LESSON PLAN IN ENGLISH I

Prepared by:
Gemma M. Palino
Sta. Cruz E/S
Cabusao District, Camarines Sur

I. OBJECTIVE:	Give short commands and directions.				
II. SUBJECT MATTER:	Following and giving directions/short commands.				
	Reference: BEC PELC 5.6 English Expressways, pp. 88-91 Materials: Strips of paper, box, picture. Integration: Practice safety commands for fire or earthquake.				
III. PROCEDURE:	<p>A. Preparatory Activity:</p> <p>1. Review :</p> <p>The teacher will give one – step directions and the pupils will follow.</p> <table><tr><td>1. Stand.</td><td>3. Jump.</td></tr><tr><td>2. Sit erect.</td><td>4. Clap your hands.</td></tr></table> <p>2. Motivation:</p> <p>Showing a picture of children falling in line going inside the room.</p> <p>Ask: What can you say about the picture? What are they doing?</p> <p>3. Motive Question:</p> <p>Who went on a trip one day?</p> <p>B. Developmental Activity:</p> <p>1. Prevention:</p> <p>Reading of the story.</p> <p>Story: The class of Miss Gomez went on a trip. She gave some instructions to her pupils to be observed before they went</p>	1. Stand.	3. Jump.	2. Sit erect.	4. Clap your hands.
1. Stand.	3. Jump.				
2. Sit erect.	4. Clap your hands.				

on. Suddenly, Mona cried. Miss Gomez saw Mona dropped on the floor.

2. Answering motive question:

Who went on a trip?

3. Comprehension questions:

1. What did Miss Gomez give to her class before they went on a trip?
2. How did the class of Miss Gomez feel when they went on a trip?
3. What happened to Mona?
4. Why did it happen? Why did Mona cry?
5. If you were one of Miss Gomez' pupils, would you follow her commands? Why and why not?

4. Discussion:

What other directions or commands can you give?
What commands will you observe in school?

Possible answers: Fall in line, do not shout, etc...

In case there's an earthquake, what commands/directions can you give to be observed?

Examples:

- | | |
|---------------------------|------------------|
| 1. Don't run. | 4. Don't talk. |
| 2. Duck, cover, and hold. | 5. Fall in line. |
| 3. Don't push. | 6. Go outside. |

Integrate the warning signals in case an earthquake is happening.

How about if there's a fire? What will you do? What safety commands will you follow?

Examples:

- | | |
|--------------------------|-------------------|
| 1. Don't run. | 4. Don't talk. |
| 2. Don't push. | 5. Don't go back. |
| 3. Stop, drop, and roll. | |

Integrate in the discussion the warning signals when there's a fire.

Why do we need to follow directions or commands? What is the importance of following directions?

	<p>5. Generalization:</p> <p>There are directions and commands to be observed at home, school, and in the community. We have to follow for our safety.</p> <p>C. Post Activity:</p> <p>1. Application:</p> <p>Before the class starts, the teacher pasted pictures under some chairs.</p> <p>Let the pupils show the picture and give the command on direction it illustrates.</p> <p>2. Group activity:</p> <p>The teacher will divide the class in four and will give situations on strips of paper in the box for each group to follow.</p> <p>Examples:</p> <ol style="list-style-type: none"> 1. Pass. Don't run. 2. Hands at your back. 3. Sit erect. 4. Duck, cover, and hold. 5. Stop, drop, and roll. 6. Fall in line. 7. Clap your hands. 8. Close the window.
IV. EVALUATION:	Give short commands and directions as I act out situations.
V. ASSIGNMENT:	<ol style="list-style-type: none"> 1. List 5 commands to be observed at home. 2. Share what safety commands you learned if the earthquake happens or if there's a fire to your family.

I. OBJECTIVE:	Identify words that rhyme in two to three stanza poems.
II. SUBJECT MATTER:	Identifying words that rhyme in two to three stanza poems.
	<p>Reference: PELC – Reading Grade II</p> <p>Materials: Flashcards, charts, pictures of different canned goods or a real representation of groceries.</p> <p>Integration: Safety measures to be observed/followed when there is a typhoon.</p>
III. PROCEDURE:	<p>A) Pre-Reading Activities:</p> <p>a) Unlocking of Difficulties:</p> <p style="padding-left: 40px;">Show pictures of real objects to demonstrate to pupils the meaning of some words found in the poem.</p> <div style="border: 1px solid black; padding: 5px; text-align: center; margin: 10px auto; width: fit-content;"> store grocery street packages </div> <p>b) Motivation:</p> <p style="padding-left: 40px;">Ask: Children who among you have visited the store? Who are you companions in going there? Why is it that there is a need for us to prepare food during typhoon? Is preparing food important when typhoon comes?</p> <p>c) Motive questions:</p> <p style="padding-left: 40px;">Tell pupils, “Today, we are going to read a poem entitled, “The Groceries.” We will find out, “<u>What did mother do in going to the store?</u>”</p> <p>B) During Reading:</p> <ul style="list-style-type: none"> ➤ Reading of the poem; “The Groceries.” ➤ The teacher will read first the poem alone and let pupils listen.

- In the second reading, the teacher will read the poem and she will let the pupils follow after her.
- She will let the pupils read the poem by group, by row, and individual.

POEM

The Groceries

The store around the corner,
Has a grocery to sell.
I go there with my mother,
I like that very well.

We look in the store windows,
As we walk down the street.
We bring home many packages,
Of groceries to eat.

C) Post-Reading Activities:

- a) Answering the motive questions:
What did mother do in going to the store?
- b) Engagement activities:
Ask children some questions about the poem?

