

AGENTS OF
CHANGE FOR
EQUITY

AQuESTT: Statewide System of Support

Dr. Shirley Vargas
Lane Carr

Objectives

- Learn about AQuESTT classifications and designations
- Discern the difference between continuous and school improvement
- Develop an understanding of the statewide system of supports
- Engage in some tools for improvement

**Mission:**

To lead and support the preparation of all Nebraskans for learning, earning, and living.

Goal:

Ensure all Nebraskans, regardless of background or circumstances, have equitable access to opportunities for success.

Goal:

Increase the number of Nebraskans who are ready for success in postsecondary education, career, and civic life.

Goal:

Ensure the education system, including the Nebraska Department of Education, are taking charge of their roles and responsibilities to provide leadership and enhance school support systems in the state.

Educational Equity

Educational equity means all students have meaningful access to the educational resources they need at the right moment, at the right level, and with the right intensity to not only reach high expectations for learning, but also to discover and explore their passions and make meaningful connections within the context of their postsecondary interests, careers, and civic lives.

Educational Equity

Educational equity means all students have meaningful access to the **educational resources** they need at the right moment, at the right level, and with the right intensity to not only reach **high expectations for learning**, but also to discover and explore their passions and make meaningful connections within the context of their postsecondary interests, careers, and civic lives.

School Improvement Core Beliefs

We believe:

- ...in the value of work already taking place in schools.
- ...all schools can improve.
- ...demography is not destiny.
- ...school improvement is fundamentally about equity.

AQuESTT Tenets

The Six Tenets of AQuESTT

SUCCESS, ACCESS, AND SUPPORT

Positive Partnerships, Relationships, and Success

The State Board believes that student engagement through positive partnerships and relationships is fundamental to successful schools and districts. The State Board seeks to support schools and districts to implement best practices in student, family and community engagement to enhance educational experiences and opportunities.

Areas of Focus

- Individualized or Personalized Learning Plans
- Attendance and Participation
- Family Engagement
- Community and support services

Transitions

The State Board believes that quality educational opportunities focus on supports for students transitioning between grade levels, programs, schools, districts and ultimately college and careers.

Areas of Focus

- Early Childhood-Elementary
- Elementary-Middle School
- Middle School-High School
- High School-Post High School

Educational Opportunities and Access

The State Board believes that all students should have access to comprehensive instructional opportunities to be prepared for postsecondary education and career goals.

Areas of Focus

- Early Childhood Education
- Comprehensive Learning Opportunities
- Expanded Learning Opportunities
- Blended Learning Opportunities

TEACHING, LEARNING, AND SERVING

College, Career, and Civic Ready

The State Board of Education believes that every student upon completion of secondary education shall be prepared for postsecondary educational opportunities and to pursue his or her career goals.

Areas of Focus

- Rigorous College & Career Ready Standards for All Content Areas
- Technological & Digital Readiness
- Support for Career Awareness and Career/College Goals

Assessment

The State Board believes the results of multiple assessment sources (national, state, and classroom-based) should be used to measure student achievement of college and career ready standards, and be used as an integral part of the instructional process.

Areas of Focus

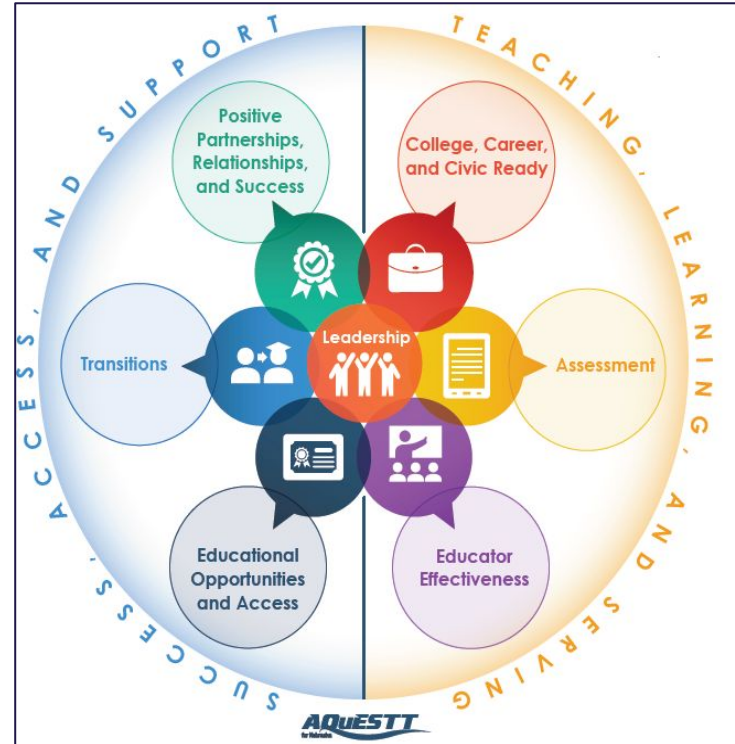

- Individualized/Adaptive Assessments
- Classroom Based Assessments
- State Assessments
- National/International Assessments

Educator Effectiveness

The State Board believes that students should be surrounded by effective educators throughout their learning experiences such that schools and districts develop effective teachers and leaders who establish a culture of success.

