Water, like nature intended

UV-C + OZONE SPA SANITISER

UltraZone® uses natural processes to provide crystal clear, clean and healthy spa water that looks, feels and smells just like nature intended.

Using innovative technologies, the UltraZone® combines Ozone generation with UV-C sterilisation to make your spa water safe and clean whilst reducing harsh chemicals.

The UltraZone® rapidly UV sterilises 99.95% of all bacteria and virus materials that pass through it, then the powerful Ozone, a natural oxidiser combines to help destroy harmful organic material and chlorine by-products that cause skin, eye and respiratory irritations. UltraZone® is 100% safe and the natural choice for spa water health.

The UltraZone® system provides hygiene control at the flick of a switch. Every time you switch on your spa filter the UltraZone® cleans and sanitises your spa water resulting in crystal clear water free from ozone off-gas, chemical smells and irritations.

UltraZone® units are an easy retro-fit for new or existing spas. Simple to install, economical to run, better for your health. That's the UltraZone® difference.

UV-C + OZONE SPA SANITISER

ULTRA ZONE®

CSN GLOBAL IS AN
INNOVATIVE AND
EXPERIENCED
DISTRIBUTOR OF
SPA & HOT TUB
COMPONENTS AND
EQUIPMENT ACROSS
AUSTRALIA.

We have embarked on an exciting expansion program and this has been achieved through the development of innovative new products using trusted, technologically advanced manufacturing partners from the global swimming pool and spa industry.

WHAT WE DO

CSN Global has earned an enviable reputation for being the preferred distributor of the world's best spa equipment products across Australia. We work diligently to provide our clients with a comprehensive range of reliable products backed by a team with extensive industry experience.

Our progressive internal R&D program plays a vital role in our organisation, both in terms of critical evaluation of the off-the-shelf products we distribute as well as the development of innovative, novel products that we can co-develop with clients.

Our approach and expertise is increasingly well regarded and we are humbled by the ongoing demands to expand our product offering.

That's what we do, and it works.

We have taken the step to significantly expand our offering. Our range now includes an extensive suite of premium quality residential and commercial swimming pool products and further extension to our popular spa range.

This new stage is the result of years of research, relationships and careful planning from the CSN Global team. It has taken some time but we're very excited about the opportunities being presented to both CSN Global and our customers. We would only stake our reputation on swimming pool products that are just as reliable as the spa equipment we have built our reputation on. To that end, we have found the very best internationally recognised manufacturing partners that fit both our quality expectations and matched our own standard of support and reputation.

Thanks to exceptional client and supplier support, CSN Global is now the number one choice for many spa industry professionals in our product category. We are proud of our achievements to date and are looking forward to continuing to deliver truly outstanding products and services to the Australian market.

That's what we have done.

OZONE spa sanitation

B03

SPA OZONATOR

Advanced technology from Aqua Sun Ozone. The B03 will deliver consistent ozone and will not burn out or corrode. Reduced chemical usage and less maintenance are the two most significant benefits from the Pacifica Spa Series Model B03. Standard input voltage 110V/240V for domestic and export requirements. Aqua Sun Ozone's micro-corona-discharge provides consistent ozone output with less heat, less energy usage and less nitric acid. There are no cartridges, chips or bulbs to replace.

EFFECTIVELY
REMOVES WATER
IMPURITIES AND
MICRO-ORGANISMS.

OZONE FACTS

- Ozone does not have to be purchased or stored; it is generated "on-site" and is introduced into the water automatically.
- Ozone does not affect the pH balance of water, thus minimising pH adjustments.
- Ozone helps reduce total dissolved solids in water so that the water does not have to be changed as often.
- Ozone is an extremely effective oxidizer and reduces chemical use dramatically.
- Reduces damage to pillows and covers due to chemical usage.
- Ozone converts back to oxygen as it exits the water.

B03 SPA OZONATOR

- KILLS** harmful, Chlorine tolerant parasites, Cryptosporidium and Giardia
- KILLS** bacteria, viruses and mould
- REDUCES** chlorine use by up to 90%

SPECIFICATIONS

- Power Input: 110V-240V, 50/60Hz
- Enclosure: ABS Plastic/PA-765A
- Dimensions: H: 70mm W: 95mm D: 34mm
- Weight: 320 grams
- Potted Electronics for Heat Distribution and Water Resistance
- Air Inlet: Filtered Ambient Air Restrictor
- Outlet: 6mm Check Valve Fitting
- Ozone Output: 50-100mg/hr Adjustable
- Available in: AMP and In-Link Plug Configurations
- 6mm Check Valve Included

ACCESSORIES AVAILABLE

- Venturi Injector
- Tubing

WARRANTY

- Two Years
- Excellent Customer Support Team

EXTENSIVE PRODUCT CHOICE

Through its global network of partners and internal R&D program, CSN Global's expansive range of pool and spa products are simply breathtaking. Our aim is to be a complete supply solution in our categories for our clients.