Example:

- Who went to the store?
 - Where can you find the store?
 - What did they bring home from the store?
 - When did they go to the store?
 - How did they get there?
- c) Typhoon discussion:
 - Connect the poem they heard and read with their experiences in their communities where there is a storm.
 - Give them some safety measures to be followed when there is a typhoon.
 - a) Have you seen some houses damaged when there is a strong wind?
 - b) Why do they fall down?
 - c) What did people feel when their houses are damaged?
 - d) When there is typhoon, what are the safety

	<p>measures that we should follow?</p> <p>Possible answers:</p> <ul style="list-style-type: none"> • Leave your school early. • Stay inside your house. • Listen to the radio for updates of the weather. <p>e) What are the things that we should prepare?</p> <p>Possible answers:</p> <ul style="list-style-type: none"> • Prepare a safe drinking water, cooking and eating utensils. • Prepare canned goods, biscuits, rice and bread. • Be ready with the emergency kits like flashlights and candles. <p>D) Enrichment Activity: Distribute pupils some emergency kits that can be used when there is a typhoon like: Flashlights, candles, matches, radio and batteries.</p> <p>Ask them: “Why is it important to have those things especially when typhoon comes?”</p>
<p>IV. EVALUATION:</p>	<p>Have the children read again the poem entitled: “The Groceries.” Let them identify the words that rhyme in the poem.</p> <p style="text-align: center;">The Groceries</p> <p style="text-align: center;">The store around the corner, Has a grocery to sell. I. OBJECTIVE:	Identify activities of human beings that can be done on rainy days.
II. SUBJECT MATTER:	Activities of human beings on rainy days
	<p>Reference: Science and Health 3 txt. pp. 208-211 PELC III – 6.1 - Identify activities done during certain weather conditions.</p> <p>Materials: Pictures of activities done on rainy days. Pictures of flooded area.</p> <p>Integration: DRR – Cause and effect of floods. Science concept: ○ Certain activities are done on rainy days/ (ex. Planting, swimming, playing under the rain)</p>
III. PROCEDURE:	<ol style="list-style-type: none">Motivation: Ask them if what are the kinds of weather. Can you name them? What kind of weather do you like most. Ask them why they choose that certain type of weather.Presentation: Have the pupils observe the different pictures done during rainy days. Group the pictures into two. On the first column, put the pictures which can have good effects and on the second column, picture with bad effects on people, plants, and animals. Ask: - What do you think are the causes of flood? - Is it safe playing on a flood area?Hands-on activity: From the pictures of activities on the second column, let them choose one which has bad effect on people, plants, and animals. Divide the class into three groups. Group one will work on the effect to people, group two will work on the effect to animals, group three will on the effect to plants.

	Group 1 Effect on People	Group 2 Effect on Animals	Group 3 Effect on Plants
IV. EVALUATION:	<p>Identify the activities on rainy days by checking the number.</p> <ol style="list-style-type: none"> 1. Fly kite. 2. Playing under the rain. 3. Staying indoors. 4. Hanging clothes outside on rainy days. 5. Playing on a flooded area. 		
V. ASSIGMENT:	<p>List down activities during sunny days. Cut pictures of activities during sunny days.</p>		

Let them go back to their seats. Together with the teacher, let them check their work.

- What are the causes of flood?
- What are the effects of a flood?
- Ask now if what are the dangers they will meet if they are playing on a flooded area?

4. Minds-on-Activity:

Ask them which are the following activities on rainy days are they going to choose. Let them get one picture and explain why they choose it.

Ask the other to get the remaining picture and explain why did they choose it.

5. Concept Formation:

Let the pupils observe some picture of activities during rainy days like playing on a flooded area.

Ask: Is it safe to play on it? Why?
What should you do in case of flood?
Make a list of it.

6. Application:

Cooperative learning (group them into 50
Role playing on the activities during rainy days whether it has good effect on plants, people, and environment.

C. Post Activity:

1. Answering motive questions:

What happened to Peter's house?

2. Engagement activity:

- a. Where are Peter's parents?
- b. Who put off the fire?
- c. Where was Peter at that time?
- d. What do you think could have happened if the neighbors did not help in putting off the fire?
- e. How can we prevent fire?

3. Extending literary experience:

Group work:

Group 1 – Role play. What to do when there is fire?

Group 2 – Make a slogan on how to prevent fire.

Group 3 – Make posters on fire prevention.

4. Skill development:

- a. What could have happened if Peter did not go out to play?
- b. What could have happened if the neighbors did not help?

D. Generalization:

How will you give possible ending to a certain situation/selection?

E. Application:

Give possible ending to the following situation.

- a. It was raining heavily Sally forgot to bring her umbrella. What do you think will happen to Sally?
- b. If illegal loggers will not be prevented, what do you think will happen?
- c. A boy was playing a ball along the street. The ball rolled across the street and the boy ran to get the ball. Suddenly, a bus came. What will happen to the boy?
- d. Dan was playing a toy car inside the house. His friends called him to play outside. He forgot to keep his toy car. His younger brother who is very eager to go with him outside stepped on the toy car. What do you think

	will happen next?
IV. EVALUATION:	<p>Give possible ending to the following situations. Write your answer.</p> <ol style="list-style-type: none">1. Mario stepped on marbles scattered on the floor. What would happen to Mario?2. The skirt of a girl has caught fire? What might happen next?3. Carlo saw that his younger brother is playing a match. What would Carlo do?

Gary T. Tañon
Pagsangahan E/S
San Miguel North District
Division of Catanduanes

I – OBJECTIVE: Reads and interprets data presented in a line graph.

