third (1/3) of the credits in the student's minor may be courses that can be applied to the student's major.

Diversity

Prerequisites for courses that satisfy the Diversity requirement vary by course. Please check the individual course listing in this catalog and online in MaineStreet for course-specific prerequisites. Some courses that satisfy the Diversity requirement may also satisfy other Core or major requirements. Students must complete two distinct courses to satisfy the Diversity and International requirements. Courses that satisfy the Diversity requirement may be found online in MaineStreet by using the general education drop-down menu in class search.

International

Prerequisites for courses that satisfy the International requirement vary by course. Please check the individual course listing in this catalog and online in MaineStreet for course-specific prerequisites. Courses that satisfy the International requirement may also satisfy other Core or major requirements. Students must complete two distinct courses to satisfy the Diversity and International requirements. Study abroad involving an academic experience may be used to satisfy the International requirement. Advanced submission or syllabi or other documentation to the Office of International Programs is required to confirm that the program in question satisfies this requirement.

Capstone

Prerequisites include Ethical Inquiry, Social Responsibility, and Citizenship, and other courses as specified by the department. Students should check the section of the catalog associated with their major for information on this requirement.

USM Core Curriculum Regulations

1. The student has primary responsibility for ensuring that she or he completes the minimum college readiness requirements in writing and mathematics and the USM Core curriculum requirements. Undeclared majors should seek advice from the Student Success Centers. Students in the Go program are expected to complete their college readiness requirements as outlined in their academic support plan. Declared majors should consult their college, school, or department advisors.

2. Courses taken to satisfy the Core curriculum requirements may not be taken on a pass-fail basis or audited.
3. Satisfying a core curriculum requirement involves passing (with a grade of D minus or better) an approved course in that requirement area.
4. Overlaps between Core and major requirements: Only one cluster course may overlap with a student's major requirements. For a minor to substitute for the cluster requirement, only one-third of the credits in the student's minor may be courses that can be applied to the student's major. There are no other restrictions on overlaps between core and major requirements except those that may be imposed by the major. See the section of the Undergraduate Catalog corresponding to your major for additional information.
5. Overlaps between Core requirements: Overlaps are permitted between the diversity requirement and other core requirements, and between the international requirement and other core requirements. No other overlaps between Core requirements are permitted. Students must complete two distinct courses to satisfy the Diversity and International requirements.
6. Repeating courses to satisfy Core requirements: A failing grade in an EYE course may be replaced by a passing grade in any EYE course. All other failing grades may only be replaced by a passing grade in the same course. See Academic Policies section of the Undergraduate Catalog for additional information on repeating courses.
7. Waivers of USM Core curriculum requirements may be sought from the Assistant Provost for Undergraduate Programs and Core Curriculum at smcwilms@usm.maine.edu.

Transfer Credits and the USM Core

Students may meet any of their USM Core requirements through transfer, with the exception of the Ethical Inquiry, Social Responsibility, and Citizenship requirement, and the Capstone. Students transferring 84 or more credits may submit for consideration a course that they regard as equivalent to the Ethical Inquiry, Social Responsibility, and Citizenship requirement. This course must have been completed at a four-year college or university and must be at the intermediate level or above. Submissions should be sent to the Assistant Provost for Undergraduate Programs and Core Curriculum at smcwilms@usm.maine.edu.

Ethical Inquiry, Social Responsibility, and Citizenship is our common teaching and learning experience as a community. It is taught by a wide range of our faculty across nearly all of our departments and colleges and is required of all USM students, regardless of transfer credits. This shared experience allows us to develop and sustain common conversations about the issues that matter to us, even in the face of our diverse backgrounds, experiences, and future paths. Students complete their Capstone as part of the usual 30 credit residency requirement and normally as a part of their major requirements.

Students with Catalog Year Prior To 2011

Students whose catalog year (requirement term in MaineStreet) is prior to 2011 may complete the core curriculum requirements consistent with their catalog year, or they may opt to complete the USM Core. To change catalog year students must complete a Change of Catalog form available at the Registrar's Office. Students whose catalog year (requirement term) is fall 2011 or later must complete the USM Core requirements as outlined here.

Courses Approved to Satisfy USM Core Requirements

Lists of courses that satisfy the requirements appear below by requirement area. Please consult with your advisor or use Class Search in Maine Street to determine the availability of these courses in any given semester. Courses satisfying Core requirements may be found in Maine Street by using the general education drop-down menu in Class Search. This menu lists all core requirement areas. To find a specific course, select the requirement area from the drop-down menu.

Entry Year Experience

Entry Year Experience courses engage students in exploration of significant questions about human culture and the natural world. The courses facilitate the students' transition to college by engaging them in active and collaborative learning that enhances their inclination and ability to view complex issues from multiple perspectives.

- EYE 102 Sustainability, Culture and the Environment
- EYE 103 Shopping: American Consumerism
- EYE 105 Life is a Matrix
- EYE 107 HIV/AIDS: Science, Society and Politics
- EYE 108 Culture, Identity and Education
- EYE 109 Gender, Representation and Resistance
- EYE 110 Literature and Medicine
- EYE 111 A World of Words
- EYE 112 The Built Environment: Energy
- EYE 113 The Pleasure of Eating/Animals
- EYE 114 Globalization
- EYE 115 What is Sex?
- EYE 116 Nature-Nurture
- EYE 117 Nature, Society, and Self
- EYE 118 Musician's Health: A Path to Peak Performance
- EYE 121 The Studio Experience: Art and Community
- EYE 122 Creation Stories
- EYE 124 Birth of a Language in Nicaragua

- EYE 125 Getting Down to Business
- EYE 128 Getting Down to Business Lab (concurrent with EYE 125)
- EYE 126 What is Race?
- EYE 127 Friendship
- EYE 180 Create; Innovation Engineering I
- HON 101 Myth, Monsters, and Metamorphoses
- HON 101 Power, Corruption, and Foundings in the Ancient World
- HON 101 The Language of Spiritual Texts: Answering Problems of Violence
- HON 101 Violence, Wisdom, and Dialogue in an Ancient Context
- RSP 103 Culture, Community and the Environment

College Writing

The college writing requirement introduces students to the practices, habits, conventions and skills of college literacy. By using sequenced reading and writing to cultivate the practices and habits of mind that characterize intellectual inquiry and engagement with ideas, the course constructs opportunities for students to learn how thinking and the language that conveys it develop and change through drafting, revision, critical engagement with other writers and readers, re-reading, editing, and proofreading. Reading and interpretation are introduced and reinforced as active practices of textual construction. Similarly, writing is practiced not as a way to demonstrate what students already know, but as a means to discover or create new knowledge. The focus throughout is on revision, both of students' ideas and of the expression and articulation of them. Students learn to compose essays that reflect their own points of view, developed through thoughtful engagement with complex expository readings of some length, and articulated in an essay organized around a thesis and in language relatively free of sentence-level error.

- ENG 100 College Writing
- ENG 101 Independent Writing
- ENG 104 Enriched College Writing
- ESL 100 College Writing
- HON 100 Thinking and Writing in Honors
- LCC 110 Language and Literacies in a 21st Century World
- LCC 111 College Writing: Language and Literacies: Enrichment
- RSP 100 Russell Scholars Writing I
- RSP 104 Enriched College Writing

Quantitative Reasoning

Students in quantitative reasoning courses will acquire introductory mathematical concepts and skills that are necessary for everyday life and to successfully complete their chosen field of study. In quantitative reasoning courses students will gain an awareness of the utility of mathematics in life and an appreciation of the scope and nature of its decision making potential. These skills include critical thinking, mathematical reasoning, the use of technological tools, computation, interpretation, inquiry, and application of mathematical concepts to issues and problems in the contemporary world.

- GYA 202 Research Methods
- HON 105 An Interdisciplinary Introduction to Logic and Mathematics
- LCC 150 Statistics for Informed Decision Making

 THE 135 Stagecraft
 THE 170 Public Speaking
 THE 175 Oral Interpretation
 THE 203 Musical Theatre Dance
 THE 275 Readers Theatre
 THE 334 Costuming

Cultural Interpretation

Cultural Interpretation courses engage students in the close analysis and interpretation of cultural representations to learn how people make sense of themselves and their world. Students critically evaluate and develop arguments about cultural representations or the contexts that produce them or give them meaning.

Science Exploration

To think like a scientist, students must know how science knowledge is created and interpreted. In a Science Exploration course, content should serve as a vehicle to illustrate how experiment, observation and critical evaluation drive scientific understanding and progress. Science literacy and quantitative reasoning skills will be developed as tools to interpret and apply to natural processes. The Science Exploration course should give the student an appreciation of the applications and limitations of a science that investigates natural processes. To satisfy the Science Exploration requirement the student must successfully complete the lecture and corresponding lab.

Socio-cultural Analysis

Socio-cultural Analysis courses engage students in examination of socio-cultural systems and phenomena over time and across cultures. Students learn to use conceptual frameworks that shed light on human behavior in social contexts. This includes examination of influences on and effects of behavior associated with public and private roles students may experience.

Ethical Inquiry, Social Responsibility, and Citizenship

Ethical Inquiry, Social Responsibility, and Citizenship courses focus on a theme that engages students in critical reflection on their responsibilities for informed decision making and action in their public and private roles. They require students to frame, analyze, and evaluate ethical issues, as well as to articulate and evaluate their own viewpoints and actions in relation to the ethical frameworks introduced. Examples of Ethical Inquiry, Social Responsibility, and Citizenship courses are listed below. Full information on courses that satisfy the Ethical Inquiry, Social Responsibility, and Citizenship requirement may be found online in MaineStreet by using the general education drop-down menu in class search. Some majors may require students to complete specific courses to satisfy this requirement. See the relevant department section of the catalog for more information.

ADS 300 Ethics and Youth with Exceptionalities
ESP 200 Environmental Planning
ESP 308 Global Environmental Problems and Sustainability
GEO 209 Introduction to Land Use Planning
LCC 370 Toward a Global Ethics
MUE 310 Proseminar 5 Internship
MUH 329 Devils, Dwarfs, and Dragons
PHI 211 Media Ethics
PHI 275 Compassion
PHI 291 Death and Dying
PHI 294 Work, Society, and Subjectivity

PHI 245 Africa, Social Justice, and Exile
PHI 285 Genetics and Society
PHI 295 Medicine, Madness, and Disease
REL 300 Religion and the Creation of the Human
WST 380 Politics of Difference

Thematic Clusters

Thematic clusters provide students with opportunities to explore an issue, theme or topic from a variety of perspectives. The clusters encourage students to integrate their learning by juxtaposing competing and complementary ways of framing complex issues and problems at a more advanced level. To satisfy the Thematic Cluster requirement students complete three courses in the cluster of their choice. *Courses that satisfy the Thematic Cluster requirement may be found online in MaineStreet by using the general education drop-down menu in class search. A partial list of Thematic Cluster areas is provided below.*

Aging Well
American Society and Culture
Environment and Society
Environmental Policy
Film and Society
Geospatial Technologies
Health and Wellness
Humans and Animals
Modernism
Professional Practices
Religious Experience and Human Culture
Resource Use and Global Change
Theory, Culture and Politics
Things French
War and Peace
Working Class Studies

Diversity

Courses that satisfy the diversity requirement engage students in critical examination of and self-reflection on issues of difference and diversity. In the context of the course topic, the diversity requirement will enhance students' analytic sophistication about issues related to difference and diversity and will foster the interpersonal skills necessary for engaging with diverse populations within the U.S. or in other parts of the world. *Lists of courses that satisfy this requirement are available through in MaineStreet through the general education drop-down menu in Class Search.*

International

Courses that satisfy the international requirement help students become world-minded learners who are knowledgeable about and have a comparative understanding of international social, political, economic or cultural issues in context. Courses that satisfy this requirement develop students' knowledge and skills in relation to international issues of relevance to the course topic and focus. *Lists of courses that satisfy this requirement are available online in MaineStreet through the general education drop-down menu in Class Search.* Study abroad involving an academic experience may be used to satisfy the International requirement. Advanced submission or syllabi or other documentation to the Office of International Programs is required to confirm that the program in question satisfies this requirement.

Capstone

The capstone experience engages students with a significant theme, issue, topic, or problem. The capstone requires the development of a substantial oral, written, creative or applied final project that integrates disciplinary learning with general education and the perspectives of other disciplines. As the concluding experience, the capstone provides opportunities for students to think about how their education at USM, especially in the major, informs their future academic, professional and personal lives. *See the section of this catalog pertaining to your declared major for information on capstone courses.*

University Honors Program

Interim Director: TBA

Assistant Director: Bethany Round

Coordinator: Nan Bragg

Faculty Teaching in Honors: Allen (Philosophy); Bjelic (Criminology); Briggs (LAC/Honors), Caffentzis (Philosophy/Honors), Gavin (Philosophy), Harrison (Geography-Anthropology), Lualdi (History), Moore (Biology), Schmidt (Political Science), Scott (Philosophy); Uzzi (Modern and Classical Languages and Literatures); Vassallo (Political Science)

The Honors Program provides students the opportunity to fulfill many of their Core requirements in a small, rigorous learning community. Students work closely with faculty in seminar-style courses with an average of fifteen students per class. These courses tap and develop the curiosity, creativity, and motivation of every student. All Honors Program work stresses independent/interdisciplinary learning, critical thinking, and the development of skills in research, writing, and oral expression. Honors invites a dynamic mix of traditional and nontraditional age students, current or transfer students (full- or part-time) within any major are eligible for the program and there is no residential requirement. Students may enter at various points in their academic careers in consultation with Student Success/Honors staff and/or faculty mentors. They complete the program with a self-designed thesis capstone project advised by a committee of the student's choosing.

Located at 102 Bedford Street on the Portland campus, the Honors House contains two seminar rooms, a student lounge and faculty/administrative offices. Some courses and labs are taught outside of the Honors House, as necessary.

Honors Program Courses and the USM Core Curriculum

<i>Honors Course</i>	<i>Core Requirement Fulfilled</i>	<i>Credits</i>
*HON 100	College Writing	4
HON 101	EYE (Entry-Year Experience)	3
*HON 105	Quantitative Reasoning	3
HON 102	Cultural Interpretations/Diversity	3
HON 202		4
HON 103	Socio-Cultural Analysis	3
HON 201	Scientific Exploration	4
HON 207	Creative Expression	3
HON 311 and HON312	Capstone	3 each
**HON321, HON331	Directed Study/Research	1-3 each

*Denotes courses that are highly encouraged, though not required, for students who have previously fulfilled College Writing and/or Quantitative Reasoning.

**Denotes courses that are distinct to Honors and do not fulfill USM Core requirements. Honors courses may not be taken pass/fail.

Honors does not currently fulfill the following USM Core requirements: the course in Ethical Inquiry, Social Responsibility and Citizenship nor the Thematic Cluster courses. Others outstanding include the international and diversity requirements.

Admission to the Honors Program

The Honors Program welcomes motivated, intellectually curious students who want to work closely with faculty and other students in a challenging and enriched course of study. Admission to the Honors Program is based on the applicant's overall academic record; SAT and other test scores; extracurricular activities; recommendations; work experience; and, in some cases, an application essay. The Honors Program seeks a diverse group of students to provide a stimulating learning environment for all participants. Transfer students are welcome to apply and will be recommended to register for a specific course that suits their academic accomplishments and graduation goals.

Application Procedures: Students newly admitted to USM interested in admission to the Program should apply online: www.usm.maine.edu/honors or call The University Honors Program: (207) 780-4330 for more information. Once admitted to the Program, students may register for Honors courses on a space availability basis.

Standards and Retention in the Honors Program

To continue in the Honors Program, students must maintain an overall grade point average according to the number of USM credits accomplished. The minimum GPA and credit hours are as follows:

<i>Earned Credit Hours</i>	<i>For Good Standing</i>
1-52	3.0
53-82	3.25
83+	3.34

Honors Program students must also maintain minimum grades in Honors courses. These minimum grades serve as additional prerequisites for subsequent Honors courses. The following minimum course grades have been established for program participants, recognizing the demanding nature of the Honors Program:

<i>Course</i>	<i>Minimum Grade Required</i>
HON 100, HON 101	C+
HON 102, HON 103	B-

HON 201, HON 202, HON 203 B
HON 102, HON 103 B

In the event that an Honors student fails to meet these standards of progress, at the Honors Program director's discretion, the student will be required to meet with the director to work out a plan to achieve the minimum GPA and grades required for good standing. Students not able to achieve the minimum GPA and grades within the time frame agreed upon in the plan, who do not meet with the director to develop a plan, or who, after achieving good standing, after probation, again do not meet minimum standards, may be dismissed from the Honors Program.

Graduating with General University Honors

Honors students who successfully complete all required Honors courses (Hon101, HON 102 or 202, HON 103, HON 201, HON 311, and HON 312) and have attained a 3.4 grade point average in all University work including Honors courses, will graduate with General University Honors. General University Honors designations are separate from and in addition to cum laude, magna cum laude, and summa cum laude, which are awarded solely on the basis of cumulative grade point average (see Graduation Honors Policy in the Academic Policies section of this catalog).

Honors Course Descriptions

College Writing:

HON 100 Thinking and Writing in Honors

Specifically designed to provide skills and experience fundamental to all other work in Honors, this course combines the basic mechanics of a college writing course with an introduction to text analysis and critical thinking. It is specifically designed to provide skills that will be used in all the Honors courses. It is highly recommended for all entering Honors students. Cr. 4

EYE (Entry-Year Experience):

HON 101(0001) Myth, Monsters, and Metamorphoses

What does it mean to be human? What is the difference between a human being and an animal, a human being and a god, a human being and the natural world? How does technology challenge our assumptions about what it means to be human? The course approaches answers to these questions from the ancient and modern worlds, including texts recognized as "foundational" or "canonical" in western intellectual tradition but expanding to include modern, post-modern, and non-western perspectives as well. As its title implies, the course interrogates texts of metamorphosis, texts whose characters challenge and in some cases transgress boundaries among the categories proposed. Cr. 3

HON 101(0002) Power, Corruption and Foundings in the Ancient World

The American founding is ubiquitous in the politics and popular culture of the United States; public figures routinely cite 18th century arguments in support of their actions, and some political advocates even dress in the costumes of 18th century Americans. The authority provided by the founding shapes our politics, and its meanings are constantly invoked, reinterpreted, and adapted; in this, the American republic is similar to political bodies in antiquity. In this class we will study the powerful influence of foundings and the difficult questions they raise. Does reverence for the founding enable politics, undermine them, or both? By what authority can a people break with the past and create something new? Can a polity change its founding over time? Why are so many founding stories violent, including stories of fratricide, infanticide and regicide? In exploring these questions and others, we will study mythical and historic founding narratives from Classical Greece and early Imperial Rome, as well as reinterpretations of founding narratives from ancient philosophy, tragedy and epic poetry. Grades will be based on three papers, rough drafts, and oral presentations. Cr.3

HON 101(0003) Violence, Wisdom, and Dialogue in an Ancient Context

Socrates said that "the unexamined life is not worth living." Is he right or is ignorance bliss? What kind of life makes us happy? Should we seek power and financial wealth? Does might make right? When viewed within a wider context, we may find that we don't know what we thought we knew and that finding answers to these and other questions requires us to think in terms of more than one discipline. Therefore, the course introduces ancient texts and context but also the concept of interdisciplinary study. We will read selections from Homer, Plato, Aristotle, Thucydides, Aeschylus, Sophocles, and Euripides. Cr. 3

HON 101(0004) The Language of Spiritual Texts: Answering the Problem of Violence

Close reading and discussion of literature with explicitly spiritual content from ancient and modern times—including such texts as *The Tao te Ching*, original Buddhist writings, the *Bhagavad Gita*, selections from Greek philosophy and The Bible, as well as modern writers, T.S. Eliot, Chinua Achebe, Yeats, Levertov, M.L. King, and Gandhi. Through the lens of radical empiricism, we'll ask how the language of sacred texts engages the reader in something called "spiritual experience". Instruction in critical methods such as reader-response and deconstruction will help us see spiritual texts as guides to meditative practice and the ability to deal with problems of aggression and violence today. Cr.3

Cultural Interpretations:

HON 102 Confrontation and Cross-Fertilization among Medieval Cultures

This interdisciplinary seminar will explore the intersections between Judaic, Christian, Muslim, and non-monotheistic religious-based cultures during the Middle Ages. Cr. 3

HON 202 Progress, Process, or Permanence: All That is Solid Melts into Air

"All that is solid melts into air," a quote from Karl Marx, is an apt metaphor for this course. It examines concepts of certainty and uncertainty from various nineteenth- and twentieth-century perspectives. Who has the answers? Are there any answers? Can there be

such a thing as “progress,” and does our “modern” perspective (whatever it is) give us a unique point of view for addressing these issues? Cr. 4

Socio-Cultural Analysis:

HON 103 Religious and Scientific Perspectives on Human Origins and the Human Body

In this course, students examine a range of culturally based accounts of human origins (creation stories), considering evidence for these accounts from the perspective of both cultural and scientific studies. The course prepares students to assess the influence of social and historical context as these mediate our understanding of the human body and its origins. An integrated strand of weekly applied/laboratory sessions provide students the opportunity to apply various methods of scientific and social scientific inquiry. Cr. 3

Quantitative Reasoning:

HON 105 An Interdisciplinary Introduction to Logic and Mathematics

This course is an introduction to logic and mathematics. It is an unusual introduction, since it transforms history, philosophy, social thought, literature, and the arts into paths for understanding logical and mathematical concepts and systems. Therein lies the course’s interdisciplinarity. These concepts and systems will be deployed to solve basic problems in everyday life and in academic research, from formally representing arguments found in scholarly texts to determining the odds of winning a hand in a game of chance to assessing scientific hypotheses. Special emphasis will be placed on developing the skill of detecting logical and statistical fallacies. Finally, the scope and limits of logical and mathematical systems will be studied. Prerequisite: successful completion of the University’s mathematics proficiency requirement. Cr. 3

Scientific Explorations:

HON 201 Interdisciplinary Inquiry in the Sciences of the Human Body

This course provides an interdisciplinary introduction to scientific discourses and scientific practices concerning the human body. It combines selected concepts and methods of inquiry from several disciplines, including molecular biology, human genetics, anatomy, biological anthropology, human ecology, and the history of medicine. Students and faculty will critically examine the history of various constitutive practices and scientific representations of the body, including many Western scientific conceptions of the body as these have emerged from the European Renaissance through modernity. An integrated sequence of weekly laboratory/practicum sessions will accompany these seminars, providing students the opportunity to apply various methods of scientific inquiry from disciplines that address the human body. These explorations are synthesized by students in an independent project. Cr. 4

Creative Expression:

HON299 Illuminated Autobiography

An introduction to two creative processes—the visual and the literary—the course explores the means (shared, specialized, and complementary) by which they communicate thematic content, and the transformation through which subjective discovery becomes accessible form. Students will develop a control of structural elements within and between the two disciplines sufficient to write, illustrate, design, and publish a limited autobiographical narrative. Cr. 3

Capstone:

HON 311 Honors Thesis I: Workshop

In the concluding phase of the Honors Program, students design a thesis project. In this writing intensive course, students develop research skill, learn how to write an abstract, draft and revise a thesis proposal, and organize a thesis committee of faculty advisors. Cr. 3

and:

HON 312 Honors Thesis II

In this second semester, students independently carry out the thesis proposal developed in Honors 311, under the guidance of the thesis committee. This final semester includes a mid-semester thesis draft; a substantive revision based on feedback; and a concluding public, oral defense. Cr. 3

Electives:

HON 321 Honors Directed Research

This optional course allows an Honors student with interests in a particular subject area to do research in that area under the direction of a faculty supervisor. The research may be carried out in any subject area, with the approval of the director. Cr. 1-3

HON 331 Honors Directed Study

This optional course allows an Honors student to design a reading course in collaboration with a faculty supervisor. It is of particular value to students with self-designed majors who may need to supplement existing courses with additional material. Approval of the director is required. Cr. 1-3

Russell Scholars Program

Director: Stephen J. Romanoff (Humanities), 103 Woodward, Gorham

Associate Director: Elizabeth K. Dodge (Basic Studies)

Russell Scholars Faculty: Dodge (Basic Studies), Kilroy (Theatre), Novak (Geology), Wooten (Basic Studies)

The Russell Scholars Program (RSP) is a residential, undergraduate learning community of highly motivated students and faculty dedicated to the achievement of educational goals through collaborative learning, out-of-class activities, and community service. The Russell Scholars Program is designed for average-to-excellent students who wish to pursue their studies in a small learning community, and who wish to receive regular coaching in the mastery of critical thinking. Russell Scholars will develop a commitment to learning and community service, an ability to transfer competence, an intercultural knowledge, a personal and ethical integrity, and an ability to work as part of a team. Approximately 50 first- and second-year students from all majors are admitted to the Russell Scholars each year and work with their individual RSP faculty mentors.

Extensive co-curricular and social activities enrich the learning community experience. All Russell Scholars are encouraged to have optional out-of-state or out-of-country learning experiences for which they receive full academic credit. First-year Russell Scholars are required to reside at Woodward Hall, a remodeled residence hall located on the Gorham campus. Here students can study; socialize; meet with mentors; and attend seminars, concerts, and readings. There are frequent opportunities for Russell Scholars, their faculty members, and guests to discuss ideas and issues in a relaxed social setting. Special events in the arts, sciences, and humanities are produced by Russell Scholars and are made available to the entire community.

To graduate as a Russell Scholar, a student must successfully complete two writing courses or equivalents, three RSP seminars, and six credits of Learning Community Labs, the final lab to be taken during the senior's spring semester. Students who are not taking RSP Lab who wish to earn service-learning credit must register for RSP 400 Independent Study with the instructor's permission. Students planning to graduate as Russell Scholars are required to take RSP 110, RSP 111, RSP 210 or 211, RSP 310 or 311, and RSP 411.

RSP	100	College Writing	3 credits
RSP	101	Russell Scholars Creative Writing	3 credits
RSP	102	Seminar: Community and Identity	3 credits
RSP	103 (EYE)	Seminar: Culture, Comm. and Environ	3 credits

RSP	105	Acting and Performance	3 credits
RSP	110	Learning Community Laboratory	1 credit
RSP	111	Learning Community Laboratory	1 credit
RSP	210	Learning Community Laboratory	1-2 credits
RSP	211	Learning Community Laboratory	1-2 credits
RSP	250	Seminar: Songs and Society	3 credits
RSP	340	Global Campus	Variable credit
RSP	310	Learning Community Laboratory	1-2 credits
RSP	311	Learning Community Laboratory	1-2 credits
RSP	400	RSP Independent Study	1-3 credits
RSP	401	Community Service Internship	Variable credit
RSP	402	Russell Scholars Capstone Seminar	3 credits
RSP	410	Learning Community Laboratory	1-2 credits
RSP	411	Learning Community Laboratory	1-2 credits

Core Curriculum Requirements

Many Russell Scholars courses will satisfy the USM Core/General Education requirements. Students should consult with their mentors concerning the use of additional Russell Scholars courses to satisfy additional Core curriculum requirements.

Departmental Major

Russell Scholars courses are not intended to be counted toward the number of credits that departments require for graduation as a major. Students enrolled in the Russell Scholars Program should consult with their departmental advisors concerning the use of Russell Scholars courses to satisfy departmental major requirements.

Admission to the Russell Scholars Program

Any full-time, residential student in good academic standing is eligible to apply to be a Russell Scholar. Criteria for admission include: completion of application to the program, and an interview with a member of the Russell Scholars faculty.

Students interested in the Russell Scholars Program must complete an application separate from the application to the University. Those with questions about the Russell Scholars Program may call or write The Russell Scholars Program, University of Southern Maine, Woodward Hall, 37 College Avenue, Gorham, ME 04038, (207) 780-5752 or 5751. Application materials will be forwarded upon request. Once the completed application is received, students will be contacted for an interview, which may take place in person or by telephone. Applications are acted upon as they are received; hence, they should be submitted as early as possible.

To remain in the Russell Scholars Program, a student must remain in good standing with the University and demonstrate a genuine desire to remain in the program.

RSP 100 College Writing

This course introduces students to the style and standard of writing expected of them in college. Students read expository writings grouped around a theme and use the ideas they encounter to develop and refine analytical essays in response. Emphasis is placed on building the skills of critical analysis and the writing process, specifically reading, drafting, rereading, revision, editing, and proofreading. Students are encouraged to integrate ideas from RSP Seminar into class discussions and individual essays, when appropriate. At the end of the semester, an RSP 100 student will be able to engage with complex readings and compose analytical essays that focus on a central theme using language that is relatively free of sentence-level error. Prerequisite: college readiness in writing. Fall semester. Cr 3.

RSP 101 Russell Scholars Creative Writing

This course is offered as a continuation of RSP 100 to help students define and meet their writing goals. Classes meet once a week, and include individual conferences. Creative Writing emphasizes style, organization, and development, with some emphasis on mechanics. Students must exercise the self-discipline necessary to work independently. Cr 3.

RSP 102 Russell Scholars Seminar: Self and Communication

This seminar will explore the process of self-discovery, building a foundation of self-knowledge, maintaining self-esteem, and communicating this inner self and personal vision to others in everyday life. It will examine issues ranging from the classic view of knowing one's self to practical concerns of effective interpersonal interactions. This seminar addresses several areas, including sociology, psychology, communication, and human growth and development. Due to the interdisciplinary nature of this course, it will be important to draw upon several sources which are written from a variety of disciplinary vantage points. Cr 3.

RSP 103 (EYE) Russell Scholars Seminar: Culture, Community, and the Environment

All first-year Russell Scholars and transfer students are required to take this course. This course will utilize scientific and humanistic anthropological theories and understandings to explore contemporary issues and dilemmas concerning the environment. It will consider values and approaches of different cultures in order to better understand the current problems of environmental damage and pollution, population growth, lifestyle impacts on ecology, ethnic conflict, and other threats to cultural survival and ecological balance. The seminar will attempt to analyze contemporary problems locally and globally, and to explore possible resolutions to these problems. An example of cultural types will be examined, including forager, agriculturalists, and industrial nation-states, in terms of their relationship with and values about the environment. Cr 3.

RSP 104 Enriched College Writing

This college writing course provides additional support to students as they are being introduced to the style and standard of writing expected of them in college. Through additional classroom time, discussion, and small-group work, students practice the skills of critical analysis; the writing process, specifically reading, drafting, rereading, revision, editing, and proofreading; and correct grammar and usage. The course is designed for students who have not met the University's measure of college readiness in writing and for any student interested in extra structure and support for success in the writing of college essays. Students are encouraged to integrate ideas from RSP Seminar into class discussion and individual essays, when appropriate. At the end of the course, an RSP 104 student will be able to engage with complex readings and compose analytical essays that focus on a central thesis using language that is relatively free of sentence-level error. Fall semester. Cr 4.

RSP 105 Acting and Performance

This course provides an introduction to performance skills and fundamental training in acting techniques including stage, voice movements, scene study, and performance. Through lecture, performance assignments, improvisation, and scene study the student will be introduced to the skills required to create a stage performance successfully. Cr 3

RSP 110 Russell Scholars Learning Community Laboratory

This forum for all Russell Scholars convenes bi-weekly in an informal environment to address topics such as campus issues, current events, and student interests. Russell Scholars Lab also takes students out of the classroom atmosphere by integrating field trips to enhance the learning experience. Cr 1.

RSP 111 Russell Scholars Learning Community Laboratory

RSP 111 is a continuation of RSP 110. Cr 1.

RSP 175 Oral Interpretation

A course in the assimilation and analysis of literary material (poetry, prose, drama) with emphasis on the techniques used in reading written material aloud to an audience. Designed to stimulate an understanding of and responsiveness to literature and to develop the ability to convey to others, through oral reading, an appreciation of that literature. Prerequisite: 24 or more credits earned. Cr 1.

RSP 210 Russell Scholars Learning Community Laboratory

RSP 210 is a continuation of RSP 111. Cr 1.

RSP 211 Russell Scholars Learning Community Laboratory

RSP 211 is a continuation of RSP 210. Cr 1.

RSP 250 Russell Scholars Seminar: Songs and Society

This is an interdisciplinary, literature-based course focusing on the role of songs in world cultures. It is designed to introduce students to the influence that songs have upon societies, and likewise, the influence of societies upon the creation and use of songs. Like most art forms, songs are reflections of the prevailing values of a given society at any given time in history. The course examines songs as vehicles to motivate and mobilize people, to help them escape from drudgery, to worship, to express political sentiment, to approve or to protest, to celebrate, and to entertain. Students identify and analyze the

range of song genres from martial songs and anthems to love songs, lullabies, and protest songs. The course traces the evolution of the traditional story-song from the epic ballads to its present incarnation as both high and pop culture. Students will also explore songwriting as both an art form and as a business driven by societies' unquenchable appetite for songs, both old and new. Prerequisite: 24 credits or permission of instructor. Cr 3.

RSP 300 Russell Scholars Seminar: England and the Humanities

Specifically designed for Americans studying in England, this course is designed to explore the interrelationships between the arts and humanities of the British Isles. The humanities comprise those areas of study that are literally the creation of human beings, as distinguished from science and its systematic revelation of the patterns of nature. Subsequently, this course will include, but will not be limited to, the roles played by literature, history, ethics, social science, religion, the fine arts, and folk arts in shaping British culture. Cr 3.

RSP 305 Britain: The Interactions of Politics and Culture

This course is specifically designed for Americans studying in England and introduces students to the economic, political, and psychological environment and cultural lifestyle of contemporary Britain. Common use of "English" language in both the United States and Britain often conceals essential differences that exist in culture and in attitudes. These differences will be identified and explored through the study of a variety of topics both in the classroom setting and outside. Students will be encouraged to focus their own observations in order to deepen and broaden their understanding of Britain, its inhabitants, its politics, and its culture, and to do so in a way that will enable them to reflect more fully upon their own country, politics, culture, and way of life. Cr 3.

RSP 310 Russell Scholars Learning Community Laboratory

RSP 310 is a continuation of RSP 211. Cr 1.

RSP 311 Russell Scholars Learning Community Laboratory

RSP 311 is a continuation of RSP 310. Cr 1.

RSP 340 Cultural Landscape of Greece

Students will be introduced to the multifaceted nature of this intriguing country. Greece, the birthplace of our western civilization, is a modern, emerging European nation and is already a major tourist destination. Students will travel to the bustling capital of Athens for three days, but spend most of their time on the quieter island of Lesbos. Here they will live in the small city of Mytilene (now a Sister City with Portland, Maine); gather to share meals in a seaside or city café; take field trips to villages, ancient sites, museums, and beaches; learn about the physical and societal framework of the culture; and attend lectures on human geography, geology, cultural traditions, current forces of change, impact of tourism, environmental issues, and regional politics. Cr 3.

RSP 345/GEY 110 Russell Scholars Global Campus

This course takes place at any one of several international sites. It offers Russell Scholars students an opportunity to travel while experiencing the rich cultural differences of our diverse world. An example of a course is one held at Wroxton College in England during Winter Session. It examines British culture, government, economy, and literature. Students attend a performance by the Royal Shakespeare Company in Stratford-on-Avon, spend a weekend in London, and take several other side trips. Another example of this course takes students to Greece. Students will be introduced to the multifaceted nature of this intriguing country. Although ancient Greece is the birthplace of our western civilization, Greece today is also a modern, emerging European nation. Students will travel to the bustling capital of Athens for a few days, but spend most of their time on the quieter island of Lesbos. Here they will live in the small city of Mytilene (now a sister city with Portland, Maine) where they will be near markets, shops, and cafes. Daily they will gather to share meals in their *pensione*, or in seaside or city cafés; and take field trips to villages, ancient sites, archeological and art museums, and beaches. Cr 6.

RSP 402 Russell Scholars Capstone Seminar: Community and Commitment

This capstone seminar will bring together the framework, principles, and experiences of four years in the Russell Scholars Program to prepare graduating seniors to become lifelong learners with a commitment to the common good. Drawing upon the lessons of identity and community, and other themes of the program, this classroom and field-based seminar will explore such questions as: What is the common good? How can we be at home in the world? How can we live within and beyond the tribe? What is our responsibility in the world? What does citizenship in the twenty-first century mean? How do we develop critical habits of mind? This seminar will include a significant service-learning field experience in a community setting. Cr 3.

RSP 410 Russell Scholars Learning Community Lab

RSP 410 is a continuation of RSP 311. Cr 1.

RSP 411 Russell Scholars Learning Community Lab

RSP 411 is a continuation of RSP 410. Cr 1.

Women and Gender Studies

Director: Wendy Chapkis, 94 Bedford St., Portland

Women and Gender Studies Council: Professors: Cameron, Chapkis, Deprez, Feiner, Gish, Messerschmidt, Raimon, Rosenthal, Savage; *Associate Professors:* Carey, Carroll, Cole, Eagan, Fineran, Holden, Kent, Kuenz, Laz, Lockridge, Marya, Thompson, Walker, Wininger.

The Women and Gender Studies Program offers students an opportunity to examine the lives, words, and ideas of women too often hidden from history, and to explore new ways of thinking about gender. Our interdisciplinary program focuses on such issues as the gendered construction of science, women's cultural creativity, histories of gender inequality and social transformation, visual representation and popular culture, queer and transgender politics, gendered inequities in work and pay, eco-feminism and the natural environment, and critical intersections of race, ethnicity, nationality, religion, class, sexuality, and gender.

As they develop skills in feminist analysis, critical thinking, and writing, Women and Gender Studies students investigate and challenge long-standing assumptions about gender and society. Our students often apply their theoretical knowledge through internships with local organizations and agencies. Women and Gender Studies majors are prepared for graduate and professional schools in a variety of disciplines, as well as for careers in business, in public service, and in nonprofit organizations.

Committed to an international/global perspective, the program has hosted visiting scholars from many countries, including Russia, Croatia, Zimbabwe, Nigeria, Scotland, Pakistan, Egypt, Israel, Iraq, and Sweden. In addition, Women and Gender Studies has received a federal grant that encourages cooperation between USM and women faculty in the United Arab Emirates.

Each semester, co-curricular presentations by nationally and internationally acclaimed scholars, activists, and performers enrich our classroom experiences. Recent programs include "Witches and Witch Hunts across the Ages" (lecture, Michele Tarter); "New Mainers" (stories of survival and arrival by Mainers from Africa, Europe, and Asia); "Labor Feminism and the Future of Women's Rights" (lecture, Dorothy Sue Cobble); "Damned Dreams and Dangerous Desires" (performance, Kate Bornstein); "Globalization, Social Justice, and the Environment" (lecture, Nawal El Saadawi); "Is God Love" (lecture, bell hooks); and poetry readings by Sonia Sanchez and Jackie Kay.

Programs and Requirements

Bachelor of Arts

The minimum number of credits (exclusive of the University's Core curriculum) required for the major: 42.

The women and gender studies major consists of 24 hours of required courses and 18 hours of women and gender studies related courses as follows:

Required Courses (18 hours)

Either of the following (3 hours)

- WST 101 Introduction to Women and Gender Studies
- EYE 109 Gender, Representation, and Resistance

All of the following

- WST 201 Women, Knowledge, and Power
- WST 380 Politics of Difference
- WST 390 Contemporary Feminist Theories
- WST 490 Capstone Experience in Women and Gender Studies

One Topics Course from TWO of the following subject areas (6 hours)

- WST 235/335/435 Topics in Science, Technology, and Health I/II/III
- WST 245/345/445 Topics in Culture, and the Arts I/II/III
- WST 255/355/455 Topics in History and Resistance I/II/III
- WST 265/365/465 Topics in Gender and Institutions I/II/III

Either of the following (4-6 hours)

- WST 485 Internship
- WST 486 Thesis

Women and Gender Studies Related Courses: (at least 18 hours)

Students must take one course focusing on periods before 1800 and one course dealing with cultures not in the Western mainstream. Students may take no more than three electives from one department or program. Any WST course may be used for elective credit; courses eligible for elective credit are listed at the end of this section.

Minor in Women and Gender Studies

The minimum number of credits (exclusive of the University's Core curriculum) required for the minor: 18.

The women and gender studies minor consists of a minimum of 9 hours of required courses and 9 hours of related courses as follows:

Either of the following (3 hours)

WST 101 Introduction to Women and Gender Studies

EYE 109 Gender, Representation, and Resistance

And the following (3 hours)

WST 201 Women, Knowledge, and Power

Either of the following (3 hours)

WST 380 Politics of Difference

WST 390 Contemporary Feminist Theories

Women and Gender Studies Related Courses (at least 9 hours. Two of the courses must be at the 300-level or above)

Prerequisites and Grade Policy

There are prerequisites for many of the women and gender studies courses. See departmental course listings for specific information. A minimum grade of C or better is required in major/minor courses. Courses taken pass/fail are not acceptable. WST majors/minors are only allowed to take six credits of 100-level classes toward completion of their major/minor.

Curriculum Summary and Guide

The women and gender studies curriculum is built upon a shared commitment to the principles of educational excellence and educational opportunity. It is structured to ensure that students are exposed to the sophisticated body of knowledge that now defines women and gender studies as a discipline, while allowing students the opportunity to develop skills in research, writing, and analysis. Consequently, there are prerequisites for upper-division courses. The first-year student is encouraged to complete Core curriculum requirements, including Introduction to Women and Gender Studies (WST 101I or EYE 109) and College Writing (ENG 100C). In the second year, students should take Women, Knowledge, and Power (WST 201W), followed by Contemporary Feminist Theories (WST 390) and Politics of Difference (WST 380). Students who minor in another discipline should also begin the suggested sequence in that year. Third-year schedules should include at least two women and gender studies-sponsored topics courses, drawn from two of our four subject areas. Thus a student might take WST 335 Topics in Gender and Science, Technology, and Health I, in the fall, and WST 465 Topics in Women, Gender, and Institutions III, in the spring. Fourth-year students are required to take the Capstone Experience in Women and Gender Studies (WST 490) and select either the internship or thesis option. These courses offer advanced experience in feminist theories, research, and practice, while allowing students to pursue their own interests under careful guidance. Students should be aware that while any course offered under these "topics" will address the general goal outlined in the catalog, the specific content of the topics courses will change from semester to semester. Course descriptions will therefore be published and distributed during the preregistration period.

Declaration of Major

To declare a major in women and gender studies, the student must have:

- completed a minimum of 30 approved University credit hours of which at least 15 credit hours must be completed at USM;

- completed WST 101I or EYE 109 and ENG 100C with a grade of C or better.

To graduate from this program, the student must have:

- completed 42 hours of required coursework, as described above;
- attained a cumulative GPA of B- (2.67) in all major courses.

Students who wish to graduate with honors in this major must:

- maintain a GPA of 3.33 or better in all major courses;
- have demonstrated superior work in the thesis or internship;
- be recommended by a faculty member who teaches courses within the program; and
- be approved by the Women and Gender Studies Council.

WST 101 Introduction to Women and Gender Studies

From a variety of perspectives, this course explores the following inter-related themes and topics: the economic, political, and social status of women/men as a group and in discrete cultural contexts; the politics of representation, or how ideas about femininity/masculinity and feminism are promoted throughout the media and other vehicles of culture; the construction of "consciousness," both through the media and through feminist tactics; collective action in the past, present, and future. This course is writing-intensive. Students are expected to practice their writing skills through formal essays. Prerequisites: English 100 or concurrent. Offered every semester. Cr 3.

WST 201 Women, Knowledge, and Power

This course examines the ways in which the politics of knowledge production shape culture and gender relations. It explores the ways women and men have historically resisted, subverted, appropriated and reformed traditional bodies of thought. Prerequisites: WST 101I, EYE 109 or permission of instructor. Offered spring semester. Cr 3.

WST 220 Topics in Women and Gender Studies

Topic areas not already covered by regular course offerings will be offered. The course may be repeated for credit when different topics are offered. Cr 3.

WST 235, 335, 435 Topics in Science, Technology, and Health I, II, III

Courses in this category will include a critique of traditional science, technology, and medicine; representation of feminist possibilities and communities at work on issues of knowledge, health, and power; reconstructions of science, technology, and health care based on new theories and practices. Each of these courses will ask similar questions: How have scientific thinking and gendered technologies affected bodily experience? Is science fiction coming to pass in new reproductive technologies and genetic projects? How has science's view of the female and feminine been problematized by reading works of fiction? Can feminists escape the difficulties of writing about or prescribing for others? Does science create racial as well as sexual subjects? How can it be used (to quote bell hooks) to "talk race and fight racism"? Prerequisite: WST 435 requires permission of the instructor. Cr 3.

WST 245, 345, 445 Topics in Culture and the Arts I, II, III

Courses in this category will examine some aspect of women's relationships to specific vehicles of "culture," including the plastic, literary, and performing arts. They may focus on women as producers of culture; on how women and femininity have been represented in written, visual, or oral texts; or on feminism and cultural or aesthetic theory. Possible subjects may include feminist philosophy, feminism and film theory, women and the history of music, women and popular culture. Prerequisite: WST 445 requires permission of the instructor. Cr 3.

WST 255, 355, 455 Topics in History and Resistance I, II, III

Courses in this category will explore the political worlds of women in general, and laboring women in particular, which have often been obscured by traditional histories that narrowly define politics as a set of formal institutions and practices. These courses explore forms of female activism located not only in governments, political parties, and unions but also in female collaborative activities and grassroots organization. Emphasis will be placed on the relationship between female activism and social, economic, and cultural change. Topics include women in Third World struggles for national liberation; working class women in contemporary and historical movements; struggles for equal rights; the 19th-century women's movement; women in peasant revolts; everyday forms of female resistance; union organizing; women and the politics of identity. Prerequisite: WST 455 requires permission of the instructor. Cr 3.

WST 265, 365, 465 Topics in Gender and Institutions I, II, III

Courses in this category will focus on gender relations and the construction of the category "women" in the context of social structures and institutions. Both social structures and institutions are based on and reinforce assumptions about sex and gender, women and men, and masculinity and femininity. And both ultimately shape the experiences of women and men in society. These courses will examine the experiences of women and men as gendered beings and the way those experiences follow from, perpetuate, and/or alter institutions. The emphasis may be on industrial or non-industrial societies and institutions, for analysis will vary. Possibilities include law and legal institutions, economic institutions, subsistence strategies in non-industrial societies, systems of stratification, conceptual systems, and education. Prerequisite: WST 465 requires permission of the instructor. Cr 3.

WST 320 Advanced Topics in Women and Gender Studies

Advanced topic areas not already covered by regular course offerings will be offered. The course may be repeated for credit when different topics are offered. Cr 3.

WST 380 The Politics of Difference

Central to the course are the ways that "differences" are embedded and enacted in the context of power relations. While the specific content of this course is flexible, it will analyze the advantages and disadvantages of using race, ethnicity, nationality, class, age, and sexuality as categories of analysis. Prerequisites: WST 101I or EYE 109, WST 201 or permission of the instructor. Offered fall semester. Cr 3.

WST 390 Contemporary Feminist Theories

This course will introduce students to such feminist theoretical approaches as post-structuralism, Marxism, psychoanalysis, critical race theory, and post-colonialism. The focus of the course is the intimate relationships between feminist theories and feminist practices, locally and globally. Prerequisites: WST 101I or EYE 109, WST 201 or permission of the instructor. Offered spring semester. Cr 3.

WST 470 Independent Study

This course provides junior and senior students with the opportunity to pursue a project independently, concentrate on a particular subject of concern, or conduct individually arranged reading or research studies under the advice and direction of a faculty member. Prerequisites: advanced standing and permission of the instructor. Cr 1-6.

WST 485 Internship

The internship requires students to work closely with a group, business, or organization for one semester. Students will write a research paper on a topic related to their internship experience and will present that research at the annual undergraduate research conference, Thinking Matters, in the spring semester. Prerequisites: senior standing and women and gender studies major or minor. Offered spring semester. Cr 4-6.

WST 486 Thesis

The thesis allows students to pursue guided research on a topic of their choosing. Thesis students should choose three readers, including an advisor whose interests and scholarship are in line with their own. The minimum length for a thesis is 30 pages, and should include a substantial bibliography. Students will present their research at the annual undergraduate research conference, Thinking Matters, in the spring semester. Prerequisites: senior standing and women and gender studies major or minor. Cr 4.

WST 490 Capstone Experience in Women and Gender Studies

All majors are required to select a capstone experience, with the guidance of their advisor, from the following two options: WST 485 or WST 486. Students enrolled in either option are required to participate in a bi-weekly seminar. Students are expected to co-enroll in WST 490 and WST 485 or 486. Offered in the spring semester only. Cr 2.

College of Arts, Humanities, and Social Sciences

Dean: Lynn M. Kuzma; *Associate Dean:* Adam Tuchinsky; *Financial Manager:* Keva Wright Berry; *Director of Student Academic Affairs and the College of Arts, Humanities, and Social Sciences Advising:* Pamela V. Edwards; *Administrative Manager:* Sharmon Toner

The College of Arts, Humanities, and Social Sciences is dedicated to the ideal of a liberal arts education and serves as the intellectual core of the University by offering general education courses to all undergraduate students. The College houses three graduate programs and thirteen undergraduate academic units in the areas of fine and performing arts, humanities, and social sciences. The faculty of the College is committed to the preservation and dissemination of fundamental knowledge and dedicated to enhancing this knowledge through creative expression, scholarly interpretation, and research. By demanding teaching excellence, the College strives to instill in all students the attributes of creative critical thinking, effective oral and written communication skills, and social values that embrace diversity and multiculturalism. Through the various disciplines, the College contributes to the formation of responsible citizens by providing an educational foundation upon which students build their lives and professions.

The College of Arts, Humanities, and Social Sciences offers a wide variety of majors and programs leading to graduate and professional study, and directly to careers. The College offers courses and programs of study to students in all schools of the University for intellectual development and aesthetic enrichment.

Departmental Organization

The College of Arts, Humanities, and Social Sciences has the following undergraduate schools and departments:

- Art
- Communication and Media Studies
- Criminology
- Economics
- English
- Geography-Anthropology
- History
- Modern and Classical Languages and Literatures
- Music
- Philosophy
- Political Science
- Sociology
- Theatre

Baccalaureate Degree Programs

Programs of study leading to a bachelor of arts (BA) degree are available in the areas listed below. In addition, bachelor of fine arts (BFA) is offered by the Art Department, bachelor of science (BS) is offered by the Department of Economics, and bachelors of music (BM) in performance and bachelor in music education are offered by the School of Music.

- Art
- Communication
- Criminology
- Economics
- English
- French
- Geography-Anthropology
- History
- Liberal Studies: Teachers K-8 Certification Program
- Media Studies
- Music
- Philosophy
- Political Science
- Sociology
- Theatre

- Self-Designed
 - a) Group Contract:
 - Classics
 - Foreign Languages
 - General Science
 - German Studies
 - Hispanic Studies
 - International Studies
 - Russian Studies
 - Social Science
 - b) Individual Contract

Requirements for all Baccalaureate Degree Candidates

To be eligible for a baccalaureate degree from the University, a student must meet the following minimum requirements:

1. Core curriculum requirements
2. Departmental or program requirements
3. Minimum of 120 credits of accepted courses
4. Minimum of 2.0 cumulative grade point average

Core Curriculum Requirements

Every baccalaureate degree student who is admitted to the University is required to meet the Core curriculum requirements, including college readiness courses if necessary. These are listed in the section on Core curriculum.

Departmental or Program Requirements

The College requires that every baccalaureate degree student fulfill the requirements of a major program as noted in the catalog section devoted to each department's majors. These requirements may be greater than the college minimum requirements.

Declaration or Change of Major

Students normally declare a major program prior to completing 53 credits. Students who wish to declare or change their major within the College must obtain a Change of Major form from the Registrar's Office. Students who have to complete college readiness in Mathematics must do so prior to declaring or changing a major within the College of Arts, Humanities, and Social Sciences and have a USM grade point average in good standing. Methods of satisfying college readiness in Mathematics are noted in the Academic Policies section of the catalog.

Fine arts students, especially in the Department of Art and the School of Music, usually must begin their program earlier, owing to portfolio and audition requirements.

Selecting a major is an important and often difficult decision. Students who are undecided about a major should take courses in programs that interest them before making a final decision. It is recommended that students meet with a faculty member in the Department to request admission to the major and/or to ask questions about the appropriateness of the new major to their long-term goals. Students may also benefit from consulting the Student Success Center for information.

Individual departmental or program requirements are described in the sections that follow. Students should note that not all courses listed and described in the following sections are offered each academic year. Consult the particular department or program for further information about the year and semester a specific course will be offered.

Other Educational Opportunities

Independent Study Term

Students who have an academic project that they feel would contribute significantly to their program may, with the approval of a faculty sponsor, the appropriate department, and the dean, apply for a semester of independent study. General guidelines for the independent study term may be obtained from departments.

Double Majors

Students interested in a double major should consult the appropriate departments and obtain a Declaration of Major form from the Registrar's Office.

College of Arts, Humanities, and Social Sciences Minors

Art
Communication
Criminology
Economics
English
Geography/Anthropology
History
Labor Studies
Modern Languages
Music
Philosophy
Political Science
Religious Studies
Sociology
Theatre

School of Business Minor

The School of Business offers a 21-credit hour minor in business administration to any baccalaureate student. The minor is recommended to liberal arts majors with a strong interest in business theory and practice. For more information, see the School of Business section of this catalog.

College of Science, Technology, and Health Minors

The College of Science, Technology, and Health offers minors in natural and physical sciences, computer science, electrical engineering, computer applications, environmental safety and health, environmental science, industrial management, and manufacturing technology. For more information, see the College of Science, Technology, and Health section of this catalog.

Teacher Certification

Students who wish to prepare for a career in teaching at the elementary, middle, or secondary levels work with both the College of Arts, Humanities, and Social Sciences and the School of Education and Human Development through the Extended Teacher Education Program (ETEP), which offers coursework and experiences at the undergraduate and post-baccalaureate levels.

Undergraduates who seek teacher certification follow these steps:

1. Undergraduate Level
 - a. College of Arts, Humanities, and Social Sciences students complete a baccalaureate degree with a major in the liberal arts, in a subject related to the desired teaching level and subject.
 - b. School of Education and Human Development students complete the 18-credit minor in educational studies (recommended, but optional).
2. Post-Baccalaureate Level

School of Education and Human Development students

 - a. complete the one-year certification program (approximately 33 graduate credits), and
 - b. complete the master of science in education degree (optional—an additional 18 credits taken over two years during the summer and on weekends).

Additional information on the Extended Teacher Education Program can be found in the School of Education and Human Development section of this catalog.

Graduate Programs in the College of Arts, Humanities, and Social Sciences

The College of Arts, Humanities, and Social Sciences offers three graduate programs leading to the master's degree and two graduate certificate programs. These are the master of arts (MA) in American and New England studies, the master of fine arts (MFA) in creative writing, the master of music (MM), and certificates of graduate study in Composing Together and the Michael Chekhov Theatre Institute. Consult the University's graduate catalog for further information.

Art

Chair of the Department: Kim Grant, Robie-Andrews, Gorham

Professors: Cassidy, Hewitt, Marasco, Shaughnessy; *Associate Professors:* Burk, Grant, Piribeck, Schiferl; *Assistant*

Professor: Hrenko; *Professor Emeritus:* Ubans; *Lecturer:* Porobic

Director of Exhibitions and Programs: Eyley; *Coordinator of Internships:* Volland

Adjunct Faculty: Judith Allen, Patty Benson, Susan Colburn-Motta, James Flahaven, Rebecca Goodale, Virginia Goodlett, Mary Hart, Richard Lethem, Robert Lieber, Lin Lisberger, George Lloyd, Jennifer McDermott, Sue Nutty, Deborah Randall, Alexandra Sax, David Schneider, Sharon Townshend, Richard Wilson

The Department of Art offers four-year degree programs in studio art, art history, and art education. Students may select a bachelor of fine arts (BFA.) with concentrations in ceramics, digital art, drawing, painting, photography, printmaking, and sculpture. A concentration in art education is available to BFA. candidates who wish to teach art. The bachelor of arts (BA) in studio art combines a liberal arts education with emphasis on the visual arts. A BA in studio art with a concentration in art and entrepreneurial studies, combining study in studio art with courses in business development, and a BA in art with a concentration in art history are also offered.

The Department prides itself on giving students a rigorous studio experience, an historical understanding of the complexity of art practices, and the critical skills needed to produce informed visual artists, art educators, and art historians. Our goal is to graduate artists and art professionals who possess a thorough grounding in their field (both practical and theoretical), who honor the creative process, and who can write about, criticize, and bring context to works of art. The Department is not tied to a specific style or approach to art making, but instead emphasizes students' ability to think creatively, to include their own point of view, and to defend their choices with an informed voice.

Admission Requirements

Applicants to the Department of Art should observe the following procedure. Formal application should be made to the director of undergraduate admission, Office of Undergraduate Admission. Current degree candidates enrolled at the University who transfer into the Department of Art from another discipline must obtain a change of major form and submit this form with a current transcript to the chair of the Department of Art.

A student is then a candidate for matriculation in the Department of Art. All candidates must complete 2-D and 3-D Design, and Drawing I and II, and at least one art history foundation course (Art History: Prehistoric to Medieval, or Art History: Renaissance to the Present) before matriculating as an art major in the Department of Art. To become a matriculated art major in one of the two degree programs, a portfolio of original works must be submitted to the Department for evaluation. Portfolios are not required for the art history concentration. This must be done during or no later than one semester beyond completion of the art foundation courses. If the student completed the art foundation at another institution, he or she must submit a portfolio at the next scheduled opportunity and no later than the second semester at USM. The portfolio should consist of no more than twelve works within specific categories. Each student will choose two works to mat with white, off-white or ivory mat board and firm backing. The materials do not have to be archival. The unmatted works on paper will be presented in individual clear sleeves with a firm backing inserted behind the work. Two works will be selected by the Department to exhibit for a two-three week exhibition. During this time there will be a reception for students. The categories and numbers of work for each category are as follows:

Two-dimensional works (three pieces) should be taken from and/or exhibit skills in the visual design of the flat page;

Three-dimensional works (two pieces) should exhibit (in photographs) capabilities in the physical development and articulation of form and space;

Drawing category (three pieces) should contain works of any medium exhibiting skills and concepts of drawing;

Self-portrait (one piece) should be executed from life and may be in any medium but should be a representational depiction rendered by hand; and

Open submissions (three pieces) may be work in any medium as long as it conforms to the overall guidelines of this review.

Portfolios that do not adhere to the established procedures will not be accepted for review.

Art candidates whose portfolios are not accepted are required to meet with their advisor and one additional full-time faculty member to review and discuss their plans for re-submission. Portfolios that are not accepted may be re-submitted two additional times. Failure at the conclusion of these three times will result in denial of acceptance as an Art Department degree candidate.

Students are required to submit a portfolio for acceptance to the Department prior to enrolling in any 200-level or above studio courses. Studio art minors may enroll in a 200-level studio course with permission of the instructor.

Portfolio deadlines and application forms may be obtained from the Department of Art. Portfolios are reviewed once each semester. Final notification of a decision will come from the Department of Art approximately two weeks after the portfolios have been evaluated.

Students already enrolled in the University who wish to change their major to art must follow the Departmental admission procedures concerning submission of portfolio, as described above. Art presentation workshops are offered annually.

Only students who have completed the art foundation and who have earned 60 credits or more may enroll for Independent Study courses. Grades of C- or better must be earned to satisfy a major or minor requirement.

Academic credit for summer workshops is available with Haystack Mountain School of Crafts in Deer Isle, Maine. Contact the Department of Art or Summer Session for more information.

Bachelor of Fine Arts (BFA) Degree in Studio Arts

The BFA degree is offered for students who seek focused, undergraduate professional education in studio practice. There are degree concentrations in ceramics, digital art, drawing, painting, photography, printmaking, and sculpture. The program prepares students to become open, resourceful, critical, and independent thinkers, capable of successfully conceiving, articulating, and resolving their own visual problems, and equally capable of successfully viewing, appreciating, and contemplating the work of others. They will be engaged and active artists producing work that encompasses theoretical and practical knowledge.

Students who intend to pursue professional careers in art and design or who plan to pursue graduate study culminating in the MFA degree are encouraged to seek admission to the BFA program. BFA students are admitted as art candidates. Final acceptance into the BFA degree program depends upon acceptance of portfolio.

The minimum number of credits (exclusive of the University's Core curriculum) required for the major: 87.

Art Foundation (18 credits)

- ARH 111 Art History: Prehistory through Medieval
- ARH 112 Art History: Renaissance to the Present
- ART 141 2-D Design
- ART 142 3-D Design
- ART 151 Drawing I
- ART 152 Drawing II

Upper Level Art History Requirements (9 credits*)

- ARH 200- or 300-level Art History Elective
- ARH 200- or 300-level Art History Elective
- ARH 411 Philosophy of Art (or PHI 220)

Studio Requirements (9 credits)

Do three of eight 200-level courses other than your concentration.

- ART 221 Introduction to Digital Art
- ART 231 Introduction to Ceramics
- ART 251 Drawing: Media and Strategies
- ART 261 Introduction to Painting
- ART 271 Introduction to Photography
- ART 281 Introduction to Printmaking: Intaglio and Relief
- ART 282 Introduction to Printmaking: Lithography and Screenprinting
- ART 291 Sculpture: Additive and Subtractive Processes or
- ART 292 Sculpture: Altered and Constructed Processes

Concentration Requirements (24 credits)

- ART 2XX Introductory Studio
- ART 3XX Intermediate Studio I
- ART 3XX Intermediate Studio II
- ART 4X1 Advanced Studio I
- ART 4X2 Advanced Studio II
- ART XXX Required elective in concentration**
- ART 400 Internship in the Visual Arts
- ART 401 Senior Seminar

Studio Courses (Elective and Required) (27 credits*)

- Any 200-, 300-, or 400-level studio courses
- ART Studio Electives

Completion of the senior exhibition is also required for the BFA. The BFA senior exhibition requirement must be completed while enrolled in ART 401 Senior Seminar in Studio Art.

*See specific requirements and recommendations in your area of concentration.

**Can be met by one of the following: ART 400 Internship in the Visual Arts, ART 407 Independent Study, ART 408 Advanced Problems, or approved course within discipline, including summer course offerings, Haystack School of Crafts courses, or ART 412 Topics in Studio Arts.

Concentration Requirements and/or Recommended Courses

Each concentration has additional requirements or course recommendations as follows:

Ceramics: ART 351 Intermediate Drawing: The Figure and ART Experimental Drawing Techniques are both required.

Digital Art: ART 271 Introduction to Photography is required and ART 382 Experimental Printmaking is recommended. ARH 327 Modern Art and ARH 328 Contemporary Art are recommended. ART 343 New Media Book Arts counts as a 300-level digital arts requirement.

Drawing: Recommended upper-level art history courses are ARH 328 Contemporary Art; ARH 327 Modern Art and/or ARH 329 Asian Art; or any ARH non-Western Art.

Painting: ART 351 Intermediate Drawing: The Figure and ART 352 Experimental Drawing Techniques are both required.; recommended upper-level art history courses are ARH 323 Renaissance Art or ARH 321 Classical Art; and ARH 327 Modern Art or ARH 326 Nineteenth-Century European Art.

Photography: Required studio courses in addition to the photography sequence are: ART 221 Introduction to Digital Art; ART 281 or ART 282 Introduction to Printmaking; and ART 382 Experimental Printmaking. Recommended upper-level art history courses: ARH 318 History of Photography, ARH 327 Modern Art, or ARH 328 Contemporary Art.

Printmaking: ART 221 Introduction to Digital Art is the required concentration elective. Additionally, both ART 281 Introduction to Printmaking: Intaglio and Relief and ART 282 Introduction to Printmaking: Lithography and Screen Printing,

are required. Recommended remaining studio electives should constitute a focused sequence in any other concentration that relates to the student's studio practice. Recommended art history courses are ARH 310 Cross-Cultural Perspectives and ARH 328 Contemporary Art.

Sculpture: Required to take both Sculpture: ART 291 Additive and Subtractive Processes and ART 292 Sculpture: Altered and Constructed Processes. Recommended studio course is ART 271 Introduction to Photography; recommended upper-level art history is ARH 329 Asian Art or any ARH non-Western art, and ARH 328 Contemporary Art. Note: ART 249 2-D and 3-D Figure Study (offered summers only) also satisfy the required elective in the sculpture concentration.

Bachelor of Fine Arts with a Concentration in Art Education

The bachelor of fine arts with a concentration in art education offers an in-depth studio experience as well as a professional course of study in art education leading to teacher certification in Maine. The program is guided by a conceptual framework that proposes that individuals need to be prepared for work in an increasingly complex and culturally diverse world, and that such work is best done through collaboration and reflective inquiry.

For those who want certification to teach art in Maine and who already have a BA, BFA, or MFA in studio art, we offer our BFA with a concentration in art education. For most people this means taking the 30-credit professional education sequence to fulfill all state requirements. This can usually be completed in two years. Field experiences and student teaching placement schools are located in southern Maine. For more information, contact the Department.

The minimum number of credits (exclusive of the University's Core curriculum) required for this degree is 90. The 90 credits include Art Electives 9 credits in art, art history, and design (recommended).

Art Foundation (18 credits)

ARH 111	Art History: Prehistoric through Medieval
ARH 112	Art History: Renaissance to the Present
ART 141	2-D Design
ART 142	3-D Design
ART 151	Drawing I
ART 152	Drawing II

Completion of the senior exhibition is required for the BFA with a concentration in art education.

Upper Level Art History Requirements (6 credits)

ARH 200-	or 300-level Art History Elective
ARH 200-	or 300-level Art History Elective
ARH 411	Philosophy of Art (or PHI 220)

Art Studio Requirements (21 credits)

ART 221	Introduction to Digital Art
ART 231	Introduction to Ceramics
ART 251	Drawing: Media and Strategies
ART 261	Introduction to Painting
ART 271	Introduction to Photography
ART 281	Introduction to Printmaking: Intaglio and Relief or
ART 282	Introduction to Printmaking: Lithography and Screenprinting
ART 291	Introduction to Sculpture: Additive and Subtractive Processes

or

ART 292	Sculpture: Altered and Constructed Processes
---------	--

Art Studio Concentration Requirements Art Electives (9 credits).

This may be taken in either digital art, drawing, ceramics, painting, photography, printmaking, or sculpture.

ART 3XX	Intermediate I
ART 3XX	Intermediate II
ART 4XX	Advanced I

Professional Education Requirements (27 credits excluding HRD 200J)

EDU 200 Education in the United States

or

EDU 210	Theoretical Foundations of Learning
HRD 200	Human Growth and Development**
AED 221	Practicum in Art Education
AED 321	Principles and Procedures in Art Education*
EDU 335	Teaching Children with Exceptional Needs
AED 421	Seminar in Art Education*
EDU 324	Student Teaching I*
EDU 324	Student Teaching II*

Permission of the instructor and passing scores (determined by the Maine Department of Education each year) on the PRAXIS I test are required prior to student teaching and continuation in the program. A passing score on PRAXIS II (a state requirement for teacher certification) is required before graduation and recommendation for certification. Students must maintain a 3.0 minimum grade point average (GPA) in art studio, art history, and the art education sequence courses as well as a 2.5 minimum GPA overall.

*A 3.0 minimum grade point average (GPA) in art studio, art history, and art education sequence courses must be maintained to register for AED 321, EDU 324, AED 421, EDU 335, and to graduate from the program.

**HRD 200 counts as a University Core requirement and a Professional Education requirement.

The Teacher Education Council, comprising deans, department chairs, faculty, and school representatives from all programs offering initial teacher preparation, is the governing body for program review and evaluation for all initial level teacher education programs at USM.

Bachelor of Arts (BA)

The BA in studio art is a four-year liberal arts degree in studio art. The program is meant to give a substantial studio experience with a significant number of non-art electives. Students complete the art foundations and then progress into a specific studio concentration area. This degree encourages students to take a broad range of courses in conjunction with disciplines outside of the visual arts. Students may take up to 60 credits of studio courses (designated ART) toward the degree.

The minimum number of credits (exclusive of the University's Core curriculum and electives) required for the major: 48.

Art Foundation (18 credits)

- ARH 111 Art History: Prehistoric through Medieval
- ARH 112 Art History: Renaissance to the Present
- ART 141 2-D Design
- ART 142 3-D Design
- ART 151 Drawing I
- ART 152 Drawing II

Art History Requirements (9 credits)

- ARH 200- or 300-level art history elective
- ARH 200- or 300-level art history elective
- ARH 411 Philosophy of Art (or PHI 220)

Studio Art Requirement (21 credits)

1) Complete three introductory (200-level) studio courses (9 credits from the following: ART 221, ART 231, ART 251, ART 261, ART 271, ART 281 or 282, and ART 291 or 292.

2) Complete two intermediate (300-level) studio courses and one advanced (400-level) course in one of the above disciplines in which you have completed the introductory (200-level) course.

3) Complete one additional 200-, 300-, or 400-level art studio courses of your choice.

No more than 60 credit hours with ART designation may be used to fulfill 120 credit-hours degree requirement.

BA in Art with a Concentration in Art and Entrepreneurial Studies

The BA in Studio Art and Entrepreneurial Studies is an in-depth studio experience with courses in small business and entrepreneurship. It involves a combination of art and art history courses with a required studio concentration, a cluster of business courses, a digital-based course, and an internship experience with creative professionals. Within the general electives, students may choose to incorporate a minor or select additional studio (ART) or art history (ARH) courses. This degree is for students who wish to pursue a career in the creative arts in the commercial or nonprofit sectors. It is intended to offer students a greater ability to engage in creative arts sector employment and/or independent small business development.

The minimum number of credits (exclusive of the University's Core curriculum and electives) required for the major: 48

Art Foundation (18 credits)

- ARH 111 Art History: Prehistoric through Medieval
- ARH 112 Art History: Renaissance to the Present
- ART 141 2-D Design
- ART 142 3-D Design
- ART 151 Drawing I
- ART 152 Drawing II

Art History Requirements (9 credits)

- ARH 200- or 300-level art history elective
- ARH 200- or 300-level art history elective
- ARH 411 Philosophy of Art (or PHI 220)

Studio Art Requirement (30 credits, including four 200-level studio courses from ART 221, 231, 251, 261, 271, 281 or 282, or 291; two 300-level studio courses and one 400-level course within one discipline; and 3 to 6 credits from ART 400 and/or ART 408 with the remaining 6 credits in studio electives.)

Business Requirement (12 credits, not exclusive of ECO 100 and ECO 102, including 3 credits from each of the following groups: BUS 101 or BUS 200, ACC 110, BUS 260 or BUS 165, and BUS 385.)

Technology Requirement (3 credits from ITT 181, ITT 231, ITT 241, ITT 343, ITT 482, or ABU 180.)

No more than 60 credit hours with ART designation may be used to fulfill 120 credit-hours degree requirement.

BA in Art with a Concentration in Art History

To become a matriculated art major with a concentration in art history, the student must apply for admission to the program during the semester the foundation courses are being completed or the semester after their completion. No portfolio is required. The student may obtain the appropriate form in the Art Department office.

To receive credit toward the major, the student must maintain at least a 2.5 average in art history courses. Students are encouraged to acquire a reading knowledge of a foreign language, preferably French or German.

The minimum number of credits required for the major: 45.

Art Foundation (18 credits)

- ARH 111 Art History: Prehistoric through Medieval
- ARH 112 Art History: Renaissance to the Present
- ART 141 2-D Design
- ART 142 3-D Design
- ART 151 Drawing I
- ART 152 Drawing II

Upper Level Requirements (30 credits)

- ARH 321, 322, or 323 Classical, Medieval, or Renaissance Art
- ARH 325, 326, 327, or 328 Nineteenth- or Twentieth-Century Western Art

ARH 310 or 329 Non-Western Art
ARH 410 Seminar in Art History
(May substitute ARH 412 Topics in Art History with permission of the Art Department Chair.)
ARH 411 Philosophy of Art (or PHI 220)
ART 400 Internship in the Visual Arts
Art History elective (upper-level course) (3 credits)

Approved upper-level electives from one or more of the following areas: Art History, History, Anthropology, Literature, or Classics. Students should consult with their art history advisors to select appropriate courses. (9 credits)

Minor in Art History

The minimum number of art history credits (exclusive of the University's Core curriculum) required for the minor: 21.

The minor consists of ARH 111, ARH 112, and ARH 411, and 12 credits of art history courses (noted by ARH prefix) above the 100 level including: a.) at least one of the following areas: Classical, Medieval, Renaissance; and b.) at least one in either of the following areas: nineteenth-century Western art, twentieth-century Western art, or history of photography.

Minor in Studio Art

The minimum number of art and art history credits (exclusive of the University's Core curriculum) required for the minor: 21.

Studio Art Foundation Requirements (6 credits)

Select two courses from the following:

ART 141 2-D Design
ART 151 Drawing I
ART 142 3-D Design
ART 152 Drawing II

*Each studio discipline has specific prerequisites for its 200-level course: Ceramics and Sculpture: ART 142, ART 151; Digital Arts: any two from ART 141, ART 142, ART 151, or ART 152; Drawing and Painting: ART 151, ART 152; Photography and Printmaking: ART 141, ART 151.

Art History Requirement (3 credits)

ARH 112 Art History: Renaissance to the Present

Introduction to Studio Discipline Course (3 credits)

Select one course from the following:

ART 221 Introduction to Digital Art
ART 231 Introduction to Ceramics
ART 251 Drawing: Media and Strategies
ART 261 Introduction to Painting
ART 271 Introduction to Photography
ART 281 Introduction to Printmaking: Intaglio and Relief or
ART 282 Introduction to Printmaking: Lithography and Screen Printing
ART 291 Sculpture: Additive and Subtractive Processes or
ART 292 Sculpture: Altered and Constructed Processes

Upper-Level Studio Courses (9 credits)

Do two 300-level studio courses from the studio discipline for which the student has completed a 200-level introductory course.

Do one 400-level studio course from the selected studio discipline.

Minor in Book Arts

The minimum number of art and art history credits (exclusive of the University's Core curriculum) required for the minor: 21

The minor consists of the following:

Studio Art Foundation select two courses (6 credits)

ART 141 2-D Design
ART 151 Drawing I
ART 142 3-D Design

Art History Course (3 credits)

ARH 112 Art History: Renaissance to the Present

Introduction to Studio Discipline Course (3 credits)

ART 241 The Visual Book: Form and Content

Upper-Level Studio select two courses (6 credits)

ART 341 The Visual Book: Historical Influences on Contemporary Artist's Books

and

ART 342 Book Arts at Stone House (may be taken numerous times)

and

ART 344 New Media Artist's Books

Capstone Studio Course (3 credits)

ART 441 The Visual Book 3: Advanced Studio in Book Arts

Course Fees

A course fee is assessed in ceramics, digital art, and all lecture courses, design, drawing, painting, photography, printmaking, and sculpture courses.

Transfer Students

To receive a BFA degree in art from USM, a student transferring to USM must complete at least two 3-credit studio courses in their area of concentration and one 3-credit art history course at USM. To receive a BA degree in studio art from USM, a transfer student must complete at USM at least two 3-credit studio courses within one discipline and one 3-credit art history course.

ART 416 Gallery Practices

A practical introduction to everyday operations and possible careers in museums and galleries as well as creative exploration of the blurring of boundaries between museum and contemporary art practices. The course includes hands-on experience, field trips, readings, and discussions. Students *will* develop an art exhibition proposal and participate in an exhibit that creatively employs gallery practices such as curating, archiving, and collecting. Cr 3.

Art History

ARH prefix designates an art history course. 100-level art history courses begin to develop skills that students will need to pursue study in the discipline. Students will learn strategies for interpreting visual art and for understanding and writing formal academic prose.

ARH 110 Visual Environment

This course focuses on understanding, designing, and interpreting the visual environment through analysis of visual forms, hands-on exercises, and in-depth investigation of works in their cultural context. The course covers the power of images, the role of illusion, and the interpretation of visual forms in daily life. Students will learn how to analyze effective uses of color, shapes, and spatial relationships in examples such as street signs, fine art, meeting spaces, city planning, bar graphs, and photographs. Cr 3.

ARH 111 Art History: Prehistoric through Medieval

Examination and discussion of the painting, sculpture, and architecture from prehistoric cultures to the late Middle Ages. The course emphasizes the relationship of the visual arts to social, political, religious, and cultural trends, and introduces students to various methods of art-historical interpretation. Prerequisite: College Writing or equivalent. Preference given candidates for matriculation in the Department of Art, or those with permission of the instructor. Cr 3.

ARH 112 Art History: Renaissance to the Present

Examination and discussion of the painting, sculpture, and architecture from the Renaissance to the present. The course emphasizes the relationship of the visual arts to social, political, religious, and cultural trends and introduces students to various methods of art-historical interpretation. Prerequisite: College Writing or equivalent. Preference given to candidates for matriculation in the Department of Art, or those with permission of the instructor. Cr 3.

Upper-level art history courses further develop students' skills of art historical analysis. Students will continue to work on formal academic prose and complete at least 15 total pages of written work during the semester. Students will also learn research sources and methods; become familiar with varied art historical writings from period documents, articles, and scholarly books; tackle the issue of interpretation; and learn about recent approaches to the field. Whenever possible, students will study original art works.

ARH 310 Art History: Cross-Cultural Perspectives

The course covers global issues in art history. Major topic areas include a) how art conveys cultural values and biases, b) why foreign styles are adopted, c) why different values produce different forms. Prerequisite: College Writing or equivalent. Cr 3.

ARH 311 Gender Identity and Modern Art

This course examines the construction of gender and sexuality in Western visual arts from the late eighteenth century to the present. Students will analyze both the art and art criticism of the period, focusing on the work of female, feminist, and gay artists. Cr 3.

ARH 318 History of Photography

This course studies photography from its invention in the 19th century to the present day. It considers photography from historical, theoretical, social, and artistic perspectives. Prerequisite: ARH 112 or permission of the instructor. Cr 3.

ARH 321 Classical Art

A survey of ancient art and architecture with special emphasis on the key monuments of Greek and Roman art and their influence on later artistic periods. This course is equivalent to CLA 321. Prerequisite: ARH 111. Cr 3.

ARH 322 Medieval Art

A survey of the various medieval styles from the Early Christian through the Gothic period with a special section on Islamic art. The relationship of culture to art will be examined for architecture, painting, and sculpture. Prerequisite: ARH 111. Cr 3.

ARH 323 Renaissance Art

An examination of the art and architecture of the fifteenth and sixteenth centuries both north and south of the Alps. Emphasis will be given to the cultural traditions, historical events and theoretical foundations that contributed to the development of Renaissance art. Prerequisite: ARH 112. Cr 3.

ARH 325 American Art

Survey of North American painting, sculpture, and architecture from the sixteenth century to 1940. The art will be examined in the context of aesthetic and cultural ideals, historical events, and multiculturalism. Field trips to local museums and architectural sites. No prerequisite. Cr 3.

ARH 326 Nineteenth-Century European Art

Examination and discussion of European painting, sculpture, and architecture from neoclassicism through post-impressionism (1790-1900). The course will focus on the relationship between the visual arts and the political, social, and aesthetic revolutions of the century. Prerequisite: ARH 112 or permission of the instructor. Cr 3.

ARH 327 Modern Art

Examination of modern art and artistic movements from the end of the nineteenth century to World War II. Emphasis will be placed on understanding the history and theories of modern art in social and cultural context. Prerequisite: ARH 112. Cr 3.

ARH 328 Contemporary Art

Examination of developments in the visual arts from World War II to the present. Prerequisite: ARH 112. Cr 3.

ARH 329 Asian Art

A survey of some major styles in Asian art (India, China, Japan). The course emphasizes the cultural and religious factors that influenced the art. Cr 3.

ARH 410 Seminar in Art History

This course is a requirement for students concentrating in art history. Designed for the advanced student, the course probes different methodological and theoretical approaches to the study and interpretation of the visual arts. Students will examine the writings of pioneers in the field, long-standing art historical methods, and the "new" art history. This course is also a research seminar. Prerequisite: permission of the instructor. Cr 3.

ARH 411 Philosophy of Art

Examination of the aesthetic theories of philosophers, artists, writers, and critics that form the basis for understanding the fine arts. Readings and discussion of texts from ancient to modern times. Prerequisite: senior art majors and permission of the instructor. Cr 3.

ARH 412 Topics in Art History

A seminar on a selected topic in art history that will be the focus of in-depth research and discussion. Prerequisite: permission of the instructor. Cr 3.

ARH 418 Independent Study in Art History

An opportunity for the student who has demonstrated competence in a specific area of study to work independently with scheduled tutoring from a faculty member of the student's choice. Prerequisites: permission of instructor and Art Department chair. Cr 1-6.

Studio Art**ART 141 2-D Design**

Provides an introduction to the fundamentals of 2-D design and color theory through a series of exercises and applied problems in visual organization. Development of a personal design sensibility will be encouraged. Cr 3.

ART 142 3-D Design

Through a series of projects, demonstrations, and discussions students will develop an awareness of and an ability to work in three dimensions. Cr 3.

ART 151 Drawing I

An introduction to the basic materials, techniques, and principles of drawing. Emphasis placed on seeing and translating the three-dimensional environment onto two-dimensional surfaces. The expressive and communicative role of drawing will be considered. Cr 3.

ART 152 Drawing II

Builds on principles and techniques presented in Drawing I. Expanded use of basic materials with an introduction to mixed media. Increased emphasis on expressive and conceptual approaches to drawing. Prerequisite: ART 151. Cr 3.

ART 221 Introduction to Digital Art

This course will address aesthetic, historical, and theoretical perspectives on digital media in the arts and contemporary culture. The students will use industry-standard software to create and process digital imagery. Prerequisite: art foundation or permission of the instructor. Cr 3.

ART 231 Introduction to Ceramics

An introduction to methods and processes of clay forming, including modeling, press molding, hand-building, and the potter's wheel. Emphasis on form and texture, with aspects of glaze composition and firing procedures. Prerequisite: art foundation or permission of the instructor. Cr 3.

ART 241 Introduction to The Visual Book

This course will use the visual artist's book as a medium for personal expression. Students will incorporate 2D and 3D skills to create a collection of unique books. A variety of traditional and nontraditional books, arts, and techniques will be used to develop both form and content. Prerequisite: art foundation or permission of instructor. Cr 3.

ART 249 2-D and 3-D Figure Study

A studio course in the study of the human figure, including drawing, modeling, and readings in artistic anatomy, supplemented by historical study of figurative art. (Offered summer only.) Prerequisite: art foundation or permission of instructor. Cr 3.

ART 251 Drawing: Media and Strategies

Course explores various drawing media to expand students' conceptual image-making skills. Emphasis will be placed on the role of subject matter and imagery through projects and through examination of historical and contemporary art. Cr 3.

ART 259 Landscape Drawing

Course concentrates on drawing the landscape at various Maine locations. Assigned problems will focus on aspects of the following: pictorial composition and design, analysis of landscape forms and structures, and methods for creating the illusion of outdoor light and space. A variety of both wet and dry media will be used. The course will include frequent critiques, illustrated talks using original works as well as reproductions of historical artists, and museum visits. (Offered summer only.) Prerequisite: art foundation or permission of instructor. Cr 3.

ART 261 Introduction to Painting

An introduction to the basics of water-based media. Students will gain a working knowledge of the materials and techniques of painting, its various supports and grounds and pigments. Work is primarily from observation and will include still life, figure and landscape. Studies will focus on physical properties of color and color mixing, principles and concepts of spatial organization, and pictorial form. Cr 3.

ART 269 Landscape Painting

This course focuses on the natural world through painting *en plein air* in southern Maine locales. Each day will include an illustrated lecture and critique in addition to intensive work from nature. (Offered summer only.) Prerequisite: art foundation or permission of instructor. Cr 3.

ART 271 Introduction to Photography

An introduction to the fundamentals of black-and-white photography. Students will learn how to use a manual camera and how to develop and print film. These technical skills will be taught in conjunction with an introduction to the historical, stylistic, and visual communication characteristics of photography. Prerequisite: art foundation or permission of instructor. Cr 3.

ART 281 Introduction to Printmaking: Intaglio and Relief

This course introduces intaglio and relief printmaking techniques. The class includes traditional dry and wet processes for intaglio such as drypoint, engraving, etching, and aquatint. It also addresses color printing methods for linoleum and woodcut. Prerequisite: art foundation or permission of instructor. Cr 3.

ART 282 Introduction to Printmaking: Lithography and Screen Printing

This course introduces planographic methods of printing. Students will explore traditional lithography on stone as well as direct hand methods and photomechanical methods for screen printing. Prerequisite: art foundation or permission of instructor. Cr 3.

ART 291 Sculpture: Additive and Subtractive Processes

An introduction to fundamental processes of sculptural expression employing additive and subtractive processes. These will include observational modeling, aggregate forming and casting, basic mold-making and carving and studio safety. Students will become acquainted with contemporary and historical approaches through ongoing studio work, process centered projects, demonstrations, critiques, individual and group discussions, and readings. (Fall semester) Cr 3.

ART 292 Sculpture: Altered and Constructed Processes

An introduction to fundamental processes of sculptural expression employing altered object and construction forms. Topics and processes will include basic wood and metal fabrication techniques, acquired objects and site based works, and studio safety. Students will become acquainted with contemporary and historical approaches through ongoing studio work, process centered projects, demonstrations, critiques, individual and group discussions, and readings. (Spring semester) Prerequisite: Art Foundations or by permission. Cr 3.

ART 321 Digital Video Applications

This course provides an in-depth introduction to capturing and editing digital video. Students will view and analyze historical and contemporary film and video projects to gain an understanding of time-based media. Prerequisite: ART 221. Cr 3.

ART 322 Multi-Media Applications

This course will introduce the tools and methods for creating interactive projects incorporating still images, animation, video, sound, and text. Readings concerning aesthetic, theoretical, and historical perspectives on digital media will be discussed. Prerequisite: ART 221. Cr 3.

ART 323 Web Art: Concepts and Construction

Students will study the conceptual and structural framework for Web site development and Internet art. Alternatives to the conventional Web page and unique approaches to Web dynamics will be explored. The course will provide a working knowledge of hypertext markup language (HTML) and will address new developments in Web authoring. Interface design and the social implications of Internet art will be considered. Prerequisite: ART 221. Cr 3.

ART 331 Intermediate Ceramics I

This course extends the basic processes and methods of forming clay into teapot fundamentals, glaze study, and figure work. Students keep accurate records of their own progress and development. Prerequisite: ART 231. Cr 3.

ART 332 Intermediate Ceramics II

Students combine several methods of forming clay in one work and explore the complex use of nature and design. Students engage in historical research and presentation, keep accurate records of their development, and help fire kilns. Prerequisite: ART 331. Cr 3.

ART 341 The Visual Book II: Historical Influences on Contemporary Artists' Books

With attention to content and design, students will create a group of Artist's Books with specific historical references inspired by research into particular cultures and contemporary art movements. The Special Collections of USM Libraries and other local university and college libraries will be important course resources. ART 241 or permission of the instructor. Cr. 3.

ART 342 Book Arts at Stone House

This course begins with a series of workshops during a seven-day session at Stone House. Students will study skills and techniques that give them insights into design, history and aesthetics specific to Book Arts. Each student creates an artist's book for a September exhibition at the USM Glickman Family Library. ART 241 or permission of the instructor. This course may be taken multiple times as the workshop changes each summer. Cr. 3.

ART 343 New Media Book Arts

This is a digital imaging and book arts course. Students will design and self-publish limited edition artist's books using digital technologies. The focus of the course will be content driven book design using the computer to create and process images. Note: This course counts as an intermediate digital art requirement. ART 221 or ART 241, or permission of the instructor. Cr. 3

ART 351 Intermediate Drawing I: The Figure

Course focuses on study of the human figure in various contexts employing both wet and dry media. Extensive use of models. Prerequisite: ART 251. Cr 3.

ART 352 Experimental Drawing Techniques

Course explores combining media, color and colored grounds, supports, and drawing that goes beyond two-dimensions. Students will study contemporary developments in drawing and the use of non-traditional media. Prerequisite ART 251. Cr 3.

ART 356 The Visual Culture of Latvia and Northern Europe

A studio-based academic experience in Riga and the Latvian countryside, with on-site lectures by resident artists and scholars. The course encompasses the history of northern Europe, art history of Latvia, history of architecture of Riga, and contemporary art in Latvia. It includes studio-based instruction at the Latvian National Academy of Art. Only offered during Summer Session. Prerequisite: art foundation or permission of instructor. Cr 6.

ART 361 Intermediate Painting: The Figure

Course focuses on figure study in oil and water-based media. Students are encouraged to develop personal interpretations. Emphasis is on exploring paint and techniques in the western tradition. Frequent sessions working from the model. Prerequisite: ART 261. Cr 3.

ART 362 Intermediate Painting: Mixed Media

Course will develop approaches to multi-media in two and three dimensions. Projects will consist of collage, painted constructions, shaped canvases, assemblages and installations. Emphasis will be placed on imagination and experimentation with these non-traditional formats. Prerequisite: ART 261. Cr 3.

ART 371 Intermediate Photography

Refinement of the black and white technical skills, aesthetic decision-making language, contemporary strategies, and critical analysis of fine art photography. Medium and large format cameras and alternative processes are utilized. Distinctions between photographic series and sequences are studied. Presentations of historical and contemporary works provide examples of distinction and inspiration. Prerequisite: ART 271. Cr 3.

ART 372 Color Photography

This course introduces students to the processes, applications, and theory of color photography as an artistic medium. It covers processing, printing methods, color theory, and color management. Students are introduced to image editing software for color correction, image manipulation, and digital output. A series of assignments introduce students to the formal issues presented by color as an element of the medium, as well as analyze visual content in the broader project of photographic image-making. Prerequisites: ART 221 and ART 271. Cr 3.

ART 381 Special Topics in Printmaking

This course addresses historical approaches to, as well as emerging contemporary strategies in, the studio practice of printmaking. Students will be engaged in the exploration of thematic social and political concepts pertaining to the idea of the multiple. Prerequisites: ART 221, and ART 281 or ART 282. Cr 3.

ART 382 Experimental Printmaking

This course introduces methods of printmaking that are experimental, photographic, and digital in nature. Students will learn contemporary approaches to topics such as photogravure and duotones through direct and photomechanical methods for intaglio and lithography. Prerequisites: ART 221, and ART 281 or ART 282. Cr 3.

ART 391/392 Intermediate Sculpture

The theory and practice of sculptural composition using a variety of techniques with traditional and new materials. Prerequisite: ART 291. Cr 3.

ART 400 Internship in the Visual Arts

The purpose of the internship is to allow students to work in an area that pertains to the visual arts and is related to their own activities and career intentions. Possibilities for internships include, but are not limited to, galleries, arts-related businesses, museums, practicing artists, scholars, nonprofit organizations, and cultural institutions. Pass-fail only. Prerequisite: Junior status or above and permission of the Art Department Chair. Cr 1-6.

ART 401 Senior Seminar in Studio Art

Designed for BFA graduating senior students, this course will provide a cross-disciplinary critique of the student's project and will culminate in a senior exhibition. Questions regarding current theoretical practices and strategies will be examined through readings, slides, and visiting artist lectures in order to provide a basis for understanding the student's artistic choices. Prerequisite: senior status/BFA degree students. Cr 3.

ART 407 Advanced Problems in Art

An opportunity for the student to do advanced work in the discipline of his/her choice, culminating in a related project. Prerequisites: permission of instructor and Art Department Chair. Cr 1 to 6.

ART 408 Independent Study in Art

An opportunity for the student who has demonstrated competence in a specific area of study to work independently with scheduled tutoring from a faculty member of the student's choice. Prerequisites: permission of instructor and Art Department Chair. Cr 1 to 6.

ART 412 Topics in Studio Art

A course on a selected topic in the studio arts. To be offered at least once each year. Prerequisite: permission of the instructor. Cr 3.

ART 420 Advanced Studio in Digital Art I

Students will work with the instructor to develop a digital art project based upon their interests and goals as a digital artist. Aesthetic, theoretical, and historical issues related to digital art and electronic media will be discussed. Prerequisites: ART 221 and at least one 300-level digital art course. Cr 3.

ART 421 Advanced Studio in Digital Art II

Students will further refine the skills acquired in Advanced Studio in Digital Art I. A semester-long capstone experience will be designed and completed by each student. Prerequisite: ART 420. Cr 3.

ART 431 Advanced Ceramics I

Students work in series, research and present information on a ceramic artist, and perform tests and experiments in forming clay, firing kilns, and glazing. Students are expected to fire all kilns, mix glazes, and keep accurate records of their development. Prerequisite: ART 332. Cr 3.

ART 432 Advanced Ceramics II

Students focus on the evolution of earlier studies into a series of work that may be used for the senior exhibition. Students research and present information about a ceramic artist, load and fire all kilns, mix glazes, and are encouraged to enter competitions and arrange a portfolio. Prerequisite: ART 431. Cr 3.

ART 441 Advanced Studio in Book Arts

This course creates an opportunity for in depth study and personal exploration with the Artist's Book. Every student will create a collection of Artist's Books while simultaneously gaining a confidence with and a strong aesthetic for the medium. ART 341, 342,343 or permission of the instructor. Cr. 3

ART 451 Advanced Drawing I

Course focuses on drawing in series and developing a conceptual approach to a long-term drawing project. Students will expand their technical skills and individual creative vision in relation to historical and contemporary artistic examples. Prerequisite: ART 351 or 352 Cr 3.

452 Advanced Drawing II

Advanced students will develop and refine a final drawing project either in series or a process-oriented approach culminating in an integrated body of work either for senior exhibition or publication. Prerequisites: ART 351 or 352. Cr 3.

ART 461 Advanced Painting I

This course for advanced painting students will stimulate individual vision through series and thematic projects devoted to expanding expressive, conceptual and technical abilities. Students will study historical and contemporary artists as an adjunct to enlarging their own creative interests and awareness. Prerequisite: ART 361 or 362. Cr 3.

ART 462 Advanced Painting II

Continued investigation of the painting process to express personal themes in the context of a senior thesis exhibition. Emphasis is on individual concepts and personal expression. The thesis project will be developed within a dedicated workspace with individual critiques by joint faculty and visiting critics. A writing component will accompany the final preparation of the thesis. Prerequisite: ART 361 or 362. Cr 3.

ART 471 Advanced Photography I

Students will develop a photographic project that emphasizes their interests and goals as visual artists. Individual and group critiques will explore and evaluate students' strategies and choices in respect to intention, investigation, discovery, judgment, and final production of imagery. Readings, lectures, and presentations will further inform student decisions and directions. Prerequisite: ART 372 or permission of instructor. Cr 3.

ART 472 Advanced Photography II

Students will further refine the skills acquired in the first semester of advanced photography. A semester-long project will be designed and completed by each student. Prerequisite: ART 471. Cr 3.

ART 481 Advanced Printmaking I

This class is intended for students who are proficient in two or more methods of printmaking (relief, intaglio, lithography, screenprinting, or experimental methods). Students will refine their technical skills while pursuing in-depth investigation of subject matter and imagery. Knowledge and practice of image-making as both an aesthetic and conceptual activity will be addressed. Prerequisite: permission of the instructor, or two courses from ART 281, ART 282, ART 381, and ART 382. Cr 3.

ART 482 Advanced Printmaking II

This class is for the student who can work proficiently in two or more methods of printmaking. Students are expected to develop their imagery based on well-conceived ideas, which can be successfully expressed in one or more printing techniques. Experimentation with new techniques is encouraged, as is an exploration of combining several methods of printmaking effectively in one print. Students develop and pursue independent portfolio projects. Prerequisite: ART 481. Cr 3.

ART 491/492 Advanced Sculpture

Continuation of Intermediate Sculpture with emphasis on the pursuit of personal imagery. Prerequisites: ART 391 and 392. Cr 3/3.

ART Independent Study Term

An opportunity for the student who has demonstrated competence and exceptional independence in a specific area of study to work with scheduled supervision from a faculty member of the student's choice. Prerequisites: permission of the Department of Art and the dean of the College. Cr 12-15.

Art Education**AED 221 Practicum in Art Education**

An introduction to art education theories and processes through readings, writings, discussion, observation, and clinical experiences with children. The examination of the relationship between art-making and learning is relevant to prospective art and classroom teachers. Prerequisites: sophomore standing or above and art foundation. Cr 3.

AED 321 Principles and Procedures in Art Education

History and philosophy of art education, theories of child art, relationship of goals to art education strategies, development of a workable set of beliefs about art education through readings, writings, discussion, observation, interview, and field experiences. Intended for the art education major. Prerequisites: AED 221 and art foundation. Cr 3.

AED 407 Advanced Problems in Art Education

An opportunity for the student to do advanced work in art education related problems. A total of 6 credits may be taken. Prerequisites: completion of the sequence of courses in the related discipline and permission of the instructor and Art Department Chair. Cr 1 to 6.

AED 421 Seminar in Art Education

This seminar examines art curriculum design and evaluation. Critical issues in art education for the emerging art education professional today are explored through discussion, writings, and readings. This course is to be taken while student teaching. Prerequisite: AED 321. Cr 3.

AED 428 Independent Study in Art Education

An opportunity for the student who has demonstrated competence in a specific area of study to work independently, with scheduled tutoring from a faculty member of the student's choice. Prerequisites: permission of the instructor and Art Department Chair. Cr 1 to 6.

EDU 324 Student Teaching

The student teaching year consists of two semesters. During the fall semester, students are in an elementary school half-time for eight weeks and in a secondary school half-time for the remaining eight weeks. During the spring semester, experiences are in the same schools, full-time, for eight weeks each. Students are under direct supervision of supervising teachers and a University supervisor. Cr 12.

Communication and Media Studies

Chair of the Department: David Pierson, 19 Chamberlain Avenue, Portland

Professors: Shedletsky; *Associate Professors:* Killmeier, Lockridge, Panici, Pierson; *Assistant Professors:* Anderson, Kivatsky; *Lecturers:* Gilbert, *Media Lab Manager:* Ives

The Department of Communication and Media Studies offers two bachelor of arts degrees, one in communication and the other in media studies. These two degree programs are distinct in several ways. In terms of focus, the communication degree program takes a broad view of communication, including the examination of face-to-face contexts and mediated ones. The media studies degree program more specifically focuses on media writing, criticism, and production. Another difference in these degree programs occurs at the senior level. Media studies majors prepare a senior project (intended to serve as a portfolio of their writing and/or production work) and participate in a service learning practicum (working for a community organization in a media capacity). Communication majors take two senior seminars. One seminar is chosen from a list of topics and the other is a capstone seminar designed to be a culmination of their undergraduate work and as a transition to graduate studies. Aside from the differences that make each program unique, the programs share a common core of courses that serve as a foundation for both. The two programs also embrace a liberal arts philosophy. This means that the emphasis is on critical thinking rather than vocational training.

The Department of Communication and Media Studies offers courses in a variety of settings. We maintain a presence in Portland and Gorham, and teach classes in several off-site locations including the Saco Center and the Bath/Brunswick Center. Additionally, several CMS courses are available through ITV and many courses are now being offered online.

All students must complete CMS 102: Introduction to Communication, CMS 103: Introduction to Media Studies, and CMS 200: Research Methods in Communication. These are the core courses that serve as the foundation for both degree programs. Introduction to Communication and Introduction to Media Studies provide students with an overview of the field. Research Methods in Communication prepares students to decipher and critically analyze various types of research.

Students must receive a grade of C or higher in all required courses in their respective degree programs in order to graduate. The Department of Communication and Media Studies is pleased to accept transfer credit from other accredited institutions of higher learning. Students wishing to receive credit for courses taken outside of USM will need to meet with the chair of the Department in order to discuss specific courses. Students may transfer a maximum of 12 credits in the major. The transfer of credits is at the discretion of the Department. Students are encouraged to contact us with any questions about the Department or our programs.

For students interested in pursuing a double major in Communication and Media Studies, please check the double major requirements posted on the department's website. The Department of Communication and Media Studies website is available through the directory on the University's web homepage.

Programs and Requirements

Bachelor of Arts in Communication

Major Requirements (36 credit hours)

I. Common Core (9 credit hours)

CMS 102 Introduction to Communication

CMS 103 Introduction to Media Studies

CMS 200 Research Methods in Communication

II. Communication Theory (9 credit hours - select three)

CMS 255 Business and Professional Communication

CMS 265 Intrapersonal Communication

CMS 272 Persuasion

CMS 275 Theories of Language

CMS 298 Topics in Communication I

CMS 330 Theories of Interpersonal Communication

CMS 332 Communication in the Family

CMS 345 Small Group Communication

CMS 375 Meaning and Communication

CMS 385 Intergenerational Communication and the Internet

CMS 390 Theories of Organizational Communication

CMS 398 Topics in Communication II

III. Media Theory (6 credit hours – select two)

CMS 284 Film Appreciation

CMS 294 Visual Communication

CMS 303 Media Effects

CMS 310 Topics in Media Criticism II

CMS 323 Understanding Technology

CMS 350 The Internet in Society

CMS 355 Consumer Culture

CMS 370 Media and Social Change

CMS 374 Media Criticism and Aesthetics

CMS 380 Film Genres

- CMS 384 Film and Cultural Studies
- CMS 394 Theories of Film

IV. Senior Experience (6 credit hours)

- Senior Seminar (3 Credit hours – select one)
- CMS 420 Communication and Cognition
- CMS 432 Topics in Interpersonal Communication
- CMS 455 Computer-Mediated Communication
- CMS 475 Discursive Practices
- CMS 484 Topics in Film
- CMS 485 Sex-Related Differences in Communication
- CMS 486 Women in Film
- CMS 490 Theories of Mass Communication
- CMS 498 Topics in Communication III
- Capstone Senior Seminar (3 credits)
- CMS 495 Theories of Communication

V. Electives (6 credit hours)

Communication majors may select any two courses offered by the Department as electives as long as they have met the prerequisites. The exceptions are internships and independent studies. These count toward the total number of credits needed for a bachelor of arts degree, but not as electives in the major.

Bachelor of Arts in Media Studies

Major Requirements (45 credit hours)

I. Common Core (9 credit hours)

- CMS 102 Introduction to Communication
- CMS 103 Introduction to Media Studies
- CMS 200 Research Methods in Communication

II. Media Writing (9 credit hours)

Select One:

- CMS 150 The Writing Process
- CMS 274 Writing for the Media

Select Two:

- CMS 205 Topics in Media Writing I
- CMS 202 Writing for Popular Print Media
- CMS 215 Journalism Reporting and Writing
- CMS 225 Screenwriting I
- CMS 300 Topics in Media Writing II
- CMS 302 Writing the Feature Story
- CMS 305 Writing Opinion: Editorials and Columns
- CMS 315 Broadcast News Writing
- CMS 325 Screenwriting II

III. Media Theory (9 credit hours)

Select One:

- CMS 284 Film Appreciation
- CMS 374 Media Criticism and Aesthetics

Select Two:

- CMS 210 Topics in Media Criticism I
- CMS 294 Visual Communication
- CMS 303 Media Effects
- CMS 310 Topics in Media Criticism II
- CMS 323 Understanding Technology
- CMS 350 The Internet and Society
- CMS 355 Consumer Culture
- CMS 370 Media and Social Change
- CMS 380 Film Genres
- CMS 384 Film and Cultural Studies
- CMS 394 Theories of Film
- CMS 486 Women in Film
- CMS 490 Theories of Mass Communication
- ENG 244 Introduction to Cultural Studies
- PHI 211 Media Ethics

IV. Media Production (6 credit hours)

Select One:

- CMS 190 Introduction to Media Production/CMS 191 Lab
- ITT 281 Web Site Development

Select One:

- CMS 220 Topics in Media Production I
- CMS 294 Visual Communication
- CMS 320 Topics in Media Production II
- CMS 340 Field Video Production/CMS 341 Lab

- CMS 440 Advanced Video Production/ CMS 441 Lab
- ITT 241 Information and Communication Technology
- ITT 342 Graphic Communications and Publishing
- ITT 343 Desktop Publishing
- ITT 344 Digital Audio and Video Technology

V. Senior Experience (6 credit hours)

- CMS 400 Senior Project (3 credits)
- CMS 450 Service Learning Practicum (3 credits)

VI. Electives (6 credit hours)

Media studies majors may select any two courses offered by the Department as long as they have met the prerequisites. The exceptions are internships and independent studies. These count toward the total number of credits need for a bachelor of arts degree, but not as electives in the major.

Minor in Communication and Media Studies

In order to declare the minor students must have a minimum 2.0 G.P.A. and have completed the core competencies in Quantitative Reasoning and College Writing.

The minor consists of 21 credit hours of courses in both the communication and media studies majors. Students must receive a grade of C or higher in all required courses in the minor.

CMS Core Courses (9 credit hours):

- CMS 102 Introduction to Communication
- CMS 103 Introduction to Media Studies
- CMS 200 Research Methods in Communication

CMS Areas of Study (12 credit hours)

Communication Theory (select one course):

CMS 255, CMS 265, CMS 272, CMS 298, CMS 330, CMS 332, CMS 345, CMS 385, CMS 390, CMS 398

Media Theory (select one course):

CMS 284, CMS 294, CMS 303, CMS 310, CMS 323, CMS 350, CMS 355, CMS 370, CMS 374, CMS 380, CMS 384, CMS 394

Media Writing (select one course): CMS 150W, CMS 274W, CMS 205, 225, 300, 305, 315, 325

CMS Elective (select one course that you qualify to take based on prerequisites).

CMS 102 Introduction to Communication

This course provides students with an overview and brief history of the field of communication, introduces them to theory development and the research process, and illustrates how communication theories can be applied to everyday life. Students will explore communication in a variety of contexts, including intrapersonal, organizational, intercultural, and mass communication. Cr 3.

CMS 103 Introduction to Media Studies

This course examines the historical, philosophical, technological, economic, political, and social aspects of print (book, magazine, and newspapers) and electronic media (radio, television, film, sound recordings, and the Internet). In addition, the effect of mass media will be explored. Prerequisite: media studies or communication major. Cr 3.

CMS 150 The Writing Process

This course provides students with professional writing skills through practice in techniques and strategies used in a variety of media writing applications. There is a strong emphasis on the utility of writing as a tool of communicating information, interpreting media content, and constructing meaning. Prerequisites: CMS 102, CMS 103, college writing, and communication or media studies major. Cr 3.

CMS 190 Introduction to Media Production

This course will examine the phases of production and design associated with studio production, video field production, and multimedia production. Course content will also explore media aesthetics. Prerequisites: CMS 102, CMS 103, and communication or media studies major. Cr 3.

CMS 191 Introduction to Media Production Lab

Various production exercises and assignments to illustrate the principles and theories presented in CMS 190. Prerequisite: concurrent enrollment in CMS 190. Cr 1.

CMS 200 Research Methods in Communication

This course introduces students to methods of inquiry found in the communication and media studies research literature. These methods include experimental design, survey research, textual analysis, and ethnography. The course examines the underlying philosophical assumptions associated with these methodologies as well as their unique strengths and limitations. Students' conceptual understanding of these methodologies and their ability to become critical consumers of research findings are the major objectives of the course. Prerequisite: communication or media studies major, CMS 102. Cr 3.

CMS 202 Writing for Popular Print Media

This introduction to magazine writing provides students an opportunity to conceive, craft, and publish original work in different genres for different markets. There is a strong emphasis on the utility of writing as a means of organizing and communicating information, as in reporting, and also as a medium for more expressive and entertaining content. Prerequisite: ENG 100 or equivalent, communication or media studies major, CMS 102 and CMS 103 or instructor permission. Cr. 3.

CMS 205 Topics in Media Writing I

A selection of courses varying in content from term to term. May be repeated for credit when topics vary. Students should consult their media studies advisor for detailed descriptions. Prerequisites: communication or media studies major, CMS 102 and CMS 103. Cr 1-3.

CMS 210 Topics in Media Criticism I

A selection of courses varying in content from term to term. May be repeated for credit when topics vary. Students should consult their media studies advisor for detailed descriptions. Prerequisites: communication or media studies major, CMS 102 and CMS 103. Cr 1-3.

CMS 215 Journalism Reporting and Writing

This course cultivates journalistic/public affairs research and writing. Students learn how to find and develop human and textual primary sources. Likewise, they learn and practice journalistic form and concise, accessible written expression. And students learn to appreciate and model the liberal ideals of public dialogue, debate, and democratic engagement. Prerequisites: communication or media studies major, CMS 102, CMS 103, and ENG 100 or equivalent. Cr. 3.

CMS 220 Topics in Media Production I

A selection of courses varying in content from term to term. May be repeated for credit when topics vary. Students should consult their media studies advisor for detailed descriptions. Prerequisites: communication or media studies major, CMS 102 and CMS 103. Cr 1-3.

CMS 225 Screenwriting I

In this course, students will learn the process of writing scripts for films. A variety of concept development strategies, writing exercises, script examples, and screenings will be used to encourage students to develop their creative writing skills. Emphasis will be placed throughout the class on the process of screenwriting, from idea formation through writing and revision. Each student will produce a script for a short film. Prerequisites: communication or media studies major, CMS 102 and CMS 103. Cr 3.

CMS 255 Business and Professional Communication

Designed to provide students with essential communication skills for business and other professional settings, the course covers interpersonal, group, and public communication. These skills include listening actively, giving and receiving constructive feedback, interviewing others, leading groups, negotiating, and making effective public presentations. The course also includes discussions of gender, cultural diversity, and ethics in the workplace. Cr 3.

CMS 265 Intrapersonal Communication

This course examines our ability to use what we know and feel in order to send, receive, and store information. Whether stimuli come from an external source or from within the self, the focus of intrapersonal communication is on the ways in which we process those stimuli, our ability to make sense out of our experiences, to remember, to retrieve information from memory, and to create messages at whatever level of consciousness, and no matter how many people are involved, in face-to-face or mediated communication. Prerequisites: communication or media studies major, CMS 102 and CMS 103. Cr 3.

CMS 272 Persuasion

A course designed to help students understand the basic principles of persuasion. The course deals with persuasion as a social phenomenon. The perspective from which the course is offered is the analysis of persuasion as a behavioral process. As such, the course will investigate the social science research that relates to persuasion. Students will examine the attempts made by others to persuade them, as well as the attempts they make to persuade others. Further, the course will deal with the issue of ethics in persuasion. Prerequisites: communication or media studies major, CMS 102 and CMS 103. Cr 3.

CMS 274 Writing for the Media

This writing-intensive course is designed to provide students with an overview of media writing. Students will be introduced to radio and television commercial writing, broadcast journalism, and fiction and non-fiction scriptwriting. Prerequisites: communication or media studies major, CMS 102 and CMS 103. Cr 3.

CMS 275 Theories of Language

The purpose of this course is to instigate thinking about the nature of language. The course is premised upon the conviction that, because language is such a central concern of so many disciplines and because various disciplines have made important contributions to our understanding of it, language can only be studied adequately via an interdisciplinary approach. The student will be introduced to some of the foremost efforts to comprehend language in the fields of psycholinguistics, philosophy, and linguistics. Through these disciplines, we intend to raise and pursue questions concerning the nature of language, its structure and function, its relation to people's perception of reality, and its relation to the mind. Prerequisites: communication or media studies major, CMS 102 and CMS 103. Cr 3.

CMS 284 Film Appreciation

This course will introduce the student to film aesthetics and appreciation. It assumes that the student has no knowledge of cinema beyond the movie-going experience. The aim of the course is to survey the fundamental aspects of cinema as an art form and communication vehicle. The power of moving images and their mass-mediated messages will be analyzed. Prerequisites: communication or media studies major, CMS 102 and CMS 103. Cr 3.

CMS 294 Visual Communication

The purpose of this course is to enhance understanding of TV processes by introducing students to several basic visual aspects of reality as mediated through a camera lens. Topics covered will include techniques of lighting, camera angles, perspective, shot distance, cutting to continuity, and montage. Students will use 35 mm cameras to produce assignments on color slides. These will be used in class discussion in conjunction with illustrations taken from magazines that demonstrate the same techniques. In addition to learning some rudiments of visual language, students will examine visual persuasive strategies. The course is open to all communication majors who have access to a 35 mm camera with manual controls. Automatic camera controls are optional. Prior experience with photographic procedures is helpful but not necessary since all students will receive instruction leading to a working knowledge of photographic techniques. Prerequisites: communication or media studies major, CMS 102 and CMS 103. Cr 3.

CMS 298 Topics in Communication I

A selection of courses varying in content from term to term. May be repeated for credit when topics vary. Students should consult MaineStreet for a listing of current topics courses and the CMS homepage for detailed course descriptions. Prerequisites: communication or media studies major, CMS 102 and CMS 103. Cr 3.

CMS 300 Topics in Media Writing II

A selection of courses varying in content from term to term. May be repeated for credit when topics vary. Students should consult their media studies advisor for detailed descriptions. Prerequisites: communication or media studies major, CMS 102 and CMS 103. Cr 1-3.

CMS 302 Writing the Feature Story

Students generate story ideas according to their own interests and target them for publication in specific markets. Class time focuses on perfecting writing and editorial skills, developing style and a field of interest, building an accomplished portfolio, and examining the practical and philosophical challenges of writing professionally. There is a strong emphasis on taking the initiative and working independently. Prerequisites: communication or media studies major, CMS 102, CMS 103, CMS 202, or instructor permission. Cr. 3

CMS 303 Media Effects

This course will examine the effects of mass media upon individuals and societies. It will explore such questions as who is affected, what effects occur and how much, which media content is involved, and what situations make effects more or less likely to take place. Prerequisites: CMS 102, CMS 103, CMS 200, and a communication or media studies major. Cr 3.

CMS 305 Writing Opinion: Editorials and Columns

This is a writing intensive course that provides students with the basic skills for writing editorials, columns, and journalistic essays. The emphasis is on economical, persuasive, and strongly argumentative styles of writing. Students will read, analyze,

and discuss throughout the semester the work of a leading U.S. essayist/columnist. Prerequisites: communication or media studies major, CMS 102 and CMS 103. Cr 3.

CMS 310 Topics in Media Criticism II

A selection of courses varying in content from term to term. May be repeated for credit when topics vary. Students should consult their media studies advisor for detailed descriptions. Prerequisites: communication or media studies major, CMS 102 and CMS 103. Cr 1-3.

CMS 315 Broadcast Newsriting

This course introduces the basics of newsriting for television. It stresses brevity and conversational style of writing. Students will learn how to write TV news story scripts, beginning with simple news scripts (readers) and closing with complex scripts (packages). By providing the basics, the course prepares students for an internship with a broadcast news organization. It also offers practical advice on obtaining a job in broadcasting. Prerequisites: communication or media studies major, CMS 102 and CMS 103. Cr 3.

CMS 320 Topics in Media Production II

A selection of courses varying in content from term to term. May be repeated for credit when topics vary. Students should consult their media studies advisor for detailed descriptions. Prerequisites: communication or media studies major .CMS 102 and CMS 103. Cr 1-3.

CMS 323 Understanding Technology

This course will examine the relationship between media, technology, and society from a variety of perspectives and disciplines. Through readings and discussions students will develop an understanding of a variety of frameworks and theories that explain technological change and the fundamental relationship between humankind and technology. Prerequisites: communication or media studies major, CMS 102 and CMS 103

CMS 325 Screenwriting II

Students will continue to build skills in dramatic story structure, visual storytelling, character, dialogue, conflict enhancement, effective description, and theme development. Each student will produce a draft of a feature length screenplay. Prerequisite: CMS 225. Cr 3.

CMS 330 Theories of Interpersonal Communication

A study of the current thinking in interpersonal communication which emphasizes specific theories of human interaction. Students will be exposed to research in the interpersonal setting and will apply findings to their personal relationships. The course will help students foster effective traditional and nontraditional relationships with a variety of people. Prerequisites: communication or media studies major , CMS 102 and CMS 103. Cr 3.

CMS 332 Communication in the Family

This course examines the role of communication in various family types. Students will be introduced to research and theory on the family and will apply findings to their own lives. Topics covered will include family satisfaction, communication rules, decision making, values, structures, autonomy, and conflict. Students will be asked to draw upon their family backgrounds for analysis and discussion. Prerequisites: communication or media studies major, CMS 102 and CMS 103. Cr 3.

CMS 340 Field Video Production

This course is primarily concerned with the development of critical evaluation skills needed in assessing and analyzing the video medium as a communication vehicle. Students will engage in actual video production projects. Prerequisite: CMS 190 and CMS 191. Cr 3.

CMS 341 Field Video Production Lab

This lab will provide students with hands-on experience with digital video cameras, production equipment, and digital, non-linear editing software. Students must concurrently be enrolled in CMS 340. Prerequisites: CMS 190 and CMS 191. Cr 1.

CMS 345 Small Group Communication

This course is designed to familiarize students with the theories and techniques associated with group behavior. The course explores the topics of leadership, conflict resolution, group climate, and decision making. Through simulations and exercises students learn methods for analyzing group process and their own behavior. Students' findings are reported in preliminary and final papers. Prerequisites: communication or media studies major, CMS 102 and CMS 103. Cr 3.

CMS 350 The Internet and Society

This course explores the worldwide network of computers linked to form a new medium of communication—the Internet. Course content will include the computer as a tool of communication, and how the Internet influences communication in such ordinary areas of life as work, interpersonal relations, and education. Students must have access to the Internet to participate in this course. Prerequisites: communication or media studies major, CMS 102 and CMS 103 or instructor permission. Cr 3.

CMS 355 Consumer Culture

This course explores U.S. commercial culture from historical and theoretical perspectives that privilege media and advertising/marketing. It engages critical perspectives that question consumer culture. The course focuses on the historical development of consumer culture, and how identity, the environment, and economy, are impacted and shaped by it. Prerequisites: CMS 102 AND CMS 103 and communication or media studies major. Cr 3.

CMS 370 Media and Social Change

This course analyzes how news media coverage affects social change. Students explore how and why the media cover social movements the way they do, and look closely at news coverage of the civil rights, black power, antiwar, women's and men's movements. Both print and TV news are examined through readings, discussion, and original research. Prerequisites: Prerequisites: CMS 102 and CMS 103 and communication or media studies major. Cr 3.

CMS 374 Media Criticism and Aesthetics

This course introduces students to the variety of critical approaches applied to the analysis of media. The content of this course will focus on traditional and contemporary analysis of media. The aim of this course is to provide a critical context for the consumption of media content. Prerequisites: CMS 102 and CMS 103 and communication or media studies major. Cr 3.

CMS 375 Meaning and Communication

This course examines the assignment of meaning to verbal behavior, especially conversational exchange. Researchers have paid special attention to the ways in which words and actions take on meaning in context. We will focus on the full communicative event involving talk, i.e., context, pragmatics, grammatical structures, conversational structures, and types of meaning. A central question of the course is: How do people interpret what other people say? The course makes use of close reading and discussion of theory as well as the collection and analysis of naturally occurring spontaneous spoken and written discourse. Prerequisites: CMS 102 and CMS 103. Cr 3.

CMS 380 Film Genres

This course will explore a genre found in film history. The genre selected for any given semester could be taken from such established ones as science fiction, horror, screwball comedies, musicals, or film noir. May be repeated for credit when topics vary. Prerequisites: CMS 102J, CMS 103, and CMS 284 and communication or media studies major. Cr 3.

CMS 384 Film and Cultural Studies

This course will investigate how the discipline of cultural studies can be applied to the analysis and criticism of film. Students will read influential essays by writers such as Roland Barthes, Stuart Hall, and Teresa de Lauretis and discuss the implications of these writings for the study of the film medium. During the semester, students will view and critique films from a cultural studies perspective. Prerequisites: CMS 102, CMS 103, CMS 284 and communication or media studies major. Cr 3.

CMS 385 Intergenerational Communication and the Internet

There are three major components to this course: 1) mentoring a senior citizen who is learning to use the Internet; 2) learning about mentoring through hands-on experience, reading, writing, and discussion of the process; and 3) writing a research paper on a topic relevant to intergenerational communication. Students in this course will mentor students enrolled in the Osher Lifelong Learning Institute course, Internet for Seniors (or other similar course). In addition, each student will read research on intergenerational communication and write a research paper. Prerequisites: communication or media studies major, CMS 102 and CMS 103. Cr 3.

CMS 390 Theories of Organizational Communication

This course is designed to introduce students to organization theory and behavior through the medium of metaphor. Using different metaphors, the course draws attention to significant aspects of the process of organizing, and provides a means for understanding and managing organizational situations. Students are responsible for conducting on-site field studies and preparing written and oral presentations of their findings. Prerequisites: CMS 102 and CMS 103. Cr 3.

CMS 394 Theories of Film

The emergence and evolution of the film medium are traced through the writings and teachings of both the classic and the modern theorists/filmmakers, from several perspectives: humanistic, ideological, and technical. The course focuses on the contributions of historical trends, film genres, major schools of thought, and the works of selected individuals in shaping a concept of what the medium of film is, how it operates as a language, how it relates to reality and what functions it serves. Students will apply these notions in their examination of the often conflicting relationships among the various theories as well as between film theory and film criticism. Prerequisites: CMS 102, CMS 103, CMS 284 and communication or media studies major. Cr 3.

CMS 398 Topics in Communication II

A selection of courses varying in content from term to term. May be repeated for credit when topics vary. Students should consult MaineStreet for a listing of current topics courses and the CMS homepage for detailed course descriptions. Prerequisites: communication or media studies major, CMS 102, CMS 103, and CMS 200. Cr 3.

CMS 400 Senior Project

This course offers graduating seniors in media studies an opportunity to complete a media portfolio (resume, sample media-related work, and reflective writing). Students are also required to complete a group media application project. Students will present their work to an audience of faculty and peers. Students will further develop career strategies by participating in workshops. Prerequisites: CMS 102, CMS 103, CMS 200, communication or media studies major, and senior standing. Cr 3.

CMS 420 Communication and Cognition

A seminar designed to explore the relationship between communication and thought processes. The nature of consciousness is explored through a consideration of the acquisition, retention, and retrieval of information. Special attention is given to experimental analysis of thought processes. Prerequisites: communication or media studies major, CMS 102, CMS 103, and junior or senior standing. Cr 3.

CMS 430 Communication Internship

An in-depth experience in specific areas of communication acquired in the field. Students will focus their efforts in an area related to their choice of communication expertise (i.e., organizational communication, mass communication, interpersonal communication). Prerequisites: communication or media studies major, CMS 102, CMS 103, and a precise definition of the project and director's consent. Pass/fail only. Restricted to communication majors, or permission of the instructor. Cr var.

CMS 432 Topics in Interpersonal Communication

This seminar is designed to investigate significant issues in interpersonal communication. The course will be theoretical in nature, exploring a particular topic in depth each semester. Topics vary from semester to semester. Such topics as conversational analysis, friendship, deception, relationship termination, and conflict may be selected for the course. A research project is required. Prerequisites: communication or media studies major, CMS 102, CMS 103, CMS 200, and CMS 330. Cr 3.

CMS 440 Advanced Field Video Production

This course continues to explore the concepts introduced in MES 340 and MES 240. Students will investigate pre-production planning, production techniques, and post-production execution in order to communicate clearly in the video medium. More complex assignments will be given to hone skills in writing, directing, and producing. Prerequisites: CMS 190, CMS 191, CMS 340, and CMS 341. Cr 3.

CMS 441 Advanced Field Production Lab

This lab will focus on advancing the skills and concepts taught in MES 340/341. This lab will consist of workshops and exercises in image and sound acquisition using digital video cameras and production equipment, as well as advanced video editing principles and techniques using editing software. Students must be concurrently enrolled in CMS 440. Prerequisites: CMS 190, CMS 191, CMS 340, and CMS 341. Cr 1.

CMS 450 Service Learning Practicum

This course gives students the opportunity to work with organizations outside the University in a professional context. Students will be divided into groups and will work with nonprofit organizations to develop projects, such as a multimedia presentation, a video, or a research report. Prerequisites: CMS 102, CMS 103, communication or media studies major and senior standing. Cr 3.

CMS 455 Computer-Mediated Communication Research

This senior seminar makes use of the Internet for two main purposes: (1) to gather research findings, and (2) to present research findings as a home page. Students will learn how to use the Internet for its scholarly resources and how to express their research report as a home page. In essence, students will use a new medium to do an old job: to read and critically evaluate research, and to present a summary or final research report. Research found online and offline will be critiqued. Prerequisite: communication or media studies major, CMS 102, CMS 103, and junior/senior standing. Cr 3.

CMS 475 Discursive Practices

This is a senior seminar in which each student designs and carries out an empirical research project to study "talk activities that people do," such as person-referencing practices, or narratives; it may focus on single features that may be named and pointed to (e.g., speech acts) or it may reference sets of features (dialect, perspective). Students will examine how identities are associated with talk activities. Discursive practices may focus on something done by an individual or they may refer to actions that require more than one party. Prerequisites: CMS 102, CMS 103, communication major, and junior/senior standing. Cr 3.

CMS 484 Topics in Film

This course is a senior seminar designed to explore a particular topic in film communication. The professor designated to teach the course during any given semester will select an area of interest to explore with students. Such topics as film and society, women in film, and the silent cinema are areas that could be selected. Class sizes are limited in order for students to participate in discussion and contribute to the group's synergy. Prerequisites: communication or media studies major, CMS 102, CMS 103, CMS 284 and junior or senior standing. Cr 3.

CMS 485 Sex-Related Differences in Communication

This seminar on sex-related differences in communication is designed primarily to evaluate critically the research literature. It is concerned with whether males and females differ in their actions of sending, receiving, and interpreting messages. The course examines gender-role stereotyping, empirical findings on sex-related differences in communication behavior (e.g., talking, interpersonal style, touching, eye contact, etc.), and explanations for sex differences. Critiques of some major theoretical positions are discussed (e.g., sex differences in dominance, aggression, cognition, and brain organization). Prerequisites: communication or media studies major, CMS 102, CMS 103, and junior or senior standing. Cr 3.

CMS 486 Women in Film

This course will explore the depiction of women in film. Films will be analyzed in the context of the political and ideological subtexts they contain. The purpose of the analysis is to understand a film and to be able to relate it to the society that it reflects and sometimes affects. Prerequisites: communication or media studies major, CMS 102, CMS 103, and junior or senior standing. Cr 3.

CMS 490 Theories of Mass Communication

A discussion of significant factors related to communication theory. Contemporary theories of mass communication, the mass media, audience analysis, and the role of mass communication in society will be among the topics examined in the course. Students elect to examine an aspect of mass communication that is of interest to them, and present their findings in research papers and projects. Prerequisites: communication or media studies major, CMS 102, CMS 103, and junior or senior standing. Cr 3.

CMS 491 Independent Study

A concentrated program of research or study on a particular topic approved and guided by a Department faculty member. The student and faculty member will have periodic conferences throughout the semester to discuss the progress and outcomes of the student's work. Prerequisites: communication or media studies majors, junior or senior standing, and faculty approval. Cr 3-6.

CMS 492 Internships in Media Studies

This course offers students the opportunity to develop media expertise by working with professionals in the field. Typically, the intern will work closely with a mentor in a sponsoring organization to gain practical skills and to develop strategies for transitioning from college to professional placement. An application process is required. Prerequisites: communication or media studies major, CMS 102, CMS 103, and junior or senior standing. Cr. Variable (1-6 per internship; 15 total).

CMS 495 Theories of Communication

This course is designed for upper class students majoring or minoring in communication studies. Based on a seminar format, students in this course will explore in depth several advanced theories of communication, mechanistic through interactive, with examples and application for each. Prerequisites: CMS 102, CMS 103, CMS 200, communication major with a minimum of 90 credit hours. Cr 3.

CMS 498 Topics in Communication III

A selection of courses varying in content from term to term. May be repeated for credit when topics vary. Students should consult MaineStreet for a listing of current topics courses and the CMS homepage for detailed course descriptions. Prerequisites: communication or media studies major, CMS 102, CMS 103, CMS 200, and junior or senior standing. Cr 3.

Criminology

Chair of the Department: James W. Messerschmidt, 1 Chamberlain Ave., Portland
Professors: Beirne, Bjelic, Messerschmidt, Powell; *Associate Professor:* Wachholz

The Department of Criminology offers a four-year program leading to a bachelor of arts (BA) degree in criminology. The program provides students with a liberal arts education whose focus is the complex relations among crime, law, and society, and which emphasizes the social sciences. The curriculum is a rigorous series of courses which provides students with a comprehensive knowledge of crime and crime control in contemporary, historical, and comparative perspective. The core of the curriculum is an integrated set of required courses. These courses are designed as a cumulative set of experiences and should be taken in sequence if possible. Elective courses enable students to place their criminological interests in a broader perspective.

Many students in the program are interested in social and human service occupations related to criminal, juvenile, and social justice. The program also prepares students for a wide variety of other career options and provides an excellent basis for graduate study in criminology, other social sciences, and law.

The Department is well-known for its critical perspectives and published research on criminological theory, gender, multi-cultural, and comparative analyses. The faculty have won regional, national, and international awards for scholarship, teaching innovations, and community service. In addition, all faculty members have had significant professional training outside the United States, including in Australia, Britain, Sweden, and the former Yugoslavia.

While some students enroll in the major expecting to learn law enforcement skills and strategies, psychological profiling, forensic investigation, and approaches to prosecution, this is not the program's focus. Criminology courses examine social structural foundations of crime, deviance, and social harm, including the social control institutions, as well as the power dynamics involved in defining crime, prosecuting crime, and official sanctions for deviance and those "at risk." The dynamics of racism, sexism, class inequality, and heterosexism as they impact perceived realities of "crime" are also systematically explored in the program's courses. The notion that "crime" is simply about breaking the law is not accepted at face value; the concept and the broader discipline of criminology as it relates to faculty research, teaching, and community service are examined.

Internships

The Department of Criminology offers a strong and established internship program. Credit internships actively seek to bring together student academic work and community involvement. Students interested in an internship placement are encouraged to meet with the internship coordinator.

Programs and Requirements

The minimum number of credits (exclusive of the University's Core curriculum) required for the major: 36.

Required Courses (24 credits)

- CRM 100 Introduction to Criminology
- CRM 216 White-Collar Crime
- CRM 220 Research Methods in Criminology
- CRM 301 Criminological Theory
- CRM 317 Gender and Crime
- CRM 330 Crime and Social Control
- CRM 334 Law and State
- CRM 401 Comparative Criminology

Elective Courses (12 credits)

Students are also required to choose four elective courses (12 hours) from the following courses:

Criminology

- CRM 217 Crime in Maine
- CRM 222 Field Studies in Informal Social Order
- CRM 225 Crimes against the Environment
- CRM 230 Introduction to the Criminal Justice System
- CRM 310 Classical Theories of Social Order
- CRM 320 Film and Social Order
- CRM 325 Domestic Violence
- CRM 327 Animal Abuse
- CRM 337 Youth Crime
- CRM 340 Criminal Law
- CRM 345 Criminology in Sweden
- CRM 350 Topics in Criminology
- CRM 360 The Death Penalty
- CRM 370 Reflexive Criminology
- CRM 375 Media, Crime, and Criminalization
- CRM 380 Restorative Justice
- CRM 390 Independent Projects
- CRM 395 Internship
- CRM 402 Senior Seminar

Major Credit and Minimum Grade Policy

Courses to be taken for major credit at other colleges and universities must be approved in advance. Grades of C or better must be achieved in all courses for major credit. Courses taken pass/fail are not acceptable in the major. Before taking upper-level criminology courses, students must have completed CRM 100 with a grade of C or better. To complete the major successfully, students must have achieved a grade of "C" or better in all courses taken for the major.

Curriculum Summary and Guide

The criminology curriculum is a series of structured and integrated courses that should be taken in sequence if possible.

<i>Year</i>	<i>Required Courses</i>	<i>Elective Courses</i>
1	Introduction to Criminology	
2	White-Collar Crime	
	Research Methods in Criminology	
3	Crime and Social Control	Electives
	Gender and Crime	
	Criminological Theory	
4	Law and State	Electives
	Comparative Criminology	

Transfer Students

Transfer students and students contemplating transfer into the Criminology Department are urged to meet with the Department chair as early as possible for an evaluation of their progress and their requirements in the major.

Supplementary information is published each semester by the Criminology Department to assist students in planning their course schedules. The information includes a summary of major courses, listings, and descriptions of special courses, and general information for majors.

For more information, write to: Administrative Assistant, Criminology Department, University of Southern Maine, P.O. Box 9300, Portland, Maine 04104-9300 or telephone (207) 780-4105.

Minor in Criminology

The number of credit hours required for the minor is 18. A grade of "C" or better is required in any course used for criminology minor credit.

Required Courses

- CRM 100 Introduction to Criminology
- CRM 216 White-Collar Crime
- CRM 220 Research Methods in Criminology

Choose one of the following:

- CRM 301 Criminological Theory
- CRM 317 Gender and Crime
- CRM 330 Crime and Social Control
- CRM 334 Law and State
- CRM 401 Comparative Criminology

Elective Courses

Choose any TWO CRM courses.

CRM 100 Introduction to Criminology

This course focuses on the nature of crime and on problems concerning its measurement and distribution. The course examines some of the popular images of crime in the media and elsewhere, the creation and utility of official and unofficial crime statistics, and theories about the causes of crime. No prerequisites. A grade of C or better is required in this course in order to continue in the major. Cr 3.

CRM 216 White-Collar Crime

This course provides an analysis of different criminological perspectives on white-collar crime, and focuses on some specific types of white-collar crime: occupational crime, corporate crime, and political crime. Prerequisite: CRM 100 or permission. Cr 3.

CRM 217 Crime in Maine

An introduction to crime and penal policies in Maine, including official and unofficial crime statistics; common crimes; white-collar crimes; and selected aspects in crime control. The course presents interstate comparative analysis, and several guest lectures by Maine speakers. Prerequisite: CRM 100 or permission. Cr 3.

CRM 220 Research Methods in Criminology

This course is an introduction to methodological issues in criminology. The emphasis is on critical evaluation and application of the basic instruments of inquiry. Students will learn how to “do” criminology, as well as how to assess existing criminological literature. Prerequisite: CRM 100 or permission. Cr 3.

CRM 222 Field Studies in Informal Social Order

This course will study informal social order as the tacit framework for the formal legal order. This will be an empirical test of criminological theories introduced in CRM 215. Through different methods of field research, students will be asked to observe and analyze the informal order of legal institutions such as courtrooms, prisons, and police stations. Prerequisite: CRM 100 or permission. Cr 3.

CRM 225 Crimes Against the Environment

This course is designed to expose students to many of the prominent controversies and challenges associated with defining, measuring, and responding to crimes against the environment. Central to the course is an examination of the relationship between socioeconomic power and its effect on responses to environmental change. Prerequisite: CRM 100 or permission. Cr 3.

CRM 230 Introduction to the Criminal Justice System

This course is designed to provide students with an understanding of the criminal justice system in the United States from a sociological perspective. Students will become familiar with criminal justice functions such as policing, trials, defense and prosecution of cases, and corrections. Also, students are required to prepare a mock trial of a criminal case. Prerequisite: CRM 100J or permission. Cr 3.

CRM 301 Criminological Theory

This course focuses on the development of criminological theory from 1930 to present. The course is historical in nature and addresses such fundamental problems as why certain behavior is defined as criminal, the causes of crime, and the consequences for the individual of being labeled as a criminal. Prerequisite: CRM 100 or permission. Cr 3.

CRM 310 Classical Theories of Social Order

This course will examine how the concept of social order and the invention of criminology arose simultaneously. Classical social theories of the Enlightenment and Modernity will be used to study the origin of the modern state and the criminalization of various social groups. Prerequisite: CRM 100 or permission. Cr 3.

CRM 317 Gender and Crime

This course concentrates on gender and its relation to crime. It explores such issues as histories of gender inequality, the gendered character of criminological theory, and how gender is related to a variety of crimes such as rape, violence in the family, crimes by women, property crimes, and corporate crime. Prerequisite: CRM 100 or permission. Cr 3.

CRM 320 Film and Social Order

The intent of this course is to engage in a cross-cultural study of the relationship of film to social order and crime. Films construct images about social reality. The ways in which these images present and interpret this relationship will be examined from various analytical standpoints, including ethno-methodology, semiology, and post-modernism. Prerequisite: CRM 100 or permission. Cr 3.

CRM 325 Domestic Violence

This course explores contemporary theoretical and policy debates on domestic violence as a social problem and crime. Topics include partner abuse, child abuse, and elder abuse. The definition and measurement of domestic violence are analyzed. Comparison of legal and community responses to domestic violence is emphasized. Special attention is given to economic and ethnic diversity as they relate to domestic violence. Prerequisite: CRM 100 or permission. Cr 3.

CRM 327 Animal Abuse

Key questions about the nature and forms of animal abuse are subjected to interdisciplinary inquiry spanning sociology, criminology, moral philosophy, and law. The course begins with individualized forms of animal abuse, such as cruelty, neglect, and sexual assault. It then examines institutionalized forms of abuse in research, zoos, hunting, sport/entertainment, and food production. Attention is also given to the link(s) between animal abuse and interhuman violence. Prerequisite: CRM 100 or permission. Cr 3.

CRM 330 Crime and Social Control

This course explores theoretical and practical issues of modern systems of social control, including punishment, policing, prisons, parole, probation, and the role of the state in social control. The history of Western social control systems is stressed, with emphasis on race, gender, and class effects. Students are required to engage in experiential learning. Prerequisites: CRM 100 or permission. Cr 3.

CRM 334 Law and State

This course explores the relationship between the United States's social welfare policies and contemporary crime control problems and practices. It includes an examination of the United States's residual welfare state, theories on social welfare development, and the Nordic model of crime prevention, which is based on the premise that crime can be reduced through social policies designed to lessen structural inequalities. Prerequisite: CRM 100 or permission. Cr 3.

CRM 337 Youth Crime

This course provides an overview of justice issues as they affect juveniles. Theoretical explanations for youth crime as well as the emergence of both "adolescence" and "delinquency" as socially constructed concepts will be examined. In general, the course adopts an historical approach to youth crime. Prerequisite: CRM 100 or permission. Cr 3.

CRM 340 Criminal Law

This course offers students an intensive study and review of statutory law, case law, and criminal procedure. Substantive topics covered include responsibility; insanity; grand jury; 4th, 5th, 8th and 14th Amendment issues; pre-trial; trial; sentencing and appeals. Materials are drawn from U.S. Supreme Court and Maine Judicial Court opinions. Prerequisites: CRM 100 or permission.. Cr 3.

CRM 345 Criminology in Sweden

This special summer course in Sweden provides students with the opportunity to live in, study, and experience another culture and to gain an understanding of crime, criminology, and social control in another country. Visits will be made to the police department and court system in Stockholm and to several prisons in other cities. Lectures will be provided by sociologists at the Criminology Institute at the University of Stockholm, as well as by a variety of lawyers, judges, and political party leaders. Offered Summer Session only. Prerequisite: CRM 100 or permission. Cr 6.

CRM 350 Topics in Criminology

Specially developed courses exploring areas of interest and concern in depth. Topics which may be considered include war crimes, race and crime, ethno-methodology, homicide, visual criminology, film and crime, self and crime, sexuality and crime, and social theories of non-violence. May be repeated for credit. Prerequisite: CRM 100 or permission. Cr 3.

CRM 360 The Death Penalty

This course is designed to provide students with historical and current information on the death penalty in the United States. The following topics are covered: historical applications, deterrence, racial and gender bias, execution of innocent people, and the legal, political, economic, and moral perspectives of the death penalty. Prerequisite: CRM 100 or permission. Cr 3.

CRM 370 Reflexive Criminology

A reflexive approach to criminology examining criminological theories and perspectives as cultural and ideological products. Using cross-cultural and historical comparisons, the course analyzes the conditions under which "criminology" is produced. We also explore the connections between the product of the "criminology industry" and the reproduction of broader cultural and ideological patterns. Prerequisites: CRM 100 or permission. Cr 3.

CRM 375 Media, Crime, and Criminality

It is important to examine how the media assemble, select, and disseminate "crime knowledge" to audiences and thus influence their understanding of crime. The course uses a social constructionist approach to explore structural, institutional, and interactional contexts of media production. Prerequisite: CRM 100 or permission. Cr 3.

CRM 380 Restorative Justice

This course explores theory and research on restorative justice, which is an international movement of "progressive" reform that claims to reduce social inequalities generating crime. Students explore theoretical and empirical developments in restorative justice and examine programs claiming restorative components, such as victim-offender mediation and diversionary conferences. Prerequisites: CRM 100 or permission. Cr 3.

CRM 390 Independent Projects

Individually or collectively arranged reading and/or research for juniors and seniors under the direction of a faculty member. May be repeated for credit. Prerequisites: CRM 100 and permission of instructor. Cr var.

CRM 395 Internship

The course is designed as a field experience/reflection opportunity for upper-level criminology majors with substantive background or coursework in the area of internship placement. It also provides a work/action experience and insight into professional roles in a variety of community agencies and organizations. The emphasis is on the application of social science perspectives, substantive knowledge, and methodologies to understand a particular organizational situation. In addition to field placement, students are expected to meet for a series of internship seminars, for which readings and reports will be required. Also, students must have completed 53 or more credit hours by the end of the semester in which they register for the course. Contact Department internship coordinator for details. Prerequisites: CRM 100 or permission. Cr 3-6.

CRM 401 Comparative Criminology

This course focuses on the application of U.S. criminological theory in cross-cultural contexts. Specific emphasis is given to the problems of cultural relativism and intellectual imperialism while providing an integrative senior experience for majors. Prerequisites: CRM 100, CRM 220, and senior class standing. Cr 3.

CRM 402 Senior Seminar

This course is intended to furnish senior criminology majors with an opportunity to reflect on and integrate the material in their other major courses. Its focus is a major research project. The course combines individualized instruction, small group meetings, and seminars. Prerequisites: CRM 100, CRM 220 and junior or senior class standing. Cr 3.

Economics

Chair of the Department: Joseph Medley, 11 Chamberlain Avenue, Portland

Professors: Feiner, Hillard, Roberts; *Associate Professors:* Bouvier, Goldstein, Mamgain, Medley

The undergraduate program in economics provides practical preparation for a variety of careers as well as for graduate study in economics, business administration, public policy, and law. Economics is a social science and as such is best studied in the context of broader exposure to the liberal arts and sciences.

To be eligible for a degree, a student must complete 120 credit hours fulfilling the University's Core curriculum requirements and all requirements for the major. Note that only one course carrying the prefix ECO can be used to satisfy both Core curriculum and economics major requirements. All 100-level Economics courses satisfy a second-tier Core curriculum requirement.

The Department offers two different undergraduate degree programs (bachelor of arts, bachelor of science), which allow students to choose the combination of courses most appropriate for their future plans.

Programs and Requirements

Bachelor of Arts in Economics

Choose either Track A (57 or more credits) or Track B (59 or more credits); both tracks have the same major prerequisites and major requirements. Track A is recommended for students interested in a traditional liberal arts economics education. Track B is recommended for students interested in graduate study in economics or related policy fields. All 100-level Economics courses satisfy a second-tier Core curriculum requirement.

Major Prerequisites (6 credits)

ECO 101 Introduction to Macroeconomics
ECO 102 Introduction to Microeconomics

Major Requirements (9 credits)

ECO 301 Intermediate Macroeconomics
ECO 302 Intermediate Microeconomics
ECO 303 Political Economy

Track A:

Other Requirements (18 or more credits)

Select one of the following courses:

MAT 120 Introduction to Statistics
MAT 380 Probability and Statistics

Select one of the following courses:

ECO 305 Research Methods in Economics
MAT 105 Mathematics for Quantitative Decision Making
MAT 108 College Algebra
MAT 140 Pre-Calculus Mathematics
MAT 152 Calculus A
MAT 153 Calculus B

Select three of the following courses:

ANT 101 Anthropology: The Cultural View
GEO 101 Human Geography
POS 101 Introduction to American Government
POS 104 Introduction to International Relations
SOC 100 Introduction to Sociology

Select one of the following courses:

ECO 103 Critical Thinking About Economic Issues
PHI 111 Introduction to Philosophy: Philosophical Reading (and Writing)
PHI 112 Introduction to Philosophy: Feminist Perspectives
SOC 210 Critical Thinking About Social Issues

Major Electives (24 or more credits)

Select any five economics elective courses numbered 200 or above (excluding those ECO courses taken to fulfill requirements listed above).

ECO 220 U.S. Economic and Labor History
ECO 305 Research Methods in Economics
ECO 310 Money and Banking
ECO 312 U.S. Economic Policy
ECO 315 Economic Development
ECO 316 Case Studies in International Development
ECO 321 Understanding Contemporary Capitalism
ECO 322 Economics of Women and Work
ECO 323 U.S. Labor and Employment Relations
ECO 324 The Healthcare Workforce Crisis
ECO 325 Industrial Organization
ECO 326 Environmental Economics

ECO 327	Natural Resource Economics
ECO 328	Rural and Regional Economic Development
ECO 330	Urban Economics
ECO 333	Economics and Happiness
ECO 335	The Political Economy of Food
ECO 340	History of Economic Thought
ECO 350	Comparative Economic Systems
ECO 370	International Economics
ECO 380	Public Finance and Fiscal Policy
ECO 381	State and Local Public Finance
ECO 399	Special Topics in Economics
ECO 450	Readings in Economics
ECO 490	Independent Readings and Research in Economics

Select three additional economics electives, or up to three courses chosen from the following courses offered by other departments:

BUS 260	Marketing
BUS 335	International Business
CRM 216	White-Collar Crime
FIN 330	International Financial Management
GEO 303	Economic Geography
MAT 252	Calculus C
MAT 290	Foundations of Mathematics
MAT 295	Linear Algebra
POS 340	The Politics of Developing Nations
POS 365	Environmental Politics and Policy
SWO 350	Social Welfare Policy
WST 365	Topics in Women, Gender, and Institutions II
WST 465	Topics in Women, Gender, and Institutions III

Track B:

Other Requirements (17 or more credits)

ECO 305	Research Methods in Economics
MAT 152	Calculus A
MAT 153	Calculus B

Select:

Either

MAT 281	Introduction to Probability
---------	-----------------------------

and

MAT 282	Statistical Inference
---------	-----------------------

or

MAT 264	Statistical Software Packages
---------	-------------------------------

and

MAT 380	Probability and Statistics
---------	----------------------------

Major Electives (27 or more credits)

Select any six economics elective courses numbered 200 or above (excluding those ECO courses taken to fulfill requirements listed above. See complete economics major electives listing above.)

Select three additional economics electives, or up to three courses chosen from the following list of recommended courses offered by other departments. Students may also propose other upper-level courses for Economics Department approval if adequate justification is presented.

MAT 252	Calculus C
MAT 290	Foundations of Mathematics
MAT 295	Linear Algebra
MAT 350	Differential Equations
MAT 485	Introduction to Applied Regression
FIN 320	Basic Financial Management
FIN 327	Investment Management
FIN 328	Financial Institutions and Markets
FIN 330	International Financial Management
GEO 303	Economic Geography
GEO 305	Remote Sensing
GEO 308	GIS Applications I
GEO 408	GIS Applications II
ESP 200	Environmental Planning
ESP 305	Community Planning Workshop

Bachelor of Science in Economics

The B.S. curriculum is recommended for students interested in a liberal arts economics education with greater stress on business and quantitative skills. Choose either Track A (55 or more credits) or Track B (57 or more credits); both tracks have the same major prerequisites, major requirements and other requirements. Track A is recommended for students interested in a economics education with a quantitative business emphasis. Track B is recommended for students interested in graduate study in economics or related policy fields. All 100-level Economics courses satisfy a second-tier Core curriculum requirement.

Major Prerequisites (6 credits)

ECO 101 Introduction to Macroeconomics
ECO 102 Introduction to Microeconomics

Major Requirements (9 credits)

ECO 301 Intermediate Macroeconomics
ECO 302 Intermediate Microeconomics
ECO 303 Political Economy

Other Requirements (22 or more credits)

Select three of the following courses:

BUS 260 Marketing
BUS 335 International Business
BUS 340 Managing Organizational Behavior
BUS 361 International Marketing

BUS 365 Consumer Behavior,

or

BUS 165 Consumer Studies

BUS 385 Entrepreneurship and Venture Formation
FIN 320 Basic Financial Management
FIN 327 Investment Management
FIN 328 Financial Institutions and Markets
FIN 330 International Financial Management

Track A:

ACC 110 Financial Accounting Information for Decision Making
MAT 210 Business Statistics
BUS 275 Applied Business Analysis

Select one of the following courses:

BUS 370 Management Science
BUS 375 Production/Operations Management
ECO 305 Research Methods in Economics

Students who select ECO 305 under Track A cannot also use that course to satisfy a major elective requirement.

Track B:

ACC 110 Financial Accounting Information for Decision Making
MAT 152 Calculus A
MAT 153 Calculus B
MAT 380 Probability and Statistics

Major Electives Track A and Track B (18 or more credits)

Select any four economics elective courses numbered 200 or above (excluding those ECO courses taken to fulfill requirements listed above. See complete economics major electives listing above). Take two additional economics electives, or up to two courses chosen from the following courses offered by other departments:

CRM 216 White-Collar Crime
GEO 303 Economic Geography
MAT 252 Calculus C
MAT 290 Foundations of Mathematics
MAT 295 Linear Algebra
POS 340 The Politics of Developing Nations
POS 365 Environmental Politics and Policy
SWO 350 Social Welfare Policy
WST 365 Topics in Women, Gender, and Institutions II
WST 465 Topics in Women, Gender, and Institutions III

Minor in Economics

A minor in economics is available to students in any major within the University. Students wishing to pursue the minor must be in good standing with the University and submit a Declaration of Minor form to the USM Registrar.

Requirements for a minor in economics (18 credits)

ECO 101 Introduction to Macroeconomics ECO
102 Introduction to Microeconomics

Select one of the following courses:

ECO 103 Critical Thinking About Economic Issues

ECO 105 A Novel Approach to Economics

Select three 300-level or above ECO courses

All courses taken to satisfy the requirements for a minor in economics must be completed with a cumulative GPA of at least 2.0.

Minor in Accounting

A minor in accounting is available to students in any major within the University. Students wishing to pursue the minor must obtain a copy of the Authorization for Accounting Minor form from the School of Business, complete and return it to the School of Business advisor, signed by the student's current advisor for his or her major. Completion of at least 12 credits at USM with an overall GPA of 2.33 is required at the time of application. Accounting minors need a 2.33 cumulative grade point average in the five courses taken in the minor. A student may transfer to the minor up to six credit hours of comparable accounting courses. Please refer to the minor in accounting in the School of Business section of this catalog for specific requirements.

Minor in Mathematics

A minor in mathematics is available to students in any major within the University. Students wishing to pursue the minor must be in good standing with the University and submit a Declaration of Minor form to the USM Registrar. This form is available online at: www.usm.maine.edu/advising/network/formbank.php. The minor in mathematics is 22 credit hours to include the following courses: COS 160, COS 170, MAT 152, MAT 153, MAT 290. Additionally, select two MAT courses with a second digit 5 or greater (we recommend MAT 295 Linear Algebra).

All courses taken to satisfy the requirements for a minor in mathematics must be completed with a cumulative GPA of at least 2.0.

Note also the interdisciplinary minor in labor studies, which is described in the College of Arts, Humanities, and Social Sciences section of this catalog.

Courses taught on regular rotation are so noted in each description; other courses not so noted are taught at least biannually unless faculty resources are unavailable.

ECO 100 Introduction to Economics: Ideas and Issues

An introduction to basic economic ideas, issues, and theories for non-majors. The course surveys microeconomic and macroeconomic theories and analyzes current topics and problems of the economy. Prerequisite: none. This course will satisfy a second-tier Socio-Cultural Analysis Core curriculum requirement. Every semester. Cr 3.