To assist in the selection process our products fall into 5 broad categories:

Spa Equipment & Component Products

Building on our strong reputation in the spa industry we are adding innovative new products like the Flood Alert, Ultraviolet Sanitation System and Turbo-Tech Bath Pumps to an established range of popular products like Aqua-Flo Pumps, Filters, Waterfall Features and Spa Accessories.

CMP Spa Jets & Fittings

Delivering the widest range of spa jets and fittings in the Australian market means extensive stock availability and minimal downtime. From the reputable Typhoon Jet product range through to a full range of air injectors, topside controls, water manifolds and fittings. If it's made for spas - we have it covered.

Gecko Products

We are the exclusive distributors of the extensive range of Gecko Control and Audio products that are both stylish and functional. Our range of sophisticated control systems, heaters, keypads, cables and keys combine intelligent technology with media capability to provide a complete lifestyle experience.

Pool Equipment & Component Products

Our extended pool equipment range is packed with exciting new products. From the stunning Brilliant Wonders LED Lit Waterfalls and Lighted Jets, through to our In-Line Chlorinators.

Pool/Spa Valves & Fittings

Our comprehensive array of pool and spa valves include Slice Valves, Check Valves, Ball Valves and 2 & 3-Way Valves designed for ease of operation, improved reliability and exceptional value for money. Our quality PVC fittings are designed to fit precisely and engineered to last.

*The new generation state of the art
in spa control & audio products.*

HIGH PERFORMANCE SELF DRAINING SPA BATH PUMPS

self draining

quiet running

low vibration

Available in Pneumatic and Electronic versions for simple topside control

Turbo-Tech Bath Pump Features

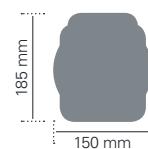

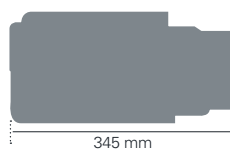

- Anodised Motor Body
- Thermal Protection
- Inbuilt Pneumatic or Electronic Bath Top Control options
- Excellent Performance
- Electronic Keypad available in two styles
- IP55 Rated
- Special Anti-Vibration Feet integrated
- 40mm Unions included

Turbo-Tech Bath Pumps help reduce water temperature loss through hydraulic action and friction control within the pump wet section.

TURBO-TECH PUMPS

■ Turbo-Tech CIRC-3 Bridge Control

Turbo-Tech Variable Speed Hydraulic Systems

Product Code	Product Description	CTN Qty
FT2000	Turbo-Tech WAVE Variable Speed Massage Pump	1
FT2000-200	Turbo-Tech WAVE Remote Keypad	1
FT3000-S	Turbo-Tech CIRC-3 Variable Speed - 1.5hp Circulation Pump	1
FT3000-200-S	Turbo-Tech CIRC-3 Bridge Control - 10amp (works with F3000 pump)	1

- Turbo-Tech WAVE provides remotely operated variable massage effects including soft, turbo and wave massage.
- Circ-3 can save up to 97% on your energy bill for water circulation. The intelligent Bridge Control selects the most efficient speeds for filtration, heating and jet performance.
- Turbo-Tech Pumps are powered by Super-quiet, Super-efficient brushless DC variable speed motors.
- Capable of 8 star energy rating.

Turbo-Tech Bath Pumps

Product Code	Product Description	CTN Qty
WQP750E	Turbo-Tech 750E 1.0hp Bath Pump	1
WQP750E-Electronic	Turbo-Tech 750E 1.0hp Bath Pump - Electronic on/off	1
WQP900E	Turbo-Tech 900E 1.25hp Bath Pump	1
WQP900E-Electronic	Turbo-Tech 900E 1.25hp Bath Pump - Electronic on/off	1
WQP1100E	Turbo-Tech 1100E 1.5hp Bath Pump	1
WQP1100E-Electronic	Turbo-Tech 1100E 1.5hp Bath Pump - Electronic on/off	1
TP0002	Turbo-Tech Bath Pump Electronic Touchpad - Slimline Profile Chrome Dress Ring, 2.5m Cable	10
TP0003	Turbo-Tech Bath Pump Electronic Touchpad - Solid Metal/Chrome Plated, 2.5m Cable	10
EHSPE-0026	Turbo-Tech Bath Pump Suction Union	1
EHSPE-0028	Turbo-Tech Bath Pump Discharge Union w/ Airlock Release	1

- A range of competitively priced Jetted Bath Tub Pumps available with standard air switch or electronic touch pad.
- Hydraulic action in pump wet section helps reduce bath water heat loss.

AQUA-FLO PUMPS

- World's Premium Brand Spa Pumps.
- Covers most Australian Spa Manufacturers.
- Call for assistance matching the right pump for your application.
- Made in U.S.A.