II – SUBJECT MATTER: Reading and Interpreting Data Presented in a Line Graph.

Concept: A line graph shows information through the use of line which represents two sets of related data.

Reference: BEC PELC V, I

Materials: Charts, Activity sheets, picture

Integration: Safety Measures before, during, and after a typhoon.

III – LEARNING EXPERIENCE:

A. Preparatory Activities

1. Checking of Preparation.
2. Review

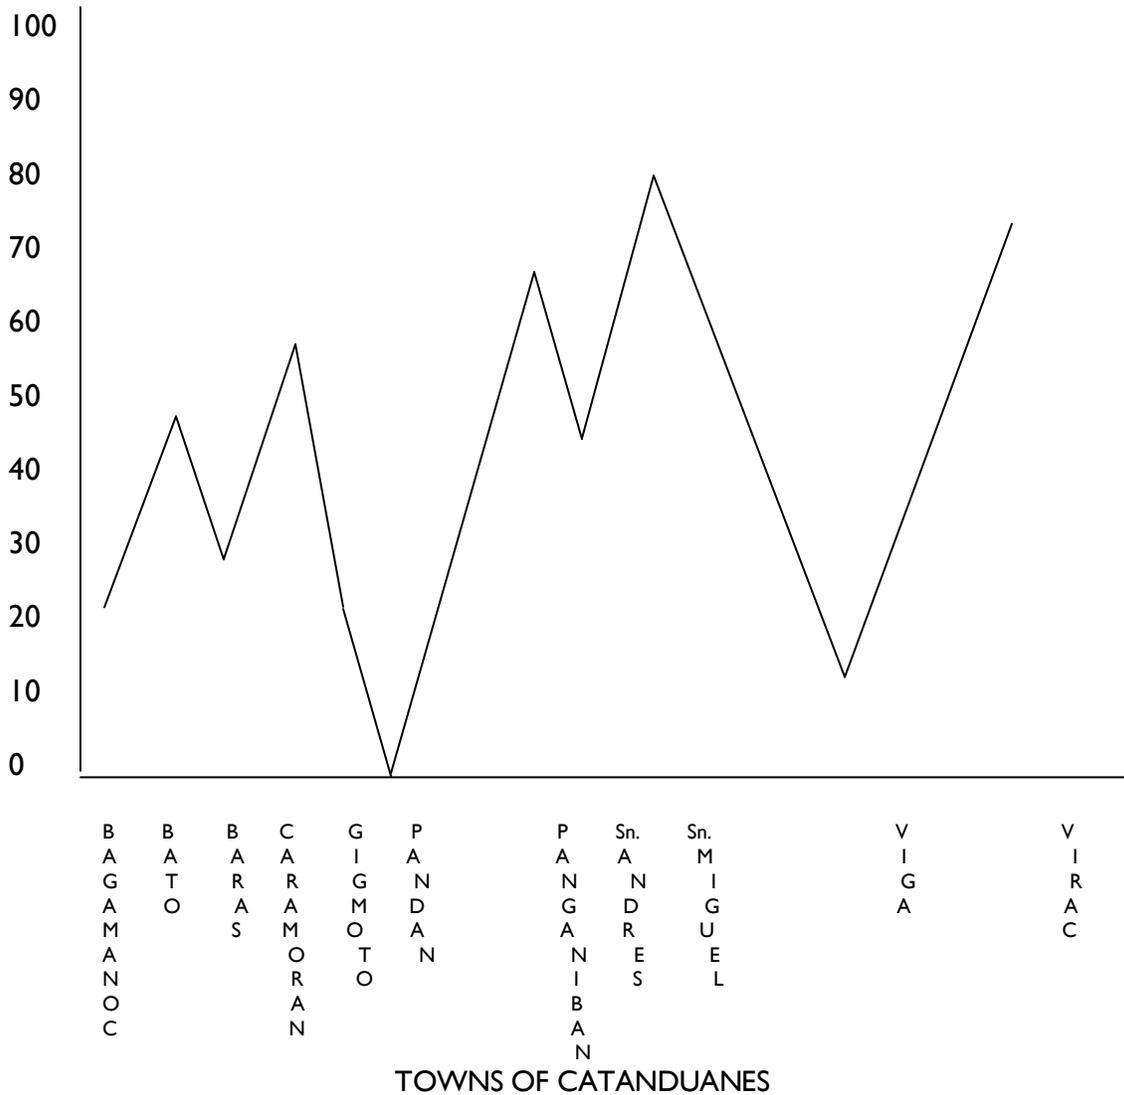

Ask:

1. What is a graph?
2. What are the different kinds of graphs?
3. What does a graph show?

B. I. Presentation:

Study this line graph.

LIVES LOST IN CATANDUANES DUE TO TYPHOON EGAY

2. DISCUSSION

Ask:

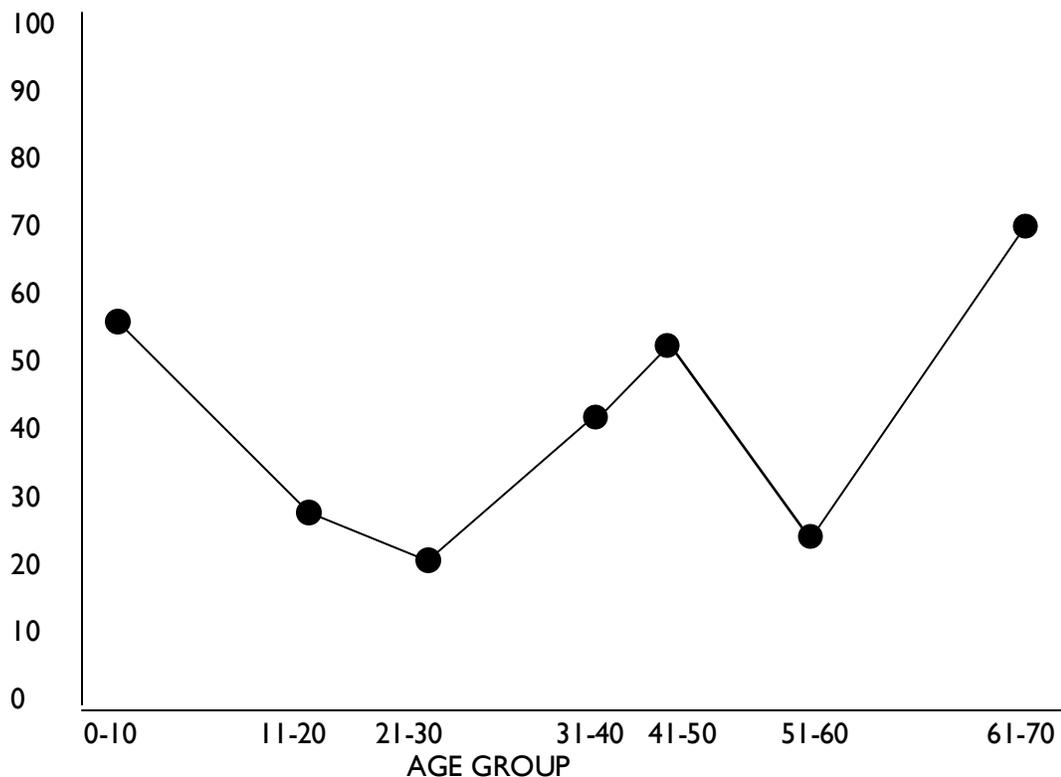

1. What does this line graph tell?
 2. What town in Catanduanes has the biggest casualty? What does it imply?
 3. What has zero casualties? Why do you think there were no casualties?
 4. What other safety measures can we adapt before a typhoon?
 5. How many lives were lost due to typhoon Egay?
 6. What can we do to mitigate the loss of lives during a typhoon?
 7. What precautionary measures can we do after a typhoon?
- (Note: Teacher may ask other questions)

C. Practice Exercise (Group Activity)

1. Dividing the class in to 4 groups.
2. Setting of standard for group activity.
3. Activity proper.

GROUP A and B (ACTIVITY SHEET)

