**APPLICATION FOR AN ATMOSPHERIC EMISSIONS LICENCE FOR
RECTIFICATION OF UNLAWFUL CONDUCT OF LISTED ACTIVITIES**

NOTICE NO: L&S01 01/2018 REF NO.: WCCT-089

Notice is hereby given in terms of Section 38(3)(b) of the National Environmental Management: Air Quality Act, 2004 (Act No. 39 of 2004) (NEMAQA), as amended, of an invitation to register comments with regards to an application for an Atmospheric Emissions Licence (AEL) in terms of Section 22A (consequences of unlawful conduct of listed activity resulting in atmospheric emission) for the conducting, without an AEL, of an activity listed in terms of Section 21 of NEMAQA.

APPLICANT: Lead and Solder Sales cc

LOCATION: Unit 6, Saxon Industrial Park, Glucose Way, Bellville South

NATURE OF APPLICATION: Application for an AEL is being made in respect of the following listed activities: Category 4: METALLURGICAL INDUSTRY

Sub-categories: 4.2 - Combustion Installation;

4.13 - Lead Smelting; and

4.15 - Processing of Arsenic, Antimony, Beryllium, Chromium and Silicon (only Antimony for this application).

DESCRIPTION AND APPLICATION: The Applicant produces lead billets, solder bars, sash weights for windows, pewter bars for the jewellery industry and lead wheel balancing weights. Raw materials (lead, antimony, tin and copper) are melted in paraffin-fired or electrically-heated melting pots and cast into product moulds.

INVITATION TO COMMENT: A copy of the Section 22A report and Application Form will be available for review (at the Bellville South Public Library, offices of SLR and on SLR's website) from Thursday 4 October 2018. Any person wishing to register comments with regards to the Application may submit their comments in writing, within 30 days of publication of this notice, either via post, fax or e-mail to:

ATTENTION: SLR Consulting (South Africa) (Pty) Ltd

NOTIFICATION LETTERS

2 October 2018

Dear Sir/Madam

LEAD AND SOLDER SALES CC: APPLICATION FOR AN ATMOSPHERIC EMISSION LICENCE FOR THE RECTIFICATION OF THE UNLAWFUL CONDUCT OF LISTED ACTIVITIES (CITY OF CAPE TOWN REF. NO: WCCT-089) – NOTIFICATION OF INVITATION TO REGISTER COMMENTS

This letter provides information regarding the above-mentioned application for an Atmospheric Emission Licence (AEL) for the rectification of the unlawful conduct of listed activities in terms of the National Environmental Management: Air Quality Act (Act No. 39 of 2004), as amended (NEMAQA).

Lead and Solder Sales cc (LASS) is situated within Saxon Industrial Park in Bellville South in the City of Cape Town (CoCT). LASS produces a range of products, including lead billets, solder bars, sash weights for windows, pewter bars for the jewellery industry, and lead wheel balancing weights. The operation entails the melting of various raw materials (lead, antimony, tin and copper) in paraffin-fired or electrically-heated melting pots, and the casting of the melted alloy into product moulds.

The operation, which commenced in 1992, was authorised by means of a Registration Certificate for lead processing in terms of the repealed Air Pollution and Prevention Act (Act No. 45 of 1965) (APPA) (Registration Certificate Number 1830 dated 27 November 1992). Application for the conversion of the Registration Certificate to an AEL in terms of NEMAQA was not made by 31 March 2014. In July 2016, LASS received a directive from the CoCT Air Quality Management Unit regarding the unlawful conduct of a listed activity in terms of NEMAQA and the requirement to undertake a rectification process in terms of Section 22A of NEMAQA in order to apply for an AEL.

SLR Consulting (South Africa) (Pty) Ltd (SLR) has been appointed as the independent environmental assessment practitioner responsible for undertaking the required environmental authorisation process.

LASS is now applying for an AEL in terms of Section 22A of NEMAQA, which is a provision of the Act applicable to the conducting, without a licence, of an activity resulting in atmospheric emissions. Application for an AEL is being made in respect of the following listed activities:

Category 4: METALLURGICAL INDUSTRY

Sub-categories: 4.2 – Combustion Installation;

4.13 – Lead Smelting; and

4.15 – Processing of Arsenic, Antimony, Beryllium, Chromium and Silicon (only Antimony for this application).

Notice is hereby given in terms of Section 38(3)(b) of NEMAQA of an invitation to register comments with regards to an application for an AEL in terms of Section 22A for the conducting, without an AEL, of an activity listed in terms of Section 21 of NEMAQA.

4.13 – Lead Smelting; and

4.15 – Processing of Arsenic, Antimony, Beryllium, Chromium and Silicon (only Antimony for this application).

Notice is hereby given in terms of Section 38(3)(b) of NEMAQA of an invitation to register comments with regards to an application for an AEL in terms of Section 22A for the conducting, without an AEL, of an activity listed in terms of Section 21 of NEMAQA.

A copy of the Section 22A Environmental Impact Assessment Report (EIR) and Application Form has been made available for a 30-day public and authority review and comment period from 4 October 2018 to 5 November 2018. Copies of the EIR and Application will be available at the following locations from 4 October 2018:

- Bellville South Public Library;
- Cape Town offices of SLR; and
- On the SLR website (www.slrconsulting.com/za/slr-documents).

An electronic copy of the EIR is enclosed for your reference.

Any comment on the EIR and Application should reach the SLR Cape Town office (contact details below) by **no later than 5 November 2018** for consideration in decision-making.

Ms Joy Leaner
Director: Pollution Management
Department of Environmental Affairs & Development Planning
1 Dorp Street
Cape Town
8001

Dear Ms Leaner

LEAD AND SOLDER SALES CC: APPLICATION FOR AN ATMOSPHERIC EMISSION LICENCE FOR THE RECTIFICATION OF THE UNLAWFUL CONDUCT OF LISTED ACTIVITIES (CITY OF CAPE TOWN REF. NO: WCCT-089) – NOTIFICATION OF INVITATION TO REGISTER COMMENTS

This letter provides information regarding the above-mentioned application for an Atmospheric Emission Licence (AEL) for the rectification of the unlawful conduct of listed activities in terms of the National Environmental Management: Air Quality Act (Act No. 39 of 2004), as amended (NEMAQA).

Lead and Solder Sales cc (LASS) is situated within Saxon Industrial Park in Bellville South in the City of Cape Town (CoCT). LASS produces a range of products, including lead billets, solder bars, sash weights for windows, pewter bars for the jewellery industry, and lead wheel balancing weights. The operation entails the melting of various raw materials (lead, antimony, tin and copper) in paraffin-fired or electrically-heated melting pots, and the casting of the melted alloy into product moulds.

The operation, which commenced in 1992, was authorised by means of a Registration Certificate for lead processing in terms of the repealed Air Pollution and Prevention Act (Act No. 45 of 1965) (APPA) (Registration Certificate Number 1830 dated 27 November 1992). Application for the conversion of the Registration Certificate to an AEL in terms of NEMAQA was not made by 31 March 2014. In July 2016, LASS received a directive from the CoCT Air Quality Management Unit regarding the unlawful conduct of a listed activity in terms of NEMAQA and the requirement to undertake a rectification process in terms of Section 22A of NEMAQA in order to apply for an AEL.

SLR Consulting (South Africa) (Pty) Ltd (SLR) has been appointed as the independent environmental assessment practitioner responsible for undertaking the required environmental authorisation process.

LASS is now applying for an AEL in terms of Section 22A of NEMAQA, which is a provision of the Act applicable to the conducting, without a licence, of an activity resulting in atmospheric emissions.