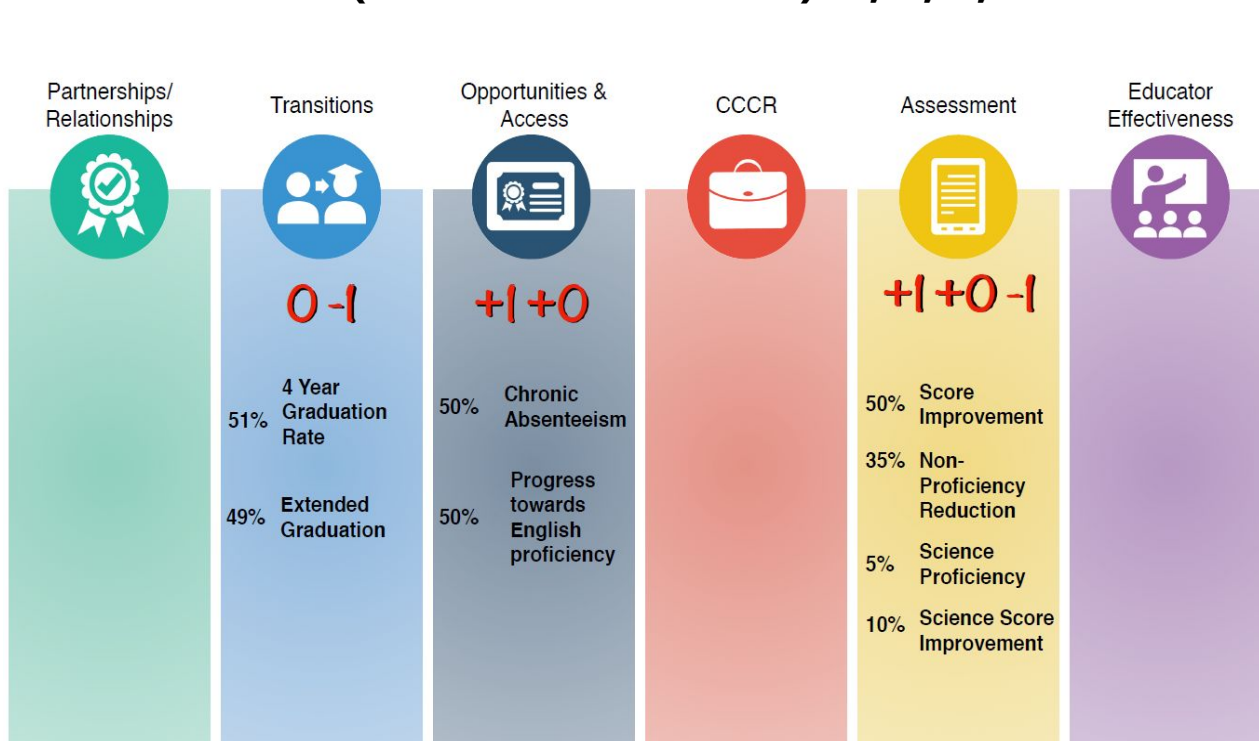

Areas of Focus

- Nebraska Teacher & Principal Performance Framework
- Professional Development
- Building Leadership Supports
- Effective Local Policy Makers & Superintendents

Classification

Status (Percent Proficient): 4, 3, 2, 1

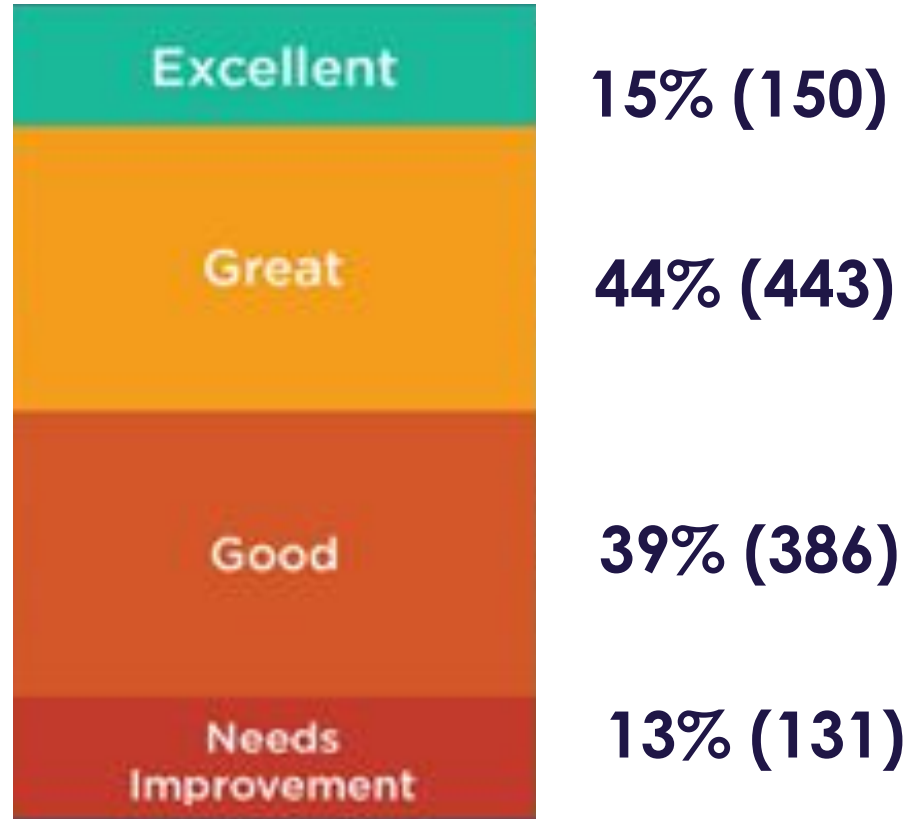

For more information on classification, visit www.aquestt.com/resources and select "2017-18 Classification Rules"

Evidence-Based Analysis **+1 +0**

Classifications

Designation

27
schools

Comprehensive Support & Improvement (CSI)

- Lowest 5% of Title I schools
- High schools with grad rates below 67%
- Consistently low-performing student group

Priority Schools

Among the lowest performing schools AND demonstrate the greatest need to implement and sustain school improvement efforts

4
schools

Targeted Support and Improvement (TSI)

