Calori-D Diamond Monica (GP-82)
Calori-D Holsteins, Denair, CA

Kings-Ransom Bob Rasher-ET (VG-86)
Kings-Ransom Farm LLC, Schuylerville, NY

At All West/Select Sires, we're celebrating 75 years of "How the All West was Won" and we can't think of a better way to celebrate than with the April 2016 lineup! We're quite sure that the original board of All West wanted to provide member/owners with the best bulls, programs & people in the industry. Could they ever envision today's programs, the certified technician force, an enthusiastic salesteam AND 8 of the top 10 GTPI bulls? It is with great excitement and humility that we present this outstanding lineup of sires...to carry you into the NEXT 75 years of All West history!

Hilmar Rennie 44393-Grade
Hilmar Holsteins, Hilmar, CA

<http://www.selectsires.com/designations/wellnesspro.html>

Two new indexes, [Wellness Trait Index \(WT\\$\)](#) and [Dairy Wellness Profit Index \(DWP\\$\)](#) identify sires with the greatest chance to make a positive impact on wellness by reducing the genetic risk of common dairy cow diseases. **Wellness Trait Index™ (WT\$™)** and **Dairy Wellness Profit Index™ (DWP\$™)**, which uses wellness trait information from the CLARIFIDE® Plus genomic test to predict lifetime profitability based on additional wellness information. The top WT\$ sires at Select Sires will be designated WellnessPRO™ to identify the sires with the greatest chance to make a positive impact on wellness by reducing the genetic risk of common dairy cow diseases.

Both new indexes are expressed as expected differences in lifetime profitability for their given traits included. **WT\$ focuses exclusively on six wellness traits (mastitis, lameness, metritis, retained placenta, displaced abomasum and ketosis)** and includes an economic value for Polled test results.

DWP\$ is a multi-trait selection index which includes production, fertility, type, longevity and the wellness traits, including Polled test results.

This provides dairy producers two new ways to incorporate selection emphasis on wellness traits into their breeding program. Selection for DWP\$ can result in a difference of lifetime profit of more than \$1,200 between the top 10th percentile of ranked animals and the bottom 10th percentile in females. Developed by Zoetis, these indexes were reviewed by Select Sires geneticists and reflect the input and knowledge of a team of industry experts as well as data collected from millions of health records within U.S. commercial Holstein herds
