Simplifying Panel Building

MODUTEC PRODUCT OFFERINGS

- MODDIS : Modular Switchboard Enclosure System
- MODDRW : Modular Draw Out MCC/PCCs
- MODACC : Panel Accessories
- MODSIM : Software for Estimation
- MODBAY : FORM 1 Panel Enclosure (Bayable)
- MODBOX : Welded Boxes - IP56 / 66
- MODONE : Flat Pack Boxes & Panels - IP 54
- MODOUT : Flat Pack Outdoor Enclosures - IP 56
- MODROW : Row DBs
- MODPAN : Pan Assembly DBs
- MODMED : MV Panel Cassette Type Basic Kit
- MODROF : MV Panel ROF Type Basic Kit
- MODPOW : MV Power Module

The context of **MODUTEC**

Dear Friends,

When growth happens in any part of the world, the dictum becomes Faster, Safer & Smarter. In MODUTEC's context - electrifying the world, can't wait! Sustainability, value for money and right availability defines the brand, the attraction and the contribution to the Electrical Industry.

Innovative Thinking starts with the Customer, his need, desire & problem. If projects are to be completed in time & without nasty surprises, the constraints have to be eliminated. Enclosures in the switchboard industry and particularly the welded ones are a bane from a speed, quality and cost perspective.

MODUTEC Ready Panels Private Limited was hence launched in 2007. We have since supplied Modular Switchboard Enclosure Systems in LV and MV to discerning Panel Builders in India, Qatar and Dubai. These have been Type Tested repeatedly as per IEC 61439 Type 1&2 for LV and IEC 62271-200 for MV.

The aim of MODUTEC is to simplify Panel Building with this modular concept and reach out to Global markets educating, training and enabling them to scale their Switchboards solutions businesses. Benefits will thus accrue to the Industry, Buildings, Infrastructure and OEM segments of users.

Here's inviting you to join us in this movement to standardize, systematized and scale!

Ramani M.

Managing Director

MODUTEC Ready Panels Private Limited

TOP TEAM

Mr. Prashanth Nadiger
*Chief Executive Officer (CEO)
Mechanical Engineer who has served the group for more than one and a half decades, with specialization in tooling & manufacturing.*

Mr. Rajesh Jayachandran
*Chief Sales & Marketing Officer (CSMO)
Alumni of Great Lakes Institute of Management, having 15 years of PAN India experience in Modular Enclosure & Allied Businesses. Worked with Top Indian MNC's.*

MODUTEC Vision

- We envision being the most preferred Panel Enclosure partner for the Panel Builder, System Integrator & switch gear manufacturer world wide.
- We seek to take care of the mechanicals, while the Panel Builder focuses on the Electricals, in the true spirit of WIN-WIN-WIN!

MODUTEC Mission

- We seek to continually understand what stops our customers from being FASTER, SAFER & BETTER in what they do and strive to continually add value here.
- The people who benefit from our offerings are those who consistently attempt to upgrade, evolve & move to the next level in their positioning amongst their customers.

MODUTEC Message

- We seek Panel Builder Partners who seek to be Type Test compliant & are serious about Quality & On Time Delivery.
- Their limited inventory holding aids best return on investment, simplicity in Panel Building & reduced Lead Time in manufacturing.
- Our pricing policy is transparent, software driven & backed up by Installation training, exploring further creative possibilities for use & a detailed & informative web site to support.
- Switchgear manufacturers of LV & MV can co-brand with MODUTEC as being their Panel Vehicle for India & abroad.
- Panel Builders who are still in the welded technology can upgrade their way of working to the more sustainable, labor friendly & down-to-earth modular system of Panel Building.
