## **Bar Heart Ranch**

Welcome to our 23rd annual horse sale. Our focus is family, horses, and creating an environment that people feel comfortable and welcome to come enjoy the sale and take a look at some exceptional ranch horses. It takes a lot of work to put a sale on and we would like to extend a big thank you to family and friends who help out in anyway to make sure things run smoothly and successfully. We also want to recognize and thank the other ranches and cowboys that put quality horses into the sale.

The experience our horses get is what sets them up for your chosen sport. Miled out horses with good minds and know what a cow is. Taking horses to brandings is not only a good day, but it shows them the pull of the rope, walking past the branding pot, people darting in front and behind them, smoke in the face, and learning to stand and hold a calf down. It works well to desensitize them.

Once brandings are done we concentrate on daily use for four or five days a week. Our cattle are in the Battle River hills for the summer, so the geldings get used to traveling up and down steep hills, as well as crossing water and bogs. Arena work also comes into play, working with the zip line, roping the heel o matic, and for the more advanced horses, the roping box. We spend time working cattle on the fence and getting them locked on. When used daily the horses we step on and head for the hills, to get them moving out with their head down and ears forward, wanting to be somewhere. The only day they go straight to the arena is sale day. The object to all of this is when you take your new purchase home you are satisfied and can jump on and get right to work in any direction.

Pilot is a special gelding that only comes along every once in a while. He is very easy to look at, walks out well, is soft to ride, is gentle minded, but has that blast of speed when you want it. I started him as a 3 year old last year where he went to three brandings, roped the heel-o-matic out of the box, and completed all our fall riding, moving and sorting cows. This spring Pilot has been to numerous brandings, some days he pulled 10 calves and some days he pulled 25, and some days I used him for pure enjoyment. He really hunts a cow. If you have an animal to single out and bring home, hang on and he will get it done. Any job you give him he goes into automatic Pilot mode.

Sunny is a sharp looking buttermilk buckskin 5 year old. He is well made and has that, I can stop in a hurry way about him. Sunny is a big hipped horse with his hocks set low to the ground. He has been to three brandings, many rides in the hills, roping the heel-o-matic and handling cows. I have been Sunny's side kick and he is a cowboy horse. If you know how to handle a horse, you will get along fine. Good looking, likeable guy.

**3 Buckskin Gelding May 19, 2014 Grade 14.2hh Bar Heart Ranch**

Chip is an easy going 6 year old sooty buckskin. He had a few rides as a 5 year old then put to work on the ranch this spring. I have been training Chip since the start. Chip is a swing on and take off with ears forward type of horse. Show him something new and the next day you don't have to repeat yourself. Starting a horse as a six year old means you can go right to work and that has been his program. Every step we take with him is solid. Currently we are sorting cattle, roping the heel-o-matic, and riding him in the hills moving cows. I like Chip, and Chip likes everybody.

Hank is a gentle and willing buckskin 5 year old. He is an old soul that is ears forward, lets get to work everyday. She put in three years of hard work in the Chilcotin, spending many long days straggling pairs through the mountains. Her first branding she settled right in and got to work. She has been to several brandings; head and heel, and pulled to the forks, and excelled at it all. I have ponied colts off of her. She has been my main pasture horse this summer, tying off to doctor, and works rope well. Tuesday likes to work and she does best when she has a steady job to do.
