

ALL-MAKES COMBINE PARTS CATALOG

ALL MAKES. ALL QUALITY

The small harvest-time window waits for no one. That's why we want to be your single, convenient combine maintenance source - offering products that span a wide range of needs. Our comprehensive allmakes line gives you more parts options for any make of combine in your shed.

This industry-leading parts collection was hand-selected by our expert engineers—so there's no need to worry about fit or performance. Choose from our private-label, value-priced offerings and some of the industry's most well-known and respected brands:

- Gates®
- Permatex
- Prairie Belting Diamond®
- Schumacher

Drives®

May Wes

- Trimble[®]
- Fleetguard
- Loctite
- J. W. Speaker

ECCO®

- And many more

Questions about which part is right for your combine? Your dealer is at the ready—there to help with ordering, consultation and service.

MAINTAIN TO PERFORM

Harvest is fleeting, so you'll want to be sure your equipment is ready to perform at peak performance when the time comes. Follow these maintenance tips to make the most of the season.

DRIVE CHAINS AND BELTS

- Insufficient or excessive belt and chain tension puts extra stress on several combine components, so check the chain tension and measurements according to the service intervals in your operator's manual. Chains that measure more than 3 percent longer than the original chain length may need to be replaced.
- Inspect the sprockets for excessive tooth wear or cupping. When replacing the chains, always replace the sprockets as well. Putting new chains on worn sprockets will lead to premature wear.
- Check the belt for cracks—especially those that run across all three ribs in the same place.

CONCAVES

- . Inspect the wear edge of the concave bars, the straightness of the bars and overall concave condition. In general, the lower and smoother the bars get, the less aggressive the threshing action. Broken or damaged wires can be replaced individually.
- With concaves removed, check for cracked, twisted, broken or loose rasp bars. If you can no longer read the number on the bolt head, it's time to replace the rasp bar.
- If you're switching crops, configure your machine for the next crop with the proper components. Next, measure the clearance of the rotor and calibrate it with your cab controls to ensure accuracy. This is a crucial step that prevents rasp bar/concave collision that can result in damage or premature wear.
- Measure and adjust the sieve openings according to the given crop or condition. Make sure the sieve wires aren't loose in the side rails, and that there are no broken or bent louvers.

FILTERS AND FLUIDS

- . To ensure max uptime, check and change the engine, hydraulic and gearbox fluids and all filters according to the service intervals in your operator's manual.
- Don't forget to check the engine coolant and cooling system.
- . The higher combustion temperatures and cylinder pressures of Tier-4B engines call for a coolant that resists deposit buildup and other issues that can occur in such extreme conditions. Trust our fluids from your Case IH dealer to outperform competitors.

See your dealer for a full parts selection.

CUTTING PARTS

BETTER YOUR CROPS WITH QUALITY CUTTING PARTS

Don't bend on top-quality knives. Knife guards often bend and become damaged when a knife section hits large stones or objects. To avoid such damage, our cutting parts are manufactured for extreme durability and wear life.

With superior knife sections, stronger guards and well-adjusted cutting systems from Schumacher and Crary, you can stretch the lifespan of your cutting parts. Designed to eliminate damage to the guards and limit breaking or bending, these cutting parts provide a cleaner cut and better flow of crop material.

SCHUMACHER EASY CUT

PART NO.	DESCRIPTION		
SECTIONS			
86561692	Pro Cut, fine, 11 teeth per in.		
84158455	Pro Cut, coarse, 7 teeth per in.

CRARY GOLD'N CUT

PART NO.	DESCRIPTION	APPLICATION
86561624	Guard with built-in wear bar	Case IH 2020, 3020, 2142, 2152, 2162; Lexion F25, F30, F535, F540; MacDon platforms, windrowers; New Holland 970, 971, 972,973, 71C, 73C, 74C, 740CF. Used on Case IH 820, 1010, 1020 with Crary systems 1995 and prior.
86561626	Spring-loaded hold-down guard	Use with 86561624
84151693	Front wear strip	Use with 86561626
87058720	Rear wear strip	Use with 86561626

AVOID DAMAGE—AND DOWNTIME

Broken metal fingers can cause serious damage to rotors and cylinders. Poly retractable fingers are a better alternative to metal fingers because broken poly will disintegrate before causing damage to the combine. Our poly fingers are strong and resilient, and will not fray with heavy usage. They are designed to bend 10 degrees past the normal breaking point, meaning less breakage and lower repair costs for your operation.

