**TAFT'S TARGET ACCUSES TAFT FOR UNKNOWN MISCREANT**

**BOAT BEARING CANDIDATE FIRED FROM SHORE**

**Ugly Incident of River Trip at Cincinnati May Prove Attempt at Assassination of Republican Leader.**

[By Morning Journal Special Leased Wire.] Cincinnati, Ohio, July 29.—William Taft, accompanied by Mrs. Taft left Cincinnati at 9:10 o'clock tonight for Hot Springs, Va., where they will remain until the opening of the campaign the first week in September. At that time Mr. Taft will return to Cincinnati, where it is his present intention to remain until election day.

The day following the notification ceremonies was one of comparative quiet for the candidate. He had an extended conference with Arthur L. Vorys, his chief of staff, touching many minor matters in connection with the Ohio situation. He also saw State Chairman Williams and Elmer Dover, secretary of the national committee. He was made a member of the International Brotherhood of Steam Shovelers and Dredge Men and late in the afternoon went in an automobile to the home of his father-in-law, Mr. Herron, where Mrs. Taft spent the entire day. Mr. Taft said he felt no ill effects of his speech making exertions yesterday but will go back to the mountains for a month of rest.

In accepting membership in the shoveler's organization, Mr. Taft said: "I am very glad to have at your hands this expression of confidence in my efforts to do justice while I was in office. The work upon which many of your members and I were engaged, in one capacity or another, endeavoring to facilitate the greatest constructive work of modern times adds a great deal of interest to me in the compliment you pay me today. I am especially gratified because you evince a liberal and impartial view in thus tendering me this compliment, because in the administration of work on the Isthmus I did not always decide in favor of your contentions. But when I decided contrary to the claims which were made by you, I tried to give the reasons why, and which I think by your action today, were convincing of my desire to reach a just conclusion. President McKinley had the honor to be an honorary member of the bricklayers union; President Roosevelt has the honor to be an honorary member of the firemen's union. With such examples as that and with the precedents in my own life in becoming an honorary member of a number of useful organizations, I can not see the slightest objection to my accepting this compliment at your hands which I appreciate highly and which I shall always cherish as one of the evidences that are some men whom I have convinced through my official work, of my desire to do the square thing for everybody."

It became known publicly today that the steamer Inland Queen, which last night conveyed Judge Taft and a distinguished party, including the notification committee, up the Ohio river, was fired upon by an unknown man on a shanty boat moored on the Ohio side of the river opposite Dayton, Ky. Several shots from the charge hit, but did not seriously injure Mrs. Charles B. Russell of this city, who was standing by her husband near the rail on the deck directly below where Mr. Taft was at the time standing. An investigation is being made by the steamboat company.

The distance from the shore was so great that the charge of shot had almost spent itself when it reached the boat. A number of the pellets pierced her decks. A man standing by Mrs. Russell's chair was almost hit by one of the shot, but he was not hurt.

The officers of the boat stated that they would make an investigation in order to learn the identity of the miscreant who fired the gun.

C. B. Russell said today: "I was standing at my wife's side but none of the shot struck me. It was lucky we were not closer to the Ohio shore. I saw the man plainly and at first thought him merely an enthusiastic celebrator. I do not like to believe that the shot was fired with malicious intent and it may have been only by chance that the spent charge struck just below where Taft was sitting."

**Cruiser to Remain at Porto Cortes.**  
Washington, July 29.—It is expected that the cruiser Marietta will remain at Porto Cortes, Honduras, for a considerable time, although no trouble is indicated there at present.  
Stores needed for the cruiser will be sent on the Tacoma, which is about to return to Panama to bring to the United States another detachment of marines from the Isthmus.

**Admiral Cowles to Retire.**  
Washington, D. C., July 29.—Orders were issued by the navy department today that Rear Admiral W. S. Cowles, who will retire for age, on August 1 next, is to continue as chief of the bureau of equipment after retirement until further orders.

**BRYAN'S REPLY TO TAFT ACCEPTANCE SPEECH**

**Commoner Declares Republican Candidate Fears Uprising and Is Trying to Get Off With Democratic Thunder.**

[By Morning Journal Special Leased Wire.] Fairview, Lincoln, Neb., July 29.—Charging that Judge William H. Taft was not satisfied with the work of the Chicago republican convention which nominated him for the presidency, and in consequence he is deeply impressed with the work of the democratic convention at Denver, William J. Bryan today issued a statement in which he expressed the opinion that Judge Taft "fears the uprising which republican abuses have caused and yet hesitates to adopt his real and substantial reforms."

The statement was called forth because of the allegation made by Judge Taft in his speech of acceptance at Cincinnati yesterday that Mr. Bryan was a destroyer of business. In regard to the speech, Mr. Bryan said: "I read it and shall discuss it as I deal with the various subjects upon which it treats. For instance, in a speech at Topeka between now and the first of September I shall discuss the guaranty of banks and contrast Mr. Taft's position with the democratic position. In my Labor day speech at Chicago on the 1th of September I shall discuss his attitude on the labor question. In other speeches I shall discuss his attitude on the tariff question, the trust question and other questions upon which he has expressed himself."

"The most noticeable feature of his speech is his attempt to amend the republican platform by engraving on it some of the planks of the democratic platform. He is evidently not satisfied with the work of his own convention and is deeply impressed by the work of the democratic convention. He is uncharitable, however, in not giving the democratic party credit for having pointed out the reforms which his own convention repudiated, but which he, in a half-hearted way, endorses. The speech shows that he fears the uprising which republican abuses have caused, and yet hesitates to adopt his real and substantial reforms."

Confirmation was given by Mr. Bryan to the story printed in the afternoon that it was not his intention to make any extended campaign tour, but only to deliver a few prepared speeches at central points before the first of October, and that during that month he expects to remain at home and assist in the educational work of the campaign through the discussion of public questions in the form of signed articles, interviews and letters. "The outline of my plan of campaign as printed today," said Mr. Bryan, "is substantially correct, but I am not prepared yet to announce the number of speeches or the places. Besides speaking at Topeka in August and at Chicago Labor day, I shall attend the democratic convention at Peoria on September 9, the notification of Mr. Kern at Indianapolis on a date not yet fixed, and a farmers' congress at Madison, Wis., about the 26th of September."

Although the heat was intense a large number of visitors rode out to Fairview and paid their respects to the democratic leader.

The actual wording of his speech of acceptance has not been begun yet by Mr. Bryan, but he stated that his ideas were about formulated and he would enter upon the work of preparation in a day or two. The fact that an additional stenographer has appeared on the scene is an indication that all is in readiness for this important task.

**FLAKES OF BRAN ON MONEY CLUE TO CRIME**  
**Keen Eyed Express Agent Causes Arrest of Man Suspected of Robbery in Colorado Town.**

[By Morning Journal Special Leased Wire.] Pueblo, Colo., July 29.—A Holly special to the Chieftain says: Particles of bran on the silver money which he paid to the Granada express agent today led to the arrest of Jim Keyes, a ranchman, who was bound over to the district court under \$1,000 bonds for investigation as to his knowledge of the whereabouts of Henry Starr and Kid Wilson, the two men wanted for the robbery of the Amity bank. Officers of the bank declare that the bran on the silver was the same as that contained in the sack into which the robbers put the money secured at the time of the hold-up. The two men are known to have gone in the direction of the Keyes ranch.

**DEATH CLAIMS RECKLESS DRIVER**

**G. WINTHROP SANDS DEAD IN AUTO WRECK IN FRANCE**

**Victim Step-son of W. K. Vanderbilt and Famous Among Friends for Fondness for High Speed; Chauffeur Hurt.**

[By Morning Journal Special Leased Wire.] Paris, July 29.—In one of the most terrible automobile accidents in many years in France, G. Winthrop Sands, a step-son of W. K. Vanderbilt, was killed this morning just outside the grounds of Mr. Vanderbilt's beautiful country seat, the chateau St. Louis de Polesy, twenty miles from Paris. Mr. Sands was driving his fifty-horse power car along at a terrific clip in a desire to reach the chateau where Mrs. Sands and her infant daughter were stopping. He had always been known as a reckless driver, and as he had been delayed at railroad crossings he opened the throttle wide as he approached the chateau grounds.

Almost immediately a tire burst and the machine crashed into a tree, turning turtle and burying Mr. Sands under the forward part and pinning the chauffeur, Pickens, to the ground. An explosion followed, and in a moment the car was in flames.

Peasants working in the adjoining fields were the only witnesses to the accident. They rushed to the rescue, but fearing a further explosion of the gasoline tank, and deterred by the sweep of flames, they stood idly by, not knowing how to give assistance to the injured men. Finally they managed to raise the rear of the car and release the chauffeur, both of whose feet had been held tight, and a little later, after beating down the fire, they dragged out the torn, bleeding and burned body of Sands.

Help soon arrived from the chateau, which is in the center of Mr. Vanderbilt's great breeding farm. The injured men were carried to the hospital, where it was found that Sands was beyond the hope of recovery, but that the chauffeur was not seriously injured.

Pickens later gave the Associated Press a graphic account of the accident. "We left Deauville," he said, "at 5 o'clock in the morning. Mr. Sands having gone there yesterday to see his two-year-old daughter, who was with Mrs. Vanderbilt and his brother Stephen. Mr. Sands was driving, and we were going at a rapid pace, probably seventy-five miles an hour, as he was anxious to reach the chateau where Mrs. Sands and the baby were. The machine was a fifty-horse power car and capable of great speed. Two enforced delays at railroad crossings had somewhat annoyed Mr. Sands, and as we approached the chateau grounds he asked me the hour. It was exactly 7:15 a. m. 'We are late,' he muttered, and at the same time opened the throttle wider. An explosion followed and in a moment the car was in flames."

"Almost immediately the right hand forward tire blew up. The machine skidded and bumped and then seemed to jump off the road. "It struck a tree with such force that it rebounded against another, literally climbing up the trunk and toppling over backwards, imprisoning Mr. Sands under the forward part. "Only my feet were caught under the rear portion of the car, and I lost consciousness for a moment. When I recovered the wreck already was in flames, the motor having exploded. From where I lay I could see that Sands was utterly helpless amid the burning wreckage. His right leg, which was crushed and almost severed, was bleeding profusely. He was roasting as though on a spit in the roaring furnace."

"Mr. Sands was groaning in agony, but kept his nerve. I struggled, but I could not free myself. I turned as far as I could and asked: 'Are you suffering much?' and he answered: 'My God, horribly.' "I again lost consciousness and when I came to I was lying on the roadside and the peasants were tearing apart the hot, twisted iron. In extricating Sands, his leg was left in the wreckage, separating from the body as he was dragged out. The frightful sight will haunt me to my dying day."

The servants, fearing the effect on Mrs. Sands, concealed from her the gravity of the accident and persuaded her not to enter the room where her dying husband had been placed. A doctor summoned from Poissy arrived soon afterward, but Mr. Sands was beyond mortal aid. Never had he seen the doctor said, such a pitiful human wreck. The stump of the leg had been burned to a crisp and the face and body were black and seared by the flames. In addition to the terrible internal injuries, Mr. Sands' right arm and shoulder were broken. The doctor could only try to alleviate his suffering with opiates. Several times the man regained consciousness and cried out in agony, his last words being a cry for water.

Mrs. Sands was not informed of once of her husband's death, but William Duke, trainer of Mr. Vanderbilt's racing stable, advised him by telephone, and he and Mrs. Vanderbilt, accompanied by Stephen Sands, went to Poissy by train, arriving there at 2:30 in the afternoon. All were overwhelmed.

Mrs. Vanderbilt broke the news to her daughter-in-law, who bore up bravely under the strain. Telegrams and condolences began to arrive later in the afternoon, and a score of automobiles drove out from Paris. It was announced tonight that the funeral arrangements had not been completed, but the service would probably be held in Paris and the body later shipped to the United States for interment. As a result of the tragedy, W. K. Vanderbilt has withdrawn all his horses from the racing engagements.

**TWO KILLED IN FUTILE FIGHT WITH MOB**

**NEGRO LYNCHED DESPITE BRAVE STAND OF SHERIFF**

**Thousand Men Brave Death in Attack on Pensacola Jail to Avenge Brutal Assault on White Woman.**

[By Morning Journal Special Leased Wire.] Pensacola, Fla., July 30.—Two men dead and a score wounded, probably fatally, is the record of an attempt last night by a mob to storm the county jail and take out the negro, Leander Shaw, who yesterday assaulted Mrs. Lillian Davis near here.

The mob numbered probably a thousand persons and gathered early but there was no apparent indication until two hours later that the crowd, which completely surrounded the jail, contemplated making a rush.

The first indication was when a railroad iron was brought into play by about a dozen men on the iron-gate of the jail yard. At the same moment the entire mob seemed to catch the spirit and with yells and curses dashed for the jail entrance. Some climbed over the tall iron fence which others hammered upon the gate.

