The International Society for Horticultural Science is a truly global network comprising over 60,000 individuals, universities, governments, institutions, libraries and commercial companies, thousands of whom joined as Individual Members, in addition to a substantial number of Institutional Members and some 50 Member Countries/Regions. It is a major source of up-to-date information on global horticultural research. ISHS aims to promote research in all branches of horticulture. It encourages the development of international co-operation, bringing together scientific and technical professionals to stimulate, facilitate and co-ordinate research and scientific activities on a global scale.

ASTRAL and ISHS joined hands to bring valuable publications and contents in the Indian subcontinent market for academicians, researchers and visionaries at fair prices.
