Executive Director's Annual Review 2018-2019

By Marsha A Wise, Executive Director

Thank you to everyone who participated in our conferences held in 2018. Over 500 attendees registered to attend the meeting in West Palm Beach, with 100 of those being walk-in registrations! The Florida requirements session held on Sunday, March 25, 2018 was a HUGE success!

2018 was AOCD's 60th anniversary. We had a fun and fantastic night at West Palm Beach with our Casino theme gala. Of course the **BEST** news of the day was receiving word that the AOCD received provisional accreditation with the ACCME. The staff and I are so proud to be able to accomplish this for our members! There are no limits now to what the AOCD can offer its members!

You may have noticed in our brochures lengthy disclosures regarding our CME activities and speakers. This notification is a requirement of the AOA and the ACCME. We continue to closely monitor any potential conflicts of interest to avoid any commercial bias during our CME activities per standard 6 of the Standards for Commercial Support. A conflict of interest exists when an individual has an opportunity to affect CME content about products or services of a commercial interest with which he/she has a financial relationship.

"An individual must disclose to learners any relevant financial relationship(s), to include the following information: The name of the individual; The name of the commercial interest(s); The nature of the relationship the person has with each commercial interest."

AOCD's decisions regarding CME activities are made free of the control of any commercial interest, and all decisions regarding the disposition and disbursement of commercial support are made by the AOCD.

Our fall meeting held in San Diego was an interesting one with the employee strike at our conference hotel. It was inconvenient, but we survived! Thank you to everyone who attended and stayed with us.

We have some exciting updates to share with everyone. The dermatology disease i-phone app is being updated. We plan to offer new content to our Dermatology Disease Database in 2019. The AOCD is also adding a Learning Management System to our website. This will allow us to store more online content, including videos, podcasts, etc. In 2018 we began to offer online CME opportunities. The LMS will allow us to offer more online educational opportunities than our current setup.

January 26, 2019, the Board of Trustees held a retreat. This day was spent reviewing governance, policies and setting goals for the coming year.

The AOCD staff continues to look for ways to improve membership benefits for our members. Please contact us with any suggestions you might want to share.

Should you have questions pertaining to Board Certification, re-certification, or Osteopathic Continuous Certification (OCC), please refer to www.aobd.org. You may also contact Libby Strong with the AOA/AOBD at 312-202-8112.

"Let your light so shine that the world will know you are an osteopathic physician pure and simple, and that no prouder title can follow a human name."

The Foundation for Osteopathic Dermatology (FOD) is dedicated to providing grants for education and research in dermatology and related areas. The various levels of support are as follows:

- Pinnacle Table: \$25,000 over a 5-year period
- The Ulbrich Circle: \$10,000 over a 10-year period
- Koprince Society: \$1,000
- Leaders of Osteopathic Dermatology: \$500
- Scholars Circle: \$250
- Residents' Forum: \$100

The Foundation for Osteopathic Dermatology was founded in 2002 by the AOCD as a unique extension of the Osteopathic Dermatology community. Its purpose is to improve the standards of the practice of Osteopathic Dermatology by raising awareness, providing public health information, conducting charitable events, and supporting research through grants and awards given to those applicants under the jurisdiction of Osteopathic Dermatology Physicians.

Funding is solely through voluntary donations from physicians and members of the Osteopathic Dermatology community and the generous sponsorship of corporate donors.

The FOD instituted a research grants program to encourage and support scientific investigations into the potential causes of dermatological issues and other key aspects of various dermatological conditions. Research grants are provided to encourage improvement in its treatment, potential prevention and/or cure in the related Dermatology field.

Applications will be entertained from osteopathic physicians in postdoctoral training programs and research fellowships in dermatology. Each grant supports one individual. Not more than two consecutive or non-consecutive grants may be awarded to an individual.

The grant is not exclusive and the investigator may seek additional funding from other sources such as the AOA Bureau of Research, governmental agencies, other outside agencies, college or hospital, etc.

All requests for grants are submitted in accordance with established guidelines and deadlines for the individual grants and are subject to review by established procedures of the Board of Directors of the Foundation. All areas of dermatology research will be considered based on their scientific merit. Researchers interested in applying for a research grant can download the application from the American Osteopathic College of Dermatology's website.

There are multiple grants available to an Osteopathic Dermatologist. They include:

The **FOD Resident Research Grant** is awarded annually to an osteopathic dermatology resident in an AOA accredited institution. The purpose of this grant is to foster research in dermatology medicine conducted by dermatologists at a graduate level.

The **FOD Young Investigator Grant** is awarded annually to an osteopathic dermatologist who is a graduate of an accredited dermatology residency and practicing dermatology in an accredited institution for five years or less. The purpose of this grant is to foster research among young dermatologists and is awarded to promising physician researchers meeting these criteria.

The **FOD Physician Investigator Grant** is awarded annually to an established osteopathic physician with five or more years in practice, who is certified in dermatology and conducting research in dermatology at an accredited institution. The purpose of this grant is to sponsor or co-sponsor research in any area of dermatology.

The **FOD Institutional Grant** is awarded to an osteopathic physician who is certified in dermatology and providing care in a developing country. The purpose of this grant is to sponsor a dermatologist helping to improve the dermatologic needs of that specific country.

Applications must be typewritten or printed and contain all of the following:

1. Curriculum vitae: Limited to four pages. Include the following, listed in chronological order: employment, positions and honors, selected peer-reviewed publications (do not include publications submitted or in preparation), research experience.
2. A photo portrait (head and shoulders) of the applicant.
3. Budget: A budget detailing how the funds will be used.
4. Research proposal containing the following: Introduction: Include description of the general concepts of the project, background information, preliminary work and observations or reference to existing literature.
5. Major Methods: A detailed description of the research plan including methods and controls. Include a description of the proposed experiments or procedures; the techniques to be used; the number and type of subjects; the control population; the types of data expected to be generated; and the means by which the data will be analyzed and interpreted.
6. Analysis of Results: Present an overview of the planned analysis and summary of the data.
7. Conclusion: Provide a description of the significance of this research to the field of dermatology and osteopathic medicine (philosophy or practice) in general.
8. Project Summary The summary should provide a concise overview of the project (limited to one page).