The sheriff with half a dozen deputies stood in windows upstairs with drawn revolvers and rifles. The sheriff pleaded with the mob, at the same time telling them he would defend the prisoner at the cost of every life present. His words had no effect and the moment the first blow was struck on the gate a volley of shots flashed from the upper windows of the jail. This was answered by the crowd, which poured volley after volley into the jail windows, wounding two deputies. The mob was momentarily driven back with many wounded and one dead as a result of a deadly aim of the sheriff and his deputies. At midnight the mob, which in the meantime had been reinforced by many residents of the surrounding country, made another attack on the jail.

The sheriff and officers were overpowered by men who had crept over the rear wall and covered them with rifles and revolvers. Others broke down the cell door and took Shaw out. The negro was carried to the center of the plaza and hanged to an electric light pole, after which fully five hundred shots were fired into his dangling body.

In the last attack on the jail, H. C. Kellum, a street car conductor, was killed, while two deputies and four or five of the mob were wounded.

At 1 o'clock this (Thursday) morning everything is quiet and the mob has dispersed.

Shaw attempted to assault Mrs. Lillian Davis, a white woman, at her home here yesterday.

In a desperate encounter with the negro Mrs. Davis sustained a gash across the throat, was badly beaten and her baby struck in her struggles to resist the attempts of Shaw to assault her.

When accosted by Shaw, Mrs. Davis seized a revolver and ordered the negro from the house. He grasped the weapon and taking out his knife, drew the blade across her throat and in escaping from the house struck the baby.

Two hours later a deputy sheriff captured Shaw after a hard fight. Mrs. Davis, although in a critical condition, identified Shaw.

Sheriff Van Vell in an interview last night after the lynching, said: "While I regret the death of two men and the wounding of many others, I have done nothing except what I was called upon to do when I took the mob for more than an hour and told them what would be the consequences if they attacked the jail. I was duty bound to protect the negro and proposed to do so."

**WEALTHY HOBBO SEIZED AS BANDIT**

**SUSPECT IN FRENCH ROBBERY HELD AT BELEN**

**Two Men Arrested Make Gun Play on Guards and Escape; One Recaptured, Other Still at Large.**

[Special Dispatch to the Morning Journal.] Belen, N. M., July 29.—C. M. Peabody, who is thought to be one of the men who robbed the Wells-Fargo Express company of \$35,000 at French, N. M., a few months ago, is in jail here and will be given a preliminary hearing tomorrow morning on a charge of robbing Cox's saloon here Sunday night. Peabody was arrested Monday night as he was about to catch a train for Albuquerque. J. H. McMillan, a companion of Peabody, was also arrested at the same time, charged with complicity in the robbery. The prisoners were placed in jail in charge of two deputy sheriffs. In some manner the men secured a gun and compelled their guards to let them escape. McMillan made good his escape and has not been heard from since. Peabody, however, was recaptured. At a hearing this morning, at which District Attorney William M. Berger appeared as prosecutor, Peabody was put through an examination to discover whether or not he was connected with the French robbery. On account of the absence of necessary witnesses, however, the case was continued until tomorrow. There have been several bad characters around town lately. One of them is said to have had a thousand dollars on his person and was liberal in spending it. The fact that an apparent train has been seen at French, a few miles from Belen, is another indication of the belief that he might have had a hand in the Wells-Fargo robbery at French.

**BANKERS ARRESTED FOR LARCENY**

**President and Vice President of Brooklyn Institution Indicted on Serious Charge.**

New York, July 29.—Quarantine Commissioner Frederick H. Schroeder, vice president of the Eagle Savings and Loan company of Brooklyn, and Colonel Edward E. Britton, president of the Eagle Savings and Loan company, were arraigned today before Judge Dike, of Kings county, on four indictments charging them with grand larceny.

The indictments allege that Britton and Schroeder obtained sums aggregating over \$6,000 in cash from the company on memorandum checks which were charged to the accounts of the company as cash. When arraigned, Schroeder and Britton pleaded not guilty and were held in \$10,000 bail each.

The following statement was given out by the Eagle Savings and Loan company: "A discrepancy was discovered in the cash amounting to \$47,986 for which President E. E. Britton and Second Vice President F. H. Schroeder admitted responsibility in amounts of \$2,581 and \$38,004 respectively. Restoration to the amount of \$4,061. "At a meeting of the trustees of the company held on the 28th, the resignations of Messrs. Britton and Schroeder were accepted. As the surplus of the company after deducting the above amount is in excess of \$120,000 the corporation is solvent and will continue its business."

**Thomas A. McIntyre Dead.**  
Baltimore, Md., July 29.—Thomas A. McIntyre, head of the failed firm of T. A. McIntyre & Co., died here today. Death was due to Bright's disease.

**OUTLOOK DARK FOR PACIFIC SHIPPING**

**AMERICAN LINES MAY BE FORCED TO SELL OUT**

**Decision of Commerce Commission Prohibiting Through Rates Disastrous to Trade With the Orient.**

[By Morning Journal Special Leased Wire.] San Francisco, July 29.—In confirming the story sent out from Chicago to the effect that the transcontinental railroads would on November 1 practically go out of the export and import trade with the Orient and Australia, R. P. Schwerin, general manager of the Pacific Mail, today declared the result of such action would prove most disastrous to the shipping interests of the Pacific coast. He drew a dark picture of the future of the steamship lines on this coast and said that because of the subsidies allowed by Japan to her shipping, the business of the Pacific would naturally fall into the hands of the Japanese.

"Shippers have been notified by the transcontinental railroads," said Mr. Schwerin, "that they will practically go out of the export and import trade with the Orient, Australia and New Zealand on November 1. This action of the government is the result, as we understand it, of the decision of the interstate commerce commission in the matter of compelling the roads to publish the inland proportion of the export and import rates. The general effect on the steamship lines will be to compel those operating lines of Pacific coast ports and the Orient, Australia and New Zealand to abandon the greater part of this trade. Instead of coming to this coast and going east by rail, merchandise from the Orient will be carried in foreign bottoms to the Atlantic coast by way of the Suez canal, and that which is left to come to this coast will be carried in Japanese bottoms."

The steamship companies now doing business on the Pacific from the San Francisco, Seattle, Vancouver and other ports with the Orient, Australia and New Zealand can not accept the water proportion of the old land and water haul rate and continue to do business under these conditions because of the subsidies they receive from the government. "The outlook for shipping on the Pacific coast is very gloomy. I can not say what the result will be. It is too soon, of course, to make the broad statement that the lines maintained by the Harriman roads through this port and those controlled by the Hill lines through Seattle and Vancouver will be for sale to the highest bidder, but the situation is very discouraging."

**PLACES REGULAR LINES AT MERCY OF TRAMP STEAMER**  
Portland, Ore., July 29.—"I have no intimation that the regular steamship lines from the Pacific coast ports to the Orient will be suspended," said W. E. Coman, assistant general agent of the outlook for the steamer was gloomy, indeed.

"The ruling of the interstate commerce commission that we can not make a through rate to Oriental ports but must publish that portion which accrues to the rail carrier, is responsible. That rail quotation will have to be the same to all shippers and hence the regular steamer will be at the mercy of the tramp steamer."

"The interstate commerce commission has ruled that it has no jurisdiction over ocean-going liners and consequently the steamers going by way of the Suez canal will be in a position to dominate the Oriental trade hereafter, if the interstate commerce commission sticks to its ruling."

**HILL DECLINES TO DISCUSS EFFECT OF NEW POLICY**  
St. Paul, July 29.—G. W. Broughton, general traffic manager of the Great Northern railroad, which is affiliated with the Great Northern Steamship company, said tonight when asked as to the effect of the interstate commerce commission ruling on Oriental traffic: "The ruling of the commission has so affected matters that the through tariffs to the Orient will be withdrawn about October 1 or November 1. As the effect of the withdrawal of the tariffs on the traffic of the American lines, I can not say."

James J. Hill, chairman of the board of directors of the Great Northern, declined to discuss the matter.

**KRUTTSCHNITT HASN'T HEARD OF PROPOSED MOVE**  
Chicago, July 29.—Julius Kruttschnitt, director of maintenance and operation of the Harriman lines, on a tonight that he knew nothing of the proposed move on the part of the transcontinental roads to abandon their steamship business to the Orient.

**NON-UNION MINER DIES IN CLASH WITH STRIKERS**  
Birmingham, Ala., July 29.—A clash occurred near Pratt City tonight between union and non-union miners in which Lige Neim, a non-union negro miner, was killed and E. Mills, a union man, was shot through the jaw. Six arrests were made. Disorders have been reported in several parts of the district today but nothing of a serious nature.

**CHAMPION ABE ATTELL WORST BUSH LEAGUER**  
Butte, Mont., July 29.—A minor dispatch from San Point, Idaho, states that Abe Attell was tonight awarded the decision over Eddie Marino at the end of a ten-round battle for the featherweight championship. Marino was outclassed and was given a hard pummeling, being swung in the third round by the going. In a number of other rounds Attell had the Seattle lad in distress and the contest ended with Marino about all in.

**TIM WOODRUFF OYSTER BAY VISITOR**

**PRESIDENT IS PLEASED WITH POLITICAL OUTLOOK**

**Anxious to See Party Everywhere Working for Taft; He Will Keep Out of the Local Squabbles.**

[By Morning Journal Special Leased Wire.] Oyster Bay, N. Y., July 29.—"President Roosevelt is very much pleased with the present situation of the country in general," said one of the participants of the conference at Sagamore Hill this afternoon. He explained that the president is taking nothing for granted and is anxious to see the party everywhere working its hardest for the election of Taft.

For over three hours today the president was in conference with Timothy L. Woodruff, chairman of the New York republican state committee, and Francis B. Loomis, of Ohio. The president's secretary, William Loeb, Jr., was also present.

The conference with the president began before luncheon and continued until a quarter of 4 o'clock. The president entertained them at luncheon, together with Henry B. Needham, a magazine writer, and Secretary Loeb. The general political situation in the entire country was discussed by the president and his visitors. Very little more than this could be learned after the conference was over. Mr. Woodruff said they had talked over the national political situation and discussed the state situation only so far as it had a bearing on the national situation. He said that the candidacy of Governor Hughes for renomination was talked over, the same as the other possible candidates for nomination. The president had told him, he said, that he would not interfere in local politics.

Mr. Woodruff declared that he had not yet talked with the president regarding the candidacy of Governor Hughes. He expected to see the president often during the summer, but at present had no definite engagement for a future date. He declined to discuss with the newspaper men the situation in New York state.

Mr. Loomis said he had been asked to come to Oyster Bay to talk over the national situation with the president. He had informed Mr. Woodruff regarding the situation in his home state, Ohio, he believed the outlook was very favorable. Mr. Loomis is one of the American commissioners to the Japanese exposition at Tokyo. He said he would leave for Japan in September by way of San Francisco. On the way he will stop at the Hawaiian Islands to endeavor to interest the Hawaiians in the exposition.

The president talked with him also on the Venezuelan situation. Mr. Loomis said. As minister to Venezuela for three years Mr. Loomis became well acquainted with President Castro and his methods. He said it seemed very much as if Venezuela was looking for trouble, but he did not know of any contemplated move on the part of the United States to take definite action in regard to Venezuela. He could not understand why President Castro was antagonizing so many foreign countries. Castro, he said, is very cunning, but not cunning enough to escape punishment from these countries. Secretary Loeb would say nothing on the conference.

**ROOSEVELT TO KEEP HANDS OFF NEW YORK SITUATION**  
New York, July 29.—Chairman Timothy L. Woodruff of the republican state committee, who spent this afternoon with President Roosevelt at Oyster Bay, declared on his return to the city tonight that the president would not interfere with the state campaign and that he also understood that Judge Taft would not interfere. As for the state committee, he said that he promised that the committee would not interfere and that the only line for governor would be selected by the state convention, which will probably meet at Saratoga Springs September 14.

Mr. Woodruff explained at state headquarters that in response to a letter by him to the president over a week ago, before Governor Hughes announced his willingness to accept a renomination if the republican party should decide so, the president telegraphed him that he would receive him today.

The chairman said that his conference with the president about the conduct of the national campaign in that state was highly satisfactory.

**ODELL TO TAKE PROMINENT PART IN NEW YORK CAMPAIGN**  
New York, July 29.—A definite agreement between ex-Governor Odell and Chairman Timothy L. Woodruff, of the republican state committee, was made yesterday at republican state headquarters, according to the Brooklyn Eagle, whereby Odell is to give active and energetic support to Mr. Woodruff as state chairman and in return Mr. Odell is to receive such recognition as a man who has held the highest office in the state and in the party should receive.

"It means," says the Eagle, "the re-establishment of an executive coun-

**NEGRO LYNCHED DESPITE BRAVE STAND OF SHERIFF**  
**Thousand Men Brave Death in Attack on Pensacola Jail to Avenge Brutal Assault on White Woman.**

**NEGRO LYNCHED DESPITE BRAVE STAND OF SHERIFF**  
**Thousand Men Brave Death in Attack on Pensacola Jail to Avenge Brutal Assault on White Woman.**

mittee of which Odell will probably be made chairman."

