

## Approved Student Online Courses for SY 2019-2020

The Maryland State Department of Education (MSDE) provides local school systems with an approved list of online credit-bearing student courses along with their respective course provider. These courses have been reviewed by MSDE or by an MSDE approved third party reviewing company as aligned with Maryland Content Standards.

From this approved list, each school system has the authority to make curriculum decisions related to:

- online policies based on need and allocated funding,
- the selection of course content areas, and
- which, if any, of the listed courses and respective course providers they will offer to students.

To ensure appropriate placement and awarding of course credit, **students' participation must be approved by their local school system prior to enrollment**. Parents/guardians and students should consult the student's assigned school counselor. Schools should contact the school system's Online Point of Contact for guidance. Credit will not be awarded for online student courses if the local school system has not provided approval for course enrollment.

**IMPORTANT: Course approvals are only for those listed from the *identified* providers. There is *no general approval* of either course titles or vendors, except as specified.**
