

Arniko at a glance

Introduction

Arniko Awasiya secondary school runs a '+2 programme' in the stream of science in Biratnagar-10, which is managed by a group of highly experienced team of educational professionals. It is committed to serving students of diverse backgrounds who really seek a quality science education in Nepal.

Aims and Objectives

It aims to nurture the innate potential of today's youth to mould them into responsible bonafide citizens. Millions of rupees are drained out from Nepal in search of quality education every year in India and overseas. The running of this collage is inspired by nationalistic feeling. We are committed to provide full satisfaction in the minimum cost capable of coping with the challenges of the complex modern world.

After SEE, I got admitted in Arniko without any suggestions from others because I had known Arniko as one of the best colleges in Nepal. The productive learning environment has aided in improving our study and broadened the horizon of knowledge. The suggestions from the experienced founders helped me to get full scholarship in IOE, Pulchowk. Thanks Arniko!!!

Udeshya Dhungana
3rd position, IOE, Pulchowk

ARNIKO

+2 SCIENCE PROGRAMME

We aim to make a difference By

- Adequate guidance for intellectual and academic growth
- Providing a team of teachers from sun rise to sun set for consultation
- Arranging substitute classes in case of any disturbance
- Creating science environment inside the college premises
- Being in close contact with the guardians by 'home visit program'
- Providing a secure yet challenging learning and social environment

We Provide

- Peaceful academic environment
- Regular classes by highly qualified and experienced teaching professionals
- Regular evaluation system
- Classroom assisted by modern tools and techniques
- Individual attention to the students
- Extra-curricular and co-curricular activities
- Effective career counseling
- Hygienic cafeteria with purified cool drinking water
- Guidelines on MBBS, BE entrance preparation and TOEFL classes
- Scholarship based on the merit and financial need
- Hostel & Transport facilities

We Expect

- A devoted commitment to the course
- A high level of discipline
- Decent language and humble behavior
- A sense of responsibility to preserve the property of the +2 science program
- Co-operation in making a pleasant studying and working environment
- The students with the motto of simple living and high thinking
- The science character in students

We try to achieve excellence through

- Infrastructure
- System driven process
- Human resources
- Science ethics
- Quality consciousness

ARNIKO

+2 SCIENCE PROGRAMME

Academic calendar & program

Many Students face a tough time choosing the right college for giving perfect stand to their base. Choosing Arniko to pursue my career in the science stream wasn't an easy choice. I spent my entire SEE vacations exploring differing colleges in India but wasn't satisfied by the environment and teaching style. School is not only the means to show you the right path but also one that has the abilities to guide you along to your destination with a rewarding success.

Without having a double thought I enrolled here in Arniko and now I've no regrets on my choice. I highly appreciate the facilities and the entire Arniko society to empower students to acquire, demonstrate, articulate, value knowledge and life skills that will support as a lifelong learners and am proud to be an ARNIKAN.

Hemant Panchariya

Presently, it runs a '+2 programme' in the stream of science under NEB, Nepal. The classes run in morning and day shift. All classes run 6 days a week from Sunday to Friday. Sometimes students may be called on holiday for the classes or counselling.

'Arniko +2' will strictly follow the academic calendar of NEB and HISSAN. Moreover, it has its own calendar for the effective as well as smooth functioning of the classes and extra-curricular activities. The schedule of class test, terminal test, qualifying test, objective test, surprise test pre-board exam and other activities are run in accordance with our own rules.

ARNIKO

+2 SCIENCE PROGRAMME

Admission eligibility & procedure

Students who have passed SEE or equivalent certificate recognized by the government of Nepal, having at least C+ (Science & Math), C (English) & D+ (Social Studies & Nepali) may apply for admission.

Admission committee of 'Arniko +2' conducts Entrance Proficiency Test (EPT). On passing the EPT, students should come along their guardians for the admission. The admitted students must attend the orientation class organized by 'Arniko +2'. The time table of the admission procedure will be widely advertised.

Uniform

The college has prescribed some dress norms. All the students are strictly advised to follow the proper attire. Students must be in uniform whenever they enter into the college premises.

Discipline

Discipline is the heart of the institute. This heart can't bear even a light blow. So, students are expected to maintain the disciplinary norms. The disciplinary aspect of students will constantly be monitored by a committee of directors. Actions will be strictly taken against indiscipline and misbehavior.