CUT CLOSER TO THE GROUND TO GATHER MORE CROPS

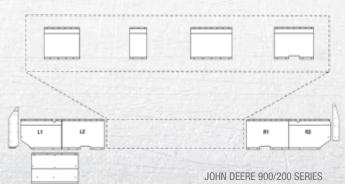

Poly skid shoes protect your header in tough conditions, so you can collect more crops from the field. The sturdy, yet lightweight construction of our poly skid shoes prevents soil and debris buildup on your combine head, allowing for closer-to-ground grain cutting.

STALK STOMPERS

LEVEL CORN STALKS WITH STALK STOMPERS

Protect your tires and tracks from corn stubble damage with our line of Quick Disconnect Stalk Stompers. The heavy-duty construction of these Stalk Stompers crushes corn stubble, saving you the cost of replacing tires or tracks. Plus, with interchangeable components and replacement parts, you can find the right parts for your budget.

PROTECT YOUR GRAIN WITH QUALITY CONCAVES

Don't risk your equipment investment—and your grain quality—with anything but the best. Our line of small wire, large wire and round bar concaves fits all makes and models of equipment offers a lifespan two to three times longer than that of competitors.

CONCAVES

Concaves are crucial wear parts—and ours offer superior fit and durability for higher grain quality. They meet or exceed factory performance, and offer accurate fit-up. An exceptional value, standard concaves are ideal for tough threshing crops such as rice.

JOHN DEERE

PART NO.	DESCRIPTION		APPLICATION

KX7 CONCAVES

At half the width of traditional concaves, the KX7 concave system provides even greater customization of threshing configurations with the MaxThreshTM and MaxRoundTM box inserts. Designed for the front section of the rotor, the MaxThresh threshing concave optimizes air flow disruption with angled bars that meet the crop head-on. MaxRound provides easy and gentle threshing for delicate crops—while also serving as an optimal separation concave when MaxThresh has threshed the seeds. Heat-treated for extended wear, the KX7 concave system allows you to reap the benefits of faster threshing and increased combine capacity—ensuring maximum productivity in the fields.

BETTER YOUR OPERATION WITH PROPER BELTING

Improve your operations with our draper belting, all-makes combine belting and pick-up belting. Our variety of belting options provide increased belt strength and tension-loss reduction for longer wear life. No need to worry about unnecessary downtime from belts in need of maintenance or repair—our belts offer the quality and reliability you need to always get the job done.

- Draper belting
- Pick-up belting
- Gates belting

DRAPER BELTING

Our all-makes draper belts are made of heavy duty, longer-lasting, rubberized polyester with fiberglass reinforced slats. Stronger belting fabric with high tensile strength provides 30 percent more resistance to ripping vs. standard belting. Draper belts are designed with full rubber covers to provide better traction and less slippage in heavy crop conditions.

BELTING BELTING

PICK-UP BELTS

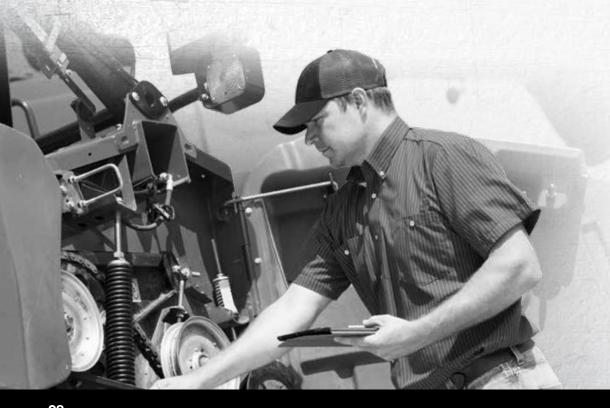

Our pick-up belts are equipped with a two-ply polyester construction for strength, tracking and stability. Featuring a Clipper® double-staggered-grip pattern, the wire hooks give exceptional holding power without degrading the integrity of the belt carcass. Pick-up belts are ozone-, oxidation- and oil-resistant.

