American Association of Neuromuscular & Electrodagnostic Medicine

Improving the Lives of Patients with Neuromuscular Disease

AANEM Spark

Description

AANEM's electronic newsletter.

Content Focus

The purpose of AANEM Spark is to provide relevant information to AANEM members (and sometimes non-members) to help them, as neuromuscular specialists, provide exceptional care to their patients. Content includes promotion of AANEM policies, products, programs, services, and activities. Nearly every issue features a research update related to neuromuscular or electrodiagnostic medicine.

Primary Audience

Every issue is sent to AANEM members with a valid subscribed email address. AANEM membership consists of over 4,800 North American physicians, over 500 international physicians, more than 200 technologists, and approximately 100 other professionals with interests in neuromuscular and electrodiagnostic medicine. For member physicians who have progressed out of training, approximately 35% are certified by ABPMR, 48% by ABPN, and 17% are other or unspecified.

Frequency

AANEM Spark is scheduled for every other Wednesday throughout the year. Occasionally, delivery is adjusted to another day of the week. See the Editorial Calendar for specific regularly scheduled dates.

Bonus Distribution/Special Issues

There are times throughout the year when AANEM Spark is delivered to contacts in our non-member database in addition to our members. This is generally driven by the specific content or subject matter of a particular issue and there is no regular schedule for this distribution to occur. When this occurs, the number of deliveries increases by approximately 4,500 and the click and open rates decline slightly. There is no additional charge to advertisers for this bonus exposure and no additional notification when it may occur.

Statistics

On average, AANEM Spark experiences a 99.5% successful delivery rate; a 26.4% unique open rate; a 56.2% total open rate; a 4.5% unique click rate; and a 9.9% total click rate. Clicks on outside ads depend largely on the effectiveness of the ad design.

American Association of Neuromuscular & Electrodiagnostic Medicine

MISSION

To improve the quality of patient care and advance the science of neuromuscular (NM) diseases and electrodiagnostic (EDX) medicine by serving physicians and allied health professionals who care for those with muscle and nerve disorders.

VISION

To be the premier organization ensuring quality NM & EDX care for all patients.

VALUES

PILLARS

The AANEM has built its strategic plan around the following pillars:

Quality Patient Care:

Develop and deploy resources, programs, and standards to help NM and EDX professionals deliver high quality patient care to all patients.

Membership Support and Operations:

Balance the association's long-term viability and growth in membership through strong financial leadership, corporate support, infrastructure efficiencies, and collaborations.

Foundation Support:

Support the AANEM Foundation in becoming a recognized leader in NM research.
