## 2014-15 Assessment Results

ANDREW PARR \& PARKER TEED STATE BOARD OF EDUCATION

SEPTEMBER 10, 2015

## Low Statewide Participation Rates

- Three elements of an accountability 'perfect storm'
* New assessment system
* Recently adopted learning standards
, Organized opposition to testing in general, the Smarter Balanced and Common Core
- Result - an unprecedented number of schools, districts, and the state did not meet the 95 percent participation expectation.

Regression shows lower poverty is predictive of higher refusal rates

Regression Based on Preliminary 11 ${ }^{\text {th }}$ Grade Math SBA Refusal Rates

Regression also shows larger school size is predictive of higher refusal rates

Regression Based on Preliminary 11 ${ }^{\text {th }}$ Grade Math SBA Refusal Rates

Level Three or Four on the Fifth Grade Mathematics Smarter Balanced Assessment

## Comprehensive High Schools Meeting 95\% Participation Targets

## Comprehensive High Schools with Very Low Participation Rates

## Test Refusals - School Level

- Of the 2162 schools with data, about $20 \%$ (464) did not meet federal participation rates.
* Over 95\% of high schools failed to meet part rate requirements.
- Per Federal requirements,
* Test refusals are identified as non-participants
, Students are identified as Not Meeting Standard
* Factor into the denominator for Proficiency rate calculations

RESULT - schools with low participation rates will have low proficiency rates.

## School Level Differences

- For elementary and middle schools, the participation rates were variable but were mostly high.
- For high schools, the participation rates were mostly very low.

| School Level | ELA Participation \% |  |  | Math Participation \% |  | Average Participation \% |  |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
|  | Low | High | Median | Low | High | Median | Low | High | Median |
| Elementary | 35 | 95 | 95 | 25 | 95 | 95 | 30 | 95 | 95 |
| Middle | 86 | 95 | 95 | 87 | 95 | 95 | 86 | 95 | 95 |
| High | 5 | 90 | 14 | 5 | 87 | 16 | 5 | 88 | 17 |

## Within District Differences

- School by school participation rates vary considerably within districts but are mostly very low.

| School | Enrollment | FRL \% | ELA <br> Participation | MATH <br> Participation | Average Participation |
| :---: | :---: | :---: | :---: | :---: | :---: |
| HIGH SCHOOL 1 | 285 | 19 | < 5 | < 5 | < 5 |
| HIGH SCHOOL 2 | 330 | 26 | < 5 | < 5 | < 5 |
| HIGH SCHOOL 3 | 1143 | 31 | < 5 | < 5 | $<5$ |
| HIGH SCHOOL 4 | 1640 | 39 | < 5 | < 5 | < 5 |
| HIGH SCHOOL 5 | 1612 | 18 | 6 | < 5 | < 5 |
| HIGH SCHOOL 6 | 1095 | 34 | 8 | < 5 | 6 |
| HIGH SCHOOL 7 | 1747 | 15 | 8 | 23 | 15 |
| HIGH SCHOOL 8 | 168 | 47 | 20 | 18 | 19 |
| HIGH SCHOOL 9 | 983 | 40 | 34 | 15 | 24 |
| HIGH SCHOOL 10 | 863 | 70 | 30 | 26 | 28 |
| HIGH SCHOOL 11 | 107 | 80 | 45 | 32 | 39 |
| HIGH SCHOOL 12 | 1263 | 60 | 72 | 34 | 53 |
| HIGH SCHOOL 13 | 1375 | 67 | 68 | 61 | 65 |
| HIGH SCHOOL 14 | 484 | 81 | 90 | 87 | 88 |

Washington State Board of Education

## School Testing Participation Rates

- Generating new data using the Index data file and 2015 AYP data files from the Washington Report Card.
- Using statistical analyses (multiple regression) to:
* Estimate how schools should perform on participation rate based on school size and FRL rates
, Compare the actual participation rate to the estimated participation rate
* Identify the schools who performed best (and worst) after considering size and poverty level.
- Basically, regression tells us who participated at higher (or lower) rates than the data would predict?

## Power of Multiple Regression

This is a moderate and negative correlation ( $\mathrm{R}=-0.464$ ).

Participation rates are lower at larger schools.

This is a moderate and positive correlation ( $r=0.403$ ).

Participation rates are lower at low poverty schools.