The agreement is said to include recognition of Louis F. Payne.

Commenting on today's published reports about the return of ex-Governor Odell to a position of prominence in the state republican organization, Chairman Woodruff said tonight:

"Some of the reports with reference to Mr. Odell's appointment to the executive committee are wrong. Mr. Odell and Colonel Dunn, both former chairmen of the state committee, will go on the new executive committee at the meeting of the state committee August 12, but the resolution provides that the chairman of the state committee shall be chairman of the executive committee. There will be eleven members of the new committee, including the state chairman and the secretary of the state committee."

### CLAIM VIOLATION OF ELECTION LAW

Nebraska Democrats File Protest Against Populist Nominees Appearing on State Primary Ballot.

[By Morning Journal Special Lensed Wire.] Lincoln, Neb., July 29.—Charging that the provisions of the state primary law will be violated by permitting fusion between democrats and populists on the presidential electors, Republican National Committeeman Victor Rosewater, together with F. W. Hollingsworth and Victor Seymour, today filed with Secretary of State Junkin a formal protest against the names of Henry Gering and Frank Swanson going on the state wide primary ballot as candidates for electors at large. Mr. Rosewater maintains that candidates can not appear as representing both the democratic and populist parties as both these parties have regular nominees in the field. This is the second protest filed and they will be taken up Saturday.

### ASK BRYAN TO FROWN ON IRREGULAR PROCEEDING

Omaha, July 29.—Victor Rosewater, republican national committeeman for Nebraska, today published an open letter to W. J. Bryan asking him to disapprove of the attempt that was recently made to file the names of the democratic presidential electors from this state under the head of "People's Independents."

Mr. Rosewater recently filed a protest in the case with the secretary of the state.

This matter is an outcome of the bolt of the Nebraska delegation headed by Thomas H. Tibbles, from the St. Louis convention of the people's party which nominated Thomas E. Watson for president.

### COMMONER WILL PROBE CONSPIRACY CHARGE

Fairview, Lincoln, Neb., July 29.—When informed of the open letter of Victor Rosewater, proprietor of the Omaha Bee, the republican national committeeman from Nebraska, in which the allegation is made that a conspiracy engaged in by Mr. Bryan's brother-in-law is on foot for the purpose of "poisoning votes in Nebraska intended for you," Mr. Bryan said:

"I have not the time to make answer."

He was not certain that he would reply at all but said the subject would be investigated.

### INDEPENDENTS NAME TICKET IN ILLINOIS

Chicago, July 29.—The independence party state convention was held today and the following ticket was nominated:

For Governor—George W. McCaskey, Rock Island.

For Lieutenant Governor—C. E. Beach, Paxton, Ill.

For Auditor—F. T. Lister, Springfield.

For Treasurer—Louis E. Hamburg, Chicago.

For Attorney General—Anderson B. Garrett, Elletts St. Louis.

For Secretary of State—Fred Greer, Chicago.

Trustees of the State University—Mrs. Elizabeth Kilpatrick and Dr. Willis K. Stone of Chicago, and Mrs. Winifred Godfrey, Joliet.

## RUSSIA FEARS EPIDEMIC OF CHOLERA

### PREPARATIONS TO FIGHT DREAD DISEASE ON VOLGA

Sanitary Patrol is Established Along River in Effort to Prevent Plague Reaching Moscow and St. Petersburg.

[By Morning Journal Special Lensed Wire.] St. Petersburg, July 29.—The government is preparing for an outbreak of Asiatic cholera all along the river Volga, from Nizhni Novgorod to its mouth, and at the Caspian ports. The entire Volga region and both coasts of the Caspian, together with the territory of the Don Cossacks, already have been officially declared in the cholera zone, but the sanitary authorities hope to confine the disease within these limits and prevent it from reaching Moscow and St. Petersburg this year.

Considerable outbreak of cholera is reported from Astrakhan, Tzaritsyn and Kamythin, and isolated cases have occurred at villages some distance from the river, which convinces experts that the outbreak is not due to direct infection, but from contamination of the water, the cholera bacilli having found many tributaries by which to spread last autumn.

Two deaths were reported this morning at Moscow, but a bacteriological examination showed that the victims, who were hampered from Nizhni Novgorod, died from other causes.

The preventive measures undertaken by the government consist of the erection of isolation hospitals at twenty-five points along the Volga, the establishment of a floating hospital and an inspection service on the river itself. There will also be a more or less cursory examination of passengers on the railroads.

Six steamers already have been commissioned and furnished with physicians to examine passengers and the passengers and crews of vessels plying on the Volga. Other steamers will be put into service both on the Volga and on the Dnieper, if the emergency warrants it.

Where cases of cholera have been established efforts will be made to detain and isolate those who have been stricken as well as those who have come in contact with them during the period of incubation, but no attempt will be made to place a strict quarantine on the infected districts. The Russian authorities believe that this would defeat its object by terrorizing the population and causing them to combat the efforts intended for their good. The peasantry who during earlier epidemics manifested superstitious hostility towards physicians, have now learned to co-operate with the medical authorities.

The government has placed ample funds at the disposition of the sanitary authorities, but there will be great difficulty in securing capable physicians. Nizhni Novgorod is considered the danger point of the epidemic as the annual fair, which is the rendezvous of the merchants of all Russia and Siberia, has just been opened. If the cholera appears there, which is considered almost certain, it will be extremely difficult to prevent its general dissemination.

## GHASTLY MURDER IN NEW YORK

Body of Girl Found, Frightfully Mutilated in Effort to Conceal Identity; No Clue to the Mystery.

[By Morning Journal Special Lensed Wire.] New York, July 29.—In the finding of the half charred body of a young woman early this morning is an isolated section of Williamsburg, Brooklyn, one of the most atrocious and cunningly planned murders that has been given to the police to solve in many years was revealed. Death was caused by a cut across the throat and then an endeavor to utterly destroy all evidences of the crime, the murderer or murderers wrapped the body in an oil soaked mattress, poured oil over the victim's clothing and set fire to the bundle. A powerful acid had previously been poured over the face to obliterate the woman's features and make identification impossible.

Although two arrests have been made, the police do not believe they have in custody any one who can shed any light on the mystery. James Ruddle, an old man who lived in a stable not far away from where the body was found and his son, Joseph, a peddler who discovered the body are the two prisoners.

### INSURANCE DIRECTORS FAIL TO GET QUORUM

New York, July 29.—For the third time in a month the call for a meeting today of the directors of the Provident Savings Life Assurance society failed to gather a quorum and the meeting was again postponed. This postponement delayed the planned election of officers, and also the expected turning over of the interests in the society to another corporation that has bid for one thousand of the 1,250 shares of stock of the society. The corporation that is seeking to obtain the control of the Provident, it was reported today, is the Intersouthern

Life Insurance company, of Louisville. It was learned also today that Commissioner Rittenhouse, of the Colorado insurance department, has telegraphed to Sullivan & Cromwell, attorneys for the banks holding the block of 1,000 shares of the Provident stock, protesting against their transfer to the southern company.

This stock was held by E. R. Thomas and Orland F. Thomas, as they obtained control of the Provident, but is now held by the Mechanics and Traders' bank, the Metropolitan Trust company and the Consolidated National bank.

The protest of Commissioner Rittenhouse is based on a report of the insurance commissioner of Kentucky criticizing the Intersouthern Life Insurance company.

### THREE HURT IN TRAIN CRASH ON ELEVATED

New York, July 29.—Three persons were injured, one seriously, and fifty or more were severely shaken up in a rear end collision between two Ninth avenue trains on the elevated railroad at Eighty-sixth street and Columbus avenue, late today. An express train, returning empty from Harlem ran into the rear car of a South Ferry train, which was well filled with passengers.

## CHEERS FOR HENRY GASSAWAY DAVIS

Former Vice Presidential Candidate Given Ovation by West Virginia Democrats; Harmony Keynote of Convention

[By Morning Journal Special Lensed Wire.] Charleston, W. Va., July 29.—The democratic state convention was called to order this afternoon by Chairman J. T. McGraw. Colonel McGraw, after he had succeeded in getting the 1,100 delegates quiet, delivered a short address, in which he urged harmony, and called attention to the fact that the temporary roll call of the convention had been made up without a single contest. After paying a tribute to Mr. Bryan, whose nomination he is said to have opposed, he introduced William E. Chilton, of Charleston, the temporary chairman.

While Mr. McGraw was speaking former Senator Henry G. Davis, at one time a candidate for vice president, entered the convention hall and was loudly cheered as he was escorted to the platform.

Mr. Chilton referred to his fight with Colonel McGraw for the national committeeman and was vigorously applauded when he stated that he was defeated fairly and would abide by the result.

At the night session the committee on resolutions reported one plank in the platform pledging the party to a "Jim Crow" law. This aroused much opposition and a determined fight was made for its elimination.

## TWO DIE, ONE CRAZED FROM HEAT

High Temperature and Humid Atmosphere Cause Intense Suffering in Chicago; Eight Prostrations.

[By Morning Journal Special Lensed Wire.] Chicago, July 29.—Two dead, one driven insane and eight prostrations were the net results tonight of another humid day. The maximum temperature was only 86, but a humidity of 69 caused general suffering throughout the city.

### Eight Hundred Men Made Idle.

Washington, Ind., July 29.—The consolidated shops of the Baltimore and Ohio Southwestern railway, employing over 800 men, were closed down indefinitely today and 25 per cent of the car department men were discharged.

### American Car Nears Paris.

Paris, July 29.—The American car in the New York to Paris race broke down near Hanover, according to reports received here and is making slow time on its way to Paris. It is expected to arrive here tomorrow night.

Olympic Athletes in Paris. Paris, July 29.—Seventeen American athletes who took part in the Olympic games in London arrived here today with Trainer Murphy. They are entered for the games to be held here Saturday and Sunday. The Americans include Carpenter, Smithson and Hillman.

## DIARRHOEA

There is no need of anyone suffering long with this disease, for to effect a quick cure it is only necessary to take a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy

In fact, in most cases one dose is sufficient. It never fails and can be relied upon in the most severe and dangerous cases. It is equally valuable for children and is the means of saving the lives of many children each year.

In the world's history no medicine has ever met with greater success.

Price 25c. Large Size 50c.

## CONFERENCE GIVES COLOR TO RUMORED RAIL MERGER

Harriman and George Gould Meet With New York Bankers; Expected to Result in Untie of Interests.

[By Morning Journal Special Lensed Wire.] New York, July 29.—A conference today between George J. Gould, head of the Gould railroad system; E. H. Harriman, president of the Union Pacific and Southern Pacific railroads, and representatives of the banking firms of Kuhn, Loeb & Co. and Blair & Co., was accepted as giving substance to the report that Mr. Harriman and his assistants are about to enter upon a friendly arrangement with Mr. Gould which will harmonize the relations of the Gould and Harriman railroad interests. One of the immediate results of this and other similar conferences is expected to be the financing of the \$3,000,000 of notes of the Wheeling and Lake Erie Railroad company, which fall due next Saturday and which are guaranteed by the Wabash road. Both of these roads are Gould properties. Blair & Co., who participated in today's conference, has financed the Gould properties extensively in recent years, while Kuhn, Loeb & Co. have been associated with Mr. Harriman in some large financial undertakings. One of the financial interests expected today that the Wheeling and Lake Erie situation "would be settled in a satisfactory manner. It is expected that a formal statement of some plan for meeting the notes will be made public by Mr. Gould tomorrow.

In Wall street the belief prevails that E. H. Harriman is likely to figure prominently in any financial support which may be given to the Gould property. It is believed that he will accept a place in the Wheeling and Lake Erie directorate and that this will be followed by an alliance, or at least a working agreement, between that road and the Erie.

Rumor further has it that the Harriman influence will be used to improve the physical condition of the Gould road, in return for which the Erie will get a large share of Pittsburgh tonnage, now carried by the Wheeling and Lake Erie.

Mr. Harriman declined to discuss any phase of the Gould situation today.

### Twenty-five Cents is the Price of Peace.

The terrible itching and smarting, incident to certain skin diseases, is almost instantly allayed by applying Chamberlain's Salve. Price 25 cents. For sale by all druggists.

Joseph Chamberlain Ill. London, July 29.—Joseph Chamberlain, who returned from the continent on Tuesday, and is remaining in London for a few days on his way to Birmingham, is reported to be in a very grave condition. His eyesight has become seriously affected. Even if Mr. Chamberlain has sufficient strength to travel to Birmingham, it is believed to be extremely doubtful if he will ever leave England again.

A Millionaire's Baby attended by the highest priced baby specialist could not be cured of stomach or bowel trouble any quicker or surer than your baby. If you give it McGee's Baby Elixir, Cures Diarrhoea, dysentery and all derangements of the stomach or bowels. Price 25 cents and 50 cents. Sold by J. H. O'Reilly Co.