CASUALTIES OF BAGYONG JUAN ACCORDING TO AGE GROUP

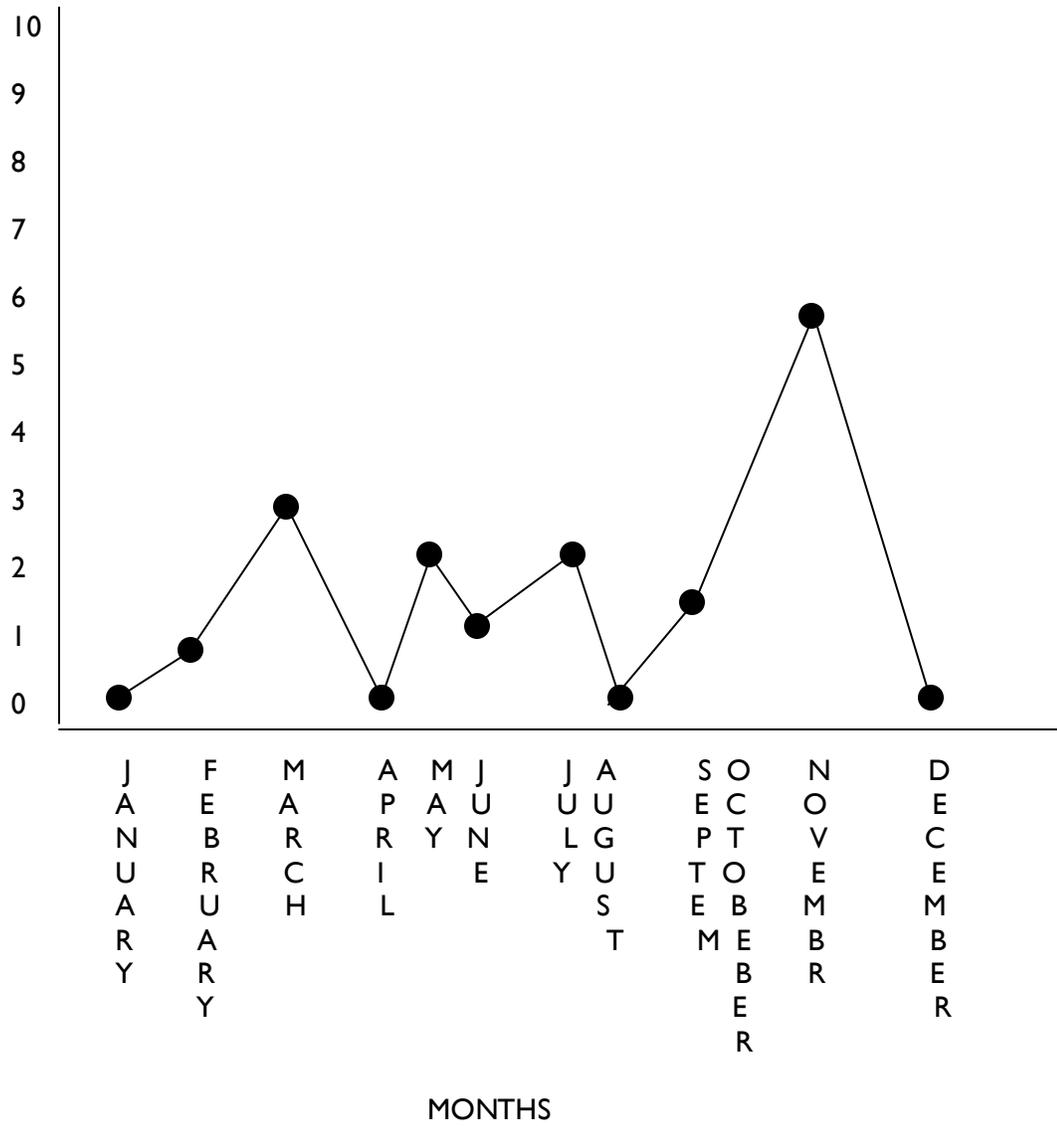

1. What information does the graph tell you?
2. What age group has the highest casualty?
3. What age group has the least casualty?
4. Why do you think ages 61-70 is the most affected group?
5. Why were there many casualties?

GROUP C and D (ACTIVITY SHEET)

Interpret the data presented in this graph. Tell something about it in front of the class.