GATES BELTING

Our wide selection of well-crafted Gates belts is designed to replace original serpentine drives and heavy-duty V-ribbed applications. Constructed to eliminate belt noise and reduce tension loss, our V-belt design will help your system run smoothly. The extra heavy-duty construction also resists cracking and wear. Browse a selection of our belts below—and visit us to view our full line.

STRENGTHEN YOUR MACHINE WITH TOUGHER CHAINS

Our selection of heavy-duty roller chains was built with all makes and models in mind. These chains are developed to withstand high loads, for an extended life and less downtime. To ensure next-level functionality, each chain is fabricated using heat treatments, shot peening, pre-lubrication and factory preloading.

Visit your dealer to see our full selection of available chain sizes and our extensive line of roller, offset and connecting links.

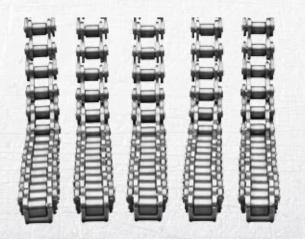

DIAMOND® CHAINS

To better suit your needs, these high-quality Diamond® precision roller chains come in a variety of sizes and are constructed to meet all chain standards.

DRIVES® CHAINS

Our U.S.-manufactured precision roller chains feature wide-waisted link plates to maximize strength and improve stress distribution, leading to enhanced chain performance, while the utilization of solid rollers improves rotation to reduce impact load.

INSERT BEARINGS ENGINE OVERHAUL KITS

THE PARTS YOU NEED TO KEEP THINGS MOVING

We have bearings for all makes and models of machines—and all budgets. Our engineers test all bearings to ensure top quality and long-lasting performance. Plus, our value line offers a cost-efficient option that performs to the highest of standards. So no matter what color, your combine will be ready to run. Visit us today to view our extensive line of bearings and seals.

VALUE PART NO.	OE PART NO.	DESCRIPTION	JOHN DEERE	GLEANER	MASSEY FERGUSON

OVERHAUL YOUR ENGINE WITH EASE

Our engine overhaul kits offer all-in-one convenience, providing everything you will need for an engine overhaul. These all-makes kits were designed to accommodate the upkeep of your engine, whether for a major overhaul or minor engine procedures. In addition to being the most complete kits to help you finish the job, our engine overhaul kits are made with the highest quality components for longer engine life. Visit us for more information on overhaul kits and other remanufactured engine components.

HARVEST YOUR CROPS—AND DATA

In today's farming environment, every inch and minute matter. Get the most out of your harvesting operations—and your time—with Trimble's proven precision agriculture technology. Trimble guidance displays, steering systems and yield monitoring products work across many equipment platforms and crop windows—providing industry-leading analysis and accuracy.

YIELD MONITORING SOLUTIONS

View, map and measure crop yield and moisture data in real-time for an instant understanding of crop performance with Trimble yield monitoring solutions. Delivering precision harvesting at its best, yield monitoring sensor kits allow you to gather robust data to precisely evaluate your yield and maximize productivity.

- · Variety tracking: Map and compare the performance of different seed varieties throughout your field.
- Load tracking: Record the amount of grain harvested and loaded onto your trucks.
- Moisture tracking: Determine if grain needs to be stored or dried based on the in-field moisture content.
- Auto-cut width: Adjust the cut width automatically when traveling over odd-shaped fields, point rows or other previously harvested areas to avoid inaccurate area and yield calculations.
- Flexible installation options: Install yield monitoring on a wide range of combines, based on your setup and needs.

EZ-PILOTTM ASSISTED-STEERING SYSTEM

Using GPS guidance displays, the EZ-Pilot assisted-steering system turns the steering wheel for you with an electric motor drive—keeping you on line and improving your efficiency. The versatile steering system is ideal for both low-accuracy broad acre farming applications as well as high-accuracy row crop applications.

- Utilizes T3™ terrain compensation technology for high accuracy on rolling terrain, slopes and other demanding farming applications
- · Allows for unrestricted manual steering when assisted steering is not engaged
- Steering system can be installed onto existing steering wheels and used with telescoping steering wheels
- Motor integrated into the steering column provides clear access to all instrument panels without a decrease in cab legroom

AUTOPILOT™ AUTOMATED-STEERING SYSTEM

The Autopilot automated-steering system provides integrated, high-accuracy steering for maximum precision and increased productivity. When your vehicle goes offline, the hands-free Autopilot system signals it to adjust its position and follow the correct path—no matter the field pattern or terrain type.

