AVAILABLE OPTIONS

BUILT FOR LONG LIFE[†] **WITH ENERGY EFFICIENCY, QUALITY AND VALUE.**

Whether you're looking for energy savings, high quality or a great value, Silver Line has what you need for replacing old, drafty windows and patio doors. Silver Line® Preferred and Standard windows and patio doors are designed and built with your needs in mind and are backed with a Limited Lifetime Warranty[†] for your peace of mind.

**A LIFETIME OF
QUALITY**

Durable and attractive Silver Line® Preferred and Standard windows and patio doors are made with energy efficient and low-maintenance vinyl.

ENERGY EFFICIENCY

Save money by saving energy

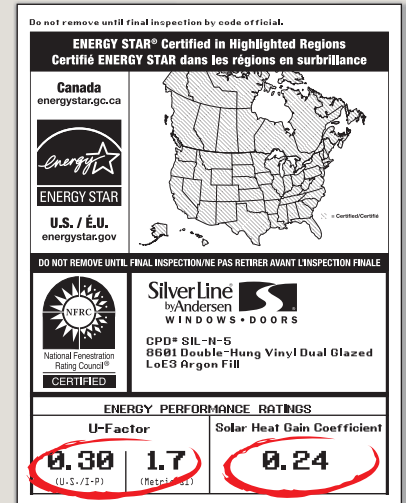

The ENERGY STAR® mark means a product is energy efficient, but did you know that ENERGY STAR certified windows and patio doors help reduce energy bills up to 12% while helping protect the environment?*

It pays to understand performance

When shopping for windows and patio doors, look for products that have a performance label including an ENERGY STAR climate zone map. This gives you accurate, third-party certified information, including:

U-Factor: The lower the U-Factor, the better the window keeps heat from escaping. A lower U-Factor helps lower heating bills.

SHGC: The lower the SHGC, the better the window blocks heat from the sun. A lower SHGC helps lower cooling costs.

QUALITY

Easy operation for years to come

Silver Line products are rigorously tested to deliver years[†] of smooth, reliable operation.

Low-maintenance

These windows and patio doors are constructed with heavy duty, low-maintenance vinyl that cleans easily with soap and water.

Time-honored reliability

For more than 65 years, Silver Line has been making quality windows and patio doors you can rely on.

Our commitment to customer satisfaction

We stand behind our products[†] and beside our customers. Our network of dedicated professionals is just a phone call away if you need us.

Peace of mind

These Silver Line® windows and patio doors are backed by our industry-leading Limited Lifetime Warranty. We make sure that our products provide a lifetime[†] of energy efficient, reliable performance.

VALUE

The Silver Line difference

Silver Line windows and patio doors are designed to provide uncompromising value. They achieve the ideal balance of style, performance and price, making them a preferred choice of building professionals and homeowners alike. Our ability to offer an extensive selection of high performance, low-maintenance windows and patio doors at affordable prices makes choosing products from Silver Line the clear choice.

The perfect fit

Silver Line windows and patio doors are available in a wide range of custom sizes so you're ordering what you need to fit your space. There's no added expense for reframing your openings. You're getting the perfect fit every time.

What you need

We offer an array of options for our windows and patio doors that lets you choose what you want so you are always getting exactly what you need at the price that fits your budget.

† See the Limited Lifetime Warranty for details.

WHAT IS ENERGY STAR®?

ENERGY STAR® is a joint program of the U.S. Environmental Protection Agency and the U.S. Department of Energy that helps us all save money and help protect the environment through energy efficient products and practices.

Why do I want ENERGY STAR certified windows and patio doors?

Using ENERGY STAR certified Silver Line® products in your home can help:

- **Reduce** your energy bills
- **Make** your home **more comfortable** year-round
- **Reduce** your **impact** on the environment

What makes a window or door ENERGY STAR certified?

ENERGY STAR certified windows and patio doors:

- Are manufactured by an ENERGY STAR partner, like Silver Line
- Are independently tested and certified by the National Fenestration Rating Council (NFRC)
- Have NFRC ratings that meet strict energy efficiency guidelines set by the U.S. Department of Energy

HOW DO I TELL IF A PRODUCT IS ENERGY STAR CERTIFIED?

Look for the label. All ENERGY STAR certified products must display the ENERGY STAR label.

