TOOLS INTERNATIONAL®

PRODUCT CATALOG

www.aegistools.com

AEGIS Tools International® was created in 1982 to answer the need for quality windshield repair systems. After over 25 years, AEGIS® has grown to become an industry leader-not only producing our renowned, patented repair systems, but also supplying auto glass professionals in over ~ 50 countries with top-quality auto glass replacement products.

AEGIS® products are professionally engineered and thoroughly field-tested by top industry technicians. Products like our patented GlassHandlers™ and Solo™ Windshield Setting Tools are designed to promote safety for the technician and safe installations for consumers.

We thank you for your interest in AEGIS® and invite you to review our products. For the most up-to-date product information and to order, please visit us online at

AEGIS® SOLO™ II Glass Setting System

KIT3020 - Standard

AEGIS® SOLO™ II Glass Setting System

The AEGIS® SOLO™ II allows a single technician to install challenging windshields on traditional two-tech jobs.

- Works on both sides of vehicle.
- Arm extends for large windshields.
- Your return on investment is fast-payback is realized in months, not years.
- Productivity increases-one tech can install most two-tech windshields.
- Strains & sprains are reduced-SOLO™ II is ergonomically designed and can help reduce injury.
- Built to last SOLO™ II boasts a solid, hardened steel support rod and features the same patented grips found in our AEGIS® GlassHandlers™.

SOLO II™ has been professionally engineered and field-tested by some of the industry's top experts. Includes case, suction cup covers and instruction materials. Ships in own package.

KIT3030 - Deluxe
(includes AEGIS® GlassHandlers™)

TLS2325 - Windshield Cradle

The AEGIS® Windshield Cradle is built with 1 in/2 .5 cm diameter steel tubing, locking clasp, foam padding to protect and steady the glass. Folds for storage. Made in the USA. Ships in own package.

KIT1710 - GlassHandlers™

KIT1711 - GlassHandlers™ 3PC

Our ergonomic, patented AEGIS® GlassHandlers™ promote safety for the technician and customer alike. Allows comfortable hand positioning and even weight distribution. Reduces the likelihood of strains and sprains. Elbow pad is included to cushion the load and protect your elbows and vehicle hood. AEGIS® GlassHandlers™ promote straight-in windshield setting without sliding. Includes case, glycerine and instructions materials.

Replacement supplies: FIX2025 - Plunger, FIX5019 - 6 in/15 cm Suction Cup, LIQ2000 - Glycerine

HDW5615
Wheel Step
Considering how often you work on trucks and SUVs, this is a must-have to safely gain the extra reach and leverage you need. Conveniently folds for storage. Ships in own package.

HDW5529 Shure-Step®
Play it safe with the rugged Shure-Step®. This stepstool offers a 10 in/25 cm boost and is extremely stable thanks to its non-slip surface, rubber-padded base and wedge design. For even greater reach, stack a second Shure-Step® for another 6 in/15 cm of height for a total of 16 in/40 cm.

QuikSilver Technology™ Repair System

KIT2000

QuikSilver Technology™ performs repairs in as little as **5 minutes!** Dry vacuum allows all moisture and air to be evacuated from break. hydraulic pressure forces resin completely and quickly into break. This kit is very simple and efficient to use. Clean up is easy.

System includes:

- QuikSilver Technology™ Chamber
- Repair fixture
- Gauged vacuum pump
- 12-volt UV lamp with suction cups
- Supply box (razor blades, mylar squares, insert seals, Small/Large O rings)
- Glycerin
- Resin for 75 repairs
- Resin filling addaptor
- Mirror
- Alcohol (for clean chamber)
- Carrying case

KIT2001 QuikSilver Technology™ Upgrade Kit

Upgrade your Aegis® Pro-Series Repair fixture with this upgrade kit.

System includes:

- Vacuum-Pressure Chamber
- Fixture Leg
- 25-Pack Single Shot Extreme II resin

QUIK KIT®

KIT1660

For low-volume repairs, the AEGIS® Quik Kit® is the answer. The pressure/vacuum pump features an easy-to-read gauge and the QuikSet repair fixture is versatile and easy to position. Like all AEGIS® repair systems, the Quik Kit® delivers professional results and includes enough supplies to pay for itself.

The QuikSet fixture featured with the Aegis® Quik Kit® permits quick and easy operation, even when mounted extremely close to the edge of the glass.

System includes

- Advantage series pressure/vacuum pump
- Single Shot Crack Filler and Polymer II (25 each)
- QuikSet repair fixture
- Small Chamber (3/16"/.5 cm ID)
- Battery UV lamp
- Quick-connect hose
- Glycerine
- Supplies (razor blades, Quad rings, mylar squares)
- Instruction manual
- Compact Case

System Options

- Extreme II Single Shots (LIQ2060)
- Pit Filler Kit (KIT1030)
- Large Chamber (FIX2005)
- Vertical adapter with chambers (FIX2048)
- Cordless drill with charger (PWR5040)
- Inspection mirror (MIR2000)
- Cleaning brushes (FIX2004, HOS2001)
- Supply Box (filled-SBX2000)

ADVANTAGE

OUR
BEST SELLER

The AEGIS® Advantage Kit is for low- to mid-volume glass shops, body shops, fast lubs, small fleets and other operations needing windshield repair on more than an occasional basis. Our top-selling system features the Pro-series repair fixture found on our more advanced models. This durable fixture allows repairs on all curvatures and close to the windshield's edge. An inspection mirror allows you to monitor repair progress from outside the vehicle.

System includes

- Pro-series repair fixture
- Advantage pressure/vacuum pump
- Single shot Crack Filler and Polymer II (50 each - enough to do 100 repairs)
- Small chamber (3/16"/.5 cm ID)
- Battery UV lamp
- Quick-connect hose
- Inspection mirror
- Supply box (filled)
- Glycerine
- Instructional DVD and manual
- Case with blow-molded interior

System Options

- Extreme II Single Shots (LIQ2060)
- Pit Filler Kit (KIT1030)
- Large chamber (FIX2005)
- Vertical beam with chambers (FIX2003)
- Cordless drill with charger (PWR5040)

KIT1500

The Pro-series fixture accommodates two chamber sizes, giving you

ultimate versatility in repairing larger-sized damage. Our gauged pump lets you monitor pressure/vacuum readings during operations.