- Consistently low-performing student group

**Beginning in 2019, any school with consistently low-performing subgroup may not be classified as Excellent*

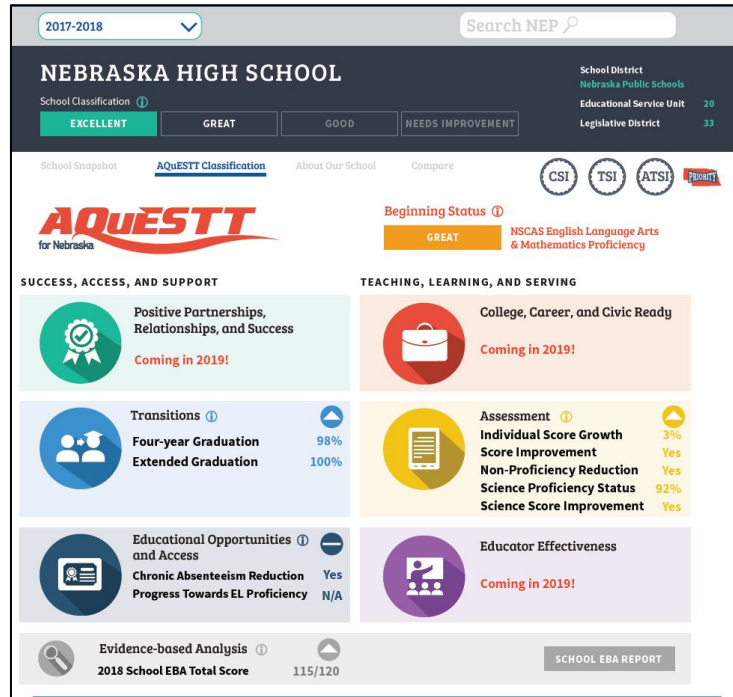

Student Groups for Targeted Support and Improvement

- Black/African American
- Latinx/Hispanic
- Asian
- Native Hawaiian/Pacific Islander
- American Indian/Alaska Native
- Two or More Races
- White
- Economically Disadvantaged
- English Learners
- Students with Disabilities

Nebraska Education Profile

- nep.education.ne.gov
- One-stop shop for education data
- Compare Feature
- Data Downloads

Key Messages

Highlights

- Very few, small tweaks to AQuESTT system this year
- Earlier timelines
- Enhancements to streamline the EBA process
- Data available on Nebraska Education Profile
- Targeted Support and Improvement Designation

Every student should have meaningful access to the educational resources he or she needs at the right time, at the right level, and with the right intensity. Making this happen requires that everybody, including parents and teachers, knows what their schools need to do to improve. To help, NDE created the Accountability for a Quality Education System, Today and Tomorrow (AQuESTT), a system of support and classification of schools and districts.

AQuESTT

- AQuESTT Classification provides an easy way to illustrate the overall performance of a school and considers the broader educational experiences and success of each student.
- AQuESTT Classification combines performance on several indicators grouped by tenet to provide schools and districts with an overall descriptive classification of Excellent, Great, Good, or Needs Improvement.
- Schools and districts will receive their AQuESTT Classification on October 9, 2019. Schools eligible for an Evidence-based Analysis (EBA) adjustment will receive their final AQuESTT Classification on November 27. All other schools may consider their October 9 Classification final.

Data and Designation

- The majority of Nebraska education data for the 2019-2020 school year will be **released to the public on October 9, 2019** and will be located on the Nebraska Education Profile (NEP).
- Schools and districts can **preview most data elements on September 25, 2019**, ahead of the public release, through the NEP Secure Portal.
- Beginning in 2019, NDE will strengthen support to schools with lower performing student groups. Schools may be designated for **Targeted Support and Improvement (TSI)**, a cohort of schools that will intentionally focus on intensive strategies to reach student groups.
- A thorough progress review of current Priority Schools and determination of additional Priority School(s) support will begin in October 2019 with official designation from the State Board of Education in early 2020.

Nebraska Education Profile (NEP)

The NEP is a web tool designed and developed by the Nebraska Department of Education, presenting Nebraska assessment and accountability data in multiple ways to help administrators and educators make data-informed decisions.

- The NEP provides information and data about Nebraska public schools and student performance.
- NEP School and District Snapshots provide a quick, at-a-glance view of a school's or district's performance and provide data on other measures not used in classification.
- NEP Full Data Profiles provide in-depth data views of a school or district, including ESSA-required items.
- The NEP Compare feature allows users to see how well a school or district is serving its students compared to similarly-situated schools or districts.

By working collaboratively and focusing on AQuESTT's six tenets, we can help enhance the education system, positively impact our children and schools, and create a better Nebraska.

Timelines

Assessment & Accountability Key Dates

nep.education.ne.gov

Below are key dates for the release of Accountability for a Quality Education System, Today and Tomorrow (AQuESTT) and Nebraska Student-Centered Assessment System (NSCAS) data. Published data elements can be found on the Nebraska Education Profile (NEP), the Nebraska Department of Education's one-stop education data website.

