BOOKTALK:

Ava is a worrier, and she can't stand not knowing the answers to all the questions she has. Then she discovers a magical pencil that will answer any question she writes down. Ava and her friend Sophie start thinking of many questions they want answered, but the more and more they use the pencil, the shorter it gets. Ava then starts to worry that she won't be able to get all the answers to the many questions she has. Messner does a great job dealing with the anxiety of middle grade children, as well as dealing with the realities of growing up. Many children will be able to relate to Ava and the types of questions she asks, as well as her fears of asking an adult. However, there are times when she may not want to know the answers to her questions.

Fireflies twinkle like stars, and Grandmère's house feels like a cottage from a magical storybook. Maddy feels at home, she feels brave, and she feels that something big is about to happen. Her Grandmère asks her "who" she wants to be when she grows up - not "what", but "who." Maddy responds with the only answer she can, "A hero. Like in my stories." But as Grandmère reminds her, if you're going to be a hero, then something bad will have to happen along the way. Is Maddy strong enough to face the danger that is approaching? Will her family's magical legacy continue with her or will it end? And what is stirring deep within the water of the bayou that only Maddy can see? Could it really be a mermaid? To find out if Maddy has what it takes to make magic of her own and become the hero she dreams, be sure to read *Bayou Magic* by Jewell Parker Rhodes!

I, Fly: The Buzz About Flies and How Awesome They Are

Bridget Heos

Henry Holt and Company 2015

48 pages

SUMMARY:

Fly is fed up with everyone studying butterflies. After all, flies go through metamorphosis too – and they are so much cooler! They flap their wings 200 times a second, compared to a butterfly’s measly five to twelve times. Their babies – maggots – are much cuter than caterpillars (obviously). And when they eat solid food, they even throw up on it to turn it into a liquid. Who wouldn’t want to study an insect like that? Both funny and informative, this earnest (and highly partisan) narrator provides a refreshing new perspective on his fascinating species.

BOOKTALK

Admit it. Aren’t you a little fascinated by maggots? I know I am, but maybe that’s just the science lover in me talking. But before you dismiss this book about the lowly housefly because you’re grossed out, consider everything the fly does for us: they recycle our rotten food, they help police determine when a crime occurred, and their speedy life cycle provides opportunities for some neat math questions! OK, so they spread an occasional deadly disease or two; they never claimed to be perfect! Flies just want a chance. So the next time you study life cycles, animals, or metamorphosis, try reading and learning about the common housefly in this book: *I Fly: The Buzz about Flies and How Awesome They Are* by Bridget Heos.

Dial Books for Young Readers, 2015

239 pages

SUMMARY:

For most of her twelve years, Astrid and her best friend Nicole have been inseparable. But after Astrid falls in love with roller derby and signs up for derby camp, Nicole decides to go to dance camp instead. This begins the most difficult summer of Astrid's life as she struggles to keep up with the older girls at camp, hang on to the friend she feels slipping away, and cautiously embark on a new friendship. As the end of summer nears and her first roller derby bout (and junior high!) draws closer, Astrid realizes that maybe she is strong enough to handle the bout, a lost friendship, and middle school . . . in short, strong enough to be a roller girl.

BOOKTALK:

Astrid is used to her mom's "evenings of cultural entertainment". She and her best friend Nicole have been dragged along to operas, art galleries, and poetry readings - usually stuff that bores Astrid out of her mind. But one night, Astrid's mom takes her and Nicole to a roller derby...and Astrid's life is changed forever. Roller derby is a sport played on roller skates. It's fast and INTENSE. The ladies on roller derby teams aren't afraid to get knocked around and they all have cool roller derby names like Scald Eagle, Scrappy Go Lucky, and Rainbow Bite. As soon as she sees it, Astrid knows she wants to try it. However, the game does not come easily to Astrid. She stumbles and falls; gets bruises and bumps. Many players would throw in the towel. Does Astrid have what it takes to see this roller derby thing through?
