THE ITEMS IN THIS CATALOG meet a high threshold for quality. Azure requires transparency from all the companies we work with, and we only choose suppliers that produce foods and products made with only natural ingredients. That means you get nutrient-rich foods and products that are minimally processed with no artificial additives, no preservatives, non-GMO, no MSG, no artificial colors or flavors. That doesn't mean every item is organic. Some are made with organic ingredients but are not Certified Organic. Some go far beyond organic. They all are earth-friendly, non-GMO and meticulously chosen for their healthful qualities.

Azure's Unacceptable Ingredient List:

Artificial Colors	Certified Colors	Shellfish Products <i>(except when used as an ingredient in nutritional supplements)</i>
Artificial Flavors	Fluoride	Alcohol
Artificial Nitrates/Nitrites in Meat Products	Genetically Modified Organisms (GMOs)	Tobacco
Artificial Preservatives	Monosodium Glutamate (MSG)	
Artificial Sweeteners	Refined Conventional Sugars	
Bleached Flour	Pork Products	

A Word about "Natural" Flavorings:

Azure is currently reviewing all products that include "natural flavorings" for items that are unacceptable. All new vendors are required to sign a certification letter clearly stating that their natural ingredients do not contain any of the following items:

Monosodium Glutamate	Calcium Caseinate	Malt Flavoring
Hydrolyzed Vegetable Protein	Yeast Extract	Stock Flavoring
Hydrolyzed Protein	Textured Protein	Carrageenan Enzymes
Hydrolyzed Plant Protein	Autolyzed Yeast	
Plant Protein Extract	Hydrolyzed Oat Flour	
Sodium Caseinate	Malt extract
