2. Official Responses to Questions.

 - c. Describe the Respondent's corporate background as it relates to projects similar in scope and complexity to the project described in this RFP. If the proposal includes the use of subcontractors, include a similar description of each subcontractor's corporate background;

Deleted: consultant's

2. **Official Responses to Questions** - Questions submitted by interested parties and the Department's official responses follow.

- 1) **Question:** Is there a maximum allowable annual budget for the Research and Evaluation of Community Based Programs?

Response: To obtain competitive pricing, the Department will not disclose its budget estimate for this project.

- 2) **Question:** Is there an incumbent who has been performing the same or similar scope of work?

Response: Yes, the University of Hartford Center for Social Research.

- 3) **Question:** What is the relationship, if any, between the RFP to Develop an Extensive Research and Evaluation System (RE_RFP_102011) and the Research and Evaluation of Community Based Programs (RE_1107_RFP)?

Response: The Research and Evaluation of Community Based Programs Request for Proposals (RE_RFP_102011) was issued on October 20, 2011. The RFP was cancelled on October 21, 2011. The Department attempted to alert prospective Respondents of the cancelation, but the cancelation did not reach all intended recipients.

- 4) **Question:** What is the fiscal budget for the resultant contract period? Is there a budget range or cap?

Response: Please refer to the Response to Question 1.

- 5) **Question:** Please clarify all necessary information for subcontractors. For example, for each subcontractor, does the grant proposal need to include: a) certifications and forms according to SECTION ONE, D. Statutory and Regulatory compliance; b) corporate experience as outlined under SECTION TWO, A.2.; c) resume/vita and three (3) references; and d) budget and budget narrative?

Response: Per the RFP, IV. PROPOSAL CONTENTS

Throughout the Request for Proposals Requirements and Responses:

Respondents that propose the use of subcontractors must present the same information about the proposed subcontractors as they would have if they were responding themselves.

To clarify: If a Respondent is proposing a subcontractor to provide a service to meet an RFP requirement, the Respondent must present the same information about the proposed subcontractor as they would if they were responding to provide the service themselves. The Respondent must provide information about the subcontractor as it relates to the service the subcontractor will be providing.

In response to your examples: a) certifications and forms according to SECTION ONE, D. Statutory and Regulatory compliance are not required of the subcontractor, though all statutory, regulatory and legal requirements of the successful respondent must flow through to the subcontractor; b) corporate experience as outlined under SECTION TWO, A.2. is required of the subcontractor; c) resume/vita [sic] and three (3) references are required of the subcontractor; and d) budget and budget narrative must include the cost of the subcontractor and a narrative to explain that cost. A separate cost section is not required to be provided from the subcontractor.

- 6) **Question:** Please clarify the difference between a subcontractor and a consultant.

Response: A subcontractor is an individual (other than an employee of the Respondent) or business entity that the Respondent is proposing to provide services as required in the RFP. If a consultant is being used or proposed for services as required in this RFP, then the consultant would be considered a subcontractor.

- 7) **Question:** Regarding Staff Requirements (SECTION TWO, C): Can we include administrative staff and other employees at DSS as references/contacts for each of the key personnel?

Response: Yes; however, they may have to refuse to serve as a reference if they will be involved in the evaluation of proposals received in response to this RFP, so it is incumbent upon the Respondent to verify the staff's ability to serve as a reference ahead of time.

State of Connecticut Department of Social Services
Research and Evaluation of Community Based Programs
Request for Proposals RE_1107_RFP

- 8) **Question:** Please explain or clarify the policy and procedures deliverables as outlined in SECTION TWO, B.3.a. and B.3.b.

Response: Per the RFP, SECTION TWO, 3. Task-related Policies and Procedures:

“Additionally, it shall describe how it will come to develop the policies and procedures necessary to comply with a. and b. below. Through submission of the Respondent’s proposal, the Respondent acknowledges and agrees that:

- a. The success of the RE contractor’s performance depends, in part, on the RE contractor’s development and application of clear and accurate policies and procedures that reflect functional interpretations of regulations, quality goals, and directives; and
- b. The RE contractor’s policies and procedures must be organized and available to allow seamless access by both the RE contractor and designated Department staff.”

