PROFILE 2019

OUR VISION...

That the principles of our company is to provide life and the environment better for the benefit of rights and growth towards a bright future. Therefore, we welcome all those who cooperate with us in order to achieve the desired objectives and for which it was established human communities. This is the first of our goals and we will make an effort to achieve and harness the full energies and with the best expertise and the latest technology.

CORE VALUES...

We remain true to our founding values of quality, honesty and hard work. We have highest ethical standards in the industry. We “do the right thing.” We are a business based on trust. Our company is consistently associated with the high standards of service, quality, personal attention to clients, and integrity. Because of this reputation the company has the privilege of leading some of the highest profile, often one-of-a-kind, projects in the world. We are proactive in finding solutions for our clients that best achieve their goals. Lasting relationships are the lifeblood of our business. We want the client to feel that our staff is even more committed to the effort than their own staff...that’s what distinguishes us.

AL-HAMEED COMPANIES GROUP

PROFILE 2019

SAFETY!

Safety is fundamental to our everyday culture, whether working in the office or from a project site, we are dedicated to operating and maintaining projects in a safe manner. Avidly championed by our leaders, our commitments are outlined in our “Safety for Life” Safety, Health and Environment (SH&E) Policy Statement and Life Preserving Principles. The Policy Statement establishes and maintains a framework for our overall “Safety for Life” SH&E program. This drives us to proactively incorporate these “life-preserving” safety standards into everything we do. Our companies have adopted these “Life-Preserving Principles” to help demonstrate the commitment of our Safety for Life program. We firmly believe these “Life-Preserving Principles” will enable Our companies to achieve its goal of zero employee injuries, property damage and an environmentally friendly and sustainable workplace.

Employee Participation - Our employees will be encouraged and empowered to become actively engaged in our safety processes through their active participation in safety committees, training, audits, observations and inspections. Employees will be encouraged to participate in health initiatives and adopt a healthy lifestyle.

Budgeting and Staffing for Safety - Our safety staff will be competent, fully trained and qualified to provide technical resources to our internal and external clients. A budget to support safety activities will be included in project proposals.

Pre-Planning - Our design, engineering, project and construction management staffs will deploy effective risk mitigation efforts to design, plan and build safety into every

AL-HAMEED COMPANIES GROUP

PROFILE 2019

project. Pre-Project and Pre-Task planning will be an effective tool in protecting our employees and the environment.

Safety Orientation and Training - Our employees will be provided with effective safety training in order to identify and mitigate hazards in the workplace to prevent injuries to themselves and others who may be affected by their actions. Incident Investigation - Our managers and safety professionals will investigate all recordable incidents and serious near misses to identify contributing factors and root causes in order to prevent a reoccurrence. Lessons learned shall be identified, communicated and implemented.

AL-HAMEED COMPANIES GROUP

PROFILE 2019

COMPANY SERVICES...

We have many staff (technicians and engineers). Our slogan is to link the past with the present and the future as it has got a benefit from the experience of the old staff and reinforce them with the new generation to get experience. Also, we got training under the supervision of qualified Lecturers in management and the new means to get development in all the fields.

We have the ability to contribute in the big and small projects (civil, mechanical and electrical, engineering design) like the streets paving, the roads pavement, concrete construction, construction, steel structure, dams, bridges, concrete tanks, piles, sheet piles, water net and sewage net. Also building stores and big yards.

We did the Entering the bids for Iraqi ministries, Iraqi office, humanitarian organization and foreign organization, supply materials for civil engineering, surveying engineering and all electric instruments (generators, transformers ...etc), supply medical materials and supply the hospitals to push the medical fields to the head, supply food from any sources.

Management and control of project delivery. Assurance of quality, cost, scheduling and contractor performance. Transparency and clear communication. Proactive collaboration and strict fiscal discipline. All this rests at the heart of the Our company's total construction management approach. From the all-important design phase (where the elements of risk that bedevil owners are best addressed), into the bid process, through construction and closeout, our team remains unshakably aligned with our clients' goals.

AL-HAMEED COMPANIES GROUP

PROFILE 2019

CONSTRUCTION...

Our roots run deep in Construction Management, providing contract administration, construction coordination and project control tailored to protect Owner interests while minimizing attendant fees. Our huge resume of successfully completed projects, for example, is clear testament to our position as an experienced manager with key strengths where it counts most... in minimizing risk and maximizing value for even the most complex projects.

Creating innovative and practical building engineering designs, our experts ensure that every project meets and exceeds the expectations of clients and building users.

Combining local market knowledge with technical expertise, our multidisciplinary approach to building design is informed by the client's needs and business case to produce cost-effective, functional, inspiring solutions.

We are known locally for our creative, sustainable and holistic design approach which, from the outset, embraces low-carbon and economic operational performance. Our professionals around the country strive to delivery visionary buildings that maximize naturally occurring energy and minimize waste. From creation to completion and beyond, we help clients reach the optimum potential of every project.

AL-HAMEED COMPANIES GROUP

PROFILE 2019

BUILDING...

Collaborating across a wide range of building design skills, and sharing knowledge and a passion for a sustainable built environment through our locally network of offices, Building Engineering at our companies creates designs that work for today and tomorrow.

ARCHITECTURE...

We seek a balance between art and technology, form and function, beauty and purpose, vision and result. Our building and interior designers have helped shape the world around us – from high-rise buildings that form city, to educational, cultural, research and transportation facilities and homes that enable our way of life and future.

Our architects and interior designers are problem solvers by nature – serving clients by listening to their concerns, understanding their goals, and sharing in their vision. We believe that capital investment in facilities should be aligned with measurable, sustainable business benefits, and our firm's portfolio reflects a commitment to excellence and client satisfaction.

Drawing on our deep experience in construction management, we brings forward-thinking accountability for schedule and budget to every project, as well as our absolute determination that quality, safety and owner satisfaction will remain foremost in every decision.
