Contact us today and let us put our experience and expertise to work for you.

COMPLEX PROJECTS

- Oil and gas production and transport equipment
- Drilling Equipment
- Auxiliary equipment
- Equipment for offshore platforms
- Heat and power systems with external combustion engines
- Flaring Systems
- Turbine Expanders
 - Standalone power supply units (OTP) (associated gas recovery)
- Fuel storage tanks
- Oil-heating units

OFFSHORE PRODUCTS

- Solid control and Mud mixing
- HP Hose, Pipe & Fitting
- Lifting & Wire rope
- Flex Hoses and Tubings
- Onshore Products
- Pipe system
- Solid Control Equipment
- Mud Pump and Spare parts
- Well Control Equipment

EQUIPMENT FOR OIL TREATMENT

- Oil treatment plants (OTP) for deposits
- Module-Type Formation Pressure Maintenance Plant
- Mobile Nitrogen Production System
- Natural Gas Stationary Compressor Systems
- Oil and Gas Custody Metering System Gas Separators
- Four-phase high pressure raw oil separators
- Compact units for oil separation
- Mobile diesel heaters

SECURE-IT SECURITY AND IT SOLUTIONS

Under secure-it, our focus is on security and IT solutions/installations as over the years we have developed the manpower and expertise to deploy world class and state of the art solutions that can either be generalized or customized to cater to specific ELV needs of our clients. - Boom barriers
- Video entry system
- Burglary alarm system/sensors and alarms
- Structured office cabling system (voice and data)
- Fleet management system
- Data terminal system
- Web based time attendance system
- Customized android apps
- Solar/Inverter system
- Etc

INDUSTRIAL CHEMICALS MATERIALS

Altitude energy and safety consultants has a long-standing reputation of providing her customers with superior chemical products. Along the way, our approach to the chemical industry has been to provide customers with a single point of contact for all of their chemical needs. We have established ourselves as a leading chemical distributor with distribution centers located in Lagos and Port Harcourt.

INDUSTRIAL CHEMICALS

- Resorcinol
- Methyl Methacrylate
- Formalin
- Methanol
- Toluene
- Xylene
- Styrene
- Adipic Acid
- Ethylene-Vinyl Acetate
- Methyl Methacrylate
- Carbon Black
- Vulcanization Accelerators
- Phenolic antioxidants
- Mineral oil
- Denatured alcohols
- Paraffin wax
- Talcum powder
- Petroleum jelly
- Soda caustic
- Hydrochloric acid
- Phosphoric acid
- Sodium hypochlorite
- Sulphuric acid
- Sodium hydroxide.
- Potassium hydroxide
- Aluminum sulfate
- Aluminum sulfate
- Ferric sulfate
- Disinfectants
- Erythritol
- Isomalt
- xylitol
- Glycerol
- Monostearate(gms)
- Distilled Monoglyceride(dmg)
- Concentrated Soybean Lecithin
- Glycerin
- Stearic Acid
- Sucrose Acetate Iso-Butyrate
- Sucrose Fatty Acid Ester
- Trisodium Phosphate(TCP)
- Disodium Phosphate(DSP)
- Monocalcium Phosphate
- Potassium Sorbate
- Sorbic acid
- Sorbitol powder

FOOD GRADE CHEMICALS

INDUSTRIAL CHEMICAL MATERIALS

● Calcium Propionate

● L-Tartaric Acid

● Egg White Powder

● Egg White Powder

● Sodium Alginate

● Citrus Pectin

● Apple Pectin

● Sodium Benzoate

● Fumaric Acid

● Calcium Lactate

● Gelatin

● Mix Carrageenan

● Gellan Gum

● Xanthan Gum

● Benzoic Acid

QC/QA CHEMICALS & REAGENTS

● Sulfuric acid for analysis

● Sucrose for microbiology

● Glycerol for analysis

● Sodium Chloride

● Toluene

● Yeast Extract Agar

● Macconkey agar

● Dichloromethane

● Hydrogen peroxide

● Diethyl ether, analytical grade

● Chloroform

● Ortho-phosphoric acid

● Mercury(ii) nitrate

● Zinc acetate

● Nutrient agar

● Mconkey broth

● Nutrient broth, e.t.c

FMCG	Installation of FM200
Total	Equipment Part and Safety Supplies
CJV Infinity Limited	Installation of 1MVA Industrial AVR at UAC SWAN –UAC Kerang Plateau State
CIBA Construction Company Ltd	Mechanical /Electrical Works at Imota Rice Mill Project Lagos State

WHY WE ARE THE PREFERRED CHOICE

EARLY INVOLVEMENT

Our engineers are able to offer insight and options early on in the design stage, reducing project cost and avoiding schedule delays tied to code compliance and regulatory requirement issues.

BUILDING INFORMATION MODELING

Integrated design reduces cost and eliminates bottlenecks throughout the design and construction process. We use the latest BIM and system modeling tools in collaborating with the design team and owners.

INTEGRITY

The work and recommendations of our services are independent of any influence from or business affiliation with manufacturers, installers and technology vendors.

SUSTAINABLE DESIGN

Our teams include LEED-accredited professionals experienced in identifying resource conservation and applying reuse strategies to help clients meet their goals for sustainability and carbon reduction.

GLOBAL REACH

We are able to apply our resources and knowledge of local codes, regulations and construction requirements with client organizations anywhere in the world.

TRAINING

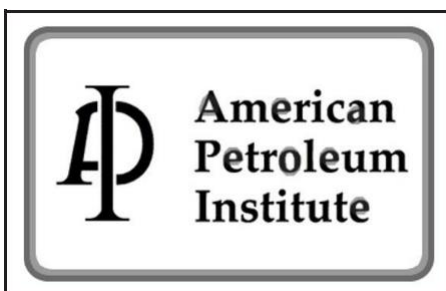

We provide education and training customized to meet the needs of specific clients. We are frequently asked to deliver seminars covering areas of our core expertise, including fire protection and life safety.