### Hearst to Manage Campaign.

Chicago, July 29.—The national committee of the independence party today selected W. R. Hearst as chairman and Charles Walsh, of Iowa, as secretary.

### Governor Lanham Dead.

Weatherford, Texas, July 29.—Former Governor S. W. T. Lanham, of this city, died at his home here tonight after a illness of several weeks, sixty-two years of age. Governor Lanham served during the civil war as a member of the Third South Carolina regiment. He was elected a member of congress in 1883 from Texas, serving until 1887. Two years later he was re-elected and served again for eight years.

As governor he served two terms, his first term beginning in 1903.

Beginning today hacks will be furnished by Oakey's hack line at all hours of the day and night. Prompt and satisfactory service. Telephone 195 or 196.

## MILLIONS MADE BY MORGAN & CO.

Attorneys for Minnesota Attempt to Show Profit of \$22,202,393 for Bankers in Northern Pacific Reorganization.

[By Morning Journal Special Lensed Wire.] St. Paul, July 29.—That J. P. Morgan & Co. and others in the syndicate that reorganized the Northern Pacific in 1896 made a profit of \$22,202,393, was what the attorneys for the state attempted to establish today at the Minnesota rate hearing.

The attorneys for the railroad, however, contended that these figures represent the par value of the stock involved and that the stock at that time was not worth par. They further con-

tend that the question of whether J. P. Morgan & Co. made a large fee in connection with the reorganization has nothing to do with what the Northern Pacific railroad is worth today. It is on the present worth that they expect to earn an adequate return.

T. D. O'Brien, special counsel for the state, took up the matter in the cross-examination of H. A. Gray, controller of the Northern Pacific.

Mr. Gray testified that the reorganization was perfected by calling in the stock of the old company in the hands of the public and issuing the new stock upon the payment by the stockholders of an assessment of \$10 on preferred stock and \$15 on common. Not all the old stockholders were willing to pay these assessments, so the syndicate paid them and took over the stock.

Under one paragraph of the agreement the syndicate received \$19,872,839 in cash for handling \$105,215,705 of the company's common and preferred stock and mortgage bonds.

Under another paragraph of the agreement the syndicate was paid six and two-thirds per cent in cash for the sale of another consignment of stocks and bonds. The amount received by the syndicate on this transaction was placed at nearly \$3,000,000 bringing the total receipts of the syndicate, managers, according to the testimony, up to \$117,904,253 while they turned over to the reorganized company, in the conversion and assessment on stocks \$95,701,800 leaving the syndicate gain figured at the par value of the stock \$22,202,393.

### REDUCED RATE OPENS NEW YORK MARKET TO WEST

New York, July 29.—Retail merchants in northern Illinois, Wisconsin, Minnesota, North Dakota, South Dakota, Nebraska, Missouri, Kansas, Colorado, Arkansas, Oklahoma and Texas will enjoy special merchants' rates to New York City August 1 to 5 inclusive, with a return limit to August 30, according to announcement made today by the New York Merchants' association. This is the first time that merchants' rates have been operative to this city from points west of the Mississippi river.

Following the initiative of the Rock Island-Prisco system, it was announced today that all the railroads south of the Mississippi to Denver and south of the Missouri river, including Oklahoma, Texas and Arkansas, have agreed to grant special rates to merchants of a fare and a half the round trip under the certificate plan.

S. C. Mead, secretary of the Merchants' association of New York, stated also that the association is arranging a second series of these reduced rates from the west and the southwest, covering the dates August 15-19 inclusive.

UNTERRIFIED OF OTERO COUNTY IN SESSION

Democrats Nominate Candidates for County Offices at Alamogordo; Sentiment for Judge Mann Growing.

[Special Correspondence, Morning Journal.]

Alamogordo, N. M., July 28.—The democratic party of Otero county held its convention at Alamogordo yesterday to nominate county officers. Judge J. E. Wharton, county chairman, called the convention to order at 2 p. m. with thirty-five delegates in attendance. Judge Wharton made a short, stirring address, in which he called upon the delegates to lay aside all personal preferences and prejudices, if such they might have, and nominate as their candidates those who would best represent the interests of the party, and would most faithfully and efficiently serve the people, if elected.

The temporary officers elected were G. E. Moffett, chairman; J. M. Walker, secretary. The chairman named the members of the several committees and declared a recess of an hour to allow the committees to prepare their reports. The committee on permanent organization recommended that the temporary officers be made permanent, and a motion carried this recommendation by unanimous vote. The names presented to the convention were as follows: Sheriff, H. M. Denny, nominated by acclamation; probate clerk, W. K. Stalcup, J. M. Helm, the latter nominated by a vote of 10 to 2; treasurer, Charles Garrett, T. R. Boynton, the latter being nominated by the vote of 14 to 2; assessor, W. H. Pelfrey, by acclamation.

tion; superintendent of public schools, Guthrie Smith, by acclamation; county surveyor, John Rapier, J. E. Edgington, the latter being nominated by a vote of 18 to 1; commissioner district No. 2, J. J. Sanders, by acclamation; commissioner district No. 3, James Brownfield, A. Tuten, C. E. Bass, the first named nominated on third ballot; probate judge, Cesar Duran, by acclamation.

The convention adjourned at 5:45 p. m., after a session that was quiet, orderly and business-like from beginning to end.

In spite of the rain, Captain W. B. Brack, of Orogrande, addressed a large and enthusiastic crowd at the court house here last evening. Captain Brack is a white-haired, venerable old gentleman of the old school, and his remarks were based on experience and observation extending over a period of more than forty years, and are therefore to be relied upon. He is a raconteur of rare grace, and his audience was right with him all the way.

An important meeting was conducted in the court house here this morning. In attendance were the members of the democratic county committee, and the candidates nominated yesterday by that party. The purpose of the meeting was to organize plans for an active and industrious campaign. The executive committee to have actual and absolute control of campaign matters was composed of Judge J. E. Wharton, chairman; Dr. O. W. Miller, Max Pierce and Louis Hill. The campaign committee is composed of two members in each precinct, who will act in conjunction with the members of the county central committee. If this party fails to elect its ticket it will be through no lack of united effort.

informed here, both democrats and republicans, is that his chances of election are vastly better than Mr. Andrews'. It is said that the El Paso and Southwestern railway would earnestly support Judge Mann, and would oppose Mr. Andrews.

My little boy, four years old, had a severe attack of dysentery. We had two physicians; both of them gave him up. We then gave him Chamberlain's Colic, Cholera and Diarrhoea Remedy which cured him and believe that saved his life.—WILLIAM H. STROLING, Carbon Hill, Ala. There is no doubt but this remedy saves the lives of many children each year. Give it with caution all according to the plain printed directions and a cure is certain. For sale by all druggists.

TO ESTABLISH OPEN MARKET FOR PRINT PAPER

New York, July 29.—It is proposed to establish an open market for newspaper print paper in this city. An auction sale of one hundred tons of print paper in carload lots is announced for August 5 by John Norris, of the American Newspaper Publishers' association. Frequent similar auction sales are to follow. It is believed that will have the effect of making a fixed price and stop the business of selling at secret rates.

Woodson Leaves for New York. Owensboro, Ky., July 29.—Grey Woodson, secretary of the national democratic committee, left for New York this evening. He will meet Chairman Mack and make arrangements for opening the eastern headquarters of the democratic party in New York.

RAINS SCATTERED BUT HEAVY

Almost Daily Thunderstorms in Territory During Week Ending July 27th Says the Weather Bureau Report.

Partly cloudy weather, with almost daily thunderstorms, and temperature somewhat below the normal, prevailed throughout the week ending Monday, July 27, says the weather bureau report from Santa Fe.

The thunder showers were very local in character, but on account of their very frequent occurrence practically all parts of the territory, except a few areas on the western border, received some precipitation. In scattered localities very heavy rains fell, but as a rule the total fall for the week was below the normal. Evaporation, however, was not rapid and the soil conserved a large part of the moisture that fell. It was reported from widely separated points, but it appears to have caused no damage.

The total amount of sunshine was just about equal to the average customary during the latter part of July. The temperature was quite uniform, and in most sections both the day and the night thermometer readings were below the normal; however, on account of the relatively humid condition of the atmosphere several days were quite sultry.

BRYAN NOTIFICATION TO OCCUR AUGUST 12

Montgomery, Ala., July 29.—Congressman Henry D. Clayton, of the third Alabama district, who was chairman of the democratic national convention at Denver, today announced that the committee on notification of

Mr. Bryan would meet in Lincoln, Neb., at noon, August 12, and that Mr. Bryan would be formally notified of his nomination during the afternoon of that day. Mr. Clayton will deliver the notification speech.

HOME COOKED FOOD.

# WAR COUNCIL ON STANDARD OIL SUITS

## BONAPARTE DECIDES TO PUSH CASE WITH VIGOR

### Will Immediately Seek Reversal of Decision of Appellate Court Annulling Big Fine Imposed by Judge Landis.

(City Morning Journal Special Lensed Wire) Lenox, Mass., July 29.—After an all day conference of the leading government prosecuting officers and Frank H. Kellogg, of Minnesota, one of the special counsel for the government in certain civil suits, it was announced by Attorney General Bonaparte that every effort would be made to secure a reversal of the recent decision and opinion of the United States circuit court of appeals in the case of the Standard Oil Company of Indiana and that an application for a reargument of the case and a motion for a modification of the opinion would be submitted to that court. Although no time is fixed, this action by the government will be taken at the earliest possible moment and the pending prosecution against the Standard Oil company and all other prosecutions in which the giving or receiving of rebates is charged, will be pressed to trial. The decision to take this action was unanimous on the part of the five men who participated in the conference.

Attorney General Bonaparte called to the conference Solicitor General H. M. Hoyt, of Washington; Edwin M. Sims, of Chicago, United States district attorney for the northern district of Illinois; James Wilkerson, of Chicago, Mr. Sims' first assistant, and Frank B. Kellogg, of Minnesota. Mr. Hoyt, Mr. Sims and Mr. Wilkerson arrived here yesterday and held a conference in the afternoon with the attorney general. Mr. Kellogg participated in the two conferences held today and emphasized with the giving out of the following statement by the attorney general:

"The government will make every effort in its power to secure a reversal of the recent decision and opinion of the circuit court of appeals for the seventh circuit in the case of the Standard Oil Company of Indiana, either by the court of appeals itself, or if necessary, by the supreme court of the United States. The gentlemen who have been in consultation with me all unite in my opinion that in the interest of impartial and effective administration of our laws, such action on the part of the government is imperatively demanded by the circumstances of the case and the possible consequences of this opinion, should it stand as authority without question by the government. To this end an application for a reargument of the case and a motion for a modification of the opinion will be submitted to the circuit court of appeals at the earliest possible moment. Other appropriate steps will be taken afterward, their character to be determined by the court's action on this application. The

pending prosecutions in which the giving or receiving of rebates or offenses of like character, are charged, will be pressed to trial and judgment by the government, with all accessible energy and as promptly as may be practical.

In view of the government's legal advisers, the reversal of the judgment in the case recently decided in no way affects the merits of that controversy, or the necessity and duty of bringing to punishment if possible in this and any other cases, any individual or corporation shown to have evaded or defied the laws."

In discussing the various aspects of the case, Attorney General Bonaparte took occasion to refer to the report published in certain newspapers to the effect that W. Parmelee Prentice, the son-in-law of John D. Rockefeller, had given, or was to give, a dinner to the attorney general, Mr. Rockefeller and Judge Grosscup. Mr. Bonaparte said in this connection: "I have not the pleasure of Mr. Prentice's acquaintance. I did not know that Judge Grosscup was here until he had left and the dinner is entirely a figment of a lively imagination. During a political campaign one must expect stories of this kind and it would be unnecessary to properly characterize them. Barring its other merits, the tale is wholly free from any taint of truth."

District Attorney Sims and Mr. Wilkerson left during the afternoon for Chicago, followed an hour later by Mr. Hoyt, who started for Washington. Mr. Kellogg will remain until tomorrow but the main part of the conference was finished today.

**Colonel Symons Retires.**  
Washington, July 29.—Colonel Thomas W. Symons, corps of engineers, was placed on the retired list of the army on his application after more than thirty-seven years of service. Colonel Symons is now employed on the New York state canal commission. He was formerly superintendent of public buildings and grounds in this city.

## PERSIAN LIBERAL SLAIN BY ORDER OF EMPEROR

Teheran, July 29.—Sayid Muhammad, the nationalist leader and the foremost orator of the recent parliament, called the "Persian Mirabeau," has been assassinated at Hamadan, 165 miles from Teheran. Sayid Muhammad went to Hamadan after leaving the British legation where he had taken refuge. Prior to this he was among those captured by the Cossacks after the fight which raged around the parliament buildings in Teheran during the latter part of June. It is supposed that the deed was committed by agents of the shah.

## Venezuelan Vessel Boycotted

Willemstad, July 29.—The Venezuelan schooner Maria Abigail, from Maracaibo, laden with Venezuelan products and dispatched in this port by a Venezuelan firm, has been boycotted. On her arrival here a force of police and troops was stationed at the wharf to protect her. Later the schooner sailed, and on leaving the harbor dipped the Venezuelan flag, the salute being answered.