21021-000-000	1.5" Pump Union (union nut, sleeve & O'Ring)	10

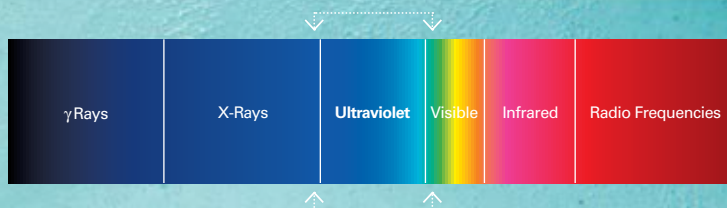

A healthier spa, with less chemical.

UltraZone® UV disinfection is much more effective than chlorine in killing Giardia, Noro Virus, Crypto and is proven to control and remove unwanted chloramines.

With UltraZone® your normal sanitiser usage will be reduced by up to 70%* and associated odors and irritants will be gone.

How it works

Ultraviolet is a Type of Electromagnetic Energy Found Between X-Rays and Visible Light

UV light will inactivate 99.9% of bacteria, parasites and other micro-organisms provided the correct UV dose is applied.

Ozone is a naturally occurring oxidiser created in the UltraZone® unit using a corona discharge. This ozone is then injected and mixed into the patent pending UV chamber. The UV then reacts with the ozone to create a powerful oxidiser to burn off unwanted organic matter – the result, crystal clear, clean water.

UltraZone® Specifications

Ozone output: 50mg/hr.

UV-C Lamp: 254 Nanometers 18W

Power input: 240V 50/60Hz. 140mA 32 Watts

IPX5

Dimensions: 13.8" (350mm) x 6.3" (160mm) x 3.4" (85mm)

Weight: 3.3 lbs (1.5kg).

Air inlet: Filtered Ambient Air

Operating Water Temp: 41°F (5.0°C) to 104°F (40.0°C)

Max Operating Pressure: 30psi (210Kpa)

LED indicator signals Ozone and UV operating normally (green)

LED indicator signals UV-C Lamp replacement (flashing yellow)

LED indicator signals non-operational (red)

Flow Requirements 14LPM Min to 75LPM Max

US Patent # 8367007 US Patent APLN # 15004045 AUS Patent APLN # 2015900247

*Some sanitiser still needs to be used to maintain a residual and for shock treatments.

To take a fresh look at spa sanitation, ask your pool & spa care professional about UltraZone® today.

SPA EQUIPMENT & COMPONENTS

Max Air 3.5amp Spa Blower

Product Code	Product Description	CTN Qty
61032-100	Max Air 3.5amp Spa Blower with AMP Cord	6
61032-200	Max Air 3.5amp Spa Blower with IN.LINK Cord	6

- Ideal for new installs or replacement.
- Premium brand, made in U.S.A.

Spa Ozone Generators

Product Code	Product Description	CTN Qty
XL-80	XL-80 Spa Ozone w/ Injector - AMP Cord	10
XL-80-598	XL-80 Spa Ozone w/ Injector - IN.LINK Cord	10
B03	B03 Spa Budget Ozone Unit - AMP Cord	10
23006-000	Ozone Venturi Injector 20mm RB x 15mm RB	25
XL-80-100	XL-80 Check Valve Replacement Kit	1

- Corona Discharge Ozone Generators.
- XL-80 with built in injector, variable output from 50 to 100m/g.
- 60% greater ozone mixing on XL-80 means little to no off gas!
- Budget B03 delivers same performance as XL-80 – an ideal replacement option.

Ultraviolet Sanitation System

Product Code	Product Description	CTN Qty
UV30-10000	UltraZone UV-C + Ozone Spa Sanitising System	1
UV70-114500	AMP Power Splitter - 240v 10amp	1
21031-200-000	19mm Barb Adaptor (50mm SPG x 19mm RB)	1
UV30-10000-5	20W UV Ballast (A21B-220/240-TS)	10
UV30-10000-6	Quartz Tube Seal Kit	10
UV30-10000-7	UltraZone Check Valve Replacement Kit	10
UV70-114400	UV-C Replacement Lamp	1
UV85-500205	Quartz Tube	1

- Uses the latest low pressure, high output UV technology to kill 99.9% of all bacteria that passes through the chamber.
- Patent Pending combination of UV-C and Ozone generates a highly effective Hydroxyl Free Radical to eradicate harmful bacteria and clarify the water
- Dramatically reduces chloramine levels & chemical usage.
- Eliminate ozone off gas concerns.
- Removes chlorine odour caused by chloramines.
- Kills bacteria and viruses chlorine struggles to eradicate.
- An absolute must for commercial spas!

SPA EQUIPMENT & COMPONENTS

Turbo-Tech JS8 Spa Jet Sequencer

Product Code	Product Description	CTN Qty
JS84000	JS8 Spa Jet Sequencer	4
JS84000-200	JS8 Power Supply & Control Keypad	6

- Sequences up to 8 jets to provide a pressure point massage up and down the back firing two jets at a time.
- Controller provides spa side control of sequence direction and speed.
- Creates the perfect hydro massage.