August 5, 2019	Printed <i>NSCAS Alternate</i> Individual Student Reports (ISRs) delivered to districts
August 12-20, 2019	NSCAS District Preliminary Data Clean-up Window
August 30, 2019	Printed <i>NSCAS ACT</i> Individual Student Reports (ISRs) delivered to districts
September 25, 2019 (Secure Release)	Assessment Performance, Attendance, Participation, Demographics, and AQuESTT Raw Classification data published to the NEP Secure Portal (district view only, not public), district data validity verification
September 27, 2019	Notification of Evidence-based Analysis (EBA) adjustment-eligible schools
October 9, 2019 (Public Release)	Full Data Profile and Snapshot published on NEP with AQuESTT Classification and Assessment data (full public view)
October 14, 2019	Evidence-based Analysis (EBA) evidence due to NDE (for adjustment-eligible schools)
October 15- November 1, 2019	Review of Evidence-based Analysis (EBA) evidence
October 21-25, 2019	Printed <i>NSCAS General</i> Individual Student Reports (ISRs) delivered to districts
November 27, 2019 (Public Release)	Final AQuESTT Classifications, including EBA adjustments, published on the NEP

From Classification and Designation to Support

School Improvement and Continuous Improvement

Continuous Improvement

Any school or instructional-improvement process that unfolds progressively, that does not have a fixed or predetermined end point, and that is sustained over extended periods of time. The concept also encompasses the general belief that improvement is not something that starts and stops, but it's something that requires an organizational or professional commitment to an ongoing process of learning, self-reflection, adaptation, and growth.

<http://edglossary.org/continuous-improvement/>

School Improvement

Dramatic and comprehensive intervention in low-performing schools. Involves turnaround leadership, culture shift, instructional transformation, and talent development.

https://centeronschoolturnaround.org/wp-content/uploads/2018/03/CST_Four-Domains-Framework-Final.pdf

Continuous vs. School Improvement

Headache

= **Symptom/signal for improvement (ex. test scores)**

Doctor

High blood pressure

= **Diagnosis / identification of areas of focus**

Eating Healthy, Brushing your Teeth, Exercising

= **Continuous improvement**

School Improvement Requires Differing Levels of Support

School Improvement Beliefs:

- All schools can improve
- School improvement is fundamentally about equity

There must be a concerted effort to improve our lowest performing schools, so that we can achieve the aspirational measures of success, as outlined in the State Board's Strategic Vision and Direction.

Defining a Statewide System of Support

- Recall your classroom teaching experience
- Think about one of your students and what made their learning unique
 - How did you **differentiate** supports and tailor your teaching to meet their needs?
 - How did you **intensify** your approach to ensure that student's success?
 - How did your **focus** change when you discovered that student wasn't learning or needed additional supports?
- How did you elevate the students who were excelling?

Think - Pair - Share

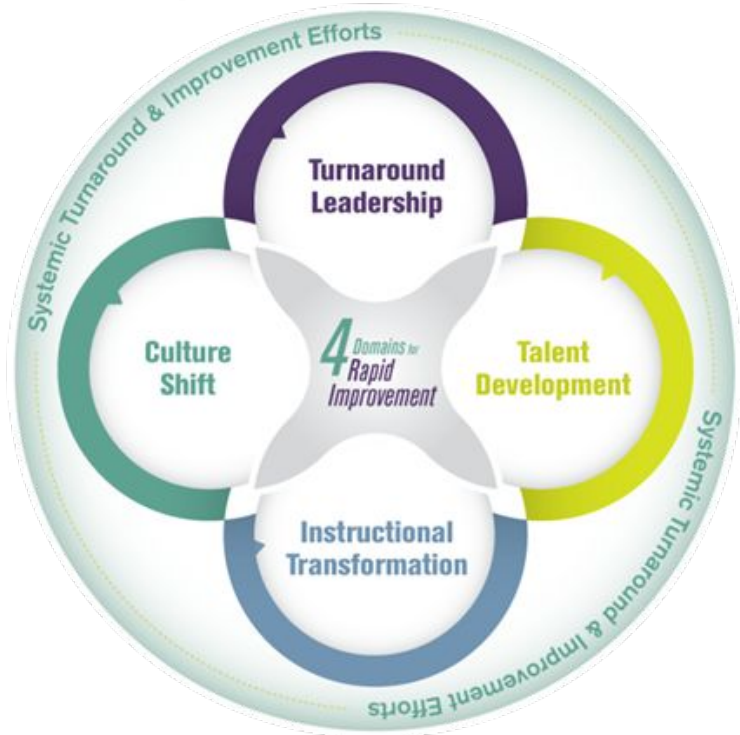

Statewide System of Supports

Focus - Prioritize the highest leverage areas (leadership, instruction, culture, talent) to school improvement using the Four Domains of Rapid School Improvement

Differentiate - Consider the different needs of schools and adjust supports based on those needs

Intensify - Frequency of current supports increase

Four Domains of Rapid School Improvement

The Six Tenets of AQuESTT

SUCCESS, ACCESS, AND SUPPORT

Positive Partnerships, Relationships, and Success

The State Board believes that student engagement through positive partnerships and relationships is fundamental to successful schools and districts. The State Board seeks to support schools and districts to implement best practices in student, family and community engagement to enhance educational experiences and opportunities.

Areas of Focus

- Individualized or Personalized Learning Plans
- Attendance and Participation
- Family Engagement
- Community and support services

Transitions

The State Board believes that quality educational opportunities focus on supports for students transitioning between grade levels, programs, schools, districts and ultimately college and careers.

Areas of Focus

- Early Childhood-Elementary
- Elementary-Middle School
- Middle School-High School
- High School-Post High School

Educational Opportunities and Access

The State Board believes that all students should have access to comprehensive instructional opportunities to be prepared for postsecondary education and career goals.

Areas of Focus

- General, universal supports (Ex. NEMaterials Matter, content area standards, accreditation and CIP)
- Tools (Ex. NEP, Frameworks)
- Technical assistance (Ex. English learner supports, NE Help Desk)

Example Support

NEBRASKA EVERY DAY! COUNTS!

Each year in Nebraska, almost 36,000 students are chronically absent.

This absenteeism disproportionately affects students of color, students with disabilities, English learners, and economically disadvantaged students. There are many steps educators can take to address chronic absence within their schools.

How does Nebraska define chronic absenteeism?

