Edge-to-edge vision

Cloud adoption continues to rise

of organizations will adopt **hybrid infrastructure** management capabilities by 2020¹

of IT spend will be dedicated to **cloud infrastructure**, applications and services by 2021²

spending on **colocation services** is expected to grow from \$53.9B in 2016 to \$74.5B by 2020, 10%+ YoY¹

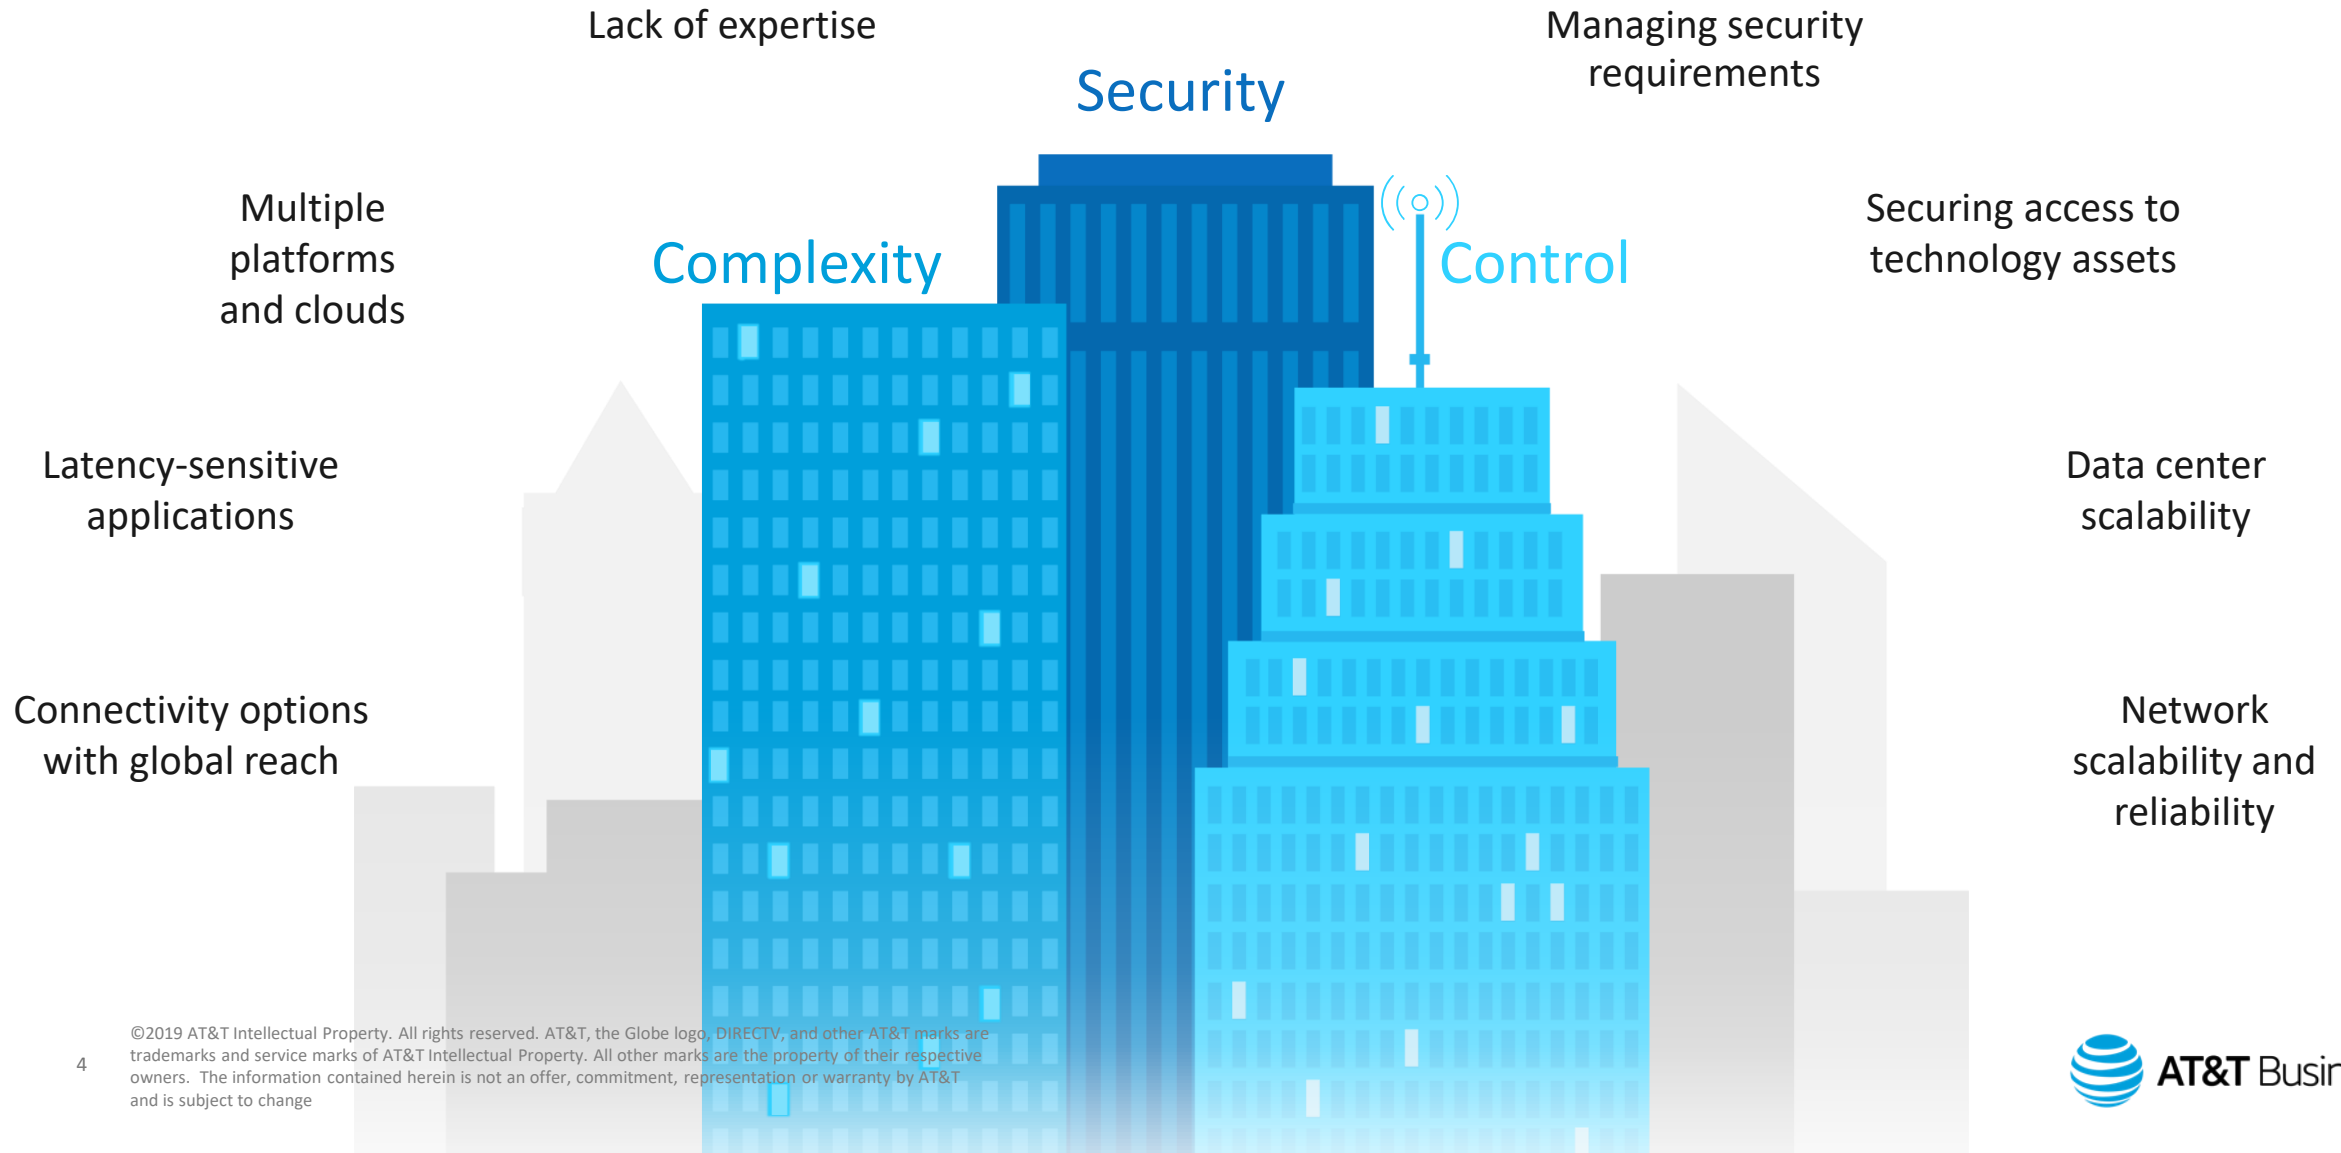

spending on **cloud services and cloud-enabling hardware, software and services** will more than double by 2021³