ECO 101 Introduction to Macroeconomics

An analysis of the basic characteristics, institutions, and activities of modern market economies. Topics discussed include inflation, unemployment, government monetary and fiscal policy, full employment and economic growth. Prerequisite: none. This course will satisfy a second-tier Socio-Cultural Analysis Core curriculum requirement. Every semester. Cr 3.

ECO 102 Introduction to Microeconomics

Introduction to the analysis of individual markets: the functioning of prices in a market economy, economic decision making by producers and consumers, and market structure. Topics discussed include consumer preferences and consumer behavior, production theory and production costs, the monopoly firm, and resource pricing. Additional topics are determined by individual instructors. Prerequisite: none. This course will satisfy a second-tier Socio-Cultural Analysis Core curriculum requirement. Every semester. Cr 3.

ECO 103 Critical Thinking About Economic Issues

This course aims to develop critical thinking skills through the study of competing interpretations and analyses put forward by economists. Students will use a variety of texts, media, and activities to better understand controversial topics in economics. The specific thematic focus of ECO 103 may vary from section to section. Examples of topics which may be examined include the economics of health care, economic inequality, the global economy, and the economics of the environment. Prerequisites: ENG 100 or equivalent. This course will satisfy a second-tier Socio-Cultural Analysis Core curriculum requirement. Every semester. Cr 3.

ECO 104 The U.S. in the World Economy

Students will examine national and global economic issues through consideration and application of economic theories. They will analyze and discuss basic economic principles and viewpoints, traditional policy approaches, post-World War II transformation in the U.S. economy, the impacts of the changing global economy on various aspects of life in the United States and will develop policy responses to these issues. Prerequisite: none. This course will satisfy a second-tier Socio-Cultural Analysis Core curriculum requirement. Yearly, spring. Cr 3.

ECO 105 A Novel Approach to Economics

This course will use fiction and non-fiction to explore key issues in economic analysis and policy formation. The impact of institutional change on production, distribution, and consumption will be the principal focus of the course. Students will discuss and write about the texts; some graphical analysis will be employed. Prerequisite: none. This course will satisfy a second-tier Cultural Interpretation Core curriculum requirement. Yearly, fall. Cr 3.

ECO 106 Economics of Social Change

Students will explore connections among major socioeconomic transformations (e.g., the spread of market relations, industrialization, and new technologies), massive movements of people (from countryside to city, from one nation to another), the resulting clash of cultures, and the social construction of human worth. Students will analyze debates over social policy, economic performance and the relative standards of living. Prerequisite: none. This course will satisfy a second-tier Socio-Cultural Analysis Core curriculum requirement. Cr 3.

ECO 220 U.S. Economic and Labor History

This course examines labor issues in the U.S. economy, combining analytical and historical perspectives. The course surveys the evolution of labor in the U.S. economy from the industrial revolution to the present, considers the history of the American worker and of the U.S. labor movement, and analyzes labor markets and their relationship to the competitiveness of the U.S. economy. Prerequisite: English competency requirement. At least biannually. Cr 3.

ECO 301 Intermediate Macroeconomics

A theoretical analysis of the basic forces that cause inflation, growth, and fluctuations in economic activity. The effects on employment and other factors are thoroughly treated. Stabilization policies are examined and evaluated. Prerequisites: ECO 101 and ECO 102, or ECO 100 and Department permission. Yearly, fall. Cr 3.

ECO 302 Intermediate Microeconomics

Analysis of individual markets, choice, and exchange theory: the functioning of prices in a market economy, rational decision making by consumers and producers, cost and production analysis, market structure, and theory of public goods and market failures. Prerequisites: ECO 101 and ECO 102, or ECO 100 and Department permission. Yearly, spring. Cr 3.

ECO 303 Political Economy

This course provides an overview of various perspectives on the U.S. economic system, its dynamics, problems, and its relation to the political sphere. Topics may include: inequality and discrimination; growth and the environment; military spending, productivity and growth; and policies for the future. Prerequisites: ECO 101, ECO 102, and either ECO 301 (or concurrent) or ECO 302 (or concurrent) or permission of instructor. Yearly, fall. Cr 3.

ECO 305 Research Methods in Economics

Measures of central tendency, basic probability theory, and hypothesis testing will be discussed. With a focus on economic data, the relationship between random variables will be examined using linear regression models and computer software. Prerequisites: MAT 120 and proficiency in Microsoft Excel™ or permission of instructor. Cr 3.

ECO 310 Money and Banking

This course examines the structure and operation of the financial system with major emphasis on commercial banking; reviews the structure of the Federal Reserve System and analyzes the tools of policy; develops alternative monetary theories; and discusses major issues in monetary policy. Prerequisites: ECO 101, ECO 102. Every semester. Cr 3.

ECO 312 U.S. Economic Policy

This course examines currently perceived problems of the U.S. economy. A range of views of these problems and associated policy proposals are considered including: free market, traditional monetary and fiscal, as well as new policy approaches. Prerequisite: any 100-level ECO course. Cr 3.

ECO 315 Economic Development

The theories and practices of interregional and international economic development. Special attention is given to developmental problems of emerging nations. Prerequisite: any 100-level ECO course. Cr 3.

ECO 316 Case Studies in International Development

This course provides case studies of the issues, problems, and policies of economic development. The development experience of various countries is examined in a comparative context. Prerequisite: any 100-level ECO course. Cr 3.

ECO 321 Understanding Contemporary Capitalism

This course analyzes the character and dynamics of leading contemporary capitalist economies, emphasizing historical, comparative, and institutional perspectives. These perspectives are used to address a wide range of contemporary economic issues, including national R and D policy, financial regulation, public and private human resource investments, and organizational strategies. Prerequisite: any 100-level ECO course or instructor permission. Cr 3.

ECO 322 Economics of Women and Work

This course examines women's post-WWII experiences in paid work settings in the U.S. The class will assess a range of theories designed to explain women's access to well-paying jobs and career ladders while maintaining family responsibilities. In addition, students will consider the effectiveness of a variety of public policies for greater labor market equity. Prerequisite: none. Cr 3.

ECO 323 U.S. Labor and Employment Relations

This course considers the evolution of 20th-century U.S. labor relations, particularly the competing fortunes of union and non-union labor relations models, as well as the impact of changing institutions on labor markets. It also surveys the evolving perspectives of industrial relations theorists and practitioners. Prerequisite: English competency requirement. Cr 3.

ECO 324 The Healthcare Workforce Crisis

The course examines reasons for the labor market imbalances in U.S. healthcare, comparing doctors, nurses, nurses aides, pharmacists, therapists, and technicians. Students explore the roles of each labor market segment in the problems of healthcare quality, cost, and access. Students consider potential organizational and public policy solutions to the workforce crisis. Prerequisite: any 100-level ECO course. Cr 3.

ECO 325 Industrial Organization

This course investigates theories relating industrial structure to company conduct and performance. Case studies from the U.S. economy will be used to illustrate important developments in the 1970s and 1980s—internationalization, technological change, and competitiveness problems. Prerequisites: ECO 101, ECO 102. Cr 3.

ECO 326 Environmental Economics

This course considers the economic aspects of environmental issues, such as pollution and environmental degradation, environmental justice, and global climate change. In addressing each of these issues we will investigate the implications of various public policy responses such as regulation, marketable permits, and tax incentives. Prerequisite: ECO 102 or instructor permission. Cr 3.

ECO 327 Natural Resource Economics

In this course, we will consider the economic aspects of natural resource management and use, including the economically sustainable management of fisheries, forests, water resources, and biodiversity, with applications to Maine and beyond. We will investigate the implications of public policy responses such as regulations, marketable permits, and tax incentives. Prerequisite: ECO 102 or instructor permission. Cr 3.

ECO 328 Rural and Regional Economic Development

This course focuses on rural areas and the unique characteristics that influence their economic development. Students will investigate the roles of government, demographics, location of industries, natural resources, technology, amenities and institutions within the context of rural and regional areas. Special attention will be given to rural areas in Maine, Appalachia, and the Mississippi River Delta. A section of the course will be devoted to the rural areas of less developed countries. Prerequisite: ECO 102 or instructor permission. Cr 3.

ECO 330 Urban Economics

This computer-intensive course studies the growth and decline of urban regions. Census data are used to examine the dynamics of urban population change, with special reference to the northeastern United States. Prerequisite: ECO 102 or instructor permission. Cr 3.

ECO 333 Economics and Happiness

Presents the limited relationship between economic well-being and happiness. Students will learn differing assessments and determinants of happiness as presented by economists, psychologists, and neuroscientists. In addition, they will examine the influence of ethics, altruism, and cooperation on well-being and will conclude by examining policy implications. Prerequisite: ECO 101 or ECO 102 or instructor permission. Cr 3.

ECO 335 The Political Economy of Food

This course examines the inter-relatedness of production, distribution, and consumption of food in a global economy. Topics include the role of government policies in the U.S. and India, the impact of multinational agro-corporations on traditional methods of food production, and the subsequent impact on income and entitlements to food. Prerequisites: any 100-level ECO course and ENG 100 or instructor permission. Cr 3.

ECO 340 History of Economic Thought

A survey of the development of modern economic theories, focusing in particular on Smith, Ricardo and Malthus, Marx, the marginalists, and Keynes. Consideration is also given to contemporary debates which exemplify historical controversies among theories. Prerequisites: ECO 101, ECO 102. Cr 3.

ECO 350 Comparative Economic Systems

The structures and operating principles of the major contemporary economic systems are examined and compared. Prerequisite: ECO 101 or ECO 100. Cr 3.

ECO 370 International Economics

Analysis of international markets and exchange theory, functioning of prices in the international economy, international finance, tariffs, quotas, and other instruments of international economic policy. Prerequisites: ECO 101, ECO 102. Cr 3.

ECO 380 Public Finance and Fiscal Policy

Public expenditure theory; principles of taxation; the federal budget and alternative budget policies; federal tax policy; fiscal policy for stabilization; federal debt. Prerequisites: ECO 101, ECO 102. Cr 3.

ECO 381 State and Local Public Finance

Development of the federal system; fiscal performance; intergovernmental fiscal relations; state and local revenue systems; budgetary practices; state and local debt. Prerequisites: ECO 101, ECO 102. Cr 3.

ECO 399 Special Topics in Economics

Prerequisite: Depends on topic. Cr 3.

ECO 450 Readings in Economics

A series of readings and discussions of important books and articles of a socio-economic and politico-economic nature. Prerequisite: none. Cr 3.

ECO 490 Independent Readings and Research in Economics

Independent study and research of various student-selected areas of economics. Prerequisites: a completed independent study form and sponsorship by an economics faculty member. May be taken more than once. Cr 1-12.

English

Chair of the Department: John Muthyala, 325 Luther Bonney, Portland

Professors: Ashley, Gish, McGrath, Waldrep; *Associate Professors:* Abrams, Benedict, Bertram, Carroll, Cole, Dean, Kuenz, Marya, Muthyala, Peters, Rusch, Swartz, Walker; *Assistant Professor:* Tussing

The USM English major is devoted to the study of language, literature, and culture. Focusing upon the British and American literary traditions, the major exposes students to a range of literature in different historical eras. It also offers students the opportunity to explore other traditions such as Irish or Canadian literature, women's writing, and African-American writing. In addition to literatures written in English, course offerings include world literatures in translation from the classical to contemporary eras.

The major encourages both the analysis of literary form and the study of literature in its historical and cultural contexts. Students learn how to read in the light of contemporary critical theories and in relation to the tools, texts, and theories of other academic disciplines. Many classes provide opportunities for the study of non-literary cultural texts and practices such as film, television, fashion, and ritual. Approved courses from other departments and programs—for example, Women's Studies and Modern and Classical Languages and Literatures—may also be counted toward the English major.

The most distinctive skill the major develops is critical expository writing. Virtually every course requires substantial writing from students, ranging from a weekly short paper to longer research papers. Moreover, students have the opportunity to develop their talents in writing through workshops in fiction, poetry, autobiography, and journalism. English majors have traditionally enjoyed participating in the creative communities of Stonecoast Writers' Conference and Celebrate Writers! The Department also offers a minor in writing. An internship in professional writing provides a means for some students to work locally as writers, editors, and reporters, and an internship in the teaching of writing for students who are planning a teaching career is offered.

Because of the Department's desire to explore relationships among language, literature and culture, English majors are encouraged to study a second language. Opportunities for study abroad are offered through the Department's exchange program with several schools, including Radboud University in the Netherlands, University College Winchester (formerly King Alfred's College) and the University of Central Lancashire in England, and University College, Galway, in the Republic of Ireland.

English majors are continually engaged in articulating their ideas and in developing persuasive arguments; therefore, graduates are well-prepared for careers in many areas. Medical, law, and business schools, in particular, regard English majors as desirable applicants. USM graduates also enter professional and graduate schools, including programs in English, writing, and cultural studies.

Programs and Requirements

Bachelor of Arts

The minimum number of credits (exclusive of the University's Core curriculum) required for the major: 48.

After satisfying the two prerequisites, a course in writing (College Writing or equivalent) and an introduction to the study of literature (120), the English major begins with ENG 245. The student then selects more advanced English courses (and up to 6 credits in approved courses from other departments) to satisfy the 48-credit major requirement. No more than 15 credits in 200-level courses may count toward the major.

English majors must meet the following English Department requirements. All courses must be passed with a grade of C- or better and six hours with a grade of B or better. Majors should have completed ENG 100, 101 or 104, ENG 120, ENG 245, and at least one other 200-level English course before concentrating on more advanced work.

Prerequisites

- ENG 100, 101, 104 or waiver (no credit toward major)
- ENG 120 or waiver (no credit toward major)

I. Introduction for Majors (3 credits)

- ENG 245 Introduction to Literary Studies. This course is a prerequisite for 300- and 400-level literature courses.

II. At least one 300- or 400-level Criticism and Theory course (3 credits)

III. At least one 200-, 300-, or 400-level course from each of the following categories (12 credits)

Language (In addition to ENG courses in the Language category, the following courses from the Linguistics Department satisfy this requirement: LIN 305, LIN 311, LIN 312, LIN 313, LIN 314, LIN 331. Courses in foreign and classical languages beyond third-semester college level also satisfy this requirement.)

Genre and Form

Writing (ENG 201 does not satisfy this requirement)

Interdisciplinary and Cultural Studies

IV. At least one 300- or 400-level course from 4 of 6 historical periods of literature (12 credits)

Ancient and Biblical (In addition to ENG courses in the Ancient and Biblical category, the following courses from Modern and Classical Languages and Literatures satisfy this requirement: CLA 283, CLA 284.)

Medieval Renaissance

Eighteenth Century

Nineteenth Century

Literatures Since 1900

- V. Senior Seminar (3 credits). A seminar is a small class (limited to approximately 15 students) designed to encourage independent thinking, intensive student participation, and in-depth research on topics of the student's choice related to the seminar topic. Typically seminars allow a professor to teach a focused subject of special interest, one on which the professor has done recent research or scholarly writing. Each semester, detailed descriptions of seminars will be published in the English Department's Course Guide. Seminars may also fulfill requirements under categories III, IV and V (but they still count as only 3 credits toward the major requirements).
- VI. Electives (as needed to complete 48 credit hours in the major). All electives must be 200-level or above. Students may petition to use up to six hours of courses from other departments toward their electives.

Prerequisites and Course Waivers

ENG 100, 101, 104 or an equivalent, or a waiver is prerequisite for any English language or literature course, including ENG 120. ESL 100 satisfies this requirement for non-native speakers of English. ENG 120 or permission of the instructor is prerequisite for any other English course. For English majors, ENG 245 is prerequisite for all 300- and 400-level literature courses. ENG 201 or instructor permission is a prerequisite for all 300- and 400-level creative writing courses. Certain advanced courses, as indicated in the course listings, and all independent studies require the permission of the instructor.

Non-majors and students with special interests are encouraged to seek the instructor's permission to take any course for which they feel qualified. ENG 120 may be waived for a few exceptional students who pass a qualifying exam administered by the English Department and for transfer students with certain literature course credits.

Semester Course Guides

Every semester the Department publishes a course guide that gives more detailed information, including texts and writing requirements, than the undergraduate catalog can accommodate. Students are urged to obtain a copy of the guide in the English Office.

The Honors Degree in English

For a B.A. degree in English with honors, a student must achieve a B+ or better average in courses taken for the major.

The English Minor

The minimum number of credits (exclusive of the University's Core curriculum) required for the English minor: 18. No more than a total of 6 credit hours can be earned at the 200-level.

The Department offers a minor in English that requires 18 credits of upper-level courses in a program planned with an English faculty advisor and approved by the English Department director of Advising. The goal of the minor is to give students not simply a collection of courses, but a coherent experience with English courses chosen to suit their needs and interests.

Each English minor program must meet the following specific requirements beyond ENG 100/101/104 and ENG 120 (or waivers):

- I. ENG 245 (3 credits)
- II. Three 300-level literature courses (one must focus on a period before 1800 and one on a period after 1800) (9 credits)
- III. Electives to complete the 18 credits required for the minor

Further information about the English minor is available from the English Department.

The Writing Minor

The minimum number of credits (exclusive of the University's Core curriculum) required for the writing minor: 18.

The English Department offers a minor in writing for both English majors and non-majors. The minor consists of tracks in poetry, fiction, non-fiction, and journalism. The goal of the writing minor is to direct student attention to writing offerings while recommending a productive sequence of writing courses and collateral craft-oriented textual studies courses.

Students enter the writing minor by meeting with the Department's coordinator of advising. Candidates must be eligible for pre-registration and/or admission to upper-level workshops and should have completed six hours of 200- or 300-level writing classes. Approximately 45 students will be writing minors during any given year. Students who are writing minors or English majors will have priority for registration in writing classes.

Each writing minor program must meet the following specific requirements beyond ENG 100/101/104 and ENG 120 or waivers:

- I. ENG 201 (3 credits)
- II. ENG 245 or one 200-level course from one of the following categories: Genre and Form or Interdisciplinary and Cultural Studies (3 credits)
- III. One of the following courses (3 credits)
(Note: These courses are required for admission to writing workshops.)
Fiction Writing (ENG 300)
Poetry Writing (ENG 301)
Newswriting (ENG 309)
- IV. Workshops (6 hours)

Fiction Workshop (ENG 302)
Poetry Workshop (ENG 303)

V. Elective courses (3 hours)

Selected from English Department offerings (or from offerings in other departments, such as Women's Studies) with emphasis on literary texts in the genre those students are practicing. Courses elected should be 300- or 400-level.

VI. Thesis

The minor requires a thesis comparable to an M.F.A. application portfolio: ten to fifteen poems or twenty-five to fifty pages of fiction or nonfiction, which normally would be completed in the second upper-level workshop.

VII. Optional Internship (3 credits)

Internships provide students the opportunity to earn course credit through professional experience in writing or editing for an organization, primarily in journalism or the arts. The English Department currently offers the Internship in Professional Writing (ENG 409).

Further information about the writing minor is available from the English Department.

ENG 100 College Writing

With an emphasis on the connections between reading and writing, English 100 introduces students to practices and conventions of expository academic writing. Students read expository writing from a variety of fields and use the ideas they encounter to develop and refine their own arguments and perspectives. Students learn how thinking and writing change through processes of reading, drafting, rereading, revision, editing, and proofreading. At the end of the semester, an ENG 100 student is able to compose essays that reflect his or her point of view, engage with complex readings, and focus on a central thesis or project in language relatively free of sentence-level error. Prerequisite: college readiness in writing. Every semester. Cr 3.

ESL 100 College Writing

This section of College Writing (ENG 100) is intended for non-native speakers of English only. This course focuses on the analysis of professional and student writing in terms of how to use the English language effectively in the academic classroom. The writing assignments encourage students to apply the principles discussed in class to their own work. This course cannot be used to satisfy a Humanities requirement. Prerequisite: ESL 104 or college readiness in writing. Every semester. Cr 3.

ENG 101 Independent Writing

English 101 is offered as an alternative college writing course for students who prefer to work independently on academic writing with an instructor's guidance. The main business of the course is conducted in individual conferences; therefore, the course is more intensive than ENG 100 or 104. This course emphasizes style, sentence structure, organization, and development. The major challenge of the course is the self-discipline that students will need to work independently. Prerequisite: college readiness in writing. This course fulfills the college writing requirement. Every semester. Cr 3.

ENG 103 A Modular Approach to the Writing Process

This course for college writers in various disciplines is divided into three units or modules, each of which earns one credit hour. Each unit runs for approximately one-third of a semester. Students may enroll in one, two, or all three modules and receive separate grades for each module they complete. The second and third units do not require the earlier unit(s) as prerequisites. Any or all of the units may be taken in conjunction with ENG 100 College Writing. The first unit, "Practical and Descriptive Grammar for College Writers," gives students a thorough knowledge of traditional "prescriptive" grammar and introduces them to modern "descriptive" grammar. The second unit, "Editing, Revising, and Rewriting," focuses on skills in proofreading, editing, revising, and rewriting, and also covers the use of computer programs for writing assistance. The third unit, "Research Skills Across the Disciplines," studies the use of library resources (especially online and other computer databases), documentation and bibliography formats from a range of disciplines, and other techniques crucial to writing analytic research papers. Every year. Cr var.

ENG 104 Enriched College Writing

This version of college writing provides significant opportunities to improve grammar and usage, drafting and revision, and analytical reading through discussion, small-group work, and one-on-one time with instructors. The course is designed for students who have not met the University's measure of college readiness in writing, and for any student interested in extra structure and support for success in the course. At the end of the course, an ENG 104 student will be able to compose essays that reflect his or her point of view, engage with complex readings, and focus on a central thesis or project in language relatively free of sentence-level error. Every semester. Cr 4

ENG 120 Introduction to Literature

This course will pay sustained attention to texts in order to show how they create meanings and explore the force and significance of those meanings in the world. The course will examine several genres selected from a range of historical periods. Prerequisite: College Writing or equivalent, or permission of instructor. Every semester. Cr 3.

ENG 150 Topics in Literature

This course will pay sustained attention to texts in order to show how they create meanings and will explore the force and significance of those meanings in the world. Topics vary from semester to semester. Previous topics include American fiction of the 1930s, satire in film and fiction, the literature and cinema of fantasy and horror, magic realism, God and the twentieth-century writer, and rites of passage. Offered every semester, the course may be taken for credit twice if the topics are different. Prerequisite: College Writing or equivalent, or permission of instructor. Every semester. Cr 3.

ENG 245 Introduction to Literary Studies

This is a required course for all English majors. It may be taken concurrently with other 200-level courses in the Department, but is a prerequisite for all 300- and 400-level courses except those in creative writing. The course will have a double focus. Students will be introduced to a variety of methodologies important to an insightful analysis of literature and other cultural texts. They will also learn research procedures and techniques of effective critical writing. Every semester. Cr 3.

*Language***ENG 230 Literacy Studies**

A course dedicated to examining the history, concepts, and practices of literacy, with readings drawn from socio-linguistics, the social and cultural history of literacy and of print culture, the sociology and history of education, and reader response studies. The course will examine changing concepts of literacy, orality, and illiteracy, with special attention given to the following: the historical, social, and cultural dynamics influencing reading and writing practices; the plurality of literacy practices; and the theoretical debates over the meaning of the word "literacy" itself. Students will also do ethnographic studies of their own literacy practices and the ways in which these differ from one social context to another. Every semester. Cr 3.

ENG 330 History of the English Language

This course includes a survey of the prehistory of the language as well as a detailed study of Old, Middle, Early Modern, and Modern English and the forces that shaped these stages. Some methods of modern linguistic science are utilized in examining current usage. Change and development of the language are emphasized. Every fall. Cr 3.

ENG 331 Modern Grammars

Designed to acquaint students With the three most common forms of English grammatical analysis: traditional, structural, and post-generative/transformational. The mechanics of the various analyses will be examined, and comparisons will be made to determine what tentative combination best explains the structure of English. Three-year cycle, spring. Cr 3.

ENG 336 Old English Language and Literature

An introduction to the grammar of English in the earliest period, 700-1050. The first several weeks concentrate on grammar and enable students to translate elementary prose (e.g., prefaces by King Alfred, Apollonius, the Anglo-Saxon Chronicle). Later weeks introduce students to Anglo-Saxon culture and literature, particularly to alliterative poetry. Major prose and poetic works are studied through looking jointly at Modern English translations and the original works. *Beowulf*, *The Wanderer*, *Elene*, and *The Phoenix* are works typically studied. Three-year cycle, spring. Cr 3.

ENG 337 Studies in Rhetoric

The course will introduce students to the many ways of thinking about rhetoric throughout history and stress the value of rhetorical criticism in analyzing texts, discourse, and language. Topics will vary, but may survey theories of rhetoric from Plato and Aristotle to Campbell and Nietzsche or examine contemporary theoretical approaches to rhetoric, ranging from the neo-Aristotelian, dramaturgical, experiential and sociolinguistic to the postmodern. Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

ENG 338 Studies in Language

Under this title is offered a variety of topics on language which include the following: linguistic approaches to literary analysis; language and culture; grammatical structure in English and related languages; and the history of linguistic thought. May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. two-year cycle, spring. Cr 3.

ENG 430 Independent Study in Linguistics

By instructor's permission. See Department for application form. Cr var.

ENG 431 Seminar on Literacy Studies and the Teaching of Writing

The seminar will consider theory in composition theory and practice within the broad context of histories and theories of literacy. Participants will be asked to make connections between curricular design or pedagogical practices and such issues as the history of public education and English studies, theories of discourse, writing and language use, and definitions of literary language and textuality. There will be consideration of contemporary research debates on the teaching of writing. This seminar is required for students enrolled in the Internship on the Teaching of Writing. It is open to all English majors; others must have instructor permission. Cr 3.

ENG 432 Internship in the Teaching of Writing

The Internship will provide qualified upper-class English majors with supervised experience in the teaching of writing. There is also the possibility of placement in tutoring and in community literacy programs. Students registering for the internship must also register for the Seminar on Literacy Studies and the Teaching of Writing. Application and screening for the internship take place through the College Writing Committee. Cr var.

*Criticism and Theory Courses***ENG 340 History of Literary Criticism and Theory**

An historical study of the key critics and theorists from Plato and Aristotle to the present day. Every year, fall. Cr 3.

ENG 341 Contemporary Critical Theories

An introduction to major schools of literary criticism developed in the twentieth century. Emphasis is placed on identifying points of agreement and divergence between various theories and methods for interpreting literature. Specific theories to be studied may include (but are not limited to) structuralism, psychoanalytic theory, Marxist criticism, deconstruction, feminist theory, and the new historicism. Every semester. Cr 3.

ENG 342 Topics in Contemporary Theory

This course studies in-depth selected theoretical approaches to literature and culture. It will focus either on a single current theory or, through a comparative method, two to three different theories (e.g., structuralism and formalism, Marxism and cultural criticism, or deconstruction and feminism). May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Every semester. Cr 3.

ENG 440 Independent Study in Literary Criticism and Theory

By instructor's permission. See Department for application form. Cr var.

ENG 441 Seminar in Literary Criticism and Theory

Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

*Genre and Form***ENG 262 Poetry**

This course studies poetry as a way of knowing and experiencing the world, introduces important concepts in analyzing and appreciating poetry, and offers the opportunity for students to develop skills in interpretation, literary analysis, and discussion. While primary attention will be on poetic forms, figurative languages and the poetic "canon," it will also consider the relationship between historical context and changes in poetic form in various periods. Every fall. Cr 3.

ENG 263 Fiction

This course will introduce important concepts in analyzing fiction and enable students to develop skills in interpretation, literary analysis, and discussion. It will focus on narrative forms and rhetorical structures (such as voice, plot, diction, figurative language) in various historical periods, and will both examine and challenge the concept of genre. Every semester. Cr 3.

ENG 264 Performance Genres

This course will study dramatic performance from its roots in cultural ritual to its historical development in drama as well as its more contemporary manifestations in television and film. Students will investigate the social functions of performance in several cultures and epochs, focusing on conventions of language and stagecraft, dramatic experimentation, and technical innovation. Every fall. Cr 3.

ENG 318 Autobiography

This course will focus on autobiographical forms with emphasis on the emergence and development of the genre. Possible topics include American autobiography, medieval lives, and the confession. The course may be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Three-year cycle, spring. Cr 3.

ENG 319 Studies in Genre and Form

The content of this course is flexible, but will focus upon some aspect or dimension of genre studies not treated through other course rubrics. Possible topics include women and the romance, the vampire novel and popular culture, or the novel of sensation. May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

ENG 378 The Novel of Self Development

Originally developed in German literature, the novel of self-development or Bildungsroman depicts an adolescent male who eventually acquires a philosophy of life based on his conscious effort to gain personal culture. This course investigates the changes the idea of *Bildung* underwent at the hands of various authors in the nineteenth and early twentieth centuries in their adaptation of the original form, including the revision of selfhood to address the *Bildung* as a female as well as a male province. Works to be considered may include Goethe's *Wilhelm Meister's Apprenticeship*, Bronte's *Jane Eyre*, Dicken's *David Copperfield*, Joyce's *Portrait of the Artist as a Young Man*. Three-year cycle. Cr 3.

ENG 418 Independent Study in Genre and Form

By instructor's permission. See Department for application form. Cr var.

ENG 419 Seminar in Genre and Form

Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

*Writing Courses***ENG 201 Creative Writing**

An introduction to the principles and practices of writing fiction and poetry; other genres may be added at the discretion of the instructor. Students will be exposed to a variety of writing modes through exercises and engagement with literary texts. Emphasis is on using imaginative and precise language, on developing critical skills through workshops, and on assembling a portfolio of revised student writing. Prerequisites: College writing or equivalent and ENG 120. Every semester. Cr 3.

ENG 202 Memoir and Autobiography

This course offers orientation in the technique of narrative autobiographical writing. Using journal writing, observational writing, and free writing techniques, students will learn to access story material from memory and develop a personal writing practice. They will be assigned readings in memoir and autobiography, and will assemble a portfolio of essays and personal writings. Every fall. Cr 3.

ENG 203 Topics in Writing

A course for prospective writers interested in studying the stories, novels, poems, biographies, memoirs, and letters of established writers, with an eye to learning aspects of craft, technique, and the creative process from a close and focused inspection of key facets of their works and lives. Areas of study will vary from semester to semester, but will include close textual reading and practice in both creative and expository writing. Every spring. Cr 3.

ENG 300 Fiction Writing

A course for those who, in a creative writing course or on their own, have written several pieces of fiction and are ready for more advanced work. Emphasis will be on writing well-developed short stories and on understanding the basic elements of fiction. A better-than-average competence in using English is required. Prerequisite: ENG 201. Every spring. Cr 3.

ENG 301 Poetry Writing

A course for those who, in a creative writing course or on their own, have developed basic skills of reading and revising poetry, and who are interested in developing a sense of how poetry has been written in the past by major poets and how it is being created in the present. Emphasis will be on imitation of past and present writers, exercises that stress the elements of poetry, and the development of personal approaches. Prerequisite: ENG 201. Every fall. Cr 3.

ENG 302 Fiction Workshop

An advanced course requiring the completion of at least two short stories or a substantial part of a novel. Prerequisites: ENG 300 or instructor's permission. May be repeated for three additional credits with instructor's permission. Every fall. Cr 3.

ENG 303 Poetry Workshop

A course for advanced students who, after experimenting with different approaches and styles, are developing their own themes and voices as poets. Work toward a completed chapbook-length manuscript or portfolio of poems will be the basis for the course grade. Prerequisite: ENG 301 or instructor's permission. May be repeated for three additional credits with instructor's permission. Every spring. Cr 3.

ENG 304 Advanced Memoir

This course offers orientation and practice in the fundamentals of narrative autobiographical writing. We focus on the use of memory—key scenes, remembered characters, and evocative seasons of life—as source material for the writing of personal essays and autobiographical stories. We work with prose narrative material only (prose material that tells a story, as opposed to analytical essays or expository articles), and the boundaries between fact and invention in this course will necessarily sometimes blur. Readings will be drawn from the works of contemporary writers prominent in the field, from period journals and diaries, and from texts on memoir as a literary genre. May be repeated for three additional credits with instructor's permission. Prerequisite: ENG 202 or permission. Cr 3.

ENG 305 Rhetoric, Syntax, and Style

The course focuses on the fundamentals of sentence-level writing, teaching students the possibilities of English style both for their own prose and for textual analysis. By examining contemporary texts in the context of traditions of rhetoric, students will develop a theoretical grasp of rhetoric, syntax, and style as a basis for editing and revision. Cr 3.

ENG 306 Writing the Novel

This course offers instruction in the preliminary stages of writing a novel, including the uses of synopsis outlines, building well-developed scenes, and experimenting with style, narrative voice, and point of view. Work in class will involve lectures on craft, the critique of student work, and discussions of published texts. Using an expanding synopsis outline, students will produce 50 pages of revised work. Prerequisites: ENG 302 preferred; permission of instructor. May be repeated for three additional credits with instructor's permission. Two-year cycle, fall. Cr 3.

ENG 309 Newswriting

This course covers the basics of news-story writing for the print media with intensive practice in news gathering, background research, interviewing, covering a beat, covering social and political issues, and consideration of ethical and legal issues related to American journalism. Every fall. Cr 3.

ENG 400 Independent Study in Creative or Expository Writing

By instructor's permission. See Department for application form. Cr var.

ENG 401 Writing Minor Thesis

The student, working in collaboration with a faculty advisor, produces a thesis of 10–15 poems or 25–50 pages of fiction or non-fiction. The thesis may be multi-genre, by the student's choice. Prerequisites: ENG 302, 303, 304, or 306. Cr 1.

ENG 409 Internship in Professional Writing

By application to the Department and arrangement with campus or local newspaper or journal. Prerequisite: ENG 309 or 310, or permission of the Department. Every semester. Cr var.

ENG 410 Independent Study in Journalism

By instructor's permission. See Department for application form. Cr var.

ENG 411 Seminar in Journalism

Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

Interdisciplinary and Cultural Studies

ENG 244 Introduction to Cultural Studies

This course introduces students to the history, concepts, and methods of cultural studies. Students will read a variety of critical texts from a number of different theoretical perspectives, including semiotics, Marxian theory, psychoanalytic theory, gender studies, and cultural anthropology, and will also read selected texts from specific areas of cultural analysis, such as television studies or film theory. The course examines specific aspects of past or present popular cultures. Every semester. Cr 3.

ENG 310 Topics in Journalism

Under this rubric the English Department will offer a variety of advanced courses which have journalistic writing as a major component of the course work. Topics include American culture and world communication, and the right to privacy. May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Prerequisite: ENG 309. Cr 3.

ENG 344 Sex/Gender and Sexuality

This course will investigate sex/gender and sexuality as analytic categories for understanding culture. Through a consideration of both history and theory, the course will explore different models for understanding sex/gender and sexuality, including their interaction with other categories of difference such as race and class. It will also explore the effect of these models on our understanding of literature, mass culture, theories of identity, and contemporary social life. Every spring. Cr 3.

ENG 345 Racial Formations

Guided by the concept of "racial formations," this course will foreground the definition of "race:" it will ask questions about whether race is a biological or discursive category, about the relationship between race and identity, and about how racial identity is informed by class, gender, sexuality, and other socio-historical "formations." Course materials may include literature, film, criticism and theory, scientific and historical readings, and popular culture texts such as television, video, and music. Two-year cycle, spring. Cr 3.

ENG 346 Language, Literature and the Politics of Identity in Contemporary Ireland

An examination of the relations among literature, language and the politics of identity in Ireland today. Readings will include political, historical, and cultural materials from various communities of discourse competing to shape Irish identity for the twenty-first century, including traditional republicanism and unionism, new nationalism, historical revisionism, feminism, and consumer capitalism. Two-year cycle, spring. Cr 3.

ENG 347 Topics in Cultural Studies

This course explores specific cultural practices of the past and present. The goal of the course is to introduce students to the different ways in which popular culture has been analyzed and the ways in which different popular cultures have sustained themselves. Although topics courses will vary in subject matter, they will all share the common objective of examining the ways in which a given culture makes sense of itself. May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

ENG 348 Topics in Interdisciplinary Studies

This course investigates literature in relation to other disciplines, with an emphasis on how various fields of knowledge contextualize and elucidate our understanding of literary production. Topics may vary and include, for example, anthropology and drama, Freud and literature, literature and technology, and parallel movements in art and/or music and literature. Because of the diverse range of interdisciplinary studies, material is drawn from film, video, music, and art, as well as from printed texts. May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

ENG 444 Independent Study in Interdisciplinary and Cultural Studies

By instructor's permission. See Department for application form. Cr var.

ENG 445 Seminar in Interdisciplinary and Cultural Studies

Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

Historical—Ancient and Biblical

ENG 315 Ancient Literature

The course will vary between being focused on Greek and Roman literature and on literatures outside the Mediterranean/Aegean ancient world. Every fall. Cr 3.

ENG 316 The Bible

The Bible, arguably the single most influential work (or group of works) in Western culture, will be studied as a literary text, with emphasis on selected books that have had the greatest literary influence, including Genesis, Exodus, Psalms, Job, and the Gospels. The course may also discuss the history of the texts, problems of translation, and/or influence. Every spring. Cr 3.

ENG 317 Studies in Ancient and Biblical Literature and Culture

Some topics studied in this course take a comparative approach to ancient and biblical literatures, including that of the Graeco-Roman civilization, but are not limited to classical texts. Other topics take a more narrow approach and may involve combined studies of ancient and/or biblical literature and the culture of a later period. Possible topics include "The Late Classical Era through Christian Antiquity," "The Bible and Early Western Literatures and Cultures," "Women Writers of Antiquity," and "Images of Women in Ancient Literature." May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

ENG 415 Independent Study in Ancient and Biblical Literature and Culture

By instructor's permission. See Department for application form. Cr var.

Historical—Medieval

ENG 320 Continental Literature

Readings in major works from the Middle Ages through the sixteenth century. Texts typically include some or all of the following: Augustine's *Confessions*, Boccaccio's *Decameron*, Petrarch's *Sonnets*, Dante's *Divine Comedy*, Machiavelli's *The Prince*, Marguerite de Navarre's *Heptameron*, Montaigne's *Essays*. All texts are read in modern translations. Three-year cycle, spring. Cr 3.

ENG 325 Epic and Romance

This course will focus on the emergence and development of Epic and Romance. Possible topics include "the Epic," "Arthurian Romance," and "Medieval Epic and Romance." The course may be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Two-year cycle, fall. Cr 3.

ENG 350 Medieval English Literature

A survey of genres popular from the twelfth to the fifteenth centuries (including debates, lyrics, romances, allegories, drama), with emphasis on literature of fourteenth-century England. Major readings will typically include Chaucer's *Troilus*, *The Pearl*, and *Sir Gawain and the Green Knight*. Three-year cycle, spring. Cr 3.

ENG 351 Chaucer and the Medieval World

An exploration of Chaucer's historical, philosophical, and literary world through his major comic narrative, *Canterbury Tales*. Two-year cycle, fall. Cr 3.

ENG 352 Medieval Drama

This course will introduce the theater of the medieval world, which ranges from the liturgical, ritual drama of the church, to the morality plays—performed by traveling companies—and the mystery cycles, produced by civic and guild pride in the fifteenth century. Tudor plays of the early sixteenth century may also be read. Attention will be paid to the aesthetic and theological principles underlying the conjunction of farce and high seriousness in the plays, as well as to distinctly medieval techniques of staging and production. Three-year cycle, spring. Cr 3.

ENG 353 Medieval Women Writers

The course focuses on women writing in various discursive milieux during the long period between the third and the sixteenth centuries. Writers include literate nuns, female courtly love lyricists, laywomen mystics, the first professional woman writer Christine de Pizan, and women dramatists. Non-English texts will be read in modern translation. Three-year cycle. Cr 3.

ENG 354 Studies in Medieval Literature and Culture

This course explores literature and culture ranging from the fifth and sixth centuries through the late fifteenth century. Some topics that may recur include Anglo-Latin and Anglo-French literature and scholarship; feminist studies of medieval culture; and allegory, symbol, and sign. May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

ENG 450 Independent Study in Medieval Studies

By instructor's permission. See Department for application form. Cr var.

ENG 451 Seminar in Medieval Studies

Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

Historical—Renaissance

ENG 355 English Renaissance Literature and Culture

A survey of major genres and writers of the English Renaissance. The course is concerned with the historical context of the production and reception of Renaissance texts. Emphasis is on how sixteenth and seventeenth century innovations in formal techniques are related to cultural and institutional change. Typical writers will include More, Spenser, Marlowe, Wroth, Sidney, Shakespeare, Lanier, Donne, and Milton. Topics and issues covered include gender and the erotic, humanism and power, religion, imperialism, social hierarchy, and notions of selfhood. Every fall. Cr 3.

ENG 357 Elizabethan and Jacobean Drama

A study of selected plays from the English Renaissance. The course may focus on a particular theme, genre, sociopolitical issue, or author. Typical topics include theater and the state, unruly women, magic and witchcraft, the construction of the "other," and rebellion. Playwrights typically included are Kyd, Marlowe, Dekker, Webster, Middleton, and Jonson. Two-year cycle, spring. Cr 3.

ENG 360, 361 Shakespeare

ENG 360 and 361 each feature close reading of five to seven Shakespearean plays, and focus attention both on theatrical and philosophical meanings. Both courses include tragedies and comedies; neither is introductory nor prerequisite to the other. ENG 360 often includes a section on Shakespeare's history plays, while ENG 361 includes a section on Shakespeare's "romances." Every semester. Cr 3.

ENG 362 Studies in Shakespeare

An advanced course in Shakespeare that emphasizes the application of various critical and scholarly approaches to important aspects of the poet and dramatist's work. Typical subjects include allegorical elements in Shakespeare's plays; Shakespeare and the daemonic; Shakespeare and computers; Shakespeare and popular culture; Shakespeare, theater, and the

state; Shakespeare's sources; Shakespeare, gender, and sexuality. May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

ENG 363 Studies in the Renaissance

Selected topics and writers from the sixteenth and seventeenth centuries. The course may focus on an author, genre, historical moment, socio-historical problem, or discursive practice. Typical topics include popular culture, the "New Science," pastoral and politics, literature of "New World" exploration and colonization, the market, the English Civil War. Courses will typically study the relation of diverse practices of writing or generic conventions to the social and political order of Renaissance England. May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

ENG 455 Independent Study in the Renaissance

By instructor's permission. See Department for application form. Cr var.

ENG 456 Seminar in the Renaissance

Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

Historical—Eighteenth Century

ENG 370 Literature of Discovery, Exploration, and Colonialism

Focusing upon literatures of the Atlantic, this course examines literary, historical, and discursive connections between European, Creole, and indigenous cultures in the early period of European expansion. Topics to be explored include the commercial, religious, and scientific origins of European exploration, "New World" representations, and the social organization of colonialism. Because area of inquiry will be determined by the instructor, this course may also satisfy the Renaissance requirement. Students should consult the Department's Course Guide for specific descriptions. Two-year cycle, fall. Cr 3.

ENG 379 Earlier Women Writers

This course focuses upon the efforts of women writers in the early modern period to create, negotiate, and contest the terms of a developing literary culture. Depending on content, which varies, ENG 379 may also satisfy the Renaissance or nineteenth-century category requirement. In all cases, instructors will attend to the successes and limitations of gender as a category of analysis. Students should consult the Department's Course Guide for detailed descriptions. Two-year cycle, fall. Cr 3.

American Literature

ENG 367 Literature and Culture of the Early Republic

Focusing upon representative early American texts, this course considers questions of revolution, the transition from colonialism, emergent nationalisms, and constructions of citizenship within the context of the American War for Independence and the ensuing years of the Early Republic. Two-year cycle, spring. Cr 3.

ENG 368 Studies in Eighteenth-Century American Literature and Culture

More specialized than ENG 367, this course offers the opportunity for intensive focus upon a single genre, author, issue, or historical moment, to be determined by the instructor. Typical topics include science in/and the New World, American nationalisms, the rise of slavery in the colonies, witchcraft and public order, the French Revolution in America, The Great Awakening and women's public life, and colonial autobiography before Franklin. May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

British Literature

ENG 365 Restoration and Eighteenth-Century Literature and Culture

Focusing mostly upon representative or canonical texts, this is a multi-generic course intended to provide an overview of British literature and culture in the "long" eighteenth century, 1660-1800. Readings will be organized around several of the following cultural and historical issues: political and religious controversies; the role of science and experimentation; the creation of the literary professional; women and the domestic sphere; the growth of the British Empire. Critical and theoretical texts may accompany literary readings. Every fall. Cr 3.

ENG 366 Studies in the Restoration and Eighteenth Century

More specialized than ENG 365, this course offers the opportunity for intensive focus upon a single genre, author, issue, or historical moment to be determined by the instructor. Typical topics include satire and the politics of "wit," the cult of sensibility, theater and anti-theatricality, the eighteenth-century long poem, and seduction and the scandalous memoir. May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

ENG 369 Emergence of the Novel

The course explores the emergence of the novel as a new literary mode, one both dependent upon and distinguishable from the kinds of prose narrative which are usually described as its origins: journalism, scandalous memoirs, Puritan autobiographies, conduct books, etc. Three-year cycle, fall. Cr 3.

ENG 465 Independent Study in the Eighteenth Century

By instructor's permission. See Department for application form. Cr var.

ENG 466 Seminar in the Eighteenth Century

Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

*Historical—Nineteenth Century
American Literature*

ENG 380 Early Nineteenth-Century American Literature and Culture

The literature and culture of the United States to the Civil War. While particular writers, works, and theoretical emphases may vary with the instructor, the course will consider historical context and may include canonical and non-canonical texts in a variety of literary and cultural forms: long and short fiction, poetry and song, non-fiction essays, slave narratives, political pamphlets and journalism, and paintings. Possible topics include the growth of female authorship; social reform movements; and the formation and interpretation of the American literary canon. Two-year cycle, fall. Cr 3.

ENG 382 The Earlier American Novel

The American novel to 1900 with attention to historical context, generic development, and thematic connections between texts. The course may include various types of novels, such as epistolary, gothic, romance, domestic, and realist, as well as canonical and non-canonical writers. Critical and theoretical texts may accompany literary readings. Two-year cycle, fall. Cr 3.

ENG 383 Studies in African-American Literature and Culture

This course will explore various topics in African-American literature and culture. Specific courses may focus on literary traditions, genres, and themes; literary and cultural periods or movements; theoretical issues in the development or study of African-American literature; or the work of a single author. Possible topics include the slave narrative, African-American non-fiction prose, the Harlem Renaissance, the Black Arts Movement, African-American women's writing, African-American literary and cultural theory, Black popular culture. Because reading materials and areas of inquiry will be determined by the instructor, this course may also satisfy the Literatures Since 1900 requirement. May be repeated for credit when topics vary. Students should consult the Department's Course Guide for specific descriptions. Every year. Cr 3.

ENG 384 Late Nineteenth-Century American Literature and Culture

This course covers the historical period associated with the rise of realism and naturalism in American literature that is traditionally marked by the end of the Civil War and the beginning of World War I. While the course's focus may vary, it will explore the definitions of realism and naturalism with regard to both historical context and aesthetic agendas. In testing definitions of American realism and naturalism, the course may ask questions about whose reality, whose America, and whose intellectual and cultural traditions have shaped our understanding of the literary movements that arose in response to major changes in American society during the late nineteenth and early twentieth centuries. Two-year cycle, spring. Cr 3.

ENG 385 Studies in Nineteenth-Century American Literature and Culture

Specific themes, works, or writers prominent in nineteenth-century American literature and culture. The course may focus on a particular literary tradition, genre, or theme; a literary and cultural movement; a theoretical issue in the development or study of nineteenth-century American literature; or the work of a single author. Possible topics include slavery and abolition in American literature, nineteenth-century popular culture, the domestic novel, American Renaissance, and Whitman and Dickinson. May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

British Literature

ENG 371 Romantic Writing

A study of major British poets of the Romantic period (1790-1832). Readings will be selected from among the works of William Blake, Helen Maria Williams, Ann Yearsley, Hannah More, William Wordsworth, S.T. Coleridge, John Clare, John Keats, Byron, and Percy Shelley. Three-year cycle, fall. Cr 3.

ENG 373 Studies in Romantic Literature and Culture

The course will explore themes and issues unique to the Romantic Period, a time of unprecedented change in literature, the arts, and society. Although the content of the course will vary, it will generally include a mixture of literary and cultural forms, including poetry, fiction, nonfictional prose, painting, and drama. Possible themes will include women and Romanticism; Romantic writing and the French Revolution; Romanticism and popular culture; forms of Romantic autobiography; Romantic fiction. May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

ENG 375 Nineteenth-Century British Novel

A study of the canonical novels produced during the nineteenth century, including texts by the Brontës, Dickens, Thackeray, George Eliot, and Hardy. The course will examine narrative forms, narrators and narratees, plots and stories; cultural forms such as the literary pen name; the material production of books, serials, and newspaper stories; the cultural predominance of fiction during the period; the cultural production of subjectivity and readership; and the uses and readings of history in fiction. Two-year cycle, fall. Cr 3.

ENG 376 Victorian Literature and Culture

Victorian writing, including poetry, novels, plays, autobiography, and non-fiction by writers such as the Brontës, the Brownings, Carlyle, Dickens, George Eliot, Elizabeth Gaskell, George Gissing, Thomas Hardy, Hopkins, John Stuart Mill, the Rossettis and the pre-Raphaelites, Ruskin, Pater, Tennyson, Wilde. Readings will be organized around several of the following Victorian intellectual, ideological, and cultural issues: the relation of Victorianism to neo-classicism, Romanticism, and modernism; the situation of women; theories of gender and sexuality; industrialism; materialism; aestheticism; decadence; scientific and religious controversies; the emergence of psychoanalysis. Two-year cycle, spring. Cr 3.

ENG 377 Studies in Nineteenth-Century British Literature and Culture

Topics will vary from semester to semester. Sample topics include: Fin de Siecle Literature and Culture; Nineteenth Century Intellectual History and Culture (e.g., Wollstonecraft, John Stuart Mill, Darwin, Marx, Nietzsche, Freud); Victorian

Poetry and the Visual Arts; 19th-Century Psychology and Culture; Contemporary Film Appropriations of Victorian Fiction. May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

ENG 475 Independent Study in the Nineteenth Century

By instructor's permission. See Department for application form. Cr var.

ENG 476 Seminar in Nineteenth-Century Studies

Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

Literatures Since 1900

ENG 387 Women Writers Since 1900

This course introduces students to the diverse concerns of modern and contemporary women writers. It could be organized around a thematic, theoretical, or historical question or could be devoted to two or three figures. It may include writers from First and Third world countries, immigrant writers, and writers of the African Diaspora. Every year, spring. Cr 3.

American Literature Since 1900

ENG 391 American Poetry Since 1900

This course will focus on American poetry written since 1900. While primary texts and historical or theoretical emphases will vary with the semester, the course will consider poetic forms and strategies, and relations to literary modernism and to American thematics and traditions. In most semesters, the course will focus on three or four major poets, examining their poetry against a broader poetic and historical context. Two-year cycle, spring. Cr 3.

ENG 393 The American Novel Since 1900

This course will study various types of novels (such as the realist novel, the social protest novel, the modernist novel, the Gothic novel, and the autobiographical novel) with attention to social and historical contexts and to thematic connections between texts. It is not purely a survey of "Great American Novels," but may include both canonical and non-canonical writers. Critical and theoretical texts may accompany literary readings. Two-year cycle, fall. Cr 3.

ENG 394 Studies in American Literature and Culture Since 1900

This course will be organized around different literary periods, geographical regions, fields of study, and intellectual and cultural movements. Possible topics include the Harlem Renaissance, literature and the left, literature of new social movements (Black power, feminism, lesbian and gay rights), youth cultures, the Vietnam era, immigrant writers, American Indian writers, southern writers, Caribbean writers in the USA, and Maine writers. Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

British Literature Since 1900

ENG 390 British Poetry Since 1900

This course will focus on poetry written in Britain since 1900, with emphases on such questions as the development of modernism, poetic forms and strategies, links to political and cultural developments, and new forms and strategies after modernism. The course will usually focus on three or four specific poets read against a broader poetic and historical context. Poets may include T. S. Eliot, Hugh MacDiarmid, D. H. Lawrence, Stevie Smith, Liz Lochhead, Maeve McGuckian, or writers associated with the "New British Poetries." Three-year cycle. Cr 3.

ENG 392 British Novel Since 1900

This course will focus primarily on novels written with reference to the British literary tradition of the twentieth century, exhibiting the stylistic and thematic concerns associated with literary impressionism, and early and late modernism, by such writers as Joseph Conrad, Ford Madox Ford, Jean Rhys, Virginia Woolf, James Joyce, Samuel Beckett, Christina Stead, William Trevor, Jessie Kesson, and Lewis Grassie-Gibbon. Three-year cycle. Cr 3.

ENG 398 Studies in British Literature and Culture Since 1900

This course will focus on the interrelated literatures of Britain's distinctive cultures in England, Scotland, Wales and Northern Ireland. It will be organized around different literary periods, cultures, theoretical and historical emphases and social movements. Possible topics include British modernism, the Scottish Renaissance, race and writing in Britain, writing and nationalism. May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

Other National Literatures Since 1900

ENG 324 Studies in Canadian Literature and Culture

This course offers students an in-depth study of specific regional, cultural, or political developments in Canadian literature and film. Students may investigate the works of ethnic minorities, women, or particular authors. They may also focus on formative historical periods in the social development of Canada and the literature these periods have inspired (e.g. Quebec literature, literature of the Great Depression). May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

ENG 395 Irish Literature and Culture

Irish literature in English and Irish culture will be studied in relation to three phases in the political and cultural development of Ireland as a nation: 1) the period of Irish nationalism prior to independence in 1922; 2) the formative years of nation building and its myth-making from independence to 1960; 3) 1960 to the present. Two-year cycle, fall. Cr 3.

ENG 396 James Joyce

An examination of Joyce's major texts, including *Dubliners*, *A Portrait of the Artist as a Young Man*, *Ulysses*, and selections from *Finnegans Wake*. Emphasis will be on *Ulysses*. The course also will include relevant biographical, critical and contextual material. Two-year cycle, fall. Cr 3.

ENG 397 Studies in Irish Literature and Culture

Topics in Irish literature and culture, often set in the context of Irish history and politics. Sample topics include: Irish drama, Irish film, Yeats and Joyce, Joyce and Beckett, and women and Irish culture. May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

*International Literature Since 1900***ENG 321 Modernisms**

This course will focus on some aspect or aspects of American, British, Continental, and international literary modernisms. Students should expect to explore writing from the first half of the twentieth century and to investigate issues of literary innovation, modernity and historical change, self-understandings as "modern," competing literary versions of modernism, and theoretical/historical versions of modernism. Three-year cycle, spring. Cr 3.

ENG 322 Modern Autobiography

The concept of the self has undergone critical changes in the history of autobiography. Many modern autobiographical writers have completely dispensed with traditional notions of the self, expanding the genre and giving it a strong literary focus. By comparing a selection of autobiographical texts by modern authors such as Rilke, Stein, Barthes, and H. D. with more traditional forms of autobiography, the course investigates the historical vicissitudes in the conceptualization of a "self." Two-year cycle, spring. Cr 3.

ENG 326 Studies in International Literature Since 1900

Literature since 1900 has become increasingly international especially because of expanded availability of translated texts. This course explores topics in literature that are international in scope whether through specific influences or in response to historical, philosophical, political, and aesthetic developments. Although the range and focus of the course will vary, topics will include studies in Commonwealth and European literatures as well as literatures of specific regions such as Africa, the Caribbean, South America. May be repeated for credit when topics vary. Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

ENG 327 Modern Short Story: Themes and Methods

Detailed consideration of from six to ten short story collections reflecting contemporary themes and narrative methods. Although selections will vary, the recent reading list has included Jorge Luis Borges, Franz Kafka, Anton Chekhov, James Joyce, Thomas Mann, Virginia Woolf, Isaac Babel, Grace Paley, Flannery O'Connor, Katherine Anne Porter, and Zora Neale Hurston. A necessarily wide range of themes is confronted: the corruption of reality by dream; personal inadequacy, alienation, and paranoia; self-deceit; varieties of ignorance and cowardice; the moral insight afforded the artist; violence as a mode of self-discovery. Prerequisite: junior class standing or permission of the instructor. Three-year cycle, spring. Cr 3.

ENG 328 Modern Novel: Themes and Methods

Works by six or more distinguished novelists expressing contemporary subject matter and technique. Among representative themes students will consider those of dream and illusion, revolution and personal revolt, alienation and anxiety, crime and self-assertion; among narrative techniques, ellipsis and adaptations of stream-of-consciousness. The list of novelists will vary, but recent assignments include Knut Hamsun, Franz Kafka, Thomas Mann, Herman Hesse, Andre Malraux, D. H. Lawrence, James Joyce, Christina Stead, Virginia Woolf, Rebecca West, and Djuna Barnes. Prerequisite: junior class standing or permission of the instructor. Two-year cycle, fall. Cr 3.

ENG 329 Modern Drama

A survey of modern English and Continental dramatists who have had a revolutionary impact on the modern theater. Authors to be considered might include Buchner, Strindberg, Ibsen, Pirandello, Brecht, Ionesco, Beckett, Pinter, Fommes, Churchill, and Norman. The course will emphasize the experience of drama as much as possible by viewing video productions of several plays. Three-year cycle, spring. Cr 3.

ENG 490 Independent Study in Literature Since 1900

By instructor's permission. See Department for application form. Cr var.

ENG 491 Seminar in Literature Since 1900

Students should consult the Department's Course Guide for detailed descriptions. Cr 3.

Approved Electives

Up to six credit hours of specific approved courses offered by other departments and programs may be applied toward English major elective credit. Consult the English Department coordinator of advising for the list of approved courses.

Experimental Courses

Occasionally the English Department offers special courses not listed individually in the catalog. They appear in the current Schedule of Courses under the designation 199, 299, 399, or 499. Such courses will usually be experimental: pursuing original research, testing new alignments of figures or materials, or trying out courses before including them in the Department curriculum.

Geography-Anthropology

Chair of the Department: Firooza Pavri, 300G Bailey Hall, Gorham

Professors: Edney, Savage; *Associate Professors:* Bampton, Ettenger, Hamilton, Pavri, Tizon; *Professors Emeriti:* Crader, Davis, French, Hodges; *Adjunct Faculty:* Bigelow, Harrison, Michaud-Stutzman, Valentine

The program leading to a major in geography-anthropology emphasizes the integration of the two disciplines. Among the elements that are integrated in the major are common interests in the relationship between human populations and their natural environment, decision-making strategies of human groups, and the health and nutritional status of human societies. The major is an interdisciplinary program wherein students are expected to take courses from both geography and anthropology. The program of study beyond the basic requirements should be planned carefully, in close consultation with the student's departmental advisor, and should be approved by the latter. Such an arrangement allows for flexibility according to the student's interests while also providing close guidance and a control of educational quality by the Department.

Programs and Requirements

The Department offers the following programs: bachelor of arts in geography-anthropology; minor in anthropology; minor in archaeology; minor in geography; applied geography minor in planning; a concentration in the social sciences area major of the College of Arts and Sciences; and a certificate in applied Geographic Information Systems (GIS).

All students with majors or specific discipline minors in the social sciences must achieve at least six credits with grades of B or better in the requirements of those majors or minors. No grades of D will be counted toward fulfillment of the major or minor requirements. Except for Independent Studies, no required course may be repeated more than one time.

All students are reminded that, in addition to meeting departmental requirements for the major, they must also meet the University's minimum readiness requirements and the Core curriculum requirements.

Bachelor of Arts in Geography-Anthropology

The minimum number of credits (exclusive of the University's Core curriculum) required for the major: 47-53.

All students must take:

- ANT 101 Anthropology: The Cultural View
- ANT 102 Biological Anthropology
- ANT 103 Introduction to Archaeology
- GEO 101 Human Geography
- GEO 102 Physical Geography
- GYA 202 Research Methods

All students must complete at least three credit hours in a geography or anthropology field course. A supervised three credit minimum internship in geography or anthropology may be substituted for the field course.

All students then elect to concentrate in either anthropology or geography.

Students who elect to concentrate in anthropology must also take:

- ANT 310 History of Anthropological Thought

and either

- ANT 305 History of Archaeological Thought

or

- ANT 340 Primate Behavior

One ethnography course selected from the following:

- ANT 220 North American Indians
- ANT 222 Peoples of the North
- ANT 230 Hunters and Gatherers
- ANT 301 Victims of Progress
- ANT 350 Amazon Peoples and Development

One of the following topical or regional courses

- ANT 201 Human Origins
- ANT 202 Origins of Civilization
- ANT 213 Human Ecology
- ANT 232 The Anthropology of Sex and Gender
- ANT 233 Food and Culture
- ANT 250 Archaeology of South America
- ANT 254 Archaeology of East Asia
- ANT 255 African Prehistory
- ANT 302 Medical Anthropology
- ANT 305 History of Archaeological Thought*
- ANT 340 Primate Behavior*
- ANT 450 Topics in Anthropology

*No course may be used to fulfill more than one category.

One of the following techniques or applied courses:

- ANT 306 Analysis of Archaeological Materials
- ANT 308 Environmental Archaeology
- ANT 315 Ethnography: Methods, Ethics, and Practice
- ANT 320 Human Osteology
- ANT 410 Zooarchaeology
- GEO 208 Cartography I

- GEO 305 Remote Sensing
- GEO 308 GIS I

9 additional credit hours, 3 of which must be ANT courses at or above the 300 level, and 3 of which must be GEO courses at or above the 200 level.

Students who elect to concentrate in geography must also take:

- GEO 103 Human-Environmental Geography
- GEO 310 History of Geographical Thought

Two of the following topical or regional courses:

- GEO 104 World Regional Geography
- GEO 120 Geography of Maine
- GEO 203 Urban and Regional Development
- GEO 207 Maps: Knowledge, Technology, Society, Culture
- GEO 302 Gender, Work, and Space
- GEO 303 Economic Geography
- GEO 304 Social Transformation of Nature
- GEO 307 History of Anglo-American Cartography
- GEO 320 Conservation of Natural Resources
- GEO 350 Geography of International Development
- GEO 402 Urban Geography
- GEO 403 Urban Physical Geography
- GEO 450 Topics in Geography

One of the following techniques or applied courses:

- GEO 208 Cartography I
- GEO 209 Introduction to Land Use Planning
- GEO 210 Planning Maine Communities
- GEO 305 Remote Sensing
- GEO 308 GIS I
- GEO 408 GIS II
- ANT 315 Ethnography: Methods, Ethics, and Practice

9 additional credit hours, 6 of which must be in GEO courses at or above the 300 level, and 3 of which may be ANT or GEO.

Additionally, all geography-anthropology majors are required to demonstrate writing competence by completing two research papers in the major with grades of C or better, from two different professors, circulated and reviewed by the Department at least one semester prior to graduation.

The maximum number of hours of internships, field experience, and/or independent studies that can be applied toward the major is 9 hours. All students must meet with their advisors before registering for courses each semester.

Minors

Minors offered by the Department of Geography-Anthropology are intended for those students with a major other than geography-anthropology who wish to broaden their educational experience in a formally designated program of study.

Minor in Anthropology

The minor in anthropology shall consist of the following 19 credits:

- ANT 101 Anthropology: The Cultural View (3 credits)
- ANT 102 Biological Anthropology and Lab (4 credits)
- ANT 103 Introduction to Archaeology (3 credits)
- ANT 310 History of Anthropological Thought (3 credits)

and any two courses (6 credits total) from two different subfields of anthropology (cultural, archaeology, biological)

Minor in Archaeology

The minor in archaeology consists of a minimum of 18 credits:

Required:

- ANT 103 Introduction to Archaeology (3 credits)
- ANT 104 Introduction to Historical Archaeology (3 credits)
- ANT 305 History of Archaeological Thought (3 credits)
- ANT 306 Analysis of Archaeological Materials (3-6 credits)

Electives:

One of the following:

- ANT 202 Origins of Civilization (3 credits)
- ANT 250 Archaeology of South America (3 credits)
- ANT 254 Archaeology of East Asia
- ANT 255 African Prehistory

One of the following:

- ANT 307 Specialized Techniques in Archaeology
- ANT 308 Environmental Archaeology
- ANT 360 Public Archaeology
- ANT 410 Zooarchaeology
- GYA 300 Archaeology Field School

Or any combination of three elective courses.

Minor in Geography

The minor in geography shall consist of the following 19 credits:

GEO 101 Human Geography (3 credits)
GEO 102 Physical Geography and Lab (4 credits)
GEO 120 Geography of Maine (3 credits)
GEO 208 Cartography I (3 credits)

or

GEO 305 Remote Sensing (3 credits)
and 6 additional hours of geography courses

Applied Geography Minor in Planning

The minimum number of credits (exclusive of the University's Core curriculum) required for the minor: 18.

Required courses: GEO 101, GEO 208
Choice of one from: GYA 350-351, GYA 400
Choice of one from: GEO 305, GEO 308
Choice of one from: GEO 209, GEO 210
Choice of one from: GEO 303, GEO 402, GEO 403

Certificate in Applied GIS

This certificate consists of 15-17 credit hours. The certificate is designed to provide students and members of the professional community with Geographic Information Systems skills. At all levels of the program, training focuses on the application of GIS skills in the workplace and in research environments. The certificate is open to undergraduates and graduates interested in developing GIS applications in their fields, those already holding degrees who are interested in developing GIS skills to apply to their own areas of expertise, professionals interested in adding GIS to their lexicon of skills, or retooling for a career change.

All courses will be taught at USM. Some courses may be transferred from other campuses within the University of Maine system, as appropriate. In cases where students have already completed the listed course and with prior approval, alternate courses may be substituted for both requirements and electives to make up the full count of 15 credits. Students must complete all courses with a C- or better. Geography-anthropology majors may use only one course in the certificate toward their major requirements.

Required courses: GEO 308/GEO 608/CPD 620 and GEO 408/GEO 618/CPD 621 and GEO 458/GEO 658.

Electives (take at least two of the following for a minimum of 15 credit hours): COS 141, COS 160 (3 cr.) and COS 170 (1 cr.), CPD 625, GEO 305/GEO 605, GEO 340/GEY 340, GEO 438, GEO 448, ITT 282, ITT 384.

Archaeology Laboratory

The Archaeology Laboratory located in 317 Bailey Hall provides facilities for research in archaeology and related areas. Various research collections are available, primarily from Maine, Alaska, and the Caribbean. The Archaeology Laboratory also houses a small library including books, journals, slides, and maps. Opportunities are available for independent student research projects, and work-study positions are available in the laboratory each semester.

Zooarchaeology Laboratory

The Zooarchaeology Laboratory located in 316 Bailey Hall provides facilities for research and teaching in zooarchaeology, human osteology, and human evolution. Current collections include casts of nonhuman primates and fossil hominids, and a comparative faunal collection specializing in mammals, birds, and fish of the Northeast.

Qualitative Research Laboratory

The Qualitative Research Laboratory is housed in 315 Bailey Hall and is dedicated to qualitative analysis, training, and instruction, including the use of digital media. The room is used for classes and laboratories, and to conduct research and media production in the qualitative aspects of cultural anthropology and human geography. Opportunities are available for independent research projects, and work-study positions are available in the laboratory.

Cartography Laboratory and Map Collections

The Cartography Laboratory located in 323 Bailey Hall provides facilities for map making and air photo interpretation. The room is open for faculty and student use daily. An extensive map collection is housed in 318 Bailey Hall. Holdings include national Defense Department maps, Maine maps, topographic maps, and various world regional maps. Student proctors are available to offer assistance.

GIS Laboratory

The Geographic Information Systems (GIS) Laboratory, located in 302 Bailey Hall, provides facilities for computerized automated research of geographical data. The GIS Laboratory includes tools for running vector-based geographic information systems, and has the capacity for hand-digitizing images and producing multi-color output.

Geography-Anthropology

GYA 202 Research Methods

Students will focus on the ways in which geographers and anthropologists conduct research. We will address the issues of research question formulation, methodological strategies, and analytic techniques. Topics include defining research problems, measurement, sampling, research design, and analysis. Examples, case studies, and data will be drawn from the disciplines of geography and anthropology. Prerequisites: one of the following: ANT 101, ANT 102, ANT 103, and one of the following: GEO 101, GEO 102, as well as completion of mathematics readiness. Cr 3.

GYA 215 Culture and Place

This course provides an introduction to the ways in which basic principles of ethnography, ethnohistory, and material culture studies can be used to understand the cultural landscape. Normally offered during either the Winter Session or the Summer Session, the course will usually be conducted in a setting outside Maine. The emphasis will be on collaborative research skills, understanding of other cultures, and appreciation of the interrelationship of anthropology and geography. Cr. 4-6.

GYA 300 Archaeology Field School

The summer field school is designed to combine training in research methods of archaeology and geography. Students will receive intensive training in methods of site survey excavation and materials analysis. Several weeks will be spent at selected areas of coastal Maine involved in survey and excavation of sites, mapping sites and landscape features, and investigating potential food resources in site areas. This will be followed by some laboratory analysis of recovered materials. This course may be repeated twice with the permission of the instructor. Cr 4-6.

GEO/GEY 360 Field Mapping in the Island Environment: Data Collection to GIS

The coast of Maine provides a unique laboratory for teaching environmental mapping, data compilation, and data management. In this course students are trained and equipped to use kayaks as the platform from which to conduct survey work for the preparation of small-scale high-resolution analytical maps of natural, historical, and archaeological phenomena. Field techniques used include topographic surveying, global positioning system (GPS) operation, and field mapping of geological and geographical features. Minimum impact methods are used throughout. Laboratory techniques used include air-photo interpretation, traditional cartography, and geographic information system (GIS) operation. The course culminates in the completion of a portfolio of maps and a GIS database covering the area surveyed. This course may be repeated once for credit. Offered Summer Session only. Prerequisite: permission of instructor. Cr 6.

GYA 350-351 Internship in Applied Geography-Anthropology

Internships offer the student practical experience in working with public agencies, private firms, and municipalities engaged in applied geographical-anthropological activities including, but not limited to, planning, transportation, delivery of human services, and natural resources.

A written contract will be drawn up by advisor and student for each internship, specifying the number of credits sought and work required for these credits. As a general rule, internships will require at least eight hours of actual work per week. Interns will be expected to meet at least once every two weeks with instructor to discuss experiences and/or problems.

In addition, a major paper will be required from each student intern discussing an aspect of the internship or the work performed during the internship. Prerequisite: junior or senior standing in geography-anthropology and permission of instructor. Offered pass/fail only. Cr 1-6.

GYA 400 Independent Study in Anthropology or Geography

The Department faculty offers independent study in a topic in anthropology or geography for upper-level students (junior and senior status). Students must have had at least one course from the faculty member supervising the independent study; the proposal is subject to departmental approval. Prerequisite: permission of instructor. Variable credits will be offered.

Anthropology

ANT 101 Anthropology: The Cultural View

This course is a basic introductory survey of cultural anthropology. It examines the differences between cultures as well as cultural universals, and the relationship between social organization, ideology, economics, and political structure in different types of societies. It reviews the various theoretical approaches in cultural anthropology's attempt to explain human behavior, presenting examples from foraging, farming, and contemporary industrial societies through readings and films. Cr 3.

ANT 102 Biological Anthropology

This course examines our place in nature; the relationship between human biology and culture; the relevance of primate behavior and human evolution to understanding contemporary human society; human biological adaptations, including a discussion of population and nutrition; and contemporary human variation with an evaluation of the concept of race. The course includes a required 2-hour lab each week that provides practical experience with materials and research methods used by biological anthropologists. Cr 4.

ANT 103 Introduction to Archaeology

This course describes the methods and theories used by modern archaeologists to uncover information about past human life ways. Attention is given to techniques of survey and excavation of archaeological materials; concepts of space and time in archaeology; and detailed analysis of artifacts and organic residues. Some attention will be given to specific topics such as the archaeology of Maine. Cr 3.

ANT 104 Introduction to Historical Archaeology

An examination of the development and role of historical archaeology in interpreting the past, with regional emphasis on the United States. Several topics in historical archaeology will be examined, including New England historical archaeology, material culture analysis, subsistence and food way patterns, African American archaeology, and global perspectives. Cr 3.

ANT 201 Human Origins

This course focuses on the fossil and cultural evidence for human evolution. Topics to be covered include evolutionary theory, primate behavior, hominid origins, the taxonomy and phylogenetic relationships of fossil hominids, Pleistocene cultural adaptations, and the origin of modern Homo sapiens. The relationship between biology, geography, and culture is explored using the skeletal and archaeological evidence for human evolution. Cr 3.

ANT 202 Origins of Civilization

This course traces the evolution of human culture from the origins of farming and domestication, to the development of complex societies. General processes of urbanization and social stratification will be investigated, and examples will be drawn from throughout the Old and New Worlds, including the classical civilizations of the Near East, Southeast Asia, Mexico, and Peru. Cr 3.

ANT 213 Human Ecology

This course examines interactions between human societies and their natural environments. Human adaptation is viewed as a problem-solving process, involving the development of strategies for maximizing energy efficiency and reproductive success, for warding off environmental stress, and for reducing conflicts. These management strategies are examined for a number of human societies, and are used to gain insight into modern decision-making processes. Prerequisite: ANT 101 or 102. Cr 3.

ANT 220 North American Indians

This course combines an ethnographic and archaeological perspective on the culture history and traditional cultures of native North Americans. Emphasis is placed on the relationship of aboriginal native cultures to their environments, and the evolution of complex societies in certain regions of North America. Also included is discussion of the fragmentation of Indian societies that followed the European invasion of North America. Cr 3.

ANT 222 Peoples of the North

This course is designed as a comprehensive summary of the prehistory, traditional culture, and contemporary life ways of peoples living in the northern hemispheres of both the Old and New Worlds—from Maine to Alaska, and from Siberia to Lapland. Special attention will be given to the origins of these peoples; the problems of living in cold, northern environments; the effects of European contact; and the modern problems that they face ranging from the effects of urbanization to land claim disputes. Prerequisite: ANT 101 or 103 or permission of instructor. Cr 3.

ANT 230 Hunters and Gatherers

Hunting and gathering is a way of life, not simply a subsistence technique. Ninety-nine percent of human evolutionary history involved this kind of life, and our biology as a species was created through this mode of existence. In this ethnographically oriented course we will study several hunter-gatherer societies including the Ju'/'hoansi, the Mbuti, the Australian aborigines, and the Inuit. Special attention will be given to understanding the traditional life and world view of hunter-gatherers, but we will also focus on how recent political and economic events are changing their lives. Cr 3.

ANT 232 The Anthropology of Sex and Gender

Sex and gender are, respectively, biological realities and cultural constructs. This course will examine the anthropology of sex and gender in an evolutionary-biological and cross-cultural perspective. The course is organized to explore the issues of sex and gender in three of the major subfields of anthropology: archaeology and biological and cultural anthropology. Topics will include bias in science, the biology and evolution of sex differences, sex-linked behaviors, nonhuman primates, human evolution and the division of labor, and sex roles in different kinds of human societies. Cr 3.

ANT 233 Food and Culture

This course focuses on food as an essential and central part of human experience. We will examine the anthropology of food and food habits, including an evolutionary-ecological perspective, the reconstruction of past human diets from archaeological evidence, and a cross-cultural examination of the diversity of human food preferences and avoidances. An important goal of the course will be to try to understand and appreciate cultural differences in food habits from both an ecological and a societal point of view. Cr 3.

ANT 250 Archaeology of South America

This course is designed as a comprehensive summary of prehistoric cultures and paleo-environmental conditions of South America. Emphasis is placed on the evolution of complex societies in the Andean and Pacific coast regions. Also included is a discussion of European contact and interaction with the Inka State. Cr 3.

ANT 254 Archaeology of East Asia

This course will examine prehistoric cultural developments in China, Korea, and Japan. Several issues will be examined in depth, including the theoretical framework of regional research, the Pleistocene-Holocene transition, the development and spread of wet-rice farming, the development of regional states, and the role of writing and historic documents. Students will gain insight into the social and economic transformations of selected cultures. Cr 3.

ANT 255 African Prehistory

This course examines the archaeological evidence for cultural developments in the African continent, from the earliest traces of hominid behavior through the Iron Age and precolonial states. Emphasis will be placed on the development of stone tool technology, pottery and metallurgy, the ecological setting of sites, the reconstruction of subsistence activities, and African geography and regional settlement patterns, through time. Prerequisite: ANT 103 or permission of instructor. Cr 3.

ANT 300 Action Anthropology

Students will engage in the pursuit of both knowledge and social action. Much of the information base for the social action project will come from concurrent enrollment in ANT 350 or ANT 301, both of which address the environmental/cultural issues of indigenous peoples. The link between knowledge and informed action will be explicit: students will research a particular aspect of an environmental/cultural issue of indigenous peoples, and design a social action project to address it. This course will be particularly useful for students interested in a career in social or environmental service in a multi-ethnic setting. Credit will vary with the scope of the projects undertaken in a particular semester, as determined by the instructor. Prerequisite: concurrent registration with ANT 350 or ANT 301. Cr 1-2.

ANT 301 Victims of Progress: Indigenous Peoples in the Modern World

This course examines the disappearance of indigenous societies as a result of the expansion of industrial society, and the implications of such a process for the future of humanity, from both a scientific and humanistic point of view. It also discusses the role of anthropology in explaining and promoting culture change, and reviews the various philosophies of development exhibited in modern society. Prerequisite: ANT 101. Cr 3.

ANT 302 Medical Anthropology

This course considers the interface between medicine and anthropology in terms of both human biology and society. The course develops concepts of health as effective adaptation to environmental stresses, including infectious disease, nutritional stress, and psychosomatic illness, among others. It traces the history of health and disease in human society from hunter-gatherers to modern urban, industrial communities, and examines the way in which human populations have attempted to deal with various agents of disease. The course examines the diversity of human theories of disease causation and explores the role of modern medicine in effective health care delivery to persons of different cultural and ethnic backgrounds. Prerequisite: ANT 101, 102 or permission of instructor. Cr 3.

ANT 305 History of Archaeological Thought

This course is an historical survey of theory in archaeology from the early Classical archaeology and antiquarianism to contemporary processual, post-processual, and contextual approaches. It will examine the social history of archaeology in the United States. A special focus may include Scandinavian, Russian, Australian, or Japanese prehistory. Prerequisite: ANT 103. Cr 3.

ANT 306 Analysis of Archaeological Materials

This course provides an opportunity for in-depth study of methods used in the analysis of archaeological materials after they are recovered from excavations. Students will work in teams to apply analytical techniques to archaeological site collections including ceramics; stone, bone, and shell artifacts; and archaeological soils and faunal remains. Credit will vary with the range of techniques covered in a particular semester. Prerequisite: ANT 103. Cr 3-6.

ANT 307 Specialized Techniques in Archaeology

This course provides experience in the application of specific techniques from allied science disciplines to research problems in archaeology. Specific topics and course title may vary. May be repeated for credit under different titles. Prerequisite: GYA 300 or ANT 306 or permission of the instructor. Cr 1-2.

ANT 308 Environmental Archaeology

Students will be introduced to the analytical techniques that are commonly used in the archaeological study of past environments and environmental change. Topics to be covered include archaeological soils, preservation conditions, the reconstruction of past climates and landforms, and the analysis of plant and animal communities from archaeological evidence. In semesters when this course carries more than three credits, requirements will include a substantial research project. Prerequisite: junior status, and ANT 103 or GYA 300. Cr 3-6.

ANT 310 History of Anthropological Thought

This course is a historical survey of theory in anthropology from the early classical evolutionists to contemporary materialist and idealist approaches. It will examine the various theories in terms of their level of analysis, explanatory value, and relationship to the western society from which they emerged. This course is a requirement for those concentrating in anthropology. Prerequisites: ANT 101 and either ANT 102 or ANT 103. Cr 3.

ANT 315 Ethnography: Methods, Ethics, and Practice

This course offers students an overview of the methods of ethnographic observation and analysis, and of the ethical considerations of conducting such research. Students will be required to carry out ethnographic fieldwork, employing appropriate methods of data collection and analysis. Credit will vary depending on the scope of the fieldwork project, as determined by the instructor. Prerequisites: ANT 101 and one ethnography course or ANT 310. Cr 3-6.

ANT 320 Human Osteology

This course provides an introduction to the study and analysis of human skeletal material found at archaeological sites. We will focus on learning detailed human skeletal anatomy and the various metric and non-metric techniques used in aging, sexing, stature determination, and analysis of pathologies and injuries. Consideration will be given to how these techniques are applied in demographic and other analysis of prehistoric human populations. Prerequisite: ANT 102 or permission of instructor. Cr 3.

ANT 340 Primate Behavior

This is an intermediate course in primatology and theories of social behavior. Although the focus will be ethological, we will also consider primate biology, ecology, and biogeography. Aspects of primate behavior that will be considered include social organization, aggression, dominance, the mother-infant bond, play, sex roles, and intergroup relationships. We will also

examine attempts to teach language to non-human primates and will consider the use of primates in models of human evolution. Prerequisite: ANT 102 or permission of instructor. Cr 3.

ANT 350 Amazon Peoples and Development

In recent years the alarm has been sounded about the rapid destruction of the Amazon rain forest and the unknown consequences of the loss of perhaps one-third of the world's species; less attention has been paid to the extinction of systems of knowledge and survival developed over the millennia by the indigenous forest people, not the least of which is how to live sustainably in the complex ecosystem in a rich diversity of cultures. In this course, students will examine these cultures for what they can teach us, as well as the effects of colonization and "development" on the forest and its inhabitants. Prerequisite: ANT 101. Cr 3.

ANT 355 Public Interpretation in Anthropology

Interpretation of anthropological information for the public using video, audio, photos, and other digital media. Students will work individually or in teams to create products for museums, schools, online, or in other public venues. Prerequisite: permission of instructor. Cr 3.

ANT 360 Public Archaeology

This course introduces students to the interpretation of archaeological information for the public benefit. Topics to be covered include museum exhibits, collection management, federal and state legislation, ethics, site conservation database management, and GIS. Students will work in teams to produce a finished product for presentation during Archaeology Awareness Week. The course includes prehistoric excavation and a trip to two museums. Credit varies with specific substantial topics and project breadth. Prerequisite: ANT 103. Cr 2-6.

ANT 410 Zooarchaeology

Zooarchaeology, the study of animal remains from archaeological sites, provides information for archaeologists about human diet and subsistence practices through time. The course will offer the basic theoretical and methodological foundations of zooarchaeological analysis, focusing on the study of mammalian bones recovered from archaeological sites. The approach will be lab-oriented, with emphasis on learning techniques of analysis and on interpreting archaeological faunal assemblages. Credit will vary with the scope of the projects undertaken in a particular semester. Prerequisite: ANT 102, ANT 103, or a course in archaeology. Cr 3-6.

ANT 450 Topics in Anthropology

This course is designed to undertake detailed, in-depth analysis of important topics and issues in such subfields of anthropology as sociocultural anthropology, biological anthropology and archaeology. Topics vary from semester to semester. Research papers are required. Prerequisite: junior standing or permission of instructor. Cr 3.

Geography

GEO 101 Human Geography

This course examines social, economic, and political processes that shape the contemporary global landscape, with particular emphasis on the relationships between developed and developing regions of the world. Cartography, population trends, agricultural systems, migration, urbanization, and industrialization are among the topics covered. Cr 3.

GEO 102 Physical Geography

This course examines the physical processes of the environment as they relate to human endeavors. Climate, soil, vegetation, land form, water, and mineral resources are among the topics covered. Laboratory exercises acquaint the student with the materials and methods of physical geography. Climate data, topographic maps and field observations are employed to solve practical problems of human interaction with the environment. Cr 4.

GEO 103 Human-Environmental Geography

Using geographic perspectives, this course focuses on the changing nature of the earth's environment and the human role in these changes. Both direct and indirect human impacts on the biosphere, the atmosphere, and the hydrosphere are considered, including tropical deforestation and the loss of biodiversity, the human role in global climate change, and the impact of human actions on world fisheries. Local and regional examples will be incorporated. Cr 3.

GEO 104 World Regional Geography

This course will familiarize students with the diversity of people and places in the world by examining the physical, political, and cultural geography of different regions of the world. Emphasis will be given to development of regions within a global framework. This course will add to the general education of students by developing their geographic skills and by enhancing their geographic awareness and knowledge of the world through various aspects of global diversity. Cr 3.

GEO 108 Introduction to ArcGIS

An introduction to the ArcGIS software, stressing basic operation of this popular GIS package. Topics covered include system navigation, data display, data download, and printing public domain and user-created geographical data sets. Cr 3.

GEO 120 Geography of Maine

This course will examine Maine as a geographic region. Physical and cultural attributes of the state will be analyzed. Political, economic and demographic factors will be emphasized in viewing the assets and problems of the Maine environment and in planning Maine's future. Cr 3.

GEO 203 Urban and Regional Development

Students will survey contemporary patterns of urban and regional development through comparative analysis. Students will examine links between urbanization, employment, and social welfare in different political and economic contexts as the course

moves from the global scale to the local. Students will be introduced to a series of research skills including the use of computer databases and spreadsheet programs, many of which will be of use in other courses. Cr 3.

GEO 207 Maps: Knowledge, Technology, Society, Culture

This course introduces the interdisciplinary nature of maps and geographic knowledge. Its core theme is the manner in which our complex knowledge of the world is constructed cartographically through technologies, social institutions, and cultural expectations. Using examples from prehistoric rock-carvings to modern computer graphics, maps are interpreted as products of human ingenuity, rather than statements of geographic fact; they do not just show the world, they show our conception of what the world ought to be. Cr 3.

GEO 208 Cartography I

This is an introductory course in cartography focused on developing basic mapping and graphic communication skills essential to a wide variety of disciplines. The course will be flexible and adjusted to individual needs. Familiarization with basic charting technology and cartographic tools will be included. Cr 3.

GEO 209 Introduction to Land Use Planning

This course offers an overview of human/land relationships as they influence contemporary patterns of settlement and use of the land. It will discuss the logic of a planning process as a method of decision making; the formulation of goals and evaluation of alternative courses of action; standards and requirements for specific planning objectives (such as land use, energy, recreation, transportation); and the place of the planning function in government and the role of citizens and private groups. Introduction to basic planning tools and techniques including PERT, aerial photography, and methods of land inventory and classification will be presented. Cr 3.

GEO 210 Planning Maine Communities: Current Issues and Directions

This course will examine the issues facing Maine communities such as providing affordable housing, maintaining and improving the community's physical facilities such as streets, sewers, playgrounds, etc., disposing of solid and hazardous wastes, stimulating jobs and economic development, providing adequate transportation facilities, and preserving Maine's environment and lifestyle in the face of growth. It will also address how these issues can be addressed through the use of the planning process and sound planning techniques. Cr 3.

GEO 302 Gender, Work, and Space

Students will examine the ways in which the workforce is divided by gender, race, class, and ethnicity and how location and space shape and sustain such divisions. Competing explanations for why women and minorities hold jobs that differ distinctly from jobs held by other workers will be examined. Students will learn how a geographic understanding of gender, race, ethnicity, and class can help explain more fully the current position of women in the economy. Cr 3.

GEO 303 Economic Geography

This course examines the intersection between economies and geography. Emphasis is placed on the social, cultural, and political contexts within which economies develop and are regulated and restructured. Students are introduced to the skills which allow them to interpret and understand the present economic landscapes and to evaluate the factors and trends that anticipate the future. Prerequisites: one of the following: ANT 101, GEO 101, GEO 203, ECO 101, ECO 102, or permission of instructor. Cr 3.

GEO 304 Holocene Environments

Holocene (10,000 B.P.-present) environmental processes are unique in two respects: They fall within the scope of human historical record, and they are influenced by human actions. During the lecture portion of the course, patterns and processes of human interaction with Holocene environments are explored. During the seminar portion of the course, historical and scientific data are used to develop case studies of some of these environments. Prerequisite: one of the following: GEO 102, ANT 102, GEO 101, GEY 111, or BIO 331. Cr 3.

GEO 305 Remote Sensing

Theory and techniques of image processing and analysis for remotely sensed digital data acquired from airplane and satellite platforms. Topics include image enhancement and classifications, spectral analysis, and landscape change detection techniques. Practical applications of natural and built landscapes are considered using remotely sensed datasets and techniques. Prerequisite: GEO 108 or equivalent or permission of instructor. Cr 3.

GEO 307 History of Anglo-American Cartography

A comparative history of the creation, dissemination, and control of spatial knowledge in Britain and North America, from 1500 to 1917. This course examines which social institutions have promoted the creation and use of maps, what cultural expectations have defined the character of geographic knowledge, and how those social institutions and cultural expectations have been shaped by the practices of map making. Particular attention will be paid to the territorial aspects of the modern state, to the economic foundations of map making, and to the cultural ideologies of geographic knowledge. Prerequisite: any 200/300-level GEO or HTY course, or instructor's permission. Cr 3.

GEO 308 GIS Applications I

Students are introduced to vector-based geographical information systems (GIS). Topics include overviews of geospatial technologies, spatial analysis, GIS data, system operation, the interpretation of results, and professional practices. The course comprises a weekly lecture and laboratory. Students are evaluated with tests, laboratory assignments, and on the basis of a substantial project. Prerequisite: one of the following: ESP/GEO 108, GEO 208, GEO 305, GEY 202, GEY 204, GEO/GEY 340, or permission of instructor. Cr 4.

GEO 310 History of Geographical Thought

An historical survey of the theory and discipline of geography from its classical origins to the modern proliferation of idealist and positivist approaches. Most of the course will cover the development of the modern, secular discipline in the nineteenth and twentieth centuries. Of central concern are the relationships between imperialism (including racism), the study of other peoples by the West, and the configuration of geographical thought and institutions. Prerequisite: GEO 101 or GEO 102, or instructor's permission. Cr 3.

GEO 320 Conservation of Natural Resources

This course examines the geographical approaches to natural resource use and management. It will offer the study of the geographic distribution and physical attributes of natural resources, their role in economic development, and the socio-political factors governing decision making about their use. Management strategies for forests, soils, wetlands, and energy resources are assessed. Recommended prerequisites: GEO 101, GEO 102, or GEO 103. Cr 3.

GEO 340/GEY 340 Digital Mapping

Students are exposed to the latest digital survey gear and integrated techniques with applications in geoscience, geography, and environmental science. Instrumentation includes both static and real-time kinematic GPS (global positioning system) and autolock servo-driven electronic total station. Detailed precision survey data are combined with geo-referenced maps and imagery in GIS software. Prerequisites: introductory course in GEY, GEO, or ESP, and additional 200-level course in any of the above areas. Cr 4.5.

GEO 350 Geography of International Development

A critical examination of theories and approaches to the study of development. Historical and contemporary perspectives will help examine the role of states, international institutions, and civil society in the development process. Examples from selected countries and regions across the world demonstrate issues facing developing countries. Recommended prerequisites: GEO 101, GEO 103, GEO 104, or ANT 101. Cr 3.

GEO 402 Urban Geography

This course examines the underlying social, economic, cultural, and political processes that have created and continue to shape the North American urban landscape. The course will combine readings, lectures, discussion, and fieldwork to explore various themes in urban geography. Topics may include industrialization, immigration, residential segregation, housing, economic development, sustainable growth, urban ecology, and planning policy. Prerequisite: GEO 101, GEO 203, or permission of instructor. Cr 3-6.

GEO 403 Urban Physical Geography

Past and present urban environments are characterized by intense human impacts on environmental processes, both planned and unplanned. Using a combination of field and laboratory techniques, students will develop an analytical model exploring one or more aspects of this interaction between people and urban environments. Prerequisite: one of the following: GEO 102, GEO 402, GEY 202, or BIO 331. Cr 3.

GEO 408 GIS Applications II

Students explore the use of geographical information systems (GIS) in research and professional environments. Building upon knowledge and skills developed in GEO 308, students design and execute a substantial project. Project design focuses on generating hypotheses, planning time lines and individual work assignments, and identifying technical and data resources. Projected execution is undertaken using a variety of raster, vector, and graphical user interface (GUI) software, as appropriate. Prerequisite: GEO 308 or permission of instructor. Cr 4.

GEO 438 Independent Study in GIS

Students will work closely with a faculty member to develop and complete a course of study in a specialized area of the field. Variable credits will be offered. Prerequisite: GEO 308 or instructor permission. Cr 1-3.

GEO 448 GIS Internship

Students work with a public agency, private firm, municipality, nonprofit organization, or research unit, using geospatial technology to complete a clearly defined project under the direct supervision of an on-site professional. At the course's conclusion, students submit a portfolio including a log, samples of the work completed, and an evaluation from the on-site supervisor. Prerequisite: GEO 308, or instructor permission. Cr 1-3.

GEO 450 Topics in Geography

This course provides in-depth analysis of relevant topics from the perspective of an economic, political, cultural, regional or other focused approach to geographic study. The topics vary depending upon current issues of significance and the special background of the instructor. Research papers are required. Prerequisite: permission of Department. Cr 3.

GEO 458 Research Applications in GIS

An advanced workshop in geographical information systems (GIS) in which students undertake an original research project. The objective of the course is to generate a product which meets professional standards for publication or presentation at a professional meeting, allowing students to build resumes and gain exposure to a professional audience. Prerequisite: GEO 308. Cr 3.

History

Chair of the Department: David Carey, 200 Bailey, Gorham

Professors: Albee, Carey; *Associate Professors:* Eagan, Holden, Johnson, Tuchinsky, Whitmore, Zhao; *Assistant Professor:* Bischof

History, as a domain of knowledge, embraces all past human activity. There is no phenomenon without history. Historians endeavor to discover and organize facts about people and events and to create from them meaningful explanations and narratives.

Through a series of introductory and advanced courses, history majors become familiar with past knowledge, the forces of change, and the varieties of historical scholarship dealing with societies throughout the world. They also learn to collect, evaluate, organize, and interpret evidence, and to present it in oral and written forms.

Students with grounding in historical knowledge possess the central core of an excellent liberal arts education which may be used in numerous ways, including active citizenship, graduate school, and various occupations.

Programs and Requirements

The Department of History offers a major that leads to a bachelor of arts degree and a minor for students majoring in other disciplines. The major consists of 39 credit hours in history plus a foreign language requirement. The minor consists of 18 credit hours in history. In addition, the Department offers an internship program in cooperation with area historical societies, museums, libraries, and other institutions.

Majors should, after consultation with an advisor, focus at least three of their history electives (300-level courses) upon a particular country, continent, era, or theme of their choosing and select courses from other departments that complement this concentration.

College Level Equivalency Program (CLEP) examinations are available in Western Civilization and United States History. Unusually well-prepared entering students who pass one or more of these examinations may substitute 300-level course(s) for the HTY 101/102 and/or HTY 121/122/123 introductory surveys.

A history major or minor must achieve at least six credits of B or better grades in history courses. No grade of D will count toward fulfillment of a history major or minor. Majors and minors are reminded that, in addition to Department requirements, they must also meet those of the University Core curriculum.

Bachelor of Arts in History

History Requirements

To graduate with a bachelor of arts in history, a student must successfully complete a minimum of 39 credits in history courses as follows:

Field I

- HTY 101 Western Civilization I
- HTY 102 Western Civilization II

Field II (complete one of the following pairings)

- HTY 121 and one other: HTY 122, 123, or 142
- HTY 122 and one other: HTY 121, 123, 141, or 142
- HTY 123 and one other: HTY 121, 122, or 141
- HTY 141 and one other: HTY 122, 123, or 142
- HTY 142 and one other: HTY 121, 122, or 141

Field III (select two)

- HTY 152 The Islamic Near East
- HTY 171 Traditional East Asia
- HTY 172 Modern East Asia
- HTY 181 Latin America I
- HTY 182 Latin America II

Research methods course

- HTY 200 Reference, Research, and Report Writing

Elective advanced history courses

Select five 303-399 level courses in consultation with your major advisor.

The Department of History will occasionally double-list upper-level courses from other departments. History majors may count only one course offered by another department and double-listed as a history course as fulfilling a history major requirement.

- HTY 400 Senior Seminar

Foreign Language Requirement

Students majoring in history must demonstrate an intermediate competence in one foreign language as part of the Departmental requirements for graduation. This requirement can be fulfilled by achieving a grade of at least C- in the final semester of an intermediate level course or by examination, and by approved international programs and study abroad experiences. Students should consult with their advisor about these options.

Completion of the following courses at USM fulfills the language requirement:

- American Sign Language: ASL 202 (Intermediate American Sign Language)
- French: FRE 202 (Intermediate French II) or FRE 207 (Intensive Intermediate French) or FRE 206 (Reading French II)
- German: GER 202 (Intermediate German II)
- Greek: GRE 251 (Introduction to Greek Literature I)
- Latin: LAT 251 (Introduction to Latin Literature II)

Russian: RUS 202 (Intermediate Russian II)
Spanish: SPA 202 (Intermediate Spanish II) or SPA 207 (Intensive Intermediate Spanish)

Minor in History

The minimum number of credits (exclusive of the University's Core curriculum) required for the minor: 18.

USM students who desire a concentration in history must develop an 18-credit-hour minor. The program must be developed in consultation with a member of the history faculty and include at least four courses at the level of 200 and above.

Requirements: six courses in the History Department, at least four of which must be at the level of 200 and above (approved by the Department chair).

HTY 101 Western Civilization I

A basic survey and introduction to the heritage of Western society from ancient to early-modern times. Particular attention is given to the ancient civilizations of Egypt, Greece and Rome. Medieval civilization is explored with a focus on the institutions it bequeathed to the modern world. The Renaissance and Reformation and the rise of the great nation-states are studied. Throughout the course important individuals are considered such as Alexander the Great, Caesar, Charlemagne, Michelangelo, and Elizabeth I. The course also introduces students to historical method. Cr 3.

HTY 102 Western Civilization II

A basic survey and introduction to the heritage of Western society from early modern times to the atomic age. Particular attention is given to the Enlightenment, the French Revolution, the rise of the industrial era, the growth of nationalism, and the World Wars. Personalities such as those of Napoleon, Hitler, and Stalin are studied. The course also introduces students to historical method. Cr 3.

HTY 121 United States History to 1800

A thematic treatment of the formative period of early American history from the era of European colonial expansion to the so-called Revolution of 1800. Political, social, economic, intellectual, and institutional development provides a context for addressing the peoples, personalities, and events of the colonial and early national stages of growth of the United States and its relations with the larger world. Cr 3.

HTY 122 United States History 1800 to 1900

A thematic treatment of the nineteenth-century United States and its peoples. Chronological coverage of the nation's political, social, economic, intellectual, and institutional development provides the context for addressing the personalities and events of the country and its relations with the larger world. Cr 3.

HTY 123 United States History since 1900

A continuation of the treatment of the American people and nation extends coverage of political, social, economic, intellectual, institutional, and diplomatic development through the twentieth century. The events, issues, and peoples of the modern nation and their relation to the larger world are covered within the country's increasing international involvement. Cr 3.

HTY 141 African American History to 1865

Topics covered in this survey course include the persistence of African culture in the Americas, the Atlantic slave trade, an in-depth analysis of slavery as it impacted women and children, and the early African American voice as found in primary sources. The course will use various forms of media in instruction and research. Cr 3.

HTY 142 African American History from 1865

A continuation of HTY 141. This course will cover such topics as Black leadership, lynching, the Harlem Renaissance, African Americans abroad, civil rights, and popular culture. The course will use various forms of media in instruction and research. Cr 3.

HTY 152 The Islamic Near East

This is a basic, introductory survey of the history of the eastern Mediterranean/Near Eastern region ca. 600 C.E. to the present. The course emphasizes the origin and development of Islamic religion and the establishment, spread, and evolution of Islamic institutions in Arabia, Egypt, Mesopotamia (Iraq), Palestine-Syria, and Anatolia (Turkey). Attention is given to the historical and continuing interaction between the Islamic people of the Near East and nonIslamic people both within and without the region. Cr 3.

HTY 171 Traditional East Asia

The history and culture of China and Japan from earliest times to about 1700, with emphasis on the composition of the "traditional" societies. Cr 3.

HTY 172 Modern East Asia

China and Japan since about 1700, emphasizing contrasting moves toward modernization in two traditional societies. Cr 3.

HTY 181 Latin America I

This survey outlines the nature of the pre-Columbian Indian civilizations, their conquest by the European powers and the creation of the Hispanic and Portuguese empires in America. Cr 3.

HTY 182 Latin America II

This survey begins with the shattering of Iberian colonialism, and moves rapidly into the twentieth century. Special attention is given to Mexico, Brazil, Argentina and Cuba, and their varying solutions to the problem of national development. Cr 3.

HTY 200 Reference, Research, and Report Writing

An introduction to research and writing, designed to prepare undergraduates for the requirements of upper-level courses in history and the social sciences with emphasis on practical methods of utilizing a library, locating materials, taking and organizing notes, and writing and rewriting research papers and reports. History majors are strongly encouraged to take this course in the sophomore year, but no later than the first semester of the junior year. Preference to history majors. Prerequisite: sophomore status or permission. Cr 3.

HTY 300 History Internship

Professional experience in one of a variety of positions in public and private institutions that utilizes the knowledge and research skills of historians. Students work one day per week, keep a journal, write an evaluation, and are visited on the job by a faculty member. Open to selected students; see Department chair for details. Graded pass/fail, so does not count for major credit. Can be taken twice. Cr 3.

HTY 303 History of the Ancient Near East and Greece

This course surveys the early history of the eastern Mediterranean region from ca. 4000 to ca. 300 B.C.E. The evolutions of Near Eastern civilizations in Mesopotamia, Egypt, Israel/Palestine, and Anatolia are examined and related to the development of Greek civilization in the Aegean area. Special attention is given throughout to social and religious issues, e.g., the early history of Judaism. Prerequisite: HTY 101 or equivalent. Cr 3.

HTY 304 History of Rome

This course surveys the political, social, and religious history of the Roman state from the eighth century B.C.E. to the fifth century C.E. Emphasis is given to the period of the Roman Republic (509-31 B.C.E.) and to the rise of Christianity within the Roman Empire. Prerequisite: HTY 101 or equivalent. Cr 3.

HTY 305 The Historical Jesus

This course is a "workshop" wherein the participants analyze and evaluate a variety of documents (both ancient and modern) which purport to describe the life and career of Jesus of Nazareth. The goal is to develop historiographical skills (including writing) as well as to illuminate the subject's life. Cr 3.

HTY 306 Roman Sexuality and Early Christianity

This course will explore ancient Roman relations concerning human biology, sexuality, and morality; the structure and definition of "family;" the gender-conscious operation of the extended household (including slaves and free clients); and the relationship of the family to the Roman state. The primary focus is the Roman imperial period, ca. 100 B.C.E. to 300 C.E. Because this same period witnessed the origins of Christianity within the Roman Empire, the course also is concerned with Christian variations to these same issues. Cr 3.

HTY 307 Judaism, Christianity, and Islam: Origins and Interactions

This course will survey the origins, nature, and early history of the world's three major monotheistic religions: Judaism, Christianity, and Islam. Necessarily this involves a survey of the history of the Mediterranean/Near Eastern world in which these religions first appeared and prospered. The chronological focus is ca. 600 B.C.E. to ca. 800 C.E. Cr 3.

HTY 308 Polytheists, Jews, and Christians in the Roman Empire

This course, an exploration of the nature and function of religion in human society, uses the Roman Empire as a sample environment. The course will examine these independent religious communities as well as their interactions. Cr 3.

HTY 309 Religious Violence and Persecution in Early Western History

An interdisciplinary investigation of religious violence and persecution in early Western history. The course explores why religion and violence so often seem to be connected. Accordingly, the course will explore the general nature of religion and the historical function of religion in human society. Cr 3.

HTY 311 Medieval Civilization

Europe from late antiquity through the Carolingian Empire, Islamic Empire, Byzantine Empire, Medieval Church and State, and the coming of the Renaissance and Reformation. Prerequisite: HTY 101 or permission. Cr 3.

HTY 312 Renaissance and Reformation

A study of the transformation of European society from the world of the Renaissance to the crisis of the Reformation. The course will concentrate on the development of Italian humanism and its influence on Northern Europe. The rise of the Reformation will be examined through the personalities of Martin Luther and John Calvin and the intense feelings that engendered the religious wars and the Counter Reformation. Prerequisite: HTY 101 or permission. Cr 3.

HTY 316 French Revolution and Napoleon

The course takes the French Revolution as a climax of major intellectual, political, and social trends in eighteenth-century Europe. Thorough coverage is given to the Old Regime, the Enlightenment and the influence of the American Revolution. There is in-depth analysis of the coming, course and outcome of the French Revolution itself, and its impact outside France. The Napoleonic era is handled as the culminating phase of the revolution and as a major influence on nineteenth-century Europe. Prerequisite: HTY 102 or permission. Cr 3.

HTY 317 Early Russian History

A survey of the political, social, economic, and cultural history of the peoples of Russia to the mid-nineteenth century. The course covers geographical factors, the nature of Byzantine influence, the impact of invasions, and Russia's contacts with the West. Contrasts between the experiences of Russia and Western Europe are stressed; contrasts with other civilizations are also noted. Prerequisite: HTY 101 or HTY 102, or permission. Cr 3.

HTY 318 Russia and the Soviet Union Since 1855

A survey of the progression from autocratic to communist society, through such influences as internal pressures for reform, structural weaknesses, wars and invasions, and various ideologies. The role of the intelligentsia is noted in the nineteenth century; there is a strong emphasis on cultural aspects of Russian and Soviet developments. Prerequisite: HTY 102 or permission. Cr 3.

HTY 324 World Wars I and II: European War and Diplomacy

A study of the causes, course, and consequences of the First and Second World Wars. The questions of inevitability and responsibility, the nature of total war, the workings of alliances, the effect of the military upon politics, the wisdom of the peace settlements, and the impact of war upon European society are among the subjects to be considered. Prerequisite: junior or senior status. Cr 3.

HTY 326 History of England

A survey of England from Anglo-Saxon times to the beginning of the twentieth century, with emphasis on the nature of English monarchy, the development of political institutions, and evolving constitutionalism. Particular attention is given to broad movements such as the Reformation, the Industrial Revolution, and Imperialism. Prerequisite: HTY 101 or permission. Cr 3.

HTY 330 Germany: Bismarck To Hitler

A study of the formation of the German Empire, the rise of a powerful industrial state, Weltpolitik and defeat in World War I, the Weimar Republic, Nazism and the Third Reich, Germany in World War II, and the partition of Germany in 1945. The course analyzes nationalism and examines cultural, social, and economic factors which help clarify Germany's role in the modern world. Prerequisite: junior or senior status. Cr 3.

HTY 334 The Holocaust: Policy, Practice, Response

An examination of the roots of anti-Semitism in European history, the development of the policy of the extermination of the Jews and others in Nazi Germany, and the implementation of the policy throughout Europe during the Second World War. The varied aspects of the response of individuals and governments to the experience of the Holocaust are also considered. Prerequisite: HTY 102. Another course in twentieth-century Europe or the United States is also recommended. Cr 3.

HTY 335 Genocide in Our Time

This course will analyze the nature of evil/genocide by examining examples of governmentally or ideologically initiated murder. It will seek to understand the historical background and reality of victim, bystander, and victimizer. It will use a number of approaches, namely psychological, philosophical, religious, sociological, and political to help our understanding. Prerequisite: permission of the instructor. Cr 3.

HTY 339 European Women's History

A survey of women's lives in historical context, from ancient times to the twentieth century. Emphasis is placed on various themes over time and across cultures, including those of work, family, political involvement, aspects of gender and class differences, and intellectual and cultural contributions. The field of women's history and its methodology are also considered. Prerequisite: a prior history survey course and/or a women's studies course are recommended. Cr 3.

HTY 351 Colonial America

The first half of the semester is devoted to the discovery, exploration and colonization of the American colonies. The second half concentrates on the social and political development of these colonies, touching upon various aspects of colonial life and emphasizing the growing maturation of society. Prerequisite: HTY 121 or permission. Cr 3.

HTY 352 The American Revolution

A study of the 1763-1789 period, stressing the breakdown of Anglo-American relations; American independence and its ideological underpinnings; the Revolutionary War; the postwar struggle to strike a balance between too much government and too little; and the drafting and ratification of the U.S. Constitution. Prerequisite: HTY 121 or permission. Cr 3.

HTY 354 Hamilton and Jefferson

The 1789-1815 period as viewed through the lives of Alexander Hamilton and Thomas Jefferson. Their ideological struggle leading to the rise of the Federalist and Democratic-Republican parties, and the political, economic, and diplomatic challenges facing the infant United States will be considered extensively. Prerequisite: HTY 122 or permission. Cr 3.

HTY 355 The Age of Jackson, 1815-1850

A study of the life and times of the "Old Hero" Andrew Jackson, with extensive consideration given to the rise of Jacksonian democracy and the impact on American politics of the controversies surrounding the Bank of the United States, internal improvements, the protective tariff, "Manifest Destiny," and the sectional-slavery issues. Prerequisite: HTY 122 or permission. Cr 3.

HTY 356 Civil War and Reconstruction

An examination of the period 1850-1877, dealing with the background and causation of the war; Lincoln and the secession crisis; the military, political, diplomatic, and economic aspects of the Civil War; and the challenges and ultimate failure of reconstruction after 1865. Prerequisite: HTY 122 or permission. Cr 3.

HTY 357 The Gilded Age in America, 1869-1898

The United States in the age of enterprise with emphasis on the development of political and economic radicalism, the commercialization of agriculture, the rise of the American city, new directions in social thought, concentration of industrial wealth and financial power, and American foreign policy. Prerequisite: HTY 122 or permission. Cr 3.

HTY 358 Early Twentieth-Century United States, 1898-1938

The United States from 1898 to 1938. Analysis and interpretation of cultural, economic, and political developments of the Progressive Era, World War I, the 1920s, and the Depression and New Deal. Prerequisite: HTY 123 or permission. Cr 3.

HTY 359 The United States since 1939

The United States from the Depression and New Deal through World War II, the Cold War, the Civil Rights Movement, and the Vietnam War. Discussion of economic, political, and social developments and interpretation of these developments. Prerequisite: HTY 122 or permission. Cr 3.

HTY 360 History of Maine

A survey of Maine's social, economic and political life from exploration and early settlement to the present. Cr 3.

HTY 361 History of the American Frontier

The Turner thesis, historiography, and adaptations to the challenges of the environment are considered. Various frontiers from the Atlantic seaboard to the last frontier on the Great Plains are studied. Prerequisites: two of the following: HTY 121, 122, and 123 or permission. Cr 3.

HTY 364 History of Women in the United States

A chronological survey of the evolving role of women in the development of the United States from the colonial period to the present. Cr 3.

HTY 366 History of Religion in America

A history of religion in American society from the colonial era to the present, examining theology, organization, leaders, critics, and the religious contribution to the American experience. Prerequisites: two of the following: HTY 121, 122, and 123 or permission. Cr 3.

HTY 372 American Social and Intellectual History I

An analysis of the evolution of American religious, political, economic, social, and scientific thought from the colonial period to 1865. The course examines major principles, assumptions, and values; the relation of American thought to class structure, ethnic and racial associations, mobility, and immigration; and the relation of American thought to contemporary intellectual patterns in the Western world. Prerequisite: HTY 121 or 122 or permission. Cr 3.

HTY 373 American Social and Intellectual History II

A continuation of HTY 372 from 1865 to the present. Prerequisite: HTY 121 or 122 or permission. Cr 3.

HTY 374 Photographing American History

This course focuses on how the invention of photography in 1839 forever altered the ways humans understood and made sense of both their past(s) and their present(s). Students analyze major historical events and moments in American history as captured through a camera, learn to read photographs as texts, and explore how the photograph has shaped American history and culture. Prerequisite: ENG 100. HTY 122 or HTY 123 recommended but not required. Cr 3.

HTY 377 Chinese Thought

Prior to the modern era, the Chinese interpreted their world through traditional idea systems, the most prominent of which were Confucianism, Taoism, and Buddhism. This course will explore these traditions: their assumptions and values, their varieties and internal tensions, and their relationships to the larger social system. Prerequisite: HTY 171 recommended. Cr 3.

HTY 378 Diplomatic History of the United States I

This course covers the development of key United States foreign policies from the Revolution to 1913-14. Prerequisite: HTY 121 or 122 or permission. Cr 3.

HTY 379 Diplomatic History of the United States II

Analysis and discussion of United States foreign policy since 1914. Considers the origins and effects of policy and also differing interpretations of issues such as the nature of "isolationism" and "interventionism," the origins of the world wars and the Cold War, the meaning of "Vietnam," and the relative influence of economics and ideology in shaping policy and action. Prerequisite: HTY 123 or permission. Cr 3.

HTY 380 The 1960s

This course examines social, political, economic, and cultural developments in the United States in the period from 1960 to 1970. It also looks at events worldwide, and the contested meaning of "The Sixties." Cr.3.

HTY 381 Latin America and the United States

A survey of U.S.-Latin American relations with emphasis on the efforts of the U.S. government and multi-national corporations to adjust to the growth of nationalism, state capitalism, and socialism in Latin America. Cr 3.

HTY 383 The Society and Culture of Latin America

This seminar seeks to examine, through the use of popular novels and films, the principal characteristics of Latin American culture. Such elements as the role of dictators and revolutionaries, of machismo and imperialism, and of great haciendas, folklore, and religions will be considered. Cr 3.

HTY 388 Revolution of Modern China

A course on the political history of modern China from the 1840s to the present. Focusing on the political, social, and cultural revolutions, this course will examine their causes, courses, and consequences, particularly the ways in which these revolutions shaped the course of the political development of modern China. Prerequisite: HTY 172 recommended. Cr 3.

HTY 390 Traditional Japan: Court and Warriors

This course examines Japanese history before 1800. The primary focus will be on major political and social trends that led to the transformation of state and society. Attention will also be given to religious beliefs, rituals, art, and literature. Prerequisite: HTY 171 recommended. Cr 3.

HTY 394 Selected Topics in History

An analysis of a selected historical problem not already covered by regular course offerings in history will be offered. The course may be repeated for credit when different topics are offered. (Offered occasionally.) Cr 3.

HTY 397 Independent Study Semester

This is the course designator for students who participate in the History Department's semester abroad exchange program with University College Winchester in England. Cr 3-15.

HTY 398 Independent Study in History

An independent research course offered only in fall or spring semester, primarily for juniors and seniors. The course material should not be part of regular department offerings. To enroll for the course, the student, in the prior semester, must present a proposal to an appropriate professor who will agree to mentor and evaluate the project. The normal outcome is a research paper. Application forms are available in history offices on both campuses. Cr 3.

HTY 400 Senior Seminar

The capstone to the major and required for the degree, this seminar explores the nature and the craft of history. The topic will vary but will always be a particular theme or set of issues to which the student will be expected, through discussion and writing, to apply the knowledge and skills acquired in previous history courses. Prerequisites: HTY 200 and senior status. Preference to history majors. Cr 3.

Other courses in the College of Arts and Sciences have historical interest. With prior approval from the Department, majors may apply one such course toward their history requirements. Majors also are encouraged to take such courses as supplementary electives.

Modern and Classical Languages and Literatures

Chair of the Department: Jeannine Uzzi, 55 Exeter Street, Portland

Professors: Aicher, Rosenthal; *Associate Professors:* diBenedetto, Erickson, Suscavage, Uzzi; *Assistant Professor:* Gulielmetti; *Professors Emeritae:* Crochet, Hinckley

A foreign language major offers a uniquely rich and diverse humanities background. The study of languages sensitizes us to other cultures and the relativity of values; it frees us from the confines of monolingualism and provincialism; it increases our understanding of and competence in our native language; and, most important, it is an inquiry into language as language: the structure, system, code by which we interpret the world to ourselves and others. Through in-depth study of literature we develop skills of close reading and literary analysis, and in all our courses we hone our writing skills.

A foreign language is also a valuable and marketable skill in many professions, especially international relations and trade, government service, journalism, travel, social services, the arts, and teaching.

Programs and Requirements

The Department offers a major in French (with two different tracks) and broader, interdepartmental majors in foreign languages, classics, German studies, Hispanic studies, and Russian studies. Also classics, French, German, Russian, and Spanish minors are available which augment other majors in the College of Arts, Humanities, and Social Sciences.

The Department also offers a number of courses in English translation requiring no knowledge of a foreign language and open to any student interested in foreign or classical literature, civilization, and film. These courses are numbered 281-299. Literature courses in this category may be credited toward a major or a minor in the Department if the readings, exams, and papers are done in the target language.

Independent study courses, numbered 470, are available to qualified students with the permission of the instructor and the Department chair.

English for Speakers of Other Languages

Also offered through the Department are higher level ESOL (English for Speakers of Other Languages) courses for students whose first language is not English. These courses focus on the linguistic skills necessary for academic work at a university as well as adjustment to and knowledge of American culture. There is no major or minor in this program.

English Language Bridge Program

Students applying to the University who meet regular admission requirements but whose TOEFL scores fall below the required level may be eligible for admission to the University through the English Language Bridge Program offered through the ESOL Department.

For further information on the ESOL program contact Bart Weyand, program director, 101 Payson Smith Hall, Portland.

Policies

Beginning courses (101-102) are for students who have never studied the language. Courses numbered 103 are a review of this beginner's level. Intermediate level courses (201-202 for modern languages, 251-252 for the ancient languages) are for students with two or more successful years of high school language study. Those whose background does not fit any of these categories, especially Franco-American students and students with Hispanic, German, or Italian heritage, should consult an instructor in the language before registering. Courses numbered 105-206 give students a reading proficiency in French or German for research in their field, graduate school language requirements, or cultural enjoyment. Courses numbered 107 and 207 are intensive, 8-credit language courses offered during the summer only; 107 and 207 cover the same material as 101-102 and 201-202, respectively. Students who have received credit for 102 or 202 cannot also receive credit for 107 and 207, respectively. Partial credit may be awarded if the student has received credit for 101 or 201 only.

The Department grants credit in French, German, Greek, Latin, and Spanish to enrolled students who present evidence of competency in one of those languages by completing the appropriate Advanced Placement Examination Board. For more details, contact the chair of the Department.

All majors, including group contract majors, must achieve grades of B or better for at least 12 credits in their major courses. No grade of D will count toward fulfillment of major. A student who has received a grade of B- or above in a 300-level language class may not take 101, 102, or 201 for credit.

Students are also urged to get extra practice in French, German, Italian, Russian, Spanish, and Japanese by participating in informal conversation tables sponsored by the Department. Tutoring is available, often at no cost to the student. For information, see the Department assistant.

State of Maine certification for foreign language teachers requires 30 credits at the level 300 and above for the first language and 18 credits at the level 300 and above for the second language.

All major programs in the Department of Modern and Classical Languages and Literatures require that the student fulfill the requirements of the Core curriculum.

Study Abroad

All students, regardless of major, are eligible to study in a foreign country, normally after studying the language of that country for two years on the college level and usually in their junior year. For the study of German, USM has a study abroad program at the University of Salzburg in Austria. For French, the University of Maine System has a formal program associated with the University of Le Mans in France. USM participates in the University of Maine Partnership Maine-France-Quebec which offers students a variety of opportunities to study in a chosen field at any number of partner institutions in France and Quebec. (<http://www.maine.edu/system/asa/IntlOppsStudentsPMFQ.php>). USM has also a longstanding exchange with the Université Laval in Quebec. In addition, there are a number of programs that the French Section strongly supports and

recommends, among them the program at the Centre International d'Etudes Françaises at the Université Catholique de l'Ouest in Angers, France (http://www.uco.fr/CIDEF/0/fiche_defaultstructureksup/). Other departments at USM occasionally organize summer programs that might interest students majoring in French. For Russian, students have the possibility of going to St. Petersburg, Moscow, or other cities. For Spanish, there is a Summer Session program in Santiago de Compostela, Spain, as well as other options available in Latin America and Spain. Students interested in study abroad should consult with the chair of the Department or with the Office of International Exchange to explore these and other possibilities.

Teacher Certification Program in German, Latin, and Spanish

This program, designed in collaboration with the Department of Teacher Education, is for students who want to become certified to teach K-12 German, Latin, or Spanish. Upon completion of this 4.5-year program, students will be fully certified to teach, in addition to having a B.A. from the College of Arts, Humanities, and Social Sciences, with a major in one of these languages. After completing the program and teaching for a year, students may complete an additional 13 credits and earn a master of science in teaching (MTL). For full details, interested students should contact a language faculty member during their first year of study at USM.

Requirements:

1. Completion of the major in German, Latin, or Spanish
 2. Certain State of Maine requirements (such as Praxis test and finger-printing)
 3. The following courses in the College of Education
- (For descriptions of courses at level 500 and above, see the graduate catalog)

HRD 200	Human Growth and Development
CPI 211	Culture and Community
EDU 220	Middle School Community
EDU 320	Applied Skills for Teaching and Learning
EDU 390	Portfolio Development
SED 540	Exceptionality
EDU 514	Reading/Writing
EDU 550	Instructional Strategies
EDU 652	Curriculum Design
EDU 541	Seminar I
EDU 542	Seminar II
EDU 554	Foreign Language Methods
EDU 613	Internship

Bachelor of Arts in French

The minimum number of credits (exclusive of the University's Core curriculum) required for the major: 39 credits.

Track 1 Literary Studies

Requirements

A. Language Classes (21 credits)

Seven language courses among the following:

FRE 201-202	Second-year French (8)
FRE 301-302	Third-year French (6)
FRE 303	Thème et Version (3)
FRE 305	French Phonetics (3)
FRE 330	The Art of Writing (3)

B. French Civilization (6 credits)

Two courses in French or Francophone civilization, among the following:

FRE 291	French Civilization I (3)
FRE 292	French Civilization II (3)
FRE 293	Topics in French/Francophone Cinema (3)
FRE 294	Topics and Themes in Francophone Studies (3)

C. French Literature (12 credits)

Three 300-level French courses, including FRE 331 and two courses in literature (FRE 367, FRE 369, FRE 399) (9 credits)

One 400-level French course, including FRE 475 (3 credits)

FRE 331	Workshop in French Literary Analysis (3)
FRE 367	Genres and Periods in French Literature (3)
FRE 369	Topics and Themes in French Literature (3)
FRE 467	Genres and Periods in French Literature (3)
FRE 469	Topics and Themes in French Literature (3)
FRE 475	Capstone in French (3)

*FRE 399 may be substituted for FRE 367 or FRE 369 when offered.

Substitutions or alternatives to these curricular offerings may be considered by the French Section as appropriate.

Track 2 French Studies

Requirements

A. Language Courses (15 credits)

Five courses among the following:

- FRE 201-202 Second-year French (8)
- FRE 301-302 Third-year French (6)
- FRE 303 Thème et Variation (3)
- FRE 305 French Phonetics (3)
- FRE 330 The Art of Writing (3)

B. Civilization (6 credits)

Two courses in French or Francophone civilization or electives, among the following:

- FRE 291 French Civilization I (3)
- FRE 292 French Civilization II (3)
- FRE 293 Topics in French/Francophone Cinema (3)
- FRE 294 Topics and Themes in Francophone Studies (3)

C. Electives (9 credits)

Three courses of electives, among the following:

- ARH 322 Medieval Art (3)
- ARH 323 Renaissance Art (3)
- ARH 324 Seventeenth- and Eighteenth-Century Art (3)
- ARH 326 Nineteenth-Century European Art (3)
- ARH 327 Modern Art (3)
- ARH 328 Contemporary Art (3)
- ENG 354 Studies in Medieval Literature and Culture (3)
(when topic deals with France and England)
- HTY 311 Medieval Civilization (3)
- HTY 312 Renaissance and Reformation (3)
- HTY 313 French Revolution and Napoleon (3)
- HUM 301 French North America (3)
- HUM 310 French Settlement in the Northeast (3)
- POS 205 Introduction to Comparative Politics (3)
- POS 245 French Politics (3)
- POS 380 Issues Before the United Nations (3)
- POS 335 Politics in Western Europe (3)
- POS 405 The European Union (3)
- POS 406 Research in the European Union (3)

D. Literature (6 credits)

2 300-level French courses in literature, FRE 331 (required) and 1 of the following: FRE 367, FRE 369 or FRE 399 when offered:

- FRE 331 Workshop in Literary Analysis (3)
- FRE 367 Genres and Periods in French Literature (3)
- FRE 369 Topics and Themes in French Literature (3)

E. Capstone (3 credits)

- FRE 475 Capstone in French (3)

Strongly Recommended courses for both Tracks 1 and 2;

- LIN 185 Language, Mind, and Society (3)
- Full-year or semester-abroad program

Substitutions or alternatives to these curricular offerings may be considered by the French Section as appropriate.

Beginning courses (101-102) are both for true beginners who have never studied French before as well as students with a background in French who are not sure of their exact proficiency level. These students are advised to take the Placement Test offered by the Department of Academic Assessment (780-4383).

The Office of Prior Learning Assessment in conjunction with the French Section helps to evaluate students with varied language backgrounds, such as foreign or Franco-American students, to determine their level of competency and whether it is appropriate to waive specific requirements or grant credit. FRE 470 Independent Study is offered only under exceptional and extraordinary circumstances. It cannot replace a regularly offered course. Summer and junior year study in France or French Canada are encouraged and acknowledged by transfer credits. All majors already engaged in studies of French literature should maintain an active effort to reach fluency in speaking French through constant practice, use of the language laboratory, and participation in informal conversation tables. They are expected to have reached proficiency in speaking and writing French before their graduation. Each student's progress will be reviewed periodically by French faculty. All majors must complete at least 12 credits with a grade of B or better in their major courses. No grade of D will count toward fulfillment of a French major. All students must complete a minimum of 120 credits, which include 39 credits for the French major and

successful completion of the Core requirements. Students should be aware of the Core requirements as detailed in the undergraduate catalog and should note that a number of the courses for the French major count toward Core requirements as well.

Group Contract in Foreign Languages

The Self-Designed Major Program of the College of Arts, Humanities, and Social Sciences provides students with a flexible opportunity to tailor their major to their interests and needs in foreign language study. The following group contract options are available within the Self-Designed Major Program:

- Classics
- Foreign Languages
- German Studies
- Hispanic Studies
- Russian Studies

Please refer to the section on interdepartmental majors of this catalog or contact the chair of the Department of Modern and Classical Languages and Literatures for additional information.

Minors

Because the knowledge of a foreign language, or languages, or language study areas, is valuable to all majors in other CAS disciplines, the Department offers minor programs in Classical Languages, French, German, The Greek World, Latin, The Roman World, Russian, and Spanish. Requirements for the respective minors are as follows:

Ancient Civilization (15 credits):

CLA 283 (Epic Hero), CLA 285 (Classical Mythology), CLA 291 (Golden Age of Greece) **or** HTY 303 (History of the Ancient Near East and Greece), CLA 292 (Rome: Republic to Empire) **or** HTY 304 (History of Rome) and **one** of the following: CLA 384 (What Would Antigone Do), ENG 315 (Ancient Literature), ARH/CLA 321 (Classical Art), PHI 310 (History of Ancient Philosophy), POS 390 (Ancient and Medieval Political Theory), THE 351 (Dramatic Literature and History); students may propose another relevant 300-level course for their elective.

Classical Languages

Two semesters of Latin; ancient Greek 101 and 102; one additional semester of Latin or ancient Greek; CLA 410

French Minor

Fifteen credits total including FRE 301, 302, 1-2 courses in civilization (FRE 291 or 292, 293, or 294) and 1-2 courses in literature (FRE 331, 367, 369, 467, 469).

French Civilization Minor

Fifteen credit total including 2 of the following courses (FRE 291, 292, 293, 294) and 3 of the following: ARH 322, ARH 323, ARH 324, ARH 326, ARH 327, ARH 328, ENG 354 (when the topic deals with France and England), HTY 311, HTY 312, HTY 313, HUM 301, HUM 310, POS 205, POS 245, POS 380, POS 335, POS 405, POS 406

French Language Minor

Fifteen credits total included FRE 201, 202, 301, 302, 303, 305

German Minor

Nine credit hours selected from GER 321, 322, 351, 352, 281

The Greek World

Ancient Greek 101 and 102 plus 12 credit hours selected from the following: CLA 283, 384, 285, 291, HTY 303, PHI 310, GEY 110, ENG 315

Latin

LAT 251, 252, 310 plus one of the following: CLA 292I, HTY 304, LAT 470

The Roman World

LAT 101 and 102 plus 12 credit hours selected from the following: CLA 283, 384, 285, 292, HTY 304, ENG 315

Russian Minor

Nine credit hours selected from RUS 281 or 291 or 293; 301, 302, 470

Spanish Minor

SPA 300, 304, 305, 332, 351, and 352 or 450

Literature and Civilization in English Translation

CLA 171 Etymology for Everyone

Etymology is the study of word origins and derivations. This course focuses on the learning of the Latin and Greek roots of English as a key to the improvement of English vocabulary. No prior knowledge of Latin or Greek is necessary, nor are there any other prerequisites. Cr 3.

CLA 270 Homer's Odyssey and Joyce's Ulysses

A close reading of the *Odyssey* and *Ulysses*, emphasizing the continuous parallels that tie Joyce's epic of Dublin to Homer's ancient song. Topics of comparison include the hero, family romance, and narrative strategies. Cr 3.

CLA 283 The Epic Hero in Ancient Literature

Intensive readings in English translations of *Gilgamesh*, *Iliad*, *Odyssey*, *Argonautica*, *Aeneid*; discussion, papers. Cr 3

CLA 285 Classical Mythology

Examination of the myths of Greece and Rome from a variety of perspectives: anthropological, etiological, historical, psychoanalytical, structural. Cr 3.

CLA 291 The Golden Age of Greece

The literature, history, politics, philosophy, art, and architecture of the fifth century B.C. with particular attention to the achievements of Athens. Lectures, discussion, papers, slides, films. Cr 3.

CLA 292 Rome, from Republic to Empire

The literature, history, politics, philosophy, art, and architecture of Rome in the first century B.C. Lectures, discussion, papers, slides, films. Cr 3.

CLA 321 Art, Architecture, and Archeology of the Ancient World

This class explores the art, architecture, and archaeology of ancient Greece and Rome. Areas of investigation may include body image/ideal, architecture and politics, art and power, gender and sexuality, and mythology. Students will be expected to respond in written form to secondary literatures. This course is equivalent to ARH 321. Prerequisites: ENG 100; one CLA course or one ARH course, or permission of instructor. Cr 3.

CLA 384 What Would Antigone Do? Tragic Questions, Modern Responses

Exploration of ancient and modern ethical dilemmas via Greek tragedy (in English translation) and ancient and modern responses to it. Readings will be selected from Aeschylus, Sophocles, Euripides, Aristophanes, Plato, Aristotle, Nietzsche, Martha Nussbaum, and modern dramatists. Prerequisites: ENG 100/101/104C or HON 100 plus one of the following courses in ancient Greek culture: CLA 283H, CLA 291I, GRE 251, HON 101, HTY 101I, HTY 303, PHI 310I, or permission of instructor. Cr 3.

CLA 410 Antiquity and Modernity: Capstone Experience in Classics

This course explores current issues in the field of classics and the impact of the classical tradition on contemporary culture. It includes selected readings of Latin and/or Greek in dialogue with modern texts, projects in the art of translation, and a thesis project. Prerequisites: LAT 251 or GRE 251 or equivalent. LAT 251 or GRE 251 may be taken concurrently with the Capstone. Not open to first or second year students. Cr. 3

FRE 283 Contemporary French Thinkers

Readings and discussion of recent works of French literature selected for their philosophical and ethical importance: Saint-Exupery, Sartre, Camus, de Beauvoir, Teilhard de Chardin and others. No knowledge of French is necessary. Cr 3.

FRE 291 French Civilization I: An Historical Approach

Aspects of the society, institutions, arts, literature, and religion of France, from the origins to the end of the 19th century. No French is spoken in the classroom. Cr 3.

FRE 292 French Civilization II: French Revolution to Present

Aspects of the society, institutions, arts, literature, and religions of France from the French Revolution to the present. No French is spoken in the classroom. Cr 3.

FRE 293 French/Francophone Cinema

This course introduces students to movements and themes which have marked French/Francophone cinema and acquaints students with aspects of French/Francophone cultures through representative films from the French-speaking world. Prerequisites: ENG 100/104 or permission of instructor. Cr 3.

FRE 294 Topics and Themes in Francophone Studies

This course, interdisciplinary in nature, draws from novels, short stories, poetry, plays, and other cultural documents. Students will gain an understanding of the complexities and specificities of Francophone entities in and outside of Europe. No French will be spoken in this class. Course may be repeated for credit provided the topic is different. Prerequisites: College writing or permission of instructor. Cr. 3.

GER 281 The German Novelle

The study of the genre of the novelle and its development through the major literary movements from the early 19th century to the present. Authors read vary, but normally include Goethe, Tieck, E.T.A. Hoffmann, Kleist, C.F. Meyer, Storm, Musil and Mann. No knowledge of German is necessary. Cr 3.

RUS 281 Russian Literature in English Translation

The content of this course will vary. Topics will include: Russian literature of the 19th century, Russian literature of the 20th century, recent Soviet literature, Russian theater and cinema. The readings for RUS 281 and the discussions will be in English. Cr 3.

RUS 291 Russian and Soviet Culture and Civilization

A historical view of Russian and Soviet society and culture from the origins of the East Slavic settlements to the present day. No Russian is required. Cr 3.

RUS 293 Survey of Russian Cinema

A chronological overview of the Russian cinema from its beginnings before 1917 to the present, including the work of major directors: Eisenstein, Tarkovsky, Shepitko, and Mikhalkov. Films will be presented in a historical and political context provided by readings and lectures. Prerequisite: ENG 100C or equivalent. Cr 3.

SPA 270 The Culture and Civilization of Spain

This course examines aspects of the society, institutions, art, literature, and religion of Spain from its origins to the present. No knowledge of Spanish is necessary. Cr 3.

SPA 281 Masterpieces of Spanish American and Brazilian Literature

This is a study of contemporary literature representative of current trends in Spanish America and Brazil. Cr 3.

*Classics: Greek and Latin***GRE 101 Beginning Greek I**

Fundamentals of classical Greek. Emphasis upon acquisition of reading knowledge. Cr 4.

GRE 102 Beginning Greek II

Prerequisite: GRE 101 or equivalent. Cr 4.

GRE 251 Introduction to Greek Literature I

A study of Plato's Apology, Crito and selections from the Phaedo. Prerequisite: GRE 102 or equivalent. Cr 3.

GRE 252 Introduction to Greek Literature II

A study of selected books from Homer's Iliad or Odyssey. Prerequisite: GRE 251. Cr 3.

GRE 310 Seminar in Greek Literature

Readings in Greek prose and poetry; a different author will be read each semester. Translation, supplementary reading, paper. Prerequisite: GRE 252. Cr 3.

GRE 470 Independent Study**LAT 101 Beginning Latin I**

Fundamentals of classical Latin. Emphasis upon acquisition of reading knowledge. Cr 4.

LAT 102 Beginning Latin II

Prerequisite: LAT 101 or equivalent. Cr 4.

LAT 251 Introduction to Latin Literature I

Selected readings from masters of Latin prose and poetry. Prerequisite: LAT 102 or equivalent. Cr 3.

LAT 252 Introduction to Latin Literature II

Continuation of LAT 251. Cr 3.

LAT 310 Seminar in Latin Literature

Readings in Latin prose and poetry; a different author will be read each semester. Translation, supplementary reading paper. Prerequisite: LAT 252. Cr 3.

LAT 470 Independent Study*French***FRE 101 Beginning French I**

This beginner's course in French stresses the acquisition of cultural information and introduces the student to the four skills of language learning: listening comprehension, speaking, reading and writing. This course requires additional work with coordinated language CDs and/or MP3 files. Opportunity for practice with DVDs and computer exercises is available. Cr. 4

FRE 102 Beginning French II

Continuation of FRE 101. Prerequisite: FRE 101 or equivalent. Cr 4.

FRE 103 Review of Elementary French

Elementary French for students with some previous study of the language who feel the need for a refresher course before entering FRE 2011. Cr 3.

FRE 105 Reading French I

Beginner's course in French aiming exclusively at a reading knowledge of the language. No French spoken. Recommended also as preparation for language tests required by graduate schools. Cr 3.

FRE 107 Intensive Beginning French

An intensive course for the beginning student, covering a full year's work at the college level to prepare the student for the intermediate level of college French. Emphasis is placed upon the four skills of language learning: speaking, understanding, reading and writing along with an introduction to contemporary culture and civilization. The course requires additional work with coordinated language CDs and/or MP3 files. Opportunity for practice with dvds and computer exercises is available. Offered during summer only. Cr 8.

FRE 201 Intermediate French I

Review of grammatical structures with further development of listening comprehension, speaking, reading and writing skills. The emphasis will be on understanding cultures and contemporary life of French-speaking countries through reading and discussion. This course requires additional work with coordinated language CDs or MP3 files. Opportunity for practice with dvds and computer exercises is available. May count for credit toward the French major. Prerequisites: FRE 102, or FRE 103, or FRE 107; two years of high school French or the equivalent or instructor's permission. Cr 4

FRE 202 Intermediate French II

Continuation of FRE 201. Credits may count toward the French major. Prerequisite: FRE 201I or the equivalent or instructor's permission. Cr. 4

FRE 206 Reading French II

Further practice of the skill acquired in FRE 105 through an accelerated reading of books on various topics (fiction, history, science, etc.). Successful completion of this course satisfies the foreign language requirement for the History major. Beneficial for students planning to attend a graduate school. May be counted as elective credit toward the French major. Prerequisites: FRE 105, 102, 103, or instructor's permission. Cr. 3.

FRE 207 Intensive Intermediate French

This is an intensive course for the intermediate student, covering a full year's work at the college level. Emphasis is placed on the development of listening comprehension, speaking, reading and writing along with an introduction to contemporary culture and civilization. The course requires additional work with coordinated language CDs or MP3 files in an online workbook. Opportunity for practice with DVDs and computer exercises is available. May be counted for credit toward the French major. Offered during summer only. Prerequisite: FRE 102 or FRE 107 or permission. Cr 8.

FRE 300 French/Francophone Practicum

In this course students participate in a number of activities in the French language, enabling them to develop and strengthen their ability in speaking and comprehending. They also gain an awareness and appreciation of various cultures of the French-speaking world. Since immersion content will vary, this course may be repeated, to a total of 3 credits. Prerequisites: FRE 202I or equivalent, or permission of instructor. Cr 1 or 0.

FRE 301 Practical French I

Comprehensive review of French grammar, enrichment of vocabulary, and practice in conversation, using a variety of materials, including films, videos, songs, interviews, newspapers and periodicals. Emphasis will be on achieving proficiency in all areas. Prerequisite: FRE 202I or equivalent. Cr 3.

FRE 302 Practical French II

Continuation of FRE 301. Prerequisites: FRE 301 or equivalent. Cr. 3.

FRE 303 Thème et Version

In this course, students will learn techniques and the art of translation through an analysis of the major linguistic and cultural differences between French and English. Translations will be done from French into English and from English into French. Prerequisite: FRE 202I or 207I, or permission. Cr 3.

FRE 305 French Phonetics

A formal study of the French sound system and an initiation into phonetic transcription with practical and remedial work in pronunciation. Prerequisite: FRE 202I or equivalent. Cr 3.

FRE 330 Art of Writing

This course will be devoted to developing the student's ability to write clear, nuanced, and well-articulated French in a variety of modes and formats. We will study and emulate various types of texts in order to develop a sense of style in French. The focus will be on writing strategies, the organization of ideas, and a continued appreciation for words and language use. This course continues the work in FRE 301 and 302. Cr. 3

FRE 331 Workshop in French Literary Analysis

This course is designed to introduce students to reading strategies and fundamental techniques of French literary analysis and critical interpretation through close readings of short texts representative of the three genres (narrative, poetry and theatre). These works deal with concepts relevant to our everyday lives: questions of identity, self/other relations, desire, jealousy, time, longing, hypocrisy, the family society, solitude. Although the primary focus will be the individual texts, students will engage with the aesthetic, cultural, philosophical and social context of the works. All coursework will be conducted in French.

This course is a prerequisite for all other 300-level French literature courses. Prerequisites: FRE 301 and 302, or permission. Cr 3.

FRE 367 Genres and Periods in French Literature

Each course in this group, "Genres and Periods," deals with a specific literary genre (novel, poetry, theatre) and/or time period (Medieval, Renaissance, seventeenth, eighteenth, nineteenth, or twentieth century). Sample topics: nineteenth-century French novel, seventeenth-century French theatre, twentieth-century French fiction. This course may be repeated for credit provided that the topic is different. Prerequisite: FRE 331 or equivalent. Cr 3.

FRE 369 Topics and Themes in French Literature

Each course in this group, "Topics and Themes," deals with a subject and/or a theme in French or Francophone literature. This course may be repeated for credit provided the topic is different. Prerequisite: FRE 331 or equivalent. Cr 3.

FRE 467 Genres and Periods in French Literature

An advanced course in the group "Genres and Periods," which deals with a specific literary genre (novel, poetry, theatre) and/or time period (Medieval, Renaissance, seventeenth, eighteenth, nineteenth, or twentieth century). Sample topics: nineteenth-century French novel, seventeenth-century French theatre, twentieth-century French fiction. This course may be repeated for credit provided the topic is different. Prerequisite: FRE 367 or 369 or equivalent. Cr 3.

FRE 469 Topics and Themes in French Literature

An advanced course in the group "Topics and Themes," which deals with a major subject and/or theme in French or Francophone literature. Prerequisite: FRE 367 or 369 or equivalent. Cr 3.

FRE 470 Independent Study

FRE 475 Capstone in French

This senior seminar will focus on a particular cultural history or literary theme or question in French or Francophone literature and/or civilization. The topic will vary but will provide students the opportunity to use the tools of critical analysis acquired in previous courses to engage in discussions regarding practical issues where students can demonstrate their oral and rhetorical skills as well as strategic thinking. Prerequisite: FRE 367 or FRE 369. Cr. 3.

German

GER 101 Beginning German I

This beginner's course in German stresses the acquisition of cultural information and introduces the student to the four skills of language learning: listening comprehension, speaking, reading, and writing. In conjunction with class meetings, additional work is required using language lab resources. Opportunity for practice with videotapes and computer exercises is available. Cr 5.

GER 102 Beginning German II

Continuation of GER 101. Prerequisite: GER 101 or equivalent. Cr 5.

GER 105 Reading German I

Elementary course in German aiming exclusively at a reading knowledge of the language. No German spoken. Not offered every year. Cr 3.

GER 107 Intensive Beginning German and GER 107 Lab

An intensive course for the beginning student, covering a full year's work at the college level to prepare the student for the intermediate level of college German. Emphasis is placed upon the four skills of language learning: speaking, understanding, reading, and writing, along with an introduction to contemporary culture and civilization. Daily practice in the language lab is required (for two additional credits). Offered during the summer only. Cr 6. (With lab, Cr 8.)

GER 201 Intermediate German I

Review of grammar. Further development of listening comprehension, speaking and reading skills. Emphasis on understanding German culture and contemporary life through reading and discussion of short stories, articles and essays. Students are encouraged to also register for laboratory practice (one more credit). Prerequisite: GER 102, two years of high school German or the equivalent. Cr 4.

GER 202 Intermediate German II

Continuation of GER 201. Prerequisite: GER 201 or the equivalent. Cr 4

GER 206 Reading German II

Further practice of the reading skill acquired in GER 105. Recommended also as preparation for language tests required by graduate schools. Prerequisites: GER 105, 102 or instructor's permission. Not offered every year. Cr 3.

GER 321 Composition and Conversation in German I

Systematic training in correct pronunciation and usage, and in vocabulary building, with written and oral practice. Prerequisite: GER 202 or equivalent. Cr 3.

GER 322 Composition and Conversation in German II

Continuation of GER 321. Reading and discussion of historical, journalistic, and literary material covering life in Germany from World War I to the present. Prerequisite: GER 321 or equivalent. Cr 3.

GER 351 Introduction to German Literature I

Reading and discussion of selected works representing the major literary movements from Enlightenment to Realism. Readings are in German; class discussions and exams are in English. Prerequisite: GER 202 or GER 206 or an equivalent reading ability of German. Cr 3.

GER 352 Introduction to German Literature II

Reading and discussion of selected works representing the major literary movements from Naturalism to the present. Readings are in German; class discussions and exams are in English. Prerequisite: GER 202 or GER 206 or an equivalent reading ability of German. Cr 3.

GER 470 Independent Study*Russian***RUS 101 Beginning Russian I**

A course for beginners that includes the four skills of listening comprehension, speaking, writing, and reading. Students are also provided with cultural information needed to use the language correctly. The course emphasizes the acquisition of real Russian by using authentic materials. Cr 5.

RUS 102 Beginning Russian II

Continuation of RUS 101. Prerequisite: RUS 101 or equivalent. Cr 5.

RUS 201 Intermediate Russian I

This course further develops the four skills of listening comprehension, speaking, writing, and reading. The course provides students with the cultural information they need to use the language correctly. The aim of the course is for students to acquire "real" Russian and be able to deal with authentic materials. Prerequisite: RUS 102 or equivalent. Cr 4.

RUS 202 Intermediate Russian II

Continuation of RUS 201. Prerequisite: RUS 201 or the equivalent. Cr 4.

RUS 301 Advanced Intermediate Russian I

This course involves intermediate-level work in the four skills of listening comprehension, speaking, writing, and reading that promotes the student toward an advanced level. The course emphasizes the development of the student's active and passive vocabularies and deeper knowledge of Russian culture. The course is taught primarily in Russian. Prerequisite: RUS 202 or equivalent. Cr 3.

RUS 302 Advanced Intermediate Russian II

This is the transitional course in the language acquisition sequence. Students who complete the course satisfactorily are ready to begin advanced-level work in all four skill areas. The class is conducted entirely in Russian. Prerequisite: RUS 301 or equivalent. Cr 3.

RUS 321 Advanced Russian

Students will read a variety of authentic texts ranging from newspapers to encyclopedias to literary works and will write extended essays, discuss ideas and argue points of view on a variety of subjects. They are also required to listen to or watch real Russian media. Students may also work on the art of translation. Prerequisite: RUS 302 or equivalent. Cr 3.

RUS 351 Seminar in Russian Literature

Topics for this seminar will be chosen from the following: historical surveys, genre surveys in the novel, short story, drama, and Russian women writers. All coursework is in Russian. The emphasis is on language and style. Prerequisites: RUS 281 and RUS 321. Cr 3.

RUS 470 Independent Study*Spanish***SPA 101 Beginning Spanish I**

A beginning course in Spanish in the four skills of language learning: listening comprehension, speaking, reading, and writing. In addition, audio-visual work is required. Cr 4.

SPA 102 Beginning Spanish II

Continuation of SPA 101. Prerequisite: SPA 101 or equivalent. Cr 4.

SPA 107 Intensive Beginning Spanish

An interactive intensive language course in which the skills of listening, reading, speaking, and writing will be emphasized and evaluated. Students will participate in daily lab activities. This course can be used as a substitute for a first-year language experience or as a beginning refresher course. Offered during the summer only. Cr 8.

SPA 201 Intermediate Spanish I

Review of grammatical structures. Further development of listening comprehension, speaking, reading and writing skills. Continued emphasis on understanding of Hispanic culture and civilization through reading and discussion of literary and historical texts as well as frequent reference to contemporary customs and events. Students are encouraged to also register for laboratory practice. Prerequisite: SPA 102 or SPA 107, two years of high school Spanish or the equivalent. Cr 3.

SPA 202 Intermediate Spanish II

Continuation of SPA 201. Prerequisite: SPA 201 or the equivalent. Cr 3.

SPA 207 Intensive Intermediate Spanish

An interactive intensive language course in which the skills of listening, reading, speaking, and writing will be emphasized and evaluated. Students will participate in daily lab activities. This course can be used as a refresher course and can fulfill the requirements for an intermediate proficiency course. Prerequisite: SPA 102, SPA 107, or equivalent. Offered during the summer only. Cr 8.

SPA 300 Topics in Conversation

In this course students will build their listening, speaking, reading, and writing abilities in the target language. Due to its strong emphasis on speaking, this course will focus on developing the ability to think and speak in Spanish while learning about Hispanic cultures. Prerequisite: SPA 202 or permission. Cr 3.

SPA 304 Advanced Conversation and Composition

This course focuses on listening, reading, speaking, and writing, with an emphasis on oral and written communication and critical thinking. Activities are communicative as well as cooperative with a focus on learning in context. Taught in Spanish. Prerequisite: SPA 300 or equivalent. Cr 3.

SPA 305 Introduction to Hispanic Literature

A comprehensive introduction to literary analysis of Hispanic texts with an emphasis on acquiring the concepts and technical vocabulary needed to describe and discuss literary issues effectively. Taught in Spanish. Prerequisite: SPA 304 or equivalent. Cr 3.

SPA 332 Advanced Grammar and Stylistics

This course involves systematic training in grammatical and compositional fluency and accuracy. Translation techniques will also be a component of the course. Prerequisite: SPA 305 or equivalent. Cr 3.

SPA 351 Readings in Contemporary Spanish Literature

An introduction to the literature of contemporary Spain. All discussions and readings will be in Spanish. SPA 305 must be taken prior to or concurrent with SPA 351H. Prerequisite: SPA 305 or permission of instructor. Cr 3.

SPA 352 Readings in Modern Latin American Literature

An introduction to the literature of modern Latin America. All discussions and readings will be in Spanish. SPA 305 must be taken prior to or concurrent with SPA 352. Prerequisite: SPA 305. Cr 3.

SPA 450 Topics in Hispanic Language and Literature

An advanced seminar in Hispanic language, culture, and literature. Prerequisite: SPA 332, SPA 351 or SPA 352, or permission of the instructor. Cr 3.

SPA 470 Independent Study*English for Speakers of Other Languages***ESL 006 Intensive Grammar**

This course is a part of the Intensive English Language program (IELP). It focuses on building a stronger foundation in the grammatical skills necessary for more natural and accurate English, both oral and written. Through a series of grammatical exercises, meaningful drilling, and analysis of the structure of the English language, students will become more adept at producing a wider variety of language with a higher knowledge of use and form. The course will not only introduce new structures in language but also review and expand upon those already learned. (The credit for this course does not apply toward a baccalaureate or an associate's degree.) Prerequisite: instructor's permission. Cr 1.5.

ESL 007 Listening and Oral Communication

This intermediate to high-intermediate course is part of the curriculum of the Intensive English Language program. The course focuses on the improvement of the listening and oral skills that are necessary for the university classroom. Much of the material is derived from authentic sources, such as radio and television broadcasts, as well as lectures on a variety of topics that might be encountered in a university setting. The primary goal of the course is to assist students in recognizing a variety of spoken English and to discuss and respond to the issues. Students will also be exposed to a wide variety of vocabulary and grammatical structure as it arises in context. (The credit for this course does not apply toward a baccalaureate or an associate degree.) Prerequisite: instructor's permission. Cr 1.5.

ESL 008 Reading and Writing

This intermediate/higher intermediate course is a part of the curriculum of the Intensive English Language program. The course focuses on the improvement of the reading and writing skills that are necessary for the university classroom. All of the reading is from authentic sources emphasizing academic writing strategies for writing short reaction papers, summaries, and essays based on the readings. Informal journal writing is an integral part of the course. Students will also be exposed to a wide vocabulary and systematic overview of grammatical structure. (The credit for this course does not apply toward a baccalaureate or an associate degree.) Prerequisite: instructor's permission. Cr 1.5.