A student is chronically absent when they miss 10% of their time in membership.

Examples:

- 1) Blake is enrolled in his school for 50 days, and misses 5. He is chronically absent.
- 2) Mona misses 18 days of school out of her district's 175. She is chronically absent.
- 3) Cora misses 3 days of her 130 enrolled days. She is not chronically absent.

How is chronic absence different from truancy?

Truancy

- Counts only unexcused absences
- Emphasizes compliance with school rules
- Relies on legal and administrative solutions

Vs.

Chronic Absence

- Counts all absences: excused, unexcused, and suspensions
- Emphasizes academic impact of missed days
- Uses community-based, positive strategies

What resources are available to help me accurately record and report students who are chronically absent?

We know each student situation is unique. The NDE provides guidance around this topic. Search the NDE website at education.ne.gov for:

- Rule 2: Uniform System of Accounting
- ADVISER: Who Reports What
- ADVISER: Data Elements

When in doubt, contact the Nebraska Department of Education Help Desk for guidance. They can be reached at ADVISERHelp@Nebraskacloud.org or 888.285.0556.

NEBRASKA EVERY DAY! COUNTS!

INFORMATION FOR PARENTS

Why absenteeism matters:

- Absenteeism in the first month of school can predict poor attendance throughout the school year. Half the students who miss 2 to 4 days in September go on to miss nearly a month of school.
- Absenteeism and its ill effects start early. One in 10 kindergarten and first grade students are chronically absent.
- Poor attendance can influence whether children read proficiently by the end of third grade or are held back.
- By 6th grade, chronic absence becomes a leading indicator that a student will drop out of high school.
- Research shows that missing 10 percent of the school year, or about 18 days in most school districts, negatively affects a student's academic performance. That's just two days a month and that's known as chronic absence.
- Students who live in communities with high levels of poverty are four times more likely to be chronically absent than others, often for reasons beyond their control, such as unstable housing, unreliable transportation, and a lack of access to healthcare.
- When students improve their attendance rates, they improve their academic prospects and chances for graduating.
- Attendance improves when schools engage students and parents in positive ways and when schools provide mentors for chronically absent students.

Overview of the NDE Comprehensive Needs Assessment (CNA) Tool

This document includes an OVERVIEW tab, ADMINISTRATION INSTRUCTIONS tab, SCREENER tab (optional), SELECT TENETS tab (optional), RUBRIC tab, RESULTS tab, and GLOSSARY tab.

- Introduction
- What is the purpose of the CNA?
- How can your school use the CNA? How long will it take?
- How is the CNA organized?

*Click a topic above to automatically jump to information on that topic.

1. Introduction

The Nebraska Department of Education (NDE) developed the Comprehensive Needs Assessment (CNA) based on quality education practices for student success. Because the tool aligns to AQUESTT, it articulates the expected education practices under each of the six tenets and the areas of focus supporting each tenet. When implemented fully, these education practices are intended to help your school achieve the following AQUESTT long-term outcomes:

Positive Partnerships, Relationships, and Success: Students have enhanced and sustained educational experiences and opportunities as a result of positive student, family, and community engagement.

Transitions: Students have quality educational opportunities that promote successful transitions between grade levels, programs, schools, postsecondary institutions, and careers.

Education Opportunities and Access: All students have access to equitable and comprehensive instructional opportunities that prepare them for postsecondary education and careers.

College, Career, and Civic Ready: Upon completion of secondary education, every student is prepared for postsecondary education, career, and civic opportunities.

Assessment: School staff effectively use assessments to measure and improve student achievement and to inform instruction.

Educator Effectiveness: Students are supported by qualified/credentialed, effective teachers and leaders throughout their learning experiences.

