

Atlona HDBaseT Extender Family

Atlona HDBaseT Extender Family

AT-HDTX-RSNET

Beyond Ordinary Video

Atlona's RSNET, IR and HD extenders take video beyond the technical limits of standard HDMI. Unparalleled HDBaseT and Power over Category cable (PoCc[®]) offer the best possible combination of connectivity features. Choose different models for distance or control in the ultimate home theater, reliability for business or government, versatility for installation or rental/staging, or competitive pricing for more compact spaces.

Atlona Advantages	
GO FARTHER Up to 328 ft (100 m). Value models use HDBaseT for transmission up to 230 ft (70 m)	CONVENIENT CAPTIVE-SCREW TERMINATIONS for power and control help reduce wire bundles for cleaner racks and more reliable connections
POWER OVER CATEGORY CABLE PoCc eliminates the need for a power supply at the receiver	LOCKING HDMI PORTS for extra-secure connections and uninterrupted signals
MORE OPTIONS Signal and connector options including HDMI or DVI for video/audio, HDBaseT on RJ45 or etherCON	RESOLUTIONS UP TO ULTRAHD (4KX2K)
MORE CONTROL Ethernet, RS-232, and bi-directional IR for third-party-controller compatibility	PASSES CEC SIGNALS future-ready
UPGRADE IN THE FIELD USB port so firmware can be upgraded in the field to save time and money	SUPPORTS all embedded audio signals including Dolby TrueHD and DTS-HD Master Audio
ROADNET FOR RENTAL AND STAGING The only extender on the market specifically designed for rental and staging, with extra-robust RJ45 etherCON connectors to withstand the rigors and chaos of live performance and temporary installation. Quick-connect power supply for faster setup and breakdown	
DVI OPTION with DVI connector instead of HDMI connector, ideal for PC users and the medical industry. This adapter has HDMI-compatible electronics with DVI connectors for max flexibility including capability to transmit audio and Ultra HD (4Kx2K)

Pair with Atlona Matrix Switchers

Our HDBaseT extenders pair with any Atlona HDBaseT device such as the PRO3HD matrix switchers and HDCAT distribution amplifiers.

ADAPTERS Get the reliability of DVI with an HDMI extender using the 14050 HDMI (male) to DVI (female) locking adapters.

NOTE: HDBaseT technology allows signals up 230 feet OR to 328 feet. Pairing components with different HDBaseT distances results in reduced maximum performance. Pairing 328-foot-max with 230-foot-max results in reduced performance.
