INTRODUCTION

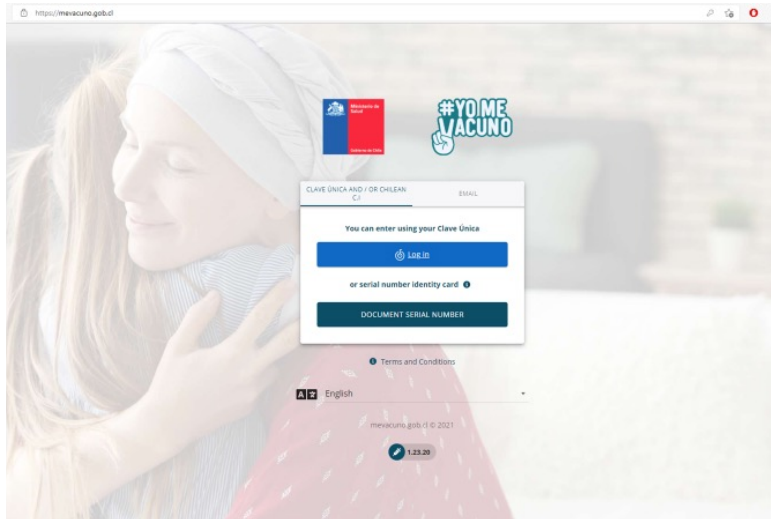

The Chilean government requires all travelers entering Chile to verify their identity and certify their vaccination status. Travelers must complete this process not more than 45 days prior to entering Chile and not less than 30 days prior to entering Chile as the approval process can take up to 30 days for the Chilean government to complete and issue an approval.

To complete the required “Mobility Pass” for entry into Chile, you will need to have both your passport and COVID-19 vaccination information readily at hand. You will also need a photo (jpeg) or PDF of your passport and vaccination card ready to upload.

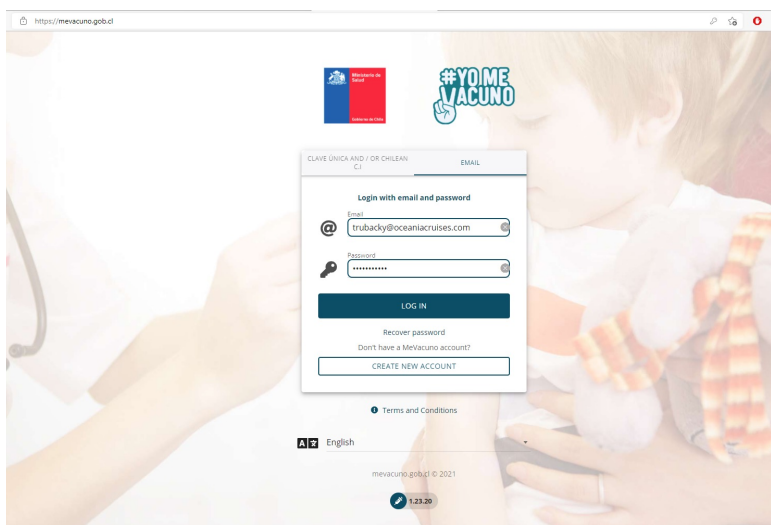

NOTE: Oceania Cruises strongly suggests that you complete the “Mobility Pass” application on a desktop or laptop computer and use either Microsoft Edge or Google Chrome. By doing so, the majority of the application website should automatically translate to English. The user experience on mobile devices and/or Apple devices may not provide as smooth or easy an experience for the applicant.