2. What is the purpose of the CNA?

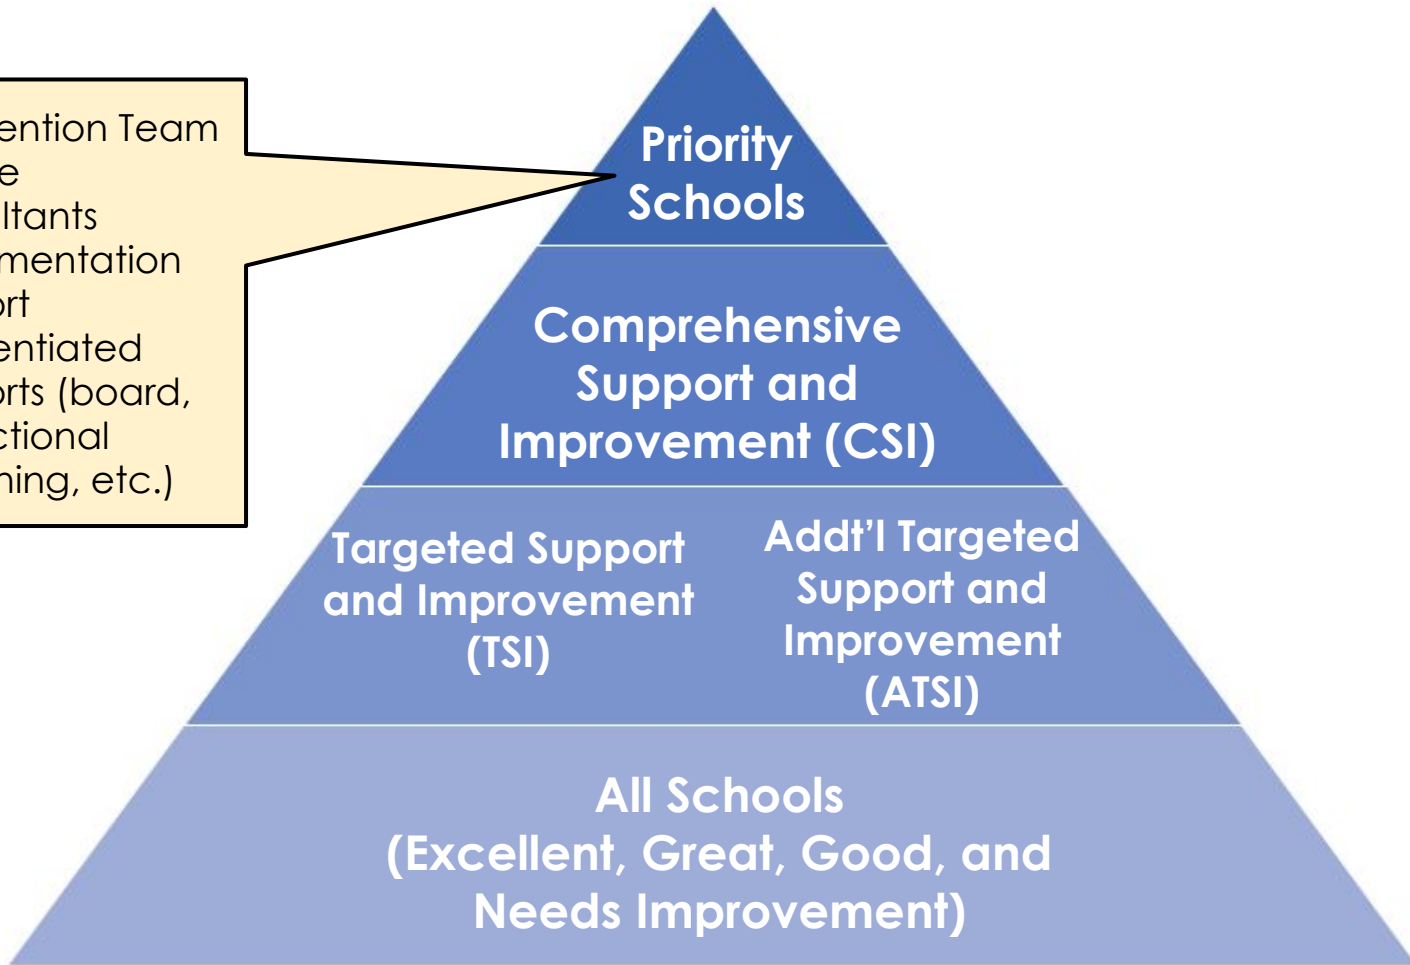

The purpose of this tool is to help your school assess current practices, determine your areas of strength, and identify your priority needs for improvement. Because the tool defines practices for school improvement under AQUESTT, it should be an integrated, ongoing part of the continuous improvement process. Your school team can use the needs assessment results to

- examine root causes of areas in need of improvement,
- identify strategies and interventions to address root causes,
- determine action steps for implementing strategies and interventions,
- identify areas for professional learning, technical assistance, and resources to support implementation of strategies and interventions,

Navigation: Overview Administration Instructions Rubric Results Glossary

STEP 5: Complete Rubric							
To complete the rubric for these tenets, provide your rating for each dimension in the corresponding dropdown menu in the Select Score Here column. You can select N/A, if available, to show that the dimension is not relevant to your school. Cumulative average values will automatically update. Additionally, check all sources of evidence in the List Supporting Evidence column. The sources of evidence listed in this column are examples. If you have other sources of evidence, check the Other box and type those sources in the space below.							
Tenet: Positive Partnerships, Relationships, and Success							
Long-Term Outcome: Student, family, and community engagement enhances educational experiences and opportunities.							
Dimension	Rate Each Dimension				Select Score Here	List Supporting Evidence (Check all that apply)	Area of Focus Average Score (Optimal = 4)
	4	3	2	1			
Area of Focus: School culture and climate							
Vision and mission of learning	School leaders have developed a vision and mission of learning collaboratively with staff and the community using quantitative and qualitative data to inform the process. School leaders regularly communicate the vision and mission to local stakeholders (community-based organizations, local school board, family members, etc.) to inform decisions that align with local school improvement goals.	School leaders have developed a vision and mission of learning with some stakeholders, using some data. School leaders occasionally communicate the vision and mission to local stakeholders (community-based organizations, local school board, family members, etc.) to inform decisions that align with local school improvement goals.	School leaders have developed a vision and mission of learning in isolation, with little or no data. School leaders rarely communicate the vision and mission to local stakeholders (community-based organizations, local school board, family members, etc.) to inform decisions that align with local school improvement goals.	There is no vision or mission of learning.	4	<input checked="" type="checkbox"/> Vision/mission and core belief statements <input type="checkbox"/> Notes/minutes from stakeholder Leadership Team or staff meetings <input type="checkbox"/> Evidence of vision, mission and core beliefs posted in office areas, classrooms, staff and stakeholder surveys <input type="checkbox"/> Other (enter below)	3.2
	School culture and climate plan	School leaders and staff fully implement a comprehensive plan for building a school culture and climate conducive to learning based on collaboration, participation, student voice, and collegiality.	School leaders and staff partially implement a comprehensive plan for building a school culture and climate conducive to learning.	School leaders are developing plans for building a school culture and climate conducive to learning. No plans have been implemented.	This school has no clear plan for building a school culture and climate conducive to learning.	4	
Safety and security plan	School leaders and staff fully implement a safety and security plan with clearly and consistently communicated schoolwide expectations for creating a safe, clean, and healthy learning environment. The plan addresses physical, emotional, social, and academic safety.	School leaders and staff partially implement a safety and security plan with some communication of expectations for creating a safe, clean, and healthy learning environment.	School leaders and staff are developing a safety and security plan for creating a safe, clean, and healthy learning environment.	The school lacks a safety and security plan.	4	<input type="checkbox"/> Procedures and plans relative to emergency preparedness <input type="checkbox"/> List of school environment resources <input type="checkbox"/> Written school health policies and procedures <input type="checkbox"/> Documentation of comprehensive support services, including health and social services, that are available to students and their families <input type="checkbox"/> Documentation of information outreach to parents

AQUESTT
for Nebraska

2019-2020

▸ Priority School Progress Plans

From a System of Support to Skills and Strategies

Understanding the Problem Better

To better tailor supports, the schools we serve and the NDE must understand potential root causes for their problems. This is true for all schools across all levels of supports.