Water Features

Product Code	Product Description	CTN Qty
25262-001-000	Aqua Rail - Gray	100
25263-009-000	Waterfall EZ 200mm - Gray	100
25264-009-000	Waterfall EZ 100mm - Gray	100
25271-001	Sconce Waterfall 100mm - Gray (3/8" RB Water, lightable)	100

- Enhance your spa experience with EZ Install water features.

Crystal Waterfalls

Product Code	Product Description	CTN Qty
25259-002-900	Crystalfalls Waterfall 150mm - S'Steel/Clear (textured, with 2 Nuts & Gasket)	100
25259-007	Crystal Waterfall 150mm - Graphite Gray	100
25259-007-000	Crystal Waterfall 150mm - Graphite Gray	100
25259-009-000	Crystal Waterfall 150mm - Clear	100
25259-109-014	LED Barb Adaptor 90 Deg 19mm (2 required)	100
25269-102-700	Top Fountain Jet - Stainless Steel/Graphite Gray	60
25274-002-900	Crystalfalls Waterfall 200mm - S'Steel/Clear (textured, with 2 Nuts & Gasket)	200
25274-007-000	Crystal Waterfall 200mm - Graphite Gray	100
25274-009-000	Crystal Waterfall 200mm - Clear	100

- Designed for LED back lighting.
- Available in Clear, Graphite, & Stainless Steel finishes.

■ Safety Vane Weirs required with all Top Mount Filters.

SPA ACCESSORIES

THE LEADER IN SPA ACCESSORIES

Leisure Concepts
The leader in spa accessories

NEW SPA ACCESSORIES RANGE AVAILABLE
EXCLUSIVELY THROUGH CSN GLOBAL

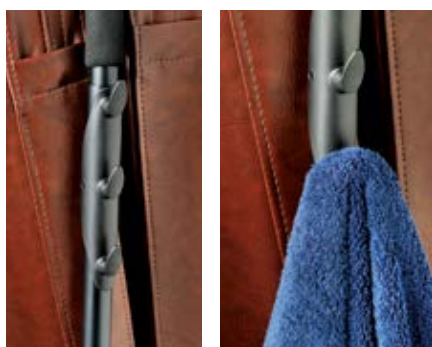

LEISURE CONCEPTS SPA ACCESSORIES

A superior and complete range of high quality spa accessory products wholly manufactured in the U.S.A!

No manufacturer makes better spa cover lifters than Leisure Concepts. These are the best selling cover lifters in the world! The CoverMate cover lifters are stylish, easy to install and a breeze to operate.

▪ CoverMate I

▪ CoverMate III

CoverMate III features hydraulic arms to make operation light and easy. Euro-styles composite brackets with "beauty covers" that hide mounting hardware for a clean look.

Cover Lifters

Product Code	Product Description	CTN Qty
CMI-PLAST	CoverMate I	4
CMIII-PLAST	CoverMate III	4

- Quality, corrosion-free aluminium tubing.
- Powdercoated aluminum tubing with easy-to-install, non-corrosive composite mounting brackets.
- Foam grips for comfortable handling.
- Comes standard with a TowelMate accessory for hanging up to three towels right where you need them most.

LEISURE CONCEPTS SPA ACCESSORIES

Nothing hinders a spa experience more than having to climb in and out over the side. Leisure Concepts eliminates that leap with the highest quality, most attractive steps in the industry. Safety, security and great looks come standard.

LEISURE CONCEPTS SPA ACCESSORIES

To truly appreciate the luxury of spa ownership, accessories are mandatory. They also provide dealers with on-going sales opportunities to existing customers, Leisure Concepts offers a complete line of spa accessories that will enhance the spa experience and the dealers showroom.

▪ Safe-T-Rail

▪ SmartBar w/ SmartDrawer

▪ SpaCaddy

▪ SpaUmbrella

Umbrella stand with storage unit comes standard

LED light comes standard

Terracotta

Camel

▪ TowelBar

▪ SolarLight Sconce

No batteries or electrical work required, automatic photo sensor turns light on for up to 12 hours.

Safety & Convenience

Product Code	Product Description	CTN Qty
STR-BLK	Safe-T-Rail	4
SMART-BAR	SmartBar w/ SmartDrawer	2
SC	SpaCaddy	4
SU-L W/L -TER	SpaUmbrella w/ LED Light, Stand/Storage Unit - Terracotta	1
SU-L W/L -CAM	SpaUmbrella w/ LED Light, Stand/Storage Unit - Camel	1
TB	TowelBar w/ Counter Display - 6 per case	6
SOLAR-SCONCE	SolarLight Sconce w/Counter Display - 12 per case	12

- The easy-mount Safe-T-Rail is ultra sturdy, rust-free construction. 5-minute installation.
- The SmartBar features a slip-resistant surface and comes standard with a SmartDrawer and is easy to install.
- SpaCaddy features sturdy plastic tray on an aluminum post that swings toward and away from the spa for easy access.
- The elegant SpaUmbrella is durable powdercoated 56mm aluminum tube construction and premium Sunbrella® material that provides a 2.7m coverage area. Easy tilting and 360° rotation and central LED light.
- TowelBar is the smart, convenient way to keep towels close, clean and dry. Folds flat or opens away from the spa to keep towels dry.
- SolarLight sconce delivers beautiful ambient light when mounted to the side of a spa or any vertical surface.

