

Altierus Career College – Catalog Addendum NORCROSS

Addendum to the 2021 College Catalog – Version I Volume I (4/9/2021)

The catalog addendum contains the academic calendar and any changes to policy or programming that are effective after the publication of the current catalog version identified above. In addition, this catalog addendum contains temporary changes related to the COVID-19 campus response. All information listed below is considered to be policy based on the effective date that corresponds with the item and will be deemed to remain in effect unless removed from the addendum or accompanied by an end date.

CAMPUS ADMINISTRATION

Norcross Campus			
Moses Delaney	Campus Director		
Anie Bonilla	Academic Dean		
Angela Browder	Director of Enrollment		
Elena Panchana	Director of Financial Aid		
Nikiti Harp	Director of Career Services		

CAMPUS OPERATING HOURS

Administration:	School:
Monday through Thursday	Monday and Friday
8:00 am to 7:00 pm	8:00 am to 2:00 pm
Friday 8:00 am to 5:00 pm <u>Saturday</u> 9:00 am to 1:00 pm	Tuesday through Thursday 6:00 am to 10:00 pm

TUITION AND FEES

Diploma Program	Program Length	Quarter Credits	Tuition	Textbooks & Equipment	Total Cost (estimated)
Dental Assistant	37 weeks	54	\$15,594	Included in tuition	\$15,594
HVAC Technician	36 weeks	55	\$15,594	Included in tuition	\$15,594
Medical Assistant	41 weeks	60	\$17,750	Included in tuition	\$17,750
Medical Billing and Coding	33 weeks	48	\$14,850	Included in tuition	\$14,850
Pharmacy Technician	33 weeks	48	\$14,850	Included in tuition	\$14,850
Refrigeration Technician	36 Weeks	54	\$15,594	Included in tuition	\$15,594
Associate of Science Program	Program Length	Quarter Credits	Tuition	Textbooks & Equipment	Total Cost (estimated)
Surgical Technology	24 Months	98	\$320/credit hour attempted	Included in tuition	Expected total \$31,360

Textbooks are included in the undergraduate tuition, and are provided as eBook or hard copy at the School's discretion. When electronic books are issued, hard copies may be purchased at an additional cost.

Book Costs and Opt-Out Policy - The School has an arrangement with a third-party textbook provider that enables the School to make required books available to students below competitive market rates. These book costs are included in tuition, and the School provides these books to students, without additional charges, by the seventh day of the financial aid payment period. Opting out of the included books and automatic delivery of required print/electronic books and materials, is not recommended. However, students wishing to opt-out of receiving their books from the School may obtain an Opt-Out and Waiver of Supplied Books Request form by requesting one from a Financial Aid planner or student services advisor, and complete and return the form to the Financial Aid planner at least 10 days before the beginning of the term. Students who register late and wish to opt-out may receive books automatically delivered, and must return such automatically delivered books in new, unused condition. As there is no additional charge for books, opting out of receiving books from the School will not result in any change to tuition.

The tuition table only applies to:

- 1. New enrolling students. A new student is defined as a student who has never attended a Zenith Education Group school or has graduated and enrolled in a new program; or
- 2. Re-entering students who have withdrawn and are re-entering greater than 180 days from their withdrawal date (The withdrawn time period is calculated from the student's withdrawal date to the new module or term start date.); or
- 3. Re-entering degree students who are re-entering within 180 days

For re-entering diploma students who have withdrawn and are re-entering within 180 days, the following tuition charges apply:

- Same Program (Same / New Program Version): Will be charged tuition at the original tuition rate reflected on the original enrollment agreement less the amount charged on the prior period of enrollment (Charges plus or minus any tuition adjustments).
- Same Program (New Program Version of Different Credits / Length of Program): Will be charged tuition at the
 current catalog rate for the program of enrollment less the amount charged on the prior period of enrollment
 (Charges plus or minus any tuition adjustments).
- Different / New Program (Program Change): Will be charged tuition at the current catalog rate for the program of enrollment. A tuition credit will be determined for the student's prior period of enrollment.

^{*} For programs that contain externships/practicums, the typical scheduled end date will be one week later as there is an additional scheduled week of instruction for those courses. This time is reflected in the approved program length for each applicable program. The scheduled end date will be adjusted for scheduled breaks.

