TO THE MEMBERS OF

SAINT-GOBAIN SEKURIT INDIA LIMITED

We have examined the compliance of conditions of Corporate Governance by Saint-Gobain Sekurit India Limited (the Company) for the year ended on March 31, 2013 as stipulated in Clause 49 of the Listing Agreement of the Company with the Bombay Stock Exchange Limited.

The compliance of conditions of Corporate Governance is the responsibility of the management. Our examination was limited to a review of the procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the above mentioned Listing Agreement except to the extent of non-compliance of Clause 40-A of the said agreement. Saint Gobain Glass India Ltd., one of the Promoters of the Company had made a Voluntary delisting offer to the Public shareholders of the Company in accordance with Securities & Exchange Board of India Delisting of Equity shares Regulations, 2009. However because of the poor response from the Public shareholders the offer failed. The Company is now proposing a Scheme of Amalgamation under Section 391 to 394 of the Companies Act, 1956, whereby the Company will be amalgamated with a Listed Group Company.

We state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

ANNEXURE 'C' TO THE DIRECTORS' REPORT FOR THE YEAR ENDED 31ST MARCH, 2013:

Management Discussion and Analysis Report

(Pursuant to Clause 49 of the Listing Agreement with the Stock Exchange.)

General Review:

Saint-Gobain Sekurit India Ltd. (SGSIL) is a subsidiary of Saint-Gobain Sekurit S. A. France, which is a part of Compagnie de Saint-Gobain, a transnational Group with its headquarters in Paris and with sales of Euros 43.2 billion for the year 2012. Saint-Gobain's businesses fall into five broad sectors of activity: Construction Products, Flat Glass, Packaging, Building Distribution and High Performance Materials. SGSIL's business is a part of Flat Glass sector. SGSIL is in the business of processing of glasses to cater to the Automobile sector.

A brief outline and a review of Company's business are provided below:

1. Automotive Segment:

(i) Products and Plants:

Automotive Glasses are glasses fitted in the body of all automobile. Typically, these glasses are either Laminated or Tempered. All windshields are Laminated and other glasses (Backlites & Sidelites) are Tempered. SGSIL has two plants, one at Bhosari and the other at Chakan, near Pune. Both these plants were surveyed for ISO 14001: 2004 and recertified and upgraded to OHSAS 18001. The Laminated Glasses are manufactured in Chakan while the Tempered Glasses are produced in Bhosari.

(ii) Industry:

Broadly, there are two distinct market segments – Automobile manufacturers (OEM) and the Replacement Market. There is only one major player, other than SGSIL, supplying to the Automobile manufacturers. However there are quite a few small players in the Replacement market.

(iii) Broad Characteristics of the Business:

- High Entry Barrier in the form of High Capital Investment.
- Complete dependency on the Auto sector.
- Key success factors are quality, cost, capability to supply in full car sets to Automobile manufacturer and proximity to customers.

Development, Outlook, Risks and Concerns:

During the year 2012-13, the market has witnessed a slowdown after the recovery of 2011-12. The overall sentiment in the commercial and 3-wheeler segments was negative.

The commercial vehicles market grew in the year 2012-13 at a moderate 4 % compared to 2011-12 which was 30%. However the 3-wheeler market grew by 13% in the year 2012-13 over 2011-12, mainly on account of increased export of 3 wheelers from one of your Company's OEMs. Your Company was also successful in obtaining price corrections from the OEMs and the market, to partially offset steep input price increases seen during the year. The outlook on the Indian automotive market for 2013-14 continues to be negative. Your company will make all efforts to explore opportunities to grow its businesses and to contain costs.

The risk environment has been evolving rapidly, as advancing technological and social developments bring forth new or hitherto dormant risks associated with such phenomena as hazardous materials, pollution, electronic data and exposure to legal and political liability. The Company has an obligation to be fully aware of its responsibilities in this area and is taking all necessary steps with assistance from the parent company to avoid or mitigate the business risks that might adversely affect its business. As stated in last year's Management Discussion and Analysis Report, the Company has rationalised and restructured its operations in order to meet the emerging challenges in the market place.

Overall Performance:

During the year under review, your Company's sales increased by 6%. All relevant segments except 3-wheelers, saw negative growth.

During the last few years, your Company has taken several initiatives to improve its competitiveness and quality of its products. The plants at Bhosari and Chakan were modernised. The operations of your Company were restructured and rationalised. There was sustained focus on operational efficiencies which has yielded positive results. Due to volumes being flat and the steep increase in the input costs (especially, electricity), staff costs and expenses during the year under review, your Company's operating profit reduced substantially from Rs. 1012 lacs in the previous year ended 31st March, 2012 to Rs. 220 lacs in the current year ended 31st March, 2013 registering a sharp decline of 79%.

Internal Control Systems:

Your Company has an effective internal control environment. The internal checks and control mechanism is in place, which ensures adequate checks and balances. Your Company has a strong audit framework. The Audit Committee meets every quarter to review compliance with internal controls, accounting standards, policies and approve quarterly financial results etc. Group Internal Auditors conduct periodic Internal Audits. Further, during the year, Internal Auditors (external agency) have carried out internal audit covering Scrap Sales, Freight forwarding Contracts and labour Contracts. These Audit Reports along with action taken report are placed before the Audit Committee for review.

Applicability of Segmental Financials:

Your Company recognises Automotive Glass as a single segment.

Human Resources:

The Company provides a congenial and productive work environment with an aim to retaining high performers who are capable of delivering results in a dynamic and challenging external environment. The Management continues to empower employees with opportunities to give their suggestions on various operational and business challenges. The twin objective of improving the quality of human capital available with the Company and harnessing its potential for the benefit of the Company continues to form the cornerstone of the HR policy of your Company.