To clarify: The Respondent is required to describe its methodology to make clear recommendation on policies and procedures that assess how rules and regulations effect the functioning of the programs, how program goals and directives are tied to quality services, as well as describe how the resultant contractor will provide accessibility of the policies and procedures to the RE contractor and the Department.

- 9) **Question:** Are program administrators willing to consider the research requirements, program demands, and costs related to a randomized control trial (i.e., see SECTION TWO, B.4.b.)?

Response: Due to the amount of funding available for RE the Department does not consider it feasible to conduct a RCT trial at this time.

- 10) **Question:** Are there instructions for completing the budget summary form?

Response: No, there are not specific directions as the template provided is in a generic format to be populated in the appropriate areas reflecting the Respondent’s proposed cost.

- 11) **Question:** Does this proposal need to include a cumulative budget in addition to a budget for each of the three contract years?

Response: A cumulative budget is not required. However, the total proposed cost for the three-year resultant contract is required. Please provide the total proposed cost for the three year resultant contract in the beginning of your narrative, followed by the annual narrative for each individual year: 2012, 2013, and 2014.

- 12) **Question:** Is the budget narrative to reflect the entire 3 year project or 3 budget narratives?

Addendum 2

State of Connecticut Department of Social Services
Research and Evaluation of Community Based Programs
Request for Proposals RE_1107_RFP

Response: There must be a separate itemized budget and a corresponding budget narrative for each year. The end result will be a detailed description of the project cost.

- 13) **Question:** Per Requirement 5 on p. 7 of the RFP, what is the scope of the data to be extracted from the Help Me Grow and DCF databases?

Response: The scope of data extracted from the Help Me Grow program can be viewed in the Help Me Grow evaluation. The data from DCF is not extracted. Cases are checked against the DCF data base. The scope of this activity can be viewed in the 2009 NFN evaluation report, embedded as a hyperlink, provided in the RFP.

- 14) **Question:** Per Requirement 14 on p. 7 of the RFP, what is the scope of the data to be collected to determine claims and billing for Medicaid reimbursement?

Response: The scope of data for Medicaid reimbursement includes demographic and site activity data needed for billing including parents name, address, social security number, number of visits and type of services offered. The data needed for billing, with the exception of social security numbers, is collected through the web based system. The data would need to be aggregated and submitted to the Medicaid Administration on a quarterly basis. The sites would need to obtain releases from the families and make the social security numbers available to the contractor. This step has not been taken because the agreement with Medicaid to pay claims for the program services is still in progress.

- 15) **Question:** Per Requirement 15 on p. 7 of the RFP, what is the scope of the data to be imported from DSS' web-based systems in order to perform the required analyses?

Any information on the number of tables and number of elements to be included in these various data extraction/collection activities would be helpful in preparing time estimates for these portions of the project.

Response: The scope of the data to be imported from the DSS web-based system: 10 data tables made up of 320 data elements.

- 16) **Question:** In addition, Requirement 13 on p. 7 of the RFP states that the vendor will "prepare special reports on request." I was curious as to the frequency of these report requests in the past and approximately how long it took to fulfill these requests.

Response: Currently, special reports are generally requested two to three times per year as unusual or interesting findings emerge from the research and evaluation of programs or at the request of the Legislature or Governor's office. The length of time needed to complete the reports varies. The reports are roughly 5 to 12 pages in length.

Request for Proposals RE_1107_RFP

The State of Connecticut Department of Social Services is issuing Addendum 1 to the Research and Evaluation of Community Based Programs Request for Proposals. In the event of any inconsistency between information provided in the RFP and information in this addendum, the information in this addendum shall control.

Addendum 1 contains clarification of: Part II. OVERVIEW OF THE PROCUREMENT PROCESS, L. RESPONDENT ASSURANCES AND ACCEPTANCE, 7. Discovery of a Conflict of Interest.

7. **Discovery of a Conflict of Interest:** The Respondent certifies that it shall immediately disclose any situation to the Department's Contract Administrator where the Respondent (if selected as the RE contractor) becomes aware of an existing, potential, or perceived conflict that may compromise its objective provision of services under the resultant contract. The Department's Contract Administrator will determine the necessary remedy.

