# N-Boost Technology on Top

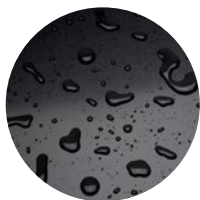

*Welcome to  
a new era.*

N-BOOST is born, Silestone<sup>®</sup>'s revolutionary technology that improves the DNA of our surfaces.

Innovation that prevents adherence of liquids, strengthens shine and intensifies colour.

The hydro-repellent properties of the new N-BOOST prevent the adherence of everyday liquids in kitchen and bathroom spaces.

It is particularly useful when these liquids stay on the surface for hours, making it easier to clean the stubbornest of stains. It offers the rest of the mechanical properties that define Silestone: great resistance to impact and scratches, large format manufacturing and versatility of applications.

## Repels any Type of Liquid

Even easier cleaning thanks to its stronger resistance against stains.

## Long Life Colours

Thanks to the N-BOOST technology, the colours appear more authentic, intense and renewed.

## Surface Shinier than Ever

Now Silestone<sup>®</sup> shines more than ever. N-BOOST achieves a more uniform surface causing the light to reflect off it with greater intensity.

**Easy  
to clean**

LINE COLOUR SERIES

A product designed by **COSENTINO**

# Integrity: Unique in the world of Sinks

*Integration without joints. The sink which forms one single piece with the worktop.*

Impact  
Resistant

Stain  
Resistant

Scratch  
Resistant

Acid  
Resistant

## Total Integration

No joints, no cracks, no limits. Integrity wants your kitchen to be one, so that the spaces and surfaces have no beginning or end. Integrity gives you the sensation of unity, of perfect integration with the rest of the elements of your worktop. A single piece, available in an enormous variety of Silestone® colours that will make your kitchen seem infinite.

## Colours

Available in a wide range of colours and in Polished or Suede finish. Check colours.

## Unique Characteristics

**It incorporates all the advantages of Silestone®** (resistance, low porosity, hardness...)

**Maximum hygiene** thanks to the absence of joints.

**Easy cleaning and maintenance.**

# Models Sinks Integrity

## One Model

The model that defines the concept of Integrity. A single sink in one piece, characterised by a curved design. Sizes: 41x51x15.5cm.

## Due Model

DUE is available in three sizes:  
DUE S: 37x34x15.5cm ideal for a double sink.

DUE L: 37x51x15.5cm ideal as a single or main sink, and DUE XL: 43.5x67x21cm with its large size and functionality makes it a wide and workable sink without losing an ounce of beauty, all of them are defined by their straighter shape.

## Top Model

With a size of 37x51x15.5cm., Integrity Top is the new worktop sink, easy to install.

**SENSA**  
by COSENTINO®

## The Reinterpretation of Natural Stone

The Sensa Treatment  
Repels Liquids and  
Prevents Stains

### Unique Characteristics

It does not require any type of special maintenance and the treatment is not affected by ordinary cleaning.

Unlike conventional sealants, Sensa is not a surface treatment, but treats the structure of the material chemically.

The treatment supports temperatures of above 300°. The treatment does not alter over time.

The Sensa treatment allows air to pass through the material, thus avoiding the appearance of moisture and stains on the surface.

The treatment does not modify the original colour, or the beauty and the natural feel of the stone.

*Added to the strength and personality of the SENSА granites and quartzites, is a revolutionary treatment for your kitchen, safe for contact with food, thanks to its special NSF certificate.*

### Colours and Finishes

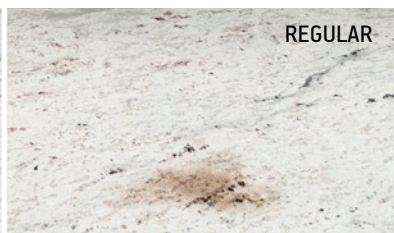

The Sensa collection is made up of a selection of granites and quartzites, carefully selected for their beauty as well as for their quality.

The types of finish available at Sensa are Polished, Suede (matte) and Caresse.

### 15-year Guarantee

The only natural stone brand that gives you a certified guarantee.
