Limited Warranty Policy APPLICABLE IN THE U.S.A. AND CANADA

- Alliant Power warrants its products to be free from defects in material or workmanship in accordance with the following:
- The warranty period commences the day the product is delivered to the original consumer purchaser. Alliant Power warrants that it will replace, free of charge, any product which, under normal conditions of use and service, proves to be defective in material or workmanship and which is within the warranty period below:
 13 month, unlimited mile/kilometer limited warranty
- This warranty does not cover any labor costs incurred in diagnosis of defects, nor does it cover any other consequential expenses. Specifically excluded from this warranty are failures caused by fuel or oil contamination, fire damage, misuse, negligence, modification, abuse, improper application, installation or operation, or failures caused by unauthorized service or use of unauthorized parts.
- To the extent permitted by law, this warranty is in lieu of all other express and implied warranties, including the implied warranties of merchantability and fitness for a particular purpose. Alliant Power does not assume any responsibility for incidental or consequential damages. Also, to the extent permitted by law, this warranty sets out your exclusive remedies with respect to the products covered by it. No attempt to alter, modify, or amend this warranty shall be allowed.
- Some states or provinces do not allow limitations on how long implied warranties last, or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state or province to province.

Note: International base part numbers are represented by the first seven digits and letter "C". Numeric values following the "C" represent engineering revision levels, they do not impact the base product identification.

¹ Field data indicates that for model year 1998 both elements were used. Before ordering, be sure to look inside the filter housing and verify which element is in place. ² Field data indicates Glow Plug Module was used on some 2000-2003 vehicles. ³ Part includes pigtail. ⁴ This product requires programming by Ford's IDS software upon installation. ⁵ Trucks built prior to 9/15/03 may have three plug connections and would require a new wire harness (Ford p/n 6C3Z9F759A) for proper installation.