## High Schools that Exceeded Predicted Participation Rates

| District | School | Enroll | FRL <br> $\%$ | ELA <br> Part. | Math <br> Part. | Average <br> Part. | Predicted <br> Rate | Residual <br> $(+/-)$ |
| :--- | :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| VANCOUVER SD | SKYVIEW HS | 2003 | 29 | 86 | 86 | 86 | 37 | 50 |
| MEAD SD | MEAD SENIOR HS | 1573 | 23 | 91 | 89 | 90 | 41 | 49 |
| BETHEL SD | KAPOWSIN HS | 1811 | 36 | 90 | 85 | 87 | 40 | 47 |
| LAKE STEVENS SD | LAKE STEVENS SHS | 1779 | 23 | 74 | 91 | 82 | 38 | 44 |
| YAKIMA SD | EISENHOWER HS | 1987 | 70 | 95 | 94 | 94 | 51 | 43 |
| OAK HARBOR SD | OAK HARBOR HS | 1540 | 35 | 90 | 85 | 88 | 46 | 42 |
| CHENEY SD | CHENEY HS | 1169 | 41 | 94 | 95 | 95 | 54 | 41 |
| YELM SD | YELM HS | 1260 | 40 | 95 | 92 | 93 | 54 | 40 |
| BETHEL SD | BETHEL HS | 1578 | 47 | 92 | 88 | 90 | 51 | 39 |
| ARLINGTON SD | ARLINGTON HS | 1621 | 26 | 84 | 79 | 82 | 43 | 39 |
| BETHEL SD | SPANAWAY LAKE HS | 1710 | 51 | 89 | 85 | 87 | 50 | 37 |
| STEILACOOM HIST. SD | STEILACOOM HS | 875 | 18 | 89 | 91 | 90 | 53 | 37 |
| ORTING SD | ORTING HS | 740 | 33 | 95 | 94 | 95 | 58 | 37 |
| PUYALLUP SD | EMERALD RIDGE HS | 1528 | 23 | 77 | 80 | 79 | 42 | 36 |
| PASCO SD | CHIAWANA HS | 2335 | 69 | 75 | 90 | 82 | 46 | 36 |

| KENNEWICK SD | KENNEWICK HS | 1487 | 70 | 34 | 7 | 20 | 60 | -40 |
| ABERDEEN SD | WEATHERWAX HS | 914 | 55 | 34 | 17 | 25 | 65 | -39 |
| KENNEWICK SD | SOUTHRIDGE HS | 1650 | 49 | 21 | $<5$ | 13 | 50 | -37 |

[^0]
## How Did Some High Schools Achieve the High Participation Rates?

- Skyview High School: 50 percentage points above expected
'Administrators and staff emphasized the importance of doing well for enrolling in college down the road. School staff bent over backwards to get students in front of the computers used for testing.'
- Cheney High School: +95\% Participation
'Administrators and staff developed a test administration plan to personalize the experience for our students. Our teachers take ownership in the success of their students.'
- West Valley High School: +95\% Participation
'Staff made a concerted effort to reduce 'testing stress' for students and communicated the benefits of doing well on the test to the students. The students wanted to do well on the tests.'

## Questions?

If you have questions, please contact:
Andrew Parr at andrew.parr@k12.wa.us
Parker Teed at parker.teed@k12.wa.us

## Additional Information

- The following slides introduce other analyses included in the board packet on pages 114 to 119 of the board packet.
- These analyses can be found at www.sbe.wa.gov/materials.php

## Fourth Grade Reading

## Eighth Grade Reading

## Fourth Grade Math

## Eighth Grade Math

## $5^{\text {th }}$ Grade Science

- The percentage of students Meeting Standards declined in 2015 from 2014 for all student groups.
- The Targeted Subgroup members showed the greatest decline.

## $8^{\text {th }}$ Grade Science

- The achievement gap in science is increasing because the declines for the Targeted Subgroup members are larger than the other groups.

Washington State Board of Education

## Comparison of MSP and SBAC

The percentages of students meeting standard on the 2015 SBAC ELA are 10 to 20 percentage points lower than 2014 MSP Reading percentages.

The percentages of students meeting standard on the 2015 SBAC Math are 7 to 18 percentage points lower than the comparable 2014 MSP Math percentages.

## SBAC ELA and Math

- The performance on the SBAC ELA increases from the lower grades to the upper grades
- The performance on the SBAC Math decreases from the lower grades to the upper grades