CMP SPA JETS & FITTINGS

FORWARD THINKING ENGINEERING

SQR applies basic laws of physics to create a superior seal, while addressing the issues created by typical torque compression systems.

The patented body and grommet gasket design combination is absolutely the most effective method of spa component installation.

FEWER TOOLS

FEWER STEPS

NO BACKSIDE SURFACE GRINDING

Surface grinding is loud, dangerous, dirty and potentially hazardous. SQR™ can seal effectively with no backside grinding surface prep.

NO NUTS, COMP RINGS OR GASKETS

Scores of parts complicate the work area, increasing preparation time and increasing costs. Fewer installation components simplifies the process.

NO EXPENSIVE SEALANTS

Sealants are messy, expensive and difficult to apply. It is nearly impossible to apply sealants in a 100% consistent way across every installation.

FASTER SETUP

RAPID INSTALL

STANDARD PARTS REQUIRE MULTIPLE STEPS

To ensure a proper and consistent seal, standard parts require sealant, gaskets, comp rings, nuts and must then be tightened to an exact compression specification. Prepping and installing all of these components takes up time and poorly utilizes space.

AGILE STYLE MANUFACTURING

Each step in the process is simplified, which translates into rapid turnaround. Drilling occurs in a single hole-cutting step. Component installation only requires installing the patented SQR™ grommet and patented SQR™ body.

FEWER ERRORS

BETTER SEALS

SIMPLICITY CREATES CONSISTENCY

By requiring fewer components and reducing the need for surface prep, SQR™ creates a much more repeatable installation resulting in increased quality.

RADIAL SEAL ENGINEERING

Radial seals are standard technology across multiple industries. This installation technique is more dependable than compression seals.

PROVEN RESULTS IN THE FIELD

SQR™ technology has been heavily tested in the spa industry for ten years, and used in over 1,000,000 component installs by multiple OEMs.

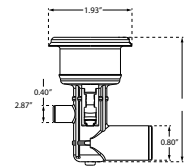

SQR™ PRO-LOC™ JET BODIES

300 SERIES

400 SERIES

500 SERIES

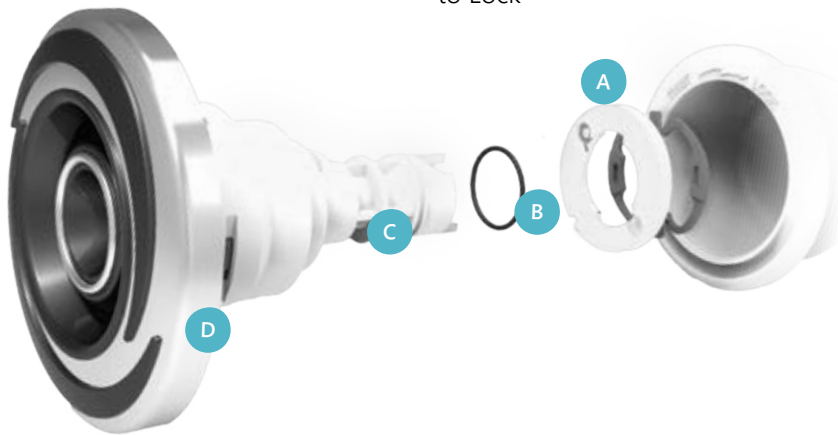

HOW TO IDENTIFY PRO-LOC™ VS TYPHOON™

- CMP manufactures two jet insert and body systems, *Pro-Loc & Typhoon Advanced*
- **These two systems are not interchangeable.** Never try to force a jet to fit if you are unsure of the fit.
- Use the guidelines below to identify each style. Some variations may occur, always contact the OEM if possible to confirm your jet selection.