- Complete field applications quickly and accurately
- Provides automatic steering for your vehicle with 1-inch repeatability
- Integrates directly into your vehicle's hydraulics for reduced clutter in cab
- Utilizes terrain compensation technology for high accuracy on difficult terrain

EXIDE® ROADFORCE® AGM BATTERIES

When it comes to meeting the power demands of today's heavy-duty equipment, you need a battery that can stand up to the challenge. Exide RoadForce AGM (Absorbed Glass Mat) batteries are built to handle the toughest conditions—giving you the power to maximize productivity.

- Lasting energy—enjoy two times longer life and increased endurance as compared to conventional flooded batteries, plus greater energy capacity over the life of the battery
- Maximum durability—Roadforce AGM batteries are more durable than conventional flooded batteries, with significantly higher vibration resistance for decreased damage and corrosion. They're also designed to better withstand extreme temperatures
- Fast recharge—batteries offer an enhanced charge acceptance and substantially higher cycling endurance for faster recharge, even under extreme conditions
- Spill-proof—batteries feature a no-spill* absorbed glass mat construction

^{*}Under normal operating conditions

GASKET MAKERS

Count on our gasketing products for precise, reliable sealing. The formulations are resistant to high operating temperatures and fluids, and have high torque retention and sensor-safe characteristics. We offer a wide variety of anaerobic, RTV silicone or solvent-based products to meet a broad range of complex gasketing and sealing needs.

PART NO.	PRODUCT	SUGGESTED APPLICATIONS	CONTAINER SIZE
ZPX80500	Permatex® Form-A-Gasket #2 Sealant	Coating cut gaskets to hold in place and improve sealing	80 ml
ZPX18130	Permatex® Aviation Form-A-Gasket #3 Sealant	Gasket coating or sealing close fitting parts, water pump gaskets, oil pan gaskets, timing gear covers and coolant hose connections	16 oz./473 ml
ZPX30564	Red RTV Silicone	Formulated for high-temp or heavy-duty applications such as: valve covers, oil pans, timing covers, water pumps, thermostat housings and transmission pans	7.25 oz. Power Can/205 g
ZPX85519	Ultra Blue® Gasket Maker	Designed for high-torque, high vibration applications where maximum hot oil resistance is desired	9.5 oz. Power Can/269 g
ZPX18572	Permatex® Ultra Grey® Gasket Maker	Vibration and oil resistant gasket maker for applications such as valve covers, oils pans, intake manifold end seals, timing covers, water pumps and thermostat housings	80 ml

LIQUID THREADLOCKERS

Liquid Threadlockers are superior to conventional lock washers, nylon inserts and other mechanical devices because they maintain fastener-clamping forces and prohibit the entire assembly from loosening due to shock or vibration. Threadlockers also seal the threads against leakage and prevent rust and corrosion. Available in a variety of strengths and temperature ranges, threadlockers remain the most reliable way to lock and seal threaded fasteners of all shapes and sizes before or after assembly.

PART NO.	PRODUCT	SUGGESTED APPLICATIONS	CONTAINER SIZE
ZPX29050	Permatex® Penetrating Grade Threadlocker Green	Set screws, adjustment screws, pre-assembled fasteners, electrical connectors and carburetor adjustment screws	1.69 fl. oz./50 ml
ZPX27010	Permatex® High Strength Threadlocker Red Gel	Secure all nut and bolt applications 3/8" to 1"	10 g
ZPX24010	Permatex® Medium Strength Threadlocker Blue Gel	Secure all nut and bolt applications 1/4" to 1"	10 g

ADHESIVES

We offer a range of quality liquids, pastes, aerosols, putties and gels designed to meet any number of equipment applications. From bonding auto trim to sealing weather stripping or repairing broken grilles, there's an adhesive or sealant for all of your repair needs.