Industry-leading Ecosystem

Enhanced Network Solutions

Trusted provider with
comprehensive solutions

Global scalability & support

Edge-to-edge security

The AT&T Colocation Ecosystem:

*Creating unique value
with world-class data centers,
networking, cloud connectivity,
security and the expertise to
help you transform*

Not just about space and power

- Strategic hub for cloud and network interconnectivity
- Key component of customer's digital transformation

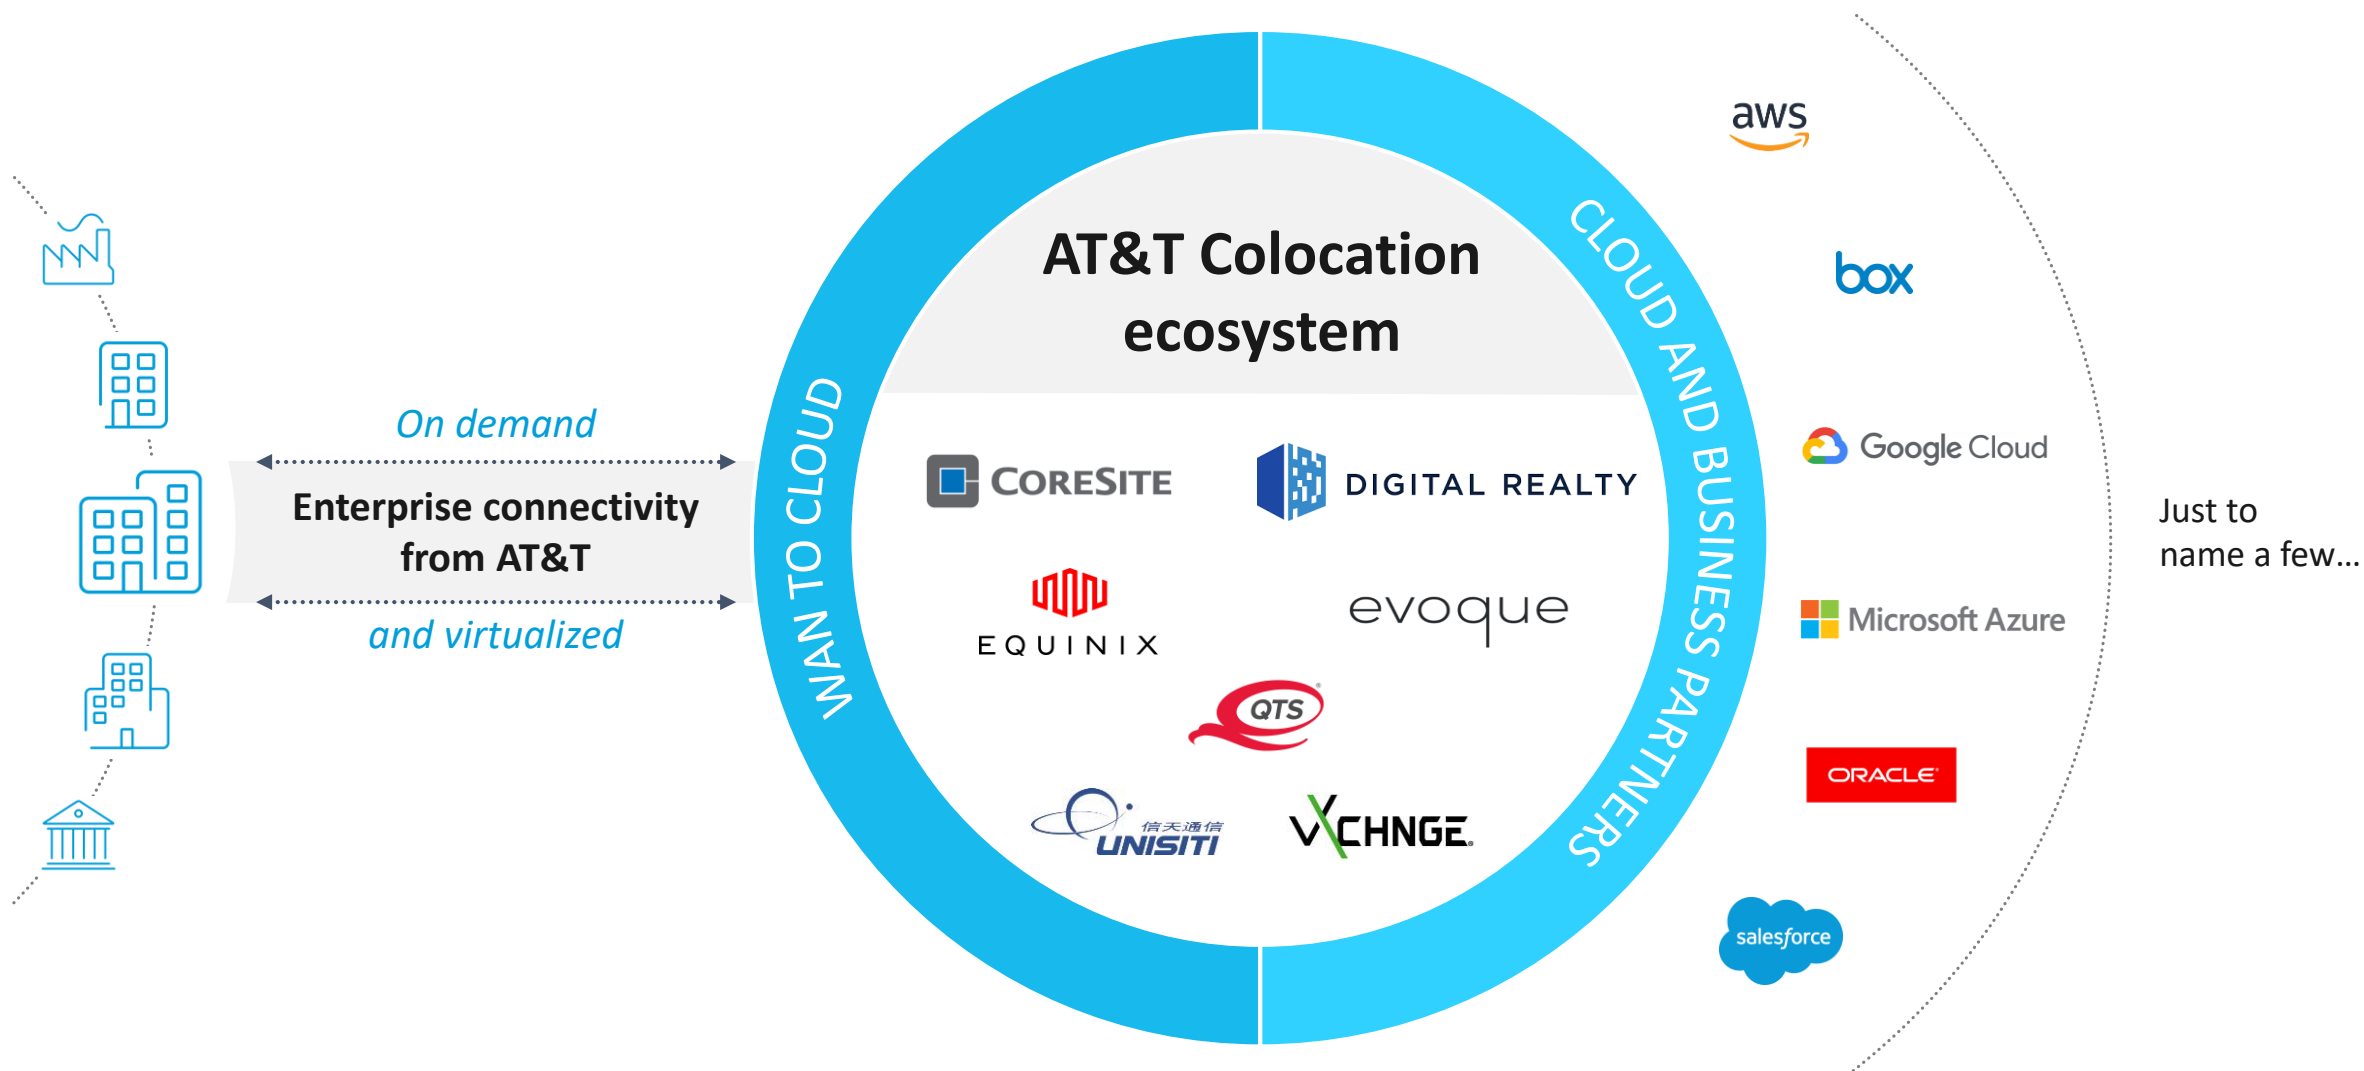

Many businesses want a hybrid model

- Connectivity between public and collocated private clouds
- Agile and scalable networking

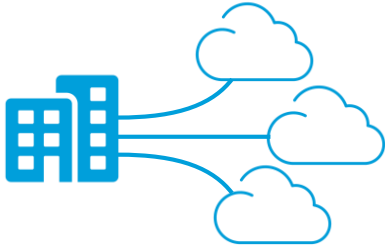

Security more vital than ever

- End points, network and cloud
- Data center access and assets

Seamlessly connecting your enterprise to cloud...

Enhanced connectivity from WAN to Cloud

	High performance transport	Best-in-class virtualized platforms	Cloud-connected data centers
	<ul style="list-style-type: none">• Dynamically adjust bandwidth• Flexible network configurations• Simplified network management• Speed 2Mb up to 100G	<ul style="list-style-type: none">• Easy to deploy and manage• Optimized intelligent routing• Highly secure cloud access	<ul style="list-style-type: none">• Global ecosystem of leading providers• Robust cross connect options• Managed access and orchestration to cloud
			
Services	<ul style="list-style-type: none">• AT&T Dedicated Ethernet• AT&T Switched Ethernet/On Demand• AT&T EPLS WAN• AT&T VPN (AVPN)• AT&T Dedicated Internet	<ul style="list-style-type: none">• AT&T FlexWare• AT&T SD-WAN Network based• AT&T SD-WAN Over the Top• AT&T NetBond® for Cloud	<ul style="list-style-type: none">• Cloud Appliance Zone (AT&T NetBond® for Cloud feature)• Cloud connectivity exchanges (from the Colo providers)• AT&T Managed LAN, WAN & Router services• AT&T Total Access Orchestration

Integrated Security + Solution Flexibility

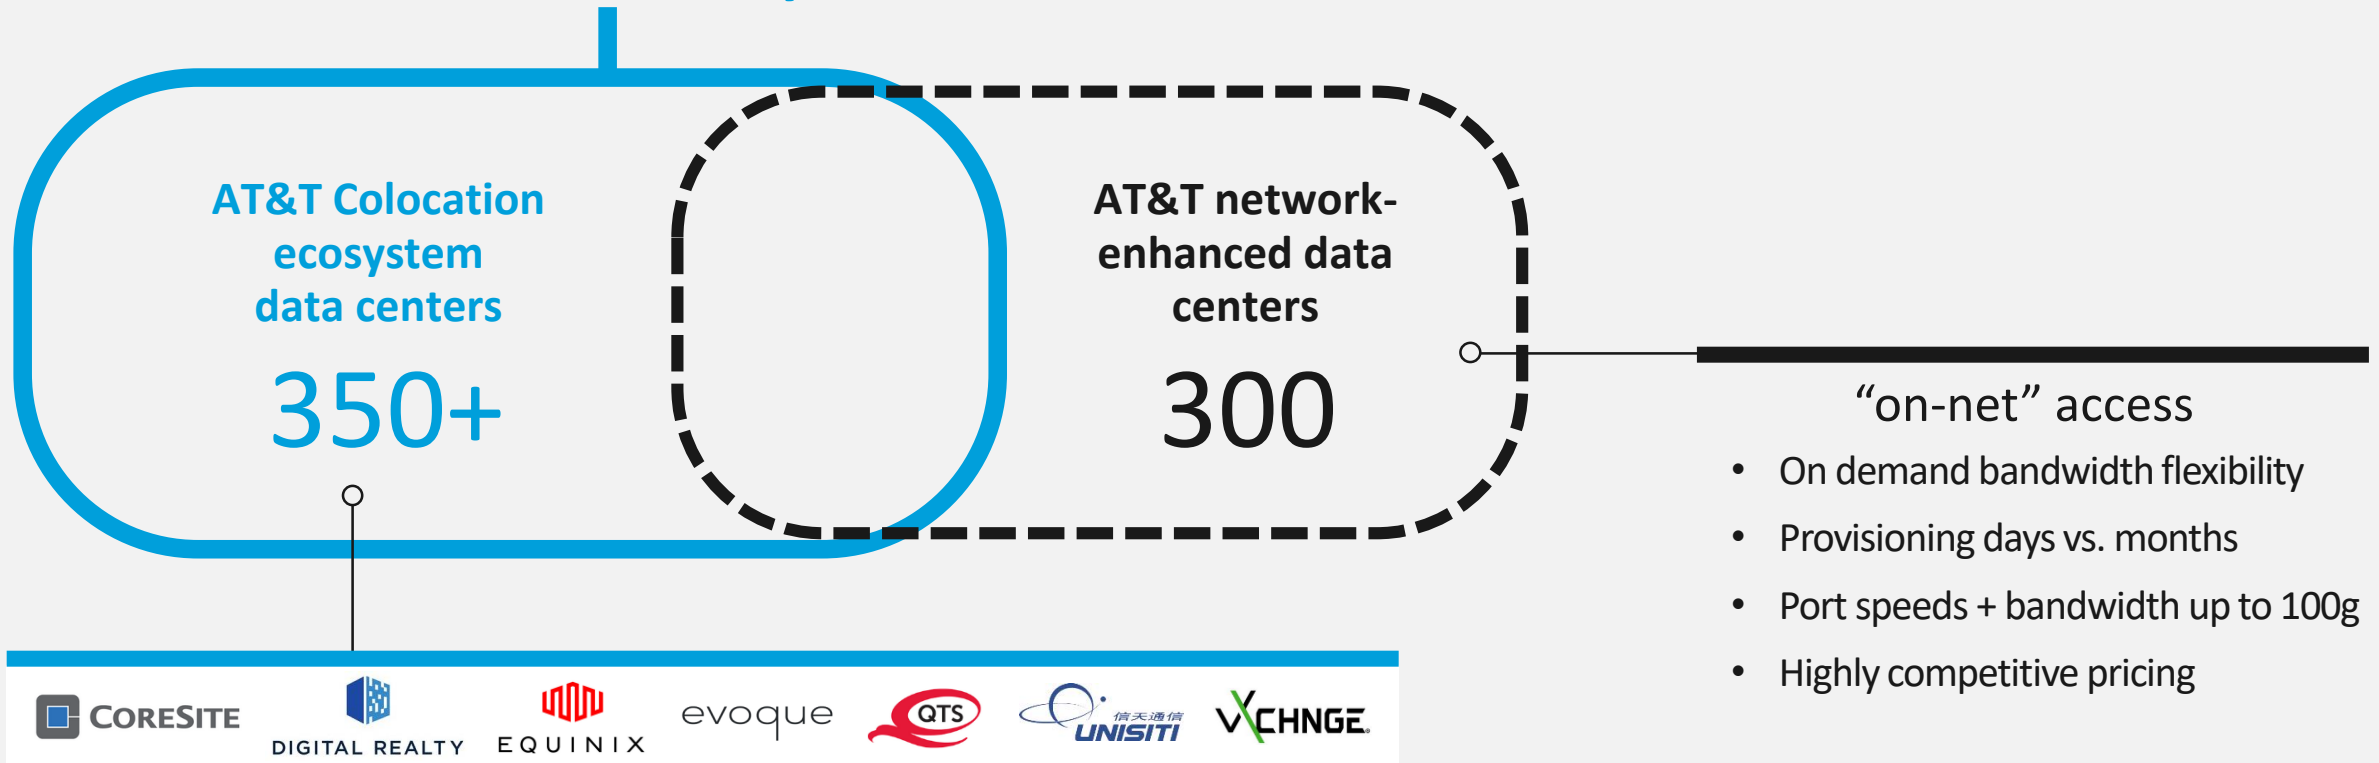

Not all service capabilities listed are available in every data center or location. Check availability through your AT&T service representative.

AT&T network-enhanced data centers*

Colocation Services by AT&T

*Signifies the data centers are enhanced by AT&T’s network capabilities, not that the data centers are owned or operated by AT&T

GLOBAL REACH | 350+ data centers, located in 25 countries across 5 continents

Your infrastructure is in good hands

Physical Security

- Highly secure physical locations
- 24x7 monitoring

Reliability

- Meet or exceed the highest industry standards
- Infrastructure redundancy (historical avg. facility availability > 99.999%)

Customizable power solutions

- Power densities up to 20KW+ per rack in most locations
- Power metering options

Certifications

- SSAE16/ISAE3402 and ISO27001 in all data centers
- PCI, HIPAA, FedRAMP and FISMA in many data centers

Convenience

- Standard contracting, services, and processes
- Designated Day 2 support specialists

Bringing it all together – the best solution for what you need

- ✓ Strategic goals
- ✓ Geography
- ✓ Connectivity and cloud
- ✓ Space and power
- ✓ Center capacity
- ✓ Applications