Some products are ENERGY STAR certified in some regions of the country and not others with certain options. Check the label for the U.S. climate zone map to make sure the products and options you are considering are certified in your area.

Do not remove until final inspection by code official.

HOW TO COMPARE

WHAT YOU SHOULD LOOK FOR WHEN COMPARING WINDOWS & PATIO DOORS

When you're shopping for windows and patio doors, quality counts. You will want to look for products that are tested and certified for strength and energy savings. Understanding and comparing this information will help you select a stronger, more durable and more energy-efficient window or patio door.

LOOK FOR THE PERFORMANCE LABEL

This label shows important performance information about a window or patio door, including energy efficiency and strength ratings, so you can easily compare products. All Silver Line® window and patio door ratings are independently certified.

Look for ENERGY STAR®

ENERGY STAR® certified windows and patio doors help **SAVE** energy and money, and help increase the comfort of your home.

Compare U-Factor

The **LOWER** the U-Factor, the better the window keeps heat from escaping during the winter. This helps **LOWER** heating bills.

Compare Solar Heat Gain Coefficient (SHGC)

The **LOWER** the SHGC, the better the window blocks heat from the sun in the summer. This helps **LOWER** cooling costs.

Compare PG (Performance Grade) Ratings

The **HIGHER** the PG rating, the **BETTER** the resistance to wind, rain, air infiltration and forced entry.

Do not remove until final inspection by code official.

CHOOSE THE WINDOWS & PATIO DOORS THAT ARE RIGHT FOR YOU

Silver Line offers a wide selection of product types to meet your design needs. From functional to decorative, you're sure to find what you're looking for.

Double-Hung Window

Both top and bottom sash move and tilt in for various ventilation options and for easy cleaning from inside the home.

Single-Hung Window

The bottom sash moves up and down in this type of window, allowing for a more economical version of the popular double-hung window.

Sliding Window

One or more sash slide back and forth horizontally for easy ventilation.

Casement Window

A casement window is hinged on one side to allow the window to swing open.

Awning Window

Hinged at the top and opening from the bottom, awning windows offer ventilation and protection from the weather.

Hopper Window

Hopper windows are hinged at the bottom and open inward. Frequently used in basements, these economical windows bring ventilation and light to your rooms.

Bay Windows

Bay windows come with casement or double-hung windows that are angled to bring in light and fresh air.

Bow Windows

Bow windows have casement windows that are elegantly angled for the ultimate design and style option.

Pictures & Shapes

Non-moving windows in rectangular and decorative shapes offer stylish and architectural accents. Many options are available.

Sliding Patio Doors

Patio doors feature a sliding panel that moves smoothly on adjustable rollers and makes the most of your space.

WHAT TO CHOOSE

COMPARING SILVER LINE® PREFERRED AND STANDARD WINDOWS & PATIO DOORS

Are you looking for the most options and the largest range of sizes? Then you're looking for our Preferred line of windows and patio doors. If you want just the popular sizes and options with the best fit for your budget, then choose our Standard line of windows and patio doors. All Silver Line® windows and patio doors offer energy efficiency and reliability, so no matter what you choose, it's the right choice.

PREFERRED WINDOWS & PATIO DOORS

Silver Line® Preferred windows and patio doors offer a broad array of features and options to fit your needs and extensive sizes to fit your home. Attractive designs, energy saving features and long-lasting[†] quality make these the ideal choice for any space.

STANDARD WINDOWS & PATIO DOORS

Silver Line® Standard windows and patio doors are designed with your budget in mind. Available in the most popular sizes and with the most popular features, these low-maintenance windows and patio doors offer what you need to fit your budget.

FEATURES & BENEFITS

- High energy efficiency features & options
- Many Preferred products have options that make them ENERGY STAR® v. 6.0 certified throughout the U.S.^{††}
- Heavy duty, low-maintenance vinyl frames
- Attractive frame profiles
- Extensive selection of options
- Broad range of custom sizes
- Enhanced grille selections
- Backed by an industry-leading Limited Lifetime Warranty[†]

FEATURES & BENEFITS

- Basic energy efficiency features
- Low-maintenance
- Simple design profiles
- Basic selection of options
- Most popular sizes
- Basic grille selections
- Backed by an industry-leading Limited Lifetime Warranty[†]

ENHANCE YOUR VIEW

Looking to add a bit more style to your home? Adding or changing grille styles and patterns can help change the look of your home. We offer many options to match what you're looking for.