## Goals to Consult Bryan

Minneapolis, July 29.—F. B. Lynch, democratic national committeeman for Minnesota, and manager of Governor Johnson's campaign for the presidential nomination, will leave in a day or two for Lincoln, Neb., where he will consult with William J. Bryan relative to the democratic national campaign in Minnesota. Mr. Lynch will bear with him the good wishes and assurances of support from Governor Johnson, and his mission will be largely for the purpose of making peace between the democratic factions in Minnesota.

# Arizona Alive to Great Scope of Exposition

## In Enthusiastic Address to People of Phoenix Col. Twitchell Shows That Irrigation Congress Will Be Equal in Importance to a World's Fair; Mr. Wilson of the Santa Fe Also Boosts Great Event in Arizona Capital.

A general awakening of the people of Arizona to the great scope and world-wide importance of the Sixteenth National Irrigation congress and industrial exposition in this city next fall has resulted from the visit of Colonel R. E. Twitchell, secretary of the board of control of the Irrigation congress, and R. E. Wilson, traveling agent of the industrial department of the Santa Fe, both of whom are devoting their entire time and enthusiastic efforts to this work. They arrived here yesterday morning and it is to be regretted that representatives of the Tempe board of trade and Mesa chamber of commerce were not present also. But the meeting was not arranged for or even decided upon until 12:30 yesterday afternoon and there was no opportunity to notify the south riders.

Mr. Twitchell talked very entertainingly to the assemblage as did Mr. Wilson, and there were several speeches by the home people in response, ending with a vote of thanks to Mr. Twitchell for his visit and his address. The result of the meeting was a redoubling of enthusiasm among the home people and an opening of their eyes to the importance of this opportunity to get before the world. It was quickly seen that the Albuquerque show will do this valley almost as much good as though it were held here, if the valley will get in and hustle for the benefits, and still the valley will be saved the almost impossible work of entertaining such a stupendous congress and exposition. The meeting has practically assured the sending of a fine exhibit from the valley, though the work of getting it together is something everyone must help to do. The organization for this work has already been accomplished by the three county boards of trade which have undertaken to raise \$650 for the expense of the exhibit.

**An All Arizona Show.**  
Mr. Twitchell yesterday called on Governor Kibbey also and the result of his visit was the securing of a territorial mining exhibit. The governor gave his consent to the transfer of the entire mineral display in the mining building at the fair grounds, to Albuquerque. The transfer is to be under the supervision of some competent person who will superintend its packing, removal and return to Phoenix before the annual fair. This work will involve an expense of several hundred dollars, possibly a thousand or more. It was suggested by the governor that the Phoenix board of trade be placed in charge of raising the funds for this purpose, as an entirely separate enterprise from that of the Maricopa county exhibit, this to be a territorial exhibit strictly in which every county, particularly the large mining counties, all have an equal interest. It was proposed in the discussion at the board room to place the matter in the hands of the Phoenix board and have that body request \$100 expense money from the supervisors of each of the counties in the territory. The governor, however, has doubts concerning the supervisors' authority for making such appropriations, wherefore he believes the board of trade can raise the money necessary by appeal to the various boards of trade throughout the territory, especially in the mining counties, by requests for donations from the big mining companies and others interested in the mining industry directly and indirectly. There is a very flattering cash prize offered for the best mineral exhibit and Arizona is she best exhibitor should lead it. By the advertising should be worth more than the prize money. Indeed, though the fact might never be traced, it will probably result in bringing millions into the territory for investment.

**Twitchell's Talk.**  
Getting back to the board meeting and the speech of Mr. Twitchell, he describes the congress and the magnitude of the scale on which preparations are being made. He dwelt upon its importance as having been the chief instrumentality in the growth of that sentiment resulting in the reclamation law and the fruits of that law as they are seen today, which mean so much to the arid west and especially to this valley. He said it was the duty of every citizen to back up the reclamation service by an exposition that gives some little idea at least of the great things it is accomplishing for the people.

He next told what other states are doing in the way of exhibits. Spokane, which will be a candidate for next year's congress, will send six refrigerated cartons of fruit for free distribution. Five chambers of commerce in the San Joaquin valley alone will have exhibits. The coal companies that supply Arizona and New Mexico will have an exhibit the like of which has never been seen. They will build an artificial mountain 78x98 feet in the base and with proportionate height. Into this will run a slope reproduced from one operated by the Victor Fuel company and another reproduced from one operated by the American Coal Mining company. These will meet in a large auditorium in the center where a moving picture machine will show every feature of industrial life, homes of the miners, operations at the mines, etc.

The Santa Fe will have exhibits from every irrigated section contiguous to its lines from Garden City, Kan., to the coast.

The Mexican government is co-operating and President Diaz has with-out expense, tendered the services of the Eleventh Regiment band, the finest in Mexico, throughout the exposition. Mexico will also send many delegates.

**Valley Exhibits.**  
These facts and many more were brought out yesterday afternoon at a meeting of the Phoenix board of trade

at 4 o'clock, at which there were present a majority of the board of directors and quite a number of citizens who had been hastily got together to meet R. E. Twitchell, secretary of the board of control of the Irrigation congress, and R. E. Wilson, traveling agent of the industrial department of the Santa Fe, both of whom are devoting their entire time and enthusiastic efforts to this work. They arrived here yesterday morning and it is to be regretted that representatives of the Tempe board of trade and Mesa chamber of commerce were not present also. But the meeting was not arranged for or even decided upon until 12:30 yesterday afternoon and there was no opportunity to notify the south riders.

**HELP WANTED—Male**  
WANTED—High grade men to fill office, mercantile and technical positions in the southwest. Southwestern Business Association, 201 E. Central avenue, Albuquerque, N. M. Phone 157.

## THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of

**The Well Informed of the World.**

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

**A Knowledge of Forms, Knowledge of Functions and Knowledge of Products** are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that **Syrup of Figs and Elixir of Senna**, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

**Known Quality, Known Excellence and Known Component Parts** and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

### CALIFORNIA FIG SYRUP CO.

SAN FRANCISCO, CAL., U.S.A.  
LOUISVILLE, KY. LONDON, ENGLAND. NEW YORK, N.Y.

FINANCE AND COMMERCE

Wall Street

New York, July 29.—Interest in the stock market became apathetic today and there was a material contraction in the volume of the dealings. The speculative tone at the same time was heavy. Early attempts to advance prices soon demonstrated that stocks were being supplied to meet the bids at the advanced prices. This supply of stocks diminished at a moderate recession and left the market in a dull and sluggish condition. There was no encouragement to bid up prices with the obstacle to be met of free selling orders above the market. On the other hand there was no such urgency in the selling as to encourage the bear party to offer prices down. The passing of several events which have been looked forward to was partly accountable for the neglected condition of the market. With these various items of news out of the way the market showed its usual desire for new factors to point the next step in the speculation. The day's news did not supply this factor. Some disturbing effect was produced by the confused reports circulated early today concerning a supposed serious automobile accident to William K. Vanderbilt. Some recovery followed when the reports were known to refer to a mishap in which the capitalist had not been involved. There was some warning of interest in the rumors concerning the adjustment in the affairs of the Gould railroad properties in connection with the \$8,000,000 Wheeling & Lake Erie notes falling due in August. The steps to be taken to meet this obligation were made a mystery of and the information on the subject consisted of rumors that bankers were in consultation over the details of the plan. The release of the supposed parties to the plan was believed to be due in part to tactics of negotiations. An upturn in the wheat market was made the occasion of reports of damage to spring wheat in the northwest. There was nothing to indicate a marked change in the conditions of the crops. The estimates of private experts on the cotton crop promise an improvement of condition for the month to be shown by the government report soon to be issued. With the decline in activity in stocks there has come a languishing in the interest in the bond market which was made the cause of some puzzled complaints on the part of the bond dealers. The new output of bonds has been sufficient apparently to amply the present demand. The prices at which bankers hold the new issues also is held by bond dealers to be unduly high. The new Central Pacific first refunding four's when issued are being dealt in on cur and have dropped to below the price at which they were taken from the bankers, thus duplicating the experience with the Union Pacific refunding four's. The strength of the metal market gave strength to the copper industrial. The irregular fluctuations continued through. Closing stocks: Amalgamated Copper 74 1/2; Amer. Car and Foundry 35; do pfd 102; American Cotton Oil 32 1/2; Amer. Hide and Leather pfd 20 1/2; American Ice Securities 27 1/2; American Lumber pfd 95 1/2; American Locomotive 53 1/2; do pfd 105; Amer. Smelting and Refng 88 1/2; do pfd 106 1/2; Amer. Table of stock prices including Central of New Jersey, Chesapeake and Ohio, Chicago Great Western, etc.

Chicago Board of Trade. Chicago, July 29.—Black rust in the wheat fields of the northwest caused an advance of more than one cent in the price of wheat on the local exchange today. At the close the September delivery was up 1/4. Corn was a shade higher. Oats were up 3/4. Provisions were 7 1/2 @ 10 cents higher. September wheat opened unchanged 1/2 @ lower at 89 1/2 @ 89 1/2, advanced to 90 1/2, and closed at 90 1/2. September corn opened unchanged 1/2 @ higher at 73 1/2 @ 74, sold off to 73 1/2, and then advanced to 74 1/2. The close was at 73 1/2 @ 74. September oats opened 1/2 @ higher at 43 1/2 @ 44, advanced to 44 1/2 and closed at 44 1/2.

Center of Interest in Eastern Wool Markets. New Clip Practically Cleared Up in the West—Buyers as a Rule Waiting for Outcome of Spring Openings. Regarding the present wool situation Bradstreet's Review says: With the practical cleaning up of the new clip in the west, the center of interest in the wool market has again been transferred to the east, though there has not yet been enough business done to greatly encourage dealers. Buyers as a rule are still waiting for the outcome of the spring openings, and though the outlook is satisfactory, they are not yet ready to operate heavily. At the same time dealers are not disposed to press sales, as they have sold as far ahead in many cases as they consider advisable, and prefer to wait until the new wools arrive and are opened before selling more of the staple grades. The new clip has been bought fairly well and stands the trade at a figure that bids fair to allow a reasonable margin for profit. It only needs a good start in the goods trade to make an active market for wool at prices that will be satisfactory to holders. Worst wools continue to be in demand, the sales for the week being largely of that nature. A lot of Ohio half blood has sold at 26 1/2 cents, and there have been good-sized lots of fine washed delaine at 34 and 34 1/2 cents. Some holders are asking 35 cents, but buyers are unwilling to pay the higher price as yet. Quarter bloods are quotable at 25 cents, but some holders are taking 26 cents and even 27 cents, though the market has not yet actually got above 25 cents, except perhaps in the asking. Fine fleece wools are quiet but steady. Territory wools are quiet, as they are not yet opened and ready for sale. A lot of Montana wool is reported sold in the original bales at 20 cents, coating about 25 cents clean. There have also been some moderate sales of clothing territories, especially of wools suitable for the French combs. Recent sales in Montana have been at 17 1/2 @ 19 cents, much higher prices having been paid, in fact, than was considered possible at the beginning of the season. Foreign wools have been quiet, with small scattering sales of the Australian merinos, New Zealand crossbreds and South American crossbreds. The London sales are still going on, though it has been decided to shorten up the series five days, thus withholding from sale about 70,000 pounds of wool. The series will close on August 1 instead of August 7, as at first announced. Prices are slightly firmer than at the opening, though crossbreds have receded somewhat from the high point reached under the competitive bidding of two Ameri-

can buyers. Some of the prices paid during this competition were several cents above a parity with the cost of similar wools from the domestic clip, and dealers here are at a loss to explain the matter.

Organization Adopts Working Agreement with United Mine Workers; Industrial Workers of World Repudiated. (By Morning Journal Special Leased Wire.) Denver, July 29.—The Western Federation of Miners today completed its convention work by selecting Denver as its headquarters for the ensuing year and also as the place for the next convention and electing the following officers: President—Charles H. Moyer, Denver. Vice President—Charles E. Mahoney, Butte, Mont. Secretary—Ernest Mills, Greenwood, B. C. Members of Executive Board—District No. 1—Fred Clough, Goldfield, Nev. District No. 2—Joseph H. Hutchins, Burke, Idaho. District No. 3—J. C. Lowmyer, Butte, Mont. District No. 4—Roderick MacKenzie, Silverton, Colo. District No. 5—W. E. Tracey, Terry, S. D. District No. 6—William H. Davidson, Sandon, B. C. District No. 7—William Jinkerson, Flatriver, Mo. Action was taken completely repudiating the Industrial Workers of the World and declining to recognize their traveling and withdrawal cards. A strike fund of \$100,000 was ordered created. A jurisdictional line was established with the United Mine Workers and both organizations will from now on end their entire strength to either in time of trouble. Provisions were adopted that no local union shall order a strike without consent of the executive board and that ten locals acting jointly may submit any question to the executive board for a referendum vote. Steps were taken to raise a defense fund for the four Mexicans under arrest in California charged with inciting riot and rebellion in Old Mexico. All amendments to the constitution proposed by the convention must be submitted to a referendum vote of the locals.