^{**} Externship courses will be scheduled to exclude holiday breaks. Students working at externship sites may be asked to complete hours during these published breaks and will have attendance posted for any hours completed during any breaks.

SURGICAL TECHNOLOGY PROGRAM - Correction to information on Page 4

 Applicants must achieve a passing score on each area of the HESI test to be considered for entrance into the Associate of Science Surgical Technology Degree Program. Minimum passing scores are defined in the Academic Readiness section of the catalog.

PROGRAM UPDATES

Any updated program information since the last publication date of the catalog, including updated program tables and additional course descriptions are provided below.

DENTAL ASSISTANT

Diploma Program

37 Weeks – 840 Hours – 54 Quarter Credit Hours

Modality: Full Blended

Replaces Pages 45-47 - Effective for students starting after April 12, 2021

Dental assistants have become indispensable to the dental care field, and dentists have become more reliant upon the dental assistant to perform a wide range of patient procedures. As the need for their services continues to grow, the role and responsibilities of the dental assistant also continue to expand.

<u>Program Description</u>: The goal of the Dental Assistant Program is to provide graduates with the skills and knowledge that will enable them to qualify for entry-level positions as dental assistants. Since they are trained in clinical and radiographic procedures, general dentists, dental office facilities specializing in pedodontics, orthodontics, endodontics and other specialties, dental schools, hospital dental departments, and correctional dental clinics, seek their services.

<u>Program Goal:</u> The objective of the Dental Assistant program is to provide the student with the appropriate didactic theory and hands-on skills required and necessary to prepare them for entry-level positions as dental assistants in today's modern dental care offices, dental clinics, and facilities. Students will study diagnostic and procedural terminology as it relates to the accurate completion of dental examinations, procedures, and daily tasks.

The skills taught in this program will prepare students for the ever-changing field of dentistry. Students study preventive dentistry, nutrition, dental health, restorative dentistry, dental sciences, dental radiography, and dental specialties such as endodontics, periodontics, pedodontics, prosthodontics and oral surgery. Other areas of study are dental materials, dental pharmacology, law and ethics, front office procedures and software, and career development.

Completion of the Dental Assistant Program, including the classroom training and externship or practicum, is acknowledged by the awarding of a diploma.

Upon successful completion of this program, the graduate will be able to:

- Explain and demonstrate proper infection control procedures in the dental setting with OSHA and HIPAA guidelines;
- Demonstrate knowledge and competence in responding to office emergencies; CPR certification is gained;
- Take and record vital signs;
- Explain the role of HIPAA in the operation of the dental office;
- Understand and discuss the requirements and protocol for Blood-borne Pathogen and HIV and AIDS training;
- Identify and explain the use of dental instruments;
- Demonstrate aspirating techniques on a patient;
- Demonstrate dental health and preventive measures such as diet and nutrition as well as dental fluorides and sealants:
- Demonstrate chair-side assisting duties and techniques practiced in general dentistry with emphasis on four-handed dentistry during restorative procedures with dental manikins. Students will also demonstrate the use of Bases, liners and bonding systems;
- Demonstrate the appropriate skills and techniques involved in taking impressions and constructing study and master casts;
- Demonstrate proper isolation such as dental dam placement and removal on dental manikins;

- Articulate the dental sciences, anatomy and physiology as related to the head and neck as well as dental
 anatomy as well as the body systems;
- Apply knowledge of various dental materials and dental technology such as CAD/CAM;
- Understand all dental specialties such as Endodontics, Oral and Maxillofacial Surgery, Pediatric Dentistry, Prosthodontics and Orthodontics:
- Demonstrate knowledge of dental pharmacology and the proper assembly of the anesthetic syringe;
- Explain and demonstrate appropriate skills involved in processing exposed radiographs using the manual and automatic techniques, mounting a full-mouth survey of radiographs, identifying radiographic errors, and demonstrating how to correct those errors;
- Students will prepare for their future as a dental assistant through various career development techniques such as resume building and interviewing skills.
- Demonstrate the skills necessary to perform functions as an expanded duty dental assistant.

Dental Assistant Program - Program-Specific Admissions Requirements

- Due to regulations regarding X-rays, applicants of the Dental Assistant program must be at least 17 years old.
- Applicants must complete a student disclosure form.