CAUTIONARY STATEMENT:

The Management Discussion and Analysis Report may contain some forward looking statements based upon the information and data available with the Company, assumptions with regard to global economic conditions, the government policies etc. The Company cannot guarantee the accuracy of assumptions and perceived performance of the Company in future. Hence it is cautioned that the actual results may differ from those expressed or implied in this report.

NOTES FORMING PART OF FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2013

I. GENERAL INFORMATION:

Saint-Gobain Sekurit India Limited (the 'Company') is engaged primarily in business of automotive glass. The Company has two manufacturing plants in Pune at Bhosari and Chakan and sells primarily in India. The Company is a public limited company and is listed on the Stock Exchange, Mumbai (BSE).

SIGNIFICANT ACCOUNTING POLICIES:

II. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

These financial statements have been prepared in accordance with the generally accepted accounting principles in India under the historical cost convention on accrual basis. These financial statements have been prepared to comply in all material aspects with the accounting standards notified under Section 211(3C) [Companies (Accounting Standards) Rules, 2006, as amended] and the other relevant provisions of the Companies Act, 1956.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule VI to the Companies Act, 1956.

III. TANGIBLE ASSETS AND DEPRECIATION

Fixed assets are stated at cost of acquisition or construction less accumulated depreciation and accumulated amortization losses, if any. All costs relating to the acquisition and installation of fixed assets are capitalized and include borrowing costs directly attributable to construction or acquisition of fixed assets, upto the date the asset is put to use. Subsequent expenditures related to an item of fixed asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Losses arising from the retirement of, and gains or losses arising from disposal of fixed assets which are carried at cost are recognised in the Statement of Profit and Loss.

Depreciation on fixed assets has been provided as under:

Depreciation is provided on a pro-rata basis on the straight-line method over the estimated useful lives of the assets or the rates prescribed under Schedule XIV of the Companies Act, 1956, whichever is higher, as follows:

- a) Moulds, pallets and trolleys are depreciated over a period of four years
- b) Computers and vehicles are depreciated over a period of four years

Fixed Assets costing less than Rs. 5,000 are fully depreciated in the year of purchase.

Leasehold land is amortized over the period of lease.

IV. INTANGIBLE ASSETS AND AMORTIZATION

Intangible assets are stated at acquisition cost, net of accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful lives. A rebuttable presumption that the useful life of an intangible asset will not exceed ten years from the date when the asset is available for use is considered by the management. The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss. The amortisation rates used are:

- a) Computer software is amortized over a period of five years

V. BORROWING COSTS

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised in Statement of Profit and Loss in the period in which they are incurred.

NOTES FORMING PART OF FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2013

VI. IMPAIRMENT

Assessment is done at each Balance Sheet date as to whether there is any indication that an asset (tangible and intangible) may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.

VII. INVESTMENTS

Investments that are readily realisable and are intended to be held for not more than one year from the date, on which such investments are made, are classified as current investments. All other investments are classified as long term investments. Current investments are carried at cost or fair value, whichever is lower. Long-term investments are carried at cost. However, provision for diminution is made to recognise a decline, other than temporary, in the value of the investments, such reduction being determined and made for each investment individually.

VIII. INVENTORIES

- a) Raw materials, components, stores and spares are valued at cost or net realizable value, whichever is lower. Cost is determined using the standard cost adjusted for variance from actual costs on weighted average basis.
- b) Finished goods and work-in-process are valued at cost or net realizable value, whichever is lower. Finished goods and work-in-process includes cost of conversion incurred in bringing the inventories to its present location and condition.

IX. REVENUE RECOGNITION

XI. FOREIGN CURRENCY TRANSACTIONS

Subsequent Recognition

As at the reporting date, non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. All non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

All monetary assets and liabilities in foreign currency are restated at the end of accounting period.

Exchange differences on restatement of all other monetary items are recognised in the Statement of Profit and Loss.

Forward Exchange Contracts

The premium or discount arising at the inception of forward exchange contracts entered into to hedge an existing asset/liability, is amortised as expense or income over the life of the contract. Exchange differences on such a contract are recognised in the Statement of Profit and Loss in the reporting period in which the exchange rates change. Any profit or loss arising on cancellation or renewal of such a forward exchange contract are recognised as income or as expense for the period.

The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee’s salary and the tenure of employment. The Company’s liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognised in the Statement of Profit and Loss in the year in which they arise.

Termination Benefits: Termination benefits in the nature of voluntary retirement benefits are recognised in the Statement of Profit and Loss as and when incurred.

XIII. TAXATION

- (a) Provision for current tax is made in accordance with and at the rates specified under the Income-tax Act, 1961, as amended.
- (b) In accordance with Accounting Standard 22 – ‘Accounting for taxes on Income’, issued by the Institute of Chartered Accountants of India, the deferred tax for timing differences between the book and tax profits for the year is accounted for using the tax rates and laws that have been enacted or substantively enacted as of the Balance Sheet date.

Deferred tax assets arising from the timing differences are recognized to the extent there is reasonable certainty that the assets can be realized in future.

In cases where there is tax loss and unabsorbed depreciation, deferred tax assets are recognized to the extent that the realization of the related tax benefit through the future taxable profits is virtually certain.

Minimum Alternative Tax credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

XIV. PROVISIONS AND CONTINGENCIES

Provisions: Provisions are recognised when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date and are not discounted to its present value.

Contingent Liabilities: Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is termed as a contingent liability.