SCOURING YOUR SCALP. Will Remove the Loose Dandruff Scales But It Won't Cure Dandruff. If your hair is brittle and thinning, you have dandruff. The mere scouring of the scalp of the loose scales, won't cure dandruff, because dandruff is nothing but scales of scalp being thrown up by a pestiferous little germ burrowing its way to the root of the hair where it saps the vitality, causing falling hair and, in time baldness. Now you can't stop the dandruff nor falling hair, nor prevent baldness, unless you destroy that germ; and the only preparation that can do it is the new scientific discovery, Newbro's Herpicide. In fact no other hair preparation claims to kill the dandruff germ—all of them will clean the scalp, soap and water will do that, but only Newbro's Herpicide gets at the root of the trouble and kills the dandruff germ. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes, 50c and \$1.00. B. H. Briggs & Co., Special Agents.

# The Albuquerque Morning Journal

Published by the Journal Publishing Co.  
D. A. MACPHERSON, President  
W. R. BURKE, Editor  
H. B. HENNING, City Editor  
D. S. BOUCHER, Business Manager

Entered as second class matter at the postoffice at Albuquerque, N. M., under act of Congress of March 3, 1879.

THE MORNING JOURNAL IS THE LEADING REPUBLICAN PAPER OF NEW MEXICO, SUPPORTING THE PRINCIPLES OF THE REPUBLICAN PARTY ALL THE TIME, AND THE METHODS OF THE REPUBLICAN PARTY WHEN THEY ARE RIGHT.

Larger circulation than any other paper in New Mexico. The only paper in New Mexico issued every day in the year.

The Morning Journal has a higher circulation rating than is accorded to any other paper in Albuquerque or any other daily in New Mexico.—The American Newspaper Directory.

**SWORN CIRCULATION.**  
Territory of New Mexico,  
County of Bernalillo.—ss.  
D. S. Boucher, appearing before me personally, and first being duly sworn, declares and says that he is business manager of The Journal Publishing Company of Albuquerque, New Mexico, and that during the month of April, 1908, an average of 4,461 copies of The Albuquerque Morning Journal were printed and circulated each day.  
(Signed) D. S. BOUCHER,  
Business Manager.

Sworn and subscribed to before me, a notary public, in and for the territory and county aforesaid, this 29th day of May, 1908.  
(Signed) H. N. PATKERT,  
Notary Public.

**LET US HAVE PEACE.**

Republicans of all factions in this county are waiting with a good deal of interest the outcome of the present effort to restore harmony in the republican ranks in Bernalillo county. If a disposition is manifested on both sides to "play fair" there will be no difficulty in reaching a satisfactory settlement, with the result of securing a larger majority for the republican general ticket in this county than in any other county in the territory. But any attempt on the part of either faction to gain control of the party machinery through trickery, chicanery or false representations, will inevitably result in making a bad matter worse, and rendering the breach wider and more difficult to heal.

**WELCOME, ARIZONA!**

We never "laid up" anything against Arizona but once, and that was when she refused to associate with us in statehood, but we have rubbed that all out, in view of her promise to send over to the irrigation congress and Interstate exposition, the finest mineral exhibit ever shown in the United States—and that means in the world. Yes, we know "world" is a big word, but that is just what we mean, and we have not a shadow of doubt that just such an exhibit will be made—first, because Arizona has the men who will take pride in making it, and second, because she has the minerals to make it with. So you can put it down in your list of settled facts that Arizona will be here with the finest mineral exhibit ever made at any fair in the country, and she will be received with a welcome as warm and true as her own sunshine.

**THE OUNCE OF PREVENTION.**

Discussion of a project to found a school of preventive medicine in connection with Columbia university has brought out some remarkable figures about preventable diseases. Two-thirds of the human family, it is declared, die before the age of five years, and needlessly. The death of more than 185,000 persons in this country a year from pneumonia is also said to be preventable. Modern science already makes possible the prevention of cholera, smallpox, yellow fever and many other scourges, and if anything more can be done it will be welcomed. One of the most hopeful signs of the times just now is to be found in the fact that medical men and scientists, all over the world, are giving a great deal more attention than was ever given before to the "ounce of prevention," which the experience of ages has shown to be better than the "pound of cure."

**HIS OCCUPATION'S GONE.**

Facts and figures demonstrate to a certainty that the populist orator has been put out of business. Statistics circulated by the Kansas Board of Agriculture show that in the five years ending with 1907 Kansas put into their bins wheat to the value of \$265,000,000. Five crops of corn would have brought to their bank accounts, if sold as grain, the sum of \$222,273,783. "It is the conversion of its corn into beef, pork and similar products," says the board, "that brings the surplus to provide the comfortable homes and build the school houses, colleges and churches that are such common objects on the Kansas farmer's horizon." And this: "Kansas' present era of prosperity dates from the time when alfalfa was first shown proper appreciation by its farmers." And, incidentally, let us inquire, if alfalfa can work such results in Kansas, what miracles may it not work in New Mexico, where it yields more tons per acre to the cutting and more cuttings to the year? It would be a strain on the imagination to picture the Kansas as ground beneath the power of predatory wealth or as suffering from the reactions of the banking system or Wall street or any other pampered and

privileged class. Even the tariff barons might win success of political attack this year, seeing that most of the disasters of last year's panic have been borne in the factory centers of the east. Corn, alfalfa, wheat and hogs make capitalists, who seem to have most of the spare cash to be found as the presidential campaign opens. Wall street and the railroads have the troubles. It is not a year for populist victories.

**A REMARKABLE DECREASE.**

In the month of June, of last year, the immigrants arriving in the United States from foreign countries, numbered 742,952. In the month of June just past, the total immigration was 21,947—a decrease of 79 per cent. It is not legislation that has brought about this change, nor any measure of exclusion, for the number of those debarred is less than last year. Immigrants were arriving in great numbers a year ago because there were better opportunities for them here than at home. They have ceased to come because the same opportunities do not exist at this time and their labor is no longer in demand. In other words, the currents of immigration are governed by the same universal laws of supply and demand that rule in every line of human activity.

**THE LITTLE BUSY BEE.**

The old, familiar question, "How doth the little busy bee improve each shining hour?" is thus answered in a very practical manner by the Technical World:

Three hundred billion bees made enough honey last year to fill a train of cars long enough to reach from New York to Buffalo. At the low wholesale rate of ten cents a pound it was worth \$25,000,000, and if the 700,000 bee-keepers of the country had worked as industriously and skillfully as did the bees the weight of the output would have been three times as great and the value \$75,000,000.

Not only did the little workers contribute that vast supply of a pure and delicious food product to the nation but as they made it they treated it antiseptically with formic acid, thus preventing impurities or decay.

In one year the bees have sent to market a product worth nearly as much as the barley crop, three times as much as the buckwheat crop, \$6,000,000 greater than the rye crop and nearly \$9,000,000 greater than the rice crop. All of the rice and buckwheat grown on an aggregated area of 2,125 1/2 square miles did not reach to the value of the honey by \$11,250.

To appreciate these results one must necessarily strive also to appreciate the number of insects at work. That is rather difficult, for three hundred billion stretches a long way beyond intelligent human comprehension. The human mind doesn't work well in anything mathematically greater than thousands.

**STRENGTHENS THE TICKET.**

In the opinion of the Kansas City Journal every possible doubt of republican success in New York is removed by the very welcome announcement that Governor Hughes will be a candidate for re-election. While the professional politicians are more or less openly opposed to the governor, and while Mr. Roosevelt would probably prefer the nomination of a man whose personality and methods did not contrast so favorably with his own, yet for once all the exigencies of practical politics and all the real interests of the people have the same thing in common. The name of Governor Hughes will be a tower of strength to the national ticket in the Empire state, and even Mr. Roosevelt will not injure the chances of his personal candidate by refusing his cordial support and endorsement to Governor Hughes, whose friends would vigorously resent any lukewarmness on the part of the administration.

Bryan's chances of conquering what is still "the enemy's country," despite the theatrical protestations of the Tommany bosses, are still further lessened by the defection of Hearst. However lightly Hearst and the independence party may be regarded by the country at large, neither is a joke in New York and backed by the Hearst papers, with their undeniable influence among the classes upon which Mr. Bryan must rely for his chief support, constitute a formidable opposition, meaning the certain loss of thousands of votes to Bryan.

**SENSIBLE BUSINESS WAY.**

M. E. Ingalls, once president of the Big Four railroad and now a strong factor in transportation affairs, a conservative in thought and a democrat in politics, who says that he is going to support Bryan, and is "boy enough to want to see what will happen"—Mr. Ingalls with all these qualifications for knowing the trend of affairs, firmly believes that whether the election goes to Taft or to Bryan business will not be upset. Though such a statement from an able business man at once attracts attention, it is, after all, only a commonplace; it is true that the centers of finance are conducting their operations on that assumption. Many hold that there will be a "Bryan scare" in September. Others, Mr. Ingalls among them, think that if Bryan were elected there would be a few days of disturbance, but no reflecting man fears a real upset in business. The senate is republican, and would be republican at the end of a Bryan term. There are conservative democrats to obstruct unwise measures. Finally, quoting Mr. Ingalls again, if Mr. Bryan once took the oath of presidential office he would

naturally be sobered and steadied somewhat.

The sensible course for business is the course it is now pursuing. It is building up a revival and trusting that there is no danger of a serious kind in politics. The September scare can be omitted without loss. Bryan's election would not require a disturbance. There are no signs that Mr. Bryan is going to be elected. Business never had more reason to trust the future and work in the present.

**IS THE WORLD DRYING UP?**

A French scientist who has been making a study of the subject, announces that the world is drying up. He finds that the wet spells and the dry spells alternate with consistent regularity. A wet spell, according to his computations, lasts about thirty years. Then a dry spell which lasts another thirty years ensues.

Every wet spell, according to the information from this investigator, is a little less wet than the one preceding it, and the latest dry spell is a little more dry than any dry spell before it. But it is fortunate so far, at least, that the diminution of the rainfall is not such as to cause immediate alarm. It is not expected by the French scientist that our children or our children's children will live to see the world become one vast Sahara. Not for several million years will the rivers be dried up and the oceans become wide stretches of sand.

**SHE OBJECTS.**

It is the custom of the Brooklyn Eagle in printing marriage license notices to give the ages of the parties to them as obtained from the license book. In this it differs from all the other New York papers, which merely give the names of the parties, but not the ages. And this practice of the Eagle has brought forth a protest from a young woman who is proposing to get married in September. She admits that she is several years older than the man she is going to marry, but seriously objects to having their respective ages given to the public. A woman's age is a delicate subject, she argues, and is nobody's business but her own, so she enters her protest against the form of publicity pursued by the Eagle. She goes so far as to assert that the paper is bought and read by many persons for no other reason than to ascertain the ages of the women and girls about to be married.

**MORE DAYLIGHT.**

Concurrently with the approach of woman suffrage, a "daylight bill" seems likely to pass parliament. The proposition is that on a given day at the commencement of every summer all the clocks in the United Kingdom shall be set forward eighty minutes. It is believed that if the bill passes a force may be set in motion which will revolutionize the day throughout much of the world. The object is to put more of the working day into the earlier and cooler hours, and bring "quieting time" about the middle of the afternoon, which will give the working people a chance to devote a much larger part of the day to the social duties of life.

Admiral Sperry's flagship, the Connecticut, got into communication by wireless the other night with San Diego, 2,500 miles distant, thereby establishing a new wireless record. That is a modern miracle, though of the scientific kind.

Mark Smith, delegate in congress from Arizona, is making his campaign for re-election on the appropriations for a public building at Phoenix. And Mark is a democrat.

An exchange is almost persuaded that public restaurants may yet be brought to such a state of perfection that people who eat with their knives and consume soup audibly will be persuaded to reform.

If the clouds would do as much at this point in the way of raining, as they do in threatening and thundering, we would have to navigate the streets in boats.

Nobody is so unreasonable as to expect that money made through corporation activities, but now consigned to individual bank accounts, can be barred from campaign contributions.

The Washington Star finds great relief in the fact that a letter of acceptance can be launched without compelling anybody to cheer for an hour and thirty-nine minutes.