SUPREME

KIT1400

12-volt UV lamp plugs into the vehicle's power point, so you're no longer dependent on wall plugs and changing batteries !

Mid-volume glass shops and car dealers rely on the AEGIS® Supreme for quality and durability that won't break the budget. The rugged, lever-style pressure/vacuum pump is great for one-handed operation and the inspection mirror and penlight allow monitoring from outside the vehicle. A 12-volt, UV lamp lets you cure repairs hands-free.

System includes

- Lever-style pressure/vacuum pump
- Single shot Crack Filler and Polymer II (50 each)
- Pro-series repair fixture
- Small chamber (3/16"/.5 cm ID)
- 12-volt UV lamp
- Quick-connect hose
- Inspection mirror
- Penlight
- Cleaning brushes
- Supply box (filled)
- Glycerine
- Instructional DVD and manual
- Case with foam-lined interior

System Options

- Extreme II Single Shots (LIQ2060)
- Pit Filler Kit (KIT1030)
- Large chamber (FIX2005)
- Vertical beam with chambers (FIX2003)
- Cordless drill with charger (PWR5040)

STANDARD

For mid- to high-volume operations performing in-shop and mobile repairs, the AEGIS® Standard Kit is up to the challenge. The heavy-duty, lockable carrying case features a die-cut, foam-lined interior to secure all components. A cordless drill is included, and you have the option of a battery-powered or a tri-power UV curing lamp, which includes adapters for a 110-volt outlet, a 12-volt vehicle's lighter or direct connection to the vehicle's 12-volt battery.

System includes

- Lever-style pressure/vacuum pump
- Single shot Crack Filler and Polymer II (50 each enough to do 100 repairs)
- Pro-series repair fixture
- Small chamber (3/16"/.5 cm ID)
- Aluminum-bodied UV lamp
- UV lamp Holder
- Quick-connect hose
- Cordless drill with charger
- Inspection mirror
- Penlight
- Cleaning brushes
- Supply box (filled)
- Glycerine
- Instructional DVD and manual
- Die-cut foam-lined, lockable carrying case

System Options

- Extreme II Single Shots (LIQ2060)
- Pit Filler Kit (KIT1030)
- Large chamber (FIX2005)
- Vertical beam with chambers (FIX2003)

KIT1000 w/Battery-powered lamp

KIT1001 w/Tri-power lamp

The Standard comes with your choice of a battery operated, or Tri-power UV lamp. The Tri-power lamp runs on 12-volt current from the vehicle's lighter or battery, or plugs into any 110-volt outlet. Kit also includes our sturdy 2-speed Cordless Drill and Carbide Burr.

DELUXE

KIT1050 w/Battery-powered lamp

KIT1051 w/Tri-power lamp

It may be stainless steel and Aluminum, but the Deluxe Pump is worth its weight in gold. The precision and durability are unparalleled. Along with this gem, we include a second repair fixture-maximize your profits by performing two repairs simultaneously!

For high-volume operations, only the best equipment will do. Our AEGIS® Deluxe is the finest repair system we offer. The stainless steel and aluminum pressure/vacuum pump is designed for accuracy, durability and years of trouble-free service. Two fixtures, adapters and inspection mirrors are also included, so you can double your productivity and perform two repairs at once. A cordless drill is standard, and you have the option of a battery-powered or a tri-power uv curing lamp. The latter includes adapters for a 110-volt outlet, a 12-volt vehicle's lighter or direct connection to the vehicle's 12-volt battery.

System includes

- Deluxe series pressure/vacuum pump
- Single shot Crack Filler and Polymer II (75 each—enough for 150 repairs)
- 2 Pro-series repair fixture
- 2 adapters for simultaneous repairs
- Small chamber (3/16"/.5 cm ID)
- Large chamber (3/8"/1 cm ID)
- Pit Filler Kit
- Aluminum-bodied UV lamp
- UV lamp Holder
- Quick-connect hose
- Cordless drill with charger
- 2 Inspection mirrors
- Penlight
- Cleaning brushes
- Supply box (filled)
- Glycerine
- Instructional DVD and manual
- Die-cut foam-lined, lockable carrying case

System Options

- Extreme II Single Shots
- Vertical beam with chambers (FIX2003)

AEGIS® Windshield Repair Preparation Supplies

PWR5040

Dremel Cordless Drill

For technicians who prefer to drill breaks prior to repair, this is a great tool for the job. 12 speeds deliver either 7,500 or 15,000 rpm from the 7.2-volt motor, yet it's light and compact enough for one-hand operation. Includes battery, 110-volt charger and one AEGIS® Carbide Burr.

DRL5032

1/16 in Collet

Use when polishing pit areas after the repair process. Includes 1/8 in/3 mm collet. Use with AEGIS® Pit Polish (part LIQ2030, sold separately).

DRL5005

Diamond Ball Burr

Between the repair and pit fill processes, use this burr to roughen the pit surface for better pit filler adhesion. Sold individually.

DRL2031

Cross-Cut Burr

An upgraded burr that drills cooler and even more efficiently than our standard Carbide Burr. 5-pack, for use with 1/16 in/1.5 mm collet (part DRL5032, sold separately).

DRL2021

Carbide Burr

A solid choice for drilling breaks prior to repair. 10-pack, for use with 1/16 in, 5 mm collet (part DRL5032, sold separately).

HDW5040

AEGIS® Carbide Probe

Ideal for clearing debris prior to repair and promoting better resin flow.

MIR2000

Inspection Mirror

Monitor the repair process from your work area. Placed directly underneath the break, the Inspection Mirror allows you to watch from the front, rather than inside the vehicle. Designed to totally block UV light from entering the rear of the glass.

