Welcome to the 40th American Film Market!

Nearly 40 years ago, a small group of independent film production and sales companies had a vision of the film industry working together for the betterment of the whole. They saw the need for a Hollywood-based international marketplace for film. The American Film Market (AFM) was born out of this entrepreneurial spirit and collaboration of competitors.

The first AFM in 1981 was attended by 34 sales companies and hundreds of buyers from all over the world. The AFM was an immediate success, fostering an environment where film financing and buyer discovery could flourish. It quickly became a required stop on the annual calendar of buyers, sellers, and producers worldwide.

Today, the AFM is all-inclusive, drawing together the global industry – an amalgamation of film professionals from every corner of the world. It is the destination for all players in the industry to meet face-to-face, do business, and have thoughtful conversations about new films and the everchanging marketplace.

The AFM is produced by the Independent Film & Television Alliance (IFTA), the trade association that unites Independents around the world and ensures that they are well represented across all issues that impact the independent business. IFTA's AFM is operated by the industry, for the industry – no other market has this history or connection.

While the AFM has evolved over the last 40 years, one thing has remained constant – the energy, creativity, and commitment of its participants. We wish you great success – for this year and for the next 40.

## W2 Payroll, Residuals and Custom Cost Reporting.

**Media Services** has been at the forefront of crew and talent pay services for over 40 years, offering:

- ★ Crew/talent payroll
- ★ Cost reporting
- ★ Workers' comp
- ★ Purchase cards
- ★ Residuals 24/7 portal

# Independent Film & Television Alliance

AMERICAN FILM MARKET®

## IFTA® Overview

Representing more than 140 companies from 23 countries, IFTA's Members are the world's foremost independent production and distribution companies, financiers, and sales agents. Headquartered in Los Angeles, we are the only organization that unites the collective voice of Independents around the world and ensures that they are well represented across all issues that impact the independent business.

The Independents are those companies that create films and TV programming outside the vertically integrated studios and global distribution networks. IFTA Members are primarily owner-driven entrepreneurial companies that take on the individualized risk of every project, seek financing through equity investors and individual advance distribution commitments, and eventually release the film or program by licensing to local theatrical, television, and online distributors around the world. This independent business model is vastly different than the one pursued by the major studios, broadcasters, and online platforms who can reach the audience without leaving their own corporate affiliates. It is the prevalent model around the world and Independents generate more than 70% of the films produced in the U.S.

For more than 30 years, IFTA Members have produced, distributed, and financed many of the world's most prominent films. They are the creative risk-takers who have made many of your favorite movies, and consistently earn accolades and awards around the globe. In fact, IFTA Members have won 21 of the last 30 Academy Awards® for Best Picture, most recently *Green Book*, *Spotlight*, and *12 Years A Slave*. Collectively, IFTA Members, produce more than 500 independent films and countless hours of television programming each year which generate more than \$4.8 billion in sales revenues annually while creating hundreds of thousands of jobs and millions of dollars in economic impact.

IFTA was formed 40 years ago and remains dedicated to protecting and strengthening the Independents' ability to compete effectively in an ever-changing and challenging global marketplace. IFTA lobbies governments and regulatory bodies to strengthen and enforce protections against digital piracy, to eliminate trade barriers in markets such as China, to promote open competition, and to ensure that regulatory measures affecting the entertainment industry recognize the economic differences between the needs of the major entertainment companies and of the Independents.

Because distribution is key to the vitality of the Independents, IFTA provides specific services to expand these opportunities. Each November, it produces the annual American Film Market®, the world's largest motion picture event, drawing more than 7,000 industry leaders from 70 countries and leading to more than \$1 Billion in distribution and film financing deals. IFTA also develops and publishes the IFTA® Model Agreements which articulate the standards and key definitions for licensing international rights in motion pictures and television programming and manages the IFTA® Arbitration Tribunal which is a key forum for resolution of disputes arising from international licensing transactions.
