

ASUS PRODUCT GUIDE

MAY-JUN 2015

ASUS recommends Windows.

ASUS ZenBook Pro UX501

World's First 15.6-inch Ultrabook™ with 4K Stunning Display

Powered by Intel®
Core™ i7 processor

Classic, Timeless Design
with All-Aluminium Chassis

Stunning Display with
4K/UHD Resolution

Powerful Performance with Discrete
NVIDIA® 960M Graphics and DDR5 VRAM

Explore new ways to learn and stay connected with Intel Inside®.

Intel, the Intel Logo, Intel Inside, Intel Core and Core Inside are trademarks of Intel Corporation in the U.S. and/or other countries.

ASUS received 4,326 awards in 2014

A testament to our relentless innovation and the result from years of research in design and manufacturing techniques, ASUS garnered a total of 4,326 awards from prestigious technology organisations and IT journalists worldwide. This can only be achieved by a company with vision and mission to pursue the best innovation.

ASUS is increasingly placing emphasis on tablets and smartphones to stay ahead with consumers' changing lifestyle needs, and once again our innovation and persistence in perfection leads to a total of 798 awards for tablets and smartphones!

iF Design Awards

ASUS products have won numerous international industrial design awards and have once again demonstrated their outstanding design quality and innovation by taking home no less than 10 accolades at the iF Design Awards 2012.

GOOD DESIGN

Good Design Awards 2014

ASUS products have won a total of 17 Good Design Awards, one of the four major design awards recognised by the International Design Alliance, demonstrating ASUS' outstanding product design quality and engineering.

Innovation International CES Awards 2015

Seven ASUS products have been awarded for the CES 2015 Innovations Design and Engineering Awards honoree program. The awards have become a hallmark for the best-designed products in consumer technology and our brand promise of Inspiring Innovation

- Persistent Perfection has resulted in such wide recognition for our products.

SINGAPORE NOV 2014 HARDWARE MAGAZINE

Asus Transformer Pad offers the best combination of performance, battery life and price. The T100 doesn't look or feel that nice but it has the best keyboard, a good, responsive clickpad and decent performance and battery life for its price.

SINGAPORE OCT 2014 STUFF MAGAZINE

That incredibly portable form factor. Its [ZenFone 5 LTE] svelte 5.5mm side view puts flagships like the chunkier HTC One (M8)'s 9.35mm and Samsung Galaxy S5's 8.1mm builds to shame. Also, nothing about Asus' attention to detail on the metallic accents spells budget at all.

SINGAPORE SEPT 2014 HARDWARE MAGAZINE

The Zenfone 6 benchmarked very well and actual usage experience was at the top end. It also has an edge over its competition in terms of design, build quality and performance.

SINGAPORE SEPT 2014 STUFF MAGAZINE

This Asus PC is the checklist for the latest PC innovations with a 23-inch touch screen, active 3D Blu-ray and gaming with Intel Quad Core i7 with NVIDIA Graphics card.

SINGAPORE SEPT 2014 STUFF MAGAZINE

This [ASUS TAICHI] Win8 hybrid sticks a live tile-friendly touchscreen on top of a full laptop sporting Core i7 innards.

SINGAPORE SEPT 2014 STUFF MAGAZINE

Powered by the latest Core i7 and NVIDIA GeForce 870M graphics processor, this [ROG G750] beastly machine is the one with extreme graphics settings.

SINGAPORE AUG 2014 T3

Middle of the road price, but justifies its [ZenFone 5 LTE] existence with an excellent performance.

SINGAPORE AUG 2014 T3

Introducing the triple threat: an Android tablet. The Transformer Trio does everything with mediocre skill. If you see the need for a three-in-one package, this is it.

SINGAPORE AUG 2014 CNET ASIA

The phone still has a 5-inch HD display with a 1,280x720-pixel resolution, and runs off the Asus custom Zen UI skin with its flat and modern look. There's an 8-megapixel "PixelMaster" camera that's capable of taking photos even in the darkest of places without a flash.

SINGAPORE JULY 2014 DIGITAL LIFE

The [Transformer Book TF103C] screen appears to have good colour accuracy. Using Splendid, a proprietary Asus app, you can tweak the display's colour temperature, hue and saturation. This level of customisation is common in PCs, but not in tablets.

SINGAPORE MAY 2014 HARDWARE ZONE

This is our third variant of the ASUS ZenFone 5 that we've reviewed in recent months, and it is still one of the best smartphones of its class. As mentioned in our earlier reviews, the ZenFone 5 ticks almost all the right boxes - design, build quality, handling, interface, overall user experience and imaging performance. The only two drawbacks are a non-removable battery and the lack of dual-SIM support.

SINGAPORE MAY 2014 DIGITAL LIFE

Both its SIM card slots are 3G capable and the Zenfone 5 looks sleeker and its lighter even though it has a large screen. Its display is sharp and offered excellent visuals for watching high-definition videos, complete with powerful speakers to match.

SINGAPORE MAY 2014 HARDWARE ZONE

It [Fonepad Note 6] has a nice large high resolution display that's great for multimedia needs and bodes well for reading lengthy content with a Reading mode that helps tweak the display to suit that purpose.

SINGAPORE APRIL 2014 STUFF MAGAZINE

This [Transformer Book T100] is a machine that gets things done but doesn't overly scrimp on play 'n' procrastination points either, and that makes it a cracking all-rounder and an absolute bargain. Needless to say, it finds itself comfortably nestling into our Top 10 list of the best tablets in the world right now.

SINGAPORE MARCH 2014 STUFF MAGAZINE

The [MeMO Pad 7] screen is great with vibrant colours and the 5MP camera is surprisingly capable. We also like the skinned version of Jelly Bean, complete with apps in resizable floating windows.

SINGAPORE JAN 2014 HARDWARE ZONE

The Zenbook [UX301] boasts a 2560 x 1440, clarity is excellent and the display is also bright with decent viewing angles.

SINGAPORE JAN 2014 DIGITAL LIFE

Asus Transformer Book Trio has two distinct processors. One chip resides in the tablet; the other, inside the keyboard dock. This means it can be used as a tablet, a laptop or even a desktop PC when connected to an external display. Asus has put in effort to make it easy to share data between the two platforms.

SINGAPORE JAN 2014 DIGITAL LIFE

[Transformer Book T100] Awarded for the best Windows tablet for being affordably priced and comes with a keyboard dock. Battery life is also excellent with its Intel Atom Chip.

SINGAPORE JAN 2014 DIGITAL LIFE

With its stunning Gorilla Glass Lid, the Asus Zenbook [UX301] may be the best looking Ultrabook here. It also leads in performance with a high resolution screen and a graphics chip that is faster than the standard ultrabook.

SINGAPORE JAN 2014 DIGITAL LIFE

For Android purists, the Google Nexus 7 is undoubtedly the tablet to get. But even non-Android users will appreciate the stunning 1,920 x 1,200 pixel display on this 7-inch tablet.

*Battery life is subject to usage configurations. *Images shown are for illustration purposes only and may differ slightly from actual product. Ultrabook, Celeron, Celeron Inside, Core Inside, Intel, Intel Logo, Intel Atom, Intel Atom Inside, Intel Core, Intel Inside, Intel Inside Logo, Intel vPro, Itanium, Itanium Inside, Pentium, Pentium Inside, vPro Inside, Xeon, Xeon Phi, and Xeon Inside are trademarks of Intel Corporation in the U.S. and/or other countries.

*Applicable to Top-up for Extended Warranty, please see warranty section on page 18 for more details.
†Images shown are for illustration purposes only and may differ slightly from actual product.

UltraBook, Celeron, Celeron Inside, Core Inside, Intel, Intel Logo, Intel Atom, Intel Atom Inside, Intel Core, Intel Inside, Intel Inside Logo, Intel vPro, Itanium, Itanium Inside, Pentium, Pentium Inside, vPro Inside, Xeon, Xeon Phi, and Xeon Inside are trademarks of Intel Corporation in the U.S. and/or other countries.

*Battery life will vary according to use. †In compliance with IPX2 and drop test performed on a steel surface from up to 1.5m, this smartphone is protected against falling water and drops. Provided that the cover is firmly closed, the phone is (i) protected against water when tilted up to 15 degrees from all practicable directions for up to 10 minutes, water equivalent to 3mm of rainfall per minute in compliance with IPX2; and/or (ii) capable of resisting drops on a steel surface from up to 1.5m. Test is run three times at alternating heights, with impact testing on all sides of the device. All tests were performed on the smartphone only, not including PadFone S Station. Please note that the above information does not constitute as ASUS manufacturer warranty. Please refer to ASUS Warranty Information along with your product for the detailed information. Please refer to the PadFone S product page at <http://www.asus.com/sj>.

^Desktops include: ROG G30AK-SG001S, ROG G30AK-SG002S, M32AD-SG004S, P50AD-SG005S, & ET2230IUT-B0130.

All bonus gifts to be collected from dealers. Bonus gifts while stocks last only. Only purchase of ASUS products during the promotion period is entitled to the bonus gifts indicated in this flyer. Redemption of bonus gifts and promotions after indicated date in this flyer will be considered invalid. Products and bonus gifts' images are for reference only. Specifications are correct at time of print. ASUS reserves the rights to change any specifications without prior notice.

ASUS stands by their notebook LCD panels, offering a one month servicing/replacement of the panel from time of purchase should the panel have any bright dot.

The Choice of IT Professionals

In today's digital age, our devices such as notebooks, tablets, mobile phones, and desktops store lots of sensitive personal data. That is why IT professionals all over the world choose ASUS. They know that ASUS is synonymous with quality and reliability. Whatever you use your device for, be it watching movies, listening to music or viewing photos - ASUS is the natural choice delivering technology and style. But don't take our word for it. Consult an IT expert before purchasing.