TLS5000

AEGIS® Moisture Evaporator

The presence of moisture in a break makes a big difference in your repair results. By using the AEGIS® Moisture Evaporator prior to repair, the odds are in your favor. The heating coil gently yet thoroughly eliminates moisture and the unit's generous 7 ft/210 cm power cord plugs into the vehicle's 12-volt lighter.

LIQ2060

Extreme II Single Shot Resin-25 Per Pack

AEGIS® Extreme II resin is the thinnest we offer, at 20 cps. This is the formula you need when repairing breaks with fine, extended cracks. It also excels with most breaks when repairing in cold weather. Each single shot contains .05 ml of resin.

LIQ2070

Crack Filler-25 Per Pack

With a medium viscosity of 40 cps, AEGIS® Crack Filler works well as a general-purpose resin for cracks, stars and combination breaks in moderate to cool weather. Each single shot contains .05 ml of resin.

LIQ2080

Polymer II-25 Per Pack

The popular AEGIS® Polymer II is hard to beat for bullseyes and combination breaks without radiant cracks. Its thicker viscosity of 80 cps is also a great option for repairs in hot weather. Each single shot contains .05 ml of resin.

LIQ2010

Polymer II-4 ml bottle

The popular AEGIS® Polymer II is hard to beat for bullseyes and combination breaks without radiant cracks. Its thicker viscosity of 80 cps is also a great option for repairs in hot weather.

LIQ2015

Crack Filler-4 ml bottle

With a medium viscosity of 40 cps, AEGIS® Crack Filler works well as a general-purpose resin for cracks, stars and combination breaks in moderate to cool weather.

LIQ2020

Pit Filler-2ml bottle

AEGIS® Pit Filler is the thickest resin we offer, designed to fill the remaining pit after the repair resin cures. Mylar required for curing.

LIQ2022

Pit Filler-4ml Dropper

AEGIS® Pit Filler is the thickest resin we offer, designed to fill the remaining pit after the repair resin cures. Mylar required for curing.

KIT1030

Pit Filler Kit

Pit filling can mean the difference between a good repair and a great repair. This treatment fills the break the rest of the way after the resin has cured. For the customer, a filled pit eliminates the annoying water trail created when using the windshield wipers. Includes Pit Filler resin, 100 mylar squares, magnifier, razor blade and Pit Polish for the final cosmetic touch.

KIT1036

Long Crack Repair Kit

Save time and achieve better results repairing long cracks with this kit. It includes Crack Filler resin, crack expander fixture, 3"/7.5 cm Mylar Strips, razor blade and glycerine

AEGIS® Windshield Repair Curing Lamps & Bulbs

LMP2001

UV Curing Lamp With Suction Cups

Economical lamp comes with a 6" UV bulb. It also has two suction cups attached to both ends for easy, hands-free resin curing. Uses four "AA" batteries (not included).

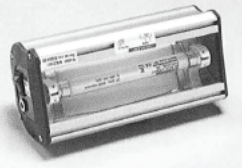

LMP3000

12-Volt Curing Lamp With Suction Cups

This 12-volt lamp is inexpensive yet will give you the professional results you have come to expect from AEGIS®. It has a 10 foot cord and the 4 suction cups will allow hands free curing.

LMP2003

12-Volt UV Curing Lamp

For an upgraded UV curing lamp at a moderate price, try this unit. The durable aluminum body is built for frequent use and is powered by the vehicle's 12-volt lighter. Includes 6"/15 cm UV bulb.

LMP2000

Battery-Powered UV Curing Lamp

A sturdy, aluminum-bodied UV lamp that's up to the challenge of high-volume shop and mobile use. It uses 8 "AA" batteries, so you need not worry about plugging into power sources on the job. Includes 6"/15 cm UV bulb (batteries not included).

LMP2005

Tri-Power UV Curing Lamp

Strong, consistent curing is delivered with this aluminum-bodied UV lamp. Its versatile tri-power capability comes from the included 110-volt transformer, 12-volt lighter plug and 12-volt alligator clips for direct battery attachment. Includes 6 in/15 cm UV bulb.

PWR5025

12-volt Extension Cord-15 ft

This 15 ft/4.5 m extension cord gives you the extra reach needed to get the job done. For use on 12-volt systems with AEGIS® Moisture Evaporator or UV curing lamps.

LMP5000

Blue UV Lamp Replacement Bulb

Maintain peak UV lamp performance with these 6"/15 cm replacement bulb. Blue bulb delivers higher intensity.

LMP5002

White UV Lamp Replacement Bulb

Maintain peak UV lamp performance with these 6"/15 cm replacement bulb. White bulb uses less energy in battery lamps.

LMP2025

Lamp Holder

Rather than hold the UV lamp over the break while curing, rely on this aluminum holder and increase your productivity. It easily attaches to most AEGIS® UV lamps and windshield repair fixtures. (except Quik Kit®)

AEGIS® Windshield Repair Fixtures & Accessories

FIX2000

AEGIS® Pro-Series Windshield Fixture

As featured in most AEGIS® windshield repair systems, our patented fixture securely attaches to the windshield with its trusty Woods PowrGrip 6 in/15 cm cup. The threaded hole in the foot holds the fixture chamber (parts FIX2005 and FIX2006, each sold separately).

FIX2001

AEGIS® Quik Kit® Windshield Repair Fixture

As featured in the AEGIS® Quik Kit®, our fixture quickly and securely attaches to the windshield with its 3 in/7.5 cm cup. The threaded hole in the beam holds the fixture chamber (parts FIX2005 and FIX2006, each sold separately).

FIX2003

AEGIS® Vertical Repair Beam with Chamber

Upgrade your existing AEGIS® Pro-series repair system with these components and repair windshields on buses, RVs and semis. As featured in the AEGIS® Vertical model, you get the specially-designed beam and chambers for leak-free seals on upright glass applications. Compatible and interchangeable with AEGIS® Pro-series repair systems.

FIX2002

AEGIS® Vertical Windshield Repair Fixture

Capitalize on opportunities to repair windshields on buses, RVs and semis by adding the Vertical Repair Fixture to your existing AEGIS® Pro-series repair system. As featured in the Vertical model, you get the pro-series fixture with the specially-designed beam and chambers for leak-free seals on upright glass applications. Compatible with Pro-series repair systems.