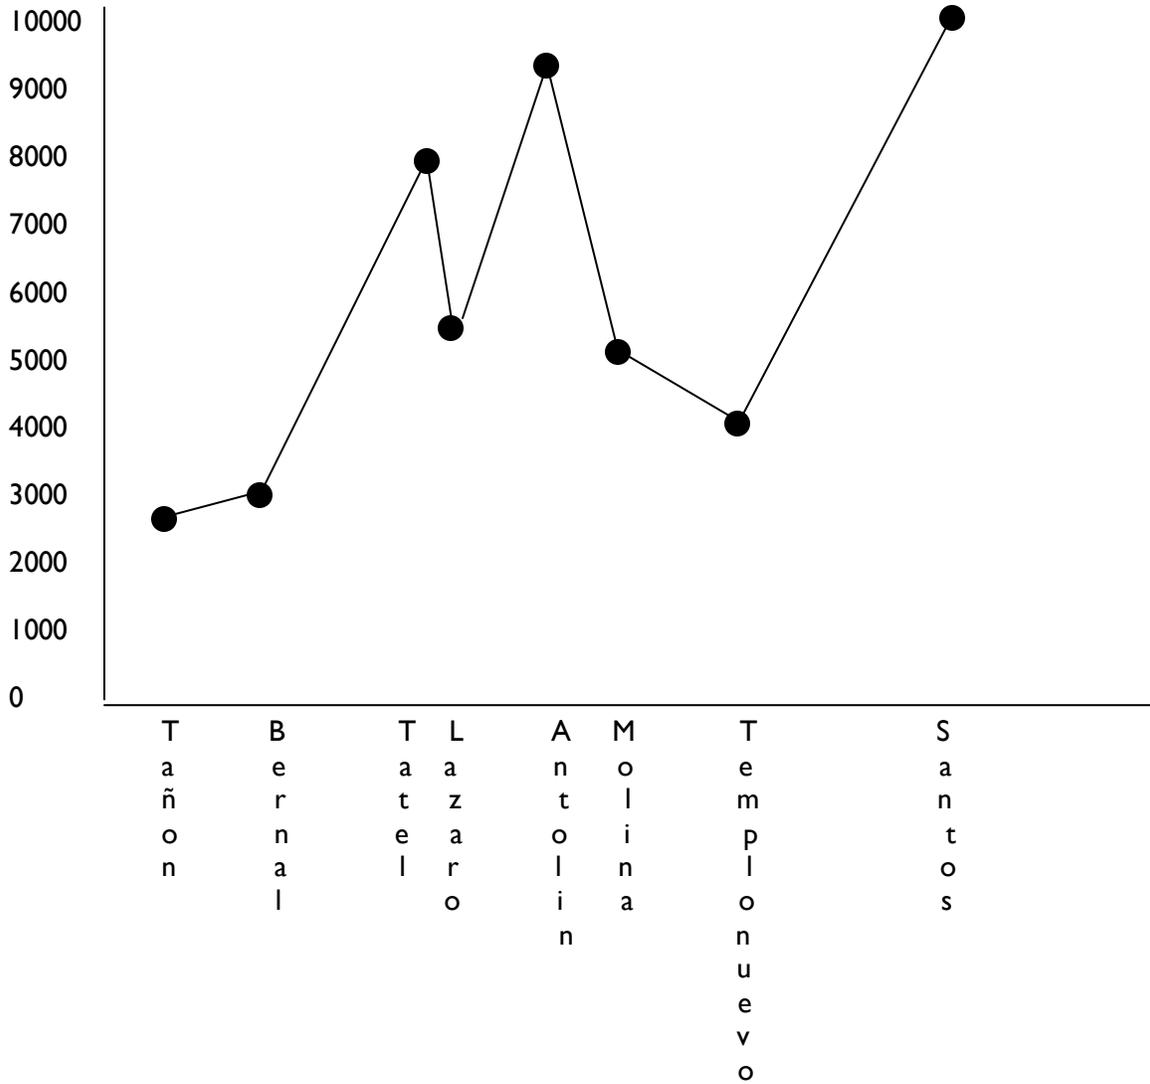

NUMBER OF TYPHOONS PER MONTH IN CATANDUANES

4. GROUP REPORTING

5. Fixing Skills

ESTIMATED VALUE ON THE EXTENT OF DAMAGE OF TYHPOON EGAY

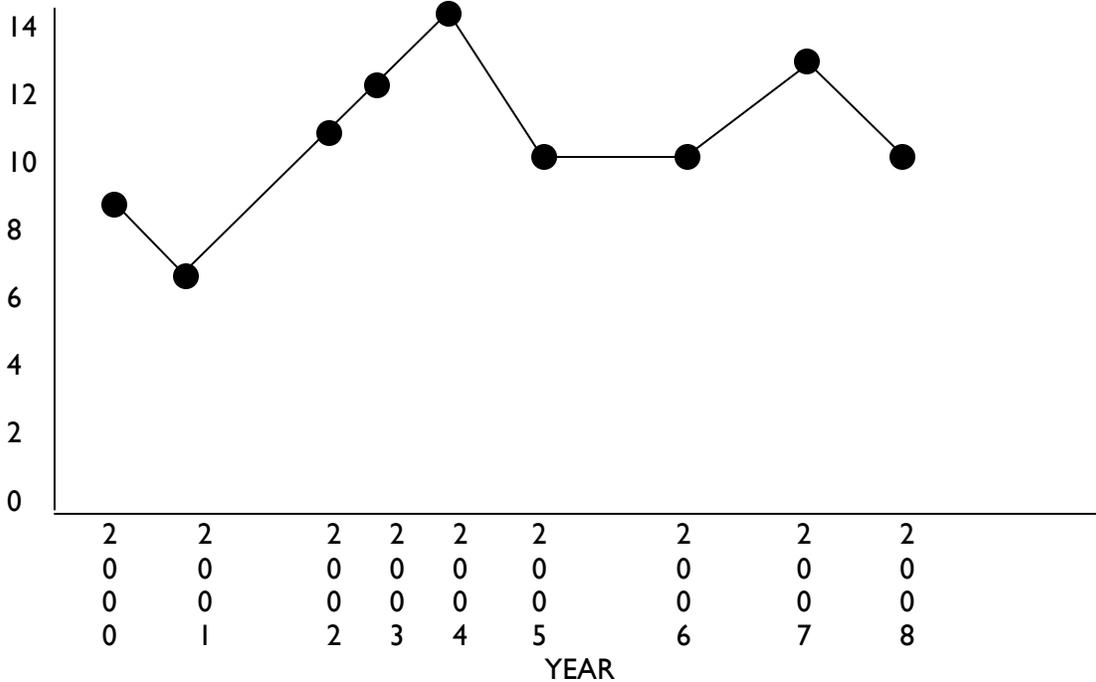

QUESTION:

1. What does the graph show?
2. Which family received a highest amount?
3. Which family has the least damage?
4. What conclusion can you make on the damages incurred between Tanon and Santos family?

IV – EVALUATION:

Study the line graph. Interpret the data presented by filling the blank.

TYPHOON PASSED IN CATANDUANES FOR THE FOLLOWING YEARS

1. What is the title of the graph?
2. What year has the most number of typhoons?
3. What has the least typhoon occurred?
4. How many typhoons does Catanduanes experience in the year 2000?
5. Give your idea about vulnerability of typhoon in Catanduanes.

V – ASSIGNMENT:

Construct a line graph base from the given data.

LESSON PLAN IN MATHEMATICS GRADE VI

Prepared by:
Nerissa D. Valencia
Toytoy Elementary School
Garchitorena District

I. OBJECTIVE:	Form ratio and proportion for groups of objects/numbers.
II. SUBJECT MATTER:	Forming ratio and proportion
	<p>Reference: BEC PELC 11.k.1, 1.1.1</p> <p>Materials: Flashcards, picture of a tropical cyclone.</p> <p>Springboard: Tropical cyclone.</p> <p>Integration:</p> <p>Values: Care and concerns with each other.</p> <p>DRR message: Awareness on tropical cyclone.</p>
III. PROCEDURE:	<p>A. Preparatory Activity:</p> <p>a. Drill:</p> <p>Give the fraction name of the shaded part.</p> <div style="display: flex; justify-content: space-around; align-items: center;"> <div style="text-align: center;">  <p>Ex. $1/3$</p> </div> <div style="text-align: center;">  <p>Ex. $2/4$</p> </div> <div style="text-align: center;">  <p>Ex. $2/3$</p> </div> <div style="text-align: center;">  <p>Ex. $1/4$</p> </div> </div> <p>b. Review:</p> <p>Use picture cards with different numbers of objects/pictures. Let the pupils give the number that it represents.</p> <p style="text-align: center;">Ex. 2 flowers and 8 leaves 3 pencils and 6 bags.</p> <p>c. Motivation:</p> <p>Show picture of a tropical cyclone. Ask the pupils what it is and how it is formed. Ask them the possible effects if it strike/hit a place. Let them give also the precautionary measures to prevent the possible effects. Record pupil's</p>

responses in the blackboard.

B. Developmental Activities:

a. Presentation:

Based from the picture of a tropical cyclone, give pupils insight how it is formed and its classifications. Its probable effect and the precautionary measures in order to elicit or minimize effects, to check what they gave in review.

Classification of a Tropical Cyclone

- (1) Tropical Depression – less than 64 KPH
- (2) Tropical Storm – greater than 64 to 117 KPH
- (3) Typhoon – greater than 117 KPH

Express in ratio each classification by using a color to compare quantities/numbers.

Ex: 64:1
117:1
64:117

The Philippines is visited by typhoon in a year for almost 25 times. How can you express this in ratio?

1:25

Monthly average frequency of occurrence of tropical cyclone in the Philippines. (Represent a number for each month and compare with the number of typhoons per month to form a ratio.)

