Welcome!

Welcome to our annual Production Sale. We value our many friends and customers that we have developed during our many years in the Hereford business. I am a 4th generation Hereford breeder with my great-grandfather, JD Meeks, originated our Hereford herd in the early 1900's in Texas. My grandfather, Alfred, moved his family and cowherd from Dalhart, Texas to our present location at the Upstream Ranch back in 1955. I'm very proud of the fact that we have been greatly involved in this great breed for such a long time.

Our goal and mission at the Upstream Ranch is to produce moderate framed, thick made, fast growing, efficient cattle that will be profitable in the commercial cattle industry. We always try to produce productive cattle that have a solid balance between calving ease, efficient growth, strong maternal traits with a heavy emphasis on udder quality, and improved carcass traits. We have really emphasized the improvement of carcass traits in our herd and I think the carcass EPDs for this set of sale cattle is pretty impressive.

The Hereford business is in a very exciting time. The breed has made fabulous improvement over the past decade and I feel that trend will continue. Our genetic goal has always been to balance phenotype, EPDs and pedigree acceptance into a high quality product. Integrity and a no-nonsense approach to raising cattle, something I learned from my Grandfather, will be our focus at Upstream Ranch. Soundness and problem-free production is our top priority in our cow herd.

I feel this is our strongest sale offering to date. The bull offering is really deep in quality. At this sale, buyers will have the opportunity to sort through many stout, thick made bulls with breed leading EPDs. All the bred heifers offered in this production sale are ultrasounded safe in calf to calve March 20, 2020 to 4 exciting bulls. These heifers were picked from the heart of our replacements with many being outstanding ET heifers from our top donors.

Call if we can answer any questions about the offering or the cow herd. We cordially invite you to be with us on Saturday, Feb. 1, 2020, for lunch and viewing of an offering we're proud to present. If you cannot be present at our sale we are excited to present it live on Superior Click to Bid and DV Auction will be broadcasting it live.

Bull Development Program

We don't creep feed our calves. After weaning, we feed the bulls a medium energy growing ration. Our plan is moderate gain, not maximum yearling weight or extremely high individual carcass data. We feel that program is harmful to the bull's longevity and is not necessary to determine an individual's genetic value. The bulls are run in grass pastures during the summer from early May through late November with limited grain. After that time, they are brought up to the headquarters and prepared for the sale. Our goal is to have the bulls in moderate condition for the sale, but definitely not over fat!

CE EPD	BW EPD	WW EPD	YW EPD	MM EPD	Udder Score	Teat Score	REA EPD	Marb EPD	CHBS EPD
0.0	3.5	78	130	28	1.10	1.10	0.88	0.08	133

BW, WW, YW, MM, US (Udder Suspension), TS (Teat Score), REA & IMF are the individuals' current Expected Progeny Differences (EPDs).

M&G - To figure the M&G EPD, divide the WW EPD in half and add that number to the MM EPD and that will give you the M&G EPD number. (78 divided by 2 is 26) 26 + 34 = 60

Certified Hereford Beef Index (CHBS)

This is a terminal sire index that is built on a production system where Hereford bulls sire calves for the CHB market.

Calving Ease – Direct (CE)

CE EPDs are based on calving ease scores and birth weights. More positive EPDs are favorable and indicate easier calving.