ESL 009 Intensive Reading and Speaking Fluency

This course is part of the curriculum of the Intensive English Language program. It focuses on the development of the fluency in speaking and reading that are necessary for the university classroom. Emphasis is on developing speed and comprehension of the skill areas. All of the reading is from authentic sources on a wide variety of topics, both fiction and non-

fiction. Students will learn strategies for speaking in front of a group, compensating for accent, and conducting informational interviews. (The credit for this course does not apply toward a baccalaureate or associate degree.) Prerequisite: instructor's permission. Cr 1.5.

ESL 010 English for Speakers of Other Languages Level I: Intermediate Reading, Writing, and Vocabulary

An intermediate-level English language course for students whose first language is not English. This is a developmental ESL course designed to help students compose fluent and accurate writing as used in academic settings. Students will develop a greater sense of confidence in using written English as a method of communication. Emphasis will be placed on achieving completeness and coherence in written compositions and on understanding the mechanical aspects of the essay. In reading, students will learn to read for meaning and to analyze basic texts and a short novel. Through reading, writing, and specific exercises, students will expand their grasp of vocabulary and idiom needed for academic work. Prerequisite: instructor's permission. Cr 3.

ESL 011 English for Speakers of Other Languages: Intermediate Grammar and Writing

An intermediate-level English language course for non-native speakers of English that will enable students to benefit from a stronger foundation in understanding and using English grammar correctly and confidently. Emphasis is on understanding the meaning, use, and form of common grammar structures needed for academic writing. Students will have a basic knowledge of English grammar, but will need more work on accurate production of English, both oral and written, through a series of grammatical, written, and oral exercises. This course will be more developmental in that it will prepare students for the more advanced ESL 102. Prerequisite: instructor's permission. Cr 3.

ESL 100 College Writing

This section of College Writing is intended for non-native speakers of English only. The course focuses on the analysis of professional and student writing as a way of sharpening awareness of how to use the English language effectively for use in the academic classroom. The writing assignments encourage students to apply the principles discussed in class to their own work. This course cannot be used to satisfy a humanities requirement. Prerequisite: ESL 104 or instructor's permission. Cr 3.

ESL 102 English for Speakers of Other Languages: Advanced Grammar and Writing

An advanced-level English language course for non-native speakers of English focusing on building a stronger foundation of grammatical skills that will aid students in producing more natural and accurate writing skills in the English language. Emphasis is placed on understanding and using grammar structures needed for academic writing and discussion on the university level. Through a series of grammatical exercises, meaningful drilling, both written and oral, and analysis of the structure of English, students will become better used to producing more complex sentences and short essays. Prerequisite: ESL 011 or instructor's permission. Cr 3.

ESL 103 English for Speakers of Other Languages Level II: Higher Intermediate Reading, Writing, and Vocabulary

A higher intermediate-level English language course for non-native speakers of English designed to help students produce grammatical, well-constructed, coherent English, in both written and spoken form. Based on the writing process, students will write and rewrite paragraphs and essays drawn from topical and academic reading, works of fiction, and class discussion. Students learn to read and analyze for content and style a variety of authentic works of fiction and non-fiction. A strong focus will be on enhancing the students' academic vocabulary. Prerequisite: ESL 010 or instructor's permission. Cr 3.

ESL 104 English for Speakers of Other Languages Level III: Advanced Reading, Writing, and Vocabulary

An advanced-level English language course for non-native speakers of English who are nearly ready for College Writing but need additional work in fine-tuning their language skills. Much of the work done in this class will focus on reading academic literature, fiction, and non-fiction, as well as the academic writing skills necessary for university work. Additional focus will be on vocabulary extension and the use of idiom. Students will be required to write short essays, keep a written journal, and make a major oral presentation in class. Prerequisite: ESL 103 or instructor's permission. Cr 3.

School of Music

Director: E. Scott Harris, Corthell Hall, Gorham

Professors: Fithian, Kargul, Martin, Russell; *Associate Professors:* Chickering, Christiansen, Harris, M. Kaschub, Keef, Lehmann, Oberholtzer, Parchman, Sonenberg; *Professor Emeritus:* Cole; *Instructor:* A. Kaschub; *Adjunct Faculty:* Burns, Gunn, Kissack, Vaillancourt

Artist Faculty Piano: Thomas Bucci, Laura Kargul; *Organ:* Ray Cornils; *Voice:* Ellen Chickering, Bruce Fithian, Christina Astrachan, David Goulet, Judith James, Jenny Robinson, Malcolm Smith, Jacque Wilson-Sharlach, Margaret Yauger; *Violin:* Robert Lehmann, Ferdinand Liva; *Viola:* Robert Lehmann; *Cello:* William Rounds; *Bass:* Bronislaw Suchanek; *Flute:* Jean Rosenblum; *Oboe:* Neil Boyer; *Clarinet:* Thomas Parchman; *Saxophone:* Timothy O'Dell, Bill Street; *Bassoon:* Ardith Keef; *Trumpet:* Betty Rines; *Horn:* John Boden; *Trombone:* Brian Diehl, Mark Manduca; *Euphonium:* Dan Hunter; *Tuba:* Dan Hunter; *Percussion:* Nancy Smith; *Harp:* Jara Goodrich; *Classical Guitar:* Keith Crook; *Jazz Guitar:* Gary Wittner; *Jazz Bass:* Bronislaw Suchanek; *Jazz Drums:* Les Harris, Jr.; *Jazz Piano:* Steve Grover; *Jazz Trumpet:* Mark Tipton; *Jazz Trombone:* Chris Oberholtzer; *Jazz Voice:* David Devoe; *Musical Theater Coaching:* Edward Reichert

The primary mission of the School of Music of the University of Southern Maine is to prepare musicians for careers in teaching, performing, and related fields. In addition, the school provides support for music education throughout the state of Maine and New England; it actively participates in a mutually supportive relationship with the professional arts community; and it guides present and future audiences toward greater understanding of and appreciation for many different styles of music.

The School presents more than 100 performances and events each year featuring faculty, guest artists, and students.

The School of Music offers: a) courses and performance opportunities for all USM students, b) professional degrees in music education and performance, c) a liberal arts degree in music, d) a minor in music, and e) master's degrees and certificate programs (see the USM graduate catalog).

Students are accepted as undergraduate music majors into one of the following baccalaureate degree programs:

Bachelor of Arts in Music, a liberal arts degree with a major in music;

Bachelor of Music in Music Education, a professional degree in preparation for teacher certification in music K-12;

Bachelor of Music in Performance, a professional degree with intensive study in voice or orchestral/band instrument or piano, organ, or guitar performance;

Bachelor of Music in Performance—Jazz Studies, a professional degree with intensive study in jazz and classical performance;

Bachelor of Music in Performance—Musical Theater, a professional degree with intensive study in music and musical theater performance; including training in acting and dance (offered in conjunction with the Department of Theatre.); and

Bachelor of Music in Performance—Piano Pedagogy, a professional degree with intensive study in piano teaching.

Admission Requirements

Admission to degree programs in music is based on the following criteria:

- a. performance audition;
- b. test of aural comprehension, rhythmic recitation, and sight singing; and
- c. diagnostic written test of music fundamentals, including intervals, scales, chords, and key signatures.

Applicants in music education will also have an interview. Applicants in musical theater will perform a two-minute monologue and execute a simple movement combination.

The audition committee will review each auditioner's complete application to USM, including high school records and recommendations.

Students may apply to the director of the School for advanced placement in music courses, which may be granted through portfolio review or special examination.

Transfer students

At the time of first registration in the School of Music, a transfer student's transcript will be evaluated. Based upon that evaluation, the student will be held responsible for completing a certain number of semesters of MUS 442 (Recital Class) and major ensemble requirements, regardless of whether the student continues on a full-time or part-time basis.

For music performance and music education majors the appropriate jury level will be established through a jury held by the end of the student's first semester of study at USM.

School Policies and Standards

Performance juries

Students perform juries according to the following schedule:

Music Education majors:	At the end of each academic year
Music Performance majors	At the end of each semester
Bachelor of Arts majors:	No jury required

The jury panel will determine the level of performance, grade the performance pass/fail, and submit a written evaluation that will be included in the student's file.

Students who fail the juried exam will be placed on probation. Students who fail two consecutive juries will be dismissed from the program. Students are required to perform at the appropriate level of competence as established by the music faculty, and may perform required recitals only after attaining appropriate jury levels.

Grading Standards

Students must earn grades of C- or better in all courses that count toward fulfillment of major requirements. Grades of D and F do not fulfill prerequisite requirements. No course may be repeated more than once. Students who fail in the second attempt to pass a course with a grade of C- or better will be dismissed from the program.

The minimum cumulative grade point average for admission to junior- and senior-level music major courses is 2.25 for the Bachelor of Music in Performance and Bachelor of Arts degrees; it is 2.75 for students pursuing the Bachelor of Music in Music Education degree. Additional requirements for admission to upper division music education studies are enumerated in the Bachelor of Music in Music Education degree description.

Students who do not meet academic or applied music standards will be placed on probation and may be dismissed if by the end of the following semester they do not meet these standards. Students will be placed on probation or dismissed by the director of the School when they do not meet the standards of the School of Music. While on probation, students should carry a maximum of a 14-hour credit load. Students who have been dismissed may not enroll in music major courses, but may re-audition after one semester.

Applied Music

Students other than music majors and minors will be accommodated for applied music (private lessons) if a teacher's time is available, and will be subject to a fee in addition to the University tuition fee.

An applied music fee will be charged for all applied music (private lessons) and chamber music in addition to course tuition. Private lesson fees for music majors and minors are subsidized by the University; fees for other USM students are unsubsidized.

For a music major the University will subsidize the fee for up to eight semesters of required lessons. In the case of transfer students, a determination of the number of semesters of subsidized lessons will be made at the time of matriculation. For a music minor the University will subsidize the applied music fee to a maximum of eight credit hours if the student demonstrates adequate proficiency.

Students registering for applied music must report to the director of the School for assignment to an applied music teacher and scheduling of lessons.

A chamber music fee will be charged to each person for each enrollment in coached chamber music.

Music Core Requirements

To be considered a music major in good standing, and to be eligible for applied music subsidies, a student must be making reasonable progress toward the completion of a music degree. Initially, this will be interpreted to mean consistent progress toward completion of the music core and compliance with all other School requirements.

Each student enrolled as a major in a music degree program will take a prescribed course or sequence of courses in the following areas except where noted below:

I. Music Theory and Aural Skills

Music Theory and Aural Skills 1 through 4, during the first four semesters of study; some degree programs require further study in music theory.

II. Music History

Multi-Cultural Perspectives of American Popular Music and Jazz; Music History Survey 1; Music History Survey 2; typically taken continuously from the second through fourth semesters of study. Some degree programs require further study in music history.

III. Functional Piano/Keyboard Skills

Piano Class 1-4. Jazz studies concentration students take Jazz Piano 1 and 2 in lieu of Piano Class 3 and 4; Bachelor of Arts students may exercise this same option. Piano and organ majors have special requirements—see individual program descriptions. Some degree programs require further study in keyboard skills.

IV. Conducting

Basic Conducting (music performance, except jazz studies concentration) or Choral Conducting and Instrumental Conducting (music education). Jazz studies majors fulfill this requirement through Jazz Pedagogy. Bachelor of Arts students are not required to take a conducting course.

Concert Attendance Policy

All music majors are required to attend a number of concerts and recitals each semester in order to maintain good standing in the School. Failure to meet the requirements of this policy can result in probation and suspension. The policy is administered through MUS 442 Recital Class.

Bachelor of Arts in Music

This degree program is designed to provide the opportunity for a scholarly study of music to meet the needs of those who wish to obtain a liberal arts education with an emphasis on music and those who plan to do graduate work in music. The program aims to instill a thorough understanding of music and its relationship to contemporary society. The study of music history and theory is central in this curriculum. Sufficient flexibility is built into the program to allow the individual student to establish areas of emphasis both in music and in the arts and sciences. The minimum number of credits required for the degree is 120.

Music CORE 29 credits

	<i>Credits</i>
Music Theory and Aural Skills (16)	
MUT 100 Music Theory and Aural Skills 1	4
MUT 101 Music Theory and Aural Skills 2	4
MUT 200 Music Theory and Aural Skills 3	4
MUT 201 Music Theory and Aural Skills 4	4
Music History (9)	
MUH 105 Multi-Cultural Perspectives of American Popular Music and Jazz	3
MUH 222 Music History Survey 1	3
MUH 223 Music History Survey 2	3
Functional Piano (4)	
MUS 150 Piano Class 1	1
MUS 151 Piano Class 2	1
MUS 250 Piano Class 3	1
or MUS 252 Jazz Piano Class 1	1
MUS 251 Piano Class 4	1
or MUS 253 Jazz Piano Class 2	1

Applied Music 4 credits required

Private Lessons (4 semesters +)	4
4 credits of private lessons required; up to 12 additional credits may be taken as electives	
MUS 442 Recital Class (8 semesters)	0

Ensembles 4 credits required

8 semesters of ensemble; may include chamber music
additional credits may be taken as electives

Additional Music Classes 34 credits

MUE 111 Professional Foundations for Music Education	2
MUS 332 Counterpoint	3
MUS 330 Form and Analysis	3
MUS 480 Bibliography and Research in Music	3
MUS 320 Seminar in Music History	3
MUS 499 Thesis Project	4
Music Electives, may include applied music and/or ensemble credits	12

Additional Non-music Courses 32 credits

Bachelor of Arts students must achieve second-year proficiency in one foreign language
Non-music Electives, including language study 32 credits

Bachelor of Music in Music Education

This degree program prepares students for careers in PK-12 school-based music teaching. Students completing this course of study are prepared to apply for state teacher certification in Maine and other states. Certification applications must be accompanied by scores from the Praxis I national teacher exam that must be successfully completed during the sophomore year, and the Praxis II exam that must be successfully completed prior to Professional Internship. Students are advised to meet with their advisor if they plan to seek teacher certification in states other than Maine.

As the field of music education requires a broad range of skills and competencies, students are required to complete substantial work in music theory, ear training, musicology, applied music, conducting, chamber music and ensembles, in addition to music education methods courses, field work and teaching internships. The music education curriculum reflects the full range of knowledge and skills required in current practice. All students complete a nearly identical curriculum with adjustments made to reflect the unique requirements of individualized areas of applied study (vocal, instrumental, piano, or guitar) identified during the audition process. All students are reminded that, in addition to meeting School requirements for a major leading to a baccalaureate degree, they must also meet the University's General Education requirements. The minimum number of credits required for the degree is 120.

Admission to Upper Division in Music Education

Upper division music courses are typically designated by course numbers in the 300 or 400 range.

In order to enroll in upper division music courses, a music student must:

- Earn a grade of C- or better in all MUS courses.*
- Earn a grade of B- or better in all MUE and MUP courses.*
- Earn a Level II on the applied music jury.
- Pass Praxis I.

Successfully complete EYE (if required), College Writing, and Quantitative Reasoning core courses.

Earn a cumulative GPA of 2.75 or better.

*Note: These standards are in effect for all MUS, MUE, MUH, MUT, and MUP course in both the lower and upper divisions of the program.

In March of the sophomore year students will complete the application for admission to Upper Division. This application and review are part of the advising process within ProSeminar IV. Students who fail to meet the above requirements may not enroll in upper division courses.

Senior recital requirements: Presentation of a solo recital in the senior year (or junior year with special permission). The recital contains 30 minutes of music including at least 25 minutes of solo performance; the remainder may be chamber music. Normally the program will be shared with another MUE senior or MUP junior recital. Programs exceeding 30 minutes of music require the special approval of the faculty. A student may not perform the required recital during the semester of Professional Internship.

The Professional Internship is a field-based student teaching experience. Students are placed with music educator mentors on a full-time basis in order to gain multiple guided and independent teaching experiences. In preparation for the Internship, students in music education must:

1. Successfully complete all required coursework prior to the Internship;
2. Successfully complete all performance juries and the recital prior to the Internship;
3. Have a cumulative grade point average of 2.75 or above;
4. Submit passing scores on the Praxis I Pre-Professional Skills test (must be completed by the sophomore year);
5. Submit passing scores on the Praxis II Music content exam; and
6. Submit proof of successful completion of Maine Department of Education required fingerprinting and background check..

The Capstone project for Music Education is the Professional Portfolio. The Professional Portfolio provides students with an opportunity to reflect upon their own growth and development in the teaching profession. The portfolio will include

materials that demonstrate fulfillment of the USM Teacher Certification Standards. Upon completion, the Professional Portfolio is a document suitable for presentation and future reference.

The Teacher Education Council, comprised of deans, department chairs, faculty, and school representatives from all programs offering initial teacher preparation, is the governing body for program review and evaluation for all initial-level teacher education programs at USM.

Bachelor of Music in Performance

This degree program is designed for those who wish to prepare for a career in music performance and/or applied music teaching, and those who plan to do graduate work in applied music. The program aims to instill a thorough understanding of music and its relationship to contemporary society. Private lessons; solo, chamber and large ensemble performance; and the study of literature and pedagogy of the major instrument are emphasized. Basic understanding of the standards and opportunities for professional performance leads the student to realistic expectations for a career as a performer or teacher. The minimum number of credits required for the degree is 120.

Bachelor of Music in Performance—Jazz Studies

This degree concentration is designed as foundation studies for those who wish to prepare for careers in jazz or commercial music performance and/or jazz instruction and those who plan to pursue graduate work in jazz studies. This program aims to instill a thorough understanding of this unique American art form and its relationship to contemporary society. Applied music, jazz improvisation, jazz arranging, jazz history, and jazz ensembles are emphasized. A basic understanding of the standards and performance opportunities for professional performance leads the student to realistic expectations for a career as a performer or teacher. The minimum number of credits required for the degree is 120.

Bachelor of Music in Performance—Musical Theater

This degree program, offered in collaboration with the Theatre Department, is designed for those who wish to pursue a career in musical theater performance. The program aims to instill a thorough understanding of music and theater and their relationship to contemporary society. Private lessons, solo and ensemble performance, and the theatrical training necessary for this discipline are emphasized. A basic understanding of the standards and opportunities for professional performance leads the student to realistic expectations for a career as a performer or teacher.

Students in the musical theater concentration will be expected to achieve an approved jury level at the end of each semester in order to stay in the program. They must successfully perform two significant roles and one chorus role in an approved music theater production. Students must successfully complete a crew or backstage assignment; presence is required at all strikes for all productions in which students participate, whether as a crew or cast member. The minimum number of credits required for the degree is 120.

Bachelor of Music in Performance—Piano Pedagogy

This degree concentration is for students who wish to prepare for a career in private piano teaching and those who wish to do graduate work in piano pedagogy. The program focuses upon the development of teaching techniques and performance skills. Specific areas of pedagogy study include: methods and materials, child development, learning theory as it pertains to music education, group and individual lesson formats, and business aspects of running a private studio. The program also includes a supervised piano teaching internship during the junior or senior year. A basic understanding of the standards and opportunities for teaching, as well as performance, leads the student to realistic expectations for a career in private piano teaching. The minimum number of credits required for the degree is 120.

Minor in Music (Bachelor of Arts)

This minor program is designed to provide an opportunity for candidates working toward the bachelor of arts degree who demonstrate interest and ability to continue music studies at the undergraduate level.

The minor consists of MUT 130 Music Theory and Aural Skills 1, one of the Music CORE history requirements (MUH 105, MUH 222, or MUH 223) and 13 credits of music electives, excluding MUS 100 and MUS 110. At least six of these credits must be taken at USM.

Applied music fees, to a maximum of eight credit hours, will be subsidized by the University provided that the student demonstrates adequate proficiency.

Courses Primarily for Non-Majors

MUP 101 Applied Music

An opportunity to continue at the college level the private study of piano, voice, organ, guitar, or any orchestra or band instrument to fulfill one credit of Core requirements in a performance-centered art. One half-hour lesson per week for twelve weeks. Restricted to non-majors and certain music students. May be repeated for credit. Special fee assessed. Cr 1.

MUP 102 Applied Music

An opportunity to continue at the college level the private study of piano, voice, organ, guitar, or any orchestra or band instrument to fulfill two credits of Core requirements in a performance-centered art. One hour lesson per week for twelve weeks. Restricted to non-majors and certain music students. May be repeated for credit. Special fee assessed. Cr 2.

MUS 100 Music Appreciation and History

A survey of music from the Gregorian chant to the modern times, covering musical practices of the renaissance, baroque, classical, romantic, and contemporary periods. Representative works by the outstanding composers of each period. Open to all students. Cr 3.

MUS 102 Music of the Portland Symphony

A course designed to increase the student's understanding and appreciation of the music scheduled for the Portland Symphony Orchestra's regular concerts of the semester. Attendance is required at the concerts in addition to regularly scheduled classes. Historical background, biography of composer, musical analysis, rehearsal and performance techniques, and music criticism. Open to all students. Cr 3.

MUS 103 Introduction to Jazz

A survey of jazz from its inception to the present day. Involves a study of the origins and stylistic development of jazz. Open to all students. Cr 3.

MUS 104 Masterpieces of Opera

An introduction to the forms and conventions of music drama from early opera to contemporary works presented in historical order. Other aspects of this genre to be explored will include the role of the composer, librettist, conductor, singer/actor, stage director, set designer, costumer, and lighting designer in opera. Open to all students. Cr 3.

MUS 109 Dynamic Posture and Alignment

Provides students with a practical understanding of anatomy, kinesiology, and biomechanics in order to improve ease and freedom of motion while in a stationary position. This course is designed for musicians, as well as other performers and creative artists, athletes, and computer users. Cr 2.

MUS 110 Fundamentals of Music

A background study of concepts and skills essential to an intelligent reading of music. The development of natural music abilities through participating in singing, rhythmic activities, and instrumental work. An appreciation of music through awareness of basic structures. Open to all students. Cr 3.

MUS 202 Music in America

A survey of the important trends in music from colonial days to the present. Emphasis will be placed on the role of the Native American composer in the development of sacred music, concert music, jazz, musical comedy, and pop music. Open to all students. Cr 3.

MUS 203 Music in the Twentieth Century

A study of trends in European and American music from the beginning of the century to the present with emphasis on the literature of the major composers. Open to all students. Cr 3.

MUS 334 Electronic Music I

Lectures, discussions, and exercises in sound generation and processing, with emphasis on voltage-controlled systems. The student's time will be divided between class sessions and actual work in the electronic studio. Open to all students. Cr 3

Music Performance Groups

Major Ensembles

MUS 400 Southern Maine Symphony Orchestra

A string, wind, and percussion ensemble open to all University students and community members through audition. The ensemble focuses on the fundamentals of ensemble performance, dealing with a variety of literature, and performs at least one major concert per semester. Prerequisite: audition. Cr 0.5.

MUS 401 University Chorale

A choral ensemble for mixed voices open to all University students through audition. The Chorale sings repertoire from all historical periods and performs locally and on a spring tour. The purposes of the ensemble are to develop musical expression and precision of intonation and rhythm and to promote the musical development necessary for excellence in ensemble singing. Prerequisite: audition. Cr 0.5.

MUS 402 University Concert Band

A wind and percussion ensemble open to all University students through audition. The ensemble focuses on the fundamentals of ensemble performance dealing with a variety of literature. The University Concert Band performs at least one major concert per semester and is active in presenting school assembly programs. Prerequisite: audition. Cr 0.5.

MUS 405 Chamber Singers

An ensemble of mixed voices selected by audition. The ensemble specializes in a cappella repertoire, notably of the Renaissance era and the 20th century. Prerequisite: audition. Cr 0.5.

MUS 407 Jazz Ensemble

An instrumental ensemble specializing in the study and performance of jazz for large and small groups from Dixieland to present. Open to all students by audition. Prerequisite: audition. Cr 0.5.

MUS 408 Wind Ensemble

The Wind Ensemble offers a unique musical experience to its members. The versatility of the Wind Ensemble, based upon the solo performer premise, has established a tradition of performing chamber and large instrumentations, traditional or experimental combinations, and early through contemporary literature. The membership of the Wind Ensemble is selected from Concert Band personnel. Prerequisite: audition. Corequisite: MUS 402. Cr 0.5.

*Small Ensemble***MUS 403 Percussion Ensemble**

A percussion ensemble open to all University students through audition. Prerequisite: audition. Cr 0.5.

MUS 404 Opera Workshop

This ensemble will focus on the union of musical ideas with dramatic situations and will explore the ways in which singers must convey the essence of a dramatic situation. Performances of scenes from operas, operettas, and musical theater. Prerequisite: audition. Variable credit .5-1.0

MUS 406 Chamber Music

A performance course open to all qualified students interested in forming chamber groups: duets, trios, quartets, quintets, etc., under faculty supervision. Cr 0.5.

MUS 410 Collegium Musicum

An early music ensemble dedicated to the performance of music from the Medieval through the Baroque period. This ensemble is open to singers and instrumentalists of the University and the general community. Prerequisite: audition. Cr 0.5.

MUS 452 Accompanying

A workshop course in applied accompanying under faculty supervision. One-half credit is awarded for each twenty hours of University-supervised accompanying, with a maximum of two credits in any academic year. Cr 0.5-2.

*Music Performance***MUP 201 Applied Music**

May be taken in piano, voice, organ, guitar, or any orchestra or band instrument. One half-hour lesson per week for twelve weeks in the minor performance area in fulfillment of applied music requirements. Restricted to music majors and minors. May be repeated for credit. Special fee assessed. Cr 1.

MUP 202 Applied Music

May be taken in piano, voice, organ, guitar, or any orchestra or band instrument. One hour lesson per week for twelve weeks in the major performance area in fulfillment of applied music requirements. Restricted to music majors and minors. May be repeated for credit. Special fee assessed. Cr 2.

MUP 203 Applied Music

May be taken in piano, voice, organ, guitar, or any orchestra or band instrument. One hour lesson per week for twelve weeks in the major performance area in fulfillment of applied music requirements. Restricted to B.M. performance majors. May be repeated for credit. Special fee assessed. Cr 3.

MUP 390 Recital

Public performance in the area of applied study for junior performance majors. Graded pass/fail. Cr 0.

MUP 490 Recital

Public performance in the area of applied study for senior performance majors. Graded pass/fail. Cr 0-4.

MUP 491 Recital

Public performance in the area of applied study for music education majors. Graded pass/fail. Cr 0.

Music Education

MUE 100 Introduction to Music Education

This course will provide students with an understanding of the philosophical foundation of the profession and will introduce students to the National Standards for Arts Education which constitute a key component of the educational goals of their intended profession. Students will be guided in observing teachers in classroom and rehearsal settings to develop their understanding of philosophy and standards as they are implemented through teaching. Restricted to music majors and minors. Cr 1.

MUE 110 ProSeminar I

Provides a professional community for emerging music educators. Students will complete fieldwork, interact with field specialists and practitioners, study emerging topics and contemporary practices in music education. Student will begin to develop their professional portfolios. Corequisite: MUE 111 Philosophical and Historical Contexts for Music Education. Cr. 1

MUE 111 Professional Foundations for Music Education

The course will survey the cultural and historical contexts of American music education and the philosophies that underpin its practice. Issues of arts advocacy will also be addressed. Cr. 2.

MUE 112 Percussion Techniques

Students will learn techniques and methods to provide instruction on percussion instruments to students in grades 4-12. Corequisite MUE 110 ProSeminar I. Cr..

MUE 150 ProSeminar II

Provides a professional community for emerging music educators. Students will explore the uses of technology in education through fieldwork and other experiences. Students will continue the development of their teaching portfolios. Prerequisite: MUE 110 ProSeminar I; MUE 111 Professional Foundation for Music Education. Cr. 1.

MUE 210 ProSeminar III

Provides a professional community for emerging music educators. Fieldwork will focus on the application of instructional strategies for guiding critical and creative music listening in a variety of educational contexts. Prerequisite: MUE 150 ProSeminar II. Corequisite: MUE 211 Teaching Creative and Critical Listening PK-12. Cr. 1.

MUE 211 Teaching and Creative and Critical Listening PK-12

Application of music education methods and contemporary learning theory to music education curricula. An investigation of standards, teaching for musical understanding and the design of lesson plans and assessment strategies will empower students to define and demonstrate a comprehensive pedagogical approach as music educators. Prerequisite: MUE 111; Corequisite: MUE 210. Cr. 2.

MUE 220 Historical Foundations and Learning Theories

This course will provide an overview of the historical role of schools in American society and an introduction to contemporary learning theory upon which music instruction in kindergarten through majors and minors. Prerequisite: MUE 100. Cr 3.

MUE 221 Brass Class

Methods of teaching brass instruments including practical experience on the various instruments; elements of transposition. Prerequisites: MUS 131 and 133. Cr 1.

MUE 222 Percussion Class

Practical experience on and methods of teaching percussion instruments. Prerequisites: MUS 131 and 133. Cr 1.

MUE 224 Woodwinds I

Methods of teaching flute and clarinet. Practical experience on these instruments; elements of transposition. Prerequisites: MUS 131 and 133. Cr 1.

MUE 225 Woodwinds II

Methods of teaching saxophone, oboe, and bassoon. Practical experience on these instruments; elements of transposition. Prerequisite: MUE 224. Cr 1.

MUE 226 Vocal Pedagogy

A study of basic principles of vocal production—breathing, phonation, registration, and resonance—and a discussion of the techniques used to teach voice. Cr 1.

MUE 250 ProSeminar IV

Provides a professional community for emerging music educators. Fieldwork will focus on the application of classroom and rehearsal strategies for developing young vocal musicians. Prerequisite: MUE 210 ProSeminar III. Corequisite: MUE 251 Teaching Vocal Music PK-12. Cr. 1.

MUE 251 Teaching Vocal Music PK-12

Students will develop personal singing skills as they learn to engage PK-12 singers in the study of vocal music. Students will study vocal pedagogy and group vocal technique. Students will create PK-12 curriculum and assessment materials and

learn how to organize and administer a school based vocal music program. Prerequisite: MUE 210 ProSeminar III. Corequisite: MUE 250 ProSeminar IV. Cr. 3.

MUE 252 Choral Conducting

Introduction to conducting gestures and development of non-verbal gestures through choral conducting, including score analysis and rehearsal techniques. Prerequisite: MUT 200 (Music Theory and Aural Skills III) Cr. 2

MUE 310 ProSeminar V Teaching Internship

Provides students an opportunity for intensive study and internship in a specialized area of music education. Students will work with the music education faculty to determine an appropriate field placement and course of study. Prerequisite: MUE 250 ProSeminar IV. Corequisite: MUE 311 Research and Evaluation. Cr. 3.

MUE 311 Research and Evaluation in Music Education

The course will introduce philosophical, historical, descriptive, correlational, causal-comparative, experimental, and arts-based research methods as utilized in music education contexts. Students will develop skills to facilitate formalize inquiry including student assessment and program evaluation. Prerequisite: MUE 250 ProSeminar IV. Corequisite: MUE 310 ProSeminar V. Cr. 2.

MUE 312 Teaching Instrumental Music PK-12

The course will acquaint students with methods and procedures of teaching instrumental music in grades PK-12. Teaching techniques and methods, rehearsal techniques, ensemble literature, program administration and organization, recruiting, budgets, public relations, advocacy, ensemble literature, scheduling, and performance will be addressed. Prerequisite: MUE 250 ProSeminar IV. Corequisite MUE 310 ProSeminar V. Cr. 2.

MUE 313 Instrumental Conducting

Advanced development of non-verbal gestures through the art of instrumental conducting. Score reading analysis, rehearsal techniques and performance preparation. Prerequisite: MUT 244. Cr 2.

MUE 314 Guitar Techniques

An introduction to basic guitar skills. Emphasis is placed upon those skills that lead to playing effective accompaniments. Cr 1.

MUE 320 String Class I: Violin and Viola

Practical experience playing and methods of teaching violin and viola, with additional information on string programs in the public schools. Prerequisites: MUS 131 and 133. Cr 1.

MUE 321 String Class II: Cello and Bass

Practical experience playing and methods of teaching cello and bass. Prerequisite: MUE 320. Cr 1.

MUE 322 General Music Methods K-12

This course presents teaching methods used in non-performance based music courses at the elementary, middle, and high school levels. Students will examine the methodologies of Kodaly, Orff, Dalcroze, and others and will learn to design middle school and high school general music courses. Restricted to senior music majors or by permission of instructor. Prerequisite: MUE 220. Cr 3.

MUE 323 Secondary Choral Method

Techniques and procedures for teaching choral music in high schools. Restricted to junior and senior music majors. Cr 2.

MUE 324 Instrumental Methods

The course will acquaint the instrumental music major with methods and procedures of teaching instrumental music in the public schools. Administering and organizing the program, recruiting, budgets, public relations, ensemble literature, scheduling and performance are issues addressed in the course. Discussions will focus on developing an effective instrumental music program in the public schools. Restricted to junior and senior music majors. Cr 2.

MUE 325 Elementary and Middle Level Choral Methods

This course will cover childhood vocal development, vocal production, choral literature, rehearsal techniques, and other topics as appropriate to working with singers in elementary and middle school. Prerequisite: MUE 220. Cr 2.

MUE 326 Jazz Methods

A study of methods and materials used in teaching a jazz curriculum. Topics will include and focus on rehearsal techniques, score study, performance practice, improvisation, and literature/pedagogical resources. Open to majors of junior standing. Cr 2.

MUE 350 ProSeminar VI

Provides a professional community for emerging music educators. Fieldwork will include both the observation and leadership of improvisation activities in a variety of educational settings. Prerequisite: MUE 310 ProSeminar V. Co-requisite: MUE Teaching Improvisation in Music PK-12. Cr. 1.

MUE 351 Teaching Improvisation in Music PK-12

Students will investigate improvisation in various styles of music and learn how its application can foster creativity in students of all grade levels. Pedagogical methods, materials and standards incorporating jazz and various styles will be

reviewed and applied to the music classroom. Prerequisite: MUE 310 ProSeminar V. Co-requisite: MUE 350 and a jazz ensemble (MUS 406 or 407 - by audition). Cr. 2.

MUE 352 String Techniques

Students will learn string techniques and methods to provide instruction on bowed instruments to school aged students. The demonstration of proper performance techniques on violin, viola, cello, and bass will be required. Prerequisite: MUE 310 ProSeminar VI. Cr. 1.

MUE 353 Woodwind Techniques

Students will learn instrumental techniques and methods to provide instruction on flute, single, and double reeds to students in grades 4-12. The demonstration of proper performance techniques will be required. Prerequisite: MUE 250 ProSeminar IV.

MUE 410 ProSeminar VII

Provides a professional community for emerging music educators. Fieldwork will include both observation and leadership of composition activities in a variety of educational settings. Prerequisite: MUE 350 ProSeminar VI. Corequisite: MUE 411 Teaching Music Composition PK-12; Composer's Ensemble. Cr. 1.

MUE 411 Teaching Music Composition PK-12

Students will develop personal composition skills as they learn to engage young musicians in the study of music composition. Students will study composition pedagogy including individual and group techniques. Students will create PK-12 curriculum and assessment materials and learn how to organize and administer a school based music composition program. Prerequisite: MUE 350 ProSeminar VI. Corequisites: MUE 410 ProSeminar VII, MUS 406 Composers' Ensemble. Cr. 2.

MUE 420 Marching Band Techniques

The course is designed to prepare the music educator to organize and effectively teach Marching Band in the public school. A statement of philosophy is stressed. Marching styles, execution, music developing, marching percussion, role of the drum major and effective instrument placement are emphasized in the course. Restricted to junior and senior music majors. Cr. 2.

MUE 450 Professional Internship

Full-time student teaching during the senior year is provided for one semester under direct supervision in off-campus situations for all who meet the requirements. Students will experience classroom and ensemble teaching experiences. Corequisite: MUE 451. Cr. 8.

MUE 451 Professional Portfolio

Creation of an electronic portfolio aligned with the USM Teacher Certification Standards. The portfolio will contain evidence of preparation, implementation and reflection on music education practices. Cr. 4. Co-requisite: MUE 450

EDU 324 Student Teaching

Full-time student teaching during the senior year is provided for one semester under direct supervision in off-campus situations for all who meet requirements. Normally, two separate half-semester experiences designed to match the student's selected program concentration are provided which encompass both general classroom and ensemble teaching experiences. Cr. 12.

Music Courses

MUH 105 Multi-Cultural Perspectives of American Popular Music and Jazz

An overview of selected styles and traditions of jazz and American popular music, as well as World music that has influenced those styles. Developing critical thinking and writing skills, the course stresses close analysis and interpretation of selected works. Cr. 3

MUH 222 Music History Survey 1

An historical study of the language and style of music from antiquity until 1800. Significant composers, major genres, and representative musical compositions are studied. Music majors only or permission of the instructor. Cr. 3

MUH 223 Music History Survey 2

An historical study of the language and style of Western art music from 1800 to the present day. Significant composers, major genres, and representative musical compositions are studied. Music majors or permission of instructor. Cr. 3

MUS 120 Music Until 1900

This course covers the history of Western music from antiquity to 1900 with special emphasis on early music. The elements of musical language and style are traced through representative composers' works. Listening, analysis, independent research, and writing are required. Music majors only or permission of the instructor. Cr. 3.

MUS 121 Classical and Romantic Music

This course covers the history of Western music from 1750 to 1900. The elements of musical language and style are traced through representative composers' works. Listening, analysis, independent research, and writing are required. Music majors only or permission of the instructor. Cr. 3.

MUS 130 Music Theory 1

This course covers scales (major and minor), keys, intervals, and triads; identification of triads and seventh chords in inversion; principles of notation; part-writing with root position and first inversion triads; cadences; harmonization of soprano and bass lines; and phrase forms. Prerequisite: Music majors and minors only or permission of the School. Cr. 3.

MUS 130 Music Theory Lab 1

A laboratory course in music theory required of those students needing additional assistance in first semester theory, as determined by the student's score on the entrance testing. To be taken concurrently with MUS 130 Music Theory 1 LEC. Does not count for music elective credit. Cr 2.

MUS 131 Music Theory 2

A continuation of the study of harmony, including the use of triads in second inversion; modulation; non-harmonic tones; the dominant seventh chord; other diatonic seventh chords; and simple binary and ternary forms. Prerequisite: MUS 130. Cr 3.

MUS 132 Sight Singing and Ear Training 1

A course in sight singing and ear training. Music majors and minors only, or permission of the School. Cr 1.

MUS 133 Sight Singing and Ear Training 2

A continuation of MUS 132. Prerequisite: MUS132. Cr 1.

MUS 150 Piano Class 1

This is a piano class for MUE and MUP students not majoring in a keyboard instrument. Topics covered include sight-reading, basic technique, scales, chord progressions, harmonization, transposition and performance of elementary to intermediate piano literature. Prerequisite: music major status or permission of School director. Cr 1.

MUS 151 Piano Class 2

This is a continuation of MUS 150. Prerequisite: MUS 150 or permission of School director. Cr 1.

MUS 206 Jazz History

This course provides an in-depth examination of the historical evolution of jazz, as well as a familiarity with the major and secondary figures in the idiom. Emphasis is placed on detailed listening assignments and class discussions. Prerequisite: MUS 103G, music major status, or permission of instructor. Cr 3.

MUS 220 Twentieth-Century Music

This course covers the history of Western music from 1900 to the present. The elements of musical language and style are traced through representative composers' works. Listening, analysis, independent research, and writing are required. Music majors only or permission of the instructor. Cr 3.

MUS 225 World Music

This course is designed to investigate music of various cultures. The course will explore the music of particular regions, for example, the Pacific Rim, India, and the Americas, with the intent of understanding the relationship of music to the culture in which it was created. Listening, analysis, independent research, and writing are required. Music majors only or permission of the instructor. Cr 3.

MUS 230 Music Theory 3

A continuation of the study of tonal music, including the further examination of modulation; melodic chromaticism; chromatic chords, including altered chords, chords with secondary functions, and linear chords; and composition in the simple forms of the eighteenth and nineteenth centuries. Prerequisite: MUS 131. Cr 3.

MUS 231 Music Theory 4

Techniques of 20th-century composition, including the study of harmony, melody, and texture. Related studies include music theory in the twentieth century, new sound resources, and new technologies. Prerequisite: MUS 131. Cr 3.

MUS 232 Sight Singing and Ear Training 3

An advanced course in sight singing and ear training. Prerequisite: MUS 133. Cr 1.

MUS 233 Sight Singing and Ear Training 4

A continuation of MUS 232. Prerequisite: MUS 232. Cr 1.

MUS 244 Basic Conducting

Practical conducting experiences; score reading, basic beat patterns, gestures, and interpretation. Prerequisite: MUS 230. Cr 2.

MUS 250 Piano Class 3

This is a continuation of MUS 151. Prerequisite: MUS 151 or permission of School director. Cr 1.

MUS 251 Piano Class 4

This is a continuation of MUS 250. Prerequisite: MUS 250 or permission of School director. Cr 1.

MUS 252 Jazz Piano Class 1

This is a jazz piano class for MUP Jazz Studies Concentration students not majoring in a keyboard instrument, as well as non-jazz keyboard majors and other instrumentalists who meet the prerequisite. Topics covered include chord voicing for the ii-v-i progression, arrangements of standard tunes, jazz scales and modes, and accompaniment styles. Prerequisite: MUS 151 or permission of School director. Cr 1.

MUS 253 Jazz Piano Class 2

This is a continuation of MUS 252. Prerequisite: MUS 252 or permission of School director. Cr 1.

MUS 255 Guitar

An introduction to basic guitar skills. Emphasis is placed upon those skills that lead to playing effective accompaniments. Cr 1.

MUS 256 Diction for Singers 1: Italian and French

A study in the principles of Italian and French diction through the use of the International Phonetic Alphabet (IPA). An application of these basic principles to vocal literature through written, singing, and aural transcription exercises. Prerequisite: music major or instructor permission. Cr 2.

MUS 257 Diction for Singers 2: French and German

A continuation of study in the principles of French diction and the principles of German diction through the use of the International Phonetic Alphabet (IPA). An application of these basic principles to vocal literature through written, singing, and aural transcription exercises. Prerequisite: MUS 256. Cr 2.

MUS 310 Organ Improvisation 1

This course will cover the basics of improvisation at the organ. The goal is to equip the student with the skills needed in church situations. Hymns, chorales, and plainsong melodies will form the basis for learning to improvise preludes, postludes, and interludes in a variety of styles. This course will be scheduled as an additional applied music time with an organ specialist. Prerequisite: MUS 131 or permission of instructor. Cr 1.

MUS 311 Organ Improvisation 2

This course is the continuation of MUS 310. It will be scheduled as an additional applied music time with an organ specialist. Prerequisites: MUS 131 and MUS 310, or permission of instructor. Cr 1.

MUS 320 Seminar in Music History

A concentrated study of selected topics in music history based on individual research. Prerequisite: MUS 120, 121, 220, 225. For music majors or minors. Others only with permission of instructor. Cr 3.

MUS 321 Literature of the Major Instrument

A survey of the literature for voice or a specific instrument. Except for piano or voice, which are offered in class sessions when the number of registrants warrants it, this will be scheduled as private study. Normally the piano and voice sessions will be offered in alternate years. For performance majors. Other music majors only with permission of the School. Cr 2.

MUS 322 Piano Literature 2

A survey of keyboard literature from 1890 to the present. For piano majors only, others with permission of the School. Cr. 2.

MUS 323 Organ Literature 2

A survey of organ literature from 1800 to present. For organ majors only, others with permission of School. Cr. 2.

MUS 325 The History of Musical Theatre in America

A study of the development of the musical and its relationship to American social history. Cr. 3.

MUS 330 Form and Analysis

Study and analysis of music of the classical, romantic, and contemporary periods with emphasis on homophonic forms and styles. Prerequisite: MUS 230. Cr 3.

MUS 332 Counterpoint

Analysis and writing of tonal counterpoint. Emphasis is given to the study of canon, invention, fugue, chorale prelude, and continuous variations, using eighteenth-century works as models for composition. Prerequisite: MUS 230. Cr 3.

MUS 333 Advanced Analysis of Tonal Music

This course will cover several analytical approaches to tonal music, including parametric analysis, the analysis of phrase rhythm and hypermeter, and Schenkerian analysis. Prerequisite: MUS 330. Cr 3.

MUS 335 Advanced Aural Skills

This course will be an in-depth continuation of MUS 233 Sight Singing and Ear Training 4. It will emphasize the development of aural skills through the use of contextual listening examples and performance drills. Both tonal and non-tonal music will be used as study material. Prerequisite: MUS 233. Cr 3.

MUS 337 Jazz Arranging

Study and analysis of music written for small and large jazz ensembles. Practice in writing for a variety of instrumental combinations in the jazz idiom. Prerequisite: MUS 230 or permission of instructor. Cr 3.

MUS 349 Piano Class 5

This is a continuation of MUS 251. Prerequisite: MUS 251 or permission of School director. Cr 1.

MUS 350 Voice Class 1

This course covers the fundamentals of vocal promanagement and tone development, studied through the use of vocalizations and songs. Prerequisite: music major status or permission of School director. Cr 1.

MUS 351 Voice Class 2

This is a continuation of MUS 350. Prerequisite: MUS 350. Cr 1.

MUS 360 Advanced Keyboard Skills 1

This course provides practical instruction in the advanced keyboard skills of score reading, transposition, harmonization of melodies, and realization of continuo. These performance skills will be taught with emphasis on the preparation of examples outside the class as well as the active participation by students in class. Prerequisite: keyboard performance major and MUS 131, or permission of instructor. Cr 2.

MUS 361 Advanced Keyboard Skills 2

The second semester continuation of Advanced Keyboard Skills 1. Prerequisite: MUS 360. Cr 2.

MUS 370 Topics in Music Technology

An intensive study of one or more areas of music technology in the context of producing music compositions, creating pedagogical multimedia applications, performing music with interactive applications, or recording and editing digital audio/video. The area of study will be chosen by the instructor in accordance with his or her expertise and interests. The course may be repeated once for credit as topics vary (limit of 6 credits). Prerequisite: MUS 231 or permission of the instructor. Cr 3.

MUS 372 Pedagogy of the Major Instrument

A study of the teaching methods and materials for voice or instruments. Except for piano and voice, which are offered in class sessions when the number of registrants warrants it, this will be scheduled as additional applied music time with an instrumental specialist. Normally the piano and voice sessions will be offered in alternate years. For performance majors. Other music majors only with permission of the School. Cr 2.

MUS 373 Piano Pedagogy 2

This course is the second-semester continuation of MUS 372 in piano. The course focuses on the teaching of child beginners. Students observe a weekly group lesson, research and prepare repertoire and lesson plans, and evaluate their peers' teaching. Each student teaches at least one group lesson. Prerequisite: MUS 372 in piano, piano major, or permission of instructor. Cr 2.

MUS 374 Jazz Pedagogy

A study of the teaching methods and materials in the jazz performance area. Emphasis will be placed on large and small jazz ensemble literature and conducting techniques, jazz improvisation pedagogical techniques, and writing techniques. This course will also address the topic of securing and maintaining employment within the jazz field. Prerequisite: open to music majors of junior standing. Cr 2.

MUS 376 Class Piano Teaching 1

This course provides an overview of teaching group piano to adult beginners. Students spend the semester observing the teaching of Piano Class 1 (MUS150) and meet weekly with the teacher for discussion and additional instruction. Prerequisite: Two semesters of MUP 202 or 203, piano major, or permission of instructor. Cr 2.

MUS 377 Class Piano Teaching 2

This course is the second-semester continuation of Class Piano Teaching I. Students observe the teaching of Piano Class 2 (MUS 151) and meet with the teacher weekly for discussion and additional instruction. Students have the opportunity to teach the class under the instructor's supervision. Prerequisite: MUS 376. Restricted to piano majors. Cr 2.

MUS 378 Practicum in Piano Pedagogy 1

This course provides practical teaching experience in individual piano instruction. Under the supervision of piano pedagogy faculty, students teach private lessons to three or four child beginners. Students also observe piano lessons given by master teachers and do outside readings and research. Prerequisite: MUS 373, four semesters of MUP 202 or 203, piano major, or permission of instructor. Cr 3.

MUS 379 Practicum in Piano Pedagogy 2

This course is the second-semester continuation of MUS 378. Prerequisite: MUS 378. Cr 3.

MUS 380 Jazz Improvisation 1

A course designed to teach the student to improvise in the jazz idiom. Studies include jazz theory and standard jazz literature. Recommended for instrumental music majors. Prerequisite: MUS 131 or permission of the instructor. Cr 3.

MUS 381 Jazz Improvisation 2

A performance course designed to expand upon the improvisation principles presented in Jazz Improvisation 1. Students will learn advanced jazz theory and use that knowledge to perform in the jazz language both in class and in lab situations. Prerequisite: MUS 380 or the equivalent. Cr 3.

MUS 420 Orchestration

A study of the nature of the various instruments. Practice in scoring for instrumental combinations, orchestra, and band. Prerequisite: MUS 231. Cr 3.

MUS 432 Advanced Sight Reading for Singers

This course will emphasize and strengthen the singer's sight reading ability through the use of tonal and non-tonal music. Cr. 1

MUS 442 Recital Class

Performance in major field, stage department, and evaluation of performances. May be repeated. Cr 0.

MUS 480 Bibliography and Research in Music

A study of music reference and research tools, use of library resources and networks, and bibliographic style and technique. Cr 3.

MUS 497 Directed Study in Composition

To provide juniors and seniors who have demonstrated creative capability an opportunity to compose utilizing twentieth-century techniques. Prerequisite: MUS 231 and permission of instructor. Cr 1-3.

MUS 498 Independent Study in Music

To provide juniors and seniors who have demonstrated critical and analytical capability an opportunity to pursue a project independently, charting a course and exploring an area of interest within their major field. Music majors only. School permission required. Cr 1-3.

MUS 499 Thesis Project**MUT 100 Music Theory and Aural Skills 1**

This course covers music theory fundamentals, fundamentals of species counterpoint, principles of notation, instrumentation, solfege, music transcription, and sight singing. Cr. 4.

MUT 101 Music Theory and Aural Skills 2

This course covers the concepts of diatonic harmony, cadences, phrase level form and a brief introduction to chromaticism. This material will be explored through the analysis, transcription, composition, and sight singing of topical examples of music. Cr. 4.

MUT 200 Music Theory and Aural Skills 3

This course covers chromatic harmony and musical form. This material will be explored through the analysis, transcription, composition, sight singing, and performance of topical examples of music. Cr. 4.

MUT 201 Music Theory and Aural Skills 4

A grounding in the materials of 20th and 21st century music from analytical, compositional, and listening perspectives. Students will undertake analyses and model composition exercises involving: modes, synthetic scales, extended tertian harmony, poly harmony, rhythm and meter, atonality, twelve-tone serialism, chance music, and minimalism. As students learn the abstract theoretical concepts, they will be guided to connect them to real music through copious listening, singing, and transcription exercises. Special attention will be paid to the historical contexts of the various techniques and styles covered during the semester, and students will also attend and critique in writing two performances of contemporary art music. Cr. 4.

Philosophy

Chair of the Department: George Caffentzis, 47 Exeter St., Portland

Professors: Caffentzis, Gavin, Louden, Murphy; *Associate Professors:* Conway, Winger, Read; *Professors Emeritus:* Schwanauer, Grange

“Philosophy unties knots in our thinking; hence its results must be simple, but philosophizing has to be as complicated as the knots it unties.” —Ludwig Wittgenstein, Zettel #452

The place of philosophy at the center of any educational endeavor is as true today as it ever was. The perennial questions that philosophy addresses—“Who am I as a human being?” “How should I act?” “What can I know?” “What are my obligations to others?” “How should society be organized?”—are fundamental issues with which education must wrestle and into which it must provide insight. Philosophy is a reasoned pursuit of fundamental truths. It is a systematic investigation of the key assumptions that underlie our thinking and which ordinarily are taken for granted. Much of what is learned in philosophy can be applied in virtually any endeavor. This is both because philosophy touches upon so many subjects and, especially, because many of its methods and analyses are usable in any field. The study of philosophy is beneficial in terms of achieving the following:

General Problem-Solving Ability The study of philosophy enhances one’s problem-solving capacities in a way no other activity does. It helps one to analyze concepts, definitions, arguments, and problems. It contributes to one’s capacity to organize ideas and issues, to deal with questions of value, and to extract what is essential from masses of information.

Communication Skills Philosophy provides some of the basic tools of self-expression, namely, skills in presenting ideas through well-constructed, systematic arguments. One learns to build and defend one’s own views, to appreciate competing positions.

Writing Skills Writing is an important part of most philosophy courses. Philosophy teaches interpretive writing through its examination of challenging texts, comparative writing through emphasis on fairness to alternative positions, argumentative writing through developing students’ abilities to establish their own views, and descriptive writing through detailed portrayal of concrete examples, the anchors to which generalizations must be tied.

The Understanding of Other Disciplines Many important questions about a discipline, such as the nature of its concepts and its relation to other disciplines, do not belong to that discipline, are not usually pursued within a discipline, and are philosophical in nature. Philosophy of science, for instance, is needed to supplement the understanding of the natural and social sciences which one derives from scientific work itself. Philosophy of art, social and political philosophy, and the philosophy of religion are of similar value in understanding the respective fields of art, sociology, politics, and religion.

Career Applications

Philosophers know, of course, that the important question is not what you can do with a field of study but rather what a field of study does with you. Nevertheless, it has been a welcome surprise within recent years to witness how many professions—business, law, and nursing, for example—want and reward many of the capacities that the study of philosophy develops: the ability to solve problems, to communicate, to organize ideas and issues, to assess pros and cons, and to reduce complex data. These capacities represent transferable skills. For this reason, people trained in philosophy are not only prepared to do many kinds of tasks, they can also cope with change, or even move into new careers, more readily than others.

Student Involvement

Student participation in the philosophical activities of the philosophy program is strongly encouraged. Students have organized a Philosophy Majors and Minors Association which provides a forum for students to discuss their philosophical work. This Philosophy Symposium also facilitates communication between faculty and students and ensures student involvement in Departmental deliberations. In recent years the Philosophy Symposium has invited guest lecturers on a variety of philosophical topics. This has enabled students to meet a broad range of philosophers including international guests.

Programs and Requirements

Bachelor of Arts in Philosophy

The minimum number of credits (exclusive of the University’s Core curriculum) required for the major: 36.

Each major in philosophy will arrange a program of courses in conference with the chair or a member of the department who is assigned as the student’s advisor. The program will be designed in terms of the student’s interests, needs, vocational plans, and the year in which the student declares a major. The major will require 36 hours of courses beyond a PHI 100-level course. Any introductory philosophy or EYE course is a prerequisite to all other courses in philosophy.

All philosophy majors must take four history of philosophy courses. Two of these, which need not be taken in sequence, must be PHI 310 (Ancient Philosophy) and PHI 330 (Early Modern Philosophy). Thereafter, any two additional courses in the history of philosophy may be taken. These courses are PHI 312, PHI 315, PHI 320, PHI 340, PHI 350, PHI 360, PHI 370, PHI 380, PHI 390.

In order to graduate, all philosophy majors must complete a Seminar in Philosophy (PHI 400). Seminars are offered approximately once per year. Topics and instructors for these Seminars rotate among faculty in the Department.

In the last year a senior thesis (PHI 410) is optional. The successful completion of PHI 400 is a prerequisite for taking PHI 410. This thesis consists of a major paper (minimum length: 50 pages) on a topic selected by the student and directed by one member of the Department. The student will meet with the mentor on a regular basis during the semester of the senior thesis. Upon completion of the paper, an oral examination will be conducted by the full Department. Honors status for graduation is granted if the student’s GPA in philosophy is at least 3.33 or higher upon completion of all requirements for the major.

Students enrolled in the HONORS Program and who are also philosophy majors may substitute their Honors senior thesis course for the seminar in Philosophy requirement, if the thesis is mentored by a philosophy faculty member and if the thesis is on a philosophical topic.

Every major intending to pursue graduate study and teach in philosophy will be expected to take German, or French through the intermediate level. German is preferred to French, although ideally both sets of courses should be taken.

All majors are encouraged to take PHI 205 Symbolic Logic.

The gender-neutral language policy of the Department prohibits the use of sexist language in classes, course materials, and at Departmental events.

Minor in Philosophy

The minimum number of credits (exclusive of the University's Core curriculum) required for the minor: 15.

Students who wish to pursue a minor in philosophy are required to take five courses beyond any PHI 100 course. These must include two courses in the history of philosophy: PHI 310, PHI 312, PHI 315, PHI 320, PHI 330, PHI 340, PHI 350, PHI 360, PHI 370, PHI 380, PHI 390.

Philosophy Courses Satisfying Core Requirements

The following Philosophy courses satisfy the Cultural Interpretations requirement of the Core curriculum: PHI 102, 103, 105, 106, 107, 109, 110, 111, 112, 310, 312, 320, 330, 370, and 390.

The following Philosophy courses satisfy the Ethical Inquiry, Social Responsibility and Citizenship requirement of the Core curriculum: PHI 211, 212, 275, 285, 291 and 295.

PHI 102 Introduction to Philosophy: The Quest for Certainty

Philosophy has often been defined as the attempt to become aware of the hidden assumptions we make in our everyday outlooks on life. The present course will deal with one of the most pervasive of these assumptions—the thesis that human beings should pursue certainty and objectivity at any price. The history of philosophy will be utilized to trace and to criticize the identification of all true knowledge with certainty. Questions will be raised as to whether the quest for certainty is either feasible or beneficial to the human person. An analysis of some 20th-century alternatives, such as existentialism and pragmatism, will be undertaken. This course satisfies the Cultural Interpretation requirement of the new Core curriculum. Prerequisite: a college writing course. Cr 3.

PHI 105 Introduction to Philosophy: Philosophy Through Its History

An introduction to philosophy through its history and development, i.e., through an examination of central texts in the history of philosophy, up to and including contemporary works. Specific readings may vary from semester to semester, but will always include some canonical works by classic Western philosophers (e.g., Plato, Aristotle, Descartes, and Kant). This course satisfies the Cultural Interpretation requirement of the new Core curriculum. Prerequisite: a college writing course. Cr 3.

PHI 106 Introduction to Philosophy: Why Philosophize?

The course centers about the exploration of a single question: what it means to think philosophically. In the context of this question, we will examine what are the sources of philosophical thought and whether philosophy can justify its claim to be the foundation of all reflective endeavor. This course satisfies the Cultural Interpretation requirement of the new Core curriculum. Prerequisite: a college writing course. Cr 3.

PHI 107 Introduction to Philosophy: World Philosophy

This course presents the world views of philosophers from ancient to contemporary times. The thinkers will be chosen from a broad range of cultural and ethnic backgrounds. Emphasis will be placed on the wide diversity and historical background of philosophical positions. This course satisfies the Cultural Interpretation requirement of the new Core curriculum. Prerequisite: a college writing course. Cr 3.

PHI 109 Introduction to Philosophy: Law, Politics, and Society

This course examines the traditional political questions that face every society: Who should rule? What should the rules be? Why should the rules be obeyed? The approach is largely historical, emphasizing the answers that major philosophical figures have offered to these questions. The relevance of these historical answers to current social issues is addressed using a number of contemporary topical readings. This course satisfies the Cultural Interpretation requirement of the new Core curriculum. Prerequisite: a college writing course. Cr 3.

PHI 110 Introduction to Philosophy: Gender and Society

To what extent are social norms influenced by assumptions about sex and gender? The course examines philosophical arguments on topics such as masculinity, femininity, sexualities, war, religion, fatherhood, motherhood, abortion, gay marriage, and politics. This course satisfies the Cultural Interpretation requirement of the new Core curriculum. Prerequisite: a college writing course. Cr 3.

PHI 111 Introduction to Philosophy: Philosophical Reading (and Writing)

This course aims to teach the student a particular skill: philosophical reading (and writing). On the most immediate level this will be a course in reading (and writing about) philosophical texts. The texts will give the student a sense of the immense history, wealth, and suggestibility of philosophical writing, its various genres, and its authors. On another level, the course will teach the skill of reading (and writing) philosophically. Any piece of writing can be read (and written about), with profit, philosophically. The second skill and its profit cannot be acquired without first studying the first, thus the bulk of the course will focus on reading (and writing about) philosophy texts philosophically. About one month will be devoted to the reading of each book. This course satisfies the Cultural Interpretation requirement of the new Core curriculum. Prerequisite: a college writing course. Cr 3.

PHI 112 Introduction to Philosophy: Feminist Perspectives

To what extent do cultural assumptions about gender shape a society's notion of rationality, and justice? The course explores this question by examining feminist critiques of Western Philosophy along with a selection of contemporary anti-sexist and anti-racist theories of social life. This course satisfies the Cultural Interpretation requirement of the new Core curriculum. Prerequisite: a college writing course. Cr 3.

PHI 200 Metaphysics

An analysis of various theories of reality, together with a critical examination of their conceptual constructs, principles and methodologies. Issues to be discussed include change, time, freedom and necessity, immortality and God, good and evil. Thinkers to be studied include Plato and Aristotle, Spinoza, Kant, Hegel, Whitehead, and Heidegger. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 205 Symbolic Logic

Techniques of modern deductive logic; properties of formal systems; logical implications and paradoxes of language. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 210 Ethical Theories

Critical evaluation of major ethical theories and systems. Extensive reading in original texts. Analysis of contemporary ethical issues. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 211 Media Ethics

In the information age, media play an increasingly large role in our lives. Our notion of living in a global society is largely shaped by media. What is responsible journalism? Does violent programming contribute to violence in America? What are professional ethics and how should they guide media practitioners? We will discuss these questions by examining key ethical

values in media such as: privacy, confidentiality, truth telling, conflicts of interest, and social responsibility. We will also explore some fundamental issues in ethical theory such as: Why be ethical? What is ethics? How do ethical theories differ? What are the best ways to evaluate and apply ethical theories to media controversies today? The course is designed for majors in philosophy, media studies, and communication as well as other interested students. The course satisfies the "Ethical Inquiry, Social Responsibility, and Citizenship" requirement of the Core curriculum. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 212 Environmental Ethics

This course analyzes the relations between human beings and the environment in terms of the concepts of justice, the good, and human responsibilities. It attempts to provide a new cosmological model for adjudicating between conflicting rights and duties. Issues to be discussed include animal rights, environmental protection, and ecological harmony. The course satisfies the "Ethical Inquiry, Social Responsibility and Citizenship" requirement of the Core curriculum. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 215 Philosophy of Literature

While many cultures accord a vital role to stories, myths, and poetry in the cultivation of wisdom, traditional European philosophy has tended to marginalize them. This course seeks to investigate the historical roots for this separation between philosophy and literature in European thought. It will then consider the perspectives of several contemporary thinkers (e.g., Robert Coles, Michael Ende, Martha Nussbaum, and Martin Heidegger) who are convinced that literature plays an indispensable role in the pursuit of wisdom. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 220 Philosophy of Art

What makes a person creative? What do artists think about their art? How do critics evaluate a work? If art is created for a cultural ritual or healing, is it to be understood differently? How do the circumstances of a work's creation and reception influence its evaluation? How do a person's class, ethnicity, and gender influence the artwork and its reception. Philosophers in the field of Aesthetics attempt to answer questions which artists, art historians, anthropologists, and critics ask about art. The works of art and philosophy considered will be drawn from a wide variety of cultural contexts. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 221 Philosophy of Film

This course concentrates on the construction of meaning in the context of cinema. Major emphasis is placed on cinema as a product of social construction. Issues to be discussed include perception, memory, images, and the use of social stereotypes. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 225 Philosophy of Mind

An analysis of the major philosophical issues facing the science of psychology: language and the unconscious, body-mind interaction, freedom and determinism. Major figures to be studied include Plato, Aristotle, Spinoza, Freud, Merleau-Ponty, Lacan, and Skinner. Thematic emphasis will be on the historic interaction between psychology and philosophy in the development of Western thought. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 230 Philosophy of Religion

Analysis of the nature of religious experience, knowledge, and language. Special attention given to problems, classical and contemporary, exhibited in religious experience and relevant to areas of common concern in the sciences, humanities, and philosophy. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 240 Political Philosophy

Critical evaluation of political philosophies, classical and contemporary; extensive reading in original texts; analysis of contemporary political issues. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 250 Philosophy of Science

An examination of two different models generally used in approaching scientific activity philosophically: the logical model and the historical model. Questions to be raised include whether these two approaches are mutually exclusive or whether one can subsume the other, and at what cost. Issues to be covered include description vs. explanation; scientific vs. non-scientific explanation; the issue of whether to include pragmatic and psychological dimensions of meaning in scientific explanations; the question of whether all facts are "theory-laden"; and the relationship between facts, laws, and theories in science. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 260 Philosophy of Law

Critical evaluation of select issues in the philosophy of law. Possible topics include: the nature of law (positivism, natural law, legal realism); judicial decision making; constitutional adjudication; the justification of punishment; the legal enforcement of morality; legal responsibility; the judicial system. Readings are drawn from the disciplines of both philosophy and law, and include contemporary as well as historical selections. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 265 Philosophy and Gender

The course explores the contributions of feminist philosophers to gender analysis. It will examine the philosophical assumptions inherent in theories of gender difference that arise in sociobiology, biological determinism, physiology, and the social construction perspective. Assumptions about gender will be studied in some of the following areas: violence, war, religion, reproduction, family, sexualities, and sport. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 270 Epistemology

An analysis of various theories of knowledge in reference to their methodologies and consequences. Texts to be read include Berkeley, Hume, Descartes, Kant, and Hegel. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 275 The Nature of Compassion

Whether and how we respond to the suffering of others defines, in many ways, who we are as persons and communities. This course is an investigation into the emotion and compassion and its social role. Drawing upon a wide variety of sources such as Greek Tragedy, Buddhist scriptures, classical and contemporary philosophical thought, it will address philosophical defenders of the need to cultivate compassion (Rousseau, Schopenhauer, and Adam Smith) as well as thinkers suspicious of this notion (Nietzsche, e.g.). The work of contemporary philosophers—Phillip Hallie and Martha Nussbaum—will also receive close attention. Students will have a chance to think through some important philosophical issues, such as the role of emotions in moral deliberation, the extent to which compassion can be both aided and obstructed by the use of language, and whether there are appropriate limits to compassion. Prerequisite: PHI 100-level or EYE course. Cr 3

PHI 285 Genetics & Society

This course examines key ethical controversies in new and future genetic technologies including: reproductive cloning, embryonic stem cell research, genetic testing, enhancement, gene patenting and regenerative medicine. Students will learn about the history of genetics, basic concepts in genetics, and the philosophical debates about the relationship between genetics and society. The course satisfies the “Ethical Inquiry, Social Responsibility and Citizenship” requirement of the Core curriculum. Prerequisites: PHI 100-level or EYE course. Cr 3

PHI 290 Problems in Philosophy

Consideration of selected problems or systems of philosophical significance, including general problems of metaphysics, epistemology, axiology, specialized areas, etc. May be repeated for credit. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 291 Death and Dying

Recent success in life-prolonging techniques has resulted in the creation of new disagreements over the proper definition of death. Which definition of death is the most adequate? Some have argued that dying, not death, is the vitally important topic. Has the term death changed its meaning from time to time and place to place in human history? This course will deal with these and similar epistemological issues. This course satisfies the “Ethical Inquiry, Social Responsibility and Citizenship” requirement of the Core curriculum. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 295 Medicine, Madness, and Disease

Recent advances in modern medicine and medical technology challenge traditional notions of health, sanity, and the social order. The course will examine some of the controversial ethical dilemmas that patients, families, and health care providers confront, such as informed consent, truth-telling, prenatal screening, abortion, involuntary commitment for the mentally ill, drug testing, and patient rights. The course will critique the assumptions behind these and other medical practices. The course satisfies the “Ethical Inquiry, Social Responsibility and Citizenship” requirement of the Core curriculum. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 310 History of Ancient Philosophy

Philosophic thought from the pre-Socratics to the late Hellenistic period, with major emphasis on Plato and Aristotle. This course satisfies the Cultural Interpretation requirement of the new Core curriculum. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 312 Women Philosophers from Africa and the Diaspora

This course concentrates on the work of women of wisdom who are of African origin. Intellectual and literary movements will be examined through generations of thinkers in various national, religious, cultural, and geographical settings. Writings from the diaspora and Egypt, Ghana, Nigeria, South Africa and Kenya. This course satisfies the Cultural Interpretation requirement of the new Core curriculum. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 315 Eastern Philosophy

This course examines the major texts of the great Asiatic religions: Hinduism, Buddhism, Confucianism, Taoism, and Zen. Special emphasis is placed on the ethical and metaphysical dimensions of these traditions as well as their significance for contemporary theories of the person, social justice, and human fulfillment. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 320 History of Medieval Philosophy

The merger of the philosophic with the religious stream; ideas of Augustine, Thomas Aquinas, Bonaventure, and others critically examined; determining cultural factors explored. This course satisfies the Cultural Interpretation requirement of the new Core curriculum. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 330 History of Early Modern Philosophy: Descartes to Kant

Main currents of rationalism and empiricism are explored, as developed in major writings from Descartes to Kant. This course satisfies the Cultural Interpretation requirement of the new Core curriculum. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 340 History of Late Modern Philosophy

Development of German idealism; emergence of social and scientific philosophies; contributions of Kant, Hegel, Marx, Schopenhauer, Nietzsche, Feuerbach, and others. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 350 American Philosophy

History and background of the origin of philosophical ideas in America; particular emphasis given to Peirce, James, Royce, Dewey. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 360 Existentialism

An examination of the historical development and basic themes of existentialism as found in the writings of its major representatives: Kierkegaard, Nietzsche, Heidegger, Sartre, Buber, Marcel, and others. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 370 Analytic Philosophy

An historical approach to twentieth-century linguistic philosophy. This course will begin with logical atomism, continue through the era of logical positivism, and end with ordinary language analysis. Extensive reading of primary sources and major commentators. This course satisfies the Cultural Interpretation requirement of the new Core curriculum. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 380 Postmodernism

The course presents a survey of central movements within continental philosophy in the twentieth century: phenomenology, structuralism, hermeneutics, and deconstruction. Possible figures of study are: Foucault, Derrida, Levinas, Gadamer, Barthes, Lacan, Irigaray, Cixous, and Lyotard. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 390 Hermeneutics

How do we go about interpreting something that is foreign to us? What does it mean to understand a person or a text? Hermeneutics is a tradition of philosophical inquiry into the dynamics of interpretation and understanding. The course examines the historical roots of hermeneutics in the works of Friedrich Schleiermacher and Wilhelm Dilthey, and it proceeds with the close analysis of several twentieth-century thinkers—for example, Hans-Georg Gadamer and Martin Heidegger—whose works extend and develop the hermeneutical tradition. This course satisfies the Cultural Interpretation requirement of the new Core curriculum. Prerequisite: PHI 100-level or EYE course. Cr 3.

PHI 398 Independent Study

This course provides students with an opportunity to design a set of readings and learning objectives concerning a topic in the history of philosophy or a specific issue in philosophy. Students must complete an independent study proposal, and obtain permission of a faculty mentor and the Department chair. Students must meet regularly with the faculty mentor. May be repeated for credit. Prerequisite: a minimum of two 300-level philosophy courses plus written permission of the instructor involved. Cr 3.

PHI 400 Seminar in Philosophy

This is a seminar course dealing with a specific topic or person in philosophy. Topics or individual philosophers will change from year to year and the course may be repeated for credit. The prerequisite for any 400-level seminar course is two (2) 300-level courses in philosophy, or permission of the instructor. Cr 3.

PHI 409 Research Seminar

A research seminar designed to provide senior level students an opportunity to participate in the research efforts of individual faculty and collaborate with each other in the design, methodology and completion of their tutorials. Prerequisites: advanced standing as a philosophy major and permission of the Department. Cr 3.

PHI 410 Senior Thesis

Designed to furnish senior philosophy majors with extensive training, under tutorial supervision, in analysis of a philosophical problem or system or philosopher, with a view to producing and presenting a senior paper for oral defense. Prerequisites: advanced standing as a philosophy major, successful completion of PHI 400 and permission of the Department. Cr 3.

Political Science

Chair of the Department: Ronald J. Schmidt, Jr., 126 Bedford St., Portland

Professors: Faksh, Hamilton; *Associate Professors:* Klotz, Schmidt, Vassallo; Associate Professor Kuzma is serving as Dean of the College of Arts, Humanities, and Social Science.

Political science is the systematic study of politics and government and is widely recognized as one of the core disciplines within the liberal arts curriculum. The study of political science provides substantive and analytic background that can lead to a variety of professions; it is not intended to prepare students directly for any specific career. Most obviously it serves those with an interest in entering politics and government. Political science majors go on to become civic leaders, town managers, city planners, budget specialists, foreign service officers, policy researchers, and to hold a variety of management positions in local, state, national, and international organizations. Beyond government, a political science degree leads naturally to graduate training, including law school. Many journalists and broadcasters were political science majors. Business has recognized the analytic and management skills obtained through training in political science. Some studies have estimated that perhaps one-third of undergraduate political science majors undertake careers in business. Political science training is useful in other rapidly developing fields such as polling, communications, campaign management, consulting, private and public interest group activity, and data analysis. College teaching has been a traditional career for the political scientist. Demographics now suggest that entering freshmen can look forward to good job prospects by the time they have completed their graduate educations.

Programs and Requirements

Bachelor of Arts in Political Science

The minimum number of credits (exclusive of the University's Core curriculum) required for the major: 39.

Each major must complete POS 101, POS 104, POS 203, POS 205, and POS 290. Introducing ideas that are fundamental to the discipline, these required courses should be the first priority for students upon entering the major. Students may choose from any of the Department's other offerings to fulfill remaining credit hours, with the requirement that at least 12 hours be completed at or above the 300-level. A grade of C- or better is required to receive major credit in the Department.

Students interested in an international studies major should consult the International Studies Program section in this catalog.

The Department administers an elaborate, carefully structured internship program, open to majors and non-majors alike. Political science majors are especially encouraged to take advantage of the variety of internship opportunities as part of their undergraduate program.

The Political Science Department strongly urges its majors to take courses in economics, history, sociology, and computer science. For a number of majors, courses in geography-anthropology, psychology, philosophy, and communication would also be useful. All political science majors are encouraged to undertake at least one year of university-level foreign language study. Additional language study is recommended for those majors with an interest in comparative or international politics and for those considering graduate school.

All students are reminded that, in addition to their meeting departmental requirements for a major leading to a baccalaureate degree, they must also meet the requirements of the school or college involved, as well as the Core curriculum requirements.

Political science courses are normally offered on the following schedule:

Every semester: POS 101, 104, 203, 205, 290, and internships.

Yearly: POS 256, 361, 363, and 365.

Approximately once every two years: POS 120, 234, 245, 261, 262, 280, 310, 315, 333, 335, 336, 340, 342, 345, 347, 349, 360, 362, 374, 375, 385, 391, 392, 453, 463, and 464.

The Honors Degree in Political Science

For a B.A. degree in political science with honors, a student must achieve a 3.7 GPA or higher in courses taken in the major.

Minor in Political Science

The minimum number of credits (exclusive of the University's Core curriculum) required for the minor: 18.

Students who wish to complete a political science minor must take at least three of the following five courses: POS 101, POS 104, POS 203, POS 205, POS 290. Students may choose from any of the Department's other offerings to fulfill remaining credit hours. A grade of C- or better in POS required courses is necessary to receive credit toward the minor.

POS 101 Introduction to American Government

This course focuses on the political institutions, processes, behavior, and problems of government in the United States. The national government is emphasized. Key topics include: the Constitution, Supreme Court, Congress, Presidency, political parties, public opinion, and interest groups. Cr 3.

POS 102 People and Politics

This course introduces the student to modern political analysis. It centers on basic questions in the study of political behavior: how people learn about politics, what kind of political system they adopt and support, who does and who does not participate in politics, how political conflict is expressed and resolved in various societies. The course aims at familiarizing the student with major approaches or methods that political scientists have found helpful for understanding real political behavior. Note: POS 101 is not a prerequisite for POS 102. Cr 3.

POS 104 Introduction to International Relations

Examination of the relationships of nations in their efforts to deal with each other from differing political, economic, and cultural bases. Cr 3.

POS 120 Government and Politics of Maine

This course concerns Maine state government, including legislative, executive and judicial programs and powers as exercised within the system of Maine values, political parties, and interest groups. Open to political science majors and as an elective to the student who has an interest in the programs and politics of the state of Maine. No prerequisite. Cr 3.

POS 203 Introduction to Political Science Research

An introduction to the way political scientists conduct research. Students will learn how to formulate ideas, conduct a literature review, test hypotheses, measure political phenomena, perform statistical analyses, draw conclusions, and present written results. Cr 3.

POS 205 Introduction to Comparative Politics

An introduction to the field of comparative politics with a focus on political systems and political participation. The course will examine political institutions, electoral laws, comparative methodologies, political culture, and the problem of establishing and maintaining democratic government. Case studies will be used to highlight major themes. Cr 3.

POS 234 Race and Ethnicity in U.S. Politics

Are American political institutions representative? This course provides students with the opportunity to examine this question by confronting the relationship between race, ethnicity, and representation in elections, court cases, urban politics, and political theory. Cr 3.

POS 245 French Politics and Government

This course centers on the political, economic, and social structure of France over the last five decades. Students will learn the essential components of the French governmental system, the most typical economic policies, France's position in the EU, and the ongoing struggle about the defense of the French culture. Prerequisite: ENG 100, 104, or equivalent. Cr 3.

POS 256 Media and Politics

The media play an increasingly powerful role in modern political systems. This course examines that power and explains how it came about, while noting those forces that restrict or restrain the media's influence. The symbiotic relationship between politicians and journalists is given special attention. Prerequisite: POS 101 or POS 102 or permission of the instructor. Cr 3.

POS 261 The American Congress

The role of the national legislature in American politics is considered. The course undertakes a study of the men and women who reach Congress, the internal norms and procedures on national decision making. Among topics covered are the committee system, leadership patterns in the Senate and the House, the public's influence on Congress, Congress and the Presidency, and Congressional policy-making in selected areas. Prerequisite: POS 101 or permission of the instructor. Cr 3.

POS 262 The American Presidency

This course examines the development of the modern presidency; the scope and exercise of presidential decision making in domestic and foreign policy; and standards for assessing presidential performance. Prerequisite: POS 101 or permission of the instructor. Cr 3.

POS 280 Issues Before the United Nations

An orientation to the activities of the United Nations. This course includes exposure to current events, exploration of pressing international issues, understanding the basics of international law, and mastery of the protocol and procedures of international diplomacy. Cr 3.

POS 290 Introduction to Political Theory

A survey of political theory from ancient times to the present. Themes include the nature of democracy, freedom, equality, power, legitimacy, justice, and the use of lying in political life. Cr 3.

POS 310 Internet and Politics

This course explores the politics of Internet communication. Topics include Internet development, communication techniques, access policy, citizenship, advocacy, government, journalism, and law. Cr 3.

POS 315 Media Law

This course explores the legal context of communication through the mass media. Major issues include censorship, ownership regulation, remedies for people in the news, the right to receive and send communication in the media, and news media privilege. Prerequisite: POS 101 or CMS 103 or permission of the instructor. Cr 3.

POS 333 Theories of Democratization

As a general overview of democratization studies, the course goes beyond theoretical discussions about what elements are needed to create a democracy. Students study specific examples of political institutions, economic systems, and political cultures and values as key variables across multiple geographic areas to assess the establishment of democracy. Prerequisite: POS 205 or equivalent or permission of the instructor. Cr 3.

POS 335 Politics in Western Europe

This course examines political processes and governmental structures in the nations of Western Europe. It focuses especially on Great Britain, France, and Germany. Among the topics covered are: political parties, elections, voting systems, interest groups, legislative-executive relations, constitutional principles, political elites, leadership behavior, and bureaucracies. Prerequisite: POS 101 or permission of the instructor. Cr 3.

POS 336 Government and Politics of Russia

An introduction to Russia in the Soviet and post-Soviet periods. The course proceeds from a description of the classic Leninist model to the emergence of the new political institutions that began to develop in the Gorbachev era, with an analysis of the economic changes, the ethnic revolution, and the social impacts of the post-Leninist era. Cr 3.

POS 340 The Politics of Developing Nations

An examination of the thrust towards modernization in the Third World. Economic development, relationships with the world community, the role of the military, and various theories about the nature of the relationship between the Third World and the Communist and non-Communist industrial worlds are considered. Prerequisite: POS 104 or permission of the instructor. Cr 3.

POS 342 Government and Politics of the Middle East

This course is designed to examine the political dynamics of the Arab countries of the Middle East and Israel. It will examine the social, ecological, historical-cultural, and political-ideological forces influencing political institutions and behavior in Egypt, Iraq, Syria, Israel, Jordan, and Lebanon. Cr 3.

POS 345 British Politics

A survey of the contemporary constitution of Great Britain, the workings of Parliament, the government, and the parties. Principal stress is on the main issues current in British politics. Prerequisite: POS 101 or permission of the instructor. Cr 3.

POS 347 The Politics of China

An introduction to the government of the People's Republic of China, 1949-present. Principal topics include: historical and cultural antecedents, Maoism, party and state institutions, socialization and communications, political participation, policy formation and implementation, and change over time. Cr 3.

POS 349 The Middle East in International Politics

The crucial issues of international politics—war, revolution, superpower intervention, economic development and terrorism—converge in the Middle East on a regional basis. This course will examine the nature of Mideast regional politics and the foreign policies of the major constituents of the area. The purpose will be to secure an understanding of the conflict between Arab and Israeli worlds, the foundations of tension among the Arab states themselves, and the role played by the superpowers in stabilizing or disrupting the uneasy relationships of the region. Prerequisite: POS 104 or permission of the instructor. Cr 3.

POS 360 Terrorism and the American Public

An exploration of the phenomenon of modern terrorism. The course defines terrorism, considers the motivations of terrorists, reviews the dangers associated with terrorist access to weapons of mass destruction, considers policy proposals that might be taken to reduce the likelihood of terrorism, and investigates the trade-off between liberty and security. Cr 3.

POS 361 Public Administration

An examination of national, state, and local bureaucracies, including their processes of decision making, communications, leadership, and internal and external political relationships. A continuing question will be, "How can those institutions be made responsive to the public?" Prerequisite: POS 101 or permission of the instructor. Cr 3.

POS 362 Budgets and Politics

A comparative examination of the budgetary processes of municipalities, states, and nations. The budget is the critical point at which goals intersect with resources. Students who complete the course will have a working understanding of various budgeting techniques (such as PPBS, zero-based budgeting, and incremental budgeting) as well as an appreciation of their effectiveness, their impact on expenditures, and their political consequences. Prerequisite: POS 101 or permission of the instructor. Cr 3.

POS 363 Legal Process and the Environment

An introduction to current legal techniques and institutions for environmental protection, with emphasis on statutory interpretation, rule making, licensing procedure, and the roles of expert testimony and citizen participation in administrative, legislative, and judicial processes. Prerequisite: POS 101 or permission of the instructor. Cr 3.

POS 365 Environmental Politics and Policy

This course provides an introduction to policy making and implementation processes through a survey of current waste disposal issues, air and water pollution control policies, and management issues in environmental protection. Prerequisite: POS 101 or permission of the instructor. Cr 3.

POS 374 United States Foreign Policy

A detailed evaluation of U.S. foreign policy focusing on such topics as: identification of U.S. policy; governmental agencies and personalities in the formulation and implementation of policy; and the role of non-governmental influences. The course is designed to evaluate current policy goals and practices within the context of long-range goals. Prerequisite: POS 101 or permission of the instructor. Cr 3.

POS 375 International Environmental Politics and Policy

This course addresses factors that can be obstacles or incentives in the process of negotiating effective agreements. Such factors include the role of the United Nations, nationalism, sovereignty, the North-South conflict, and the role of non-governmental organizations. Cr 3.

POS 380 Topics

Specially developed occasional courses exploring a variety of theoretical and substantive areas of political science. May be repeated for credit as topics vary. Cr 1-3.

POS 385 Conflict and Security in Contemporary World Politics

Contemporary threats and challenges to human security and survival often go beyond traditional concepts of "national security." This course focuses on the multiple forms and sources of conflict and insecurity in the modern world system. It analyzes traditional approaches to war and peace in the context of debates over their current adequacy and also examines nontraditional challenges such as economic and environmental security. Prerequisite: POS 104 or permission of the instructor. Cr 3.

POS 390 Ancient and Medieval Political Theory

An intensive study of ancient and medieval political theory. Emphasis is on textual criticism of a variety of different works including those from philosophy, literature, and theology. Prerequisite: POS 290, or sophomore status, or permission of the instructor. Cr 3.

POS 391 Modern Political Theory

A study of modern political theory from the sixteenth century (Machiavelli) to the nineteenth century (Nietzsche). Cr 3.

POS 392 American Political Thought I

An examination of central concepts and debates in American political history from the Puritan Era to the Dred Scott decision, with particular attention to debates on authority, liberty, revolution, slavery, and emerging ideas of American individualism. Prerequisites: POS 290 or PHI 109 or HTY 121 or HTY 122 or permission of the instructor. Cr 3.

POS 393 American Political Thought II

An examination of American political thought from the Civil War to the War on Terror, with particular attention to debates on authority, anarchism, race, and power. Cr 3.

POS 395 Independent Study I

A concentrated program of research or study on a particular subject of the student's selection. The topic will be chosen with the advice and under the direction of a faculty member. Admission by permission of the political science faculty. Cr 3.

POS 396 Independent Study II

A concentrated program of research or study on a particular subject of the student's selection. The topic will be chosen with the advice and under the direction of a faculty member. Admission by permission of the political science faculty. Cr 3.

POS 405 The European Union

An examination of a unique example of political, economic, and cultural integration. The course will emphasize the evolution, enlargement, international positioning, and political organization of the European Union. Prerequisite: POS 101 or POS 102 or POS 104 or POS 205, or permission of the instructor. Cr 3.

POS 406 Research in the European Union

Advanced course on the political, economic, and cultural aspects of the European Union, offered exclusively for students who enroll in the summer abroad program, "The European Union in Brussels." Participants will travel to Brussels and The Hague for presentations at the EU institutions, NATO, and the International Criminal Court. Prerequisite: recommended, but not required, POS 205 or any other course with an international content. Cr 3.

POS 453 Politics of American Policy Making

An introduction to political analysis of public policy formation and implementation. Policy processes will be examined to see what their study can tell us about American politics, institutions, and political behavior. Particular attention will be paid to "who gets what, when, and how" from the United States political system, especially how they get it and why it works that way. Alternative methods of policy analysis will be applied to selected areas of current interest and critically evaluated. Prerequisite: POS 101 or permission of the instructor. Cr 3.

POS 463 The Supreme Court and the Constitution

The role of the judiciary in American politics, with emphasis on the United States Supreme Court. A series of case studies will cover such topics as economic regulation, civil rights, reapportionment, and war powers. Attention will also be given to the impact of judicial philosophies on decision making. Prerequisites: POS 101 or permission of the instructor. Cr 3.

POS 464 American Civil Liberties

An analysis of judicial interpretations of Bill of Rights guarantees and their effects on political processes in the United States. Topics include church and state, freedom of speech and press, and the rights of the accused and the convicted. Prerequisites: POS 101 or permission of the instructor. Cr 3.

POS 470 Electoral Politics Internship

Provision may be made to gain professional experience in a political party organization or an electoral or referendum campaign. Students will meet for a series of internship seminars, for which readings and reports will be required. Prerequisite: open to selected students from any major. Cr 6.

POS 471 Internship in Private and Semi-Public Organizations

Provision may be made to gain professional experience in administration and research. Students will meet for a series of internship seminars, for which readings and reports will be required. The course is open to selected students. Cr 6.

POS 472 Not-for-Profit Internship

Provision may be made to gain professional experience in a civic, public interest, or other not-for-profit organization. Students will meet for a series of internship seminars, for which readings and reports will be required. Prerequisite: open to selected students from any major. Cr 6.

POS 473 Municipal Administration Internship

Provision may be made to gain professional experience in a local government. Students will meet for a series of internship seminars. Readings and research reports are required, focusing on the management, financial control, and administration of modern American cities, with emphasis on administration of personnel and finance; the city plan and line functions; and public safety, transportation, health, welfare, and housing. Prerequisite: open to selected students from any major. Cr 6.

POS 474 Federal Executive Internship

Provision may be made to gain professional experience in a department or agency of the federal government located outside of Washington, D.C. The course is open to selected students from any major. Participation in a seminar is required. Cr 6.

POS 475 Congressional Internship

Provision may be made to gain professional experience in the local offices of Maine's U.S. Congressmen and Senators. Students will meet for a series of internship seminars, for which readings and research reports are required. The course is open to selected students from any major. Cr 6.

POS 476 Internship in Washington, D.C.

Provision may be made to gain professional experience in a congressional office, an agency of the national government, or with a private or semi-public organization in Washington, D.C. The course is open to selected students from any major. Readings and research reports are required. Cr 9.

POS 477 State Internship

Provision may be made to gain professional experience in a department or agency of state government. Students will meet for a series of internship seminars, for which readings and research reports are required. The state government internship is available under the Maine State Government Internship Program. The course is open to selected students from any major. Cr 6.

POS 478 State Judiciary Internship

Provision may be made to gain professional experience in an administrative unit of the state court system. Students will meet for a series of internship seminars, for which readings and reports will be required. The course is open to selected students from any major. Cr 6.

POS 479 State Legislative Internship

Provision may be made to gain professional experience in an office of the state legislature. Students will meet for a series of internship seminars, for which readings and reports will be required. The course is open to selected students from any major. Cr 6.

POS 480 International Affairs Internship

Provision may be made to gain professional experience in an organization oriented toward international politics, trade, or other transboundary affairs. Students will meet for a series of internship seminars, for which readings and reports will be required. Prerequisite: open to selected students from any major. Cr 6.

Sociology

Chair of the Department: Ed Collom, 120 Bedford Street, Portland

Professors: Chapkis, Deprez; *Associate Professors:* Baugher, Collom, Laz; *Lecturer:* Bird, Diamon

Sociology is the study of social life and the social origins and consequences of human behavior. Sociology's subject matter ranges from the intimate family to the hostile mob, from crime to religion, from the divisions of race and social class to the shared beliefs of a common culture, from the sociology of work to the sociology of sport. Sociology is a liberal arts major with particular emphasis on developing students' abilities to think critically about complex issues, to analyze social phenomena, to design and carry out research, and to write with clarity and economy. An undergraduate major in sociology offers valuable preparation for careers in social work, social research, politics, public administration, law, business, and education.

The major also provides an excellent basis for graduate study in sociology, law, criminology, social work, and education.

Alpha Kappa Delta

The Department of Sociology is affiliated with the international sociology honor society, Alpha Kappa Delta. Juniors and seniors who are officially declared majors or minors, or who have demonstrated an interest and involvement in sociology, have accumulated at least a 3.3 overall grade point average, have completed four or more sociology courses at USM with a sociology grade point average of at least 3.0 are eligible for nomination to Alpha Kappa Delta.

The Honors Degree in Sociology

For a B.A. degree in Sociology with Honors, a student must achieve a GPA of 3.6 or higher, calculated on the basis of a minimum of five USM Sociology courses taken prior to the last semester.

Internships

The Department of Sociology offers a strong and on-going internship program. The program helps place students in community agencies and organizations to bring together student academic work and community involvement. Students interested in an internship placement are encouraged to meet with the internship coordinator.

Programs and Requirements

Requirements for the Baccalaureate Degree

All students are reminded that, in addition to meeting Departmental requirements for a major leading to a baccalaureate degree, they must also meet the requirements of the College of Arts and Sciences, and the University's Core curriculum.

Major Credit and Grade Policy

The prerequisites for all 300-level sociology courses are SOC 100 and SOC 210 with grades of C or better. Courses to be taken for major credit at other institutions must be approved in advance. Grades of C or better must be achieved in all courses for major or minor credit. Courses taken pass/fail are not acceptable.

Bachelor of Arts in Sociology

The minimum number of credits (exclusive of the University's Core curriculum) required for the major: 38.

Required Prerequisites for all advanced sociology courses (6 hours)

SOC 100 Introduction to Sociology

SOC 210 Critical Thinking About Social Issues

Required Courses (11 hours)

SOC 300 Sociological Theory

SOC 301 Qualitative Research Methods

SOC 307 Quantitative Research Methods

Required Courses in Class Processes—choose one course from the following (3 hours):

SOC 312 Inequality and Power

SOC 348 Sociology of Work

SOC 358 Sociology of Women's Work

SOC 359 Leisure and Consumption under Global Capitalism

SOC 392 Poverty: Policy, and Perspectives

SOC 393 Women, Welfare, and the State

Elective Courses—choose from among the following (18 hours)

SOC 289 Modern British Society

SOC 312 Inequality and Power

SOC 315 Self and Society

SOC 316 Sociology of Gender

SOC 318 Childhood and Society

SOC 323 Sociology of Death and Dying

SOC 327 Social Movements

SOC 330 Sociology of the Family

SOC 331 School and Society

SOC 333 Medical Sociology

SOC 334 Sociology of Religion

SOC 343 Social Psychology

SOC	345	Hate Violence in the Contemporary United States
SOC	348	Sociology of Work
SOC	352	Demography
SOC	355	Politics and Society
SOC	357	Organization: Individual and Society
SOC	358	Sociology of Women's Work
SOC	359	Leisure and Consumption under Global Capitalism
SOC	360	Sociology of Age
SOC	363	Food, Culture and Society
SOC	365	Sociology of the Body
SOC	370	Sociology of the Environment
SOC	371	Sociology of Race and Ethnicity
SOC	374	Mental Health and Mental Illness
SOC	380	Topics in Sociology
SOC	390	Individualized Instruction I
SOC	391	Individualized Instruction II
SOC	392	Poverty: Policy and Perspectives
SOC	393	Women, Welfare, and the State
SOC	395	Internship
SOC	450	Undergraduate Teaching Assistantship

Minor in Sociology

The minimum number of credits (exclusive of the University's Core curriculum) required for the minor: 19.

The minor is intended for those students with a major other than sociology but who wish to broaden their educational experience in a formally designated program of study. The minor program may be of particular interest to students in the College of Nursing and Health Professions, the School of Business, the College of Education and Human Development, and non-social-science disciplines in the College of Arts, Humanities, and Social Sciences.

Thirteen credit hours are required courses; the remainder are sociology electives.

Required courses: SOC 100, SOC 210, SOC 300, SOC 301, or SOC 307.

Sociology electives: Each student minoring in sociology elects a minimum of two upper-division courses from those offered by the Department. These courses, chosen in consultation with the student's minor advisor, reflect the preprofessional or other interests of the student.

Supplementary information is published each semester by the Sociology Department Office to assist students in planning their course schedules. The information includes a summary of major courses, listings and descriptions of special courses, and general information for majors.

To obtain these publications, or for other information, write to: Chair, Sociology Department, University of Southern Maine, P.O. Box 9300, Portland, Maine 04104 or telephone: (207) 780-4100.

SOC 100 Introduction to Sociology

The fundamental concepts, principles, and methods of sociology; analyzes the influence of social and cultural factors upon human behavior; evaluates effect of group processes, social classes, stratification, and basic institutions on contemporary society. Offered each semester. Cr 3.

SOC 210 Critical Thinking about Social Issues

Designed to follow Introduction to Sociology, this course further develops students' skills of critical analysis through the application of sociological principles to current social issues. The course uses popular media as well as sociological materials. Examples of issues which may be examined are: poverty, health care, homelessness, aging, drugs, violence, bureaucracy, white collar crime, and changing gender roles. Prerequisite: Successful completion of SOC 100 with a grade of C or better or permission of the instructor. Cr 3.

SOC 289 Modern British Society

This course forms the cornerstone of USM's summer program at Sheffield, England. The course provides an opportunity to study, experience, and live in British society and culture. The course combines seminars about modern Britain with visits to various sites in England and Scotland. Seminar topics include but are not limited to: cultural diversity and pluralism, village life and city life, the Parliament and government, the British class structure, the British welfare state, the industrial revolution, and the problem with ethnocentrism. Cr 3.

SOC 300 Sociological Theory

Critical evaluation of selected classical models of the social world. Includes consideration of the foundations of sociological thought, the content of major classical theories and theory groups, and the socio-cultural settings within which they developed. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 301 Qualitative Research Methods

This course provides an overview of the process of social research utilizing qualitative methods. Topics include the logic and principles of the research process, as well as specific techniques in qualitative research (e.g., writing field notes, conducting interviews, analyzing qualitative data). A fieldwork/lab component allows students to apply research skills in settings outside the classroom. Prerequisite: SOC 210 with a grade of C or better or permission of instructor. Cr 4.

SOC 307 Quantitative Research Methods

This course provides an overview of the social scientific research process, utilizing quantitative methods. Students generate research questions and testable hypotheses and analyze a variety of secondary data sources. Specific statistical topics include: measures of central tendency, measures of dispersion, t-testing, analysis of variance, cross-tabulation, measures of association, linear regression, and multiple regression. The course includes a computer lab component. Prerequisites: SOC 210 with a grade of C or better and completion of mathematics proficiency, or permission of instructor. Cr 4.

SOC 312 Inequality and Power

A systematic assessment of structured social inequalities in wealth, power, and status in industrialized societies. Emphasis is placed on assessing social policies employed to reduce, ameliorate, or sustain such inequalities. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 315 Self and Society

This course explores the social construction of self as the result of both face-to-face and societal-level social processes such as language acquisition, identity development, and the effects of culture and social structure on individual and collective conceptions of selfhood. Readings and discussions focus on the relative contributions of individual self-determination and societal constraints on selfhood. Specific topics include childhood identity development, social stigma and societal definitions of normality, social structure and self-esteem, and cross-cultural differences in the concept of selfhood. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 316 Sociology of Gender

This course examines gender as a social, cultural, and historical construction which occurs within and reinforces sex/gender stratification. With particular attention paid to education, the family, and work, we will explore sex/gender stratification—its sources and dynamics; historical and contemporary forms; and implications for human lives, history, and society. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 318 Childhood and Society

This advanced course examines the social construction of childhood. Topics include but are not limited to socio-historical study of the evolution of childhood, the child in art and literature, socialization and gender as process, structured inequality and children's life chances, cross-cultural comparisons of childhood, and U.S. family policies for the welfare of children. An applied component allows students to integrate theory and observations of the day to day life of children. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 323 Sociology of Death and Dying

This course focuses on some of the central issues in the sociology of death and dying: the social construction of grief and loss, the experience and meaning of death and dying in the late modern world, the politics of meaning making in the face of collective trauma, and the relation of pain and death and their representation to the making and unmaking of social order. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 327 Social Movements

This course is divided into two sections: social movement theory and social movement cases. First, students will explore the three dominant theoretical approaches covering the micro, meso, and macro context of social movements. These include

framing and interpretive processes, mobilizing structures, and political opportunities. The “classic” U.S. social movement of the 1960s (civil rights, women’s liberation, anti-war, and free speech) and 1970s-80s (environmental and peace) will be utilized as historical cases to comprehend social movement theory. The second section of the course will address contemporary movements including (but not limited to) labor, anti-globalization, local alternatives, and the new peace movements. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 330 Sociology of the Family

A sociological approach to the study of the family, including the structure of social relationships, the modern American family as a social institution, the cultural background of the family, and the impact of social change. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 331 School and Society

This course examines the social organization of schooling and its social and political context in contemporary American society. Topics include the emergence of public education, role of state and community in shaping its nature, problems of access and equality, the organizational nature of schools, teaching as a profession, and alternatives to public education. Attention is given to public debates concerning the conditions, limits, and possibilities of schooling. Comparisons with educational systems of other countries are included when appropriate. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 333 Medical Sociology

Analysis of socio-cultural influences on health and illness, with an emphasis on health, illness, and sickness as social identities. Particular attention is given to the organization of health-related occupations and health services in cross-cultural perspective, and to the ethical and policy-related issues raised by different models of organization. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 334 Sociology of Religion

Review and critique of classical and contemporary sociological interpretations of religion, with emphasis on the changing character of religious expression in the twentieth century. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 343 Social Psychology

This course provides an overview of sociological theory and research in social psychology on the central topics of social perception, social communication, and social interaction. The course focuses on the impact of sociological factors such as gender, race, and class on face-to-face behavior and on how face-to-face interaction contributes to the creation and maintenance of social structure. Specific topics include social psychological methods; causes and consequences of stereotyping; gender, power, and conversation; status structures in small groups; distributive justice; and social dilemmas. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 345 Hate Violence in the Contemporary United States

This course offers an interdisciplinary look at hate violence beginning with a brief examination of some of the historical roots of contemporary hate violence in the United States. Students will then focus on major issues presented by hate violence from the mid-1980s to the present. In particular, students will examine the causes and impacts of hate violence and the legal and policy implications of how hate crimes have been addressed within the United States. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 348 Sociology of Work

This course surveys three strands of the literature: the nature of work under capitalism, the consequences emerging from such labor, and alternatives to capitalist relations in production. Specific topics include work in the global economy, Fordism and flexible capitalism, the division of labor, labor markets, control in the workplace, corporate dominance, jobs and the class structure, alienation, and workplace democracy. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 352 Demography

Fertility, mortality, and migration as they affect every aspect of life whether political, economic, or social and the reciprocal impact of these on the population variables. Specific applications include: the relationship of population growth and aging, population growth and the status of women, population growth and urbanization, food and population policy, population growth and economic development, population characteristics and life changes, population characteristics in marketing, crime and the age structure, fertility changes and the labor market, and the impact of immigration. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 355 Politics and Society

This course will focus on power relationships in U.S. society, with some cross-national comparisons. Specific topics to be covered include the nature and distribution of power among social groups and organizations, theories of the state, social class and political participation, policy formation, and the interactions between democracy as a political system and capitalism as an economic system. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 357 Organizations, Individuals, and Society

This course examines the nature of modern organizations and their impact on individuals and society. Several theoretical perspectives on organization will be examined to gain an understanding of organizational life and organizations’ role in modern society. In addition, we will consider dilemmas faced by individuals interacting with organizations as functionaries (for example, workers, government employees, teachers, police) and as clients. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 358 Sociology of Women's Work

This course will introduce students to theoretical and empirical literature on women's work in the paid labor force, on their unpaid labor in the home, and on the relationship between these two kinds of "women's work." The course emphasizes the diversity of women's work and the interconnections among race, ethnicity, class, and gender through a detailed examination of professional women, blue-collar women, and "pink-collar" employees. Additional topics include occupational segregation, earnings differentials, poverty, law and public policy, and labor militancy. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 359 Leisure and Consumption under Global Capitalism

This course will use sociological concepts, paradigms, and research methods to engage students in a critical examination of leisure and consumption preferences and practices among the working, middle, and upper classes in the developed nations, especially the United States. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 360 Sociology of Age

This course will introduce students to the "graying of America" and to the processes and problems associated with growing old in America. Using a dual focus on aging of the individual and on age as a structural feature of any society, the course will provide an analytical framework for understanding the interplay between human lives and social structure. The increased importance of the aged as a social, political, and economic force in society will also be discussed. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 363 Food, Culture, and Society

This course views food production, processing, distribution, and consumption as social and cultural phenomena. The course develops a sociological framework for understanding and connecting the diverse food stories in the headlines: GMOs, obesity, agricultural subsidies, food safety, organics. Students will also gain a better understanding of their own food choices and opportunities for changing our food system. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 365 Sociology of the Body

This course examines the body as a text marked by, and rendered meaningful through, social categories of race, gender, class, sexuality, disability, and disease. This writing- and reading-intensive course discusses both social constructionist and biological determinist perspectives on embodied difference. Prerequisites: SOC 210 with C or better and one or more of SOC 300, SOC 316, WST 380, WST 390. Cr 3.

SOC 370 Sociology of the Environment

Sociology of the Environment is the study of the complex relations between the social world and the natural environment. The sociologist is particularly interested in the role played by popular culture, economic systems, urbanization, rationalization, globalization, race, and gender relations (environmental justice) in the creation and continuation of various environmental problems. Thus the course refers to efforts to understand and illuminate the societal dynamics in terms of social practices citizens engage in as they go about their lives. Cumulatively these social practices produce particular consumption and use patterns that have significantly altered the natural world. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 371 Sociology of Race and Ethnicity

Considers the factors that produce and maintain structured social inequality based on minority status, and the social consequences of such inequality. Includes analysis of selected minorities both in the U.S. and cross-culturally. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 374 Mental Health and Mental Illness

An examination of theories of the "causes" of "madness" and the treatment of the mentally ill. Particular attention on the influence of culture on the definition of illnesses, the relationship between social factors and illness, and the social context of treatment. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 380 Topics in Sociology

Specially developed occasional courses exploring a variety of theoretical and substantive areas within the field. Offered as resources permit. These courses may be counted as electives toward completion of the major. Prerequisite: SOC 210 with C or better or permission of instructor. Cr 3.

SOC 390 Individualized Instruction I

Independent reading and/or research for juniors and seniors. Apply to Department chair. Prerequisite: 15 hours in sociology. Cr var.

SOC 391 Individualized Instruction II

Continuation of independent reading and/or research for juniors and seniors. Apply to Department chair. Prerequisite: SOC 390. Cr var.

SOC 392 Poverty: Policy and Perspectives

This course will analyze the causes of and responses to poverty in the United States. Relying on multidisciplinary literature, this course examines measures and theories of poverty; public, political, and policy debates; and the role of government in income distribution/redistribution. Particular attention will focus on issues of power, wealth, gender, and race as well as education, health, housing, and place as factors inextricably linked to poverty. Prerequisites: SOC 210 with a C or better, SOC 301 and SOC 307 recommended, or permission of instructor. Cr 3.

SOC 393 Women, Welfare, and the State

The course explores the gender bias of social welfare policy in the U.S., revealing a welfare state whose adherence to central elements such as the Protestant work ethic, "family values," and a laissez-faire economy excludes over half the population. From both historical and theoretical perspectives, the course examines the development of the American welfare state, compares it to Western and Eastern European states, and assesses its impact on women's lives. Prerequisites: SOC 210 with a grade of C or better and junior/senior standing, or permission of instructor. Cr 3.

SOC 395 Internship

The course is designed to provide work/action experience and insight into professional roles in a variety of community agencies and organizations. The primary objective of the internship is the application of the perspectives, substantive knowledge, and methods of social science to a particular organizational setting. Thus, the internship can be understood as a participant observation experience within the context of social science research. It is primarily designed as a field experience/reflection opportunity for upper-level social science majors with substantive background/coursework in the area of internship placement. In addition to field placement, students are expected to meet for a series of internship seminars, for which readings and reports will be required. Contact Departmental internship coordinator for details. Cr 4 to 6.

SOC 450 Undergraduate Teaching Assistantship

In working closely with faculty, undergraduate teaching assistants will gain insight into course materials and into all aspects of college teaching. This experience will be especially valuable for students who plan to do graduate work in sociology and for students exploring a career in teaching. Teaching assistants also provide an additional resource for assistance, advice, and modeling. Undergraduate teaching assistants generally assist faculty in course preparation and delivery including locating and reviewing materials for course use; assisting with the design of course schedule, exercises, assignments, and class presentations; lecturing and supervision of student groups; and providing feedback to students on their work. In addition, teaching assistants hold regular office hours. Enrollment in SOC 450 will depend on Departmental needs and course offerings. Selection is made by the faculty. Students should contact the Department chair for details. Prerequisite: SOC majors by permission only. Cr 3.

Theatre

Chair of the Department: William Kilroy, Russell Hall, Gorham

Professors: Kading, Kilroy, Picinich, Power, Steele; *Associate Professor:* Kent; *Assistant Professor:* Zura; *Lecturers:* Brodie, Garcia; *Technical Director:* Fertig; *Costume Director:* Hall; *Professors Emeriti:* Rootes, Stump

The Department of Theatre offers a four-year program leading to a B.A. degree in theatre. An undergraduate degree in theatre offers valuable preparation for careers in educational or professional theatrical activities as well as other nonrelated disciplines.

All students are reminded that, in addition to meeting departmental requirements for the major, they must also meet the requirements of the The College of Arts, Humanities, and Social Sciences as well as the Core curriculum requirements.

Programs and Requirements

Bachelor of Arts in Theatre

The minimum number of credits (exclusive of the University's Core curriculum) required for the major: 67.

Students with the intent to major must complete the following courses during their first four semesters:

THE	101	Introduction to Theatre
THE	104	Practicum in Costuming
THE	105	Practicum in Stage Lighting
THE	106	Practicum in Stagecraft
THE	120	Acting: Stage Movement / Voice
THE	230	Designing for the Performer
THE	141	Theatre Workshop I
THE	142	Theatre Workshop II
THE	134	Production Management
THE	135	Stagecraft
THE	150	Text Analysis

All majors or intended majors are required to take 0.5 credits of Theatre Workshop (THE 141, 142, 143, 144) per semester. Theatre students who fail to maintain a 2.5 GPA in theatre courses and a 2.0 overall GPA may not be allowed to participate in Department productions in either an acting or technical capacity (except those lab duties or course requirements related to coursework).

The above GPA standards are required for graduation and a grade of C- or better is required in all theatre courses.

Students are encouraged to meet with the faculty or staff whenever questions arise or problems occur.

The following courses are required: THE

101	Introduction to Theatre	THE
104	Practicum in Costuming	
THE	105	Practicum in Stage Lighting
THE	106	Practicum in Stagecraft
THE	120	Acting: Stage Movement/Voice
THE	134	Production Management
THE	135	Stagecraft
THE	141	Theatre Workshop I (to be repeated once)
THE	142	Theatre Workshop II (to be repeated once)
THE	143	Theatre Workshop III (to be repeated once)
THE	144	Theatre Workshop IV (to be repeated once)
THE	150	Text Analysis
THE	170	Public Speaking
THE	220	Acting: Scene Study
THE	230	Designing for the Performer
THE	325	Directing

Take three courses:

Take any two design courses:

THE	331	Scene Design
THE	334	Costuming I
THE	335	Stage Lighting or THE 337 Sound Design

B. Take either THE 221 Acting: Stage Voice or on additional design course from the above choices (for a total of three design courses)

THE	351	Dramatic Literature and Theatre History I
THE	352	Dramatic Literature and Theatre History II
THE	353	Dramatic Literature and Theatre History III

Theatre Electives (12.0 credits total)

Take any two 100/200 level theatre courses 6 credits total

Take any two 300/400 level theatre courses 6 credits total

Electives from other departments may be taken in lieu of theatre courses if approved by Department vote.

Advanced Topic (minimum 3. credits);

Take any one of the following:

THE	421	Topics in Performance	3 credits
THE	430	Topics in Design	3 credits

THE	451	Topics in History / Literature	3 credits
THE	490	Independent Study	1 to 6 credits
THE	491	Project I	1 to 6 credits
THE	492	Theatre Internship	1 to 15 credits

Suggested areas of emphasis include: Advanced Topics in Acting and Performance, Design, Technical Theatre, Dramatic Literature and Theatre History, Playwriting, and Oral Interpretation.

Theatre Department Production Requirements

The Department of Theatre requires each major to participate in Theatre Department functions by completing Theatre Workshop courses and Department projects. Credit for these may be earned separately or concurrently according to Departmental guidelines. Each theatre major must enroll in 0.5 credits of Theatre Workshop each semester (maximum of 4 credits). Theatre Workshop courses require, in part, participation in an approved Department project with a point value of eight or more.

Department projects are assigned point values relative to their complexity. Theatre majors must accrue a minimum of sixty-four points of project credit for graduation. These projects must be completed in a variety of discipline areas. To insure this variety, project points must be distributed as follows: acting area—twenty-four points minimum; technical area—twenty-four points minimum.

A listing of approved projects and their specific point values is available at the Department of Theatre office.

In the event that a student repeatedly auditions or requests technical area positions for Department productions but is not given a role or a crew position, this effort will be considered a good faith effort on the part of the student and may fulfill the acting or technical area minimum point distribution requirement.

All cast and crew members of Department productions are required to participate in the closing night clean-up (strike) for that show.

Student Participation

Theatre succeeds in direct proportion to the quantity and quality of the group effort, and so it is not surprising that the USM Theatre program thrives on the participation of all majors, minors, and other interested students.

Theatre is a strict and demanding discipline; the time dedicated to production and rehearsal is extensive. Therefore, the Department of Theatre urges students to select non-Departmental theatre activities prudently and with consideration for their overall academic and production commitments. The Department also strongly recommends that theatre majors consult their advisors in order to integrate the outside project into their overall program.

Minor in Theatre

The minimum number of credits (exclusive of the University's Core curriculum) required for the minor: 21.

The courses required are THE 134, THE 150, THE 120, or THE 220 with permission of instructor and three other courses chosen in consultation with a Theatre Department advisor in accordance with the interests of the student.

Musical Theatre Major

The study of musical theatre performance at the University of Southern Maine is offered as a collaboration between the School of Music and the Department of Theatre. It is designed for those individuals who wish to pursue a career in musical theatre performance. Private lessons in voice, solo and ensemble performance as well as theatrical dance training are emphasized. This degree concentration complies with NASM guidelines for a musical theatre degree with an emphasis in music.

Applicants to the musical theatre major will be required to demonstrate proficiency in the following disciplines: voice, sight reading, general musicianship, acting, and movement. Applicants must reserve an audition time by calling the School of Music at (207) 780-5265.

Requirements for graduation also include successful participation in one backstage assignment, one chorus role, and two significant roles in an approved musical theatre production.

Theatre Foundation Courses (required): 10 credits

Must be completed by end of sophomore year

THE	201	Cultural History of Theatre
THE	103	Contemporary Dance I
THE	120	Acting: Stage Movement /Voice
THE	130	Musical Theatre Workshop I
THE	131	Musical Theatre Workshop II

Additional Theatre Courses (required): 20 credits

THE	132	Musical Theatre Workshop III
THE	133	Musical Theatre Workshop IV
THE	139	Theatrical Make-up
THE	203	Musical Theatre Dance
THE	220	Acting: Scene Study
THE	303	Musical Theatre Performance (4 credits)
THE	321	Acting: Advanced Scene Work
THE	XXX	Theatre Elective (3 credits)

The musical theatre degree is granted by the School of Music as a bachelor of music in performance-musical theatre (MUP). For additional information regarding specific School of Music required courses, please refer to the School of Music section of this catalog.

Fees

Materials and/or admission fees may be required for some theatre courses. Please contact the Theatre office at (207) 780-5480 for specific requirements.

In the event that students believe they are qualified to enroll in a theatre course, but have not completed the USM prerequisites for that course, they may contact the Department to request permission to enroll.

THE 101 Introduction to Theatre

This course provides a general introduction to all facets of theatre including dramatic literature, theatre history, acting, directing, playwriting, design, management, and theatre spaces, among others. Cr 3.

THE 102 Acting for Non-Majors

This course will introduce core students to theatre through the eyes of the performer. Students will gain a basic understanding of theatre as a performing art through lecture, discussion, and performance of scenes. Improvisational exercises, relaxation techniques, and character analysis strategies will be included. Students will also attend campus and area theatrical productions and be required to write critical reviews of the performances. Cr 3.

THE 103 Contemporary Dance I

This course is designed to teach basic contemporary dance skills and vocabulary. The class is divided into two areas of study. Physical and technical development are learned through strengthening and stretching exercises. Proper body alignment is stressed for the most efficient and injury-free movement. Dance phrases are taught to enhance rhythmic and locomotor skills. Equal time will be devoted to improvisational skills and the study of choreographic techniques. Students will be required to attend contemporary dance performances. Course may be repeated once for credit. Cr 3.

THE 104 Practicum in Costuming

This course is a laboratory session that allows practical application of theory discussed in THE 334 Costuming, by teaching sewing skills and allowing students to construct costumes for a University theatre production. Practicum is required for theatre majors and recommended for all costuming students, but need not be taken concurrently with THE 334. Prerequisite: sophomore status or THE 101. Cr 1.

THE 105 Practicum in Stage Lighting

A course focusing on the practical application of contemporary stage lighting technology and on the implementation of a lighting plot. Cr 1.

THE 106 Practicum in Stagecraft

A practicum allowing the application of theory discussed in THE 135 to the construction, painting, and mounting of sets for University theatre productions. Practicum is required for theatre majors and recommended for all stagecraft students, but need not be taken concurrently with THE 135 Stagecraft. Cr 1.

THE 120 Acting: Stage Movement/Voice

This is a practicum course designed to introduce students to basic elements of the creative process of acting. Topics include kinesthetic awareness, techniques of acting theorists ranging from Michael Chekhov to Rudolph Laban, methods of character creation, elementary stage combat, improvisation, and voice and diction for the stage. Course culminates with student presentation of an original performance piece. Cr 3.

THE 130 Musical Theatre Workshop I

A course designed to give students practical application of theatre practices in the fields of acting, design, scene construction, costuming, properties, lighting, management, and directing. A laboratory course. Prerequisite: restricted to musical performance majors with an emphasis in musical theatre. The course may be repeated for credit. Cr 1.

THE 131 Musical Theatre Workshop II

A continuation of THE 130. Prerequisite: THE 130, restricted to musical performance majors with an emphasis in musical theatre. The course may be repeated for credit. Cr 1.

THE 132 Musical Theatre Workshop III

A continuation of THE 131. Prerequisite: THE 131, restricted to musical performance majors with an emphasis in musical theatre. The course may be repeated for credit. Cr 1.

THE 133 Musical Theatre Workshop IV

A continuation of THE 132. Prerequisite: THE 132, restricted to musical performance majors with an emphasis in musical theatre. The course may be repeated for credit. Cr 1.

THE 134 Production Management

A survey/lab course designed to familiarize students with the organizational procedures of the theatre production process. Major areas of study include stage management and theatre production management with some reference to video and film production management. Additional topics include the running of crews in properties and wardrobe, operation of sound and lighting equipment, and production scheduling. This course includes a crew requirement for a University production. Cr 3.

THE 135 Stagecraft

A lecture course in technical theatre and related topics relevant to technical direction. Specific areas of emphasis will include: theatre/stage terminology and organization, scene shop practices, and basic methods of construction as well as methods of rigging and moving scenery for the stage. Cr 3.

THE 139 Theatrical Make-up

A practicum course in the fundamentals of design and application of theatrical make-up. Specific areas of study will include the relationship of character analysis to make-up; techniques of highlight and shadow; and make-up for youth, middle, and old age. Additional exercises introduce historical styles, creating a likeness, and nonrealistic make-up. Students will frequently apply theatrical make-up to their own faces in class. Cr 3.

THE 141 Theatre Workshop I

A course designed to give students practical application of theatre practices in the fields of acting, design, scene construction, costuming, properties, lighting, management, and directing. A laboratory course. The course may be repeated for credit. Cr 0.5.

THE 142 Theatre Workshop II

A continuation of THE 141. Prerequisite: THE 141. The course may be repeated for credit. Cr 0.5.

THE 143 Theatre Workshop III

A continuation of THE 142. Prerequisite: THE 142. The course may be repeated for credit. Cr 0.5.

THE 144 Theatre Workshop IV

A continuation of THE 143. Prerequisite: THE 143. The course may be repeated for credit. Cr 0.5.

THE 150 Text Analysis

Text Analysis teaches students myriad ways of approaching, interpreting, and synthesizing texts (written, visual, and aural), especially scripts. Students will learn the skills necessary for actors, directors, designers, dramaturgs, and scholars to explore and deconstruct texts in search of meaning, clues for staging possibilities, and cultural context. Prerequisite: English proficiency. Cr 3.

THE 170 Public Speaking

An introductory course in the art of public discourse. Primarily a lecture-performance course, students will learn the basics of informative, persuasive, and argumentative speaking, as well as the processes of problem-solving and informative discussion. Cr 3.

THE 175 Oral Interpretation

A course in the assimilation and analysis of literary material (poetry, prose, drama) with emphasis on the techniques used in reading written material aloud to an audience. Designed to stimulate an understanding and responsiveness to literature and to develop the ability to convey to others, through oral reading, an appreciation of that literature. Cr 3.

THE 201 Cultural History of Theatre

A course designed to provide students with a cultural history survey of theatre—from ancient Sumeria, Greece, and Rome through traditional Asian, Medieval, and Renaissance European and other historical styles/periods into the twenty-first century. Prerequisite: College writing. Cr. 3.

THE 203 Musical Theatre Dance

This course will build upon basic movement skills with an emphasis on the dance styles required for musical theatre. Techniques offered will include jazz, ballet, and tap. In addition to skill training, class projects will include the staging and choreography of musical theatre selections. Cr 3.

THE 220 Acting: Scene Study

This is a practicum course designed to introduce students to basic skills of stage movement and characterization through the use of scene work. The course evolves from simple storytelling through monologues to scenes. The emphasis is on internal preparation through developing a role as well as on external techniques for projecting that role. Prerequisites: THE 120 and 121. Cr 3.

THE 221 Acting: Stage Voice

This course emphasizes the development of the actor's voice, providing a progression of exercises to free and strengthen the voice as a tool of creative expression. The elements of vocal projection, range, diction, placement, and characterization will be explored. Cr 3.

THE 224 Acting for the Camera

This course will give students practical experience acting in videotaped dramatic scenes, industrial role playing, commercials, and narration. The course will emphasize the difference between stage and video/film acting techniques. Cr 3.

THE 226 Professional Audition and Marketing Techniques

This course will give students practical experience in and information related to seeking employment as an actor. The audition section will include simulations of stage and related film and video situations. The marketing section will provide strategies in the professional actor's most time-consuming endeavor: looking for work. Prerequisite: THE 220. Cr 3.

THE 230 Designing for the Performer

This course offers the student an opportunity to explore the process of creating an environment for the performer, incorporating elements of scenic, costume, lighting, and audio design. Coursework includes the presentation of multimedia design projects. Cr 3.

THE 234 Theatre Management

Investigation of educational and professional theatre management roles including: managing director, business manager, box office manager, publicity director, and house manager. Practicum required. Cr 3.

THE 235 Theatrical Drafting

A lecture/discussion/lab course in basic theatrical drafting/graphic practices relating to theatrical construction and design techniques. Concurrent enrollment in THE 236 Practicum in Design required. Prerequisite: THE 135. Cr 3.

THE 236 Practicum in Design

A course focusing on the practical application of theory relevant to scenic, costume, lighting, and other theatre-related design topics. Cr 1.

THE 250 Playwriting

A lecture-practicum course designed to acquaint the student with playwriting principles. Emphasis is placed on the one-act play form. Students will be required to complete a series of creative exercises culminating with writing of a one-act play. Prerequisite: THE 150. Cr 3.

THE 271 Creative Drama

Study of methods for introducing young people to theatre as a total art form. Course to include the development of children's plays through improvisation as well as traditional children's literature. Work with children in various community settings will provide practical experience for the student. Cr 3.

THE 275 Readers Theatre

This course teaches the process involved in arranging literature and other materials for performance or for use as a teaching tool. Elements of scripting, directing, and acting for simple, staged, chamber, and story theatre will be analyzed. Prerequisite: THE 175. Cr 3.

THE 283 Aerial Dance

This course is designed to provide an introduction to aerial dance techniques. Aerial dance is composed of Feldenkrais Pilates, yoga, theatre, and trapeze work. In addition to these components, students will study training and injury prevention techniques, improvisation, and physical theatre. Cr 3.

THE 303 Musical Theatre Performance

This course will provide students the opportunity to combine the skills of singing, acting, and dance as demanded by the art of musical theatre. In addition to vocal coaching, acting exercises, and choreography, students will be exposed to a variety of musical theatre genres and will be performing throughout the semester. The class will culminate with a public presentation. Prerequisites: THE 203 and THE 220. Cr 4.

THE 321 Acting: Advanced Scene Study: Playwright Focus

This is a practicum for advanced actors, providing an in-depth scene study focusing on one or more playwrights. Emphasis will also be given to preparation for auditions. Prerequisite: THE 220. Cr 3.

THE 322 Acting: Contemporary Methods

This course will introduce a variety of acting techniques developed by master artists, beginning with an overview of the Stanislavski System and advancing to the work of Lee Strasberg, Sanford Meisner, Uta Hagen, Augusto Boal, and others. These techniques will be applied to exercises, scenes, and monologues performed throughout the semester. Prerequisite: THE 220. Cr 3.

THE 325 Directing

This course is designed to train students in theatrical organization and rehearsed techniques. It encompasses composition, picturization, movement, and rhythm. Some practicum is involved. Prerequisites: THE 150, THE 220, and THE 230. Cr 3.

THE 331 Scene Design

Lecture and practicum in stage scenic design. Emphasis on the visual art and drafting of designs. Prerequisites: THE 150 and THE 230. Cr 3.

THE 334 Costuming

This course introduces costume history and design. A survey outlines major trends in fashion from the Greeks to the 19th century. Students learn costume design by using the basic elements of line, color, and texture, by fulfilling the costume requirements encountered in scripts, and by analyzing characters. Drawing and rendering techniques are taught. The practicum (THE 104) supplements lectures by teaching sewing skills and allowing students to construct costumes for a University theatre production. Enrollment in THE 104 Practicum in Costuming is required for theatre majors and recommended for all costuming students, but need not be concurrent. Prerequisite: sophomore status or THE 101. Cr 3.

THE 335 Stage Lighting

Introduction to stage lighting design, elements of electricity, color, light sources, instrumentation, and control systems. Students will participate in lighting projects in practicum. Prerequisites: THE 150 and THE 230. Cr 3.

THE 337 Sound Design

An introduction to the art and techniques of sound design. The class examines the creation of audio for a production environment, with emphasis on industry-standard recording techniques and communication tools, script and environmental analysis, and equipment and delivery systems. Prerequisites: THE 150 and THE 230, or permission of instructor. Cr 3.

THE 350 Advanced Playwriting

A course for those who have taken THE 250 or have already written several plays. Emphasis will be placed on writing a full length play for possible production by the University. A better-than-average competence in writing dialogue is imperative. Prerequisite: THE 250. Cr 3.

THE 351 Dramatic Literature and Theatre History I: Origins to 1500

This course examines Greek, Roman, and Medieval theatre history and dramatic literature. THE 351 asks students to think about theatre and dramatic literature in a broad array of cultural contexts. This class focuses on sharpening students' written and oral communication and critical thinking skills. Prerequisites: College Writing, THE 101 or concurrently. Cr 3.

THE 352 Dramatic Literature and Theatre History II: 1500-1800

This course examines the dramatic literature and history of traditional Asian, Renaissance, Restoration, and Enlightenment theatres. THE 352 asks students to think about theatre and dramatic literature in a broad array of cultural contexts. This class focuses on sharpening students' written and oral communication and critical thinking skills. Prerequisites: College Writing, THE 101 or concurrently. Cr 3.

THE 353 Dramatic Literature and Theatre History III: 1800-present

This course examines the dramatic literature and history of Romanticism, Realism, Naturalism, Expressionism, Epic Theatre, Absurdism, and Contemporary Theatre. THE 353 asks students to think about theatre in a broad array of cultural contexts. This class focuses on sharpening students' written and oral communication and critical thinking skills. Prerequisite: College Writing, THE 101 or concurrently. Cr 3.

THE 355 Journalistic Drama Criticism

This course will provide the student with a comprehensive analysis of the role of the writing critic in professional, community, educational, and amateur theatre. Stress will be placed upon development of a workable writing style. A minimum of five plays will be seen from which reviews will be generated. Prerequisite: THE 150. Cr 3.

THE 372 Speaking to the Camera

This is an advanced public speaking and performance course introducing the student to the most common types of video presentations. Student performances of scripted speeches will be videotaped and evaluated based on content, delivery, and style. Prerequisite: THE 170. Cr 3.

THE 373 Effective Public and Workplace Presentations

This course expands upon the performance skills taught in THE 170. It will emphasize the development of greater expertise and performance ease in a variety of presentation styles, as well as explore the use of visual aids consistent with workplace and public presentations. Students will be required to attend and critique community-based public speeches as well as to analyze the work of their peers. Prerequisite: THE 170. Cr 3.

THE 375 Performance Arts

This theory and practice course allows students to experiment with the aesthetic interpretation of texts, focusing on extra-textual elements of presentation (such as sound, visual symbols/ images, spatial relations, hand-held light) in the staging of poetry, fiction, nonfiction, and drama. Theoretical and practical readings accompany in-class exercises and black box performances that strengthen skills in acting, directing, oral interpretation, forensics, play analysis, and design. Students elect a directing or a performance emphasis. Cr 3.

THE 420 Acting: Styles

This course will examine the styles of acting found in the Classical (Greek and Roman), Elizabethan, and eighteenth- and nineteenth-century dramas. Prerequisite: THE 220. Cr 3.

THE 421 Topics in Acting and Performance

An intensive study of a particular acting or performance technique chosen at the discretion of the instructor in accordance with his or her expertise and interests. May be repeated as topics vary, for a maximum of 9 credits. Prerequisite: THE 220. Cr 3.

THE 430 Topics in Design

A seminar in advanced design practices and a continuation of THE 330 and/or 332. The course will stress improving design and presentation skills by developing and presenting design projects. The design project will involve theatrical drafting, perspective sketching, rendering and model making techniques as required in the areas of specialty. Students will be required to work in two of the three areas of theatrical design: costume design, lighting design, or scenery design. In addition, historical styles will be surveyed in a lecture/discussion format. This discussion will include the impact of social and political attitudes as well as physical style and how these aspects may be applied to contemporary design. Prerequisite: instructor permission only. Cr 3.

THE 434 Advanced Costuming

This course will continue the study of costume design begun in THE 231. The focus of class work and projects will be on specific problems encountered in costuming for the theatre. Lecture material and design assignments will be drawn principally from the twentieth century, though other time periods may occasionally be used. Students will work to improve rendering techniques as well as analytical skills. Concurrent enrollment in Theatre Workshop will provide a laboratory component to classroom study. Prerequisite: THE 334. Cr 3.

THE 451 Topics in Dramatic Literature and Theatre History

An intensive study of a particular playwright, group, movement, or historical period chosen at the discretion of the instructor in accordance with his/her expertise and interests. May be repeated as topics vary for a maximum of nine credits. Prerequisites: THE 101, and THE 150 or ENG 100. Cr 3.

THE 490 Independent Study

Students should contact the Department regarding information for independent study. Prerequisite: permission of the Theatre Department. May be repeated for credit.

THE 491 Project I

Investigation of special topics, or execution of special projects that fall within the purview of theatre. Students may select an interior intra-departmental committee of three professors to approve, assist, and oversee the project. Prerequisites: junior and senior standing, precise definition of project, and unanimous permission of committee. Students must obtain rules for this course from the department chairman. May be repeated for credit. Prerequisite: permission of the Theatre Department. Credit hours arranged.

THE 492 Theatre Internship

Students will assume a full one-semester internship with a professional theatre or Readers Theatre Company. Students will be involved in management, acting, directing, or technical theatre as a member of the company. Each student will be assigned a faculty advisor who will make a biweekly evaluation of ongoing work. Participants will be required to keep a diary and/or portfolio to be reviewed by the faculty of the Theatre Department at the conclusion of the internship. All creative work done by the student will be evaluated by the advisor and at least one other, or if possible, all members of the department. Prerequisite: permission of the Theatre Department. May be repeated for credit. To be arranged. Cr 3-15.

THE 493 International Tour

Students in this course will rehearse an original or scripted production which will be performed at USM and then transported for presentation to an international venue determined by the instructor. Prerequisite: instructor permission only. Cr 3.

THE 494 Theatre Institute: Techniques of Michael Chekhov

This course provides an intensive overview of the acting techniques created by Michael Chekhov. Areas of focus will include characterization, scene study, stage movement and voice, and teaching methods. The course will conclude with a works-in-progress performance. Typically offered summer only. May be repeated for a maximum of nine credits. Prerequisite: THE 220. Cr 3.

Self-Designed Major Programs

Self-Designed Major Committee: Patricia O'Mahoney-Damon, chair; *Professors:* Aicher (Classics), Shaughnessy (Art), *Associate Professors:* Holden (History), Kent (Theatre), O'Mahoney-Damon (Biology), Prudente (Chemistry), Thompson (Psychology); Vassallo (Political Science); *Coordinator:* Pamela V. Edwards

The self-designed major program allows students to receive a bachelor of arts (B.A.) degree. This program offers many opportunities for students to study traditional subjects as well as new fields of inquiry that the University does not offer through existing departments. The multidisciplinary format of self-designed majors allows students the flexibility of pursuing their educational interests in a topical or thematic context rather than through an established discipline.

There are two types of self-designed major programs: (a) individual contract and (b) group contract programs. Students may work for a self-designed major degree through either type of program. All programs are approved and administered by the Self-Designed Major Committee.

A. Individual Contract Programs

The individual self-designed major allows the student to design a multidisciplinary program not available through a department major or a group contract program. The Self-Designed Major Committee reviews student proposals at its regularly scheduled meetings throughout the academic year. Proposals should be approved normally during the student's sophomore year. The deadline for completion of all self-designed major-related requirements coincides with expiration of the catalog in effect at the time of the student's original matriculation. Failure to complete the self-designed major within this time span will require reevaluation or reapplication of the self-designed major proposal and approved courses. Application forms and guidelines may be obtained from the Office of the Dean of the College of Arts, Humanities, and Social Sciences (CAHS).

B. Group Contract Programs

Group contract programs are coherent multidisciplinary studies representing fields of interest that have developed over the years at USM. Additional group contract programs will be considered by the Self-designed Major Committee as they are required for enhancing the quality of the CAHS curriculum. USM currently offers the following group contract programs:

Classics	International Studies
German Studies	Russian Studies
Hispanic Studies	Social Science
Foreign Languages	General Science

Students interested in any of the above programs should contact the coordinator of that group contract program for more information.

SDM 400 Senior Thesis for Self-Designed Majors

This course provides senior SDES independent contract majors an opportunity to receive credit for the required senior thesis or project. Thesis or project must be developed in consultation with student's faculty advisors and approved in advance by the Self-Designed Major Committee. Prerequisites: admission to self-designed major program and senior standing. Cr 1-6.

SDM 401 Senior Seminar in Social Science

The capstone to the major and required for the degree, this seminar explores the nature and the craft of social science. The topic will vary but will always be a particular theme or set of issues that span various social science disciplines, such as Competing Methodologies in Social Science, Ethnohistory, United States Studies, etc. Students are expected, through discussion and writing, to apply the knowledge and skills acquired in previous social science courses. Prerequisite: the course is open only to social science majors or students majoring in one of the eight disciplines that make up the social science major. Students must also be seniors or second semester juniors. Cr 3.

Classics

Coordinators: Peter Aicher and Jeannine Uzzi, 55 Exeter St. Portland

Students can choose from among three tracks for the classics major. The classical humanities track is an interdisciplinary major for students who value classics and its liberal arts approach to education and who wish to explore the ancient world and the classical tradition from the perspectives of a variety of disciplines. The classical languages track prepares students for graduate study in classics and is especially suited for students who want intensive study in Latin and ancient Greek. The Latin-for-teachers track prepares students to teach K-12 Latin.

Track 1: Classical Humanities Major

The minimum number of credits (exclusive of the University's Core curriculum) for the self-designed major in classical humanities: 51. For grade requirements, please refer to the Modern and Classical Languages and Literatures section of this catalog. Students have a great deal of choice within the major and will be advised by the coordinators to select courses that follow a logical sequence and build upon one another.

Required Courses

I. Language (15-17 credits, depending on language preparation and courses taken):

A. Three semesters of Latin or ancient Greek, at least one of which must be above the 100-level,
and either

B1. CLA 171 Etymology for Everyone AND one of the following: ENG 305, 330, 331, 337, or 338 (note where prerequisites apply).

or

B2. LIN 185 Language, Mind and Society AND LIN 313 Syntax

Note: In the B category, 100-level courses must be taken before the 300-level.

II. Literature (9 credits):

1. CLA 283 Epic Hero or CLA 270 Homer's *Odyssey* and Joyce's *Ulysses*
and
2. CLA 384 *What Would Antigone Do?*
and
3. One additional literature course with a non-CLA designation, such as
PHI 215 *Philosophy of Literature* [prerequisite] or GER 281 *The German Novelle*

III. History, Culture, and Civilization (12 credits)

1. CLA 291 *Golden Age of Greece* or HTY 303 *History of the Ancient Near East and Greece*
and
2. CLA 292 *Rome, Republic to Empire* **or** HTY 304 *History of Rome*
Students may substitute HON 101G/H/I *Wisdom Stories from Antiquity* **or**
HTY101 *Western Civilization* for one of the courses listed in III.1 and III.2
and
3. PHI 101 **or** 110 *Introduction to Philosophy*—choose one
and
4. CLA 285 *Classical Mythology*

IV. Material Culture (3 credits)

- ARH 111 *Art History: Prehistoric to Medieval* **or**
CLA 321 *The Art, Architecture, and Archaeology of the Ancient World* **or**
3 credits of study abroad in Greece or Rome (Centro, College Year in Athens, Lesbos, USM in Tuscany) **or**
ANT 103 *Introduction to Archaeology* **or**
ANT 202 *Origins of Civilization*
Note: CLA 321 is equivalent to ARH 321 *Classical Art*

V. Applied Skills (3 credits—choose one or propose your own)

The ideal of education, as practiced in antiquity and passed on in the classical tradition, involves the application of knowledge and activity based upon that knowledge. Courses in this category are meant to make that ideal of education explicit and generally involve some aspect of praxis or performance, whether spoken, written, plastic, or field-based.

- | | |
|-------------|---------------------------------------|
| ANT 260 | Public Interpretation in Anthropology |
| ENG 201 | Creative Writing |
| ENG 202 | Memoir and Autobiography |
| ENG 203 | Topics in Writing |
| ENG 299-304 | Stonecoast Writers' Conference |
| ENG 300 | Fiction Writing |
| ENG 301 | Poetry Writing |
| ENG 302 | Fiction Workshop |
| ENG 303 | Poetry Workshop |
| ENG 304 | Advanced Memoir |
| ENG 305 | Rhetoric, Syntax, and Style |
| ENG 309 | Newsriting |
| GEO 108 | GIS Applications |
| GEO 208 | Cartography I |
| THE 102 | Acting: Performance |
| THE 170 | Public Speaking |
| THE 175 | Oral Interpretation |
| THE 250 | Playwriting |

Any Studio Art course

Note: Students should be aware that ENG 201 is a prerequisite for other creative writing courses. Students should also be aware that the Art Department offers six foundations courses that are prerequisites for any advanced work in studio art.

VI. Electives (6 credits—choose two from the list below or suggest another; electives must be 300-level or above, except as noted below)

- | | |
|---------|--------------------------------------|
| ANT 306 | Analysis of Archaeological Materials |
| ARH 321 | Classical Art |
| ARH 322 | Medieval Art |
| ARH 323 | Renaissance Art |
| ENG 245 | Introduction to Literary Studies |
| ENG 262 | Introduction to Poetry |
| ENG 264 | Introduction to Drama |

The following ENG 300-level courses from the designations Ancient, Medieval, and Renaissance: ENG 315, 316, 317, 320, 325, 350, 351, 352, 353, 354, 355, 357, 360, 361, 362, and 363

- | | |
|---------|--|
| ENG 330 | History of the English Language |
| ENG 396 | Joyce |
| HTY 305 | The Historical Jesus |
| HTY 306 | Roman Sexuality and Early Christianity |
| HTY 307 | Judaism, Christianity, and Islam: Origins and Interactions |
| HTY 311 | Medieval Civilization |
| HTY 312 | Renaissance Civilization |
| PHI 310 | History of Ancient Philosophy |

PHI	320	History of Medieval Philosophy
POS	390	Political and Social Thought I
THE	101	Intro to Drama
THE	351	Dramatic Literature and Theater History I: Origins to 15th Century

Any course in Latin or ancient Greek beyond the first semester and beyond that required for the major.

Any modern language course beyond the third semester.

Any studio art course that builds upon that taken to fulfill requirement V. (Applied Skills)

Any creative writing course that builds upon that taken to fulfill requirement V. (Applied Skills)

VII. CLA 410 Antiquity and Modernity: Capstone Experience in Classics

Track 2: Classical Languages Major

The minimum number of credits (exclusive of the University's Core curriculum) for the self-designed major in classical studies: 41. For grade requirements, please refer to the Modern and Classical Languages and Literatures section of this catalog.

- I. *Languages* (20 credits)
 - A. Three Latin courses above the 100-level
 - B. Ancient Greek 101, 102, and 251
 - II. *Civilization and Literature* (18 credits)
 - A. CLA 291 Golden Age of Greece OR HTY 303 History of Ancient Near East and Greece
 - B. CLA 292 Rome, from Republic to Empire OR HTY 304 History of Rome
 - C. One of the following courses in ancient literature:

CLA	270	Homer's Odyssey and Joyce's Ulysses
CLA	283	Epic Hero
ENG	315	Ancient Literature
 - D. CLA 285 Classical Mythology OR CLA 384 What Would Antigone Do?
 - E. Two courses (six credits) from the following list:

ARH/CLA	321	Classical Art/Art, Architecture, and Archaeology of the Ancient World
HTY	306	Roman Sexuality and Christianity
PHI	310	History of Ancient Philosophy
POS	390	Political and Social Thought I

 Additional LAT 470 course(s) beyond those required for the major
- Students may petition to count other courses related to antiquity in this category.
- III. CLA 410 Antiquity and Modernity: Capstone Experience in Classics

Track 3: Latin for Teachers

The minimum number of credits (exclusive of the University's Core curriculum) for the self-designed Latin for teachers major is 41 credits. For grade requirements, please refer to the Modern and Classical Languages and Literatures section of this catalog.

Language and Literature

1. Latin (LAT): 101, 102, 251, 252, 310, 470, 470 (or 23 total credits of LAT)
2. CLA 171 (Etymology for Everyone), 3 credits
3. CLA 410 (Capstone Experience in Classics with significant work in Latin), 3 credits

History and Civilization

1. CLA 285 (Classical Mythology), 3 credits
2. CLA 292 (Rome: Republic to Empire) OR HTY 304 (History of Rome), 3 credits

Electives

1. Two additional courses (6-8 credits) from among the following on Greek culture or language: ARH/CLA 321, CLA 283, CLA 292, CLA 384, HTY 303, PHI 310, POS 390, or any course in ancient Greek (GRE).

Foreign Languages

Coordinator: Jeannine Uzzi, 55 Exeter Street, Portland

The minimum number of credits (exclusive of the University's Core curriculum) required for the self-designed major in foreign languages: 36 or 38, depending on the selection of languages. For grade requirements, please refer to the Modern and Classical Languages and Literatures section of this catalog.

For a major in foreign languages, students may choose any two of the following languages and take these courses in the languages of their choice:

French: FRE 301, 302, 330, 331; and 3 courses of their choice among the courses in civilization: (FRE 291, 292, 293, 294), language (FRE 303, 305) and literature (FRE 367, 369, 467, 469).

German: GER 321, 322, 351, 352, 281, 470

Latin: LAT 251, 252, and two semesters of LAT 470: CLA 292 or HTY 304; either CLA 283 or 384

Russian: RUS 281, 301, 302, 321, 351, 470

Spanish: SPA 300, 304, 305, 332, 351, and 352H or 450

In addition, it is strongly recommended that students take CLA 171 or an Indo-European linguistics course.

German Studies

Coordinator: Angela Gulielmetti, 55 Exeter Street, Portland

The minimum number of credits (exclusive of the University's Core curriculum) required for the self-designed major in German studies: 36. For grade requirements, please refer to the Modern and Classical Languages and Literatures section of this catalog.

German Language and Literature

- | | | |
|-----|---------|-------------------------------------|
| GER | 321-322 | Composition/Conversation |
| GER | 351 | Introduction to German Literature I |

GER	352	Introduction to German Literature II
GER	281	The German Novelle
GER	470	Independent Study
<i>Social Sciences</i> (any three)		
HTY	324	World Wars I and II: European War and Diplomacy
HTY	330	Germany: Bismarck to Hitler
HTY	334	The Holocaust: Policy, Practice, Response
<i>Humanities</i> (any three)		
CLA	171	Etymology for Everyone
CLA	283	The Epic Hero in Ancient Literature
CLA	284	The Tragic Hero in Ancient Literature
CLA	285	Classical Mythology
ENG	341	Contemporary Critical Theories
ENG	316	The Bible
PHI	340	History of Late Modern Philosophy

Course substitutions can be made in the Social Sciences and Humanities categories upon prior approval.

Hispanic Studies

Coordinator: Charlene Suscavage, 55 Exeter Street, Portland

The minimum number of credits (exclusive of the University's Core curriculum) required for the self-designed major in Hispanic studies: 38. For grade requirements, please refer to the Modern and Classical Languages and Literatures section of this catalog.

Required Courses

Spanish Language and Literature

SPA	300	Topics in Conversation
SPA	304	Advanced Conversation and Composition
SPA	305	Introduction to Hispanic Literature
SPA	332	Advanced Grammar and Stylistics
SPA	351	Readings in Contemporary Spanish Literature
SPA	352	Readings in Modern Latin American Literature
SPA	450	Topics in Hispanic Language and Literature

History and Culture

SPA	270	The Culture and Civilization of Spain
HTY	181	History of Latin America I
HTY	182	History of Latin America II

Electives

Students must choose 6 credits from other Spanish courses, study abroad program, or from related courses in other disciplines. These electives must be approved by a Spanish faculty advisor.

Course substitutions can be made in the electives upon prior approval. At least two semesters of another Romance language are strongly recommended.

Russian Studies

Coordinator: Charlotte Rosenthal, 55 Exeter Street, Portland

The minimum number of credits (exclusive of the University's Core curriculum) required for the self-designed major in Russian studies: 36. For grade requirements, please refer to the Modern and Classical Languages and Literatures section of this catalog.

Humanities

RUS	281	Russian Literature in English Translation or
RUS	293	Survey of Russian Cinema
RUS	291	Russian Culture and Civilization (in English)
RUS	301	Advanced Intermediate Russian I
RUS	302	Advanced Intermediate Russian II
RUS	321	Advanced Russian
RUS	351	Seminar in Russian Literature
RUS	470	Independent Study

*Social Sciences**

HTY	317	Early Russian History
HTY	318	Russia and the Soviet Union since 1855
POS	336	Government and Politics of Russia
POS	339	Russian Foreign Policy
ANT	222	Peoples of the North

Other courses recommended, but not required, for the self-designed major in Russian studies:

POS	104	Introduction to International Relations
HTY	101	Western Civilization I
HTY	102	Western Civilization II
GEO	101	Human Geography

*Note that all upper division courses have prerequisites.

International Studies

Director: Lynn Kuzma, 228 Deering Avenue, Portland

The International Studies program serves students interested in world affairs. A wide range of students with a diverse set of interests in global issues will find the program adaptable to their needs. It prepares graduates for a varied set of careers in international affairs. Students may go on to work in government, business, intergovernmental organizations, nonprofit institutions, and teaching. From the broadest perspective, international studies nurtures a solid understanding of world problems. It provides the analytical skills for understanding vital issues of the emerging global community.

To receive the bachelor's degree with a specialization in international studies, a student must complete a minimum of 120 credits. These include all University proficiency and Core requirements, competency (to third-year level) in a foreign language, and 48 credit hours of coursework within the international studies program.

The 48 credits within the program must be distributed as follows:

- 24 credits taken from the list of approved courses (see program director) in one of the program's Core departments: political science, economics, history.
- 9 credits of approved courses in each of the program's other two Core departments. Note that at least two courses taken in economics must be at the 300-level; at least two courses in political science must be at the 200-level; and, in history, two courses other than Western Civilization I and II must be taken.
- 6 credits of approved courses taken in at least two of the other departments which participate in this program. INS courses, as well as certain COR courses (see program director), count toward this requirement as credit from one participating department.

In addition to the courses listed above, students must achieve competency in a foreign language through the third-year level. This competency may be achieved through coursework at USM, through transfer credits from another university, through some intensive summer study program at an American university, through study abroad, or through background (having lived abroad, being a foreign student, etc.)

In all cases of doubt, the final decision as to whether a student has completed the program's language requirement rests with the USM Department of Modern and Classical Languages and Literatures. Students who can show that they have achieved at least third-year level in some language other than English need take no foreign language courses at USM, although they may do so if they wish. Only courses above third-year level in any language will count toward the 48-credit requirement for this major.

Once a year, the director of the International Studies program will issue a mini-calendar listing all USM courses acceptable for requirements in this major. Students must refer to this calendar when choosing courses. The director may, in rare cases, decide that a course not listed in the mini-calendar could fulfill a particular student's major requirements. For example, a new COR course with an international focus might qualify as an exception, or some experimental offering under the 99 designation. Exceptions of this sort are unusual; they must be given by the director to the student in writing, with a copy placed in the student's files.

Those students who wish to undertake independent research projects may do so with INS 480 and INS 481. Exceptional students will be encouraged to do a senior thesis. This endeavor will provide 6 credits and will normally result in a sound, scholarly paper of fifty-plus pages. A final defense of the paper, involving three faculty readers, is required. Students awarded a grade of at least ninety on the thesis will be recognized as having graduated "With Honors in International Studies."

For admittance into the program, the student must have:

- completed a minimum of 30 credits in arts and sciences. Of these, at least 15 credits must be completed in CAHS courses at USM;
- achieved a GPA of 2.5 or better in USM courses, including a minimum of 2.8 or better in CAHS courses at USM; completed USM's minimum proficiency requirements.

To graduate from this program, the student:

- must have completed 48 credit hours of coursework, distributed in the manner described above;
- must have attained a GPA at USM of 2.5 or better, including a GPA of 2.8 or better in CAHS courses at USM;
- must have attained grades of C- or higher in all international studies courses, including courses in foreign language. No course taken on a pass/fail basis will count toward this major.

Students who wish to graduate with honors in this major must:

- maintain a GPA of 3.2 or better;
- be recommended by a faculty member who teaches courses within the program, one who is willing to supervise a thesis;
- be approved by the program's Council of Faculty Advisers;
- take six hours of coursework, beyond the 48-hour minimum, under the Independent Study and Senior Thesis designations;
- write a thesis of approximately 50 pages, then present it to, and defend it before, a committee composed of three faculty members approved by the director of the program;
- obtain a grade of 90 or better on the thesis, as determined by the three faculty members who read it and hear the student's defense.

In the special case of students who complete a thesis, but obtain a grade of less than 90 (or students who complete a thesis with a grade of 90 or better, but whose final GPA drops below 3.2), those students will still receive 6 credits for their thesis work, even though they will not be able to graduate with honors. A student's grade for those six credits of coursework will be determined by the thesis committee. A thesis grade of less than C- cannot count toward completion of any requirements within the International Studies program.

All students in this program are strongly encouraged to engage in a program of study abroad. A summer, a semester, or even a year or more abroad will greatly enhance any student's understanding of world affairs. The director will work closely with any student who wishes to explore this option and will make every effort to facilitate this possibility for the student.

INS 480 Independent Study I

This course is intended for advanced students in international studies who want to develop their research skills and knowledge of particular subjects in international affairs. The student must work with a faculty advisor in outlining and pursuing the proposed course of study. All proposals for Independent Study must be approved by the director of the program. Prerequisite: advanced standing in the program. Cr 3.

INS 481 Independent Study II

This course is intended for the exceptional student who wishes to carry out two independent study projects during an undergraduate career. The course description and prerequisites are identical to those given above for INS 480. Cr 3.

INS 485 International Studies Internship

Through internships in the International Studies program, students achieve the experience and background for understanding problems and practices of international scope. For internship arrangements and course responsibilities, consult the director of the program. This course is open only to advanced students in international studies and requires the permission of the program director. Cr 3-6.

INS 490 International Studies Seminar

The seminar focuses on theories of international relations and current methodology in the field. Students will engage in intensive analysis of classical and current works. Prerequisite: advanced standing in the program or permission of the instructor. Cr 3.

INS 495 Senior Thesis

Selected students in international studies program will be encouraged to write a senior thesis. The topic should be chosen in consultation with a faculty advisor. Normally, it will be a two-semester project for the student's senior year. Extensive collaboration between student and thesis advisor is expected. The final paper should be approximately fifty pages in length and will be evaluated by a committee consisting of the thesis advisor and two additional faculty members appointed by the program director. Cr 3.