FIX2048

AEGIS® Vertical Adapter Assembly

Add this adapter to your existing AEGIS® Quik Kit® and gain the ability to repair bus, RV and semi windshields. It's like having two repair systems for a fraction of the price. Includes fixture extension, hardware, small chamber (3/16 in/.5 cm ID) and quad ring. (FIX2001 not included).

PMP5020

Deluxe Pump Holder

Our Pump Holder is specifically designed to hold the Deluxe pump. Conveniently attaches to the Fixture Assembly so you won't have to place it on the hood of the vehicle (pump and fixture not included).

FIX2020

Multi-Repair Adapter

Increase productivity by performing simultaneous repairs with this adapter. Features a shutoff valve to maintain vacuum and pressure, and the readings are verified with its built-in gauge. Sold individually, but consider having two available for maximum versatility. Requires additional repair fixture and chamber for use (each sold separately).

HOS2000

3 Foot Connector Hose Assembly

Features quick-connect sockets for positive sealing and durability.

HOS2020

5 Foot Connector Hose Assembly

Features quick-connect sockets for positive sealing and durability.

AEGIS® Windshield Repair Fixtures & Accessories

FIX2005

Large Chamber (3/8 "1 cm ID)

The fixture chamber is an essential component of the repair process. It screws into the repair fixture foot and against the windshield to create a seal.

FIX2006

Small Chamber (3/16 "1.5 cm ID)

The fixture chamber is an essential component of the repair process. It screws into the repair fixture foot and against the windshield to create a seal.

FIX2016

Small Vertical Chamber (3/16 "1.5 cm ID)

The fixture chamber is an essential component of the repair process. It screws into the repair fixture foot and against the windshield to create a seal.

FIX2017

Large Vertical Chamber (3/8 "1 cm ID)

The fixture chamber is an essential component of the repair process. It screws into the repair fixture foot and against the windshield to create a seal.

FIX2044

Quick Kit Fixture Chamber (3/16 "1.5 cm ID)

The fixture chamber is an essential component of the repair process. It screws into the repair fixture foot and against the windshield to create a seal.

SBX2010

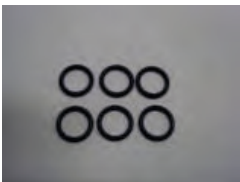

Large Quad Rings(3/8 "1 cm ID) Five Pack

SBX2016

Small Quad Rings(3/16 "1.5 cm ID) Five Pack

SBX2021

Large O rings for QuikSilver Technology™ 12 pack

SBX2019

Small O rings for QuikSilver Technology™ 12 pack

FIX5019

Suction Cup

Restore performance to your AEGIS® Solo™II, GlassHandlers™ or Pro-Series windshield repair fixture with this 6"/15 cm Woods Powr-Grip cup. Sold individually with Felt Filter included.

FIX2025

Plunger Assembly

Restore performance to your AEGIS® Solo™ II, GlassHandlers™ or Pro-Series windshield repair fixture with this plunger. Sold individually, but consider having spares on hand to minimize downtime.

HDW5634

Felt Filter

Felt filter for suction cups that are used on the AEGIS® GlassHandler™ Kits, SOLO™ II and AEGIS® repair fixtures.

LIQ2000

K. Glycerine-30 ml

Periodic application to your rubber suction cups keeps them pliable and extends service life. 30 ml bottle.

AEGIS® Scratch Removal System and Supplies

LIQ5032

Glass Polishing Compound

Save time and mess when polishing with this premixed cerium oxide solution in a convenient easy pour container.

HDW4000

Polishing Pad Assembly

The final cosmetic touch to a repair after pit filling is pit polishing. The Velcro sponge attaches to the polishing head and evenly distributes polish. Includes 1/4 in/.6 cm adapter. For use with Pit Polish (parts LIQ2030 or LIQ5032)

HDW5515

Adhesive Backup Pad for Disc

HDW5527

Velcro Backup Pad for Polishing Sponge

HDW5510

Cerium Oxide Discs

Polishes and leaves glass crystal clear. Use this white cerium oxide disc for a final polish. To begin, wet the surface slightly with a small amount of water. As you polish, the pyramids will break down to form a slurry like solution. The polishing action that occurs will remove scratches left by previous leveling steps. Comes in packs of 50, 100 and 250

HDW5511

Aluminum Oxide Light Abrasive Discs

Refines scratches, removes defective AR coatings. Use the orange A5 disc to further refine any scratches left by the A10. As in previous steps, apply a small amount of water to start cutting action. Avoid extended dwell time to minimize heat build-up. Comes in packs of 25, 50 and 100

HDW5512

Aluminum Oxide Medium Abrasive Discs

Refines Scratches, removes scuffs and acid marks. Blue discs (A10) are used to refine the scratches left by the green discs (A35). Or start with the A10 disc to remove shallow scratches, scuffs and acid marks. Apply a small amount of water to start grinding action. Control the water flow to avoid generating too much heat. Comes in packs of 25, 50 and 100

HDW5513

Aluminum Oxide Heavy Abrasive Discs

Removes larger scratches and defects. Use the green A35 disc as the first step in removing larger scratches and defects. A small amount of water triggers the cutting action. Controlled water flow helps reduce heat and keep the glass cooler. Comes in packs of 25, 50 and 100

HDW5502

Polishing Pad (Sponge)

Replacement velcro polishing pad. Works with the polishing assembly -1/4' shank (HDW4000) And also with the Aegis® Scratch removal kits (KIT1800 & KIT1810)

TLS1065

The AEGIS® MegaPro Screwdriver

One tool, many uses. Not only is the MegPro a V4 in nut driver, it holds 7 double-sided bits in its retractable carriage for an indispensable 15-in-1 tool. Bits include 6 torx, 4 Phillips, 2 slots and 2 squares.

DT6200

Clip and Upholstery Tool Set

The damage to a single customer's vehicle will be far more expensive than this economical 5-piece set. Each tool is designed with unique contours and grooves to reach virtually any clip and safely remove cowls and panels.