This 840-clock hour/54.0 credit hour program consists of eight (8) individual learning units, plus a hands-on clinical externship. Each of these "modules" stands alone as a unit of study and is not dependent upon previous training. If students do not complete any portion of a module, the entire module must be repeated. Students must start the program in IHC1000 – Introduction to the Healthcare Profession. After successful completion of IHC1000, students may enter the program at the beginning of any other module and continue through the sequence until all modules have been completed. Upon completion of the eight (8) classroom modules, the students participate in a 200-clock-hour-practicum or externship.

COURSE DESCRIPTIONS

IHC1000 – Introduction to the Healthcare Profession

6.0 Quarter Credit Hours

This course is designed to provide an introduction to the healthcare profession for new students starting an allied health program. Students will learn the basics of medical terminology, anatomy and physiology, infection control, HIPAA, OSHA and HIV/AIDS. Additional topics covered include professional codes of ethics, medical insurance and billing, keyboarding, computer applications, basic mathematical skill, and critical professionalism skill are also taught. Students will have the opportunity to learn program-specific topics throughout the course. CPR certificate is also included in the course. Prerequisite: None

Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

DAD1010 - Preventive Dentistry, Nutrition, Periodontics and Pedodontics

6.0 Quarter Credit Hours

This module covers the specialty area of periodontics with an emphasis in preventive dentistry and nutrition. Diet and nutrition will be discussed highlighting on how it is related to dental caries and periodontal disease with attention to patient education. Related areas of dental sealants and fluorides are presented. Coronal polish, fluoride application and pit and fissure sealant theory and procedures are taught and practiced. The specialty Pedodontics is also discussed. Related spelling and terminology is studied throughout the module.

Prerequisite: IHC1000. Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

DAD1020 - Restorative Dentistry

6.0 Quarter Credit Hours

This module introduces students to chair-side assisting duties and techniques practiced in general dentistry with emphasis on four-handed dentistry during restorative procedures. Students practice required skills such as dental dam placement, placement, wedging and removal of Tofflemire retainers. Procedures to include placement of bases, liners, and bonding systems are also practiced. Related spelling and terminology is studied throughout the module. Prerequisite: IHC1000. Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

DAD1030 - Dental Sciences, Oral and Maxillofacial Surgery, Pharmacology

6.0 Quarter Credit Hours

In this module the area of the dental sciences, Oral and Maxillofacial Surgery as a specialty and dental pharmacology are studied. Dental sciences will have an emphasis in embryology and histology, oral pathology and basic microbiology. The sciences will focus on how they relate to dentistry and dental procedures. Theory and common clinical procedures of the specialty in Oral and Maxillofacial Surgery are presented and demonstrated on dental manikins. Pharmacology will be discussed as related to anesthesia and pain management and other basic pharmacology in the dental setting. Related areas of the dental anesthetics and syringe assembly are presented. Related spelling and terminology is studied throughout the module.

Prerequisite: IHC1000. Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

DAD1040 - Prosthodontics and Dental Materials

6.0 Quarter Credit Hours

This module covers the specialty area of prosthodontics in conjunction with dental materials. Prosthodontics will focus on fixed and removable prosthodontics including dental implants and latest advances in technology related to prosthodontics such as CAD/CAM. In conjunction, students will discuss and demonstrate the use and manipulation of various materials used in the dental setting such as dental cements, alginate impression materials, hydrocolloids, elastomerics, dental plasters and other impression materials used in prosthodontic fabrications. Students will gain hands on experience with many dental materials used chairside and in the dental lab. Related spelling and terminology is studied throughout the module.

Prerequisite: IHC1000. Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

DAD1050 - Anatomy, Endodontics and Orthodontics

6.0 Quarter Credit Hours

In this module the body systems, head and neck anatomy, physiology and the dental specialties of Endodontics and Orthodontics are studied. The dental specialties of Endodontics and Orthodontics and their scope of practice and educational levels will be introduced. Theory and common clinical procedures of each specialty are presented and demonstrated on dental manikins. Related spelling and terminology is studied throughout the module.

Prerequisite: IHC1000. Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

DAD1060 - Office Administration, Law & Ethics and Career Development

6.0 Quarter Credit Hours

In this module the student will learn the essential skills of understanding dental office etiquette such as delivering quality customer service, phone skills and effective communication with other dental professionals and patients. Patient records and The Health Insurance Portability and Accountability Act of 1996 are discussed. Law and ethics related to the dental environment are explored. Students are also introduced to the various billing and financial methods in the dental office utilizing the Dentrix dental software system. Students will have the opportunity to become acquainted with accounts receivables and payables. Students will be oriented in treatment planning and communicating with the patient. Business operating systems and marketing are also discussed. Students will also prepare for a successful career in the dental field by understanding the role and duties of the professional dental assistant and complete a resume and cover letter. Writing skills are emphasized as well as mock job interviewing. State required certifications are explored as well as national certification.