General Science

Coordinators: Theresa Theodose, 408 Science Building, Portland, and Robert Kuech, 507 Bailey Hall, Gorham
Steering Committee: Professor: Sanford (Environmental Science); *Associate Professors:* Theodose (Biology), LaSala (Physics), Novak (Geosciences), Kuech (Teacher Education)

The general science major at USM serves students with a strong interest in teaching middle school science by providing a strong science background reflecting the Maine Learning Results. General science is also appropriate for students who seek an interdisciplinary, integrated science experience rather than a major in just one science discipline.

Each of three options provides a combination of courses from several areas of science. For a particular option, that discipline is more rigorously represented with coursework equivalent to that required for a minor in that discipline at USM. A capstone course stresses the interdisciplinary nature of the major. Options for study are available in life sciences, physical sciences, and earth sciences. Students enrolled in the physical sciences major may choose to minor in either chemistry or physics.

Acceptance into this program is contingent upon admission to USM and successful completion of the University's writing and mathematics proficiency requirements.

Graduation requirements include a minimum GPA of 2.50 and completion of one of the three options listed above (44.5-49 credit hours depending upon the option/track). A student must receive a C- or better in any course, including lab courses, for the course to count toward the major.

Option A. Life Sciences (42 credits)

Required courses:

BIO 105, 106,
107 Biological Principles
CHY 110 Chemistry, Life, and the Environment
ESP 101, 102 Fundamentals of Environmental Science
PHY 111, 114 Elements of Physics

Select one:

AST 100, 103 Astronomy
GEY 100, 101 Volcanoes, Earthquakes, and Moving Plates
GEY 103, 101 Floods, Glaciers, and Changing Climate
GEY 105, 106 Ocean Planet
BIO 217 Evolution
BIO 200 or higher electives (10 credit hours)
SDM 405 Science Capstone

Option B. Physical Science (43-46 credits)

Required courses:

BIO 101, 102 Biological Foundations
CHY 113-116 Chemical Principles
PHY 121, 114,
123, 116 General Physics

Select one:

AST 100, 103 Astronomy
GEY 100, 101 Volcanoes, Earthquakes, and Moving Plates

GEY 103, 101 Floods, Glaciers, and Changing Climate
 GEY 105, 106 Ocean Planet
 ESP 101, 102 Fundamentals of Environmental Science

Option B with a Minor in Chemistry (46 credits)

CHY 251-254 Organic Chemistry
 CHY 231, 232 Analytical Chemistry
 SDM 405 Science Capstone

Option B with a Minor in Physics (49 credits)

PHY 211 Non-Classical Physics
 PHY 240* Intermediate Laboratory*
 PHY 3XX One 3-credit additional physics course at the 300 level or higher
 SDM 405 Science Capstone

*Calculus A and B are prerequisites

Option C. Earth Science (42 credits)

Required Courses:

BIO 101, 102 Biological Foundations
 CHY 113, 114 Chemical Principles
 GEY 100, 101 Volcanoes, Earthquakes, and Moving Plates

or

GEY 103, 101 Floods, Glaciers, and Changing Climate
 PHY 111, 112,
 114, 116 Elements of Physics

Select one:

AST 100, 103 Astronomy
 GEY 105, 106 Ocean Planet
 ESP 101, 102 Fundamentals of Environmental Science
 GEY 200 or higher electives (13 credit hours)
 SDM 405 Science Capstone

Social Science

Coordinator: Dana McDaniel, 65 Exeter Street, Portland

Steering Committee: Bjelic (Criminology), Hillard (Economics), McDaniel (Linguistics), Savage (Geography)

The group contract major in social science is a multidisciplinary program consisting of the following eight disciplines: criminology, economics, geography-anthropology, history, linguistics, political science, sociology, and women's studies. In order to declare a major in social science, students must have met the University's College Writing and Quantitative Reasoning Core requirements and must have a GPA of at least 2.5. Students who wish to declare a major in social science must submit a completed application form (available from the coordinator's office) to a member of the steering committee. Each student must take a minimum of 51 credits to complete the major. Students must receive a grade of C- or higher in courses taken to fulfill the major.

Students choose between Options I and II below. The following three requirements apply to all students, regardless of option: 1) Every student's social science curriculum must include at least one of the following social science methods courses: CRM 220, ECO 305, GYA 202, HTY 200, LIN 390, POS 203, SOC 301; 2) All students must take a 3-credit capstone course, SDM 401, in addition to the requirements specified under their option; and 3) All students majoring in social science must demonstrate an intermediate competence in one foreign language as part of the departmental requirements for graduation. This requirement can be fulfilled by achieving a grade of at least C- in the second semester of an intermediate level course (and any necessary prerequisites) or by examination.

Option I

Students select one of the eight disciplines as a concentration. They must complete 21-23 credits (usually seven courses) in that discipline, as specified below.

Discipline	Requirements for Concentration
Criminology	CRM 100, CRM 216, CRM 220, CRM 301, CRM 317, CRM 334, and one 3-credit CRM course that is 300-level or above
Economics	ECO 101, ECO 102, ECO 301, and four 3-credit courses that are 300-level or above
Geography-Anthropology	GEO 101 or GEO 102; two courses from ANT 101, ANT 102, GYA 202; any two 3-credit GEO, ANT, or GYA courses that are 200-level or above; and any two 3-credit GEO, ANT, or GYA courses that are 300-level or above
History	seven 3-credit HTY courses, at least four of which are 200-level or above
Linguistics	LIN 185, LIN 201, and five 3-credit LIN courses that are 300-level or above
Political Science	POS 101, POS 102, and five 3-credit POS courses, at least three of which are 300-level or above
Sociology	SOC 100, SOC 210, SOC 300, SOC 301, SOC 312, and two additional 3-credit SOC courses
Women's Studies	WST 280, WST 380, WST 390, WST 235, WST 245, WST 255, WST 265; if any of the latter four courses are not offered, they may be replaced by WST 220, WST 320

Option II

Students choosing Option I also take 27 credits outside of their concentration. The 27 credits must be divided equally among three of the remaining seven disciplines (three courses in each), and at least 9 of the 27 credits must be upper division level (200 or above). Note that these courses are not restricted to the courses listed above as requirements for the concentrations.

Students select one interdisciplinary topic within the social sciences as a concentration. In consultation with their advisor, they design a curriculum that consists of at least 30 credits (10 courses) on their topic from at least two (but no more than six) of the eight disciplines. At least 18 of the 30 credits must be above the introductory level.

Students choosing Option II also take 18 credits in two disciplines not included in their concentration—three courses in each discipline. At least 6 of the 18 credits must be upper division level (200 or above).

Capstone Course

All social science majors (regardless of option) must take SDM 401 in their senior year or during the second semester of their junior year. The purpose of this course is to bring together the knowledge and experience students have acquired through the major, and to allow them to apply that knowledge.

Notes:

1. Students who intend to teach social studies at the secondary level should consult with their advisor to design a curriculum that includes the specific social science courses required by the state of Maine for certification.
2. Students who have already taken more than nine credits of 100-level courses in the social sciences and who, due to prerequisites, are required to take more 100-level courses should consider consulting with their advisor about possible alternative arrangements.

SDM 401 Senior Seminar in Social Science

The capstone to the major and required for the degree, this seminar explores the nature and the craft of social science. The topic will vary but will always be a particular theme or set of issues that span various social science disciplines, such as competing methodologies in social science, ethnohistory, United States studies, etc. Students are expected, through discussion and writing, to apply the knowledge and skills acquired in previous social science courses. Prerequisite: The course is open only to social science majors or students majoring in one of the eight disciplines that make up the social science major. Students must also be seniors or second semester juniors. Cr 3.

Interdisciplinary Minors

Labor Studies

Co-Directors: Ed Collom (Sociology), Michael Hillard (Economics); 120 Bedford Street, Portland
Committee: Eagan (History), Savage (Geography-Anthropology)

The minor in labor studies examines many aspects of work and workers but focuses especially on the relationships among individual lives, work, class processes and dynamics, and capitalist development. The minor in labor studies addresses the practical problems of work, workers, and their organizations as well as broad conceptual and theoretical issues including, but not limited to, the relationships among labor, work, and class; a critical examination of class processes and dynamics; a critical examination of capitalist development; the intersections of class with race, ethnicity, gender, and generation; and historical perspectives on all of these topics.

The minor is an interdisciplinary program drawing on faculty and courses from economics, geography, history, arts and humanities, and sociology. Courses provide substantive knowledge of these disciplines and will help to develop critical thinking and analysis skills, writing and oral communication skills, and social science and historical research methods.

Because nearly every individual and organization deal with employees and work, there is constant demand for graduates with understanding and abilities in this area. Students will be prepared for careers in the private sector, labor unions, social services, and all levels of government.

The minor in labor studies is available to students in any major within the University. Students wishing to pursue the minor must be in good standing with the University and submit a Declaration of Minor form to the USM Registrar. This form is available online at www.usm.maine.edu/reg/forms.htm.

Select five of the following courses (15 credits):

ECO 220	U.S. Economic and Labor History
ECO 322	Economics of Women and Work
ECO 323	U.S. Labor and Employment Relations
GEO 302	Gender, Work, and Space
GEO 303	Economic Geography
HTY 123	United States History Since 1900
HTY 358	Early 20th-Century United States, 1898-1938
HTY 359	The United States Since 1939
HTY 381	Latin America and the United States
HUM 310	French Settlement in the Northeast
HUM 330	International Labor, Literature, and the Arts
SOC 327	Social Movements
SOC 348	Sociology of Work
SOC 358	Sociology of Women's Work

Of the five courses, one must be "history-centered" (chosen from among the following: ECO 220, ECO 323, HTY 132, HTY 341, HTY 358, HTY 359, HTY 381); one must be "contemporary" (chosen from among the following: ECO 322, GEO 302, GEO 303, SOC 327, SOC 348, SOC 358); and one must be "international" (chosen from among the following: GEO 302, GEO 303, HTY 381, SOC 327, SOC 348).

Finally, students can apply no more than 6 credits from their major toward the minor in labor studies.

Religious Studies

Interim Director: Gary J. Johnson (History)

Religious Studies Committee: Aicher (Classics), Atkinson (Human Resource Development), Ettenger (GYA), Johnson (Psychology), Jelali (Multicultural Student Affairs), Lualdi (Honors), McCall (University Interfaith Chaplain), Whitmore (History), Zhao (History)

The religious studies program offers an opportunity to study religion from an academic, multicultural, and global point of view. The interdisciplinary courses will expand students' knowledge beyond Western, monotheistic religions to include Eastern, African, and Native American faith traditions. Students who enroll in this minor explore the nature of religious beliefs and the role of language, metaphor, culture, and social institutions in establishing these views. The program's curriculum emphasizes the history of religious practices and how they have changed over time.

The minor in religious studies is available to students in any major who are in good standing at the University. To obtain the minor, students must successfully complete 18 credits as designated below:

1. REL 100 Religion and Human Culture 3 credits
All students are required to complete this course with a grade of C or better.
2. Multiple Religious Systems 6 credits
Select any two of the following courses:

PHI 230	Philosophy of Religion
PSY 399	Psychology of Religion
SOC 334	Sociology of Religion
HTY 309	Religious Violence and Persecution in Early Western History
REL 200	Humanity's Spiritual Heritage

3. Non-Western Religious Systems 3 credits
 Select one of the following:
 HTY 377 Chinese Thought
 HTY 394 Politics, Ethics, and Religion in China
 PHI 315 Eastern Philosophy
 HTY 394 Chinese Thought and Zen Buddhism
4. Western/Monotheistic Religious Systems 3 credits
 Select one of the following:
 HTY 307 Judaism, Christianity, and Islam
 HTY 366 History of Religion in America
5. Electives 3 credits
 Select one additional course from any of the above categories or from those listed below:
 ARH 322 Medieval Art
 ARH 323 Renaissance Art
 ARH 329 Asian Art
 COR 122 Introduction to Islamic Civilization
 CLA 285 Classical Mythology
 ENG 316 The Bible
 ENG 317 Studies in Ancient and Biblical Literature and Culture
 HTY 152 The Islamic Near East
 HTY 305 The Historical Jesus
 HTY 312 Renaissance and Reformation
 HTY 334 The Holocaust: Policy, Practice, Response
 HTY 394 Polytheism, Judaism, and Christianity in the Roman Empire
 HTY 394 Religious Violence and Persecution in Early Western History

REL 100 Religion and Human Culture

This course is an analytical survey of topics central to religious thought and practice. It considers religion as a worldwide human phenomenon, attempts to extract data about religion from multiple sources and contexts, and focuses upon the common functions of religion from a global perspective. The course also aims to develop sensitivity to topics and issues of a sacred and secular nature as they impact the daily lives of people in a variety of social, cultural, and religious settings. Cr 3.

REL 101 The Language of Spiritual Texts: Answering the Problem of Violence

Close reading of texts with explicitly spiritual content from world traditions, include the *Bible*, the *Tao te Ching*, the *Koran*, and others, ancient and modern. Inquiry as to whether or not such texts offer answers to the problem of violence. Theory and practice of contemplative as well as critical approaches to language that expresses spiritual experience will be explored.

REL 200 Humanity's Spiritual Heritage

This course uses a textual, chronological, and interfaith approach to trace the historical development, practices, and principles of the world's religions and spiritual traditions. Using the world's scriptures as primary texts, each faith community speaks for itself, allowing an exploration of the richness underlying the diversity of sacred expressions. Special emphasis is placed upon recognizing differences as well as the similarities in humanity's belief systems.

Bachelor of Liberal Studies

Teachers for Elementary and Middle Schools (TEAMS) K-8 Certification Track

The curriculum for this degree is designed to provide prospective K-8 teachers a strong academic foundation through an interdisciplinary education as well as a continuous focus on both the theory and practice of teaching through a sequence of pre-internship education courses and field experiences. To be eligible for this degree, students must be accepted into the Teachers for Elementary and Middle Schools (TEAMS) Program of the Department of Teacher Education. To complete this degree, students must complete the TEAMS Program. Any student who drops the TEAMS Program before certification must apply their completed hours to another degree program. Information about admission and program policy for the TEAMS program can be found in the School of Education and Human Development section of this catalog or at <http://usm.maine.edu/sehd/TED/undergraduate.htm>

The degree has four components: USM Core Curriculum, General Academic Courses (those required for initial K-8 teacher certification), a Content Concentration (academic foundation to be highly qualified to teach one of the four major content areas at the middle level), pre-internship education courses, and in some cases teaching internship courses. Depending on the teaching pathway students choose and their progress in the TEAMS program, student may pursue their internship as part of the Master of Science in Education in Teaching and Learning degree.

I. Core Curriculum

EYE Course: EYE 108 recommended
English Composition: ENG 100C
Quantitative Decision Making: MAT 120: Introduction to Statistics recommended
Creative Expression: THE 102: Acting for Non-majors recommended
Cultural Interpretation: ENG 120: Introduction to Literature recommended
Science Exploration
Socio-cultural Analysis: HRD 200 recommended
Ethical Inquiry, Social Responsibility, and Citizenship

II. General Academic Content Courses (29 credits)

These courses fulfill the content requirements for initial teacher certification in Maine.

A. English/Language Arts Courses (6 credits)

Choose one course from the following list:

CLA 171 Etymology for Everyone
ENG 230 Literacy Studies

Choose one course from the following list:

a. ENG 262 Poetry, the Genre
b. ENG 263 Fiction, the Genre
c. ENG 264 Performance Genres

B. Mathematics Courses (6 credits)

Choose two courses from the following list:

MAT 131 Number Systems for Elementary Teachers
MAT 231 Algebra for Elementary Teachers
MAT 232 Geometry for Elementary Teachers

C. Science Courses (8 credits)

Choose two lab sciences from the following:

CHY 110 Chemistry, Life, and the Environment
BIO 101/102 Biological Foundations and Biological Experiences
BIO 103/104 Introduction to Marine Biology and Marine Biology Lab
AST 100/103 Astronomy and Astronomy Exercises and Experiences
GEY 100/101 Volcanoes, Earthquakes, and Moving Plates, and Laboratory Experiences in Geology
GEY 105/106 Ocean Planet and Ocean Planet Laboratory
GEY 109 Field Geology of Maine
PHY 101/102 Introduction to Physics and Introduction to Physics Lab
ESP 101/102 Fundamentals of Environmental Science and Laboratory

D. Social Studies Courses (9 credits)

Take HTY 101 Western Civilization I

Choose one course from the following list:

HTY 121 United States History to 1800
HTY 122 United States History 1800 to 1900
HTY 123 United States History since 1900

Choose one course from the following list:

POS 101 Introduction to American Government
GEO 101 Human Geography
GEO 120 Geography of Maine

- ANT 220 North American Indians
- HTY 360 History of Maine

III. Courses in a Content Concentration (15-18 credits)

Students must complete at least 15 credit hours in an academic content concentration (English Language and Literature, Mathematics, Social Studies, Physical or Life Science) in addition to the academic content courses required of all TEAMS students. Courses are subject to revision based upon changes to departmental curriculum and the implementation of the Core Curriculum.

A. English Literature and Language (18 credits)

In addition to the English courses required of all TEAMS students, those who would like a concentration in English, Literature and Language must complete the following courses:

- a. ENG 245 Literacy Studies
- b. Choose two courses with an emphasis on writing skills, word analysis, literary analysis, rhetoric, history of the English language, and/or style (e.g., CLA 171, ENG 203, ENG 305, and ENG 330)
- c. Choose one pre-1800 Literature and Culture course (e.g., CLA 283, CLA 285, or 1 ENG from the following categories- Ancient and Biblical, Medieval, Renaissance, Eighteenth Century)
- d. Choose one post-1800 Literature and Culture courses
- e. Choose one 300-400 level Literature and Culture course

B. Social Studies (15 credits)

In addition to the social studies required of all TEAMS students, those who would like a concentration in Social Studies must complete the following courses:

- a. HTY 102 Western Civilization II
- b. Choose one course from the following list, not already taken:
 - HTY 121 United States History to 1800
 - HTY 122 United States History 1800 to 1900
 - HTY 123 United States History since 1900
- c. Choose one course from the following list, not already taken:
 - POS 101 Introduction to American Government
 - GEO 101 Human Geography
 - GEO 120 Geography of Maine
 - ANT 220 North American Indians
 - HTY 360 History of Maine
- d. Choose at least two 300-400 level courses in one of the following disciplines: History, Geography, Anthropology, Political Science, or Economics.

C. Mathematics (15 credits)

In addition to the math courses required of all TEAMS students, those who would like a concentration in Math must complete the following courses:

- a. Choose one course from the following list, not already taken:
 - MAT 131 Number Systems for Elementary Teachers
 - MAT 231 Algebra for Elementary Teachers
 - MAT 232 Geometry for Elementary Teachers
- b. MAT 108 College Algebra
- c. Choose one of the following:
 - MAT 140 Pre-Calculus Mathematics
 - MAT 152 Calculus A
- d. MME 445 Teaching 7-12 Mathematics in Maine: Curriculum and Capstone Course
- e. Choose one mathematics elective that is approved by the mathematics concentration advisor.

D. Science

Students choose one of two tracks, either the Physical or Life Sciences Track.

Note: Students should work carefully with advisor to coordinate these requirements with Core Curriculum requirements and the Academic Content Courses in science.

Physical Science Track

Required of all students in Physical Science Concentration:			<i>Credits</i>
PHY	111/114	Elements of Physics I Lecture and Lab	5
PHY	112/116	Elements of Physics II Lecture and Lab	5
CHY	113/114	Principles of Chemistry I Lecture and Lab	4
CHY	115/116	Principles of Chemistry II Lecture and Lab	4
GEY	100	Volcanoes, Earthquakes, and Moving Plates	3
GEY	101	Laboratory Experiences in Geology	1

Choose at least 10 credits from the following courses, from at least two disciplines:

PHY	211	Non-classical Physics (requires MAT 152D Calculus)	3
CHY	231/232	Analytic Chemistry and Lab	4
CHY	251/252	Organic Chemistry I and Lab	5

CHY 253/254	Organic Chemistry II and Lab	5
GEY 201	Paleogeography and Global Change	4.5
GEY 202	Landscape Evolution and Analysis	4
GEY 203	Mineralogy	5
GEY 295	Water Resources: Science and Issues	3
ESP/GEY 207	Atmosphere: Science, Climate, and Change	3
ESP 250	Soils and Land Use	4

Life Science Track

Required of all students in the Life Science Concentration:		<i>Credits</i>
BIO 105/106	Biological Principles I: Cellular Biology and Laboratory	4.5
BIO 107	Biological Principles II: Evolution, Biodiversity, and Ecology	4.5
BIO 109	Biological Principles III: Functional Biology	3
BIO 217	Evolution	3
ESP 101/102	Fundamentals of Environmental Science and Lab	4

Choose at least 12 credits from the following:

BIO 201	Genetics	3
BIO 231	Botany	4.5
BIO 251	History of Biology	3
BIO 305	Developmental Biology	3
BIO 306	Developmental Lab	2
BIO 331	Ecology	3
BIO 332	Field Ecology	2
BIO 335	Entomology	3
BIO 351	Invertebrate Zoology	5
BIO 353	Vertebrate Zoology	5
ESP 125	Introduction to Environmental Ecology	3
ESP 126	Introduction to Environmental Ecology Lab	1

IV. Courses in Education (51 credits)

Pre-Internship Courses

EDU 120/121	Language and Literacy Development and Field Experience (4 Cr)
EDU 211/212	Culture and Community and Field Experience (4 Cr)
EDU 200	Education in the United States or EYE 108 Culture, Identity, and Education
EDU 220/221	Middle School Community and Field Experience (4 Cr)
EDU 320/321	Applied Skills in Teaching and Learning and Field Experience (4 Cr)
EDU 390	Portfolio Development
EDU 335	Teaching Exceptional Children in the General Education Classroom
or	
SED 540	Nature and Needs of Learners Who Are Exceptional

Internship Courses – These may be taken as part of the Liberal Studies Degree or the Masters in Teaching and Learning.

EDU 4/541	Seminar in Teaching, Learning, and Assessment I
EDU 4/544	Applied Pedagogy
EDU 566	Introduction to the Writing Process
EDU 4/505	Teaching Mathematics, K-8
EDU 4/542	Seminar in Teaching, Learning, and Assessment II
EDU 4/551	Teaching Social Studies
EDU 4/552	Teaching Science
EDU 565	Teaching Reading
EDU 324	Student Teaching (6 Cr)
or	
EDU 644	Internship in Elementary Education (6 Cr)

Lewiston-Auburn College

Dean: Joyce T. Gibson, 51 Westminster Street, Lewiston; *Associate Dean of Academic Affairs:* Whitaker; *Associate Dean of Public Relations/LearningWorks:* Phillips; *Chair:* Coste; *Professors:* Black, Druker, Hitchcock, Nemeroff, Raimon; *Associate Professors:* Caron, Cleary, Coste, Hammer, Levine, Mundhenk, Robinson, Rodrigue, Stasko, Whitaker; *Assistant Professors:* Conklin-Powers, Marsh, Silber, Turesky, Vazquez-Jacobus; *Instructors:* Bickmore, Nowinski; *Clinical Instructor:* Clark

Lewiston-Auburn College (LAC) has several distinguishing characteristics: interdisciplinary majors, student-centered learning, a community atmosphere, and a deep sense of responsibility about its role in meeting regional needs. Faculty and staff are dedicated to engaging students in a transformative process in which self-awareness, content knowledge, relevant skills, and career development are merged in such a way that lifelong learning is an expectation.

The curriculum is marked by integration not only among the various disciplines within the liberal arts, but also between the liberal arts and the professional concentrations, between professional concentrations and the workplace, and between the College and the community. The faculty is dedicated to learning as a shared experience between students and faculty. The interdisciplinary focus combines communication, teamwork, writing, fieldwork, critical thinking, civic engagement, and leadership; and uses service learning, career seminars, and internships to help students apply, synthesize, and integrate their learning.

Lewiston-Auburn College's interdisciplinary majors include:

- B.A. degree in Arts and Humanities
- B.A. degree in Natural and Applied Sciences
- B.A. degree in Social and Behavioral Sciences
- B.S. degree in Leadership and Organizational Studies

In addition, the College offers:

B.A. degrees which lead to secondary teacher certification in English, Social Studies, English, and Social Studies, and Life Sciences.

B.S. degree in Nursing aligned with USM's Portland-based School of Nursing is offered in its entirety at the Lewiston campus*

The College also offers masters degrees in:

- Occupational Therapy
- Leadership Studies

A Master of Science in Education degree in literacy education is offered by the School of Education and Human Development.

A minor in Women and Gender Studies and a graduate certificate program in English as a Second Language (ESL) are also extended from the other USM campuses in Portland and Gorham.*

*Graduation requirements for extended degree programs can be found under their respective academic colleges.

Transfer Policies

USM's Lewiston-Auburn College works with all University of Maine System campuses and Maine Community Colleges, and Central Maine Medical Center (CMMC) to enable students who have received associate's degrees from these institutions to continue their education toward a baccalaureate degree from the University of Southern Maine. In most cases, credits transfer directly into the baccalaureate programs.

Students matriculated into USM's baccalaureate programs will receive transfer credit for all undergraduate courses successfully completed with a grade of C- or better at another University of Maine System institution. Transfer credits also may be awarded for courses completed at other regionally accredited institutions.

It is important for students to be aware of the transfer policy that applies to their particular situations.

Graduation Requirements

To be eligible for graduation with a baccalaureate degree and major, students must successfully complete all of the following:

- 120 credit hours including all Core and major requirements
- at least 30 credit hours in 300- to 400-level USM courses offered by Lewiston-Auburn College, and have
- obtained a minimum overall grade point average of 2.0
- per USM's residency requirement: the last 30 credits taken must be completed at USM

Academic Support Services

The University offers students a wide range of academic support services to facilitate and enhance their education. The breadth of these services is designed to accommodate the needs of a diverse student population. For a description of all available programs turn to the Academic Support Services section at the front of this catalog.

Academic Advising and Career Development

The **Student Success Centers** offer USM students an integrated approach to academic advising and career development.

- Student Success Advisors provide academic advising and career planning assistance to support the development and achievement of students educational and career goals.
- Following orientation and initial registration, students, are assigned a permanent Student Success and faculty advisor within their respective academic departments. Students are encouraged to maintain close contact with their advisors once this assignment has been made.
- Students who have not declared a major are provided academic advising by professional Student Success Advisors. Student Success Advisors assist students in the development of educational and career goals as well as the selection of an appropriate major. Students should declare a major before completing 60 credits of coursework at the University.
- Non-matriculated students are students who are enrolled in courses at the University on a space available basis and who have not applied for admission. They are advised by the advisors in the Student Success Centers.
- The USM Early Study–Aspirations Program offers opportunities for high school students to take college courses to enrich their high school experience. The program is designed to help students supplement, not supplant, the academic program of the high school. Academic requirements must be met, and permission from the student's high school and guardian(s) is expected. Financial assistance is available. For more information visit www.usm.maine.edu/advising/earlystudy or call (207) 753-6025.

Students who have questions regarding general academic policies and procedures, as well as about other aspects of University programs, are encouraged to contact one of USM's Student Success Centers in 119 Payson Smith Hall on the Portland campus (780-4040), 119 Bailey Hall on the Gorham campus (780-5652), and 119 Lewiston-Auburn College in Lewiston (753-6536). The Internship and Career Placement office is located in 122 Payson Smith Hall on the Portland campus.

Support for Students with Disabilities

The Office of Support for Students with Disabilities (OSSD) provides a wide range of services to qualified students with sensory, mobility, physical, psychological, cognitive, learning and attention disabilities enrolled in USM credit and noncredit bearing courses and programs. Contact OSSD for information regarding particular needs. Documentation may be required. The office is located in 242 Luther Bonney Hall, Portland; 207-780-4706 or TTY 207-780-4395 or visit our Web site: www.usm.maine.edu/ossd

Learning Assistance and Tutoring

The University's learning assistance program includes developmental coursework in mathematics, learning strategy courses, and the Learning (tutoring) Centers. The developmental course (MAT 009) provides students with instruction to help them achieve college level readiness in mathematics. The Learning Center offers tutoring in writing, and mathematics. Programs for English for Speakers of Other Languages are offered on USM's Portland campus. The Academic Self-Management course (FRS 180) offers learning strategies to assist students with study skills and the transition into higher education and the information course (FRS 197) offers students the opportunity to go beyond Google.

FRS 180 Academic Self Management

This learning strategy course explores the six major control components that usually contribute to high academic achievement: motivation, methods of learning, use of time, monitoring of performance factors, and relationships to both physical and social environment. Presentations and readings involving learning research and theory are interconnected to student participation, assessment, and self-monitoring activities. Students will engage in the self-management and selfprescriptive process to determine what specific academic behaviors will best assist individual academic performance. Students must be registered in at least one other college course in order to provide an application-practice field. Cr 3.

FRS 197 Information Power Unleashed

This course unleashes the power of information, channeling students into a veiled world in which they will explore how to recognize when information is needed and how to locate, evaluate, and effectively use the needed information. Topics will include basic computing skills, Web evaluation, locating and using books, articles and other media, critical thinking, plagiarism, citation style, primary and secondary sources, Boolean searching, and basic considerations in the writing process. Students will use USM library resources and those of other U.S. libraries and will be given a glimpse into the shadowy world of librarianship. Cr 1.

MAT 009 Developmental Mathematics

A review of fundamental topics of arithmetic needed for a study of algebra. This course will cover the following topics: addition, subtraction, multiplication, and division of fractions; use of decimals and percent; estimation; addition, subtraction, multiplication, and division of real numbers; exponents; order of arithmetic operations; distributive property; combining like terms; substitution to evaluate expressions and formulas; grouping symbols; addition and multiplication principle; formulas; sets; solving equations with fractions; translating English phrases into algebraic expressions; and solving word problems using geometric formulas. Successful completion of the course and the course exit exam at a C level (75%) or higher is required. Credit earned in MAT 009 does not apply or accumulate toward any degree program nor contributes to the GPA at the University of Southern Maine. After successful completion of MAT 009, students must then complete MAT 101B (College

Readiness Mathematics) to fully meet college readiness in mathematics or place out of the math college readiness courses via a retake of the math placement exam. Cr 3.

The Lewiston Common Core

How, then, shall we live?

The Lewiston Common Core curriculum is centered upon the question, “How, then, shall we live?” Set within the context of our 21st-century lives, this common course of study provides students opportunities to strengthen their abilities to speak and write thoughtfully and clearly. Students learn to find, evaluate, and utilize information and to think through complex questions in light of their social, cultural, and historical contexts. The curriculum also helps students articulate their values and aspirations, connect their academic study to their personal lives and career choices, and cultivate the habits of mind and heart needed to live lives guided by a sense of social responsibility and ethical citizenship.

Students will consider the themes of justice, sustainability, democracy, and difference in different ways and in differing contexts over their entire course of study at LAC. Designed according to the University’s guidelines for general education, the curriculum integrates the learning experiences in the majors with liberal arts learning in the Common Core. It provides learning experiences that build upon and relate to each other in a cumulative and sequential manner.

The curriculum is organized into a three-phased sequence, with each successive phase focused upon the development and refinement of the student abilities mentioned above. Required courses in writing instruction, for example, occur at successive phases of the curriculum rather than only at the beginning phase. To help students become intentional about their learning, they are required to participate in and reflect upon co-curricular as well as curricular experiences.

The Common Core is an integral part of each degree program. Completion of all core classes is a requirement for graduation with a baccalaureate degree and major.

*LCC/SCI 130 is not required for Natural and Applied Sciences majors.

Course Descriptions: Lewiston Common Core

LCC 100 Profiles, Proficiencies, Portfolios

This course, the first in the career development series, engages students in personal assessment and goal setting. It introduces them to LAC's interdisciplinary, writing-intensive, and student centered learning culture. Students link their own stories (what has brought them to this point in their personal, academic, and professional lives) with resources needed for success in college, career, and global citizenship. Students will demonstrate their learning by creating an e-portfolio. Cr 1. Offered fall, spring, summer.

LCC 110 College Writing: Language and Literacies

This entry-phase, first-tier writing instruction course introduces students to one or more themes of the Core curriculum. It emphasizes the connections between reading and writing, and students learn how thinking and the language that conveys it develop and change through the process of drafting, revising, editing, and proofreading. The course introduces students to the conventions of expository academic writing and links to co-curricular activities of the Core. (Note that some students are also required to concurrently take the 1-credit companion course, LCC 111) Cr 3. Offered fall, spring, summer.

LCC 111 College Writing: Language and Literacies: Enrichment

This course represents an alternative for any student who would otherwise choose LCC 110; it is required for those students identified as needing extra support to improve their writing skills. The one extra hour per week included in this course (in addition to the same two-and-one-half hours/week in LCC 110) is designed to expand and refine basic writing skills integral to the course objectives of LCC 110 College Writing. The course provides additional instruction and extended opportunities for applying pre-writing, drafting/developing, revising, and editing strategies related to the same essays assigned in LCC 110. The course focus includes attention to basic elements of effective writing, such as unity, coherence, and emphasis. Class time will also be devoted to addressing topics that represent the most common error patterns in college-level academic writing, such as weak thesis sentences, inconsistent point of view, and sentence-level grammar and punctuation error patterns. Cr 4. Offered fall, spring, summer.

LCC/SCI 130 The Biology of Human Health with Lab

This course introduces basic concepts of biology and explores how these concepts relate to human health. It also explores natural scientific methods of inquiry and applies these methods to complex issues involving the creation and maintenance of human health. Further, the course explores the importance of societal factors in health maintenance. Cr 4. Offered fall, spring, summer.

LCC 150 Statistics for Informed Decision Making

This entry-phase course introduces and applies quantitative analyses to address real world questions. It applies descriptive statistics, sampling and significance testing, correlation, and regression analysis to issues related to the four themes of the Common Core. The course provides the opportunity to interpret and analyze statistical decision making, and identifies data misconceptions and misuses. Prerequisite: math proficiency Cr 3. Offered fall, spring, summer.

LCC 200 Creative Critical Inquiry into Modern Life

This writing instruction course introduces students to criteria for identifying and constructing well-reasoned arguments, fosters the discovery and the use of students' critical/analytical voice in their writing, and develops skills for incorporating, interpreting and integrating the views of others. It provides the opportunity to refine critical thinking abilities by analyzing everyday life experience, including how culture shapes our sense of reality and ourselves. The course highlights the importance of generating good questions and tolerating ambiguity when seeking to understand complex issues. Prerequisite: College Writing. Cr 4. Offered fall, spring, summer.

LCC 220 U.S. Democracy: Origins and Development

In this course, students consider the convergence of cultures, events, and ideas that led to the founding of the United States as a republic up to 1877. The course explores the basic structure of the U.S. system of government, the primary political philosophies that undergird it, and past efforts made to remedy injustices that ran counter to the ideals of democracy. Cr 3. Offered fall.

LCC/SCI 230 Environmental Science, Policy, and Sustainability with Lab

This course presents a multidisciplinary survey of the scientific principles underlying energy utilization, nutrient cycles, global warming, population, and natural resource policy and management. The lectures will be comprised of Socratic interactions and group discussions relating regional, national, and global components that encompass ecology, economics, politics, and social endeavors. This course includes a laboratory involving field and lab work and service learning efforts. Cr 4. Offered spring.

LCC 250 Thinking about the Arts, Thinking through the Arts

This course explores the tools and strategies important in the interpretation of literature and the arts and encourages an appreciation of the role of literature and the arts in social, political, and cultural life. It promotes an understanding of and an appreciation for the creative expression of shared cultural beliefs in various historical periods of cultures around the world and examines literature and the arts as potential critiques of culture. Co-curricular opportunities are included, especially in connection with the Atrium Gallery. Cr 3. Offered fall, spring, summer.

LCC 310 Science, Technology, and Society

This course examines the history of science and technology, and the social changes related to them. It examines the impact of science and technology on ethical and religious beliefs, social institutions such as education, family, and work, and on larger

sociopolitical entities and relations. The course also explores the effects of science and technology on natural and human-made environments. Cr 3. Offered fall, spring, summer.

LCC 320 Sustaining Democracy

This course focuses primarily on the United States from 1877 to the present, exploring the various ways that U.S. democracy has become more inclusive since the late nineteenth century and the ways in which it has failed to live up to its ideals. The course also explores past and current obstacles to the creation and maintenance of a healthier democracy. Cr 3. Offered spring.

LCC 340 Exploring Careers, Choosing Life Roles

In this second course in the career development series, students relate self-knowledge to career and life roles, with an emphasis on gaining and managing career information; learning various career and life decision-making strategies; and communicating formative academic, co-curricular, and professional experiences in such formats as accomplishment statements, informal interviews, and through updating their e-portfolios. Cr 1. Prerequisite: LCC 100. Offered fall, spring, summer.

LCC 350 Global Past, Global Present

This course is a thematic survey of global history from its origins to the present. Its aim is to provide a wide contextualized understanding of human existence in a new format that is called "Big History," a concept that integrates knowledge from the natural and social sciences with the humanities. The result is a more realistic understanding of how humans fit into the vast expanse of the universe. As a part of this survey, students will consider some of the challenges of modern globalization, with an important theme being the quest to develop sustainable and ethical lifestyles. The overall focus of this course will be on what such knowledge might mean in everyday life and how we as responsible individuals and a responsible species should conduct ourselves in this world. Prerequisite: Junior standing. Cr 3. Offered fall, spring.

LCC 370 Toward a Global Ethics

This writing instruction course assists students in articulating and assessing their own values. It examines the range of ethical theories and positions and explores the influence of particular cultural ideologies on ethical beliefs. The course considers the ethical principles implied by democracy, sustainability, justice, and difference. It examines ethical issues and dilemmas faced by individuals, organizations, and nations while exploring personal and collective decision-making processes in a global context. Prerequisite: College Writing. Cr 4. Offered fall, spring, summer.

LCC 400 Finding Your Calling

In this third course in the career development series, students assume active agency in career planning through learning how to market themselves to prospective employers. They learn to create and use the tools needed for career placement, such as cover letters, resumes, and interviews. Students will further update their e-portfolios with archival evidence of abilities gained through the Common Core, their major and co-curricular activities. Students will gain an understanding of the goals and outcomes for portfolio presentation. Cr 1. Prerequisite: LCC 340. Offered fall, spring, summer.

LCC 410 Aesthetic and Political Dimensions of Language

This course attunes students to the beauty and power of language and to the way all knowledge is mediated in and through language. It explores how language shapes reality, experience, and identity. It examines ongoing tensions between language as a political tool and language as a form of art. Cr 3

LCC 430 Place and Community

This course grounds the Common Core themes of democracy, sustainability, justice, and difference through consideration of other places and other communities. It applies the framework of "place" to the study of human behavior, and it captures the College's commitment to service learning, and to the study and enhancement of Lewiston-Auburn history. Cr 3

LCC 450 Internship

This online course provides students the opportunity to work in their chosen field to evaluate their interest and acquire basic skills needed to market themselves effectively. Students participate in an online seminar in which they learn about and reflect on workplace issues. Cr 3-6. Students wishing to take more than 3 credit hours must have permission from their faculty advisors. Prerequisite: LCC 400. Offered fall, spring, summer.

LCC 480 Senior Seminar

This course provides writing instruction experience for students from LAC's four degree programs. Students complete a major research and writing project addressing one of the four themes of the Common Core from an interdisciplinary approach. Prerequisite: ENG 100 or LCC 110; LCC 200 or LCC 370; HUM 300, or LOS 300 or SBS 320 or SCI 315. Cr 3. Offered every semester.

LCC 490 Portfolio Presentation

In this concluding learning experience, students reflect upon and synthesize their learning from each academic year, including co-curricular and service learning experiences. Students provide evidence of their abilities and demonstrate how they have developed personal meaning from their college learning experience and used it to shape future goals. Students present their final portfolios to other students, staff and faculty and/or members of the community. Cr 1.

Lewiston-Auburn College: General Courses

LAC 107 Internet Research

Students will learn how to conduct Internet research. Emphasis will be placed on evaluating sites and the use of information found on the Web for projects. Cr 1.

LAC 110 Writing Support

This course focuses on how to improve writing skills through analysis of students' own papers, a review of grammar and punctuation rules, and strategies to enhance essay structure on both micro and macro levels. Course goals include learning how to convey meaning efficiently, clearly, and completely. Students are encouraged to determine course topics and to revise papers written for other courses. Students may enroll in this course up to three times. Pass/fail; meets for ten 80-minute sessions. Cr 1.

LAC 112 Microsoft Excel

This course uses a problem-solving approach to electronic spreadsheets. It satisfies the LOS major's requirement and should follow the LAC 150 introductory course. Students will learn advanced data analysis, formulas, and create graphs to interpret the data. This course should be completed prior to taking a financial management, economics, or budgeting course. Prerequisite: LAC 150 or equivalent. Cr 1.

LAC 114 PowerPoint

This computer program allows users an electronic means of giving presentations to groups of people. Students will learn how to create electronic slides using written, graphic, and sound materials. The slides can then be formatted in several different ways: 35 mm slides, overhead transparencies, and handouts. Students who have to give presentations to classes or who are considering careers in teaching, marketing, or public relations fields should consider this course. Cr 1.

LAC 150 Microcomputers and Applications

An introductory lecture and laboratory course designed to introduce students to basic microcomputer concepts and their application to education, business, and home management. This course will cover: Windows, e-mail, Internet, and Microsoft Office: Word, Excel, PowerPoint, and Access. Cr 3.

LAC/LOS 305 Programming with Visual Basics

This course is an introduction to modern structured programming on a microcomputer using a state-of-the-art object-oriented programming language. It covers all standard control and logic structures, arrays, functions, sub-routines, and data files. Major emphasis is given to an ongoing consideration of problem-solving techniques as they apply to simple and complex programming situations. Programming objects are studied extensively, along with events, properties, and methods. Prerequisite: ABU 190, or permission of instructor. Cr 3.

LAC/LOS 307 Web Design

This course will present in-depth Web page design for non-programmers. This will be accomplished primarily through learning a full-featured Web design application. The course also includes an exploration of HTML, DHTML, and some experience with Web scripting languages. Finally, server-side Web strategies will be studied. Students will be expected to design and implement Web pages containing many of the features learned in class. Prerequisites: ABU 180/181 and/or ABU 190, LAC 150, or significant Windows and Windows application experience, along with experience on the Internet using a Web browser. Cr 3.

LAC/LOS 318 Database Management

This course introduces skills and builds proficiency in database management. It is taught on PC computers using the latest version of Microsoft Access and is designed to help students develop competencies in a variety of database processing functions. Students become proficient in setting up databases, managing data, creating reports, using report enhancements, and manipulating data. Prerequisite: LAC 150 or equivalent. Cr 3.

LAC/LOS 319 Networks I

This course is an introduction to the installation, maintenance, and repair of personal computer networks. It provides students with an elementary understanding of network systems including communication components, LAN protocols, standards (de facto/de jure), system architecture, network software, and the fundamentals of network installation and repair. Offered at Central Maine Community College (CMCC). Cr 3.

LAC/LOS 320 Networks II

This advanced course addresses the installation, maintenance, and repair of personal computer networks. It provides students with an advanced understanding of network systems including software configuration, troubleshooting, security, tools, design strategies, and employee training. Offered at Central Maine Community College (CMCC). Cr 3.

LAC/LOS 321 Introduction to Personal Computer Repair/Operating Systems

This course is an introduction to the installation, maintenance, and repair of personal computers and related equipment. It provides students with an elementary understanding of PC environments including system components, peripherals, operating systems, component/card interface, and the fundamentals of repair. Offered at Central Maine Community College (CMCC). Cr 3.

LAC/LOS 331 Advanced Personal Computer Repair

This is an advanced course in personal computer installation, maintenance, and repair. It provides students with an in-depth study of PC system components, peripherals, and hardware interfaces and will emphasize problem solving, analysis, connectivity, and cabling difficulties. Cr 3.

LAC/LOS 334 Integrated Software Packages

This is a course in the use of integrated software packages for report, document, presentation, and information development activities. A variety of instructional activities stress file and data integration and explore intra- and inter-package communications. Integration of word processing, spreadsheet, database, and graphics software is featured using linking and other tools. Students are expected to produce documents, spreadsheets, database reports, and presentations which take full advantage of inter-operability, communication, translating, linking, and sharing functions. Prerequisite: LAC 150 or equivalent. Cr 3.

LAC/SBS 340 Language Acquisition and Literacy Development

This course provides students with opportunities to apply knowledge of fundamental principles and means of investigation used in the study and explanation of language acquisition and literacy development. It plays a foundational role in fostering students' understanding of literacy, which is key to their development as professionals charged with fostering children's literacy development. Cr 3.

Lewiston-Auburn College Teaching Methods Courses**LAE 200 Education in the U.S. with Field Experience**

This introductory course combines the study of education in the United States with an examination of its historical perspectives. The course introduces the student to the relationship between schools and society while developing the student's personal philosophy of education. A two-and-a-half hour per week field experience component allows the student to acquire a better understanding of the teaching profession in a school setting. This is an excellent course for those who wish to explore an interest in teaching. Cr. 4

LAE XXX Exceptional Learners

Submitted for approval to the curriculum committee

LAE/SBS 306 Adolescence

This course is an overview of the psychological and social dimensions of adolescent development, including consideration of gender and group differences in the experience of the physical, cognitive, and social transformations of adolescence. Cr 3

LAE 320 Applied Skills with Field Experience

Submitted for approval to the curriculum committee

LAE XXX College/Higher Education Practicum

Submitted for approval to the curriculum committee

LAE 450 Methods of Secondary Teaching of English

Submitted for approval to the curriculum committee

LAE/HUM XXX Internship

Submitted for approval to the curriculum committee

LAE 480 Portfolio Seminar

This course is designed to integrate content area study, educational pedagogy, and school field experiences. This course builds upon the principles of learning to teach all subjects and supports students in reflecting upon the related internship, curriculum design and developing appropriate portfolio exhibits. LAE 480 is an intensive supervised internship experience in applying knowledge and skills to the practice of teaching. This course is taught in conjunction with LAE 490, Student Teaching.

LAE 490 Student Teaching

This internship experience is supported by a 3-credit co-requirement (LAE 480: Portfolio Seminar) and activities completed in the internship placements allow the student to complete assignments graded in seminar. Prerequisites: Successful completion of Praxis I and II and completion of applicable methods courses with at least a B average.

Extended Programs/Masters Degrees/Jump Start

B.S. in Nursing

The entry-level baccalaureate program in nursing is offered at Lewiston-Auburn College through the USM School of Nursing. Students admitted to this program at LAC will be able to complete all their coursework in Lewiston. The program is open to traditional first-year students and to adult learners. Full- and part-time options are available. For more information about this program, contact (207) 753-6624. Refer also to the School of Nursing section of this catalog for specific program information.

RN to B.S. Option

In recognition of the need for many registered nurses to earn a baccalaureate degree, the School of Nursing and offers the RN to B.S. option at LAC. All courses required in this program are offered at LAC, and most classes meet once a week. Most students are part-time. For more information about this program, contact (207) 753-6624. Refer also to the School of Nursing section of this catalog for specific program information.

Graduation requirements for extended degree programs can be found under their respective academic colleges.

Master of Arts in Leadership Studies

The master's degree in leadership studies supports the development of organizational and community leaders who seek to build a deep understanding of the dynamics of leadership, the convergence of leadership with other human relations, and the role of the individual as leader in society. This is an interdisciplinary professional program that blends the social and behavioral sciences and the humanities to explore the complex set of leadership issues and challenges that go beyond a particular subject or field of work. Graduates of the program will attain a mastery of leadership theories and skills that enable them to perform successfully in leadership roles in their work organizations, their communities, and the world. The Master of Arts in Leadership Studies program is made up of 21 credits of required core classes, 9 credits of electives, and 6 credits of a capstone seminar and thesis or project. Please refer to the graduate catalog for more information.

4+1 Option

The leadership studies 4+1 curriculum allows students to earn both a bachelor's and a master's degree in five years (depending on student's full- or part-time attendance). Students focus on their bachelor's degree requirements during their first three years; a mix of undergraduate and graduate requirements in their fourth year; and exclusively graduate requirements in the fifth year. Students in the 4+1 program may use up to 12 credits of graduate work for both the undergraduate and graduate degrees (taking the place of free elective credits in the undergraduate program). Contact the Student Success Center for an advising appointment or more information at (207) 753-6536

Master of Occupational Therapy (MOT) Degree

Occupational therapy (OT) is a health and human service profession that recognizes humans as occupational beings. People define who they are by what they do, or by the occupations in which they engage. Occupational therapists use meaningful occupation as interaction to help people of all ages maximize wellness and perform the skills they need to participate as fully in society as possible. Occupational therapists intervene with people who are experiencing varying degrees of activity impairment as a result of developmental, physical, psychological, or environmental dysfunction. Occupational Therapists help people develop, compensate for, or regain the skills necessary for participation in meaningful life roles and skills of self-care, work, and leisure.

A master's degree in occupational therapy is offered for people who have an undergraduate degree in a field other than occupational therapy. Regardless of major, students interested in applying to the MOT program must complete the prerequisites listed below. Prerequisite courses must be passed with a grade of at least B (3.0). In addition, all science prerequisite courses must have been taken within six years prior to the fall semester for which the student is applying. Completing the prerequisites does not guarantee admission to the occupational therapy master's program. For additional information concerning the application process and requirements, refer to the graduate catalog, or contact the LAC coordinator of graduate programs at (207) 753-6523.

<i>Undergraduate Occupational Therapy Prerequisites</i>	<i>Credits</i>
College Algebra	3
Introduction to Statistics (such as MAT 120 or LCC 150)	3
College-level English – focused on writing	3
Introduction to Sociology (or an upper level sociology or SBS course)	3
Abnormal Psychology (or Psychopathology)	3
Human Growth and Development (lifespan course) or Developmental Psychology	3
Introduction to Physics and Lab	4
Human Anatomy and Physiology I with Lab	4
Human Anatomy and Physiology II with Lab	4
Medical Terminology	1-3

Certificate of Graduate Study in Occupational Therapy:(Preparation for) Return to Practice

This certificate program is for occupational therapists who have been out of the field for a period of time and their certification and/or license may have lapsed. This certificate program will provide updated knowledge and skills to help therapists prepare for a successful and safe return to occupational therapy practice. (18 credits)

Program Content and Credit Hours: (8 credits)

OTH 502	Introduction to Occupation	3 credits
OTH 503	The Reflective Practitioner	2 credits
OTH 507	Ethics and Social Justice	3 credits

Choice of 1 Theory and Practice Course (7 credits)

OTH 505	Impact of Mental Health on Occupational Performance	5 credits
with		
OTH 518	– Group Process for Practice	2 credits
OTH 603	Occupational Performance in Adulthood	7 credits
OTH 604	Occupational Performance: Infancy through Adolescence	7 credits
	Level II Fieldwork in Practice Area of Interest – 6 weeks	3 credits

Jump Start Option

Students may complete their undergraduate and graduate education in five (5) years by selecting this option. Students (WHO IDENTIFY AS MOT JUMPSTARTERS AND) who are matriculated into an LAC undergraduate program (OR THE HEALTH SCIENCE UNDERGRADUATE PROGRAM IN GORHAM) must apply to the MOT program in fall of their junior year. They must complete the following by August of the year they plan to enter the program:

1. USM Core curriculum requirements;
2. Academic major requirements; and
3. MOT prerequisite requirements.

The Jump Start option does not guarantee admission to the MOT program. Students must qualify in the same manner as any other applicant to the MOT program. Contact the Student Success Center for an advising appointment or more information at (207) 753-6536.

The Master of Occupational Therapy is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4270 Montgomery Lane, P.O. Box 31220, Bethesda, MD 20824-1220. AOTA's telephone number is (301) 652-AOTA. Graduates of the program will be eligible to sit for the national certification examination for the occupational therapist administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be an Occupational Therapist, Registered (OTR) and be eligible to practice. Most states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT certification examination. Please refer to the graduate catalog for more information.

LAC Minors, Concentrations, and Certificate Programs

Minor in Information Technology (IT) Minor/Concentration

Lewiston-Auburn College offers a minor that can be substituted for the LOS concentration, or taken separately as a minor by students in any degree program. The IT minor is offered in collaboration with Central Maine Community College (CMCC) which provides several of the required courses. Students must be admitted separately into the minor in order to enroll in these CMCC courses. The IT minor requires completion of the following LAC courses (21 credits):

Required: (21 credits)

Prerequisite:

MAT 108	College Algebra (or equivalent) LCC
310	Science, Technology, and Society
LOS/LAC 318	Database Management
LOS/LAC 334	Integrated Software Packages

The following required courses are offered at Central Maine Community College:

LOS/LAC 319	Networks I
LOS/LAC 320	Networks II
LOS/LAC 321	Introduction to PC Repair/Operating Systems

Students may also wish to take::

LOS/LAC 307	Web Design
-------------	------------

The following is offered at Central Maine Community College:

LOS/LAC 305	Programming with Visual Basics
-------------	--------------------------------

Concentration in Counseling

A concentration is a way of organizing the six required SBS elective classes.

This concentration provides students with an introduction to theory, topics, and skill areas relevant to professional applications in counseling. Organizing the choice of SBS electives through adoption of this concentration strengthens students' preparation for entry into variety of positions in or related to the *helping* professions, as well as for the pursuit of graduate study. Students doing so should complete the necessary paperwork so that the counseling concentration appears on their transcripts.

Two foundational courses are required, plus one each from categories below. Substitutions must be approved by a faculty adviser.

Foundational courses for the concentration in Counseling:

SBS 311	Theories of Personality
SBS 411	Counseling and Psychotherapy

Choose one course from each of the following four groups of courses. Any substitutions must be approved by faculty advisor:

Psychosocial Disorders and Services:

SBS 303	Abnormal Psychology
SBS 346	Introduction to Social Services
SBS 348	Responding to Mental Health Crisis in the Community
SBS 350	Psychosocial Disorders of Childhood and Adolescence

Diversity and Multiculturalism:

SBS 316	Diversity in the Workplace
SBS 345	Race, Class, Gender
SBS 360	Culture, Behavior, and Personality
SBS 470	Study Abroad

Developmental Contexts:

SBS 305	Child Development
SBS 306	Adolescence
SBS 307	Midlife and Development
SBS 341	The Family

Applied Topics:

SBS 304	Food, Culture, and Eating
SBS 308	Health, Illness, and Culture
SBS 342	Gerontology
SBS 343	Substance Abuse
SBS 344	Violence: Causes and Control
SBS 450	Approaches to Assessing Individual Differences in Children

MHRT/C (Mental Health Rehabilitation Technician)

Any student who wants to fulfill the certificate for the State of Maine should work closely with an advisor as early as possible. The counseling concentration is approved for MHRT/C provisional level B accreditation. In addition, students can earn *full MHRT/C accreditation at LAC*, with the new MHRT/C track within the SBS Counseling Concentration. Details on courses required within this track, formally reviewed and approved by the Muskie Center for Learning, are available on SBS's webpage, http://usm.maine.edu/sbs/SBS_program_counseling.htm

Minor and Concentration in Early Childhood Studies

This minor (also available as a concentration) provides the skills needed of professionals working with young children and their families, and the academic background required for graduate study or advanced training in the field.

Course options are available in each of six content areas listed below based upon the recommendations of the National Association for the Education of Young Children (NAEYC) and our community advisors. Several courses part of the ECS Concentration/Minor have been approved toward the State of Maine EC Teacher Certification 0-5 (081 endorsement) including SBS 200J, SBS 305, EDU 336, SBS 310, SBS 341, SBS 375 and SBS 450. The Endorsement 081: Early Childhood Teacher (Birth to School Age), is for pre-K educators. Endorsement 081 is intended to support appropriate early education learning experiences by ensuring that all educators working in public school pre-K programs have specialized knowledge of early childhood development.

Also note that the Internship (LCC 450) for SBS students pursuing the ECS Concentration must be related to this focus of study. Students are advised to consult with their faculty advisors early regarding choice of internship placements. Finally, students should formally specify either a Minor or Concentration in ECS through completion of the necessary paperwork through the Student Success Center so that ECS appears on their transcript.

SBS Early Childhood Studies Concentration

An SBS ECS Concentration is simply a way of organizing the 6 required SBS electives (18 credits), one from each of the below outlined categories.

Early Childhood Studies Minor:

An ECS Minor as part of an SBS Major requires at least 4 additional SBS elective courses (12 credits) beyond the requirements of the concentration. Students majoring in programs other than SBS need only the courses outlined in the categories below to complete the ECS Minor.

Choose one course from each of the following six groups of courses. Any substitutions must be approved by faculty advisor:

Child Development

- | | |
|---------|---|
| SBS 305 | Child Development |
| SBS 309 | The Psychology of Attachment in Early Childhood |

Note: SBS 309 would be an appropriate choice in this category for students transferring in prior coursework in child development. SBS 309 is not recommended as a substitution in this category for students in other majors pursuing the Minor in ECS.

Family

- | | |
|---------|----------------|
| SBS 341 | The Family |
| SBS 399 | Family Systems |

Leadership

- | | |
|-------------|-------------------------|
| SBS/LOS 301 | Group Dynamics |
| SBS/LOS 302 | Organizational Behavior |

Systems

- | | |
|-------------|---------------------------------|
| SBS 310 | Childhood and Society |
| EDU/LAE 200 | Education in the U.S |
| SBS 346 | Introduction to Social Services |

Children and Evaluation

- | | |
|---------|--------------------------|
| SBS 350 | Psychosocial Disorders |
| SBS 375 | Infant Mental Health |
| SBS 450 | Approaches to Assessment |

Teaching/Preparing Children for Learning

- | | |
|-------------|---|
| EDU 336 | Children's Literature |
| SBS/LAC 340 | Language Acquisition and Literary Development |

Certificate in Public Health*

A Certificate in Public Health is open to all students.

The certificate in public health addresses a need for awareness of public health issues not only in Maine, but the whole world. Evolutionary and multicultural aspects of diseases and their interface with human populations are daily headlines in the media: for instance, health care systems; food utilization and governmental policies; epidemics of flu, HIV/AIDS, and drug-resistant strains of TB; as well as the threat of bioterrorism. Therefore, to prepare undergraduates, decision makers, and policy

advocates to be able to understand the multitude of public health concerns and to be able to apply that knowledge is essential to any safe and functioning society.

The following courses are required:

LOS/SBS 335	Legal Issues in Health and Human Services
SBS/SCI 336	Introduction to Public Health
SBS/SCI 337	Introduction to Epidemiology

In addition one of the following elective courses must be completed:

SBS 304	Food, Culture and Eating
SBS 308	Health, Illness, and Culture
SBS/SCI 399	Public Health Nutrition

*A minimum grade of C in each course is required to earn the certificate.

Concentration in Public Health

The concentration is intended to help SBS majors structure the choice of their electives and to prepare them to become decision makers and policy advocates. It is also intended to shape their ability to understand myriad public health concerns and their facility in applying pertinent theoretical and practical knowledge to create a safe and functioning society. Professions that utilize knowledge of public health may be in delivery of mental health services, gerontological services, or child and family services.

The following courses are required:

SBS 308	Health, Illness, and Culture
SBS/LOS 335	Legal Issues in Health and Human Services
SBS/SCI 336	Introduction to Public Health
SBS/SCI 337	Introduction to Epidemiology

One elective course will be chosen from the following:

SBS 304	Food, Culture and Eating
SBS/SCI 399	Public Health Nutrition

One elective course will be chosen from the following:

SBS 333	Death, Dying, and Denial
SBS/LOS 338	Health Care Policies
SBS 341	Family
SBS 343	Substance Abuse
SBS 344	Violence: Causes and Control
SBS 345	Race, Class and Gender
SBS 350	Psychosocial Disorders of Childhood and Adolescence
SBS/LOS 381	Introduction to Globalization
SBS 339	Ethnicity, Immigration, and Identity
SBS 399	Prevention and Wellness
SBS 399	Working with Diverse Populations

Minor in Public Health

The Minor advances students' understanding of myriad public health concerns and their ability to apply pertinent theoretical and practical knowledge to contribute to a safe and functioning society. The Public Health Minor can complement professional preparation of students working in human services and in allied health and applied sciences, including their capacity to contribute to relevant policy-making and advocacy. The Minor will also strengthen the pursuit of graduate study in Public Health and Policy. Professions that utilize knowledge of public health include medical and allied health and human services, mental health, gerontology, and child and family support. Public health approaches address the full spectrum of services, planning and evaluation.

A total of six courses are required for the Minor for students majoring in degrees other than SBS. Students matriculated as SBS majors and wishing to complete the Minor (vs. the Concentration) in Public Health must also take four additional SBS courses (in any SBS elective area) beyond the six courses listed below:

One Course from each of the following areas:

Overview of Public Health Systems
SBS/SCI 336 Introduction to Public Health

Basic concepts in Epidemiology
(must be specifically rooted in Public Health applications vs. a more general Statistics or Research Methods course)
SBS/SCI 337 Introduction to Epidemiology

Cultural perspectives on health
SBS 308 Health, Illness, and Culture

Legal and policy perspectives
LOS/SBS 335 Legal Issues in Health and Human Services

Nutrition
SBS 304 Food, Culture and Eating
SBS/SCI 399 Public Health Nutrition

One Elective (any program prefix) reflecting student's professional interests in Public Health, including from list below or, with approval of student's advisor, a course that will be equivalent in substance or intent:

- SBS 339 Ethnicity, Immigration, and Identity
- SBS 343 Substance Abuse
- SBS 344 Violence: Causes and Control
- SBS 345 Race, Class, Gender
- LOS/SBS 381 Introduction to Globalization
- LOS/SBS 436 Risk, Public Policy, and Society

Minor in Global Studies

This minor investigates the rich varieties of trans-border development and migration, nation states, and world cultural communities. Modern situations are the result of historical events, and decisions made today around the world are not made in an historical vacuum. Globalization issues are ever more vital as we reshape our local, regional, and global networks. Core issues include the different points of view embodied in concepts such as globalization and internationalization, as well as the challenges of sustainability, diversity, and justice. The dynamic between local and global issues is a central aspect of modern society, crucial to our region and important to us in developing a personal rapport with our evolving heritages and economies. Any student who wants to fulfill the minor in global studies should complete the necessary paperwork so the minor appears on their transcript. The global studies minor consists of a total of 22 credit hours. A maximum of six credits from a student's academic major may be applied toward the minor.

Requirements

Introductory Course (select one)

- SBS/LOS 381 Introduction to Globalization
- HUM 326 World History and Geography II

Context course (select one)

- GEO 101 Human Geography
- ANT 101 Anthropology: The Cultural View

Theory Course (select one)

- HUM/SBS 499 A topics in global theory course
- LOS 330 Leadership in Different Cultures
- SBS 360 Culture, Behavior, and Personality

Methods Course (select one)

- GEO 108 GIS Applications
- HUM 350 Cultural Fieldwork
- SBS 399 A topics in global methods course

Subject or Regional Studies Course (select two)

- HUM 301 French North America
- HUM 310 French Settlement in the Northeast
- HUM 325 World History and Geography I
- HUM 330 International Labor, Literature, and Arts
- HUM 340 World Indigenous and Native Societies
- HUM 342 Women Writing around the World
- HUM 499 A global topics course
- LAC 435 Place and Community
- LOS 399 A global topics course
- SBS 308 Health, Illness, and Culture
- SBS 399 A global topics course
- SCI 499 A global topics course

Capstone Courses (both required)

- LCC 480 Senior Seminar (final paper on a global theme)
- LCC 491 Capstone Seminar*

Study Abroad Courses (optional)

- HUM 490 Overseas Investigations and Comparisons
- LOS 470 Leadership Study Abroad
- SBS 470 Study Abroad

*Students will take a one-credit seminar to compile a portfolio of work in the minor, to be shared with the college or larger community in any format approved by the advising faculty member.

Minor in Women and Gender Studies

This minor is offered at Lewiston-Auburn College through USM's Women and Gender Studies Program and is open to all majors. Any student wishing to pursue the minor in women and gender studies should complete the necessary paperwork so that the minor appears on their transcript. The minor consists of a minimum of 9 credits of required courses and 9 credits of Women and Gender Studies-related courses as follows:

Both of the following (6 credits):

- WST 130I Introduction to Women and Gender Studies
- WST 201W Women, Knowledge, and Power

Either of the following (3 credits):

- WST 380 Politics of Difference
- WST 390 Contemporary Feminist Theories

Additionally, 9 credits of women's studies related courses are required (two of the courses must be at the 300-level or above). Those regularly offered at Lewiston- Auburn College include the following:

- HUM 342 Women of Color in Fiction
- HUM 451 Masculinities in U.S. Literature and Culture
- SBS/HUM 458 Motherhood: Political Institution, Cultural Icon, Defining Experience
- SBS 341 The Family
- SBS 361 The Psychology and Sociology of Women

See the women and gender studies program in this catalog for other related courses.

Minor and Certificate in French North-American Studies

(19 credits for the minor, 9 credits for the certificate[non-degree students only])

This interdisciplinary course of study focuses on the diversity of French society in North America. It weaves together a variety of subjects, such as geography, history, gender, literature, films, and current events. It also involves students in field trips to historical and cultural sites, in community service and in actual research—using formats as diverse as oral history and archeology.

Three courses are required for both the certificate and the minor. Three additional course are required for completion for students pursuing the minor which will be chosen in consultation with the director of the minor. In addition, the student must complete a capstone paper or project that integrates their work.

Any USM student may take this program as a minor. Students wishing to pursue the minor or certificate needs to complete the necessary paperwork so that the minor or certificate appears on their transcript. Prerequisite: HTY 102 Western Civilization II or HUM 326 World History and Geography II

Required:		<i>Credits</i>
HUM 301	French North America	3
HUM 310	French Settlement in the Northeast	3
HUM 460	Franco-American Community and Archival Work	3

Three supporting courses (9 credits)

Recommended:		
HUM 125	French Language and Maine Society	3
HUM 498	Independent Studies - Capstone course	1

Minor in Leadership Studies

The leadership studies minor, offered 50% or more online, is open to all students other than leadership and organizational studies (LOS) majors. Any student wishing to pursue the minor in leadership studies needs to complete the necessary paperwork so that the minor appears on their transcript. It is writing intensive and consists of 18-19 required credit hours. .

The following courses are required:

- LOS 300 Organizational Theory
- LOS 301 Group Dynamics
- LOS 350 Leadership
- LCC 370 Toward a Global Ethics*

In addition, two of the following courses must be completed:

- LOS 317 Leading Through Conflict
- LOS 330 Leadership in Different Cultures
- or**
- LOS 316 Diversity in the Workplace

- LOS 440 Organizational Change and Development

A minimum grade of C in each course is required to earn the minor

* Other 3-credit ethics courses may be accepted upon review by the program faculty.

Certificate in Leadership Studies

A certificate in leadership studies, offered 50% or more online, is open to students other than leadership and organizational studies (LOS) majors. It is writing intensive and consists of 12-13 required credit hours.

The following courses are required:

- LOS 300 Organizational Theory
- LOS 301 Group Dynamics
- LOS 350 Leadership
- LCC 370 Toward a Global Ethics*

A minimum grade of C in each course is required to earn the certificate.

*Other 3-credit ethics courses are accepted upon review by the program faculty.

Certificate in Creative Leadership and Global Strategy

A certificate in creative leadership and global strategy, offered 50% or more online, is open to all students, including leadership and organizational studies (LOS) majors. It is writing intensive and consists of 12-15 required credit hours. (LOS 330 is 3 credits; LOS 470 is 6 credits.)

The following courses are required:

- LOS 300 Organizational Theory
- either*
- LOS 330 Leadership in Different Cultures
- or*
- LOS 470 Leadership Study Abroad

- LOS 350 Leadership
- LOS 399 Deliberate Creativity and Innovation

A minimum grade of C in each course is required to earn the certificate.

Secondary Teaching Certification

These innovative programs are currently being offered at USM's Lewiston-Auburn college. Whether you are interested in being certified to teach while earning a bachelor's degree, or already possess a bachelor's degree and wish to add a teaching certificate, these programs are designed to assist you in achieving your goal. The secondary teacher certification program offers four different areas of focus or tracks, three in conjunction with the arts and humanities program and one with the natural and applied sciences program.

- Secondary Teacher Certification/Humanities-English Certificate
- Secondary Teacher Certification/Humanities-Social Studies Certificate
- Secondary Teacher Certification/Humanities-Combined English and Social Studies Certificate
- Secondary Teacher Certification/Natural and Applied Sciences-Life Science Certificate

For more information about our secondary teacher certification programs, please call (207) 753-6618, or visit the program's web site at www.usm.maine.edu/lac/teachered/.

B.A. Degree in Arts and Humanities

The Arts and Humanities program is a versatile and flexible degree program available for students who want both a solid liberal arts education and strong preparation for a wide range of career options.

The major encourages students to be agents of change in a rapidly shifting world and prepares students for careers as diverse as education, print and broadcast journalism, advertising, creative writing, government and politics, social services, and arts management, as well as for further study in a range of graduate programs and professional schools, from law and history to business and labor studies.

- Courses examine a variety of contemporary and historical issues, and do so in ways that make the past more relevant and the present more understandable.
- Courses integrate such fields as writing, history, African-American literature, photography, geography, Franco-American society, popular culture, native and indigenous issues, critical theory, gay and lesbian studies, religion, evolutionary biology, and ethnic studies.
- Certain threads run through all courses, from local, regional, and global issues to philosophy and creative thought. Classes feature small group work, discussions, and written work designed to encourage critical thinking, communication, and leadership skills necessary to advance professionally and contribute meaningfully as members of our multicultural society.
- We engage students with information literacy, offering courses in blended, online, and hyper-flexible formats.
- Our focus is to prepare students to be active, productive citizens of the world.

Total credits necessary for the degree: 120.

Prerequisite Courses (13-14 credits)		Credits
LCC 110/111	College Writing*	3/4
HUM 120/ENG 120	Introduction to Literature*	3
LAC 150	Microcomputers and Applications	3
<i>either</i>		
LCC 200	Creative Critical Inquiry#	4
<i>or</i>		
LCC 370	Toward a Global Ethic#	4

*Students must achieve a grade of C or better in these classes.

#Both classes are required as part of the Lewiston Common Core.

Program Requirements (18 credits)		Credits
HUM201	Creative Writing	3
HUM300	Introduction to Literary and Cultural Theory	3
HUM 309	United States Studies: Gender, Race and Class	3
HUM 325	World History and Geography I	3
HUM 326	World History and Geography II	3
HUM Service Learning*		3

* May be met by taking HUM 125 French Language and Maine Society, HUM 307 Creative Nonfiction, HUM 350 Cultural Fieldwork, HUM 360 Franco-American Community and Archival Work, HUM 370 Literacy Studies, or HUM 498 Independent Study that is specially designed to meet this requirement.

Interdisciplinary Courses (12 credits)	Credits
Students will select four interdisciplinary courses	12
<i>These courses are listed under Course Descriptions and marked with **</i>	

Electives (15 credits)

All of these courses must be at the 300-400 level, unless approved by two faculty members.

Students must obtain their advisor's approval before taking any course without the HUM prefix if they want the course to count toward the major.

No more than four courses (12 credits) lacking the HUM prefix can be taken for credit within the major unless written approval is obtained from at least two faculty members.

Lewiston Common Core (45 credits)

Entry Phase		Credits
LCC 100	Profiles, Proficiencies, Portfolios	1
LCC/SCI 130	The Biology of Human Health w/Lab	4
LCC 150	Statistics for Informed Decision Making	3
LCC 200	Creative Critical Inquiry into Modern Life (writing instruction) (if not taken as a prerequisite)	4
LCC 220	U.S. Democracy: Origins and Development	3
LCC/SCI 230	Environmental Science, Policy, and Sustainability w/Lab	4
LCC 250	Thinking About The Arts, Thinking Through The Arts	3
Middle Phase		Credits
LCC 310	Science, Technology and Society	3
LCC 320	Sustaining Democracy	3
LCC 340	Exploring Careers, Choosing Life Roles	1
LCC 350	Global Past, Global Present	3
LCC 370	Toward a Global Ethics (writing instruction) (if not taken as a prerequisite)	4
Capstone Phase		Credits
LCC 400	Finding Your Calling	1
LCC 410	Aesthetic and Political Dimensions of Language	3
LCC 430	Place and Community	3
LCC 450	Internship	3
LCC 480	Senior Seminar (writing instruction)	3
LCC 490	Portfolio Presentation	1

* Descriptions of LCC classes may be found in the introductory portion of the Lewiston-Auburn College section of this catalog.

General Electives (17-18 credits)

Arts and Humanities students may choose to use their general and major electives to sample other disciplines or to focus on a particular area of interest... writing, research, history ... or they may choose to declare one of the minors or concentrations in the Arts and Humanities or other disciplines. General electives, for example, may be used to pursue a concentration in counseling, early childhood studies, or information systems.

One of the greatest strengths of the Arts and Humanities degree is the flexibility and range of options that it offers.

Certification and Degree Completions

Secondary Teacher Certification in the Arts and Humanities

This major is jointly offered with the secondary teacher certification program at USM's Lewiston-Auburn College. Students may elect a concentration in one of three areas: English, social studies, or combined English and social studies. Each concentration requires a sequence of courses, which may be viewed in the secondary teacher certification program section in this catalog. This allows a student to graduate in four years with an arts and humanities degree, as well as secondary teacher certification. For more information, contact Jim Bradley at (207) 753-6618.

Liberal Studies—Degree Completion (45 credits)

Some students may choose this track, which is designed to assist transfer students and those with professional training or life experiences to achieve their degree. Depending on transcripts and other forms of accreditation, courses and experiences will be assessed for transfer into the major. Entry into this track requires prior approval by the arts and humanities faculty.

Many co-curricular activities are available for students in this major as well as all students at USM:

The Learning Workshop is a lively tutoring center staffed by a director, peer tutors, and professional tutors. Peer tutors receive training in tutoring pedagogy, have multiple opportunities to observe tutoring sessions, and begin supervised tutoring as they work toward their College Reading and Learning Association certification. Experience as a writing peer tutor is particularly valuable for future teachers, writers and editors.

The Literati is a student group that meets throughout the semester to encourage a creative community and develop the writing talents of its members. Each semester, the members of the Literati sponsor Café Night, an open microphone event of original readings (typically poetry and fiction), short film, and song. The Literati members also publish *Sneakers, Stiletos and Steeltoes*, the student literary magazine. Student editors solicit submissions, consult with writers, design layout, negotiate printing contracts and develop marketing materials.

The Franco-American Collection is the oldest and largest facility in Maine devoted to Franco-American culture and history, as well as one of the three largest in the United States. It is home to a wide variety of letters, diaries, oral histories, newspapers, scrap-books, maps, audio-recordings, photographs, books, academic papers, and much more from the Androscoggin Valley, other parts of Maine, and around North America. Students are invited to participate in the Collection's many programs, which include international conferences, cultural events, stage performances, music festivals, poetry readings and other activities.

The International Students of Lewiston-Auburn (ISOLA) is a multicultural and international university-community group that promotes ethnic experience in the United States and global engagement. ISOLA sponsors a wide range of seminars, social gatherings, workshops, publications and other vehicles for exchange.

Course Descriptions

Note: Satisfactory completion of both a 100-level college writing course and a course on critical thinking (LCC200 or LCC 370, for example) are prerequisites to all courses in this major.

HUM 105 Basic Photography

This course is an introduction to black and white photography, designed to help students gain understanding through “hands-on” photographic work. Lectures include classroom discussions concerning the history and aesthetics of photography, and techniques include camera and lens functions, exposure methods, basic black and white film processing, printmaking, print finishing, and presentation techniques. Cr 3.

HUM 120 / ENG 120 Introduction to Literature

This course is designed to introduce students to four basic literary genres: poetry, fiction, nonfiction, and drama. Through a combination of lectures, small group discussions, exercises, readings, and weekly writing assignments, students will work toward mastering a basic understanding of literature. Students will learn how to improve their writing, as well as their ability to read and analyze literature. Cr 3.

HUM 125 French Language and Maine Society **

This is an introductory course for the French language. Students will also learn about the cultural and linguistic context of French society in Maine and eastern North America. Students will use the French language they are studying to work with the Franco-American Collection and Maine Franco-American communities. Cr 3.

HUM 201 Creative Writing

This course is an introduction to the basic principles and practices of writing memoir, fiction, flash fiction, and poetry. Students will be exposed to a variety of writing modes through exercises and engagement with literary texts. Emphasis is on using imaginative and precise language and on assembling a portfolio of revised student writing. Prerequisite: LCC 110. Suggested preparation: LCC 250. Cr 3.

HUM 213 Metaphor in Literature, Science, and Religion **

This course is a comparative study of literature, science, and religion, focusing on aims, methods, and values, and on the nature of truth and creativity in each discipline. Readings in fiction, poetry, religion, and modern physical and biological science provide a basis for discussion of the metaphoric nature of literary, religious, and scientific discourse. Our goal is to demonstrate that all three areas of human endeavor rely heavily on the metaphoric nature of language in their search for meaning and truth. This course consists of careful reading of texts, active class discussion, and out of class essays. No college science background required. Cr 3.

HUM 230 Digital Photography

Working with digital cameras, students will learn to see photographically in color. They will gain a better understanding of color relationships using color as design elements and the overall artistic and aesthetic uses of color photography. Students will learn controls of their camera's software. Adobe Photoshop software will be the primary tool used for image control and manipulation. Cr 3

HUM 250 Song as Literature

This course is designed to introduce students to the role of the song in our cultural heritage as a fundamental literary genre and a remarkably democratic and influential art form. The course traces the evolution of the story song from the epic ballads of Europe and North America through the development of songs for religious, political, nationalistic and purely entertainment purposes. Cr 3.

HUM 251 Masculinities in U.S. Literature and Culture **

This course begins with the notion that masculinity is as complex and variable a cultural category as femininity. Given this premise, we will examine literature and popular forms of mass media that take masculinity as a primary theme. Cr 3.

HUM 260 Media Literacy and Theories of Popular Culture **

In order to foster a critical approach to modern media, this course applies theory and analysis to popular culture texts. What do we learn about our modern industrial consumerist society from the texts it produces? What makes something popular, and how do we detect a text's projected world view? We will study TV, film, photography, graphic novels, the Internet, and music. Framing popular culture as a mass-media driven phenomenon, we will explain the deeper significance of our society using a selection of critical and theoretical commentary. Cr 3.

HUM 300 Introduction to Literary and Cultural Theory **

This course examines literature and literary theory to understand how language shapes us and how we, in turn, shape language. How are meanings made? How are they received by readers? How do ideas about language change over time and across cultural divides? Why do we value some writings over others? Why is political and other discourse so easily manipulated? We will examine these and other questions as we read from major writers of the 19th and 20th centuries, alongside various approaches to literary and cultural and study. Prerequisite: ENG 100. Cr 3.

HUM 301 French North America

This is a survey course about the diverse French society in North America. From Maine to Haiti and from Sonora to the Yukon, the French have adapted to an array of niches on our continent. This course encourages not only a review of the well known communities, but also research of lesser known ones. Cr 3-6.

HUM 305 Creative Writing: Poetry

This course is designed to introduce students to the art and practice of writing poetry. Organized as a workshop, it features close examination of the student's own writing as well as the work of outstanding contemporary poets. Prerequisite: HUM 201. Cr 3.

HUM 306 Creative Writing: Fiction

This course is designed to introduce students to the art and practice of writing fiction. Organized as a workshop, it features close examination of the student's own writing as well as the work of outstanding contemporary fiction writers. Prerequisite: HUM 201. Cr 3.

HUM 307 Writing Creative Nonfiction

This course explores the literary terrain between imaginative literature and journalism. Students study the fictional techniques employed by journalists and examine the questions their work poses about the uneasy boundaries between fact and fiction. Students will produce their own extended non-fiction essay. Cr 3.

HUM 309 United States Studies: Class, Race and Gender **

Drawing on political and social history and imaginative literature, this course will explore efforts that have been made to overcome the discrimination and oppression that keep U.S. democracy from achieving the ideals of liberty and justice on which it was founded. Cr 3.

HUM 310 French Settlement in the Northeast

This course will look at the exciting dynamics of French settlement in the northeastern part of America, from its beginnings in the 16th century to the present. The ancestral homeland of French North America included much of what today is called southern Québec, northern New England, and Atlantic Canada. From this cultural "hearth," French settlers then expanded to create many distinctive societies in new areas of the continent. We will address the varieties of cultural identity and old stereotypes, as well as search out new directions in which French society is going in the Northeast. Hyper-flexible course; the online section is only open with the professor's permission. Cr 3.

HUM 313 What is 'Race'? **

The concept of race is one of the most contentious ideas of modern society. This course will examine the history and biology of race, and trace the development of the idea of race in American culture. Students will examine evolution to understand the diversity in the human species. They will integrate this information with historical attempts to define race so as to gain a better understanding of race and racial issues. Cr. 3

HUM 318 Photography and Poetry: Two Ways of Speaking

This course deals with two modes of creative expression: photography and poetry. Its purpose is to help students read intelligently and sensitively both photographs and poems and to assist them in exploring connections between the two types of expression. Cr 3.

HUM 320 Early African American Literature and Culture

This course studies the history of eighteenth- and nineteenth-century African-American literature by examining transcriptions of oral folk productions, slave narratives, speeches, autobiography, essays, poetry, and prose fiction in order to trace the development of African-American literary culture. The social, political, and cultural contexts of the works will also be considered. Cr 3.

HUM 325 World History and Geography I

This is the first in a series of two courses that are designed to help students develop an understanding of and an appreciation for world history and geography. The course's goal is to provide students with a humanistic background from which to better comprehend global complexities. This course will cover the period from prehistory to the age of modern expansion, from about 50,000 to 500 years ago. Prerequisite: Only students with more than 45 credits are permitted to take this course Cr 3.

HUM 326 World History and Geography II

This is the second in a series of two courses that are designed to help students become more knowledgeable participants in today's rapidly changing world. Its goal is to make links between global history and modern world situations, as well as find the locations on a map. In other words, it is a primer in "global citizenship." This course covers the period from the Age of Modern Exploration (ca. 1500) to the present. Prerequisite: Only students with more than 45 credits are permitted to take this course. Cr 3.

HUM 330 International Labor, Literature, and the Arts **

This is an interdisciplinary course designed to develop an appreciation for the diverse forms of work and labor-organizing around the world and their expression through literature and the arts. We will look at songs, films, murals, magazines, poetry, cartoons, novels, short stories, biographies, and more. Although we will consider work historically, our primary goal is to develop an international view of labor in the modern world. Cr 3.

HUM 332 Religion in Culture and Politics **

This course will look at one or more historic or contemporary issues or events in order to explore the connection between religion and the origin, progress and outcome of each issue or event under consideration. Cr 3.

HUM 336 Cross Cultural Poetry of Traditional and Alternative Spiritualities **

This course will engage the fundamental texts and related poetry from a variety of spiritual traditions from both East and West. The course will also strive to make clear the special place occupied by poetry in both the experiencing and the expressing of spiritual truths. Cr 3.

HUM 340 World Indigenous and Native Societies **

This is an interdisciplinary course designed to develop an appreciation for the diversity of native societies around the world. Some important points for us to consider are the differences and disparities between the developed nations and the fourth world, as well as the ambiguities of terms like "native," "traditional," "indigenous," "aboriginal," and "civilized." We will also consider case studies of modern native societies, such as the Mayan, Kurd, and Basque peoples, looking not just at their traditional histories and cultures, but also at some of their contemporary movements, including the EZLN, PKK, and ETA rebellions. We will seek to find common issues faced by native peoples around the world, as well as to identify problems unique to each group. A particular focus of this course will concern some of the Eastern Algonquian nations of Maine and the Northeast, including the Androscoggin, Almouchiquois, and Abenaki. Cr 3.

HUM 342 Women Writing around the World **

This course examines critically acclaimed imaginative works by contemporary women writers to explore issues of identity in an international context. Authors include Marjane Satrapi, Edwidge Danticat, Jhumpa Lahiri, Michelle Cliff, Cristina Garcia, and Bharati Mukherjee. A primary objective will be to identify and investigate the complexities of multiple-situated selves across geographic borders as they are represented in literature. To do this, we will look at common themes of racial and cultural hybridity (intermixture), the legacies of colonialism, and the tension between local allegiances and global realities. Cr 3.

HUM 350 Cultural Fieldwork **

This course is designed to help students develop new ways to think about their place in the world. They will visit and meet with professionals from museums, archeological sites, ecological preserves, industrial plants, and others. As a fieldwork course, emphasis will be placed on projects done by students themselves. They will collect oral histories, search for lost documents, assess geographic and environmental problems, and do archeological site surveys. We will also develop a public project, such as the designation of a historical site. This course satisfies the HUM service learning requirement. Cr 3-6.

HUM/SBS 366 Transforming Words: Poetry and Psychologies of Change **

This course examines the interrelationships between poetry and psychology, with a focus on transformations of meaning in words and lives. Topics will include the varying functions of poetry over the life span, poets' reflections on how and why they write, poetry as political witness and community catalyst, therapeutic uses of poetry, and the distinctive qualities of "poetic" language. Students have the option of pursuing community-based projects involving poetry. Blended course. Cr 3.

HUM 370 Literacy Studies

This course introduces the field of literacy studies through an examination of theories and activities involving literacy. It begins with an inquiry into definitions of literacy and goes on to trace a brief history of thinking about literacy with special attention to cross-cultural and transnational issues. This course satisfies the service learning requirement. Cr 3.

HUM 389 Sexualities in Literature and Film **

This course will focus on social difference as it concerns the intersection of sex, sexuality, and gender. Some questions we will address include to what extent are sex, gender, and sexuality are connected? What does it mean to say these categories are socially constructed? What are the origins of "homosexual" and "heterosexual" identities? How are bisexuality and transgender identities understood? How do writers and filmmakers represent the complexities of sexual difference and how is that difference lived through other sorts of identity categories, including race and class? Cr 3

HUM 460 Franco-American Community and Archives Work **

This course will consist of directed study and work with the Franco-American Collection. The largest repository of Franco-American documents in Maine and one of the largest in the United States, the Collection is home to a wide variety of letters, diaries, oral histories, newspapers, scrapbooks, maps, audio recordings, photographs, books, and academic papers. This diverse material comes from the Androscoggin Valley, other parts of Maine, the Northeast, and from around North America. Projects will include locating and obtaining materials, their conservation and preservation, cataloguing and accessioning documents, as well as projects of public service and community outreach. This course satisfies the HUM service learning requirement. Cr 3-6.

HUM 490 Overseas Investigations and Comparisons**

This course will consist of directed study and work outside of the usually defined "boundaries" of the United States. This can mean outside the physical borders, such as Uruguay or New Brunswick, Chiapas, or Somalia. But it can also mean outside the perceived borders of the mainstream nation state, such as work on a Lakota Sioux reserve or with Latino/Latina community in East Los Angeles. A student in this course will work closely with a faculty member to develop a project, carry it through, and produce a summary presentation. Cr. 1-6.

HUM 498 Independent Study Cr 3-6.**HUM 499 Special Topics**

A variety of topics courses have been and will be offered. These have included: Religions of the World; Buffy the Vampire Slayer: Theory, Metaphor and Fashion; and Historical Archeology Field School. Cr 3.

Secondary Teaching Certification Program at Lewiston-Auburn College

The Secondary Teaching Certification Program offers four different areas of focus or tracks:

- Humanities/English
- Humanities/English and Social Studies Combined
- Humanities/Social Studies
- Natural and Applied Sciences/Life Science*

* The Natural and Applied Sciences track may be found in that degree's section of this catalog.

Humanities/English Program

The bachelor of arts in humanities major offers the required courses for secondary teacher certification (Grades 7-12) in English in the State of Maine. Students study humanities, Common Core, and education courses, and complete a semester of student teaching in their final year. The program enables HUM students to matriculate in a four-year undergraduate program that awards them a bachelor's degree in Arts and Humanities and qualify for a State of Maine teaching certificate. (Total credits 120)

The scope and sequence of the program is as follows:

Year One (26 credits)

Fall		Credits
LAE 200	Education in US w/ Field Experience	4
LCC 110	College Writing	3*
LCC 220	US Democracy	3
Elective		3
Spring		
ENG 120	Introduction to Literature	3*
LCC 150	Statistics	3
LCC 200	Creative Critical Inquiry	4
Elective		3

Year Two (31 credits)

Fall		Credits
HUM 300	Texts and Meanings	3***
LAE XXX	Exceptional Learners	3
LCC 250	Thinking about the Arts	3
Elective		3*
Elective		3
Spring		
ENG 360 or 361	Shakespeare	3*
HUM 201	Creative Writing	3*
LAE/SBS 306	Adolescence	3
LCC 130	Biology of Human Health	4*
Elective		3

Year Three (30 credits)

Fall		Credits
HUM 320	African American Literature and Culture	3*
LAE 320	Applied Skills w/Field Experience	4
LCC 320	Sustaining Democracy	3
LCC 350	Global Past and Present	3
Elective		3*
Spring		
HUM 307	Creative Nonfiction	3*
LAE XXX	College/Higher Education Practicum	2**
LCC 370	Global Ethics	4
Elective		3*
Elective		2

Year four (33 credits)

Fall		Credits
ENG 382	Earlier American Novel	3*
LAE 450	Methods of Secondary Teach of English	3
LAE/HUM XXX	Internship	3
LCC 410	Dimensions of Lang	3
Elective		3
Spring		
LAE 480	Portfolio Seminar	3
LAE 490	Student Teaching	9
Elective		3*
Elective		3

*English certificate obtained by at least 24 credit hours in English.

The following courses are Maine Department of Education approved English electives:

- HUM 201 Creative Writing
- HUM 250 Song as Literature
- HUM 305 Creative Writing: Poetry
- HUM 306 Creative Writing: Fiction
- HUM 307 Writing Creative Nonfiction
- HUM 320 Early African American Literature and Culture
- HUM 342 Women Writing Around the World
- HUM/SBS 366 Transforming Words: Poetry and Psychologies of Change
- HUM 389 Sexualities in Literature and Film,
- HUM 460 Franco-American Community and Archives Work.

** College/HEP (Higher Education Practicum) will consist of two, 1-credit modules added to a HUM course by agreement of the instructor and student over the course of the program. ***HUM 300 is the Arts and Humanities "writing course" and therefore counted as a LCC course.

Students must also successfully pass Praxis I and II.

Note: Courses designated with a number of XXX represent a course that is currently under development.

Humanities/Combined English and Social Studies Program

The bachelor of arts major in humanities offers the required courses to obtain secondary teacher certification (Grades 7-12) in combined English and Social Studies in the State of Maine. Students study humanities, Common Core, and education courses, and complete a semester of student teaching in their final year. The program enables HUM students to matriculate in a four-year undergraduate program that awards them a bachelor's degree in Arts and Humanities and qualify for a State of Maine teaching certificate. (Total credits 120)

The scope and sequence of the program is as follows:

Year One (29 credits)

Fall		Credits
LAE 200	Education in US w/ Field Experience	4

Note: Courses designated with a number of XXX represent a course that is currently under development.

B.S. Degree in Leadership and Organizational Studies

The degree in Leadership and Organizational Studies (LOS) combines a liberal arts program with the study of how organizations operate and how leadership functions. It emphasizes the critical need to understand and work with people, the dynamics of change, the interdisciplinary nature of organizational operations, and the practical application of theories and leadership concepts.

- Drawing on faculty from diverse backgrounds, leadership and organizational studies is designed to prepare students for work in the nonprofit, public, or private sectors.
- Graduates of this program work in human resources, information technology, health care, education, training and development, and many other fields. Many also go on to various graduate programs.
- The core courses of the LOS major will introduce students to the theory and practice of organizational behavior and leadership with emphasis on communication skills, problem solving, critical thinking, key quantitative skills, and team functioning.

Prerequisite Courses (4 credits)*

LAC	112	Microsoft Excel—Spreadsheets (prerequisite for LOS 304)	1 Cr
LOS	250	Organizational Accounting or its equivalent (prerequisite for LOS 304)	3 Cr

*It is assumed that all students will be computer literate. If you need help in this area please contact the LAC computer tutors for help.

- Note: Before taking 300-level courses in this major, students must have completed a 100-level college writing course with at least a grade of C+ (or an equivalent).
- No more than two courses from outside the major may be used toward completion of the requirements for the major without permission of an advisor. Students who believe they have a very good case for more transfer credit may write a formal appeal for consideration by the full LOS faculty.
- A further critical component of the LOS degree program is the internship, selected with the assistance of the director of field experience. Students identify an organization that will enable them to evaluate potential career opportunities and develop workplace skills. Prior to the internship, students participate in seminars where they learn aspects of career decision making and launching a successful career.

Requirements for the Major (32 credits)

			<i>Credits</i>
LCC	150	Statistics for Informed Decision Making	3
LCC	370	Toward a Global Ethics	4
LCC	450	Internship	3
LCC	480	Senior Seminar	3
LOS	300*	Organizational Theory	4
LOS	301	Group Dynamics	3
LOS	304	Organizational Budgeting	3
LOS	329	Research Methods	3
LOS	350*	Leadership	3
LOS	440	Organizational Change and Development	3

*All LOS majors must earn a grade of B- or better in both LOS 300 and LOS350.

In addition to completing these specific course requirements for the major, baccalaureate degree students must meet the proficiency and residency requirements of the University of Southern Maine and complete the Core curriculum as well as a minimum of 120 credit hours of coursework.

Prerequisites for major courses may be met through specific courses, through any one of several programs of prior learning assessment sponsored by USM, or through waiver by the instructor of the course.

Please note that LCC 310 was formerly LOS 310 and simultaneously meets an LCC core requirement and counts as an LOS elective.

LOS Electives (18 Credits)

LOS Electives are listed in the Individual Minors, Concentrations, and Certificates below. They can be selected based on student interest or as concentrations, etc.

Lewiston Common Core* (LCC)(40-41 Credits)

Entry Phase		Credits
LCC 100	Profiles, Proficiencies, Portfolios (required of all students)1	
<i>either</i>		
LCC 110	College Writing: Language and Literacies,	3
<i>or</i>		
LCC 111	College Writing: Language and Literacies: Enrichment	4
LCC/SCI 130	The Biology of Human Health w/Lab	4
LCC 200	Creative Critical Inquiry into Modern Life (writing instruction)	4
LCC 220	U.S. Democracy: Origins and Development	3
LCC/SCI 230	Environmental Science, Policy, and Sustainability w/Lab	4
LCC 250	Thinking About The Arts, Thinking Through The Arts	3
Middle Phase		Credits
LCC 310	Science, Technology and Society	3
LCC 320	Sustaining Democracy	3
LCC 340	Exploring Careers, Choosing Life Roles	1
LCC 350	Global Past, Global Present	3
Capstone Phase		Credits
LCC 400	Finding Your Calling	1
LCC 410	Aesthetic and Political Dimensions of Language	3
LCC 430	Place and Community	3
LCC 490	Portfolio Presentation	1

* Descriptions of LCC classes may be found in the introductory portion of the Lewiston-Auburn College section of this catalog.

General Electives (25-26 Credits)

Students can select any courses they choose to fulfill the general electives. This is an opportunity to explore interests, broaden knowledge, and/or increase the diversity of one's educational skills.

Individual Minors, Concentrations,* and Certificates

While taking the LOS core, each student will work closely with a faculty advisor to identify six LOS electives (18 credits) to complete the requirements for the major.

LOS students may also wish to consider the Global Studies minor offered at LAC. More information may be found in the introductory portion of the Lewiston-Auburn College section of this catalog.

*When choosing electives, students may wish to consider the following concentrations as a way of focusing their elective choices into a particular area of study.

Minor in Information Technology (IT)Minor/Concentration

Lewiston-Auburn College offers a minor that can be substituted for the LOS concentration, or taken separately as a minor by students in any degree program. The IT minor is offered in collaboration with Central Maine Community College (CMCC) which provides several of the required courses. Students must be admitted separately into the minor in order to enroll in these CMCC courses. The IT minor requires completion of the following LAC courses (21 credits):

Requirements for the minor: (21 credits)

Prerequisite:

MAT	108	College Algebra (or equivalent)
LCC	310	Science, Technology, and Society
LOS/LAC	318	Database Management
LOS/LAC	334	Integrated Software Packages

The following required courses are offered at Central Maine Community College:

LOS/LAC	319	Networks I
LOS/LAC	320	Networks II
LOS/LAC	321	Introduction to PC Repair/Operating Systems

Students may also wish to take:

LOS/LAC	307	Web Design
---------	-----	------------

The following is offered at Central Maine Community College:

LOS/LAC	305	Programming with Visual Basics
---------	-----	--------------------------------

Human Resources Concentration

This concentration requires completion of the following courses:

LOS	302	Organizational Behavior
LOS	312	Human Resource Management
LOS	314	Employee Relations
LOS	315	Training and Development
LOS	316	Diversity in the Workplace
LOS	327	Leading through Conflict

Human Services Concentration

This concentration requires completion of 6 of the following courses:

LOS/SBS	302	Organizational Behavior
LOS	322	Leadership in the Public/Nonprofit Sectors
LOS	325	State and Local Government
LOS	335	Legal Issues in Health and Human Services
LOS	338	Health Care Policies
LOS	373	Managing Nonprofits
LOS	430	Applied Social Policy

Other LOS Electives include:

LCC	310	Science, Technology, and Society
LOS	323	The Media and Politics
LOS	330	Leadership in Different Cultures
LOS	360	Deliberate Creativity and Innovation
LOS	361	Entrepreneurship
LOS	381	Introduction to Globalization
LOS	412	Topics in Human Resource Management
LOS	436	Risk, Public Policy, and Society
LOS	470	Leadership Study Abroad
LOS	487	Consulting in Organizations

Certificate in Leadership Studies

A certificate in leadership studies, offered online or face-to-face, is open to students other than leadership and organizational studies (LOS) majors. It is writing intensive and consists of 12-13 required credit hours.

The following courses are required:

LOS	300	Organizational Theory
LOS	301	Group Dynamics
LOS	350	Leadership
LCC	370	Toward a Global Ethics*

A minimum grade of C in each course is required to earn the certificate. If a student completes the certificate and switches to the LOS major, a B- or better must be earned in both LOS 300 [and](#) 350

*Other 3-credit ethics courses are accepted upon review by the program faculty.

Certificate in Creative Leadership and Global Strategy

A certificate in creative leadership and global strategy, offered 50% or more online, is open to all students, including leadership and organizational studies (LOS) majors. It is writing intensive and consists of 12-15 required credit hours. (LOS 330 is 3 credits; LOS 470 is 6 credits.)

The following courses are required:

LOS	300	Organizational Theory
		Either
LOS	330	Leadership in Different Cultures
		or
LOS	470	Leadership Study Abroad
LOS	350	Leadership
LOS	399	Deliberate Creativity and Innovation

[A minimum grade of C in each course is required to earn the certificate. If a student completes the certificate and switches to the LOS major, a B- or better must be earned in both LOS 300 & 350]

LOS Completion Degree Program (Integrative Professional Studies Major)

The Integrative Professional Studies major is intended to meet the needs of transfer students who have a variety of academic backgrounds, employment experience, and career aspirations. Students in the program complete their degrees through a combination of LOS courses, transfer credits, and prior learning assessment.

Requirements for students pursuing this major are:

- The completion of at least 120 credits.
- Satisfaction of the 30 credit hours residency requirement for USM.
- Satisfaction of the Core requirements of USM.
- Completion of at least 18 credits in the LOS curriculum while matriculated at USM-LAC, with the equivalent of a B- or better earned in both LOS 300 and 350.
- Completion of at least 36 credit hours that satisfy the LOS curriculum requirements (can include prior learning assessment credits and credits transferred into the LOS curriculum which meet professional studies criteria).

Students selecting this major work closely with advisors to facilitate transfer credit, prior learning assessment, and course selection.

4+1 Option

The leadership studies 4+1 curriculum allows students with organizational experience to earn both a bachelor's and a master's degree in five years (depending on student's full- or part-time attendance). Students focus on their bachelor's degree requirements during their first three years; a mix of undergraduate and graduate requirements in the fourth year; and exclusively graduate requirements in the fifth year. Students in the 4+1 program may use up to 12 credits of graduate work for both the undergraduate and graduate degrees (taking the place of free elective credit in the undergraduate program). Contact the Student Success Center at (207) 753-6536 for more information.

Course Requirements: Leadership and Organizational Studies

LCC 310 Science, Technology, and Society

This course will examine not only the classic question of how technology shapes society, but also the less frequently considered question of how society shapes technology using timely, internationally focused examples to illustrate the social, political, economic, and cultural dimensions of technology. Through an intercultural perspective, students will grow to understand that technological changes and events are a worldwide phenomenon. Contemporary themes, including nuclear threats, television violence, and the environment will help students understand the forces that produce technological change and the consequences that result. This course was formerly listed as LOS 310 and still counts as an LOS elective. Cr 3.

LOS 250 Organizational Accounting

This course will introduce students to the basic concepts of accounting that they will need to understand financial processes in private, public, and not-for-profit organizations. Cr 3.

LOS 300 Organizational Theory

A foundational course for students of leadership, this course provides a solid overview of organizational dynamics. Current organizational issues are analyzed using structural, human resource, cultural, and political frameworks and the case method. Issues examined include leadership, organizational design, planning, change, decision making, communication, and control. This is an excellent course for students interested in how organizations work.

Students in the LOS major must complete this required course with a grade of a B- or better as a condition of their degree. This course includes writing instruction. Prerequisite: familiarity with the Blackboard online learning community. Completion of College Writing with a C+ or better is required for LOS majors and preferred for all other students. Cr 4.

LOS/SBS 301 Group Dynamics

This course gives students an understanding of how people behave in groups and the skills needed by group members to participate effectively in group activities. It provides a theoretical foundation for how groups function, with focus on group process and development; and it discusses how these theories can be applied to a wide range of group settings. This course uses experiential techniques to help students develop critical skills and understanding of group dynamics. Cr 3.

LOS/SBS 302 Organizational Behavior

This course examines human behavior in organizations: individual, group, and organizational processes that impact workplace behaviors and organizational life. The focus is on understanding factors that contribute to organizational effectiveness and the major challenges facing organizations today. We will cover topics such as individual and organizational learning, individual values and motivation; interpersonal communication and work team dynamics, leadership and emotional intelligence, power and influence, organizational culture and change. Students will engage in experiential and skill-building activities and apply conceptual frameworks to their real-life work experiences. Cr

LOS 304 Organizational Budgeting

This course assesses the theory and practices of financial management in different forms of public and private organizations and emphasizes the relationship between financial decision making and organizational policy and strategy. Topics covered will include fundamental accounting principles, financial forecasting, the use of spreadsheets, and budgeting. Prerequisites: LOS 250 and LAC 112 or equivalents. Cr 3.

LOS/LAC 305 Programming with Visual Basics

This course is an introduction to modern structured programming on a microcomputer using a state-of-the-art object oriented programming language. It covers all standard control and logic structures, arrays, functions, sub-routines, and data files. Major emphasis is given to an ongoing consideration of problem-solving techniques as they apply to simple and complex programming situations. Programming objects are studied extensively, along with events, properties, and methods. Offered at Central Maine Community College. Cr 3.

LOS/LAC 307 Web Design

This course will present in-depth Web page design for non-programmers, accomplished primarily through learning a full-featured Web design application, MS Front Page. The course also includes an exploration of HTML, DHTML, and some experience with Web scripting languages. Finally server-side Web strategies will be studied. Students will be expected to design and implement Web pages containing many of the features learned in class. Prerequisites: LAC 150 or equivalent and significant Windows and Windows application experience, along with experience on the Internet using a Web browser. Cr 3.

LOS 312 Human Resource Management

This course focuses on the procedures and processes associated with the management of human resources within organizations. Topics include recruitment, staff development, job analysis, personnel systems, and training. Cr 3.

LOS 314 Employee Relations

This course provides an understanding of the trends in legal, social, and economic aspects of United States labor-management relations. Topics include a historical overview of labor law, grievance procedures, the negotiation process, equal opportunity, and personnel rules. Includes case studies and simulated bargaining and arbitration exercises. Cr 3.

LOS 315 Training and Development

This course provides students with a theoretical framework for adult learning as it applies to the training and development process. Topics covered include the assessment of learning needs and setting of objectives; the design and facilitation of learning processes such as workshops, on-the-job training, self-directed learning, and computer-based training; and the assessment of outcomes. Students will design and deliver a training program as a major project for this course. Cr 3.

LOS/SBS 316 Diversity in the Workplace

Using historical, socio-economic, and psychological perspectives, students learn about the challenges diverse members of U.S. society, such as women, people of color, people from marginalized classes, and those from other countries have had and continue to face. Students gain an understanding of how the workplace may affect diverse peoples and how others can learn to make the workplace more hospitable. A primary focus of this course is on examining beliefs, behaviors, or unconscious attitudes that perpetuate the oppression and subordination of diverse members of society in the workplace, while also looking at how increased diversity is adding to workplace productivity, creativity, and learning. Readings are drawn from the social sciences and humanities to provide an interdisciplinary approach to the topic. Cr 3.

LOS/LAC 318 Database Management

This course introduces skills and builds proficiency in database management. It is taught on PC computers using the latest version of Microsoft Access and is designed to help students develop competencies in a variety of database processing functions. Students become proficient in setting up databases, managing data, creating reports, using report enhancements, and manipulating data. Prerequisite: LAC 150 or equivalent. Cr 3.

LOS/LAC 319 Introduction to Networking

This course is an introduction to the installation, maintenance, and repair of personal computer networks. It provides students with an elementary understanding of network systems including communication components, LAN protocols, standards (de facto/de juri), system architecture, network software, and the fundamentals of network installation and repair. Offered at Central Maine Community College. Cr 3.

LOS/LAC 320 Networking Support and Troubleshooting

This advanced course addresses the installation, maintenance, and repair of personal computer networks. It provides students with an advanced understanding of network systems including software configuration, troubleshooting, security, tools, design strategies, and employee training. Offered at Central Maine Community College. Cr 3.

LOS/LAC 321 Introduction to Personal Computer Repair/Operating Systems

This course is an introduction to the installation, maintenance, and repair of personal computers and related equipment. It provides students with an elementary understanding of PC environments including system components, peripherals, operating systems, component/card interface, and the fundamentals of repair. Offered at Central Maine Community College. Cr 3.

LOS 322 Leadership in the Public/Nonprofit Sectors

This course examines the basic processes through which public policy is formulated, adopted, and implemented in the United States. Prerequisite: junior standing or permission of the instructor. Cr 3.

LOS 323 The Media and Politics

This course explores the implications of political campaigns in American politics. Topics include management of campaigns, candidate recruitment, positive and negative advertising, political consultants, political parties and interest groups, effects of media coverage, campaign financing, and impact of campaigns and elections on public policy. Special consideration will be given to current campaigns. Cr 3.

LOS 325 State and Local Government

This course is an introduction to the structure, roles, and processes of administration in state and local government. The state of Maine is a special focus of the course. Cr 3.

LOS 327 Leading through Conflict

Conflict management is explored as an essential leadership tool and analyzed as a necessary component of healthy systems and innovations. We will investigate techniques that help individuals and groups mediate and negotiate differences encountered in a variety of situations. Cr 3.

LOS/SBS 329 Research Methods

This course is an introduction to quantitative and qualitative research methods which can be used in organizational planning and decision making and in the social and behavioral sciences. The course will cover topic areas related to the application of appropriate methods of inquiry and includes completion of an applied project. Strongly recommended for students going on to graduate school, careers in consulting, or human resource management. Prerequisite: LCC 150 or equivalent. Cr 3.

LOS 330 Leadership in Different Cultures

Students will explore leadership practices in multiple cultures and how our increasing interactions with these diverse leadership styles have changed our conception of leadership in the U.S. This course will help students determine the skills they will need to take on a leadership role in a global society. Cr 3.

LOS/LAC 334 Integrated Software Packages

This is a course in the use of integrated software packages for report, document, presentation, and information development activities. A variety of instructional activities will stress file and data integration and explore intra- and inter-package communications. Integration of word processing, spreadsheet, database, and graphics software is featured using linking and other tools. Students are expected to produce documents, spreadsheets, database reports, and presentations which take full

advantage of inter-operability, communication, translating, linking, and sharing functions. Prerequisite: LAC 150 or equivalent. Cr 3.

LOS/SBS 335 Legal Issues in Health and Human Services

This course examines the legal framework underlying the delivery of health and human services with an emphasis on current socio-legal problems including the rights of clients and the responsibilities of workers. Cr 3.

LOS 338 Health Care Policies

This course provides a comprehensive introduction to health care policy and the organization of the American health care system. Critical issues confronting the consumption, delivery, and financing of health care will be considered. Health care systems in other countries and around the United States will be examined. Cr 3.

LOS 350 Leadership

A foundational course for students of leadership, this course examines the theory, research, techniques, and challenges of leadership in organizations. Organizational culture is studied with emphasis on the leader's role in influencing and decision making. An experiential design is used along with traditional classroom techniques to help students reflect upon their personal leadership styles and examine their approaches to leading and managing others in diverse organizational settings. Students in the LOS major must complete this required course with a grade of a B- or better as a condition of their degree. Cr 3.

LOS 360 Deliberate Creativity and Innovation

This course is designed to develop practical skills in creative and innovative thinking that leaders can use to identify opportunities, generate value-creating ideas, and overcome barriers to successfully bringing new concepts to life. In this class, students will learn about creative thinking tools and how to practically apply them; develop an appreciation of the personal and organizational factors that influence creativity and innovation; and explore the leadership and facilitation skills that will prepare them to lead teams through creative problem solving. Cr 3.

LOS 361 Entrepreneurship

This course focuses on why people become entrepreneurs, the characteristics of successful entrepreneurs, the changing demographics of entrepreneurs, and the importance of entrepreneurship to the economy and society. In this class, students will examine the entrepreneurial process from the decision to become an entrepreneur through idea generating, writing a business plan, competitor analysis, getting financing, marketing, team building, considering ethical and legal issues, and developing strategies for growth. Cr 3.

LOS 373 Managing Nonprofits

This course will familiarize students with major concepts in the management of a nonprofit and will help them develop the skills to utilize this material in applied situations. Students will explore the mission of the nonprofit, marketing and funding, effective strategies for developing relationships and performance, and ways to enhance leadership skills. Cr 3.

LOS/SBS 381 Introduction to Globalization

This course examines the economic, political, social, and cultural aspects of globalization from an interdisciplinary perspective. The purpose is to get a sense of clarity about what globalization is, how it is affecting people around the world, and why there is an increasingly robust resistance to it on the grassroots level. We will also discuss how to empower ourselves, while being socially responsible in this rapidly changing world. Course format includes discussion, case study, and student presentation on research projects. Prerequisites: SOC 100, ANT 101, or equivalent Cr 3.

LOS 398 Independent Study

Prerequisites: LOS 300 or junior standing and permission of instructor. Cr 3.

LOS 399 Special Topics

Topics offered will cover current special issues in organizations and/or the study of organizations through alternative methods. Cr 3.

LOS 412 Topics in Human Resource Management.

This course will consider contemporary topics that represent emerging issues for human resource management within organizations. Cr 3.

LOS/SBS 430 Applied Social Policy

A review of contemporary social policy alternatives and an examination of social policy making processes at both the macro- and micro-levels. Students complete an applied social policy project which might take the form of a policy paper, a grant proposal or written legislative testimony for a community agency. Prerequisites: LCC 150 or LOS 329 and either LCC 200 or LCC 370 as well as junior standing or permission of the instructor. Cr 3.

LOS/SBS 436 Risk, Public Policy, and Society

This course considers the variety of ways in which risks, especially risks to the environment and to health, are measured, perceived, communicated, and acted upon in our society. Perspectives will be drawn from health fields, natural sciences, and political science, as well as from the social sciences. Cr 3.

LOS 440 Organizational Change and Development

This course explores the theory, research, and processes of leading, managing, and adapting to organizational change. Case studies and experiential learning are used to examine the effectiveness of change efforts and their impact on the group and individual. Prerequisite: LOS 300 or permission of instructor. LOS 329 or equivalent is also encouraged. Cr 3.

LOS 470 Leadership Abroad

The goal of this course is to familiarize students with key issues in intercultural leadership and to provide tools to be an effective leader in a globally aware environment. Through international travel, a variety of readings, and reflection exercises, students will examine a diversity of leadership situations and the cultural factors that influence the quality of a leader's performance. In order to help apply theory to experience, students will be given a number of opportunities to articulate ideas about the concepts explored through presentation, group discussion, and writing. Prerequisite: instructor permission. Cr 6.

LOS 487 Consulting in Organizations

Students will work in a team to apply organizational concepts and theories to a real-life organizational situation. Topics include self-assessment, consulting roles, the phases of consulting, consulting strategies, and ethical considerations. Cr 3.

B.A. Degree in Natural and Applied Sciences

This program provides students with a liberal arts education emphasizing basic sciences. Students may develop a concentration focusing on the **biology of human health and illness** or one focusing on **environmental issues**. Courses in this program also lead to Secondary Teaching Certification in Life Science.

The **Concentration in the Biology of Human Health and Illness** is designed to provide students with a sufficient understanding of human biology to enable them to pursue careers in health education, to teach life sciences, to make wise health care decisions, to better communicate with health care providers, and/or to continue their education in health- and science-related fields (e.g., medicine, dentistry, molecular biology, immunology, public health).

The **Environmental Issues Concentration** provides students with a sufficient understanding of environmental issues to enable them to pursue careers in fields focused on the environment, ecology, conservation, and natural resource management, to make wise decisions concerning the use of natural resources and the preservation of natural areas and species, to communicate with regional planners, to teach life sciences, and/or to continue their education in related environmental fields including environmental health.

A critical component of this degree program is the internship, selected with the assistance of the director of field experiences. Students identify an organization that will enable them to evaluate potential career opportunities and develop workplace skills. Students must complete USM's Core curriculum.

Before taking 300-level courses, students must have completed the following prerequisite courses (9 credits) with grades of at least C: Microcomputers and Applications, College Writing, and College Algebra.

In addition to completing these specific course requirements for the major, baccalaureate degree students must meet the proficiency and residency requirements of the University of Southern Maine and complete the Core curriculum as well as a minimum of 120 credit hours of coursework.

The following courses are considered equivalent:

Pathophysiology:	BIO 280 and SCI 380
Microbiology:	BIO 281/282 and SCI 252
Chemistry:	CHY 107 and SCI 108
Statistics:	MAT 120D and LCC 150D

Major Requirements (24.5 credit hours)

	Credits
CHY 103/104 Organic and Biochemistry with Lab	4
MAT 108 College Algebra	4
SCI 107 Biological Principles II	4.5
SCI 113 Principles of Chemistry I	3
SCI 114 Laboratory Techniques I	1
SCI 115 Principles of Chemistry II	3
SCI 116 Laboratory Techniques II	1
SCI 315 Environmental Health with Writing Lab	4

Biology of Health and Illness Concentration (26 credit hours)

SCI 170/171 Human Anatomy and Physiology I with Lab	4.5
SCI 172/173 Human Anatomy and Physiology II with Lab	4.5
SCI 209 Human Genetics	3
SCI 252 Medical Microbiology	4
SCI 305 Molecular Physiology	4
SCI 380 Pathophysiology I	3
SCI 381 Pathophysiology II	3

Environmental Issues Concentration (26 credit hours)

SCI 105/106 Biological Principles I with Lab	4.5
SCI 240 Applied Botany with Lab	4
SCI 355 Ecology with Lab	4.5
SCI 360 Environmental Issues	3
SCI 365 Marine and Coastal Biology	4
SCI 421 Natural Resources Policy	3

Any Geographic Information Systems Course from the following:

GEO 208 Cartography I	3
GEO 209 Introduction to Land Use Planning	3
GEO 210 Planning Maine Communities	3
GEO 305 Remote Sensing	3
GEO 308 GIS I	3
GEO 408 GIS II	3

LCC Requirements (49 or 50 credits)*

Entry Phase		<i>Credits</i>
LCC 100	Profiles, Proficiencies, Portfolios (required of all students)	1
either		
LCC 110	College Writing: Language and Literacies,	3
or		
LCC 111	College Writing: Language and Literacies: Enrichment	4
LCC 150	Statistics for Informed Decision Making	3
LCC 200	Creative Critical Inquiry into Modern Life (writing instruction)	4
LCC 220	U.S. Democracy: Origins and Development	3
LCC/SCI 230	Environmental Science, Policy, and Sustainability w/lab	4
LCC 250	Thinking About The Arts, Thinking Through The Arts	3
Middle Phase		<i>Credits</i>
LCC 310	Science, Technology and Society#	3
LCC 320	Sustaining Democracy	3
LCC 340	Exploring Careers, Choosing Life Roles	1
LCC 350	Global Past, Global Present	3
LCC 370	Toward a Global Ethics (writing instruction)	4
Capstone Phase		<i>Credits</i>
LCC 400	Finding Your Calling	1
LCC 410	Aesthetic and Political Dimensions of Language	3
LCC 430	Place and Community	3
LCC 450	Internship	3
LCC 480	Senior Seminar (writing instruction)	3
LCC 490	Portfolio Presentation	1

#Prior to registration for LCC 310, student should consult with their academic advisor for alternatives.

* Descriptions of LCC classes may be found in the introductory portion of the Lewiston-Auburn College section of this catalog.

Electives (19.5-20.5 Credits)

Students are encouraged to take the remainder of the courses required to meet the minimum of 120 credits for the Baccalaureate degree in the areas of sciences or math with a minimum of 9 elective credits at the 300 level or above. This would include courses in SCI, MAT, CHY, BIO, PHY, GEO, and ESP or other classes in consultation with faculty advisor.

Equivalencies

The following biology courses fulfill the corresponding prerequisite requirements at Lewiston-Auburn College:

BIO 105 = SCI 105	BIO 111 = SCI 170	BIO 212 = SCI 173
BIO 106 = SCI 106	BIO 112 = SCI 171	ESP 101 = LCC 230
BIO 107 = SCI 107	BIO 211 = SCI 172	SCI 100 = LCC 130

Secondary Teacher Certification/Life Science Certificate

The bachelor of arts major in natural and applied sciences offers secondary teacher certification (Grades 7-12) in life science. Students study natural and applied science, Common Core, education courses, and complete a semester of student teaching in their final year. For more information, refer to the secondary teacher certification program in USM's Lewiston-Auburn College section of this catalog, or contact (207) 753-6618, or visit our Web page at www.usm.maine.edu/lac/teachered.

Course Descriptions: Natural and Applied Sciences

SCI 105 Biological Principles I

An introduction to scientific principles underlying the unity and diversity of life. Prerequisite: students must have fulfilled the University minimum proficiency requirements in writing and mathematics. Cr 3.

SCI 106 Laboratory Biology I

Laboratory experiences illustrating concepts and principles introduced in SCI105. Must be taken concurrently with SCI 105 Cr 1.5.

SCI 107 Biological Principles II

This is an integrated lecture-laboratory course introducing students to biological diversity. The lecture and laboratory each meet three hours weekly. Prerequisites: SCI 105 and SCI 106 with a grade of C or higher. Cr 4.5.

SCI 108 Chemistry for Health Sciences

This is a one-semester introduction to general, organic, and biological chemistry that is specifically tailored for students in the health sciences. The course lays a foundation for the interactions that take place between small molecules, large molecules, and biological molecules. The class will initially focus on the language of chemistry and qualitative description of how chemical reactions take place. This includes a basic model for the electronic structure of atoms and molecules, and extending to the physical/chemical properties of a material. This foundation serves as a basis for the descriptive chemistry of functional groups of interest in biology, biochemistry and biological molecules such as carbohydrates, proteins, and lipids. This course is not suitable for chemistry majors or biology majors. This course meets the chemistry requirements for entry into the USM Nursing program.

SCI 113 Principles of Chemistry I

A presentation of fundamental principles of chemical science. These principles will be presented in quantitative terms and illustrated by examples of their applications in laboratories and in ordinary non-laboratory experience. This course and SCI 114 (normally taken concurrently) provide the basis for further study of chemistry. Prerequisite: math readiness and high school chemistry Cr 3.

SCI 114 Laboratory Techniques I

Laboratory experiments to illustrate the principles that are presented in SCI 113 lectures. Three laboratory hours per week combining recitation and practical lab work. Corequisite: SCI 113. Cr 1.

SCI 115 Principles of Chemistry II

A continuation of SCI 113. This course is designed to provide the foundation for all further studies in chemistry and is a prerequisite for all upper-level chemistry courses. Prerequisite: satisfactory completion of SCI113 or CHY113. Cr 3.

SCI 116 Laboratory Techniques II

Laboratory experiments to illustrate the principles that are presented in SCI 115 lectures. Three laboratory hours per week combining recitation and practical lab work. Prerequisite: SCI 114. Co-requisite: SCI 115. Cr 1.

SCI 153 AIDS: Biology, Social Policy, and the Law

AIDS is by definition a multi-disciplinary phenomenon that greatly impacts social policy, health care systems, personal relationships, the criminal justice system, and the legal system. To address the biomedical, ethical, and legal issues raised by AIDS in society, this course will inform students of the legal and public policy ramifications of AIDS while grounding this analysis in the biological and virologic facts of the disease. Cr 3.

SCI 170 Human Anatomy and Physiology I

This is the first course in a two-semester sequence in human anatomy and physiology. It introduces basic principles of physiology and anatomy through chemistry, cellular structure and function, genetics, and embryology. This course discusses several physiologic systems including the muscular, skeletal, nervous and integumentary systems. Prerequisites: students should have an understanding of basic biology and chemistry from high school courses or GED. SCI 170 must be taken concurrently with SCI 171, the lab. Cr 3.

SCI 171 Human Anatomy and Physiology I Laboratory

Laboratory experiences illustrating topics introduced in SCI 170. Must be taken concurrently with SCI 170. Cr 1.5

SCI 172 Human Anatomy and Physiology II

This is the second course in a two-semester sequence in human anatomy and physiology. Topics in this course will include the nervous system, special sense organs, blood and circulatory system, immune function, respiratory system, digestion and metabolism, endocrine function, renal function, and electrolyte balance. Prerequisites: SCI 170 and SCI 171. Must be taken concurrently with SCI 173, the lab. Cr 3.

SCI 173 Human Anatomy and Physiology II Laboratory

Laboratory experiences illustrating topics introduced in SCI 172. Must be taken concurrently with SCI 172. Cr 1.5.

SCI/SBS 209 Human Genetics

This course examines the role of heredity in human growth, development, and behavior. Decision making, ethical issues and societal responsibilities related to genetic disorders will be discussed. This course is approved as a menu selection to satisfy the LCC 310 Science, Technology, and Society requirement. Prerequisite: any laboratory science course. Cr 3.

SCI 240 Applied Botany

The growth, structure, reproduction, and physiology of plants will be studied, and the role of plants in human affairs will be discussed in this lecture and laboratory course. Prerequisites: SCI 105/106, or a grade of B or higher in SCI 100. Cr 4.

SCI 250 Applied Physics

An introductory course with a comprehensive presentation of the basic concepts and principles of physics. Lecture, problem solving, and laboratory experiments serve to strengthen the understanding of classical mechanics, vibrations and wave motion, light and optics. The course focuses on sound physical arguments and discussion of everyday experiences while providing practical examples that demonstrate the role of physics in other disciplines. Knowledge of spreadsheet software and trigonometry is essential. Prerequisite: college algebra or permission of instructor. Cr 4.

SCI 252 Medical Microbiology

This lecture and laboratory course introduces basic medical microbiology and focuses on the viruses, bacteria, protozoans, and multi-cellular organisms which cause human diseases. It also discusses epidemiology and the immune system. This course meets the requirements of nursing and allied health programs. Prerequisite: SCI 105/106, SCI 107, or SCI 170/171, SCI 172/173. Cr 4.

SCI 305 Molecular Physiology

This lecture and lab course examines the linkage between cellular and organismal events and those at the molecular level. Particular attention is given to DNA replication, signal transduction and the control of transcription, genomics, proteomics, metabolism, and the compartmentalization of cellular functions. Prerequisites: one year of chemistry and SCI 209 and SCI 252 or equivalent. Cr 4.

SCI 315 Environmental Health with writing lab

This course explores issues in environmental health from the dual perspectives of environmental issues and human health. A healthy environment includes species diversity, bountiful resources, and the absence of pollutants. Environmental health comprises those aspects of human health and disease that are determined by factors in the environment. It also refers to the theory and practice of assessing and controlling factors in the environment that can potentially affect human health. Prerequisites: LCC 230K. Cr 4.

SCI/SBS 337 Introduction to Epidemiology

This seminar course introduces the student to epidemiology as a utility for the establishment and maintenance of public health. In essence, epidemiology involves the observation and statistical analysis of the occurrence of health and disease in human populations. This science informs the practice of preventive health/disease control and the formulation of public health policy. Seminar topics will be drawn from both infectious and chronic disease epidemiology ranging from the historical plagues such as the Black Death to the modern plagues of AIDS, cancer, and obesity. Recommended prerequisites include Introductory Biology and Statistics. Cr 3

SCI 350 Science Projects

This course is an independent study under the direction of a faculty member. Students develop and complete a laboratory or library project. Cr 1-3.

SCI 355 Ecology

This lecture and laboratory course examines the theoretical bases upon which ecological investigations are based. The laboratory portion of the course consists primarily of fieldwork during which students complete an ecological assessment of local habitat. Prerequisites: SCI 105k/106K and LCC 230 or ESP 101, or permission of instructor. Cr 4.5

SCI 359 Cancer and Society

This course will use an epidemiological framework to explore the scientific background and genetic, social, physical, and biological determinants of cancer. The course will examine the response of individual, family, and society to a diagnosis of cancer. Traditional and non-traditional medical approaches to a diagnosis of cancer will be explored. This course is approved as a substitute for LCC 310. Cr 3.

SCI 360 Environmental Issues

The goal of this course is to allow students to develop a comprehensive world view from which to evaluate current environmental issues and problems. Local, state, national, and international issues will be explained in light of concepts, theories, and data derived from many disciplines, including ecology, biology, ethics, sociology, and political science. Prerequisites LCC 230 or SCI 107 or permission of instructor. Cr 3.

SCI 365 Marine and Coastal Biology

A field-based course examining three major coastal habitats: the rocky shore, the sand beach, and the salt marsh along with the interactions among the living organisms in the earth's oceans. The course will focus on the relationships between the different aquatic trophic levels. Topics include species systematics and adaptations, ecosystem structure, and the relationship between humans and the biological systems. Where possible, local examples will be utilized to illustrate these points. Prerequisites: SCI 105, 106, 107, and LCC 230 or ESP 101, or permission of instructor. Cr 4.

SCI 380 Pathophysiology I

This course examines the physiologic, biochemical, genetic, and environmental basis of noninfectious diseases. Emphasis will be placed on inflammation, immunity, cancer, fluid, electrolytes, and acid-base balance as well as the cardiovascular, endocrine, and respiratory systems will be studied. This course meets the pathophysiology requirement for entry into the USM Nursing program. Prerequisites: microbiology, human anatomy and physiology. Cr 3.

SCI 381 Pathophysiology II

This course examines the physiologic, biochemical, genetic, and environmental basis of noninfectious diseases. The nervous, hematologic, renal, digestive, reproductive, muscular and skeletal systems will be studied. Microscopic pathology of selected diseases will be examined. Prerequisites: microbiology, human anatomy and physiology. SCI 380 is not a prerequisite. Cr 3.

SCI 398 Independent Study

Prerequisite: permission of the instructor. Cr 3-6.

SCI 421 Natural Resource Policy

Examination of natural resource policies and evaluation procedures used by natural resource decision makers. Case studies focus on topics such as forest industry regulations, the Endangered Species Act, the Maine Environmental Priorities Project, transboundary ecosystems, aquatic and estuarine areas, and marine resources. Emphasis is on natural resource policy processes, conflict resolution through consensus building, and comparative risk assessment as it pertains to policy. Prerequisite: LCC 230 or permission of instructor. Cr 3.

SCI 450 Science in the Classroom

This integrated lecture and laboratory course is designed for elementary teachers, summer camp counselors, parents, and others who wish to interest children in science. The course discusses the history of science teaching, science reform movements, and the development of science lesson plans. It provides knowledge of basic science and gives examples of inexpensive experiments which children can perform. Emphasis is placed on integrating science with the arts, math, humanities, and with social sciences. Maine State Department of Education, Division of Certification and Placement, accepts this course as an elementary science methods course. Cr 3.

MAT 242 Applied Problem Solving

This course is designed to introduce mathematical concepts and apply them to solving problems in various contexts. The focus will be on mathematical ideas required by Maine's Learning Results. Topics include sets, functions, logic, numeration systems, number theory, geometry, and calculus. Students will formulate key questions, gather and organize data, discover patterns and similarities, interpret and communicate information. Offered only at Lewiston-Auburn College. Prerequisite: MAT 108 Cr 3.

Secondary Teaching Certification Program at Lewiston-Auburn College

The Secondary Teaching Certification Program offers four different areas of focus or tracks:

- Humanities/English*
- Humanities/English and Social Studies Combined*
- Humanities/Social Studies*
- Natural and Applied Sciences/Life Science

* The Humanities tracks may be found in the Arts and Humanities degree's section of this catalog.

Natural and Applied Sciences Life Science Program

The bachelor of arts major in natural applied science offers the required course to obtain secondary teacher certification (Grades 7-12) in life science for the State of Maine. Students study natural applied science, Common Core, and education courses, and complete a semester of student teaching in their final year. The program enables NAS students to matriculate in a four-year undergraduate program that awards them a bachelor's degree in Natural and Applied Sciences and qualify for a State of Maine teaching certificate. (Total credits 120)

The scope and sequence of the program is as follows:

Year One (30 credits)

Fall		Credits
LAE 200	Education in US w/ Field Experience	4
LCC 110	College Writing	3
MAT 108	College Algebra	4
SCI 105/6	Biological Principles I	4.5*
Spring		
LCC 200	Creative Critical Inquiry	4
MAT 148	Applied Calculus	3
<i>or</i>		
MAT 252	Applied Problem Solving	
SCI 107	Biological Principles II	4.5*
Elective		3

Year Two (30 credits)

Fall		
LAE XXX	Exceptional Learners	3
LCC 220	US Democracy	3
SCI 170/1	Human Anatomy and Physiology	4*
SCI 250	Applied Physics I	4*
Spring		
LCC 250G	Thinking about the Arts	3
LAE/SBS 306	Adolescence	3
SCI 251	Physics II	4*
Elective		3
Elective		3

Year Three (29 credits)

Fall		
LAE 320	Applied Skills with Field Experience	4
LCC 320	Sustaining Democracy	3
LCC 350	Global Past and Present	3
SCI 113/4	Chemistry I	4*
Spring		
LAE XXX	College/Higher Education Practicum	2**
LCC 370	Global Ethics	4
LCC XXX	Writing in the Sciences	1
SCI 230	Environmental Science	4*
SCI 340	Applied Botany	4*

Year four (31 credits)

Fall		
GEO XXX		3
LAE/SCI 450	Methods of Science Teaching	3
LAE/SCI XXX	Internship	3
LCC 410	Dimensions of Lang	3
SCI 355	Ecology	4
Spring		
LAE480	Portfolio Seminar	3
LAE 490	Student Teaching	9
Elective		3

*Life science certificate obtained by at least 24 credit hours in life science credits.

* *College/Higher Education Practicum will consist of two, 1-credit modules added to a SCI course by agreement of instructor and student over the course of the program.

*** 15 credits are gained towards physical science teaching certificate; student may elect to take additional 9 credits (e.g. SCI 115/6K Chemistry II) for second certificate.

**** Recommended electives for additional Life Science credit include SCI 209 – Human Genetics, SCI 305 – Molecular Physiology, and SCI 315 – Environmental Health.
Students must also successfully pass Praxis I and II.

Courses designated with a number of XXX represent a course that is currently under development.

B.A. Degree in Social and Behavioral Sciences

The Social and Behavioral Sciences program combines perspectives from psychology, sociology, and anthropology as it seeks to enhance students' understanding of the psychosocial and cultural influences shaping individual lives and social institutions.

The curriculum combines interdisciplinary courses in liberal arts with service learning and field experience opportunities to prepare students for careers in social services, mental health, law and public policy, early childhood care, and education. Students may complete a certificate in public health; concentrations in counseling, early childhood studies, or public health; and a minor in early childhood studies or public health.

Before taking 300-level courses in this major, students must have completed a 100-level college writing course with a grade of at least a C.

Students may use two courses from outside the major as electives with faculty approval. No more than two courses from outside the major may be used as elective courses without permission of the faculty.

Prerequisite Courses (12 credits) expected to be taken before 300-level courses

SOC	100	Introduction to Sociology
PSY	101	General Psychology I
PSY	102	General Psychology II
ANT	101	Anthropology: The Cultural View

A critical component of this degree program is the internship (LCC 450), which is a requirement of the Lewiston Common Core. Students select their internship with the assistance of the faculty advisor and the director of field experience. Students identify an organization that will enable them to evaluate potential career opportunities and develop workplace skills. Prior to the internship, students participate in a sequence of one-credit hour seminars where they learn aspects of career decision making and launching a successful career. More information about these courses may be found in Lewiston Common Core section of this catalog.

Requirements for the Major (30 credits)

		<i>Credits</i>
LCC 150	Statistics for Informed Decision Making	3
LCC 340	Exploring Careers, Choosing Life Roles	1
LCC 370	Toward a Global Ethics (writing instruction)	4
LCC 400	Finding Your Calling	1
LCC 450	Internship	3
LCC 480	Senior Seminar (writing instruction)	3
SBS 200	Human Growth and Development	3
<i>either:</i>		
SBS 300	Deviance and Social Control	3
<i>or</i>		
SBS 310	Childhood and Society (teacher preparation and Early Childhood Studies)	3
SBS 320	Writing in the Social and Behavioral Sciences (writing instruction)	3
SBS 329	Research Methods	3
SBS 430	Applied Social Policy	3

Electives (18 credits)

Students will complete at least six electives in SBS. They may structure their choice of these electives by picking a Concentration (Counseling, Early Childhood Studies, or Public Health) or may instead more fully customize the choice of electives, selecting a minimum of two courses from the list below, with the remainder drawn from any of the other 300-level SBS electives described on the following pages:

SBS 209	Human Genetics
SBS 305	Child Development
SBS 306	Adolescence
SBS 307	Midlife and Adult Development
SBS 310	Childhood and Society
SBS 311	Theories of Personality
SBS 341	The Family
SBS 342	Gerontology
SBS 345	Race, Class, Gender
SBS 360	Culture, Behavior, and Personality
SBS 381	Introduction to Globalization
SBS 390	Brain and Behavior

Lewiston Common Core* (LCC)(38-39 Credits)

Entry Phase	Credits
LCC 100 Profiles, Proficiencies, Portfolios (required of all students)	1
<i>either</i>	
LCC 110 College Writing: Language and Literacies,	3
<i>or</i>	
LCC 111 College Writing: Language and Literacies: Enrichment	4
LCC/SCI 130 The Biology of Human Health w/Lab	4
LCC 200 Creative Critical Inquiry into Modern Life (writing instruction)	4
LCC 220 U.S. Democracy: Origins and Development	3
LCC/SCI 230 Environmental Science, Policy, and Sustainability w/Lab	4
LCC 250 Thinking About The Arts, Thinking Through The Arts	3
Middle Phase	Credits
LCC 310 Science, Technology and Society	3
LCC 320 Sustaining Democracy	3
LCC 350 Global Past, Global Present	3
Capstone Phase	Credits
LCC 410 Aesthetic and Political Dimensions of Language	3
LCC 430 Place and Community	3
LCC 490 Portfolio Presentation	1

* Descriptions of LCC classes may be found in the introductory portion of the Lewiston-Auburn College section of this catalog.

General Electives (21-22 Credits)

Additional courses towards completing a total of 120 credits for the degree may be drawn from any variety of other courses within or outside of the major, chosen depending on student interests, career plans, and prior transfer credits. In some cases, this may entail pursuit of a minor. Students should consult with their advisors on these choices.

Certificates, Concentrations, and Minors: Social and Behavioral Sciences

Concentration in Counseling (A concentration is a way of organizing the six required SBS elective classes.)

This concentration provides students with an introduction to theory, topics, and skill areas relevant to professional applications in counseling. Organizing the choice of SBS electives through adoption of this concentration strengthens students' preparation for entry into variety of positions in or related to the *helping* professions, as well as for the pursuit of graduate study. Students doing so should complete the necessary paperwork so that the counseling concentration appears on their transcripts.

Two foundational courses are required, plus one each from categories below. Substitutions must be approved by a faculty adviser.

Foundational courses for the concentration in Counseling:

SBS 311	Theories of Personality
SBS 411	Counseling and Psychotherapy

Choose one course from each of the following four groups of courses. Any substitutions must be approved by faculty advisor:

Psychosocial Disorders and Services:

SBS 303	Abnormal Psychology
SBS 346	Introduction to Social Services
SBS 348	Responding to Mental Health Crisis in the Community
SBS 350	Psychosocial Disorders of Childhood and Adolescence

Diversity and Multiculturalism:

SBS 316	Diversity in the Workplace
SBS 345	Race, Class, Gender
SBS 360	Culture, Behavior, and Personality
SBS 470	Study Abroad

Developmental Contexts:

SBS 305	Child Development
SBS 306	Adolescence
SBS 307	Midlife and Development
SBS 341	The Family

Applied Topics:

SBS 304	Food, Culture, and Eating
SBS 308	Health, Illness, and Culture
SBS 342	Gerontology
SBS 343	Substance Abuse
SBS 344	Violence: Causes and Control
SBS 450	Approaches to Assessing Individual Differences in Children

MHRT/C (Mental Health Rehabilitation Technician)

Any student who wants to fulfill the certificate for the State of Maine should work closely with an advisor as early as possible. The counseling concentration is approved for MHRT/C provisional level B accreditation. In addition, students can earn *full MHRT/C accreditation at LAC*, with the new MHRT/C track within the SBS Counseling Concentration. Details on courses required within this track, formally reviewed and approved by the Muskie Center for Learning, are available on SBS's Web page:

http://usm.maine.edu/sbs/SBS_program_counseling.htm

Minor and Concentration in Early Childhood Studies

This minor (also available as a concentration) provides the skills needed of professionals working with young children and their families, and the academic background required for graduate study or advanced training in the field.

Course options are available in each of six content areas listed below based upon the recommendations of the National Association for the Education of Young Children (NAEYC) and our community advisors. Several courses part of the ECS Concentration/Minor have been approved toward the State of Maine EC Teacher Certification 0-5 (081 endorsement) including SBS 200J, SBS 305, EDU 336, SBS 310, SBS 341, SBS 375 and SBS 450. The Endorsement 081: Early Childhood Teacher (Birth to School Age), is for pre-K educators. Endorsement 081 is intended to support appropriate early education learning experiences by ensuring that all educators working in public school pre-K programs have specialized knowledge of early childhood development..

Also note that the Internship (LCC 450) for SBS students pursuing the ECS Concentration must be related to this focus of study. Students are advised to consult with their faculty advisors early regarding choice of internship placements. Finally, students should formally specify either a Minor or Concentration in ECS through completion of the necessary paperwork through the Student Success Center so that ECS appears on their transcript.

SBS Early Childhood Studies Concentration

An SBS ECS Concentration is simply a way of organizing the 6 required SBS electives (18 credits), one from each of the below outlined categories.

Early Childhood Studies Minor of the Concentration.

Students majoring in programs other than SBS need only the courses outlined in the An ECS Minor as part of an SBS Major requires at least 4 additional SBS elective courses (12 credits) beyond the categories below to complete the ECS Minor.

Choose **one** course from **each** of the following six groups of courses. Any substitutions must be approved by faculty advisor:

Child Development

- SBS 305 Child Development
- SBS 309 The Psychology of Attachment in Early Childhood

Note: SBS 309 would be an appropriate choice in this category for students transferring in prior coursework in child development. SBS 309 is not recommended as a substitution in this category for students in other majors pursuing the Minor in ECS.

Family

- SBS 341 The Family
- SBS 399 Family Systems

Leadership

- SBS/LOS 301 Group Dynamics
- SBS/LOS 302 Organizational

Behavior

Systems

- SBS 310 Childhood and Society
- EDU/LAE 200 Education in the U.S
- SBS 346 Introduction to Social Services

Children and Evaluation

- SBS 350 Psychosocial Disorders
- SBS 375 Infant Mental Health
- SBS 450 Approaches to Assessment

Teaching/Preparing Children for Learning

- EDU 336 Children's Literature
- SBS/LAC 340 Language Acquisition and Literary Development

Certificate in Public Health*

A Certificate in Public Health is open to all students.

The certificate in public health addresses a need for awareness of public health issues not only in Maine, but the whole world. Evolutionary and multicultural aspects of diseases and their interface with human populations are daily headlines in the media: for instance, health care systems; food utilization and governmental policies; epidemics of flu, HIV/AIDS, and drug-resistant strains of TB; as well as the threat of bioterrorism. Therefore, to prepare undergraduates, decision makers, and policy advocates to be able to understand the multitude of public health concerns and to be able to apply that knowledge is essential to any safe and functioning society.

The following courses are required:

- LOS/SBS 335 Legal Issues in Health and Human Services
- SBS/SCI 336 Introduction to Public Health
- SBS/SCI 337 Introduction to Epidemiology

In addition one of the following elective courses must be completed:

- SBS 304 Food, Culture and Eating
- SBS 308 Health, Illness, and Culture
- SBS/SCI 399 Public Health Nutrition

*A minimum grade of C in each course is required to earn the certificate.

Concentration in Public Health

The concentration is intended to help SBS majors structure the choice of their electives and to prepare them to become decision makers and policy advocates. It is also intended to shape their ability to understand myriad public health concerns and their facility in applying pertinent theoretical and practical knowledge to create a safe and functioning society. Professions that utilize knowledge of public health may be in delivery of mental health services, gerontological services, or child and family services.

The following courses are required:

- SBS 308 Health, Illness, and Culture
- SBS/LOS 335 Legal Issues in Health and Human Services
- SBS/SCI 336 Introduction to Public Health
- SBS/SCI 337 Introduction to Epidemiology

One elective course will be chosen from the following:

- SBS 304 Food, Culture and Eating
- SBS/SCI 399 Public Health Nutrition

One elective course will be chosen from the following:

- SBS 333 Death, Dying, and Denial
- SBS/LOS 338 Health Care Policies

SBS 341	Family
SBS 343	Substance Abuse
SBS 344	Violence: Causes and Control
SBS 345	Race, Class and Gender
SBS 350	Psychosocial Disorders of Childhood and Adolescence
SBS/LOS 381	Introduction to Globalization
SBS 339	Ethnicity, Immigration, and Identity
SBS 399	Prevention and Wellness
SBS 399	Working with Diverse Populations

Minor in Public Health

The Minor advances students' understanding of myriad public health concerns and their ability to apply pertinent theoretical and practical knowledge to contribute to a safe and functioning society. The Public Health Minor can complement professional preparation of students working in human services and in allied health and applied sciences, including their capacity to contribute to relevant policy-making and advocacy. The Minor will also strengthen the pursuit of graduate study in Public Health and Policy. Professions that utilize knowledge of public health include medical and allied health and human services, mental health, gerontology, and child and family support. Public health approaches address the full spectrum of services, planning and evaluation.

A total of six courses are required for the Minor for students majoring in degrees other than SBS. Students matriculated as SBS majors and wishing to complete the Minor (vs. the Concentration) in Public Health must also take four additional SBS courses (in any SBS elective area) beyond the six courses listed below:

One Course from each of the following areas:

Overview of Public Health Systems

BS/SCI 336 Introduction to Public Health

Basic concepts in Epidemiology (must be specifically rooted in Public Health applications vs. a more general Statistics or Research Methods course)

SBS/SCI 337 Introduction to Epidemiology

Cultural perspectives on health

SBS 308 Health, Illness, and Culture

Legal and policy perspectives

LOS/SBS 335 Legal Issues in Health and Human Services

Nutrition

SBS 304 Food, Culture and Eating
SBS/SCI 399 Public Health Nutrition

One Elective (any program prefix) reflecting student's professional interests in Public Health, including from list below or, with approval of student's advisor, a course that will be equivalent in substance or intent:

SBS 339 Ethnicity, Immigration, and Identity
SBS 343 Substance Abuse
SBS 344 Violence: Causes and Control
SBS 345 Race, Class, Gender
LOS/SBS 381 Introduction to Globalization
LOS/SBS 436 Risk, Public Policy, and Society

Course Descriptions: Social and Behavioral Sciences

SBS 200 Human Growth and Development

This course introduces developmental theory and research that encompasses the entire life span. Emphasis will be on prenatal development through adolescence, with an overview of adult development. A multi-disciplinary view of human development will be taken which considers stability as well as change throughout the life cycle. The interaction of hereditary and environmental factors will be considered in studying physical, cognitive, and psychosocial development. Prerequisite: second semester freshman or above. This course is cross-listed with HRD 200J. Cr 3

SBS/SCI 209 Human Genetics

This course will examine the role of heredity in human growth, development and behavior. Decision making, ethical issues and societal responsibilities related to genetic disorders will be discussed. This course is approved as a menu selection to satisfy the LCC 310 Science, Technology and Society requirement. Prerequisite: any laboratory science course. Cr 3

SBS 300 Deviance and Social Control

The course examines the historical and relative notion of deviance and the nature(s) and type(s) of social control. Cr 3

SBS/LOS 301 Group Dynamics

This course gives students an understanding of how people behave in groups and the skills needed by group members to participate effectively in group activities. It provides a theoretical foundation for how groups function, with focus on group process and development; and it discusses how these theories can be applied to a wide range of group settings. This course uses experiential techniques to help students develop critical skills and understanding of group dynamics. Cr 3

SBS/LOS 302 Organizational Behavior

The goal of this course is to familiarize students with interpersonal dynamics and the tools to make organizational interactions more effective. Through assessments, exercises, and discussions, students will examine how perceptions of self and others influence people's behavior in a variety of situations. As good communication is critical in building sound interpersonal relationships, students will have many opportunities to fine-tune writing and speaking skills. Cr 3

SBS 303 Abnormal Psychology

This course presents an introduction to the classification, diagnosis, and etiology of what is considered "mental illness." Cultural aspects of "abnormality" will be emphasized, as will integrative models of the causes of mental disorders. This integrative approach considers the complex interplay between biological, psychological, interpersonal, and cultural factors as they contribute to the development and expression of psychological disorders. Cr 3

SBS 304 Food, Culture, and Eating

This course examines cultural beliefs and practices surrounding diet, food, cooking, eating, and nutrition. Students explore how behaviors and attitudes toward food and eating influence and are shaped by culture. Discussion may include food and healing, the social functions of food, food as represented in the media, food production and food politics, the diet industry, and eating disorders. Students gain insight into their own behaviors and attitudes toward food and eating, as well as those of today's global cultures. Cr 3

SBS 305 Child Development

This course examines the development and behavior of children from conception through middle childhood, and introduces topics in adolescence. Theoretical frameworks and research upon which current knowledge in child development is based will be considered, as well as applications to contemporary topics in child welfare and education. SBS/HRD 200J recommended. Cr 3

SBS 306 Adolescence

This course is an overview of the psychological and social dimensions of adolescent development, including consideration of gender and group differences in the experience of the physical, cognitive, and social transformations of adolescence. Cr 3

SBS 307 Midlife and Adult Development

This course considers the ongoing challenges and opportunities for development throughout the adult years, with emphasis on midlife and its associated physical, personality, and socio-cultural processes. Psychological and other social science perspectives on the study of midlife will be complemented by examples from field interviews, folk tales, and imaginative literature. Cr 3

SBS 308 Health, Illness, and Culture

This course is an examination of the cultural dimensions of health and illness. Consideration will be given to contemporary issues such as the definition of health and illness, the distribution of diseases across different populations, cross-cultural variations in treatment models, and the implications thereof for health and human service professionals. Cr 3

SBS 309 The Psychology of Attachment in Early Childhood

This course focuses on the critical importance of attachment process in early childhood and the emotional development of young children as the basis of forming relationships throughout one's life. Stages in attachment process will be presented as well as types and categories of attachment. Stages of emotional development in early childhood will also be presented with critical accomplishments in each stage. Positive and negative influences on both attachment and emotional development will be discussed as well as implications for attachment relationships throughout the lifespan. SBS 200J recommended. Cr 3

SBS 310 Childhood and Society

This course weaves several broad themes regarding children and childhood in society, including how socio-historical circumstances shape our perceptions of children and childhood as a distinct life stage; how various agents of socialization including family,

educational systems, and media shape contemporary childhood socialization; how children are co-constructors of childhood and society; and how the experiences of childhood are shaped by ethnicity, race, class, and gender. Cr 3

SBS 311 Theories of Personality

This course is an in-depth study of the major theories of personality. It includes consideration of historical developments and cultural differences in the area of personality theory and research. The specific understanding of psychopathology contained in the theories will also be explored. Cr 3

SBS 312 Crime and Criminal Justice

This is a survey course of the social and cultural factors that influence crime and delinquency. Focus will be on misconceptions and myths about crime and the institutional responses to crime in our society. Cr 3

SBS/HUM 313I What is 'Race'?