PART NO.	PRODUCT	SUGGESTED APPLICATIONS	CONTAINER SIZE
BC1395391	Loctite® Quick Set Epoxy	A water-resistant, clear, permanent 2-component adhesive for large or multipiece projects, atuo trim, tools, emblems or knobs that require the highest bonding strength. Also use as filter for gap filling and surface repairs.	0.85 fl. oz. kit
MC37460	Loctite® RTV Black Silicone	Seals, bonds and repairs windshields, door frames, electrical connections, seams and roofs, vinyl tops and weatherstripping. Protects electrical wiring.	80 ml tube
MC37532 Loctite® Black Weatherstrip Adhesive		Cut gaskets, auto or van carpeting, door and trunk moldings, vinyl upholstery.	5 fl. oz. tube

PART NO. MC37532

LUBRICANTS

Loctite® anti-seize and lubricating compounds are premium-quality products developed to protect metal parts from corrosion, galling and seizing. They ease assembly and disassembly of slip-fit, press-fit and threaded joints, and reduce friction and wear at temperatures up to 1,800 degrees Fahrenheit. Formulated for severe environments, these products protect against high temperatures, heavy loads, chemicals, pounding and vibration.

PART NO.	PRODUCT	SUGGESTED APPLICATIONS	CONTAINER SIZE	
MC996456	Loctite® Freeze & Release	Seized and corroded assemblies of threaded and cylindrical parts. Any applications where a threadlocker or anti- seize has not been previously used and, rust and corrosion has formed.	13.52 oz. aerosol	
MC37584	Loctite® Silicone Lubricant	Lubricates door locks, trunk lids, brake cables and rubber molding.	13 oz. aerosol can	

PART NO. MC996456

CLEANERS AND DEGREASERS

Prepare your parts and work surfaces for maintenance and repair with our cleaners and degreasers. Once your equipment is free of dirt and grease, protect it with silicone polish for a long-lasting, brilliant shine.

PART NO.	PRODUCT	SUGGESTED APPLICATIONS	CONTAINER SIZE
MC30548	Loctite® Pro Strength Parts Cleaner	All-purpose parts cleaner that penetrates, dissolves and removes contaminants from metal assemblies	19 oz. aerosol can
MC79040	Loctite® Chisel® Gasket Remover (Methylene Chloride)	Removes silicones, baked- on gaskets from aluminum, weatherstrip adhesive, dried oil, grease, paint and varnish	18 oz. aerosol can
MC82249	Loctite® Natural Blue® Biodegradable Cleaner & Degreaser	Engine parts, bearings, exhaust hoods and equipment	24 fl. oz. spray bottle

PART NO. MC30548

OBSERVATION SYSTEMS OBSERVATION SYSTEMS

A GOOD OBSERVATION SYSTEM IS EASY TO SEE

Get the advantage of real-time vision where it matters most with Voyager® heavy-duty observation systems. Voyager offers a variety of options including wireless units, multi-view monitors, and waterproof and CMOS cameras—allowing you to create and customize your own unique system to fit your specific needs.

CAMERAS

Voyager cameras deliver real time images of your surroundings and offer wide viewing angles and improved field depth. High-performance CMOS color technology significantly improves picture quality—handling high-light (daytime) and low-light (night time) scenarios with ease. Plus, waterproofed units allow cameras to withstand dust, extreme temperatures and high-pressure steam spray.

	PART NO.	DESCRIPTION	HEIGHT	WIDTH	DEPTH	VIEWING ANGLE

UNIVERSAL MOUNTS

Keep your hands free with universal mounts for smartphones, tablets and monitors. The spring-loaded X-mount design securely holds your device in place—keeping side buttons and ports unobstructed and providing flexible viewing angles.

PART NO.	DESCRIPTION
ZAEBARPHONEMNT	Univeral Smartphone Mount
ZAEBARTABLETMNT	Univeral Tablet Mount
ZAEOSHD4MNTHD	Universal Monitor Mount (4" Pedestal)
ZAEBARMNTHD	Bar Monitor Mount
ZAEVOSMAGMNT	Camera Magnet Mount

DIGITAL WIRELESS OBSERVATION SYSTEMS

Digital wireless observation systems feature WiSight™ technology that digitally locks the camera to the monitor—ignoring outside signals and eliminating interference. WiSight technology is strong enough to travel through and around objects up to 60 feet away and delivers a sharp, vivid picture of the vehicle's surroundings to the monitor.