PRO-LOC™ SYSTEM

PRO-LOC™ SYSTEM

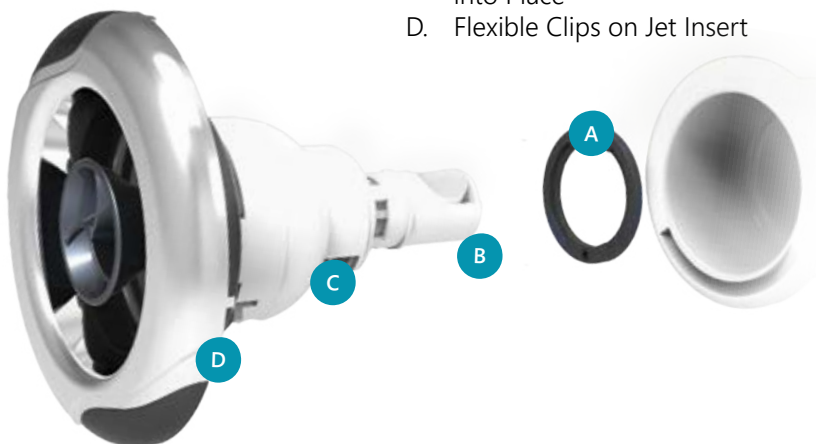

- A. White Locking Ring in Jet Body*
- B. O-ring on Jet Shaft**
- C. Rigid Locking Tabs on Jet Insert
- D. Installs by Pressing & Turning to Lock

TYPHOON ADVANCED™

TYPHOON ADVANCED™ SYSTEM

- A. Black OR Gray Snap-Clip Ring in Jet Body*
- B. *NO O-ring* on Jet Shaft**
- C. Installs by Pressing & Snapping into Place
- D. Flexible Clips on Jet Insert

*Does not apply to 200 Series Jets

**It is possible the o-ring could be broken or removed. Always check other indicators to confirm.

21160-140-CSN	Air Manifold -4 Port (25mm Spg x Socket; 4 x 9mm Barb)	L 200

Turbo-Tech Variable Speed Hydraulic Systems are powered by imPower, the world's first Axial Flux Brushless DC Motor.

Features and benefits

- High Efficiency over entire speed range.
- Low noise. Almost silent filtration cycles.
- Substantially reduced running costs.
- Substantially reduced CO₂ greenhouse gas emissions per year.
- Compact Design. 52mm shorter than standard induction motor.
- Light weight. 4.5kg lighter than standard induction motor.
- Greater reliability. No run start capacitor, minimal rotor temperature.
- Significantly cooler running temperatures in low speed settings.
- Simple communication interface.

Patent Application # 2009903791

GECKO CONTROL & AUDIO PRODUCTS

GECKO CONTROL & AUDIO PRODUCTS

IN.XE Aeware by Gecko - Spa Control System

Product Code	Product Description	CTN Qty
0602-221002	IN.XE Control System c/w 4kw Heater	1
0602-221018	IN.XE Control System c/w 2kw Heater	1
9917-101338-2KW	IN.STICK - 2KW (required to program IN.XE packs)	1
9917-101338-4KW	IN.STICK - 4KW (required to program IN.XE packs)	1

- Runs up to 2 pumps plus Circ, Blower, Ozone, Light and Audio.
- One of the most advanced spa control systems worldwide.
- Matching keypads, cables and colour keys also available.

IN.YJ Aeware by Gecko – Spa Control Systems

Product Code	Product Description	CTN Qty
0612-221008	IN.YJ-2 Spa Pack c/w Brackets & Programming (runs either 1spd Pump & Blower plus light, Circ Pump & 1spd Pump plus light or 2spd Pump only plus light. Ozone may be piggybacked off the filtration pump relay).	1
0612-221031-287	IN.YJ-3 Spa Pack c/w Brackets & Programming (runs either 2spd Pump & Blower plus light or Circ Pump, 1spd Pump & Blower plus light. Ozone may be piggybacked off the filtration pump relay).	1
0613-421004	IN.YJ Remote Heater – 1.3kw (Add Heater to IN.YJ Pack)	1
0613-421002	IN.YJ Remote Heater – 2.0kw (Add Heater to IN.YJ Pack)	1

- IN.YJ Packs offer a budget solution upgrade to older Micro Spa Systems and various Hot Pumps.
- Their compact size and remote heater allow them to be retro fitted into small, tight spaces.
- Despite their low cost and compact size, these packs still incorporate the latest, state of the art technology found in the larger packs to provide economic running and superior reliability.
- Standard Spade Connector connections for the equipment makes this pack easily adaptable to any previous equipment power cord configurations.

GECKO CONTROL & AUDIO PRODUCTS

IN.YE-5 Aeware by Gecko - Spa Control System

Product Code	Product Description	CTN Qty
BDLYE5K450CE	IN.YE-5 Control Bundle	1

Bundle Includes:

3.8kw heater, IN.YE-5 Pack, K450 keypad and overlay, adaptor plate, 1x 2 spd amp and 1 x 1 spd amp cables, plus light cable.

- Ideal replacement spa pack – covers most applications.
- Built in 22 program configuration options.
- WiFi compatible.

IN.YE-3 Aeware by Gecko - Spa Control System

Product Code	Product Description	CTN Qty
0610-221016	IN.YE-3 Spa Pack – 3kw c/w Programming	1
0610-221027	IN.YE-3 Spa Pack – 2kw c/w Programming	1
0610-221028	IN.YE-3 Spa Pack – 4kw c/w Programming	1

- IN.YE-3 Spa Packs offer a lower cost, compact alternative to IN.YE-5 for spas requiring basic equipment functionality.
- Will operate 2spd Pump & Blower, plus light, or Circ Pump, 1spd Pump & Blower plus light.
- Ozone may be piggybacked off the low speed pump relay.