The concept of race is one of the most contentious ideas of modern society. This course will examine the history and biology of race, and trace the development of the idea of race in American culture. Students will examine evolution to understand diversity in the human species. They will integrate this information with historical attempts to define race so as to gain a better understanding of race and racial issues. Cr 3

SBS 315 Social Psychology of Disability

This course will examine some of the social psychological issues associated with disability and the rehabilitation of individuals who have disabilities, with a focus on minimizing existing social, vocational, educational, and attitudinal barriers to individuals rather than on minimizing the impact of clients' physical/mental differences within a normed environment. It will familiarize students with the points of view and the experiences of people from various social, ethnic, and cultural backgrounds with a wide range of disabilities/abilities, towards enabling students to approach counseling as a means of expanding opportunities for their clients' access to these opportunities, and empowering their clients to attain their goals. Cr 3

SBS/LOS 316 Diversity in the Workplace

Using historical, socio-economic, and psychological perspectives, students will learn about the challenges diverse members of U.S. society, such as women, people of color, people from marginalized classes, and those from other countries, have had and continue to face. Students will gain an understanding of how the workplace may affect diverse peoples and how others can learn to make the workplace more hospitable. A primary focus of this course will be on examining beliefs, behaviors, or unconscious attitudes that perpetuate the oppression and subordination of diverse members of society in the workplace, while also looking at how increased diversity is adding to workplace productivity, creativity, and learning. Readings are drawn from the social sciences and humanities to provide an interdisciplinary approach to the topic. Cr 3

SBS 320 Writing in the Social and Behavioral Sciences

This writing instruction course will engage students with the different modes of thinking and communicating in the Social and Behavioral Sciences disciplines of Psychology, Sociology, and Anthropology. Students will study these disciplines' writing in-depth. Models of disciplinary writing are analyzed and practiced. Prerequisites: LCC110, LCC 200 or LCC370. Cr 3

SBS/LOS 329 Research Methods

This course provides an introduction to quantitative and qualitative research methods which can be used in organizational planning and decision making and in the Social and Behavioral Sciences. The course will cover topic areas related to the application of appropriate methods of inquiry and includes completion of an applied project. Prerequisite: LCC 150D. Cr 3

SBS 333 Death, Dying, and Denial

An interdisciplinary consideration of death and dying that may include biological, historical, and various social science perspectives, this course examines cross-cultural variations in beliefs and practices related to death, care for the dying, and bereavement. It also explores the personal, social, and cultural implications of denying death and refusing to mourn. Cr 3

SBS 334 Spirituality

Spirituality, variously defined, is a central part of human experience, constituting important levels of consciousness and meaning. This course will investigate the experience and development of spirituality over the life span as depicted in religious, psychological, "New Age," and imaginative literatures. Cr 3

SBS/LOS 335 Legal Issues in Health and Human Services

This course examines the legal framework underlying the delivery of health and human services with an emphasis on current socio-legal problems including the rights of clients and the responsibilities of workers. Cr 3

SBS/SCI 336 Introduction to Public Health

This course provides an overview of the public health system and examines the purpose, history, organization, approach, functions and determinants of health. The course places special emphasis on current health issues from our daily lives to highlight the relevance of public health. Trends, successes and challenges from a population perspective will be discussed as well as various tools and techniques used to address public health issues. Cr 3

SBS/SCI 337 Introduction to Epidemiology

This seminar course introduces the student to epidemiology as a utility for the establishment and maintenance of public health. In essence, epidemiology involves the observation and statistical analysis of the occurrence of health and disease in human populations. This science informs the practice of preventive health/disease control and the formulation of public health policy. Seminar topics will be drawn from both infectious and chronic disease epidemiology ranging from the historical plagues such as the Black Death to the modern plagues of AIDS, cancer, and obesity. Recommended prerequisites include introductory biology, and statistics. Cr 3

SBS/LOS 338 Health Care Policies

This course provides a comprehensive introduction to health care policy and the organization of the American health care system. Critical issues confronting the consumption, delivery, and financing of health care will be considered. Health care systems in other countries and around the United States will be examined. Cr 3

SBS 339 Ethnicity, Immigration, and Identity

This course will focus on concepts of ethnicity, immigration, and identity. We will explore how ethnic identity is defined and why people emigrate. We will address the notions of stereotyping, discrimination, assimilation, accommodation, ethnic cleansing, and genocide. We will investigate, from the perspective of cultural and physical anthropology, aspects of what constitutes: race and ethnicity, ethnogenesis, migration, acquisition, retention, as well as negotiated and nested qualities of identity. Finally, we will probe the political, economic, and social concomitants of immigration and how these affect pluralism, inter-group relations and trans-generational transformations in immigrant populations. Cr 3

SBS/LAC 340 Language Acquisition and Literacy Development

This course provides students with opportunities to apply knowledge of fundamental principles and means of investigation used in the study and explanation of language acquisition and literacy development. It plays a foundational role in fostering students' understanding of literacy, which is key to their development as professionals charged with enhancing children's literacy development. Cr 3

SBS 341 The Family

This course is a contemporary, interdisciplinary approach to the study of the family that includes an examination of family structures, familial relationships, and the impact of historical change on these structures and relationships. Cr 3

SBS 342 Gerontology: Perspectives on the Long Life

A review of current theories and issues related to aging and the significance of increasing numbers of people living longer. Consideration will be given to physical, psychological, and sociological aspects of aging as well as to cultural perspectives regarding growing older and the elderly. Applications will focus on facilitating health, well-being, and meaning in later life. Cr 3

SBS 343 Substance Abuse

This course considers patterns of use of drugs, the bases of their effects and associated harms, and the history of and current options for prevention and intervention efforts. Consideration will be given to the role of society and public policy in influencing our thinking and behavior concerning substance use and abuse. Cr 3.

SBS 344 Violence: Causes and Control

This course studies violence and the possibilities of living peacefully as explored in psychological and sociological works and in writings on anthropology, social policy, and religion. The course reviews the causes of violent and aggressive behaviors and specific approaches to the prevention and control of these behaviors. Cr 3

SBS 345 Race, Class, Gender

This course examines the impact of race, class, and gender inequality on individual and social experiences in the United States. Students will be required to read materials on issues concerning inequality, power, privilege, and social justice. This will be followed by intense discussions of these topics. The course may include projects pertaining to diversity issues in the local community. Cr 3

SBS 346 Introduction to Social Services

This course examines the profession of social work from both historical and contemporary perspectives. Students will explore specialty areas in social work such as mental health and disability, crime and violence, and family work. Career options in the social work field will be explored. Cr 3

SBS 347 Youth, Community, and Higher Education

This interdisciplinary, community-based elective provides students with the opportunity to work with diverse vulnerable youth in hopes of promoting higher education and encouraging resiliency. The course will be conducted through weekly sessions which will include both a discussion/supervision piece and group program activity piece. Students will take on roles as mentors, allies, and advocates for youth, and as organizers and developers for the group of youth as a whole as well as for the local community. Students will learn to work with adolescents, families, and communities in a comprehensive and integrated manner. Prerequisites: PSY 101 and 102, and permission of instructor. Cr Var.

SBS 348 Responding to Mental Health Crisis in the Community

This course explores history and models of mental health focused on the ability of individuals with mental illness to function successfully in the community. The course will assist students in developing an understanding of crisis intervention theory and perspectives, including knowledge of risk factors and precipitating events, and of available emergency community resources (and associated obstacles to access to these services). Cr 3

SBS 350 Psychosocial Disorders in Childhood and Adolescence

This course includes readings and discussion of the etiology and manifestation of psychosocial disorders in childhood and adolescence. Topic areas, including approaches to intervention, will be considered from developmental, psychological and sociological perspectives. Cr 3

SBS/HUM 358 Motherhood: Political Institution, Cultural Icon, Defining Experience

This interdisciplinary course examines motherhood from the perspectives of cultural studies and psychology. Consideration of historical and cultural depictions of mothers will elucidate the particular faces and functions of motherhood as they are variously conceived. Modern psychological theories will be discussed as the means by which cultural demands regarding mothering are currently being prescribed. The manner in which the various powers attributed to mothers contribute to the construction of particular social policies and practices will also be considered. Cr 3

SBS 360 Culture, Behavior, and Personality

This course is an examination of interactions between culture, behavior, and personality through the life span. Cross-cultural variations and commonalities in child rearing practices, gender roles, and conceptions of self are among topics to be considered. Applications will be made to contemporary issues in multicultural relations in community and professional settings. Prerequisites: PSY 102 and ANT 101. Cr 3

SBS 365 Psychology of Dreams

This course considers dreams from cross-cultural and historical perspectives as well as the theories of dream interpretation articulated in the works of Freud, Jung, and others. The course is designed to enhance students' understanding of the theoretical importance of dreams in the history of psychology, to enrich their appreciation of dream images, and to refine their ability to apprehend the significance of their own and others' dreams. Cr 3

SBS/HUM 366 Transforming Words: Poetry and Psychologies of Change

This course examines the interrelationships between poetry and psychology, with a focus on transformations of meaning in words and lives. Topics will include the varying functions of poetry over the life span, poets' reflections on how and why they write, poetry as political witness and community catalyst, therapeutic uses of poetry, and the distinctive qualities of "poetic" language. Students have the option of pursuing community-based projects involving poetry. Cr 3

SBS 367 Healthy Learners Project

The Healthy Learners Project provides training in individual, non-directive play intervention to support the emotional and educational achievement of at-risk children in their first three years of elementary education. This service-learning course consists of training, direct individual work with children, and scholarship supported in a biweekly course meeting throughout the academic year. Supervision of the student's work is provided both in local elementary schools and in class. Prerequisite: permission of instructor. Cr 3

SBS 375 Infant Mental Health: Zero to Age Six

This course focuses on post-fetal dependence and development (the fourth trimester), brain development, early communication, infant cuing, the calming reflex, and how an infant learns to view and respond to the world. The concepts of infant mental health as relational, reflective, and interdisciplinary will be presented as well as skills and strategies for supporting positive infant mental health. SBS 200 recommended. Cr 3

SBS/LOS 381 Introduction to Globalization

This course examines the economic, political, social, and cultural aspects of globalization from an interdisciplinary perspective. The purpose is to get a sense of clarity about what globalization is, how it is affecting people around the world, and why there is an increasingly robust resistance to it on the grassroots level. We will also discuss how to empower ourselves while being socially responsible in this rapidly changing world. Course format includes discussion, case study, and student presentation on research projects. Prerequisites: SOC 100, ANT 101. Cr 3

SBS 390 Brain and Behavior

This course is a survey of biological and environmental factors affecting the relationship between brain/mind and behavior. Topics will include brain organization, neural transmission, stress and emotion, learning, memory, violence, psychopathology, and the development of consciousness. Cr 3

SBS 398 Independent Study

Prerequisite: junior standing and permission of instructor. Cr 3

SBS 399 Special Topics Cr 3**SBS 411 Counseling and Psychotherapy**

A study of the conceptual foundations, fundamental characteristics, and ethical principles involved in the process of psychological counseling. Alternative models (e.g., individual, group, family) of therapy will be explored in relation to theories of personality development and functioning. Special focus will also be placed on counseling approaches in community mental health areas such as trauma and crisis intervention. Prerequisite: SBS 311. Cr 3

SBS/LOS 430 Applied Social Policy

A review of contemporary social policy alternatives and an examination of social policy making processes at both the macro- and micro-levels. Students complete an applied social policy project which might take the form of a policy paper, a grant proposal or written legislative testimony for a community agency. Prerequisites: either LCC 200 or LCC 370 as well as junior standing or permission of the instructor. Cr 3

SBS 435 Children, Policy, and Law

This course explores the interface of legal policy related issues and problems in childhood. The relationship among legal, public policy, and psychological concepts will be framed within family relationships, legal decision making, and the judicial and legislative allocation of power between parents and the state. Topics will include the state of knowledge about outcomes for children's emotional health and development related to the risks and protections that legal intervention brings. Cr 3

SBS/LOS 436 Risk, Public Policy, and Society

This course considers the variety of ways in which risks, especially risks to the environment and to health, are measured, perceived, communicated, and acted upon in our society. Perspectives will be drawn from health fields, natural sciences, and political science, as well as from the social sciences. Cr 3

SBS 450 Approaches to Assessing Individual Differences in Children

A survey of methods used to evaluate the developing child for abilities and disabilities. There will be an emphasis on understanding the interrelatedness of social, psychological, educational, physical-developmental, and health related assessments, as well as the cultural meaning of individual and group assessments. Cr 3

SBS 470 Study Abroad

The goal of this course is to provide an experiential learning opportunity for students to increase their global awareness. Through a variety of readings, overseas traveling, site experiences, and reflection exercise, students will examine a diversity of sociocultural issues in a foreign environment. Prerequisite: Instructor permission. Cr 3

College of Management and Human Service

Dean: Joseph W. McDonnell; *Associate Dean:* Zark Van Zandt; *Assistant Dean for Finance:* Brian Conklin-Powers; *Assistant Director of Student Affairs:* Alice B. Cash; *Assistant to the Dean for Administration:* Sondra Bogdonoff; *Communications Coordinator:* Sara Litwiller; *Assistant to the Dean for Human Resources:* Judy Letarte

The College of Management and Human Service brings together four traditionally defined schools—Business, Social Work, Education and the Muskie School of Public Service—and aspires both to strengthen the individual professional schools and to move beyond the boundaries of the professions that they have historically served, thereby crafting new opportunities for students, faculty and staff, and the community. The College houses fifteen graduate programs, six undergraduate majors, and a teacher education option. The College of Management and Human Service offers the bachelor of science (B.S.) in business administration with majors in accounting, finance, general management, marketing, and sport management; the bachelor of arts (B.A.) in social work; and the TEAMS (Teachers for Elementary and Middle Schools) option, all providing solid foundations for graduate and professional study, and directly leading to rewarding careers.

Schools within the College:

The School of Business
The School of Social Work
The School of Education and Human Development
The Muskie School of Public Service

Requirements for all Baccalaureate Degree Candidates

To be eligible for a baccalaureate degree from the University, a student must meet the following minimum requirements:

- I. Core curriculum requirements
- II. Departmental or program requirements
- III. Minimum of 120 credits of accepted courses
- IV. Minimum of 2.0 cumulative grade point average

Core Curriculum Requirements

Every baccalaureate degree student who is admitted to the University is required to meet the Core curriculum requirements, including college-readiness courses if necessary. These are set out in the catalog section on Core curriculum.

Departmental or Program Requirements

The College requires that every baccalaureate degree student fulfill the requirements of a major program as noted in the catalog section devoted to each school's majors. These requirements may be greater than the college minimum requirements.

Declaration or Change of Major

Students normally declare a major program prior to completing 53 credits. Students who wish to declare or change their major within the College must obtain a Change of Major form from the Registrar's Office. Students who have to complete college readiness in Mathematics Area B must do so prior to declaring or changing a major within the College of Management and Human Service and must have a USM grade point average in good standing. Methods of satisfying Mathematics Area B are noted in the Academic Policies section of the catalog. Individual school or program requirements are described in the sections that follow. Students should note that not all courses listed and described in the following sections are offered each academic year. Consult the particular school or program for further information about the year and semester a specific course will be offered.

Double Majors

Students interested in a double major should consult the appropriate schools and obtain a declaration of major form from the Registrar's Office.

Graduate Programs in the College of Management and Human Service

The College of Management and Human Service offers thirteen graduate programs leading to the master's degree, two graduate programs leading to a doctorate, and several graduate certificate programs. These are the master of science (M.S.) in adult and higher education, the master of science (M.S.) in counseling, the master of science (M.S.) in educational psychology, the master of science (M.S.) in abilities and disabilities studies, the master of science in education (M.S.Ed.) in educational leadership, the master of science in education (M.S.Ed.) in literacy education, the master of science in education (M.S.Ed.) professional educator, the master of science in education (M.S. Ed.) in teaching and learning, the master of social work (M.S.W.), the master of science (M.S.) in community planning and development, the master of science (M.S.) in public policy and management, the master of science (M.S.) in health policy and management, the master of business administration (M.B.A.), the doctorate of psychology (Psy.D.) in school psychology, the doctorate (Ph.D.) in public policy and management, certificates of graduate study, and certificates of advanced study in many areas. Consult the University's graduate catalog for further information.

School of Business

Director: John Voyer, 113 Luther Bonney

Associate Director for Community Partnerships and Economic Development: Valarie C. Lamont; *Assistant Director for Student Affairs:* Alice Cash; *Coordinator of Student Affairs/Academic Counselor:* James O'Brien; *Coordinator of Career Services and Internships:* Melissa Burns

Chair (Accounting and Finance): TBA

Chair (Marketing, Sport Management, and General Management): Frederick Aiello

Professors: Andrews, Artz, Gold, Gramlich, Manny, Violette, Voyer; *Associate Professors:* Aiello, Bennett, Chinn, Grover, Heiser, Munger, Pryor, Purdy, Sanders, Shields, Smoluk, Suleiman, VanderLinden, Westfall, Williams; *Assistant Professors:* Chen, Chene, Dean, Kerr, Kohli, Parker

Mission Statement

We prepare and inspire current and future leaders, and stimulate economic growth, by providing quality learning opportunities, valuable research, and professional service, all in partnership with the business community.

Accreditation

The School of Business is accredited by AACSB International—The Association to Advance Collegiate Schools of Business. AACSB International assures quality and promotes excellence and continuous improvement in undergraduate and graduate education for business administration and accounting.

Programs

The School of Business offers a bachelor of science degree in business administration with majors in: 1) accounting, 2) finance, 3) marketing, 4) general management, and 5) sport management. General management has the following tracks: a) entrepreneurship and small business management, b) international business, c) risk management and insurance, d) sustainable business, and e) generalist track (advanced study across multiple fields of business).

Note: required courses in the sport management major and the entrepreneurship track may not be offered during the evening (5:30 p.m. or later). School of Business majors may obtain a double major within the school, and non-accounting majors may pursue a minor in accounting. Students may also enroll in the Three-Two program to obtain both undergraduate and graduate degrees in five to six years.

The undergraduate program is designed to develop the student's abilities to assume the responsibilities of general and financial management, and to cope successfully with the changing problems of managers in the years ahead. Entering students begin by acquiring broad training in the arts and sciences as a foundation for the study of business. All students also complete the business core, which is a series of courses covering major functional areas common to business operations. Lastly, students acquire a deeper knowledge of their selected major.

For students pursuing other majors, the School offers minors in: 1) accounting, 2) business administration, 3) marketing, 4) pre-MBA, and 5) information management as well as the Three-Two program mentioned above.

The School of Business offers certificate programs of undergraduate study in accounting and risk management and insurance.

The graduate degree provided by the School is the master of business administration with a choice of optional concentrations. (See graduate catalog for information).

Course Enrollment Policies

Enrollment Restriction

No undergraduate student, unless accepted into a major in the School of Business, is allowed to take more than 30 credit hours in business courses under any circumstances. The undergraduate business program has the responsibility of monitoring the implementation of this requirement. No student may pursue more than one minor offered by the School of Business.

Students who are not majoring within the School, having fewer than 28 credit hours in business courses, may enroll in 300-level or higher courses provided they meet one of the following criteria:

1. They have declared a major that requires the course.
2. They have been admitted to a School of Business minor.
3. They are admitted to a School of Business certificate program.
4. The course fulfills part of a thematic cluster requirement for general education.
5. They have approval from the Dean.

Any School of Business major or minor who has enrolled in an ACC, FIN, BUS, or RMI course more than twice must, before continuing in that course, complete and have approved by the Department chair, a course condition form (available from the School of Business office). Failure to do so may result in course credit disqualification.

Three-Two Programs

The master of business administration (MBA) allows interested and qualified students to complete a bachelor's degree and an MBA in five to six years depending on the undergraduate major. (Degree requirements for some majors necessitate a longer completion time.)

Generally, students in the Three-Two program focus on their bachelor's degree requirements during their first three years, a mix of bachelor's and foundation requirements in the fourth year, and MBA requirements in the fifth and sixth years. Each degree is awarded once the specific degree requirements are successfully met.

Admission Requirements

Students may enroll in the Three-Two program directly, or any time after the end of their first semester of undergraduate studies. Students entering directly need an SAT combined score of 1200 or higher. Students currently enrolled in a baccalaureate degree program may enter the Three-Two program by meeting the regular MBA admission criteria of a formula score of 1100 or higher with a minimum GMAT score of 500. (The formula is: undergraduate grade point average x 200, plus the GMAT total score.) Students in the Three-Two program will be required to attain a grade point average of 3.0 or higher after 90 credit hours of undergraduate coursework to remain in good standing and be allowed to continue in the program.

Enrollment in MBA-level courses

Students may not enroll in MBA-level courses until after they have accumulated 90 credit hours of undergraduate coursework. Please refer to the USM graduate catalog for MBA foundation, core, and elective courses. Undergraduate accounting or business administration majors admitted to the Three-Two program may be able to accelerate their programs by enrolling in MBA foundation courses that can fulfill certain undergraduate requirements. Students should see their academic advisor for details.

Internship Program

School of Business majors are encouraged to participate in an internship to experience on-the-job learning. Employment in a professional setting provides opportunities to apply classroom learning, develop work-related skills, and explore careers. Credit may be received for paid or non-paid positions with new employers, or for new responsibilities with current employers. Credit is not granted for past work experience. Students obtain internship positions by contacting the School of Business internship coordinator or by contacting employers to develop positions. Students are also welcome to discuss internship availability with faculty members and chairs. An intern must work a minimum of 140 hours on site and be advised by a faculty sponsor during the internship. Under the supervision of a faculty sponsor, the student must prepare a written learning contract that contains a job description, the student's learning goals, self-directed learning activities, and an evaluation process. Grading is pass/fail. Refer to the course descriptions for ACC 395-396, BUS 391-397, FIN 395-396, and RMI 395-396 for prerequisites and restrictions. For further information, contact the School of Business Internship Office at (207) 780-4020.

Bachelor of Science in Business Administration

Requirements for All Majors

In addition to meeting all University requirements, students must earn a minimum grade of C- in 100-200 level courses, and a C in 300-400 level courses in all Business Core courses applied toward the degree. To ensure that students graduate with a current understanding of their field, upper-level courses taken more than 10 years before the degree is awarded must have Departmental approval for use in the Business Core or the major.

Students can declare or change a major by completing a form available at the School office. Students declaring a major in general management must select a track at the same time. Double majors are possible as long as the courses applied toward one major are not applied toward the second major. Under no circumstances can credits be double-counted for two program options (e.g., major, minor, track, or concentration) within the School of Business. Before enrolling in their first School of Business course (ACC, BUS, FIN, or RMI designations) requiring junior standing, students majoring in a School of Business major must have junior standing (54 credits completed) and a minimum grade point average of 2.33 in USM courses. This minimum GPA requirement supersedes any course-specific GPA requirement lower than 2.33.

Overview of course requirements

Core Curriculum (USM requirement)	Variable number of credits
Non-Business Core (School requirement)	17 credits
Business Core (School requirement)	36 credits
Major Requirements	15 credits (22 for accounting, 27 for sport management)
General Electives	Variable number of credits
Total:	120 or more credits

Optional first-year seminar

Credits counted as general electives; strongly recommended for recent high school graduates with fewer than 24 credits:
BUS 101 or EYE 125 Getting Down to Business

USM Core Curriculum Requirements (up to 45 credits, minus credit counted elsewhere) please see USM Core Curriculum section of this catalog for details.

- Entry Year Experience – EYE required for students entering with fewer than 24 credit hours (3-4 credits)
- College Writing (3-4 credits)
- Quantitative Reasoning (4 credits): met by taking MAT 210 Business Statistics (credits counted in the non-business core).
- Creative Expression (3 credits): met by taking THE 170 Public Speaking (credits counted in the non-business core).
- Socio-cultural Analysis (3 credits): met by taking ECO 101 Macroeconomics (credits counted in the non-business Core)
- Cultural Interpretation (3 credits)
- Science Exploration (4 credits)
- Ethical Inquiry, Social Responsibility, and Citizenship (3 credits)
- Diversity (3 credits, unless overlap with another USM Core requirement)
- International (3 credits, unless overlap with another USM Core requirement); may be met by taking BUS 335 International Business or BUS 361 International marketing
- Thematic Cluster (3 courses) **OR** a minor of 15 credits or more
- Capstone (3 credits): met by taking BUS 450 Business Policy and Strategy (credits counted in the Business Core)

Non-business Core Requirements (17 credits)

Spreadsheet proficiency: demonstrated by passing ABU 190 Spreadsheets and Problem Solving with a grade of C or higher, or by successfully passing a School of Business spreadsheet proficiency exam. Proficiency must be demonstrated to graduate.

			Credits
ECO	101	Introduction to Macroeconomics	3 credits
ECO	102	Introduction to Microeconomics	3 credits
MAT	108	College Algebra with C- or higher grade	4 credits

Substitutes include a C- or higher grade in MAT 140D or approved higher level math course, passing a CLEP exam, or passing the MAT 108 equivalency exam offered by Academic Assessment.

MAT 210 Business Statistics with C- or higher grade (4 credits) or C- or higher grade in prior credit for MAT 120D or other approved statistics course (www.usm.maine.edu/sb/stats.html).

THE 170 Public Speaking (3 credits) or other course by permission

Business Core Requirements (36 credits)

A minimum of 50 percent of business core courses must be taken at USM, and the student must achieve a minimum grade in each course (listed below).

ACC	110	Financial Accounting Information for Decision Making (C- or higher)
ACC	211	Managerial Accounting Information for Decision Making (C- or higher)
BUS	260	Marketing (C- or higher)
BUS	275	Applied Business Analysis (C- or higher)
BUS	280	Legal Environment of Business (C- or higher)
BUS	340	Managing Organizational Behavior (C or higher)
BUS	345	Information Technology/Management Information Systems (C or higher)
BUS	370	Management Science (C or higher)

- BUS 375 Production/Operations Management (C or higher)
 - BUS 450 Business Policy and Strategy (C or higher)
 - FIN 320 Basic Financial Management (C or higher)
- Select one of the following international courses:*
- BUS 335 International Business (C or higher)
 - BUS 361 International Marketing (C or higher)
 - BUS 382 International Business Law (C or higher)
 - FIN 330 International Financial Management (C or higher)

Major Requirements (27 credits for sport management, 22 credits for accounting, 15 credits for other majors)

At least 50 percent of credit hours applied to the major must be taken at USM. No more than 3 credits of internship (6 credits for sport management) can count toward the major. See descriptions below for specific requirements of each major.

General Electives (15 credits for sport management majors, 20 credits for accounting majors, 27 credits for other majors)

Major in Accounting

The accounting major (22 credits) prepares students for a variety of careers. Students acquire a solid grasp of accounting concepts and practices along with a comprehensive understanding of business. The program fosters the development of critical thinking and professional skills crucial for career success. Students interested in pursuing a career in public accounting will be prepared to undertake the additional coursework needed to meet the 150-hour requirement. Students interested in preparing to take the CPA exam are encouraged to take Auditing and Assurance (ACC 410) and Governmental and Nonprofit Accounting (ACC 416). Students interested in pursuing a career in industry should take Cost Management Systems (ACC 405). Students are encouraged to enroll in an internship during their junior or senior year. Students are also encouraged to be active in student organizations such as the School's Accounting and Finance Society.

Accounting Major Requirements (22 credits)

Required Courses (13 credits)

- ACC 221 The Financial Accounting Cycle (one credit)
- ACC 301 Financial Reporting I
- ACC 302 Financial Reporting II
- ACC 329 Accounting Information Systems
- ACC 413 Concepts and Strategies of Taxation

Electives (9 credits)

Select three of the following courses:

- ACC 395 Internship I in Accounting
- ACC 405 Cost Management Systems
- ACC 410 Auditing and Assurance
- ACC 416 Governmental and Nonprofit Accounting
- ACC 418 Principles of Fraud Examination
- ACC 441 Advanced Accounting
- ACC 490 Independent Study in Accounting
- ACC 499 Special Topics

Students are encouraged to take the following one-credit elective early in their coursework (credit counted as general elective):

- ACC 105 Introduction to the Accounting and Finance Professions

Students must earn a grade point average of 2.33 or higher (with a minimum grade of C in ACC 221 and C- in remaining courses) in the 22 credits applied toward the major.

Major in Finance

The finance major (15 credits) prepares students for careers in corporate finance, investments, financial services, banking, and related fields. Students learn a blend of theoretical and practical concepts and apply this knowledge to real-world settings. The program develops analytical and critical thinking skills that will aid students throughout their careers. The flexibility of the major requirements allows students to create self-designed specializations within the major. For example, students interested in pursuing a career in financial services might select FIN 321 or FIN 328, and an internship at a financial services company.

Finance Major Requirements

- FIN 327 Investment Management
- FIN 330 International Financial Management (cannot be counted in core)

Finance Electives (9 credits; at least two courses must be FIN courses)

- FIN 321 Personal Financial Planning
- FIN 326 Financial Modeling
- FIN 328 Financial Institutions and Markets
- FIN 395 Internship I in Finance
- FIN 490 Independent Study in Finance
- FIN 499 Special Topics in Finance
- ACC 413 Concepts and Strategies of Taxation
- ACC 302 Financial Reporting II
- ECO 310 Money and Banking
- BUS 342 Leadership
- BUS 385 Entrepreneurship and Venture Creation
- BUS 485 Managing the Growing Entrepreneurial Venture
- RMI 320 Introduction to Risk Management

Students are encouraged to take the following one-credit elective early in their coursework (credit counted as general elective):

- ACC/FIN 105 Introduction to the Accounting and Finance Professions

Students must earn a grade point average of 2.5 or higher in the 15 credits applied toward the major.

Major in Marketing

The marketing major (15 credits) prepares business administration students for a wide range of marketing and management careers ranging from client services to new product development and brand management. Separate courses are offered in career areas such as retailing, advertising, sales, and sport marketing. Students acquire a solid grasp of marketing concepts and practices along with a comprehensive understanding of business. Most important, the program fosters the development of professional skills crucial for career success. Students are encouraged to further develop skills by taking the applied courses listed below and being active in student organizations such as the School's Student Marketing Association (SMA).

Marketing Major Requirements:

- BUS 359 Customer Relationship Management
- BUS 365 Consumer Behavior
- BUS 369 Marketing Research

Select an applied marketing course:

- BUS 358 E-commerce
- BUS 362 Market Opportunity Analysis
- BUS 367 Marketing Management
- BUS 392 Internship in Marketing
- BUS 398 Marketing Practicum

Select a 3-credit, 300-level or higher marketing elective

Students must earn a grade point average of 2.33 or higher in the 15 credits applied toward the major.

Major in Sport Management

The sport management major (27 credits) prepares students for careers in the dynamic, global, and multimillion-dollar sport industry. Sport business professionals must understand the complexities of this competitive industry and develop strategies for personal and organizational success. The sport management major is designed to meet the needs of these managers in a range of sport industry settings, and recognizes the essential business foundations required to be successful in the field. Academic and practical experiences are combined to prepare students to gain successful employment in a range of sport industry settings. The sport management coursework provides students with the skills to be successful in a variety of areas including professional and amateur sports organizations, event management, sport marketing agencies, sport facility management, sporting goods manufacturing, and collegiate athletics.

Sport Management Requirements

- BUS 210 Introduction to Sport Management
- BUS 311 Sport Marketing
- BUS 312 Sport Law
- BUS 315 Sport Finance
- BUS 415 Sport Management Seminar
- BUS 397 Internship/Advanced Field Experience in Sport Management (6 credits)

Sport Management Electives (6 credits)

- BUS 313 Sport Facility Management
- BUS 314 Sport Communication
- BUS 316 Sport Event Management
- BUS 317 Sport Sponsorship and Sales
- BUS 318 Athletic Administration

Students must earn a grade point average of 2.33 or higher in the 27 credits applied toward the major.

Major in General Management (with choice of tracks)

Students in the general management major (15 credits) select one of the tracks below, which either provide broad exposure to management issues or provide a specific industry focus. Each track specifies 9 of the 15 credits in the major, leaving 6 credits for business electives. Students must earn a grade point average of 2.33 or higher in the 15 credits applied toward the major.

Entrepreneurship and Small Business Track

Students in this track graduate with a concentration in entrepreneurship and small business management listed on their transcript. Required courses in this track may not be available at night.

Requirements

- BUS 362 Market Opportunity Analysis
- BUS 385 Entrepreneurship and Venture Creation
- BUS 485 Managing the Growing Entrepreneurial Venture

Select 6 credits of 300-level or higher ACC, BUS, FIN, or RMI courses.

International Business Track

Students in this track graduate with a concentration in international business listed on their transcript. Students are encouraged to develop their foreign language skills, to travel abroad, and to obtain a minor in international studies.

Requirements (in addition to the international requirement in the Business Core):

- BUS 335 International Business

Select 6 credits from

- BUS 361 International Marketing
- BUS 382 International Business Law
- BUS 394 Internship in International Business
- ECO 370 International Economics
- FIN 330 International Financial Management
- BUS 336 Approved International Experience (see below)
- BUS 337 Approved International Business Experience (see below)

Select 6 credits of 300-level or higher ACC, BUS, FIN, or RMI courses.

BUS 336 Approved International Experience, and BUS 337 Approved International Business Experience, award credit for educational activity by a student while outside of the U.S. that contributes to the student's understanding of international business and which has been approved by one of the international business faculty members.

Activities which normally will be approved for credit as BUS 336 include, without limitation:

- A course relevant to international business, taken at an educational institution outside the U.S., and qualifying for 3 or more credits when transferred to USM.
- BUS 490 Independent Study involving a student's activities outside the U.S. (3 cr. min.)
- A USM course relevant to international business, involving study outside the U.S. and which has 3 or more credits.
- An international study tour offered by a reputable organization. Courses relevant to international business shall include, without limitation, courses in economics, political science, law, history, geography, culture, and courses that develop skills in languages other than English. BUS 336 may be used either as a course in the International Business Track or as a 300-level or higher BUS course.

An activity approved for credit as BUS 337 will normally be limited to an upper-level (300-level or higher equivalent at USM) course in a business discipline, including economics and/or law, taken at an educational institution outside the U.S., and qualifying for three or more credits when transferred to USM. Approval for BUS 337 may be denied if the student lacks the necessary foundational course(s) in the relevant discipline. BUS 336 is not a prerequisite for BUS 337. BUS 337 may be used either as a course in the International Business track or as a 300-level or higher BUS course.

Risk Management and Insurance Track

The risk management and insurance track prepares students for careers in the insurance industry (including insurance carriers and underwriters, insurance agencies or brokerages, insurance service fields) and its allied fields, such as banking, financial planning, accounting, real estate, stockbrokerage, and third party administration. Students learn a blend of theoretical and practical concepts and apply this knowledge to risk management and insurance. The program develops analytical and critical thinking skills that will aid students throughout their careers.

Requirements:

- RMI 320 Introduction to Risk Management and Insurance
 - RMI 330 Health, Life, and Disability Insurance
 - RMI 350 Managing Risk with Property and Liability Insurance
- Select 6 credits of 300-level or higher ACC, BUS, ECO (310 only), FIN or RMI courses, including
- RMI 395 Internship in Insurance

Sustainable Business Track

Students completing this track will be better prepared to identify “green market” opportunities and to manage organizations for the triple bottom lines of environmental, social, and financial performance. A concentration in sustainable business will be listed on their transcript. Students are encouraged to obtain a minor in sustainability. Required courses in this track may not be available at night.

Requirements

- BUS 357 Triple-Bottom-Line Marketing
- Select 6 credits from
- BUS 391 Internship in Sustainable Business
 - ECO 326 Environmental Economics [prerequisite: ECO 102]
 - ECO 327 Natural Resource Economics [prerequisite: ECO 102]
 - ESP 110 Introduction to Nature Tourism
 - ESP 275 Energy Use and Social Adaptations [prerequisite: ESP 101/2K or permission for SB concentrators]
- Project courses (BUS 362/385/396/398/490 or ESP 450, or advisor-approved course)
- Select 6 credits of 300-level or higher ACC, BUS, FIN, or RMI courses.

General Management Track

Requirements

Students in this track select 3 credits from each of three different disciplinary areas:

- Marketing (BUS 311, 357-369, 398)
 - Management (BUS 335, 342, 346, 385, 485)
 - Law (BUS 312, BUS 380, BUS 382)
 - Finance (BUS 315, FIN 321-330)
 - Accounting (ACC 301-329)
 - Risk Management and Insurance (RMI 320-350)
- Select 6 credits of 300-level or higher ACC, BUS, FIN, or RMI courses.

School of Business Minors

Minor in Accounting

The minor in accounting is designed to permit undergraduate majors from outside the School of Business, as well as non-accounting business administration majors within the School, an opportunity to develop a more in-depth knowledge and skill in accounting.

Students wishing to pursue the minor must obtain a copy of the Authorization for Accounting Minor form from the School of Business, complete and return it to the School of Business advisor, signed by the student's current advisor for his or her major. Completion of at least 12 credits at USM with an overall GPA of 2.33 is required at the time of application. Accounting minors need a 2.33 cumulative grade point average in the five courses taken in the minor. A student may transfer to the minor up to 6 credit hours of comparable accounting courses. The minor in accounting is 15 credit hours, including 6 credit hours required in:

- ACC 110 Financial Accounting Information for Decision Making
 - ACC 211 Managerial Accounting Information for Decision Making
- And nine credit hours from the following:
- ACC 301 Financial Reporting I*
 - ACC 302 Financial Reporting II
 - ACC 315 Internal Auditing
 - ACC 318 Principles of Fraud Examination
 - ACC 329 Accounting Information Systems
 - ACC 395 Internship I in Accounting
 - ACC 405 Cost Management Systems
 - ACC 413 Concepts and Strategies of Taxation
 - ACC 416 Governmental and Nonprofit Accounting
 - ACC 499 Special Topics in Accounting

*Students who enroll in ACC 301 are required to complete the prerequisite, ACC 221, The Financial Accounting Cycle. ACC 221 is a 1-credit hour self-study course and is in addition to the 15 credits for the minor.

Minor in Business Administration

The minor in business administration (21 credits) is available only to students in majors outside the School. Students who wish to pursue the minor must complete a declaration form available at the School of Business. The requirements for admission to the minor are completion of at least 12 credits at USM and a grade point average of 2.33 or higher. A student may transfer into the minor up to 9 credit hours of acceptable courses. To complete the minor, students must have a grade point average of at least 2.33 in the minor courses. Select 21 credit hours from:

- ACC 110 Financial Accounting Information for Decision Making (C- or higher)
- ACC 211 Managerial Accounting Information for Decision Making (C- or higher)
- BUS 101 Getting Down to Business
- BUS 190 Personal Finance
- BUS 200 Introduction to Business
- BUS 260 Marketing (C- or higher)
- BUS 280 Legal Environment of Business (C- or higher)
- BUS 340 Managing Organizational Behavior (C or higher)
- BUS 345 Information Technology/Management Information Systems (C or higher)
- ECO 101J Introduction to Macroeconomics
- ECO 102J Introduction to Microeconomics
- RMI 320 Introduction to Risk Management and Insurance

Minor in Information Management

The minor in information management (18 credits) is available to students in majors outside the School, although required courses may not be available at night. The minor develops student skills in information analysis, information retrieval, and informed decision making. Students who wish to pursue the minor must complete a declaration form available at the School of Business. Admission into the minor requires completion of at least 12 credits at USM, a GPA of 2.33 or higher, and spreadsheet proficiency. A student may transfer into the minor up to nine credits of comparable courses. To complete the minor, the student must have a grade point average of at least 2.33 in minor courses:

- BUS 260 Marketing
- BUS 275 Applied Business Analysis (see course listing for prereqs; substitutes available for ASET students)
- BUS 280 Legal Environment of Business
- BUS 345 Information Technology/Management Information Systems
- BUS 358 E-commerce
- BUS 359 Customer Relationship Management: A Data-based Approach

Minor in Marketing

The marketing minor (15 credits) is recommended for students who may wish to obtain in-depth knowledge and explore career opportunities in marketing and is available only to students in majors outside the School. The requirements for admission to the minor are completion of at least 12 credits at USM and a grade point average of 2.33 or higher. A student may transfer into the minor up to six credit hours of acceptable courses. To complete the minor, students must have a grade point average of at least 2.33 in the minor courses. The required courses for the minor are:

Six required credit hours

- BUS 260 Marketing (C- or higher)
- BUS 365 Consumer Behavior (or BUS 165J)

Select nine credit hours from

- BUS 101 Getting Down to Business
- BUS 200 Introduction to Business
- BUS 359 Customer Relationship Management
- BUS 369 Marketing Research

Choose from other marketing courses listed at <http://usm.maine.edu/sb/undergraduatemarketingelectives.html>

Pre-MBA Minor

The pre-MBA minor (29 credits) is recommended for students who may wish to pursue a Master of Business administration and is available only to students in majors outside the School. Students who wish to pursue the minor must complete a declaration form available at the School of Business. The requirements for admission to the minor are completion of at least 12 credits at USM and a grade point average of 2.33 or higher. A student may transfer into the minor up to 12 credit hours of acceptable courses. To complete the minor, students must have a grade point average of at least 2.33 in the minor courses. The required courses (29 credit hours) for the minor are:

- ACC 110 Financial Accounting Information for Decision Making (C- or higher)
- ACC 211 Managerial Accounting Information for Decision Making (C- or higher)
- BUS 275 Applied Business Analysis (C or higher)
- BUS 340 Managing Organizational Behavior (C or higher)
- ECO 101 Introduction to Macroeconomics (C or higher)
- ECO 102 Introduction to Microeconomics (C or higher)
- FIN 320 Basic Financial Management (C or higher)
- MAT 108 College Algebra (C or higher)
- MAT 210 Business Statistics (C or higher)

Certificate Programs in Undergraduate Study

Certificate of Study in Accounting

This certificate program is designed to prepare individuals, who already possess an undergraduate degree in another field of study, for a career or graduate study in accounting. The certificate program consists of 16 credit hours in accounting. The certificate is open to individuals who possess: 1) an undergraduate degree with a minimum cumulative GPA of 2.33, or 2) a master's level (or above) degree.

Career changers who already have completed an undergraduate course of study will have earned, at the completion of the certificate program, 136 or more hours of the 150-hour requirement to sit for the CPA exam. Individuals wishing to sit for the CPA exam should also take BUS 280 Legal Environment of Business. Those who need additional credits to meet the 150-hour requirement, and who do not wish to enter a graduate degree program, can take additional accounting electives and/or other business or undergraduate courses of interest to meet the credit-hour requirement to sit for the CPA exam. Matriculated USM students are not eligible to obtain this certificate.

There is a \$50 fee to apply for the certificate program. Candidates should apply by submitting: a completed application form; evidence that they meet the minimum education requirement; and the application fee (payable to: USM School of Business) to: Accounting Certificate Coordinator; School of Business; University of Southern Maine; P.O. Box 9300; Portland, ME 04104-9300.

The following foundation courses (six credits) are prerequisites to one or more of the courses included in the accounting certificate.

ACC 110	Financial Accounting Information for Decision Making	3 credits
ACC 211	Managerial Accounting Information for Decision Making	3 credits

The certificate program consists of the following six courses (16 credits). Courses must be taken in the order required by the prerequisite structure in effect.

			<i>Credits</i>
ACC 221	The Financial Accounting Cycle*		1
ACC 301	Financial Reporting I		3
ACC 302	Financial Reporting II		3
ACC 329	Accounting Information Systems		3
ACC 410	Auditing and Assurance		3
ACC 413	Concepts and Strategies of Taxation		3

*ACC 221 may be waived by passing an equivalency exam.

Enrollment in specific courses is based on eligibility criteria and availability of space in the courses. Enrollment in some courses may be restricted or prohibited in any given semester due to high demand from degree students. Admission into the certificate program does not guarantee admission into any other USM program or enrollment in any specific course. Students must complete the required 16 credit hours within four years after the application date and must earn a minimum 2.33 cumulative GPA (with a minimum grade of C- in each course) to obtain the certificate. Students may be able to apply earned certificate course credit toward an undergraduate business degree at USM with an accounting major if the minimum GPA requirements are met.

Students who have completed required coursework elsewhere, prior to admission to the certificate program, may petition to substitute up to three credits (one course) of another 400-level ACC course for one of the required courses (a grade of C or better in the course taken elsewhere is required). Non-matriculated students enrolled in this certificate program will not be eligible for financial aid.

Risk Management and Insurance Certificate of Undergraduate Study

The certificate program in risk management and insurance (RMI) is a way for individuals already working in risk management, insurance, and financial services to develop a deeper understanding of the business in which they work without the larger and protracted experience of seeking a complete (or in some cases second) undergraduate degree. One of the three RMI courses (RMI 350) has been approved for automatic credit toward two separate professional designations offered by a national provider of risk management and insurance professional education.

Applications to the program are available online or from the School of Business office and carry a \$50 application fee. Applicants to this program must mail completed hard copy application and application fee (payable to: USM School of Business) to RMI Certificate Program, University of Southern Maine, P.O. Box 9300, Portland, ME 04104-9300

Admission to this certificate program will be limited to those with either: 1) a minimum cumulative 2.33 GPA in at least 54 previous semester hours of college credit, or 2) a minimum of three years of risk management, insurance, or other financial services work experience. Applicants relying on the latter admission requirement will need to provide evidence of at least a high school diploma, or its equivalent.

The RMI certificate program is a 15-hour program consisting of three required core courses and two elective courses. There is no particular order in which either core or elective courses must be taken as long as individual course prerequisites are satisfied.

			<i>Credits</i>
Required Core Courses (9 credit hours):			
RMI 320	Introduction to Risk Management and Insurance		3
RMI 330	Health, Life, and Disability Insurance		3
RMI 350	Managing Risk with Property and Liability Insurance		3

Elective Courses (6 credit hours) – choose any two courses:

ACC 110	Financial Accounting Information for Decision Making	3
BUS 190	Personal Finance	3
BUS 200	Introduction to Business	3

BUS	260	Marketing	3
BUS	280	Legal Environment of Business	3
BUS	340	Managing Organizational Behavior	3

Enrollment in specific courses is based on eligibility criteria and availability of space in the courses. Enrollment in some highly demanded courses may be restricted or prohibited in any given semester. Admission into the certificate program does not guarantee admission into any other USM program or enrollment in any specific course.

Students must complete the required 15 credit hours within four years after the application date and must earn a minimum 2.33 cumulative GPA to obtain the certificate. Students may be able to apply earned certificate course credit towards an undergraduate business degree at USM as long as they earn a minimum 2.33 GPA in the certificate program courses.

Related courses previously taken in associate or baccalaureate degree programs at regionally accredited colleges and universities in which a minimum grade of C+ was earned may be applied towards the non-RMI elective courses of the proposed certificate program. Transfer credit will not be permitted for the RMI core courses. Non-matriculated students enrolled in this certificate program are not eligible for financial aid.

Certain courses are offered only once a year; semester is noted in description. Students should take into account these schedules when developing their academic program.

ACC 105 Introduction to the Accounting and Finance Profession

This course provides an introduction to the accounting and finance profession. The course will explore career opportunities available and examine the skills necessary for success in accounting and finance. Certifications such as the CPA, CMA, and CFA will be discussed, and the advantages of membership and participation in professional organizations will be explored. Undergraduate and graduate educational options will also be discussed. Dialogue will occur with various members of the professional accounting and finance community representing a range of experience levels and a diversity of accounting careers. Pass/fail. Fall only. Cr 1.

ACC 110 Financial Accounting Information for Decision Making

This course is designed to help students appreciate the role of accountants in providing information helpful to decisions of investors, creditors, government regulators, and others, and how that information can be used. Emphasis is on understanding the meaning and value of the balance sheet, income statement, and statement of cash flows. The role of the auditor, internal controls, and ethical issues are examined. The annual report is used to explore how corporations apply accounting principles in presentations to the public. Prerequisites: minimum of 12 earned credit hours and evidence of successfully meeting the University's writing and mathematics proficiency requirements. Cr 3.

ACC 211 Managerial Accounting Information for Decision Making

This course will provide students with the opportunity to learn basic concepts and accounting systems involved in the use of managerial accounting information in making planning and control decisions in organizations. Basic concepts include different types of costs (e.g., direct, indirect, fixed, variable, and relevant costs). Basic accounting systems include systems for cost allocation (e.g., job-order costing, activity-based costing), planning (e.g., cost-volume-profit analysis, master budget), and control (e.g., flexible budgets, variance analysis, responsibility accounting, performance measurement). Prerequisites: ACC 110 (C- or higher) and sophomore standing. Cr 3.

ACC 221 The Financial Accounting Cycle

This course serves as a "bridge" between the introductory level (user-focused) financial accounting course and Financial Reporting I, which is required for the accounting major. The course reviews the accounting cycle: the journal entries for typical business transactions including adjusting and closing entries, and the preparation of accounting statements including preparation of a complete accounting cycle exercise. The course must be completed prior to enrollment in ACC 301/501. Prerequisite: ACC 110 (C- or higher) or MBA 502. Cr 1.

ACC 301 Financial Reporting I

An examination of the conceptual framework, the primary financial statements, and the methods and rationale for recording and reporting assets. Emphasis is on the effect of present and potential economic events on the financial statements. The course discusses the advantages, limitations and deficiencies associated with generally accepted principles in connection with presenting decision useful information. Prerequisites: ACC 110 (C- or higher), ACC 211 (C- or higher), ACC 221 (with a grade of C or higher), and junior standing. Cr 3.

ACC 302 Financial Reporting II

An examination of the methods and rationale for recording liabilities and equity. The course also examines the statement of cash flows. Emphasis is on the effect of present and potential economic events on the primary financial statements. The course discusses the advantages, limitations, and deficiencies associated with generally accepted principles in connection with presenting decision-useful information. Prerequisites: ACC 301 and junior standing. Cr 3.

ACC 315 Internal Auditing

This course focuses on the study of the nature of internal auditing, professional standards, organizational controls, operational auditing, and internal audit reporting. Students will explore the philosophy behind, and the methods needed to evaluate adherence to company policies and the strength of internal controls. The partnership relationship with the external auditor will also be evaluated. Prerequisite: ACC 211 (C- or higher) and junior standing. Limited offerings. Cr 3.

ACC 329 Accounting Information Systems

This course explores the theory and tools needed to select, use, set up internal controls for, and obtain information from accounting systems. The basic debits and credits of double-entry accounting are reviewed using a manual practice set that includes preparing typical business documents. The business activities performed in the expenditure, production, and revenue cycles are covered together with the documents, internal controls, and reporting needs relevant to each cycle. Significant emphasis is placed on the effects of error on financial reports, the controls needed to prevent and detect errors in accounting systems, and the correction of system errors. The use of small business accounting software is introduced. Students use accounting software to set up accounts, process transactions, and produce managerial and standard financial accounting reports. Prerequisites: ACC 211 (C- or higher), ACC 301, and junior standing. Spring only. Cr 3.

ACC 395 Internship I

The first internship course in accounting is described in the general School of Business catalog text. Prerequisites: junior standing, 2.5 GPA or higher, and permission of a School of Business advisor and instructor. Enrollment is normally limited to accounting and finance majors or minors who have not completed degree requirements. Pass/fail. Cr 3.

ACC 396 Internship II

This is the second internship course in accounting. Prerequisites: 2.5 GPA or higher, and permission of a School of Business advisor and instructor. May petition Department to take concurrently with ACC 395. Enrollment is normally limited to accounting and finance majors who have not completed degree requirements. Credits from this course count as general electives only. Pass/fail. Cr 3.

ACC 405 Cost Management Systems

This course is designed to explore how cost management systems can be used to support competitive strategy in global markets. This is accomplished by providing an understanding of the underlying and fundamental concepts in cost accounting. Group activities and writing are an integral part of this course. Prerequisites: ACC 211 (C- or higher) and junior standing. Spring only. Cr 3.

ACC 410 Auditing and Assurance

This course examines the public accounting profession, auditing standards, and professional ethics. The course explores the process by which an auditor forms an opinion as to the "fairness of presentation" of financial statements, giving an overview of audit evidence and audit evidence accumulation methodology. The course exposes students both to the demand for and supply of the profession's flagship service, financial statement audits, and to the nature of the value-added assurance and attestation services decision makers demand in the information age. The course illustrates with real companies, links class discussion and assignments to student skills, and encourages unstructured problem solving. This course provides an opportunity for students to study auditing concepts and theory at an advanced level by examining a number of issues, with extensive reading from the auditing research literature, in addition to the textbook material. Prerequisites: ACC 302, ACC 329, and senior standing. Fall only. Cr 3.

ACC 413 Concepts and Strategies of Taxation

This course provides a conceptual understanding of the federal tax system, and its impact on individuals, corporations, and partnerships. The primary emphasis is on fundamental income tax concepts and principles, with an overview of other taxes. Detailed technical coverage and return preparation are minimized. The economic, political, social, and judicial reasoning underlying tax provisions are explored. Tax issues and changes under current consideration at the national, state, local and international levels are discussed. Basic research skills and methodology are introduced. Prerequisites: ACC 110 (C- or higher) and junior standing. Fall only. Cr 3.

ACC 416 Governmental and Nonprofit Accounting

An analysis of the environment and characteristics of government and nonprofit organizations, with an in-depth study of the basic concepts and standards of financial reporting for such entities. Financial management and accountability considerations specific to government and nonprofit organizations are emphasized. Prerequisites: ACC 301 and junior standing. Fall only. Cr 3.

ACC 418 Principles of Fraud Examination

This course examines the subject of fraud from both management and accounting perspectives. Utilizing a variety of techniques including text, lecture, case studies, guest speakers, and occasional videos, the course seeks to familiarize students with the conditions that facilitate fraud; the profile of the fraud perpetrator; common types of fraud; and methods of prevention, detection, and resolution. Numerous historical cases of fraud are examined. Students are brought to appreciate the prevalence of fraud in current society as well as the almost innumerable ways in which it can be committed. Students entering the business world are provided a perspective for understanding. Prerequisites: ACC 110 (C- or higher) and junior standing. Limited offerings. Cr 3.

ACC 441 Advanced Accounting

This course explores a variety of advanced topics such as the theoretical and practical concepts of business combinations, partnerships, foreign currency, and other current issues. Prerequisites: ACC 302 and junior standing. Limited offerings. Cr 3.

ACC 490 Independent Study in Accounting

Selected topics in the various areas of accounting, auditing, and income taxes may be studied and researched on an independent basis. Enrollment is normally limited to accounting and finance degree candidates. Prerequisites: permission of instructor and program chair and senior standing. Cr 1-3.

ACC 499 Special Topics in Accounting

Prerequisites vary by topic. Cr 1-3.

BUS 101 Getting Down to Business

This course is an integrated, comprehensive overview of the way a business operates and what it takes to manage one. It introduces students to the basic, interdisciplinary knowledge used to run a business—such as finance, marketing, and management—by giving students an extended opportunity to manage a business in a simulated business environment. Students also get experience with, and enhance their ability to work in, self-managed teams. The course is strongly recommended as a first business course for all first-year students who are, or are considering, a major or minor in the School of Business. The course is designed to, in part, acclimate the recent high school graduate to USM. It is open to all University students, except those with more than 23 credits or credit for an introductory business course such as BUS 200. Cr 3.

BUS 190 Personal Finance

Primary emphasis is to teach students how to become more knowledgeable and independent over money matters. Topics such as obtaining financial aid, managing student loans, career and education planning, budgeting, credit cards, stock market investing, real estate, and insurance will be covered. Upon completing the course, students will be on their way to making

better money decisions. This course is open to all USM students. When taken by business or accounting majors, this course will give general elective credit. Limited offerings. Cr 3.

BUS 200 Introduction to Business

This course is designed to introduce the student to the contemporary business environment and the variety of typical activities engaged in by business professionals. It explores how different business functions are integrated to accomplish the goals of the business within an increasingly competitive business environment. It is designed for anyone interested in becoming knowledgeable about successful business practices. Students with credit for BUS 101 or other introductory business course may not enroll. This course is intended for non-majors, and is restricted to students with fewer than 9 credits in business, finance, and accounting. Business and accounting majors may not enroll without the approval of their academic advisor. Those with credit for BUS 101 may not enroll. Prerequisites: Fewer than nine credits in BUS, FIN and ACC. Limited offerings. Cr 3.

BUS 210 Introduction to Sport Management

This course provides an overview of the business of sports, including career opportunities. The value of professional management to sports organizations is examined. Cr 3.

BUS 260 Marketing

This course is an introduction to the field of marketing. Topics include marketing strategy for products and services, market segmentation, targeting, and positioning, product issues, pricing, promotion, distribution, consumer behavior, marketing research and information systems, international marketing, and nonprofit marketing. Prerequisite: minimum of 24 earned credit hours. Cr 3.

BUS 275 Applied Business Analysis

This course provides students with an understanding of statistical concepts and tools that are critical in business decision making. The discussion and development of each topic are presented in an application setting, with the statistical results providing insights and solutions to real world problems. The coursework requires extensive use of commercially available statistical software. Prerequisite: ABU 190 (C or higher grade, or test-out option), MAT 108 (C- or higher grade), and MAT 210D (C- or higher grade) or other approved statistics course (see www.usm.maine.edu/sb/stats.html for approved courses). Cr 3.

BUS 280 Legal Environment of Business

This course introduces students to the legal system, tort law, product liability, consumer law, labor law, equal employment law, intellectual property law, and other topics. It stresses the social responsibility of business and the legal and ethical framework in which businesses must function. Cr 3.

BUS 303W Career Planning and Development

Students in this course identify and develop career goals and plans while improving their writing skills. Students engage in activities relating to personal and professional interest profiling, interest and employment inventories, interview preparation, resume construction, job searches, and business writing. Prerequisites: junior standing and ENG 100/101C or equivalent course. Limited offerings. Cr 2.

BUS 311 Sport Marketing

Basic marketing concepts are applied to sport organizations, both amateur and professional. Topics include promotions and public relations, sport consumer behavior, strategic marketing planning, marketing information management, marketing communications, and sponsorship. Prerequisites: BUS 260 (C- or higher) and junior standing. Cr 3.

BUS 312 Sport Law

This course examines the legal system, its terminology, and principles in the context of professional and amateur sports. Emphasis is on identifying and analyzing legal issues, the ramifications of those issues, and the means of limiting the liability of sport organizations. Prerequisites: BUS 280 (C- or higher) and junior standing. Fall only. Cr 3.

BUS 313 Sport Facility Management

An investigation of the functions of sport managers in the design, operation, and financing of facilities and venues. Students will examine the issues pertaining to management of public and private arenas, stadiums, theatres, galleries, festivals, racetracks, and multipurpose facilities. Management of temporary facilities for special events will also be considered. Prerequisite: BUS 311 or BUS 315. Limited offerings. Cr 3.

BUS 314 Sport Communication

This course is designed to introduce the student to the role of effective communication in the sport, art, and entertainment industry settings. The nature and function of communication will be examined in a variety of settings. Emphasis will be placed on interpersonal communications, public relations, mass media relations, public speaking, and innovative technology. Prerequisite: BUS 311. Limited offerings. Cr 3.

BUS 315 Sport Finance

Basic theory in finance and accounting is applied to managerial control of sport organizations. Topics include forms of ownership, taxation, financial analysis, feasibility studies, and economic impact studies. Prerequisites: FIN 320, (C or higher) and junior standing. Spring only. Cr 3.

BUS 316 Sport Event Management

This course is designed to provide practical involvement in managing a sport event. Students will be assigned to committees for which they will plan, organize, publicize and manage all aspects of event operations during the semester. A required

component of the course will include a commitment to work with the actual event. Prerequisite: BUS 311. Limited offerings. Cr 3.

BUS 317 Sport Sponsorship and Sales

Overview of all elements of sport sponsorships, including rationale, benefits, proposal development. Sales management strategies will focus specifically on the unique aspects of sport sponsorship environment. Students will create marketing surveys, develop sponsorship proposals, identify and contact potential sponsors, conduct negotiation and sales, learn activation techniques, and evaluate sponsor packages. Prerequisite: BUS 311 or BUS 315. Limited offerings. Cr 3.

BUS 318 Athletics Administration

This course is designed to introduce the student to the management issues faced by administrators within collegiate and high school athletics departments. Students will develop an understanding of issues such as governance, financial considerations, National Collegiate Athletic Association (NCAA) and conference compliance, gender equity and Title IX, conference membership issues and realignment, legislation, and reform. Prerequisite: BUS 311 or BUS 315. Limited offerings. Cr 3.

BUS 335 International Business

Introduction to the global economy and the political and cultural environments of international business. Topics include financial, marketing, and human resource issues in international business. Prerequisites: ECO 101, ECO 102, and junior standing. Spring only. Cr 3.

BUS 336 Approved International Experience

An educational activity while outside the U.S. that contributes to the student's understanding of international business and which has been approved by one of the international business faculty members. (See International Business Track for more information.) Prerequisite: junior standing. Cr. 3.

BUS 337 Approved International Business Experience

An educational activity while outside the U.S. that directly contributes to the student's understanding of international business and has been preapproved by one of the international business faculty members. Normally limited to an upper-level course in a business discipline, including economics and/or law. (See International Business Track for more information.) Prerequisite: junior standing. Cr. 3.

BUS 340 Managing Organizational Behavior

A survey of the disciplines of management and organizational behavior, and of the practices managers employ in planning, organizing, leading, and controlling organizations. Topics include self-awareness, perception and decision making, individual differences and diversity, motivation, group dynamics, communication, stress, power and politics, organizational design, and change. The environmental context, workforce diversity, the global economy, and managerial ethics are core integrating themes. Prerequisite: junior standing. Cr 3.

BUS 342 Leadership

The purpose of this course is to help students be more effective exercising leadership. To do this, the course will first teach the distinction among leadership, authority, and management, and also among different leadership situations. The course will then provide experiential exercises and exposure to tools and techniques appropriate to the various challenges. Prerequisites: BUS 340 (C or higher) and junior standing. Limited offerings. Cr 3.

BUS 345 Information Technology/Management Information Systems

Surveys information/systems technology for the management of corporate information as a resource. Managerial and technical dimensions of information systems are blended in a framework of information technology. Specific topics will evolve with the field but may include data communications, information systems theory, database concepts, and decision support systems. Prerequisite: Sophomore standing. Cr 3.

BUS 346 Human Resource Management

Analysis of professional practice issues in personnel and human resource management. Students will form in-class enterprises to explore topics including: human resource planning, recruitment, staffing, performance appraisal, compensation and reward system design, training and development, employee rights and safety, labor-management relations, and legal and international dimensions of human resource management. Prerequisite: junior standing. Limited offerings. Cr 3.

BUS 357 Triple-Bottom-Line Marketing

How can marketers manage for the triple bottom line of financial, environmental, and social performance? This online course begins with an exploration of sustainable business (i.e., the pursuit of profits without causing pollution or social inequity). The course ends by examining green consumer behavior and the interrelationship between environmental issues and marketing strategy. Prerequisites: junior standing and BUS 260 (C- or higher) or instructor's permission. Fall only. Cr 3.

BUS 358 E-Commerce

This course examines various business models used in electronic commerce, provides an understanding of how an e-presence is established, and explores the strategic use of e-commerce in a global environment. Students will develop skills in establishing a Web presence for a business and business planning. Prerequisites: BUS 260 (C- or higher), BUS 345 (C or higher), and junior standing. Limited offerings. Cr 3.

BUS 359 Customer Relationship Management

Customer relationship management (CRM) involves the strategic use of people, technology, and processes to select, acquire, and retain customers to maximum profit. This course emphasizes the link between CRM, database marketing, and

customer value and also develops students' skills in customer selection and data analysis. Prerequisites: BUS 260 (C- or higher), BUS 275 (C- or higher), BUS 345 (C or higher), and junior standing. Fall and/or spring. Cr 3.

BUS 361 International Marketing

This course addresses the critical marketing skills required for business survival in today's world economy. It deals with international environments and international marketing management, and links international marketing with a company's overall strategic planning activities. Practical case work or a computer simulation will be used to apply international marketing concepts. Prerequisites: BUS 260 (C- or higher) and junior standing. Fall only. Cr 3.

BUS 362 Market Opportunity Analysis

In this course, student teams work with a local business to develop a market opportunity. Areas of analysis include target-market identification, industry trends, demand analysis, capacity and fit issues, competitive analysis, and forecasting. Prerequisites: BUS 260 (C- or higher) and junior standing. Students are encouraged to take BUS 365 and BUS 369 before BUS 362. Cr 3.

BUS 363 Advertising

Students will explore the evolution of advertising, how its forms and mediums are used and relate to the product, the climate, and the target market, all within the framework of the marketing concept. Prerequisites: BUS 260 (C- or higher) and junior standing. Limited offerings. Cr 3.

BUS 364 Professional Selling

This course is designed to equip students with the fundamental understanding of the role of professional selling within all types of organizations, with an emphasis on development of communication, relationship building, and presentation skills. The course is interactive/"hands on" and will include: video case studies, role playing, sales presentations, guest lectures, use of PowerPoint, use of sales management software, group presentations, mini lectures, and Internet research. Prerequisites: BUS 260 (C- or higher) and junior standing. Limited offerings. Cr 3.

BUS 365 Consumer Behavior

This course examines alternative explanations of consumer behavior. Emphasis is placed on cultural, sociological, and psychological influences on consumption. Other topics include consumer decision processes and the way managers use consumer characteristics to segment the market and develop marketing plans. Prerequisites: BUS 260 (C- or higher) and junior standing. Students with credit for BUS 165 may not enroll. Cr 3.

BUS 366 Retail Management

Students examine the use of merchandise and service to satisfy the needs of targeted consumers in a competitive retail environment. Topics include marketing strategy, merchandising, location, store management, non-store retailing, pricing and financial analysis, organizational structure and human resources, and information systems. Prerequisites: ACC 110 (C- or higher), BUS 260 (C- or higher) or instructor permission, and junior standing. Limited offerings. Cr 3.

BUS 367 Marketing Management

Students gain experience making marketing decisions as members of teams. The emphasis is on applying a management perspective to marketing decision making. Students must integrate knowledge from other functional disciplines into a strategic marketing planning framework. Prerequisites: BUS 260 (C- or higher), any 300-level marketing course, and junior standing. Spring only. Cr 3.

BUS 369 Marketing Research

Students learn the benefits of marketing research as a management planning and evaluative tool. Topics include problem formulation, research design, sampling, data collection and analysis, and managerial interpretation of the findings. Students gain knowledge of the marketing research process through completion of a marketing research project and lab work with statistical software. Prerequisites: ABU 190 (C or higher grade) or test-out option, MAT 210 (C- or higher) or other approved statistics course (see www.usm.maine.edu/sb/stats.html for approved courses), BUS 260 (C- or higher), and junior standing. Spring only. Cr 3.

BUS 370 Management Science

This course examines the role, perspective, and commonly used tools of quantitative analysis in business decision making. Emphasis is placed upon developing students' abilities to recognize the need for quantification; formulate business problems quantitatively; select and test computer-based, decision-support system models; collect meaningful data; and interpret the implications of analysis results. Prerequisites: ABU 190 (C or higher grade, or test-out option), BUS 275 (C- or higher) or MAT 212, and junior standing. Students with credit for BUS 270 or BUS 371 may not enroll. Cr 3.

BUS 375 Production/Operations Management

An examination of the role of operations within manufacturing and service organizations. Emphasis is placed upon recognizing operational opportunities and tradeoffs, and employing quantitative and qualitative tools and decision-support systems to assist strategic and operational decision making. Topics include: process design, quality management, capacity planning, supply chain management, and production planning. Prerequisites: ABU 190 (C or higher) or test-out option, BUS 275 (C- or higher) or MAT 212, BUS 370 (C or higher), and junior standing. Cr 3.

BUS 380 Advanced Legal Issues in Business

This course will cover negotiable instruments, contract law, trusts and estates, property law, and other legal topics. This course is intended to provide detailed study of many important legal issues facing businesses. Prerequisite: BUS 280 (C- or higher), junior standing, or permission of the instructor. Limited offerings. Cr 3.

BUS 382 International Business Law

An examination of legal issues affecting international business transactions. Topics include contracts, sale of goods, letters of credit, regulation of imports and exports, business competition law, protection of intellectual property rights, and ethical issues. Prerequisites: BUS 280 (C- or higher) or equivalent, and junior standing. Spring only. Cr 3.

BUS 385 Entrepreneurship and Venture Creation

This course is about starting a business and about the benefits and costs, both personal and professional, of an entrepreneurial career. Students learn how to establish start-up teams, identify opportunities, and obtain resources. The course involves written self-appraisals, case analyses, team work, and presentations of comprehensive business plans. Prerequisites: ACC 110 (C- or higher), ACC 211 (C- or higher) or permission, BUS 362 (or permission), and junior standing. Fall only. Cr 3.

BUS 391 Internship in Sustainable Business

See BUS 395 description for requirements. Cr 3.

BUS 392 Internship in Marketing

See BUS 395 description for requirements. Cr 3.

BUS 393 Internship in Sport Management

See BUS 395 description for requirements. Cr. 3.

BUS 394 Internship in International Business

See BUS 395 description for requirements. Cr 3.

BUS 395 Internship I

This is the first internship course in business administration. Prerequisites: junior standing, 2.33 GPA or higher, and permission of a School of Business advisor and instructor. Enrollment is limited to baccalaureate School of Business majors who have not completed degree requirements. A maximum of 6 internship credits may be used toward the degree. Cr 3.

BUS 396 Internship II

This is the second internship course in business administration. Prerequisites: BUS 395, 2.33 GPA or higher, and permission of a School of Business advisor and instructor. Enrollment is limited to baccalaureate School of Business majors who have not completed degree requirements. A maximum of 6 internship credits may be used toward the degree. Credits from this course count as general electives only. Cr 3.

BUS 397 Internship in Sport Management/Advance Field Experience

The internship requirement is considered to be one of the most critical components of the Sport Management Program. Students will undertake a 12-15 week, full-time (40 hours per week) supervised internship. This opportunity is expected to enhance the student's academic experiences via a required industry analysis paper, a research project, weekly logs and a portfolio, as well as provide additional work experience and networking opportunities. Internship experiences may take place in any of the varied sport industry settings. Students may obtain internships in any region of the country and in some cases may receive financial compensation.

Prerequisite: junior standing, BUS 311, 2.33 GPA or higher and permission of a School of Business advisor and instructor. Enrollment is normally limited to sport management majors who have not completed degree requirements. May not be taken Pass/Fail. Cr 6.

BUS 398 Marketing Practicum

Working in self-directed teams, students carry out a marketing project to meet the goals of a partner in the business community. As part of the course, students are to generate publicity for the school and formally present the results of the project to their external partners. The course emphasizes problem-based learning and the development of professional skills. If more than 3 credits are earned, the extra credits count as general electives. Students are encouraged to take BUS 365 and BUS 369 before this course. Prerequisites: BUS 260 (C- or higher), any 300-level marketing course, GPA of 2.5 or higher, junior standing, or instructor permission. Limited offerings. Cr 3.

BUS 399 Special Topics in Business

Prerequisites vary. Limited offerings. Cr 1-3.

BUS 415 Sport Management Seminar

This capstone sport management course is designed to integrate the academic work studied throughout the curriculum. Critique of governance issues and policy development in a range of sport organizations will be considered. Students will participate in decision making and strategic planning cases. Emphasis will focus on the strategic, profit-oriented, and ethical decision making that is necessary for upper level sport managers to be successful. Students will conduct in-depth analysis of a specific area of the field. Prerequisite: BUS 311, BUS 312, BUS 315. Spring only. Cr 3.

BUS 450 Business Policy and Strategy

An in-depth examination of the strategic management process in large complex organizations. This course uses case study analysis, discussion and integrative capstone projects to provide students with opportunities to learn and to apply strategic management theories and concepts. These include competitive analysis, value-chain analysis, generic business strategies, corporate strategy, and global strategy. The course fulfills the capstone requirement of the USM Core. Prerequisites: BUS 260 (C- or higher), BUS 340 (C or higher), FIN 320 (C or higher), GPA 2.0 or higher, and senior standing. Students matriculating

fall 2011 and later must fulfill the University Core Requirement of "Ethical Inquiry, Social Responsibility and Citizenship" prior to enrollment. Cr 3.

BUS 485 Managing the Growing Entrepreneurial Venture

An interdisciplinary course emphasizing the application of entrepreneurial management concepts and strategies to the growth-oriented small business beyond the start-up stage to eventual maturity and harvest. Topics include venture opportunity analysis, stages of small business growth, making the transition from entrepreneur to entrepreneurial manager, formulating and implementing growth strategies, building an effective organization, marshaling organizational and financial resources for growth, managing under adversity, and managing rapid growth. Prerequisites: BUS 260 (C- or higher), BUS 340 (C or higher), FIN 320 (C or higher), and senior standing. Spring only. Cr 3.

BUS 490 Independent Study

Selected topics in business administration may be studied and researched on an independent basis. Enrollment is normally limited to business administration degree candidates. Prerequisites: junior standing and permission of instructor and Department chair. Cr 1-6.

FIN 105 Introduction to the Accounting and Finance Profession

See ACC 105 for requirements. Pass/fail. Fall only. Cr 1.

FIN 320 Basic Financial Management

This course is a balanced introduction to the theory and practice of financial management. It prepares students to make basic financial decisions and understand the decisions of others. Topics include time value of money, capital markets, risk and return, stock and bond valuation, capital budgeting, capital structure, and working capital management. Prerequisites: ACC 110 (C- or higher), ECO 101 or ECO 102, MAT 210 (C- or higher) or other approved statistics course (see www.usm.maine.edu/sb/stats.html for approved courses), and junior standing. Cr 3.

FIN 321 Personal Financial Planning

This course begins to prepare students for a career as a professional financial planner by providing fundamental concepts and principles of personal financial planning, applied with a quantifiable approach to achieving client objectives. Topics include general principles of financial planning, the changing nature of the financial services environment, code of ethics and professional responsibility, credit and debt management, budgeting, personal taxes, employee benefit planning, goal attainment, investment planning, risk management through the purchase of insurance, retirement planning, and estate planning. The course will include casework and current financial planning problem scenarios. Prerequisites: FIN 320 (C or higher) and junior standing. Cr 3.

FIN 326 Financial Modeling

Introduces principles and techniques for building and implementing financial models. Topics are drawn from a variety of areas: financial planning, investments, derivatives, and corporate finance. The course emphasizes the application of financial modeling techniques in identifying and implementing business solutions. The course will be of special interest to students seeking hands-on experience constructing financial models. Prerequisites: FIN 320 (C or higher) and junior standing. Fall only. Cr 3.

FIN 327 Investment Management

Introduction to the securities markets, investment media, and strategies for managing individual and institutional investment portfolios. Special attention is directed to the risk and rate-of-return aspects of corporate stocks and bonds, government bonds, options, futures, and mutual funds. Prerequisites: FIN 320 (C or higher) and junior standing. Spring only. Cr 3.

FIN 328 Financial Institutions and Markets

A comprehensive survey of the structure of the financial markets and the role of bank and nonbank financial institutions in the financial system. Topics address the financial markets as allocators of funds and distributors of risks, asset choices of financial institutions, and contemporary issues facing financial institution managers. Prerequisites: FIN 320 (C or higher) and junior standing. Limited offerings. Cr 3.

FIN 330 International Financial Management

This course focuses upon financial management of the multinational corporation with assets domiciled abroad. The financial dimensions of multinationals require extensive knowledge of how to manage foreign exchange-denominated assets and liabilities and how to borrow money and issue stock in foreign countries. Thus, a basic overview of foreign exchange theory, balance of payments adjustment mechanisms, and international trade theory is provided. Other topics include: international import and export financing, international working capital management, multinational capital budgeting, and international cost of capital. Prerequisites: FIN 320 (C or higher) and junior standing. Fall only. Cr 3.

FIN 395 Internship I

The first internship course in finance is described in the general School of Business catalog text. Prerequisites: junior standing, 2.5 GPA or higher, and permission of a School of Business advisor and instructor. Enrollment is normally limited to finance majors who have not completed degree requirements. Pass/fail. Cr 3.

FIN 396 Internship II

This is the second internship course in finance. Prerequisites: 2.5 GPA or higher, and permission of a School of Business advisor and instructor. May petition Department to take concurrently with FIN 395. Enrollment is normally limited to accounting and finance majors who have not completed degree requirements. Pass/fail. Cr 3.

FIN 490 Independent Study in Finance

Selected topics in the various areas of finance may be studied and researched on an independent basis. Enrollment is normally limited to accounting and finance degree candidates. Prerequisites: permission of instructor and program chair and senior standing. Cr 1-3.

FIN 399 Special Topics in Finance

Prerequisites vary by topic. Cr 1-3.

FIN 499 Special Topics in Finance

Prerequisites vary by topic. Cr 1-3.

RMI 320 Introduction to Risk Management and Insurance

This course introduces students to the nature of risk, risk identification, general risk management techniques, and the management of risk through insurance. It covers why the individual or corporation purchases insurance, what constitutes an intelligent insurance plan, and what products are available in the insurance marketplace. This course is designed for non-majors and is a prerequisite for more advanced risk management and insurance courses. Prerequisites: sophomore standing and successful completion of the University's Core requirement in quantitative reasoning. Cr 3.

RMI 330 Health, Life, and Disability Insurance

This course covers health, life, and disability insurances from the perspective of insurance providers, employers, and consumers. Individual and group health insurance product management and the relationship between product characteristics and insurance company investments, financing, and marketing decisions are discussed. Managed care techniques, benefit package design, and cost sharing mechanisms are assessed in the context of resolving incentive conflicts and meeting cost-containment objectives. The basic principles underlying life insurance are covered as well as the various types and policy provisions for life insurance. Short-term and long-term disability insurance, definitions of disability, and various policy provisions for individual and employer provided group disability insurance are discussed. Evaluation of insurance company financial strength and the impact of regulation on company management and behavior are considered. Prerequisite: RMI 320. Spring only. Cr 3.

RMI 350 Managing Risk with Property and Liability Insurance

This course examines the many commercial property and liability exposures faced by businesses. An emphasis is placed on using commercial property and liability insurance as a method of reducing, managing, and transferring business risk. Topics include commercial general liability, business automobile, workers' compensation, commercial property, business income, and business owner's insurance. The legal environment of property and liability insurance and risk financing are considered. The fundamental structure and business of property casualty insurance are discussed. Prerequisite: RMI 320. Fall only. Cr 3.

RMI 395 Internship I

The first internship course in risk management and insurance is described in the general School of Business catalog text. Prerequisites: junior standing, 2.33 GPA or higher, and permission of a School of Business advisor and instructor. Enrollment is normally limited to general management majors in the risk management and insurance track who have not completed degree requirements. Pass/fail. Cr 3.

RMI 396 Internship II

This is the second internship course in risk management and insurance. Prerequisites: 2.33 GPA or higher, and permission of a School of Business advisor and instructor. May petition Department to take concurrently with RMI 395. Enrollment is normally limited to general management majors in the risk management and insurance track who have not completed degree requirements. Pass/fail. Cr 3.

Center for Entrepreneurship

Director: Valarie C. Lamont

In November 1996 the Board of Trustees of the University of Maine System approved the creation of the Center for Entrepreneurship. Housed within the School of Business, the Center is simultaneously developing academic courses for undergraduate students and non-credit offerings to serve the needs of start-up and existing small businesses statewide. In partnership with the Heart of Maine, the Center sponsors the FastTrac business development program in Maine. The Center also sponsors participation in the Price-Babson Fellows Program at Babson College and hosts the USM Student Business Plan Competition. More information can be found on the Center's Web site at www.usm.maine.edu/cesb or by contacting the Center for Entrepreneurship Office at the University of Southern Maine, 68 High Street, Portland, ME 04101, (207) 780-5919.

Maine Center for Business and Economic Research

Director: Bruce H. Andrews

Associate Director: Charles S. Colgan

Senior Research Associates: Aiello, Andrews, Artz, Bennett, El-Taha, Colgan, Dean, Grover, Hillard, Peng, Sanders, Smoluk, Suleiman, Voyer

The Maine Center for Business and Economic Research (MCBER) was originally formed in 1974 as an EDA University Center, and now serves as a conduit for bringing the expertise and skills of faculty from the School of Business, the Muskie School, and other academic units at USM, to the challenges and opportunities facing the public and private sectors in Maine. As a joint center managed by the Business School and the Muskie School, MCBER is dedicated to helping the state prosper.

Supported by both public and private sources, the Center offers applied research and technical assistance services to Economic Development Districts, profit and nonprofit organizations, and individuals. These services include: survey-based research, economic impact analysis, forecasting, strategic planning, program evaluation, statistical/quantitative analysis, simulation modeling, feasibility studies, risk management, market research, financial/economic modeling, and other forms of customized business/economic analysis. For additional information, contact the Maine Center for Business and Economic Research, University of Southern Maine, P.O. Box 9300, Portland, ME 04104-9300, (207) 780-4187, www.usm.maine.edu/cber.

Maine Small Business Development Centers

State Director: Mark Delisle

Associate State Director: Carol Papciak

Maine Small Business Development Centers (Maine SBDC) provide comprehensive business management assistance, training, resource, and information services to Maine's micro, small, and technology-based business communities. Professional certified counselors, who meet rigorous education and business experience standards, provide business assistance at no cost to Maine's existing and prospective business owners.

Maine SBDC is a partnership program of the U.S. Small Business Administration (SBA) in association with the SBA/OSBDC, Maine Department of Economic and Community Development (Maine DECD), the University of Southern Maine, and leading economic and/or community development hosting organizations, with support from other contractors, allies, and stakeholders. Accredited by the Association of Small Business Development Centers (ASBDC) and administered by USM's School of Business for over 30 years, Maine SBDC operates a network of 11 service centers and numerous outreach offices located conveniently throughout the state.

Maine SBDC's mission is to engage itself and others in development activities that contribute to the improvement of the economic climate for and the success of micro, small, and technology-based businesses in the state of Maine. Its focus is to assist in the creation, growth, and maintenance of viable small businesses and the jobs these businesses provide. Maine SBDC serves those seeking assistance who are willing and able to build, sustain, and/or expand their business. More information about the Maine SBDC can be found at www.mainesbdc.org or by calling (207) 780-4420. Maine SBDC state administrative offices are at 68 High Street, Portland. Mailing address: P.O. Box 9300, Portland, ME 04104-9300.

School of Education and Human Development

Associate Dean and Director of Teacher Education: Catherine Fallona; Assistant Dean for Finance and Administration: Robin Day; Director of Student Affairs: Kimberly Warren; Director of Professional Development Center: George C. Lyons; Director of Center for Education Policy, Applied Research, and Evaluation: David L. Silvernail

The School of Education and Human Development (SEHD), a division of the College of Management and Human Service, is proud to continue the strong commitment to education and service demonstrated by USM's predecessor institutions, beginning with Gorham Normal School in 1878. The School provides for the preparation and professional growth of educators and human development professionals through collaborative efforts with schools and agencies; other colleges at USM; local, state, and national educational networks; and the communities of southern Maine.

Working closely with the College of Arts, Humanities, and Social Sciences and the College of Science, Technology, and Health, the SEHD oversees the preparation of teachers and educators for all areas of K-12 education. Our graduates are well-grounded in their academic disciplines and in the educational knowledge and practices supportive of quality teaching and leadership. Professional preparation reflects the School's commitment to school-university collaboration, equity in student learning, and reflective/critical inquiry at all levels of education.

All of the School's degree programs in K-12 teacher education are accredited by the Teacher Education Accreditation Council (TEAC).

Department of Teacher Education

Chair: Melody Shank, 500 Bailey Hall, Gorham

Teacher Education Advisor: Patricia Mew, 8 Bailey Hall; Professors: Kimball; Associate Professors: Canniff, Davis, Fallona, Jones, Kuech, Ross, Shank, Whitney; Assistant Professor: Hitchens; Lecturers: Needleman, Red; Professors Emeriti: Austin, Colucci, Costello, Neuberger

The School of Education and Human Development carries out the University's mission to prepare teachers through the Department of Teacher Education.

The Department offers programs leading to initial teacher certification in Maine at both the undergraduate and graduate levels. Students graduating from these programs will have a strong liberal arts background; the benefit of extended experiences with students in K-12 schools; the ability to think reflectively and critically; and the opportunity to build on their certification coursework and internships through continued study and support during the first years of teaching, as part of the Masters of Science in Education: Teaching and Learning degree.

The Teachers for Elementary and Middle Schools (TEAMS) is the Department of Teacher Education's undergraduate pathway to K-8 general, K-8 special education, and K-12 English as a Second Language teacher certifications. The TEAMS program includes coursework in an academic major leading to a degree in a liberal arts field and a professional program of teacher certification leading to a State of Maine teacher certification. The TEAMS program includes three options for teacher certification: the General Elementary Education (certification in general elementary grades K-8) pathway, the Unified Elementary General and Special Education pathway (dual certification in general elementary grades K-8 and special education grades K-8), and the Unified Elementary General and English as a Second Language pathway (dual certification in general elementary grades K-8 and English as a Second Language grades K-12). The TEAMS program is designed so that students can complete their undergraduate degree and certification requirements in four, four-and-one-half, or five years, depending on the selected major and chosen pathway.

At the graduate level, the Extended Teacher Education Program (ETEP) offers initial certification pathways in General Elementary Education (certification in general elementary grades K-8), Unified Elementary General and Special Education (dual certification in general elementary grades K-8 and special education grades K-8), Unified Elementary General and English as a Second Language (dual certification in general elementary grades K-8 and English as a Second Language grades K-12), Special Education, K-8 (K-8 certification in special education only), and Secondary Education (grades 7-12) in these certification areas: English, Mathematics, Life Science, Physical Science, Social Studies, or World Languages (K-12 certification), Unified Secondary General and Special Education (dual certification in a chosen content area and 7-12 special education), and Special Education (certification in 7-12 special education only).

Like TEAMS students, students in ETEP learn in partner schools and engage in coursework and internship experiences that integrates theoretical and practical learning. Graduates of ETEP have a solid academic content background as well as the educational knowledge and practices supportive of quality teaching and learning. For more information about ETEP, see the USM graduate catalog, visit the ETEP Web site at www.usm.maine.edu/sehd/TED/graduate.htm, or call the Teacher Education advisor at (207) 780-5413.

Teachers for Elementary and Middle Schools (TEAMS)

The TEAMS program is designed for undergraduate students who enter USM with a strong interest in teaching at the elementary or middle school level. Students in this program receive intensive advising and mentoring throughout their undergraduate years, strong subject area preparation, and yearly field experiences in selected partner-school sites.

TEAMS students are encouraged to pursue a degree in Liberal Studies, a major especially designed to give students strong academic background in the four major content areas taught in kindergarten through grade eight, and a more solid background in a chosen academic concentration (English, life science, mathematics, physical science, or social studies). The Liberal Studies major is a collaboratively designed and administered major between the humanities, sciences, and education faculties. Students may, under special circumstances, choose another major in the liberal arts. Information about the Liberal Studies major can be found in the College of Arts, Humanities, and Social Sciences section of this catalog.

In TEAMS, students pursue their chosen major and a strand of professional preparation courses simultaneously, facilitating connections among the disciplines they are studying. The professional preparation coursework includes a series of carefully sequenced courses, many with field placements, which guide students' development as teachers and enable them to make connections between the theory and practice of teaching and learning. The professional coursework is divided into pre-candidacy coursework and internship coursework. Pre-candidacy coursework is pursued from the time students enter the TEAMS program

until students present evidence of their progress toward the USM Teaching Standards at a Candidacy Review. Through Candidacy Review, the students demonstrate they have reached the benchmarks necessary to enter into the internship phase of their professional preparation. Upon a successful Candidacy Review, students may enter internship. Upon completing all major course requirements, including at least the pre-candidacy professional coursework, students graduate with a bachelor's degree in Liberal Studies or a major of their choice. In addition, they complete at least a year-long internship at one of USM's partner-school sites, which culminates in a recommendation for teacher certification. The length of the internship phase of the program depends on the certification pathway pursued. Some internship coursework is at the graduate level and counts toward the Master of Science in Education: Teaching and Learning degree. Completion of the requirements for certification in the chosen pathway may be a four-and-a-half or five-year program depending on the pathway chosen and the student's progress. Students who complete the TEAMS program are encouraged to apply to the Masters of Science in Education: Teaching and Learning program to complete their master's degrees during their initial years of professional teaching or as part of the internship phase, if pursuing one of the Unified pathways.

Program Admission

Acceptance into the TEAMS program is contingent upon admission to USM and successful completion of the University's writing and mathematics proficiency requirements. Other acceptance criteria include: a strong GPA from previous study and fewer than 60 previously earned college credits, standardized test scores, writing ability, recommendations, and experience working with children. Students interested in this program should contact the Teacher Education Department, 500 Bailey Hall, Gorham campus, or call (207) 780-5302 for application instructions, or visit <http://usm.maine.edu/sehd/TED/undergraduate.htm>.

Program Academic Requirements and Policies

TEAMS students must maintain a high level of academic achievement. Minimum academic requirements are as follows:

- A grade of C or better in all University Core curriculum, major, science, social studies, English, or math coursework.
- A grade of B or better in all TEAMS coursework.
- An overall GPA of 2.75 or better.

Program Probation

A TEAMS student who fails to meet the above academic requirements in any given semester will be placed on program probation. A student on probation must meet with his or her TEAMS advisor to develop a plan of action. Probation notices are sent at the end of each semester. A student will remain on probation until the minimum academic requirements are met. If a student remains on probation for a second semester, he or she may not be allowed to continue taking TEAMS courses until the probation status changes. TEAMS advisors will make this determination. **Students who are placed on TEAMS Program Probation for a second semester and do not meet the minimum requirements by semester's end may be suspended from the program.**

Information about additional policies can be found in the *TEAMS Student Handbook*.

Certification Pathways

Through the TEAMS program, students can pursue three teacher-certification pathways:

- General Elementary Education (certification in general elementary grades K-8),
- Unified Elementary General and Special Education (dual certification in general elementary grades K-8 and special education grades K-8), or
- Unified Elementary General and English as a Second Language (dual certification in general elementary grades K-8 and English as a Second Language grades K-12).

Note: The TEAMS curriculum is currently under revision and is subject to change.

Liberal Studies Major Requirements

Being a Liberal Studies major requires admission into the TEAMS program. *The pre-candidacy professional coursework is part of the Liberal Studies major. Information about requirements for the Liberal Studies major can be found in the College of Arts, Humanities, and Social Sciences section of this catalog.*

Course Requirements for TEAMS General Elementary (K-8) Pathway:

All courses are 3 credit hours, except where noted.

Pre-candidacy Courses:

EDU	120	Early Literacy Development Seminar
EDU	121	Early Literacy Development Field Experience (1 Cr)
EDU	200	Education in the United States
HRD	200J	Human Growth and Development
EDU	211	Culture and Community Seminar
EDU	212	Culture and Community Field Experience (1 Cr)
EDU	220	Middle School Community Seminar
EDU	221	Middle School Community Field Experience (1 Cr)
EDU	320	Applied Skills for Teaching and Learning
EDU	321	Applied Skills for Teaching and Learning Field Experience (1 Cr)
EDU	390	Topics in Education: Portfolio Development

Internship Courses:

EDU	335	Teaching Exceptional Children in the General Education Classroom
	or	
SED	540	Nature and Needs of Learners who are Exceptional
EDU	404/505	Teaching Mathematics K-8
EDU	4441/541	Seminar in Teaching, Learning, and Assessment I
EDU	442/542	Seminar in Teaching, Learning, and Assessment II
EDU	422/544	Applied Pedagogy
EDU	451/551	Teaching Social Studies K-8

EDU	452/552	Teaching Science K-8
EDU	565	Teaching Reading
EDU	566	Introduction to the Writing Process
EDU	324	Student Teaching (6 Cr)
	or	
EDU	644	Internship in Elementary Education (6 Cr)

Course Requirements for the TEAMS Unified General Elementary and Special Education (K-8) Pathway:

The Unified General Elementary and Special Education (K-8) pathway requires two year-long internships, one in K-8 general elementary classrooms and a second in K-8 special education. At the successful completion of this pathway, students will have achieved all requirements for initial teacher certification for general elementary (K-8) and special education at the K-8 level, as well as the Masters of Science in Education: Teaching and Learning.

All courses are 3 credit hours, except where noted.

Pre-candidacy Courses:

EDU	120	Early Literacy Development Seminar
EDU	121	Early Literacy Development Field Experience (1 Cr)
EDU	200	Education in the United States
HRD	200J	Human Growth and Development
EDU	211	Culture and Community Seminar
EDU	212	Culture and Community Field Experience (1 Cr)
EDU	220	Middle School Community Seminar
EDU	221	Middle School Community Field Experience (1 Cr)
EDU	320	Applied Skills for Teaching and Learning Seminar
EDU	321	Applied Skills for Teaching and Learning Field Experience (1 Cr)
EDU	390	Topics in Education: Portfolio Development

Internship Courses:

EDU	405/505	Teaching Mathematics K-8
EDU	441/541	Seminar in Teaching, Learning, and Assessment I
EDU	451/551	Teaching Social Studies K-8
EDU	452/552	Teaching Science K-8
EDU	562	Cultural and Linguistic Diversity
EDU	565	Teaching Reading
EDU	566	Introduction to the Writing Process
EDU	644	Internship in Elementary Education
EDU	600	Research Methods and Techniques
SED	515	Positive Behavioral Interventions and Supports
SED	518	Instructional Strategies for Learners with Special Needs
SED	527	Understanding and Teaching Students with Diverse Abilities in the General Education Curriculum
SED	543	Seminar for Fostering Equity in Educating Diverse Learners
SED	643	Inquiry in Education
SED	653	Assessment of Academic Achievement
SED	682	Special Education Law
SED	688	Special Education Internship (6 Cr)

Course Requirements for the TEAMS Unified General Elementary (K-8) and English as a Second Language Education (K-12) Pathway:

The Unified General Elementary (K-8) and English as a Second Language (K-12) pathway requires two year-long internships, one in K-8 general elementary classrooms and a second in K-12 English as a Second Language classrooms. At the successful completion of this pathway, students will have achieved all requirements for initial teacher certification for general elementary teaching (K-8) and English as a Second Language at the K-12 level, as well as the Masters of Science in Education: Teaching and Learning.

All courses are 3 credit hours, except where noted.

Pre-candidacy Courses:

EDU	120	Early Literacy Development Seminar
EDU	121	Early Literacy Development Field Experience (1 Cr)
EDU	200	Education in the United States
HRD	200J	Human Growth and Development
EDU	211/212	Culture and Community Seminar
EDU	212	Culture and Community Field Experience (1 Cr)
EDU	220/221	Middle School Community Seminar
EDU	221	Middle School Community Field Experience (1 Cr)
EDU	320/321	Applied Skills for Teaching and Learning Seminar
EDU	321	Applied Skills for Teaching and Learning Field Experience (1 Cr)
EDU	390	Topics in Education: Portfolio Development

Internship Courses:

EDU	405/505	Teaching Mathematics K-8
EDU	441/541	Seminar in Teaching, Learning, and Assessment I
EDU	644	Internship in Elementary Education
EDU	451/551	Teaching Social Studies K-8
EDU	452/552	Teaching Science K-8
EDU	558	Content-Based Curriculum for English Language Learners

EDU	559	Aspects of Reading for Multilingual Learners
EDU	561	Aspects of the English Language
EDU	562	Cultural and Linguistic Diversity
EDU	563	ESL Testing and Assessment
EDU	565	Teaching Reading
EDU	566	Introduction to the Writing Process
EDU	600	Research Methods and Techniques
EDU	640	ESL Internship
EDU	643	Inquiry in Education
SED	527	Understanding and Teaching Students with Diverse Abilities in the General Education Curriculum
SED	543	Seminar for Fostering Equity in Educating Diverse Learners

Art Education

The Department of Art in the College of Arts, Humanities, and Social Sciences offers a concentration in art education for bachelor of fine arts candidates who wish to teach art. Information on this program is included in the Department of Art section of this catalog.

German, Latin, and Spanish Education

In collaboration with the Department of Teacher Education, the Department of Modern and Classical Languages and Literatures in the College of Arts, Humanities, and Social Sciences offers programs in K-12 German, Latin, and Spanish education. Information about this program is included in the Department of Modern and Classical Languages and Literatures section of this catalog.

Music Education

The School of Music in the College of Arts, Humanities, and Social Sciences offers a teacher preparation program leading to a bachelor of music in music education degree. Information on this program is included in the School of Music section of this catalog.

Secondary Mathematics Education

In collaboration with the Department of Teacher Education, the Department of Mathematics in the College of Science, Technology, and Health offers a program in secondary mathematics education. Information about this program is included in the Department of Mathematics section of this catalog.

Minor in Educational Studies

Admission into the minor in educational studies has been suspended. A final decision on whether to remove the minor in educational studies as an undergraduate option is pending.

Certificate Program in Athletic Coaching

This program is designed to prepare students for certain coaching responsibilities in schools and recreational programs. The curriculum includes an introduction to the organization and administration of athletics as well as practical work in assisting coaches in selected sports. Attention is also given to the prevention and care of the most common injuries occurring in athletic programs. Students may take courses as electives or as part of the certificate program.

A certificate will be presented to students completing the minimum 18-hour program. In addition, the proper notation will be made on the student's official transcript indicating proficiency in the area of athletic coaching as determined by the certificate program. For more information about this program please call (207) 780-5997 or visit www.usm.maine.edu/athl/Services/certification.html.

Course of Study in Athletic Coaching (18-credit program)

Required

PHE	203	Athletic Training for Coaches
PHE	302	Coaching Philosophy and Fundamentals
PHE	314	Organization and Administration of Athletics
PHE	389	First Aid and CPR

Electives

PHE	106	NCAA Life Choices
PHE	198	Physiology of Health Fitness
PHE	303	Coaching and Officiating Basketball
PHEX	309	Coaching and Officiating Track and Field
PHE	311	Coaching and Officiating Soccer
PHE	312	Coaching and Officiating Football
PHE	315	Coaching and Officiating Field Hockey
PHE	316	Coaching and Officiating Volleyball
PHE	335	Coaching and Officiating Baseball and Softball
PHE	391	Field Experience/Internship

Course Descriptions

EDU 100 Exploring Teaching as a Profession

An exploration of teaching as a professional career through field-based experiences and faculty-led seminars. Cr 3..

EDU 120 Early Literacy Development

Through this course students will develop a basic understanding of children's literacy development through the integration of educational theory and a field experience in a public school setting. The main objective of the course is for students to develop an understanding of how children's literature can support growth in reading, writing, and oral language in elementary school children. In order to do this, students will learn about stages of literacy development, characteristics and qualities of children's literature, and ways to integrate the two in classroom settings. Co-requisite: EDU 121. Prerequisite: open to matriculated students in TEAMS or by Teacher Education Department (TED) permission. Cr 3..

EDU 121 Early Literacy Development Field Experience

This K-5 public school-based field experience is designed to develop in students a basic understanding of children's literacy development through the integration of educational theory into a field experience in a public school setting. The main objective of the field experience is for students to develop an understanding of how children's literature can support growth in reading, writing, and oral language in elementary school children. Co-requisite: EDU 120 Prerequisite: open to matriculated students in TEAMS or by Teacher Education Department (TED) permission. Cr 1.

EDU 200 Education in the United States

This course engages students in the study of U.S. education, schooling, and teaching from social, historical, political, and legal perspectives. Special emphasis is placed on identifying pivotal issues and problems with which our public educational system has grappled both in the past and in the present. Through research initiatives and related investigations, students develop the necessary background to analyze and evaluate topics under study, and formulate and defend positions on educational issues. Prerequisite: None. Cr 3..

EDU 210 Theoretical Foundations of Learning

This course is intended for those exploring teaching as a career, providing an examination of theories of learning and their application to teaching. Prerequisite: None, HRD 200J recommended. Cr 3..

EDU 211 Culture and Community

This course supports students in examining and reflecting upon issues related to cultural diversity and supports them in developing culturally responsive teaching practices. Prerequisite: open to matriculated students in TEAMS, the Secondary Mathematics Education TED Pathway, the Modern and Classical Languages and Literature (MCLL) Education TED Pathway, or by Teacher Education Department (TED) permission. Co-requisite: EDU 212. Cr 3..

EDU 212 Culture and Community Field Experience

This field experience supports students in examining the relationship between theory and practice through field observations in community settings related to cultural diversity and developing culturally responsive teaching practices. Prerequisite: open to matriculated students in TEAMS, the Secondary Mathematics Education TED Pathway, the Modern and Classical Languages and Literature (MCLL) Education TED Pathway, or by Teacher Education Department (TED) permission. Co-requisite: EDU 211. Cr 1.

EDU 220 Middle School Community

This course extends students' knowledge and understanding of the developmental characteristics of early adolescents and supports the students' examination of how the contexts of middle schools and the best teaching practices in middle schools are responsive to the developmental characteristics and needs of early adolescents. Prerequisite: Open to matriculated students in TEAMS, the Secondary Mathematics Education TED Pathway, the Modern and Classical Languages and Literature (MCLL) Education TED Pathway, or by Teacher Education Department (TED) permission. Co-requisite: EDU 221. Cr 3..

EDU 221 Middle School Community Field Experience

This course supports students in examining the relationship between theory and practice through field placements in middle school classrooms. These classroom experiences extend students' knowledge and understanding of the developmental characteristics of early adolescents and support the students' examination of how the contexts of middle schools and the best teaching practices in middle schools are responsive to the developmental characteristics and needs of early adolescents. Prerequisite: open to matriculated students in TEAMS, the Secondary Mathematics Education TED Pathway, the Modern and Classical Languages and Literature (MCLL) Education TED Pathway, or by Teacher Education Department (TED) permission. Co-requisite: EDU 220. Cr 1.

EDU 300 Educational Media and Technology

An examination of educational media and technology with special emphasis on school-based developments and applications. Cr 3..

EDU 320 Applied Skills for Teaching and Learning

This course supports students in examining the relationship among the theories of human development, how people learn, and teaching and learning. Prerequisite: open to matriculated students in TEAMS, the Secondary Mathematics Education TED Pathway, the Modern and Classical Languages and Literature (MCLL) Education TED Pathway, or by Teacher Education Department (TED) permission. Co-requisite: EDU 321. Cr 3..

EDU 321 Applied Skills for Teaching and Learning Field Experience

This course supports students in examining the relationship between theory and practice through observation of and interaction with K-8 public school students and teachers. This field experience is designed to develop in students a basic understanding of fostering a positive classroom environment and instructional planning and assessment. Prerequisite: open to matriculated students in TEAMS, the Secondary Mathematics Education TED Pathway, the Modern and Classical Languages and Literature (MCLL) Education TED Pathway, or by Teacher Education Department (TED) permission. Co-requisite: EDU 320. Cr 1.

EDU 323 Independent Study in Teacher Education

This course provides students the opportunity to pursue a project independently, planning and exploring an area of interest within the field of teacher education. Most independent study projects are library based; all are intellectually sound and reflect a high caliber of performance. Specific content and methods of evaluation are determined in conjunction with the instructor. An approved proposal is a necessary prerequisite to registration. Prerequisite: matriculation in an education program and junior or senior standing. Cr 1-3.

EDU 324 Student Teaching

For students matriculated in a USM undergraduate teacher education program in music education, technology education, or art education, a supervised student teaching experience of one full semester, carried out in an off-campus field setting, is required. Students must have met their program's requirements to register for student teaching. Prerequisites: vary according to major. This course requires health insurance. Cr 12.

EDU 335 Teaching Children with Exceptional Needs

This course is an introduction to the unique characteristics and needs of special education students. Topics will include understanding characteristics of students with disabilities, implementing instructional strategies, working with parents, and understanding state and federal laws and policies. Prerequisite: matriculation in an education program or by Department permission. Cr 3..

EDU 336 Children's Literature

This course is a survey of children's literature with special emphasis on the selection of appropriate books for children from preschool through the elementary school years. Cr 3..

EDU 390 Portfolio Development

Various uses, purposes, formats, and criteria for developing and evaluating portfolios will be explored. Portfolio development as a reflective, dynamic mode of presenting one's teaching and learning experiences will be emphasized. Each student will develop and present a portfolio during the course. Prerequisite: open to matriculated students in TEAMS, the Secondary Mathematics Education TED Pathway, the Modern and Classical Languages and Literature (MCLL) Education TED Pathway, or by Teacher Education Department (TED) permission. Cr 3..

EDU 405/505 Teaching Mathematics K-8

This course provides experiences to develop and apply mathematical content knowledge and pedagogical skills in elementary and middle school classrooms. Major areas of focus include: how students learn mathematics, conceptual development of mathematical understandings, problem-solving instructional strategies, appropriate and effective uses of tools and technology, assessment of student learning, and providing equitable access to learning for all students. Prerequisite: open to matriculated interns in ETEP and TEAMS programs or by permission of the Teacher Education Department. Cr 3..

EDU 441/541 Seminar in Teaching, Learning, and Assessment I

The primary purpose of this course is to build a learning community where members of the cohort are supported in their internship through the assessment system. The assessment system includes the video reflections and journals as well as a sequential system of conferences, a collection of evidence, and observations. This course is based on helping the participants develop their personal philosophy of teaching and perfect their craft through ongoing discourse, reflection, and inquiry. Specific topics include instruction, lesson and unit planning, classroom management, assessment, diversity, technology, and professionalism. Prerequisite: open to matriculated students in TEAMS and ETEP, the Secondary Mathematics Education TED Pathway, the Modern and Classical Languages and Literature (MCLL) Education TED Pathway, or by Teacher Education Department (TED) permission. Co-requisite: EDU 544, EDU 644 or EDU 613. Cr 3..

EDU 442/542 Seminar in Teaching, Learning and Assessment II

The primary purpose of Seminar II is to sustain a learning community where members of the cohort are supported in their internship through the assessment system. This course is based on helping the participants develop their personal philosophy of teaching and professional portfolio. Participants perfect their craft through ongoing discourse, reflection, and inquiry. Specific topics include instruction, lesson and unit planning, classroom management, assessment, diversity, technology, and professionalism. Prerequisite: open to matriculated students in TEAMS and ETEP, the Secondary Mathematics Education TED Pathway, the Modern and Classical Languages and Literature (MCLL) Education TED Pathway, or by Teacher Education Department (TED) permission. Co-requisite: EDU 613 or EDU 644. Cr 3..

EDU 644 Professional Internship in Elementary Education

This course is a full-time, supervised internship experience in applying knowledge and skills to the practice of teaching. An intern completes semester long classroom internship in which she/he is assigned to a mentor teacher and classroom. The intern completes a minimum of two weeks of lead teaching. Prerequisite: open to matriculated interns in TEAMS. Cr 3.-6.

EDU 444/544 Applied Pedagogy

This course is a part-time, supervised internship experience in applying knowledge and skills under study in coursework to the practice of teaching. An intern completes a semester-long classroom placement in which she/he is assigned to a mentor teacher in an elementary, middle, or secondary classroom in a school. The intern completes a minimum of one week of lead teaching. Prerequisite: open to matriculated interns in ETEP and TEAMS or by permission of the Teacher Education Department. Co-requisite: EDU 541. Cr 3..

EDU 451/551 Teaching Social Studies K-8

This course is designed to provide students with a general understanding of the guiding principles and the strands of social studies. Students will gain a working knowledge of the best practices in social studies instruction and the goals of social studies education. Students will create lesson plans and incorporate appropriate instructional methods and materials as part of the course requirements. Prerequisite: open to matriculated interns in the ETEP and TEAMS programs or by permission of the Teacher Education Department. Cr 3..

EDU 452/552 Teaching Science K-8

The course has an interactive laboratory/discussion field-based approach, modeling and focusing on the teaching and learning aspects of science in the elementary and middle school. The emphasis is on content, process, and methodology. The course will be framed by the Department of Teacher Education's Core Practices, Maine's Learning Results, the National Science Education Standards, and students' goals about the teaching and learning of science. Students will learn strategies for planning and providing core academic and behavioral experiences to all learners and differentiated academic and behavioral experiences for learners with special needs. Prerequisite: open to matriculated students in the ETEP or TEAMS programs, or by Teacher Education Department permission. Cr 3..

EDU 558 Content-Based Instruction for English Language Learners

This course examines the knowledge and practice necessary for the development and implementation of comprehensible content for English Language Learners (ELLs) in the public school setting. It explores the theoretical background of and the strategies for insuring competent delivery of appropriate language and content in a multilingual context. A co-constructive approach incorporating the backgrounds and experiences of course participants is the principal methodology. The pedagogy incorporates principal characteristics of curriculum design applied to learners from different linguistic and socio-cultural backgrounds. Cr 3..

EDU 559 Aspects of Reading for Multilingual Learners

This course examines the role of literacy in the public school classroom (K-12) for linguistically and culturally diverse learners. A critical analysis of the reading process as it applies to young learners as well as application to older learners with varying degrees of first language literacy, is a major emphasis. An examination of first-language influences on reading in a second language is a major emphasis. Cr 3..

EDU 561 Aspects of the English Language

This is a practical course for the prospective or continuing ESL teacher which will examine the various linguistic elements of the English language and their relevance to the teaching process of English as a Second or Other Language. We will be focusing on analyzing the grammatical and phonological aspects of the English language as well as looking at morphology and lexis, semantics, and such social aspects of the language as register and speech variation. Primary emphasis will be placed on a better understanding of English through class discussion, oral presentations, and practical application for teaching in the ESL classroom. Cr 3..

EDU 562 Linguistic and Cultural Diversity in the Classroom

This course examines the nature of language and cultural differences among learners of various ethnic and racial backgrounds. The exploration of diversity provides opportunities for participants to develop a personal awareness of the role of cultural conditioning in classroom encounters; to reflect on and to confront personal biases as they relate to teaching; to acquire the skills and resources for an ethno-relative approach to delivering instruction; and to make language- and topic-related choices compatible with learner differences. Cr 3..

EDU 563 ESL Testing and Assessment

The focus of this course is on learner-centered approaches to constructive evaluation of language and content. Emphasis is predominantly on informal authentic, performance-based assessment practices but also include the role of criterion- and norm-based formal testing procedures within a holistic evaluation framework. Comprehensive evaluation of language involves the whole learner, including an integrated approach incorporating socio-cultural, academic, and cognitive perspectives. Also included is an understanding of biases influencing formalized second language testing. Cr 3..

EDU 565 Teaching Reading

This course traces the development of reading and examines conditions that foster its growth. Topics relate to major stages of literacy development and include: preschool influences on literacy, phonemic awareness and phonics, the development of fluency, vocabulary development, comprehension, study skills, and refinement of reading. Major emphasis is on evolving a balanced approach to literacy instruction, creating communities of learners, scaffolding reading experiences, designing effective organization and management formats, and connecting literacy instruction to assessment. Prerequisite: matriculated in ETEP, TEAMS, or the Teacher Education Department Modern and Classical Languages Education pathway, or by permission of the Teacher Education Department. Cr 3..

EDU 566 Introduction to the Writing Process

This course is designed to introduce pre-service teachers to the development of writing proficiencies through a process approach. A thorough study of current research and theory relating to the composition process leads to the development of instructional programs that will foster students' growth as writers. Many strategies are modeled to meet the needs of diverse learners and an exploration of technology and standards is included. Students gain experience with the writing process through participation in an ongoing, in-class writing workshop. Prerequisite: matriculated in ETEP, TEAMS, or the Teacher Education Department Modern and Classical Languages Education pathway, or by permission of the Teacher Education Department. Cr 3..

EDU 600 Research Methods and Techniques

This course focuses on the concepts, principles, and techniques of educational research with an emphasis on scientific inquiry and problem-solving, designed for both the producer and consumer of educational research. Individual research critiques and a research review are completed. Prerequisites: Matriculation in a SEHD program. Cr 3.

EDU 643 Inquiry in Education

This course is designed as a capstone for the Masters in Teaching and Learning to be taken in the last semester of the MTL program. The course focuses on inquiry in the field of education including the development, implementation, and evaluation of a research project focused on classroom practice or educational policy issues. Candidates completing special education or ESL certification will conduct research in their respective field. Prerequisites: EDU 600 Cr 3.

HRD 200J Human Growth and Development

Please refer to the course description in the Department of Human Resource Development section that follows. Cr 3..

PHE 106 NCAA Life Choices

This course is designed for student athletes in their first or second year at USM. The goal of the course is to enable students to develop their academic potential and to realize their personal and athletic goals during their college experience. Through large and small group work, topical readings, and community service projects, students will clarify goals, values, healthy lifestyles, leadership, and study skills. Prerequisite: open to first- and second-year students only. Cr 3..

PHE 198 Physiology of Health Fitness

The purpose of this course is to provide the student with a scientific background in exercise physiology and health concepts in order to develop and maintain a lifetime program of high-level physical fitness and quality health. Cr 3..

PHE 203 Athletic Training for Coaches

This introductory course in sports medicine/athletic training will provide the student with information about prevention and management of sports-related injuries. Pertinent anatomy and common injuries will be discussed. This course is geared toward individuals involved in or pursuing allied health professions as well as coaching or teaching fields. Cr 3..

PHE 302 Coaching Philosophy and Fundamentals

This course covers various approaches to planning, organizing, and implementing practice sessions in preparation for athletic competition. The psychological and emotional aspects of coaching are also investigated. One segment of the course will be concerned with society's view of coaching as illustrated by today's literature. Cr 3..

PHE 303 Coaching and Officiating Basketball

Coaching philosophy, coaching style, choosing a team, individual fundamentals, team play development, and the ability to organize and maintain a quality program will be stressed. The course will also cover rules of basketball and techniques of officiating. Cr 3..

PHEX 309 Coaching and Officiating Track and Field

Part of the University of Southern Maine's coaching certification program, this course is designed to prepare students for track and field, and cross country coaching at the high school and/or middle school levels. Particular aspects of the sport will not be discussed in detail. Rather, the course is intended as an overview of coaching philosophies, sports science, and the training required for each event. Students will have an opportunity to explore areas of interest in depth. Cr 3..

PHE 310 Experiential Learning: Logistics and Skills**Construction and Use**

Participants may expect to gain hands-on knowledge and experience through participation in all phases of course construction, maintenance, and operation. Learning outcomes include the importance of operational safety considerations and appropriate selection of materials. Cr 3.-6.

Sea Kayaking

Designed to provide sea kayak paddling and rescue instruction, chart reading, and basic navigational techniques combined with team building concepts. Includes expedition planning, low/no-impact island camping, and coastal/estuary exploration. Fee course. Cr 3..

PHE 311 Coaching and Officiating Soccer

The course will cover individual techniques and team tactics, drills to implement these techniques and tactics, practice and season organization and methods of starting, maintaining and improving programs at various levels. The course will also cover rules of soccer and techniques of officiating. Cr 3..

PHE 312 Coaching and Officiating Football

Emphasis on the methods of teaching and coaching football. Offense and defense, player-coach relationship, team selections, planning of practice sessions and game situations will be areas of concentration. The course will also cover rules of football and techniques of officiating. Cr 3..

PHE 314 Organization and Administration of Athletics

This course covers the principles and practices of athletic administration as related to middle schools, junior, and senior high schools. Cr 3..

PHE 315 Coaching and Officiating Field Hockey

Emphasis on the methods of teaching and coaching field hockey. Offense and defense, player-coach relationship, team selections, planning of practice sessions, and game situations will be areas of concentration. The course will also cover rules of field hockey and techniques of officiating. Cr 3..

PHE 316 Coaching and Officiating Volleyball

Emphasis on the methods of teaching and coaching volleyball. Offense and defense, player-coach relationship, team selections, planning of practice sessions, and game situations will be areas of concentration. The course will also cover rules of volleyball and techniques of officiating. Cr 3..

PHE 325 Workshop in Experiential Education

This course is designed to promote personal growth through a group workshop in experiential education. Experiential education is an adventure-based model of the learning process; learning takes place through action. Learning opportunities in this course will explore relationship building, small group problem solving, personal and group challenge as a concept, taking action, taking risks, reflection, metaphorical transfer, and action planning. Course is offered in a classroom setting and at the University's Action Learning Center in Freeport, Maine. Low and high ropes course elements are included in the curriculum. Students are supported in challenge-level choices. Fee course. Cr 3..

PHE 335 Coaching and Officiating Baseball and Softball

The course will cover individual and team techniques, drills to implement these techniques, practice organization and methods of starting, maintaining and improving programs at various levels. The course will also cover rules of baseball and softball plus techniques of umpiring. Cr 3..

PHE 343 Experiential Education/Internship

This experiential education internship will be co-designed by the student and the instructor to include elements of study/practicum in the following areas: ropes course construction and operations; experiential education group facilitation; appropriate application of experiential models for varied demographics and special interest groups; in-depth research of experiential education concepts and benefits; expedition planning; gear knowledge and selection; and hard-skill building in the disciplines of camping, climbing, mountaineering and/or kayaking, wilderness travel and trail maintenance, and environmental awareness. Prerequisite: instructor permission. Cr 3.-9.

PHE 353 Teacher Training in Experiential Education

This course focuses on facilitating techniques for leading groups through experiential activities. Group assessment, program design, sequencing, briefing, debriefing, group management, safety, and technical skills are included in the course curriculum. Methods and techniques for utilizing no/low-prop field activities, indoor activities, and low- and high-ropes course elements will be explored and applied to a wide range of groups. Students will discover ways to maximize the transfer of learning from the activities to best meet the goals of the participating group. A practicum component is included where students get hands-on facilitating experience. Students may gain additional practicum time and perform related research for additional credits. Prerequisite: PHE 325 or instructor permission. Cr 3.-6.

PHE 389 First Aid and CPR

This course will cover the topics prescribed by the American Red Cross including respiratory emergencies, artificial respiration, wounds, poisoning, water accidents, drugs, burns, sport safety issues, and CPR. Successful completion of the course requirements will lead to: Red Cross First Aid, CPR, and Sport Safety certification. Cr 3..

PHE 391 Field Experience/Internship

Practical field work in a coaching area. The student will be assigned as an assistant coach in a sport for a season. Supervision, evaluation, and guidance of the student will be provided by a staff member who is responsible for that coaching area. Prerequisites: PHE 203, PHE 302, PHE 314. Restricted to students in coaching certificate program. Cr 1-6.

PHE 398 Independent Study in Physical Education

Provides students who have demonstrated critical and analytical capability an opportunity to pursue a project independently, charting a course and exploring an area of interest, bearing upon it previous course experience and emerging with an intellectually sound, coherent synthesis reflecting a high caliber of performance. Prerequisite: permission of instructor. Cr 1-6.

SED 515 Positive Behavioral Interventions and Supports

This course examines the foundations and essential features of Positive Behavioral Support at two levels: classroom and individual. Students will gain an understanding of basic principles and measurement of behavior and conduct applied projects that include creating, implementing, and evaluating data-driven intervention plans. Cr 3..

SED 518 Instructional Strategies for Learners with Special Needs

The primary goal of this course is to learn and analyze principles and skills of teaching and learning which are effective with students with a wide-range of abilities. The course will include: (a) applying and analyzing principles of learning in designing, leading, and assessing a learning environment; (b) applying and analyzing assessment strategies in establishing a cycle of continuous improvement and progress for students; (c) applying strategic learning strategies, differentiated instruction, and effective instructional strategies. Participants will work individually and cooperatively in reading and analyzing current learning theory; designing, leading, and assessing learning activities. Participants will complete a minimum of six hours of practicum experience. Prerequisite: open to matriculated interns in ETEP and TEAMS, or by Teacher Education Department (TED) permission. Cr 3..

SED 527 Understanding and Teaching Students with Diverse Abilities in the General Education Curriculum

This course develops knowledge of the characteristics of students with disabilities, students identified as gifted and talented, and students who are English Language Learners. That knowledge is used to examine cultural, developmental, and instructional issues and practices for providing students equitable access to an appropriate education. Students learn about principles and practices of universal design in learning and culturally responsive pedagogy. Upon profiling the developmental, cultural, and learning characteristics of students in their internship placements, students use the principles of culturally responsive pedagogy and universal design in education to create and implement lessons and curriculum in a classroom. Prerequisites: open to matriculated interns in the ETEP and TEAMS programs or by permission of the Teacher Education Department. Cr. 1-3.

SED 540 Nature and Needs of Learners Who Are Exceptional

This course focuses on the unique characteristics and educational and social/emotional needs of children and youth who display a range of learning disabilities, mild forms of developmental delay, and mild to moderate forms of behavioral and adjustment problems. Cr 3..

SED 543 Seminar for Fostering Equity in Educating Diverse Learners

This second year course synthesizes knowledge of students, knowledge of teaching, and knowledge of culture in examining the role of access to equitable education in a democratic society. Candidates will both analyze issues and practices and reflect on the impact of a commitment to equitable education on their own teaching. Prerequisite: open to matriculated interns in ETEP and TEAMS, or by Teacher Education Department (TED) permission. Cr. 3

Department of Human Resource Development

Chair: E. Michael Brady, 400 Bailey Hall, Gorham

Professors: Atkinson, Brady, Murphy, Steege, VanZandt; *Associate Professors:* Brown-Chidsey, Katsekas, Stevens; *Assistant Professors:* Baruch-Runyon, Schnieders; *Lecturer:* Day; *Clinical Lecturer:* Andren, Jones; *Field Placement Coordinator:* Tully

The Department of Human Resource Development offers a number of graduate programs to help human services professionals improve their practices and to enhance the practices of schools and organizations through education, research, and public service. Please see the graduate catalog for information on these programs.

At the undergraduate level, the Department offers courses in human growth and development. Also offered are courses which may serve as electives for academic programs outside the College or as preparation for students wishing to become peer leaders. The Department also offers a number of courses at the 500-level that are appropriate for some undergraduate (with approval of instructor) and graduate students.

HCE 500 Orientation to the Counseling Profession

This introductory course is designed to acquaint individuals who are preparing to enter the counseling profession with a broad overview of the profession's historical and theoretical foundations and to begin the development of a professional identity. This course must be taken the first semester following matriculation in a graduate program. Cr 3..

HCE 507 Spirituality and Religion in Counseling

This course will address, in an ecumenical and inclusive format, the growing renaissance in the psychotherapeutic community and in the larger American society of the integration of spirituality and religious values. Various aspects of spirituality and religion will be explored as they relate to the counseling process. The course will seek to increase the awareness of counselors to potential areas of client concern, including spiritual journeys, early religious training, search for meaning, personal relationship with the Divine, and death and bereavement. Participants will explore various religious and spiritual practices, including, but not limited to, Islam, Buddhism, Native American, Hinduism, Christianity, and Judaism. Cr 3..

HRD 110 Choices, Changes, and Careers

The focus of this course is on self and career exploration and the critical role of personal decision making in identifying and pursuing fields of interest. Students will learn to understand their own decision-making process and the factors that influence this process. Course activities will include assessments of self, assessments of interest, and explorations of the world of work. Throughout the course, students will be introduced to available resources and support systems and be engaged in activities that will help them become involved in the University community. Prerequisite: fewer than 45 earned credit hours. Cr 3..

HRD 200J Human Growth and Development

This course introduces developmental theory and research which encompasses the entire life span. Emphasis will be on prenatal development through adolescence, with an overview of adult development. A multidisciplinary view of human development will be taken which considers stability as well as change throughout the life cycle. The interaction of hereditary and environmental factors will be considered in studying physical, cognitive, and psychosocial development. Prerequisite: second-semester freshman or above. Cr 3..

HRD 337 Peer Leadership Seminar

This course is intended for students who participate in organized student leadership programs or are interested in learning more about leadership within higher education organizations. The course examines the nature of higher education organizations, leadership theory, college student development theory, as well as both interpersonal and group communication skills. Through written and oral projects students learn how to integrate theory with practice. Assignments and projects draw their focus from the individual's particular interests regarding student leadership. Cr 2.

HRD 339 Adult Learning and Development

This course explores various areas of adulthood, including topics in adult learning theory and adult development. Topics covered include: how adults learn and the motivation to learn, life cycle theories and maturity myths, learning styles and experiential learning. Learning is facilitated through a framework of small group interaction. Participants are encouraged to share ideas and experiences of adulthood and to determine how relevant themes apply to their own lives. Cr 3..

HRD 545 Gender and Learning

Students explore the multiple and complex relationships of gender and learning from diverse theoretical perspectives, including topics such as feminist theories and pedagogies, historical perspectives on gender and education, and identity development. Gender is analyzed from infancy through adulthood in connection with other aspects of identity that impact learning, including race, class, sexual orientation, disability, and ethnicity. Cr 3..

HRD 555 Introduction to Student Affairs in Higher Education

This course provides students with an overview of student affairs in colleges and universities. Particular attention will be given to historical developments as rooted in the emergence of the unique model of higher education in the U.S., to models of student development, to evaluation of the various models of student affairs organizations, and to emerging issues in managing student affairs programs. The intent is to provide students with the information and skills necessary to understand and evaluate the field as well as to assess their own interest and commitment to careers in student affairs. Cr 3..

HRD 556 Summer Institute in Student Affairs

This institute is designed to provide students with a week-long immersion experience in a topic selected because of its significance to student affairs in higher education. Topics addressed are those that have been identified as timely by student affairs professional organizations and/or highlighted in recent student affairs literature. The topics for the institute and the faculty to teach it changes each summer. Recent institutes have covered assessment in student affairs, legal issues in student affairs, and academic

advising. The institute is required for students concentrating in student affairs as part of their adult education master's program. Cr 3..

HRD 557 Gerontology for Educators

This course is an introduction to the field of educational gerontology. Key issues to be treated include demographic trends, theories of aging, problems and opportunities in later-life learning, productive retirement, and educational opportunities for elders. A major goal of the course is to invite professional educators to explore human aging with an eye toward improving teaching and/or program development with elder populations. Cr 3..

HRD 558 Aging and Life Review

This course examines the process of life review and its role in human aging. The phenomena of memory, imagination and identity in later age will be examined. Participants will develop practical methods of facilitating life review of themselves and older clients. Cr 3..

HRD 559 Aging, Death, and Bereavement

This course examines the phenomenon of death in modern society with a special emphasis on implications of older persons. Issues such as the meaning of death, the dying process, survivorship, and suicide are treated. Special attention is paid to the role of the professional in death education. Cr 3..

TRiO Programs at USM

Executive Director: Laurie J. Davis

Upward Bound at USM

Project Coordinators: Christopher Turner and Alyssa West

Upward Bound at USM is funded through the U.S. Department of Education's TRiO program. It is a sponsored program of the School of Education and Human Development. Upward Bound at USM assists high school students who are income eligible and/or first-generation-to-college succeed in high school and to prepare for postsecondary education.

Upward Bound at USM serves 106 students enrolled at eight high schools in southern Maine including Biddeford, Bonny Eagle, Casco Bay, Deering, Massabesic, Portland, Sacopec Valley, and Sanford high schools.

During the academic year, Upward Bound staff members provide academic and college counseling to students enrolled at participating schools, coordinate college campus visits, and assist students and their families with college and financial aid applications. During the summer, USM hosts a six-week summer residential program at USM. The summer program includes academic coursework, career and college exploration, community service and service learning, recreation, and cultural activities. For information, go to www.usm.maine.edu/upwardbound, or visit the TRiO Programs office at 7 College Ave House, Gorham, or call (207) 780-5203.

Student Support Services at USM

Project Coordinator: Gail Minichiello

Student Support Services at USM is funded through the U.S. Department of Education's TRiO program. It is a sponsored program of the Student Success Centers. Student Support Services at USM assist 140 USM students who are income-eligible, are first generation college students, meet academic need criteria, and/or are disabled to persist in college, maintain good academic standing and graduate from college within six years. The Student Support Services program serves students on the Portland, Gorham, and Lewiston/Auburn campuses. For information, go to www.usm.maine.edu/studentssupportservices, or visit the TRiO Programs' office at 7 College Ave House, Gorham, or call (207) 780-5203.

Edmund S. Muskie **School of Public Service**

Executive Director: Mark Lapping

Associate Executive Director: Barbara Fraumeni

Professors: Barringer, Clary, Coburn, Colgan, Forhan, Fraumeni, Hartley, Kartez, Lapping, MacTaggart, Payne, Thompson;

Associate Professors: Bolda, Kilbreth, Lambert, LaPlante, Lynn; *Assistant Professors:* Howard, Lahti, Kim, Merrill, Morris

The Edmund S. Muskie School of Public Service is a nonpartisan education, research, and public service organization dedicated to educating leaders, informing policy and practice, and strengthening civic life.

The School has grown in both size and reputation since it was founded in 1990—faculty and staff now number over 300, and research awards in 2010 totaled more than \$28 million. The Muskie School is nationally recognized for its research institutes, and is sought after as a source of knowledge on issues of local, regional, state, and national importance.

What makes the School successful is its practical, innovative approach to issues; its active efforts to span traditional boundaries among university, government, and nonprofit organizations; and its success in bridging University departments and disciplines in the search for creative solutions.

The Muskie School offers master's degrees in public policy and management, health policy and management, and community planning and development (with joint degrees with the School of Law) and a Ph.D. in public policy. These programs educate students for leadership roles in government and the private and nonprofit sectors through interdisciplinary, problem-focused education. A combination of classroom and applied field experiences imparts a broad understanding of the challenges of democratic governance, and develops competencies in policy planning and analysis, and organizational and management skills.

School of Social Work

Director: Susan Fineran, Masterton Hall, Portland

Coordinator of Baccalaureate Program: Barbara Rich

Professors: Faherty, Healy, Wagner; *Associate Professors:* Andonian, Fineran, Kohli, Johnson, Lazar, Moyo, Rich;

Lecturer: Belicose; *Field Work Coordinator:* Richfield; *Field Work Associate:* Murton

The University of Southern Maine's School of Social Work is committed to educating culturally competent generalist social-work practitioners prepared for multi-level, strengths-based practice that values the centrality of community in enhancing the well-being of diverse individuals, families, groups, organizations, and communities.

The School, which is part of the College of Management and Human Service, serves southern Maine by responding to the social work education, leadership, service, and evaluation and research needs of the region. The commitment to social and economic justice, and diversity and multiculturalism are integrated. The School strives for excellence in teaching and learning. Graduates are prepared for multi-level professional practice recognizing the centrality of the role of community in the lives of its constituents. The program in social work prepares the student for the professional practice of social work at the entry level. The social work curriculum of the School is accredited by the Council on Social Work Education at the baccalaureate and master's levels. Students who receive a degree from an accredited undergraduate program in social work may apply to selected graduate schools of social work for advanced standing. It is important to consult individual institutions for their acceptance criteria and procedures, which may vary.

During the first years at the University, with the assistance of faculty advisors, students enroll in a combination of classes fulfilling their Core curriculum requirements, required foundation courses for social work (classes in other fields required by the major), and the major itself. Because many classes are prerequisites for other classes, students must carefully sequence their courses with help from their advisors. The model below indicates the desired program for social work majors; starred (*) classes indicate the class is a prerequisite for other social work requirements.

Model Schedule

Year 1

EYE Entry Year Experience

English Composition

Mathematics readiness requirement

PSY 101 General Psychology I*

PSY 102 General Psychology II

SOC 100 Introduction to Sociology*

Biology and Biology Lab*

General Electives

Year 2

ECO 101 Introduction to Macroeconomics*

HRD 200 Human Growth and Development*

POS 101 Introduction to American Government*

SWO 201 Introduction to Social Work*

SWO 250 Introduction to Social Welfare*

Statistics (in math, psychology, sociology, or SBS at Lewiston-Auburn College)*

SWO 365 Examining Oppression and Valuing Diversity

General Electives

Year 3

SWO 333 Social Work Research I

SWO 334 Social Work Research II

SWO 350 Social Welfare Policy

SWO 370 Human Behavior and Social Environment

SWO 393 Methods of Social Work Practice I

Social work elective, 300 level or higher

Electives in sociology, psychology, criminology, or SBS

General electives

Year 4

SWO 403, 404 Methods of Social Work Practice II and III

SWO 411, 412 Field Work I and II (full year)

Social Work elective, 300-level or higher

Any remaining sociology, psychology, criminology, SBS elective

General electives

To assure consistency and avoid confusion, it is important that social work majors meet with their advisors on a regular basis. Advising in the School of Social Work is a mutual process of exploring career objectives, reviewing School requirements, designing the best possible combination of required courses and electives, determining proper course sequencing, and facilitating a collaborative relationship between the student and the School.

During the field work year, each student is placed in a community social service agency approved by the School of Social Work. Placements begin only in the fall semester and continue throughout the academic year. By the end of the spring semester, each student will have completed 480 hours of field work. A large number of social and community agencies in the Greater Portland area and in cities and towns of southern Maine have been most generous in their cooperation with the School and in making available field instruction resources including supervision for students of the School. All students should refer to School guidelines governing field work for more information and directions.

To major in social work, all students must maintain a 2.0 over all cumulative grade point average, and a grade of C (2.0) or better in all major and foundation classes. In order to prepare for the field work component in the School of Social Work, students must take SWO 393 Methods of Social Work Practice I in the spring semester preceding their field work year.

To qualify for enrollment in SWO 393, students must: 1) have at least 60 credits at the time of preregistration and have completed math readiness, EYE, English composition, statistics, SOC 100, PSY 101 and 102, POS 101, ECO 101, Biology and Lab, HRD 200, SWO 201 and 250; and 2) have a 2.5 cumulative GPA overall. Students must maintain the 2.5 GPA and a grade of C or better in all social work and required foundation courses to complete the major. Please see the Student Handbook and Field Work manual for additional information about requirements of field work.

Because social work is a values-based profession whose principal commitment is to vulnerable clients, a student's suitability for the profession will be assessed during the process of his or her education. The students of the School have organized a Social Work Student Organization. The organization seeks to facilitate communication between students and faculty, ensure student involvement in Departmental activities, provide for professional growth, and respond to issues and problems in the community. Student representatives may attend faculty meetings and may serve as advisory members on the Department's curriculum committees. Within the School, a chapter of the Phi Alpha Honor Society exists.

Programs and Requirements

Bachelor of Arts in Social Work

The minimum number of credits (exclusive of the University's Core curriculum) required for the major: 48

The major in social work consists of 48 credits in required social work courses. In addition, 40 credits of foundation courses must be completed in other departments. Some of these foundation courses may also be used to satisfy the Core curriculum requirements as appropriate. Students shall not be eligible to repeat a class more than once without the written permission of the director of the School of Social Work.

Required Social Work Courses

SWO 201	Introduction to Social Work
SWO 250	Introduction to Social Welfare
SWO 333	Social Work Research I
SWO 334	Social Work Research II
SWO 350	Social Welfare Policy
SWO 365	Examining Oppression and Valuing Diversity
SWO 370	Human Behavior in the Social Environment
SWO 393	Methods of Social Work Practice I
SWO 403	Methods of Social Work Practice II
SWO 404	Methods of Social Work Practice III
SWO 411	Field Work I
SWO 412	Field Work II
2 SWO Electives	

Required Foundation Courses in Other Departments

ENG 100	College Writing
ECO 101	Introduction to Macroeconomics
BIO 101 & 102	Biological Foundations, and Biological Experiences
or	
BIO 105 & 106	Biological Principles I and Laboratory Biology
POS 101	Introduction to American Government
PSY 101	General Psychology I
PSY 102	General Psychology II
An introductory statistics course (MAT 120, PSY 201, SOC 307 or LCC 150)	
SOC 100	Introduction to Sociology
HRD 200	Human Growth and Development

Two other intermediate-level (200-399) sociology, psychology, criminology courses, or SBS courses at Lewiston-Auburn College, selected in consultation with the student's advisor, are required. These may not be in the same discipline, with the exception of either external transfer students or Lewiston-Auburn College students. Students are required to achieve a grade of C or better in all required social work and required foundation courses, and attain a cumulative grade point average of 2.5 at the point of application for the social work major.

SWO 201 Introduction to Social Work

This course is an introduction to the profession of social work. Students are introduced to the core values of social work and the code of ethics that emanates from those values. Oppression and social justice are central themes of this course. The practice of social work is considered from the perspective of a collaborative strengths-based model working with complex social service systems. The course familiarizes students with various roles, functions, and tasks that social workers perform in a variety of settings. It acquaints students with the primary skills and practices of professional social work. Taking this course will help students make a more informed decision about social work as a career. Cr 3.

SWO 250J Introduction to Social Welfare

Provides an introduction to the institution of social welfare through a review of social welfare history; the values and philosophy in America of treating the poor, the ill, and others in need; contemporary approaches to social policy; and possible alternative models of social welfare. Cr 3.

SWO 393 Methods of Social Work Practice I

This course is an introduction to the basic concepts and skills of interviewing and assessment within the framework of a strengths perspective. Emphasis will be placed on the integration of ethics and the process of reflection within a generalist practice of social work. Prerequisites: SWO 201, SWO 250J, junior status at the time of preregistration for SWO 393, grade of C or better in all required social work and foundation courses, and overall GPA of 2.5. Offered spring semester only. This course has a service-learning component that requires students have time available for work in the community. Cr 3.

SWO 322 Community Services In Belize

This service-learning course provides students with an opportunity to understand and appreciate the diverse Belizean culture while collaborating with local agencies to address identified social needs. Service sites include an orphanage, a home for elderly, and work with a women's group. Wintersession only—2 Saturday classes prior to departure.. Prerequisite: SWO 201 or permission of instructors.

SWO 333 Social Work Research I

A study of the methods of social work research for social policy and social work practice. The course emphasizes both quantitative and qualitative research processes with the goal of enabling the student to be competent as a "practitioner researcher." Prerequisites: SWO 201, SWO 250-; any introductory statistics course (MAT 120, PSY 201, SOC 307, or SBS 328). Cr 3.

SWO 334 Social Work Research II

In this continuation of SWO 333, students complete an empirical research project. Class members serve as a review committee for all research instruments used, learn the practical aspects of writing quantitative and qualitative research reports, and function as a research support group for one another. Prerequisite: SWO 333. Cr 3.

SWO 350 Social Welfare Policy

A critical examination of social welfare institutions, the social problems and social needs to which they are addressed, and the policy decisions that determine the organization and direction of social welfare programs. Prerequisites: ECO 101, SWO 250, POS 101, or permission of instructor. Cr 3.

SWO 365 Examining Oppression and Valuing Diversity

This course is designed to provide a framework for understanding and respecting cultural diversity. The cultural aspects of race/ethnicity, gender, sexual orientation, socioeconomic status, and ableness will be discussed. A central theme in organizing the course is the examination of the role of oppression in shaping the lives of members of various cultural groups. Prerequisites: SWO 201 or permission of instructor. Cr 3.

SWO 367 Sexual Diversity and Gender Identity in Social Work Practice

Provides an understanding of varying concepts of homosexuality. Employs recent theoretical, empirical, and clinical literature to assess attitudes toward homosexuality. Examines motivation and skills to achieve constructive interaction between the professional and the homosexual. Prerequisite: junior standing or permission of instructor. Cr 3.

SWO 370 Human Behavior in the Social Environment

This course examines the ways in which normative and predictable human behavior throughout the life cycle is mediated by gender, race, age, sexual preference, class and culture. The implication of this knowledge for social work practice will be explored. Prerequisites: SWO 201, SWO 250; PSY 101, PSY 102 and introductory course in biology. Cr 3.

SWO 374 Sexual Harassment in Education and Work

This course examines sexual harassment in the workplace and education from three perspectives: mental health, sexual violence, and social justice. Students apply concepts from the behavioral and social sciences, from clinical and community practice to contemporary education and corporate environments. Environmental and cultural forces that influence discriminatory behavior are explored. Prerequisite: junior standing or permission of instructor. Cr 3.

SWO 375 Gender and Aging

A theoretical and practical course that informs students about aging issues affecting women and men differentially. Students will analyze the manifestations of aging and apply concepts drawn from the behavioral and social sciences. Service learning experience may be available. Prerequisite: junior standing or permission of instructor. Cr 3.

SWO 378 Professional Practice with Older People

Enhances skills in human service practice with older people. Analyzes the sources and manifestations of both healthy and problematic aging. Applies concepts drawn from the behavioral and social sciences, and from clinical and community practice. Translates a developmental rather than a custodial view into everyday direct service. Prerequisite: junior standing or permission of instructor. Cr 3.

SWO 380 Child Welfare

A study of the policy and practice issues affecting children in current society, including implications for social services and institutional change. Prerequisites: SWO 201 and SWO 250J or permission of the instructor. Cr 3.

SWO 381 Social Work with Children

This course explores the application of social work skills and knowledge in professional interactions with children and adolescents within the context of social welfare agencies. The focus is on the skills involved in treatment as well as knowledge about family and community systems. Prerequisites: SWO 201, SWO 250J or permission of the instructor. Cr 3.

SWO 383 Social Work with Immigrants, Refugees, and Asylum Seekers

Considers migration patterns and flows across the globe, introduces critical concepts in immigration and U.S. immigration policies. Community-based services will be explored with a focus on concepts such as cultural competence, diversity, empowerment, anti-oppressive social work, and critical multicultural approaches. Service-delivery efforts/approaches with the population will be considered. Prerequisite: Juniors standing or permission of instructor. Cr. 3:

SWO 385 Sexual Abuse of Children and Adolescents

This course will examine the application of social work skills and knowledge to the issue of sexual abuse of children and adolescents. An up-to-date review of the latest research and clinical findings will be presented. Attention will be given to a variety of issues as well as the value dilemmas presented by client situations. Prerequisite: junior standing or permission of the instructor. Cr 3.

SWO 388 Alcohol and Other Drug Abuse Issues

Examines the use and abuse of psychoactive substances: street drugs, prescription drugs, alcohol, caffeine, and nicotine. Consideration of the history, pharmacology, and physical and psychological affects of each substance. Exploration of prevention and treatment models, with special reference to those in use locally. Prerequisite: junior standing or permission of instructor. Cr 3.

SWO 391 Mind/Body/Spirit Connections in Social Work Practice

Examines mind/body/spirit connections in social work practice with regard to stress and its management (meditation, breath control, other relaxation techniques), stress-related illness and personalities, contemporary therapies (mainstream and culturally specific), and spirituality. Prerequisite: SWO 201, junior standing, or permission of instructor. Cr 3.

SWO 393 Methods of Social Work Practice I

This course is an introduction to the basic concepts and skills of interviewing and assessment within the framework of a strengths perspective. Emphasis will be placed on the integration of ethics and the process of reflection within a generalist practice of social work. Prerequisites: EYE, MAT101, English Composition, statistics, Soc 100, PSY 101 and 102, Biology and lab, HRD 200, POS 101, ECO 101, SWO 201, SWO 250, junior status at the time of preregistration for SWO 393, grade of C or better in all required social work and foundation courses, and overall GPA of 2.5. Offered spring semester only. This course has a service-learning component that requires students to have some time available for work in the community. Cr 3.

SWO 397 Department Projects

Individual or group projects, requiring independent study or field work in some aspect of social welfare, to be selected by students in consultation with a particular faculty member. Prerequisites: Department permission and application prior to registration. Cr var.

SWO 403 Methods of Social Work Practice II

Examines the dilemmas of professional human service workers in bureaucratic systems and the effects of professionalization and the bureaucracy on consumers. Develops a range of methods aimed at better meeting client need with particular reference to strategies of organizational change and community organization. Class discussions and assignments are based on field work experiences. Prerequisites: SWO 393 and a C or better in all required social work and foundation courses, and an overall 2.5 GPA. SWO 411 taken concurrently. Cr 3.

SWO 404 Methods of Social Work Practice III

This course is a continuation of Methods of Social Work Practice II. It explores the contextual nature of generalist social work practice within a strengths perspective. Emphasis will be placed on the processes of engagement, assessment, and intervention with individuals, families, and groups. Family systems, group, and crisis models of intervention will be presented. This course must be taken concurrently with SWO 412 (Field Work II). Prerequisites: SWO 393, SWO 403. Spring semester only. Cr 3.

SWO 411 Field Work I

For social work majors: a required internship of 16 hours per week in approved agency settings, designed to relate social work theory to practice under professional supervision. Fall semester only. Must be taken as the first in a two-course sequence. Prerequisites: SWO 201; SWO 393; a C or better in all required social work and foundation courses, and an overall 2.5 GPA. SWO 403 taken concurrently. Fall semester only. Cr 6.

SWO 412 Field Work II

A continuation of SWO 411. Spring term only. Must be taken as the second in a two-course sequence. Prerequisites: SWO 393, SWO 403, SWO 411, and SWO 404 (concurrent). Cr 6.

SWO 456 Issues in Social Welfare and Social Work

A seminar for social work majors that addresses significant issues confronting the social welfare system and the profession. Prerequisite: social work major or permission of instructor. Cr 3.

College of Science, Technology, and Health

Dean, Andrew L. Anderson; Associate Dean, Stephen C. Pelsue; Coordinator of Finance, Pamela Hartford; Human Resources Liaison, Susan Taylor; Communications and External Affairs, Lori Arsenaault; Student Services, Bonnie Stearns and Brenda Webster; Administrative Assistant, Michael Pickel.

The College of Science, Technology, and Health offers a wide variety of majors and programs leading to graduate and professional study, and directly to careers. The College also offers courses and programs of study to students in all colleges of the University for intellectual development and aesthetic enrichment. The College is organized into the following departments/schools: Applied Medical Sciences; Biological Sciences; Chemistry; Computer Science; Engineering (mechanical and electrical); Environmental Science; Exercise, Health, and Sport Sciences; Geosciences; Linguistics; Mathematics and Statistics; School of Nursing; Physics; Psychology; Recreation and Leisure Studies; Technology

The College's degree programs prepare students for productive and rewarding lives and provide knowledge and skills for many careers. Students, faculty, and alumni apply theory and use scientific and mathematical principles and techniques to solve practical problems and contribute to society in many ways. The College's academic programs are designed and delivered so that all students who are prepared and motivated can successfully complete them. Graduates have (1) technical competence with both depth and breadth, (2) a wide range of knowledge enabling them to function effectively in the professional world, (3) transferable skills such as reasoning, problem solving, verbal and written communications, teamwork, and leadership, and (4) motivation to continue to learn and grow professionally. Graduates secure gainful employment and/or are well prepared for admission to graduate and professional programs.

Degrees and Certificates

Concentrations and Specializations

Bachelor of Arts

- Chemistry
- Environmental Planning & Policy
- Geosciences
- Linguistics
 - ASL/English Interpreting
 - Speech and Language Science
- Mathematics
 - Pure Mathematics concentration
 - Applied Mathematics/Operations
 - Research concentration
 - Statistics concentration
 - Secondary Mathematics concentration
- Physics
- Psychology

Bachelor of Science

- Applied Technical Leadership
- Athletic Training
- Biochemistry
- Biology
 - Biotechnology specialization
 - Ecology specialization
 - General Biology specialization
 - Human Biology specialization
 - Pre-pharmacy concentration
- Chemistry
- Computer Science
- Electrical Engineering
 - Computer Engineering
- Environmental Science
- Exercise Science
 - Exercise Physiology
 - Health Fitness
- Geosciences
- Health Sciences
- Mechanical Engineering
- Nursing
 - Traditional Program
 - Accelerated Program
 - RN to BS Degree
- Technology Management
 - Construction Management
 - Electro Mechanical Systems
 - Industrial Management
 - Information & Communications Tech

- Precision Manufacturing
- Therapeutic Recreation
- Certificates of Graduate Study (CGS)
- Applied Energy
- Construction Management
- Electro-Mechanical Systems
- Environmental Education
- Environmental Policy Analysis
- Nursing Education (post-baccalaureate and post-master)
- Pre-medical studies (post-baccalaureate)
- Pre-veterinary studies (post-baccalaureate)
- Statistics
 - Graduate Certificate in Statistics
 - Undergraduate Certificate in Applied Statistics

Certificates of Advanced Study (CAS)

- Computer Science
- Nursing

Minors

- Applied Energy
- Biochemistry
- Biology
- Chemistry
- Construction Management
- Deaf Studies
- Electrical Engineering
- Electro-Mechanical Systems
- Environmental Science
- Environmental Sustainability
- Geosciences
- Holistic Health
- Industrial Management
- Information & Communications Technology
- Linguistics
- Mathematics
- Mechanical Engineering
- Nature Tourism
- Physics
- Precision Manufacturing
- Recreational Leadership
- Statistics
- Toxicology and Environmental Health

Masters Degrees

- Applied Medical Sciences
 - Biotechnology
 - Epidemiology
 - Immunology & Infectious Disease
 - Toxicology & Cancer Biology
- Biology
- Computer Science
- Nursing
 - Adult Health Clinical Nurse Specialist (admission suspended)
 - Adult Nurse Practitioner
 - Adult Psychiatric/Mental Health Clinical Nurse Specialist
 - Adult Psychiatric/Mental Health Nurse Practitioner
 - Clinical Nurse Leader
 - Dual Degree Master of Science in Nursing and Master of Business Administration
 - Education
 - Family Nurse Practitioner
 - Family Psychiatric/Mental Health Nurse Practitioner
 - Nursing - for Non-Nurses with a Baccalaureate Degree - The Options Program
 - Management
 - Certified FNP, ANP and WHNP
 - RN to Master of Science
- Statistics
 - Biostatistics
 - Applied Statistics
 - Operations Research/Applied Mathematics

Doctorate

Doctor of Nursing Practice (DNP) - Post Master to DNP

Accreditations

The School of Nursing baccalaureate and master's programs are approved by the Maine State Board of Nursing and accredited by the Commission on Collegiate Nursing Education (CCNE). The athletic training education program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). The health fitness major within the exercise science program is accredited by the Commission on Accreditation in Allied Health Education Programs (CAAHEP). The linguistics' ASL/English Interpreting program is accredited by the Commission on Collegiate Interpreter Education (CCIE). The electrical engineering and computer science programs are accredited by the Accreditation Board for Engineering and Technology (ABET). The technology programs are accredited by the Association of Technology, Management, and Applied Engineering (ATMAE). In addition to these accreditations, the University of Southern Maine is accredited by the New England Association of Schools and Colleges.

Departmental or Program Requirements

The College requires that every baccalaureate degree student fulfill the requirements of a major program as noted in the catalog section devoted to each department's / school's majors. These requirements may be greater than the college minimum requirements. Students interested in a double major should consult the appropriate departments / schools and obtain a declaration of major form from the Registrar's Office.

Student Services

The College is dedicated to supporting students in defining, developing, and achieving personal, academic, and career goals. Services and programs that are provided to meet the needs of CSTH students include: academic advising, career counseling, mentoring, and referrals. Assistance in locating and securing cooperative education and internships is provided as well as information on various scholarships available to CSTH students. For more information, contact the dean's office at 780-5585.

Commitment to Civility

The concepts of community and social justice are central to the mission and philosophy of the University of Southern Maine College of Science, Technology, and Health. Faculty, students, and staff are committed to promoting a healthy and just environment that supports transformative learning, academic integrity, open communication, and personal and professional growth among the diverse members of our academic community. We believe that these commitments are grounded in intellectual openness, in personal and professional accountability, and in the democratic values of inclusion and mutual respect that are guided by rational discourse and by a relational ethic of care. Our community includes peoples of diverse ethnic, racial, religious, cultural, political, and economic backgrounds as well as people who are disabled and people of different gender, sexual orientation, and age. Our goal is to increase the awareness of students, staff, and faculty to the importance of civility, its implications, and the behaviors that are acceptable and not acceptable in our learning community. Civility is the art of treating others, as well as ourselves, with respect, dignity, and care. Civility is apparent when we are sensitive to the impact that our communications, practices, and behaviors have on others, and when we acknowledge each person's self-worth and unique contributions to the community as a whole.

Cooperative Education and Internships

The College encourages students to participate in cooperative education and internship experiences. Both options integrate classroom learning with meaningful and rewarding work experience in a field related to a student's academic or career goals. Internships are sponsored by individual departments and require an academic advisor; variable credits are awarded. Co-op assignments are paid positions that are typically full time for a semester or six months. For more information, contact the coordinator of cooperative education at (207) 780-5918.

External Programs

External Programs provides credit, noncredit, and certificate programs to students who are unable to attend classes or programs on campus. Customized programs, including workshops, seminars, and short courses are available on specialized topics as requested by educational, corporate, or industrial organizations to meet their specific objectives. For further information, call (207) 780-5440.

Manufacturing Applications Center (MAC)

The Manufacturing Applications Center (MAC) works with Maine's industries to improve quality and efficiency in production operations. Interactive strategies and assistance are provided on a fee-for-services basis to help companies become more competitive via advanced technologies and world-class manufacturing strategies. Assistance is provided in: technical training, quality assurance, product testing and analysis, reverse engineering, rapid prototyping, production control, project management, CAD/CAM/CIM technologies, lean manufacturing, metrology, plant layout, process analysis and control, push/pull strategies, supply chain management, JIT flow, 5's, and engineering design. For further information, call (207) 780-5440.

General Information

Admission to an undergraduate program in the College of Science, Technology, and Health is initiated through the Office of Undergraduate Admission. Candidates for admission must meet admission requirements indicated in the Admission section of this catalog and the individual departments and schools of the College. General academic policies will be found in the Academic Policies section of this catalog. Specific policies and requirements are indicated in the sections dealing with the individual departments and schools of the College. All students are reminded that, in addition to meeting program requirements for a major, they must also meet all University and Core curriculum requirements. Students wishing to change their major apply directly to the department of the new major.

Applied Medical Sciences

Chair of the Department: Doug Thompson

Minor in Toxicology and Environmental Health

The undergraduate minor in Toxicology and Environmental Health provides students with a comprehensive overview of the scientific disciplines that are most relevant to understanding the effects of environmental hazards on human health. The effects of pollutants on various organ systems in humans and in marine mammals are emphasized.

Students can minor in Toxicology and Environmental Health by completing 18 credits of curriculum involved in the minor with a grade of C (2.0) or higher. Interested students should contact the AMS office for additional information.

