

## **Allergen IgE Orderables Test Listing**

Children's Laboratory utilizes Quantitative Allergen Specific IgE testing in the diagnosis of Childhood Allergy.

**Ordering Allergens:** Use the Allergen Care set (Cerner only) or search by allergen name in Sunquest or eCW to select individual allergens or one of the Quantitative Profile/Panels formulated for children.

**Specimen Requirements (see hyperlinks):** [Allergen IgE](#) test listing for individual allergens OR one of the following panels: (MNRES) [Allergen Respiratory Panel >3 yrs](#), (CHILD) [Childhood Panel <3 yrs](#), (FOOD) [Food Panel](#), (PEANC) [Peanut Component Panel](#)