IN.XM Aeware by Gecko - Spa Control System

Product Code	Product Description	CTN Qty
0601-221028	IN.XM Control System	1

- Runs up to 3 pumps plus Circ, Blower, Ozone, Light and Audio.
- Incorporates advanced "learning" and "self diagnostic" features.
- Matching Titanium "intelligent" Heater and Keypads also available.

GECKO CONTROL & AUDIO PRODUCTS

IN.K200 Aeware by Gecko Keypad

Product Code	Product Description	CTN Qty
0607-008001	IN.K200 Keypad	1
9916-101030	IN.K200 Overlay	1

- Budget Keypad, suits all packs.

IN.K300 Aeware by Gecko Keypad

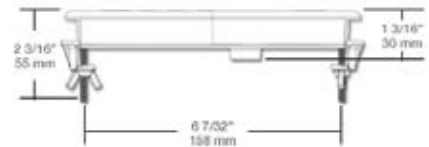

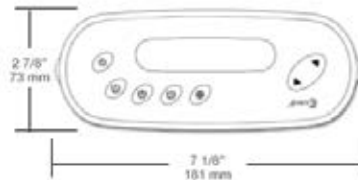

Product Code	Product Description	CTN Qty
0607-008037	IN.K300 Keypad - 2 OP, No Overlay	1
9916-101500	IN.K300 Overlay	1

- Higher end variation on the IN.K200

IN.K450 Aeware by Gecko Keypad

Product Code	Product Description	CTN Qty
0607-005008	IN.K450 Keypad	1
9916-101335	IN.K450 Keypad Overlay	1

- Suits all Aeware Packs.

IN.K35 Aeware by Gecko Keypad

Product Code	Product Description	CTN Qty
0607-007028	IN.K35 Keypad - 6 Button	1
9916-101206	IN.K35 Keypad Overlay	1

- Uses same hole size as old Gecko Keypads, but works with new Aeware Packs
- Upgrade for old Gecko and Hydro-Quip Packs.

IN.K600 Aeware by Gecko Keypad - Menu Driven

Product Code	Product Description	CTN Qty
0607-007012	IN.K600 Menu Driven Keypad	1
9916-101381	IN.K600 Keypad Overlay	1

- Suits IN.XM Controls.
- Features on-board audio functions.

FLOOD ALERT

Early warning of potential flooding events indoors or outdoors

Ever left a tap running & overfilled your Pool, Spa, Bath or Sink?

Ever had a leak or surface water enter your Home, Boat, Pool Plant Room?

You need  **FLOOD ALERT**

Water, like nature intended

UV-C + OZONE SPA SANITISER

UltraZone® uses natural processes to provide crystal clear, clean and healthy spa water that looks, feels and smells just like nature intended.

Using innovative technologies, the UltraZone® combines Ozone generation with UV-C sterilisation to make your spa water safe and clean whilst reducing harsh chemicals.

The UltraZone® rapidly UV sterilises 99.95% of all bacteria and virus materials that pass through it, then the powerful Ozone, a natural oxidiser combines to help destroy harmful organic material and chlorine by-products that cause skin, eye and respiratory irritations. UltraZone® is 100% safe and the natural choice for spa water health.

The UltraZone® system provides hygiene control at the flick of a switch. Every time you switch on your spa filter the UltraZone® cleans and sanitises your spa water resulting in crystal clear water free from ozone off-gas, chemical smells and irritations.

UltraZone® units are an easy retro-fit for new or existing spas. Simple to install, economical to run, better for your health. That's the UltraZone® difference.

POOL/SPA VALVES & FITTINGS

POOL/SPA VALVES

2 & 3-Way Valves

Product Code	Product Description	CTN Qty
25912-154-000	2-Way Valve 40mm Slip	18
25912-204-000	2-Way Valve 50mm Slip	18
25913-154-000	3-Way Valve 40mm Slip	16
25913-204-000	3-Way Valve 50mm Slip	16

- LifeSeals - Never require lubrication.
- Exclusive adjustable locking plate for flow control.
- Flow Tabs included for marking ports.
- CPVC Construction.

Ball Valves

Product Code	Product Description	CTN Qty
25800-751-000	Ball Valve 20mm Socket x Socket	100

TECHNICAL EXPERTISE, COMPETENCE AND CONFIDENCE

Looking for a product that doesn't exist yet?

CSN Global offer in-house research, design and development capabilities that are complimented by incredibly strong relationships with global manufacturing partners. This means we can deliver locally designed high-spec engineered products using cost-efficient manufacturing processes.

A formidable combination of reliability and expertise. That means confidence.