All students will be required to take the following core courses (11 credits):

AMS	490	Introduction to Toxicology I	3 Credits
AMS	491	Introduction to Toxicology II	3 Credits
AMS	435	Introduction to Epidemiologic Research	3 Credits
AMS	495	Seminar in Biomedical Sciences	2 Credits

In addition students must choose from the following courses for their final 7 credits:

AMS	493	Introduction to Research Techniques in Toxicology and Environmental Health	4 Credits
BIO	321	Neurobiology	3 Credits
CHY	461	Biochemistry	(3 Credits)
ESP	375	Environmental Risk Assessment and Management	
PSY	365	Physiological Psychology	3 Credits
PSY	366	Drugs, Mind, and Behavior	3 Credits

AMS 435 Introduction to Epidemiologic Research

This course is intended to give students a basic foundation in principles for the conduct and interpretation of population-based studies of the distribution, etiology, and control of disease. Topics will include randomized experiments, non-randomized cohort studies, case-control studies, cross-sectional and ecological studies, causal inference, sources of bias, and measures of effect. Recent publications from the epidemiologic and general medical literature will be used to illustrate the application of the concepts to specific epidemiologic issues. Cr 3.

AMS 490 Introduction to Toxicology I

This course introduces students to the principles and practice of toxicology. The major focus of the course is on basic principles, mechanisms, and common methods underpinning the science of toxicology. Selected target organ systems (e.g. respiratory, nervous, and immune systems) are studied with respect to understanding how representative chemicals damage and impair their ability to function. Students will develop a fundamental understanding of how chemicals may exert toxic effects and gain insight into the importance of organ specific effects.

Prerequisite: admission to the minor, cell biology, or molecular biology, or biochemistry, or permission of the instructor. Cr 3.

AMS 491 Introduction to Toxicology II

This course continues to introduce students to the principles and practice of toxicology. The course continues to focus on basic principles, mechanisms, and common methods underpinning the science of toxicology. Selected toxicants are studied with respect to their source of exposure and mechanisms of effect. Selected disease processes (e.g. mutagenesis, carcinogenesis,

and teratogenesis) are studied with respect to understanding their basic pathways and common mechanisms. Selected fields are presented to give students insight into the applications of toxicology and its relationship with other fields.

Prerequisites: AMS 490, or permission of the instructor. Cr 3.

AMS 493 Introduction to Research Techniques in Toxicology and Environmental Health

The student learns a laboratory approach and techniques to study toxicology and environmental health. The term is spent under the direction of a faculty member engaged in a research project. This is a hands-on course with close supervision by technically trained personnel. For those sections in laboratories working with biohazards, laboratory safety and use of biosafety hoods are emphasized.

Prerequisite: permission of instructor. Cr 4.

AMS 495 Advanced Seminar in Biomedical Sciences

The student participates in a weekly seminar on biomedical sciences. The seminar focuses on current topics in biomedical research. Prerequisite: Permission of instructor. Seminar is offered in both fall and spring semesters. Cr 1.

BIO 321 Neurobiology

This course presents an overview of nervous system function, structure, and development. Content focuses on the cellular and molecular properties that underlie normal function. Prerequisite: grade of C or higher in BIO 109 or BIO 111, or permission of instructor. Cr 3.

CHY 461 Biochemistry

Application of chemical methods and principles to understanding biological processes. Topics include structure and action of nucleotides, proteins, lipids, and carbohydrates; enzyme kinetics and mechanisms; membranes and transport; and metabolism and energy conversion. This one-semester course provides a survey of the major areas of biochemistry, except for nucleic acids. Prerequisite: a grade of C- or better in CHY 253. Cr 3.

ESP 375 Environmental Risk Assessment and Management

The focus of this course is to provide students with an understanding of human health risk assessment as an organized, multidisciplinary approach to evaluating scientific data by studying basic toxicology and fate and transport of contaminants using generally accepted principles and terminology used in the field. Students will examine the limitations of current risk assessment methods and be introduced to the basics of ecological risk assessment. Finally, students will study the scientific, political, social, ethical, and economic dimensions of managing risks. Prerequisite: ESP 101/102K or permission of instructor. Cr. 3

PSY 365 Physiological Psychology

Basic neuroanatomy, neurophysiology, and endocrinology, and the relationships between nervous system functioning and behavior. Physiological analysis of sensory function, motivation, and learning.

Prerequisites: PSY 101J, 102, and BIO 111. Cr 3.

PSY 366 Drugs, Mind, and Behavior

The physiological and behavioral effects of drugs are examined in light of current research. Also considered are theories relating to the use/abuse of drugs, tolerance, addiction, and drug interactions.

Prerequisites: PSY 101J and one semester of biology. Cr 3.

Biological Sciences

Chair of the Department: Jeffrey Walker (fall2011), 305B 406 Science Building; Lisa Moore (spring 2012), 406 Science Building, Portland

Health Professions Advisor: Patricia M. O'Mahoney-Damon, 225 Science Building, Portland; *Professors:* Gainey, Maher, Mazurkiewicz, Najarian, Weber; *Associate Professors:* Champlin, Currie, Knight, Moore, O'Mahoney-Damon, Theodose, Walker; *Adjunct Professors:* Dionne, Duboise, Evers, Incze, Levine, Ng, Stockwell, Wilson, Wise

A four-year program leading to a B.S. in biology is offered and includes four options: biology, human biology, biotechnology, and ecology. All programs of study provide students with a liberal arts education emphasizing the sciences. The required courses in the biology specialization expose students to an examination of life from the molecular to the community level. The required courses in the biotechnology specialization emphasize cell and molecular biology. Other biology courses may be elected to suit individual interests and needs. The required courses in chemistry, mathematics, and physics reflect the interdisciplinary status of the biological sciences. Graduates of these programs have found careers in biological and medical research laboratories, biotechnology companies, and field biology, or have furthered their education by entering graduate medical, dental, optometry, veterinary, and law schools, as well as schools for allied health professions. Additional information about the Biological Sciences Department can be found at www.usm.maine.edu/bio.

Pre-professional Students

Almost every American school of medicine, veterinary medicine, and dentistry requires for admission a baccalaureate degree (major optional), two years of biology, two years of chemistry, one year of physics, a course in calculus, satisfactory performance on a national professional aptitude test, and a recommendation from a committee at the baccalaureate institution. At this campus, the Health Professions Pre-professional Evaluation Committee comprises faculty from the Departments of Biology, Chemistry, and Physics and is responsible for evaluating, comparing, and recommending students. For further information contact Patricia O'Mahoney-Damon, 225 Science Building, Portland.

Pre-pharmacy Program

A two-year program of study is offered to prepare students to apply to a four-year doctoral program in pharmacy (a 2+4 program). Most schools and colleges of pharmacy require 60-75 credits in their two-year pre-pharmacy phase, depending on the number of general education credits required. Individual programs vary in the general education courses they require, e.g., economics, social science, humanities, and fine arts, so students should consult those programs accordingly. The pre-pharmacy concentration is a time-intensive program that students will need to commit to upon entering the University. Students are encouraged to take summer courses to reduce the number of credits taken each semester. If students choose not to take summer courses, they should consider extending the program to three years. If they do well in this program of study, they will be competitive with students from other universities applying for entry into professional pharmacy programs. The pre-pharmacy program is not a degree program but if students decide not to transfer after two years, they will be well along the path toward earning a B.S. in biology. For further information contact Patricia O'Mahoney-Damon, 225 Science Building, Portland.

Post-Baccalaureate Pre-Medical Certificate

This certificate program is designed for students who already have graduated from college with a baccalaureate degree and who seek to fulfill the science course requirements for admission to schools of medicine or dentistry or to physician assistant programs.

Post-Baccalaureate Pre-Veterinary Certificate

This certificate program is designed for students who already have graduated from college with a baccalaureate degree and who seek to fulfill the science course requirements for admission to schools of veterinary medicine.

Lewiston-Auburn College Courses

The following Lewiston-Auburn College courses fulfill the corresponding prerequisite requirements in the Department of Biological Sciences: SCI 105 = BIO 105, SCI 106 = BIO 106, SCI 107 = BIO 107, SCI 170 = BIO 111, SCI 171 = BIO 112, SCI 172 = BIO 211, and SCI 173 = BIO 212.

Programs and Requirements

Bachelor of Science: Biology

The minimum number of credits (exclusive of the University's Core curriculum) required for the major: 70. A grade of C- or higher is required for all courses listed below.

All of the following are required:

BIO	105, 106	Biological Principles I: Cellular Biology and Laboratory
BIO	107	Biological Principles II: Evolution, Biodiversity, and Ecology
BIO	109	Biological Principles III: Functional Biology
BIO	201	Genetics
BIO	217	Evolution

One lecture/laboratory combination from each of the following three areas:

AREA 1: Organismal Biology

BIO	205	Comparative Vertebrate Anatomy
BIO	231	Botany
BIO	291	Ornithology
BIO	335	Entomology
BIO	351	Invertebrate Zoology
BIO	353	Vertebrate Zoology
BIO	361, 362	Parasitology and Laboratory
BIO	405, 406	Animal Behavior and Laboratory

AREA 2: Ecology

BIO	331, 332	Ecological Principles and Field Ecology
BIO	337	Marine Ecology
BIO	383	Plant Ecology
BIO	403, 404	Comparative Animal Physiology and Laboratory
BIO	415, 416	Microbial Ecology and Laboratory

AREA 3: Cellular and Functional Biology

BIO	305, 306	Developmental Biology and Laboratory
BIO	311, 312	Microbiology and Laboratory
BIO	321, 322	Neurobiology and Laboratory
BIO	381	Plant Physiology
BIO	401, 402	General Physiology and Laboratory
BIO	409, 410	Cell and Molecular Biology and Laboratory

In addition to BIO 105, 106, 107, 109, 201, 217, and one course each from the three stipulated areas, biology majors are required to take either two additional biology lecture courses or one biology lecture/laboratory course, with prefix numbers of 200 or above.

The biology major must also satisfactorily complete all of the following:

Chemistry (16 credit hours)

CHY	113, 114, 115, 116	Principles of Chemistry I and II and Laboratory
CHY	251, 252, 253	Organic Chemistry I and II and Organic Chemistry Laboratory I

Physics (10 credit hours)

PHY	111, 114, 112, 116	Elements of Physics I and II and Laboratory
or		
PHY	121, 114, 123, 116	General Physics I and II and Laboratory

Mathematics (8 credit hours)

MAT	152	Calculus A
MAT	220	Statistics for the Biological Sciences

In addition, students must fulfill the University Core curriculum requirements.

Bachelor of Science: Biology with Emphasis in Biotechnology

The minimum number of credits (exclusive of the University's Core curriculum) required for the emphasis in biotechnology: 74. Students may substitute Problems in Biology for no more than one of the required AMS courses shown below. Per University policy, students enrolled in AMS courses pay graduate tuition rates. A grade of C- or higher is required for all courses listed below.

All of the following are required:

Biology (30-31 credit hours)

BIO	105, 106	Biological Principles I: Cellular Biology and Laboratory
BIO	107	Biological Principles II: Evolution, Biodiversity, and Ecology
BIO	201	Genetics
BIO	311, 312	Microbiology and Laboratory
BIO	408	Experimental Genetics
BIO	409, 410	Cell and Molecular Biology and Laboratory

or

AMS	530, 531	Molecular Biology and Laboratory
BIO	431	Principles of Immunology
AMS	551	Immunology Laboratory

Chemistry (26 credit hours)

CHY	113, 114	Principles of Chemistry I and II and Laboratory
	115, 116	
CHY	251, 252,	Organic Chemistry I and II and Laboratory
	253, 254	
CHY	461, 462, 463	Biochemistry I and II and Laboratory

Physics (10 credit hours)

PHY	111, 114	Elements of Physics I and II and Laboratory
	112, 116	

or

PHY	121, 114,	General Physics I and II and Laboratory
	123, 116	

Mathematics (8 credit hours)

MAT	152	Calculus A
MAT	220	Statistics for the Biological Sciences

Bachelor of Science: Biology with Emphasis in Human Biology

The minimum number of credits (exclusive of the University's Core curriculum) required for the emphasis in human biology: 82. A grade of C- or higher is required for all courses listed below.

All of the following are required:

BIO 105, 106	Biological Principles I: Cellular Biology and Laboratory
BIO 107	Biological Principles II: Evolution, Biodiversity, and Ecology
BIO 111, 112	Human Anatomy and Physiology I and Laboratory
BIO 211, 212	Human Anatomy and Physiology II and Laboratory
BIO 345	Pathophysiology
BIO 401, 402	General Physiology and Laboratory

Choose 15 credits from the following:

BIO 201	Genetics
BIO 205	Comparative Vertebrate Anatomy
BIO 305, 306	Developmental Biology and Laboratory
BIO 311, 312	Microbiology and Laboratory
BIO 321, 322	Neurobiology and Laboratory
BIO 361, 362	Parasitology and Laboratory
BIO 407	Environmental Modulation of Developmental Mechanisms
BIO 409, 410	Cell and Molecular Biology and Laboratory
BIO 431	Principles of Immunology

The following courses are also required:

Chemistry (23-24 credit hours)

CHY 113, 114	Principles of Chemistry I and II and Laboratory
115, 116	
CHY 251, 252	Organic Chemistry I and II and Laboratory
253, 254	
CHY 461, 462	Biochemistry I and Laboratory
	or
CHY 461, 463	Biochemistry I and II

Physics (10 credit hours)

PHY 111, 114, 112, 116	Elements of Physics I and II and Laboratory
	or
PHY 121, 114, 123, 116	General Physics I and II and Laboratory

Mathematics (8 credit hours)

MAT 152	Calculus A
MAT 220	Statistics for the Biological Sciences

Bachelor of Science: Biology with Emphasis in Ecology

The minimum number of credits (exclusive of the University's Core curriculum) required for the major: 78. *All students must take at least three field labs. A grade of C- or higher is required for all courses listed below.

All of the following are required:

BIO 105, 106	Biological Principles I: Cellular Biology and Laboratory
BIO 107	Biological Principles II: Evolution, Biodiversity, and Ecology
BIO 109	Biological Principles III: Functional Biology
BIO 201	Genetics
BIO 217	Evolution
BIO 331	Ecological Principles

Organismal Biology courses: Choose at least 10 credits from the following:

BIO 205	Comparative Vertebrate Anatomy
BIO 231	Botany*
BIO 291	Ornithology*
BIO 311, 312	Microbiology and Laboratory
BIO 335	Entomology*
BIO 351	Invertebrate Zoology
BIO 353	Vertebrate Zoology*
BIO 361, 362	Parasitology and Laboratory
BIO 381	Plant Physiology
BIO 405, 406	Animal Behavior and Laboratory*

Ecology courses: Choose at least 10 credits from the following

BIO 332	Field Ecology*
BIO 337	Marine Ecology*
BIO 383	Plant Ecology*
BIO 403, 404	Comparative Animal Physiology and Laboratory
BIO 415, 416	Microbial Ecology and Laboratory*

Additional required courses:

Geography-Anthropology (3 credit hours)

GEO 108	Introduction to ArcGIS
---------	------------------------

Chemistry (16 credit hours)

CHY 113, 114, 115, 116	Principles of Chemistry I and II and Laboratory
CHY 251, 252 253	Organic Chemistry I and II and Organic Chemistry Laboratory I

Physics (10 credit hours)

PHY 111, 114, 112, 116	Elements of Physics I and II and Laboratory
------------------------	---

or

PHY 121, 114, 123, 116	General Physics I and II and Laboratory
------------------------	---

Mathematics (8 credit hours)

MAT 152	Calculus A
MAT 220	Statistics for the Biological Sciences

Pre-pharmacy Emphasis

The minimum number of credits required for the pre-pharmacy program, including general education requirements: 79. A grade of C- or higher is required for all courses listed below. Although there is not a degree in pre-pharmacy, the pre-pharmacy program is taken within the biology degree program.

All of the following are required:

BIO	105, 106	Biological Principles I: Cellular Biology and Laboratory
BIO	107	Biological Principles II: Evolution, Biodiversity, and Ecology
BIO	111, 112	Human Anatomy and Physiology I and Laboratory
BIO	211, 212	Human Anatomy and Physiology II and Laboratory
Chemistry (18 credit hours)		
CHY	113, 114	Principles of Chemistry I and II and Laboratory
	115, 116	
CHY	251, 252	Organic Chemistry I and II and Laboratory
	253, 254	
Physics (10 credit hours)		
PHY	111, 114,	Elements of Physics I and II and Laboratory
	112, 116	
Mathematics (8 credit hours)		
MAT	152	Calculus A
MAT	220	Statistics for the Biological Sciences
Other required courses:		
ENG	100	College Writing
ENG	120	Introduction to Literature
PSY	101	General Psychology I
SOC	100	Introduction to Sociology
THE	170	Public Speaking

In addition, students must fulfill an additional 6-9 credits of general education electives, and some programs require three credits of economics.

Post-Baccalaureate Pre-Medical Certificate

In addition to a baccalaureate degree, all of the following courses or equivalent courses transferred from another institution are required. A grade of C- or higher is required for all courses listed below.

Biology (19 credit hours)		
BIO	105, 106	Biological Principles I: Cellular Biology and Laboratory
BIO	107	Biological Principles II: Evolution, Biodiversity, and Ecology
		or
BIO	111, 112	Human Anatomy and Physiology I and Laboratory
BIO	211, 212	Human Anatomy and Physiology II and Laboratory
And two BIO courses with labs chosen from BIO 201/408, BIO 205, or those numbered 300 or higher		
Chemistry (18 credit hours)		
CHY	113, 114,	Principles of Chemistry I and II and Laboratory
	115, 116	
CHY	251, 252,	Organic Chemistry I and II and Laboratory
	253, 254	
Physics (10 credit hours)		
PHY	111, 114,	Elements of Physics I and II and Laboratory
	112, 116	
Mathematics (4 credit hours)		
MAT	152	Calculus A

Post-Baccalaureate Pre-Veterinary Certificate

In addition to a baccalaureate degree, all of the following courses or equivalent courses transferred from another institution are required. A grade of C- or higher is required for all courses listed below.

Biology (19 credit hours)

BIO 105, 106 Biological Principles I: Cellular Biology and Laboratory
BIO 107 Biological Principles II: Evolution, Biodiversity, and Ecology
BIO 311, 312 Microbiology and Laboratory

And one BIO course with lab chosen from BIO 201/408, BIO 205, or those numbered 300 or higher

Chemistry (18 credit hours)

CHY 113, 114, Principles of Chemistry I and II and Laboratory
115, 116
CHY 251, 252, Organic Chemistry I and II and Laboratory
253, 254

Physics (10 credit hours)

PHY 111, 114, Elements of Physics I and II and Laboratory
112, 116

Mathematics (4 credit hours)

MAT 152 Calculus A

Suggested Plans of Study

Because the biology curriculum includes many support courses (chemistry, physics, math) that need to be taken in addition to biology courses, the Department offers suggested plans of study, shown below, for biology majors in the general program, the biotechnology option, the human biology option, or the ecology option and for students in the pre-pharmacy program. There is no guarantee that every course listed will be offered when the student wants the course. Students should consult their academic advisors regularly.

Biology Degree Plan

Year 1

Fall semester

BIO 105	Biological Principles I: Cellular Biology	3
BIO 106	Laboratory Biology	1.5
CHY 113	Principles of Chemistry I	3
CHY 114	Laboratory Techniques I	1
ENG 100	College Writing	3
EYE 1XX	Entry Year Experience	<u>3</u>
		14.5

Spring semester

BIO 107	Biological Principles II: Evolution, Biodiversity and Ecology	4.5
CHY 115	Principles of Chemistry II	3
CHY 116	Laboratory Techniques II	1
MAT 152	Calculus A	4
Core curriculum course		<u>3</u>
		15.5

Year 2

Fall semester

BIO 109	Biological Principles III: Functional Biology	3
BIO 201	Genetics	3
CHY 251	Organic Chemistry I	3
CHY 252	Organic Chemistry Laboratory I	2
MAT 220	Statistics for the Biological Sciences	<u>4</u>
		15

Spring semester

BIO 217	Evolution	3
BIO Area requirement		3-5
CHY 253	Organic Chemistry II	3
Core curriculum course		3
Core curriculum course		<u>3</u>
		15-17

Year 3

Fall semester

BIO Area requirement		3-5
Physics	Elements of Physics I or General Physics I	4
PHY 114	Introductory Physics Laboratory I	1
Core curriculum course		3
Core curriculum course		<u>3</u>
		14-16

Spring semester

BIO Area requirement		3-5
Physics	Elements of Physics II or General Physics II	4
PHY 116	Introductory Physics Laboratory II	1
Core curriculum course		3
Core curriculum course		<u>3</u>
		14-16

Year 4

Fall semester

BIO elective(s)		variable
Core curriculum course		3
Core curriculum course		<u>3</u>
		variable

Spring semester

BIO elective(s)		variable
Capstone course		<u>3</u>
		variable

Note: Total credits must add up to 120. Suggested schedule is based on 8 semesters with approximately 15 credits per semester. Summer courses can reduce course load during the year.

Biotechnology Degree Plan

Year 1

Fall semester

BIO 105	Biological Principles I: Cellular Biology	3
BIO 106	Laboratory Biology	1.5
CHY 113	Principles of Chemistry I	3
CHY 114	Laboratory Techniques I	1

Minor in Biology

The minimum number of credits (exclusive of the University's Core curriculum) required for the minor: 18. A grade of C- or higher is required for all courses in the minor.

The minor consists of 18 credit hours of biology coursework. Students can begin with the general biology sequence of BIO 105, BIO 106, BIO 107, and BIO 109, or the human biology sequence of BIO 111, BIO 112, BIO 211, and BIO 212. Students must then take additional upper-level electives (200 or above) to equal a total of 18 credit hours. At least 6 credit hours of these upper-level courses must be taken within the Department of Biological Sciences.

Laboratory Fees

A laboratory fee is assessed in biology laboratory courses.

BIO 101 Biological Foundations

An introduction to the areas of current biological interest: molecular and cellular biology, genetics and development, and evolution and population biology. Intended primarily for students selecting a laboratory science to satisfy the Core curriculum or for those students not intending to take other courses in the biological sciences. This course cannot be used as a prerequisite for other biology courses. Cr 3.

BIO 102 Biological Experiences

Laboratory studies to complement and illustrate the concepts presented in BIO 101. Prerequisite: Prior or concurrent registration in BIO 101. Cr 1.

BIO 103 Introduction to Marine Biology

A course intended for the non-science major. Selected groups of marine plants and animals are used to develop an understanding of biological processes and principles that are basic to all forms of life in the sea. Integrated in the course are aspects of taxonomy, evolution, ecology, behavior, and physiology. Cr 3.

BIO 104 Marine Biology Laboratory

An examination of prototype organisms will be used to illustrate their varied roles in the ocean. Prior or concurrent registration in BIO 103. Cr 1.

BIO 105 Biological Principles I: Cellular Biology

This is an introduction to the scientific principles of molecular biology, cell biology, and genetics. Prerequisite: students must have fulfilled the University minimum proficiency requirements in writing and mathematics. Cr 3.

BIO 106 Laboratory Biology

Laboratory experiences illustrating concepts and principles introduced in BIO 105. Concurrent enrollment in BIO 105 is highly recommended. Prerequisite: grade of C- or higher or concurrent enrollment in BIO 105. Students must have fulfilled the University minimum proficiency requirements in writing and mathematics. Cr 1.5.

BIO 107 Biological Principles II: Evolution, Biodiversity, and Ecology

This is an integrated lecture-laboratory course introducing students to the scientific principles of evolution, biodiversity, and ecology. The lecture and laboratory each meet three hours weekly. Prerequisites: grades of C- or higher in BIO 105 and BIO 106. Cr 4.5.

BIO 109 Biological Principles III: Functional Biology

This is an introduction to the scientific principles of structure and function in plants and animals. Prerequisite: grade of C- or higher in BIO 107. Cr 3.

BIO 111 Human Anatomy and Physiology I

The course is the first semester of a two-semester sequence concerning the structure and function of the human body. The course focuses on the study of cell chemistry, cell physiology, tissues, integumentary system, skeletal system, muscle system, and nervous system. Prerequisite: satisfactory completion of minimum proficiency requirements. Cr 3.

BIO 112 Practical Human Anatomy and Physiology I

Laboratory experiences illustrating concepts and principles introduced in BIO 111. The course will cover the following topics: metrics, language of anatomy, cell physiology, tissues, integumentary system, skeletal system, muscular system, and nervous system. Prerequisite: BIO 111 or concurrent. Cr 1.5.

BIO 201 Genetics

This is a study of the molecular basis of heredity and methods of genetic analysis. Prerequisites: grade of C- or higher in BIO 107 or BIO 211 and 212, and CHY 115; or permission of instructor. Cr 3.

BIO 205 Comparative Vertebrate Anatomy

The comparative study of vertebrate organ systems from an adaptational and evolutionary point of view. Lecture three hours/week; one four-hour laboratory/week. Prerequisites: grade of C- or higher in BIO 109 or BIO 211. Cr 5.

BIO 211 Human Anatomy and Physiology II

This course is a continuation of BIO 111. The structure and function of the endocrine, cardiovascular, respiratory, digestive, and urinary systems will be discussed. Prerequisite: grade of C- or higher in BIO 111. Cr 3.

BIO 212 Practical Human Anatomy and Physiology II

Laboratory studies of the structure and function of the endocrine, cardiovascular, respiratory, reproductive, digestive, and urinary systems. Prerequisite: grade of C- or higher in BIO 112; BIO 211 or concurrently. Cr 1.5.

BIO 217 Evolution

This course teaches the geological and fossil records; the mechanism of selection as a creative principle; the genetic basis of natural selection; the pervasive imprint of evolution in living and fossil species; the evolution of complex molecules and organ systems; and the geological and ecological processes that have influenced diversification. Prerequisite: grade of C- or higher in BIO 107, or permission of instructor. Cr 3.

BIO 231 Botany

A study of structure, function, development, reproduction, and environmental adaptations of representative non-vascular and vascular plants. Lecture three hours/week; one three-hour laboratory/week. Prerequisite: grade of C- or higher in BIO 107 or permission of instructor. Cr 4.5.

BIO 251 History of Biology

A chronological survey of developments in biological investigations from earliest records to the present day. Prerequisite: grade of C- or higher in BIO 105 or 111, or permission of instructor. Cr 3.

BIO 281 Microbiology and Human Disease

Fundamentals of microbiology with emphasis on infectious diseases of people, including bacteria, rickettsia, fungi, viruses, protozoa and helminths. Prerequisites: grade of C- or higher in BIO 105 or BIO 111, and CHY 107. Cr 3.

BIO 282 Microbiology and Human Disease Laboratory

Laboratory techniques in the cultivation, identification, and control of microorganisms. Prerequisite: BIO 281 or concurrently. This course does not fulfill the Area 3 requirement. Cr 2.

BIO 291 Ornithology

This course studies the basic biology of birds: their life histories, migration, ecology, and economic importance, with emphasis on species found in Eastern North America. Numerous field trips to a variety of habitats will be taken for purposes of field identification. Students are responsible for their own appropriate outdoor clothing and footwear and for binoculars. Prerequisite: a grade of C- or higher in BIO 107, or permission of instructor. Cr 4.5.

BIO 305 Developmental Biology

An analysis of the cellular and molecular interactions leading to normal development. Prerequisite: grade of C- or higher in BIO 107. Cr 3.

BIO 306 Developmental Biology Laboratory

This laboratory course is designed to illustrate principles of animal development introduced in BIO 305 using genetic, histochemical, and molecular analyses. Prerequisite: prior or concurrent registration in BIO 305. Cr 2.

BIO 311 Microbiology

This course is a comprehensive introduction to cellular, biochemical, and genetic aspects of prokaryotes. Viruses and some eukaryotic micro-organisms are also considered. Prerequisites: CHY 115 and grade of C- or higher in BIO 107; or permission of instructor. Cr 3.

BIO 312 Microbiological Laboratory

The laboratory explores basic techniques of isolation and cultivation of microorganisms, primarily bacteria and fungi. In addition, biochemical, molecular, and genetic analyses of microorganisms are introduced. Prerequisite: grade of C- or higher or concurrent enrollment in BIO 311; or permission of instructor. Cr 2.

BIO 321 Neurobiology

This course presents an overview of nervous system function, structure, and development. Content focuses on the cellular and molecular properties that underlie normal function. Prerequisite: grade of C- or higher in BIO 109 or BIO 111, or permission of instructor. Cr 3.

BIO 322 Neurobiology Laboratory

This laboratory course is designed to enable students to gain experience with a range of experimental techniques used in neurobiology research. These include cell culture, electrophysiology, histochemistry, microscopy, and behavioral analyses. Prerequisite: prior or concurrent registration in BIO 321. Cr 2.

BIO 331 Ecological Principles

A scientific study of interactions determining the distribution and abundance of organisms. Prerequisite: grade of C- or higher in BIO 107. Cr 3.

BIO 332 Field Ecology

Field studies demonstrating basic concepts of ecology. Prerequisite: BIO 331 or concurrently. Cr 2.

BIO 335 Entomology

Integrated lecture-laboratory course on the biology of insects and their impact on humanity. Prerequisite: grade of C- or higher in BIO 107. Cr 3.

BIO 337 Marine Ecology

A comparative ecological study of coastal and oceanic environments. Lecture, three hours/week; weekly four-hour field trip. Prerequisite: Grade of C- or higher in BIO 107. Cr 5.

BIO 345 Pathophysiology

A study of the physiological, genetic, biochemical and environmental basis of noninfectious diseases. Prerequisite: grade of C- or higher in BIO 109 or BIO 211, or permission of instructor. Cr 3.

BIO 351 Invertebrate Zoology

The morphology, physiology and evolution of invertebrate animals. Three hours of lecture and two, two-hour laboratories per week. Prerequisite: a grade of C- or higher in BIO 107. Cr 5.

BIO 353 Vertebrate Zoology

This course is a survey of the vertebrate animals, focusing on classification, morphology, physiology, ecology, behavior, and evolutionary history of each group. Lecture three hours a week; one four-hour laboratory a week. Prerequisites: grade of C- or higher in BIO 109. Cr 5.

BIO 361 Parasitology

The life histories and host-parasite relationships of animal parasites, with emphasis on those of humans. Prerequisite: grade of C- or higher in BIO 105. Cr 2.

BIO 362 Parasitological Laboratory

The morphology and life cycles of parasitic protozoa, helminths, and arthropods. Prerequisite: BIO 361 or concurrently. Cr 2.

BIO 381 Plant Physiology

This course is a study of the physiological activities of plants, and their growth and development as influenced by internal and external factors. Lecture three hours/week; one three-hour laboratory/week. Prerequisites: CHY 115 and grade of C- or higher in either BIO 109 or BIO 231; or permission of instructor. Cr 4.5.

BIO 383 Plant Ecology

This course examines plant ecology at the population, community, and ecosystem levels. Plant adaptations to the environment are also discussed, with emphasis on how these traits influence community and ecosystem processes. Weekly field trips are required. Prerequisite: grade of C- or higher in BIO 107. Cr 5.

BIO 401 General Physiology

A study of physiological processes and their regulation in animals. Prerequisites: CHY 115, either PHY 111 or PHY 121, and grade of C- or higher in either BIO 107 or BIO 211; or permission of instructor. Cr 3.

BIO 402 General Physiology Laboratory

Laboratory examination of physiological mechanisms in animals. Prerequisite: BIO 401 or concurrently; MAT 220. Cr 2.

BIO 403 Comparative Animal Physiology

Physiological and biochemical basis of environmental adaptation in animals. Prerequisites: CHY 115, junior standing, and grade of C- or higher in BIO 107. Cr 3.

BIO 404 Comparative Animal Physiology Laboratory

Laboratory experiments on the physiological basis of environmental adaptation. Emphasis is on marine animals. Prerequisite: BIO 403 or concurrently; MAT 220. Cr 2.

BIO 405 Animal Behavior

This course is a study of the principles of behavioral organization in vertebrate and invertebrate animals, with emphasis on behavior under natural conditions. Prerequisite: grade of C- or higher in BIO 107 or BIO 211, or permission of instructor. Cr 3.

BIO 406 Animal Behavior Laboratory

This course is a laboratory and field examination of behavioral principles in animals. Prerequisite: BIO 405 or concurrently. Cr 2.

BIO 407 Environmental Modulation of Developmental Mechanisms

This is a molecular genetic analysis of development focusing on an integrative approach toward understanding the evolution of developmental mechanisms. Prerequisite: grades of C- or higher in BIO 201 and BIO 305, or permission of instructor. Cr 3.

BIO 408 Experimental Genetics

This course includes lectures and laboratory exercises in human and fruit fly genetics. This is not a companion course to BIO 201. Prerequisite: BIO 201 or concurrently, or permission of instructor. Cr 2.

BIO 409 Cell and Molecular Biology

A study of the eukaryotic cell at the level of organelles and molecules. The biochemical aspects of cell growth and reproduction are emphasized. Prerequisites: CHY 115 and either grade of C- or higher in BIO 201 or concurrent enrollment in BIO 201. Cr 3.

BIO 410 Cell and Molecular Biology Laboratory

A course in which the techniques of cell fractionation and biochemical analyses are applied to the eukaryotic cell. Prerequisite: BIO 409 or concurrently. Cr 2.

BIO 415 Microbial Ecology

This course is a continuation of BIO 311. The course begins with an examination of microbial evolution and biodiversity. It then explores the interactions of microorganisms in populations and within communities, and their interactions with other organisms and the environment, including an examination of physiological adaptations and biogeochemical cycles. Prerequisite: grade of C- or higher in BIO 281 or BIO 311 or equivalent, or permission of instructor. Cr 3.

BIO 416 Microbial Ecology Lab

This is the companion lab course to BIO 415, designed as a hands-on project lab to introduce students to a variety of methods used in microbial ecology. There will be a field component, lab component, and written component to the projects that will be completed during the semester. Microscopic, cell culture, and molecular methods will be employed. Prerequisites: grade of C- or higher in BIO 415 (or equivalent) or concurrent enrollment, or permission of instructor. Cr 2.

BIO 417 Issues in Evolution

This course surveys major issues that motivate current research in evolutionary biology, providing an historical analysis of areas of controversy and alternative points of view within the field. The course is based on selected readings in the theoretical and experimental literature of the field, from primary and classical sources. Prerequisites: grades of C- or higher in BIO 201 and BIO 217; or permission of instructor. Cr 3.

BIO 421 Biology Seminar

Weekly oral reports and discussions by students and staff on biological topics of current interest. Prerequisite: 16 hours of biology or permission of instructor. May be repeated. Cr 1 or 2.

BIO 431 Principles of Immunology

An introduction to the fundamentals of immunology, especially as they relate to human diseases. Topics include history of immunology, basic elements of immune systems, principles of natural and acquired immunity, cellular and molecular basis of B cell and T cell development and diversity, and clinical aspects of immunology. Prerequisites: CHY 105 or CHY 115, junior standing, and grade of C- or higher in either BIO 107 or BIO 211; or permission of instructor. Cr 3.

BIO 441 Problems in Biology

Independent library or laboratory studies on a special topic as mutually arranged by instructor and student. Prerequisite: by arrangement. Credit arranged.

Chemistry

Chair of the Department: Henry Tracy, 352 Science Building, Portland

Professors: Tracy; *Associate Professors:* Ford, Prudenté; *Assistant Professors:* Benedict, Woodruff; *Professors Emeriti:* Gordon, Newton, Rhodes, Ricci, Sottery, Stebbins, Whitten

The field of chemistry is concerned with the structure of matter, its transformations, and the energy changes related to these transformations. Departmental aims are to contribute to the student's understanding of chemistry's place within the sciences and in today's industrial and business world, and to provide students concentrating in this field with a thorough and practical education that will be useful in teaching or in industrial, technical, or graduate work.

To achieve these aims the Department of Chemistry offers a four-year program with three tracks leading to baccalaureate degrees (B.A. in chemistry, B.S. in chemistry, and B.S. in biochemistry). Because the chemistry courses in each track are the same for the first two years, it is possible to switch tracks through the junior year. Students considering a chemistry major are strongly urged to consult with a member of the Department of Chemistry faculty to discuss the total program. They should pay particular attention to the pre- and co-requisites necessary for different courses.

Programs and Requirements

To graduate as a chemistry major or minor in any of the programs, a student must earn a grade of C or better in all chemistry courses and a minimum grade point average of 2.0 in all other courses required for the major.

Bachelor of Science: Chemistry

The minimum number of credits in chemistry and related areas (exclusive of the University's Core curriculum) required for the major in this track: 65.

The courses include: CHY 113 and 114; 115 and 116; 231 and 232; 251 and 252; 253 and 254; 371 and 372; 373 and 374; 377 and 378; 401; 421; one of the following three offerings: 345, 351, 461. In addition PHY 121 and 114; PHY 123 and 116; MAT 152, 153; PHY 261 or a math/computer science course approved by the Chemistry Department are required. At least 12 credit hours beyond the 100-level must be taken within the Chemistry Department at USM.

Bachelor of Science: Biochemistry

The minimum number of credits in chemistry and related areas (exclusive of the University's Core curriculum) required for the major in this track: 70-75.

The courses include: CHY 113 and 114; 115 and 116; 231 and 232; 251 and 252; 253 and 254; 373; 461 and 462; 463 and 464; either CHY 421 or 377 and 378. In addition either BIO 311 and 312 or BIO 305 and 306 or BIO 109, 409 and 410 or BIO 109, 321 and 322. Also, BIO 105, 106 and 107; PHY 121 and 114; PHY 123 and 116; MAT 152 and 153 are required. At least 12 credit hours beyond the 100-level must be taken within the Chemistry Department at USM.

Bachelor of Arts: Chemistry

The minimum number of credits in chemistry and related areas (exclusive of the University's Core curriculum) required for the major in this track: 60-61.

The courses include: CHY 113 and 114; 115 and 116; 231 and 232; 251 and 252; 253 and 254; 371 and 372; 373 and 374; 401; two of the following five offerings; 345; 351; 377 and 378; 421; 461. In addition PHY 121 and 114; PHY 123 and 116; MAT 152, 153; PHY 261 or a math/computer science course approved by the Chemistry Department are required. At least 12 credit hours beyond the 100-level must be taken within the Chemistry Department at USM.

Minor in Chemistry

The minimum number of credits (exclusive of the Core curriculum) required for the minor: 17. At least 6 credit hours beyond the 100-level must be taken within the Chemistry Department at USM.

The minor consists of CHY 113 and 114, 115 and 116 and either of the following two groups of courses: 231 and 232, 251 and 252, or 371 and 372; 373; 421.

CHY 113/114	Principles of Chemistry I with Laboratory	4 credits
CHY 115/116	Principles of Chemistry II with Laboratory	4 credits
CHY 231/232	Analytical Chemistry with Laboratory	4 credits
CHY 251/252	Organic Chemistry I with Laboratory	5 credits
Total hours		17 credits
<i>or</i>		
CHY 113/114	Principles of Chemistry I with Laboratory	4 credits
CHY 115/116	Principles of Chemistry II with Laboratory	4 credits
CHY 371/372	Physical Chemistry I with Laboratory	5 credits
CHY 373	Physical Chemistry II	3 credits
CHY 421	Inorganic Chemistry	3 credits
Total hours		19 credits

Minor in Biochemistry

The minimum number of credits required (exclusive of Core courses) for the minor: 23. The minor consists of CHY 113, 114, 115, 116, 251, 252, 253, 254, 461, and either 462 or 463. The biochemistry minor is not open to chemistry majors. At least 6 credit hours beyond the 100-level must be taken within the Chemistry Department at USM.

Admission Requirements

Students who apply for admission to the chemistry program should have completed college preparatory courses in chemistry, physics, and mathematics. At least two years of algebra and a semester each of geometry and trigonometry are recommended as part of the student's high school program. (Freshmen in the chemistry program who lack this preparation in mathematics are required to take MAT 140, Precalculus Mathematics.)

Laboratory Fees

A laboratory fee is assessed in chemistry laboratory courses.

CHY 100 Foundations for College Chemistry

The course will review basic chemical principles commonly presented in high school chemistry and emphasize solving mathematical problems usually done in freshman college-level chemistry. Prerequisite: satisfaction of math proficiency requirements. A high school chemistry course is recommended. Not open to students who have already passed a chemistry course numbered 101 or higher. Cr 2.

CHY 101 Introduction to Chemistry

General topics in chemistry including introductory units on matter and its properties; measurement; elements and compounds; atomic structure; solutions, dispersions, and water; osmotic pressure; chemical bonds; chemical nomenclature; stoichiometry; radio-chemistry; gases; acids, bases and buffers; and energy relationships in chemical processes. Three hours lecture per week (usually concurrent with CHY 102). Prerequisite: high school algebra. Not appropriate for science majors, pre-med, pre-vet or pre-dentistry students. Cr 3.

CHY 102 Introduction to Laboratory Measurement

Experiments will be designed to teach students how to perform accurate and reliable measurements using the major parameters of mass and volume. Topics to be covered include: physical and chemical changes; separation of a mixture; analysis of an ionic solution; properties of water; gases; acids, bases and buffers; titration. One recitation and two laboratory hours per week. Corequisite: CHY 101. Not appropriate for chemistry or biology majors. Cr 1.

CHY 103 Introduction to Organic and Biochemistry

Stress will be placed upon topics of special importance for students of the health sciences: nomenclature of organic compounds; electron distribution in organic molecules; structural features of organic molecules; substitution, elimination, and addition reactions; oxidation reduction reactions; carbohydrates; lipids; proteins and amino acids; enzymes; nucleic acids; metabolism; summary of some aspects of nutrition; pharmaceuticals; medical applications of radiochemistry. Three lecture hours per week (usually concurrent with CHY 104). Prerequisite: a grade of C or better in CHY 101. Not appropriate for science majors, pre-med, pre-vet or pre-dentistry students. Cr 3.

CHY 104 Introductory Organic and Biochemistry Laboratory

Students will perform experiments to illustrate aspects of organic chemistry of importance to living systems, as well as elementary principles of biochemistry. Topics include separation and identification of organic compounds; qualitative reactions of lipids, proteins, and nucleic acids; introduction to enzyme chemistry. One recitation and two laboratory hours per week. Offered spring semester. Corequisite: CHY 103. Not appropriate for chemistry or biology majors. Cr 1.

CHY 107 Chemistry for Health Sciences

A one-semester introduction to general, organic, and biological chemistry for the health sciences. Topics include acids and bases, pH, chemical kinetics and equilibria, the chemistry of organic compounds; carbohydrates, proteins, lipids, nucleic acids. This course is not suitable for chemistry majors, biology majors, or pre-professionals (pre-dental, pre-medical, pre-veterinary). Cr 3.

CHY 108 Chemistry Laboratory for Health Sciences

Experiments in this laboratory are designed to illustrate principles from CHY 107. Aims of the course are to develop skill in using common laboratory equipment, measuring and analyzing data, and in reporting results of lab work. One three-hour meeting per week. Corequisite or prerequisite: CHY 107. Cr 1.

CHY 110 Chemistry, Life, and the Environment

An introduction to chemistry and its importance to society. This course is centered on the nature of atoms and molecules, and how the structures of molecules give rise to the beneficial and harmful effects of chemicals. Classroom examples include medicines, consumer products, pollutants, and the molecules of life. Laboratory and home experiments include examining the chemical content of foods. Prerequisite: completion of all Core Basic Competence requirements. Cr 4.

CHY 113 Principles of Chemistry I

A presentation of fundamental principles of chemical science. These principles will be presented in quantitative terms and illustrated by examples of their applications in laboratories and in ordinary non-laboratory experience. This course and CHY 114 (normally taken concurrently) provide the basis for further study of chemistry. Prerequisite: satisfaction of USM math minimum proficiency requirements. Cr 3.

CHY 114 Laboratory Techniques I

Laboratory experiments to illustrate the principles that are presented in CHY 113 lectures. One recitation and two laboratory hours per week. Corequisite: CHY 113. Cr 1.

CHY 115 Principles of Chemistry II

A continuation of CHY 113K. This course is designed to provide the foundation for all further studies in chemistry and is a prerequisite for all upper-level chemistry courses. Prerequisite: a grade of C or better in CHY 113. Cr 3.

CHY 116 Laboratory Techniques II

Laboratory experiments to illustrate the principles presented in CHY 115 lectures. One recitation and two laboratory hours per week. Prerequisite: a grade of C or better in CHY 114. Corequisite: CHY 115. Cr 1.

CHY 231 Analytical Chemistry

A survey of principles and applications of modern analytical chemistry and related calculations. Topics include volumetric and gravimetric analysis, electroanalysis, spectrophotometry, separations, statistics, and error analysis. Prerequisite: a grade of C or better in CHY 115. Cr 2.

CHY 232 Analytical Chemistry Laboratory

Quantitative experimental determination by means of classical and instrumental methods. Techniques used include titration, gravimetric analysis, spectrophotometry, electroanalysis, and chromatography. Precision, accuracy, and statistical error analysis of results are emphasized. Four lab hours per week. Prerequisite: a grade of C or better in CHY 116. Corequisite: CHY 231. Cr 2.

CHY 251 Organic Chemistry I

An intensive treatment of organic chemistry. Topics include: nomenclature; structure and stereochemistry; reaction types: substitution, addition, elimination and oxidation-reduction; reaction mechanisms and factors influencing them; spectroscopic techniques of structure determination (mass, nuclear magnetic resonance, ultraviolet-visible and infrared). Prerequisite: a grade of C or better in CHY 115. Cr 3.

CHY 252 Organic Chemistry Laboratory I

Students conduct independent research by executing a multi-step synthesis of a series of compounds. An additional goal is the characterization of the physical and chemical properties of the target molecules as well as the intermediates. Students will develop proficiency in synthetic methods, chromatography, and spectroscopy by working with model compounds. Prerequisite: a grade of C or better in CHY 116. Prerequisite or corequisite: CHY 251. Cr 2.

CHY 253 Organic Chemistry II

A continuation of CHY 251, but with a more extensive (and intensive) investigation of the principal categories of organic reactions. Extensive problem solving in such areas as structure determination, spectroscopy, and stereochemistry. The structures and fundamental chemical reactions of lipids, carbohydrates, proteins and nucleic acids will be presented. Prerequisite: a grade of C or better in CHY 251. Cr 3.

CHY 254 Organic Chemistry Laboratory II

Students will apply the skills they developed by working with model compounds in CHY 252 to the synthesis of the desired target molecules. Prerequisite: A grade of C or better in CHY 252. Prerequisite or corequisite: CHY 253. Cr 2.

CHY 345 Polymer Chemistry

We live in a plastic society. During the past 90 years plastics (synthetic polymers) have become an integral part of our daily lives. This course will survey the past, present, and future of the chemistry of these essential materials. We will discuss the preparation of polymers under radical chain, step-reaction, ionic, and coordination conditions. Then we will consider methods of characterization of polymers, both experimental and theoretical. Finally we will examine commercial polymers and polymer technology. Prerequisites: CHY 253 and 373. Cr 3.

CHY 351 Advanced Organic Chemistry

This course will explore fundamentals of organic reaction mechanisms. A partial list of the topics to be covered includes steric, electronic, and stereo electronic effects; conformational analysis; thermodynamic and kinetic principles; applications of molecular orbital theory; reactive intermediates; and modern techniques used to study reaction mechanisms. Course content may vary from year to year, depending on student interests. Prerequisite: a grade of C or better in CHY 253. Cr 3.

CHY 371 Quantum Chemistry

Principles of theoretical chemistry: quantum mechanics and spectroscopy. Candidates for the B.S. degree elect this course in the fall semester of the junior year. Prerequisites: a grade of C or better in CHY 115, MAT 152, and PHY 123. Cr 3.

CHY 372 Advanced Laboratory

Experiments illustrating material presented in CHY 371. One recitation and three laboratory hours per week. Prerequisite: a grade of C or better in CHY 116. Prerequisite or corequisite: CHY 371. Cr 2.

CHY 373 Chemical Thermodynamics

Principles of theoretical chemistry: classical thermodynamics, molecular energetics, equilibrium, reaction kinetics, statistical thermodynamics, and electrochemistry. Prerequisites: a grade of C or better in CHY 115, MAT 152, and PHY 123. Cr 3.

CHY 374 Chemical Thermodynamics Laboratory

Experiments illustrating material presented in CHY 373. One recitation and three laboratory hours per week. Prerequisite or corequisite: CHY 373. Cr 2.

CHY 377 Instrumental Analysis

A consideration of the applicability of current laboratory instrumentation both to the elucidation of fundamental chemical phenomena and to the measurement of certain atomic and molecular parameters. Topics include absorption and emission spectroscopy in the ultraviolet, visible and infrared regions; chromatography; electrochemistry; mass spectrometry; and magnetic resonance. Prerequisite or corequisite: CHY 231 and CHY 371 or permission. Cr 3.

CHY 378 Instrumental Analysis Laboratory

Experiments will be performed in electrochemistry, mass spectrometry, gas and liquid chromatography, and UV-Vis, NMR, AA, and fluorescence spectroscopy. Prerequisites: grades of C or better in CHY 232 and CHY 372. One hour of pre-lab recitation and three laboratory hours per week. Cr 2.

CHY 401 Seminar

Oral and written presentation of a current topic in chemistry or of research results. Required of all senior majors. Satisfactory completion of written paper fulfills technical writing requirement. Cr 1.

CHY 410-419 Special Topics

Reading and discussion of advanced subjects or instruction in special topics/research. Permission of instructor required. 6 credits maximum. Cr 1-3.

CHY 421 Inorganic Chemistry

Descriptive chemistry of the inorganic compounds, structure, bonding and ligand field theory. Prerequisite or corequisite: CHY 371. Cr 3.

CHY 422 Advanced Chemistry Laboratory

Preparation and characterization of compounds utilizing advanced modern techniques and instrumentation. One recitation and three laboratory hours per week. Prerequisite or corequisite: CHY 421. Not offered every year. Cr 2.

CHY 461 Biochemistry

Application of chemical methods and principles to understanding biological processes. Topics include structure and action of nucleotides, proteins, lipids, and carbohydrates; enzyme kinetics and mechanisms; membranes and transport; and metabolism and energy conversion. This one-semester course provides a survey of the major areas of biochemistry, except for nucleic acids. Prerequisite: a grade of C or better in CHY 253 or by instructor permission. Cr 3.

CHY 462 Biochemistry Laboratory

Basic experimental methods in modern biochemistry. Experiments include detecting, purifying, crystallizing, and characterizing proteins; analyzing protein structure, and measuring enzyme kinetics. Techniques include ultraviolet and visible spectrophotometry; ion-exchange, gel, and high-pressure liquid chromatography; electrophoresis, and analysis of protein structure by computer graphics. One hour lecture and three hours laboratory per week. Prerequisite: a grade of C or better in CHY 254. Prerequisite or corequisite: CHY 461. Cr 2.

CHY 463 Biochemistry II

Continuation of CHY 461. Topics include selected biosynthetic pathways, including photosynthesis; signal transduction applied to hormones, nerve transmission, and the five senses; and methods for structural analysis of macromolecules, including X-ray diffraction, nuclear magnetic resonance, and homology modeling. Participants present a seminar on a topic of current biochemical research. Prerequisite: a grade of C or better in CHY 461. Cr 3.

CHY 464 Biochemistry Laboratory II

Continuation of CHY 462. Experiments include detecting and characterizing lipids, sequencing proteins and nucleic acids, analyzing protein conformation, measuring protein synthesis, and characterizing antigen-antibody interactions. Techniques include paper and thin-layer chromatography, gel electrophoresis, and computer graphics. One hour lecture and three hours laboratory per week. Prerequisite: a grade of C or better in CHY 462. Prerequisite or corequisite: CHY 463. Cr 2.

CHY 490 Senior Research Project

Open to senior majors. Prerequisites include a 2.0 GPA in chemistry, completion of the Analytical and Organic Chemistry series, and permission of the department. 15 credits maximum. Cr 3-15.

Department of Computer Science

Chair of the Department: Robert Boothe

Professors: Alagic, Welty; *Associate Professors:* Boothe, Briggs, Congdon, MacLeod;

Adjunct Faculty: Bantz, El-Taha, Heath, Houser

The Department of Computer Science offers a four-year program leading to a B.S. in computer science. Computer science courses concern the theory and practice of solving problems by computer. More specifically, computer scientists build and analyze tools that allow complex problems to be solved. A component of computer science is the study and use of various programming languages, but computer science consists of much more than programming. The mathematical theory of computer science aids in determining the efficiency and correctness of algorithms and programs. In addition, a computer scientist must understand how computers are built and operate. The systematic application of general methods and computing technology to actual problems is also part of computer science.

The undergraduate degree in computer science prepares students both for careers in the computing profession and for graduate study. Course requirements ensure that students receive instruction in both practical and theoretical aspects of computer science. The B.S. degree in computer science is accredited by the Computing Accreditation Commission (CAC) of ABET, the national board that accredits computer, engineering, and technology programs (see www.abet.org).

Program Objectives

At the time of graduation, USM computer science students will be prepared for careers and/or graduate school. In three to five years, graduates of the USM computer science program will

1. have successful professional careers
2. be valued, ethical members of their profession and society
3. be actively involved in continuing their professional education

Programs and Requirements

Bachelor of Science in Computer Science

All students are reminded that, in addition to meeting departmental requirements for a major, they must also meet the University Core Curriculum requirements.

The total number of credits for graduation is 120.

Courses used to fulfill major requirements in sections A through F below must be passed with a grade of C– or better. The accumulative grade point average of all courses applied to the major must be at least 2.0.

The specific course requirements are as follows.

A. Computer Science:

COS 160	Structured Problem Solving: Java
COS 161	Algorithms in Programming
COS 170	Structured Programming Laboratory
COS 250	Computer Organization
COS 255	Computer Organization Laboratory
COS 285	Data Structures
COS 350	Systems Programming
COS 360	Programming Languages
COS 485	Design of Computing Algorithms
COS 398	Professional Ethics and Social Impact of Computing

B. Software Design:

COS 420 Object Oriented Design

or

COS 430 Software Engineering

C. Computer Systems:

COS 450 Operating Systems

or

COS 457 Database Systems

D. Completion of four additional COS courses numbered 300 and above, excluding COS 498.

Graduate courses in the Computer Science Department can be used to fulfill the requirements in section D.

E. Mathematics requirement

1. Completion of:

MAT 152	Calculus A
MAT 153	Calculus B
MAT 145	Discrete Mathematics I
COS 280	Discrete Mathematics II
MAT 380	Probability and Statistics (MAT 281 and MAT 282 may together substitute for MAT 380)

2. One additional mathematics course from the following courses:

MAT 252	Calculus C
MAT 292	Theory of Numbers
MAT 295	Linear Algebra
MAT 350	Differential Equations
MAT 352	Real Analysis
MAT 355	Complex Analysis
MAT 364	Numerical Analysis

- MAT 366 Deterministic Models in Operations Research
 - MAT 370 Non-Euclidean Geometry
 - MAT 383 System Modeling and Simulation
 - MAT 395 Abstract Algebra
 - MAT 460 Mathematical Modeling
 - MAT 461 Stochastic Models in Operations Research
 - MAT 490 Topology
 - MAT 492 Graph Theory and Combinatorics
- F. 1. Completion of a two-semester sequence of either
 CHY 113 with CHY 114 and CHY 115 with CHY 116
 or
 PHY 121 with PHY 114 and PHY 123 with PHY 116
 or
 BIO 105 with BIO 106 and BIO 107
2. Two additional courses (except introductory courses such as ELE 100) from any of the departments of Engineering, Biological Sciences, Chemistry, Physics, Geosciences, or Environmental Science and Policy, provided that the course is a course in science that can be used for credit toward the degree offered by that respective department. Courses from other departments may also be approved to satisfy this requirement, provided they have a strong emphasis on quantitative measures and the application of the scientific method. For a course with an associated lab to satisfy this requirement, the lab must also be taken. ELE 172 and ELE 271 are excluded because of similarity to COS courses.
- G. Communication skills requirement:
1. Completion of THE 170
 2. Completion of ITP 210
- H. Successful completion of 30 credit hours in the humanities, arts, or social sciences. Courses in these disciplines that satisfy Core Curriculum requirements also satisfy this requirement.

Suggested Schedule

The following schedule of mathematics and computer science courses is typical for the freshman and sophomore years.

	Fall	Spring
First year	COS 160 COS 170 MAT 145	COS 161
Second year	COS 280 COS 285 MAT 152	COS 250 COS 255

Double Majors

Students who opt to pursue a double major with computer science as one of the major fields of study must satisfy all computer science degree requirements. The general requirements for a double major are listed under the heading Double Major in this catalog.

Minor in Computer Science

A minor in computer science may be obtained by successfully completing the following courses with an accumulative grade point average of 2.0 in these courses: COS 160 and COS 170; COS 161; COS 250 and COS 255; COS 285, and two additional COS courses numbered 250 or greater, excluding COS 398, COS 498 and COS 499.

Course Fees

Course fees to cover the cost of materials and supplies are assessed in some computer science courses.

COS 131 Web Programming

In this course students develop actual Web pages and acquire basic skills in Web programming languages such as JavaScript, VBScript, and Active Server Pages. Other topics include: object model, event model, dynamic HTML, Web-enabled databases, and XML. Prerequisite: a programming course or instructor permission. Cr 3.

COS 141 Visual Basic I

Visual Basic is used to introduce students to the fundamental skills of problem solving and programming. The class includes both classroom presentation and instructor-guided laboratory sessions. Small to medium size programming projects are completed. Prerequisite: a working knowledge of the Windows operating system. Cr 3.

COS 142 Visual Basic II

The concepts of COS 141 are extended to present programming in an application development environment. Topics covered in this course include static and dynamic arrays, user defined data types, class modules and dynamic link library development, serial and random access files, database connectivity, advanced Visual Basic controls, ActiveX controls, and Web programming using Active Server Pages. Component Object Modeling (COM) topics will be included. Small to medium size programming projects and a comprehensive final project will be completed. Prerequisite: COS 141 or permission of the instructor. Cr 3.

COS 160 Structured Problem Solving: Java

An introduction to the use of digital computers for problem solving, employing the Java programming language as a vehicle. Content includes elementary control structures and data representation methods provided by Java and the object-oriented programming methodology. Course requirements include a substantial number of programming projects. This course must be taken concurrently with COS 170. Offered each semester. Prerequisite: successful completion of the USM mathematics proficiency requirement. Cr 3.

COS 161 Algorithms in Programming

The development of algorithms and their implementations in a higher-level programming language, with emphasis on proper design principles and advanced programming concepts. Introduction to the performance analysis of algorithms. Course requirements include substantial programming projects. Offered each semester. Prerequisites: COS 160, and working knowledge of word processing and Web browsing. Cr 3.

COS 170 Structured Programming Laboratory

Computational experiments will be designed to teach students how to construct reliable software using Java. Topics to be covered include: Windows system, conditional program flow, iteration, procedures and functions, and symbolic debugging. Offered each semester. This course must be taken concurrently with COS 160. Cr 1.

COS 211 The C Programming Language

A first course in the C programming language. This course should provide students with fundamental skills of C programming. Small to medium size programming projects will be written. Prerequisite: A previous course in problem solving and programming (e.g., COS 160) or instructor's permission. Cr 3.

COS 212 The UNIX Operating System

Introduction to the UNIX system, system commands, standard editors, shells, and more. Prerequisite: Experience with some computer operating system. Cr 1.

COS 214 C++ for Programmers

Introduces the basics of C++ programming. Covers types, expressions, control structures, functions, and a brief introduction to classes and objects. This course will prepare students for further object-oriented courses. Prerequisite: a previous college-level course in problem solving and programming or instructor's permission. Cr 3.

COS 215 Introduction to C++ for C Programmers

The changes in the syntax and semantics of C that resulted in C++ are presented. C++ will be covered up to and including a brief introduction to classes and objects. This course will prepare students for further object-oriented courses. Prerequisite: a previous course in problem solving and programming in C (e.g., COS 211) or instructor's permission. Cr 1.

COS 230 Programming in COBOL

A study of the programming language used primarily in business. Prerequisite: COS 160 or analogous experience. Cr 3.

COS 241 Java Programming

Students will develop software using the Java programming language. Some work on connecting Java applets to Web pages using HTML will be included. Prerequisite: a previous course in problem solving and programming, or instructor's permission. Cr 3.

COS 246 Programming Topics

Topics to be covered may include programming languages not otherwise offered (e.g., Ada, Smalltalk), different programming methodologies (e.g., object-oriented programming), assembly languages, and other specific areas of programming. Prerequisite: COS 161 or permission of instructor. Cr 3.

COS 250 Computer Organization

The basic hardware, architecture, and software of computer systems are covered. Subjects include digital logic design, microprogramming, machine languages, assembly languages, and operating systems. Prerequisite: COS 161. This course must be taken concurrently with COS 255. Typically offered only in the spring semester. Cr 3.

COS 255 Computer Organization Laboratory

Students design, build, and test combinational and sequential logic circuits and write assembly language programs. Typically offered only in the spring semester. This course must be taken concurrently with COS 250. Cr 1.

COS 280 Discrete Mathematics II

Concepts of modern algebra, set theory, Boolean algebra, elements of graph theory, and their application to computer science. This course emphasizes a syntactic approach to proof discovery. Typically offered only in the fall semester. Prerequisites: MAT 145 and COS 160. Cr 3.

COS 285 Data Structures

Basic abstract data types and their representations, fundamental algorithms, and algorithm analysis. Consideration is given to applications. Specific topics include linked structures, trees, searching and sorting, priority queues, graphs, and hashing. Course requirements include a substantial programming component. Typically offered only in the fall semester. Prerequisites: COS 161 and either of MAT 145 or MAT 152, or their equivalents. Cr 3.

COS 350 Systems Programming

A study of systems programming concepts and software, including the C programming language and the Unix programming environment and operating system interface. Students develop their abilities in these areas through programming exercises and projects. Typically offered only in the spring semester. Prerequisites: COS 250, COS 285. Cr 3.

COS 360 Programming Languages

Students will acquire principles of programming languages and systems, such as (i) core notions (syntax, semantics, types, and implementation models), (ii) differing language paradigms (procedural, object-oriented, functional, logic), their design principles, and their implications for programming along with their mathematical foundations. These principles are studied as the basis for (i) applications in modeling and design of computer software, (ii) usage of modern techniques and tools associated with programming language. Typically offered only in the fall semester. Prerequisites: COS 250, COS 285. Cr 3.

COS 368 Graphical User Interface Design

Principles of graphical user interface design are utilized to build working interfaces. The programming language used may vary from offering to offering. Possible languages include Java and C++. Students will work in an object-oriented, event-driven environment. Typically offered once every two years Prerequisite: COS 285 or instructor's permission. Cr 3.

COS 374 Numerical Analysis

A study of the theory and application of computational algorithms for interpolation, equation solving, matrix methods, integration; error analysis. Typically offered once every two years Prerequisites: MAT 252, MAT 295, COS 160, and permission of instructor. Cr 3.

COS 398 Professional Ethics and Social Impact of Computing

A study of ethical perspectives and social responsibilities of computer professionals. Assigned readings provide the basis for class discussions of such issues as social control and privacy, computer viruses, ACM code of professional conduct, hacking, limits of correctness in computer software, military influence on computer science research and education. Prerequisite: junior or senior standing. Typically offered in spring semester only. Cr 3.

COS 399 Programming Autonomous Robots

Introduction to the programming concepts involved with autonomous robotic systems. Using off-the-shelf "robot kits" students will design a simple robotic platform to meet specific goals. Then, using a common platform for the remainder of the course, students will develop their programming capabilities. Simple open-ended, feedback, and artificial intelligence systems will be explored throughout the course. Several benchmarks and robot competitions will be used to demonstrate the platform and programming learned in the course. Typically offered once every two years Prerequisite: COS 285. Cr 3.

COS 400 Introduction to Simulation Modeling

Introduction to general principles of discrete event simulation modeling. Topics include design of simulation models, their implementation in a computer simulation language, and analysis of simulation data. Applications will emphasize computer and communication science. Requirements include a substantial programming component. Typically offered once every two years Prerequisites: COS 285 and MAT 380 or equivalent. Cr 3.

COS 420 Object-Oriented Design

This course will focus on the construction of object-oriented software. Students will learn conceptual models for organizing objects and object hierarchies, an object-oriented design notation, the application of design patterns, and the use of software development methodologies such as the Agile development process. The capabilities will be used to solve relatively complex problems in a group setting. Typically offered once every two years. Prerequisite: COS 285. Cr 3.

COS 430 Software Engineering

This course covers methods, techniques and tools for modern software development, including topics such as requirements analysis and specification, software design, object-oriented software construction, software verification, and software maintenance. The course relies mostly on object-oriented software technology and related tools. UML is the modeling tool used in this course extended with object-oriented assertion languages such as OCL. In addition to Java, the C# technology is

used as an implementation technology in order to expand the students' professional background and make use of the most recently developed industrial tools. Modern specification and verification tools such as JML (Java Modeling Language) and Spec# are used in this course. No prior knowledge of C# and its related tools is required. The course includes assignments involving analysis, design, specification, implementation and verification of object-oriented software. Typically offered once every two years. Prerequisites: COS 285 or COS 360 or permission of the instructor. Cr 3.

COS 441 Software Architecture

Successful design of complex software systems requires the ability to describe, evaluate and create systems at an architectural level of abstraction. This course introduces architectural design of complex software systems. The course considers commonly-used software system structures, techniques for designing and implementing these structures, models and formal notations for characterizing and reasoning about architectures, tools for generating specific instances of an architecture, and case studies of actual system architectures. It teaches the skills and background needed to evaluate the architectures of existing systems and to design new systems in principled ways using well-founded architectural paradigms. Prerequisite: COS 420 or COS 430. Cr 3.

COS 444 Software Project Management

The course covers project life cycle, including developing the charter, plans and justification, outsourcing and procurement decisions, scope management, time and cost estimation, quality control, personnel management, risk assessment, and the critical role of communication, both internal and external, to the project. Students will learn to lead and participate in significant software projects. Experts from industry will present case studies of success and failure. Typically offered once every two years. Prerequisite: COS 420 or COS 430. Cr 3.

COS 450 Operating Systems

Bottom up construction of a layered operating system beginning with the hardware interface and ending with the user interface. Specific topics covered include concurrent processes, process management, I/O, virtual memory, file management, resource scheduling, and performance measurement. Students are assumed to be familiar with general machine architecture, functions of system software (compilers, loaders, editors, etc.), data structures, and to have some experience with UNIX or another multiprogramming operating system. Typically offered once every two years. Prerequisites: COS 250, COS 350. Cr 3.

COS 452 Computer Graphics

A study of the techniques involved in computer graphics systems. Topics include: point-plotting and line drawing in two- and three-dimensional space; clipping and windowing; geometric modeling; algorithmic solutions to the hidden line and hidden surface problems. Typically offered once every two years. Prerequisite: COS 285. Cr 3.

COS 455 Computer Architecture

Fundamentals of the design and organization of digital computers. Topics include applications of Boolean algebra to logical design; machine algorithms used in addition, subtraction, multiplication, etc.; types of memory; synchronous and asynchronous operation; minimization of logic circuits. Also, concepts from microprocessors and large parallel computers. Typically offered once every two years Prerequisite: COS 250. Cr 3.

COS 457 Database Systems

Study of the methods and principles of database management systems (DBMS). Topics addressed include DBMS objectives and architecture, data models, data definition and data manipulation languages, and providing Internet access to databases. The entity-relationship and relational models are emphasized and their use required in a design project. Typically offered once every two years Prerequisites: COS 280, COS 285. Cr 3.

COS 460 Computer Networks

An introduction to computer networks. Computer network architecture is described. Other topics include digital data communication, local area networks, wide area networks, internetworks, and the Internet. Specific technologies, including Ethernet and ATM, and protocols, including TCP/IP, will be considered in detail. Typically offered once every two years Prerequisite: COS 285. Cr 3.

COS 465 Distributed Systems

An introduction to the design and operation of distributed systems. Topics include client-server models, interprocess communications, RPC, replication and consistency, online transaction processing, error and fault recovery, encryption and security. Examples will be taken from extant distributed systems. Prerequisites: COS 450 and COS 460, or their equivalents, or permission of the instructor. Cr 3.

COS 467 Performance Analysis of Distributed Systems

The objective of the course is to learn techniques that enable assessing the performance of applications running on distributed systems. This is an important topic because software developers should have a good understanding regarding the performance of the distributed applications they develop. This course presents techniques such that the performance of distributed applications can be evaluated. Topics to be covered include queueing theory, simulation, availability, and performability modeling. Other techniques used to assess the performance of distributed systems will be introduced as needed. Prerequisites: COS 450 or COS 460, and MAT 281 or MAT 380. Cr 3.

COS 469 Compiler Construction

Definition of languages via context-free grammars. Organization of a compiler into phases of lexical analysis, parsing, code generation, and optimization. Students will implement a compiler for a Pascal-like language. Typically offered once every two years Prerequisite: COS 360. Cr 3.

COS 470 Topics in Computer Science

Topics to be covered may include philosophy of computers, history of computers, computers and society, simulation, graphics, and other advanced topics. Typically offered once every two years Prerequisite: COS 285 or permission of the instructor. Cr 3.

COS 471 Advanced Database Systems

This course covers object-oriented and XML database technologies, their interfacing and integration. Object-oriented topics include developments from industrial standards such as ODMG and Java Data Objects, query languages such as OQL, Java database technology, object-relational systems, and language integrated queries such as LINQ. The XML technology is represented by schema languages such as XML Schema and query languages such as XQuery. Object-oriented interfaces to XML include DQM, LINQ to XML, LINQ to XSD, as well as other industrial developments. The course includes hands-on experience with advanced database management systems. The requirements include an object-oriented software and database development project, addressed by teams, and a term paper. Typically offered once every two years Prerequisite: permission of the instructor. Cr 3.

COS 472 Artificial Intelligence and Data Mining

An introduction to the underlying concepts and applications of intelligent systems. Topics include heuristic search techniques, pattern matching, rule-based systems, computer representations of knowledge, and machine learning and data mining techniques. Course work includes regular labs and larger projects. Students will learn to conduct research in artificial intelligence and will complete a modest research project. Typically offered once every two years. Prerequisite: COS 350 or permission of instructor. Cr 3.

COS 476 Advanced Object-Oriented Design

This course considers developing object-oriented, multi-tier, Web-based applications. Topics will include object-oriented design patterns in distributed environments, software components, and software frameworks. The course also has a significant hands-on implementation component, and after having completed this course, students will have practical experience with several leading distributed object technologies, including AJAX, Web Services, Enterprise JavaBeans, JDBC, and Servlets. The course is structured so that students will work in teams to develop a medium-sized, multi-tier application that incorporates several of the technologies mentioned above. Lectures will provide an introduction to the technologies and discuss principled ways to apply these technologies. Typically offered once every two years Prerequisite: COS 420 or permission of instructor. Cr 3.

COS 478 Advanced Java Technology

The goal of this course is to provide an in-depth study of the most important and the more advanced components of the Java technology. The course covers topics such as concurrent object-oriented programming in Java, Java Core Reflection, the underlying virtual platform (the Java Virtual Machine), genericity (parametric polymorphism), persistence, and assertions. Programming assignments include concurrent programming, programming with parametric collection types, dynamic loading and compilation, usage of the Java reflective capabilities, and usage of persistent capabilities available in Java and in its extensions. The outcome of this course is a high-level of professional expertise in the overall Java technology. Typically offered once every two years Prerequisite: COS 360. Cr 3.

COS 479 Object-Oriented Software Technology

This course combines formal and practical object-oriented software techniques in developing the following main themes of object-oriented software technology: (i) object-oriented software systems that provide efficiency and reliability based on an advanced type system and (ii) correctness and behavioral compatibility in software re-use based on object-oriented assertion languages and programming by contract methodology. Practical implications and usage of the general notions such genericity, self typing and reflection in complex software systems will be based on type systems of major object-oriented languages such as Java, C# and Eiffel. The assertion languages demonstrating the main themes in this course are JML (Java Modeling Language) and Spec# (an assertion language for C#). The programming assignments are based on a pragmatic methodology for object-oriented software construction (programming by contract) along with the associated tools including program verification techniques and systems. Typically offered once every two years Prerequisite: COS 360. Cr 3.

COS 480 Theory of Computation

Study of the theoretical foundations of computer science, including elements of set theory and logic, the specification of formal languages via finite automata, regular expressions, push-down automata, context free grammars, and Turing machines. Also introduces the concepts of recursive and recursively enumerable sets. Prerequisite: COS 280. Cr 3.

COS 485 Design of Computing Algorithms

An introduction to the design and analysis of algorithms. Techniques for designing algorithms, such as divide-and-conquer, greedy method, dynamic programming, and backtracking are emphasized and illustrated. Many problems of practical importance are covered including: minimum spanning tree, single source shortest path, traveling salesperson, and graph search. The concepts of NP-completeness are also considered. Substantial programming in a high-level language. Typically offered only in the spring semester. Prerequisite: COS 285. Cr 3.

COS 495 Advanced Web Architectures

The focus of communication over the Internet is shifting to computer-to-computer interaction. Standards for this interaction (ebXML, SOAP, WSFL) are now in place and maturing, and commercial use is exploding. We will survey these standards and evaluate their security, efficiency, and completeness. We will construct several case studies, including Web-based commerce. As a team, we will acquire and learn how to use available tooling, and we will put together working Web services and test their ability to interact with each other. Typically offered once every two years Prerequisites: COS 285 and junior standing. Cr 3.

COS 497 Independent Study in Computer Science

An opportunity for juniors and seniors who have demonstrated critical and analytical capability to pursue a project independently, charting a course and exploring an area of interest within their major field. At most, three credits of COS 497 can be used to satisfy requirement C, as noted under Programs and Requirements. Prerequisites: junior or senior standing and permission of the Department chair and instructor. Cr 1-3.

COS 498 Computer Science Internship

An opportunity for students to gain practical experience in computer science-related employment. The University internship program provides placement. This course is offered on a pass/fail basis only, does not fulfill any computer science requirement, and a maximum of 6 credits may be taken. Cr 3.

COS 499 Ethical Conduct and Social Responsibility

A study of ethical perspectives and social responsibilities of computer professionals. Assigned readings provide the basis for class discussions of such issues as social control and privacy, computer viruses, ACM code of professional conduct, hacking, limits of correctness in computer software, military influence on computer science research and education. Prerequisite: senior standing. Typically offered in spring semester only. Cr 1.

Department of Engineering

Chair of the Department: Jankowski

Professor: Guvench; *Associate Professors:* Jankowski, Lück, Smith; *Assistant Professor:* Ghorashi; *Adjunct Professors:* Kurkjian, Masi, Most.

Engineering is a challenging profession concerned with the design, development, fabrication, and control of physical devices and systems.

The mission of the Engineering Department is to provide a solid and complete engineering education built upon a foundation of mathematics, science, and liberal arts. Our undergraduate programs are broadly based, but there are opportunities to specialize. Computer usage is integrated throughout the curriculum. Internships and co-ops with our industrial partners are available to students at all levels.

The Department serves both traditional and nontraditional students who are diverse in academic background, age, and life experience. The Department also provides a technical resource to the community by linking the teaching, research, and public service capabilities of the Department with the needs of the industries, organizations, and institutions of southern Maine.

Graduates of the program are prepared to:

- function as engineers in technologically intensive firms;
- succeed in post-baccalaureate study;
- transfer their engineering skills to different environments; and
- contribute to society as broadly educated, articulate, and ethical professionals and citizens.

These objectives are complementary to and in addition to the general education objectives of the University.

Engineering programs include bachelor of science degree programs in electrical engineering and in mechanical engineering, a concentration in computer engineering, minors in electrical and mechanical engineering, and a transfer program that delivers the first year or more for several other engineering specialties.

The Engineering Department is committed to maximizing the student's potential to achieve his or her academic goals. Upon admission, the student is assigned an academic advisor from the engineering faculty and staff. The student is then expected to meet with the advisor every semester before registering for classes. Regular contact with an academic advisor provides assistance for course selection and satisfactory progress toward meeting academic goals, but the primary responsibility for satisfying program requirements rests with the student. Courses are scheduled and rotated to provide maximum access to the breadth of technical electives and to make it possible for a full-time student to graduate in four years. Students are encouraged to pursue double majors, minors, concentrations, additional courses and co-ops to increase access and opportunities for a diverse and productive engineering career.

Please visit our Web site at www.usm.maine.edu/engineering for additional and more recent information about the Department and its programs.

Admission Requirements

Preparation for an undergraduate engineering program should include a high school degree with 4 units of English, 2 units of social science, 1 unit of chemistry with lab, 1 unit of physics with lab, and 4 units of mathematics including algebra II and trigonometry. Incoming students who do not satisfy the admission requirements may enroll in remedial courses provided by the University. Transfer students require a transfer GPA of 2.25.

Programs and Requirements

General Requirements for Bachelor of Science in Engineering Degrees (both electrical and mechanical)

Mathematics

- MAT 152 Calculus A
- MAT 153 Calculus B
- MAT 252 Calculus C
- MAT 350 Differential Equations
- MAT 380 Probability and Statistics

Computer Science

- COS 160 Structured Problem Solving: Java
- COS 170 Structured Programming Laboratory

Basic Science

- CHY 113 Principles of Chemistry I
- CHY 114 Laboratory Techniques I
- PHY 121 General Physics I
- PHY 114 Introductory Physics Laboratory I
- PHY 123 General Physics II
- PHY 116 Introductory Physics Laboratory II

Engineering

Several engineering courses are common to both majors, referred to as part of the Engineering Core. Due to the subject nature of those courses, they are listed in the degree requirements of each major instead of under the general requirements.

Technical Electives

A technical elective is a course with 3 or more credits, at or above the 300 level, that is not a required course of the major. Five technical electives are required for all bachelor of science in engineering degrees, with at least 2 in the major, and at least 4 in engineering disciplines. EGN electives are general engineering courses that contain both electrical and mechanical elements; they are applicable to both majors. The fifth required technical elective may be chosen from physics, chemistry, mathematics, computer science, electrical engineering, mechanical engineering, general engineering

or other technical disciplines. Permission from the student's academic advisor is required for any course outside engineering to be counted as a technical elective.

For graduation, engineering majors must maintain an overall grade point average of 2.0 and a cumulative grade point average of 2.0 in engineering courses.

Permission from the student's academic advisor is required before taking any course outside USM to satisfy a requirement of the major.

University Core Curriculum requirements are outlined elsewhere in this catalog. Some requirements of the engineering degrees also satisfy Core Curriculum requirements.

I. Bachelor of Science in Electrical Engineering

The electrical engineering program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET).

Requirements for the degree, in addition to the general requirements described earlier, include the following:

Engineering Core

EYE 112	Built Environment: Energy
ELE 216	Circuits I: Steady-State Analysis
ELE 217	Circuits II: System Dynamics
EGN 260	Materials Science for Engineers
EGN 301	Junior Design Project and the Engineering Profession
EGN 304	Engineering Economics
ELE 323	Electromechanical Energy Conversion
EGN 402	Senior Design Project

Electrical Engineering

ELE 172	Digital Logic
ELE 243	Electronic Devices and Circuits
ELE 271	Microprocessor Systems
ELE 314	Linear Signals and Systems
ELE 346	Advanced Electronics
ELE 351	Electromagnetic Fields

Technical Electives

- 2 Electrical Engineering Electives (ELE or EGN)
- 2 Engineering Electives (ELE, EGN or MEE)
- 1 General Technical Elective (ELE, EGN, MEE or other as approved by the advisor)

Credits to graduate: 123

Computer Engineering Concentration

Students with a particular interest in the design and application of computer hardware and software systems may choose the computer engineering concentration. The requirements for the Bachelor of Science degree in electrical engineering with a concentration in computer engineering differ from the standard electrical engineering degree as follows: Students in the concentration are not required to take ELE 323 or ELE 351. Instead, they are required to take COS 161, COS 285 and COS 350. In addition, a computer science elective at or above the 300-level must be taken to satisfy the general technical elective requirement, as approved by the student's academic advisor.

For graduation, majors of electrical engineering with a concentration in computer engineering must maintain an overall grade point average of 2.0 and a cumulative grade point average of 2.0 in engineering and computer science courses.

Credits to graduate: 125

Minor in Electrical Engineering

A minor in electrical engineering may be obtained by successfully completing the following courses with a cumulative grade point average of 2.0: ELE 172, ELE 243, all of their prerequisites, and two additional electrical engineering courses, as approved by the student's engineering advisor.

II. Bachelor of Science in Mechanical Engineering

The mechanical engineering program officially began in the fall of 2006. Pursuant to ABET guidelines, accreditation will be pursued after the first graduating class.

Requirements for the degree, in addition to the general requirements described earlier, include the following:

Engineering Core

EYE 112	Built Environment: Energy
ELE 216	Circuits I: Steady-State Analysis
ELE 217	Circuits II: System Dynamics
EGN 260	Materials Science for Engineers
EGN 301	Junior Design Project and the Engineering Profession
EGN 304	Engineering Economics
ELE 323	Electromechanical Energy Conversion
EGN 402	Senior Design Project

Mechanical Engineering

MEE 154	Statics I and Strength of Materials
MEE 230	Thermodynamics I
MEE 254	Statics II and Dynamics
MEE 366	Fluid and Thermal Systems
MEE 372	Computer-Aided Design of Machine Elements
MEE 373	Dynamics of Machines and Mechanisms

Technical Electives

- 2 Mechanical Engineering Electives (MEE or EGN)
- 2 Engineering Electives (MEE, EGN or ELE)
- 1 General Technical Elective (MEE, EGN, ELE or other as approved by the advisor)

Credits to graduate: 123

Minor in Mechanical Engineering

A minor in mechanical engineering may be obtained by successfully completing the following courses with a cumulative grade point average of 2.0: MEE 230, MEE 254, all of their prerequisites, and two additional mechanical engineering courses, as approved by the student's engineering advisor.

III. Transfer Program for Other Engineering Disciplines

The engineering transfer program prepares students to begin engineering studies at USM and then complete engineering degrees at the University of Maine or elsewhere. All University of Southern Maine students in this program are eligible to transfer to any accredited engineering program in the country for the completion of the program.

Course Fees

Course fees to cover the cost of materials and supplies are assessed in some engineering courses. Consult the department for a current list of fees associated with each course.

EYE 112 Built Environment: Energy

Engineers use mathematics and apply scientific principles to design, create, modify, and control physical systems. They communicate effectively in both written and oral forms, and work in teams as well as alone. This course introduces students to the tools, tasks, and culture of engineering. Students use spreadsheets to solve problems and graph the results. Through class work, laboratory exercises, and independent research, students learn fundamental concepts of devices such as batteries and motors. The course culminates with a project in which student teams design, build, test, demonstrate, and document a device, utilizing the knowledge and skills acquired in the early part of the course. This course is not required for transfer students with more than 24 credits applied toward one of our engineering degree programs. Replaces EGN 100. Lecture 1 hr., Lab 3 hrs. (Fall, Spring.) Cr 3.

EGN 180 Programming with Mathematica

Introduction to programming with *Mathematica*. The *Mathematica* language, its rules, syntax and supported programming styles. Includes many practical examples and hands-on exercises. Prerequisite: Quantitative Reasoning or permission. Lecture 1 hr. Cr 1.

EGN 181 Computing with Mathematica

Introduction to computing with *Mathematica*. to help mathematics, science and engineering students solve typical computational problems encountered in their disciplines effectively and efficiently. *Mathematica* programming language and programming styles, symbolic and numerical computations, visualization and graphics. The course includes many practical examples and hands-on exercises. Prerequisite: Quantitative Reasoning or permission. Lecture 1 hr. Cr 1.

EGN 260 Materials Science for Engineers

Concepts and relationships between structure, composition, and thermal, optical, magnetic, electrical and mechanical properties of technologically important materials. Replaces EGN 362 and ELE 262. Prerequisites: PHY 123, MAT 153, CHY 113K. Lecture 3 hrs., Lab 1 hr. (Fall.) Cr 3.

EGN 301 Junior Design Project and the Engineering Profession

The fundamental mission of engineering is design. Students, working in teams, learn the fundamentals of developing a specific problem statement, flowcharting, researching, project management, and design actualization. Professional issues such as ethics, intellectual property, interview skills, and resume preparation are explored. The student is challenged to consider the work of the engineer in the broader context of societal, personal, and professional responsibility. Prerequisites: completion of two 4-credit engineering courses at the 300 level, and the Core Curriculum requirement of *Ethical Inquiry, Social Responsibility, and Citizenship*. Lecture 3 hrs. (Spring.) Cr 3.

EGN 304 Engineering Economics

Investment, cost, cash flow, the present value of a cash flow, rate of return of a project, cost-benefit study, breakeven analysis, evaluation of alternatives under budget constraint, sensitivity analysis of economic decisions with respect to changes in economic factors, expected value and economic decision-making under uncertainty, supply, demand and equilibrium in economics, Pareto efficiency, effects of taxes, subsidies and rationing on economics, computer-aided engineering economics using spreadsheets. This course is a requirement for engineering majors, and may also contribute to a *Thematic Cluster*. Prerequisite: Quantitative Reasoning or permission. Lecture 3 hrs. (Spring, 2-yr rotation.) Cr 3.

EGN 317 Introduction to Robotics

Kinematic modeling of serial manipulators. Trajectory, path and motion planning. Actuators and sensors, artificial intelligence, and programming of robotic devices. Examples of multiple platforms in the Robotics and Intelligence Systems Laboratory. Electrical or mechanical engineering elective. Prerequisites: ELE 217, COS 160. Lecture 3 hrs., Lab. 1 hr. Cr 3.

EGN 325 Control Systems

Laplace transform, transfer function, modeling control systems by block diagrams, transient and steady-state responses, control systems error analysis, root-locus and Routh's stability methods, analysis and design of control systems using root-locus analysis, operational amplifiers, frequency-response analysis using Bode and Nyquist diagrams, compensation and design of feedback control systems using lead-lag compensators and PID controllers. Includes experiments and computer simulations for analysis and design of control systems. Electrical or mechanical engineering elective. Prerequisite: ELE 217. Lecture 3 hrs., Lab 1 hr. Cr 3.

EGN 368 Advanced Engineering Materials

Properties of conductive, dielectric, polar, magnetic, and other technologically important materials with a view toward understanding their behavior and application in electronic devices. Measurement techniques and production technology will be considered. Part of the course will deal with reading and interpreting published articles in technical journals. Electrical or mechanical engineering elective. Prerequisite: EGN 260. Lecture 3 hrs. Cr 3.

EGN 394 Engineering Internship

Work experience in engineering. An opportunity for students to obtain credit for a project or study sequence completed while employed. The activity must have both components of design and analysis and be pre-approved by the instructor. May substitute for an electrical or mechanical engineering elective if accumulated 3 or more credits. Prerequisites: junior standing, permission. (Fall, Spring, Summer.) Cr 1-3.

EGN 402 Senior Design Project

Design and implementation of a device or system to perform an engineering function. May be done individually or in small groups, but the contribution is evaluated on an individual basis. Project outcomes include an oral presentation, a demonstration of the device or system, and a final report. Prerequisites: EGN 301 and project advisor permission. (Fall, Spring, Summer.) Cr 3.

EGN 403 Advanced Design Project

In-depth design and implementation of a device or system to perform an engineering function, or an engineering research project. May be done individually or in small groups, but the contribution is evaluated on an individual basis. Electrical or mechanical engineering elective. Prerequisites: EGN 402 with a grade of B or better, and project advisor permission. (Fall, Spring, Summer.) Cr 3.

EGN 417 Robot Modeling

Kinematics, statics, and dynamics of serial manipulators. Analysis and design of robotic structures. Examples of multiple platforms in the Robotics and Intelligence Systems Laboratory. Compliments EGN 418. Electrical or mechanical engineering elective. Prerequisites: ELE 217, COS 160. Lecture 3 hrs. Cr 3.

EGN 418 Robot Intelligence

Motion control, trajectory and path planning, actuators and sensors, artificial intelligence, and programming of robotic devices. Case study of multiple platforms in the Robotics and Intelligence Systems Laboratory. Compliments EGN 417. Electrical or mechanical engineering elective. Prerequisites: ELE 217, COS 160. Lecture 3 hrs., Lab. 1 hr. Cr 3.

EGN 446 Micro Electromechanical Systems

Topics include microfabrication, principles of electromechanical energy conversion and transduction, sensors and actuators, materials used for MEMS and their thermal, electrical, and mechanical properties. Standard MEMS fabrication processes and MEMS design. Electrical or mechanical engineering elective. Prerequisites: ELE 217 and EGN 260, or permission. Lecture 3 hrs, Lab. 1 hr. Cr 3.

EGN 497 Independent Study

An opportunity for the student to explore topics not covered in available courses or to pursue a topic of interest in-depth. By prearrangement with a faculty member. May substitute for an electrical or mechanical engineering elective if accumulated 3 or more credits. Prerequisite: permission. (Fall, Spring, Summer.) Cr 1-3.

EGN 498 Selected Topics in Engineering

Topics in engineering not regularly covered in other courses. Electrical or mechanical engineering elective. The content can be varied to suit current needs. The course may, with permission of the Department, be taken more than once. Consult the Department for current offerings and prerequisites. Cr 3.

ELE 172 Digital Logic

Introduction to the design of binary logic circuits. Combinatorial and sequential logic systems. Design with small and medium scale integrated circuits and programmable logic devices (PLDs). Registers, counters, and random access memories (RAMs). The algorithmic state machine (ASM). Lecture 3 hrs., Lab. 2 hrs. (Spring.) Cr 4.

ELE 216 Circuits I: Steady-State Analysis

An examination of fundamental circuit laws and theorems, network analysis, physical properties and modeling of resistors, inductors, and capacitors. Sinusoidal steady-state operation: phasors, impedance, and power. The course also covers the operation of meters, oscilloscopes, power supplies, and signal generators. Prerequisites: MAT 153, PHY 123. Lecture 3 hrs., Lab. 2 hrs. (Fall.) Cr 4.

ELE 217 Circuits II: System Dynamics

Frequency domain analysis, transfer functions, poles and zeros, frequency response, basic filtering, and resonance. Time-domain analysis of first- and second-order systems, based on electric circuits, but drawing analogy to mechanical, fluid, and thermal systems. Study and application of the Laplace transform for the solution of differential equations governing dynamic systems. Principles of control, feedback, and stability. Prerequisite: ELE 216. Lecture 3 hrs., Lab. 2 hrs. (Spring.) Cr 4.

ELE 243 Electronic Devices and Circuits

Operation, terminal characteristics and circuit models of p-n junction diodes, bipolar-junction and field-effect transistors. Nonlinear circuit analysis methods: piece-wise-linear, small-signal and SPICE. Biasing and bias stability. Rectifiers, clipper, clamper, Zener regulator circuits, and small signal BJT and FET amplifiers. Analysis, design, and SPICE simulation of such circuits. Replaces ELE 342. Prerequisite: EGN 260. Corequisite: ELE 217. Lecture 3 hrs., Lab. 2 hrs. (Spring.) Cr 4.

ELE 271 Microprocessor Systems

The organization of microprocessor-based computers and microcontrollers. Architecture and operation, flow of digital signals, timers, memory systems. Assembly programming, instruction sets, formats and addressing modes. Input-output concepts: programmed I/O, interrupts and serial communication. Microprocessor arithmetic. Laboratory experience programming an 8-bit microcontroller. Prerequisite: ELE 172. Lecture 3 hrs., Lab. 2 hrs. (Spring, 2-yr rotation.) Cr 4.

ELE 314 Linear Signals and Systems

Introduction to the theory of linear signals and systems. Linear time-invariant system properties and representations; differential and difference equations; convolution; Fourier analysis; Laplace and Z transforms. Selected topics in sampling, filter design, digital signal processing, and modulation. Prerequisite: ELE 217. Lecture 3 hrs., Lab 2 hrs. (Fall, 2-yr rotation.) Cr 4.

ELE 323 Electromechanical Energy Conversion

Basic concepts of magnetic circuits and transformers. Three-phase system and power transmission. Conversion between electrical and mechanical energy through magnetic fields. Study of direct current motors and generators. Study of alternating

current machines: induction motors, synchronous machines, and single-phase motors. Prerequisite: ELE 217. Lecture 3 hrs., Lab. 2 hrs. (Fall.) Cr 4.

ELE 327 Energy and Power Systems

Alternative energy sources for power generation. Polyphase systems, symmetrical components, power transformers, transmission lines, power flow, fault analysis, power system controls. Electrical engineering elective. Corequisite: ELE 323. Lecture 3 hrs., Lab. 1 hr. Cr 3.

ELE 346 Advanced Electronics

Analysis and design of electronic circuits with BJTs, FETs and OpAmps for applications in signal generation, amplification, waveshaping, and power control. Topics include differential, multi-stage, linear and power amplifiers; real operational amplifiers and OpAmp applications; design for frequency response, active filters; feedback, stability and oscillators. Simulation and design verification with SPICE. Replaces ELE 343. Prerequisites: ELE 217, ELE 243. Lecture 3 hrs., Lab. 2 hrs. (Fall, 2-yr rotation.) Cr 4.

ELE 351 Electromagnetic Fields

Static electric and magnetic fields; properties of dielectric and ferromagnetic materials; time varying fields, Faraday's law, Maxwell's equations; plane waves in dielectric and conducting media; calculation of the fields and other properties of common transmission lines and other devices. Prerequisites: MAT 252, ELE 217. Lecture 3 hrs. (Spring, 2-yr rotation.) Cr 3.

ELE 363 Solid State Electronic Devices

Theory of selected solid state electronic devices and their fabrication. The devices studied include advanced bipolar, CMOS, and optoelectronic devices. Device characterization, modeling and simulation. An occasional laboratory period may be substituted for equivalent class time. Electrical engineering elective. Prerequisite: ELE 243. Lecture 3 hrs., Lab. 1 hr. Cr 3.

ELE 364 Microelectronic Fabrication

Principles of the processes used in the fabrication of integrated circuits in bipolar and CMOS technologies. Photolithography, crystal and epitaxial growth, oxidation, diffusion and ion implantation, chemical and physical film deposition and etching. Process and component design. Experiments on wafer processing and characterization. Electrical engineering elective. Prerequisite: EGN 260. Lecture 3 hrs., Lab. 1 hr. Cr 3.

ELE 367 Optoelectronics

Properties and applications of optoelectronic devices and systems. Topics include radiation sources (LEDs and semiconductor lasers), photo detectors and detector circuits, solar cells, fiber optics, and electro-optical system components. Electrical engineering elective. Prerequisite: ELE 243. Lecture 3 hrs., Lab. 1 hr. Cr 3.

ELE 373 Digital System Architecture and Design

Algorithmic approaches to digital system design. Methods of design and testing of multi-input, multi-output logic systems including arithmetic units, logic controllers, and microprocessors. Logic design with PLDs, FPGAs, and VHDL. Electrical engineering elective. Prerequisite: ELE 172. Lecture 3 hrs., Lab. 1 hr. Cr 3.

ELE 412 Power Electronics

Introduction to power electronics and power semiconductor devices. Analysis, performance characterization, and design of power electronics converters such as: rectifiers, DC choppers, AC voltage controllers, and single-phase inverters. Operation of DC motor drives. Electrical engineering elective. Prerequisite: ELE 346. Lecture 3 hrs. Cr 3.

ELE 442 Digital VLSI Circuits and Design

Principles of internal circuit and layout design of digital VLSI circuits. CMOS technology is emphasized. Topics include NMOS and CMOS processes, device physics and SPICE models, logic circuits, electrical and physical design of logic gates, dynamic CMOS circuits, memory, chip layout principles, parasitics, and performance estimation. Simulation, layout, and electronic design automation tools are demonstrated and used. Electrical engineering elective. Prerequisites: ELE 172, ELE 346. Lecture 3 hrs., Lab. 1 hr. Cr 3.

ELE 444 Analog Integrated Circuits and Design

Principles of internal circuit operation and design of analog integrated circuits with emphasis on CMOS technology. Topics include analog CMOS processes, devices and device models, bias and reference sources, differential and high gain amplifiers, OTAs and operational amplifiers, power stages, frequency response, feedback, stability and internal compensation applied to the design of CMOS operational amplifiers and other CMOS analog integrated circuits. SPICE simulation, layout and electronic design automation tools are demonstrated and used in homework and design projects. Electrical engineering elective. Prerequisite: ELE 346. Lecture 3 hrs., Lab. 1 hr. Cr 3.

ELE 445 Special Topics in CMOS Integrated Circuit Design

Special topics such as high performance operational amplifiers, silicon integrated sensors and sensor interface circuits, switched capacitor circuits, oscillators and integrated waveform generators, phase-locked-loop circuits, memory, etc., are covered with emphasis on three chosen topics with instructor guided projects leading to chip level design of these circuits. SPICE simulation verifications, layout and electronic design automation tools are used extensively. Electrical engineering elective. Prerequisite: ELE 346. Lecture 3 hrs., Lab. 1 hr. Cr 3.

ELE 483 Communications Engineering

Basic principles of modern communication engineering. Analog and digital signals and systems; analysis methods. Modulation techniques: AM, FM, and carrier modulation of digital signals. Baseband signaling and coding. Noise in communication systems. Electrical engineering elective. Prerequisites: MAT 350, ELE 314. Lecture 3 hrs. Cr 3.

ELE 486 Digital Signal Processing

Basic principles of processing digital signals. Sampling and quantization. Time and frequency domain representation and analysis of discrete-time signals and systems. FIR and IIR systems. Digital filter design; review of classic analog filter design (Butterworth, Chebyshev). Quantization and finite-precision effects. DSP hardware. Computers will be used to design and realize various signal processors. Electrical engineering elective. Prerequisites: ELE 314, COS 160. Lecture 3 hrs. Cr 3.

ELE 489 Digital Image Processing

The theory and practice of digital processing of images by computer. Introduction to two-dimensional signal processing theory: sampling, transforms, and filters. Image acquisition and representation; enhancement methods; image coding; image analysis; and image processing hardware. Electrical engineering elective. Prerequisites: ELE 314, COS 160. Lecture 3 hrs. Lab. 1 hr. Cr 3.

ELE 498 Selected Topics in Electrical Engineering

Topics in electrical engineering not regularly covered in other courses. Electrical engineering elective. The content can be varied to suit current needs. The course may, with permission of the department, be taken more than once. Consult the Department for current offerings and prerequisites. Cr 3.

MEE 154 Statics I and Strength of Materials

Equilibrium of particles, equilibrium of rigid bodies, determination of center of gravity of objects, analyzing trusses and frames, moment of inertia, stress and strain in axial loading, Hooke's law, torsion of power transmission shafts, design of beams for bending, drawing shear force and bending moment diagrams, shearing stresses in beams under transverse loading, combined stresses, principal stresses, Mohr's circle for stress and strain transformation, deflection of beams under transverse loading. Includes experiments and computer simulations. Replaces MEE 150 and MEE 251. Prerequisites: MAT 152, PHY 121K. Lecture 3 hrs., Lab. 2 hrs. (Spring.) Cr 4.

MEE 230 Thermodynamics I

Energy and energy transformations, the First and Second Laws applied to systems and to control volumes, thermodynamic properties of systems, availability of energy. Prerequisites: MAT 153, PHY 121. Lecture 3 hrs. (Fall.) Cr 3.

MEE 254 Statics II and Dynamics

Kinematics of particles and system of particles, kinetics of particles and system of particles using Newton's second law and methods of energy and momentum, static and kinetic friction, wedges, rolling resistance, plane kinematics and kinetics of rigid bodies, application of virtual work in statics and dynamics. Includes experiments and computer simulations. Replaces MEE 270. Prerequisites: MEE 154, MAT 252. Lecture 3 hrs., Lab. 2 hrs. (Spring.) Cr 4.

MEE 352 Analysis and Design of Composite Structures

Advantages and limitations of composite materials, fibers and matrices, anisotropic, orthotropic and transversely isotropic materials, fabrication processes, elastic behavior and strength of a lamina along an arbitrary direction, sandwich beams, elastic behavior of multidirectional laminate, modes of failure and failure criteria of laminates, joining and assembly, composite materials in aerospace, automobile and naval applications, mechanical test methods, experimental determination of engineering constants of composites, fatigue, impact and environmental effects computer-aided analysis and design of composite structures. Mechanical engineering elective. Prerequisites: MEE 154, EGN 260. Lecture 3 hrs., Lab 1 hr. Cr 3.

MEE 361 Physical Metallurgy

Introduction to the current state of metallurgical technology. It builds on basic principles, particularly crystal structure and phase equilibria, to introduce students to contemporary metallurgical literature. Topics such as defect structures and the effect of heat treatment are introduced in a "just in time" fashion. Mechanical engineering elective. Prerequisite: EGN260. Lecture 3 hrs. Cr 3.

MEE 366 Fluid and Thermal Systems

The principles of fluid mechanics and thermodynamics are used to develop analytic models of mass, momentum, and energy balance in engineering systems. Topics include properties of materials, the Bernoulli equation, fluid statics, kinematics, free-surface flow, viscosity, drag coefficient, dimensional analysis, internal and external flow, and the principles of heat transfer. Replaces MEE 332, MEE 341 and MEE 360. Prerequisites: MEE 230, MEE 254, MAT 350, ELE 217. Lecture 3 hrs., Lab. 2 hrs. (Fall, 2-yr rotation.) Cr 4.

MEE 372 Computer-Aided Design of Machine Elements

Elements of mechanical engineering design, introduction to computer aided drafting, stress analysis, deflection and stiffness analysis, Castigliano's theorem, Euler buckling, static failure criteria, fatigue failure criteria, design of shafts, limits and fits, critical speed of shafts, detachable and permanent joints and springs. Design is performed by available formulas and standards as well as computer aided design by simulation software. Includes a student design project. Prerequisites: MEE 254, EGN 260. Lecture 3 hrs., Lab. 2 hrs. (Fall, 2-yr rotation.) Cr 4.

MEE 373 Dynamics of Machines and Mechanisms

Mobility and degrees of freedom in mechanisms, review of kinematics, instant centers, cam and follower design, gears, gear trains, interference and undercutting, synthesis of linkages, static and dynamic force analysis, measuring mass moment of inertia, free and forced vibrations, dynamics of reciprocating engines, static and dynamic balancing, Euler's equations of motions, rolling-contact bearings, journal bearings, flywheels, gyroscopes, governors, clutches and brakes. Design is performed by available formulas and standards as well as computer aided design by simulation software. Includes a student design project. Prerequisite: MEE 372. Lecture 3 hrs., Lab. 2 hrs. (Spring, 2-yr rotation.) Cr 4.

MEE 374 Theory and Applications of Vibrations

Free undamped and damped vibrations of one degree of freedom (DOF) systems, forced vibrations of one DOF systems with harmonic and non-harmonic excitations, resonance, free vibrations of multi DOF systems, mode shapes, forced vibrations of multi DOF systems and dynamic vibration absorber. Includes experiments and computer simulations. Mechanical engineering elective. Prerequisite: ELE 217. Lecture 3 hrs., Lab 1 hr. Cr 3.

MEE 432 Heat Transfer

The fundamental laws of heat transfer by conduction, convection, and radiation, applied to the study of engineering problems via analytical, numerical, and graphical techniques. Mechanical engineering elective. Prerequisite: MEE 366. Lecture 3 hrs. Cr 3.

MEE 435 Advanced Thermal Systems

Apply the principles of thermodynamics, fluid mechanics, and heat transfer to engineering systems. These systems include but are not limited to power generation, heating ventilating and air conditioning (HVAC), internal combustion engines, manufacturing processes. The concept of energy efficiency will be emphasized. Mechanical engineering elective. Prerequisites: MEE 366, MAT 350. Lecture 3 hrs. Cr 3.

MEE 498 Selected Topics in Mechanical Engineering

Topics in mechanical engineering not regularly covered in other courses. Mechanical engineering elective. The content can be varied to suit current needs. The course may, with permission of the department, be taken more than once. Consult the Department for current offerings and prerequisites. Cr 3.

Department of Environmental Science

Chair of the Department: Robert Sanford, 106 Bailey Hall, Gorham

Professors, Langley-Turnbaugh, Sanford; *Associate Professor:* Wagner; *Assistant Research Professor:* Wilson; *Lecturer:* Staples; *Adjunct Assistant Professor:* Martinez; *Adjunct Assistant Research Professor:* Willis

The Department of Environmental Science offers two degrees: a B.A. in environmental planning and policy and a B.S. in environmental science. Each prepares students for a variety of professional roles in the environmental fields, and encourages students to pursue graduate academic and professional degrees and professional certifications. Our graduates find employment in many environmental settings, including federal, state, and local government, environmental consulting and engineering, environmental education and teaching, private industry ranging from health care to semi-conductor manufacturing, applied research, environmental advocacy, and community planning.

All students in the Department of Environmental Science complete a core set of courses and laboratory training in a broad range of perspectives and skills including field methods, environmental science, ecology, chemistry, communication, environmental regulations, impact assessment, and research methods. Additionally, the program requires students to specialize in an area of choice. Students choosing the environmental science option will study topics such as forest, wetland and plant ecology, and soil and water quality. Students choosing the environmental planning and policy option will study topics such as policy analysis, environmental impact assessment, and risk assessment. Near the end of their programs, all students apply their knowledge in a professional setting with a required internship.

A core interdisciplinary faculty representing all these areas is on hand to work with and guide students who are encouraged to participate in research with Departmental faculty. Faculty stress problem-based service learning by examining and solving local environmental problems.

Our location in greater Portland provides opportunities to examine a broad range of environmental problems and issues in both rural (agricultural or forested) and urban (industrial and commercial) settings.

Programs and Requirements

Bachelor of Arts (Option 1: Environmental Planning and Policy), Bachelor of Science (Option 2: Environmental Science). The minimum number of credits required for the major is 86 (depending on which of the degrees is selected) plus the 34 credits required of the University's Core curriculum. Note that these Departmental major requirements include 13 credits of Core curriculum. In order to graduate with a minimum of 120 credits, the student must not require any remedial work and all electives (taken here or transferred) must fit into the student's program of study, which is approved for each student by the Departmental faculty. A student must achieve at least a 2.0 grade point average and must earn at least a C- in each course applied toward completion of the major.

Required courses for all majors

ESH 341	Environmental Regulations
ESP 101	Fundamentals of Environmental Science
ESP 102	Fundamentals of Environmental Science Lab
ESP 125	Introduction to Environmental Ecology
ESP 126	Introduction to Environmental Ecology Lab
ESP 150	Field Immersion
ESP 203	Environmental Communication
ESP 280	Research and Analytical Methods
ESP 401	Environmental Impact Assessment and Lab
ESP 400	Internship (between junior and senior year)
ESP 475	Senior Seminar

Choose one tools course

Suggested tools courses include: MAT 120, MAT 220, ESP/GEO 108, GEO 205, GEO 308

Majors must also complete one of the following two options:

Option 1: Environmental Planning and Policy

ESP 220	Introduction to Environmental Policy
ESP 305	Community Planning Workshop
ESP 375	Environmental Risk Assessment and Management
ESP 417	Site Planning and Assessment
ESP 421	Natural Resource Policy
CHY 1XX	Chemistry Lecture
CHY 1XX	Chemistry Lab
ECO 102	Introduction to Microeconomics

GEO 209 Land Use Planning

or

ESP 200 Environmental Planning

Electives:

Choose four environmental science classes 200-level or higher in accordance with approved program of study (one must be ECO/ESP 326 or ECO/ESP 327)

Option 2: Environmental Science

CHY 113	Principles of Chemistry I
CHY 114	Laboratory Techniques I
CHY 115	Principles of Chemistry II
CHY 116	Laboratory Techniques II
CHY 231	Analytical Chemistry
CHY 232	Analytical Chemistry Lab
MAT152	Calculus A
PHY 111	Elements of Physics I and
PHY 114	Introduction to Physics Lab
	or
BIO 105	Biological Principles I: Cellular Biology
BIO 106	Laboratory Biology
ESP 250	Soils and Land Use
ESP 360	Water Quality Assessment and Control
ESP 260	Soil and Water Conservation Engineering
	or
ESP 412	Field Ecosystem Ecology

Electives:

Choose four environmental science classes 200-level or higher in accordance with approved program of study.

Program of Study

Before registering for the first semester of the junior year, all environmental science students must complete and submit a written program of study. Transfer students must complete a program of study upon admission to the program. The program of study is submitted to the environmental science faculty for approval and is intended to encourage students to tailor their academic studies based on their chosen concentration and personal interests. The program of study should be completed with the assistance of the advisor.

The program of study is a one-page document. The first section briefly describes the student's experience in the Department, including their concentration. The second section describes the student's interests (e.g., water resources, environmental compliance, and natural resources management) and likely future goals (e.g., graduate school, law school, or professional employment). The third section describes the USM and Departmental courses (at least four of the courses must be environmental science courses at the 200 level or higher) that will support the student's current interests and future goals. A key component of this section is a brief description of a possible internship (job title and location), which is generally completed during the summer following the completion of the junior year. The final section is a timeline of the courses to be taken.

After approval, the program of study may be amended with the approval of the advisor. Any significant changes, such as course substitutions, may require Departmental approval.

Admission to the Program

Admission to the major is competitive, usually requiring grades equivalent to a B average or higher and completion of three high school laboratory science courses and advanced algebra. Transfer students and USM students wishing to change majors must meet the admission and coursework requirements for the major. The program committee may admit, on a conditional basis, students who do not meet the general admission requirements, subject to specific agreement with the student to complete a series of prerequisite science and math courses with a grade of C or better within a specified time period.

Certificate in Applied Energy

The Department of Environmental Science offers a certificate in Applied Energy designed for students and professionals in area industry, consulting, government, and non-governmental organizations. The certificate is designed to develop an individual's skills in applied energy through a combination of laboratory, field work, and advanced analysis in energy efficiency, production, and life cycle assessment.

Candidates must apply to the chairperson of the Department of Environmental Science.

The certificate is awarded after the successful completion of 18 credit hours of study of the following courses (a student must receive a C- or greater in each course):

ESP 108	GIS Applications
ESP 199	Rooftop Energy
ESP 275	Energy Use and Societal Adaptation
ESP 308	Global Environmental Problems and Sustainability
ESP 311/312	Energy Efficiency plus Laboratory
ESP 313/314	Renewable Energy Technologies plus Laboratory

Certificate in Environmental Policy Analysis

The Department of Environmental Science offers a certificate in environmental policy analysis, designed for students and professionals in area industry, consulting, government, and non-governmental organizations. The certificate is designed to develop an individual's skills in identifying environmental policy problems, formulating policy solutions, and evaluating policies.

Candidates must apply to the chairperson of the Department of Environmental Science, be assigned an advisor, and have their course of study approved by the Department chairperson.

The certificate is awarded after the successful completion of 21 credit hours of study. The requirements for the certificate are successful completion of the following courses:

ESP 203	Environmental Communication
ESP 220	Introduction to Environmental Policy
ESP 375	Environmental Risk Assessment and Management
ESH 341	Environmental Regulations
ESP 421	Natural Resource Policy

Students also must select two courses from the following:

ESP 275	Energy Use and Societal Adaptation
ESP 326	Environmental Economics
ESP 475	Topics in Environmental Science/Senior Seminar
ESP 212	Environmental Ethics
POS 365	Environmental Politics and Policy
POS 375	International Environmental Politics and Policy
POS 453	Politics of American Policy Making

Certificate in Environmental Education

This certificate is designed for teachers, scientists, public officials, consultants, field naturalists, environmental interpreters, and others having responsibility for educating or informing people about the environment. The certificate is awarded after the successful completion of 18 credit hours of study selected from the courses listed below. Candidates must apply to the chairperson of the Environmental Science Department, be assigned an advisor, and have their course of study approved by the Department chairperson. Up to 8 prior credits may be applied toward the certificate program.

Required:

ESP445/EPB545	Environmental Education and Interpretation
ESP 400	Internship (with an environmental education/interpretation host)

At least one of the following is required:

EPA 530	Science of Maine Forests
EPA 542	Environmental Science Concepts and Strategies for Middle School Teachers
EPB 525	Science Content for Elementary School Teachers
HRD 339	Adult Learning and Development

Choose from below to complete the credit requirements:

ESH 341	Environmental Regulations
ESP 101	Fundamentals of Environmental Science
ESP 102	Fundamentals of Environmental Science Laboratory
ESP 110	Introduction to Nature Tourism
ESP 125	Introduction to Environmental Ecology
ESP 126	Introduction to Environmental Ecology Laboratory
ESP 150	Environmental Science Field Immersion Session
ESP 203	Environmental Communication
ESP 250	Soils and Land Use
ESP 275	Energy Use and Societal Adaptation
ESP 280	Research and Analytical Methods
ESP 303	Wetlands Ecology
ESP 308	Global Environmental Problems and Sustainability
ESP 311/312	Energy Efficiency plus Laboratory
ESP 313/314	Renewable Energy Technologies plus Laboratory
ESP 341	Limnology
ESP 411	Methods of Field Analysis

ESP 413 Forest Ecology

Minor in Applied Energy

The Department of Environmental Science offers a minor in Applied Energy designed to develop a student's skills in applied energy through a combination of laboratory, field work, and advanced analysis in energy efficiency, production, assessment, and planning. A minor is awarded after the successful completion of 18 credit hours of study of the following courses (a student must receive a C- or greater in each course):

ESP 275 Energy Use and Societal Adaptation

ESP 308 Global Environmental Problems and Sustainability
or
ESP 421 Natural Resource Policy

ESP 326 Environmental Economics
or
ECO/ESP 327 Natural Resource Economics

ESP 311/312 Energy Efficiency plus Laboratory
ESP 313/314 Renewable Energy Technologies plus Laboratory

Minor in Environmental Science

Students who want to minor in environmental science and policy must complete 18 credits of environmental science courses with a grade of C- or higher. Students may transfer up to three (3) credits of comparable environmental science courses from other institutions. All students must complete ESP 101, 102, ESP 203, and collaborate with a Departmental faculty member to develop an individual course of study.

Minor in Environmental Sustainability

The Department of Environmental Science offers a 19-credit minor in environmental sustainability for students in any non-DES major. There is growing realization that the human population must strive to live in a sustainable relationship with Earth's finite resources. The goal of the minor is to provide broad, interdisciplinary training related to the problem of global environmental problems. Students in the environmental sustainability minor also examine the scientific, cultural, economic, and policy aspects of sustainability and are provided skills in how to recognize and overcome barriers to sustainability.

Required Courses

ESP101/ESP102 Fundamentals of Environmental Science and Lab
ESP 200 Environmental Planning
ESP 308 Global Environmental Problems and Sustainability

Interdisciplinary Course (select one)

CRM 225 Crimes Against the Environment
ESP/ECO 326 Environmental Economics
EYE 102 Sustainability, Culture, and the Environment
ESP/PHI 212 Environmental Ethics
POS 375 International Environmental Politics and Policies

Focused Study Courses

Select two 200-level (or above) ESP courses approved by your DES advisor (may include a research practicum, ESP 450)

All courses taken to satisfy the requirements for a minor in environmental sustainability must be completed with a grade of C- or better.

Minor in Nature Tourism

The 18-credit nature tourism minor is jointly offered by the Department of Recreation and Leisure Studies and the Department of Environmental Science. For details about the minor, course requirements, and course descriptions visit the catalog section for Department of Recreation and Leisure Studies.

ESH 331 Applied Toxicology

This course introduces students pursuing careers in environmental science, engineering, and safety to the basics of organic chemistry and the basics of toxicology. Organic chemistry emphasis includes prevalence, identification, and nomenclature. Toxicology concepts include dose-response, target organs, and biological mechanisms. Principles of toxicology will be introduced using organic chemical examples as possible. Emphasis is on how to use, understand, and interpret readily available public information in the toxicology literature. Prerequisites: ESP 101 /102, ITP 320 or ITS 320, CHY 113/114 or permission of instructor. Cr 3.

ESH 332 Industrial Hygiene

This course will cover the general concepts and principles of industrial hygiene with direct application to workplace environments. Direct topic coverage will include: common health hazards, air contaminants, biological hazards, an introduction to air quality, noise, respiratory control, ventilation, hygiene sampling equipment/techniques, OSHA, and related standards. Prerequisites: CHY 113 /114 or equivalent, and MAT 140. Cr 3.

ESH 341 Environmental Regulations

This online course is an intensive introduction to the federal and Maine environmental regulatory structure. This course is designed to provide basic competency in the knowledge and application in the environmental field. Topics include air, surface water, drinking water, worker protection, spill reporting, and hazardous and solid waste. Prerequisites: ESP 101/102 and ESP 203 or permission of instructor. Cr 3.

ESH 342 Safety and Risk Management

This course is about the risk management process for industrial and commercial safety. Students will learn how to analyze the exposures to accidental losses facing individuals and organizations; describe, analyze, and apply alternative risk management techniques; and apply practical analysis of loss management. This course contains a unit on Process Safety Hazard Analysis. This course is equivalent to the prior offerings of ITS 342 Loss Control Management, and is required of environmental science students choosing the environmental safety and health option. Business majors should inquire of their advisors if this course can fulfill specific degree requirements. Prerequisites: ESP 101/102, CHY 113/114, ITP 320 or ITS 320 or permission of the instructor. Cr 3.

ESH 350 Industrial Processes and Permitting

This class addresses issues of industrial waste control, including manufacturing processes and resultant air pollutants, water pollutants, and hazardous waste generation. Emphasis is on environmental permitting. Prerequisites: ESP 101/102, CHY 113/114 and ESH 341. Cr 3.

ESH 430 Environmental Practicum

The course places the senior-level student in the workplace for the purpose of completing his/her study of environmental principles. The opportunity to apply the materials covered in environmental policies, basic toxicology, industrial hygiene, and environmental air quality now can be put into practice. Students will be placed at various work site locations and will be assigned an environmental project within that site. To be included in the project are problem identification, hazard analysis, and problematic corrective actions. Each student practicum will be assigned a faculty advisor. Prerequisite: ESH/advisor permission. Cr 3.

ESP 101 Fundamentals of Environmental Science

This course is an examination of the science of environmental problems, processes, and solutions. Students will explore the interrelationships of the natural world, the environment, and impacts from humans. Specific topics will include land, air, and water pollution; biodiversity; global climate change; energy; public health; and sustainability. Prerequisites: successful completion of the University's writing and mathematics proficiency requirements. Corequisite: ESP 102. Cr 3.

ESP 102 Fundamentals of Environmental Science Laboratory

This laboratory course is designed to provide applied experience with some of the tools and techniques used in environmental science. Students will examine a variety of environmental issues using field kits, lab equipment, and computers. Prerequisites: successful completion of the University's writing and mathematics proficiency requirements. Corequisite: ESP 101. Cr 1.

ESP 108/GEO 108 Introduction to ArcGIS

An introduction to Geographic Information Systems (GIS), stressing the practical applications of popular graphical user interface (GUI) software packages such as ArcView. Topics covered include displaying, downloading, editing, analyzing, and printing public domain and user-created geographical data sets. The main emphasis of the course is on the acquisition of system operations skills. Cr 3.

ESP/FTY 111 Forest through Time

Basic concepts of science will be used to explain how forests have responded to natural and human influences over time. This foundation will be used to explore how a range of uses affect the future sustainability of forest systems and their ability to meet society's needs. This is a Web-based course. Cr 1.

ESP/FTY 112 Forest through Time: Discussions

Weekly discussions based on information presented in ESP/FTY 111 Forest through Time. (Course utilizes video conferencing). Prerequisite or co-requisite: ESP/FTY 111. Cr 2.

ESP 125 Introduction to Environmental Ecology

This Science Exploration course is an introduction to the study of the interactions between organisms and their environments. Students will study the basic principles of ecology and systems and study specific ecosystems including forests,

wildlife, freshwater, marine, urban, and humans. Prerequisites: successful completion of the University's writing and mathematics proficiency requirements. Prerequisites: ESP 101/102 or BIO 105/106. Corequisite: ESP 126. Cr 3.

ESP 126 Introduction to Environmental Ecology Laboratory

This Science Exploration laboratory course surveys the identification, measurement, and function of various ecosystems. A focus will be on the impact of human activity on ecosystems. Prerequisites: successful completion of the University's writing and mathematics proficiency requirements. Prerequisites: ESP 101/102 or BIO 105/106. Corequisite: ESP 125. Cr 1.

ESP 150 Environmental Science Field Immersion Session

This field immersion session is designed to teach basic natural science field skills and build community in a long weekend format. The course includes components on forest, soil, aquatic, wildlife, and urban systems. Basic orienteering and map reading, topographical surveying, global positioning system operation, aerial photo interpretation, and dichotomous key use are emphasized. This required course is intended for students between the first and second year of the environmental science major. Students must be present for the entire immersion session. Prerequisite: ESP major/minor or permission of instructor. Cr 3.

ESP 200 Environmental Planning

This course introduces the central concepts of environmental planning theory and practice, including components of rural, regional, and community planning. Concepts and issues studied include planning history and regulations, natural resources inventory, spatial patterns and analysis, zoning techniques, growth management, and planning research. The course meets the Ethical Inquiry core requirement and is a prerequisite for ESP 305 Community Planning Workshop. Prerequisite: ESP 101/102 or permission of instructor. Cr 3.

ESP 203 Environmental Communication

Students study environmental communication to understand the influence of socio-economic, political, and scientific factors on the social construction of environmental problems. Topics include basic communication theory and its application to the social definition of environmental problems and the perception and communication of risk, how communication is used to persuade/dissuade the public regarding environment problems, and how the environment is used to manipulate consumer behavior. Students also will explore the basics of social science research and its application to environmental communication. Prerequisites: College Writing, ESP 101/102, and sophomore standing. Cr 3.

ESP 207/GEY 207 Atmosphere: Science, Climate, and Change

Students will be introduced to the physical and chemical processes active in the earth's atmosphere. Specific topics include atmospheric circulation, atmospheric chemistry, climate patterns, storms, natural atmospheric change in recent geologic time, human-induced atmospheric change, and atmospheric pollution. Prerequisite: CHY 113. Cr 3.

ESP 212/PHI 212 Environmental Ethics

This course analyzes the relations between human beings and the environment in terms of the concepts of justice, the good, and human responsibilities. It attempts to provide a new cosmological model for adjudicating between conflicting rights and duties. Issues to be discussed include animal rights, environmental protection, and ecological harmony. Prerequisite: any PHI 100-level course. Cr 3.

ESP 220 Introduction to Environmental Policy

This course is an intensive introduction to the field of applied environmental policy within the framework of the national policy process. The course will focus on the policy process, including environmental problem identification, solution analysis, analysis and use of environmental policy tools, decision making, and policy implementation. Particular emphasis is given to air and water pollution and solid waste management. Prerequisites: ESP 203. Cr 3.

ESP 223/REC 223 Nature-based Tourism

This course covers the basics of nature tourism—a fast-growing, broad category that covers ecotourism and adventure tourism. An emphasis is placed on a variety of tourist activities and programs involving the outdoors in Maine and northern New England. This is a required course for a minor in nature tourism. Cr 3.

ESP 233 STEM Learning Community

This course is designed for students in science, technology, engineering, and mathematics (STEM) majors, or any undeclared student leaning toward one of these majors. The goal of the course is to provide ways to overcome various challenges students may be facing and to provide opportunities to learn more about the STEM majors and career fields. Students will design a personal action plan, review learning strategies and time management for STEM courses, and be connected with faculty and industry professionals. The community of learners' needs and expectations will design the content of the course each semester. Cr. 1-3.

ESP 250 Soils and Land Use

Study and description of soils as natural materials in the landscape. The course includes an examination of physical, chemical, and biological properties of soils as they affect soil-plant-water relations. Other topics include soil classification and suitability for agriculture, urban development, and contaminant remediation. Laboratory exercises include field examinations of soils and physical and chemical soil analyses. Prerequisites: ESP 101/102 and CHY 113/114 or permission of instructor. Cr 4.

ESP 260 Soil and Water Conservation Engineering

A study of the utilization, improvement, and protection of two essential resources—soil and water. Primary focus is on applying scientific and engineering principles to the problem areas of soil erosion and flood control. Students will design practical solutions to remediate these problems. Prerequisite: math proficiency. Cr 3.

ESP 275 Energy Use and Societal Adaptation

This course focuses on the topic of energy, its utility, its use, and its impact on society and the environment. Subjects to be explored include: 1) traditional, modern and future energy resources; 2) energy consumption; 3) energy technologies; 4) energy and the environment and 5) sustainable development. The class will consist of a combination of lectures and seminars using a variety of media, including textbooks, technical articles, print, and video. Prerequisites: ESP 101/102. Cr 3.

ESP 280 Research and Analytical Methods

A focus on analytical and research techniques for environmental science and policy. The course is centered on the use of instrumentation and investigative research to address a thematic environmental issue. Topics include defining research problems, experiment design, measurement, sampling, and analysis. Students will complete group research projects. Prerequisites: ESP 203 and CHY 113/114. Cr 4.

ESP 303 Wetlands Ecology

This lecture course examines wetlands from the perspectives of science and policy. Topics will include basic wetlands ecology and biology, wetland definitions, classification, and regional and national trends in habitat destruction and management. Prerequisites: ESP 101/ 102, CHY 113/ 114 or permission of instructor. Cr 3.

ESP 305 Community Planning Workshop

This online course provides a practical approach to local community planning problems. Students will conduct field work to explore community decision-making processes regarding the use of natural, social and economic resources. Basic planning concepts are refined and applied to real-world problems in a collaborative manner. Prerequisites: ESP 101, ESP 102, and GEO 209 or ESP 200, or permission of instructor. Cr 3.

ESP 308 Global Environmental Problems and Sustainability

This course is a thorough examination of global environmental problems and the need for the principles of sustainability to solve these problems. Topics will include frameworks, tools, and applications of sustainability including life cycle assessment, zero waste, industrial ecology, pollution prevention, natural step, and community-based social marketing. Prerequisites: ESP 101/102 ESP 203, or permission of instructor. Cr 3.

ESP 311 Energy Efficiency

This course provides students with an understanding of how to identify opportunities for energy saving at the residential building level. The course will be modeled after the findings of a typical home energy audit, with an emphasis on weatherization, indoor air quality, and utility use. Pre-requisite ESP 101/ESP 102, or permission of instructor; Co-requisite: ESP 312. Cr. 3

ESP 312 Energy Efficiency Laboratory

This laboratory course will expose students to tools and techniques used by energy professionals and provide students with hands-on experience and practical skills to conduct energy efficiency investigations. Specifically, students will conduct realistic experiments in thermal imaging, particulate sampling, electricity consumption auditing. Students will be expected to analyze data, draw conclusions, and make relevant recommendations. Co-requisite: ESP 311 Cr. 1

ESP 313 Renewable Energy Technologies

This course will equip students with a general knowledge of renewable energy systems (including solar, wind, geothermal, and biomass), their underlying physical and technological principles, their environmental impact, their economics, and how they can be integrated into current energy infrastructures. Prerequisites: CHY 113/114, ESP 101/102 or permission of instructor. Cr 3.

ESP 314 Renewable Energy Technologies Laboratory

This laboratory course will provide students with hands-on experience working with various renewable energy technologies, including solar PV cells, wind turbines, biofuels, hydro turbines, and geothermal heating systems. Students will be expected to work in teams to analyze data and evaluate technologies under different conditions. Co-requisite: ESP 313. Cr. 1.

ESP 326/ECO 326 Environmental Economics

This course considers the economic aspects of resource and environmental issues, such as pollution, the use and management of natural resources, environmental justice, and global climate change. In addressing each of these issues we will investigate the implications of various public policy responses such as regulation, marketable permits, and tax incentives. Prerequisite: ECO 102 or permission of instructor. Cr 3.

ESP 327/ECO 327 Natural Resource Economics

In this course, we will consider the economic aspects of natural resource management and use, including the economically sustainable management of fisheries, forests, water resources, and biodiversity, with applications to Maine and beyond. We will investigate the implications of public policy responses such as regulations, marketable permits, and tax incentives. Prerequisite: ECO 102 or instructor permission. Cr 3.

ESP 341 Limnology

The study of inland waters with emphasis on the identification and ecology of aquatic organisms. This course meets on Fridays to allow time for extended field trips to local streams and lakes. Students will conduct independent research projects as part of the course. Prerequisites: BIO 105/106 or ESP 101K/ 102K or ESP 125K/ 126K, and CHY 113/114, or permission of instructor. Cr 5.

ESP 360 Water Quality Assessment and Control

A study of water-related legislation, methods for determining compliance with statutes, and control methods used for water quality attainment. Regional topics addressed include: waste-water treatment, drinking water standards, storm water runoff, lake eutrophication, best management practices, and biomonitoring for water quality assessment. Three hours of lecture and three hours of lab per week. Prerequisites: BIO 105/106 and CHY 113/114 or permission of instructor. Cr 4.

ESP 375 Environmental Risk Assessment and Management

The focus of this course is to provide students with a competency in quantitative human health risk assessment—an organized, multidisciplinary approach to evaluating scientific data by studying basic toxicology and fate and transport of contaminants using generally accepted principles and terminology used in the field. Students will examine the limitations of current risk assessment methods and be introduced to the basics of public and community health. Finally, students will study the scientific, political, social, ethical, and economic dimensions of managing risks. Prerequisites: ESP 101/102, ESP 203, or permission of instructor. Cr 3.

ESP 400 Internship

The internship provides professional experience related to a student's chosen option within the major. The emphasis is on understanding the host organization's structure and function within the environmental area. In addition to satisfactory work experience, an oral presentation and written report are required. Offered as pass/fail only. Intended to be taken between the junior and senior year. Prerequisites: sophomore standing or higher, faculty approval of host organization, work plan, and completed "Internship Approval" Form. Cr 3.

ESP 401 Environmental Impact Assessment and Lab

An overview of methods used to analyze the environmental impact of human decisions. The course will emphasize U.S. requirements for impact assessment as outlined in NEPA. Federal documents (DEIS, EIA, EIS, FONSI, and ROD) filed for past and on-going projects are reviewed. A laboratory session is taken concurrently and is writing-intensive. Focus is on the application of assessment procedures to a thematic environmental issue. This is a capstone course. Prerequisite: ESP 280 or permission of instructor. Cr 4.

ESP 403 Bioremediation and Phytoremediation

A study of the interaction of soils and groundwater with organic and synthetic contaminants, and the role of soils in pollution control. Students investigate the physical, chemical, and microbiological properties of soil and water and compare conventional remediation with bioremediation techniques. Special emphasis is placed on regional pollution problems including agricultural runoff, landfill leachates, and leaking underground storage tanks. Prerequisites: ESP 101/ 102, CHY 113/114, and ESP 250, or permission of instructor. Cr 3.

ESP 406/POS 406 Research in the European Union

Advanced course on the political, environmental, economic, and cultural aspects of the European Union, offered exclusively for students who enroll in the summer abroad program, "The European Union in Brussels." Participants will travel to Brussels and The Hague for presentations at the EU institutions, NATO, and the International Criminal Court. Prerequisite: recommended, but not required, POS 205, or any other course with an international content. Cr 3.

ESP 411 Methods of Field Analysis

This lecture/lab/field course investigates ecological issues using descriptive field techniques, hypothesis testing, computer analysis and journal article interpretation. This course is writing-intensive. Prerequisite: MAT 120 or ESP 290. Cr 4.

ESP 412 Field Ecosystem Ecology

This course provides a fundamental understanding of ecosystem ecology, with an emphasis on forested and aquatic ecosystems and impacts of the physical and chemical environment on ecosystem functioning. The course is writing intensive and includes hypothesis generation, field research, computer analysis, and journal article interpretation and writing. The laboratory is field intensive and includes local field trips, team research exercises, and independent field research projects. Prerequisites: MAT 120 and ESP 125/126, or permission of instructor. Cr 5.

ESP 413 Forest Ecology

This course provides students with an understanding of what constitutes a healthy forest ecosystem and a sustainable forest environment. Special emphasis is placed on the function, spatial variability, evolution of forest ecosystems, and the need for forest ecology as the foundation of forest management. The laboratory session is field intensive. Prerequisites: ESP 125/126 or permission of instructor. Cr 4.

ESP 417 Site Planning and Assessment

An introduction to environmental planning and assessment concepts and skills associated with the development of sites for human use. Emphasis is given to the development of particular tracts or parcels of land in Maine. Prerequisites: ESP/GEO 108 or GEO 308 and GEO 209 or ESP 200, or permission of instructor. Cr 3.

ESP 421W Natural Resource Policy

This course focuses on the formulation, analysis, and implementation of natural resource based policies through the framework of the rational policy process. Subject areas will include alternative energy, commercial fisheries, river restoration,

wildlife, and recreation. Special focus will be on open access conflicts and stakeholder resolutions.
Prerequisite: ESP 220. Cr 3.

ESP 445 Environmental Education and Interpretation

Students explore the basics of classroom and non-formal environmental science education and interpretation using an inquiry-based approach. Topics include teaching ecosystem and environmental science principles, selecting and designing environmental curricula, and applying the Maine Learning Results to environmental education. Prerequisite: 12 credits of science or permission of instructor. Cr 3.

ESP 450 Research Practicum

Organized research experiences in ongoing faculty research projects or a mutually arranged special topic involving substantial skills development. Research will be conducted under the direct supervision of the faculty member. Permission of instructor required in semester prior to registration. May be repeated for a maximum of 6 credits. Cr 1-3.

ESP 475 Topics in Environmental Science/Senior Seminar

Topics in environmental science not regularly covered in other courses. The content will vary based on current local and regional environmental issues. The course also includes resume and cover letter writing and practice of interview skills. The course may, with permission of the Department, be taken more than once. Prerequisite: ESP 401W or permission of instructor. Cr 3.

Exercise, Health, and Sport Sciences

Chair of the Department: Janet Whatley Blum
Faculty in Exercise, Health, and Sport Sciences

Professor: Croteau; *Associate Professors:* Blum, Scott, Toy; *Assistant Professor:* Schilling; *Lecturer:* Towne

The Department of Exercise, Health, and Sport Sciences offers degrees in athletic training, exercise science (majoring in health fitness or exercise physiology), and health sciences. The Department's athletic training education program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). The Department's health fitness major within the exercise science program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). Upon completion of the curriculum, the undergraduate athletic training student will be eligible to challenge the Board of Certification (BOC) examination for the athletic trainer. Upon completion of their respective curricula, health fitness and exercise physiology majors will be eligible to challenge an eclectic mix of national certification examinations including the American College of Sports Medicine's (ACSM) Health Fitness Specialist and Clinical Exercise Specialist® certification examinations and the National Strength and Conditioning Association's Certified Strength and Conditioning Specialist® examination. Health sciences graduates are prepared for careers in general health science fields and for admission to graduate and professional programs.

Admission and Program Requirements

In addition to the requirements established for admission to the University, the Department of Exercise, Health, and Sport Sciences requires applicants to have successfully completed high school chemistry and biology with labs. See the admission section of the catalog for further requirements. Students cannot double major within department offerings.

Experiential Learning Requirements

All department majors require supervised clinical, practicum, and/or internship experiences. Thus, the exercise, health, and sport sciences faculty reserve the right to limit enrollment in these programs. In addition, because these experiences occur in a variety of settings in the southern Maine area, students must provide their own transportation to rural as well as urban areas. It is highly recommended that students purchase professional liability insurance.

Change of Major

Students enrolled in other USM programs of study must meet with the Department chairperson to discuss change of major requirements and their reasons for desiring to major in one of the department's offerings. Such students will be required to complete SPM 100 with a grade of C- or better. Acceptance into the Department is dependent on the reasons why a student desires to change their major, cumulative GPA, and space availability.

Course Fees

Each exercise, health, and sport sciences laboratory and clinical course offering has a fee ranging from \$20 to \$150.

Probation and Progression

A minimum grade of C- must be obtained for all required courses. Students receiving a grade lower than C- in a required course will not be allowed to sequence into post-requisite coursework until the prerequisite deficiency has been rectified.

Regardless of degree, probation within the Department of Exercise, Health, and Sport Sciences lasts for a period of one calendar year. Students will be placed on academic probation for failure to maintain a minimum cumulative GPA of 2.25 for health fitness majors or failure to maintain a minimum cumulative GPA of 2.50 for athletic training, exercise physiology, and health science majors. Students enrolled in a Department of Exercise, Health, and Sport Sciences major may be placed on academic probation twice during the student's academic career. Subsequent to a third infraction and/or failing to rectify the GPA deficiency within any given one-year probation period, students will be removed from their declared major and from their status as a student within the Department. Upon rectifying the GPA deficiency students can reapply for admission into a Departmental major. Readmitted students who become academically deficient will immediately, and permanently, relinquish their status as a student within the Department.

Note: A student who admits to or is found guilty of a violation of academic integrity (see USM Student Academic Integrity policy), the ACSM's or NATA's Code of Ethics may be suspended or dismissed from the Department and/or the University.

Bachelor of Science in Exercise Science—Health Fitness Major

Retention and Progression Requirements

Students will be retained within the health fitness major providing the following criteria are maintained throughout their undergraduate experience:

1. Meet the published “technical standards” for the health fitness major. Technical standards will be addressed and completed during SPM 260.
2. Maintain a minimum cumulative GPA of 2.25.
3. Present proof of current American Red Cross Cardiopulmonary Resuscitation (CPR) for the Professional Rescuer certification, or its equivalent, prior to enrolling in the following courses: SPM 385, SPM 395, SPM 495.
4. Present proof of health insurance coverage equal to the USM Student Health Insurance Plan (basic) prior to enrolling in the following courses: SPM 385. Documentation should include a copy of current health insurance card with the name of an insurance carrier, policy number, etc.
5. Documentation of receiving the first two of three required Hepatitis B immunization injections prior to enrolling in SPM 385. Documentation should include copies of the laboratory reports that the student received the injections. If the student chooses not to be Hepatitis B immunized, he or she must read, complete, and sign the form entitled “Hepatitis B Vaccine Declination Assumption of Risk and Release” prior to enrolling in SPM 385.
6. Documented proof of receiving the third injection of the Hepatitis B Immunization series prior to enrolling in SPM 495. Formal documentation indicating the aforementioned CPR, health insurance, and Hepatitis B immunization requirements have been met must be on file with the Department of Exercise, Health, and Sport Sciences.

Students will graduate with a bachelor of science degree in exercise science with a major in health fitness when the following are satisfied:

1. Minimum cumulative GPA of 2.25.
2. Completion of all University Core curriculum requirements.
3. Completion of all exercise, health, and sport sciences core required coursework.
4. Completion of all health fitness major coursework.
5. Completion of 120 credit hours.

Major Requirements

The major consists of 120 credit hours, which includes the University’s Core curriculum.

<i>University Core Courses</i>	<i>Credits (43-46)</i>
*EYE Experience	3
College Writing	3 or 4
Quantitative Reasoning (MAT 120 or PSY 105)	3 or 4
Science Exploration (PHY 101/102 or PHY 111/114)	4 or 5

#RMI 220	Introduction to Risk Management and Insurance	3

Other courses per advisor permission.

* Along with required Department courses (CON 219, CON 252), students who successfully complete CON 280, CON 281 and any other 2 * courses satisfy requirements for the holistic and integrative health minor (HIH). Consult with the coordinator of the HIH minor in the School of Nursing to declare the HIH minor.

#Along with required health fitness courses (BUS 200), students who successfully complete any 6 # courses satisfy requirements for the minor in business administration offered through the School of Business Consult with the School of Business to declare a business minor.

Bachelor of Science in Exercise Science—Exercise Physiology Major

Retention and Progression Requirements

Students will be retained within the exercise physiology major providing the following criteria are maintained throughout their undergraduate experience:

1. Meet the published “technical standards” for the exercise physiology major. Technical standards will be addressed and completed during SPM 235.
2. Maintain a minimum cumulative GPA of 2.50
3. Earn a minimum grade of C- in required courses
4. Present proof of current American Red Cross Cardiopulmonary Resuscitation (CPR) for the Professional Rescuer Certification, or its equivalent, prior to enrolling in the following courses: SPM 385 or SPM 395.
5. Present proof of health insurance coverage equal to or better than the USM Student Health Insurance Plan (basic) prior to enrolling in the following courses: SPM 385 or SPM 395. Documentation should include a copy of a current health insurance card with the name of an insurance carrier, policy number, etc.
6. Documentation of receiving the first two of three required Hepatitis B immunization injections prior to enrolling in SPM 385 or SPM 395. Documentation should include copies of the laboratory reports that the student received the injections. If the student chooses not to be Hepatitis B immunized, he or she must read, complete, and sign the form entitled “Hepatitis B Vaccine Declination Assumption of Risk and Release” prior to enrolling in SPM 385 or 395.
7. Documented proof of receiving the third injection of the Hepatitis B Immunization series prior to enrolling in SPM 495. Formal documentation indicating the aforementioned CPR, health insurance, and Hepatitis B immunization requirements have been met must be on file with the Department of Exercise, Health, and Sport Sciences.

Graduation Requirements

Students will graduate with a bachelor of science degree in exercise science with a major in exercise physiology when the following are satisfied:

1. Minimum cumulative GPA of 2.50
2. Completion of all University Core curriculum requirements
3. Completion of all exercise, health, and sport sciences core required coursework
4. Completion of all exercise physiology major coursework
5. Completion of 120 credits

Major Requirements

The major consists of 120 credit hours, which includes the University’s Core curriculum.

<i>University Core Courses</i>	<i>Credits (43-46)</i>
EYE Experience	3

Biology Minor:

Along with completing BIO 111, 112, 211, 212 (as part of the Exercise, Health and Sport Sciences core), students who complete an additional 9 credits by taking courses denoted by an "*" satisfy the requirement for a minor in Biology. A grade of C- or higher is required for all courses in the minor. Consult with the Department of Biology to declare a Biology minor.

Bachelor of Science in Athletic Training

Athletic training accreditation guidelines dictate that only a limited number of students can matriculate into the athletic training education program (ATEP) at any one time. Please see the curriculum director of the CAATE accredited athletic training education program for additional information.

Special note to transfer students: All transfer students are encouraged to schedule an appointment with the ATEP director to discuss admission criteria and other pertinent information concerning the program as it is not possible to give complete and accurate information about your specific situation on a Web site or in a catalog. Speaking with the ATEP director is the only way to be correctly advised about transferring.

Once accepted into the ATEP (please see *Admission and Program Requirements* for the Department of Exercise, Health and Sport Sciences), students must meet the following to graduate, and to progress through, the clinical and didactic portions of the program.

Clinical Education Progression Requirements

Prior to SPM 210, Clinical Athletic Training Principles I, a student must:

1. Complete the pre-requisite coursework as outlined in the course description of the catalog.
2. Meet the published "technical standards" for the athletic training education program.
3. Present documentation of receiving the first two of three required Hepatitis B immunization injections. Documentation should include copies of the laboratory reports that the student received the injections. If the student chooses not to be Hepatitis B immunized, he or she must read, complete, and sign the form entitled "Hepatitis B Vaccine Declination Assumption of Risk and Release".
4. Present a current (within one year) health history and physical examination performed by a health care worker approved to perform such services (e.g., licensed physician, nurse practitioner). Documentation should include written verification that the student passed a physical examination.
5. Present proof of health insurance coverage equal to or better than the USM Student Health Insurance Plan (basic). Documentation should include a copy of a current health insurance card with the name of an insurance carrier, policy number, etc.

Prior to enrolling in SPM 270, Athletic Training Clinic I, a student must:

1. Complete the pre-requisite coursework as outlined in the course description section of the catalog.
2. Present proof of current American Red Cross Cardiopulmonary Resuscitation (CPR) for the Professional Rescuer certification, or its equivalent
3. Prior to enrolling in SPM 370, Athletic Training Clinic II, a student must:
4. Complete the pre-requisite coursework as outlined in the course description section of the catalog.
5. Present proof of current American Red Cross Cardiopulmonary Resuscitation (CPR) for the Professional Rescuer certification, or its equivalent
6. Present documentation of receiving the third injection of the Hepatitis B Immunization series.

Prior to enrolling in subsequent clinical (SPM 371, 420, 470), and internship (SPM 495) courses, a student must:

1. Complete the pre-requisite coursework for each course as outlined in the course description section of the catalog.
2. Present proof of current American Red Cross Cardiopulmonary Resuscitation (CPR) for the Professional Rescuer certification, or its equivalent.

Didactic Education Progression Requirements

While enrolled in the ATEP, students must:

1. Maintain a minimum cumulative GPA of 2.50. Students failing to maintain this minimum GPA will be placed on probation (please see *Admission and Program Requirements* for the Department of Exercise, Health and Sport Sciences)
2. Obtain a minimum grade of C- for all required courses. Students receiving a grade lower than C- in a required course will not be allowed to sequence into post-requisite coursework until the prerequisite deficiency has been rectified.

Graduation Requirements

Students will graduate with a bachelor of science degree in athletic training when the following are satisfied.

1. Minimum cumulative GPA of 2.50
2. Completion of all University Core curriculum requirements
3. Completion of all exercise, health, and sport sciences core required coursework with a minimum grade of C-
4. Completion of all athletic training major coursework with a minimum grade of C-
5. Completion of 120 credits

Degree Requirements

The bachelor of science in athletic training consists of 120 credit hours, which includes the University's Core curriculum.

Biology Minor

Along with completing BIO 111, 112, 211, 212 (as part of the Exercise, Health and Sport Sciences core), students who complete an additional 9 credits by taking courses denoted by an "*" satisfy the requirement for a minor in Biology. A grade of C- or higher is required for all courses in the minor. Consult with the Department of Biology to declare a Biology minor.

Bachelor of Science in Health Sciences

The bachelor of science in health sciences curriculum reflects the different educational goals and breadth of needs of the students enrolled in the program. The bachelor of science in health sciences can also be a baccalaureate completion program for associate's degree allied health graduates. As health care shifts to outpatient and community settings, and more health promotion and health education, these graduates with their expanded professional role capability will be able to provide more effective care to the community. The curriculum includes completion of the USM Core curriculum requirements, the health sciences core requirements, and one track of study: wellness, pre-professional, health care administration, or the occupational therapy "jumpstart" program.

Retention and Progression Policies

While enrolled in the Health Sciences program, students must:

1. Maintain a minimum cumulative GPA of 2.50. Students failing to maintain this minimum GPA will be placed on probation (please see *Admission and Program Requirements* for the Department of Exercise, Health and Sport Sciences)
2. Obtain a minimum grade of C- for all required courses. Students receiving a grade lower than C- in a required course will not be allowed to sequence into post-requisite coursework until the prerequisite deficiency has been rectified.

Graduation Requirements

Students will graduate with a bachelor of science degree in health sciences when the following are satisfied:

1. Maintain a minimum cumulative GPA of 2.50.
2. Completion of all University Core curriculum requirements.
3. Completion of all health sciences core required coursework with a minimum grade of C-.
4. Completion of coursework within one track of study with a minimum grade of C-.
5. Completion of 120 credit hours.

Degree Requirements

The bachelors of science in health sciences consists of 120 credit hours, which includes the University's Core curriculum.

<i>University Core Courses</i>		<i>Credits (43-46)</i>
	EYE Experience	3
	^College Writing	3 or 4
	Quantitative Reasoning (MAT 120 or PSY 105)	3 or 4
	Science Exploration (PHY 101/102 or PHY 111/114)	4 or 5
	Creative Expression	3
	Cultural Interpretation	3
	Socio-cultural Analysis (HRD 200)	3
	Ethical Inquiry, Social Responsibility and Citizenship	3
	Thematic Cluster	3
	Thematic Cluster	3
	Thematic Cluster	3
	Capstone (SPM 495)	3
	International	3
	Diversity	3
<i>Health Sciences Required Core Courses</i>		<i>Credits (36-37)</i>
PSY 101	General Psychology I	3
PSY 102	General Psychology II	3
^BIO 111	Human Anatomy and Physiology I	3
^BIO 112	Practical Human Anatomy and Phys I	1.5
^BIO 211	Human Anatomy and Physiology II	3
^BIO 212	Practical Human Anatomy and Phys II	1.5
CHY 101	Introduction to Chemistry or	3-4
CHY 110	Chemistry, Life and the Environment or	
CHY 113	Principles of Chemistry I	
^PHY 101/102	Introduction to Physics and Lab or	(4 or 5)
^PHY 111/114	Elements of Physics I and Lab (credits included in Core Science Exploration requirement)	
^MAT 120	Intro to Statistics or PSY 105 Stats in Psychology (credits included in Core Quantitative Reasoning requirement)	(3 or 4)
^HRD 200	Human Growth and Development (credits included in Socio-cultural Analysis Core requirement)	(3)
CON 219	Lifetime Physical Fitness and Wellness	3
CON 314	Wellness Education and Counseling or	3
SPM 350	Health Promotion Programs	
CON 321	Health Related Research	3
CON 252	Human Nutrition	3
CON 356	Concepts of Community Health	3
SPM 100	Introduction to Exercise, Health and Sport Sciences	3
SPM 495	Clinical Internship/Co-Op (credits included in Core Capstone)	(3)

^ Indicates Pre Requisite Courses for entrance into USM's Occupational Therapy Program through the Jumpstart Program. Minimum Grade of 3.0 ("B") required for each course.

Track of Study (30 or 34 credits)

Students must complete a track of study as part of the health sciences major. Students who have a two-year Health Related Associates Degree do not have to complete a track of study (ie 30 credits of the AA degree will be applied to the Track requirement) except for those interested in pursuing the Occupational Therapy Jumpstart track. The wellness, pre-professional and health care administration tracks present the option for a minor though the completion of a minor is not required.

Wellness Track (30 Credits)

Holistic and Integrative Health (HIH) Minor:

Along with completing CON 219 and CON 252 (part of the Health Sciences Core), students who complete CON 280 and CON 281 and two other '+' courses as part of this track satisfy the requirement for a minor in HIH. Consult with the School of Nursing to declare the HIH

- + CON 280 Holistic Health I
- + CON 281 Holistic Health II
- + CON 283 Healing and Spirituality
- + CON 284 Botanical Therapies
- + CON 285 Perspectives on Animal-Assisted Therapy
- +CON 288 Reiki: Energy Medicine
- + CON 311 Psychosocial Intervention for Older Adults
- +CON 490 Therapeutic Touch
- CON 270 Holistic Approach to Reproductive Health
- CON 435 Death and Dying: Contemporary Issues
- CON 497 Substance Use and Abuse: Issues and Policies
- SPM 230 Psychology of Physical Activity and Sport
- SPM 400 Sports Nutrition Symposium
- SPM 460 EKG Interpretation
- PSY 340 Behavior Modification
- PSY 366 Drugs, Mind and Behavior
- PSY 368 Health Psychology
- PSY 390 Health Psychology Institute

Pre-Professional Track (30 credits)

Biology Minor:

Along with completing BIO 111, 112, 211, 212 (as part of the Health Sciences Core), students who complete an additional 9 credits by taking courses denoted by an '#' satisfy the requirement for a minor in Biology. A grade of C- or higher is required for all courses in the minor. Consult with the Department of Biology to declare a Biology minor.

Biochemistry Minor

Along with completing CHY 113 (part of the Health Sciences Core), students must complete the following CHY courses: 114, 115, 116, 251, 252, 253, 254, 461, and either 462 or 463. Consult with the Department of Chemistry to declare a Biochemistry minor.

Chemistry Minor

Along with completing CHY 113 (part of the Health Sciences Core), students must complete CHY 114, 115, 116 and either of the following two groups of courses: 231, 232, 251, 252 or 371, 372, 373, 421. Consult with the Department of Chemistry to declare a chemistry minor.

Health Care Administration Track (30 credits)

Business Administration Minor:

Students completing 21 credit hours of Business Administration courses may be eligible to receive a Business Administration minor through the School of Business. Consult with the School of Business to declare the Business Administration minor.

