RCBS-HODGDON MOULDS

Specifically designed for Muzzle loading target shooters, this mould produces a Minie ball which provides excellent results at 50 & 100 yards. Manufactured using RCBS steel blocks, which utilize a captive floating core plug. Each core plug is movable to provide the shooter with a means of adjusting the overall length of bullet and total weight. Blocks accept standard RCBS handles and feature an extra heavy sprue cutter. Packaged in convenient plastic storage container. Handles Sold Separately.

NORTH-SOUTH SKIRMISH ASSOCIATION

If you are one of the millions of Americans with an interest in Civil War or blackpowder shooting, the North-South Skirmish Association is for you. Ft. Shenandoah, the Association's home range, is located on several hundred acres of land in the rolling hills of the lower Shenandoah Valley just outside of Winchester, Va. The shooting competition in the N-SSA is done with live ammunition at both paper targets for individual score and at various breakable targets with 5 or 8 man team events. Matches are with musket, carbines, repeating rifles, revolvers, cannon and mortar. The N-SSA is comprised of regional divisions that host their own skirmishes. Twice a year, once in May and again in October, Ft. Shenandoah is host to the Association's National Skirmish. For further information visit www.n-ssa.org

UNCATALOGED ITEMS

Please note we have listed only items that we have in sufficient quantity. We do have many "single" items and parts that are unlisted. All we ask is for a short email or S.A.S.E. and on a separate sheet of paper a brief but specific request. We will respond to your request on items available, or will hold your request until we can supply it. All this is without obligation for you to purchase.
