SMC ACE Web is supported on Chrome Browser for Better Performance

For any support or query, write to us on smc.care@smcindiaonline.com or Call us on 011-66075200

1

1. Login:

On Login page of SMC ACE Web, client has many actionable icons for their use, most notably "Theme Selection (Day/Night)" i.e. Dark Theme & White Theme and "Take Me To" option which helps client to directly land on selected page of his/her choice. By default, client is taken to dashboard page i.e. Home if no selection made.

It has also got 'Forgot Password' option to regenerate Password and 'Unlock Password' option to unlock account, in case it is locked by mistake or due to three wrong attempts.

Client needs to put his login credentials, as received from SMC, in User ID and Password field on login page.

2. Market Watch:

Market watch is one of the most important page on SMC ACE Web which has been designed in such a way that client gets all necessary information on single page itself without moving here & there. Client directly lands on this page ig he/she has selected 'Invest' as a dropdown on login page during login otherwise client can direct click on 'MW' menu when he/she lands on Dashboard or any other page.

Apart from Mutli actionable market watch, you have Indices, Fast Scrip Search, Filter, Edit Columns, Trade related reports, Funds, Stock View, Funds Summary, Help section etc.

There are multiple ways to put buy and sell order for particular scripts or contract thus making it much easier for you to place trades as fast as possible.

If you want to quickly buy/sell any scrip then you can either move cursor on scrip name which gives you Buy/Sell option as well as adding that particular scrip to any specific profile as per your choice. Alternatively, you can select scrip and use Buy/Sell option on upper row and yes, you also have **short cut key F1 – Buy and F2 – Sell.**

On Market Watch, you have filter option available to select scrip as per your selected filter. Once you click on it, a separate row appears below it. You just need to put scrip name in filter list and in other fields where numeric value appears, you need to put filter as >Qty or <Qty e.g. if you have to view scrip having buy quantity more than 500 then you need to use filter below Buy Qty as >500. As soon you type it, filtering happens automatically and deleting it takes you to previous state.

You can also edit Market Watch columns by clicking on Column setting option and selecting/deselecting columns as per your choice. This helps you doing away with columns you

do not need. You can also inter change columns by dragging one column header to another column header.

How to Add/Delete scrip on Market Watch?

To add scrip on your market watch, you can click on "Add Scrip Option" where you can type any scrip or contract name and it shows you respective drop down. E.g. If you want to add

NIFTY 10000 CE contract, you need to type NIFTY and it start showing relevant result and as you type 10000, it shows all related strikes with expiry dates. As soon as you select scrip, it is added to you existing market watch and saved in your customized market watch.

How to make my customized profile as Default one?

CEwee

You can make your newly created profile as your default profile i.e. whenever you login, the profile selected by you will be marked as default one not as defined by the system when you login for the first time.

To do the same, you need to click on "My Preferences" option under My Account menu.

A

On Market watch upper part, you can see Indices option which is accessible to you even if you are on different pages of trading portal thus, helping your keep tab on your favorite indices. The best part is that in each Index option, you can select maximum three indices and it will keep changing in each Index box as per your selection. This gives you liberty to view not only Nifty and Sensex but additionally four more indices.

How to Convert Position and Square-off Position?

To convert your position, you just need to click on "Pos. Convert" option and a window will open up with 'From Product' to 'To Product' with quantity available. While converting product from Less Margin to High Margin, you need to ensure that you have enough margin available.

By Default, order goes as 'Market Order'. If you wish to put limit order, you can do so by changing 'Order Type'. Once you click on 'Place Order', an order confirmation window appears which needs to be confirmed for Final Square off order submission. Quantity becomes Zero after successful order execution.

9. Stock View:

You can see your tradable stocks in Demat (if POA submitted) or pending shares from Exchange in Stock view option which can be accessed at bottom of Market watch in collapsible menu.