TLS2522

Pinchweld Scraper 1/2 in/.5 cm

11 in /28 cm Hardened steel blade will stand up to repeated sharpening for extended life.

TLS2523

Pinchweld Scraper 3/4 in/1.9 cm

11 in /28 cm Hardened steel blade will stand up to repeated sharpening for extended life.

TLS2524

Pinchweld Scraper 7/8 in/2.2 cm

11 in /28 cm Hardened steel blade will stand up to repeated sharpening for extended life.

TLS2509

Wiper Puller

Modern windshield wiper arms are pressure-fitted and secured to prevent slippage. They're nearly impossible to remove without damaging them and/or the cowl. Our Wiper Puller eliminates those worries. Simply remove the wiper nut and slide the Puller over the arm. Then turn the handle clockwise until the wiper arm pops from the wiper post. Caution: do not hook the pulling arms under the wiper post.

TLS2206

Urethane Paddle

One of the simplest supplies you need is also one of the most useful. Don't let the name fool you urethane paddles are handy for a lot of uses, such as when working with gaskets, molding and trim. Sold individually, but consider keeping plenty on hand to minimize downtime.

TLS2526

Hook Tool

This convenient tool efficiently cleans glass channels. Its hook-like design also makes it helpful for gasket installation.

TLS5009

Curved Locking Strip Tool

With a curved handle this is the same tool as the Equalizer LS758, but with a curved handle to keep your hand away from the glass. Like the LS758 you can swivel the tip 90° in either direction. Four different type eyelets will fit most rubber locking strips on the market.

PWR2048

Milwaukee® 12-Volt Sub Compact Drill

Size allows you to work in tight areas. 12-Volt battery allows all day use without re-charging. Features include: 1/4" Hex Chuck, one handed quick bit for easy bit release and insertion, battery gauge displays remaining battery power, built in LED for illumination of dark work spots, variable speed trigger, 100 in.-lbs of torque.

PWR2049

Milwaukee® 18-Volt Compact Drill

The new Milwaukee Compact Driver Drill has been built to withstand tough jobsite conditions. Longer run-time and fewer battery changes maintains momentum while you're working and prevents unscheduled breaks. The tool balance, weight, and grip have been optimized to reduce fatigue. Superior bit grip prevents frequent bit retightening and lost bits.

PWR2047

Milwaukee® 4-Volt Cordless Screwdriver

This cordless screwdriver has a 21 position clutch with auto shut-off that stops rotation of the bit once the desired torque setting is met. The quick-change chuck allows for one-handed bit changes, and a snug bit grip prevents dropped screws when the screwdriver is inverted. Drill mode easily drills pilot holes or removes damaged screws.

PWR2028

Milwaukee® 21 Pc Universal Quik-Lok Drill Drive Set

Offers a quick change chuck which will "lock in" double ended bits as well as insert bits and power groove bits. Titanium drill bits, premium grade S2 tool steel driver bits set

PWR5057

Milwaukee® 3 Pc Hex Socket Drive Set

For use with 1/4" hex shank driver/drills and power screwdrivers. Includes 1/4", 5/16" and 3/8" hex sockets.

PWR2456

DeWalt® 3 Pc Heavy-Duty 3/8 (10mm) 18-Volt Cordless Right Angle Drill/Driver

Features: 2 speed ranges 0-500/0-1,500 rpm for increased user flexibility providing a wide range of applications. 320 unit watts out of maximum power for heavy-duty applications such as turning large bits and fasteners. Multi-grip trigger provides comfort and convenience by allowing the user to get into tighter spaces while still having access to the trigger. Variable speed and reversing gives the user the ability to control speed. Durable, right angle transmission with sealed ball bearing for a longer tool life.

PWR2457

DeWalt® 12-Volt Cordless Drill/Driver Kit

Compact size: allows users to fit into tight spaces Lightweight design (3.8 lbs.) minimizes user fatigue 3/8" single sleeve ratcheting chuck reduces bit slippage Dual speed range 0-400/0-1,450 rpm delivers optimal performance High performance frameless motor delivers maximum power of 200 unit watts out LED work light provides increased visibility in confined spaces

GOR1221

Molding Retention Tape (Non-Perforated)

A quality installation deserves a quality finish. Apply water-repellent Molding Retention tape to reduce callbacks, ensure customer safety and demonstrate your attention to detail. Tough enough to hold molding in place yet gentle on paint. Measuring 1.5" x 108" (4 cm x 33 m), each translucent roll is imprinted "Remove Tape in 24 Hours"

GOR1226

Molding Retention Tape (Perforated)

A quality installation deserves a quality finish. Apply water-repellent Molding Retention tape to reduce callbacks, ensure customer safety and demonstrate your attention to detail. Tough enough to hold molding in place yet gentle on paint. Measuring 1.5" x 108" (4 cm x 33 m), each translucent roll is imprinted "Remove Tape in 24 Hours"

EQP2002 - 20 Lite Glass Rack

EQP2003 - 30 Lite Glass Rack

AEGIS® upright glass racks keep your inventory organized and safe in the shop. The heavy-gauge steel frame features all-welded construction of steel channeling, while the steel pegs are covered in high-density foam to hold and protect the glass.

Construction and features:

- Rack is constructed of 2" xl" x 3/16" steel channel
- Secondary supports are constructed of 2" xl" x 3/16" steel channel
- Removable pegs are 1" steel pipe
- Pegs are covered in high-density extruded foam
- Made in the USA
- Can be shipped via UPS in 4 boxes
- Floor standing, but can be wall mounted
- Some assembly required
- 1 year warranty on the rack, 90 day warranty on foam

HDW5903 Replacement Foam

Replace worn glass rack foam sections for safe, secure storage. Available individually, but consider keeping spares on hand to

PWR2096

Equalizer® 36-Volt Big Dawg Express™

EXPRESS 36V Big Dawg™ is a 36-Volt tool that has the ability to deliver 2-3 times more run-time, and 2 times the power of the 18-Volt Express®. Weighing 8.9 pounds, using a Lithium-ion battery. Includes a 36-Volt battery, battery charger, one PWR5180 3" blade, instructional DVD, one pair of safety glasses, and a handy carrying case. Made in the USA.