Prerequisite: IHC1000. Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

DAD1070 - Dental Radiography

6.0 Quarter Credit Hours

This course is designed to introduce students to the basic anatomy of the head and teeth in order to be familiarized with the anatomical structures involved in taking successful radiographs. Radiation protection and the hazards of x-ray radiation are covered. Students will study and demonstrate the various methods and techniques in taking dental x-rays with a digital system and understand the process of automatic and manually processing x-rays. Theory and lab practice will meet state guidelines for a Radiation Health and Safety Certificate through the Dental Assisting National Board. Exposure techniques will take place in on-site equipped dental operatories with industry-approved facilities with monitoring devices. Radiographic techniques will be performed on a patient simulated manikin. After showing competence, students will be required to take diagnostically acceptable dental radiographs on (2) patients on-site where applicable or with a contracted facility.

Prerequisite: IHC1000. Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

DAD1080 - Dental Assistant Externship (200 Hours)

6.0 Quarter Credit Hours

In this module, students complete 200 hours of unpaid, supervised, practical in-service at a dental office or clinic in which the student practices direct application of all clinical functions of dental assisting.

Prerequisite: IHC1000, DAD1020, DAD1030, DAD1040, DAD1050, DAD1060, DAD1070 Lecture Hours: 0 Lab Hours: 0 Outside Hours: 0 Other (Externship) Hours: 200.

DAD1090 - Dental Assistant Practicum (200 Hours)

6.0 Quarter Credit Hours

In this module, students complete 200-hour practicum with simulation based practical work experience within a simulated dental office in which the student practices direct application of all clinical functions of dental assisting.

The instructor for this module will evaluate students at 100- and 200-hour intervals. Completed evaluation forms are placed in the students' permanent records. Students must successfully complete this practicum in order to fulfill requirements for graduation. Prerequisite: IHC1000, DAD1020, DAD1030, DAD1040, DAD1050, DAD1060, DAD1070; Lecture Hours: 0 Lab Hours: 0 Outside Hours: 0 Other (Practicum) Hours: 200.

Note: Students that cannot demonstrate academic readiness will be registered to take additional coursework. There is no additional charge any academic readiness coursework. Please refer to the **Academic Advising and Readiness** section for more information.

MEDICAL BILLING AND CODING

Diploma Program
33 Weeks – 760 Clock Hours, 48 Quarter Credit Hours
Modality: Full Blended

Replaces Pages 53-55 - Effective for students starting after April 12, 2021

<u>Program Description:</u> Medical Billing and Coding professionals perform a variety of administrative functions as they pertain to the anatomy and physiology of the human body. These include functions associated with organizing, analyzing, and technically evaluating health insurance claim forms. These professionals will also perform duties in diagnostic and procedural coding and are eligible for CPC certification through AAPC.

<u>Objectives:</u> The objective of the Medical Billing and Coding program is to provide the student with the appropriate didactic theory and hands-on skills necessary to prepare them for entry-level positions as medical insurance billers and coders in today's health care offices, clinics, and facilities. Students will study diagnostic and procedural terminology as it relates to the accurate completion of medical insurance claims. Utilizing a format of medical specialties, relevant terms will also be introduced and studied.

<u>Program At-A-Glance:</u> The Medical Billing and Coding Program is a 760-clock hour/48.0 credit unit course of study, consisting of seven individual learning units, called modules. Students are required to complete all modules. Students must first complete the Module IMB1000 and then continue in any sequence for the remaining six modules. If students do not complete any portion of one of these modules, the entire module must be repeated. Upon successful completion of all modules, students participate in an externship or practicum. This consists of 200 required clock hours of hands-on experience working either in a tutorial classroom setting called a practicum or in an outside facility in the field of medical insurance billing and coding.

Program Outcomes

- Within a medical billing and coding environment, identify the components of a given body system.
- Within a medical billing and coding environment, correctly use medical terminology of a given body system.
- Within a medical billing and coding environment, utilize proper ICD-10-CM/CPT/HCPCS coding.
- Within a medical billing and coding environment, determine correct application of health insurance forms/documents.
- Within a medical billing and coding environment, demonstrate proficiency of medical office technology.