Business Administration Courses (choose 21 credits)

ACC 110	Financial Accounting Information for Decision Making
ACC 211	Managerial Accounting Information for Decision Making
BUS 101	Getting Down to Business
BUS 190	Personal Finance
BUS 200	Introduction to Business
BUS 260	Marketing
BUS 280	Legal Environment of Business
BUS 340	Managing Organizational Behavior
BUS 345	Information Technology/Management Information Systems
ECO 101	Introduction to Macroeconomics
ECO 102	Introduction to Microeconomics
RMI 220	Introduction to Risk Management and Insurance

Choose 9 credits from the following:

ITS 300	Ergonomics/Time Study
ITS 320	Occupational Safety and Health
ITS 321	Workplace Design Ergonomics
ITP 210	Technical Writing
ITP 230	Project Management
ITP 350	Team Building and Facilitation
ITP 381	Human Resource Development in Industry
ITP 490	Cost Analysis and Control
CON 497	Substance Use and Abuse: Issues and Policies

Occupational Therapy "Jumpstart" Track (34 credits)

This track is for students interested in pursuing USM's Masters in Occupational Therapy (MOT) degree. Entrance into this program is competitive and includes the completion of a formal application process. For more information about USM's MOT please contact the Coordinator of Graduate programs at USM's Lewiston-Auburn College.

Note: courses listed here represent the student's last year of study in Health Sciences major and first year of study in the MOT, and can only be taken by students who have been formally accepted into USM's MOT program.

OTH 501	OT Foundations OTH
502	Introduction to OT
OTH 503	Reflective Practitioner
OTH 513	Applied Concepts of Movement
OTH 514	Human Anatomy
OTH 515	Occupation and Populations
OTH 504	Applied Research
OTH 505	Impact of Mental Health on Occupational Performance
OTH 507	Ethics and Social Justice
OTH 509	MH Level I Fieldwork
OTH 516	Organization and Populations
OTH 517	Occupational Well-Being
OTH 518	Group Process for Practice

General Electives

The total number of general electives needed to meet 120 credits for a student's program of study is dependent on the credits within the student's track and on the CORE credits completed.

In addition to completing other identified pre-requisite coursework, students interested in apply for entrance into USM's MOT program must also take the following courses:

^SOC 100	Introduction to Sociology
^PSY 233	Psychopathology
^MAT 108	College Algebra

^Medical Terminology 1-3 credits (this course is not offered at USM. Thus, students must take this course at another institution)

^ Indicates Pre Requisite Courses for entrance into USM's Occupational Therapy Program through the Jumpstart Program. Minimum Grade of 3.0 ("B") required for each course.

Courses with a CON prefix are listed at the end of the College of Nursing and Health Professions section.

SPM 100 Introduction to Exercise, Health, and Sport Sciences

This course orients the student to the expectations of a baccalaureate education in athletic training, exercise science (majoring in exercise physiology or health fitness), or health sciences. Allied health historical perspectives, education, careers, certification, and professional associations are explored. Educating the students about the structure and progression of the three degrees will be discussed. Outside field experiences will be required. Prerequisite: ALT, EXS, HEF, or HLS major or permission of the Department chair. Cr 3.

SPM 200 History of Athletic Training

This course will chronicle the profession of athletic training from its early roots in the late 1800's, through the subsequent formation of the National Athletic Trainers' Association in 1950, and evolution into its present day form as an AMA recognized allied health care profession since 1990. An examination of the educational progression from an apprenticeship, to an internship model, and subsequent educational reform will also be highlighted. Cr. 3.

SPM 210 Clinical Athletic Training Principles I

An introduction to the principles of prevention, examination, treatment, and reconditioning of physical activity injuries. Lecture information prepare students for supervised clinical experiences. Completion of 50 clinical observation hours required. Prerequisites: ALT major; CON 216 or concurrent; SPM 100 or concurrent; BIO 111, 112 or SCI 170, 171 or concurrent; Co-requisite: SPM 211. Cr 2.

SPM 211 Protective Taping and Wrapping

An introduction to the principles of taping and wrapping as they pertain to preventative, protective, and post injury situations. In addition, basic skills in stretching will be taught. Laboratory course in which the completion of competencies prepare students for supervised clinical experience. Prerequisite: ALT major; CON 216 or concurrent; SPM 100 or concurrent; Co-requisite: SPM 210. Cr 1.

SPM 230 Psychology of Physical Activity and Sport

Course presents an overview of concepts, theories, principles, and research related to exercise and sport behaviors. Practical application of psychological principles and techniques that help facilitate behavior change during exercise and sport activities will be covered. Prerequisites: ALT, HEF or HLS major; SPM 100. Cr 3.

SPM 235 Lab Techniques in Nutrition and Exercise

An introduction to those laboratory techniques that are found in the nutritional and exercise sciences. Students will be introduced to the concepts of energy exchange in the human body and the measurement of those exchanges. Emphasis also will be placed on the impact nutritional practices have on human performance and disease. Prerequisites: ALT, EXS, HEF, major. Cr 3.

SPM 260 Introduction to Personal Training

An overview of the knowledge, skills, and abilities needed by fitness instructors to plan, implement, and evaluate safe and effective exercise programs. Emphasis is on exercise programs for individuals. Prerequisites: EXS or HEF major; SPM 100 or concurrent; CON 219 or concurrent. Cr 3.

SPM 265 Therapeutic Modalities

An exploration of the physical principles, physiological effects, indications, contraindications, safety precautions, and operating procedures of therapeutic modalities. Includes application of modalities in the laboratory setting. Prerequisite: ALT major; SPM 100, 210, 211; CON 216; PHY 101, 102 or PHY 111, 114 or concurrent. 2 credits lecture, 1 credit lab. Cr 3.

SPM 270 Athletic Training Clinic I

Completion of a minimum of 150 clinical hours applying proficiency knowledge and skills in an athletic training clinical setting. The first clinical course for students enrolled in the athletic training major. Prerequisite: ALT major; SPM 100, 210, 211; CON 216. Cr 2.

SPM 302 Pharmacology for Athletic Training and Exercise Science

This course is an introduction to the general concepts and principles of pharmacology as it relates to the profession of athletic training and disciplines within the exercise sciences. An explanation of pharmacokinetic and pharmacodynamic principles will be presented. The course will cover the indications, contraindications, precautions, dose information, allergies, and adverse side effects of prescription and non-prescription drugs as they relate to injuries or illnesses commonly acquired by the physically active person. The potential problematic interaction of medications will also be addressed. The governing regulations relevant to treating and caring for injuries and illnesses, including storing, transporting, dispensing, and recording of medication will be revealed. Performance-enhancing substances and an introduction to the process of drug testing in sports will also be expressed. Prerequisite: BIO 211 or SCI 172; CHY 107 or 113. Cr. 2.

SPM 310 Athletic Training Principles II

This is an intermediate study of principles for the prevention, examination, treatment and reconditioning of physical activity injuries. Lecture and laboratory competencies prepare students for supervised clinical experiences. Prerequisites: ALT major; SPM 100, 210, 211; CON 216. 2 credits lecture, 1 credit lab. Cr 3.

SPM 315 Group Exercise Instruction

This course provides knowledge, skills, and practical experience needed to plan, lead, and evaluate a variety of group exercise sessions effectively. Developing and leading various components of group exercise sessions constitute a major part of this course. Prerequisites: HEF major; SPM 260. Cr 3.

SPM 325 Methods of Resistance Training and Conditioning

Theoretical and practical study of practices and methods involved in developing and implementing resistance training and conditioning programs for physically active populations. Prerequisites: ALT, EXS, HEF major; BIO 111 and 112 or SCI 170 and 171; BIO 211 and 212 or SCI 172 and 173 or concurrent; CON 219. Cr 3.

SPM 330 Physiology of Exercise

An investigation of the acute and chronic effects exercise incurs on the body. Muscle physiology, respiration, cardiac function, circulation, energy metabolism and application to training will be emphasized and applied in laboratory activities. Prerequisites: ALT, EXS, HEF major; CHY 107 or CHY 113 or concurrent; BIO 111 and 112 or SCI 170 and 171; and BIO 211 and 212 or SCI 172 and 173. 2 credits lecture; 1 credit lab. Cr 3.

SPM 340 Therapeutic Exercise

A study of the basic components of a comprehensive therapeutic exercise program including functional anatomy, joint mobilizations, and rehabilitation programs will be discussed for the appendicular and axial skeletons. In addition, the physiological effects, safety precautions, indications, contraindications, modes of resistance, and specific rehabilitation protocols will be discussed. Prerequisites: ALT major; SPM 370, 410; SPM 381 or concurrent. 2 credits lecture; 1 credit lab. Cr 3.

SPM 350 Health Promotion Programs

This course examines the assessment, planning, implementation, and evaluation of health promotion programs in a variety of settings. Students will develop and lead a health promotion workshop. Prerequisites: HEF or HLS major. SPM 230; CON 219. Cr 3.

SPM 370 Athletic Training Clinic II

Completion of a minimum of 150 clinical hours applying proficiency knowledge and skills in an athletic training clinical setting. The second clinical course for students enrolled in the athletic training major. Prerequisite: ALT major; SPM 265, 270, 310; PHY 101, 102 or PHY 111, 114; BIO 111, 112 or SCI 170, 171; BIO 211, 212 or SCI 172,173 Cr 2.

SPM 371 Athletic Training Clinic III

Completion of a minimum of 150 clinical hours applying proficiency knowledge and skills in an athletic training clinical setting. The third clinical course for students enrolled in the athletic training major. Prerequisite: ALT major; SPM 370; 410; SPM 381 or concurrent. Cr 2.

SPM 375 Exercise Physiology Practicum

This introductory field experience emphasizes hands-on practice for students. The course presents a variety of experiences that includes clinical exercise testing, fitness testing, as well as cardiac and pulmonary rehabilitation. The student will also have the opportunity to discuss experiences in a weekly seminar. Prerequisite SPM 235 or concurrent. Cr 3.

SPM 381 Kinesiology

Structural and functional anatomical analysis of human movement. Course will also incorporate principles of mechanics as they apply to the analysis of human movement. Prerequisites: ALT, EXS, HEFmajor; BIO 111, 112 or SCI 170, 171; BIO 211, 212 or SCI 172,173 or concurrent; PHY 101 and 102 or PHY 111 and PHY 114 or concurrent. Cr 3.

SPM 385 Practicum I

This introductory field experience provides opportunity for practical application of knowledge gained through prior coursework in exercise science. The student will assist in the leadership of a wide variety of university-based and off-campus programs, with special emphasis on either personal training experiences or group exercise instruction. Prerequisites: junior level EXS or HEF major; SPM 315; SPM 325 or concurrent. Cr 3.

SPM 395 Practicum II

Building upon experiences gained from Practicum I, the student continues assisting in the leadership of university-based and off-campus programs, with emphasis on personal training experiences or group exercise instruction. Prerequisites: senior level EXS or HEF major; SPM 325; SPM 385. Cr 3.

SPM 398 Independent Study

This course is intended to provide majors in the Department of Exercise, Health, and Sport Sciences with an opportunity to pursue a project independently. Students should select a faculty advisor and develop a course proposal with that person. A final written paper is required. Prerequisites: ALT, EXS, HEF, HLS major; junior or senior standing, instructor permission. Cr 1-3.

SPM 400 Sports Nutrition Symposium

This course will provide students with up-to-date information that addresses the nutritional issues facing today's athletes. National, regional, and local experts will present current scientific information in a practical manner. Cr 3.

SPM 410 Athletic Training Principles III

This is an advanced study of principles for the prevention, examination, treatment and reconditioning of physical activity injuries. Lecture and laboratory competencies prepare students for supervised clinical experiences. Prerequisites: ALT major; SPM 265, 270, 310; PHY 101, 102 or PHY 111, 114; BIO 111, 112 or SCI 170, 171; BIO 211, 212 or SCI 172,173. 2 credits lecture; 1 credit lab. Cr 3.

SPM 420 Athletic Training Pre-season Clinical

Completion of a minimum of 50, with a maximum of 75, clinical hours applying proficiency, knowledge, and skills in the traditional athletic training setting during the month of August in an athletic pre-season venue. The fourth clinical course for students enrolled in the athletic training major. Prerequisite: ALT major; SPM 340, 371. Cr 1.

SPM 430 Exercise Testing, Assessment, and Prescription

Course focuses on knowledge and skills necessary for assessing health-related components of physical fitness. Course will also focus on prescription and design of programs to develop health-related fitness which will be applied in the laboratory setting. Prerequisites: ALT, EXS, HEF major; CHY 107 or CHY 113; SPM 330. Cr 3.

SPM 431 Advanced Exercise Physiology

An advanced study of the whole-body and cellular responses and adaptations to exercise related to human performance limitations, training effects, and health related benefits. Emphasis is on human bioenergetics, metabolism, cardiovascular structure and function and cardiopulmonary responses to exercise. Prerequisites: ALT, EXS, HEF major; CHY 107 or CHY 113, SPM 330. Cr 3.

SPM 435 Exercise Metabolism

An intensive study of the biochemical regulatory mechanisms of energy production and expenditure involved in cellular metabolism. Emphasis will be placed on carbohydrates, protein, and lipid metabolism and the acute and chronic effects that exercise and physical activity have on these systems. Prerequisites: ALT, EXS, or HEF major; CON 352. Cr. 3.

SPM 440 Manual Therapy

This course will take a detailed approach into the principles, theories, and evidence concerning the use of manual therapy for the treatment of musculoskeletal injuries. Students will be taught and asked to demonstrate specific skills and techniques that enhance efficient and effective treatment of a wide range of clinical presentations pertaining to the spine and extremities using multiple manual therapy strategies. Prerequisite: ALT major; SPM 381, 340, 420. Cr. 3.

SPM 450 Exercise for Special Populations

Course focuses on exercise programming guidelines and recommendations for a variety of special populations. Prerequisites: ALT, EXS, or HEF major; SPM 430 or concurrent. Cr 3.

SPM 460 EKG Interpretation

A clinical, practical study of the physiological and biochemical mechanisms involved in the body's response to certain diseases and pathological situations. Emphasis in both lecture and laboratory activities will be placed on cardiac electrophysiology and the pathophysiology of coronary arteriosclerosis, hypertension, and COPD. Prerequisites: ALT, EXS, HEF, or HLS major; BIO 111, 112 or SCI 170, 171; BIO 211, 212 or SCI 172,173 Cr 3.

SPM 470 Athletic Training Clinic IV

Completion of a minimum of 150 clinical hours applying proficiency, knowledge, and skills in traditional (135 clinical hours) athletic training and general medical (15 clinical hours) settings. The fifth clinical course for students enrolled in the athletic training major. Prerequisite: ALT major; SPM 330,340,420; SPM 330 or concurrent. Cr 2.

SPM 480 Organization and Administration of Athletic Training

Administrative components of an athletic training program. Facility design; supply ordering, budget and inventory; insurance, personnel and athletic training educational considerations. Prerequisites: ALT major, SPM 440, 470 or concurrent. Cr 3.

SPM 481 Fitness Facility Management

An introduction to the management and operation of health fitness facilities. Knowledge and skills needed to plan, lead, manage and evaluate various health fitness programs will be discussed. Prerequisites: senior level HEF major; BUS 200; SPM 350. Cr 3.

SPM 485 Senior Thesis I

Introduction to health-related research with an emphasis on understanding the research process and becoming a consumer of research. Critique of health-related research findings to exercise and health professions and their application to professional practice is a major component of this course. Prerequisites: ALT, EXS, HEF major; MAT 120 or PSY105; SPM 330.

SPM 486 Senior Thesis II

A continuation of SPM 485. Students will be introduced to various research-related issues such as design, methodology, statistics and writing scientific manuscripts involved in conducting research in exercise science. Students will be required to conduct a research experiment using learned techniques. Prerequisites: ALT, EXS, HEFmajor; SPM 485. Cr 3.

SPM 495 Clinical Internship/Co-op

This culminating experience for athletic training, exercise physiology, health fitness and health sciences majors provides the opportunity for students to apply knowledge and skills gained through didactic, practicum, clinical, and laboratory experiences in a work setting. Prerequisites: ALT, EXS, HEF, or HLS major; completion of all major requirements, or concurrent. Instructor permission required. Cr 3-12.

SPM 499 Athletic Training International Service Learning

This culminating experience for athletic training majors provides the opportunity to apply knowledge and skills gained didactic and clinical experiences in remote villages in the mountains of the Dominican Republic. Prerequisites: SPM 410; instructor permission. Cr. 3

Geosciences

Chair of the Department: Stephen Pollock, Bailey Hall, Gorham

Professors: Novak, Pollock, Swanson, Fitts; *Laboratory Associate:* Vose

In geosciences, we study the dynamic processes that have affected the history and development of the earth and continue to influence environments on its surface. Geoscience crosses traditional discipline boundaries, incorporating concepts from physics, chemistry, biology, and mathematics in the study of specific areas such as earth structure, history of life, plate tectonics, mountain building, earthquakes, ground water resources, climate, and energy resources. The geosciences curriculum is designed to give the student a solid scientific understanding of our environment using the latest tools and applications in preparation for careers in geology and geo-technical consulting, resource exploration and extraction, environmental issues involving water resources, geologic hazards, research, and government regulatory agencies.

The degree program offers students the flexibility to tailor a sequence of courses to their interests, whether they be in earth materials, large-scale crustal processes, or surficial processes relevant to environmental issues. We offer a strong field- and laboratory-based sequence of courses. We conduct field trips to explore, map, and measure geologic processes throughout Maine and New England. Dedicated laboratories in Bailey Hall include the Sediment Analysis Laboratory, Rock Preparation Laboratory, and X-ray Diffraction Laboratory for mineral identification. The latest digital mapping technologies are available with global positioning system (GPS) and total station surveying equipment that is used in conjunction with the Gorham Geographic Information System (GIS) computer laboratory in Bailey Hall. The Gorham GIS Laboratory offers the latest software for modern spatial analysis and remote sensing of the earth's surface. Geosciences courses integrate our available equipment and technology resulting in a strong field-based, digitally supported degree program.

We also stress and value undergraduate student research and independent study. Faculty expertise offers student research opportunities in many areas including digital outcrop surface mapping, remote sensing using multiple data sources, groundwater resource mapping and modeling, and geoarcheology. Student work is presented at a number of venues including the USM Thinking Matters conference, Maine Water Conference, Geological Society of Maine meetings, and Geological Society of America meetings.

Graduates of the program find that they are well-prepared to start careers in geologic and environmental work, science teaching, or to continue on to graduate school for advanced degrees. Our graduates work for a variety of local geologic consulting firms, Maine's Department of Environmental Protection, and teach science in K-12 schools throughout the state. Similar employment opportunities are available in other states.

More information can be found at the Geosciences Web site: www.usm.maine.edu/geos.

Programs and Requirements

Bachelor of Arts in Geosciences and Bachelor of Science in Geosciences

A minimum of 54 credits are required for the B.A. degree and a minimum of 71 credits are required for the B.S. degree (in addition to the University's Core curriculum requirements). The B.A. and B.S. degrees differ only in the chemistry, physics, and mathematics requirements as listed below. Majors must achieve a 2.0 grade point average and grades of C- or better in all geosciences courses.

Geosciences Course Requirements for both B.A. and B.S. degrees:

All majors must complete at least one introductory lecture and lab, to be selected from among the following courses. Note that an additional introductory lecture course may be applied to the major as three elective credits.

Introductory lecture courses

GEY 100	Volcanoes, Earthquakes, and Moving Plates
GEY 103	Floods, Glaciers, and Changing Climate
GEY 105	Ocean Planet

Introductory lab courses

GEY 101	Laboratory Experiences in Geology
GEY 106	Ocean Planet Laboratory

All majors must complete four foundation courses as follows

GEY 202	Landscape Evolution and Analysis
GEY 203	Mineralogy
GEY 204	Crustal Deformation
and	
GEY 205	Water Resources: Science and Issues
or	
GEY 207	Atmosphere: Science, Climate, and Change

In addition to the above, 20 credits of geosciences (GEY prefix) elective courses are required. Three credits of these may be at the 100 level, and the rest must be at the 200 level or higher. Students are encouraged to also explore relevant courses in other departments, depending on their interest. In particular, GIS courses are recommended for those interested in mapping or consulting, and some chemistry and environmental science courses are relevant to environmental consulting and regulation.

Original research is regarded as a significant component of liberal education. The Department encourages Undergraduate Research in Geology (GEY 498) as part of the degree program.

Suggested Geosciences elective courses for students interested in earth materials and resources

GEY 201	Paleogeography and Global Change
GEY 240	X-ray Powder Diffraction Laboratory
GEY 302	Sedimentation and Stratigraphy
GEY 303	Igneous and Metamorphic Rock Origins

GEY	410	Introduction to Geophysics
<i>Suggested Geosciences elective courses for students interested in environmental geology</i>		
GEY	110	Field Studies in Environmental Geology on the Island of Lesbos, Greece
GEY	205	Water Resources: Science and Issues
GEY	207	Atmosphere: Science, Climate, and Change
GEY	208	Environmental Geology
GEY	310	Glacial and Pleistocene Geology
GEY	420	Groundwater Flow and Quality
<i>Suggested Geosciences elective courses for students interested in mapping technologies</i>		
GEY	340	Digital Mapping
GEY	360	Field Mapping in the Island Environment: Data Collection to GIS
<i>Non-Geosciences course requirements for the B.A. degree</i>		
CHY	113	Principles of Chemistry I
CHY	114	Laboratory Techniques I
PHY	111	Elements of Physics Laboratory I
PHY	114	Introductory Physics Laboratory I
MAT	120	Introduction to Statistics OR MAT 152D Calculus A
<i>Non-Geosciences course requirements for the B.S. degree</i>		
CHY	113	Principles of Chemistry I
CHY	114	Laboratory Techniques I
CHY	115	Principles of Chemistry II
CHY	116	Laboratory Techniques II
PHY	121	General Physics I
PHY	114	Introductory Physics Laboratory I
PHY	123	General Physics II
PHY	116	Introductory Physics Laboratory II
MAT	120	Introduction to Statistics
MAT	152	Calculus A
MAT	153	Calculus B

Minor in Geosciences

A minimum of 17 credits of GEY courses are required, including an introductory lecture, an introductory lab, and 13 additional credits of GEY electives, 10 of which must be numbered 200 or higher.

GEY 100 Volcanoes, Earthquakes, and Moving Plates

An introduction to minerals, rocks, and the processes that have continually shaped the earth over hundreds of millions of years of geologic history. The course also explores how the movements of crustal plates generates earthquakes, volcanoes, continental rifting, sea floor spreading, subduction, and continental-scale mountain ranges. For core science course credit, registration in one of the following: GEY 101 or GEY 106 is required; concurrent registration is recommended. Cr. 3.

GEY 101 Laboratory Experiences in Geology

Weekly lab sessions will focus on the basic skills of mineral identification, rock classification, and interpretation of topographic and geologic maps. Field trips to local geologic sites of interest will help illustrate rock types and geologic processes that shape our world. Traditional map, compass, and modern GPS techniques will be utilized. For core science course credit, registration in one of the following: GEY 100, GEY 103, or GEY 105 is required; concurrent registration is recommended Cr 1.

GEY 103 Floods, Glaciers, and Changing Climate

This course focuses on the external processes that shape earth's surface, including rivers, groundwater, glaciers, oceans, climate, and landslides. The course will also examine issues such as flood control, water resources, and climate change, where these external processes have large impacts on society. For core science course credit, registration in one of the following: GEY 101 or GEY 106 is required; concurrent registration is recommended. Cr 3.

GEY 105 Ocean Planet

An interdisciplinary look at the science of the ocean, emphasizing connections between land, sea, and atmosphere. Basic concepts in chemistry, geology, physics, and biology are taught as they apply to marine phenomena such as salinity, ocean floor formation, currents, waves, seafloor sediments and rocks, and marine life. Students must have fulfilled the University's minimum proficiency requirements in mathematics. For core science course credit, registration in one of the following: GEY 101 or GEY 106 is required; concurrent registration is recommended. Cr 3.

GEY 106 Ocean Planet Laboratory

Major concepts from GEY 105K are illustrated using hands-on activities. Students perform a variety of tasks designed to promote understanding of scientific methods and data analysis. Classes held in the lab include a range of chemical, physical, and geological exercises. Field trips may involve observing a variety of coastal phenomena including waves, beach formation, rocky shoreline geology, or intertidal zonation. Students must have fulfilled the University's minimum proficiency requirements in mathematics. For core science course credit, registration in one of the following: GEY 100, GEY 103, or GEY 105 is required; concurrent registration is recommended. Cr 1.

GEY 110 Field Studies in Environmental Geology on the Island of Lesbos, Greece

This course will consider the basic and applied geology of the eastern Aegean Sea with particular emphasis on the island of Lesbos, Greece. The course is a cooperative effort with the Department of Environmental Studies of the University of the Aegean. Rocks, minerals, and topographic maps will be studied for the purpose of interpreting the bedrock geology, geomorphology, and hydrogeology of the region. Other topics will include remote sensing, aerial geology, tectonics, use of the Brunton compass, waste disposal, coastal processes, and the impact of development. The course will consist of lectures, laboratory experiences, and field trips to many parts of the island. Offered during Summer Session only. Cr 4.

GEY 201 Paleogeography and Global Change

This course examines the diversity of the global rock record to emphasize continental, oceanic, and atmospheric origins and changes. Geochronology, geologic time scale, plate tectonics, and magneto- and bio-stratigraphy will be significant topics. Laboratories will emphasize invertebrate fossil groups from the late Precambrian to the Pleistocene. Three hours lecture, three hours lab. The course may require one three-day field trip. Prerequisite: completion of a 100-level geoscience lecture and lab. Cr 4.5

GEY 202 Landscape Evolution and Analysis

Students will consider landscapes and the processes that are responsible for their formation. Emphasis will be on the constructive processes of mountain-building and volcanism and the erosional processes of rivers, glaciers, the sea, and wind. There will be one or two weekend field trips. Two hours lecture, two hours lab. Prerequisite: Any GEY 100-level lecture with lab or permission of instructor. Cr 4.

GEY 203 Mineralogy

The course concentrates on the silicate family of minerals, but also examines non-silicate mineral families. Subject areas covered include crystallography, crystal chemistry, and environments of mineral formation. In one lab each week, students will examine crystals and minerals in hand specimens. In a second lab each week, the rudiments of optical crystallography are introduced and students will examine minerals microscopically. Three hours lecture, two labs each two hours in length. Prerequisite: completion of a 100-level geoscience lecture and lab; CHY 113 and CHY 114 are recommended. Cr 5.

GEY 204 Crustal Deformation

The crustal rocks exposed in coastal Maine are examined. Students learn to recognize, describe, and interpret a wide variety of outcrop-scale structures. In weekly field-based labs, students will use Brunton compasses, manual and digital stereonet, outcrop mapping techniques, GPS and clay deformation devices to analyze the local geologic structure and tectonic history. Prerequisite: completion of a 100-level geoscience lecture and lab. Three hours lecture and four hours lab. Cr 5.

GEY 205 Water Resources: Science and Issues

An introduction to watershed hydrology, including precipitation, evaporation, transpiration, flow in open channels, floods, and subsurface flow. Readings of current domestic and international case studies involving water resource issues are incorporated where appropriate. Prerequisites: PHY 111 or PHY 121. Cr 3.

GEY 207 Atmosphere: Science, Climate, and Change

Students will be introduced to the physical and chemical processes active in the earth's atmosphere. Specific topics include atmospheric circulation, atmospheric chemistry, climate patterns, storms, natural atmospheric change in recent geologic time, human-induced atmospheric change, and atmospheric pollution. Prerequisite: CHY 113. Cr 3.

GEY 208 Environmental Geology

Examines the effect of geological processes and products on human civilization. Specific topics will include earthquakes, volcanoes, landslides, floods, sinkholes, human impact and erosion at the coastal zone, waste disposal, groundwater use and contamination, climate change, energy resources, and mineral resources. Laboratory experiences complement the lecture and will include several field trips to local sites. Three hours lecture, two hours lab. Cr 4.

GEY 240 X-Ray Powder Diffraction Laboratory

This is an applications laboratory designed for junior or senior level majors in geosciences, or any discipline that requires the characterization and identification of crystalline solids. Students will develop a working knowledge of elementary crystallography, sample preparation and identification using x-ray diffraction. Projects will utilize a series of increasingly complex materials and mixtures, culminating with a narrowly defined research project. Prerequisite: GEY 203 or concurrent or CHY 113 and CHY 114 or concurrent, or permission of instructor. Cr 1.

GEY 302 Sedimentation and Stratigraphy

Students focus on the processes that produce sediments and the mechanisms by which they are eroded, transported, and deposited. By carefully examining the motifs, models, and characteristics found in the sediment composition, texture, and features in modern-day sedimentary environments, clues can be found to understanding the historical sedimentary record. Three hours lecture, three hours lab. Prerequisite: GEY 202 or permission of instructor. Cr 4.5.

GEY 303 Igneous and Metamorphic Rock Origins

An introduction to the diversity and global distribution of igneous and metamorphic rocks. Students will examine the physical conditions and environments where igneous and metamorphic rocks form. Such environments include mid-ocean ridges, island arcs, convergent margins, and intraplate settings. Topics include: styles of volcanic eruptions, intrusive igneous rocks, regional metamorphism, and metamorphic belts. Labs will cover rock identification, computer exercises, and petrographic microscopy. Three hours lecture, three hours lab. The lab and lecture will occasionally be combined into half or full day field trips. Additionally, one weekend field trip will be offered. Prerequisite: GEY 203. Cr 4.5.

GEY 310 Glacial and Pleistocene Geology

Glacial processes, deposits, and the stratigraphy of the Pleistocene epoch. Emphasis on the erosional and depositional features of glacial events in Maine. One, possibly two, weekend field trips. Prerequisite: GEY 202 or permission of instructor. Three hours lecture, two hours lab. Cr 4.

GEY 340 / GEO 340 Digital Mapping

Students are exposed to the latest digital survey gear and integrated techniques with applications in geosciences, geography, and environmental science. Instrumentation includes both static and real time kinematic GPS (global positioning system) and autolock servo-driven electronic total station. Detailed precision survey data are combined with geo-referenced maps and imagery in GIS software. Six hours lecture/lab. Prerequisites: introductory course in GEY, GEO, or ESP and additional 200-level course in any of the above areas. Cr 4.5.

GEY 360 Field Mapping in the Island Environment: Data Collection to GIS

The coast of Maine provides a unique laboratory for teaching geologic and environmental mapping, data compilation and data management. In this course students are trained and equipped to use kayaks as the platform from which to conduct survey work for the preparation of small-scale high-resolution analytical maps of natural, historical, and archaeological phenomena. Field techniques used include topographic surveying, global positioning system (GPS) operation, and field mapping of geological and geographical features. Minimum impact methods are used throughout. Laboratory techniques used include air-photo interpretation, traditional cartography and geographic information system (GIS) operation. The course culminates in the completion of a portfolio of maps and a GIS database covering the area surveyed. Offered during Summer Session only. Prerequisite: junior/senior standing or permission of instructor. May be repeated for credit. Cr 6.

GEY 400 Cooperative Education in Geosciences

Students have opportunities to relate academic knowledge and practical job experience. Arrangements can be made with various agencies, businesses, and industries to employ qualified students. The student's work should be in a field related to geoscience. Approval is on an individual basis, depending on the nature of the job and specific work assignments. Evaluation is typically done through a written report that summarizes the work experience, with input from the employer and a faculty advisor. Prerequisite: junior/senior standing or permission of instructor. May be repeated for a maximum of 6 credits. Cr 1-6.

GEY 410 Introduction to Geophysics

Students investigate the mechanics of earth's structure and dynamics, as well as applications of geophysics to resource exploration and environmental investigation. In the context of both plate tectonics and applied geophysics, specific topics include magnetism, seismology (earthquake seismology, seismic refraction, seismic reflection), gravity, and heat flow. Prerequisites: MAT 152 and PHY 121 or permission of instructor. Cr 3.

GEY 411 Environmental Geophysics

Students will become familiar with the most common geophysical field methods used in all phases of environmental investigations, including data collection, data processing, report preparation, and public presentation. Field and lab exercises are incorporated to provide hands-on experience in the methods, and to introduce students to common geophysical instrumentation. Prerequisites: GEY 100 and GEY 410. Cr 4.

GEY 420 Groundwater Flow and Quality

A survey of groundwater processes covering the following topics: water balance, basic fluid mechanics, groundwater flow equations, flow to wells, flow in various geologic environments, groundwater quality, and groundwater contamination. Some case studies will be included. Prerequisite: a 100-level GEY lecture course, CHY 113 (may be taken concurrently), MAT 152, and PHY 111 or PHY 121, or permission of instructor. Three hours lecture, two hours lab/recitation. Cr 4.

GEY 498 Undergraduate Research in Geology

Students have the opportunity to work independently or as research assistants to Geoscience faculty conducting original geologic research. Research may involve analysis of geologic samples or data, field mapping, or literature review. The topic is chosen in consultation with a faculty advisor in the semester prior to registration. May be repeated for a total of 6 credits. Prerequisite: permission of the instructor. Cr 1-3.

Linguistics

Chair: Wayne Cowart, 65 Exeter Street, Portland

Professors: Cowart, Kegl, McDaniel; *Lecturer:* Schertz

Language plays a crucial role in almost every aspect of human life; it is fundamental to commerce, government, education, science, technology, the arts, and the mass media. The field of linguistics is devoted to the study of language, its nature, its uses, and its limitations. Because of its wide relevance, undergraduate study in linguistics can be a springboard to careers in many areas, from education to computer science.

The linguistics major consists of linguistics courses designed to foster a deep understanding of human natural language, including an appreciation of the structure and organization of natural languages, the variety of natural languages, the commonalities that underlie the vast apparent differences among languages, the processes of language acquisition in children, the psychological and neurological bases of language use, and the form and significance of social variation in language.

Beyond this intellectual foundation, students have three options. They can major in general linguistics or they can choose one of two concentrations: ASL/English interpreting or speech and language science. These options are designed to meet the needs of three specific categories of student. The ASL/English interpreting concentration is intended for students who wish to eventually become nationally certified ASL/English interpreters. The general linguistics major serves students who have an interest in language as an aspect of human nature or who wish to pursue graduate education in language-related areas. The speech and language science concentration is designed for students who wish to pursue a career in speech-language pathology, audiology, or related disciplines.

The goals of the linguistics major are 1) to help each student develop an understanding of the nature of natural language, 2) to help each student develop a foundation of more specialized expertise relevant to the student's career goals, and 3) to help each student compile a record of achievement that will facilitate the student's search for employment or further education.

Programs and Requirements

The number of credits required to complete the major in linguistics: 45-54 (depending upon the concentration; exclusive of the University Core curriculum). The requirements for each option (General Linguistics, ASL/English Interpreting, or Speech and Language Science) are:

General Linguistics:

LIN 185
LIN 311
LIN 312
LIN 313
LIN 314
LIN 315

One 200-, 300-, or 400-level LIN course (three credits) or one of the language-based courses offered by the English Department (ENG 230, 330, 331, 332, 336, 337, 338, 431)

One 300- or 400-level LIN course (three credits)

Two 400-level LIN courses (six credits)

LIN 490

Four semesters of language study (number of credits varies depending on course)

Total: 45 credits minimum (the number varies depending on the choice of language courses)

ASL/English Interpreting Concentration:

LIN 185
LIN 305
LIN 310
LIN 313
LIN 422
LIN 331
LIN 332
LIN 333
LIN 334
ASL 301, 302, or 303
ASL 401
ASL 402

One of LIN 405, 413, or 498; or six credits of LIN 425 (topics) courses

LIN 435 (six credits)

Total: 48 or 51 credits

Speech and Language Science Concentration:

LIN 185
LIN 201
LIN 211
LIN 212
LIN 213
LIN 310
LIN 311
LIN 312

LIN 313
LIN 314
LIN 315
One 400-level LIN course (three credits)
LIN 490

Four semesters of language study (number of credits varies depending on course)

Total: 51 credits minimum (the number varies depending on the choice of language courses)

Language Component

Students pursuing the general linguistics major and speech and language science concentration must complete four semesters of a language or languages other than their native language. Students may choose to take four semesters of the same language or to divide the four courses among two or more different languages. The language courses may be waived on a case-by-case basis for students who demonstrate the equivalent degree of competency in a language or languages. In such cases, students replace the language course credits with other linguistics courses (or possibly with linguistics-related courses in other areas). The substitutions are made in consultation with the student's advisor. Students pursuing the English ASL/interpreting concentration must have taken four semesters of ASL (101-202) or have attained a level of proficiency equivalent to four semesters. These courses (or the equivalent) do not count as credits toward the major, but are prerequisites to the interpreting courses and upper-level ASL courses.

Honors in Linguistics

Linguistics majors who do outstanding work in the major can graduate with honors in linguistics. The requirements for Honors differ for the three options.

Honors for General Linguistics:

- Achieve a G.P.A. of at least 3.7 in LIN courses.
- Earn a grade of 'B' or higher in all language courses that count toward the major.
- Submit a portfolio of linguistic activities approved by the Department. (The portfolio documents linguistic activities outside of required coursework. Examples of such activities include independent study and research internship courses, tutoring, and attendance at linguistics conferences. Students who plan to submit a portfolio should discuss the details with their advisor.
- Complete a senior thesis (LIN 498) and earn a grade of 'A'.

Honors for ASL/English Interpreting Concentration:

- Achieve a G.P.A. of at least 3.7 in LIN and ASL courses.
- Complete the following additional LIN courses with a grade of 'B' or higher: LIN 311, 312, 314, 315, and 490

Honors for Speech and Language Science Concentration:

- Achieve a G.P.A. of at least 3.7 in LIN courses.
- Receive a grade of 'B' or higher in all language courses that count toward the major.
- Submit a linguistic activities portfolio that is approved by the Department. (The portfolio documents linguistic activities outside of required course work. Examples of such activities include independent study and research internship courses, tutoring, attendance at linguistics conferences.) Students who plan to submit a portfolio should discuss the details with their advisor.
- Complete a senior thesis (LIN 498) and earn a grade of 'A'.

Scheduling

In the ideal case, students should begin the major before registering for the second semester of the sophomore year. They should take LIN 185 at the earliest opportunity. Students majoring in general linguistics or in the speech and language science concentration should also take a statistics course (PSY 105 or MAT 120) early on.

Students enrolled in the major are expected to maintain regular contact with the linguistics faculty and to participate in or attend various linguistics events (guest lectures, colloquia, etc.) that will be scheduled from time to time.

Minor in Linguistics

The minimum number of credits (exclusive of the University's Core curriculum) required for the minor in linguistics: 18. A minor in linguistics consists of LIN 185, at least three courses from LIN 310-315, one 200-, 300-, or 400-level LIN course (three credits) and one 400-level LIN course (three credits).

Minor in Deaf Studies

The minimum number of credits (exclusive of the University's Core curriculum) required for the minor in Deaf studies: 22. A minor in Deaf studies consists of the following courses: LIN 203, ASL 201, ASL 202, ASL 401, ASL 402, one of LIN 305, 310, 315, 395, ASL 301, 302, or 303.

LIN 112 Analyzing Language

In this course students will become aware of their tacit knowledge of the rules and principles that guide language usage. They will learn how to formulate these rules and how to test and evaluate claims about the form that the rules take. Students will thereby develop skills in analysis and argumentation that are applicable in many areas of study. The course will concentrate on the analysis of sentence structure, but will also deal with the sound system, word structure, meaning, and language acquisition. Cr 3.

LIN 185 Language, Mind, and Society

This course approaches language as a biological and psychological phenomenon central to an adequate understanding of human nature. It deals with linguistic questions concerning the grammars of natural languages and how these may vary across cultures and across time, but also with questions about how the human mind and brain both provide for and constrain linguistic ability. The course also addresses questions about how language develops in the child, how it deteriorates under the influence of disease and injury, how it evolved in the history of the species, and what functions it plays in human life. The course does not assume any background in linguistics or foreign languages. Cr 3.

LIN 201 Child Language

An introductory overview of the phenomena of language and communication development. The course covers the acquisition of phonology, morphology, syntax, and the lexicon, as well as the development of communicative competence. Each of these areas will be discussed with respect to production, comprehension, and knowledge. Prerequisite: LIN 185. Cr 3.

LIN 203 Introduction to the Deaf World

A Deaf instructor presents the culture and history of Deaf communities from a national and international perspective. Deaf communities are examined as cultural and linguistic minorities, with all the tensions and conflicts that arise within such minority groups and with the stresses that arise when outsiders interact with such minority groups. Some exposure to ASL is recommended, but not required. Cr 3.

LIN 211 Anatomy and Physiology of the Speech and Hearing Mechanism

The basic principles of the structure and function of the neuromuscular mechanism necessary for spoken language will be presented. These include six major topics: respiration, phonation, articulation, resonance, the nervous system, and the auditory system. Mastering these fundamentals will enable students to better understand normal and pathological processes involved in the production and reception of speech. Prerequisite: grade of at least B in LIN 185 or permission of instructor. Cr 3.

LIN 212 Speech Science

This course covers the acoustical, articulatory, perceptual, and physiological aspects of speech. It considers the acoustic contributions of the movements and postures of various articulators. It will also examine the neurophysiology of speech, including timing, control, and interactions among articulators. Prerequisite: LIN 211 or permission of instructor. Cr 3.

LIN 213 Introduction to Audiology

This course examines the anatomy, physiology, and function of the auditory system, focusing on the central auditory nervous system relevant to speech pathologists with an interest in speech perception and central auditory processing. This course provides the foundation for understanding certain aspects of aural rehabilitation and diagnosis of auditory pathology. Examples of brain pathology will be utilized. Prerequisite: LIN 211 or permission of instructor. Cr 3.

LIN 232 Introduction to Educational Interpreting

This course is designed for interpreting students and working interpreters, and focuses upon skills training in K-12 settings, with some attention to university-level interpreting. We address appropriate classroom configurations, teacher/interpreter interaction, role/responsibilities of the educational interpreter, and the code of ethics. Working educational interpreters are offered the option of a diagnostic session where their skills in the classroom are directly observed and evaluated with specific and individualized constructive feedback. Prerequisite: grade of at least B in ASL 202 or equivalent. Cr 3.

LIN 305 Contrastive Analysis: ASL and English

This course examines the major linguistic features of ASL and English. Students will gain an understanding of the basic similarities and differences in morphology, phonology, syntax, semantics and pragmatics, as well as the values, beliefs, and norms of the Deaf and non-Deaf communities. Prerequisite: ASL 102 and LIN 185, or permission. Cr 3.

LIN 310 Signs of Language in the Brain

This course looks at language as a capacity of the human brain. Models of language breakdown for spoken languages are reviewed, and the remainder of the course focuses upon signed language aphasia, the effects of Parkinson's disease on articulation and motor planning, and how spatial and attentional deficits caused by right hemisphere damage affect the processing and production of signing. Prerequisite: LIN 185. Cr 3.

LIN 311 Phonetics

An introduction to speech sounds, covering the basic elements of articulatory and acoustic phonetics and of speech perception. The course also reviews the process by which infants come to be competent at perceiving and producing the sounds of their native language. Topics discussed will also include the contributions of selected brain regions to the use of sounds and the cross-linguistic variation in sounds. Prerequisite: grade of at least B in LIN 185. Cr 3.

LIN 312 Phonology and Morphology

An introduction to the derivation of words in natural language. The course covers the sound system, the processes by which words are dynamically derived from other words, and the processes by which words are inflected to mark the roles they assume in sentences. Particular attention is also given to the great variety of word-building systems that occur in the world's

languages and to the means by which children acquire the phonological and morphological processes of their native language. Prerequisite: grade of at least B in LIN 185. Cr 3.

LIN 313 Syntax

This is an introduction to the role of sentences and sentence structure in natural language. The course addresses the questions: What makes a particular string of words usable as a sentence? Why are some strings acceptable while others are not? What is the nature of the knowledge humans bring to the process of forming and interpreting sentences? How is this knowledge acquired? Why is the ability to produce and understand well-formed sentences disrupted by injury to specific brain regions? How and why do the sentence patterns that are typical of a language community change over time? Prerequisite: grade of at least B in LIN 185. Cr 3.

LIN 314 Semantics

An introduction to the study of meaning in natural language. The course explores questions about the nature of meanings and how they are related to minds. Another concern is the relation between words and sentences, on one hand, and the objects, events and relations we experience in the world, on the other. How are words linked to things in the world? How do words refer or describe? What is it for a sentence to be true? Prerequisite: grade of at least B in LIN 185. Cr 3.

LIN 315 Field Methods

Students learn to use a variety of elicitation and field methods techniques to explore the linguistic structure of a language that is foreign to them. They work with a native signer or speaker and apply their knowledge of linguistics to a specific aspect of the grammar of the language. Prerequisite: LIN 312 or 313. Cr 3.

LIN 331 ASL/English Interpreting

This course offers the beginning interpreting student an introduction to the field of interpreting, its code of ethics, and several models and approaches to the interpreting process. Students will become familiar with the complex processing required to provide a nuanced interpretation through learning a form of text analysis called discourse mapping. Prerequisites: grade of at least B in ASL 202 or equivalent; or grade of at least B in ASL 201 or equivalent and ASL 202 concurrently. Cr 4.

LIN 332 Consecutive Interpreting and Deaf/Hearing Interpreter Teams

This course covers the mechanics and psycho-linguistics of the consecutive interpreting process, as well as hands-on training in the consecutive method for both Deaf and hearing interpreters. Consecutive interpreting will be taught in the context of a variety of typical interpreting situations as well as situations involving special populations. May be repeated once for credit with permission of instructor. Prerequisite: LIN 331 and grade of 2 or better on ASLA or ASLPI. Cr 3.

LIN 333 Interpreting: Source Language ASL

Students focus on interpreting from ASL into English with emphasis on word choice, register, and affect. The interpreting process is dissected, examined, and practiced. With permission of instructor, this course may be repeated once with an added component of journaling observations of working interpreters using a Demand-Control Schema for analysis. May be repeated once for credit with permission of instructor. Prerequisite: LIN 331 and grade of 2 or better on ASLA or ASLPI. Cr 3.

LIN 334 Interpreting: Source Language English

Interpreting students study interpretation from English into ASL. Emphasis is placed upon appropriate sign choice, register, and affect. The interpreting process is dissected, examined, and practiced. With permission of instructor, this course may be repeated once with an added component of journaling observations of working interpreters using a Demand-Control Schema for analysis. Course may be repeated once for credit with permission of instructor. Prerequisite: LIN 331 and grade of 2 or better on ASLA or ASLPI. Cr 3.

LIN 336 Observational Internship

Interpreting students will be supervised in a 60-hour internship where they observe working interpreters or specialized settings (legal, medical, educational, etc.) and journal their observations. They will analyze these observations using Demand-Control Schema and will present at least one formal case presentation during the semester. May be taken more than once for a maximum of 6 credits. Prerequisite: LIN 331. Cr 3.

LIN 395 Research Internship

Students will work closely with a faculty member on a research project. They will be involved in experimental design, data collection, data entry, and data analysis, and will attend regularly scheduled lab meetings. Enrollment in LIN 395 will depend on needs determined by current research projects. Selection is made by the faculty. Students should contact the Department chair for details. May be taken more than once for a maximum of six credits. Prerequisite: permission of instructor. Cr 3.

LIN 398 Independent Study

In preparation for this course, the student selects a topic in linguistics that is substantially different from that of any regular course and finds an instructor to serve as faculty mentor. Please see www.usm.maine.edu/lin for detailed guidelines. May be repeated for credit. Prerequisite: permission of instructor. Cr var.

LIN 405 Sight Translation

This is a course in translation from written English to dynamic ASL. Students will examine a variety of textual materials, including business letters, government and business forms, and selected other short texts, with the goal of comprehending, abstracting, and translating these materials. Work will focus on the intent and force of the texts, as well as linguistic and cultural assumptions underlying them. Prerequisite: LIN 331. Cr 3.

LIN 413 Supervised Mentoring

Interpreting students apprentice with a program-approved mentor and submit a weekly journal entry, attend a series of skills improvement workshops and/or engage in laboratory-based research to complete 90 contact hours of interpreting-related skills improvement activities. Students attend a biweekly meeting with interpreters to address current issues and difficult situations encountered. Special arrangements will be made for mentoring partnerships at remote sites. Prerequisites: LIN 333 and 334. Cr 3.

LIN 421 First Language Acquisition: Syntax

A detailed examination of the process of acquiring language in young children that concentrates on sentence structure. The course considers how children extract from the speech they hear the information that is critical to their developing ability to form sentences. It reviews questions about the nature of grammar and how grammars might be structured to facilitate language acquisition, and how various kinds of early experience do and do not contribute to acquisition. Prerequisites: LIN 313. Cr 3.

LIN 422 A Cognitive Perspective on Syntax

An introduction to the brain and mind processes by which language users produce and understand sentences, as well as to the mental representations these processes exploit. The course considers how syntactic structure interacts with processes of production and comprehension, as well as how users interpret from one language to another. Prerequisite: LIN 313. Cr 3.

LIN 425 Special Topics in ASL/English Interpreting

This seminar centers around a single topic, for example, legal interpreting, interpreting for special populations (deaf-blind, oral, cued-speech, minimal language skills assessment and interpreting), ethical issues, medical and mental health interpreting, interpreter assessment, and interpreting the 12 steps. The course will be offered in response to student interest in a given topic and may be repeated as topics vary. Prerequisite: permission of instructor. Cr var.

LIN 426 Special Topics in Theoretical Linguistics

This seminar focuses on one area of theoretical linguistics, e.g. phonology, morphology, syntax, or semantics. It will offer a more in-depth and advanced discussion than is presented in the 300-level courses on these topics. The course will be offered in response to student interest in a given topic. May be repeated for credit as topics vary. Prerequisite: permission. Cr 1-3.

LIN 434 Advanced Interpreting and Research

This course requires participation in the capstone course LIN 435 but instead of practicum, the student will complete an advanced research project related to interpreting. Prerequisites: LIN 332, 333, 334, and grade of 2 or better on ASLA or ASLPI or permission of instructor. Cr 6.

LIN 435 Advanced Interpreting and Practicum I

This capstone course requires completion of the student's professional interpreting portfolio and a 90-hour supervised practicum. Students will demonstrate competence interpreting a range of dialects and registers of ASL and English produced by both children and adults and will journal their assignments with a focus upon Demand-Control Schema, analysis of the interpreting process, and ethical considerations. Prerequisites: LIN 332, 333, 334, and grade of 2 or better on ASLA or ASLPI and permission of instructor. Cr 6.

LIN 436 Practicum II

This course is a second 90-hour supervised practicum at a more advanced level. Students in Practicum II more likely to be placed in agency environments and as apprentices in specialized settings. Over the course of the practicum, students are expected to demonstrate increasing evidence of work-readiness. While they may eventually accept assignments for pay as deemed appropriate by their supervisors, they may not count paid hours toward practicum. All assignments will be journaled with a focus upon Demand-Control Schema, analysis of the interpreting process, and ethical considerations. Prerequisites: LIN 435. Cr 3.

LIN 490 Introduction to Language Research

An introduction to basic aspects of the experimental study of human linguistic abilities. This will include coverage of the identification of viable research questions, literature reviews, special considerations for materials preparation for language experiments, research design, sampling, control of artifacts, data handling, analysis, some special statistical considerations, and reporting conventions. Students will also be introduced to various computer resources relevant to these matters. Prerequisites: LIN 311, 312, 313, 314, and 315 (one of which may be taken concurrently); PSY 105, MAT 120, or an equivalent course. Cr 3.

LIN 498 Thesis

The topic for this thesis must be selected in consultation with the student's advisor and approved by the linguistics faculty. Students will meet regularly with their advisor as they work on the project. The finished thesis must be approved by the linguistics faculty, and should ideally be completed by the end of the fall semester of the student's senior year. Prerequisites: LIN 310 or 311, LIN 312-314, and LIN 315 or 390, as well as approval of project proposal. Cr 3.

*American Sign Language***ASL 101 Beginning American Sign Language I**

This is a beginning course in American Sign Language (ASL). It will include extensive study of receptive and expressive use of ASL, as well as an introductory discussion of Deaf culture. Course content covers basic principles in the use of sign, sign vocabulary, and aspects of the grammar of ASL. In addition to class sessions, students will use written and videotape materials out of class. Cr 4.

ASL 102 Beginning American Sign Language II

This is the second beginning course in American Sign Language (ASL). Prerequisite: ASL 101 or departmental permission. Cr 4.

ASL 201 Intermediate American Sign Language I

This is the third in a four-course sequence in American Sign Language (ASL). The course includes extensive work on receptive and expressive use of ASL. It emphasizes the grammatical structure of ASL, particularly its morphology, syntax, and semantics. In addition to class sessions, students will use written and videotape materials out of class. Prerequisite: ASL 102 or departmental permission. Cr 4.

ASL 202 Intermediate American Sign Language II

Continuation of ASL 201. Prerequisite: ASL 201 or departmental permission. Cr 4.

ASL 301 ASL Literature in ASL

This course, conducted in ASL, introduces Deaf and hearing students to American Sign Language literature, including introductions and face-to-face narratives, as well as literary genres such as the ASL epic poem, stream of consciousness poetry, allegory, and historical fiction. Structural characteristics of the ASL platform narrative and the written English essay are compared and contrasted. Prerequisite: ASL 202 or equivalent, and grade of 2 or better on ASLA or ASLPI. Cr 3.

ASL 302 ASL Linguistics in ASL

This course focuses on advanced aspects of ASL grammar including complex co-reference, the scope of non-manual grammatical markers, quantification, complex classifier choice, verbs of motion and location, and complex aspectual marking and agreement. Students receive diagnostic feedback throughout the course and are given specific remedial studies to pursue independently. Prerequisites: ASL 202 and grade of 2 or better on ASLA or ASLPI, or LIN 305, and LIN 312 or 313. Cr 3.

ASL 303 Deaf Art, Film, and Theatre in ASL

This course will examine Deaf culture as expressed in art, film, and theatre. Selections of Deaf art, film, and theatre from the 1900s to the present based on the Deaf experience will be discussed in the context of social and cultural history. The course will be taught in ASL. Prerequisites: ASL 202 and LIN 203. Cr 3.

ASL 401 Advanced American Sign Language I

This is the fifth in a sequence of courses in American Sign Language. This course focuses on advanced expressive skills, including explaining, rephrasing, demonstrating, and persuading. Grammatical principles and functions will be emphasized. Aspects of grammar that will be expanded include classifiers, conditional sentences, rhetorical questions, and relative clauses. Appropriate cultural behaviors and conversational regulators in ASL will continue to be an important part of class. Prerequisite: grade of at least B in ASL 202I or equivalent, and grade of 2 or better on ASLA or ASLPI. Cr 4.

ASL 402 Advanced American Sign Language II

Continuation of ASL 401. Prerequisite: ASL 401, and grade of 2 or better on ASLA or ASLPI, or departmental permission. Cr 4.

Mathematics and Statistics

Department location: 302 Payson Smith, Portland

Professors: El-Taha, Guay, Gupta; Associate Professors: Aboueissa, McCormick, Peng, Valdés; Lecturers: Brunette, Moore, Woodman

The Department of Mathematics and Statistics offers a four-year program leading to a B.A. in mathematics. In addition to meeting Departmental requirements for a major, all students must also meet the requirements of the school or college involved, and the University Core curriculum requirements.

Programs and Requirements

I. Bachelor of Arts in Mathematics

The minimum number of credits (exclusive of the University's Core curriculum) required for a bachelor of arts in mathematics is 45 (30 in foundations and 15 in one of the three concentrations listed below).

A. Foundations

As a mathematics major, a student may select one of the three concentrations described below in section B. For each concentration all majors are required to complete successfully the foundations sequence as described in this section. Each student must have an accumulative grade point average of at least 2.0 in major courses before being considered for a baccalaureate degree in mathematics.

Foundations Sequence (Required of all majors in mathematics)		(30 Credits)
MAT 152	Calculus A	4 cr
MAT 153	Calculus B	4 cr
MAT 252	Calculus C	4 cr
MAT 281	Introduction to Probability	3 cr
MAT 282	Statistical Inference	3 cr
MAT 290	Foundations of Mathematics	4 cr
MAT 295	Linear Algebra	4 cr
COS 160	Structured Problem Solving: Java	3 cr
COS 170	Structured Programming Laboratory	1 cr

B. Concentrations

Each mathematics major should choose one of the following concentrations. (15 credit hours)

1. Pure Mathematics Concentration

Mathematics majors intending to pursue graduate work in mathematics should consider this concentration, and they are urged to take Real Analysis, Abstract Algebra, Topology, and one year of French or German. Those intending to teach at the secondary level should choose this concentration.

a. Successful completion of three of the courses listed below:

MAT 352	Real Analysis
MAT 355	Complex Analysis
MAT 395	Abstract Algebra
MAT 490	Topology
MAT 370, 371	Non-Euclidean or College Geometry

b. Successful completion of at least two additional mathematics courses numbered 260 or above.

2. Applied Mathematics/Operations Research Concentration

Those majors intending to enter industry or other applied fields should seriously consider this concentration. Majors who plan to prepare for the actuarial profession should be certain to include in their programs Numerical Analysis and the appropriate courses in the School of Business. Majors intending to pursue graduate work in applied mathematics are urged to take Real Analysis and Abstract Algebra.

a. Successful completion of three of the courses listed below:

MAT 350	Differential Equations
MAT 364	Numerical Analysis
MAT 366	Deterministic Models in Operations Research
MAT 383	System Modeling and Simulation
MAT 460	Mathematical Modeling
MAT 461	Stochastic Models in Operations Research
MAT 492	Graph Theory and Combinatorics

b. Successful completion of at least two additional mathematics courses numbered 260 or above.

3. Statistics Concentration

This concentration is aimed at preparing the undergraduate to pursue a career as a statistician in government jobs or industrial jobs or to pursue a higher degree in statistics or allied fields. Majors intending to pursue graduate work in statistics are urged to take Real Analysis and Abstract Algebra.

a. Successful completion of three of the courses listed below:

MAT 383	System Modeling and Simulation
MAT 386	Sampling Techniques
MAT 388	Statistical Quality Control
MAT 484	Design and Analysis of Experiments

b. Successful completion of at least two additional mathematics courses numbered 260 or above.

II. Secondary Mathematics Education

This program is for students who want to become certified to teach 7-12 mathematics in Maine. The program has been designed jointly with the College of Education and Human Development. Interested students should see the secondary mathematics coordinator for full details of the program early in their time at USM.

The state of Maine has a number of non-academic requirements for teacher certification (fingerprinting and passing scores on Praxis I and II, for example); only academic requirements are listed below.

Successful completion of the following courses:

a. Mathematics Preparation

Mathematics major specializing in the pure math concentration, including the following required courses:

MAT 352	Real Analysis or MAT 490 Topology
MAT 371	College Geometry
MAT 395	Abstract Algebra

A natural science elective (This course will count as one of the two required upper-level mathematics electives and cannot be the same course as the natural science Core K course.)

b. Pre-candidacy Education Preparation

EDU 220/221	Middle School Community
MME 445	Teaching 7-12 Mathematics in Maine: Curriculum and Capstone Course

c. Professional Preparation

(For descriptions of courses at level 500 and above, see the graduate catalog)

EDU 220/221	Middle School Community
EDU 527	Understanding and Teaching Diverse Learners
EDU 514	Improving Teaching in Content Areas through Literacy
EDU 541	Seminar on Teaching, Learning, and Assessment I
EDU 542	Seminar on Teaching, Learning, and Assessment II
EDU 544	Applied Pedagogy
EDU 546	Professional Internship in Secondary Education
EDU 550	Instructional Strategies
EDU 552	Teach Science K-8
MME 554	Secondary Mathematics Methods
SED 540	Nature and Needs of Learners Who Are Exceptional

III. Certificate Program in Applied Statistics

The Department of Mathematics and Statistics offers a certificate program in applied statistics, designed for people in area businesses, industry, government, and education, as well as offering to the Department's own majors an opportunity for further recognition of their skills. It is helpful for students who want to pursue a master's program in statistics but who need first to fill in some advanced undergraduate work.

The requirements for the certificate are successful completion of:

MAT 281 and MAT 282 or the equivalent and five of the following courses:

MAT 386	Sampling
MAT 388	Statistical Quality Control
MAT 461	Stochastic Models in O.R.
MAT 484	Design and Analysis of Experiments
MAT 498	Topics

Students must contact the Department chair about application to the program. The courses are offered during the late afternoon to make them more accessible to working people.

IV. Minor in Mathematics

The minimum number of credits (exclusive of the University's Core curriculum) required for the minor: 22.

An accumulative grade point average of at least 2.0 in these courses must be maintained, and successful completion of the following courses: MAT 152; MAT 153; MAT 290; COS 160; COS 170; plus two additional MAT courses with second digit 5 or greater.

V. Minor in Statistics

The minimum number of credits (exclusive of the University's Core curriculum) required for the minor in statistics: 18.

Students must satisfy the following requirements with a GPA of at least 2.0:

- MAT 152 and MAT 264
- Either MAT 281 or MAT 380
- Three additional courses from among MAT 282, MAT 387, MAT 386, MAT 388, MAT 461, and MAT 484.

VI. Master of Science in Statistics 4 + 1 Program

The Department offers a 4 + 1 master's program in statistics, where interested and qualified undergraduate students enrolled in various programs at USM can earn both an undergraduate degree and the M.S. degree in statistics in five years by carefully selecting their courses. The program offers several areas of concentration, such as applied statistics, applied mathematics, operations research, and biostatistics. For acceptance into the 4 + 1 program, students must have at least junior standing and must have completed MAT 153, MAT 281, and MAT 282, or their equivalents, with a cumulative GPA of at least 2.75. Students who enroll in the program after the junior year may not be able to complete both degrees in five years. For further information, refer to the graduate catalog or contact the Department.

It is expected that students will possess and be able to operate a basic scientific calculator if they enroll in mathematics courses.

MAT 101 College Readiness Mathematics

This course reviews and reinforces the basic arithmetic and algebra skills and concepts needed for entry into the University's general education pathways. The course is based on student learning outcomes and uses mastery learning pedagogy. A grade of C- or better is needed to meet the University's mathematics readiness requirement. Prerequisites: MAT 009 or appropriate University placement test score. Cr 4.

MAT 105 Mathematics for Quantitative Decision Making

This is an introductory course in quantitative literacy that, through lecture and lab, emphasizes critical thinking, mathematical reasoning, and technological tools. Topics are selected to develop an awareness of the utility of mathematics in life and to instill an appreciation of the scope and nature of its decision making potential. Prerequisite: successful completion of the University's college readiness requirement in mathematics. Cr 4.

MAT 108 College Algebra

A more in-depth study of the topics introduced in MAT 101. The emphasis will be on the study of functions (polynomial, rational, logarithmic, exponential) and their graphs. Additional topics may include matrices, sequences, counting techniques, and probability. Through the activity-based lab component, applications and modeling will be stressed. Prerequisite: Successful completion of the University's college readiness requirement in mathematics. Cr 4.

MAT 120 Introduction to Statistics

An introduction to probability and statistics through lecture and lab. Particular topics include random variables and their distributions, methods of descriptive statistics, estimation and hypothesis testing, regression, and correlation. Prerequisite: successful completion of the University's college readiness requirement in mathematics. Cr 4.

MAT 131 Number Systems for Elementary Teachers

This is the first course in a three-course sequence in mathematics recommended by the Committee on the Undergraduate Mathematics Program of the Mathematical Association of America for prospective primary and elementary teachers. Major emphasis is placed on an intuitive approach to the real number system and its subsystems. Prerequisite: successful completion of the University's college readiness requirement in mathematics. Cr 3.

MAT 140 Pre-Calculus Mathematics

A brief review of elementary algebra followed by a study of the algebraic, exponential, logarithmic, and trigonometric functions. Prerequisites: successful completion of the University's college readiness requirement in mathematics and two years of high school algebra or MAT 108. Cr 3.

MAT 145 Discrete Mathematics I

This course is an introduction to discrete mathematics necessary for a study of computer science. Topics will include a study of functions, sets, basic logic systems, and combinatorics. Prerequisite: MAT 108 or permission of instructor. Cr 3.

MAT 148 Applied Calculus

An introduction to limits and differential and integral calculus of algebraic and transcendental functions of one variable. Applications of derivatives and definite integrals with an emphasis on problems from the fields of technology will be introduced. Graphing calculators and computer technology will be used when appropriate. Prerequisite: MAT 140. Cr 3.

MAT 152 Calculus A

The first course in a three-semester sequence covering basic calculus of real variables, Calculus A introduces the concept of limit and applies it to the definition of derivative and integral of a function of one variable. The rules of differentiation and properties of the integral are emphasized, as well as applications of the derivative and integral. This course will usually include an introduction to the transcendental functions and some use of a computer algebra system. Prerequisite: successful completion of the University's college readiness requirement in mathematics and two years of high school algebra plus geometry and trigonometry or MAT 140. Cr 4.

MAT 153 Calculus B

The second course in a three-semester sequence covering basic calculus of real variables, Calculus B usually includes techniques of integration, indeterminate forms and L'Hopital's Rule, improper integrals, infinite series, conic sections, parametric equations, and polar coordinates. Prerequisite: MAT 152. Cr 4.

MAT 180/EGN 180 Programming with Mathematica

This course offers an introduction to programming with Mathematica. This course is designed to introduce students to Mathematica's traditional and unique programming features to help them solve typical computational problems encountered in sciences and engineering effectively and efficiently. This course includes many practical examples and hands-on exercises. Prerequisite: None. Cr 1.

MAT 181/EGN 181 Computing with Mathematica

This course offers an introduction to computing with Mathematica. This course is designed to introduce mathematics, science, and engineering students to the basic features of Mathematica, to help them solve typical computational problems encountered in their disciplines effectively and efficiently. This course includes many practical examples and hands-on exercises. Prerequisite: None. Cr 1.

MAT 201 Teaching Seminar

A seminar intended to expose students to teaching introductory college mathematics courses. Students will be expected to participate in discussions concerning issues of pedagogy and classroom management. Some classes will be student-led. Cr 1.

MAT 210 Business Statistics

This course investigates graphical and numerical methods of descriptive statistics; basic probability; discrete and continuous random variables and their distributions (binomial, hypergeometric, Poisson, uniform, exponential, and normal); sampling distributions; estimation; tests of hypotheses; and other selected topics. Applications will be chosen primarily from business. Prerequisite: MAT 108 (may be taken concurrently). Cr 4.

MAT 220 Statistics for the Biological Sciences

This course treats basic statistical methods as applied to the biological sciences. The topics emphasized are descriptive statistics, discrete and continuous distributions, statistical estimation, hypothesis testing procedures, chi-square methods (goodness of fit and two-way tables), analysis of variance, and simple and multiple regression. Students will use at least one computer-based statistical package. Prerequisite: MAT 152. Cr 4.

MAT 231 Algebra for Elementary Teachers

The second course in a three-course sequence in mathematics recommended by the Committee on the Undergraduate Mathematics Program of the Mathematical Association of America for prospective primary and elementary teachers. Emphasis is upon the properties of operations in several different algebraic systems. Equations are studied in finite systems as well as in conventional algebra. Prerequisite: MAT 131. Cr 3.

MAT 232 Geometry for Elementary Teachers

The third course in a three-course sequence in mathematics recommended by the Committee on the Undergraduate Mathematics Program of the Mathematical Association of America for prospective primary and elementary teachers. Emphasis is upon constructions, congruence, parallelism, and similarity. Direct and indirect methods of proof are studied, but the main approach is intuitive. Prerequisite: MAT 131. Cr 3.

MAT 242 Applied Problem Solving

This course is designed to introduce mathematical concepts and apply them to solving problems in various contexts. The focus will be on mathematical ideas required by Maine's Learning Results. Topics include sets, functions, logic, numeration systems, and number theory. Students will formulate key questions, gather and organize data, discover patterns and similarities, and interpret and communicate information. Offered only at Lewiston-Auburn College. Prerequisite: MAT 108 Cr 3.

MAT 252 Calculus C

The third course in a three-semester sequence covering basic calculus of real variables, Calculus C includes vectors, curves and surfaces in space, multivariate calculus, and vector analysis. Prerequisite: MAT 153. Cr 4.

MAT 260 Technological Tools for the Mathematical Sciences

MAT 260 is designed for students in mathematics and disciplines which utilize mathematics. Specific topics will include the computer algebra system Mathematica and the technical word-processing system TEX. Prerequisite: MAT 152. Cr 2.

MAT 264 Statistical Software Packages

This course will use statistical packages such as SAS and MINITAB to introduce commonly used statistical methods in a non-theoretical manner. Particular topics might include summary measures, calculation of probabilities associated with various discrete and continuous distributions, confidence intervals and hypothesis testing, analysis of variance, regression, and various non-parametric methods. Some of these methods will be used to analyze real data collected during previous faculty consulting projects. Prerequisite: MAT 212 or consent of Department chair. Cr 2.

MAT 281 Introduction to Probability

This course will cover basic concepts of probability, including discrete and continuous random variables and their distributions, moment generating functions, and bivariate random variables and their distributions. Some basic sampling distributions will also be discussed. Prerequisite: MAT 153. Cr 3.

MAT 282 Statistical Inference

This course will examine various statistical methods and applications such as point and interval estimation; methods of estimation including methods of moments, maximum likelihood and least squares method; hypothesis testing; simple and multiple linear regression; and one-factor and two-factor ANOVA. Some statistical packages such as SAS or MINITAB will be used extensively throughout the course. Prerequisite: MAT 281 or permission of instructor. Cr 3.

MAT 290 Foundations of Mathematics

Selected topics in set theory, symbolic logic, and methods of proofs needed in more advanced mathematics courses. Prerequisite: MAT 153 or permission of the instructor. Cr 4.

MAT 292 Theory of Numbers

Basic course in number theory, including such topics as divisibility properties of integers, prime numbers, congruences, multiplicative number theoretic functions, and continued fractions. Prerequisite: MAT 290 or permission of the instructor. Cr 3.

MAT 295 Linear Algebra

An introduction to the theory of vector spaces and linear transformations. Particular topics will include the study of systems of linear equations, matrices, determinants, Euclidean vector spaces, inner product spaces, and theory of diagonalization. Students will use a computer algebra system for projects. Prerequisite: MAT 153 or permission of the instructor. Cr 4.

MAT 350 Differential Equations

A study of various methods for solving ordinary differential equations, including series methods and Laplace transforms. The course also introduces systems of linear differential equations, Fourier series, and boundary value problems. Prerequisite: MAT 252. Cr 4.

MAT 352 Real Analysis

Limits, continuity, differentiation and integration of functions of one or more real variables, infinite series, uniform convergence, and other selected topics. Prerequisites: MAT 252 and MAT 290 or permission of the instructor. Cr 3.

MAT 355 Complex Analysis

A study of the complex number system and its applications: differentiation and integration of complex valued functions, the Cauchy integral theorem and formula, Taylor and Laurent series, singularities and residues, conformal mappings. Prerequisite: MAT 252 and MAT 290 or permission of the instructor. Cr 3.

MAT 364 Numerical Analysis

A study of the theory and application of computational algorithms for interpolation, equation solving, matrix methods, integration; error analysis. Prerequisites: MAT 252, MAT 295, and COS 160; or permission of instructor. Cr 3.

MAT 366 Deterministic Models in Operations Research

Formulation and analysis of mathematical models for the optimal solution of decision making problems under certainty. Linear programming; the simplex method, duality and sensitivity analysis. Network analysis: shortest paths, minimal spanning tree, network flows. Introduction to non-linear optimization: convex programming, Kuhn-Tucker conditions. Applications to pricing, allocation, production planning, transportation and scheduling problems. Prerequisites: MAT 153 and MAT 295. Cr 3.

MAT 370 Non-Euclidean Geometry

A development of one or more of the non-Euclidean geometries. Prerequisite: MAT 290 or permission of the instructor. Cr 3.

MAT 371 College Geometry

Selected topics from Euclidean geometry. Prerequisite: MAT 290 or permission of the instructor. Cr 3.

MAT 380 Probability and Statistics

This course explores concepts and techniques of collecting and analyzing statistical data, examines some discrete and continuous probability models, and introduces statistical inference, specifically, hypothesis testing and confidence interval construction. Not for mathematics major credit. Prerequisite: MAT 153. Cr 3.

MAT 383 System Modeling and Simulation

This course is designed to introduce the fundamental elements of successful system modeling using simulation. Applications to computer, communications, and inventory systems, as well as to traditional engineering problems, will be discussed. Topics include model validation and verification, input/output analysis, and the generation of various types of random data. Students are required to conduct a simulation project in their area of interest using a simulation language. Prerequisite: MAT 281 or MAT 380. Cr 3.

MAT 386 Sampling Techniques

Sample random sampling, stratified random sampling, sampling for proportions, estimation of sample size, systematic sampling, multistage sampling, regression and ratio estimates, non-sampling error. Prerequisite: MAT 282 or MAT 380. Cr 3.

MAT 387 Introduction to Applied / Biostatistical Methods

This is an introductory statistical methodology course with emphases on applications in biological and health sciences. Topics include distributional theory, estimation and testing hypotheses, rank-based and related distribution free tests, large sample chi-squared tests, analysis of rates and proportions, paired sample methods, permutation and re-sampling methods. Writing formal statistical reports of projects based on real life data is a key component of the course. Prerequisite: permission of instructor. Cr 3.

MAT 388 Statistical Quality Control

Some aspects of quality specifications and tolerances, control charts for attributes and variables, certain inspection plans, plans by attributes and by variables, simple, double, and sequential sampling plans. Prerequisite: MAT 282 or MAT 380. Cr 3.

MAT 395 Abstract Algebra

Algebraic structures, such as groups, rings, integral domains, and fields. Prerequisite: MAT 290 or permission of the instructor. Cr 3.

MAT 460 Mathematical Modeling

An introduction to the process of formulating problems in mathematical terms, solving the resulting mathematical model and interpreting the results and evaluating the solutions. Examples will be chosen from the behavioral, biological, and physical sciences. Prerequisites: junior or senior standing, some elementary calculus including differentiation and integration, elementary probability, and some computer programming experience. Cr 3.

MAT 461 Stochastic Models in Operations Research

This course applies probabilistic analysis to such nondeterministic models as queueing models, inventory control models, and reliability models. Additional topics include simulation, elements of dynamic programming, and Markov decision analysis. Prerequisite: MAT 281 or MAT 380, or permission of instructor. Cr 3.

MAT 484 Design and Analysis of Experiments

This course is intended to acquaint students with such standard designs as one-way, two-way, and higher-way layouts, Latin-square and orthogonal Latin-square designs, BIB designs, Youdeen square designs, random effects and mixed effect models, nested designs, and split-plot designs. Prerequisites: MAT 295 and either MAT 282 or MAT 380, or permission of instructor. Cr 3.

MAT 485 Introduction to Applied Regression

This is an introduction to linear regression and time series analysis. Topics include model building, model diagnostics using residual analysis, choice of models, model interpretation, linear time series models, stationary processes, moving average models, autoregressive models, and related models. Technical writing for project reports is required for this course. Prerequisite: MAT 282. Cr 3.

MAT 487 Introduction to Categorical Data Analysis

This is an introductory course in analyzing categorical data arising from a variety of fields such as biological, biomedical and health sciences, social science, engineering, etc. The topics include contingency table analysis, logistic regression and Poisson regression modeling and model diagnostics. Writing formal statistical reports of projects based on real life data is a key component of the course. Prerequisite: permission of instructor. Cr 3.

MAT 490 Topology

An introduction to fundamental concepts in topology, including topological spaces, mappings, convergence, separation and countability, compactness, connectedness, metrization, and other selected topics. Prerequisites: MAT 252 and MAT 290 or permission of the instructor. Cr 3.

MAT 492 Graph Theory and Combinatorics

This course is designed to acquaint students with some fundamental concepts and results of graph theory and combinatorial mathematics. Applications will be made to the behavioral, managerial, computer and social sciences. Prerequisite: MAT 290 or permission of the instructor. Cr 3.

MAT 497 Independent Study in Mathematics

An opportunity for juniors and seniors who have demonstrated critical and analytical capability to pursue a project independently, charting a course and exploring an area of interest within their major field. Prerequisites: junior or senior standing, permission of the instructor, and permission of the Department chair. Cr 1-3.

MAT 498 Topics

Selected topics in advanced mathematics. Prerequisite: permission of instructor. Cr 3.

*Mathematics Education***MME 445 Teaching 7-12 Mathematics in Maine: Curriculum and Capstone Course**

Critical study of programs and techniques for teaching and learning mathematics in grades 7-12 for the slow, average, and advanced pupil, with the use of instructional media. Prerequisites: EDU 210, HRD 200, and 30 credit hours toward a mathematics major, or permission of the instructor. Cr 3.

School of Nursing

Director of Nursing: Krista Meinersmann

Coordinator of Graduate Nursing Program: Marjorie Thomas Lawson

Coordinator of Undergraduate Nursing Programs: Elizabeth Elliott

Faculty in Nursing

Professors: Childs, Harris, Spross; *Associate Professors:* Farmer, Fournier, Hart, Johnson, Lawson, Meinersmann, Moody, Peake-Godin, Sepples; *Assistant Professors:* Baugh, Caplan, Fackler, Randall (Carla), Samia, Yetter; *Instructors:* Caton-Lemos, Dvorak, Elliott, Lamberson, Martin, Randall (Cynthia); *Lecturers:* Bowder, Goldenberg; *Associate Professors Emeritae:* Burson, Healy, Keith, MacPherson, Normandeau, Rodgers, Tiffany, Tukey, Vines, Woods Smith; *Assistant Professor Emerita:* Nealand

The School of Nursing (SON) offers programs leading to a Doctor of Nursing Practice, baccalaureate and master's degrees in nursing. In addition, it offers a minor in holistic and integrative health and certificates in nursing education and holistic health. Special study options are available for registered nurses seeking to attain a baccalaureate or master's degree in nursing and for students who hold a baccalaureate degree in another field who are interested in a baccalaureate or master's degree in nursing. The nursing programs are approved by the Maine State Board of Nursing and accredited by the Commission on Collegiate Nursing Education (CCNE).

Philosophy of the School of Nursing

The philosophy of the School of Nursing (SON) is consistent with the mission of the University of Southern Maine. The philosophy of the School of Nursing is built on the concept of community. This community of scholarship creates an environment for reflective learning, faculty and student interactions, and partnering with persons of diverse backgrounds. The faculty are committed to facilitating progress toward current national health care goals and initiatives. The faculty believe in fostering the health of individuals, families, and communities across the lifespan. The faculty believe that nursing practice should occur within a holistic, nurturing, and health promotion framework. The faculty believe in providing education through a model that emphasizes critical thinking, articulate communication, and understanding interdisciplinary care strategies within changing economic and health care systems. The faculty support professional value development and value-based practice that include caring, ethics, social justice, and personal and community empowerment. Our philosophy supports multiple ways of knowing, emphasizes reflective evidence-based nursing practice, and promotes lifelong learning.

The programs of the School of Nursing are subject to change at any time without notice in advance. For more information on the SON visit the Web site at www.usm.maine.edu/nursing.

Commitment to Civility

The concepts of community and social justice are central to the mission and philosophy of the University of Southern Maine School of Nursing. Faculty, students, and staff are committed to promoting a healthy and just environment that supports transformative learning, academic integrity, open communication, and personal and professional growth among the diverse members of our academic community. We believe that these commitments are grounded in intellectual openness, in personal and professional accountability, and in the democratic values of inclusion and mutual respect that are guided by rational discourse and by a relational ethic of care.

We are grateful for the opportunities to learn and work with peoples of diverse ethnic, racial, religious, cultural, political, and economic backgrounds as well as with people who are disabled and people of different gender, sexual orientation, and age. Acknowledging the ethics and values that underlie the health professions, it is our belief that these ethics and values should be recognized, practiced, and cultivated in our learning and work environments. Our goal is to increase the awareness of students, staff, and faculty to the importance of civility, its implications, and the behaviors that are acceptable and not acceptable in our learning community.

Civility is the art of treating others, as well as ourselves, with respect, dignity, and care. Civility is apparent when we are sensitive to the impact that our communications, practices, and behaviors have on others, and when we acknowledge each person's self-worth and unique contributions to the community as a whole.

As members of the School, we are committed to learning and practicing in ways that support a caring and socially just community. The following are examples of how we create and sustain civility.

1. Support the autonomy and just treatment of self and others by facilitating an open, respectful, and caring environment.
2. Accept responsibility and accountability for one's own behavior when interacting with students, faculty, and staff.
3. Respect and protect the rights and property of others.
4. Speak or behave in a manner that does not disrupt or interfere with the learning or work of others.
5. Practice personal and academic integrity and expect it from others.
6. Demonstrate respect for others by actively discouraging prejudice, bias, bigotry, violence, coercion or intimidation against any member of the academic community.
7. Demonstrate a willingness to listen and be open to hearing the perspectives of others. This includes actively seeking to hear from and making a safe space for voices of dissent.
8. Explore controversial issues through open dialogue and respectful deliberation.
9. Respect freedom of expression while recognizing that such tolerance does not require agreement with expressed ideas.
10. Engage institutional resources and persons to resolve conflict when necessary.

We will not tolerate disrespectful or abusive speech and/or disruptive behavior from individuals or groups. Everyone has the responsibility to foster a safe and supportive learning and work environment. This can include any individual asking others to stop disrespectful or abusive speech and/or disruptive behavior. Collectively, faculty, staff, and students in the School of Nursing are responsible for ensuring a safe and supportive learning and work environment.

Bachelor of Science in Nursing

This program prepares individuals to begin their nursing practice in a variety of health care settings and in specialty areas. Graduates possess the foundation needed to assume beginning leadership and management positions and to begin graduate studies. The regular B.S. in nursing and the R.N. studies option are available in both Portland and Lewiston-Auburn. The accelerated B.S. and the second degree option program are available in Portland.

The baccalaureate nursing program requires the completion of 120-128 credits of study and culminates in a baccalaureate degree. Graduates are eligible to sit for the National Council Licensure Examination (NCLEX-RN) upon completion of the program.

Admission and Non-academic Requirements

In addition to requirements established for admission to the University, the undergraduate nursing program requires high school chemistry and biology with labs. See admission section of the catalog for further requirements.

Because so much of the baccalaureate nursing program entails supervised clinical experience, the nursing faculty reserves the right to limit enrollments. Admission to the program is highly selective. The process includes consideration of SAT scores (for first year applicants), academic record and a required essay.

Any student enrolled in nursing courses must be advised by a nursing advisor. Transfer admission into the nursing major is available according to the number of open seats in a cohort-based system. Admission of transfer students will be done once a year in mid-April. Internal and external applicants may apply for transfer with a minimum of 30 credits and a minimum GPA of 3.0. First-year applicants internal to USM with 32 or fewer credits, a GPA of 3.0 and specific prerequisite requirements (completed English and math readiness, English composition or equivalent, anatomy and physiology I or chemistry, and two of the following three social sciences: introduction to sociology, human growth and development, or introduction to psychology) may apply for a change of major to nursing in consultation with the nursing advisor. Prior to enrolling in 300-level clinical nursing courses, a student must have a minimum GPA of 2.67 in the required natural science courses (see prerequisite areas/natural science requirements) and an overall GPA of 2.75. The overall GPA must be maintained throughout the program of study.

The University policy exempting immunization requirements for students born prior to 1956 does not apply to nursing students. Because health care workers are at a higher risk for certain illnesses, all students must meet the health requirements of the School of Nursing. These requirements are listed in the student handbook, and on the School's Web site. All health requirements must be met and the documentation must be on file in the School of Nursing (SON) prior to entry into clinical courses, beginning with NUR 212/213. Students are required to provide verification of compliance with health requirements throughout their program. Failure to comply with maintenance of health requirements will result in removal from all courses. Students must be certified in professional rescuer cardiopulmonary resuscitation (CPR) and have health insurance, equal to or better than the USM Student Health Insurance Basic Plan prior to entry into clinical courses.

Students must pay for and complete a comprehensive background check prior to starting clinical courses. Students must sign a disclosure agreement allowing the School to provide access to this background information to our clinical affiliates. Affiliates have the right to deny clinical placement based on criminal background. Denial of clinical placement will stop progression in the nursing program.

Students may be asked by some clinical agencies to meet other specific clinical requirements. For example, some agencies require drug screens prior to attending clinical in their agency. Students assigned to these agencies will be required to complete all items required by that particular agency.

The costs incurred by a USM SON student for health requirements and background check may provide for additional loan eligibility and/or can be built into the financial aid costs of attendance/education. Students are required to request consideration by the Financial Aid Office, including providing documentation of the actual costs incurred.

Nursing courses carry additional fees to cover laboratory costs and clinical nursing courses. A fee is assessed each semester to cover the cost of standardized tests. This fee includes the cost of a review course at the end of the program. Nursing majors must purchase uniforms and lab coats. Because clinical experiences occur in a variety of settings in the southern Maine area, students must provide their own transportation to rural as well as urban areas. Professional liability insurance is highly recommended for students in the nursing major and is required by some of our clinical agencies.

Academic Requirements

General Requirements

Students must fulfill general requirements by completing the Core curriculum, the Lewiston-Auburn College Common Core, the Russell Scholars Program or the University Honors Program. General requirements include courses fundamental to a baccalaureate education including English composition, quantitative decision making, critical thinking, natural and behavioral sciences, arts, and humanities. For graduation, no general education requirements or prerequisites may be taken pass-fail and no more than three credits of non-nursing elective may be taken pass-fail. Only one C- or D grade from the arts or humanities will be accepted. Otherwise, a minimum grade of C or above in these courses must be achieved. Grades of C- or below are not acceptable in any prerequisite course.

General education courses specific to the nursing major include:

Natural Science and Math Requirements

Human Anatomy and Physiology and Lab	8-9 credits
Chemistry for the Health Sciences	3 credits
Microbiology and Lab	4-5 credits
Human Nutrition	3 credits
Pathophysiology	3 credits
Statistics	3-4 credits

Social Science Requirements

Introductory Psychology	3 credits
-------------------------	-----------

Introductory Sociology *	3 credits
Human Growth and Development (life span preferred)	<u>3 credits</u>
	9 credits
Students completing the Core curriculum must complete	
9 credits of electives	<u>9 credits</u>
	9 credits

*Courses within a curriculum may integrate this course content.

Prerequisites to Sophomore Nursing Courses

The following courses must be taken before or concurrent with entry into sophomore level nursing laboratory courses (NUR 209/210 or NUR 212/213), in addition to having completed 24 credits and holding a minimum cumulative GPA of 2.75:

English Composition
 Human Anatomy and Physiology and Lab
 Chemistry for the Health Sciences
 Human Growth and Development
 Introductory Psychology
 Introductory Sociology*

In addition to sophomore-level prerequisite courses, the following courses must be taken before entry into junior-level clinical nursing courses and students must hold a minimum GPA of 2.75 and a science GPA of 2.67:

Course

Ethical Inquiry
 Introduction to Nursing
 Pathophysiology
 Microbiology and Lab
 Human Nutrition
 Health Assessment and Lab
 Nursing Arts and Science and Fundamentals of Nursing Lab
 Pharmacology
 In addition, Statistics must be completed before taking CON 321, Health-Related Research.

Upper Division Nursing Courses

Nursing content at the upper division is organized to facilitate the integration of nursing knowledge and skills and to draw on a foundation of learning from other disciplines. The nursing curriculum focuses on providing opportunities for students to develop skills in partnering with various community stakeholders to identify community strengths, resources, and needs. Courses focus on the promotion, maintenance, and restoration of health. Students have experiences which involve assessment, planning, implementation, and evaluation of care for individuals of all ages, in families, groups of clients, and communities across the health continuum. Inpatient and outpatient settings, community health agencies, public health settings, long-term care facilities, schools, and industries are used for clinical experiences.

Clinical nursing courses require 28 contact hours per credit except NUR 480 Practicum/Care Management, the final seven-week capstone clinical course. This course requires 168 contact hours, or 56 contact hours per credit. Students must take all required CON and NUR courses at USM.

Upper Division Nursing Courses

CON 302	Pharmacology	3 credits
CON 321	Health-Related Research	3 credits
CON 356	Concepts in Community Health	3 credits
NUR 323	Adult/Older Adult Health Nursing	3 credits
NUR 325	Adult/Older Adult Health Nursing Lab	4 credits
NUR 330	Mental Health Nursing	3 credits
NUR 331	Mental Health Nursing Lab	2 credits
NUR 332	Nursing Care of the Older Adult in the Community	3 credits
NUR 339	Community Nursing Partnerships I	2 credits
NUR 341	Community Nursing Partnerships II	2 credits
NUR 413	Advanced Nursing Skills Lab	1 credits
NUR 421	Reproductive and Sexual Health Nursing	3 credits
NUR 422	Reproductive and Sexual Health Nursing Lab	2 credits
NUR 423	Management of Critically Ill Adult/Older Adult	3 credits
NUR 425	Management of Critically Ill Adult/Older Adult Lab	2 credits
NUR 427	Child Health Nursing	3 credits
NUR 428	Child Health Nursing Lab	2 credits
NUR 470	Leadership, Management, and Ethics	3 credits
NUR 480	Practicum/Care Management	<u>3 credits</u>
		50 credits

Students are assigned to a cohort that follows a specific sequence of courses. Junior level clinical courses begin in either the fall or the spring semester in Portland and in the spring semester in Lewiston.

Students progress through lecture and clinical course combinations in the following sequence: Adult/Older Adult Health (NUR 323/325) and Mental Health (NUR 330/331); Reproductive and Sexual Health (NUR 421/422) and Child Health (NUR 427/428); and Management of Critically Ill Adults/Older Adults (NUR 423/413/425). NUR 423/425/413 is taken together as immersion courses in the first seven weeks of the final semester. Practicum (NUR 480) is a seven-week capstone clinical

course in the second seven weeks of the final semester. Students must complete the lecture/clinical course combination assigned for practicum placement prior to beginning this capstone experience.

Retention/Progression Policies

The following are exceptions or additions to University progression policies.

Both part-time and full time students in the nursing programs must maintain class standing according to hours accomplished, with a grade point average as follows:

Credit Hours	For Good Standing	For Probationary Standing
46-120	2.75	2.5-2.74
25-45	2.75	2.5-2.74
0-24	2.5	2.0-2.49

. By maintaining a 2.75 GPA or above during the upper-division years, the student maintains a standard appropriate to professional practice. The student must accomplish, as a minimum, a GPA for good standing according to the number of credits earned. A student who is unable to maintain a grade point average of 2.75 but whose average remains above 2.5 is on probation within the School of Nursing. Such a student may take support courses until his or her grade point average has been restored to the level of 2.75 or above, at which point progress in nursing lecture and clinical courses may resume. A student who is unable to maintain a grade point average of 2.5 will not be allowed to maintain matriculation in the School of Nursing and will be required to either change majors, be suspended, or be dismissed from the University according to its policies.

The lowest acceptable grade in required NUR/CON courses and their prerequisite courses is a grade of C. If placed on probation, a student has a maximum of two semesters to achieve a satisfactory cumulative GPA or the student will be suspended or dismissed. While on probation, the minimum semester GPA accomplished must be the GPA for good standing according to the number of credits earned (see above) or the student will be suspended. A student is suspended for one semester; the student will be dismissed at the end of the next enrolled semester if the GPA requirement is not met.

The School of Nursing reserves the right to accept and retain only those students who satisfy the requirements of scholarship and health necessary for nursing. A student who admits to or is found guilty of a violation of the American Nurses' Association guidelines for ethical practice (see School of Nursing Student Handbook) is subject to suspension or dismissal from the University. The Maine State Board of Nursing may refuse to grant a license on the basis of violation of academic or professional integrity or on the basis of criminal history record information relating to convictions denominated in Title 5, Chapter 341, Subsection 5301 of the Maine Revised Statutes Annotated.

Requisite to beginning junior-level clinical coursework, a student must achieve a natural science GPA of 2.67. The natural sciences consist of the following courses: Anatomy and Physiology I and II with labs, Chemistry, Microbiology with lab, Human Nutrition, and Pathophysiology. Students who do not achieve a natural science GPA of 2.67 after completing all prerequisite courses may not begin junior-level clinical courses. Students then have a maximum of one year between completing NUR 209/210, 212/213 and raising their natural science GPA to 2.67 in order to begin clinical coursework. Science courses may only be repeated once.

There must be no more than one year between completion of NUR 209/210, NUR 212/213, and CON 302 and starting NUR 323/325 or the course/courses will have to be repeated. There must be no more than one year between taking didactic/clinical course combinations. Three or more semesters without taking didactic/clinical nursing courses requires the student to repeat all didactic/clinical courses. Once a student begins NUR 323/325, the student must complete all degree requirements within four years.

Nursing lecture and clinical course combinations must be taken concurrently the first time a student is enrolled in each course. A grade of C- or below in a nursing lecture course or an F in a nursing clinical course (see low pass policy) will stop the student from registering for any other NUR clinical, NUR lecture, partnership, NUR 470 or NUR 480 course. In addition, students who receive a failing grade in a required clinical course which finishes partway through the semester may be withdrawn from all other concurrent clinical courses (required or elective). Only the course in which the unsatisfactory grade is received needs to be repeated. The student must achieve a grade of C or better, or a passing clinical grade in the course which is repeated before entering the next nursing lecture./clinical course combination or partnership. A course may be repeated only once. A student may repeat a maximum of two CON or NUR required courses, clinical or didactic, in which the student receives a grade of C- or less. An unsatisfactory grade in a third CON or NUR required course will result in dismissal from the nursing program. If a student receives an F in an elective NUR clinical course, they may not register to repeat that clinical elective or enroll in any other NUR clinical elective without permission of the Director of the School of Nursing.

The Undergraduate Admissions and Advancement Committee will review the academic record of any student who receives unsatisfactory grades in a given semester as follows:

1. Multiple unsatisfactory grades in prerequisite, nursing, and/or support courses;
2. A C-, D, F or L in one or more prerequisite, nursing and/or support course(s) when repeating the course due to an unsatisfactory grade;
3. An F in a nursing clinical or partnership course.

Academic actions may include probation, suspension or dismissal from nursing and/or the University. Matters of personal concern to the student will be considered. The Committee will recommend to the Director a decision regarding progression or dismissal. Appeals may be made to the Undergraduate Admissions and Advancement Committee. A request for exception to the policy must be initiated by the student.

Low Pass Grades

Low pass (LP) grades are used in clinical and partnership courses to inform students whose performance is near failing. Students are held accountable to address the weaknesses identified in their performance appraisal with subsequent clinical and partnership faculty. A second low pass grade constitutes an F and stops progression in clinical, didactic and partnership coursework (see above progression policies).

Incomplete Grades

A temporary grade may be assigned by a faculty member when a student, because of extraordinary circumstances, has failed to complete course requirements in a nursing course or CON required course. Incomplete grades in upper division nursing courses must be completed with a letter grade of C or better before progressing to the next course.

Graduation Requirements

To be eligible for graduation with a bachelor of science degree with a major in nursing, the student must have successfully completed all requirements, and a minimum of 120-128 credit hours with a minimum grade point average of 2.75.

Accelerated B.S.

Recognizing the desire of people with baccalaureate degrees in disciplines other than nursing to become nurses, the faculty has designed an accelerated program that leads to a B.S. in nursing in 15 months of full-time study. This program admits students through a competitive admissions process who have attained a minimum GPA of 3.0 on a 4.0 scale in their prior degree. Students must complete statistics and anatomy and physiology prior to beginning the program.. (More detailed information is available on the School of Nursing web site.)

Sample Curriculum Plan

BIO	345	Pathophysiology	3 credits
CON	252	Human Nutrition	3 credits
CON	302	Pharmacology	3 credits
CON	321	Health Related Research	3 credits
CON	356	Concepts in Community Health	3 credits
NUR	209/210	Total Health Assessment and Lab	5 credits
NUR	211	Nursing Role	1 credit
NUR	212	Nursing Arts and Science	3 credits
NUR	214	Fundamentals of Nursing Lab for Accelerated Students	2 credits
NUR	323/325	Adult/Older Adult Health Nursing	7 credits
NUR	330/331	Mental Health Nursing	5 credits
NUR	332	Nursing Care of the Older Adult in the Community	3 credits
NUR	413	Advanced Nursing Skills Lab	1 credit
NUR	421/422	Reproductive and Sexual Health Nursing	5 credits
NUR	423/425	Management of Critically Ill Adult/Older Adult	5 credits
NUR	427/428	Child Health Nursing	5 credits
NUR	436	Community Nursing Partnership I	2 credits
NUR	437	Community Nursing Partnership II	2 credits
NUR	470	Leadership and Management and Ethics	3 credits
NUR	480	Practicum/Care Management	3 credits

RN Studies Option

Recognizing the need and desirability for registered nurses to attain baccalaureate and master's degrees within Maine, the nursing faculty has designed two options for RNs—the first leading to a bachelor of science degree and the second (described in USM's graduate catalog) leading to a master of science degree. Realizing that RNs returning to school face many complexities, every effort is made to remain attentive and flexible in adjusting the plan of study and accommodating individual needs. Advice with prerequisites, course planning, and course sequencing for RNs may be obtained by contacting Brenda Webster at (207) 780-4802.

All RNs must fulfill the University's 30 credit residency requirement (6 credits earned at another UMS campus may be applied toward residency).

The SON recognizes a maximum of 30 nursing credits (RN credit options) transferred from an associate's degree nursing (ADN) program as basic nursing credits required in the baccalaureate program. These credits are applied toward fulfillment of the baccalaureate requirements for RN students who have successfully completed NUR 308, Professional Communication and Technology Utilization in Nursing. Nursing credits earned in the ADN program beyond the basic 30 credits above may be used as elective credit. RNs graduating from a diploma program will be awarded the basic nursing credits (30) for a fee, upon successful completion of NUR 308 Professional Communication and Technology Utilization in Nursing. Additional information may be obtained through the Office of Prior Learning Assessment.

The following courses must be completed, or may be available for credit by examination, prior to entry into the upper division nursing courses.

English Composition*	Anatomy and Physiology I and II**
General Psychology	Growth and Development
General Sociology*	Pathophysiology
Ethical Inquiry	Microbiology
Statistics (prior to CON 321) Chemistry**	

**Chemistry and anatomy and physiology requirements are waived with the successful completion (minimum grade of C) of pathophysiology.

University requirements in general education or the Core curriculum must meet the progression standards of those curricula, e.g., students taking the Lewiston Common Core (LCC) must complete all 100 level courses before 200 level, and 200 level courses prior to 300 level.

Students must take all required CON and NUR courses at USM.

Upper division nursing courses, in required sequence for RNs, include:

			<i>Credits</i>
A.	NUR 309/310	Health Assessment and Health Assessment Lab	4
	NUR 308	Professional Communication and Technology Utilization in Nursing	3
B.	NUR 314	RN Credit Options	30
	CON 321	Health-Related Research	3
	CON 356	Concepts in Community Health	3
	NUR 370	Theory for Clinical Practice	3
C.	NUR 419	Community Nursing Partnerships	2
	NUR 474	Leadership and Management for RNs	3
	NUR 476	Theory and Concepts of Nursing Practice	3

RN students must matriculate in the University prior to enrollment in the upper division nursing course sequence except for Health Assessment and Professional Communication and Technology Utilization in Nursing. Clinical courses may not be taken unless RN credit options have been completed and posted. USM and the University of Maine (UM) have a collaborative RN/BS option that is available through the University Network Education System (UNET). Students may take required and equivalent courses from the other campus for residency credit.

Once a student is matriculated the student is required to notify the Coordinator of the Undergraduate Nursing Programs of any change in status of their RN license.

Admission Requirements for the RN to BS Program

The RN applicant must (a) meet the general admission requirements of the University, (b) provide evidence of current licensure as a registered nurse in Maine, and (c) must have a GPA of 2.5 or better. Applications of those candidates with a GPA below 2.5 will receive consideration by the Undergraduate Admissions and Advancement Committee. All policies applicable to students in the baccalaureate program (refer to Retention/Progression Policies) also apply to students in the RN to BS option program.

Minor in Holistic and Integrative Health

The holistic and integrative health minor is designed to provide the foundations and philosophies of a holistic and integrative approach to health care and to examine the fundamental world view, diagnostic methods, and healing techniques utilized in the practice of various complementary healing modalities. A primary focus of the minor is the exploration of the issues that arise in moving toward an integrative approach to the needs of body, mind and spirit. This minor is open to all USM students, and may be of particular interest to nursing and health profession majors, to students preparing for work in the complementary health care field, to students in psychology, social work, and anthropology, or to any student interested in addressing personal health in a holistic manner. The minimum number of credits required to complete the minor is 18. Students may transfer up to six credits toward the completion of the minor from other universities.

Foundation courses (6 credits required)

- CON 280 Holistic Health I
- CON 281 Holistic Health II

Healing modalities (complete 6 credits from the following)

- CON 283 Healing and Spirituality
- CON 284 Botanical Therapies
- CON 285 Perspectives on Animal-Assisted Therapy
- CON 288 Reiki: Energy Medicine
- CON 311 Psychosocial Interventions for Older Adults
- CON 490 Therapeutic Touch

Wellness Knowledge and Development (complete 6 credits from the following)

- CON 219 Lifetime Physical Fitness and Wellness
- CON 252 Human Nutrition
- CON 270 Holistic Approach to Reproductive Health
- REC 110 Foundations of Recreation and Leisure

or

Two 1.5 credit RHF courses may be substituted for 3 credits under this category. Examples include:*

- RHF 102 Karate
- RHF 109 Beginning Weight Training
- RHF 117 Low Impact Aerobics
- RHF 118 Yoga
- RHF 122 Aerobic Kickboxing
- RHF 126 Stability and Physio-Ball Exercise
- RHF 127 Pilates

*Other RHF courses may be substituted with permission of appropriate faculty.

Graduate Program Offerings

MS Option (direct-entry) for Non-nurses with a baccalaureate degree

In response to the continued interest by individuals with baccalaureate degrees in other fields, an option (direct-entry) program leading to a master's degree (MS) in nursing is offered by the School of Nursing. Details regarding this graduate nursing program are found in USM's graduate catalog

The School of Nursing offers the master of science in nursing degree. One of the graduate programs is for advanced practice nurses and includes the following specialty concentrations: adult and family nurse practitioner; adult and family psychiatric/mental health nurse practitioner; adult psychiatric/mental health clinical nurse specialist; and adult health clinical nurse specialist. Other graduate programs include: the R.N. to master's for registered nurses; the clinical nurse leader, the nurse educator, the nurse manager concentration, the M.S. /M.B.A. concentration; the MS option (direct-entry) for non-nurses with baccalaureate degrees; and the accelerated master's for certified or state approved advanced practice nurses. The School also offers post-master's certificates of advanced study in all of the advanced practice specialties indicated above.

The School of Nursing offers the Doctor of Nursing Practice (DNP). The program is currently targeted to masters-prepared advanced practice nurses (nurse practitioners, clinical nurse specialist, nurse midwife, nurse anesthetist).

Courses with a CON prefix are listed at the end of nursing courses.

NUR 100 Introduction to Professional Nursing

This course orients students to the expectations of a baccalaureate education in nursing. Academic communication and critical thinking skills within the context of professional nursing are emphasized. Issues of ethical and professional accountability related to the role(s) of the nurse are explored. Historical and contemporary perspectives on the nature and scope of nursing practice are examined. Cr 3.

NUR 200 Introduction to Professional Nursing for Advanced Student

This course has been specifically designed for advanced students who are either transfer students with 60 or more credits or have a degree in another field. The course introduces career opportunities in health care as well as how prior learning and work experiences might build on and blend into a career in nursing. The historical and contemporary perspectives on the nature and scope of nursing will be investigated through utilization of online resources, advanced library skills, writing, and online discussion. Other topics will include skills of communication, critical thinking and the relationship between professional nursing and the broad base of theoretical and empirical knowledge derived from the behavioral and physical sciences and the humanities. Cr 3.

NUR 209/509 Health Assessment

This course provides knowledge and skills essential to conduct in-depth bio-psycho-social-cultural health assessment of well individuals throughout the life span. Emphasis is placed on data collection through effective communication and physical skills followed by data analysis and identification of nursing diagnoses. Prerequisites: Anatomy and Physiology I and II, NUR 100 and a GPA of 2.75. NUR509 is offered in the summer and is open only to option students. Cr 3.

NUR 210/508 Health Assessment Practicum

This laboratory course provides knowledge and skills essential to conduct an in-depth bio-psycho-social-cultural, holistic health assessment of well individuals through the life span. Emphasis is placed on data collection through development of communication and physical examination skills. Data will then be analyzed and nursing diagnoses developed. Concurrent with NUR 209. NUR 508 is offered in the summer and is open only to option students. Cr 2.

NUR 211/511 Nursing Role: Accelerated/Option

This seminar introduces accelerated and option program nursing students to content in nursing history, theory, and research. Students will consider the major constructs of nurse, health, and caring practice. It is a transitional course that seeks to prepare students for the accelerated programs of study at USM, provide a framework for understanding professional education, and for exploring the transition into nursing. Cr 1.

NUR 212/512 Nursing Arts and Science

This course introduces the student to concepts and skills basic to the art and science of nursing. The nursing process is introduced as a problem-solving tool and is used along with scientific principles in the teaching of foundational nursing therapeutics used in most practice settings. Prerequisites: 24 credits, a GPA of 2.75, and Anatomy and Physiology I and II (or concurrent). NUR 512 is offered in the summer semester and is open only to option students. Cr 3.

NUR 213/214/514 Fundamentals in Nursing Lab

This course focuses on the cognitive basis, scientific principles, and manipulative component of psychomotor skills used when implementing foundational nursing therapeutics, which promote, maintain, and restore the health of the client. Concurrent with NUR 212. NUR 214/514 is offered in the summer semester and is open only to accelerated/option students. Cr 2.

NUR 308 Professional Communication and Technology Utilization in Nursing

This course emphasizes a critical examination of how technology and communication can enhance the understanding of the historical development of the profession of nursing. Students explore professional development in nursing theory, using written and oral communication skills and learn to present information effectively using a variety of sources and techniques. To achieve this objective, the course will introduce APA style of referencing; review basic tenets of good writing style; present information access and utilization skills through library computer searches; explore basic computer skills such as e-mail, listserv membership, Internet searching and critique; and support the development of public presentation skills through the use of presentation software. Prerequisite: RN licensure or permission of instructor. Cr 3.

NUR 309 Health Assessment for RNs

This course provides the RN student with knowledge and skills essential to conduct in-depth bio-psycho-social-cultural health assessments of well individuals. The course includes examination of the concepts of wellness and health promotion across the life span. Prerequisite: RN licensure. Cr 2.

NUR 310 Health Assessment Lab for RNs

This course provides the opportunities for the RN to apply knowledge and skills necessary to conduct total health assessments. Concurrent with NUR 309. Prerequisite: RN licensure. Cr 2.

NUR 314 RN Credit Option

RNs graduating from a diploma program or an associate degree program will be awarded basic nursing credits upon successful completion of NUR 308 Professional Communication and Technology Utilization in Nursing and the Health Sciences. Prerequisites: RN licensure, NUR 308. Cr maximum of 30.

NUR 317 Maternal Child Health in a Developing Country

Students will explore international health issues common to Latin American countries that directly impact women and children. Students will gain a more thorough understanding of environmental, socio-cultural, and political factors that affect maternal child health in a developing nation. Through this course and the clinical experience linked with it, students will explore aspects of partnership building with an international community-based organization to assess health risk factors and plan health promoting activities specific to identified children's health issues. Students will gain an understanding of risk assessment, which includes problem posing and formulation of solutions, as part of their coursework. This coursework is closely tied to the Dominican Republic International Service Learning program. Cr 1.

NUR 318 Evidence-based Practice in Nursing

This online course introduces the student to evidence-based practice in nursing. Using models of critical appraisal, students learn competencies in the synthesis, integration, and evaluation of current best evidence for decision-making in advancing evidence-based nursing practice. This course is open to transfer students, accelerated students and option students who have taken a research course in quantitative methodology. The student must submit the prior course syllabus for evaluation. Cr 1

NUR 319 Qualitative Inquiry in Nursing

This online course introduces the student to qualitative health-related research methodology. Students learn the qualitative research process, different approaches to research design and the distinctive features of each qualitative design. Using models of critical appraisal of qualitative health-related research findings, students learn competencies in the synthesis, integration, and evaluation of qualitative inquiry for decision-making in advancing evidence-based nursing practice. This course is open to transfer students, accelerated students and option students who have taken a research course in quantitative methodology. The student must submit the prior course syllabus for evaluation. Cr. 1

NUR 323/541 Adult/Older Adult Health Nursing

During this course, students will explore evidence-based nursing therapeutics which support both the adult and the older adult client experiencing health problems. The course considers major health problems in the United States, focusing on nursing knowledge needed for care of adults and older adults experiencing acute and chronic alterations in health in a variety of care settings. This course will encourage students to develop and practice critical thinking skills necessary for delivery of family-centered care in today's complex health care system. The roles of collaboration, advocacy, and teaching are introduced as the student nurse interacts with clients and their support systems across the continuum of care. Prerequisites: NUR 100, 200 or 211; NUR 209/210; NUR 212/213; BIO 345; CON 302 (within one year). NUR 541 is offered in the fall semester and is open only to option students. Cr 3.

NUR 325/542 Adult/Older Adult Health Nursing Lab

Students will intervene therapeutically with adults and older adults experiencing health problems. Students will practice problem-solving skills and critical thinking as they perform nursing roles in acute care settings. Concurrent with NUR 323. NUR 542 is offered in the fall semester and it open only to option students. Cr 4.

NUR 326 Dominican Republic Community Nursing Partnership I Cr 1.**NUR 327 Dominican Republic Community Nursing Partnership II Cr 3****NUR 328 Dominican Republic Community Nursing Partnership III (optional) Cr 1.****NUR 330/530 Mental Health Nursing**

This course examines the theory and practice of psychiatric/mental health nursing. Assessment of clients and intervention strategies are explored. Interdisciplinary aspects of mental health care delivery and current issues in mental health nursing are discussed. Prerequisite: CON 302; Concurrent with NUR 323/325. NUR 530 is offered in the fall semester and is open only to option students. Cr 3.

NUR 331/531 Mental Health Nursing Lab

This course offers students an opportunity to focus nursing practice on promotion, maintenance, and restoration of mental health. Clinical experience is provided in a mental health/psychiatric nursing setting. The emphasis is on application of concepts of mental health/psychiatric nursing. Concurrent with NUR 330. NUR 531 is offered in the fall semester and is open only to option students. Cr 2.

NUR 332/532 Nursing Care of the Older Adult in the Community

The focus of this course is the family-centered care of older individuals in the community. Emphasis is on nursing assessment, diagnosis, and therapeutic interventions with individuals and families coping with chronic illnesses. Health promotion/risk reduction strategies are applied. The roles of the nurse in interdisciplinary community settings are explored. Ethical issues unique to community settings are analyzed. Prerequisite: NUR 212/213/514 or concurrent. NUR 532 is offered in the fall semester and is open only to option students. Cr 3.

NUR 339 Community Nursing Partnerships I

This course is the first in a two-course series (NUR 339 and NUR 341). Over two semesters students will engage in a partnership with a specific community. This sequence of courses incorporates the concepts of partnership building, risk identification, and health promotion within a community-based context. Students will collaborate with community partners to develop an understanding of both short- and long-term needs of the community. Problem-posing and problem-solving will come from the community. Students will engage in ongoing community assessment, support communities in developing long term interventions/approaches, and engage in evaluation of community level practice. Students will identify individuals and families within their communities who would benefit from individual and family-based nursing assessment, planning, intervention, and evaluation. Students will work with health care providers in these communities to assess the need for services

and augment the services available. Students will engage in both formative and summative evaluation over the course of their interaction with the community. Students will consider issues of continuation and termination as they work with individuals, families, fellow students, and community partners. Prerequisite or concurrent: CON 356 and NUR 323/325. Cr 2.

NUR 341 Community Nursing Partnerships II

This course is the second in a two-course series. See NUR 339 for description. Prerequisite: NUR 339. Cr 2.

NUR 370 Theory for Clinical Practice

This course focuses on the nursing profession and the process of knowledge development within the profession. The intent is to provide participants with opportunities to explore the processes of inquiry in nursing. Participants will have opportunities to explore various modes of nursing inquiry, including scientific, philosophical, and historical. Praxis, or the development of knowledge through the cycle of acquiring experience, reflecting on experience, and enhancing practice is central to understanding what influences nursing. Relationships between practice, theory, and research are explored. Four foundational concepts: personal meaning, ways of knowing, time/transitions, and context/culture serve to focus critical reflections in this course. In recognizing multiple ways of developing knowledge, participants have the opportunity to explore how practice may differ within varying perspectives. A USM online course fee of \$25.00 per credit hour will be charged for this course. Prerequisite: RN licensure or permission of instructor Cr 3.

NUR 386 Geary Clinical Cooperative

This course is a combination of a two-credit elective nursing course offered during the summer and a paid summer experience (10 weeks full time with a Registered Nurse preceptor at Maine Medical Center-MMC). Students are socialized into the professional role of the nurse through hands-on experience, mentoring, observational experiences, and seminar discussions focused on evidence-based nursing practice. There are seminar meetings with instructor and assignments to complete throughout the summer. Prerequisite: NUR 323/325, GPA 3.0, and an accepted application for employment at MMC. Cr 2.

NUR 413/513 Advanced Nursing Skills Lab

This course builds on the theory, scientific principles, and psychomotor skills introduced in NUR 212/213 to promote role development in the core competencies of nursing practice. NUR 513 is offered in the spring semester and is open only to option students. Prerequisites: NUR 212/213/214/514; concurrent with NUR 423/ 523, and 425/ 526. Cr 2.

NUR 419 Community Nursing Partnerships for RNs

This course incorporates the concepts of partnership building, risk identification, risk reduction, and health promotion within a community based context. Students work with selected communities that are developing long-term solutions to previously identified health problems. Open to RN students only. Prerequisites: NUR 309/310, NUR 308, CON 356, CON 472, RN licensure, SON health requirements and CPR certification. Cr 2.

NUR 421/543 Reproductive and Sexual Health Nursing

This course focuses on the theory and research in reproductive and sexual health care. While emphasis is placed on holistic nursing care of diverse healthy families from preconception through the childbearing process, high risk conditions, including end of life care for neonates, and the interventions necessary for successful adaptation are also discussed. Male and female reproductive health issues and nursing care across the lifespan will be presented. NUR 543 is offered in the spring semester and is open only to option students. Prerequisite: NUR 323/325/523/542. Cr 3.

NUR 422/544 Reproductive and Sexual Health Nursing Lab

This course offers students experience in providing holistic nursing care to individuals and families engaged in childbirth experiences. Emphasis is placed on health needs and alterations during the childbearing process, as well as promotion and maintenance of health before, during, and after childbirth. NUR 544 is offered in the spring semester and is open only to option students. Concurrent with NUR 421/543. Cr 2.

NUR 423/523 Management of the Critically Ill Adult/Older Adult

During the course, students will examine evidence-based therapeutic nursing interventions which support adult and older adult clients experiencing complex health problems. This course will encourage students to practice critical thinking skills necessary for delivery of ethical care to individuals and families experiencing high acuity illnesses. The roles of leader, collaborator, and coordinator are discussed as the nurse interacts with clients who are viewed as holistic beings. Prerequisites: NUR 323/325. NUR 523 is offered in the spring semester and is open only to option students. Cr 3.

NUR 425 Management of the Critically Ill Adult/Older Adult Lab

Students will intervene therapeutically with adults and older adults experiencing complex health problems. Students practice problem-solving skills and critical thinking as they perform nursing roles in acute care settings. Concurrent with NUR 423. Cr 2.

NUR 427/545 Child Health Nursing

In this course, students examine family-centered nursing care in the health promotion and health care of children. Class discussions focus on theories, research, and literature related to health needs and common health problems of children. Family, heredity, environment, and socioeconomics are among the factors examined in discussions of nursing in child health. NUR 545 is offered in the spring semester and is open only to option students. Prerequisites: NUR 323/325/523/542. Cr 3.

NUR 428/516 Child Health Nursing Lab

Child health lab provides an opportunity for the student in various health care settings to apply the theoretical concepts of health promotion, maintenance, and restoration with children and their families who are at risk or may be experiencing

alterations in health. NUR 516 is offered in the spring semester and is open only to option students. Concurrent with NUR 427/545. Cr 2.

NUR 436 Community Nursing Partnerships for Accelerated B.S. Students

In this course students work within a community partnership to care for individual clients/families and work with residents in developing community-based health programs. This experience provides students with an opportunity to care for culturally diverse individuals, families, and groups. Leadership roles including ongoing community partnership development will be emphasized. Prerequisite or concurrent: CON 356 and NUR 323/325. Cr 2.

NUR 437 Community Nursing Partnerships for Accelerated B.S. Students

Building on NUR 436, this course continues to focus on the experiences of partnership building with a diverse population in a community setting. The concepts of risk reduction and health promotion are applied to the development of an intervention with a segment of the community. Evaluation of the intervention is considered part of continuous community assessment as well as partnership development. Prerequisite: NUR 436. Cr 2.

NUR 439 Community Nursing Partnerships III

This is an elective course. See NUR 339 for course description. Prerequisite: NUR 339, 341. Cr 2.

NUR 470 Leadership, Management, and Ethics

Students explore professional and ethical issues that affect delivery of health care as well as the complexity of the nurse case management role using theories related to complex systems, leadership, and change. This course also provides an overview of the management and leadership roles in nursing practice with a major focus on organizational analysis, leadership and change theories, and quality improvement. This course must be taken the last semester in the curriculum unless permission is granted by the Director of the School of Nursing. Cr 3.

NUR 474 Professional Issues: Leadership, Management, and Organizations for RNs

This course provides the RN student with an overview of the theoretical frameworks of management and leadership roles in nursing practice with a major focus on organizational analysis. Focus is on leadership and change theories, conflict management, and quality improvement for the delivery of health care services. Prerequisite: NUR 308, NUR 309/310. Cr 3.

NUR 476 Theory Related to Clinical Specialty for RNs

This course allows the RN student to develop and enhance clinical theory, knowledge, and practice using self-designed study with a focus on a self-selected clinical specialty. An overview of current theoretical models of care, nursing therapeutics, and evidence-based practice is provided and then used to develop a broader understanding of practice and care issues unique to the clinical specialty. Prerequisites: NUR 308, NUR 309/310. Cr 3.

NUR 480 Practicum/Care Management

This practicum provides a culminating intensive clinical experience that provides students with an opportunity to refine their clinical practice. The course emphasizes the integration of the multiple roles of nursing and serves as a vehicle for enhancing critical thinking and communication. The primary purpose of the course is to develop competency in nursing care, including organizational, prioritization, and decision-making skills. End of life issues and professional ethics as applicable to a wide range of settings will be explored. To the degree possible, students select a practicum site consistent with their area of special interest with seminar sharing of the issues of diverse roles, clients, settings, and philosophies of practice. All students will present orally and demonstrate competency utilizing technical presentation applications. Prerequisite: All theory-linked clinical courses must be taken prior to or concurrent with NUR 480. Concurrent clinical courses cannot be in clinical area of practicum placement. This is the final clinical course. Cr 3.

NUR 526 Management of the Critically Ill Adult/Older Adult Lab

Option students will intervene therapeutically with adults and older adults experiencing complex health problems. Students practice problem-solving skills and critical thinking as they perform nursing roles in acute care settings. Concurrent with NUR 523 (for option students only). Cr 4.

NUR 538 Community Nursing Partnership for Option Students

In this course students work within a community partnership to care for individual clients/families and work with residents in developing community-based health programs. This experience provides students with an opportunity to care for culturally diverse individuals, families, and groups. Leadership roles including ongoing community partnership development will be emphasized. Prerequisite: CON 356. Cr 2.

Nursing and Health Professions Interdisciplinary CON Courses

CON 216 Emergency Response

This course will cover the topics prescribed by the American Red Cross in their emergency response course, including respiratory and cardiac emergencies, wounds, poisoning, sudden illness, burns and other topics. Successful completion of the course requirements will lead to Emergency Response certification, including adult, child, and infant CPR, from the American Red Cross. Cr 3.

CON 219 Lifetime Physical Fitness and Wellness

The primary emphasis of this course is to teach students how to take control of their personal health and lifestyle habits. Major areas will include nutrition/weight management, fitness training techniques, flexibility, coronary risk factor management, muscular strength/endurance, stress management, and other wellness-related topics. Class content will include readings, discussions, self-assessment activities, and development of personalized nutrition and physical activity plans. Cr 3.

CON 252 Human Nutrition

This course examines the basic concepts of human nutrition and their application to the needs of human beings throughout the life cycle. Discussion of factors affecting food practices and attitudes is included. Prerequisites: BIO 211 or SCI 172. Cr 3.

CON 270 Holistic Approaches to Reproductive Health

This course will enable the student to look critically at reproductive health options through the lifespan. Through readings, podcasts, PowerPoint presentations, and online discussions, we will weigh evidence related to alternative, complementary, and natural approaches to managing reproductive health issues. The course will follow a life span, growth and development approach. Course topics will include natural family planning methods, holistic contraception, infertility and pregnancy issues, holistic birth support skills, and holistic care of the newborn after birth. In addition, adult reproductive issues will be covered including menopause, erectile dysfunction, and sexuality in aging. The student will participate online via the discussion board, online quizzes, short essays, and complete an assignment to create a holistic teaching page related to a reproductive health topic. Offered during Summer Session as an online course. Cr 3.

CON 280 Holistic Health I

This course explores the many facets of holistic health. Emphasizing the integration of body, mind, and spirit, specific techniques and therapies will be introduced including, but not limited to, nutrition, stress management, meditation, therapeutic movement and massage, music, and others. The primary goal is to bring greater self-confidence, increased knowledge, and self-responsibility about health into each student's life. Cr 3.

CON 281 Holistic Health II

This course explores the realm of holistic health in greater depth. A strong component will focus on approaches to healing, including such topics as nutrition, meditation, creative imagery, crystals, and herbal remedies. Spiritual and metaphysical dimensions will be integrated as they relate to the total well-being of the individual. The primary goal is to become conversant with holistic approaches that are widely used in promoting and supporting self-healing in both self and others. Prerequisite: CON 280 or permission of instructor. Cr 3.

CON 283 Healing and Spirituality

This course will explore the links between spiritual understandings and physical and mental health. Focusing on global spiritual and religious traditions, the course will examine the determinants of health and the healing techniques utilized in each faith. We will also examine the ways in which religious values and expectations become internalized and affect the ways in which we interpret our wellness and our discomforts. This course is designed to offer an opportunity to become familiar with the world's faith traditions, and to explore spirituality as it relates to healing, both personally and institutionally. Cr 3.

CON 284 Botanical Therapies

The use of medicinal plant remedies can offer a rich, effective, and safe addition to health care for a variety of common illnesses and conditions. With dramatic increase in use of herbal preparations, however, questions of effectiveness and safety arise for both health care consumers and their providers. This course will give the historical background on the use of medicinal plants in the U.S. and Europe, examine the current legal status of plant remedies and herbal practitioners, review the most commonly used botanical remedies available, and discuss the benefits and risks that attend the use of these and other medicinal plant preparations. Cr 3.

CON 285 Perspectives on Animal-Assisted Therapy

This course explores the role of pets and other animals in contemporary society with a special emphasis on understanding the role animals may play in the treatment/rehabilitation of persons with a variety of physical and psychological disabilities. Lectures, discussions, guest speakers, and a variety of A/V materials will be utilized to meet course objectives. Cr 3.

CON 288 Reiki: Energy Medicine

This class will provide the student with Reiki Level I and II certification. Reiki is an ancient form of healing from Tibet. Reiki means universal life, Ki means energy. Reiki means life for energy and is based on the idea that we are energy. Reiki is a hands-on, light touch, healing energy. Many healthcare organizations are interested in alternative or complementary approaches to care and are offering services such as Reiki to help decrease pain, anxiety, depression, and aid in the comfort and well-being of their clients. To provide these services there are additional training and certifications required. The class will combine both lecture and hands-on experiences. In addition, the class will engage in service learning by providing Reiki treatments to the community. Cr 3.

CON 302 Pharmacology

This course provides an overview of the principles of pharmacokinetics and pharmacodynamics. The major drug categories are reviewed with emphasis placed on the therapeutic use, action, and adverse reactions of selected prototype drugs. Emphasis is placed on the benefits and risks of drug therapy, thereby preparing the health professional for safe, therapeutic pharmacologic interventions. There is no clinical component to CON 302. For nursing majors, must precede NUR 323/325, but must be taken within one year. Prerequisites: BIO 211 or SCI 172 and sophomore standing. Cr 3.

CON 311 Psychosocial Interventions for Older Adults

This course will explore the normal aging process in addition to a variety of chronic conditions experienced by older adults. The focus of the course will be on non-pharmacological intervention strategies for older adults residing in community and clinical agencies. Intervention examples include stress management, animal-assisted therapy, storytelling, autobiographical writing, bibliotherapy, adventure-based activities, air mat therapy, and "simple pleasures" activities. Other topics of study will include attitudes, stereotypes, and social issues that affect older adults today. Off-campus service learning experiences will be expected along with in-class discussions. Cr 3.

CON 314 Wellness Education and Counseling

This course is designed to facilitate an understanding of how to plan, implement, and evaluate wellness education programs. Teaching and learning styles will be addressed. Counseling skills will be practiced. Teaching techniques and tips will be highlighted. The course follows a learning-by-doing and reflection-in-action approach to education. Students will participate in experiential group and individual processes and be expected to apply personal insight when working with others.

CON 321/322W Health-Related Research

Introduction to health-related research with an emphasis on understanding the research process and becoming a consumer of research. Critique of health-related research findings to health professions and their application to professional practice is a major component of this course. CON 322 is a Writing Intensive course. For nursing majors, must be completed before taking any 400-level nursing course. Prerequisite: PSY 105D, LCC 150D, or MAT 120D. Cr 3.

CON 352 Nutrition for Physical Performance

The in-depth study of general nutritional practices applied to athletes and other individuals who are physically active. The course will emphasize basic cellular metabolism as it relates to energy production and expenditure during the course of preparation and training for athletics and physical activity. Weight control, use of ergogenic aids and nutritional supplements will also be discussed. Prerequisites: ALT, EXS, HEF major; CON 252; SPM 330 or concurrent. Cr 3.

CON 356 Concepts in Community Health

This course introduces the concepts and principles basic to the development and maintenance of the community's health. The epidemiological process guides the survey of current major health issues. The course focuses on the health issues of groups in the community at local, state, national, and global levels. Cr 3.

CON 435 Death and Dying: Contemporary Issues

This course focuses on dying, death, and bereavement in contemporary Western society within the context of theory, research, and practice. Issues around sudden death and dying from a chronic and/or terminal illness will be explored. Selected topics include cardiopulmonary resuscitation, palliative and hospice care, pain and symptom management, physician assisted suicide, family caregiving at the end of life, advance care planning, pregnancy loss, and the death of a child. Normal grief will be differentiated from pathological or traumatic grief. Finally, the continuum of services (e.g., support groups, psycho-educational groups, Internet chat groups) that are available for bereaved persons will be explored. Cr 3.

CON 440 International Health

This course is a multi-disciplinary elective course which presents multiple perspectives on improving the health of populations in the interconnected global environment. Cr 3.

CON 490 Therapeutic Touch

This course will introduce the theory and practice of the Krieger-Kunz method of Therapeutic Touch. Concentration will be on the practice of Therapeutic Touch as an intentionally directed process of energy exchange, using the hands to facilitate the movement of energy, and restoring balance to the energy system of the human body. The course will focus on the understanding of the basic principles of the human energy field; intuition; intentionality; benefits; theory; principles; process; and experiential learning of the Therapeutic Touch technique. Through readings, lecture, demonstrations, and practice, students will integrate the TT process with considerations of creating a healing environment, the ethics of practice, and integrating holistic health and self-care. Cr 3.

CON 497 Substance Use and Abuse: Issues and Policies

This course is an interdisciplinary examination and study of issues and policies surrounding alcohol and other drugs. Emphasis is placed on epidemiology; pharmacology; theoretical models; strategies for prevention, treatment, and relapse prevention; needs of special populations; and ethical, legal, and socio-political aspects surrounding addiction. Cr 3.

Physics

Chair of the Department: Jerry LaSala, 229 Science Building, Portland

Professor: LaSala; *Associate Professors:* Coakley, Nakroshis; *Assistant Professor:* Ziffer

The field of physics is concerned with the study of matter, energy, motion, and the interaction of material particles. It is a cornerstone science that attempts to explain at a fundamental level the concepts underlying phenomena important to the other physical sciences, to the biological sciences, and to engineering. The Physics Department provides elementary courses to introduce students to the field, general and topical courses that support the other science departments and engineering, and a four-year program leading to a B.A. degree in physics. The physics major covers the traditional areas of modern and classical physics, and is intended to prepare graduates for careers in physics and related technical areas or for graduate school.

Programs and Requirements

Bachelor of Arts in Physics

The minimum number of credits in physics and related areas (exclusive of the University's Core curriculum) required for the physics major: 61. A student majoring in physics must take 37 credit hours of physics courses including some requirements and some electives as outlined below. In addition, the major requires 16 credits of mathematics courses, 8 credits of chemistry courses, and a demonstration of competency in computer programming.

1. Required courses

PHY 114K, 116	Introductory Physics Laboratory I and II
PHY 121K, 123	General Physics I and II (PHY 111K may replace PHY 121K with Departmental permission.)
PHY 211, 213	Nonclassical Physics I and II
PHY 221, 223, 225	Classical Physics I, II, and III
PHY 240	Intermediate Laboratory I
CHY 373	Physical Chemistry II

2. Electives. In addition to the required courses, the student must take a minimum of 6 credits of physics courses numbered 200 or higher: three credits from each of groups A and B below.

Group A

PHY 251	Principles of Electronics
PHY 261	Computational Physics
PHY 281	Astrophysics
PHY 375	Optics

Group B

PHY 242	Intermediate Laboratory II
PHY 311	Quantum Mechanics

The physics major must also complete the following courses:

MAT 152D	Calculus A
MAT 153	Calculus B
MAT 252	Calculus C
MAT 350	Differential Equations
CHY 113K and 114K	Principles of Chemistry I with Lab
CHY 115 and 116	Principles of Chemistry II with Lab

Suggestions for demonstrating competency in computer programming include:

COS 160 and 170	Structured Problem Solving: Java
COS 141	Visual Basic
PHY 261	Computational Physics

To graduate as a physics major, a student must maintain a minimum GPA of 2.0 in all courses which satisfy the major requirement, and a minimum overall GPA of 2.0.

Minor in Physics

The minimum number of credits (exclusive of the University's Core curriculum) required for the minor: 19. The required courses are PHY 121K, 123 or PHY 111K, 112; PHY 114K, 116; PHY 211, PHY 240; at least 3 credits of physics courses numbered 200 or higher.

PHY 101K Introduction to Physics

An elementary approach to the study of mechanics, heat, sound, electricity, magnetism, light, and modern physics, intended for the student who desires a one-semester introduction to the subject with emphasis on concepts as opposed to problem solving. Students desiring laboratory work should also register for PHY 102K. Students planning to major in any of the natural sciences are not directed to this course but rather to a more advanced introductory course. Prerequisite: high school algebra. Cr 3.

PHY 102K Introduction to Physics Laboratory

Laboratory experiments and additional material designed to supplement the topics considered in PHY 101K. Prerequisite: concurrent registration in PHY 101K or permission of the instructor. Cr 1.

PHY 111K Elements of Physics I

The first of a two-semester non-calculus sequence in introductory physics, intended particularly for life-science majors. Topics to be covered include mechanics, waves, sound, and thermal physics. Lectures, demonstrations, and problem solving will help the student develop an understanding of physical phenomena. Mathematical treatment is at the level of algebra and trigonometry. This course is not recommended for students planning to major in the physical sciences or engineering. It should be taken concurrently with PHY 114K, Introductory Physics Laboratory I. Prerequisite: successful completion of the University's minimum proficiency requirement in mathematics. Three hours of lecture and one hour of recitation per week. Cr 4.

PHY 112 Elements of Physics II

A continuation of PHY 111K, intended particularly for life-science majors. Topics to be covered include electricity, magnetism, optics, and modern physics. Lectures, demonstrations, and problem solving will help the student develop an understanding of physical phenomena. Mathematical treatment is at the level of algebra and trigonometry. This course is not recommended for students planning to major in the physical sciences or engineering. It should be taken concurrently with PHY 116, Introductory Physics Laboratory II. Prerequisite: PHY 111K or equivalent. Three hours of lecture and one hour of recitation per week. Cr 4.

PHY 114K Introductory Physics Laboratory I

Experiments designed to illustrate the concepts studied in PHY 111K and PHY 121K. Prerequisite: concurrent registration in PHY 111K or 121K. Two hours per week. Cr 1.

PHY 116 Introductory Physics Laboratory II

Experiments designed to illustrate the concepts studied in PHY 112 and PHY 123. Prerequisite: concurrent registration in PHY 112 or PHY 123. Two hours per week. Cr 1.

PHY 121K General Physics I

The first of a two-semester sequence introducing the fundamental concepts of physics, using calculus. Topics to be covered include mechanics, waves, sound, and thermal physics. This course is recommended for students who plan further study in physical sciences, mathematics, or engineering. It should be taken with PHY 114K, Introductory Physics Laboratory I. Prerequisite: prior or concurrent registration in MAT 152D or equivalent experience. Three hours of lecture and one and one-half hours of recitation per week. Cr 4.

PHY 123 General Physics II

A continuation of PHY 121K, introducing the fundamental concepts of physics, using calculus. Topics to be covered include electricity, magnetism, and light. This course is recommended for students who plan further study in physical sciences, mathematics, or engineering. It should be taken concurrently with PHY 116, Introductory Physics Laboratory II. Prerequisites: PHY 121K or equivalent and one semester of calculus. Three hours of lecture and one and one-half hours of recitation per week. Cr 4.

PHY 211 Nonclassical Physics I

The first of a two-semester sequence covering the principal topics which show the departure of physics from its classical roots. Topics will include relativity and atomic structure. Prerequisite: PHY 123 or PHY 112, and MAT 152D. Cr 3.

PHY 213 Nonclassical Physics II

A continuation of PHY 211, covering the principal topics which show the departure of physics from its classical roots. Topics will include quantum physics, nuclear physics, and particle physics. Prerequisite: PHY 211. Cr 3.

PHY 221 Classical Physics I

The first of a three-semester sequence offering an intermediate-level treatment of the principal topics of classical physics. The focus for this course is mechanics, including particle motion, oscillations, and noninertial reference systems. Prerequisite: PHY 121K and prior or concurrent registration in MAT 252. Cr 3.

PHY 223 Classical Physics II

A continuation of PHY 221, offering an intermediate-level treatment of the principal topics of classical physics. This course will continue a study in mechanics and start a study in electrostatics. Prerequisite: PHY 123, PHY 221, and MAT 252. Cr 3.

PHY 225 Classical Physics III

A continuation of PHY 223, offering an intermediate-level treatment of the principal topics of classical physics. Topics will continue through magnetism and electrodynamics, leading to Maxwell's equations. Prerequisite: PHY 223. Cr 3.

PHY 240 Intermediate Laboratory I

A selection of experiments designed to illustrate the more important principles of classical and modern physics. Prerequisites: prior or concurrent registration in a 200-level physics course and two semesters of calculus. Six hours per week. Cr 3.

PHY 242 Intermediate Laboratory II

A selection of experiments illustrating the important principles of classical and modern physics. Prerequisite: prior or concurrent registration in a 200-level physics course and two semesters of calculus. Cr 3.

PHY 251 Principles of Electronics

An introduction to electronics including DC and AC circuits, transistors, operational amplifiers, and combinatorial and sequential logic devices. The laboratory will cover the use of electronic instrumentation as well as illustrate principles. Prerequisite: MAT 152D or equivalent, or permission of instructor. Cr 3.

PHY 261 Computational Physics

This course is a project-oriented course which introduces methods of computer simulation and their diverse applications in the physical world. Examples of projects include projectile motion, planetary systems, chaotic systems, and thermal systems. Methods include numerical solutions to differential equations and Monte Carlo techniques. The course emphasizes structured programming, although no background in computer programming is required. Prerequisite: PHY 121K and prior or concurrent registration in MAT 153, or permission of instructor. Two laboratory sessions and one discussion session per week. Cr 3.

PHY 281 Astrophysics

An intermediate-level course in the physics of the astronomical universe. Topics covered include classical astronomy, celestial mechanics, the structure and evolution of stars and galaxies, and cosmology. No previous background in astronomy is required. Prerequisite: PHY 221. Cr 3.

PHY 311 Quantum Mechanics

A study of the quantum physics of atoms, nuclei, and particles. Topics covered include wave particle duality; the Schrodinger Wave Equation and its application to a variety of quantum systems, three-dimensional and time-dependent systems, and photons. Prerequisite: PHY 213 and PHY 221. Cr 3.

PHY 375 Optics

An intermediate-level study of the more important principles of geometric and physical optics, with illustrations of both classical and modern applications. Prerequisites: PHY 223 and two semesters of calculus. Cr 3.

PHY 390 Independent Laboratory Study in Physics

An independent study involving primarily laboratory work. Prerequisite: permission of instructor. Cr 1-3.

PHY 410 Independent Study in Physics

Reading and discussion of advanced subjects or instruction in special topics or research. Prerequisite: permission of instructor. Cr 1-3.

PHY 440 Advanced Physics Laboratory I

This course may involve a series of experiments in physics or, by permission of the instructor, an advanced project in experimental physics. Prerequisites: PHY 240, and at least one 300-level physics course. Cr 3.

AST 100K Astronomy

A descriptive survey of modern astronomy. Topics include theories about the origin and development of the universe, stellar evolution, the solar system, galaxies, observational methods and recent discoveries. No prerequisite. Cr 3.

AST 103K Activities and Experiments

A one-credit course meeting weekly for two hours. May be taken concurrently with AST 100K to fulfill requirements for a science laboratory experience. Includes exercises on the Moon's orbit, Earth's orbital motion, rotation of Saturn's rings, the Sun, the Crab Nebula, variable stars, pulsars, Hubble's law, and galaxies. Two planetarium sessions. Prerequisite: Prior or concurrent registration in AST 100K. Cr 1.

Psychology

Chair of the Department: Deborah Johnson, 512 Science Building, Portland

Professors: Brown, Gayton, Thornton; *Associate Professors:* Broida, Johnson, Sytsma, Thompson; *Assistant Professor:* Vella;

Lecturer: Wieselquist

The Department of Psychology offers a four-year program for students majoring in psychology. It also includes courses for students majoring in allied fields, as well as for students wishing an orientation to the field of psychology as part of their general education. Courses are designed to create an awareness of the fundamental principles of psychology, psychological research, and the means by which psychological knowledge is acquired. The emphasis is upon the scientific inquiry into basic phenomena and principles of behavior, not upon the development of professional skills.

Programs and Requirements

Bachelor of Arts in Psychology

The minimum number of credits (exclusive of the University's Core curriculum) required for the major: 43.

Required Courses:

- PSY 101 General Psychology (3 credits each semester) to be taken as a two-semester sequence
- and** PSY 102
- PSY 105 Statistics in Psychology
- PSY 205 Experimental Methodology
- PSY 206 Methodology Lab
- PSY 220 Psychology of the Lifespan
- PSY 230 Social Psychology
- PSY 233 Psychopathology
- PSY 350 Psychology of Learning
- PSY 360 Cognitive Processes
- PSY 361 Sensation and Perception
- PSY 365 Physiological Psychology
- PSY 371 History and Systems

Other courses offered by the Department can be taken as electives to complete the 43-hour minimum. Students must achieve a 2.0 average and grades of C- or better in all psychology courses that count toward fulfillment of the major requirements.

Successful completion (with a grade of C- or better) of PSY 101 is the prerequisite for the following upper division psychology courses:

- PSY 205 Experimental Methodology
- PSY 206 Methodology Lab
- PSY 210 Popular Psychology
- PSY 230 Social Psychology
- PSY 323 Psychology of Infancy and Childhood
- PSY 324 Psychology of Adolescence
- PSY 325 Psychology of Adulthood and Aging
- PSY 326 Psychology of Social and Linguistic Development
- PSY 338 Theories of Personality
- PSY 340 Behavior Modification
- PSY 360 Cognitive Processes
- PSY 361 Sensation and Perception
- PSY 366 Drugs, Mind and Behavior

Successful completion (with a grade of C- or better) of both PSY 101 and PSY 102 is the prerequisite for the following upper division psychology courses:

- PSY 220 Psychology of the Lifespan
- PSY 232 Psychology of Adjustment
- PSY 233 Psychopathology
- PSY 235 Psychology of Women
- PSY 350 Psychology of Learning
- PSY 365 Physiological Psychology
- PSY 371 History and Systems of Psychology

Additional prerequisites for PSY 205, PSY 206, PSY 323, PSY 324, PSY 325, PSY 326, PSY 365 and PSY 366 are listed in their course descriptions below.

In addition, successful completion (with a grade of C- or better) of the following non-psychology course is required for psychology majors. This course should be completed by the end of the sophomore year:

- BIO 111 Human Anatomy and Physiology I (Prerequisite for PSY 365)

PSY 101 and PSY 102 should be successfully completed (with a grade of C- or better) no later than the end of sophomore year by students who plan to major in psychology. All majors should also complete PSY 205, and PSY 206 (with grades of C- or better) no later than the end of their junior year.

No required course in which a student earns an unsatisfactory grade (below C-) can be repeated more than one time. Students earning an unsatisfactory grade in the repeated course will be dropped from the major. Students will have the option

of appealing this decision; each student's appeal will be reviewed by the entire department faculty. Guidelines for readmission will be provided to students who are dropped from the major.

Transfer psychology majors who have taken an introductory psychology course that was completed in one semester have the option of taking PSY 102 or having it waived. If a transfer psychology major waives PSY 102, he or she must take an additional three credits of psychology electives. Students who are not psychology majors cannot waive PSY 102. MAT 120 can be used in place of PSY 105.

All students are reminded that, in addition to meeting Departmental requirements for a major leading to a baccalaureate degree, they must also meet the requirements of the school or college involved, as well as the Core curriculum requirements.

The Department recommends that students who wish to take a more extensive program or who plan to enter graduate school elect, in consultation with their major advisor, other courses in psychology and also include study in related fields, such as mathematics, biology, philosophy, sociology, anthropology, computer science, and social work.

Psychology majors who plan to attend graduate school should keep in mind that Graduate Record Examinations must be taken no later than December of their senior year. Students should plan to complete as many psychology courses as possible by the end of the fall semester of their senior year.

To be eligible to declare the psychology major, matriculated students must have earned 15 USM credits with a minimum 2.5 GPA and have met the USM college readiness writing and math requirements.

Independent/Directed Study: With the permission of a faculty sponsor, junior and senior psychology majors may elect to participate in independent/directed study in one or more of the following courses: PSY 400 Independent Research; PSY 401 Research Apprenticeship; PSY 405 Teaching Apprenticeship and PSY 410 Internship/Field Experience. No more than 12 credits may be earned in any combination of these courses.

PSY 101 General Psychology I

An introduction to the study of behavior as a natural science. Among the topics covered are: method of inquiry, physiological foundations of behavior, sensation and perception, motivation and emotion, learning and thinking. This course is a prerequisite for all courses in the Department. Prerequisite: ENG 104 or corequisite: ENG 100. Cr 3.

PSY 102 General Psychology II

A continuation of Psychology 101. It deals with complex psychological processes such as ability testing, personality, conflict, behavior disorders and therapy, and social and industrial behavior. Prerequisite: PSY 101 with a grade of C- or better. Cr 3.

PSY 105 Statistics in Psychology

A general introduction to the techniques of descriptive, predictive, and inferential statistics. Emphasis is placed on measures of central tendency and variability, correlation, hypothesis testing, and simple analysis of variance. Prerequisite: successful completion of the University's mathematics college readiness requirement. Cr 3.

PSY 205 Experimental Methodology

Emphasis on the principles, methods, and techniques of experimental psychology. Applications of general methodology and specific techniques to the design of experiments in behavioral research. Prerequisite: Successful completion of PSY 101 and PSY 105 with grades of C- or better; corequisite PSY 206. Cr 3.

PSY 206 Methodology Lab

This course applies the scientific method to selected areas of experimental psychology. Such areas may include animal learning, physiological, sensation-perception, cognition, social-personality, and developmental psychology. Report writing and interpretation of statistical results will be emphasized. Prerequisite: Successful completion of PSY 101 and 105 with grades of C- or better; corequisite: PSY 205. Cr 1.

PSY 210 Popular Psychology

This course develops students' skills of critical analysis and interpretation through an examination of popular versions of psychology. Students also explore social and cultural influences on popular forms of psychology in different historical periods. Prerequisites: Successful completion of PSY 101 with a grade of C- or better. Cr 3.

PSY 220 Psychology of the Lifespan

This is a broad introductory course focusing on the theories, research methods, and the status of scientific knowledge about human development across the lifespan. The course focuses on the interplay of psychological and environmental factors in physical, cognitive, social, and personality development from birth through adulthood. Prerequisites: Successful completion of PSY 101 and 102 with grades of C- or better. Cr 3.

PSY 230 Social Psychology

The psychological principles that enter into the social behavior of the individual. Areas of consideration include perception, communication, attitude formation, interpersonal attraction, and group behavior. Prerequisites: Successful completion of PSY 101 with a grade of C- or better. Cr 3.

PSY 232 Psychology of Adjustment

A study of the development of personality patterns, modes of behavior, life styles, and coping mechanisms considered normal in this society. Consideration of their value to individual functioning. Prerequisites: Successful completion of PSY 101 and 102 with grades of C- or better. Cr 3.

PSY 233 Psychopathology

The etiology, development, and manifestation of the major forms of mental illness with particular emphasis upon the neuroses and psychoses. Psychological, social, and biological factors that contribute to maladjustment are examined. Credit may not be earned for both SBS 303 and PSY 233. Prerequisites: Successful completion of PSY 101 and 102 with grades of C- or better. Cr 3.

PSY 235 Psychology of Women

Psychology of women and psychological literature relevant to men and women. Some topics include physiological and personality differences between the sexes, sex-role development, role conflict, women and traditional therapy. Prerequisites: Successful completion of PSY 101 and 102 with grades of C- or better. Cr 3.

PSY 323 Psychology of Infancy and Childhood

This is an advanced course where students with a solid background in developmental psychology will explore in detail the psychological issues and events that occur during the course of infancy and childhood. Current research focusing on the interplay of psychological and environmental factors in physical, cognitive, social, and personality development of individuals from conception to puberty will be explored. Prerequisites: Successful completion of PSY 101, and either PSY 220 or HRD 200 with grades of C- or better. Cr 3.

PSY 324 Psychology of Adolescence

This advanced course will provide an overview of theories, issues, and research in the study of human development from early adolescence to early adulthood. The interplay of biological and cognitive factors, interpersonal relationships, social structure, and cultural values in shaping the individual's development will be examined. The role of adolescence in both the individual's life course and evolution of the culture as a whole will be considered. Prerequisites: Successful completion of PSY 101, and either PSY 220 or HRD 200 with grades of C- or better. Cr 3.

PSY 325 Psychology of Adulthood and Aging

This is an advanced course in developmental psychology focusing on the adult portion of the lifespan. The course will provide an overview of the major theories, issues, and research in the scientific study of adulthood. The interplay of biological and cognitive factors, interpersonal relationships, social structure, and cultural values in shaping the individual's development will be examined. Prerequisites: Successful completion of PSY 101, and either PSY 220 or HRD 200 with grades of C- or better. Cr 3.

PSY 326 Psychology of Social and Linguistic Development

This seminar explores research addressing infant and child social and linguistic development. The main focus is on brain development, temperament, attachment, linguistic growth, and early social cognition as the basis for children's emergent social and communicative competence. Students are expected to contribute to discussion and debates each week. Prerequisites: Successful completion of PSY 101, and either PSY 220 or HRD 200 with grades of C- or better. Cr 3.

PSY 338 Theories of Personality

A survey of the major contemporary approaches to the study of personality. Different theories are compared, their impact upon current thinking evaluated, and their research contributions assessed. Prerequisites: Successful completion of PSY 101 with a grade of C- or better. Cr 3.

PSY 340 Behavior Modification

An introduction to the principles of operant conditioning with emphasis on the application of operant techniques in educational, correctional, and therapeutic situations. Prerequisites: Successful completion of PSY 101 with a grade of C- or better. Cr 3.

PSY 350 Psychology of Learning

Experimental findings on the fundamental principles that underlie the acquisition and retention of new behavior. Emphasis is placed on operant and respondent conditioning and the experimental analysis of behavior. Prerequisites: Successful completion of PSY 101 and 102 with grades of C- or better. Cr 3.

PSY 360 Cognitive Processes

A review of contemporary experimental and theoretical work on human information processing. Topics include pattern recognition, memory, attention, decision making, language, problem solving, and creativity. Emphasis will be placed on research methodology and on the interpretation of experimental findings. Prerequisites: Successful completion of PSY 101 with a grade of C- or better. Cr 3.

PSY 361 Sensation and Perception

An examination of perceptual processes and sensory systems. Emphasis is on experimental methodology, research findings, and theoretical interpretations. Prerequisites: Successful completion of PSY 101 with a grade of C- or better. Cr 3.

PSY 365 Physiological Psychology

Basic neuroanatomy, neurophysiology, and endocrinology, and the relationships between nervous system functioning and behavior. Physiological analysis of sensory function, motivation, and learning. Prerequisites: Successful completion of PSY 101, 102, and BIO 111 with grades of C- or better. Cr 3.

PSY 366 Drugs, Mind, and Behavior

The physiological and behavioral effects of drugs are examined in light of current research. Also considered are theories relating to the use/abuse of drugs, tolerance, addiction, and drug interactions. Prerequisites: Successful completion of PSY 101 and one semester of biology with grades of C- or better. Cr 3.

PSY 368 Health Psychology

This course is designed to introduce the student to the discipline of health psychology from a bio-psychosocial perspective. An integrative approach will be provided via discussion of the biological and psycho-physiological foundations of health and disease, including the topics of stress and coping, prevention, diet, substance abuse, and chronic illness. Prerequisites: Successful completion of PSY 101 and 102 with grades of C- or better. Cr 3.

PSY 371 History and Systems of Psychology

A survey of the history of psychological thought from its beginnings in Greek philosophy to modern times. Special attention will be given to the influence of philosophy and natural science on the development of contemporary psychology. The course concludes with a survey of the major systems. Prerequisite: Successful completion of PSY 101 and 102 with grades of C- or better. This course will satisfy the intensive writing requirement. Cr 3.

PSY 380 Psychology and the Law

This course represents an intensive study of the role of psychology in the legal process with particular emphasis upon the insanity defense, competency to stand trial, and involuntary commitments. Also considered are those psychological factors that relate to such topics as jury selection and deliberation, eyewitness testimony and credibility, and courtroom strategy. A term paper is required of all students. Prerequisites: PSY 101, 102, 333 and/or permission of the instructor. Cr 3.

PSY 400 Independent Research

This course provides junior and senior psychology majors the opportunity to pursue guided reading/research on a topic of their choosing. Each independent study project will be conducted with advice and guidance from the sponsoring faculty member. Prerequisites: junior or senior standing, successful completion (with grades of C- or better) of PSY 205 and PSY 206, completion of independent study application describing the proposed reading/research project, permission of faculty sponsor. Cr 1-3.