PWR2099

Equalizer® Express® 360 Deluxe

The Equalizer® Express® 360 is the most versatile tool ever manufactured by Equalizer. To say it simply replaces the original Equalizer® Express® 120-Volt would not do the tool justice; it revolutionizes the design! The rotating head can be locked in 8 different positions so you can get into any difficult place. The motor is a 2-1/2 horsepower motor that drives the blade at 3,000 strokes per minute. It is 20% stronger than the original 120-Volt tool, while weighing only a few ounces more. A rotary switch allows you precise cutting power without varying up and down. It does not matter how thick the urethane is, you will never need to worry about bogging this tool down. Made in the USA. Each kit comes with one BFE1400 blade, one LBE1402 blade, one SFE329 blade sharpener, one instructional DVD, one pair of safety glasses, one spray bottle, and a handy carrying case.

PWR2098

Equalizer® Express® 360 Standard

The Equalizer® Express® 360 is the most versatile tool ever manufactured by Equalizer. To say it simply replaces the original Equalizer® Express® 120-Volt would not do the tool justice; it revolutionizes the design! The rotating head can be locked in 8 different positions so you can get into any difficult place. The motor is a 2-1/2 horsepower motor that drives the blade at 3,000 strokes per minute. It is 20% stronger than the original 120-Volt tool, while weighing only a few ounces more. A rotary switch allows you precise cutting power without varying up and down. It does not matter how thick the urethane is, you will never need to worry about bogging this tool down. Made in the USA. Standard Kit comes with one BFE1400 blade, one instructional DVD, one pair of safety glasses, and a handy carrying case.

PWR2084

Equalizer® Magnum XP Deluxe

As the heavy-duty, electric counterpart to the Excalibur®, the Magnum XP also enables efficient windshield removal from inside the vehicle. It has a 1-1/2 horsepower motor, ball bearings, counterbalanced drive, and heavy-duty gear system. Set includes one each 4", 8" and 12"/10 cm, 20 cm and 30 cm blades and sheaths, safety glasses, carrying case and an instructional DVD. Made in the USA.

PWR2080

Equalizer® Magnum XP Standard

The most heavy-duty electric tool manufactured by Equalizer® Industries. It was designed for the high volume shop or for the person who just wants the best. This tool was designed to cut the extremely wide, tough urethane that most automobile manufacturers are using today. Uses the same patented sheath and blade combination used by all Equalizer® tools. has a 1-1/2 horsepower motor, ball bearings, counterbalanced drive, and heavy-duty gear system. Made in the USA.

PWR2077

Equalizer® Express® StingRay™ 120 Volt Standard

Like the legendary Stingray Corvette, Equalizer StingRay™ has high torque, fast acceleration and a top end speed that is faster than any of our other Express® tools. The plunger floats on a series of ball bearings and the blade is driven by a floating pin bearing system. This allows all the power of the StingRay™ to be pushed directly to the blade. The ergonomic design gives you a comfortable, natural grip. The low profile of the handle gives you clearance no matter which direction you are cutting. A rotating speed control gives a wide range of speeds from 500 to 3000 strokes per minute. Standard Kit comes with one BFE1400 blade, one instructional DVD, one pair of safety glasses, and a handy carrying case.

PWR2078

Equalizer® Express® StingRay™ 120 Volt Deluxe

Like the legendary Stingray Corvette, Equalizer® StingRay™ has high torque, fast acceleration and a top end speed that is faster than any of our other Express® tools. The plunger floats on a series of ball bearings and the blade is driven by a floating pin bearing system. This allows all the power of the StingRay™ to be pushed directly to the blade. The ergonomic design gives you a comfortable, natural grip. The low profile of the handle gives you clearance no matter which direction you are cutting. A rotating speed control gives a wide range of speeds from 500 to 3000 strokes per minute. Each Deluxe kit comes with one BFE1400 blade, one LBE1402 blade, one SFE329 blade sharpener, one instructional DVD, one pair of safety glasses, one spray bottle, and a handy carrying case.

PWR2083

Equalizer® Ninja

Fast and effortless glass removal is possible with the air-powered Equalizer® Ninja. It may look and feel like an ordinary cold knife, but it cuts at 22,000 strokes per minute. Most cut-outs take only a few moments, with no strain on your body. Includes 1" /2.5 cm blade.

PWR2091

Extractor® MAX 18

The maintenance-free Milwaukee® MAX18 is a solid choice for those serious about windshield extraction. With a variable-speed trigger controlling the power from its 18-volt, no-memory-effect battery, this cordless kit provides you with an edge for increased profits and enhanced productivity. It includes an 18-volt battery, 120-volt charger, 2 blades, training DVD and carrying case.

PWR2088

Extractor® V28

The revolutionary Extractor Milwaukee® V28 is the best option for rugged performance and unbeatable strength. With 40-50% more power than an 18-volt, this groundbreaking 28-volt lithium-ion battery will run twice as long with no memory effect. It's also equipped with a charge gauge, so you will never be caught with a dead battery again. Includes a 28-volt battery, 120-volt charger, 2 blades, training video and carrying case.

PWR2090

Extractor® Pro 2

Shops running air tools will appreciate the Pro 2 featuring the reliable Chicago Pneumatic CP715. Included are 4 blades, 2 shafts, 1 hose whip, training DVD and carrying case. Additional blades sold separately, see above.

PWR2073

Extractor® Milwaukee® 110-Volt

The Milwaukee® 110-volt is a smaller, more versatile tool with 100% power when you need it. A long blade and shaft allow the user to get down to the deepest of dash boards. Includes 1 Delta Regular Blade, 1 Delta Long Blade, Multilingual Video on CD-ROM, Safety Glasses

TLS1208

UltraOne Adjustable Cable Knife

Everything you want in a cable knife is here. The single set screw design allows full blade adjustment and quick changes. In fact, there's no need to remove screws for blade replacement. Plus the unique foam cover offers hand comfort while protecting vehicles from scratches.