To engage in a root cause analysis we will...

- Identify a **learner-centered problem**.
- Discuss the **Ladder of Inference**.
- Engage in a root cause analysis through either a **Five Whys Protocol** or a **Fishbone Diagram**.
- Share ways the root cause analysis **changed our thinking**.

From a Learner-Centered Problem to a Problem of Practice

Priority Area	This year our instructional focus is about ensuring students are postsecondary and career ready.
Learner-Centered Problem	After triangulating data, we notice students are not meeting benchmark in mathematics as measured by the ACT.
Problem of Practice	After a root cause analysis, we realized that students are not meeting benchmarks because our school team has not been providing appropriate opportunities for rigorous learning in mathematics.

Identify a Learner-Centered Problem

Using the data at your fingertips, and the knowledge of your students and school, identify a **priority area** and a **learner-centered problem**.

Think - Pair - Share

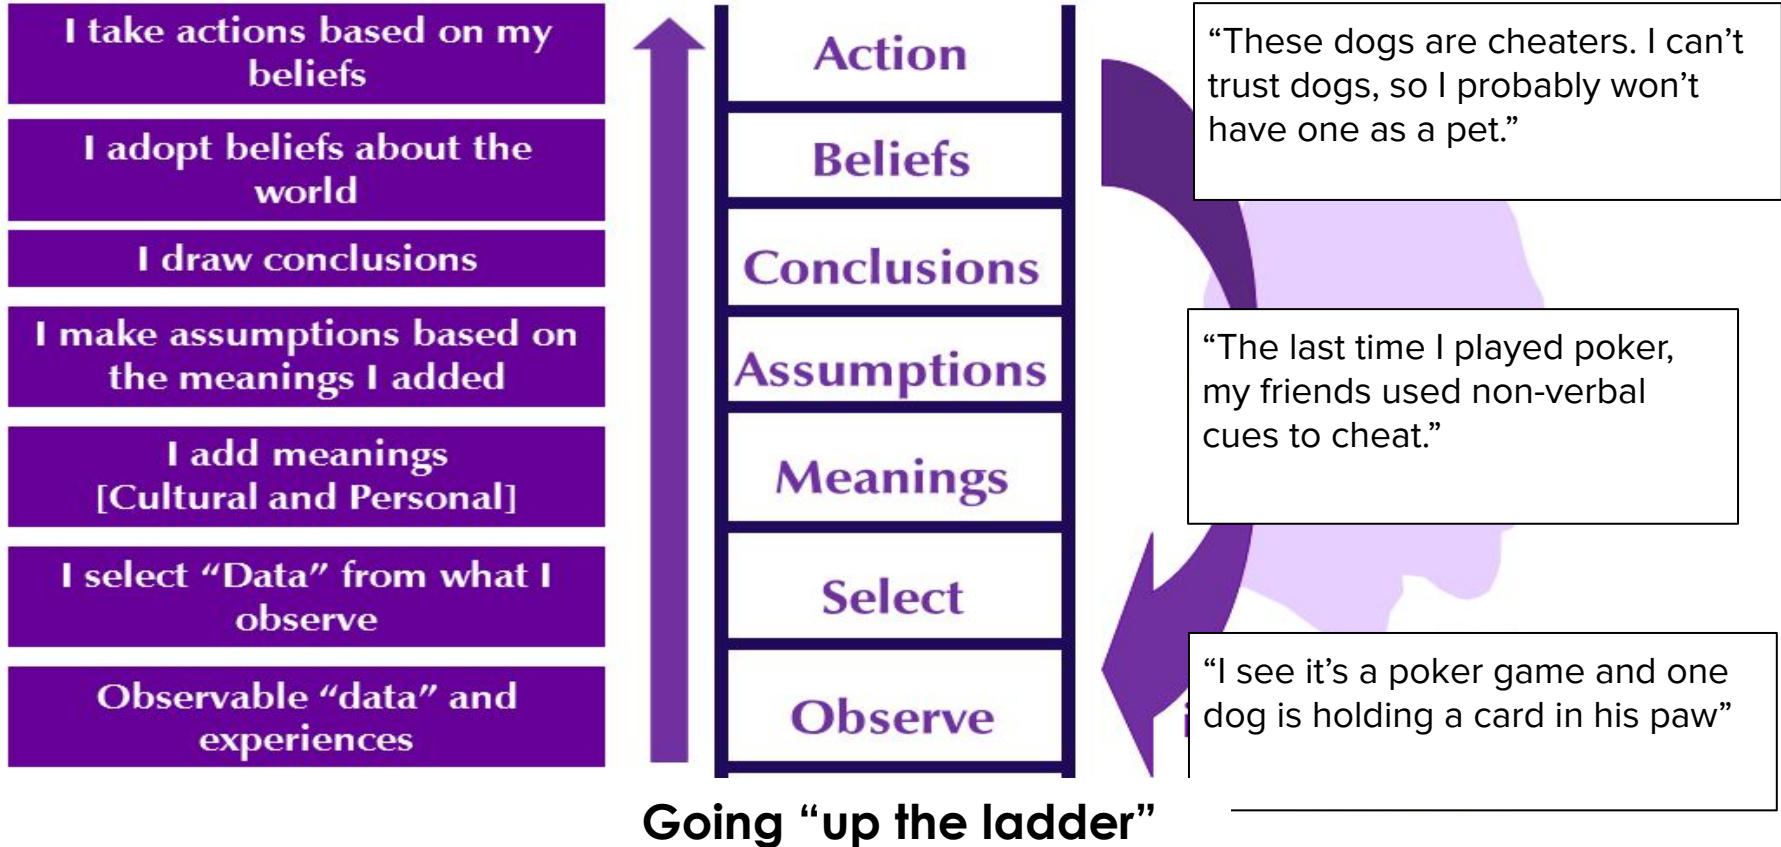

“This dog is skeptical about the other players!”