To further ensure the avoidance of an actual Conflict of Interest or the appearance of a Conflict of Interest, Respondents must not have a relationship of any type or be related in any way to any of the Department of Social Services' current contractors for the Nurturing Families Network program, Help Me Grow program, Family School Connection program, or Healthy Start program, as such a relationship could present a conflict of interest and diminish the contractor's ability to objectively evaluate all programs.

I. BACKGROUND INFORMATION AND PROGRAM OBJECTIVES

A. Children's Trust Fund and Research and Evaluation of Community Programs

The Department of Social Services/Children's Trust Fund Division (DSS/CTF) or Department is the State's lead agency for the prevention of child abuse and neglect. The Department invests in several major initiatives that help ensure the positive growth and development of children by helping to support and strengthen families – especially those for whom the risk of abuse and neglect is very real. CTF programs reach more than 15,000 families every year.

The Department is seeking proposals to conduct comprehensive research and evaluation of CTF programs. CTF programs provide funding for community-based services, training, and technical assistance to prevent child abuse and neglect and to ensure the positive growth and development of children. In connection with this program, CTF is seeking to identify a public or private organization with the necessary expertise to conduct performance monitoring, process evaluation, outcome evaluation, and specifically designed research of CTF programs. The successful Respondent will be responsible for developing research and evaluation designs to evaluate the effectiveness of CTF programs using the most appropriate, validated instruments and tools. The successful Respondent will also be responsible for creating internal protocol and procedures for ensuring data is properly analyzed and reported for established and new program sites that track program participants. Responsibilities include, but are not limited to: program site visits; training and technical assistance for CTF and funded program staff; and quarterly and annual research and evaluation reports.

B. Overview of the Department of Social Services

The Department of Social Services provides a broad range of services to the elderly, persons with disabilities, families, and individuals who need assistance in maintaining or achieving their full potential for self-direction, self-reliance, and independent living. It administers more than 90 legislatively authorized programs and one third of the State budget. By statute, it is the State agency responsible for administering a number of programs under federal legislation, including the Rehabilitation Act, the Food Stamp Act, the Older Americans Act, and the Social Security Act. The Department is also designated as a public housing agency for the purpose of administering the Section 8 program under the federal Housing Act.

The Department is headed by the Commissioner of Social Services, and there is a Deputy Commissioner for programs. There is a regional administrator responsible for each of the three service regions. By statute, there is a statewide advisory council to the Commissioner, and each region must have a regional advisory council.

The Department administers most of its programs through offices located throughout the state. For the other programs, services are available through 12 offices located in the three regions, with central office support located in Hartford. In addition, many services funded by the

Department are available through community-based agencies, including the 156 senior centers throughout Connecticut. The Department has out-stationed employees at hospitals to expedite Medicaid applications, and funds Healthy Start sites, which can accept applications for Medicaid for pregnant women and young children. Many of the services provided by the Department are available via mail or telephone call.

There are two entities attached to the Department for administrative purposes only, the Child Day Care Council and the Bureau of Rehabilitation Services. The Bureau of Rehabilitation Services is comprised of the Bureau of Rehabilitation Services, Commission on Deaf and Hearing Impaired, Board of Education and Services for the Blind, the driver training program for persons with disabilities formerly at the Department of Motor Vehicles, and the rehabilitation programs for employees suffering compensable injuries, which have disabled them from performing their customary or most recent work, formerly at the Workers Compensation Commission.

K. RESPONSE DATE AND TIME

To be considered for review, a proposal must be received by the Issuing Office by the date and time stated in the Procurement Schedule in II. B. of this RFP. The Department will not consider a postmark date as the basis for meeting any submission deadline. Respondents should not interpret or otherwise construe receipt of a proposal after the closing date and time as acceptance of the proposal, since the actual receipt of the document is a clerical function. The Department suggests the Respondent use Certified or Registered mail to deliver the proposal when the Respondent is not able to deliver the proposal by courier or in person.

Respondents should allow extra time to comply with building security procedures, when hand-delivering proposals.

