Action required:

The Office of Developmental Disabilities Services (ODDS) has finalized results from the initial employment and day service provider assessments. The assessments were completed as required under policy transmittal 15-006 to:

1. Verify accuracy of ODDS employment and day service authorization, billing, and service delivery, and
2. Measure initial compliance with new state and federal regulations regarding ODDS and Medicaid-funded Home and Community-Based Services (HCBS).

Final service determination results are attached to this transmittal, and will also be posted to the ODDS staff tools page. Service coordinators and personal agents must work with providers of employment and day services to correct service authorizations in Plan of Care, and ensure that all authorizations are consistent with the assessment results.

Any necessary corrections must be made to Plan of Care within 60 days but **NO LATER THAN April 26, 2016.**

Date of Request	Action Required	Who to Complete	Date Action Required
Week of Feb. 26, 2016	Correct service authorizations in Plan of Care. (Final service determination results are attached and will be posted on the staff tool page).	CDDPs, Brokerages, and Providers of Employment and Non-residential day services (DSA).	60 days from notification, and no later than April 26, 2016.

If a service change is required, the Service Coordinator or Personal Agent will need to take the following steps:

1. Plan of Care

The service coordinator or personal agent must end both the individual's incorrect Service Plan Line(s) and provider Service Prior Authorization(s) in the Plan of Care billing system. This must be done on or before April 26, 2016.

2. ISP/CDP

A change in service must be documented using the "**ISP Change Form**" (see attached example). Also, the actual service change and authorization would be documented in the "Chosen Services" pages of the ISP.

3. Notification to the person

The change may be made with the documented verbal approval of the individual, their guardian, or a designated representative, so long as the nature of the service delivered to the individual does not change. Verbal notification must explain that the previous service categorization was incorrect. If the correct service categorization does not meet the individual's needs or interests, the individual must be given an opportunity to review all Employment Service options in order to ensure his or her service needs continue to be met.

During the individual's annual planning process, the individual must be given an opportunity to review all Employment Service options in order to ensure his or her service needs continue to be met. The individual must also be given an opportunity to review all Employment Service options upon request.

If service hours are reduced as a result of this, the Provider and the Service Coordinator or Personal Agent will need to take the following steps:

- Requirements for an involuntary service reduction must be followed.
- The Service Coordinator or Personal Agent must reconvene a meeting with the individual and his or her ISP team.
- The individual must be given an opportunity to review all service options in order to ensure his or her service needs continue to be met.

Field/stakeholder review: Yes No

If yes, reviewed by: CDDPs, Brokerages, ORA.

If you have any questions about this action request, contact:
