College of Arts and Letters

Program Description

Through our courses, exhibitions, lectures and public programs, the Department of Art at Sacramento State introduces students and members of the local community to the expressive world of the fine arts. The Department also promotes an appreciation and understanding of the fine arts in the general student population. A wide variety of approaches based on both Western and Non-Western cultures are integrated into courses that are oriented toward creativity, imagination, and critical thinking. Students can explore art through courses in art education, art history, ceramics, new media art, painting, printmaking, and interdisciplinary sculpture.

The Department of Art serves as a significant cultural resource in the region through the sponsorship of art exhibits, workshops, lectures, and symposia each academic year. The department extends its influence out into the community through the involvement of its faculty, staff, and students in projects, activities, and events off campus. Courses, programs, and exhibitions sponsored by the Department serve to engage students in the visual arts within a liberal arts context and to promote appreciation of the fine arts in the general student population. Fieldwork experiences can be arranged with the Crocker Art Museum, Sacramento Metropolitan Arts Commission, and other public and private art institutions and galleries in the Capital region. Opportunities to study art and art history abroad are available through the Office of International Programs and Global Engagement at Sacramento State and the California State University International Program. University credit can be obtained for a semester to a year of study at college and international centers in Britain, Europe, Latin America, Asia, Africa, and Australia.

California State University, Sacramento is an accredited institutional member of the National Association of Schools of Art and Design (NASAD).