See page 24 for more information.

PREFERRED

DOUBLE-HUNG WINDOW

The attractive Silver Line® 8600 Series double-hung window has the popular features you like in our windows but with added elements to make this an ideal solution to replace old, drafty windows in your home. It is crafted with the elegant design, energy savings and durability you expect from the Andersen family of brands.

Features & Benefits

- Colonial brickmold design adds a touch of classic style to your home
- Curved designs and rounded lift rail corners add to the beauty of this window
- Tilt-in top and bottom sash offer easy cleaning from inside your home
- Specially designed balance system makes this window effortless to open
- Unique covers on the sides create a clean look
- Fusion-welded, heavy duty vinyl for low-maintenance convenience
- Vent latches allow for easy ventilation while helping keep your windows secure
- Optional indicator lock lets you see at a glance if your window is unlocked
- Many 8600 Series windows have options that make them ENERGY STAR® v. 6.0 certified throughout the U.S.**

PREFERRED

CASEMENT WINDOW

The Silver Line® 70 Series casement window offers a balance of style and convenience in an energy efficient window. With many configurations to choose from, this casement window delivers design flexibility to complement virtually any home.

Features & Benefits

- A wide, flat profile with a curved detail creates an upscale design
- Opens effortlessly for effective ventilation
- Multi-point locking system operates from a single, low profile lever for easy use and added safety
- Folding operator handle eliminates interference with shades and blinds
- Fusion-welded, heavy duty vinyl for low-maintenance convenience
- Dual weatherstripping virtually eliminates drafts for a more comfortable, energy-efficient home
- Many 70 Series windows have options that make them ENERGY STAR® v. 6.0 certified throughout the U.S.**

AWNING WINDOW

Low-maintenance, energy efficiency and ease of installation are just some of the benefits you find with the Silver Line® 70 Series awning window. Unique designs can be achieved by stacking multiple awning windows in columns or grouping them together to create a row of light in your home.

Features & Benefits

- A wide, flat profile with a curved detail creates an upscale design
- Opens easily from the bottom to offer ventilation and protection from the weather
- Scissor type hinge offers easy operation with a secure multi-point locking system
- Folding operator handle eliminates interference with shades and blinds
- Fusion-welded, heavy duty vinyl for low-maintenance convenience
- Dual weatherstripping virtually eliminates drafts for a more comfortable, energy-efficient home
- Many 70 Series windows have options that make them ENERGY STAR® v. 6.0 certified throughout the U.S.††

PREFERRED

SLIDING WINDOW

The Silver Line® 8700 Series sliding window is ideal for bringing light and style into any room. Sash glide smoothly on a specially designed rolling track. Available in various 2- and 3-panel configurations, this sliding window provides an energy efficient solution to replace old, drafty windows.

Features & Benefits

- Colonial brickmold design adds a touch of classic style to your home
- Durable rollers and a smooth rolling track make opening these windows easy
- Sleek styling allows this window to fit wherever space is limited
- Fusion-welded, heavy duty vinyl for low-maintenance convenience
- Vent latches allow for easy ventilation while helping keep your windows secure
- Many 8700 Series windows have options that make them ENERGY STAR® v. 6.0 certified throughout the U.S.**

BAY & BOW WINDOWS

Silver Line® 70 Series bay and bow windows help create a bright, open room. They are engineered with superior strength and watertight features, including a solid wood frame with vinyl cladding, insulated seatboard options and a sill pan for superior water management. These windows offer many options and can easily be customized to match your home's style.

Features & Benefits

- Bay windows are available with casement or double-hung windows in 30° and 45° projections with a classic $\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$ configuration
- Bow windows are available with casement windows in 10°, 15°, 22°, 30° or 45° projections and offered with 3, 4, or 5 lites
- Solid wood frame and mullions provide excellent strength and durability
- Designed to prevent leaks and drafts with vinyl cladding, sill pans and insulated seatboard options
- Easily level window during installation with an adjustable steel-rod cable hanging support system

Bay Window Shown

PREFERRED

PATIO DOOR

The popular Silver Line® 5800 Series sliding patio door offers a sturdy, elegant and energy efficient design. Designed and built to provide smooth, reliable performance, this fully assembled, fusion-welded door is ideal for your home.