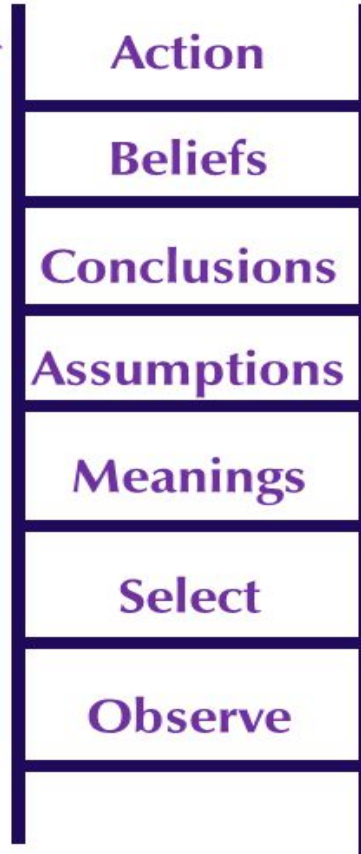

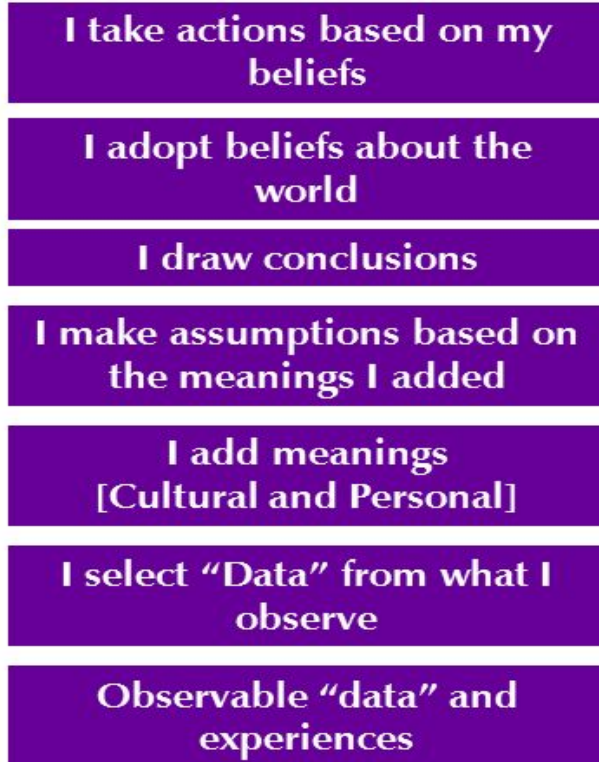

“This dog is pretty confident.”

“This dog is a cheater!”

The Ladder of Inference

The Ladder of Inference

Reflexive Loop

Our beliefs influence what we observe

"... Illustrates how we impose our own inferences on data and even select data that reinforce our beliefs"
(Campbell-Jones et. al, 2009)

Reading

Writing

GO math

The Ladder of Inference

- I take actions based on my beliefs
- I adopt beliefs about the world
- I draw conclusions
- I make assumptions based on the meanings I added
- I add meanings [Cultural and Personal]
- I select "Data" from what I observe
- Observable "data" and experiences

- Why did I take the **actions** that I did?
- What **beliefs** lead me to that action?
- Why did I draw those **conclusions**?
- What am I **assuming** about the data selected?
- What personal or cultural **meaning** am I adding to the data I am observing?
- What data did I chose to use and why? Have I thoroughly considered other data to **observe/select**?

Going "down the ladder"

Problem: In our middle school (6-8th grade), a large percentage of our students have consistently struggled to meet proficiency benchmarks in math based on multiple sources of data.

Symptom: 95% of all students fall below proficiency on NSCAS (on-track and CCR benchmark).

Symptom: While 95% of students are below proficiency, even greater gaps exist between students with disabilities and students without disabilities.

Symptom: During fall testing, 70% of all students show a decrease in RIT scores as shown on MAP math interim assessment.

Problem: In our middle school (6-8th grade), a large percentage of our students have consistently struggled to meet proficiency benchmarks in math based on multiple sources of data.

Symptom: 95% of all students fall below proficiency on NSCAS (on-track and CCR benchmark).

Symptom: While 95% of students are below proficiency, even greater gaps exist between students with disabilities and students without disabilities.

Symptom: During fall testing, 70% of all students show a decrease in RIT scores as shown on MAP math interim assessment.

Why? All students do not have the opportunity to engage in rigorous math learning experiences.

Why? Our math teachers are not teaching to the same rigor that the standards require.

Why? Our teachers do not yet have the requisite knowledge and skill to adequately and consistently teach to the standards.

Why? Our school has not had a consistent focus on what is effective and rigorous math instruction.

Why? We have not invested in the training and support our teachers need to align math content standards, instructional materials, and differentiate instruction.

Problem: In our middle school (6-8th grade), a large percentage of our students have consistently struggled to meet proficiency benchmarks in math based on multiple sources of data.