From single prototypes to highly scalable mass production CSN Global's R&D team offer the expertise and knowledge to deliver quality custom-manufactured products.

CASE STUDY Flood Alert

FLOOD ALERT

With the growing importance and awareness of safety wherever there is water, the CSN Global team set about designing and developing a unique product that would ensure peace of mind in everyday applications such as baths, boats, sinks, pools & spas. The Flood Alert simply activates an alarm system in the event that water reaches a pre-determined level on the device. It is suitable for both domestic and commercial installations and importantly it is a very low-cost effective safeguard against the dangers associated with overfilling, overflowing and seepage.

CSN GLOBAL PTY LTD CONDITIONS OF SALES

PRICES

All prices are subject to change without notice. Prices charged are those at the date of delivery. Prices quoted are free into store for purchases over \$300.00 excluding GST in value. Freight charged at cost for deliveries under this value.

SUPPLY

CSN Global Pty Ltd reserves the right to refuse any orders for whatever reason without prejudice to its other rights and remedies even if the goods ordered have been prepaid. (Subject only to refund of the prepayment less administration charge of 5% plus G.S.T of prepayment).

PAYMENT

Generally, payment for orders are due prior to dispatch or cash on delivery. For customers with approved credit terms payment is due strictly at the last day of the month following the delivery of goods. Credit facilities will automatically cease if previous month's account is not paid in full. Overdue accounts are subject to an interest charge of two per centum (2%) per month, calculated on a monthly basis from the month following the due date to the month of payment (both inclusive).

RISK AND INSURANCE

Risk of damage to or loss of the goods shall pass to the Purchaser at the time of delivery to the carrier or the Purchaser whichever occurs first. If arranging transport CSN Global Pty Ltd acts as agent for the Purchaser only. Insurance shall be at the cost and responsibility of the Purchaser. Claims for damages, loss, incorrect supply, short deliveries or any other non-conformity to the description will only be recognised if notified by the Purchaser to the Seller within 7 days of dispatch of the goods.

RETURNS

Goods returned for credit will not be accepted without prior approval and the goods returned must be in "as new" condition. Freight must be prepaid or the goods will either not be accepted or the amount of freight will be deducted from the credit total. Goods returned will be subject to a handling charge of 10% of the invoice price plus G.S.T.

HANDLING CHARGES

Orders of less than a specified amount (\$200.00 excluding G.S.T) are subject to a handling charge (currently \$10.00 plus G.S.T per order). This handling charge is in addition to any freight charge referred to under "Pricing". These amounts are subject to change by CSN Global Pty Ltd at any time without further notification.

TRANSFER OF OWNERSHIP

- a) Ownership of and title to any goods delivered by CSN Global Pty Ltd to the Purchaser shall remain with CSN Global Pty Ltd until payment in full for the goods and all other outstanding amounts by the Purchaser have been paid for in full.
- b) Whilst ownership of, and title to the goods remains with CSN Global Pty Ltd the Purchaser agrees to hold any goods delivered to the Purchaser in trust for CSN Global Pty Ltd and shall store such goods in a manner that they are clearly identified as the property of CSN Global Pty Ltd.
- c) CSN Global Pty Ltd shall be entitled to take possession of any such goods held in trust by the Purchaser if the Purchaser is in default and for this purpose is hereby authorised to enter any property or premises (if necessary by reasonable force) where it reasonably expects or assumes the goods are held and remove the goods at any time and the Purchaser hereby appoints CSN Global Pty Ltd as its agent for that purpose.
- d) Notwithstanding the provisions of the previous sub clauses the Purchaser (being a retailer or trader) may sell the goods to a third party in the ordinary course of his/hers/its business and deliver the goods to that party subject to the following conditions:-
 - (i) Where the Purchaser received payment by the third party such payment shall be held (and is deemed to be held) by the Purchaser in trust for CSN Global Pty Ltd and the Purchaser shall account to CSN Global Pty Ltd according to the law of trust for such proceeds; and
 - (ii) Where the Purchaser is not paid for the goods so disposed of the Purchaser hereby assigns the debt owing (save for this provision) to him/her/it to CSN Global Pty Ltd who shall be entitled to demand payment of and collect the amount payable by the third party and the Purchaser hereby appoints CSN Global Pty Ltd as its agent for that purpose.

WARRANTY

All goods are sold subject to the warranties provided by the respective manufacturers. CSN Global Pty Ltd does not accept any claims beyond those warranties but will endeavor to obtain, on behalf of its customers, replacement or repair of faulty items subject to the manufacturer's warranty conditions. Freight For return or faulty items and replacement items is at the Purchaser's cost.

Please note: In regards to Gecko and Aqua-flo product warranties, CSN Global is ONLY responsible for warranties on these products if originally SOLD by CSN Global. Claims made on CSN Global for Gecko/Aqua-flo products sold by other parties will not be accepted and must be taken up with the party who originally sold those products.