Jan-1	April-1	July-3	Oct-3
Feb-1	May-1	Aug-4	Nov-2
March-1	June-2	Sep-3	Dec-1

Possible answers:

1:1	4:1	7:3	10:3
2:1	5:1	8:4	11:2
3:1	6:2	9:3	12:1

Based from the ratio being formed, let the pupils give an equivalent ratio to form a proportion. Wherein the product of the means and extremes are the same or equal.

Ex:

$1:1 = 1:1$

$2:1 = 2:1$

$6:2 = 3:1$

$8:4 = 10:5$

C. Fixing skills:

Group activity:

(First group – give a ratio; second group – give the equivalent to form a proportion)

Stages of Tropical Cyclone Warning

(1) Weather Advisory – The cyclone is still too far from the country to pose a threat in the next 3 days. Issued once a day at 5 PM.

(2) Severe Weather Bulletin

- Tropical Cyclone Alert – Poses an impending threat on a part of the country but fell short of the basis for raising storm signal. Issued twice a day at 11 AM and 11 PM.

- Tropical Cyclone Warning – There is immediate threat in a particular part of the country. Issued 4 times a day at 5AM, 11AM, 5PM, and 11PM.

RATIO	PROPORTION

D. Generalization:

What is a ratio? How do you form a ratio?

(Ratio is a comparison of two quantities and form by using a color)

What is a proportion? How can you say that it is a proportion?

(Proportion are two equal ratios, wherein the product of the means and extreme are the same or equal)

IV. EVALUATION:

Express as ratio and give the equivalent ratio to form a proportion.

	Public storm signal # 1 with winds of 60 KPH Public storm signal # 2 with winds of 100 KPH Public storm signal # 3 with winds of 185 KPH Public storm signal # 4 with winds of 200 KPH
V. ASSIGNMENT:	List down the things to do before, during, and after a tropical cyclone (signal # 1, 2, and 3).

LESSON PLAN in SCIENCE and HEALTH VI

Prepared By:
Maria B. Templonuevo
San Miguel Central Elementary School
San Miguel, Catanduanes

I. OBJECTIVE:	Practice precautionary measures before, during and after volcanic eruptions.
II. SUBJECT MATTER:	Precautionary measures to practice before, during and after a volcanic eruption.
	<p>Concept: Certain precautionary measures must be observed in order to prevent loss of lives and reduce property destruction before, during and after volcanic eruptions.</p> <p>Reference: Science and Health 6 TM – pp. 139-140 PELC – v.3.2.5</p> <p>Materials: Books, posters, chart and picture of evacuation in progress.</p> <p>Science Process: Interviewing resource person, enumerating.</p>
III. PROCEDURE:	<p>A. Pre-Activity:</p> <ol style="list-style-type: none">1. Checking of assignment.2. Review What are the harmful effects of volcanic eruptions? Its beneficial effects?3. Motivation: Can you remember the latest time when Mount Mayon Erupted? What do you think were affected by this eruption?4. Presentation: Show a picture that depicts the activities of a volcano. Listening to the teacher's instruction about the day's lesson.5. Setting of the standards to be observed in the activity.6. Grouping of pupils into 3.7. Distribution of the activity sheets.

	<p>B. Activity Proper:</p> <p>Performing an activity:</p> <p>Activity I – What should you do before a volcano erupts?</p> <p>Activity II – What should you do during an eruption of a volcano?</p> <p>Activity III – What should you do after an eruption of a volcano?</p> <p>C. Post Activity:</p> <p>1. Group reporting about the activity.</p> <p>2. Discussion.</p> <p style="padding-left: 40px;">< What are the precautionary measures to practice before volcanic eruptions? During volcanic eruption? And after volcanic eruptions?</p> <p style="padding-left: 40px;">< What should one practice in case of volcanic eruption?</p> <p style="padding-left: 40px;">< Why do we need to practice these precautionary measures?</p> <p>3. Generalization:</p> <p style="padding-left: 40px;">a. What must you do when a volcanic eruption occurs?</p> <p style="padding-left: 40px;">b. During and after they happened?</p> <p style="padding-left: 40px;">c. How can we be safe before, during and after volcanic eruptions?</p> <p>4. Application:</p> <p style="padding-left: 40px;">a. 1. 2.	1. 2.	1. 2.					
V. ASSIGNMENT:	<p>Read more about major volcanic eruption that occurred here in our country, number of lives killed, and amount of property destroyed.</p>						

PRECAUTIONARY MEASURES TO PRACTICE

A. Before Volcanic Eruptions:

1. Keep calm.
2. Evacuate to a safer place.
3. Stay away from/keep a safe distance away from the radius specified by the authorities.
4. Wear thick clothes that will protect from heat and masks to avoid breathing in poisonous air or dust.

B. During the Volcanic Eruption:

1. Keep calm. Do not panic.
2. Move to a safe place. Have a ready means of transportation
3. During ash showers. Cover your nose with a wet piece of cloth.
4. People with respiratory ailments should evacuate outside the ash shower area.
5. In between ash showers, ash on rooftops should be scraped.

C. After Volcanic Eruption:

1. Stay in place until help from authorized agencies come.
2. Report any strange occurrence of smoke, cracks on the ground, etc. to authorities.
3. Clean utensils, plates, etc. from dust expelled from the volcano thoroughly before using them.

Question:

What are the precautionary measures to practice before, during, and after volcanic eruptions?

