## Education & Experience

Since I was young I have felt aesthetic interests, a creative drive and a vivid imagination. I have studied 3 years of **Philosophy**, Universitat de Valencia. A **degree in Graphic Design** between the **EASD** of Valencia and the **Kassel Kunsthochschule** in Germany. I Would like to make a good Master but I have not the money to afford it :(

**Clients:** VONDOM, Porcelanosa, Bang & Olufsen, Ramon Esteve, Arco, Ivam, Renfe, Consum... My last work stage, 3 years as a creative at: [ramonesteve.com](http://ramonesteve.com)

## My Skills

I have a highly developed sense of intuition and good capabilities to recognize and recreate visual or aesthetic codes. I can quickly detect and analyze new trends in a cultural environment. I like to find inspiration within the tiny daily detail. After years of experience, I am able to take a project from the concept to the final production, controlling every detail and solving any problem during the process.