Proposals shall not be considered received by the Issuing Office until they are in the hands of the Official Contact or a representative of the Office of Contract Administration.

L. RESPONDENT ASSURANCES AND ACCEPTANCE

 - a. **Costs:** The costs proposed have been arrived at independently, without consultation, communication, or agreement, for the purpose of restricting competition, as to any matter relating to such process with any other organization or with any competitor;
 - b. **Disclosure:** Unless otherwise required by law, the costs quoted have not been knowingly disclosed by the Respondent on a prior basis directly or indirectly to any other organization or to any competitor;
 - c. **Competition:** No attempt has been or will be made by the Respondent to induce any other person or firm to submit or not to submit a proposal for the purpose of restricting competition;
 - d. **Prior Knowledge:** The Respondent had no prior knowledge of the RFP contents prior to actual receipt of the RFP and had no part in the RFP development; and
 - e. **Offer of Gratuities:** The Respondent certifies that no elected or appointed official or employee of the State of Connecticut has or will benefit financially or materially from this procurement. Any contract arising from this procurement may be terminated by the State if it is determined that gratuities of any kind were either offered to or received by any of the aforementioned officials or employees from the contractor, the contractor's agent or the contractor's employee(s).
2. **Valid and Binding Offer:** The proposal represents a valid and binding offer to provide services in accordance with the terms and provisions described in this RFP and any amendments or attachments hereto.

N. FREEDOM OF INFORMATION AND DECLARATION AND PROTECTION OF PROPRIETARY INFORMATION :

Gen. Stat. §§ 1-200. et seq., and the Privacy Act and all rules, regulations, and interpretations resulting therefrom. The Respondent must provide convincing explanation and rationale sufficient to justify each exception from release consistent with Section 1-210 (b) of the Connecticut General Statutes to claim proprietary exemptions to the disclosure requirements of the Freedom of Information Act. The rationale and explanation must be stated in terms of the prospective harm to the competitive position of the Respondent that would result if the identified material were to be released and the reasons why the materials are legally exempt from release pursuant to the above cited statute.

It will not be sufficient for Respondents to merely state generally that the proposal is proprietary in nature and, therefore, not subject to release to third parties. Information in proposals concerning price and cost alone do not meet exemption requirements. Those particular pages or sections that a Respondent believes to be proprietary must be specifically identified as such.

While Respondents may claim proprietary exemptions, the final administrative authority to release or exempt any or all material so identified rests with the State.

The Proprietary Declaration and rationale must be included in the Transmittal Letter as noted in IV. Proposal Contents Section One: Transmittal Communication, Forms and Acceptance Order. Respondents may not be given another opportunity to declare proprietary information or provide a detailed rationale.

- 1) Family School Connection - Family School Connection - The program provides comprehensive home visiting services to families of school age children who are often tardy or absent from school or who have other problems that are not being adequately addressed by their parents. The program is operating in five school districts across the state and serves roughly 200 families every year.

- 3) Healthy Start program - The program will provide focused health-related case management, care coordination, and HUSKY A application assistance services to eligible pregnant women to promote and protect the health of both mother and baby. The overall goal of this program is to improve birth outcomes by reducing the rate of infant mortality, morbidity and low birth weight by ensuring access to and the utilization of prenatal/postpartum care services through Connecticut's HUSKY A

health coverage program. Program clients are defined as pregnant women and their children under three years of age, in households with family incomes at or below 185% of the Federal Poverty Level. Healthy Start services continue postpartum through the second year of the child's life.

- 4) Nurturing Families Network is a no-cost, voluntary program that provides information, guidance and assistance to first-time parents. Available through some 40 community agencies and birthing hospitals throughout Connecticut, the network offers three distinct, yet interwoven services:
 - Home visiting services that help new parents at risk for abuse and/or neglect learn how to care for their baby and adjust to the many demands of becoming a parent;
 - Parenting groups that bring parents together in a supportive environment to share experiences and work together to be the best parents they can be. Topics such as birth through 5, teen parenting and prenatal care are among the subjects typically discussed; and
 - Nurturing connections that bring new parents together with volunteers and others in the community who can lend assistance.