SAMPLE LESSON PLAN IN ENGLISH-VI

(Story Reading Framework – SRF)

Prepared By:
Norma R. Teoxon
Garchitorena Central School
Garchitorena District
Division of Camarines Sur

I. OBJECTIVE:	At the end of the lesson, the pupils should be able to identify the events on the plot of a story read.
II. SUBJECT MATTER:	Identify the events on the plot of a story read.
	References: Fun in English Reading 6, pp. 87 “Follow the Wind” Headway in Science and Health Today, pp. 230-237 BEC Handbook, Reading 3.1, p.1 Value: Being prepared. DRR Integration: Describing a typhoon. Following safety measures during typhoon. Materials: An ACCORDION showing pictures about typhoon and its safety precautionary measures, picture of a typhoon.
III. PROCEDURE:	A. Pre – Reading Activities: 1. Unlocking of Difficulties: Present jumbled letters for the pupils to form a word with its meaning as a clue. N D A E D O L I N S – Small yellow flowers F F R G U – Boastful F O P W U E R L – Has great power. 2. Motivation: (Let the pupils form two lines and instruct them to go outside the room and they:...) Let us observe our surroundings, what do you feel? Try to look up the sky, what do you see? What about the leaves and the trees around us, what do you observe? 3. Presentation:

Say: Today, we are going to hear a history about the wind. Present the KWL chart as shown below:

What did I know?	What I want to know?	What have I learned?
<p>Possible answers...</p> <p>-Wind is important to us to feel fresh and relaxed.</p> <p>-Wind is disastrous if it is strong.</p> <p>-We can't stop the wind from blowing.</p> <p>-Strong/great wind is called typhoon.</p>	<p>Possible answers...</p> <p>-Can we follow the wind?</p> <p>-Where did it end?</p> <p>-What should one do whenever strong winds occur?</p>	<p>(This portion is to be filled-up during generalization)</p>

4. Motive Question:

Can we follow the wind? Let's find out.

B. DURING READING ACTIVITY:

Reading of a story through a "reader's theatre"
(Let the pupils perform the reader's theatre on stage if possible)

C. POST – READING ACTIVITIES:

1. Engagement Activity:

- Ask the pupils questions about the story.
- Can we follow the wind?
- Who wanted to follow the wind? Enumerate each.
- Were they able to reach the end of the wind? Why? Why not?
- Can we control the wind from blowing?
- What do you think may happen if the wind becomes strong?
- How does a typhoon develop?

2. Skills Development:

Present the episodal web below and let the pupils identify the events on the plot of the story read.

A. Discussion of the events on the plot of the story:

- Where did the story happen?
- Who is the main character of the story? The secondary characters?
- What is the most interesting part of the story?
- How did it end?
- What did the author trying to tell us about the wind?
- If no one can stop the wind from blowing, what should we do? Why?

Note: Connect the story they have just learned with their experiences during strong winds. The teacher will give some inputs on typhoon.

B. Generalization:

No one can't stop the wind from blowing so we need to prepare ourselves on the precautionary measures to follow in case there is a strong that struck our place.

The pupils will mention some plots of the story such as; setting, main character, secondary characters, climax, and ending.

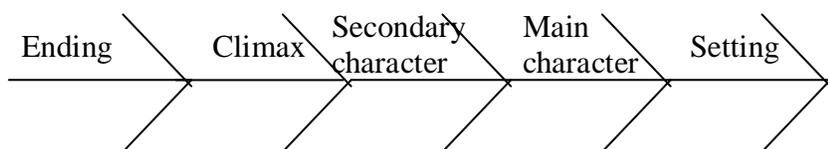

C. Practice Exercise:

Read a short selection and answer the questions that follow:

The story of King Midas is taken from the roman mythology.

Midas was a rich and mighty king, but he was not satisfied. He begged the god Bacchus to grant him his wish. He wanted everything he touches to turn to gold. Bacchus unwillingly granted this request. At first, Midas was delighted in turning everything he owned to gold. Then, he discovered that when he touched his food, it also turned to gold. Fearing starvation, he ask Bacchus to remove the power.

Try to write the plot of the story through this hearing bone.

	<p>3. Literary Extender:</p> <p>If you were one of the objects who followed the wind, would you do the same? Why? Why not?</p> <p>4. Across the Curriculum:</p> <p>Divide the group into four. Let the pupils perform these activities through a performance.</p> <p>I – Show a scenario with a fair weather condition.</p> <p>II – A scenario where your family is experiencing a typhoon.</p> <p>III – Things to do after a typhoon.</p> <p>IV – Things to prepare before the typhoon.</p>
IV. EVALUATION:	<ol style="list-style-type: none">1. Who is the main character of the story?<ol style="list-style-type: none">a. windmillb. cloudc. sailboatd. wind 2. What are the objects who wanted to follow the wind?<ol style="list-style-type: none">a. windmill, bird, cloudb. sailboat, leaf, balloonc. airplane, boy, paperd. bird, leaf, balloon 3. How can we prepare ourselves in times of disaster like typhoon?<ol style="list-style-type: none">a. Know the preventive measures before, during, and after typhoon.b. Do not mind anything.c. Just continue doing our work at home.d. Never listen to radio broadcasts. 4. How does a typhoon develop?<ol style="list-style-type: none">a. As air moves faster it picks up more water vapor from the ocean.b. As more water vapor condenses, more clouds are formed and more heat is released into the atmosphere.

	<ul style="list-style-type: none">c. As more heat is released, the wind grows stronger.d. All of the above. <p>5. How does the author trying to tell the readers about the wind?</p> <ul style="list-style-type: none">a. A powerful person can stop the wind from blowing.b. No one can't stop it from blowing.c. We need to be aware of the safety precautionary measures.d. Both B and C.
V. ASSIGMENT:	Make a poster showing the safety measures before, during, and after the typhoon in a 1/4 sized cardboard.
