MIMODA STUDIO is a multi-purpose events facility in the heart of Los Angeles adjacent to the burgeoning **PAPER OR PLASTIK CAFÉ** –a full-service one-stop shop for food, drink, community, and culture all under one vaulted ceiling. Housed in a building that dates back to the 1950s, Mimoda Studio was formerly home to the renowned Dancers Studio, a hallmark of the Angeleno dance community, and the café's past incarnations include a stint as a Laundromat followed by a printing press. Renovated in recent years to highlight the building's intrinsic character, the space features original wood beam bow-truss ceilings and skylights, stunning wood-work, and gorgeous floor-to-ceiling windows that are unrivaled in Mid- City.

With its chic, industrial warehouse interiors and steam-punk accents, Mimoda Studio & Paper or Plastik Cafe provide a spatial experience rarely found in central Los Angeles. The location is easily accessible to both the east and west sides of the city, and is immediately adjacent to Culver City, Beverly Hills, Mid-Wilshire Vista, and the burgeoning West Adams neighborhoods.

The building's unique layout provides for a number of possible arrangements for staging events. Our studio can hold up to 150 people for a standing reception. The street-facing café at the front of the building, with its industrial windows and romantic mezzanine, can serve as a magical reception space on its own or in addition to the studio space. The café space can accommodate an additional 50 guests.

Please visit our café and enjoy a cup of coffee with us. We'd love to walk you through the studio and café first hand.