Features & Benefits

- A thicker, wider profile creates a traditional appearance
- Designed with durable, self-leveling rollers to make opening this patio door smooth and effortless
- Fusion-welded, heavy duty vinyl frame and panels make a sturdy and durable patio door
- Fully assembled for fast and easy installation
- Steel reinforced panels offer added strength
- A multi-point lock operates from a single lever for easy and secure locking
- Optional PG rating upgrade is available on many sizes for additional strength and durability
- Many 5800 Series patio doors have options that make them ENERGY STAR® v. 6.0 certified throughout the U.S.††

STANDARD

STANDARD

DOUBLE-HUNG WINDOW

The Silver Line® 1200 Series double-hung window provides simple aesthetic appeal and energy efficiency in a modestly-priced window. Several standard features and options let you create a window that will not only fit your design needs, but your budget as well.

Features & Benefits

- Simple, beveled design matches any décor
- Tilt-in top and bottom sash for easy cleaning
- Fusion-welded vinyl offers low-maintenance convenience
- Interlocking sash offer an effective seal against drafts
- Vent latches allow for easy ventilation while helping keep your windows secure
- Many 1200 Series windows have options that make them ENERGY STAR® v. 6.0 certified throughout the U.S.††

SINGLE-HUNG WINDOW

The budget-conscious Silver Line® 2000 Series single-hung window offers a simple, flat design to fit many styles. Popular features along with a moderate price make this window an attractive value.

Features & Benefits

- Simple, flat design blends with any décor
- Tilt-in bottom sash for easier cleaning
- Fusion-welded vinyl offers low-maintenance convenience
- Interlocking sash offer an effective seal against drafts
- Many 2000 Series windows have options that make them ENERGY STAR® v. 6.0 certified throughout the U.S.††

STANDARD

SLIDING WINDOW

The Silver Line® 2090 Series sliding window is a sleek choice that will blend with your home's style. Its simple but energy-efficient construction and clean lines provide a balance of form and function while fitting your budget.

Features & Benefits

- Simple, flat design blends with any décor
- Durable rollers and a smooth rolling track make opening these windows easy
- Fusion-welded vinyl offers low-maintenance convenience
- Interlocking sash offer an effective seal against drafts
- Many 2090 Series windows have options that make them ENERGY STAR® v. 6.0 certified throughout the U.S.††

PATIO DOOR

The Silver Line® 5500 Series sliding patio door is available in several standard sizes and with popular options, allowing you to create a patio door to fit your needs and your budget.

Features & Benefits

- Simple, flat design blends with any décor
- Fusion-welded vinyl panels offer low-maintenance convenience
- Fully assembled for faster installation or available as separate parts for easier transportation
- Optional blinds-between-the-glass are fully adjustable and are sealed between two panes of glass to protect from dust, dirt and damage
- Many 5500 Series patio doors have options that make them ENERGY STAR® v. 6.0 certified throughout the U.S.††

IMPROVING THE VIEW OUTSIDE

RESPECT FOR THE ENVIRONMENT IS NOTHING NEW AT SILVER LINE

At Silver Line, we hold a commitment to conserve natural resources wherever we can; from designing and testing new products that will deliver greater energy savings for our customers, to more energy efficient delivery methods, even to printing our brochures. We understand the importance of creating healthier and more energy efficient homes.

ENERGY STAR® is a joint program of the U.S. Environmental Protection Agency (EPA) and the U.S. Department of Energy (DOE) that helps consumers save money and protect the

environment through energy efficient products and practices. Silver Line is proud to be an ENERGY STAR partner with our continuing commitment to providing energy efficient products.

Silver Line® vinyl windows and patio doors have been Home Innovation NGBS Green Certified for both Energy Efficiency and Resource Efficiency. Silver Line achieved these approvals by providing independent third-party results that our vinyl windows and patio doors perform to the green practice criteria in the National Green Building Standard. As a result, these products are eligible for points toward National Green Building Certification.

Silver Line products are certified under the National Fenestration Rating Council's voluntary third-party certification program designed to ensure accurate energy performance ratings and labeling.

Silver Line proudly participates in the WDMA Hallmark Certification program, which includes product testing and quality control process audits to verify that our windows and patio doors are produced in conformance with the industry standards for air and water resistance, and structural performance.