ONE-CAMERA OBSERVATION SYSTEM (5.6-INCH MONITOR)

- 5.6-inch wireless monitor with 12V accessory plug and suction-cup mount (ZAEWVOM513AP)
- CMOS wireless backup camera (ZAEWVCMS10B)
- Non-corrosive camera mounting bracket
- · Additional input for one wired camera

PART NO. ZAEWVOS5MDCL1B

ONE-CAMERA OBSERVATION SYSTEM (7 -INCH MONITOR)

- Same features as ZAEWVOS5MDCL1B with the exception of a larger 7-inch monitor
- · Additional inputs for two wired cameras

PART NO. ZAEWVOS7MDCL1B

MULTI-CAMERA OBSERVATION SYSTEM WITH QUAD-VIEW

- 7-inch wireless multi-view monitor with four camera inputs
- · Single, split and quad display modes
- One wireless waterproof CMOS camera (ZAEWVCMSQ1B)
- 5dBi antennas (2)
- 9.5-foot extension cables (2)
- Mounting bracket

PART NO. ZAEWVOS7MDCL1Q

BARNVIEW SURVEILLANCE SYSTEM

Keep an eye on your farm with the BarnView digital wireless surveillance system. With a viewing range of up to 1,000 feet, BarnView allows you to monitor up to four live areas at one time via your smartphone, tablet or included monitor. System includes docking station, built-in DVR and motion detection email alerts.

- 7-inch multi-view LCD touchscreen monitor with four camera inputs
- One waterproof camera with microphone
- · Additional cameras sold separately (BARNVIEWCAM)

PART NO. ZAEBARNVIEW1

PART NO. ZAEBARPHONEMNT

OBSERVATION SYSTEMS RADIOS AND ACCESSORIES

AUTO-PAIRING OBSERVATION SYSTEMS

New auto-pairing observation systems can seamlessly pair your wireless monitor to any wired or wireless camera. Pairing is achieved by pressing one button—simplifying connections and eliminating bulkhead wiring. All auto-pairing systems come equipped with digital WiSight™ technology.

ONE-CAMERA OBSERVATION SYSTEM (5.6-INCH MONITOR)

- 5.6-inch wireless monitor with 12V accessory plug and suction-cup mount (ZAEWVOM513AP)
- One CMOS color camera (ZAEVCMS50i) included
- Additional input for one wired camera (camera and harness sold separately)
- Digital wireless transmitter (ZAEWVTX1AP)

PART NO. ZAEWVOS5APCL1B

ONE-CAMERA OBSERVATION SYSTEM (7-INCH MONITOR)

- Same features as ZAEWVOS5APCL1B with the exception of a larger 7-inch monitor
- Additional inputs for two wired cameras (cameras and harnesses sold separately)

PART NO. ZAEWVOS7APCL1B

AUTO-PARING OBSERVATION SYSTEMS WITH DUAL-MONITORING VIEWING

ONE-CAMERA OBSERVATION SYSTEM (5.6-INCH MONITOR)

- 5.6-inch wireless monitor with 12V accessory plug and suction-cup mount (ZAEWVOM513AP)
- Digital wireless transmitter (ZAEWVTX1AP)
- Splitter (ZAE3100024) and harness adapters
- Additional inputs for two cameras (sold separately)

PART NO. ZAEWVOS5APNC

ONE-CAMERA OBSERVATION SYSTEM (7-INCH MONITOR)

- Same features as ZAEWVOS5APNC with the exception of a larger 7-inch monitor
- Additional inputs for three cameras (sold separately)

PART NO. ZAEWVOS7APNC

UPGRADE YOUR CAB WITH PREMIUM AUDIO

JENSEN heavy-duty radios and audio accessories offer more durability and performance than you would expect from standard automotive electronics. Designed to fit all equipment makes and models, our audio products are built to heavy-duty specs and tested to withstand harsh conditions such as extreme temperatures, vibrations and humidity.

RADIOS

All heavy-duty radios feature a seven-channel NOAA weatherband tuner with S.A.M.E technology for accurate weather updates and are compatible with iPod/iPhone® and SiriusXMTM satellite radio for endless entertainment options. Bluetooth® streaming audio with hands-free calling available on select models only. Additional features include:

- 180-watt maximum power output (45W x 4)
- Front USB and AUX inputs
- Two-wire system prevents battery drain when vehicle is turned off
- Wireless remote control compatible (sold separately)
- 2-year no-fault warranty
