MESSAGE FROM FOUNDER PRESIDENT

"Each student of Amity will become a success story"

Amity is not just a group of institutions which imparts world-class education, but an experience where everyone associated is part of a dream, a mission to see that we nurture truly great leaders.

In my over 30 years stay in West Germany, I realized, through interacting with the over 6000 Europeans working for me, that we Indians have the intelligence, the talent and the potential to be the more successful people in the world. That is why we established the Ritnand Balved Education Foundation in 1986 to start institutions which will groom young future leaders to be complete, value-driven human beings and competent professionals with a deep passion for humanity. These will be the people who will lead the world.

Today, we are proud that Amity is synonymous with practical, industry- focused education, and attracts the best students. The fact that our alumni are working in the best companies across the world is a testament to our extremely talented faculty who inculcate, by example, in each student the spirit of dedication, sincerity and loyalty, and to all the corporates who support our mission with so much enthusiasm.

Each one of our students will be a success story. This is my dream; this is my commitment.

A space to think outside boundaries, a community to grow and be creative in, and a meaningful way to connect with corporate houses. The entire placement drives, various seminars and inspirational talks were organised which helped to handle various interview questions and seek brownie points over other competitors.

The university (ACCF), through global design, intuitive planning and support helped me to create ultimate experience and allowed me to learn, grow and achieve my greatest potential. It inspired us to dream big and supported us to figure out how to get there. Thank you Amity University and to my respected mentors for their guidance, support and faith in me

THE AMITY EXPERIENCE

To help students in personal grooming, students undergo a 4-semester course held on **Foreign Business Language, Behavioral Science and Communications Skills**

The **101 attributes of Amitians** aims to take the students closer to completeness.

Amity students have more **corporate interaction** than any other institution-one of the reasons why Amity is consistently ranked at the top.

Amity organizes a **Military Training Camp** in Manesar for its students every semester to imbibe the value of discipline and a spirit of patriotism, commitment and perseverance by participating in a variety of activities which test their mental and physical agility.

Ours is an institution where **modernity blends with tradition** as the beginning of every event is earmarked by a havan.

Study Abroad Programme (SAP)

Study Abroad Programme (SAP) is important for global exposure to students of various disciplines. SAP programme has been re-engineered to give an experiential learning platform to the students of Amity on a global scale. The students will get hands-on experience of gaining knowledge of foreign culture, industry and economic dynamics. It will provide the students with an opportunity to interact with foreign faculty and carry out focused projects under their expert guidance.

The SAP provides the opportunity to a student to study at the following Campuses/Universities:

- ▶ London, Dubai, Singapore, Mauritius, Australia

The advantages of pursuing SAP are

- ▶ Special modules delivered by the Industry experts and Leading foreign faculty
- ▶ Industry Visits
- ▶ Extensive Project Reports
- ▶ Familiarize with the industry dynamics and trends on a global scale

This trip, studying abroad in the United Kingdom, has been the fulfillment of a dream. The chance to study in a foreign country as well as travel around a continent I have never been to before has introduced me to ideas, concepts, places and people I otherwise probably would not have encountered anytime soon. The study abroad program was an amazing experience altogether.

- Tanya Purwar

SAP was a highly experiential platform for all the students who opted for it as we were given the opportunity to learn how to adapt to a new culture, manage ourselves along with taking responsibility for our friends as well and networking in a new country.

By the end of the program, most of us came back with a holistic approach to life