PSY 401 Research Apprenticeship

This course provides junior and senior psychology majors the opportunity to develop further insight into the research process through direct involvement with ongoing faculty research. Prerequisites: junior or senior standing, successful completion (with grades of C- or better) of PSY 205 and PSY 206, completion of independent study application describing the reading/research project and tasks or activities they will be performing, permission of faculty sponsor. Cr 1-3.

PSY 405 Teaching Apprenticeship

This course provides psychology majors the opportunity to assist teaching faculty and to develop deeper understanding of course materials and college teaching. Teaching apprentices are selected by faculty. Prerequisites: junior or senior standing, completion of independent study application describing their relevant course experiences and tasks/activities they will be performing, permission of faculty sponsor. Cr 1-3.

PSY 410 Internship/Field Experience

This course provides junior and senior psychology majors the opportunity to apply their psychology training in organizations and community service projects. Currently students may participate in the USM-Hall School Mentor project. Prerequisites: junior or senior standing, completion of application describing the tasks or activities they will be performing, permission of faculty sponsor and department chair. Cr 1-3.

Recreation and Leisure Studies Degree

The Department of Recreation and Leisure Studies in the College of Science, Technology, and Health offers a baccalaureate degree in recreation and leisure studies with a major in therapeutic recreation. In addition, the Department offers a minor in recreation leadership, a minor in nature tourism, and a variety of health/fitness instructional activity courses.

The baccalaureate degree program in recreation and leisure studies consists of 121 credit hours. Upon completion of the degree requirements, the student may seek employment as a recreation therapist, an activity coordinator, or recreation generalist. Students who complete internships under the supervision of a Certified Therapeutic Recreation Specialist will be eligible to sit for the National Council for Therapeutic Recreation Certification examination.

The minor in recreation leadership consists of 20 credit hours. The minor is designed to provide students who are not majoring in recreation and leisure studies with the basic knowledge and skills needed to lead recreation programs in settings such as YMCAs, community recreation centers, and camps.

The minor in nature tourism consists of 19 to 20 credit hours. This minor combines coursework in environmental science and outdoor recreation to provide students with an introductory knowledge of ecotourism, outdoor recreation leadership, and nature interpretation.

In collaboration with the International Ecotourism Society (TIES), the department offers a Certificate in Sustainable Tourism. This certificate is available to students from all majors. Students complete nine hours of coursework, participate in one international travel course, and complete an internship with a sustainable tourism agency or business.

In addition to the degree programs and minors, a wide variety of leisure studies courses, as well as health fitness activity courses, is available. Students are encouraged to pursue recreation, leisure, and instructional health/fitness course offerings as appropriate to their academic program, or their personal development needs.

Transfer into the B.S. Degree Program in Recreation and Leisure Studies from other USM Academic Programs

Students enrolled in other USM programs of study must meet with the Department chairperson to discuss transfer requirements and their reasons for transfer. Such students should have completed REC 110, REC 121, ENG 100, PSY 101, and BIO 111 or equivalent with grades of C- or better or have completed at least one semester at USM and be in good academic standing. Acceptance into the program is also dependent on reasons for transfer and space availability.

Baccalaureate Degree Program in Recreation and Leisure Studies

The four-year program in recreation and leisure studies consists of, in addition to the Core curriculum requirements, the following courses leading to the bachelor of science degree. The curriculum is subject to change as a result of faculty evaluation.

<i>Required Recreation Core Courses (42 Cr)</i>			<i>Credits</i>
CON 216	Emergency Response		3
REC 110	Foundations of Recreation and Leisure Studies		3
REC 121	Introduction to Therapeutic Recreation Service		3
REC 225	Therapeutic Recreation Analysis and Technology		3
REC 332	Methods in Therapeutic Recreation Program Design		3
REC 241	Recreation Leadership		3
REC 353	Implications of Disabling Conditions for Therapeutic Recreation		3
REC 382	Assessment and Documentation in Therapeutic Recreation		3
REC 494	Professional Foundations of Therapeutic Recreation Practice		3
REC 495	Internship		12
REC 498	Management and Professional Development in Therapeutic Recreation		3
<i>Leisure Studies Electives (3 Cr)</i>			
REC 224	Inclusive Leisure Services		3
CON 311	Psychosocial Interventions for Older Adults		3
CON 314	Wellness Education and Counseling		3
<i>Health/Fitness Electives (3 Cr)</i>			
CON 219	Lifetime Physical Fitness and Wellness		3
RHF XXX	Two 1.5-credit health/fitness courses such as Aerobics, Yoga, Beginning Weight Training, Aerobic Kickboxing, or Adapted Aquatics Laboratory		
<i>Recreation Leadership/Therapeutic Recreation Electives (6 cr)</i>			
Note: Students should elect courses that expand their recreation skills and programming knowledge			
CON 285	Perspectives on Animal-Assisted Therapy		3
REC 226	Lifetime Leisure Activities		3
REC 231	Arts and Crafts Programming and Leadership		3
REC 233	Outdoor Recreation		3
REC 367	Adventure Based Counseling		3
<i>General Recreation Electives (4.5 Cr)</i>			7

Any recreation courses with the exception of REC 218, including courses listed in the leisure studies, health/fitness, and recreation leadership elective categories that have not already been taken. A total of no more than three 1.5-credit recreation activity courses can be accepted as health/fitness or general recreation electives.

Required foundation courses (27 Cr)

BIO 111	Human Anatomy and Physiology I	3
BIO 112	Practical Human Anatomy and Physiology	1.5
BIO 211	Human Anatomy and Physiology II	3
BIO 212	Practical Human Anatomy and Physiology	1.5
CON XXX	Any CON Course not REC sponsored	3
SWO	388 Alcohol and Other Drug Abuse Issues	3
	or	
CON 497	Substance Abuse: Issues and Policies	3
HRD 200	Human Growth and Development	3
PSY 101	General Psychology I	3
PSY 102	General Psychology II	3
PSY 233	Psychopathology	3
Total credits (with Core)		121

Minor in Recreation Leadership

The minor in recreation leadership is designed to provide students with the basic knowledge and skills necessary to lead recreation programs in setting such as YMCAs, Boys and Girls Clubs, community recreation centers, and camps. The minor is especially appropriate for those students majoring in fields such as education, psychology, nursing, criminology, business, and social work who intend to use recreation activities as part of their practices. The minimum number of credits required for the minor is 20.

Students seeking the minor in recreation leadership must:

1. Complete REC 110 Introduction to Recreation and Leisure, REC 241 Recreation Leadership, and REC 224 Inclusive Leisure Services (9 credits total).
2. Complete three of the following courses: REC 225 Recreation Analysis and Technology, REC 226 Lifetime Leisure Activities, REC 231 Arts and Crafts Programming and Leadership, REC 233 Outdoor Recreation, CON 311 Psychosocial Interventions for Older Adults, CON 314 Wellness Education and Counseling, or REC 367 Adventure Based Counseling (9 credits total).
3. Complete two 1-credit or 1.5-credit RHF courses from the following: RHF 106 Ballroom Dance, RHF 107 Aerobics, RHF 109 Beginning Weight Training, RHF 118 Yoga, RHF 122 Aerobic Kickboxing, RHF 121 Self Defense, or RHF 123 Introduction to Sea Kayaking.

Not all courses are offered every semester. Some courses have prerequisites. Other RHF courses can be substituted with permission. Contact the Recreation and Leisure Studies Department chairperson to sign up for this minor.

Minor in Nature Tourism

The nature tourism minor is jointly offered by the Department of Recreation and Leisure Studies and the Department of Environmental Science in the School of Applied Science, Engineering, and Technology. The minor combines coursework to provide students with an introductory knowledge of ecotourism, outdoor recreation leadership, and nature interpretation. Safe and responsible use of outdoor environments is a prime focus of the minor. Enrollment in the nature tourism minor can increase student understanding and enjoyment of nature while enhancing future employment opportunities in ecotourism and adventure recreation businesses, wilderness equipment outfitters, or organizations that focus on environmental education. The minor is open to undergraduate students*and requires the completion of 19 to 20 credit hours of coursework.

Students seeking the minor in nature tourism must complete the following courses:

<i>Required Courses (16 credits)</i>		<i>Credits</i>
ESP 110/REC 233	Nature Based Tourism	3
ESP 101		
102	Fundamentals of Environmental Science with Lab	4
REC 233	Outdoor Recreation	3
ESP 203	Environmental Communication	3
REC 218	Wilderness Emergency Response	3
<i>Elective Courses (3-4 credits)</i>		
ESP 101/102	Fundamentals of Environmental Science with Lab	4
ESP 150	Environmental Science Field Immersion	3
REC 367	Adventure Based Counseling	3

Not all classes are offered every semester. Some courses may have prerequisites.

*Recreation and leisure studies majors can only substitute REC 218 Wilderness Emergency Response for CON 216 Emergency Response if they are enrolled in the nature tourism minor and have completed either ESP 110 or ESP 101K and 102K. In addition, recreation and leisure studies majors may not take REC 234 Outdoor Recreation Leadership as a REC general elective. This course may be taken in addition to the requirements of their degree.

Retention/Progression Policies

The Department of Recreation and Leisure Studies adheres to the minimum grade and academic suspension standards described in the Academic Policies section of this catalog. In addition the faculty reserves the privilege of retaining only those students who, in the judgment of the faculty, satisfy the requirements of scholarship, skill, and health necessary for practice as therapeutic recreation specialists or therapeutic recreation assistants. A student who admits to or is found guilty of a violation of academic integrity (see USM Student Academic Integrity Policy) or the American Therapeutic Recreation Society's Code of

Ethics can be suspended or dismissed from the program or the University. (The ethics statement is posted in the Department's reception area, is discussed in REC 494, and is available in the Department chairperson's office.)

A grade of D or F in a REC-prefix core course will stop progression within the respective degree course sequence. Students who receive a grade of D or F in any REC-prefix core course must repeat the course and earn a grade of C- or better. Students who receive a grade of D or F in REC 495, will be allowed to repeat the course once, providing that the student is able to secure an internship placement and the faculty agrees that the student possesses the knowledge, skills, and health necessary to work with clients in an internship setting. Students who repeat Internship must enroll in the appropriate pre-internship course the semester immediately preceding Internship. Students who receive a D or F in a Department theory or clinical course must obtain a grade of C- or better when the course is repeated. Students who fail to enroll in therapeutic recreation courses for a one-year period without permission of their academic advisors can be removed from their declared major.

Internship Policies

Policies regarding internship are specified in the Department's Student Internship Manual. Internship eligibility requirements are as follows:

B.S. Degree In order to be eligible for the REC 495 Internship placement, baccalaureate degree students must be recreation and leisure studies majors, have completed at least 24 credits from the Core curriculum, plus all of the program's required foundation courses. Students must also possess current Red Cross Emergency Response and CPR certifications, have a grade point average of at least 2.0 and have completed the following major courses: REC 110, REC 121, REC 225, REC 241, REC 332, REC 353, REC 382, REC 494, a health/fitness elective; a recreation leadership elective, and a leisure studies elective with grades of C- or better. Students wishing to complete an internship outside of the faculty's direct supervision area (approximately a 120-mile radius from USM) must have a GPA of at least 2.6. Internship opportunities extend throughout New England and beyond. Students must apply to agencies and be accepted by an agency for internship. Internships are earned, not assigned. The Department cannot guarantee that students will be able to obtain internships in the southern Maine area.

Course Fees

A course fee is assessed in Emergency Response (CON 216), Wilderness Emergency Response (REC 218), Arts and Crafts Programming and Leadership (REC 231), Adventure Based Counseling (REC 367), Assessment and Documentation in Therapeutic Recreation, (REC 494), Professional Foundations of Therapeutic Recreation Practice and selected RHF courses.

Courses with a CON prefix are listed at the end of the College of Nursing and Health Professions section.

RHF 100-Level Recreation/Fitness Courses

RHF courses are designed to provide education and skill development in a particular recreation or health/fitness activity. Because skill and/or fitness development are objectives in all RHF courses, students must attend and participate in class activities in order to pass. The Department reserves the right to request written medical clearance for participation in courses that require high intensity exercise. An * after a course number indicates that students will be required to pay a vendor charge for access to activity environments and/or equipment. The course instructor will explain any charge. The following are the RHF activity areas: RHF 101 Tennis; RHF 106 Ballroom Dance; RHF 107 Aerobics; RHF 109 Beginning Weight Training; ; RHF 117 Low Impact Aerobics; RHF 118 Yoga; RHF 121 Self-Defense; RHF 122 Aerobic Kickboxing; RHF 126 Stability and Physio-Ball Exercise; and RHF 127 Pilates. Cr 1.5 each.

RHF 123 Introduction to Sea Kayaking and Introduction to Cross-Country Skiing Cr 1 each.

REC 110 Foundations of Recreation and Leisure Studies

This course addresses the concepts of leisure, play, and recreation, emphasizing the role leisure should play in modern society. Lectures and discussions on societal attitudes toward work and leisure stresses the need to keep these in proper perspective. Students will concentrate on the psychological aspects of optimal experience and quality of life. Community leisure services will be addressed. Assignments will encourage students to explore leisure lifestyle attitudes. Cr 3.

REC 121 Introduction to Therapeutic Recreation Services

An overview of therapeutic recreation including historical and philosophical foundations, service models, professional functions and service settings. The psychology of disability will be included as will an introduction to disabling conditions. Prerequisite: therapeutic recreation major or instructor permission. Spring semester only Cr 3.

REC 223/ESP 223 Nature Based Tourism

This course covers the basics of nature tourism, a broad category that covers ecotourism, adventure tourism, and a variety of activities and programs involving the outdoors. An emphasis is placed on Maine and northern New England nature tourism. REC 223/ESP 223 is one of the required courses for the nature tourism minor offered jointly between the Department of Recreation and Leisure Studies and the Department of Environmental Science. Cr 3.

REC 218 Wilderness Emergency Response

This course prepares students to stabilize and care for victims of medical emergencies in remote and wilderness area settings when advanced medical professionals are not readily available. The course is a requirement for students enrolled in the nature tourism minor. Students who successfully complete the course will qualify for certification by the American Red Cross in Wilderness Emergency Response and CPR for the Professional Rescuer. Cr 3.

REC 224 Inclusive Leisure Services

This course will explore how to include persons with disabilities into non-treatment focused recreation programs and services. Disability awareness and history plus physical and program access will be explored with a focus on requirements specified by federal ADA legislation. Recreation and sport organizations for persons with disabilities as well as assistive devices that enable access will also be examined. Prerequisite: REC 110 or instructor permission. Cr 3.

REC 225 Therapeutic Recreation Analysis and Technology

This course examines the role of activities in therapeutic recreation as well as methods that can be used to analyze the therapeutic potential of recreation activities relative to functional behavior change. The structure and role of leisure education activities will be examined as will the roles of legislation and assistive technology in providing access to recreation activities. A variety of recreation assistive devices and services will be studied. Spring semester only Prerequisite: REC 110 or instructor permission. Cr 3.

REC 226 Lifetime Leisure Activities

Through participation in a variety of recreational pursuits, students will explore the rules, techniques, strategies, and adaptations for successful participation by those individuals with disabilities. Youth sport development, leadership techniques for teaching physical recreation activities and basic motor learning concepts will also be addressed. Cr 3.

REC 229 Adapted Aquatics Laboratory

This course introduces students to the therapeutic medium of water as it is used to promote the physical, psychological, and social well-being for persons with disabilities. The lab will require students to participate in a community-based adapted aquatics program under the supervision of a therapeutic recreation, adapted aquatics specialist. Students will be given a general introduction to the disabilities presented by program participants and will be required to learn and apply adapted aquatics assessments, skills, and program management knowledge. Each student will negotiate, with the instructor, the aquatics program that will be attended. The lab will require approximately two hours on site per week. Prerequisites: REC 225 or instructor permission, plus passage of basic swimming skills and lifting tests. Cr 1.

REC 231 Arts and Crafts Programming and Leadership

Students will learn about the therapeutic benefits of art and craft activities and how to plan, adapt, organize, and lead crafts programs and activities. The course will require students to participate in a variety of craft activities such as leatherwork, weaving, quilting, sand painting, and other appropriate projects. Spring semester only Prerequisite: instructor permission. Cr 3.

REC 233 Outdoor Recreation

This course focuses on safe, sustainable, nature-based recreation with an emphasis on “leave no trace” principles. The role of park systems and wilderness environments relative to recreation in modern society will be examined. A variety of outdoor recreation activities will be introduced. Several class trips will be required; thus students must be prepared to pay charges (a total of no more than \$20) for access to outdoor activity environments and equipment. Cr 3.

REC 234 Outdoor Recreation Leadership

This course examines outdoor leadership as a vocation and focuses on the environmental planning, implementation, and risk management knowledge and skills needed to lead outdoor trips and activities competently. Students will assist the REC 233 instructor in leading outdoor activities. Students may also be required to take part in a class planned overnight trip. Prerequisites: REC 233, nature tourism minor, and/or instructor permission. Cr 3.

REC 241 Recreation Leadership

This course will provide students with the basic knowledge and methods necessary for effective leadership in recreation settings. Students will be required to participate in projects, presentations, and discussions which are aimed at helping them develop and analyze leadership skills in a variety of recreation program areas such as special events, expressive arts, passive recreation, outdoor recreation, and sports. Fall semester only

REC 332 Methods in Therapeutic Recreation Program Design

Using a systems approach to therapeutic recreation program development, students will learn how to develop group-oriented treatment and educational programs. Leisure assessment, documentation, and individualized treatment plan development will be introduced. Students will be required to meet together outside of class to work on group program development projects. Fall semester only Prerequisites: REC 121, REC 225, majors only. Cr 3.

REC 353 Implications of Disabling Conditions for Therapeutic Recreation

This course provides an overview of physical and developmental disabilities with emphasis on etiology, clinical descriptors, rehabilitation, and educational concerns. Examination of the impact of disability on leisure and therapeutic recreation programming will be addressed, as will barriers that affect communication and interactions between persons with and without disabilities. Prerequisite: REC 225. Cr 3.

REC 367 Adventure Based Counseling

The course focuses on how to facilitate and then process outdoor/adventure/recreation activities as a means to improve self-concepts, develop group cohesion and uncover feelings, among others. Course objectives will be met through experiential as well as theoretical methods, thus allowing the student to acquire the skills necessary to lead groups through similar activities. Class format will be lectures, discussions, group activities, and presentations by class members. The course will address how to plan, implement, lead, debrief, and evaluate adventure experiences. Cr 3.

REC 382 Assessment and Documentation in Therapeutic Recreation

This course examines therapeutic recreation services in a variety of settings. Emphasis will be on assessment and documentation within healthcare settings. Students will learn assessment, individual treatment planning, intervention strategies, and the development of treatment protocols. Students will be required to work in groups and participate in class leadership. A 24-hour practicum experience in a therapeutic recreation program is required. Spring semester only. Prerequisites: Recreation and Leisure Studies major or Recreation Leadership minor, REC 332, HRD 200. Cr. 3.

REC 398 Independent Study

This course is open only to students majoring or minoring within the department who have identified a topic, relevant to their course of study, that they want to study in depth and for which there is no existing appropriate course. Students must obtain a faculty supervisor and negotiate a written independent study contract with this person. Independent study forms can be obtained from the department. Cr 1-3.

REC 494 Professional Foundations of Therapeutic Recreation Practice

This course will prepare students for an extended internship experience. Students will complete all of the tasks necessary to secure an internship placement. Serious study and discussion of topics such as professional conduct, ethics, safety, and risk management will be required. This course must be taken immediately prior to Internship. Spring semester only Prerequisites: Recreation core courses and instructor's permission. Cr 3.

REC 495 Internship

Students are required to work a minimum of 560 hours in an agency that provides therapeutic recreation services. During this period the students will apply the knowledge, methods, and leadership techniques which have been learned in academic courses. Students will be directly supervised by qualified agency personnel and indirectly supervised by faculty. This course is usually taken the senior year. Prerequisites: REC 494 and instructor's permission. Health insurance is required of students enrolled in this course. Cr 12.

REC 498 Management and Professional Development in Therapeutic Recreation

An overview of management roles in therapeutic recreation settings with major focuses on comprehensive program development, supervision of professional and volunteer personnel, policy and strategy development and quality assurance. Each student is required to develop a comprehensive program and policy manual. Students will apply the information learned during internships to course assignments and discussions. Prerequisite: REC 495. Cr 3.

Department of Technology

Chair of the Department: John A. Zaner, John Mitchell Center, Gorham
Professor: Anderson; *Associate Professors:* Blue, Early, Huang, Marshall, Wilson, Zaner

Studies in technology focus on systems application wherein systems are composed of tools, equipment, machines and materials, methods/techniques, and people. Key to the successful implementation/application of systems are the many relationships and interactions among people, technology, and society. In these studies, technology and related concepts are presented in a manner that emphasizes a “hands on” or “applied” approach encompassing classroom interaction, laboratory activities, field experiences, engagement with local industry, and opportunities for internships/cooperative education.

Curriculum offered by the Department of Technology (DOT) provides a blend of academic, technical, and professional courses designed to prepare individuals for careers in leadership positions in business/industry. Two programs leading to a bachelor of science (B.S.) degree are offered:

B.S. Technology Management with concentrations in industrial management, precision manufacturing, information and communications technology, construction management, and electro-mechanical systems.

B.S. Applied Technical Leadership

Each B.S. degree program is designed to meet the educational needs of students with a variety of academic backgrounds, employment experience, and career aspirations. Due to the similarities in curriculum and the rules for counting credit toward a degree program, students cannot complete both the applied technical leadership and technology management degrees at the same time. Accordingly, there are two “paths of entry” into the B.S. in technology management program: 1) for traditional students, i.e., students who have no substantive “technically-related” college credit, or 2) for transfer students and nontraditional students, i.e., students who have completed college-level work that qualifies for transfer credit into USM. Nontraditional students are typically adult learners who seek some level of college credit based on a mix of prior college credit, work experience, and/or industrial training.

The B.S. in the applied technical leadership program is designed only for transfer and nontraditional students.

Technology Management

Students in the degree program will become technically oriented management professionals who plan, direct, organize, and control industrial production and/or service delivery operations. Graduates of the degree program are prepared academically to assume leadership positions in a wide variety of organizations.

Industrial Management Concentration

This concentration is designed to prepare graduates for career leadership and management positions in a technical environment. Students in this concentration take courses intended to help students understand the many different organizational elements and functions composing industrial operations. Students completing this program will develop a broad-based, cross-sectional/functional understanding as a “generalist” management professional.

Precision Manufacturing Concentration

This concentration is designed to prepare graduates for career leadership and management positions in a computer-intensive/automated manufacturing environment. Students in this concentration take courses with specialized technical application in the area of computer-aided design/manufacturing, computer-numeric-control programming (CNC), industrial robotics, automated material handling, electronic control technology, computer-integrated manufacturing, rapid prototyping, and systems integration. This concentration is also available to nontraditional and transfer students with enough related technical experience or coursework to satisfy the technical competency requirements of the concentration or to students with an associate’s degree in a metal working area. Students completing this program will develop a focused understanding of manufacturing operations as a “specialist” managerially oriented professional.

Information and Communications Technology Concentration

This concentration is designed to prepare graduates for career leadership and management positions in a computer applications-oriented environment integral to modern business and industry. Students in this concentration take courses that emphasize theory and application relating to the management and operation of computer and technical systems used for communications, information management, control technology, and publishing. Students completing this program will develop a focused understanding of computer applications-based and data/information-intensive operations. Students completing this program may elect also to complete minors in computer science, business administration, economics, information management, or studio art.

Construction Management Concentration

This concentration is designed to prepare graduates for advancement opportunities in construction-related industries primarily as superintendents, project managers, and construction managers. Students in this concentration take courses that emphasize theories and applications of construction contract administration, including, planning, managing, directing, organizing, and controlling construction operations. This concentration is also available to nontraditional and transfer students with enough related technical experience or coursework to satisfy the technical competency requirements of the concentration. To satisfy the technical competency requirements, nontraditional students must complete a portfolio assessment based on the state of Maine standards for secondary vocational education (construction-related trades). To satisfy the technical competency requirements, transfer students must complete a construction-related associate’s degree program from a regionally accredited community or technical college (2+2 articulation agreements are currently in place with Central and Southern Maine Community Colleges).

Electro-Mechanical Systems Concentration

This concentration is designed to prepare graduates for career leadership and management positions in computer-controlled/automated, equipment-intensive environments. Students in this concentration take courses that emphasize theory and application relating to the design, control, and integration of electrical, mechanical, hydraulic, and pneumatic components and assemblies. This concentration is also available to nontraditional and transfer students with enough related technical experience or coursework to satisfy the technical competency requirements of the concentration or to students with an associate's degree in an electricity/electronic, mechanical or computer related area. Students completing this program will develop a focused understanding of power and control systems utilized in industrial, environmental, construction, transportation, and military sectors.

Applied Technical Leadership

This degree program is designed to provide career advancement opportunities for personnel employed in a variety of technically oriented career fields such as fire science, law enforcement, medical technology, business process operations, and service industries. Students eligible to enter this program are expected to have gained selected technical and managerial competencies via the completion of an associate of science degree in an appropriate field, industrial/military training, occupational experience, or through a combination of the above. Prior learning assessment and/or review of college transcripts will be the primary means for verification of competency attainment. Students in this degree program will develop the knowledge, skills, and abilities needed to advance into managerially oriented positions.

Areas of Minor Study

Five areas of study in the Department of Technology are available as minors: information and communications technology, industrial management, precision manufacturing, electro mechanical systems, and construction management. Each minor consists of a minimum of 18 credit hours approved and monitored by a faculty advisor in the Department. The student must declare the minor. The courses used for each minor will be selected from those approved and/or required for that minor by the Department faculty. Admission to the minor will require the completion of at least 24 credits with a grade point average of 2.0. Successful completion of the minor will require a grade point average of 2.0 in the courses making up the minor.

Admission Requirements

(All Programs) Students must meet all University of Southern Maine admission requirements.

The Department of Technology has approved transfer pathways from many of Maine's community colleges and regionally accredited community or technical colleges. The purpose of these pathways is to allow individuals with specific associate's degrees to complete a bachelor of science degree with a focus in areas such as: industrial management, electro-mechanical systems, precision manufacturing, information and communications technology, and construction management.

Programs and Requirements

All students must meet University Core curriculum requirements and additional Departmental requirements. Specific requirements for bachelor of science degree programs offered through the Department of Technology are indicated in the following tables. A minimum of 15 credit hours or 5 courses must be taken in the Department.

Students in the technology management degree program will be required to complete a senior assessment as part of the graduation requirement.

Technology Management

Bachelor of science in technology management

Concentrations:

- | | |
|---|-------------|
| • Industrial management | 127 credits |
| • Precision manufacturing | 127 credits |
| • Information and communications technology | 127 credits |
| • Construction management | 129 credits |
| • Electro-mechanical systems | 127 credits |

Applied Technical Leadership

Bachelor of science in applied technical leadership 121 credits

Internship

The Department of Technology, recognizing the value of integrating theory and practice through application in actual work environments, encourages internships for qualified majors. An internship provides a wide range of opportunities for applying knowledge and skills obtained in a classroom or laboratory to actual work situations.

An internship is an option that qualified students may pursue as an integral component of their degree program. It provides an opportunity to participate in a supervised program relevant to the student's major.

Permission of the instructor is needed to register for an internship.

Laboratory fees

Laboratory fees to cover the cost of materials and supplies are assessed to ITC courses and selected ITC and ITS courses.

*Bachelor of Science in Technology Management
with a concentration in Industrial Management
(for traditional students)*
The minimum number of credits required for the degree: 127

University Requirements
Writing Readiness

Math Readiness

UNIVERSITY CORE (37 credits – See Notes)

College Writing
EYE 112 Built Environment
Quantitative Reasoning MAT 140 (or above)
Creative Expression
Socio-cultural (See Note 1) Economics (ECO)

Technical Electives - 35 Credits

Note: Completion of the construction management (CM) concentration requires a minimum of 127 credits satisfying the University, department, professional, and technical requirements. Academic course equivalency or transfer from regionally accredited construction-related associate's degree programs can only be applied to the University, department, and/or technical requirements via portfolio assessment or transfer. Students interested in the CM concentration must meet with an academic advisor regarding the suitability of credit for portfolio assessment or articulation as applied to the 127-credit requirement for graduation.

NOTE: Students in the Construction Management concentration degree program will be required to complete a senior assessment; namely, the AIC, Constructor Certification Exam as part of the graduation requirement.

Construction Management Certificate Program

This 24 credit certificate program is designed to prepare individuals for advancement opportunities in construction-related industries primarily as superintendents, project managers, and construction managers. Students in this program take courses that emphasize theories and applications of construction contract administration, including, planning, managing, directing, organizing, and controlling construction operations.

This program is available to:

- Construction employees at any level
- Construction managers seeking additional education
- Design professionals in occupations related to the construction industry
- Individuals interested in construction management who do not qualify for the degree option

Occupational Assessment/Elective Courses

ITT 400 Occupational Competency
 (Portfolio Assessment)
ITT 440 Related Occupational Experiences/Internships

ITC 100 Introduction to Construction Management

This course is the first course in the construction management program and will introduce students to construction management. Topics include: the scope of the construction industry, the scope of management activities, the bidding process, contracts, project stages, cost estimating, administration, operations and site management, project planning and scheduling, project monitoring, construction safety and health, and personal and company equipment. Offered fall semester only. Cr 3.

ITC 341 Construction Documents I

This course will present the value and importance of how construction documents define the rights, responsibilities, and relationships among all the parties that are necessary for the successful completion of any project. The architect/engineer (A/E), the contractor(s), and all other project participants must work within guidelines for a successful project conception through design and construction to facility management. Investigation into various documents, agreements, and conditions of contracts will be addressed. The importance of standardized document format will be emphasized. Prerequisite: ITC 100 or instructor permission. Offered fall semester only. Cr 3.

ITC 351 Construction Cost Estimating

This course will train students to estimate the costs of various construction activities. Emphasis will be placed on the theory and application of the primary concepts used in the analysis and control of costs pertaining to planning, development, and managing construction operations. The major themes of the budget estimating process; the bid contract estimating process; the negotiated contract estimating process; and advanced estimating techniques will be covered in the course. Spreadsheets and commercial estimating applications will be used. Prerequisite: ITC 100 or instructor permission. Offered fall semester only. Cr 3.

ITC 432 Construction Project Management

This course focuses on construction project scheduling and control using contemporary computer applications. Topics covered include: activity and resource scheduling, schedule updating and control, project resource management, contract management, cost management, contractor integration, and change management. Prerequisites: ITC 100 and ITP 230. Offered spring semester only. Cr 3.

ITC 442 Construction Documents II

This course will consist of a continuation of the Construction Documents I course with emphasis on standards developed by professional associations, such as American Institute of Architects (AIA), Engineers Joint Contract Documents Committee (EJCDC), and the Design-Build Institute of America (DBIA) which have developed standardized documents detailing the necessary information for the completion of a project. The major portion of this course will consist of investigation of, discussion of importance of, and sample project development using: procurement requirements, contracting requirements, specifications, contract drawings, and resource. Actual construction examples will be used. Prerequisites: ITC 100 and ITC 341. Offered spring semester only. Cr 3.

ITP 210 Technical Writing

A basic study of techniques used in technical fields to communicate in writing. Study includes document purpose, situation analysis, style, format and production of reports, proposals, procedure sheets, technical descriptions, forms, letters, memos, and visual aids. Prerequisite: USM English and writing proficiency requirements must have been met. Prerequisite: ENG 100C English Composition or equivalent. Cr 3.

ITP 230 Project Management

This course will present a structured analysis of planning, organizing, directing, controlling, and monitoring resources related to completing a set of well-defined tasks. In this course, significant effort will be devoted to understanding the relationship between technology and human resources, and the demands placed on both as they interact. Also covered will be use of computer-based tools in the management of projects. Cr 3.

ITP 280 Industrial Organization, Management, and Supervision

An introduction to industrial organization and management. A study of the common elements of industry as it relates to the areas of research and development; industrial relations; production; financial control; marketing; and labor. Management and supervisory theory and practices will be highlighted. Emphasis will also be placed upon contemporary issues/problems/trends associated with a global economy. Offered spring semester only. Cr 3.

ITP 310 Plant Layout and Material Handling

A study of facility and workplace design. Emphasis will be on efficient layout and material flow through manufacturing, warehousing, and service facilities with attention given to the resulting impacts on product and process quality and environmental factors. Offered fall semester only. Cr 3.

ITP 330 Production Control

Lectures, discussions, and problems dealing with the principles and practices of production and inventory control. Study includes information flow, forecasting, scheduling, capacity planning, material requirements planning, shop floor control, economic order quantities, order point analysis, ABC analysis, line balancing, project scheduling and just-in-time techniques. Prerequisite: basic math competency. Offered fall semester only. Cr 3.

ITP 340 Fundamentals of Quality

An overview addressing fundamental concepts and principles of quality control applied to manufacturing and service sector industries. Major topics include theory and application of qualitative and quantitative tools and techniques as well as quality

awards and standards. Specific topics include foundations of quality, planning tools, traditional tools, variability, process set-up verification, pre-control, SPC process capability analysis, acceptance sampling, and quality awards. The methodology, materials, and processes associated with solving problems, and working in teams to improve quality will be the primary focus of the course. Prerequisite: math proficiency or instructor permission. Offered fall semester only. Cr 3.

ITP 350 Teambuilding and Facilitation

This course will expose students to a variety of topics related to teambuilding, conflict resolution, and the facilitation of meetings. Teambuilding topics include team types and functions, roles, and responsibilities of team members, stages of team development, and common team dynamics. Conflict resolution topics include acknowledging that conflicts will arise in personal and professional settings, understanding the positive and negative roles and manifestations of conflict, techniques for embracing conflict, establishing boundaries for conflict in professional settings and meetings, and setting standards for professional and ethical responsibility when conflicts arise. Meeting facilitation topics include understanding the role of a meeting facilitator, identifying and understanding behavior and participation during meetings, meeting preparation, and meeting documentation. Cr 3.

ITP 381 Human Resource Development in Industry

An introduction to the development of human resources in industrial settings. Students are introduced to the organizational environment and the various functions of human resource management. Topics covered include human resource developments and requirements, training and development, compensation management, job analysis and classification, employee management relations, and other pertinent functions. Students become involved in career development for possible preparation of a portfolio of their prior learning and work experience. Offered fall semester only. Cr 3.

ITP 410 Technical Operations and Strategies

This course will focus on the theory and application of concepts utilized to maintain global manufacturing competitiveness. Major topics include lean manufacturing, kanban, automation, visual signaling, poka-yoke, takt time, and kaizen techniques. Waste elimination, set-up time reduction, and continuous improvement theory and practices will be highlighted. Prerequisite: ITP 310 or instructor permission. Offered on a two-year spring rotation. Cr 3.

ITP 490 Cost Analysis and Control

This course will cover the theory and application of concepts used in analysis and control of costs pertaining to planning, developing, and managing industrial operations. Concepts include financial/cost accounting, time value of money, methods of evaluating competing alternatives, economic value-added analysis, and capital equipment cost justification. Prerequisite: ACC 110 or instructor permission. Offered on a two-year spring rotation. Cr 3.

ITS 300 Ergonomics/Time Study

A study of the bio-mechanics of the human body and how it interacts with a workplace while performing human activity. Surface electromyography measurements techniques are employed along with lifting analysis software, to measure stress on the body, with the effort to eliminate cumulative trauma disorders. Time study measurement techniques are employed in the development of time standard so one will be able to predict productivity. Prerequisite: basic math concepts or instructor permission. Cr 3.

ITS 320 Occupational Safety and Health

This introductory course provides input into the importance of safety and health in the workplace. Emphasis will be placed on the worker, his or her work environment including such special emphasis as OSHA and other regulatory agencies, hygiene, hazard identification, machine safeguarding, hazardous waste, loss control, and other major concern areas. The course includes the necessary topic areas required by OSHA's 30 hour card program. Upon satisfactory completion of this course, the student will receive the OSHA 30-hour card that is issued directly through OSHA's training unit. Cr 3.

ITS 321 Workplace Design Ergonomics

This course has been developed to educate the student in the use of ergonomic principles as they apply to the design/redesign of workstations as they exist in all types of working environments. Work analysis in the field, reporting, and presentation of redesigned ergonomic changes are a major requirement. State-of-the-art surface electromyography techniques and lifting analysis equipment will be used in both laboratory and field applications. Prerequisite: ITP 300 or ITS 300, or instructor permission. Offered on a two-year spring rotation. Cr 3.

ITS 420 Ergonomic Practicum

This course places the senior level student in the workplace for the purpose of completing his/her study of ergonomic principles. The opportunity to apply the materials covered in ergonomics/time study and workplace design ergonomics now can be put into practice. Students will be placed at various work site locations and will be assigned an ergonomic project within each site. To be included in the project are problem identification, hazard analysis, and problematic corrective actions. Each student practicum will be assigned a faculty advisor. Prerequisite: ES and H/advisor permission. Cr 3.

ITT 103 Materials Properties and Testing

A study of the basic properties of industrial materials, their structures, and testing procedures used to determine those properties. Studies include physical, mechanical, optical, chemical, thermal, and electrical properties. Testing, associated literature research, reporting procedures, calculation, and measurement are also included. Offered on a two-year spring rotation. Cr 3.

ITT 181 Introduction to Computers

An introduction to current and emerging computer applications. The course includes an overview of basic computer hardware and operating system, file management, and general application software. Emphasis is on computer terms, concepts,

and the integration of activities, including operating system functions, word processing, spreadsheets, databases, graphics, and communication. Lecture and lab. Cr 3.

ITT 221 Power and Energy Processing

A technical investigation into energy converters and transactional power systems. Course emphasis is on mechanical and electrical power transmission systems and their applications to modern technology and industrial equipment. Offered fall semester only. Cr 3.

ITT 231 Technical Graphics

A basic course in technical graphics focusing on technical sketching and mechanical drawing. Content includes basic skill development using contemporary industrial standards, technical sketching, orthographic projection, detail and assembly working drawings, and pictorial projections. This course is normally taken before ITT 282 Computer Aided Design. Offered spring semester only. Cr 3.

ITT 241 Graphic Communications

This course is a comprehensive survey of common reproduction systems having significance in graphic communications industries. It emphasizes overall workflow and the use of contemporary processes, equipment, and materials as they apply to graphic reproduction planning and design; preparation assembly; conversion; reproduction; distribution, transmission, and transfer; and storage and retrieval, including computer-based tools. Lecture and lab. Prerequisite: ITT 181, computer proficiency, or instructor permission. Offered fall semester only. Cr 3.

ITT 252 Material Processing

A laboratory course consisting of the study of materials processing using non-automated hand and machine tools. Multiple materials will be incorporated into the production of selected products. The course will focus on tool use and safety. Prerequisite: ITT 103 or instructor permission. Offered on a two-year fall rotation. Cr 3.

ITT 270 Introduction to Computer Hardware

The goal of this course is to introduce the hardware components, and their respective functions, of microcomputer systems. Activities address the specification, assembly, upgrading, and maintenance of microcomputers. Assignments may include readings of articles and Web-based documents, discussions, tours, and hands-on activities dealing with microcomputer hardware. A basic proficiency with personal computers is assumed. Offered on a two-year fall rotation. Cr 3.

ITT 272 Introduction to Computer Networking

The goal of this course is to develop an understanding of computer networks and provide basic background necessary for their construction and maintenance. It consists of readings, discussions, tours, and hands-on activities dealing with the structure, hardware, software, and protocols that make up computer networks. Prerequisite: ITT 181 or instructor permission. Offered fall semester only. Cr 3.

ITT 281 Internet Web Site Development

This course develops a basic understanding of and skill in the design, development, and maintenance of Web sites. Topics include Internet fundamentals, Web site design methods, HTML, cascading style sheets, HTML editors, FTP, site maintenance, intellectual property issues, and working with clients. Students will develop sample Web and associated design documents, and maintain a Web site on a server. It is assumed that students will have a working knowledge of personal computers. Cr 3.

ITT 282 Computer-Aided Design

An introduction to computer-aided design systems and their relationship to design, drafting, production, and documentation processes. Emphasis is on understanding and utilizing computer-aided design (CAD) hardware and software. The course focuses on basic 2D and 3D functions as they generally apply to computer-aided design applications. Lecture and lab. Prerequisites: computer proficiency and interpretation of technical drawings. Prerequisite: ITT 181 or instructor permission. Cr 3.

ITT 311 Telecommunications

An introduction to contemporary telecommunications hardware and applications. Emphasis includes state-of-the-art transmission media such as copper, fiber-optic, and wireless technologies including microwave, radio frequency, and infrared. Additional topics may include: classification of data networks; communications systems parameters such as bandwidth, serial parallel, analog and digital; modulation and multiplexing schemes; and the convergence of data, video, and voice networks. Prerequisite: ITT 181 or instructor permission. Offered fall semester only. Cr 3.

ITT 323 Fluid Power

A study of fluids at work. Investigation of the theory and application of hydraulics and pneumatics in technology and industry. Design, purpose, construction, and maintenance of fluid power devices and systems included. Offered spring semester only. Cr 3.

ITT 343 Desktop Publishing and Design

An introduction to the principles of copy preparation and development for image display and reproduction using multiple media. Emphasis is on computer-based desktop publishing hardware and software. Activities include scanning, digital photography, illustration, and preparation of production specifications. Prerequisite: ITT 241 or instructor permission. Offered spring semester only. Cr 3.

ITT 344 Video Production Technology

This course is designed to teach students how to use video hardware and software to acquire, capture, edit and distribute video projects. Students will work independently to create multiple video projects using non-linear video editing software, such as Final Cut Pro. Emphasis will be on the technical aspects of the production which will be taught through a combination of weekly lectures, weekly labs sessions and peer reviews and critiques. Students will share video equipment and will need to schedule editing time outside of the weekly class meetings. Offered spring semester only. Cr 3

ITT 353 Automated Material Processing

This course is designed to provide students with basic understanding of how the computer is employed in the control of machine tools used in today's modern industry to automatically process materials. Emphasis will be placed on the basics of computer numerical control machining (CNC), practical approaches to industrial material selection, machining speeds and feeds as they pertain to different industrial materials, and programming of machine tools and their respective communication control languages. In addition, computer-aided design software will be used to generate programming codes to DNC to the machining centers to produce parts. Prerequisite: ITT 252, ITT 282, or instructor permission. Offered on a two-year spring rotation. Cr 3.

ITT 373 Intermediate Computer Networking

The goal of this course is to build upon and further the understanding of computer networks. Activities address the detailed construction, upgrade designs, and maintenance of both large and small networks. Assignments may include readings of articles and Web-based documents, discussions, tours, and hands-on activities dealing with structure, hardware, software, security, and protocols that make up modern computer networks. Prerequisite: ITT 272 (or ITT/TCE 370) or instructor permission. Offered on a two-year fall rotation. Cr 3.

ITT 376 Network Security and Ethics

This course examines the issues of network security from the perspective of both liabilities and the policies that face network administrators and network security officers. Interrelated with the issues of network security are the ethical responsibilities of those who manage computer networks. Topics addressed in this course will include practical approaches to securing networks using risk analysis, cost effective counter measures, layered defenses, policy development, and implementation procedures. Prerequisite: ITT 272 or instructor permission. Offered on a two-year spring rotation. Cr 3.

ITT 377 Networking for Video and Multimedia

This course provides a technical introduction to video and multimedia systems as they are developed, delivered, and managed over high-speed networks. Students will explore and work with video and multimedia file formats, storage systems, with a focus on high-speed networks. Video and multimedia standards and protocols will be examined including compression and security aspects of delivering audio, video, animation, and new forms of media. Bandwidth, interactivity, quality or service, platform support, and standards are key components of this course. Prerequisites: ITT 181 and ITT 272 or instructor permission. Offered on a two-year spring rotation. Cr 3.

ITT 382 Advanced Web Site Development

This course develops an understanding of techniques that go beyond basic HTML to develop dynamic Web sites. Topics include a review of xhtml and cascading style sheets, server-side programming, writing to and reading from files and databases, site design, and coding standards. Students are expected to be proficient with HTML, HTML editors, JPEG and GIF image manipulation, FTP, and basic Web site maintenance. Some programming experience is desirable. Prerequisite: ITT 281, equivalent, or instructor permission. Offered fall semester only. Cr 3.

ITT 384 Advanced Computer-Aided Design

An advanced computer-aided design course focusing on three-dimensional modeling, image rendering, and animation. Emphasis is on understanding and utilizing current and emerging computer-aided and design hardware and software to present designs, products, and processes effectively. The course emphasizes basic concepts of three-dimensional model creation and use. Prerequisite: ITT 282 or instructor permission. Offered on a two-year spring rotation. Cr 3.

ITT 400 Occupational Competency

This course is designed to allow credit for technical expertise learned on the job or through attendance at appropriate/related schools, workshops, and/or seminars. The student's technical knowledge and skill must be documented through the University's portfolio assessment procedures. Program Option II majors only. See advisor for further information. Cr 1-39.

ITT 425 Applied Process Control Engineering

A study of the fundamental concepts, devices, and applications of electronic components and controllers utilized in industrial process control. Laboratory sessions focus on instrumentation, programming, downloading, and wiring discrete input/output devices to programmable logic controllers. Prerequisites: ITT 181, ITT 221, ITT 323 or instructor permission. Offered spring semester only. Cr 3.

ITT 427 Applied Automation Engineering

An investigation into the technology, nomenclature, and applications of robotic and automated material handling systems. Emphasis includes system components, communications integration, programming, and feedback devices. Prerequisites: ITT 221, ITT 252, ITT 323, ITT 425 or instructor permission. Offered on a two-year fall rotation. Cr 3.

ITT 440 Related Occupational Experiences/Internships

This experience is designed to advance technical and supervisory skills during employment with a business or industry. Interested students must meet with the internship coordinator prior to the job search process, and the hosting firm must be approved by the coordinator prior to course registration. Securing suitable employment is the student's responsibility. Formal

assignments will be discussed during weekly seminars. Contact the internship coordinator for additional information. Health insurance is required of students in this course. Prerequisite: instructor permission. Cr 1-3.

ITT 441 Advanced Occupational Experiences/Internships

This second-level course is a continuation of the occupational/internship experience in ITT 440. It is designed to further advance technical and supervisory skills during employment with a business or industry. Interested students must meet with the internship coordinator prior to the job search process, and the hosting firm must be approved by the coordinator prior to course registration. Securing suitable employment is the student's responsibility. Formal assignments will be discussed during weekly seminars. Contact the internship coordinator for additional information. Health insurance is required of students in this course. Prerequisites: ITT 440 and instructor permission. Cr 1-3.

ITT 452 Metallurgy and Metrology

A study of the properties of metals and how they are altered to meet industrial requirements. Measurements and testing of these properties along with inspection techniques and heat treatment activities will be performed. Individual and group activities will be conducted. Prerequisite: ITT 103, ITT 252, or instructor permission. Offered on a two-year fall rotation. Cr 3.

ITT 460 Capstone

This course integrates curriculum content from several upper-division courses to create a capstone experience involving the management of technical systems. Students will develop an understanding of the issues related to integrating components and equipment into an operational system. Major areas of the course include linkages among system components. An additional component of the course will be a problem-solving activity employing many of the technologies available in the Department's laboratories. Lecture and lab. Prerequisite: senior-level course and instructor permission. Offered spring semester only. Cr 3.

ITT 490 Special Problems in Technology

Provides upper-level students an opportunity to pursue independently a topic, project, or experiment of interest. Students will prepare a contract or proposal for study to be conducted and, upon completion, submit findings in a scholarly report or other evidence of merit. Prerequisite: instructor permission. Cr var.

Division of University Outreach

Interim Executive Director: Monique M. LaRocque
Assistant Dean for Administration: Marya Baron; *Director of Operations:* Stacy Calderwood; *Executive Director, National Resource Center for Osher Life Long Learning Institutes:* Kali Lightfoot; *Assistant Director, Osher Lifelong Learning Institute:* Susan Morrow

The Division of University Outreach provides and supports alternative learning opportunities to enable students—with a focus on adult learners—to complete degree programs, expand their professional capacities, and enrich their lives through professional and continuing education. The Division serves traditional students, adult students and seniors through a range of programs which provide educational opportunities in alternative schedules, formats and locations. This entire range of alternatives creates learning and degree earning opportunities for adult students who find regular, full-time attendance at a campus difficult, as well as for USM students wanting to accelerate progress toward their degrees. The division supports the transition and/or development of academic programs into alternative formats and schedules that suit the needs of today's student population, and partners with academic departments to grow programs through expanded and targeted marketing and student services geared to the adult population.

Academic Outreach

USM Summer offers over 500 courses with both on campus and online courses presented in accelerated formats ranging from one to seven weeks. In addition, a variety of innovative institutes and conferences are sponsored during the summer months. Short-term travel programs offer students a vibrant learning experience and an excellent opportunity to earn up to six credit hours in one- to five-week international or domestic travel-based courses. Residential and commuter fine arts camps for aspiring musicians and actors in grades 5-12 also are offered. (<http://www.usm.maine.edu/summer> or (207) 780-5617)

USM Online is the common portal for all online degree programs, certificate programs and online courses. In addition to providing faculty services for the development of online education (see CTEL), it coordinates an array of student support services, including e-tutoring, e-orientation, course registration and advising services. USM Online is the gateway to USM for working adults and busy students seeking flexible distance education options. (www.usm.maine.edu/online)

The Center for Technology Enhanced Learning (CTEL) supports the efforts of faculty, departments, and programs that develop online and blended programs and courses. CTEL is particularly interested in supporting courses and programs that attract new audiences to USM (e.g. place-bound or working adults) and expand higher education opportunities for the people of Maine and beyond. CTEL coordinates courses delivered via interactive television (ITV), compressed video (CV), and PolyCom. CTEL also facilitates the regional SLOAN Conference which provides an opportunity for faculty to learn from experts and share their own expertise in developing and using creative pedagogy and technologies. (www.usm.maine.edu/ctel or (207) 780-4077)

Baccalaureate Degree Completion Programs are offered in partnership with academic departments. Outreach provides marketing expertise, student services and faculty development to support degree completion programs in alternative locations, schedules and formats which are designed to meet the unique needs of adult students.

USM Winter offers online courses and some short-term travel-based courses during the four weeks between fall and spring terms. This term provides an opportunity for students who want to accelerate their degree progress. (www.usm.maine.edu/winter or (207) 780-5617)

Weekend College offers more than 35 classes from Friday evenings through Saturday afternoons each term, making onsite, traditional academic coursework more feasible for working adults. (www.usm.maine.edu/eap/profed/weekend.html or (207) 780-5617)

Off-Campus Programs provide a variety of on-site and distance courses at University College sites in Bath/Brunswick and Saco. These centers offer an array of services including registration, admission, financial aid, and academic advising.

Bath/Brunswick, 9 Park Street, Bath, ME 04530, (207) 442-7736 or 800-696-2329

Saco, 110 Main Street, Saco Island, Saco, ME 04072, (207) 282-4111 or 800-696-3391

(www.usm.maine.edu/eap/profed/off-campus.html)

The Office of International Programs offers international and domestic exchange services and short-term, travel-based courses to provide USM students and members of the southern Maine community the opportunity to broaden their world view and gain greater understanding of other cultures. (www.usm.maine.edu/international or (207) 780-4959)

International Study Opportunities —both short and long-term—are available for students to spend a semester or full year at another university while enrolled in a degree program at USM. The office maintains information on study abroad programs offered around the world, including opportunities where students can pay in-state tuition, even if they are an out-of-state student. Each year students participate in exchange programs in many parts of the world, including England, Ireland, France,

Russia, the Netherlands, Australia, and Japan. Limited scholarships for study and travel abroad are available. USM's short-term travel program offers students an excellent opportunity to earn credit hours during international or domestic travel-based courses offered through USM Summer and Winter sessions. Travel courses are led by USM faculty members, and combine academic and experiential learning.

International Student and Scholar Support is provided to students throughout their academic program at USM, including pre-arrival. Information and support on immigration policies and procedures, international student orientation and assistance with on-going adjustment to campus life and the community are among the services provided.

National Student Exchange is a great way to see other parts of the country, experience new cultures, access new courses, investigate graduate schools and seek future employment. Students are able to spend up to one year at over 200 schools located in the United States, Canada, Guam, US Virgin Islands or Puerto Rico. Many USM students take part in the exchange each year, while students from other universities exchange to USM.

The English for Speakers of Other Languages Program (ESOL) is designed to meet the academic language needs of students whose first language is not English and who are currently enrolled or planning to enroll in the University. (www.usm.maine.edu/esol or (207) 780-4419)

ESOL evaluates students through a placement test, and assigns them to one of three levels of ESL reading, writing, and vocabulary courses, and/or to one of two levels of ESL grammar courses. At a more advanced level, the *ESOL* program also offers a section of College Writing only open to students whose first language is not English.

Intensive English Language Program (IELP) allows students age 18 or older to improve their English for university work. The noncredit *IELP* offers instruction in reading, writing, vocabulary, and grammar as well as courses focusing on oral communication and fluency.

English Language Bridge program (ELB) is for those students whose TOEFL scores are below the required 79iBT or who have taken the SATs and are otherwise admissible to USM. If accepted into the *ELB*, students are fully matriculated but are required to complete specified English language courses. International students who have not taken the TOEFL but who are otherwise admissible may be admitted to the University with conditions.

ABU 190 Spreadsheets and Problem Solving

Spreadsheet proficiency is a graduation requirement for some academic programs. Proficiency can be demonstrated by earning a C or higher grade in this course, or by successfully passing a spreadsheet proficiency exam. *ABU 190* is an examination of problem-solving techniques using modern computer applications software. The primary focus is on the use of electronic spreadsheets as a problem-solving tool, including proper spreadsheet model design and the use of appropriate graphical representation of model results. Other computer problem-solving software is examined. Interpretation and effective communication of results, both written and oral, are practiced. Prerequisite: *MAT 101B* (C- or higher) or equivalent proficiency and computer literacy. Cr 3.

Community Outreach

The Center for Continuing Education (CCE) provides professional development opportunities for individuals with a focus on intensive, in-depth certificate programs and short-term, skills-based courses in the areas of business and management, health and human services, and nonprofit management. These noncredit programs earn CEUs that are required by some professions for re-licensure. *CCE* also offers customized training to meet the specific business needs of local organizations; and provides workforce development training in collaboration with community partners. Training can be delivered at the Abromson Center in Portland or on site. (www.usm.maine.edu/cce or (207) 780-5900 or 800-787-0468)

The Osher Lifelong Learning Institute (OLLI) is a membership organization for people 50 years and older, committed to providing a variety of intellectually challenging courses and activities in a creative and inclusive learning community. An extensive array of liberal arts and science courses are peer taught by volunteers. There are no entrance requirements or grades, and no college background is needed. *OLLI* also sponsors lectures including the *SAGE* series, social activities, and educational travel. Membership and course fees are affordable and scholarships are available. (www.usm.maine.edu/olli or (207) 780-4406)

The National Resource Center for Osher Lifelong Learning Institutes is a communication hub disseminating management resources and best practices, planning conferences, and providing general support for a network of 120 *OLLI*s in 50 states with 90,000 total members. The *OLLI*s are initially established and funded by The Bernard Osher Foundation of San Francisco. The National Resource Center also sponsors research on topics in education for older adults, publishes a peer-reviewed journal – *The LLI Review* - and houses the office of the Maine Senior College Network which provides communication, resources, and annual conferences for the 18 Senior Colleges located throughout Maine. (www.osher.net or www.maineseniorcollege.org or (207) 780-4128)

The Department of Conferences provides rental, registration and planning services to external groups accessing USM facilities for meetings, conferences or other functions. Services are available both on and offsite. (www.usm.maine.edu/conferences or (207) 780-5960)

University of Maine School of Law

Dean: Peter Pitegoff

Professors: Burke, Cluchey, Friedman, Galbraith, Knott, Lupica, Maine, Norchi, Northrop, Pitegoff, Rogoff, Smith, Wanderer, Ward, Wriggins, Zarr; *Associate Professors:* Arey, Bam, Ghachem, Owen, Schindler; *Research Professor:* Heimes; *Emeritus Professors:* Delogu, Khoury, Reiser

The University of Maine School of Law offers high-quality legal education to a carefully selected student body. With a fine faculty, excellent library resources, and a nationally oriented curriculum strong in basic legal courses, the Law School takes pride in educating students who become capable and motivated attorneys.

The academic program is rigorous and demanding. Thanks to the School's size, its students have the benefit of small classes, frequent and informal contact with the faculty, and a supportive atmosphere. These factors do much to ease the strains attendant upon entry to an exacting profession.

The School averages less than 300 students, making it one of the smallest law schools in the country. The student body is remarkably varied in age, professional and academic experience, and background.

The School's twenty-one full-time faculty members, along with part-time instructors drawn from practicing attorneys and the judiciary, represent a diversity of backgrounds, expertise, and interests.

The School is fully accredited by the American Bar Association and is a member of the Association of American Law Schools. Established in Portland in 1962, it is the law school of the University of Maine System and an administrative unit of the University of Southern Maine. The School's location is accessible for students with disabilities and provides facilities for classroom and seminar discussion, library research, moot court participation, clinical practice, legal publications, and student activities.

The Law School's Cumberland Legal Aid Clinic is one of the nation's oldest continuously operating law school clinical programs and a highly respected provider of legal services. The Center for Law and Innovation and the Marine Law Institute are also part of the University of Maine School of Law. The Center for Law and Innovation offers educational opportunities in intellectual property and technology-related law to students, practicing attorneys, and Maine's technology sectors through courses, conferences, seminars, and a clinical program. The Marine Law Institute is devoted to research and education in ocean law policy while supporting the marine law curriculum and the Law School's student-edited *Ocean and Coastal Law Journal*. The School also publishes the student-edited *Maine Law Review*.

For more information on the Law School, contact the Admissions Office, University of Maine School of Law, 246 Deering Avenue, Portland, ME 04102, (207) 780-4341, or visit the Law School web site at www.mainelaw.maine.edu.

Office of Sponsored Programs

Pre-award Services

The Office of Sponsored Programs (OSP) is responsible for encouraging externally funded initiatives in support of program-related activities of academic, research and development, and administrative units; and serves as the major resource to faculty and staff who wish to pursue such projects. The Office maintains information on and promotes awareness of funding opportunities, assists in refining project ideas and matching them with a potential sponsor's priorities and requirements, assists in the preparation of grant applications, and serves as the final approving authority for such applications.

In addition to having access to many on-line funding sources, OSP maintains a subscription to an online funding opportunities database via the Community of Science. This is accessible by all faculty and staff and can be invaluable to individuals seeking to do their own searches.

OSP publishes a monthly newsletter during the academic year that provides information on funding opportunities for scholarly, creative, or research oriented projects; highlights currently funded projects; and provides recognition for faculty and staff awards.

Post-award Services

The OSP provides financial management assistance and administrative support to principal investigators and project directors after an award is received. Services include: review and approval of all award documents, preparation and submission of financial reports, requests for reimbursement, budget revisions, amendments, etc. These services are a collaborative effort on the part of OSP staff and project staff. Services continue through the termination date, ending with the submission of the final program and final financial reports.

Increasingly, governmental agencies are turning to OSP to provide management and approval for post-award modifications. In many cases, such requests can be approved and processed by OSP with proper notification to the sponsor.

Additional information is available online: www.usm.maine.edu/osp.

Administration of the University of Southern Maine

Administrative Organization as of June 1, 2010

President: Selma Botman, 707 Law Building, Portland, tel: 780-4480

Provost and Vice President for Academic Affairs: John R. Wright, 711 Law Building, Portland, tel: 780-4485

(1988) Research Professor of Public Policy and Management, Muskie School of Public Service, and Senior Research Associate, Center for Business and Economic Research; Harvard University, A.B., 1959; University of Massachusetts, M.A., 1963; Massachusetts Institute of Technology, Ph.D., 1968

Baruch-Runyon, Adele (2005) Assistant Professor of Counselor Education; William Smith College, B.A., 1977; Lesley College, M.A., 1981; Syracuse University School of Social Work, M.S.W., 1990, Ph.D., 2005

Baugh, Nancy (2010) Assistant Professor of Nursing; Atlantic Christian College, B.S.N., 1979; Virginia Commonwealth University, M.S.N., 1984; Ph.D., 2010

Baughner, John E. (2005) Associate Professor of Sociology; Towson University, B.S., 1991; Tulane University, M.A., 1994, Ph.D., 2001

Beaudry, Jeffrey (1995) Associate Professor of Educational Leadership; University of Washington, B.A., 1973; University of Illinois at the Medical Center, M.H.P.E., 1981; University of Illinois at Chicago Ph.D., 1987

Beirne, Piers (1982) Professor of Criminology and Legal Studies; Essex University, B.A., 1971; Durham University, Ph.D., 1975

Belicose, Raymond (2004) Lecturer of Social Work; Rutgers University, B.S.W., 1978, M.S.W., 1980, Ph.D., 1998

Benedict, Dianne (1984) Associate Professor of English; Goddard College, B.A., 1976, M.F.A., 1979

Benedict, Lucille (2007) Assistant Professor of Chemistry; Marywood University, B.S., 1999; SUNY Oneonta, B.S., 2002; Rensselaer Polytechnic Institute, Ph.D., 2007

Bennett, James A. (2004) Associate Professor of Finance; Dartmouth College, A.B., 1986; University of Texas, Ph.D., 1994

Bertram, Benjamin (1997) Associate Professor of English; University of California-Santa Cruz, B.A., 1989, M.A., 1994; University of California-San Diego, Ph.D., 1997

Bickmore, Tammy (2010) Assistant Professor of Occupational Therapy; Manchester Community College, A.S., 1988; University of New Hampshire, B.S., 1990, M.S., 2001

Bird, Donna C. (1993) Lecturer in Sociology; Brown University, A.B., 1972; Union College, M.S., 1977; Goddard College, M.A., 1985, University of Connecticut, M.A., 1991; Ph.D., 2001

Bischof, Elizabeth M. (2007) Assistant Professor of History; Boston College, B.A., 1999, M.A., 2001, Ph.D., 2005

Bizub, Steven (2010) Lecturer of Music Education; University of Michigan, B.Mus., 1998; Oakland University, M.M., 2007

Bjelic, Dusan (1990) Professor of Criminology; University of Belgrade, B.A., 1976, M.A., 1981; Boston University, Ph.D., 1989

Black, Roxie (1997) Director of Occupational Therapy Program and Professor of Occupational Therapy; Boston University, B.S., 1968; University of Southern Maine, M.S., 1989; Lesley University, Ph.D., 2002

Blum, Janet Whatley (1999) Associate Professor of Exercise, Health, and Sport Sciences; University of Maine, B.S., 1982; Northeastern University, M.S., 1987; Boston University, Sc.D., 1991

Bolda, Elise J. (1995) Associate Research Professor of Health Policy and Management; University of Vermont, B.A., 1974; University of North Carolina at Chapel Hill, M.S.P.H., 1986, Ph.D., 1995

Boothe, Robert (1993) Associate Professor of Computer Science; University of California San Diego, B.S., 1985; University of California Berkeley, M.S., 1989, Ph.D., 1993

Bouvier, Rachel A. (2005) Assistant Professor of Economics; Smith College, B.A., 1994; University of New Hampshire, M.S., 1996; University of Massachusetts, Ph.D., 2003

Bowder, Hans G. (2006) Lecturer of Nursing; University of Massachusetts, Lowell, B.A., 1992 University of Southern Maine, M.S., 2000

Brady, E. Michael (1984) Chair, Department of Human Resource Development and Professor of Adult Education and Senior Research Fellow, Osher Lifelong Learning Institute; St. Mary's Seminary and University, A.B., 1971; University of Connecticut, M.S.W., 1977; St. Mary's Seminary and University, M.Div., 1980; University of Connecticut, Ph.D., 1982

Briggs, David A. (1984) Associate Professor of Computer Science; Swarthmore College, B.A., 1975; University of Massachusetts at Amherst, M.S., 1984, Ph.D., 1988

Broida, John P. (1985) Associate Professor of Psychology; University of Colorado at Boulder, B.S., 1973; Western Illinois at Macomb, M.S., 1976; SUNY Albany, Ph.D., 1984

Brown, Scott W. (1987) Professor of Psychology; Goddard College, B.A., 1974; University of Maine, Ph.D., 1984

Brown-Chidsey, Rachel (2000) Associate Professor of Human Resource Development; Whitman College, B.A., 1987; University of Massachusetts, M.A., 1989; Smith College, M.A.T., 1991; University of Massachusetts, Ph.D., 2000

Brown-Denico, Bonny (1998) Lecturer in Physical Education, Head Softball and Field Hockey Coach; University of Southern Maine, B.S., 1991, M.S., 1998

Brunette, John (2003) Lecturer of Mathematics and Statistics; University of Maine, B.A., 1968; Bowdoin College, A.M., 1993; Idaho State University, D.A., 1995

Burk, George (1985) Associate Professor of Art; Indiana University, B.S., 1961, M.F.A., 1963

Burke, E. James (2005) Clinical Professor of Law, Cumberland Legal Aid Clinic, University of Maine School of Law; Bates College, B.A., 1971; Western New England College School of Law, J.D., 1976

Caffentzis, Constantine G. (1987) Professor of Philosophy and Honors Program; City College of the University of New York, B.A., 1966; Princeton University, Ph.D., 1978

Cameron, Ardis Professor and Director of the Master of Arts in American and New England Studies Program; Western College for Women, Miami University, B.A., 1970; Stetson University, M.A., 1973; Boston College, Ph.D., 1986

Caniff, Julie G. (2000) Associate Professor of Teacher Education; Coe College, B.A., 1967; Harvard University, M.T.S., 1994, Ed.D., 1999

Capelluti, Joseph (1988) Professor of Education; University of Maine, B.S., 1970; University of Southern Maine, M.S., 1972; Virginia Polytechnic Institute and State University, Ed.D., 1975

Caplan, Susan (2009) Assistant Professor of Nursing; Tufts University, BFA, 1987; Kingsborough Community College, AASN, 1994; Pace University, Lienhard School of Nursing, BSN, 1997; Yale University, Ph.D., 2010

Carey, David, Jr. (2000) Associate Professor of History; University of Notre Dame, B.A., 1990; Tulane University, M.A., 1995; Ph.D., 1999

Caron, Paul G. (1999) Associate Professor of Education; University of Lowell, B.S., 1978; Boston College, M.Ed., 1989, Ph.D., 1994

Carroll, Lorraine A. (1998) Associate Professor of English; University of Southern Maine, A.B., 1986; Johns Hopkins University, M.A., 1989, Ph.D., 1996

Cassidy, Donna M. (1987) Professor of Art and American and New England Studies; University of Lowell, B.A., 1979; Boston University, M.A., 1982, Ph.D., 1988

Caton-Lemos, Laurie (1987) Instructor of Nursing; RN University of Southern Maine, BSN, 1979; University of Southern Maine, MSN, 1988; University of Southern Maine, FNP student 2009

Chabot, Maurice J. (1965) Associate Professor of Mathematics; University of Maine, B.A., 1961; Bowdoin College, M.A., 1965

Champlin, David (2001) Associate Professor of Biological Sciences; St. Olaf College, B.A., 1982; Cornell University, Ph.D., 1992

Chapkis, Wendy L. (1995) Professor of Sociology and Women and Gender Studies; University of California at Santa Cruz, B.A., 1977, M.A., 1989; University of California, Ph.D., 1995

Chen, Johnny (2010) Assistant Professor of Marketing; Oregon State University, B.A., 1997; University of Oregon, M.B.A., 2000; Ph.D., 2010

Chene, Douglas G. (2007) Assistant Professor of Accounting; The University of Michigan, Ann Arbor, A.B., 1976; The University of Michigan School of Public Health Service Traineeship, M.P.H., 1978; University of Illinois at Chicago, Ph.D., 1995; Thomas College, M.S., 2000

Chickering, Ellen (1998) Associate Professor of Music; Syracuse University, B.M.E., 1964, M.M., 1972

Childs, Janis C. (1994) Professor of Nursing; University of Delaware School of Nursing, BSN, 1971; University of Virginia School of Nursing, PNP, 1977; University of Virginia School of Nursing, MSN, 1980; George Mason University, Ph.D., 1994

Chinn, Susan J. (2001) Associate Professor of Management Information Systems; Virginia Commonwealth University, B.F.A., 1975, M.S., 1992; Kent State University, Ph.D., 1997

Christiansen, Paul (2005) Assistant Professor of Music; California State University, B.A., 1990; University of California, Ph.D., 2002

Clark, Lisa L. (1996) Clinical Instructor of Occupational Therapy, Field Work Coordinator; University of New Hampshire, B.S., 1980, M.S., 2000

Clary, Bruce (1987) Professor of Public Policy and Management and Senior Research Associate; University of California at Santa Barbara, B.A., 1968; University of Southern California, M.A., 1970, Ph.D., 1974

Cleary, Rosemary J. (1998) Director of USM Honors Program and Associate Professor of Social and Behavioral Sciences; Loyal University, B.A., 1975, M.A., 1978; University of Dallas, Ph.D., 1990

Cluchey, David P. (1979) Professor of Law; Yale University, B.A., 1968; State University of New York, M.A., 1970; Harvard Law School, J.D., 1973

Coakley, Robert W. (1984) Associate Professor of Physics; The Ohio State University, B.S., 1965; Dartmouth College, M.A., 1968; University of Vermont, Ph.D., 1974

Coburn, Andrew F. (1981) Research Professor of Health Policy and Management; Brown University, A.B., 1972; Harvard Graduate School of Education, Ed.M., 1975; Brandeis University, Ph.D., 1981

Cole, Lucinda (1989) Associate Professor of English; Auburn University, B.A., 1980; Louisiana State University, M.A., 1987, Ph.D., 1990

Colgan, Charles S. (1989) Professor of Public Policy and Management and Associate Director, Muskie School of Public Service, and Senior Research Associate, Center for Business and Economic Research; Colby College, B.A., 1971; University of Maine, Ph.D., 1992

Collom, V. Edward (2001) Associate Professor of Sociology; University of California Riverside, B.S., 1992; M.A., 1996; Ph.D. 2001

Congdon, Clare Bates (2007) Associate Professor of Computer Science; Wesleyan University, B.A., 1985; University of Michigan, M.S., 1988, Ph.D., 1995

Conklin-Powers, Bernice (2008), Assistant Professor of Social and Behavioral Sciences; Penn State, B.S., 1987; Loyola College in Maryland, M.A., 1994; Psy.D., 2001

Conway, Jeremiah P. (1978) Associate Professor of Philosophy; Fordham University, B.A., 1970; Yale University, M.Phil., 1974, Ph.D., 1978

Coste, Tara Grey (1997) Associate Professor of Leadership and Organizational Studies; Michigan Technological University, B.S., 1988, M.S., 1993, Ph.D., 1996

Cowart, Wayne (1989) Professor of Linguistics; Florida State University, B.A., 1967; Queens College, City University of New York, M.A., 1975; Ph.D., 1983

Croteau, Karen A. (1998) Professor of Exercise, Health, and Sport Sciences; Bridgewater State College, B.S., 1983; McNeese State University, M.Ed., 1989; Boston University, Ed.D., 1998

Currie, Douglas A. (2003) Associate Professor of Biological Sciences; University of St. Andrews, B.Sc., 1985; University of Cambridge, Ph.D., 1992

Curry, James A. (1985) Chair, Department of Professional Education, Associate Professor of Special Education; Whitworth College, B.A., 1968; University of Georgia, M.Ed., 1973, Ed.D., 1985;

Davis, Carol Lynn (1982) Associate Professor of Education; University of Maine, B.A., 1968, M.S., 1977, Ph.D., 1983

Day, Karen L. (2003) Lecturer in Adult Education and Human Resource Development; Cornell University, B.S., 1969; Harvard University, M.A.T., 1970; University of Southern Maine, C.A.S., 2003

Dean, Ann C. (2000) Associate Professor of English and Director of College Writing; Harvard University, B.A., 1989; Rutgers University, Ph.D., 1999

Dean, Matthew (2010) Assistant Professor of Business Administration; The College of William and Mary, B.S., 1997; University of Connecticut, Ph.D., 2010

Deprez, Luisa S. (1976) Professor of Sociology; Keuka College, B.A., 1970; Rutgers University, M.S.W., 1971; Brandeis University, Ph.D., 1995

Diamon, Rolf (2003) Lecturer in Sociology; University of Maine at Portland-Gorham, B.A., 1974; Case Western Reserve, M.A., 1976; Boston University, Ph.D., 1993

diBenedetto, Lucia A. (1970) Associate Professor of French; Emmanuel College, B.A., 1963; Middlebury College, M.A., 1965; New York University, Ph.D., 1975

Doane, Carol (1998) Instructor of Nursing; University of Maine, B.S., 1966; University of Southern Maine, M.S., 1992

Druker, Marvin J. (1987) Professor of Leadership and Organizational Studies, Lewiston-Auburn College; University of Michigan, B.A., 1966; University of Wisconsin, M.A., 1968, Ph.D., 1974

Duboise, S. Monroe (1997) Associate Professor of Applied Immunology; University of Texas-Austin, B.A., 1973, M.A., 1977; Yale University, Ph.D., 1994

Dvorak, Jean (2002) Instructor of Nursing; University of Michigan School of Nursing, BSN, 1974; University of Michigan Schools of Public Health and Nursing, MSN, 1982

Eagan, Eileen M. (1987) Associate Professor of History; D'Youville College, B.A., 1968; University of Wisconsin, M.A., 1970; Temple University, Ph.D., 1979

Early, David J. (1989); Northeastern University, B.S., 1973; Rensselaer Polytechnic Institute, M.S., 1976

Edney, Matthew H. (1995) Professor of American and New England Studies and Anthropology/Geography; University College London, University of London, B.Sc., 1983; University of Wisconsin at Madison, M.S., 1985, Ph.D., 1990

Edwards, Thomas (2006) Assistant Professor of Educational Leadership; Yale University, B.A., 1961, M.A.T., 1968; Harvard University, M.A., 1963, Ph.D., 1981

Elliott, Elizabeth K. (1990) Coordinator of the Undergraduate Nursing Program and Clinical Instructor and Lecturer of Nursing; Barnard College, AB, 1973; Columbia University School of Nursing, BS, 1976; Simmons College, MSANP, 1981

El-Taha, Muhammad A. (1987) Professor of Mathematics; Haigazian College, B.S., 1978; American University of Beirut, M.S., 1980; North Carolina State University, Ph.D., 1986

Erickson, Nancy E. (1996) Associate Professor of French; Moorhead State University, B.S., 1979; University of Minnesota, M.S., 1983; University of Michigan, Ph.D., 1992

Ettenger, Kreg (2004) Associate Professor of Anthropology; SUNY College, M.S., 1991; Syracuse University, Ph.D., 2004

Fackler, Carol (2010) Assistant Professor of Nursing; University of Rhode Island, B.S.N., 1973; University of Massachusetts Boston, M.S., 2002, Yale University, D.N.Sc., 2010

Faherty, Vincent E. (1988) Director of Social Work Program and Professor of Social Work; St. Joseph's College and Seminary, B.A., 1960; Fordham University, M.S.W., 1970; University of Utah, D.S.W., 1976; University of Geneva, M.B.A., 1984

Faksh, Mahmud A. (1987) Professor of Political Science; American University of Beirut, B.A., 1965; Oklahoma State University, M.A., 1967; University of Connecticut, Ph.D., 1973

Fallona, Catherine (2000) Interim Director, School of Education and Human Development and and Associate Professor of Education; University of Maine, B.S., 1991; University of Arizona, M.A.Ed., 1994; Ph.D., 1998

Farmer, Bonnie Cashin (2002) Associate Professor of Nursing; Northeastern University, A.S., 1969; St. Anselm College, B.S., 1972; University of New Haven, M.P.A., 1984; University of Rhode Island, Ph.D., 1994

Feiner, Susan F. (1995) Professor of Economics and Women and Gender Studies; Evergreen State College, B.A., 1975; University of Massachusetts, Ph.D., 1981

Finch, Annie (2005) Professor of English and Director, Stonecoast M.F.A. in Creative Writing Program; Yale University, B.A., 1979; University of Houston, M.A., 1986; Stanford University, Ph.D., 1991

Fineran, Susan (2002) Associate Professor of Social Work; Russell Sage College, B.A., 1974; The Catholic University of America, M.S.W., 1981; University of Illinois at Chicago, Ph.D., 1996

Fithian, Bruce (1984) Professor of Music; New England Conservatory, B.M., 1970; Southampton University, B.M., 1972; Brandeis University, M.F.A., 1975

Fitts, Charles R. (1991) Associate Professor of Geosciences; Colby College, B.A., 1976; Cornell University, M.S., 1979; University of Minnesota, M.S., 1985, Ph.D., 1990

Flaherty, Edward J. (1985) Lecturer in Physical Education and Baseball Coach; University of Maine, B.S., 1976; University of Southern Maine, M.S., 1981

Ford, James R. (2001) Associate Professor of Chemistry; University of Massachusetts, B.S., 1997; Ph.D., 1984

Fournier, Margaret A. (1976) Associate Professor of Nursing; Fitchburg State College, B.S.N., 1972; Boston University, M.S.N., 1976

Fraumeni, Barbara (2005) Professor of Public Policy and Management, and Chair, Doctoral Program in Public Policy, Muskie School of Public Service; Wellesley College, B.A., 1972; Boston College, Ph.D., 1980

Friedman, James (1980) Professor of Law; Brown University, A.B., 1971; University of Chicago, J.D., 1974

Gainey, Louis F., Jr. (1976) Professor of Biological Sciences; Florida State University, B.S., 1969, M.S., 1972, Ph.D., 1976

Galbraith, Christine D. (2001) Professor of Law; University of Illinois, B.S., 1992; University of Illinois College of Law, J.D., 1995

Garcia, Renee (2010) Lecturer of Theatre; Florida School of the Arts, A.A., 2003; Florida State University, B.A., 2007; University of Missouri-Kansas City, M.F.A., 2010

Gavin, William J. (1968) Professor of Philosophy; Fordham University, B.A., 1965, M.A., 1967, Ph.D., 1970

Gayton, William F. (1974) Professor of Psychology; Springfield College, B.S., 1963; University of Maine, M.A., 1965, Ph.D., 1968

Ghachem, Malick (2010) Associate Professor of Law; Harvard College, B.A., 1993; Stanford University, Ph.D., 2002; Harvard Law School, J.D., 2002

Ghorashi, Mehrdad (2009) Assistant Professor of Engineering; Sharif University of Technology, B.Sc., 1998; Institute for Research in Planning and Development, M.Sc., 1998; Sharif University of Technology, M.Sc., 1989, Ph.D., 1994

Gilbert, Dennis (2002) Lecturer, Communication and Media Studies; Colby College, B.A., 1972; University of Iowa, M.F.A., 1975

Gish, Nancy K. (1979) Professor of English; Western Michigan University, B.A., 1964; University of Michigan, M.A., 1965, Ph.D., 1973

Gold, Joel I. (1973) Professor of Finance; Pace College, B.B.A., 1968; Bernard Baruch College, M.B.A., 1972; University of Southern Maine, M.S., 1982; Florida State University, Ph.D., 1990

Goldenberg, Marcia (2010) Lecturer in Nursing; SUNY Geneseo, B.A., 1980; University of Southern Maine, M.S., 1995

Goldsberry, Lee (1987) Associate Professor of Education; Purdue University, B.A., 1969; Governors State University, M.A., 1975; University of Illinois, Ed.D., 1980

Goldstein, Nance (1987) Associate Professor of Economics; Tufts University, B.A., 1972; University of London, M.Sc., 1979; Thames Polytechnic University, Ph.D., 1988

Gramlich, Jeffrey D. (2003) Professor of Accounting and L.L. Bean/Lee Surace Endowed Chair; Western State College of Colorado, B.A., 1980; University of Denver, M.Acc., 1981; University of Missouri, Ph.D., 1988

Grant, Kim T. (1997) Associate Professor of Art; University of Virginia, B.A., 1984; University of Essex, M.A. 1987; University of Texas-Austin, Ph.D., 1995

Grover, Richard A. (1988) Associate Professor of Business Administration and Senior Research Associate, Center for Business and Economic Research; University of Connecticut, B.S., 1976; The Ohio State University, M.S., 1980, Ph.D., 1984

Gualtieri, Meghan (2010) Lecturer of Theatre; Ursinus College, B.A., 2000; Cornell University, M.A., 2003; Cornell University, Ph.D., 2010

Guay, Merle D. (1969) Professor of Mathematics; Tufts University, B.S., 1958; University of Maine, M.A., 1960; Michigan State University, Ph.D., 1967

Gulielmetti, Angela (2005) Assistant Professor of Modern and Classical Languages and Literatures; Wesleyan University, B.A., 1986; Washington University, M.A., 1993, Ph.D., 1999

Gupta, Bhisham C. (1985) Professor of Applied Mathematics; Punjab University, M.A., 1964; University of Windsor, M.S., 1969, Ph.D., 1972

Guvench, Mustafa G. (1989) Professor of Electrical Engineering; Middle East Technical University, B.S.E.E., 1968, M.S.E.E., 1970; Case Western Reserve University, M.S., 1975, Ph.D., 1975

Hamilton, Michael S. (1985) Professor of Political Science; Colorado State University, B.A., 1974, M.A., 1977, Ph.D., 1984

Hamilton, Nathan D. (1987) Associate Professor of Archaeology; University of Southern Maine, B.A., 1977; University of Pittsburgh, Ph.D., 1985

Hammer, Christy (2003) Associate Professor of Social and Behavioral Sciences; University of New Hampshire, B.A., 1985, M.A., 1987, Ph.D., 1994

Harris, David E. (1995) Associate Professor of Natural and Applied Science; Salem State College, B.S., 1975; University of Vermont, Ph.D., 1990

Harris, E. Scott (1992) Director, School of Music, and Associate Professor of Music; Indiana University, B.M., 1980, M.M., 1987, Ph.D., 1993

Hart, Valerie A. (1996), Associate Professor of Nursing-Peter Bent Brigham Hospital School of Nursing, RN, 1968; Boston College, BSN, 1975; Columbia University, MSN, 1977; University of Maine, EdD, 1994

Hartley, David (1994) Professor, Natural and Applied Science; Salem State College of Nursing, BSN, 1972; John Hopkins Hospital School of Anesthesia, Certified Anesthetist 1979; University of Vermont Medical School, Ph.D., 1990

Hausman, Margaret C. (2008) Assistant Professor of Chemistry; Bowdoin College, A.B., 1988; University of Connecticut - Institute of Materials Science, M.S., 1994; University of Maine - Orono, Ph.D. 1999

Healy, Tara C. (1996) Professor of Social Work; Kalamazoo College, B.A., 1972; Simmons College, M.S.W., 1981, Ph.D., 1996

Heimes, Rita (2001) Research Professor of Law and Director of the Center for Law & Innovation; University of Iowa, B.A., 1990; Drake University Law School, J.D., 1993

Heiser, Robert S. (2005) Assistant Professor of Marketing; St. Joseph's University, B.A. and B.S., 1976; St. Thomas University, M.B.A., 1984; New Mexico State University, Ph.D., 2005

Henrikson, Karl (2003) Men's Basketball Coach and Lecturer in Physical Education; University of Southern Maine, B.A., 1979; Springfield College, M.S., 1987

Hewitt, Duncan A. (1976) Professor of Art; Colby College, B.A., 1971; University of Pennsylvania, M.F.A., 1975

Hillard, Michael (1987) Professor of Economics and Senior Research Associate, Center for Business and Economic Research; University of Massachusetts, B.A., 1980, Ph.D., 1988

Hitchcock, Jan L. (1989) Associate Professor of Social and Behavioral Sciences; Pitzer College, B.A., 1977; Harvard University, M.A., 1982, Ph.D., 1984

Hitchens, Frances L. (2005) Assistant Professor of Teacher Education; Froebel College, Roehampton Institute, University of Surry, B.Ed., 1986; University of Massachusetts at Amherst, M.Ed., 1995, Ed.D., 2003

Holden, Christine (1984) Associate Professor of History; Swarthmore College, B.A., 1965; University of Illinois-Urbana, M.A., 1966, Ph.D., 1976

Howard, H. Cabanne (1997) Assistant Professor of Law and Public Policy; Cornell University, B.A., 1964; Georgetown University Law Center, J.D., 1970

Hrenko, Kelly (2010) Assistant Professor of Art; Southern Illinois University, B.F.A., 2000; University of Minnesota, M.Ed., 2005; University of Minnesota, Ph.D., August 2010

Huston, Sara (2010) Assistant Research Professor; Hampshire College, B.A., 1988; University of Pittsburgh, Ph.D., 1993

Irish, Joel W. (1971) Associate Professor of Mathematics; Colby College, B.A., 1967; University of New Hampshire, M.S., 1969, Ph.D., 1975

Jacobus, Michelle Vazquez (2002) Assistant Professor of Social and Behavioral Sciences; Duke University, B.A., 1986; Stanford Law School, J.D., 1990, New York University School of Social Work, M.S.W., 1996

Jankowski, Mariusz (1990) Associate Professor of Electrical Engineering; The City College of New York, B.E.E., 1980, M.E.E., 1982; City University of New York, Ph.D., 1989

Johnson, Deborah F. (1992) Associate Professor of Psychology; Hofstra University, B.A., 1971; University of London, M.Sc., 1975; University of New Hampshire, M.A., 1979, Ph.D., 1986

Johnson, Gary J. (1989) Associate Professor of History; Texas Tech University, B.A., 1969; University of Michigan, A.M., 1978, Ph.D., 1984

Johnson, Paul (1999) Associate Professor of Social Work; Teesside University, B.A., 1983; Anglia University, M.S.W., 1986; Yeshiva University, D.S.W., 1996

Johnson, Rosemary (1987) Associate Professor of Nursing; McGill University, B.N., 1972; University of Rochester, M.S., 1976; University of Colorado, Ph.D., 1987

Joly, Brenda M. (2006) Assistant Research Professor of Health Policy and Management, Institute for Health Policy, Muskie School of Public Service; University of New Hampshire, B.S., 1995; University of South Florida, M.P.H., 1997, Ph.D., 2001

Jones, David B. (1998), Associate Professor of Recreation and Leisure Studies; Keystone Junior College, AA, 1972; Pennsylvania State University, BS, 1975; University of Minnesota, M Ed, 1980; University of Oregon, EdD, 1989

Jones, Ken (2002) Associate Professor of Teacher Education; University of Louisville, B.S., 1987; M.Ed., 1990; Ed.D., 1999

Jones, Susan (2006) Clinical Lecturer of Counselor Education; West Virginia University, B.A., 1988; Marshal University, M.A., 1990; University of Kentucky, Ph.D., 1996

Kading, Charles S. (1978) Professor of Theatre; California State University, B.A., 1973; University of Washington, M.A., 1975; California State University-Fullerton, M.F.A., 1982

Kargul, Laura (1989) Professor of Music; University of Michigan, B.M., 1978, M.M., 1980, D.M.A., 1985

Kartez, Jack D. (1995) Professor of Community Planning and Development; Middlebury College, B.A., 1974; University of Oregon, M.U.P., 1976; University of North Carolina at Chapel Hill, Ph.D., 1990

Kaschub, Michele (1997) Professor of Music; University of Southern Maine, B.S., 1990; University of Maine, M.M., 1994; Northwestern University, Ph.D., 1998

Katsekas, Bette (1993) Associate Professor of Counselor Education; University of New Hampshire, B.A., 1974, M.Ed., 1975; University of Maine, Ed.D., 1980

Keef, Ardiith (1979) Associate Professor of Music; Eastman School of Music, B.M., 1972, M.M., 1974

Kent, Assunta (1994) Associate Professor of Theatre; University of Illinois, B.S., 1976; University of Colorado, M.A., 1985; Northwestern University, Ph.D., 1994

Kerr, Dana (2008) Assistant Professor of Risk Management and Insurance; University of Pennsylvania, B.S., 1990; Temple University, M.B.A., 1995; University of Wisconsin-Madison, Ph.D., 2002

Kilbreth, Elizabeth H. (1985) Research Associate and Director of the Division of Health Services Research, Institute for Health Policy, Muskie School of Public Service, and Associate Research Professor of Health Policy and Management; Radcliffe College, B.A., 1973; Johns Hopkins University, M.H.S., 1979; Brandeis University, Ph.D., 1996

Killmeier, Matthew (2005) Assistant Professor of Communication and Media Studies; University of Louisville, B.A., 1992; University of Iowa, M.A., 1994, Ph.D., 2003

Kilroy, William (1991) Professor of Theatre; University of Rhode Island, B.F.A., 1981; University of Illinois, M.F.A., 1985

Kim, Yuseung (2010), Assistant Professor of Community Planning and Development; Yonsei University, B.S., 1999; Cornell University, M.R.P., 2001; University of Colorado Denver, Ph.D., 2010

Kimball, Walter (1988) Professor of Education; Centre College, B.A., 1975; University of Kentucky, M.S., 1978; The Ohio State University, Ph.D., 1983

Kivatisky, Russell J. (1974) Assistant Professor of Communication; SUNY Brockport, B.S., 1970, M.A., 1971; Bowling Green State University, Ph.D., 1974

Klotz, Robert J. (2001) Associate Professor of Political Science; Indiana University, B.A., 1990; Washington University in St. Louis, Ph.D., 1998

Knight, Thomas J. (1989) Associate Professor of Biological Sciences; Dominican College, B.S., 1971; Rutgers University, M.S., 1976, Ph.D., 1982

Knott, Christopher (2006) Professor of Law, Associate Dean for Academic Affairs, and Director of the Law Library; University of Iowa, B.A., 1985; University of Michigan, J.D., 1988; Indiana University, M.L.I.S., 1994

Kohli, Amarpeet (2006) Assistant Professor of Business Administration; R.V. College of Engineering, B.Sc., 1994; All India Management Association, M.B.A., 2000; University of Louisville, Ph.D., 2005

Kohli, Hermeet (2006) Associate Professor of Social Work; University of Dehli, B.Sc., 1994, M.S.W., 1996; University of Louisville, Ph.D., 2003

Kuchta, David (2010) Lecturer in History; Wesleyan University, B.A., 1982; University of California, Berkeley, M.A., 1988; University of California, Berkeley, Ph.D., 1991

Kuech, Robert (1999) Associate Professor of Teacher Education; University of Vermont, B.A., 1975; Central Connecticut State College, M.S., 1981; Pennsylvania State University, Ph.D., 1999

Kuenz, Jane (1995) Associate Professor of English; Spring Hill College, B.A., 1983; University of Alabama, M.F.A., 1987; Duke University, M.A., 1991, Ph.D., 1995

Kuzma, Lynn M. (1998) Dean, College of Arts, Humanities and Social Sciences, and Associate Professor of Political Science; The Ohio State University, M.A., 1990, Ph.D., 1995

Lahti, Michael (1996) Assistant Research Professor of Public Policy and Management, and Manager of Evaluation Services, Institute for Public Sector Innovation, Muskie School of Public Service; Boston University, B.A., 1983; Kean University, M.Ed., 1987; University of Maine, M.P.A., 1993, Ph.D., 1998

Lamberson, Linda Dale (2002) Instructor of Nursing; Indiana University, B.S.N., 1972; University of Southern Maine, M.S., 1990

Lambert, David (1986) Assistant Research Professor of Health Policy and Management; Tulane University, B.A., 1972; Indiana University, M.A., 1974; Brandeis University, Ph.D., 1986

Langley-Turnbaugh, Samantha J. (1996) Associate Vice President for Research, Scholarship & Creative Activity, and Professor of Environmental Science; University of Maine, B.S., 1987; University of New Hampshire, M.S., 1992; University of Wisconsin-Madison, Ph.D., 1995

LaPlante, Josephine M. (1985) Associate Professor of Public Policy and Management; Syracuse University, B.A., 1973, M.A., 1983, Ph.D., 1984

Lapping, Mark B. (1994) Executive Director, Muskie School of Public Service, and Professor of Public Policy and Management; SUNY New Paltz, B.S., 1967; Emory University, Ph.D., 1972

LaSala, Gerald J., Jr. (1987) Professor of Physics and Director, Southworth Planetarium; Yale University, B.A., 1970; Rutgers University, M.S., 1978; Dartmouth College, Ph.D., 1983

Law, Dana (2007) Instructor of Nursing, University of Southern Maine, BS in Nursing, 1983; University of Lowell, MSN, 1990

Lawson, Marjorie T. (1994) Coordinator of the Graduate Nursing Program and Associate Professor of Nursing; Theil College, BA, 1969; University of Pittsburgh School of Nursing, BS, 1970; Pennsylvania State School of Nursing, MSN, 1976; University of Rochester School of Nursing, Ph.D., 1995

Laz, Cheryl (1991) Associate Professor of Sociology; Hartwick College, B.A., 1984; State University of New York, M.A., 1987, Ph.D., 1991

Lazar, Ana (1975) Associate Professor of Social Work; SUNY Buffalo, B.A., 1970; Boston University, M.S.W., 1972; Simmons College, Ph.D., 1995

Lehmann, Robert (2001) Associate Professor of Music; University of the Pacific, B.M. 1990; Eastman School of Music, M.M., 1992

Levine, Ira (2002) Associate Professor of Natural and Applied Sciences; State University of New York, Binghamton, B.S., 1977; University of Florida, M.S., 1980; University of Hawaii, Ph.D., 1986

Liberi, Victor (2002) Instructor of Exercise, Health, and Sport Sciences; West Chester University of Pennsylvania, B.S., 1992; University of Delaware, M.S., 1995

Lockridge, Rebecca B. (1984) Associate Professor of Communication; Indiana University, A.B., 1960; Connecticut State College, Certificate, 1962; The Ohio State University, M.A., 1983, Ph.D., 1989

Louden, Robert B. (1982) Professor of Philosophy; University of California at Santa Cruz, B.A., 1975; University of Chicago, M.A., 1976, Ph.D., 1981

Lück, Carlos L. (1995) Associate Professor of Electrical Engineering; University of Sao Paulo, B.S., 1988; University of Southern California, M.S., 1992, Ph.D., 1995

Lupica, Lois R. (1994) Professor of Law and Associate Dean for Faculty Development; Cornell University, B.S., 1981; Boston University School of Law, J.D., 1987

Lutz, Whitney (2004) Lecturer of Nursing; University of Maine at Augusta, A.D.N., 1982; University of Texas-Arlington, B.S.N., 1994; M.S.N., 1997

Lynn, Dahlia B. (1996) Interim Dean for Graduate Studies and Associate Professor of Public Policy and Management; Ohio University, B.S., 1973; Indiana University, M.S., 1977; Florida International University, Ph.D., 1996

MacDonald, Thomas (1984) Associate Professor of Business Administration, University of Southern Maine, B.A., 1973, M.S., 1979, B.A., 1981

MacLeod, Bruce (1986) Associate Professor of Computer Science; Bowdoin College, A.B., 1979; Rensselaer Polytechnic Institute, M.S., 1981; University of Massachusetts, M.S., 1985, Ph.D., 1989

Maher, Christine R. (1997) Professor of Biological Sciences; Miami University, B.S., 1984; University of Idaho, M.S., 1986; University of California-Davis, M.S., 1990, Ph.D., 1992

Maine, Jeffrey A. (2003) Professor of Law; Florida Atlantic University, B.B.A., 1989, M.B.A., 1990; Stetson University College of Law, J.D., 1993; University of Florida College of Law, LL.M., 1994

Mamgain, Vaishali (1997) Associate Professor of Economics; L.S.R. College, Delhi University, B.A., 1988; Jawaharlal Nehru University, M.A., 1990; University of North Carolina, Ph.D., 1997

Manny, Carter (1986) Professor of Business Law; Harvard University, A.B., 1971; Boston University, J.D., 1975

Marasco, Rose (1986) Professor of Art; Syracuse University, B.F.A., 1971; Goddard College, M.A., 1981; Visual Studies Workshop (SUNY), Buffalo, M.F.A., 1991

Marshall, John A. (1996) Associate Professor of Technology; Trenton State College, B.A., 1977; Texas A&M University, M.A., 1978, Ph.D., 1984

Martin, Corinne (2003) Instructor of Holistic Health; University of Southern Maine, B.A., 1997; Prescott College, M.A., 2000; Interfaith Theological Seminary and Prescott College, M.Div., 2003

Martin, Peter J. (1980) Professor of Music; Northern Illinois University, B.A., 1971; Wichita State University, M.M.E., 1973; Northwestern University, Ph.D., 1983

Marya, Deepika (2001) Associate Professor of English; University of Bombay, B.A., 1980; University of Massachusetts, M.A., 1992; Ph.D., 2001

Mazurkiewicz, Michael, Jr. (1969) Professor of Biological Sciences; Rutgers University, B.S., 1961, M.S., 1964; University of Connecticut, Ph.D., 1970

McCormick, Kelly K. (2005) Assistant Professor of Mathematics Education; Hanover College, B.A., 1997; Indiana University, M.A., 2001, Ph.D. 2005

McCullough, William T. (1990) Department Chair of Recreation and Leisure Studies and of Exercise Health and Sports Sciences, Associate Professor of Recreation and Leisure Studies Southern Connecticut State University, BS, 1971; Southern Connecticut State University, MS, 1977; Boston University, D Ed, 1986

McDaniel, Dana (1990) Professor of Linguistics; SUNY Binghamton, B.A., 1980; CUNY, Ph.D., 1986

McGrath, Francis C., III (1985) Professor of English; Dartmouth College, B.A., 1964; University of Texas at Austin, Ph.D., 1973

Medley, Joseph E. (1983) Associate Professor of Economics; SUNY Albany, B.A., 1973; University of Massachusetts, M.A., 1976, Ph.D., 1981

Meinersmann, Krista Manning Smith (2009) Director, School of Nursing, and Associate Professor of Nursing; University of Delaware, B.S.N., 1975; Clemson University, M.S., 1984; Georgia State University, Ph.D., 1995

Merrill, Samuel (2001) Assistant Research Professor of Community Planning and Development, Muskie School of Public Service; University of Maine, B.A., 1991; University of Minnesota, M.S., 1994, Ph.D., 2002

Messerschmidt, James (1986) Professor of Criminology; Portland State University, B.S., 1973; San Diego State University, M.S., 1976; University of Stockholm, Ph.D., 1979

Meyer, Linda (1980) Associate Professor of Recreation and Leisure Studies and Chair; Bridgewater State College, B.S., 1969; University of Connecticut, M.A., 1973, Ph.D., 1976

Moody, Kimberly A., RN-CN (2000)- Associate Professor of Nursing, Westbrook College, ADN, 1977; University of Southern Maine, BS, 1982; Boston University, MS, 1984; University of Washington, Ph.D., 1994

Moore, Lisa R. (2000) Associate Professor of Biological Sciences; University of Oregon, B.S., 1987; St. John's College, M.A., 1989; Massachusetts Institute of Technology, Ph.D., 1997

Moore, Margaret H. (2004) Lecturer of Mathematics and Statistics; Colby College, B.A., 1983; Virginia Polytechnic Institute and State University, M.S., 1984

Morris, Lisa (2002) Assistant Professor of Public Policy and Management, Muskie School of Public Service; University of Southern Maine, B.A., 1989; Rutgers University, M.S.W., 1993, M.S., 1994; University of North Carolina-Chapel Hill, Ph.D., 1999

Moyo, Otrude N. (2002) Associate Professor of Social Work; University of Zimbabwe, B.S., 1995; Southern Illinois University of Carbondale, M.S.W., 1997; Brandeis University, Ph.D., 2001

Mundhenk, Leigh G. (1998) Associate Professor of Leadership and Organizational Studies; Duke University, B.S., 1972; University of Pennsylvania, M.S., 1987; Temple University, Ph.D., 1997

Munger, Jeanne L. (1994) Associate Professor of Marketing; The Ohio State University, B.S., 1979, M.B.A., 1982, Ph.D., 1992

Murphy, Jeffrey (2008) Assistant Professor of Exercise Health and Sports Science; St Vincent College, BS, 1994; University of Pittsburgh, MS, 2003; University of Pittsburgh, Ph.D., 2008

Murphy, Julien (1984) Professor of Philosophy; Northern Illinois University, B.A., 1977; DePaul University, M.A., 1980, Ph.D., 1982

Murphy, Stephen T. (1995) Professor of Counselor Education; Holy Cross College, B.A., 1966; SUNY Buffalo, Ph.D., 1973

Muthyala, John S. (2001) Associate Professor of English; Secunderabad, B.A., 1986; Osmania University, M.A., 1988; M.Phil., 1991; Loyola University, Ph.D., 2001

Najarian, Haig H. (1966) Professor of Biological Sciences; University of Massachusetts, B.S., 1948; Boston University, M.A., 1949; University of Michigan, Ph.D., 1953

Nakroshis, Paul (1997) Associate Professor of Physics; University of Illinois, B.S., 1986; University of Massachusetts, Ph.D., 1993

Needleman, Sara (2010) Lecturer of Teacher Education; Colgate University, B.S., 1990; Bank Street College, M.S., 1996

Nemeroff, Carol (2008) Professor of Social & Behavioral Sciences; McGill University, BA, 1981; University of PA, MA, 1982; University of PA, Ph.D., 1988

Ng, Ah-Kau (1988) Professor of Applied Immunology; National Chung-Hsing University, B.S., 1969; SUNY Plattsburgh, M.A., 1972; Temple University School of Medicine, Ph.D., 1975

Norchi, Charles (2008) Associate Professor of Law; Harvard University, A.B., 1979; Case Western, J.D., 1986; Yale University, LL.M., 1989, J.S.D., 2006

Northrop, Christopher (2006) Associate Clinical Professor; Grinnell College, B.A., 1983; University of North Carolina, J.D., 1989

Novak, Irwin D. (1971) Professor of Geology; Hunter College, A.B., 1966; University of Florida, M.S., 1968; Cornell University, Ph.D., 1971

Oberholtzer, Christopher W. (2000) Associate Professor of Music; University of Southern Maine, B.A., 1993; Indiana University, M.M., 1995; University of Northern Colorado, D.A., 2003

O'Mahoney-Damon, Patricia M. (1977) Associate Professor of Biological Sciences; Long Island University, B.S., 1971; SUNY Buffalo, M.A., 1974, Ph.D., 1977

Owen, Dave (2007) Associate Professor of Law; Amherst College, B.A., 1996; University of California, Berkeley School of Law, J.D., 2002

Panici, Daniel A. (1995) Associate Professor of Communication and Director, Media Studies Program; Augustana College Rock Island, B.A., 1983; Colorado State University, M.A., 1986; University of Missouri, Ph.D., 1989

Parchman, Thomas (1984) Associate Professor of Music; Southern Methodist University, B.M., 1976; Northwestern University, M.M., 1978; University of Southern California, D.M.A., 1986

Parker, Heidi (2010) Assistant Professor of Sport Management; University of North Carolina Pembroke, B.S., 1999; Western Carolina University, M.A.Ed., 2000; The Ohio State University, Ph.D., 2007

Pavri, Firooza (2004) Associate Professor of Geography; University of Bombay, B.A., 1991; University of Toledo, M.A., 1994; Ohio State University, Ph.D., 1999

Payne, Susan (1999) Research Professor of Health Policy and Management; University of Waterloo, B.A., 1969; University of Michigan, M.P.H., 1978; Boston University, Ph.D., 1986

Peake-Godin, Helen (1987) Associate Professor of Nursing, Spalding College, BSN, 1969; Emory University, MSN, 1979; Boston University, Ph.D., 1996

Pelsue, Stephen C. (1996) Associate Dean, College of Science, Technology and Health and Associate Professor of Applied Immunology; Northland College, B.S., 1988; North Carolina State University, Ph.D., 1993

Peng, Cheng (2003) Associate Professor of Mathematics and Statistics; East China Normal University, B.S., 1986; The University of Toledo, M.S., 2000, Ph.D., 2003

Peters, Gerald (1987) Associate Professor of English; University of Saskatchewan, B.A., 1975, M.A., 1982; University of Illinois, Ph.D., 1986

Picinich, Susan E. (1987) Professor of Theatre; SUNY Albany, B.A., 1978, M.A., 1980; University of Michigan, M.F.A., 1985

Pierson, David P. (2001) Associate Professor of Media Studies; University of Texas, B.S., 1980; University of North Texas, M.S., 1993; Pennsylvania State University, Ph.D., 2000

Piribeck, Jan M. (2000) Associate Professor of Art; Southern Illinois University, B.A., 1973; Northern Illinois University, M.A., 1981; M.F.A., 1982

Pitegoff, Peter (2005) Dean and Professor of Law, University of Maine School of Law; Brown University, A.B., 1975; New York University School of Law, J.D., 1981

Pollock, Stephen G. (1979) Professor of Geology; Bucknell University, A.B., 1968; University of Maine, M.S., 1972; Rutgers University, Ph.D., 1975

Porobic, Damir (2010) Lecturer of Art; Kansas City Art Institute, B.F.A., 2002; West Virginia University, M.F.A., 2005

Powell, David C. (2001) Professor of Criminology; University of London, B.S., 1973; University of Leeds, M.A., 1974; M.S., 1989; University of Wales, Ph.D., 2001

Power, Thomas A. (1966) Professor of Theatre; University of Maine, B.S., 1964, M.A., 1968

Prudenté, Caryn K. (1999) Associate Professor of Chemistry; Susquehanna University, B.A., 1985; University of Colorado at Boulder, Ph.D., 1989

Pryor, Charlotte (1999) Associate Professor of Accounting; University of Maryland, B.A., 1972; West Virginia University, M.S., 1977; Pennsylvania State University, Ph.D., 1996

Purdy, Warren (1980) Associate Professor of Business Administration; Bethany College, B.A., 1970; Fordham University, M.B.A., 1974

Raimon, Eve A. (1995) Associate Professor of Arts and Humanities; Cornell University, B.A., 1980; University of Vermont, M.A., 1988; Brandeis University, Ph.D., 1995

Randall, Carla E. (2004) Assistant Professor of Nursing; Lutheran Hospital School of Nursing, RN, 1979; Coe College, BSN, 1981; University of Dubuque, BSN, 1987; University of Victoria, Ph.D., 2005

Randall, Cynthia (2010) Lecturer in Nursing; University of Southern Maine, B.S.N, 1996; M.S.N. 2010

Read, Jason (2005) Associate Professor of Philosophy; Hampshire College, B.A., 1994; Binghamton University, Ph.D., 2001

Red, Patricia (2005) Lecturer in Teacher Education; University of Maine at Farmington, B.S., 1982; University of Oregon, M.S., 1987

Rich, Barbara (1974) Associate Professor of Social Work; University of Maine, B.A., 1968; Columbia University, M.S.W., 1970

Reichert, Edward (2010) Lecturer in Musical Theatre; The Aaron Copland School of Music/Queens College/CUNY, B.Mus.

Richeson, Nancy (2000) Professor of Recreation and Leisure Studies; Mankato State University, B.S., 1980; University of Nebraska, M.A., 1986; Ph.D., 2001

Roberts, Bruce B. (1995) Professor of Economics; Dartmouth College, A.B., 1970; University of New Hampshire, M.A., 1975; University of Massachusetts, Ph.D., 1981

Robinson, Betty D. (1988) Associate Professor of Leadership and Organizational Studies; Colby College, B.A., 1973; University of Maryland, M.A., 1976; Boston University, Ph.D., 1983

Rodrigue, Barry H. (2000) Associate Professor of Arts and Humanities; Evergreen State College, B.A., 1974; University of Maine, M.A., 1992; Université Laval, Ph.D. 1999

Rogoff, Martin (1972) Professor of Law; Cornell University, B.A.; University of California at Berkeley, M.A.; Yale University, LL.B.

Romanoff, Stephen J. (1994) Professor of Interdisciplinary Studies and Director of Russell Scholars Program; University of Maine, B.A., 1969, M.A., 1971; New York University, Ph.D., 1984

Rosenthal, Charlotte (1987) Professor of Russian; Cornell University, B.A., 1964; University of Chicago, M.A., 1967; Stanford University, Ph.D., 1979

Ross, Flynn (2000) Associate Professor of Teacher Education; Tufts University, B.A., 1992; Columbia University, Ed.M., 1997; Ed.D., 2000

Rusch, Willard (1987) Associate Professor of English; SUNY Fredonia, B.A., 1976; University of Illinois, M.A., 1981, Ph.D., 1987

Russell, Robert J. (1979) Professor of Music; Wake Forest University, B.A., 1971; University of North Carolina, M.M., 1975; University of Colorado, D.M.A., 1979

Ryden, Kent C. (1994) Associate Professor of American and New England Studies; Carroll College, B.A., 1981; University of Connecticut, M.A., 1984; Brown University, M.A., 1986, Ph.D., 1991

Samia, Linda (2008) Assistant Professor of Nursing, Boston College, BSN, 1977; University of Southern Maine, MSN, 1990; University of Massachusetts, Ph.D., 2007

Sanders, John J. (1982) Associate Professor of Accounting and Senior Research Associate, Center for Business and Economic Research; Plymouth State College, B.S., 1972; University of Southern Maine, M.B.A., 1977

Sanford, Robert M. (1996) Professor of Environmental Science and Policy; SUNY at Potsdam B.A., 1982; SUNY College of Environmental Science and Forestry at Syracuse, M.S., 1984, Ph.D., 1989

Savage, Lydia A. (1996) Professor of Geography; University of California at Berkeley, B.A., 1990; Clark University, M.A., 1993, Ph.D., 1996

Schaible, Robert M. (1986) Professor of Arts and Humanities; Furman University, B.A., 1965; University of Tennessee, M.A., 1966, Ph.D., 1971

Schertz, Brenda (2002) Lecturer in American Sign Language; Art Institute of Boston, M.A.; University of Massachusetts, M.A.

Schiferl, Irene (1980) Associate Professor of Art; Grinnell College, B.A., 1971; University of Minnesota, M.A., 1974, Ph.D., 1980

Schilling, Jim (2008) Assistant Professor of Exercise, Health, and Sports Sciences; University of Wisconsin-Platteville, B.S., 1978; Indiana State University, M.S., 1993; Marian College, Ph.D., 2008

Schindler, Sarah (2009) Associate Professor of Law; The University of Georgia, A.B., 1999, J.D., 2003

Schmidt, Ronald, Jr. (1999) Associate Professor of Political Science; University of California at Berkeley, B.A., 1988, M.A., 1990, Ph.D., 1998

Schmieders, H. Lori (2007) Assistant Professor of Counselor Education; Northern Kentucky University, B.A., 1975; Xavier University, M.Ed., 1989; University of Louisville, Ed.D., 1999

Scott, Christopher B. (2002) Associate Professor of Exercise, Health, and Sport Sciences; Springfield College, B.S., 1984; United States Sports Academy, M.S.S., 1985; University of Arizona, M.S., 1990; University of Wyoming, Ph.D., 2002

Sepples, Susan B. (2002) Associate Professor of Nursing, Duke University, BSN, 1983; University of Virginia, Charlottesville, MSN, 1991; University of Virginia, Charlottesville, Ph.D., 1996

Shaffer, James B. (2004) Dean, School of Management and Human Service; Purdue University, B.S. and M.E., 1967; Indiana University, M.B.A., 1970

Shank, Melody (2000) Associate Professor of Teacher Education; Manchester College, B.A., 1978; Indiana University, M.S., 1984, Ed.D., 2000

Shaughnessy, Michael (1987) Professor of Art; University of Missouri, Kansas City, B.A, 1981; Ohio University, M.F.A., 1984

Shedletsky, Leonard (1979) Professor of Communication; Brooklyn College, B.A., 1965; San Francisco State College, M.A., 1968; University of Illinois, Ph.D., 1974

Shepard-Kegl, Judy (1998) Professor of Linguistics; Brown University, B.A./M.A., 1975; Massachusetts Institute of Technology, Ph.D., 1985

Shields, Jeffrey F. (2001) Associate Professor of Accounting; Washington State University, B.S., 1978; University of Pittsburgh, M.B.A., 1991, Ph.D., 1991

Silvernail, David L. (1977) Professor of Education and Director of Center for Educational Policy, Applied Research and Evaluation; Indiana University, A.B., 1969, M.S., 1975, Ed.D., 1977

Smith, Deirdre (2004) Professor of Law and Director, Cumberland Legal Aid Clinic; University of Pennsylvania, B.A., 1988; University of Maine School of Law, J.D., 1994

Smith, James W. (1986) Associate Professor of Engineering; Pennsylvania State University, B.S., 1961, M.S., 1963, Ph.D., 1967

Smoluk, Bert J. (1998) Associate Professor of Finance and Senior Research Associate, Center for Business and Economic Research; Pennsylvania State University, B.S., 1984; Rider University, M.B.A., 1992; Lehigh University, Ph.D., 1997

Sonenberg, Daniel (2005) Assistant Professor of Music; Bard College, B.A., 1992; Queens College, M.A., 1997; City University of New York, D.M.A., 2003

Spross, Judith A. (2003) Professor School of Nursing; Villanova University, B.S.N., 1974; Medical College of Virginia, M.S., 1977; Boston College, Ph.D., 1999

Stairs, Andrea J. (2009) Assistant Professor of Literacy Education; Colby College, B.A., 1994; Boston College, M.A., 1995, Ph.D., 2006

Staples, Joseph (2010), Lecturer of Environmental Science; SUNY, B.S., 1995; M.S. 1999; Illinois State University, Ph.D., 2010

Steege, Mark W. (1989) Professor of School Psychology; Iowa State University, B.S., 1978; University of Iowa, Ed.S., 1982, Ph.D., 1986

Steele, William P. (1967) Professor of Theatre; University of Maine, B.S.Ed., 1964, M.A., 1967

Stevens, Reid D. (1985) Associate Professor of Education; Suffolk University, B.S., 1971; University of Maine, M.Ed., 1973; University of Georgia, Ph.D., 1981

Suleiman, James A. (2002) Associate Professor of MIS and Senior Research Associate, Center for Business and Economic Research; Lehigh University, B.S., 1988; University of South Florida, M.B.A., 1992; University of Georgia, Ph.D., 1998

Suscavage, Charlene E. (1986) Associate Professor of Spanish; Millersville University, B.S.E., 1970; University of Delaware, M.A., 1973; Pennsylvania State University, Ph.D., 1980

Swanson, Mark T. (1983) Professor of Geology; Northeastern University, B.S., 1975; Lehigh University, M.S., 1979; SUNY Albany, Ph.D., 1982

Swartz, Richard G. (1991) Associate Professor of English; Washington University, B.A., 1976; University of California, Ph.D., 1986

Sytsma, Donald (1972) Associate Professor of Psychology; Arizona State University, B.A., 1965; University of Waterloo, Ph.D., 1971

Theodose, Theresa A. (1995) Associate Professor of Biological Sciences; James Madison University, B.S., 1985; The College of William and Mary, M.S., 1989; University of Colorado, Ph.D., 1995

Thompson, Robert B. (2001) Associate Professor of Psychology, University of St. Andrews, M.A., 1989; University of Edinburgh, Ph.D., 1997

Thompson, W. Douglas (1989) Professor of Epidemiology and Faculty Associate in Health Policy and Management; Director of Bingham Consortium; Yale University, B.A., 1970, Ph.D., 1980

Thornton, Bill (1989) Professor of Psychology; University of Texas at Austin, B.A., 1974; Baylor University, M.A., 1975; University of Maine, Ph.D., 1982

Towle, George (1997) Lecturer in Physical Education, Head Women's Cross Country and Track Coach; University of Maine, B.S., 1973; University of Southern Maine, M.S., 1978

Towne, Benjamin M. (2005) Lecturer in Exercise, Health, and Sport Science; Lyndon State College, B.S., 1999; Western Michigan University, M.A., 2001

Toy, Brian (1996) Associate Professor of Exercise, Health, and Sport Sciences; SUNY Cortland, B.S., 1983; Marshall University, M.S., 1985; University of Toledo, Ph.D., 1992

Tracy, Henry J. (1991) Professor of Chemistry; Bowdoin College, A.B., 1983; Massachusetts Institute of Technology, Ph.D., 1990

Tuchinsky, Adam-Max (2001) Associate Dean, College of Arts, Humanities and Social Sciences and Associate Professor of History; University of Illinois, B.A., 1991; University of North Carolina, M.A., 1994; Ph.D., 2001

Tussing, Justin (2007) Assistant Professor of English; University of New Hampshire, Durham, B.A., 1992; University of Iowa Writers' Workshop, M.F.A., 1999

Uzzi, Jeannine D. (2002) Associate Professor of Classics; Hamilton College, B.A., 1993; Duke University, Ph.D., 1998

Valdés, Silvia R. (1994) Associate Professor of Mathematics and Statistics; University of Chile-Santiago, B.S., 1982; University of Iowa, M.S., 1990, Ph.D., 1993

VanderLinden, David (1999) Associate Professor of Accounting and Finance; University of North Carolina, B.A., 1971; Colorado State University, M.B.A., 1981; Kent State University, Ph.D., 1998

VanZandt, Zark (1987) Associate Dean, College of Management and Human Service and Professor of Human Resource Development; Michigan State University, B.A., 1969, M.A., 1970; University of Maine, Ed.D., 1976

Vassallo, Francesca (2002) Associate Professor of Political Science; University of Padua, B.A., 1993; American University, M.A., 1996; Georgetown University, Ph.D., 2001

Vella, Elizabeth J. (2007) Assistant Professor of Psychology; Sonoma State University, Rohnert Park, CA, B.A., 1998; Virginia Polytechnic Institute & State University, Blacksburg, VA, M.S. 2003 and Ph.D., 2005

Violette, George R. (1988) Professor of Accounting; University of Maine at Augusta, B.S., 1978; University of Maine, M.B.A., 1982, Arizona State University, Ph.D., 1987

Voyer, John J. (1987) Interim Director, School of Business, Professor of Business Administration, and Senior Research Associate, Center for Business and Economic Research; Harvard University, A.B., 1973; Clark University, M.B.A., 1981; University of Massachusetts, Ph.D., 1986

Wachholz, Sandra (1997) Associate Professor of Criminology; St. Cloud University, B.A., 1982; Sam Houston State University, M.A., 1984, Ph.D., 1994

Wagner, Travis P. (2002) Associate Professor, Environmental Science and Policy; Unity College in Maine, B.S., A.A.S., 1983; University of Maryland, College Park, M.P.P., 1998; George Washington University, Ph.D., M.Phil., 2002

Waldrep, Shelton (1999) Professor of English; University of Alabama, B.A., 1982, M.F.A., 1987; Duke University, M.A., 1991, Ph.D., 1995

Walker, Jeffrey A. (2000) Associate Professor of Biological Sciences, and Coordinator of Master's in Biology Program; University of Pennsylvania, B.A., 1988; SUNY Stony Brook, Ph.D., 1995

Walker, Lisa (1995) Associate Professor of English; Oberlin College, B.A., 1987; Louisiana State University, M.A., 1991; Ph.D., 1995

Wanderer, Nancy (2001) Legal Writing Professor and Director of Legal Writing Program; Wellesley College, B.A., 1969; George Washington University, M.A., 1978; University of Maine, J.D., 1990

Ward, Thomas M. (1976) Professor of Law; University of Pennsylvania, B.A., 1965; Notre Dame Law School, LL.B., 1968; University of Illinois Law School, LL.M., 1970

Weber, Kenneth E. (1991) Professor of Biological Sciences; Northern Arizona University, B.A., 1971; The College of William and Mary, M.A., 1979; Harvard University, Ph.D., 1986

Welty, Charles (1979) Chair of Master of Science in Computer Science Program and Professor of Computer Science; University of California at Berkeley, B.S., 1967, M.S., 1968; University of Massachusetts, M.S., 1977, Ph.D., 1979

Westfall, James R. (1983) Associate Professor of Business Administration; Dartmouth College, A.B., 1967, M.B.A., 1968

Whitaker, R. Blake, Jr. (1997) Associate Dean, Lewiston-Auburn College and Associate Professor of Natural and Applied Sciences; Bates College, B.S., 1974; Yale University, Ph.D., 1980

Whitmore, Allan R. (1969) Associate Professor of History; University of Maine, B.A., 1962; Northwestern University, M.A., 1964, Ph.D., 1970

Whitney, Jean (2002) Associate Professor of Special Education; Carleton College, B.S., 1986; University of Pittsburgh, M.Ed., 1987; University of Wisconsin-Madison, Ph.D., 1994

Wieselquist, Jennifer (2010), Lecturer in Psychology; College of William and Mary, B.S., 1991; University of North Carolina, M.A., 1995; Ph.D., 2000

Wiley, Elise (2005) Lecturer of Nursing and Assistant Coordinator; Regents College, A.S., 1976; George Washington University, B.A., 1982; University of Washington, M.S.N., 1995

Williams, Joanne (2007) Associate Professor of Sports Marketing; West London Institute of Higher Education, B.E., 1987; Springfield College, M.Ed., 1991, Ph.D., 1998

Winger, Kathleen J. (1989) Associate Professor of Philosophy; Southern Connecticut State University, B.A.; Temple University, Ph.D., 1988

Winston, Kristin A. (2008) Assistant Professor of Occupational Therapy; University of New Hampshire, B.S., 1985; University of Vermont, M.Ed., 1990; Nova Southeastern University, Ph.D., 2008

Wise, John P. (2002) Professor, Applied Medical Sciences, George Mason University, B.S., 1990; George Washington University, Ph.D., 1994

Woodman, Laurie (2004) Lecturer in Mathematics and Statistics; Mount Holyoke College, B.A., 1982; University of New Hampshire, M.S., 1984, Ph.D., 1990

Woodruff, Peter J. (2010) Assistant Professor, Biochemistry; Dartmouth College, B.A. 1999; University of California, Berkeley, Ph.D., 2007

Wriggins, Jennifer (1996) Professor of Law and Associate Dean for Research; Yale University, B.A., 1980; Harvard Law School, J.D., 1984

Wright, John R. (2000) Provost and Vice President for Academic Affairs and Professor of Technology; Massachusetts State College at Fitchburg, B.S., 1969; Rhode Island College, M.Ed., 1973; West Virginia University, Ed.D., 1976

Yetter, Susan (2008) Assistant Professor of Nursing; University of Pennsylvania, BSN, 1987; University of Pennsylvania, MSN, 1991; University of Southern Maine, Psychiatric Clinical Nurse Specialist, 1998; University of Southern Maine, PNP, 2001; University of St Louis, Geriatric NP, 2005; Duquesne University, Ph.D., 2008

Zaner, John A. (1974) Associate Professor of Technology; Millersville State College, B.S., 1969, M.Ed., 1972; Pennsylvania State University, Ed.D., 1977

Zarr, Melvyn (1973) Professor of Law; Clark University, A.B., 1958; Harvard University, LL.B., 1963

Zhao, Jie (1998) Associate Professor of History, Lanzhou University, B.A., 1982; University of Hawaii at Manoa, M.A., 1988; Princeton University, Ph.D., 1995

Julie E. Ziffer (2007) Assistant Professor of Physics; Truman State University, B.S., 1994; Troy State University, M.S., 1997; University of Central Florida, Ph.D., 2006

Zura, Shannon (2007) Assistant Professor of Theatre; Cameron University, B.A., 1998; Temple University, M.F.A., 2003

Part-Time Faculty

Agnew, Aileen, Lecturer in American and New England Studies
Aieta, Amy, Instructor Nursing
Akers, Peggy, Instructor in Nursing
Albert, Sally, Lecturer in American Sign Language
Albright, Janis, Lecturer in Learning Foundations
Alexander, Tambria, Lecturer in Professional Education
Alves, Michelene, Lecturer Nursing
Ames, Pamela, Lecturer in Criminology
Andersen, Patricia, Lecturer in Art **Anderson, Walter**, Lecturer in Geosciences **Animashaun, Najim**, Lecturer in Political Science **Anthony, Jessica**, Lecturer in English
Arbour, Raymond L., Lecturer in Technology
Aronson, Andrew, Lecturer in Modern and Classical Languages and Literatures
Ayan, Adam, Lecturer in Music
Bailey, Douglas E., Lecturer in Social Work
Bailey, Kerry, Lecturer in Teacher Education
Bailow, Judith, Instructor in Nursing
Baker, Harlan R., Lecturer in Theatre
Baker, Roxanne, Lecturer in American Sign Language
Ballantine, John Andrew, Lecturer in Geography and Anthropology
Barnes, Jack C., Lecturer in Core Curriculum
Baschkopf, Daniel J., Lecturer in Spreadsheets
Baxter, Jean M., Lecturer in Art
Bay, John, Associate Professor of Economics
Beach, Paul, Associate Professor in Physics
Beam, Chris, Lecturer in History
Beauclair, Claude, Lecturer in French
Beck, Joel, Lecturer in Operations Management
Bedder, Kenneth, Lecturer in Teacher Education
Belik, Barbara I., Lecturer in Accounting
Bellerose, Nora, Lecturer in Learning Foundations
Benak, Lynda, Lecturer Nursing
Bendzela, Michael T., Lecturer in English
Bennett, Brenda Lecturer Nursing
Benson, S. Patricia, Lecturer in Art
Bernier, Rene, Lecturer in Chemistry
Beyland, Vanessa, Lecturer in Theatre
Bickford, Meredith, Lecturer in Learning Foundations
Bickford, Susan C., Lecturer in Art
Biggie, Dennis P., Assistant Professor of Philosophy
Bilodeau, Richard, Lecturer in **Business Administration**
Birmingham, Thomas F., Lecturer in Technology
Birtolo, Pat Delaney, Lecturer in Human Resource Development
Bois, David, Lecturer in Teacher Education
Boisvert-Guay, Monique, Lecturer in Business Law
Bolduc, George R., Lecturer in Learning Foundations
Bonneau, Paulette, Lecturer in Social Work
Bosse, Candice L., Lecturer in Modern and Classical Languages and Literatures
Boston, Robert C., Lecturer
Bouchard, Donald L., Lecturer in Professional Education
Boulette, E. Thomas, Professor of Physics
Bowden-Schaible, Sally, Lecturer in Human Resource Development
Boulter, Aaron, Lecturer in Learning Foundations
Bourget, Michelle, Lecturer in Modern and Classical Languages and Literatures
Bowden, Kelley, Lecturer in Nursing
Boyer, David, Lecturer in Sociology
Boyle, Mary, Lecturer in Professional Education
Brier, Steve, Lecturer in Exercise, Health, and Sport Sciences and Recreation and Leisure Studies
Briggs, Kaitlin, Assistant Professor of Interdisciplinary Studies
Britting, Brian G., Lecturer in Technology
Brooks, Franklin, L., Lecturer in Social Work
Broom, Anna, Assistant Professor of Political Science
Burlin, Paul T., Assistant Professor
Burson, Janet, Associate Professor
Cantara, Debra, Instructor of Exercise, Health, and Sport Sciences and Recreation and Leisure Studies
Cappen, Shannon, Lecturer Nursing

Carlozzi, Joseph, Lecturer in Technology
Caron, Pamela, Lecturer in Technology
Carter, Leo, Lecturer in Chemistry
Carter, Michael, Lecturer in Teacher Education
Cartwright, Merrie, Lecturer in Environmental Science
Cash, Alice B., Lecturer in Business Administration
Chaimowitz, Daniel, Lecturer in Communication
Champagne, Jennifer, Lecturer in Professional Education
Chatfield, Jennifer, Lecturer Nursing
Chebowicz, John, Lecturer in English
Chenard, Chris, Lecturer in Nursing
Chesley, Nancy, Lecturer in Teacher Education
Cheung, Michale J., Lecturer in English
Chidsey, David, Lecturer in Special Education
Chipman, Michelle, Instructor Nursing
Coan, Susan, Lecturer in Human Resource Development
Colburn-Motta, Susan, Lecturer in Art
Cole, Joanne F., Lecturer in English
Condon, Kathleen, Lecturer in Modern and Classical Languages and Literatures
Conklin-Powers, Bernice, Assistant Professor of Social & Behavioral Sciences
Conley, Amy, Lecturer Nursing
Conly, Sarah, Lecturer in Philosophy
Connell, Michael, Lecturer in Recreation and Leisure Studies
Connolly, Graham, Lecturer in Engineering
Connolly, Michael C., Lecturer in History
Conroy, David, Lecturer in Engineering
Cooney, Amy, Instructor Nursing
Cormier, Michael, Lecturer in Professional Education
Cote, Guy, Lecturer in Engineering
Cote, Michael P., Lecturer in Economics
Covert, Karl, Lecturer in Human Resource Development
Cox, Joyce Ann, Instructor of Nursing
Crabtree, Troy, Lecturer in Teacher Education
Cross, Virginia W., Lecturer in Technology
Crowell, William, Lecturer in Engineering
Cummings, Glenn, Lecturer in Economics
Cunningham, Michael, Lecturer in Engineering
Curtis, Bernadette, Lecturer Nursing
Cyr, Laurel, Lecturer in Professional Education
Dahms, Debra, Instructor of Nursing
Dana, Richard, Lecturer in Accounting
Davidson, Daniel, Lecturer in Media Studies
Davis, Mary, Lecturer in Learning Foundations
Dawson, Doris, Lecturer in Art
Davee, Ann Marie, Lecturer Health and Sport Sciences
Dee, M. Susan, Lecturer in Professional Education
DeLeon, Andrea, Lecturer in Media Studies
Dennis, John, Associate Professor of Media Studies
Dennison, Richard A., Lecturer in Learning Foundations
Denton, Priscilla, Lecturer in Learning Foundations
Deraspe, Jen, Instructor of Recreation and Leisure Studies
Dickson, William, Lecturer in Business Administration
DiMillo, Jane Burke, Lecturer in Learning Foundations
Dimmick, David, Lecturer in Accounting
Dodge, Elizabeth, Lecturer in English
Dolloff, Andrew, Lecturer in Teacher Education
Dorney, Lindsay, Lecturer in English
Dorsey, Donald, Lecturer in Biology
Drapeau, Patti, Lecturer in Teacher Education
Driscoll, Rachel, Lecturer in Teacher Education
Dube, Beth, Lecturer Nursing
Dunleavy, John, Lecturer in Linguistics
Dunn, Jess, Lecturer in Teacher Education
Dunnington, James J., Lecturer in Technology
Durgin, Gerald, Lecturer in Teacher Education
Eaton, Jeff, Instructor, Nursing
Eaton, William, Lecturer in Engineering
Eaton-Bancroft, Irene, Lecturer in Nursing
Ebben, Maureen, Associate Professor in Communication
Eckersley-Ray, Lynette, Lecturer in English

Edmands, Brenda, Lecturer English **Eldridge, Stuart**, Lecturer in Anthropology **Enrico, Denise**, Lecturer in Literacy Education **Eppich, Paula**, Lecturer in Teacher Education
Eretzian, Barbara, Lecturer in Professional Education
Eskilson, Peter, Lecturer in Learning Foundations
Eyerman, Mark, Lecturer in Geography and Anthropology
Fagone, Renee, Instructor Nursing
Farnsworth, Suzanne, Nursing
Farr, Jane, Lecturer in Human Resource Development
Fenton, Clarence, Lecturer in Nursing
Fiandaca, Jennifer, Lecturer in Special Education
Field, Fred, Lecturer in Communication
Fink, Elaine, Lecturer in Biology
Fitch, Stacia, Lecturer in Social Work
Flahaven, James, Lecturer in Art
Fleming, Colleen, Lecturer
Foote, Richard H., Lecturer in Accounting
Fortuna, Leonard, Lecturer in Learning Foundations
Fotter, Kimberly, Lecturer in Teacher Education
Freeman, Ardith A., Associate Professor in Music
Friedrichs, Irene, Lecturer in Teacher Education
Frost, Susan, Lecturer in Learning Foundations
Fuhrmann, Denise, Instructor of Nursing
Fyler, Bill, Instructor Nursing
Gale, Jon, Lecturer in Teacher Education
Gallant, Melissa, Lecturer Nursing
Gendron, Roger, Lecturer in Astronomy
Gerken, Matt, Assistant Professor of Exercise, Health, and Sport Sciences
Germani, Nancy, Lecturer in Teacher Education
Gilbert, Dennis C., Lecturer in English
Gillespie, Stuart, Lecturer in Music
Gilpatric, Robert, Lecturer in Learning Foundations, Mathematics
Gipson, Rita, Lecturer in American Sign Language
Glover, Robert A., Lecturer in Music
Goodale, Rebecca, Lecturer in Art
Goodlet, Virginia, Assistant Professor of Art
Goodness, Gregory, Lecturer in Educational Leadership
Gratto, Bernadette, Lecturer in Teacher Education
Green, Paul, Lecturer in Communication
Grenier-Farwell, Jacqueline, Lecturer in Professional Education
Griffin, John, Lecturer in Mathematics
Griffin, Robert, Lecturer in Teacher Education
Guiles, Polly, Lecturer in Accounting
Gunn, Nancy, Lecturer in Music
Hackett, Peter, Lecturer in Human Resource Development
Hall, Christine A., Lecturer in Theatre
Hanley, Susan, Lecturer in Teacher Education
Hannemann, Judith E., Lecturer in English
Hanson, Christina, Lecturer Nursing
Harlow, Bonnie, Lecturer in Teacher Education
Harriman, Nancy, Associate Professor in Teacher Education
Harrod, Elizabeth, Lecturer in Philosophy
Haskins, Christopher, Lecturer in Technology
Hathorne, Warren T., Lecturer in Technology
Haven, Valerie Claire, Lecturer in Professional Education
Hebson, Charles, Lecturer in Environmental Science and Policy
Hecker-Cain, Jane, Lecturer in Linguistics
Heintz-Knowles, Katherine, Assistant Professor of Communication
Hendrickson, Julie, Lecturer in Learning Foundations
Hendrie, Arden, Lecturer in English
Heward, Margarita, Lecturer in Modern and Classical Languages and Literatures
Higgins, Ikuko, Lecturer in Japanese
Hines, John, Lecturer in Philosophy
Hink, Jon, Lecturer in Environmental Science and Policy
Hinman, Mary, Lecturer in Teacher Education
Hobbins, Ann Marie, Lecturer in Teacher Education
Hodge, Karen, Lecturer in Computer Science
Hoecker, Karlee, Lecturer in Psychology
Hoffmann, Green, Instructor Nursing

Holt, Frankie, Lecturer in Sociology
Honan, Ellen, Lecturer in Professional Education
Hoose, Robin, Lecturer of Exercise, Health, and Sport Sciences
Horton, Scott, Lecturer in Human Resource Development
Howard, Clara, Lecturer in Professional Education
Howard, Denis L., Lecturer in Technology
Howe, Elizabeth, Lecturer in Professional Education
Humphrey, Gene D., Lecturer in Learning Foundations
Hunt, H. Draper, Professor Emeritus of History
Hunt, John C., Lecturer in Political Science
Huntley, Brian, Lecturer in Engineering
Hutton, Nancy, Lecturer in Literacy Education
Ingerowski, Frank S., Lecturer in Technology
Jackson-Lualdi, Katherine, Assistant Professor in History
James, Judith, Lecturer in Music
Johansen, Carol, Lecturer in Business Administration
Johnson, Christine M., Lecturer in Learning Foundations
Johnson, Karen, Lecturer in Teacher Education
Johnson, Mark, Lecturer in Philosophy
Johnson, Jr., Paul, Lecturer in Human Resource Development
Jones, Jeff, Lecturer in Human Resource Development
Jones, Robert K., Assistant Professor
Jordan, Clover, Lecturer in Learning Foundations
Jordan, P. Len, Lecturer in Recreation and Leisure Studies
Jordan, Robert, Lecturer in Economics
Kaminski, Kate, Lecturer in Media Studies
Kaufman, Polly, Lecturer in History
Kelleher, Dorothy F., Lecturer in Learning Foundations
Kelly, Kevin, Lecturer in English
Kennedy, Judith Caren, Lecturer in Professional Education
Kern, Katherine, Lecturer in Engineering
Kim, Melissa, Lecturer in Communication
Kissack, Christine, Lecturer in Music
Klein, Angela, Instructor
Knott, Diane, Lecturer in Teacher Education
Knowles, Daniel, Lecturer in Mathematics
Konrad, Shelley C., Lecturer
Kramlich, Debra, Instructor Nursing
Krass, Teresa, Lecturer
Kutch, David, Assistant Professor in History
Lamb, Frederick, Lecturer in Human Resource Development
Lampert, Allen, Lecturer in Teacher Education
Lancia, Peter, Lecturer in Literacy Education
Langevin, Cynthia, Lecturer
Langlis, Gayle, Lecturer in Mathematics
Lapping, Joyce, Lecturer in Economics
Larsen, Leslie, Lecturer Nursing
Larson, Deborah H., Lecturer in Professional Education
Ledue-Bell, Mary J., Lecturer in Teacher Education
Lee, William, Lecturer in Mathematics
Leen Cooley, Lew-an, Lecturer in Theatre
Leone, Pamela, Lecturer in Psychology
Lethem, Richard, Lecturer in Art
Libby, Patricia, Lecturer in Mathematics
Lieber, Robert, Lecturer in Art
Lisberger, Linda, Lecturer in Art
Lisi, Michelle, Lecturer in Learning Foundations
Littlefield, Elwood R., Lecturer in Technology
Lockman, David A., Lecturer in Technology
Lockman, James, Lecturer in Technology
Ludwig, Karen, Lecturer Nursing
Lushman, Catherine, Lecturer in American Sign Language
Lyden, Catherine, Lecturer Nursing
Lynch, Frederick J., Lecturer in Art
Lyons, Charles, Professor of Professional Education
Lyons, George, Lecturer in English
MacArthur, Susanne G., Lecturer in Professional Education
Makas, Elaine C., Associate Professor
Manderino, John, Lecturer in Learning Foundations
Manduca, Mark W., Lecturer in Music

Manglass, Ralph, Lecturer in Engineering
Marcigliano, John J., Lecturer in Technology
Marston, Alan, Lecturer in Communication and Theatre
Martin, Daniel, Lecturer in Engineering
Martin, Joyce, Lecturer in Teacher Education
Mason, Ann M., Lecturer in Mathematics
Matrisciano, Jane, Lecturer in Linguistics
Max, Stanley M., Lecturer in Mathematics and Learning Foundations
McCarthy, Joseph E., Lecturer in Biology
McCarthy, Michael, Lecturer in Educational Leadership
McCormick, Sarah, Lecturer in Theatre
McCullough, Rosemary, Lecturer in Learning Foundations
McDaniel, Noreen, Lecturer in Teacher Education
McDermott, Jennifer, Lecturer in Art
McElhinney, Donald, Lecturer in Engineering
McPhee, Karen, Instructor of Recreation and Leisure Studies
Medina, Patty, Instructor of Recreation and Leisure Studies
Menezes, Mark, Lecturer in Learning Foundations
Mercer, Dennis D., Lecturer in Mathematics and Statistics
Mermer, Brion, Lecturer in Chemistry
Merrill, Reva, Lecturer in Technology
Meyers, Bernard C., Lecturer in Art
Michaud, Jessica, Lecturer Nursing
Mills, Jane, Instructor Nursing
Milo, Jessie-Sue, Lecturer in Human Resource Development
Minton, Leslie, Lecturer in Teacher Education
Mitchell, Kate, Lecturer in Learning Foundations
Mittal, Prashant, Lecturer in Business Administration
Mollom, Paul, Lecturer in Learning Foundations
Morrill, Jaclynn, Lecturer Health and Sport Sciences
Morrill, Mary, Lecturer in Chemistry
Morrison, Rachelle, Lecturer in Human Resource Development
Morris, Michael S., Lecturer in Technology
Most, Ivan G., Lecturer in Engineering
Moulton, Robert, Lecturer in Technology
Murphy, Kenneth, Lecturer in Professional Education
Murton, Pamela, Fieldwork Associate in Social Work
Muzzy, Matthew, Lecturer in Technology
Myron, Bob, Instructor of Recreation and Leisure Studies
Naiden, Peter C., Lecturer in Geosciences
Napolitano-Romer, Andrea, Lecturer in Teacher Education
Needleman, Sara, Lecturer in Teacher Education
Nelson, Edwin R., Lecturer in Accounting
Nerbak, Glenn, Lecturer in Teacher Education
Neveu, Raymond, Professor of Finance
Neveux, Louis, Lecturer in Learning Foundations
Niedzialkowska, Beata, Lecturer in Art
Nilsson, Harold, Lecturer in Geosciences
Niziolek, Carol, Nursing Instructor
Nolin, Maura, Lecturer in Linguistics
Novack, Julie, Lecturer in American Sign Language
Nunery, Ann, Lecturer in Special Education
Oberholtzer, Ashlan, Lecturer Nursing
O'Connor, Wendy, Lecturer Nursing
O'Dell, Timothy, Lecturer in Music
O'Regan, Patrick, Lecturer in Human Resource Development
O'Reilly, Elaine, Lecturer in Human Resource Development
O'Shea, Cynthia, Lecturer in Professional Education
Olbert, Elizabeth, Lecturer in Art
Ouellette, Peggy, Lecturer Nursing
Page, Barbara, Lecturer in Teacher Education
Pakales, Joseph, Lecturer in Music
Panici, Ramona, Lecturer in Psychology
Paolino, Rolande, Lecturer in Teacher Education
Parker, Ryan, Lecturer in Music
Parr, Elba, Lecturer in Modern and Classical Languages and Literatures
Parr, James, Lecturer in Modern and Classical Languages and Literatures

Pattershall, George, Lecturer in Learning Foundations
Peavey, Elizabeth, Lecturer in Theatre

Pendexter, Erin, Lecturer Nursing
Pendleton, Denise, Lecturer
Peoples, Patrick, Lecturer in Physics
Perez, Carlos, Associate Professor of Physics
Perry, John, Lecturer in Mathematics
Persons, Alice, Lecturer in Business Law Development
Petrocelli, Lisa, Lecturer Health and Sport Sciences
Pfaffinger, Linda, Lecturer in Criminology
Pflug, Julie, Lecturer in Chemistry
Philbrick, Suzanne, Lecturer in Learning Foundations
Phinney, Rosamond J., Lecturer in Learning Foundations
Piechocki, Iride, Lecturer in Human Resource
Pierce, Brett, Lecturer in Communication
Pijewski, John, Lecturer in English
Pilling, Rebekah, Lecturer in Chemistry
Plumer, Timothy, Lecturer in Technology
Poliquin, Rhonda, Lecturer in Professional Education
Porter, Daniel, Lecturer in Core Curriculum
Pratt, Bruce, Lecturer in English
Pride, Shelli-Hope, Lecturer in Technology
Prince, Sanford J., Lecturer in Professional Education
Pufhal, Joy, Lecturer in Learning Foundations
Quimby, Judith H., Lecturer in Music
Reeves, Janet, Lecturer in Music
Reifman, Betsy, Lecturer in Linguistics
Reim, Bernard B., Lecturer in Astronomy
Rein, Anna, Lecturer in Modern and Classical Languages and Literatures
Richard, Wilfred, Lecturer in Core Curriculum
Richards, Elizabeth, Instructor of Nursing
Rings, Robert, Lecturer in Management
Ritter, Sharon, Lecturer in Learning Foundations
Robbins, Susan M., Lecturer
Robert, Roger, Lecturer in Professional Education
Roderick, Jonathan, Lecturer in Business Administration
Roche, James, Lecturer in Economics
Rodick, David W., Lecturer in Philosophy
Romano, Jamie, Lecturer in Teacher Education
Rooks-Hughes, Lorna, Lecturer in English
Roscoe, Gregory, Instructor of Recreation and Leisure Studies
Rosenthal, Robert, Lecturer in Media Studies

Ruby, Catherine, Lecturer in Teacher Education
Rueter, John, Lecturer in English
Russell, Heather, Lecturer in Professional Education
Ryland, Barbara, Instructor of Recreation and Leisure Studies
Sage, Susan T., Lecturer in Teacher Education
St. Peter, Wayne, Lecturer in Recreation and Leisure Studies
Sarton, Cherylann Assistant Professor of Nursing
Sauda, Michael D., Lecturer in Technology
Sax, Alexander, Lecturer in Art
Scammon, Mary, Lecturer in Human Resource Development
Schatz, Karl, Lecturer in Art
Schneider, David, Lecturer in Art
Schnell, John M., Lecturer in Music
Schuit, Stephen, Lecturer in Business Administration
Schwartz, Mark, Lecturer in Mathematics
Schwartz, Merle, Lecturer in Professional Education
Sedenka, Susan, Lecturer in Teacher Education
Seidenberg, Jane, Lecturer in Teacher Education
Senese, Gail, Lecturer in Human Resource Development
Seymour, Stephen M., Lecturer in Teacher Education
Shank, Judith, Lecturer in Teacher Education
Shannon, Michael, Lecturer in Human Resource Development
Sheridan, Jean, Lecturer in English
Sholl, Elizabeth, Lecturer in English
Shulman, Lynne, Lecturer in Teacher Education
Shute, Sara, Lecturer in Philosophy
Shuttleworth, William, Lecturer in Professional Education
Silver, Marie Joseph, Lecturer in Modern and Classical Languages and Literatures
Simmons, Lynda, Lecturer in Teacher Education

Skeffington, Craig, Lecturer in Music
Small, Ralph D., Lecturer in Mathematics
Smith, Nancy, Lecturer in Music
Smith, Wayne, Professor in Linguistics
Souliere, Yvonne, Lecturer in Learning Foundations
Soychak, Anthony, Lecturer in Learning Foundations
Spencer, Jill, Lecturer in Teacher Education
Spugnardi, Lynne, Instructor of Recreation and Leisure Studies
Sruoginis, Laima, Lecturer in English
Stearns, Bonnie, Lecturer in Learning Foundations
Stebbins, Barbara, Lecturer in Teacher Education
Stelk, Virginia, Lecturer in Professional Education
Stone, Deborah, Assistant Professor of Nursing
Storey-King, Shirley, Lecturer in Teacher Education
Street, Philo W., Lecturer in Music
Sturdevant, David, Lecturer in Professional Education
Sturdevant, Nancy, Instructor of Nursing
Sturgeon, Richard, Lecturer in Mathematics and Learning Foundations
Surace, Brandi, Lecturer in Teacher Education
Svoboda, Ludmila, Instructor Nursing
Swope, Ann, Lecturer in Linguistics **Szafanski, Tammy**, Lecturer in English **Szatkowski, Elizabeth**, Lecturer in Social Work
Tarraza, Marianne DeCain, Lecturer in Human Resource Development
Taylor, Karen D., Lecturer in Foreign Languages and Classics
Ten Broeck, Craig, Lecturer in Core Curriculum
Tepler, Denise, Lecturer in Anthropology
Thayer, Katherine, Lecturer of Nursing
Thibodeau, Elizabeth, Assistant Professor in Teacher Education
Thibodeau, Maxine, Lecturer Nursing
Thombs, David, Lecturer in Mathematics
Thombs, Williams, Lecturer in Learning Foundations
Thompson, John, Lecturer in Core Curriculum
Thompson, Tyler Corridan, Lecturer in Teacher Education
Thurlow, John, Lecturer in Teacher Education
Tolman, Heather, Instructor of Nursing
Toothaker, Dimitra, Lecturer in Modern and Classical Languages and Literatures

Toy, Christopher, Lecturer in Teacher Education
Trombley, Linda B., Lecturer
Trott, Alicia, Instructor of Recreation and Leisure Studies
True, Michael D., Lecturer
Turcotte, Linwood N., Lecturer in Professional Development and in Technology
Turlo, Kathleen, Lecturer in Teacher Education
Turner, Stephen, Lecturer in Chemistry
Tzianabos, Maria, Lecturer in Theatre
Van Brugh, Katrina, Lecturer in Modern and Classical Languages and Literature
Van Naught, Nick, Lecturer Health and Sport Sciences
Varney, Skip, Instructor of Recreation and Leisure Studies
Vaughan, William, Lecturer in Psychology
Ventresco, Fiorello, Lecturer in History
Verret, Julianne, Lecturer
Vincent, Noreen Byrne, Instructor Nursing
Walker, Timothy J., Lecturer in Human Resource Development
Walters, Susan, Lecturer in Teacher Education
Ward, Linda, Lecturer in Literacy Education
Warren, Tracy, Lecturer in Teacher Education
Water, Erika, Lecturer in English
Weaver, Virginia A., Lecturer in Learning Foundations
Weisbein, Harold Jr., Lecturer in Technology
Welden, Lori, Lecturer
White, Sylvia, Instructor Nursing
Whiton, Tanya, Lecturer in English
Wiley, Elise, Associate Professor Nursing
Wilkinson, Anne, Lecturer in Music
Williams, Edward, Lecturer in English
Wilson, Richard, Lecturer in Art
Witherbee, Nicole, Lecturer in Sociology
Wood, Kellern, Instructor Nursing
Wood-Mateska, Meredith, Lecturer Nursing

Wood-McCullough, Linda, Lecturer in Biology
Woodard, Frank, Lecturer in Engineering
Woodard, Strohn, Lecturer in Learning Foundations
Woodside, Marilyn, Lecturer in Professional Education
Yetter, Susan, Instructor of Nursing
Yuhas, Joseph G., Lecturer
Zimmer-Rankin, Melinda, Instructor Nursing
Zink, Julie, Lecturer in Human Resource Development
Zuckerman, Karen, Instructor

The University of Southern Maine is accredited by the New England Association of Schools and Colleges which accredits schools and colleges in six New England states. Membership in the Association indicates that the institution has been carefully evaluated and found to meet standards agreed upon by qualified educators.

The University of Southern Maine shall not discriminate on the grounds of race, color, religion, sex, sexual orientation, transgender status or gender expression, national origin or citizenship status, age, disability, or veterans status in employment, education, and all other areas of the University. The University provides reasonable accommodations to qualified individuals with disabilities upon request. Questions and complaints about discrimination in any area of the University should be directed to the campus compliance officer, 7 College Avenue, (207) 780-5094/TTY (207) 780-5646. Inquiries or complaints about discrimination in employment or education may also be referred to the Maine Human Rights Commission. Inquiries or complaints about discrimination in employment may be referred to the U.S. Equal Employment Opportunity Commission. Inquiries about the University's compliance with Title VI of the Civil Rights Act of 1964, which prohibits discrimination on the basis of race, color, and national origin; Section 504 of the Rehabilitation Act of 1973 and Title II of the Americans with Disabilities Act of 1990, which prohibit discrimination on the basis of disability; Title IX of the Education Amendments of 1972, which prohibits discrimination on the basis of sex; and the Age Discrimination Act of 1975, which prohibits discrimination on the basis of age, may also be referred to the U.S. Department of Education, Office of Civil Rights (OCR), Boston, MA 02109-04557, telephone (617) 223-9662 (voice) or (617) 223-9695 TTY/TDD. Generally, an individual may also file a complaint with OCR within 180 days of alleged discrimination.

The University of Southern Maine reserves the right to revise, amend or change items set forth in this catalog from time to time. Accordingly, readers of this catalog should inquire as to whether any such revisions, amendments or changes have been made since the date of publication. The University reserves the right to cancel course offerings, to set minimum and maximum size of classes, to change designated instructors in courses, and to make decisions affecting the academic standing of anyone participating in a course or program offered by the University of Southern Maine.

The University of Southern Maine supports the efforts of secondary school officials and governing bodies to have their schools achieve regional accredited status to provide reliable assurance of the quality of educational preparation of its applicants for admission.

Campus

Safety and Security

The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act of 1998 requires universities to disclose three years of statistics regarding campus crime, including off campus buildings the University owns, and on public property adjacent to campus in Portland, Gorham, and Lewiston. The USM report (Safety and Security Information Report) also includes policies for campus security, such as those concerning alcohol and drug use, crime prevention, the reporting of crimes and sexual assaults, and other related matters. A copy may be obtained by accessing the following Web address: www.usm.maine.edu/police/safetyreport.htm or by calling the Office of Community Standards at (207) 780-5242 to request a paper copy.