Course	Course Title	Lecture Hours	Lab Hours	Other Hours	Total Contact Hours	Quarter Credit Hours
IMB1000	Introduction to Medical Billing and Coding	40	40	0	80	6.0

	Program Totals	280	280	200	760	48.0

IMB1000 - Introduction to Medical Billing and Coding

6.0 Quarter Credit Hours

This course is designed to provide an introduction to the healthcare profession for new students starting in the medical billing and coding program. Students will learn the basics of medical terminology, anatomy and physiology, HIPAA, and billing and coding. Additional topics covered include professional codes of ethics, medical insurance, computer applications, and professional skills.

Prerequisite: None Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

MBC1010 - Cardiovascular and Lymphatic Systems

6.0 Quarter Credit Hours

Throughout this course, students will identify the components of the Cardiovascular and Lymphatic Systems. Focus will also be placed on the correct usage of medical terminology related to these systems. Students will also utilize the proper ICD-10-CM/CPT/HCPCS coding, work through the insurance process, and become proficient using medical office technology in this module.

Prerequisite: IMB1000; Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

MBC1020 - Genitourinary System

6.0 Quarter Credit Hours

Throughout this course, students will identify the components of the genitourinary system. A focus will also be placed on the correct usage of medical terminology related to this system. Students will also utilize the proper ICD-10CM/CPT/HCPCS coding, work through the insurance process, and become proficient using medical office technology in this module.

Prerequisite: IMB1000; Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

MBC1030 - Integumentary and Endocrine Systems, and Pathology

6.0 Quarter Credit Hours

Throughout this course, students will identify the components of the integumentary and endocrine systems. A focus will also be placed on the correct usage of medical terminology related to these systems. Students will also utilize the proper ICD-10-CM/CPT/HCPCS coding, work through the insurance process, and become proficient using medical office technology in this module.

Prerequisite: IMB1000; Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

MBC1040 - Musculoskeletal System

6.0 Quarter Credit Hours

Throughout this course, students will identify the components of the musculoskeletal system. A focus will also be placed on the correct usage of medical terminology related to this system. Students will also utilize the proper ICD10-CM/CPT/HCPCS coding, work through the insurance process, and become proficient using medical office technology in this module. Prerequisite: IMB1000; Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

MBC1050 - Respiratory and Gastrointestinal Systems

6.0 Quarter Credit Hours

Throughout this course, students will identify the components of the Respiratory and Gastrointestinal Systems. A focus will also be placed on the correct usage of medical terminology related to these systems. Students will also utilize the proper ICD-10-CM/CPT/HCPCS coding, work through the insurance process, and become proficient using medical office technology in this module.

Prerequisite: IMB1000; Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

MBC1060 - Sensory and Nervous Systems, and Psychology

6.0 Quarter Credit Hours

Throughout this course, students will identify the components of the Sensory and Nervous Systems, and Psychology. A focus will also be placed on the correct usage of medical terminology related to these systems. Students will also utilize the proper ICD-10-CM/CPT/HCPCS coding, work through the insurance process, and become proficient using medical office technology in this module.

Prerequisite: IMB1000; Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

MBC1070 - Medical Billing and Coding Externship

6.0 Quarter Credit Hours

MBC1080 - Medical Billing and Coding Practicum

6.0 Quarter Credit Hours

Upon successful completion of IMB1000, MBC1010, MBC1020, MBC1030, MBC1040, MBC1050, and MBC1060, medical insurance billing/coding students will participate in this 200-hour Practicum. This practicum gives students an opportunity to work with the principles and practices learned in the classroom and apply them to a virtual, medical office environment. Students work under the direct supervision of their instructor during this module. The instructor for this module will evaluate students at 100- and 200-hour intervals. Completed evaluation forms are placed in the students' permanent records. Students must successfully complete this practicum in order to fulfill requirements for graduation.

Prerequisites: MBC1010, MBC1020, MBC1030, MBC1040, MBC1050, and MBC1060;
Lecture Hours: 0 Lab Hours: 0 Other Hours (Practicum): 200

Note: Students that cannot demonstrate academic readiness will be registered to take additional coursework. There is no additional charge any academic readiness coursework. Please refer to the **Academic Advising and Readiness** section for more information.