TLS1202

UltraWiz® Shorty Cold Knife

This cold knife's high strength coated cable and Delrin® handle resists scratching finishes. One set screw does it all; you'll be able to adjust the blade quickly and easily. Kit includes one UltraWiz®, Long Blade (TLS 1222)

TLS1209

UltraWiz® Lever Knife

Finally, a fully adjustable, quick release cable knife. The Lever Knife offers easy blade changes and unlimited adjustments without tools. The oval shape and foam covered pull handle make it comfortable to use. Plus the cable is positioned at the bottom of the knife and in line with the blade for better control.

TLS1206

Aegis® Long Knife - 13"

The all-steel construction of this knife gives you a heavy-duty tool with some backbone. Our 13" gets you into tight areas. Holds standard utility blade (HDW5411).

TLS1207

Aegis® Long Knife - 18"

The all-steel construction of this knife gives you a heavy-duty tool with some backbone. Our 18" knife is long enough for deep dashes. Holds standard utility blade (HDW5411).

TLS1234

TLS1235

PipeKnife™ 14", 18"

The AGR industry's most popular urethane sealant cutout knives: the 14" Original PipeKnife® (TLS1234) and 18" PipeKnife®-XL (TLS1235). Use to cut urethane sealant to remove auto glass, cut and remove caulk and sealant for flat glass applications, etc. This specialty utility knife is used by auto glass installers, caulking, waterproofing and insulation contractors and many other specialists.

AEGIS® Cut-out Blades

TLS1236

Serrated Blades for PipeKnife™ (10 pack)

Specifically designed for the PipeKnife® sealant cutout tools the long-length serrated blades are used to remove old caulk or sealant, cut insulation or any place where a sawing action is required. Serrated blades can be used in all sealant cutout tools available in the market

TLS1220

UltraWiz® 3/8" Starter Blade (10 pack)

Used to precut before using longer blades, the Starter Blade makes the technician's job easier.

TLS1221

UltraWiz® 3/4" Standard Blade (10 pack)

Cuts faster, handles easier and lasts longer than any standard blade you've tried before.

TLS1222

UltraWiz® 1" Long Blade (10 pack)

Our Long Blade has the added strength and deeper cutting ability that's a must in most glass removal applications.

TLS1223

UltraWiz® 1-1/2" XL Blade (10 pack)

Extra long for deep corners and thick bases. Use it after an initial cut with our Standard UltraWiz® Blade.

TLS1226

UltraWiz® 3/4" UltraThin Standard Blade (10 pack)

Outperforms and outlasts any standard blade. At 40% thinner with a dual-angle edge, this one is a must.

TLS1227

UltraWiz® 1" UltraThin Long Blade (10 pack)

The UltraThin Blade is our most popular choice for auto glass removal.

TLS1228

UltraWiz® 1-1/2" UltraThin XL Blade (10 pack)

Combine the cut length with the UltraThin design, and you have a blade that welcomes deep corners and thick bases.

TLS1224

UltraWiz® Molding Remover (10 pack)

Easily cuts urethane that can bond the rubber gasket to the windshield on some older vehicles.

TLS1225

UltraWiz® 1" Offset Molding Blade (10 pack)

The Offset design allows clearance without chipping paint and reduces twisting of the knife while cutting.

TLS1230

UltraWiz® 1-1/4" Extended Long Blade (10 pack)

Reduces the chance of contact with the headliner and other components a thinner alternative to the Extended Long Blade.

TLS1229

UltraWiz® 1-1/4" Extended Long UltraThin Blade (10 pack)

Reduces the chance of contact with the headliner and other components a thinner alternative to the Extended Long Blade.

TLS1243

UltraWiz® 1 1/2" Stainless XL Blade (10 pack)

For wider urethane beds. For best results, precut using our 3/4" Standard Blade TLS1241. Hardened stainless steel for a long-lasting cutting edge.

TLS1242

UltraWiz® 1" Stainless Long Blade (10 pack)

Our most popular cut length for cutting most urethane beads. Hardened stainless steel for a long-lasting cutting edge.

TLS1241

UltraWiz® 3/4" Stainless Standard Blade (10 pack)

Hardened stainless steel - the longest lasting cutting edge available. Ideal to precut urethane and for narrow urethane beads.

AEGIS® Urethane Guns and Accessories

PWR2200

Milwaukee® 14.4-Volt 10 oz. Cartridge Caulking Gun

The versatile new 14.4-volt caulk gun by Milwaukee Electric Tool Corporation® gives auto glass technicians the control and versatility needed for high viscosity urethanes. Guns include 120-Volt Battery Charger. Power: 620 lbs of pushing force to dispense high-viscosity urethanes. Speed: dual speed control with a speed dial and variable speed trigger; 23 inches per minute. Run Time: 185 10-oz. tubes per battery charge.

PWR2202

Milwaukee® 14.4-Volt 20 oz (600ml) Sausage Caulking Gun

The versatile new 14.4-volt caulk gun by Milwaukee Electric Tool Corporation® gives auto glass technicians the control and versatility needed for high viscosity urethanes. Guns include 120-Volt Battery Charger. Bead Control: variable speed and auto-reverse to prevent unwanted dripping. T-handle design reduces hand fatigue, compared to manual guns.

PWR2204

Milwaukee® 14.4-Volt 400ml Sausage Caulking Gun

The versatile new 14.4-volt caulk gun by Milwaukee Electric Tool Corporation® gives auto glass technicians the control and versatility needed for high viscosity urethanes. Guns include 120-Volt Battery Charger. Power: 620 lbs of pushing force to dispense high-viscosity urethanes. Speed: dual speed control with a speed dial and variable speed trigger; 23 inches per minute.

PWR5059

Milwaukee® 14.4-Volt Battery

More power to you! This 14.4-volt, 2.4-amp hour Milwaukee® battery upgrade packs an even greater punch than its 12-volt, 1.3-amp hour sibling (*PWR5060 not shown*). Increased battery capacity allows you to dispense even more urethane per charge with your Milwaukee® gun.