**A CRIME MOST FOUL.**

(Needles Eye.)  
Rev. Father A. I. Eling, pastor of St. Ann's Catholic church, has been the victim of the strangest and foulest robbery during his recent absence at Flagstaff, Ariz. "The Rev. Pastor, before leaving placed in a blue iron box the sum of \$25, which he intended on his return to send for board and tuition to Wardmont's Seminary, Holland, where for the last five years his little nephew has been studying for the priesthood. This young lad has during these years always been depending on his uncle, Rev. A. I. Eling, for everything, as his poor parents were unable to provide for him in this line. This little iron box, mentioned above, contained besides the \$25, about \$5 in small change for current expenses, and about \$2.50, collected little offerings from pious souls. This little box, on the eve of his departure for Flagstaff, the Rev. Pastor placed in the collar and hid it very carefully between rags, boxes, papers, etc., so as to make it impossible to be noticed by the first naked eye inspection. The Rev. Pastor on his return,

wrote the letter in which he intended to put the \$25 money order, and went to the collar, where opening the door found different things in an unusual place. However, thinking of no foul play, the Rev. Pastor went to the place where he put the hidden treasure, found the box, but surprisingly he found it empty, everything was gone and gone forever. As the thief did not leave his name, it will be hard to find him out. Suppositions are that somebody more or less acquainted with everything, must have taken this fool, hazardous step. The Rev. Pastor, although greatly disappointed, and hardly able to meet the payment, feels consoled when thinking that money intended to be spent for such a sublime, noble purpose, will never accrue in the hands of the foul robber.

**BROKEN OFF SHORT.**

(Chicago Evening Journal.)  
A man is seldom so indifferent to his wife as he thinks she is to him. Frequently the spirit of anarchy comes in pocket flasks.

A man seldom goes more than a dime for a hard-luck story. Things you can't explain are generally none of your business anyway. How says it is for a man to think of the right corner at the wrong time. The professional society man is responsible only of entertaining silly women.

In the game of love a man is apt to draw a beauty until he makes a pair. Dentists prefer women patients because a woman is naturally inclined to keep her mouth open.

When some men start out to look for the desecrating bones their first stop is in front of the looking glass.

**THIS WILL LEARN HIM**

(The Almanac.)  
The Albuquerque Morning Muckraker Journal in its editorial columns of last Thursday's issue, revealed its given foot more pronounced than customary. In the same column in which it accuses President Roosevelt of another outrage, similar to that crime against civilization of which it accused him when he prematurely removed a Russian autocrat from New Mexico's gubernatorial chair, it takes a fling at Chairman Frank H. Hitchcock of the national republican committee, intimating that by fooling away his time to the west, he will probably lose the east as did President Harrison to Cleveland and thereby the presidency. Chairman Hitchcock will be careful hereafter to consult the Muckraking Journal when he moves about in the future for the Journal's outposts attacks upon President Roosevelt and the republican leaders of the territory including Delegates Andrews, entitle it (a special consideration from the hands of the republican party.

**TERRIBLY SCALDED**  
Is something we hear or read about every day of our lives. Burns and scalds either slight or serious are bound to happen in your family. Be prepared by having a bottle of Bal-lard's Snow Liniment handy. It relieves the pain instantly and quickly heals the burn. Sold by A. H. O'Leary Company.

SUDDEN CHANGES IN TURKISH CABINET

Impatient Populace Forces Dismissal of Unpopular Advisers of Sultan; Quiet Restored at Stamboul.

(By Morning Journal Special Lensed Wire.) Constantinople, July 29.—Street demonstrations here have now practically ceased but public indignation is growing at the delay in removing the obnoxious ministers and other government officials. Many reports are current of the dismissal and the flight of various officials but it is impossible to ascertain the details. It is confirmed, however, that the minister of Marine, Rami Pasha, has been forced out of office and replaced by Hall Pasha. An trade issues today appoints Izzet Pasha president of the commission for the inauguration of the Heja railway. He will leave Constantinople for that region at once.

It is said that Zeki Pasha, inspector of military schools, has been dismissed while Zelim Pasha, minister of mines and forests, has fled to Brindisi with his family. The reformers further demand the dismissal of Tahsin Pasha, one of the chief advisers in the palace, and Abdul Hudu, the sultan's astrologer.

Izzet Pasha's new appointment is equivalent to exile. Three hundred officers of the third army corps in Macedonia have been ordered to replace an equal number of officers of the imperial guard. Mar Gramianin, the Armenian patriarch of Constantinople, has resigned. The report originating in Vienna that the young Turks have called upon the foreign agents to quit Macedonia is unfounded. Dispatches from Monastir state that all the mutinous troops have returned to duty.

Chamberlain's Colic, Cholera and Diarrhoea Remedy Would Have Saved Him \$100.

"In 1902 I had a very severe attack of diarrhoea," says R. N. Farrar of Cat Island, La. "For several weeks I was unable to do anything. On March 18, 1907, I had a similar attack, and took Chamberlain's Colic, Cholera and Diarrhoea Remedy which gave me prompt relief. I consider it one of the best medicines of its kind in the world and had I used it in 1902 believe it would have saved me a hundred dollars' doctor bill." Sold by all druggists.

PROBING HOLD-UP OF CIVIL SERVICE EMPLOYEES

Custom House Officers Forced to Yield Money for Campaign is Charged.

Port Huron, Mich., July 29.—John McIlhenny, president of the United States civil service commission, and J. T. Doyle, secretary of the commission, will leave for Washington tomorrow, having completed an investigation here regarding reports that the fifty-five employees of the Port Huron customs house had been compelled to pay \$750 per month for campaign purposes for several years. Mr. McIlhenny declined to indicate what the result of the investigation had been or to say who had made the complaints. Every man in the service at Port Huron was questioned regarding the charges.

FEARS FOR SAFETY OF NEW FOUNDLAND GOVERNOR

Island Executive Aboard Steamer Believed Lost Off Labrador Coast.

St. Johns, N. F., July 29.—No tidings were received today of the whereabouts of the cruiser Plover with Sir William MacGregor, governor of Newfoundland, on board, and the anxiety felt for the safety of the vessel on account of the report of a severe northeast hurricane off the Labrador coast.

DOCTORS MISTAKES

Are said often to be buried six feet underground. But many times women call on their family physicians, suffering as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or over-busy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, begins up a treatment until large bills are made. The suffering patient gets no better. Reason for the wrong treatment, but probably worse, a proper medicine like Dr. Pierce's Favorite Prescription directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system. At a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," run-down, debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being as equalled as an appetizing cordial and restorative tonic. As a soothing and strengthening nerve tonic "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus' dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency. Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

CHANGE IN ORDER OF THE COAL STATES

Illinois Succeeds West Virginia as Second in List, Headed by Pennsylvania; Army of Moths Reaches Chicago; Windy City Gossip.

(Special Correspondence Morning Journal.) Chicago, July 28.—Increased production of coal in the United States has caused a change in the order of the coal producing states, according to statistics which have just been compiled by the government geological survey. Illinois, which in 1906 was third in production, is now second, and West Virginia has dropped to third place. Pennsylvania is still first on the list. Illinois' production for 1907, as given in the report, was 51,317,146 short tons, having a spot value of \$54,687,382. Export of coal from this country to Canada, Cuba and elsewhere have been steadily growing and this year promises to break all existing records. Latest government reports show total exports of coal for a period of eleven months as 11,565,242 tons, with a value of \$35,750,827. Corresponding figures for 1907 showed a total of only 29,939,347 tons, and 1906 was still less. The change in Illinois' position recalls the big coal strike of two years ago, as the increased production for 1907 was due to the renewed activity in mining after the recovery from the effects of the suspension in April, 1906. During this suspension practically all the important mines of Illinois were idle and 49,792 out of a total of 61,888 miners were unemployed for fifty-eight days. Because of the condition the production of West Virginia in 1906 exceeded that of Illinois by 1,810,246 short tons, as the suspension there affected only a small number of the mines for about thirty days.

POLICEMAN IS HELD FOR MURDER

Verdict of Suicide Fails to Satisfy Mother of Girl Slain With Officer's Revolver.

(By Morning Journal Special Lensed Wire.) New York, July 29.—An inquest was held tonight into the death of Barbara Reig, the young woman whose body was found in a shelter house in Irving Park, Williamsburg, Brooklyn, on the morning of July 21, by a bullet wound in the head. The jury returned a verdict to the effect that Miss Reig came to her death by her own hand.

Policeman David E. Shellard, who has confessed that he was with Miss Reig when she was shot, and who has insisted that she committed suicide with his revolver because he told her she could get rid of the love she professed for him, was greatly pleased with the verdict.

When Shellard was being taken back to jail after the inquest the young woman's mother rushed at him, crying, "Murderer," and she was kept from attacking him only by several policemen. The prisoner has been held by a magistrate for the inquest, and now that that is finished, he will be examined in a magistrate's court on August 12 on the charge of murder.

NEW COMMANDER FOR ASIATIC SQUADRON

Washington, July 29.—Orders have been issued by the navy department making a change in the command of the Asiatic squadron of the Pacific fleet. Rear Admiral Hemphill is relieved of the command and is succeeded by Captain Giles B. Harber, commander of the battleship Maine, of the Pacific squadron. In turn Captain Harber will be succeeded as commander of the Maine by Captain William B. Caperton, now in command of the cruiser Denver.

Changes in the personnel of the junior officers on the special service squadron already have been made. It is expected that the special service squadron, which constitutes the vanguard of the Atlantic fleet in its trip around the world, will leave Manila next Saturday, August 15.

NEW LONDON NO LONGER PUTS BAN ON UNIFORM

Washington, D. C., July 29.—Satisfactory assurances have been given the navy department by the officials and citizens of New London, Conn., that there will be no further discrimination against the enlisted men of the navy or the uniform of the United States in the places of public amusement in that city.

A formal letter has been received by Acting Secretary of the Navy Navy from the mayor of New London, N. H., stating that amusement managers of the city unite in extending a welcome to uniformed men of the navy.

SAYS WEST IS SOLID FOR BRYAN

Bill Connors of Buffalo Cheers Fully Explains Selection of Eastern Man for Democratic Chairmanship.

(By Morning Journal Special Lensed Wire.) New York, July 29.—William Connors, chairman of the democratic state committee, came here today to confer with Charles F. Murphy about the political situation in Brooklyn. Messrs. Connors and Murphy are also to fix a time and place for the state convention, and to call a meeting of the state committee. Norman Mack, chairman of the national democratic committee, is due here tomorrow. When asked about the selection of Mr. Mack as national chairman, Mr. Connors said: "Why, Mack was my choice all the time. I wanted him elected." "Why didn't they pick a western man?" "Because the fight will be in the east," replied Mr. Connors. "The west is solid for Bryan. We won't have any trouble in the west."

MONTH OF JUNE DRY AND COOL

Remarkably Light Precipitation Feature of Weather For Month According to Weather Bureau Report.

The weather during the month of June in New Mexico was unusually dry and cool, according to the monthly report of the climatological service issued by Section Director Montrose H. Hayes in Santa Fe.

Hayes from a temperate standpoint, the numerous cold nights made the month noteworthy feature. The precipitation, however, was remarkable in being so light; the year 1902 is the only one that has had a lower June rainfall, and no June covered by the records has had a lower average of rainy days.

The month opened cool, and on the first few days frost formed at numerous points in the northern and northwestern counties. There was no perceptible rise in the temperature, but for the first seven days the weather was uniformly and unseasonably cool. After the 8th there was a steady and uniform rise in the temperature, and the warmest days were the last few of the month; however, despite this increase, both the nights and the days were, in most sections of the territory, not so warm as is usual in June. The mean temperature for the month was below the normal in several counties except Eddy, Union and eastern Cochise. In all parts of the territory, except southwestern Union, the nights were abnormally cool, and relatively they were cooler than the days (that is to say, the night thermometer readings were farther below the normal night temperatures than the day readings were below the normal day temperatures) except in Taos, northeastern Rio Arriba, southwestern Union and southwestern Sierra. Low-temperature have occurred during several Junes, but the section records show no such long continued periods of cool nights. The very low relative humidity and the cloudless weather between sunset and sunrise were quite favorable for night temperatures, as they caused, or permitted, a very active radiation. In scattered localities of the northeast and southeast,

and in eastern Socorro county, the days were warmer than they usually are in June, but everywhere else the maximum temperatures were below the normal. The greatest departures occurred in northeastern Rio Arriba county, where the day or maximum temperature averaged a little over 2 degrees below the normal. The maximum temperature for the month was above 100 degrees in the eastern and southeastern tier of counties, and in the Rio Grande valley section of Socorro county; it was between 90 and 99 degrees in central McKinley and central Socorro counties and in the country lying to the northwest of Las Vegas and Santa Fe; elsewhere it was between 80 and 100.

Until the 23d the precipitation was confined to very widely scattered showers that amounted to no more than traces except in a few localities. On the 23d the weather became showery; thunderstorms occurred frequently during the remainder of the month, but the precipitation accompanying them was very small with the sole exception of the 25th, when moderate rains occurred over a large part of the territory. The heaviest precipitation occurred in the Pecos valley from southwestern Guadalupe county northward, over the headwaters of the Canadian, and in southern and eastern Eddy county. Even in these regions, however, the monthly amount was much below the normal. In Dona Ana county, southern Luna and southern Grant there was no rain. In other parts of the territory the average amount was not equal to 20 per cent of the normal.

