SEAMLESS & SECURE PAYMENT SERVICES

In order to offer an optimal flexibility to our merchants, Ogone constantly enlarges its coverage of acquirers and payment methods. Ogone has over the years developed local partnerships with card and payment method acquirers to cope with the varying payment patterns across the different countries.

With SEPA (Single European Payment Area) in Europe and the increasing maturity of the ePayment industry, Ogone is also working with acquirers that can cover several countries either on a European basis or even on a global basis.