PWR5061

Milwaukee® Universal Battery Charger

Replace your damaged Milwaukee® charger with this original equipment model. It accepts both the 12-volt (*PWR5060*) and 14.4-volt (*PWR5059*) batteries.

PWR2018

Milwaukee® Sausage Conversion Kit for PWR2200

Replace your damaged Milwaukee® charger with this original equipment model. It accepts both the 12-volt (*PWR5060*) and 14.4-volt (*PWR5059*) batteries.

PWR2400

DeWalt® 18-Volt 10oz Cartridge Caulk Gun

Features: 360° rotateable cartridge holder fits 10oz, 1/10 gal, and 300ml to 310ml cartridges delivers up to 650 pounds pushing force to dispense the highest viscosity adhesives and sealants. The Auto-reverse feature helps reduce drips, waste, & clean-up Set-and-Forget variable speed control for consistent flow rates & bead control

PWR2401

DeWalt® 18-Volt Sausage Caulk Gun

DeWalt® 18V Cordless Sausage Caulk Gun features heavy duty construction. 650 pounds of force. Uses 10 oz, 20 oz, 300 ml, and 600 ml sausage packs. 360° rotateable barrel. Variable speed control. Auto-reverse feature helps reduce drips. Built in hook.

AEGIS® Urethane Guns and Accessories

PWR2450

DeWalt® 18-Volt Battery

KIT1044

Sun Screen-UV Blocker

When shade isn't available, use the AEGIS® Sun Screen to prevent premature resin curing during the repair process. It attaches easily with it's four suction cups and stores in a cloth protective pouch when not in use.

HDW5425

Paper Towels H.D. with Dispenser Box

Why choose these over conventional roll towels? Simply put, they're a lot stronger. These towels are 4-ply, laminated around an inner web of nylon. They withstand big cleanup jobs without shredding. Also, they don't leave lint on the cleaned surface. 150-count dispenser.

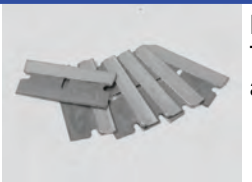

HDW5015

AEGIS® Penlight

This compact light is ideal for monitoring repair progress. Includes 2 "AAA" batteries.

HDW5410

Razor Blades 100 Pack-Standard razor blades

They don't get much credit, but razor and utility blades play a big part in auto glass repair and replacement.

HDW5750

AEGIS® Work Apron

Keep urethane and resin off your cloths with this durable, economical apron. 100% Cotton.

LIQ9000

Aquapel® Rain Repellent Glass Treatment (box of 24)

Everybody wins with Aquapel® rain repellent. Not only is it a profitable add-on product to offer, your customers will enjoy better vision and reduced glare when driving in the rain-especially at night. Each treatment applies easily and lasts for months under normal conditions.

- Remarkably improves visibility in the rain!
- Repels rain, snow and sleet
- Makes it easier to remove ice, snow, bugs and dirt
- Lasts for months, up to six times longer than other leading glass treatments

Limited Warranty.

What Does This Warranty Cover? Products manufactured by Aegis Tools International® are expressly warranted to be free from defects in material and workmanship.

How Long Does The Coverage Last? Items covered by this expressed warranty are covered for one year from the date of delivery, except the leg, yoke and pump manifold which are so warranted for the lifetime of such components. Parts and products not manufactured by Aegis® are covered by the warranty of the original manufacturer. For additional information concerning parts or products not manufactured by Aegis®, you may contact Customer Service. Service work and repairs performed at Aegis® are warranted for six months from the date of repair.

What Will Aegis Tools International® Do? Seller's exclusive obligation under this warranty is to repair the defective item or replace it, at Aegis® option, without charge, provided the defective item is returned no later than 30 days after the end of the applicable warranty period. Aegis® reserves the right to use new, reconditioned or used parts in performing warranty work.

What Does This Warranty Not Cover? This warranty is non-transferable. This warranty is void if the item has been repaired, damaged, or modified by anyone other than Aegis® or has been damaged as a result of vandalism, acts of God, misuse or abuse. This warranty does not cover normal wear and tear or damage caused by shipment.

How Do You Get Service? In order to be eligible for service under this warranty you must call Aegis® Customer Service at 888-247-6000 or 608-274-9254 to get a return authorization number. Return the complete product with a copy of the original purchase receipt and return authorization number, freight pre-paid and insured to Aegis®. Aegis® will pre-pay return freight on warranty service. Return authorization numbers expire 30 calendar days after issue.

Your Rights Under State law: This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. All OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY OF FITNESS FOR PARTICULAR PURPOSE ARE DISCLAIMED. IN NO EVENT SHALL AEGIS TOOLS INTERNATIONAL® BE LIABLE FOR ANY INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES, INCLUDING LOSS OF PROFITS.

This statement supersedes all previously published expressed warranties.

Shipping & Returns.

Payment Terms: Net 30 days from date of invoice on approved credit. We accept MasterCard, VISA, Discover and American Express. We allow ten days for checks or money orders to clear before processing an order. No C.O.D. payment accepted.

Shipping Policy: Most orders are processed, packaged and shipped within 24 hours. We prepay and add freight to your invoice. All orders are processed assuming they will be shipped complete. Backorders do occur, and are shipped as received. UPS is used whenever possible. However, should your order exceed UPS size or weight limits, "Common Carrier" will be used. UPS cannot deliver to P.O. Box numbers. Please provide complete street address for prompt delivery. Customers in Alaska & Hawaii, and International Customers: please call AEGIS® Customer Service at 1-888-247-6000 for shipping charges.

Damage Claims: On rare occasions, a package may be damaged or lost in shipping. If a shipment arrives damaged, please notify the carrier. Then, call AEGIS® Customer Service at 1-888-247-6000.

Returns: Returns are accepted within 30 days of purchase. Customers are responsible for return shipping costs. Purchase price will be credited to your credit card, or, in the case of payment by check, a refund check will be issued. Please call AEGIS® Customer Service at 888-247-6000 or 608-274-9254 for return authorization prior to returning goods.