Important Announcement

We wish to announce to our friends and customers, that on and after the first day of August, we will adopt a new business policy, conducting our store on a CASH BASIS. After four years of faithful effort to treat our customers fairly under the old credit system, we have decided that modern methods and the present day keen competition make a cash basis the most desirable from all points of view. The most salient fact in the old system is this: that a part of our customers pay cash for their supplies and the rest get them at the same price, and in addition, get the use of our money from thirty to ninety days or longer. No merchant, with a big investment in stock and perhaps an equal investment tied up in book accounts, can sell his merchandise on as close a margin as the cash merchant, who does as much or more business on half the investment. Other important points are these: The cash merchant is not compelled to add to the price of his goods the amount he loses in bad accounts. The cash merchant can frequently pick up wares thrown onto the market at a sacrifice and turn them over to his customers at a small margin of profit, which the credit merchant could not handle and charge up on his books. Nor does the cash merchant find it necessary to hold up his profits in meeting competition, by giving his customers cheaper goods. Thanking our friends for past patronage and determined to have a SQUARE DEAL for all under our new system, we remain, Yours very truly, THE MONARCH GROCERY COMPANY. By Ray D. Stevenson, Pres.

FULL PROGRAM FOR CHAUTAUQUA ASSEMBLY

Good List of Lecturers in the Mountainair Course Which Opens With Address by J. D. Tinsley on August 15.

The Mountainair Chautauqua Assembly opens at Mountainair, N. M., on August 15, and a most interesting program has been completed for the event. A rate of one and one-fifth fare for the round trip has been granted by the Santa Fe, and Rock Island railroads from all points in New Mexico, and there is good reason to believe that the first year of the assembly will be as successful as its promoters could wish. The following circular has been issued giving the program: Mountainair is located at the summit of Abso Pass, on the new A. T. & S. F. short line from Chicago to the Pacific coast. It is near the center of New Mexico, forty miles east of Helen and fourteen miles west of Willard. It is in the timber belt, cedar and pine, twelve miles from the base of the Manzana mountains, and is the nearest station to the historic town of Mountainair, the ruins of La Cueva and La Gran Quivira. It has fine water and the climate is unsurpassed. Its altitude is 6547 feet and its average rainfall is about nineteen inches, sufficient to make dry farming an assured success. It was the first town in New Mexico to prohibit by deed saloons, gambling and kindred evils. This feature alone has attracted the best class of people, the kind who make a Chautauqua, erect school houses and churches, and build homes. It is this nucleus around which, amid the surroundings described that the good people of the Sunshine Territory are starting a Chautauqua assembly this year, and the cooperation of all good people is earnestly solicited. Following is the program as far as it is possible to arrange it at this time: Saturday, August 15, Farmers' Day. Addresses—Prof. J. D. Tinsley, Prof. Luther Foster, Prof. Garrison and Sherman Carmony. Sunday, August 16, Sunday School Day. In charge of C. H. Appleton, president New Mexico Sunday School association. Lecture, 7:30 p. m.—Dr. Samuel Blair. Monday, August 17, Bible lecture 10:30 a. m.—Rev. H. M. Perkins. Sports. Lecture, 7:30 p. m.—"Cranes"—Chaplain C. C. Bateman. Tuesday, August 18, In charge of representative 10:30

One million dollars was the cost of the bakery where Ha-Ha Snaps are made. The ovens are white tile, on the TOP FLOOR—surrounded by sunshine.

Ha-Ha Snaps

A spicy, gingery wafer, with a pleasing flavor and delicious taste. Good at any meal and between times.

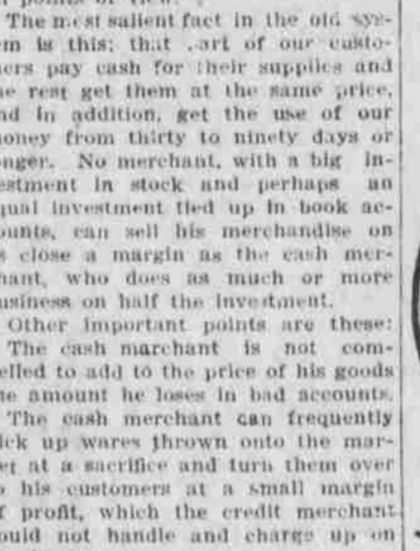

The million dollar sunlit bakery makes you certain of their purity and wholesomeness.

Then they are packed in thrice-sealed, moisture-proof cartons—this keeps them fresh and crisp.

Please try them today—learn how much better they are than the common ginger snap.

democratic convention. The local decorations, according to the plans submitted by the company, will be very elaborate. Gentlemen and wife desire a good, well furnished house of about five rooms, in good location. Address H. B. W., care Journal office.

Nicholas Hengel, of Gallup, the well known contractor and builder, spent yesterday in the city looking after business matters.

Frank R. Harris, clerk in the Bank of Commerce, returned last night from a two weeks' vacation spent in Los Angeles and San Bernardino.

Be sure and stop at the San Jose Market and take home a pound of that Colonial Cream Cheese, for it is the finest cheese that was ever in Albuquerque.

August Zenz left last night for Gallup after spending the past ten days visiting his family at 1022 South Third street. Mr. Zenz is a Santa Fe engineer at Gallup.

The funeral of Colonel Walter D. Jones will likely be held Saturday afternoon. Several near relatives of the deceased are en route to the city from the east to attend the funeral.

The Young Men's Democratic and Improvement club will hold a meeting tonight in the club rooms over the San Jose restaurant at 8 o'clock. At this meeting the Bernadillo County Democratic club will be affiliated with the Young Men's club and a full attendance of the membership of both organizations is desired.

There will be a meeting of the Jefferson Democratic club Friday night at 8 o'clock in the Koster city building on North Second street. The committee appointed to secure a suitable room for holding meetings and for other purposes will make a report. Every member of the club is requested to be present. W. M. Clayton, president; J. H. Baker, secretary.

The new armory and convention hall is practically completed and will be ready for the formal dedication in a week or ten days. It is planned to make the dedication an impressive event and a number of prominent men, including the governor, are expected to be present on the occasion.

Mrs. Guy Lummer, aged 27 years, passed away at 5:30 yesterday afternoon after a residence of four years in this city. The deceased is survived by two children, having lost one only six months ago; three sisters and one brother. The funeral will be held at 2:30 this afternoon from the residence of the deceased's sister, Mrs. John Clarke, 409 South Hunting avenue, Rev. J. A. Shaw officiating. The burial will be in Fairview cemetery.

Governor Curry has appointed the following delegates to represent New Mexico at the meeting of the American Prison association to be held at Richmond, Va., beginning November 14: Captain J. W. Green, of Santa Fe; Hon. R. W. D. Bryan, of Albuquerque; Rev. E. McQueen Gray, of Carlsbad; Hon. J. E. Wood, of Santa Fe; Mrs. Madi Dillon Masterson, of Watrous; Miss Edna Berger, of Belen.

GOOD SUMMER MEDICINE

BROWNS MEET GRAYS FLICKERLESS FILMS NEXT SUNDAY AT RINK

Second Game of Series for City Championship Promises to Be Interesting; Both Teams Lately Strengthened.

The Browns and Baratas Grays will meet at Traction park Sunday afternoon to play off the second game of the series of three for the championship of the city. The Browns are determined to put the Baratas lads to the bad this time and are out at the park every evening putting in some strenuous practice. The Grays are equally determined to carry off the honors and are also practicing daily.

The game Sunday will commence at 3 o'clock. The admission fee of twenty-five cents will include the grand stand. Manager Padilla, of the Grays, has signed up with Santa Fe for a game for Sunday, August 9. It has not been decided whether the game will be played in Albuquerque or Santa Fe. Padilla has also sent a challenge to the Dawson team, asking for two games to be played in Albuquerque within the next few weeks.

Padilla has received a letter from Winslow asking for a game to be played either in Winslow or Albuquerque. The Baratas manager answered the letter giving the Winslow boys the choice of one or two open dates. No answer has yet been received, however. The Santa Fe company has advised the local baseball men that it will extend a special round trip rate of one and a fifth fare between all points in the territory, providing that they receive notice ten days ahead of the purchase of the tickets. This notice is required on account of the company being compelled to file its rate schedule according to the interstate commerce laws.

RESTORATION OF MOTTO ON COIN PLEASERS POPE Rome, July 29.—The Pope today received Rev. A. P. Doyle, rector of the apostolic mission house, Washington. Father Doyle presented to the Pope an American gold coin, on which the inscription, "In God We Trust" is now restored, relating to his holiness the circumstances connected with the removal and later the restoration of the motto. The Pope was greatly pleased at hearing that the motto had been omitted for reasons not connected with religion, and that the religious sentiment of the country was strongly in favor of the restoration of the words.

Guaranteed Shoes

Much is said by the retailer about guaranteed Shoes, but in a great many cases the word "guarantee" does not mean anything—We, therefore, want to make the following positive statement as to what we mean when we agree to "guarantee" our

Hanan & Sons Shoes and W. L. Douglas Shoes

Here it is: Every pair of Hanan & Sons \$5.00 or \$5.50 Shoes, and every pair of W. L. Douglas Shoes costing \$3.50 and up, is warranted to give satisfactory wear. If the upper breaks before the bottoms are worn through we will give a new pair free of charge—One allowance to be made for hard usage. Other defects will be rectified and proper allowance made. (patents not included)

SIX MILLION DOLLAR POWER PROJECT IN JAPAN

Americans, English and Natives Interested in Ambitious Scheme to Supply Cheap Power to Cities of Nippon.

(By Morning Journal Special Leased Wire.) Tokio, Tuesday, June 23.—The rich field offered by Japan for the development of water power schemes is now beginning to be practically recognized by English and American financiers who, with a Japanese syndicate, have just completed arrangements for commencing work on what probably will be the greatest water power undertaking in the world. What is known as the Kobe syndicate, limited, has already acquired concessions in the Japanese Alps, capable, it is estimated, of ultimately developing something like 300,000 horse power, and of furnishing this power to various enterprises in Tokio, Yokohama, Yote, Kobe and other important commercial centers of Japan. In the spring of 1906 the Kobe syndicate dispatched an expert hydraulic engineer, Julius M. Howells, an American, to report on the concessions already secured. Mr. Howells personally discovered some additional water power propositions, one of which was described as perhaps the most remarkable in the world. It is situated at Mount Fuji, in the Japanese Alps, and consists of two rivers, the Fuji-Kawa and Tashara-Gawa, which flow parallel to each other, but with a difference in elevation of no less than 3,000 feet. Mr. Howells' proposal is to make a tunnel through the mountain range and drop the Fuji-Kawa bodily into the Tashara-Gawa, by which means it is estimated that about 100,000 horse power could be developed. Another scheme in the same neighborhood is offered by the Oigawa, with a drop of 550 feet and a capacity of 60,000 horse power, which the joint syndicate proposes to handle first, at the least troublesome. The power site of the Oigawa is situated within easy transmission distance of Tokio (only 105 miles), as also of Osaka, Kobe, Yokote and Yokohama. The same remark applies to the more ambitious Fuji-Kawa scheme. These distances compare advantageously with the Niagara hydraulic works, and with others in California and the Victoria falls project on the Zambesi.

INFURIATED HUSBAND SLAYS WIFE, THEN SELF

Lebanon, Mo., July 25.—Infuriated because she had filed suit for the annulment of her marriage, Grover W. Loughby, twenty-one years old, an employe of the St. Louis and San Francisco railroad, shot and killed his seventeen-year-old bride of less than a week, almost at her mother's feet today, and a moment later sent a bullet crashing through his own heart, falling dead a few yards from the body of his wife.

CANDIDATE RUNS DOWN AND KILLS WAYFARER

Fatal Accident Leaves Vacancy on Republican Ticket in Ohio. Dayton, Ohio, July 29.—Coroner Schuster today returned a verdict in the case of the accidental killing of Eugene Sullivan by Herbert G. Catrow, republican candidate for congress. The finding is to the effect that Catrow's automobile was being driven at a dangerous and unlawful rate to injuries received from collision with the car. This accident was the cause of the withdrawal of Colonel Catrow. His successor has not yet been named.

RESTORATION OF MOTTO ON COIN PLEASERS POPE

Rome, July 29.—The Pope today received Rev. A. P. Doyle, rector of the apostolic mission house, Washington. Father Doyle presented to the Pope an American gold coin, on which the inscription, "In God We Trust" is now restored, relating to his holiness the circumstances connected with the removal and later the restoration of the motto. The Pope was greatly pleased at hearing that the motto had been omitted for reasons not connected with religion, and that the religious sentiment of the country was strongly in favor of the restoration of the words.

MORTON IN COMMAND OF CROW CREEK MANEUVERS

Cheney, Wyo., July 29.—Brigadier General Morton, who will be in command at the Crow Creek army camp during the 1908 maneuvers and a large party of officers passed through here today in a train en route to the camp. General Morton was met here by the frontier week committee and arrangements were made for a three days' military drill during this year's celebration, August 19, 20, and 21.