Evaluation

- Regular assignment
- Regular informal evaluation
- Monthly test
- Terminal test
- Qualifying test
- Pre-final test.
- Surprise Test

Extra-curricular programmes

‘Arniko + 2’ aims for the total personality development of the student. Thus, it conducts various extra-curricular activities.

- Sports (Football, Cricket, Volleyball, Table Tennis, basketball, Athletics)
- Quiz
- Debate
- Poem & Essay

A great experience in Arniko College I found is homely academic environment. My two years in Arniko became memorable and fruitful. The available infrastructures, experienced and understanding directors, helpful teachers and staffs guide and support every student to make a strong base of intermediate level in science. My journey to medical field would never be possible without the support of Arniko. I am proud to be an Arnikan.

Susmita Khadka
MBBS, BPKIHS

ARNIKO

+2 SCIENCE PROGRAMME

Teaching pedagogy

- Class lectures
- Group discussions
- Learning by experience
- Orientation
- Project work
- One to one teaching

Counseling

Counseling is an integral part of 'Arniko + 2'. It will constantly be guiding, motivating and counseling to students for their moral and academic upliftment. There will be further counseling for their future studies.

Financial policy

For the meritorious students there is provision of scholarship.

- No fee is paid back in any case of leaving the college.
- Defaulters will have to pay fine after the date of scheduled payment.
- Registration, NEB and HISSAN exam fees should be paid separately.
- Five percent discount is given in case of full payment in advance.

Tuition fee is to be paid as follows

- First installment - in the first week of Ashwin.
- Second installment - in the first week of Mansir.
- Third installment - In the first week of Magh
- Forth installment - In the first week of Chaitra

ARNIKO

I'm very proud of my decision of persuading my studies in Arniko College. It has helped to build my confidence and also taught me that I shouldn't be nervous about the 1000 people who come to compete with me in exam, I should only concern about those 1000 questions I have to deal in the examination.

Ask any of the teachers at Arniko, what they value the most. You'll get one answer and one only. Understanding and that alone you won't be able to understand everything, but you will be able to get a grasp of tiny things in life. As Richard Feynmann one said, "There is no greater satisfaction than understanding the causes behind our curiosities." That is the highest praise I can give of the science faculties at this college, you feel jubilant with knowledge.

Aditya Rimal

Genuinely, I lose my words when I am asked to chant my view on Arniko. Arniko, the college and a world in itself possess all essential tools and environment for a transparent journey of education for generation to generation. The great teachers team, inspirational and admirable directors and their genuine love and support push us to step forward. The first and most lovable thing about Arniko is that it just not only equips you with educational knowledge, but it makes you equally competitive to face hinderances in life as a real human being and that I think is a very unique quality of Arniko.

Md. Anwar Mansuri

Arniko secondary school is one of those distinguished institutions with will qualify teaching faculty, adequate facilities, and harmonious learning environment. My journey of learning in Arniko has been inspiring, challenging, fulfilling and yet rewarding. One of the noteworthy qualities of Arniko is to make students grow and learn to be a better individual with decent morality and discipline rather than one just with grades it has focused on real learning without putting undue pressure on students. For me choosing Arniko has helped in better learning and sharpening my overall skills in a gratifying way.

Bikesh Mehta

After completion of SEE, I was in great dilemma to select better college among the colleges in Biratnagar and I didn't know about any college of Biratnagar. Then my sister recommended to join Arniko. When the result published, I made a decision to join Arniko. I got surprised as I not only got good education but also good mentors who always encourage me to focus on my study. The system of education is so good in Arniko and there is available of well equipped labs and libraries which provide students peaceful environment to focus on their study. The educational environment is managed so well that even if I mention in a word, it'll be less beyond it's perfection. I'm sure that I can meet my target with the support of Arniko and truly proud to be an Arnikan.

Arniko gives a great opportunity to every individual so it has marvelous achievement in board examination as well as in extracurricular activities. It provides qualitative education in safe and peace environment with all infrastructural facilities like library, well equipped laboratories, spacious rooms, playground, and comfortable furniture, peaceful and friendly atmosphere. The superb academic environment at Arniko managed by a group of highly innovative and experienced team of education professionals has always encouraged Arnikans to do better day by day. I, therefore, suggest every SEE graduates to join Arniko for +2 studies.

Samir Prasain
